CONTENTS

		Page
Preface		i
Unit 1	Permutations and Combinations	1 – 3
Unit 2	The Binomial Expansion	4 – 5
Unit 3	Exponential Functions	6 – 7
Unit 4	Logarithmic Functions	8 – 10
Unit 5	Limit and derivative	11 – 12
Unit 6	Differentiation	13 – 15
Unit 7	Applications of differentiation	16 – 20
Unit 8	Indefinite Integration	21 – 22
Unit 9	Definite Integration	23 – 25
Unit 10	Basic Statistical Measures and their Interpretations	26 – 43
Unit 11	Sample space, event and probability of an event	44
Unit 12	More about probability	45 – 47
Unit 13	Bernoulli, Binomial, Geometric and Poisson Distributions and their Applications	48 – 51
Unit 14	The Norma1Distribution and its Applications	52 – 55
Unit 15	Comparison of observed frequency distribution with fitted frequency distribution	56 – 58
Membership of Working Group formed by HKEA and CDC Mathematics Subject Committees (Sixth Form)		59
