

Past HKCEE Participants

Schools may consider admitting past HKCEE participants in Stages II and IV. Repeaters of S6, if any, should only be allowed for enrolment on top of the 30-place quota of an S6 class.

Discretionary Places

In Stage I, a quota of two discretionary places for each S6 class will be allowed for schools to admit their own students or students of their linked schools who meet the minimum HKALE entry requirements. Candidates who have attempted a previous HKCEE as a student of that school or of their linked schools (if such feeder link is still maintained) may also be considered. Discretionary places not used should be returned to the pool for admitting schools' own or feeder students of the current year with 14 points or more in Stage I. Schools are required, for inspection purpose, to record the reason for using each discretionary place.
