EDB001

(Question Serial No. 1193)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding Item 896 "Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland" added to Sub-head 700, please inform this Committee:

- (a) The justifications for adding the item and details of the Pilot Scheme;
- (b) Does the Pilot Scheme aim at implementing the advice included in the document of Party Education No.4/2016 under the subject of "Advice from the Party Group of the Education Ministry of the Communist Party of China on the Launching of Intensive Patriotism Education in the Education System"?
- (c) What are the specific purposes of the commitment of \$200 million, the estimated expenditure in 2016-17 and the cash flow projection of each financial year after 2016-17?

Asked by: Hon LEE Cheuk-yan (Member Question No. 4)

Reply:

(a) Since 2004, the Education Bureau (EDB) has coordinated the pairing up of primary and secondary schools in Hong Kong with those in some provinces and cities in the Mainland as sister schools. Feedback collected by EDB reveals that local participating schools are in general positive towards the sister school scheme and they consider it a good platform to facilitate cultural interflows, expand schools' network, enhance teachers' professionalism and broaden students' horizons. The number of Hong Kong-Mainland sister schools has increased from some 20 pairs in 2004 to over 400 pairs at present. Building on the existing strengths, we consider it appropriate to further support the development of Hong Kong-Mainland sister schools with a view to promoting professional interflows.

The Chief Executive announced in the 2015 Policy Address to launch a three-year pilot scheme from the 2015/16 school year through which financial and professional support will be provided to local public sector and Direct Subsidy Scheme primary and secondary schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities.

EDB has earmarked a total provision of \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland ("the Pilot Scheme"). Under the Pilot Scheme, upon vetting and approval of the applications, a successful applicant school will be provided with a fixed grant of \$120,000 per annum within the three-year implementation period of the Pilot Scheme starting from the 2015/16 school year. Implementation details will be announced through a circular to be issued to schools in due course.

(b) No, the proposed Pilot Scheme has nothing related to the document in question. Its background and justifications have been set out in part (a).

(c) The proposed three-year Pilot Scheme will involve a non-recurrent commitment of \$200 million for allocation of the designated grant to participating schools and commissioning of professional support services. The estimated cash flow is provided below:

Major Expenditure Items	Estimated Cash Flow (\$ million)		
	2016-17	2017-18	Total
Designated grant for participating schools, commissioned services and contingency provision	56.5	143.5*	200

* The estimated cash flow for 2017-18 covers the expenditures for the 2016/17 and 2017/18 school years. Actual expenditure will vary with the number of participating schools in each school year.

- End -

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (700) General non-recurrent
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding item 813 under sub-head 700 Grant to the Vocational Training Council for implementing the Pilot Training and Support Scheme, please inform this Committee on the following:

- (a) What are the justifications for doubling the commitments?
- (b) With the approval of the commitment of \$144 million for the Scheme in July 2014, as at 31 March 2016, only approximately \$17 million has been used and there is still a balance of 127 million. What are the reasons for the increase in commitment to be sought in the context of the Appropriation Bill 2016?
- (c) What is the estimated expenditure in 2016-17? What is the estimated cash flow in every subsequent financial year?

Asked by: Hon LEE Cheuk-yan (Member Question No. 21)

Reply:

- (a) The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education and would actively consider how to implement them. Among others, the Task Force recommended extending the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With the extension, the total commitment of the Pilot Scheme will be \$288 million. The implementation details will remain the same as set out in part (b) below.

- (b) Under the Pilot Scheme, apprenticeship training for targeted industries will be provided to students alongside a guaranteed level of salary and incentive allowance. During the apprenticeship training which normally lasts for four years, the specific industries will offer an incentive allowance of \$30,800 in total to each student (on top of their monthly salary). The Government will offer each student an average monthly allowance of \$2,000 during the study-cum-work period from the second to fourth years. In addition, employers will commit to pay a minimum monthly salary of \$8,000 to students

during the study-cum-work period from the second to fourth years, and a minimum of \$10,500 upon their graduation.

The commitment of the Pilot Scheme only covers the allowance provided by the Government to students and VTC will provide administrative support using existing manpower resources. Under the Pilot Scheme, the Government's allowance will be earmarked for each student who decides to join the Pilot Scheme and will only be fully disbursed to the student upon completion of the normally three-year study-cum-work period. As at end February 2016, about 900 students were participating under the Pilot Scheme and it is estimated that some additional 1 200 apprentices will join the Pilot Scheme in the 2016/17 academic year and therefore all the original commitment of \$144 million will then be earmarked.

- (c) The estimated non-recurrent expenditure of the Pilot Scheme for 2016-17 and subsequent years is as follows –

2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million)	2020-21 (\$ million)	2021-22 (\$ million)
35.5	54.5	67.2	61.1	40	12.5

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated in the Estimates, “(the VTC) will continue the industry attachment programme for students, with funding support from the Bureau, so as to enhance their employability and prepare them for a smooth transition from study to work.”

What was the total amount of Government funding for the programme last year? What was the total number of students participated in the attachment programme?

What is the expenditure earmarked for the programme this year?

Asked by: Hon CHAN Kam-lam (Member Question No. 21)

Reply:

With the Government's one-off funding support of \$43 million in 2012-13, the Vocational Training Council (VTC) had launched a two-year pilot programme to support industrial attachments for student intakes to subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The programme aims at enhancing the employability of students and preparing them for a smooth transition from study to work. About 6 400 and 10 000 students had completed the industrial attachments in the 2012/13 and 2013/14 academic years respectively.

The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employment-readiness. Given the encouraging results, recurrent funding of about \$18 million has been allocated to VTC starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in VTC will benefit every year.

Programme: (2) Primary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the facilities at land-based boundary control points for cross-boundary students:

1. Please use the table below to illustrate the daily usage of various land-based boundary control points by cross-boundary students and school buses in the past two years and the expected situation this year.

Control Point	Year	No. of Cross-boundary Students	No. of Cross-boundary School Buses
	2016/17		
	2015/16		
	2014/15		
	2016/17		
	2015/16		
	2014/15		

2. To address the increasing number of cross-boundary students using control points daily in recent years, what is being done and will be done by the Government to upgrade or improve related facilities? What are the respective provisions involved?

Asked by: Hon CHAN Kam-lam (Member Question No.39)

Reply:

1. The number of cross-boundary students (CBS) and local / cross-boundary school coaches using various land-based boundary control points in the 2014/15 and 2015/16 school years is provided in the following table:

Control Point (CP)	School Year	No. of Cross-boundary Students	No. of Local / Cross-boundary School Coaches Carrying Cross-boundary Students
Shenzhen Bay Control Point (SZB CP)	2015/16	7 800	130
	2014/15	6 737	116

Control Point (CP)	School Year	No. of Cross-boundary Students	No. of Local / Cross-boundary School Coaches Carrying Cross-boundary Students
Lok Ma Chau Control Point (LMC CP)	2015/16	1 573	23
	2014/15	1 062	19
Man Kam To Control Point (MKT CP)	2015/16	1 826	40
	2014/15	1 397	26
Sha Tau Kok Control Point (STK CP)	2015/16	1 374	12
	2014/15	1 288	9
Lok Ma Chau Spur Line Control Point (LMCSL CP)	2015/16	9 752	47
	2014/15	9 021	46
Lo Wu Control Point (LW CP)	2015/16	5 781	34
	2014/15	5 485	34

- Notes: (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.
- (3) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.

The Education Bureau collects information on the number of CBS attending kindergartens, primary schools and secondary schools in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts in September each year, after the commencement of a new academic year. Hence, we are not able to provide the figures for the coming 2016/17 school year at this stage. Neither can we reliably project the number of CBS and their geographical distribution in the 2016/17 school year because their number and choice of boundary control point through which they would access Hong Kong are subject to significant year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc.

2. The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to the LW and LMCSL CPs to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the LMC, MKT, STK and SZB CPs; implementation of simplified clearance services at the LMCSL, LW and SZB CPs and on-board clearance services at MKT, STK and LMC CPs.

The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary supporting measures to cater for their needs and ensure their safety.

- End -

CONTROLLING OFFICER'S REPLY**EDB005****(Question Serial No. 0764)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the School-based After-school Learning and Support Programmes, will the Administration inform this Committee the number of students participated in the programme in 2015-16 and the amount of subsidy received by each of the students?

Asked by: Hon LEUNG Yiu-chung (Member Question No. 27)

Reply:

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFA).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFA but identified by schools as needy. Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with an incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision).

In the 2015/16 school year, for the School-based Grant, 889 schools with 219 860 eligible students qualified for the grant have participated in the Programme. As the 2015/16 school year has not yet completed, the number of participating students in terms of man-times as stated in the school reports under the School-based Grant is not available. As regards the Community-based Project Grant, the 511 projects organised by 175 NGOs are targeted at individual eligible students totaling about 103 000. The total provision for the Programme is about \$240 million, which is shared almost equally by the two Grants.

The provision of the Programme is complementary in nature. Apart from the Programme, the Government has launched various funding schemes to support schools and NGOs to organise after-school activities including after-school tutorial services to cater for the diverse needs of needy students. Flexible

deployment of the grants provided, as encouraged by EDB, has enabled schools to inject more funding into after-school activities for needy students. The amount of cash assistance provided to each student participating in after-school activities is not available.

- End -

Regarding the School-based After-school Learning and Support Programmes, please use the following table to give information on its types of activity, number of participants, as well as the duration and nature of the activities:

	Activities of the School-based After-school Learning and Support Programmes	No. of participants	Whether it is of one-off nature
2011/12			
2012/13			
2013/14			
2014/15			
2015/16			

Asked by: Hon LEUNG Yiu-chung (Member Question No. 28)Reply:

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFA).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFA but identified by schools as needy. Besides, eligible participating schools (i.e. having a utilisation rate of 80% or above of the provision in the previous year) have been provided with an incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision).

The objectives of various after-school activities organised by participating schools under the Programme are to help increase learning effectiveness (such as homework tutorials and training of learning skills), broaden learning experience outside classroom (such as art and cultural as well as sports activities) and raise understanding of and sense of belonging to the community (such as voluntary services). Seen from this perspective, the activities, some of which may be one-off, are for sustainable development of the students concerned. The types of activities and number of participating students (in terms of man-times) under the School-based Grant and Community-based Project Grant of the Programme from the 2011/12 to 2015/16 school years are at Annex.

CONTROLLING OFFICER'S REPLY**EDB007****(Question Serial No. 0787)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education,
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (1) What were the respective numbers of school-age ethnic minority (EM) students including Indonesian, Filipino, Indian, Pakistani, Nepalese, Thai and other Asian in secondary schools, primary schools and kindergartens from the 2013/14 to 2015/16 school years?
- (2) What were the respective numbers of EM students with junior secondary education level and their respective percentages among school-age EM students from the 2013/14 to 2015/16 school years?
- (3) What were the respective numbers of EM students with senior secondary education level and their respective percentages among school-age EM students from the 2013/14 to 2015/16 school years?
- (4) What were the respective numbers of EM students who completed programmes offered by the University Grants Committee-funded institutions and their respective percentages among school-age EM students from the 2013/14 to 2015/16 school years?
- (5) What measures will be implemented by the Administration to help EM students in their studies and increase their chances to pursue studies in tertiary institutions?

Asked by: Hon Emily LAU Wai-hing (Member Question No. 42)

Reply:

- (1) In general, children in the age groups of 3-5, 6-11 and 12-17 are considered to be “school-age” children for kindergartens, primary and secondary schools respectively. Based on the data collected by the Census and Statistics Department in the 2011 Population Census, which is the latest Census information available, the number of ethnic minority children by ethnicity as asked for these three “school-age” groups is tabulated at Annex A. Given that the population census is conducted every 10 years with a by-census in the middle of the intercensal period, relevant data on a school-year basis are not available.
- (2)&(3) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS students studying at junior secondary and senior secondary levels in public sector and Direct Subsidy Scheme schools from the 2013/14 to 2015/16 school years is tabulated at Annex B. We do not have readily available information about the number of NCS students in private, English Schools Foundation schools and other international schools, and hence the total number of ethnic minority

students studying at secondary levels and respective percentage among school-age ethnic minority students are not available.

- (4) According to the University Grants Committee (UGC), they do not collect statistics on ethnic minority or NCS students who have completed the programmes offered by the UGC-funded institutions. However, UGC has collected the number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) admitted to the UGC-funded undergraduate programmes. The total number of local NCS students was 227, 226 and 249 in the 2013/14, 2014/15 and 2015/16 school years respectively.
- (5) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students to facilitate their effective learning of the Chinese language and the creation of an inclusive learning environment in schools. Specifically, the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) with supporting learning and teaching materials has been implemented in primary and secondary schools since the 2014/15 school year to help NCS students learn Chinese as a second language with a view to bridging over to mainstream Chinese Language classes. Besides, Applied Learning Chinese (for NCS students) courses pegged at the Qualifications Framework Levels 1 to 3 have been provided by stages starting from the 2014/15 school year for NCS students with different aspirations at senior secondary levels to articulate under the multiple pathways. To facilitate implementation of the “Learning Framework”, schools admitting 10 or more NCS students are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students to adopt diversified intensive learning and teaching modes as appropriate such as pull-out teaching, split-class / group learning, after-school consolidation, etc. with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. Other complementary measures including progressively advanced professional development programmes for teachers and enhanced school-based professional support services with diversified modes will continue.

Developed from the perspective of second language learners, the “Learning Framework” provides teachers with a systematic set of learning targets, learning objectives and expected learning outcome arranged in “small” steps at different learning stages according to individual learners’ needs. NCS students are expected to make steady progress with a view to bridging over to mainstream Chinese Language classes. When the enhanced education support for NCS students mentioned above takes root and sustains, it is expected that more NCS students would pursue studies in tertiary institutions.

**Number of ethnic minority children
in the age groups of 3 to 5, 6 to 11 and 12 to 17 in 2011**

Age group	Number of ethnicity minority children							Total
	Indonesian	Filipino	Indian	Pakistani	Nepalese	Thai	Other Asian	
3 – 5	18	458	852	1 165	588	18	760	3 859
6 – 11	24	1 092	2 294	3 060	1 340	144	1 462	9 416
12 – 17	97	1 242	1 532	1 738	924	168	1 224	6 925
3 – 17	139	2 792	4 678	5 963	2 852	330	3 446	20 200

Note:

The above figures cover only ethnic minority children of ethnicity as asked in the age groups of 3 to 17, based on the data collected by the Census and Statistics Department in the 2011 Population Census.

**Number of non-Chinese speaking students
studying at junior secondary and senior secondary levels
from the 2013/14 to 2015/16 school years**

Level	2013/14 school year	2014/15 school year	2015/16 school year
Junior Secondary (Secondary 1 – 3)	4 271	4 530	4 734
Senior Secondary (Secondary 4 – 6)	3 305	3 694	4 048

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures cover students studying in public sector and Direct Subsidy Scheme secondary schools. Figures do not include special schools.

CONTROLLING OFFICER'S REPLY**EDB009****(Question Serial No. 0823)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

From 2014-15 till now, what are the total number of Hong Kong students receiving subsidy for pursuing study on the Mainland under the Mainland University Study Subsidy Scheme (MUSSS) each year? What is the amount of subsidy for students? Is the subsidy adequate to cover the tuition fees? For students admitted to Mainland Universities, what is the distribution by university and discipline? The three-year pilot MUSSS shall end in 2016-17 and the EDB indicated that the review of the MUSSS will be advanced and the scope of the scheme will be expanded. In this connection, what are the details regarding expanding the scope of the scheme?

Asked by: Hon TAM Yiu-chung (Member Question No. 21)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million. The levels of the subsidy were determined taking into account the study-related expenses in the Mainland institutions including tuition fee, hostel fee, insurance, communications, travel and other living expenses. They should be adequate to meet the needs of individual students in general. Breakdowns of the MUSSS recipients by different Mainland higher education institutions and disciplines are set out in the Annex.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we will advance the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. The review is expected to be completed by the first quarter of 2016. We will afterwards brief the Legislative Council Panel on Education on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

Question:

When will the Hong Kong Scholarship for “Belt and Road” Students Scheme be formally launched? What will be the detailed operation arrangement for the Scholarship? Which “Belt and Road” countries and regions shall be first covered by the Scholarship and their students eligible for applying for the Scholarship?

Asked by: Hon TAM Yiu-chung (Member Question No. 23)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the expenditure involved for the first academic year will be at most \$1.2 million.

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road region. The Government will take this into account in working out the detailed proposals.

Question:

The Education Bureau plans to set up a Gifted Education Fund of \$800 million in 2016-17. When will the fund be officially set up? What will be the specific operational arrangements of the fund?

Asked by: Hon TAM Yiu-chung (Member Question No. 24)

Reply:

We plan to set up the Gifted Education Fund (the Fund) to enhance the development of gifted education so as to enrich the talent pool and enhance the competitiveness of Hong Kong, in particular, to support the Hong Kong Academy for Gifted Education (HKAGE) to nurture more gifted students. In order to benefit more students, we hope to set up the Fund as early as possible after consulting the Education Panel and the Finance Committee of the Legislative Council.

Details regarding the operational arrangements of the Fund are being worked out. Other than supporting the HKAGE, the Fund may also be used for implementing other projects related to gifted education when considered appropriate.

Question:

The estimated expenditure of the Education Bureau for Policy and Support in 2016-17 is \$2,532.4 million, which is 636.6 million lower than the expenditure of \$3,169.0 million for 2015-16, representing a decrease of 20.1%. What is the reason for this drastic decrease in expenditure?

Asked by: Hon TAM Yiu-chung (Member Question No. 25)

Reply:

The provision for 2016-17 under Programme (7) Policy and Support is \$636.6 million or 20.1% lower than the revised estimate of 2015-16. This is mainly due to the completion of the \$1 billion injection into the Qualifications Framework Fund in 2015-16, partly offset by higher cash flow requirement in 2016-17 for other non-recurrent items including the Study Subsidy Scheme for Designated Professions/Sectors, the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland, and the Scholarship Scheme for Studying Outside Hong Kong.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The subvention to Direct Subsidy Scheme (DSS) is estimated to be increased by 3.5% in 2016-17. In this connection, please advise the following information :

- (a) Reasons for the increase of subvention;
- (b) Whether each DSS school fully utilized the 10% of school fee incomes for the fee remission and scholarship scheme last year; if no, the reasons for that; the number of students were granted the fee remission and scholarship scheme last year;
- (c) given that the Report No.55 of the Director of Audit found that some DSS schools had underestimated the amounts of their operating reserves when applying for school fee increases, whether it had uncovered similar cases in the last 3 years; please provide the details.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 40)

Reply:

- (a) The government's subsidy for DSS schools is calculated based on the DSS unit subsidy rate (i.e. the average unit cost of an aided school place) and the number of eligible students enrolled. The increase in the estimated recurrent subvention to DSS schools in 2016-17 is mainly due to rise in the projected student enrolment in the schools and DSS unit subsidy rate.
- (b) The actual utilisation of the reserve set aside for fee remission and scholarship scheme depends on various factors, such as the number of applications received and the number of eligible students in individual DSS schools. Relevant information of the 2014/15 school year is not available as the audited accounts for the school year is not yet due.

DSS schools are only required to disclose in their annual audited accounts the amount set aside as reserve for fee remission and scholarship scheme, as well as the total related expenditure. They are not required to disclose the number of students benefitted. Therefore, we have no information on the number of students receiving fee remission and scholarship.

- (c) Among the 27 DSS schools which were approved for an increase of school fees in the 2013/14 school year, the actual accumulated operating reserve of 5 schools were found to have exceeded their projected reserve by 100% or more while 3 schools with an estimated deficit turned out to be surplus. Relevant information of the 2014/15 and 2015/16 school years is not available as the audited accounts of the DSS schools for these two school years are not yet due. One of the factors contributing to the discrepancy between the actual accumulated operating reserve and the projected reserve in some schools was due to

the annual adjustment of DSS subsidy payable to schools. When applying for fee revision in the forthcoming school year in April, schools could only use the existing DSS unit subsidy rate to estimate the DSS subsidy to be received. The estimated income turned out to be lower than the actual amount the schools received after the DSS unit subsidy rate was finalised in October of the next school year.

Despite the above, the Education Bureau (EDB) takes into account a number of factors when processing fee increase applications. They include, but not limited to, the justifications for the proposed rate of increase, the school's overall financial situation and the outcome of consultation with parents. In addition, measures have been put in place to ensure that school's financial projections are properly justified and reasonable. If a school is found to have an overall under-spending in its revised estimate exceeding a certain percentage of the total expenditure against its original budget, EDB would request the school to submit written explanations for further consideration.

CONTROLLING OFFICER'S REPLY

EDB014

(Question Serial No. 0471)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Education Bureau shall further enhance the service by progressively improving the ratio of educational psychologist to schools to 1:4 from the same school year for public sector schools with a large number of students with special educational needs (SEN). In this connection, please advise the following information :

- (a) the additional expenditure incurred by the improved ratio of educational psychologist to schools,
- (b) whether it had assessed that the number of registered educational psychologists is able to cope with the improved ratio of educational psychologist to schools;
- (c) whether it will enhance the manpower supply of educational psychologists by working with local universities; if yes, please provide details.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 41)

Reply:

(a)

The School-based Educational Psychology Service (SBEPS) will cover all public sector primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The estimated additional expenditure incurred by the enhanced ratio of educational psychologist to school in the 2016/17 school year is \$4 million.

(b) and (c)

To ensure a steady supply of educational psychologists to meet the service needs. The Education Bureau (EDB) has suggested the University Grants Committee to increase the provision of Educational Psychologist (EP) (professional practice) training places through its triennial manpower planning, with effect from the 2009/10 academic year. Currently, the University of Hong Kong and Hong Kong Polytechnic University provide 25 and 15 EP (professional practice) training places respectively in alternate years. The steady EP supply is able to meet the demand arising from the progressive expansion of School-based Educational Psychology Service (SBEPS) over the years. For planning longer-term manpower supply, EDB will, where necessary, discuss with the local universities for increasing the number of training places for EPs.

Question:

The Education Bureau stated that the number of non-directorate posts will be increased by 131 to 5982 posts as at 31 March 2017. Please inform this Council of the nature of work, ranks and salaries of these new posts.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 51)

Reply:

The increase of 131 posts in 2016-17 is the net result of the planned creation of 258 posts and planned deletion of 127 posts.

The breakdown of the above posts by rank and mid-point salary is as follows -

<u>Rank</u>	<u>Posts to be created</u>	<u>Mid-point Salary (\$)</u>
Primary School Master/Mistress	26	59,445
Assistant Primary School Master/Mistress	64	39,360
Certificated Master/Mistress	22	32,560
Assistant Education Officer	65	45,130
Senior Education Officer (Administration)	2	109,090
Education Officer (Administration)	11	77,650
Assistant Education Officer (Administration)	13	49,465
Principal Inspector	1	109,090
Senior Inspector	4	88,125
Inspector (Graduate)	5	70,955
Assistant Inspector (Graduate)	3	51,805
Specialist (Education Services) I	7	77,650

<u>Rank</u>	<u>Posts to be created</u>	<u>Mid-point Salary (\$)</u>
Treasury Accountant	1	74,210
Senior Accounting Officer	1	77,650
Senior Executive Officer	2	77,650
Executive Officer I	1	56,770
Executive Officer II	8	37,590
Analyst/Programmer I	1	56,770
Analyst/Programmer II	2	37,590
Statistician	1	70,955
Senior Clerical Officer	2	43,105
Assistant Clerical Officer	11	20,305
Personal Secretary I	1	32,560
Workman II	4	12,600
Sub-total (A):	258	

<u>Rank</u>	<u>Posts to be deleted</u>	<u>Mid-point Salary (\$)</u>
Assistant Primary School Master/Mistress	-1	39,360
Assistant Master/Mistress	-22	47,235
Certificated Master/Mistress	-64	32,560
Education Officer	-15	70,955
Assistant Education Officer	-13	45,130
Senior Education Officer (Administration)	-3	109,090
Education Officer (Administration)	-5	77,650
Assistant Education Officer (Administration)	-1	49,465
Treasury Accountant	-1	74,210
Systems Manager	-1	77,650
Assistant Clerical Officer	-1	20,305
Sub-total (B):	-127	
Net Total [(A)+(B)]:	131	

The 131 net additional posts are mainly for enhancing the provision of services in various areas, including implementing the new subsidised kindergarten policy; enhancing the quality of teaching in government schools; strengthening services provided to students with special educational needs; as well as for replacing long-term non-civil service contract positions and for adjusting teaching staff requirements in government schools.

CONTROLLING OFFICER'S REPLY**EDB016****(Question Serial No. 3009)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In the light of the mounting number of suicidal cases among local students, what kind of measures will the Education Bureau introduce to put a stop to these cases? Will the Government allocate extra manpower and resources to support our students in this regard? If yes, of the details; if no, of the reasons.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 52)

Reply:

Education Bureau (EDB) has a mechanism in place to timely identify and support students with behavioural and/or emotional needs, including students at risk of suicidal behaviour. We encourage schools to adopt the Three-tier Support Model to provide different levels of identification and support by teachers, guidance personnel and professional staff respectively. If further specialized support is required, there is a referral mechanism so that further evaluation and treatment by medical professionals such as clinical psychologist and psychiatrist can be arranged. We continuously develop and update resources and guidelines for use by schools for early identification and intervention of students at risk. We will also step up the professional support and training for school personnel in order to strengthen their professional capability to identify and support students with behavioral and/or emotional needs and/or suicidal risk.

EDB has always attached great importance to enhancing students' competency to cope with adversity, and is committed to nurturing students' positive attitude towards life. Since 2001, moral and civic education aiming to cultivate students' positive values and attitudes has been accorded as one of the Four Key Tasks for the curriculum reform in primary and secondary schools. Among those positive values, "Perseverance" is one of the priority values for promotion to help students courageously face with the challenges and trials in different stages of life. Through a holistic school curriculum comprising "knowledge", "skills" and "values and attitudes" for students' whole person development, we nurture in students a positive attitude towards life, and help them improve their mental quality, and develop healthy lifestyle. Different Key Learning Areas and subjects have covered relevant contents of healthy lifestyle and life education.

In parallel with the curriculum, EDB has actively organized diversified guidance programmes for primary and secondary school students featuring adventure-based, teamwork and problem-solving training, etc. to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. In recent years, EDB has also introduced a number of guidance projects based on positive psychology concepts to help students develop a positive self-image and learn how to respect and cherish life. Moreover, we have been promoting a caring and harmonious school culture, strengthening the relationship between teachers and students and enhancing peer support so that students can enjoy their learning and school life.

In response to recent student suicide incidents, EDB will set up a committee to study the problem of the issue and recommend preventive measures. The committee will include school representatives, professionals, parents, and government officials, and submit a report to the Government in six months.

Besides, in the coming months, EDB will develop relevant resources and organize teacher seminars and parent talk in March and April to enhance their identification of the students with emotional difficulties and/or suicidal intent as well as knowledge on help-seeking resources. EDB will also form a special team to work in coordination with the school-based educational psychology and guidance services in order to provide additional support to individual schools on need basis.

- End -

CONTROLLING OFFICER'S REPLY**EDB017****(Question Serial No. 3074)**

Head: (156) Government Secretariat: Education Bureau

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has put in place the "Chinese Language Curriculum Second Language Learning Framework" (Learning Framework) in primary, secondary and special schools in the 2014/15 school year with a view to facilitating non-Chinese speaking (NCS) students to bridge over to mainstream Chinese Language classes. In this connection, please advise the following information:

- (a) the areas of work that the resources shall be used for in the 2016/17 school year as well as the amounts;
- (b) given the Learning Framework has launched since 2014/15 school year, whether it had already conducted a review on it; if yes, of the details; if no, of that reasons;
- (c) the numbers of NCS students who were admitted to University Grants Committee-funded undergraduate programmes in last 3 years, with a breakdown of the local universities.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 54)

Reply:

- (a) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and the creation of an inclusive learning environment in schools. Estimated expenditure for the related support measures for the 2016/17 school year is tabulated at Annex A.
- (b) EDB has consulted teachers and language experts when formulating the "Learning Framework" and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the "Learning Framework" on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school context. At the curriculum level, the "Learning Framework" would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.
- (c) Admissions to undergraduate programmes, including those offered by University Grants Committee (UGC)-funded institutions and self-financing institutions, are offered to eligible applicants, irrespective of their race and language spoken at home. According to their records, the number of local NCS students admitted to the UGC-funded full-time undergraduate programmes from the 2013/14 to 2015/16 academic years is tabulated at Annex B.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2016/17 school year**

Support measures	Estimated expenditure in the 2016/17 school year (\$ million)
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	244.8 Note
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	4.0
Summer Bridging Programme for NCS students in primary schools Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.9
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	7.5
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	2.34

Note:

These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

**Number of local non-Chinese speaking students
admitted to the UGC-funded full-time undergraduate programmes
by institution from the 2013/14 to 2015/16 academic years**

Institution	2013/14 academic year	2014/15 academic year	2015/16 academic year
City University of Hong Kong	46	52	58
Hong Kong Baptist University	1	6	4
Lingnan University	20	8	36
The Chinese University of Hong Kong	24	42	24
The Hong Kong Institute of Education	8	11	7
The Hong Kong Polytechnic University	7	9	10
The Hong Kong University of Science and Technology	98	80	90
The University of Hong Kong	23	18	20
Total	227	226	249

Notes:

1. The above data cover local students whose ethnicity and/or spoken language at home are not Chinese.
2. Figures for the 2015/16 academic year are provisional.

CONTROLLING OFFICER'S REPLY**EDB018****(Question Serial No. 3165)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Primary Education , (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Government will further enhance the ratio of graduate teacher posts in public sector primary schools and primary section of public sector special schools to 65% in the 2017/18 school year. In this connection, please advise the following information:

(a) the respective numbers of graduate teachers and non-graduate teachers in public sector primary schools and primary section of public sector special schools in 2013/14, 2014/15 and 2015/16 school years; given that the number of graduate teacher posts shall increase to 60% in 2016/17, please advise the additional number of graduate teacher posts that will be created;

(b) the expenditure incurred from this improvement measure in 2015/16 and 2016/17 school years.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 55)

Reply:

(a) & (b)

The number of teachers appointed as graduate teachers and non-graduate teachers in public sector primary schools and special schools (primary section) for the school years from 2013/14 to 2015/16 are as follows:

Primary Schools (Government and Aided)

School Year	No. of Graduate teachers*	No. of Non-graduate teachers*
2013/14	7 330	10 990
2014/15	7 550	11 400
2015/16 (Estimate)	7 950	11 460

Special Schools (Primary Section)

School Year	No. of Graduate teachers*	No. of Non-graduate teachers*
2013/14	270	480
2014/15	270	510
2015/16 (Estimate)	290	520

* Numbers are rounded to the nearest 10.

Pursuant to the increase in the ratio of graduate teacher posts from 50% to 55% in public sector primary schools in the 2015/16 school year, the Education Bureau will further enhance the ratio to 60% and 65% in the 2016/17 and 2017/18 school years respectively. The cumulative total number of additional graduate teacher posts to be created since the implementation of the enhancement measure is estimated to be around 900 and 1 900 respectively in the 2015/16 and 2016/17 school years, to be offset by the corresponding number of non-graduate teacher posts. The annual cost to be incurred is about \$53 million and \$150 million for 2015-16 and 2016-17 respectively.

- End -

CONTROLLING OFFICER'S REPLY**EDB019****(Question Serial No. 3166)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau will continue to provide Applied Learning courses for senior secondary students. In the connection, please advise the following information:

- (a) the number of students pursued Applied Learning courses in last 3 years broken down by courses, as well as its percentage to the number of student of respective cohort;
- (b) the estimated expenditure for 2016/17 school year; the amount that will be set aside for Student Grant;
- (c) the numbers and percentages of NCS students who have applied Applied Learning Chinese (for non-Chinese speaking (NCS) students) (ApL(C)) since its introduction; whether it knows the reasons of the NCS students not applying ApL(C); if yes, please provide details;

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 56)

Reply:

(a) Each cohort of Senior Secondary Applied Learning (ApL) courses lasts for 2 years and Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) courses lasts for 3 years. From 2012/13 to 2014/15 school year, 4 cohorts of Applied Learning courses (2011-13, 2012-14, 2013-15 and 2014-16 cohorts) have been offered to students. ApL courses are regularly reviewed and refined in light of student application, development of society and feasibility of implementation. Currently, the number of ApL courses is around 35 to 40 in each cohort. In view of changes in the courses provided across cohorts, the number of student enrolments in ApL by course clusters will give a better overview of the implementation of ApL. The details are as follows:

Number of enrolments:

Area of Studies	Course Cluster	2011-13 Cohort	2012-14 Cohort	2013-15 Cohort	2014-16 Cohort
Creative Studies	Design Studies	700	487	403	392
	Media Arts	292	317	251	271
	Performing Arts	129	103	103	98
Media and Communication	Films, TV and Broadcasting Studies	280	248	279	221
	Media Production and Public	203	203	114	91

	Relations				
Business, Management and Law	Business Studies	379	239	145	99
	Clientele Management	126	134	86	33
	Legal Studies	43	45	35	31
Services	Food Services and Management	NA (Cluster not yet provided)	NA (Cluster not yet provided)	NA (Cluster not yet provided)	1 278
	Hospitality Services	2 102	2 071	1 802	637
	Event Management	78	80	59	NA (Cluster not provided)
	Personal and Community Services	573	521	485	418
Applied Science	Medical Science and Health Care	459	511	449	295
	Psychology	215	286	221	219
	Sports	151	169	114	164
Engineering and Production	Civil and Mechanical Engineering	100	68	87	86
	Information Engineering	NA (Cluster not yet provided)	NA (Cluster not yet provided)	90	62
	Services Engineering	363	412	419	488
Total		6 193	5 894	5 142	4 883

Percentage to the number of students of respective cohort:

	2011-13 Cohort	2012-14 Cohort	2013-15 Cohort	2014-16 Cohort
Total number of enrolments	6 193	5 894	5 142	4 883
Number of Secondary 5 students of respective cohort	77 371	73 044	69 159	63 860
Percentage	8%	8%	7%	8%

(b) The estimated expenditure for 2016/17 school year is \$73 million, among which \$8 million is set aside for Student Grant for ApL(C).

(c) For the 2015-17 cohort, 181 NCS students (representing about 10% of NCS students) enrolled in ApL(C). For the 2016-18 cohort, since application from schools for ApL(C) is still in progress, the number of students enrolled in the courses of ApL(C) is not yet finalised. The reasons of NCS students not applying for ApL(C) are still under study.

- End -

CONTROLLING OFFICER'S REPLY

EDB020

(Question Serial No. 3167)

Subhead (No. & title): (000) Operational Expenses
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

The Administration will continue to maintain the stability of teaching force through a series of targeted relief measures in secondary schools, in view of the temporary decline of the Secondary 1 student population. In this regard, please advise the following information:

- (a) the actual number of teachers reduced in last 3 years as well as its breakdown by reasons; the resource implication for retaining the surplus teachers in last 3 school years;
- (b) the additional spending arising from the measures stated in Policy Address 2016 that the Government will allow schools to extend the retention period of surplus teachers from one year to three years up to 2017/18 school year;
- (c) given the student to teacher ratio in public sector secondary schools will decrease to 11.9:1, whether it will assess the feasibility of implementing small class teaching; if yes, of the details and schedule; if no, the reasons?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 58)

Reply:

(a) & (b)

The number of teachers in public sector secondary schools reduced in the school years from 2012/13 to 2013/14, from 2013/14 to 2014/15, and from 2014/15 to 2015/16 is about 600, 200 and 400 respectively. The decrease in the number of teachers is resulted from a number of factors. It is very difficult to trace the complex interwoven effects of reduction of classes at various levels arising from the drop in student population in previous years and various school practices such as filling up teaching posts outside the staff establishment with flexible deployment of various grants and other funding, temporary freezing of posts for hiring of educational services, etc.

Under the package of targeted relief measures introduced in the 2013/14 school year to address the temporary decline of the Secondary One (S1) student population, aided schools and caput schools with reduced number of S1 classes from the 2013/14 to the 2015/16 school years are allowed to retain their surplus teachers for three school years. During the retention period, the surplus teachers can be absorbed by vacancies arising from the natural wastage of teachers in the approved establishment. To further stabilize the teaching force, aided secondary schools in need may apply to extend the retention period for the surplus teachers arising from class reduction in S1 in the 2013/14 and 2014/15 school years up to the 2017/18 school year.

As schools are not required to identify the surplus teachers being retained under the relief measures and will only be required to rectify the surplus situation at the end of the respective retention period, we are unable to provide the expenditure for retaining the surplus teachers under this package of targeted relief measures.

(c)

International studies have suggested that small class teaching (SCT) is more effective when students are of younger age and its effectiveness tends to wane as students age. In considering whether to implement SCT in secondary schools, we must take into account the existing conditions of secondary schools, the teaching and learning environment as well as provision of support to secondary schools, overseas experience and resource implications and assess whether it is feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board, particularly when the secondary student population is projected to rebound in the 2017/18 school year. Besides, with the adoption of subject grouping at senior secondary levels, the actual number of students in each teaching class / group is rather small. Conceptually speaking, SCT is more a teaching strategy involving teaching setting or grouping driven by pedagogical considerations. The size of grouping should not be fixed across-the-board, but adjusted according to the learning objectives and students' needs. We have no plan to implement SCT in secondary schools having regard to the afore-mentioned considerations.

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown by 18 districts of the respective numbers of international school places, students enrolled and vacancies at primary and secondary levels. Generally speaking, in 2015/16 school year, as compared with the previous year, what are the additional numbers of school places at primary and secondary levels respectively, as well as the additional numbers of school places of which the medium of instruction is English or other languages and school places for students with special education needs respectively? Also, please provide the additional numbers of international school places at primary and secondary levels expected to be available in each district in the next 3 years.

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 32)

Reply:

International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the English Schools Foundation schools and other private international schools), students enrolled and vacancies by the districts in which the international schools are located in the 2015/16 school year are set out at the Annex for illustration purpose. Compared to the 2014/15 school year, there is an increase of around 100 primary places and 50 secondary places among the international schools.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, it is projected that around 4 210 additional places will be available between 2016/17 and 2018/19 school years. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

Most international schools adopt English as the medium of instruction. Places in these schools in the 2015/16 school year have been increased by around 150 at primary level and 110 at secondary level when compared to the 2014/15 school year. On the other hand, a few schools adopt other languages including French, German, Korean and Japanese. Compared with the previous year, places in these schools have slightly decreased by around 40 places at primary level and 60 places at secondary level.

Places provided for students with special education needs (SEN) may vary between years depending on the number of students with such needs. In the 2015/16 school year, there are around 620 primary students and 610 secondary students with SEN studying in international schools. The corresponding numbers for the 2014/15 school year are around 470 and 420 respectively.

**Number of international school places,

Question:

What were the respective percentages of teachers holding a certificate in early childhood education or above in non-profit-making kindergartens and private independent kindergartens in each of the past 3 school years (i.e. 2013/14, 2014/15 and 2015/16 school years) and their respective wastage rates?

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 33)

Reply:

The percentage of kindergarten teachers holding Certificate in Early Childhood Education (C(ECE)) or above in non-profit-making kindergartens in each of the past three school years (i.e. 2013/14, 2014/15 and 2015/16 (Note 1)) were 89.8%, 92.6% and 93.5% respectively. The wastage rates (Note 2) of kindergarten teachers holding C(ECE) or above in these kindergartens in the same period were 6.2%, 6.9% and 7.0% respectively.

For private independent kindergartens, the percentage of kindergarten teachers holding C(ECE) or above in each of the past three school years (i.e. 2013/14, 2014/15 and 2015/16 (Note 1)) were 72.7%, 75.2% and 73.9% respectively. The wastage rates (Note 2) of kindergarten teachers holding C(ECE) or above in these kindergartens in the same period were 10.2%, 9.7% and 11.0% respectively.

Note 1: The figures of the 2015/16 school year are provisional.

Note 2: "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local kindergartens as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a local kindergarten as at mid-September of the preceding school year but no longer served in any kindergarten as at mid-September of the school year concerned.

Question:

Regarding Direct Subsidy Scheme (DSS) schools which offered a non-local curriculum on top of the local curriculum in the past 3 years (i.e. 2013/14, 2014/15 and 2015/16 school years), please list out the names and number of such DSS schools and the number of their students taking the non-local curriculum.

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 28)

Reply:

A list of schools under the Direct Subsidy Scheme (DSS) offering a non-local curriculum on top of the local curriculum and the number of students studying the non-local curriculum stream in receipt of DSS subsidies in the 2013/14 to 2015/16 school years are tabulated below:

Number	Name of School	Number of students of the non-local curriculum stream ^{Note}		
		2013/14	2014/15	2015/16
1	St Paul's Co-educational College	54	62	91
2	The Hong Kong Chinese Christian Churches Union Logos Academy	80	100	103
3	Diocesan Boys' School	109	119	115
4	Creative Secondary School	105	116	102
5	St Paul's Convent School	137	123	110
6	YMCA of Hong Kong Christian College	143	135	139
7	ELCHK Lutheran Academy	---	30	49
8	St Stephen's College	---	---	45
9	Po Leung Kuk Ngan Po Ling College	---	---	14

Question:

Please provide in tabular form the respective numbers of private independent kindergartens not joining the Pre-primary Education Voucher Scheme (PEVS), non-profit-making kindergartens joining the PEVS and non-profit-making kindergartens not joining the PEVS in the 2013/14, 2014/15 and 2015/16 school years and their percentage share in the total number of kindergartens in Hong Kong. What were the respective numbers of students in these kindergartens and their percentage share in the total number of kindergarten students in Hong Kong during those school years?

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 29)

Reply:

In the 2013/14, 2014/15 and 2015/16 school years, the respective number of local private independent (PI) kindergartens (KGs) not joining the Pre-primary Education Voucher Scheme (PEVS), local non-profit-making (NPM) KGs joining the PEVS and local NPM KGs not joining the PEVS and the number of students in these KGs as well as their percentage share (%) in the total number of KGs/KG students in Hong Kong are as follows:

	2013/14 school year		2014/15 school year		2015/16 school year	
	Number of KGs (%)	Number of students (%)	Number of KGs (%)	Number of students (%)	Number of KGs (%)	Number of students (%)
Local PI KGs*	110 (11.4%)	20 897 (12.3%)	114 (11.7%)	22 021 (12.5%)	106 (10.6%)	20 988 (11.3%)
Local NPM KGs joining PEVS	724 (74.7%)	128 388 (75.6%)	724 (74.0%)	132 829 (75.3%)	732 (73.2%)	139 127 (75.0%)
Local NPM KGs not joining PEVS	35 (3.6%)	11 320 (6.7%)	36 (3.7%)	11 905 (6.7%)	34 (3.4%)	11 820 (6.4%)

* PI KGs are not eligible to join PEVS.

Director of Bureau: Secretary for Education

Question:

Among the non-profit-making kindergartens participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2013/14, 2014/15 and 2015/16 school years, what were the respective numbers of half-day and whole-day kindergartens? Among the students participating in the PEVS in the same period, what were the respective numbers of students attending half-day and whole-day kindergartens? How many half-day and whole-day kindergartens joining the PEVS in the same period were approved to increase their school fees? What were the highest, lowest and average rates of increase? What were the amounts of school fees before and after the increase?

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 30)

Reply:

The numbers of kindergartens (KGs) with half-day (HD) and whole-day (WD) classes among those non-profit-making (NPM) KGs participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2013/14, 2014/15 and 2015/16 school years are as follows:

	2013/14	2014/15	2015/16
with HD classes only	111	117	135
with both HD and WD classes	385	377	365
with WD classes only	228	230	232

The numbers of students under the PEVS attending HD and WD classes in KGs participating in the PEVS in the 2013/14, 2014/15 and 2015/16 school years are as follows:

	2013/14 (Note 1)	2014/15 (Note 1)	2015/16 (Note 2)
attending HD classes	89 200	90 400	94 551
attending WD classes	42 500	42 900	44 576

Note 1: Position as at end of the respective school years.

Note 2: Provisional figures as at mid-September 2015. These figures refer to the total enrolment in PEVS KGs. The actual number of students under the PEVS would be available at the end of the school year.

The numbers of NPM WD and HD KGs joining the PEVS that have been approved to increase their school fees, the highest, lowest, average rate of increase and the amounts of school fees before and after the increase in the 2013/14, 2014/15 and 2015/16 school years are as follows:

School year		2013/14		2014/15 (Note)		2015/16 (Note)	
Session		WD	HD	WD	HD	WD	HD
Number of NPM KGs under the PEVS with school fees increased		468	383	548	433	551	429
KG with the highest rate of increase							
Rate of increase		27.1%	64.5%	102.8%	82.7%	40.2%	61.6%
School fee	Before increase	\$33,136	\$11,451	\$16,379	\$12,760	28,050	18,379
	After increase	\$42,117	\$18,832	\$33,209	\$23,309	39,336	29,700
KG with the lowest rate of increase							
Rate of increase		0.66%	0.55%	0.01%	0.16%	0.28%	0.30%
School fee	Before increase	\$33,330	\$23,859	\$36,575	\$22,260	35,330	29,570
	After increase	\$33,550	\$23,991	\$36,580	\$22,296	35,430	29,660
The rate of increase of the weighted average fee							
Rate of increase		5.2%	4.9%	9.0%	10.8%	9.3%	11.0%
Weighted average fee	Before increase	\$32,800	\$20,300	\$34,500	\$21,300	37,600	23,600
	After increase	\$34,500	\$21,300	\$37,600	\$23,600	41,100	26,200

Note: As a one-off short-term measure recommended by the Committee on Free KG Education to address the imminent needs of KGs, the voucher subsidy was increased by \$2,500 per year in the 2014/15 and 2015/16 school years. The increase in voucher subsidy provided more room for the KGs to increase their school fees to meet the increasing operating cost. At the same time, the increased amount of voucher subsidy would offset the increase in school fees so that parents' financial burden regarding KG education could be alleviated. Hence, the number of KGs under the PEVS with school fees increased and the rates of increase in the 2014/15 and 2015/16 school years are higher than those in previous years.

Question:

Regarding international schools, please provide the following information:

1. please set out in table form the respective numbers and percentages of local and non-local students in various international schools;
2. please set out in table form the respective total numbers of students studying in international primary and secondary schools, as well as the respective numbers and percentages of local and non-local students in such schools in each of the past three years (i.e. the 2013/14, 2014/15 and 2015/16 school years);
3. please set out in table form the highest, lowest and median tuition fees charged by international schools in the current school year.

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 31)

Reply:

In the context of international schools (including the English Schools Foundation schools and other private international schools), local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport. Based on the student enrolment survey conducted in September 2015, the proportion of local students in international schools in the 2015/16 school year is 19% and that of non-local students is 81%. The numbers and percentages of local and non-local students of individual schools are set out at Annex 1.

The total number of students in international schools from the 2013/14 to 2015/16 school years with breakdown by levels and by the proportion of local and non-local students as appropriate are set out at Annex 2.

The highest, lowest and median tuition fees charged by international schools in the 2015/16 school year are set out in Annex 3.

**Numbers and percentages of local and non-local students enrolled
in international schools (excluding special school)
(based on the student enrolment survey conducted in September 2015)**

CONTROLLING OFFICER'S REPLY**EDB027****(Question Serial No. 0339)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It was mentioned in the Budget Speech that from this academic year onwards, a \$960 million scheme will be implemented to subsidise students to pursue designated professional self-financing undergraduate programmes, covering health care, architecture and engineering, testing and certification, creative industry, logistics, as well as tourism and hospitality. Please provide the details, including the detailed plan of the scheme, form of financial support, eligibility of the target, and tabulate a breakdown of the number of students in receipt of the subsidy by course types.

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 38)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit

local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at **Annex**.

**Relevant Institutions, Selected Programmes, Number of Subsidised Places and Actual Intakes,
and Annual Subsidy Amount for the Cohort Admitted in the 2015/16 Academic Year**

Institutions	Disciplines	Programmes	Number of subsidised places	Number of actual intakes	Annual subsidy amount (\$)
Chu Hai College of Higher Education	Architecture and Engineering	Bachelor of Architecture (Honours)	40	20	40,000
Hang Seng Management College	Logistics	Bachelor of Business Administration (Honours) in Supply Chain Management	70	70	40,000

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It was mentioned in the Budget Speech that a pilot scheme shall be implemented to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year. Programmes in the disciplines of construction, engineering and technology will be covered. The total commitment will be \$200 million, benefiting 5 600 people. Please provide the details, including the detailed plan of the scheme, form of financial support, eligibility of the target, and tabulate a breakdown of the number of students in receipt of the subsidy by course types.

Asked by: Hon Tommy CHEUNG Yu-yan (Member Question No. 39)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in "Architecture and Town Planning" or "Engineering and Technology" under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

The pilot scheme will benefit around 5 600 students in total for three cohorts with no pre-set quota for individual programmes.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme.

CONTROLLING OFFICER'S REPLY**EDB029****(Question Serial No. 0321)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As at the 2015/16 school year, how many public sector primary and secondary schools in Hong Kong have launched the School-based Educational Psychology Service (SBEPS) respectively? For the 2016/17 and 2017/18 school years, to how many schools does the Administration expect the SBEPS to be extended and what will be the expenditure involved? How is the achievement of service quality standards under the evaluation of the quality assurance mechanism?

Asked by: Hon WONG Kwok-hing (Member Question No. 33)

Reply:

In the 2015/16 school year, 401 public sector primary schools and 333 public sector secondary schools are receiving the School-based Educational Psychology Service (SBEPS).

The SBEPS will cover all public sector primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The number of public sector primary and secondary schools which would receive SBEPS in the 2016/17 and 2017/18 school years as well as the estimated expenditure involved are tabulated below.

School Year	Number of Primary Schools to Receive SBEPS (Provisional)	Number of Secondary Schools to Receive SBEPS (Provisional)	Total Expenditure (\$ million) (Estimate)
2016/17	454	391	141
2017/18	454	391	147

Note: In the 2016/17 school year, about 30 primary and secondary schools among the above schools will receive enhanced SBEPS. In the 2017/18 school year, the number of schools that will receive enhanced SBEPS will increase to 80.

A quality assurance mechanism has been put in place to evaluate service effectiveness and to ensure service quality. Under the mechanism, the Education Bureau (EDB) conducts an annual review through a questionnaire survey to participating schools and the educational psychologists (EPs) at the end of the school year to gauge feedback from different stakeholders. EDB also conducts school visits to review deliverables (including work plans and progress reports of EPs) and to hold meetings with EPs and school personnel to advise on issues related to the implementation of SBEPS. In addition, EDB holds regular meetings with the School Sponsoring Bodies providing the service to review service planning and coordination. Evaluation of SBEPS from schools receiving the service in the 2013/14 and 2014/15 school years indicated that EPs' professional services were able to meet the needs of schools and over 90% of schools indicated their high satisfaction of EPs' services.

Question:

Regarding the promotion of the development and usage of e-textbooks in primary and secondary schools, please provide the following information:

1. Please provide a breakdown of the expenditures under the two items, namely E-Textbook Market Development Scheme (EMADS) and Supporting Schools to Adopt E-textbooks, respectively in each of the past 3 years by usage, distribution and percentage share.
2. Please provide the respective number and percentage of primary and secondary schools that have adopted the e-textbooks developed under the EMADS by district council district in the past 1 year.
3. Please provide the respective number and percentage of schools that could arrange one device to each student or required students to share devices to use e-textbooks in the past 1 year.
4. Whether the Administration has reviewed the implication of e-textbooks on teaching and learning, such as class management, students' learning progress and the utilisation of e-textbooks.

Asked by: Hon WONG Kwok-hing (Member Question No. 35)

Reply:

1. We launched two phases of the e-Textbook Market Development Scheme (EMADS) in 2012 and in 2013 respectively, with a commitment of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. About \$30.6 million seeding grant has been disbursed to the NPM developers for both phases since 2012-13. In the past 3 years, \$5.6 million was disbursed in 2013-14, \$20.2 million in 2014-15 and \$3.8 million in 2015-16. The remaining seeding grant of around \$8.9 million will be disbursed in the next two years.

We launched the "Support Scheme for e-Learning in Schools" in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools' Learning Management System and various e-textbooks/e-learning resources platforms. The remaining \$5 million

was used from early 2014 up to 2015-16 on other support measures such as provision of programme management services for schools. The Scheme is now completed.

2. Figures of schools using the e-textbooks developed under EMADS at district level are not available. At the territory level, in the 2015/16 school year, 55 primary schools and 85 secondary schools, accounting for 10.5% of primary schools and 17.7% of secondary schools respectively, have chosen to use the e-textbooks developed under EMADS via different approaches. It is expected that with the increase in teachers' knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum.
3. Under the principle of school-based management, schools are at discretion to determine the use of their mobile computing devices at class in accordance with their school circumstances. We therefore do not have any statistics on the actual deployment of mobile computing devices by schools.
4. An evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the Chinese Language Curriculum Second Language Learning Framework, please provide the following information:

1. Please list out the numbers of public primary and secondary schools and the numbers of primary and secondary school students receiving the resources provided by the Education Bureau for the “Chinese Language Curriculum Second Language Learning Framework” and its supporting teaching materials in each of the past 3 years;
2. Had the Administration reviewed the effectiveness of the implementation of the framework and the performances of the students? What were the details? If no, what are the reasons?
3. What were the staffing and expenditure involved in the implementation of the “Chinese Language Curriculum Second Language Learning Framework”?

Asked by: Hon WONG Kwok-hing (Member Question No. 34)

Reply:

- (1) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools coupled with full sets of supporting teaching materials including learning modules and Second Language Learning Packages to help teachers adapt the Chinese Language Curriculum according to the learning progress of individual NCS students and the creation of an inclusive learning environment in schools.

Starting from the 2014/15 school year, the “Learning Framework” and supporting teaching materials are applicable to all public sector primary and secondary schools and Direct Subsidy Scheme schools offering the local curriculum which admit NCS students. In the 2014/15 school year, there were about 590 schools (including 320 primary schools and 270 secondary schools) admitting about 16 900 NCS students (8 700 at primary level and 8 200 at secondary level). In the 2015/16 school year, there are about 610 schools (including 330 primary schools and 280 secondary schools) admitting about 17 700 NCS students (8 900 at primary level and 8 800 at secondary level).

- (2) EDB has consulted teachers and language experts when formulating the “Learning Framework” and will continue to collect views from various stakeholders about its effectiveness and that of the

supporting materials. We will be reviewing the “Learning Framework” on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school context. At the curriculum level, the “Learning Framework” would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

- (3) Expenditure for the related support measures for the 2014/15 and 2015/16 school years is tabulated at Annex.

**Educational support measures for non-Chinese speaking (NCS) students
in primary and secondary schools in the 2014/15 and 2015/16 school years**

Support measures	Actual expenditure in the 2014/15 school year (\$ million)	Estimated expenditure in the 2015/16 school year (\$ million)
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	197.8 Note	223.9 Note

Question:

Regarding the implementation of the School-based After-school Learning and Support Programmes, please provide the following information:

1. a breakdown of the organisations assigned to provide projects and the number of projects provided under the School-based After-school Learning and Support Programmes in each of the past 3 years, as well as the number of students benefitted in each project;
2. a breakdown of the use, distribution and percentage share of the expenditure involved in the School-based After-school Learning and Support Programmes in each of the past 3 years.

Asked by: Hon WONG Kwok-hing (Member Question No. 36)

Reply:

1. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance or full grant under the Student Financial Assistance Schemes.

In the past three years (i.e. the 2013/14, 2014/15 and 2015/16 school years), the number of NGOs provided with the Community-based Project Grant is 183, 175 and 175 involving a total of 497, 528 and 511 projects respectively. The NGOs and the total number of their projects as well as participating students in terms of man-times from the 2013/14 to 2015/16 school years are tabulated at Annexes A to C respectively.

2. The total provision for the Programme is about \$205 million in the 2013/14 school year and about \$240 million in each of the 2014/15 and 2015/16 school years. The Community-based Project Grant is about \$121 million, \$127 million and \$120 million in the respective school years.

CONTROLLING OFFICER'S REPLY**EDB033****(Question Serial No. 2450)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

There is 1 bi-sessional primary school which has yet to formulate its whole-day conversion plan. What is the number of students involved (by level)? What are the reasons for the concerned primary school not yet operating in the whole-day mode? Has the Administration assisted the primary school to convert to the whole-day mode? If yes, what are the details, expenditure involved and the estimated timetable for implementing the whole-day mode? If no, what are the reasons?

Asked by: Hon WONG Kwok-hing (Member Question No. 32)

Reply:

The school which has yet to formulate its whole-day conversion plan is operating half-day classes at Primary 1 to 4 and whole-day classes at Primary 5 and 6. The Education Bureau has been exploring alternatives with the school sponsoring body to facilitate the school's full implementation of whole-day primary schooling. The number of students studying in half-day classes of this school in the 2015/16 school year is tabulated below:

District	Session	Number of Students					
		P1	P2	P3	P4	P5	P6
Central and Western	PM	157	163	163	160	Note	Note

Note: The school is operating whole-day classes at Primary 5 and 6 in the 2015/16 school year.

(Question Serial No. 3010)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In paragraph 116 of the Budget Speech, the Financial Secretary indicated that “Since this academic year, we have launched a subsidy scheme of \$960 million for students pursuing self-financing undergraduate programmes in selected disciplines, including healthcare, architecture and engineering, testing and certification, creative industries, logistics as well as tourism and hospitality.” In this connection, will the Government inform this Committee of:

- (a) the criteria for determining the professional disciplines to be covered;
- (b) the number of subsidised quotas and amount of subsidy for each selected discipline; and
- (c) how the effectiveness of the scheme will be assessed and when the scheme is expected to be reviewed?

Asked by: Hon WONG Kwok-hing (Member Question No. 124)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at **Annex**.

We are reviewing the effectiveness of SSSDP by obtaining feedback from the first cohort of students admitted in the 2015/16 academic year, the participating institutions, other self-financing post-secondary education institutions, the Committee on Self-financing Post-secondary Education as well as the relevant bureaux/departments, in order to further improve the operation of SSSDP and consider whether to extend the Scheme.

CONTROLLING OFFICER'S REPLY

EDB035

(Question Serial No. 3011)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

In paragraph 117 of the Budget Speech, the Financial Secretary indicated that he would “implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year. Programmes in the disciplines of construction, engineering and technology will be covered. The total commitment will be \$200 million, benefiting 5 600 people.” In this connection, will the Government provide the following information:

- (a) a list, classified by discipline, of designated professional programmes to be covered by the pilot scheme;
- (b) the criteria for determining the designated professional disciplines to be covered;
- (c) the number of subsidised quotas and amount of subsidy for each designated professional programme; and
- (d) when the effectiveness of the pilot scheme is expected to be assessed and what are the assessment criteria?

Asked by: Hon WONG Kwok-hing (Member Question No. 125)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework (QF) Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and

- (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register (QR).

A list of eligible programmes offered by VTC by area of study/training under the Hong Kong QR and QF level as at December 2015 is at Annex. It should however be noted that there may be changes to the award titles to some of the programmes later in 2016. Also, some new programmes that meet the criteria are in the pipeline and will be introduced by VTC later.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts. A review on the effectiveness of the pilot scheme will be conducted in due course by collecting data such as the number of applications and completion rate as well as feedback from relevant parties.

CONTROLLING OFFICER'S REPLY

EDB036

(Question Serial No. 3171)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the management of vacant school premises, please provide the following information:

1. What were the number and locations of vacant school premises as well as the departments currently responsible for their management for the past year, broken down by the reasons for their having been left vacant?
2. What were the uses of the vacant school premises and the organisations that used them in the past year?
3. In the past year, how many vacant school premises were involved in cases where the school sponsoring bodies were not willing to return the premises after the school had ceased operation?

Asked by: Hon WONG Kwok-hing (Member Question No. 127)

Reply:

It has all along been the Education Bureau's (EDB) policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, as at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use; nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are set out in the Table below:

Table - 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use

13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

In light of the recommendations of the Audit Report and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply keeping a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, Lands Department, PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

In 2015-16, there is no new VSP under EDB's purview which is located on private land.

(Question Serial No. 3172)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the improvement of the teaching and learning environment of public sector schools, please provide the following information:

1. Please list out the number of primary and secondary schools that were operated in school premises considered as sub-standard according to prevailing standards in each of the past 3 years;
2. Please list out the number of schools applied for the School Improvement Programme, reprovisioning programme, redevelopment programme and minor improvement projects in each of the past 3 years. What were the staffing and expenditures involved in each of the above programmes?
3. Please list out, by district council districts, the number of schools that had yet to receive approval for the above programmes in the past 1 year and explain the reasons.

Asked by: Hon WONG Kwok-hing (Member Question No. 128)

Reply:

1. At present, there are about 850 ordinary public sector primary and secondary school premises built in different periods in accordance with the standards at the time of construction, which cover various facilities and have been changing over the years. Nevertheless, existing school premises in operation are required to comply with prevailing statutory requirements. As at November 2015, over 200 of them were built according to prevailing standards.

Among the schools built in different periods, cuboidal shaped school premises were constructed between mid-1960s and 1980 at public housing estates for primary school use. These school premises are often referred to as “matchbox-style school premises” and considered as “sub-standard” school premises as compared with the newly built school premises and prevailing standards. At present, 28 public sector primary schools are operating in such premises.

2. and 3. Over the years, the Education Bureau (EDB) has put in place various measures to enhance the facilities of school premises according to the needs of the schools, so as to improve their teaching and learning environment. These measures mainly include the School Improvement Programme (SIP) implemented between 1994 and 2006, reprovisioning programme, redevelopment programme and minor improvement projects.

SIP, one of the recommendations of the Education Commission in its Report No. 5, was introduced in 1994 to progressively upgrade the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phase One to three of SIP focused on upgrading the schools’ facilities for teaching, learning and administrative needs. Phase Four and the Final Phase aimed to upgrade the schools’ facilities to the

prevailing standards where technically feasible. The scope of improvement works for individual schools under SIP varied according to the schools' vision and mission, characteristics, the facilities in place and site conditions. About 700 ordinary public sector schools built according to the planning standards when the schools were constructed have their school facilities enhanced through one of the five phases of SIP.

For reprovisioning of existing schools to new school premises built on reserved school sites or vacant school premises which are suitable for this purpose, allocation is generally done through open and competitive bidding under the School Allocation Exercises (SAE). All eligible school sponsoring bodies in the territory can apply for reprovisioning of existing schools under their sponsorship when SAE for reprovisioning purpose are launched from time to time. Since 2005, we have allocated 24 new school premises built on reserved school sites and nine vacant school premises for reprovisioning or extension of existing schools. In the past three years, three sites were allocated for reprovisioning purpose and applications from 19 schools were received.

For in-situ redevelopment projects, interested schools would indicate their intention for redevelopment to EDB which would assess whether it is worth supporting based on a set of eligibility criteria including the technical feasibility in light of the site constraint, quality of education provided, sustainability of the school under consideration, availability of suitable decanting premises, readiness of the school, etc. We also need to take into account the available manpower and foreseeable school building commitments within EDB, as well as the likely capacity constraints of the construction sector as gauged from past experience when deciding on the number of projects to be supported. We are now working on seven in-situ redevelopment projects with funding secured for three of them. We will consider taking up additional projects having regard to the progress of the school projects in hand as well as the redevelopment projects committed so far, funding availability under the Public Works Programme in recent years and the demand from schools for redevelopment.

As for minor improvement works, EDB applies for block allocations under the Capital Works Reserve Fund every year to implement such works so as to improve the facilities of schools in need. A total of 38 minor improvement works projects were approved in the past three years, involving a total expenditure of about \$493 million.

The relevant manpower expenses in processing the application of the above improvement measures were absorbed by the recurrent expenditure of EDB. We do not have a separate breakdown on expenditure in this regard.

(Question Serial No. 0392)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (4) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

The provision for special education for 2016-17 is estimated to be \$2,309.5 million, which is a 5.6% increase over the 2015-16 original estimate. Will the Administration please advise on the allocation of the increased provision and the expenditure items involved?

Asked by: Hon Jeffrey LAM Kin-fung (Member Question No. 44)

Reply:

The provision for 2016-17 under Programme (4) Special Education is \$123.5 million or 5.6% higher than the original estimate for 2015-16. This is mainly due to increased provision for salaries grant arising from the 2015 pay adjustment and increased provision for various existing grants to schools.

CONTROLLING OFFICER'S REPLY**EDB039****(Question Serial No. 0393)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Government please provide:

A) Information on existing Direct Subsidy Scheme (DSS) primary and secondary schools:

Name of school	District	Number of places in each level	School fee of each level	Amount of subsidy received	Amount of fee remission and scholarship (number of students granted full or partial remission)

B) List of primary and secondary schools planning to apply to join DSS;

C) Details of the Administration's staffing provision for handling DSS primary and secondary schools, including rank, number and salary point. How does the Administration conduct inspection to ensure that DSS schools comply with the Administration's guidelines? Please provide the number of non-compliance cases which had been inspected and followed up in the past year.

Asked by: Hon Jeffrey LAM Kin-fung (Member Question No. 45)

Reply:

A) Information on existing Direct Subsidy Scheme (DSS) primary and secondary schools:

Number of places in each level

Since DSS schools may admit students on a territory-wide basis, instead of providing the number of places in each level per school, we set out the total number of places in each level of all DSS schools below:

DSS primary schools	P1	P2	P3	P4	P5	P6	Total
Number of places	2 707	2 725	2 725	2 717	2 407	2 581	15 862

DSS secondary schools	S1	S2	S3	S4	S5	S6	Total
Number of places	8 851	9 150	9 286	9 910	10 005	10 138	57 340

School fees of each level

Information on the current school fees charged by DSS primary and secondary schools is tabulated at **Appendix**.

Amount of subsidy received

The recurrent subsidy payable to individual DSS schools is calculated in accordance with the DSS unit subsidy rate (i.e. the average unit cost of an aided school place) and the number of student intakes based on the September and March headcounts. The actual amount of subsidy payable to each of the DSS schools in the 2015/16 school year is subject to the outcome of the March headcount to be completed.

Amount of fee remission and scholarship

DSS schools are only required to disclose in their annual audited accounts the amount set aside as reserve for fee remission and scholarship schemes, as well as the related total expenditures. With reference to the 2013/14 audited accounts, all DSS schools have set aside the required amount of school fee income as reserve for fee remission and scholarship schemes. The total amount of fee remission and scholarship provision of all DSS schools is over \$197 million in that school year. On the other hand, DSS schools are not required to disclose the number of students benefitted. As such, we have no information on the number of students granted full or partial remission in the schools.

- B) Aided schools which plan to join DSS should submit their applications to the Education Bureau (EDB) by the end of February in the year prior to the planned year of admission to DSS the latest. As at 1 March 2016, we have not received any new application for joining the DSS.
- C) While DSS schools are required to submit their annual audited accounts for inspection, EDB would conduct Comprehensive Review, External School Review, audit inspections, etc. to DSS schools as appropriate, as well as investigate complaints to ensure their compliance with the Administration's guidelines. Since the above monitoring work related to the administration and inspection of the DSS schools cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to provide a breakdown of the staffing provision for handling the DSS schools. Currently, non-compliance cases found are followed up by respective divisions and this Bureau does not have available data or statistics on the overall situation.

CONTROLLING OFFICER'S REPLY**EDB040****(Question Serial No. 2880)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Under Programme (6), the financial provision for 2016-17 amounts to \$2,319.1 million. In this connection, please advise of the following:

1. How will the Administration enhance the promotion of vocational and professional education and training to correct the negative public perception of vocational education?
2. How will the Administration promote the Pilot Training and Support Scheme to ensure the appropriate use of funds?
3. How effective was the industry attachment programme in 2015? Will the Administration review the programme and co-operate with a greater variety of industries and enterprises to increase the employment rate among graduates who are economically active? If yes, what are the details? If no, what are the reasons?

Asked by: Hon Andrew LEUNG Kwan-yuen (Member Question No. 28)

Reply:

1. In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at Annex. Among others, the Task Force recommended to rebrand VET to “vocational and professional education and training” (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations and would actively consider how to implement them. The Education Bureau (EDB) has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council (VTC) campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;

- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme (Pilot Scheme) for two more cohorts of 2 000 students to be admitted in the 2016/17 and 2017/18 academic years;
- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors in order to consider whether to extend the Scheme;
- (h) enhancing the promotion of the Qualifications Framework (QF) with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

2. The Pilot Scheme aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, VTC has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit 2 000 students with an approved commitment of \$144 million. Among others, the Task Force recommended extending the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With the extension, the total commitment for the Pilot Scheme will be \$288 million. The implementation details such as the guaranteed level of salary and allowance offered by the Government and industries covered will remain the same.

VTC has conducted a variety of promotion and publicity activities for the Pilot Scheme since July 2014 including production and broadcasting of a promotional video; advertising via multi-media and webpage; organising school talks, promotion booths in career exhibitions, VTC information days and skills competitions; and promotion to trade associations and industry partners, etc. With the extension of the Pilot Scheme for two more cohorts of 2 000 students in response to the recommendation of the Task Force, VTC will continue to enhance its promotion to attract more students to join the Pilot Scheme.

3. Industrial attachment helps bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhances students' employment-readiness. A recurrent funding of about \$18 million has been allocated to VTC starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in VTC will benefit every year.

In the 2014/15 academic year, VTC conducted surveys to collect feedback from employers and students on the industrial attachment. The results reflected that both employers and students generally valued the authentic workplace experience and recognised improvements in students' communication skills, attitude and behavior, and sense of responsibility, etc. after the industrial attachment. In addition, the same survey showed that over 90% of the employers who offered industrial attachment places would favorably

consider offering permanent positions to the attached students if suitable vacancies arise in their companies/organisations. In the past two years, around 90% of VTC's graduates who opted to join the workforce had secured employment within six months after graduation. VTC will continue to work closely with different industry sectors to solicit more industrial attachment opportunities for students and enhance its overall arrangements.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

CONTROLLING OFFICER'S REPLY

EDB041

(Question Serial No. 1274)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the number of non-Chinese speaking students and, by ethnicity, the number of ethnic minority (including Indonesian, Filipino, Indian, Pakistani, Nepalese, Japanese, Korean, other Asian, white, black and other ethnic minority) students studying at different grade levels in primary and secondary schools in the past 3 years (i.e. from the 2013/14 to 2015/16 school years).

Asked by: Hon Cyd HO Sau-lan (Member Question No. 25)

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students, and the number of NCS ethnic minority students by ethnicity as asked in the question studying at different grade levels in public sector and Direct Subsidy Scheme primary and secondary schools from the 2013/14 to 2015/16 school years are tabulated at Annex A and Annex B respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

**Number of non-Chinese speaking students studying at different grade levels
in primary and secondary schools from the 2013/14 to 2015/16 school years**

Level	Grade	2013/14 school year	2014/15 school year	2015/16 school year

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures cover students studying in public sector and Direct Subsidy Scheme primary and secondary schools. Figures do not include special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

CONTROLLING OFFICER'S REPLY**EDB042****(Question Serial No. 1283)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the top-up degree programmes registered at the Non-local Courses Registry in the past 3 years (i.e. from 2013/14 to 2015/16), will the Hong Kong Council for Accreditation of Academic and Vocational Qualifications provide this Committee with statistics on the number of registrations, number of people who pursued such programmes, institutions that jointly run such programmes in Hong Kong and professional qualifications awarded for each year.

Asked by: Hon Cyd HO Sau-lan (Member Question No. 24)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (the Ordinance), courses conducted in Hong Kong leading to the award of non-local higher academic or professional qualifications are required to register or seek exemption from registration. The information of top-up Bachelor degree programmes^{Note 1} registered / exempted from registration under the Ordinance from 2013/14 to 2015/16 academic years is set out below:

	2013/14		2014/15		2015/16 ^{Note 2}	
	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes	Registered programmes	Exempted programmes
Number of top-up Bachelor degree programmes	109	87	93	104	94	104
Institutions jointly running the top-up Bachelor degree programmes						
Number of overseas institutions	34	25	28	25	28	25
Number of operators (for Registered programmes) / Number of local institutions of higher education (for Exempted programmes)	29	8	24	8	24	8
Number of students enrolled	3 739	5 961	N.A. ^{Note 3}	5 985	N.A. ^{Note 3}	N.A. ^{Note 3}

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes – (a) Bachelor degree programmes (whether bearing “top-up degree” or not in the programme names) with duration not more than 18 months; and (b) sub-degree or equivalent qualification as an entry requirement

Note 2: Information as at 29 February 2016

Note 3: Statistics not available yet

Completion of professional programmes registered / exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in the relevant legislation or by the respective professional bodies, take examination / assessment for attaining the professional qualifications. Non-local Courses Registry does not collate information on the award of professional qualifications.

Director of Bureau: Secretary for Education

Question:

Please give details of the visits made to relevant authorities in the Mainland as well as meetings and exchanges conducted with these authorities by the Secretary for Education and his Under Secretary in the past year and provide in chronological order the following information for each visit:

- (a) purpose and place of visit;
- (b) titles of Mainland officials met;
- (c) size of entourage and post titles of accompanying officers;
- (d) duration of visit in days;
- (e) total expenditures involved;
- (f) whether the visit had been made public prior to departure; if no, what is/are the reason(s) for not announcing;
- (g) whether any notes of meeting were put on record; if no, what is/are the reason(s) for not keeping record; and
- (h) whether an agreement was reached; if yes, what is it about and what progress has been made in carrying out the agreement; as well as
- (i) travelling expenses (air tickets and local transport at the destinations);
- (ii) accommodation expenses;
- (iii) meal expenses;
- (iv) expenses on banquets or entertainment; and
- (v) expenses on gifts.

Date	(a)	(b)	(c)	(d)	(e)	(f)	(g)	(h)	(i)	(ii)	(iii)	(iv)	(v)

Asked by: Hon Cyd HO Sau-lan (Member Question No. 91)

Reply:

Information about duty visits to the Mainland made by Secretary for Education (SED) and Under Secretary for Education (US(Ed)) in 2015-16 are at Annexes A and B respectively.

Through duty visits to and exchanges with the Mainland, the SED and US(Ed) have enhanced education co-operation and strengthened the ties between the places visited and Hong Kong, thereby providing more and wider opportunities for progression and development for Hong Kong students. Generally speaking, meetings during the visits are recorded as appropriate, having regard to the different circumstances and factors such as nature of the meeting and subject matter, consensus reached by both sides, development of

the subject matter, etc. We will decide whether and how the trips and the agreements concluded should be made public in the light of the circumstances and needs.

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of official entertainment. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure limits on entertainment in the form of official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs to others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts/souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

**Duty visits to the Mainland made by
Secretary for Education in 2015-16 up to 8 March 2016
(as at 8 March 2016)**

Year (number of visits)*	Purpose of visits	Number of official entourage from SED's Office in each visit	Total expenditure incurred by SED and official entourage from SED's Office (\$)(Note)
2015-16 (11)	<ul style="list-style-type: none"> To meet with officials of the Ministry of Education in Beijing, Beijing Municipal Education Commission, Shenzhen Municipal Education Bureau, Department of Education of Guangdong Province and Zhongshan Municipal Government to exchange views on educational issues and co-operation To deliver a speech at the 10th anniversary celebratory event of the United International College, and to hold discussion with officials of the Zhuhai Municipal Education Bureau To lead Hong Kong university students to a career and life planning education programme and visit enterprises in Huizhou and Shunde To pay a courtesy visit to the Fujian Provincial Department of Education and the Xiamen Municipal Education Bureau, and to visit local universities to exchange views with university leaders and Hong Kong students To officiate at an opening ceremony of the Beijing, Hong Kong and Macau Student Exchange Camp, and to pay a courtesy visit to the Ministry of Education in Beijing To attend commemorative activities of the 70th Anniversary of the Victory of War of Resistance against Japanese Aggression in Beijing To lead a delegation from the educational sector of Hong Kong to participate in professional exchange activities in Beijing and Chengde To join a delegation of presidents or vice-presidents of the eight University Grants Committee-funded institutions for a visit to Guangdong Province, and to attend a Guangdong and Hong Kong university presidents' forum in Guangzhou To officiate at an opening ceremony of a national competition of extra-curricular academic and technological projects by university students in Guangzhou 	1 – 3	193,211

* The above duty visits lasted for one to four days per trip.

Note: The total expenditure includes expenses on accommodation and travelling, subsistence allowance and other incidental expenses for duty visits outside Hong Kong in accordance with the prevailing Civil Service Regulations and guidelines.

**Duty visits to the Mainland made by
Under Secretary for Education in 2015-16 up to 8 March 2016
(as at 8 March 2016)**

2. Please provide details of expenses on entertainment and gifts of your bureau and the departments under its purview in 2015-16 using the table below:

Bureau/ branch/ department	Date of reception (day/month/year)	Departments/ organisations served by guests entertained (group by department/ organisation with number of guests) and post titles of guests	Food expenses incurred in the reception	Beverage expenses incurred in the reception	Gift expenses incurred in the reception	Venue of reception (department office/ restaurant in government facilities/ private restaurant/ others (please specify))

3. Please provide the estimated expenses on entertainment and gifts for 2016-17 using the table below:

Bureau/ branch/ department	Estimated provision for expenses on entertainment and gifts	Cap on entertainment expenses per guest	Cap on gift expenses per guest

Asked by: Hon Cyd HO Sau-lan (Member Question No. 93)

Reply:

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of meals for official purposes. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure on official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips. Education Bureau (EDB), University Grants Committee (UGC) Secretariat and the Working Family and Student Financial Assistance Agency (WFSFAA) * follow the same principles and guidelines on official entertainment. In 2014-15 and 2015-16 (as at 29 February 2016), the actual expenses on official entertainment incurred by EDB were \$513,150 and \$393,232 respectively and the estimated expenditure for 2016-17 is \$645,000. The actual expenses on official entertainment incurred by the UGC Secretariat were \$514,845 and \$569,489 in 2014-15 and 2015-16 (as at 29 February 2016) respectively and the estimated expenditure for 2016-17 is \$802,000. The actual expenses on official entertainment incurred by the then Student Financial Assistance Agency (SFAA) in 2014-15 were \$14,540. The actual expenses on official entertainment incurred by WFSFAA in 2015-16 (as at 29 February 2016) were \$5,550 and the estimated expenditure for 2016-17 is \$72,000.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs to others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts or souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

* WFSFAA was established on 1 March 2015 with two arms, namely the Student Finance Office (renamed from the previous SFAA) and the Working Family Allowance Office. EDB is the housekeeping bureau for the then SFAA and WFSFAA.

CONTROLLING OFFICER'S REPLY**EDB046****(Question Serial No. 2881)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (7) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

a) With regard to the utilisation and disposal of vacant school premises, please inform this Committee of the cumulative numbers and statistics of kindergartens, primary and secondary schools in Hong Kong that ceased operation from 1997-98 to 2015-16. Please reply by using the tables below:

i) Vacant Kindergartens

District	Year in which the school ceased operation	School name	School address	Responsible department at present	Duration of vacancy	Year in which the school premises was deployed for further educational use (Please specify: public/private)	Year in which the school premises was returned/planning will be undertaken

ii) Vacant Primary Schools

District	Year in which the school ceased operation	School name	School address	Responsible department at present	Duration of vacancy	Year in which the school premises was deployed for further educational use (Please specify: public/private)	Year in which the school premises was returned/planning will be undertaken

iii) Vacant Secondary Schools

District	Year in which the school ceased operation	School name	School address	Responsible department at present	Duration of vacancy	Year in which the school premises was deployed for further educational use (Please specify: public/ private)	Year in which the school premises was returned/ planning will be undertaken

iv) Vacant Special Schools

District	Year in which the school ceased operation	School name	School address	Responsible department at present	Duration of vacancy	Year in which the school premises was deployed for further educational use (Please specify: public/ private)	Year in which the school premises was returned/ planning will be undertaken

b) Please provide a breakdown of the average duration of vacancy of the vacant school premises (by the above categories) and information on the 5 districts with the highest vacancy rates.

Asked by: Hon Cyd HO Sau-lan (Member Question No. 26)

Reply:

At present, all kindergartens (KG) in Hong Kong are privately run. KG generally operate in premises identified in the private market on their own, premises owned by their school sponsors or in estate KG premises under the Hong Kong Housing Authority (HKHA). The Education Bureau (EDB) does not compile statistics on vacant KG premises. According to HKHA's records, there are currently four vacant estate KG premises in public housing estates under HKHA, including three located at Hong Kong Island and one in New Territories. According to the established arrangement, at the request of HKHA, EDB will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify the SAE, EDB would inform HKHA for their consideration of whether to put the estate KG premises to other alternative use. HKHA may also arrange open rental tender of KG premises at market rent from time to time. HKHA has advised that there is no plan to convert the four vacant KG premises in question into other uses. We will follow up in accordance with the aforesaid mechanism.

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, as at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

The database covers VSP known to the respective division since July 2005 when it was tasked to handle the subject. It included those VSP which have been or were going to be demolished for other uses, as well as those premises not required by EDB for educational use which EDB has informed PlanD and relevant departments such as the Lands Department (LandsD) and Housing Department under the central clearing house mechanism. The database does not contain comprehensive records showing the actual periods of vacancy of VSP nor the periods, if any, that the premises have been deployed for temporary uses.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use; nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are set out in the Table below:

Table – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable

B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

In light of the recommendations of the Audit Report and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply keeping a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, LandsD, PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Starting from the 2015/16 school year, the Administration will increase the ratio of graduate teacher posts in public sector primary schools by phases for 3 years from the current 50% to 65% in the 2017/18 school year to attract more talent to join the teaching force of primary education, costing \$328 million a year. In this connection, how many primary graduate teacher posts will be created for the school years from 2016 to 2018? How will the additional posts effectively enhance the quality of teaching and learning?

Asked by: Hon Starry LEE Wai-king (Member Question No. 1)

Reply:

Pursuant to the enhancement of the ratio of graduate teacher posts in public sector primary schools from 50% to 65%, it is estimated that about 3 300 additional graduate teacher posts, to be offset by the corresponding number of non-graduate teacher posts, will be provided for public sector primary schools at an additional full year cost of about \$328 million. Teachers selected for filling the graduate teacher posts are required to assist in promoting initiatives in their schools for continuous improvement. It is also expected that the enhanced ratio of graduate teacher posts will attract more talents to join the teaching force of primary education and add further impetus to the pursuit of excellence.

Question:

Please provide a breakdown of the number of students with special educational needs (SEN) studying in public sector mainstream primary schools between 2013/14 and 2015/16 school years by grade levels and major SEN types.

Asked by: Hon Starry LEE Wai-king (Member Question No. 2)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary schools by grade levels by major SEN types from the 2013/14 to 2015/16 school years is set out at the Appendix.

**Number of students with SEN studying in public sector mainstream primary schools
by grade levels by major SEN types from the 2013/14 to 2015/16 school years**

Specific Learning Difficulties	P1 #	P2	P3	P4	P5	P6
2013/14	18	437	1 770	1 862	1 984	2 115
2014/15	13	318	1 806	2 047	1 892	2 013
2015/16	8	285	1 920	2 101	2 133	1 918

Intellectual Disability	P1 #	P2	P3	P4	P5	P6
2013/14	97	88	98	130	181	157
2014/15	76	120	126	103	134	181
2015/16	87	89	140	122	95	130

Autism Spectrum Disorders	P1	P2	P3	P4	P5	P6
2013/14	547	662	624	533	502	444
2014/15	571	684	746	694	574	532
2015/16	633	803	816	814	750	604

Attention Deficit/Hyperactivity Disorder	P1	P2	P3	P4	P5	P6
2013/14	45	200	508	648	700	751
2014/15	77	207	515	807	853	811
2015/16	133	260	605	827	1 023	1 005

Physical Disability	P1	P2	P3	P4	P5	P6
2013/14	12	18	23	25	16	21
2014/15	12	16	21	23	26	16
2015/16	18	15	15	17	25	26

Visual Impairment	P1	P2	P3	P4	P5	P6
2013/14	4	5	3	5	7	4
2014/15	6	5	5	3	5	7
2015/16	7	8	6	5	3	5

Hearing Impairment	P1	P2	P3	P4	P5	P6
2013/14	38	36	43	44	51	52
2014/15	44	46	38	46	44	56
2015/16	36	49	59	46	44	45

Speech & Language Impairment	P1#	P2	P3	P4	P5	P6
2013/14	36	815	447	271	178	130
2014/15	17	916	440	261	146	112
2015/16	31	772	585	361	209	141

The figures denote the position as at September of the respective school years. The number of students identified to have SEN will increase during the year through early identification and intervention measures.

CONTROLLING OFFICER'S REPLY**EDB049****(Question Serial No. 0907)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Please provide the number of non-Chinese speaking (NCS) students and its percentage share in the total number of students by pre-primary education, primary education and secondary education for the 2015/16 school year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 3)Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and its percentage share among all students by level in the 2015/16 school year are tabulated below:

Level	No. of NCS students (Notes 1 and 2)	Total no. of students (Note 5)	Percentage of NCS students among all students
Pre-primary (K1 to K3) (Note 3)	11 982	185 398	6.5%
Primary (Primary 1 - 6) (Note 4)	8 958	288 126	3.1%
Secondary (Secondary 1 - 6) (Note 4)	8 782	329 757	2.7%

Notes:

- Figures refer to the position as at September of 2015.
- The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
- Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
- Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools only. Figures do not include special schools.
- The total number of students includes also those students who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.

- End -

CONTROLLING OFFICER'S REPLY**EDB050****(Question Serial No. 0908)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education
(4) Special Education
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide by disability type the number of disabled students currently studying in mainstream secondary schools. Regarding the provision of services and support to cater for their special learning needs, what are the specific plans and estimated expenditures for 2016-17?

Asked by: Hon Starry LEE Wai-king (Member Question No. 4)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream secondary schools in the 2015/16 school years is as follows:

	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment
Secondary	11 020	930	2 380	4 350	190	80	390	300

In the 2016/17 school year, the Education Bureau (EDB) will continue to provide additional resources and professional support to schools on top of regular subvention for all mainstream schools to help them cater for the needs of students with SEN through the Whole School Approach. The additional resources will include Learning Support Grant (LSG), Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, additional teachers to cater for low academic achievers, etc. Professional support will be provided on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists. We will also continue to offer structured teacher training and strengthen school networking for sharing of good practices and develop teaching resources for use of teachers and parents. Furthermore, we will continue to expand the School-based Educational Psychology Service with the target of covering all public sector mainstream schools by the 2016/17 school year and further enhance the service by progressively improving the ratio of educational psychologist to schools to 1:4 from the same school year for public sector schools with a large number of students with special educational needs. Based on the Composite Consumer Price Index (CCPI) movement between June 2014 and June 2015, the grant rates and ceiling of the LSG for each school for the 2015/16 school year have been adjusted upwards by 3.1%, i.e. the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,403 and \$26,806 respectively and the basic provision per school per annum for the first one to six student(s) requiring tier-3 support has also been raised to \$160,836. The ceiling per school per annum has been raised to \$1,546,500. In subsequent school years, the grant rates

and ceiling of the LSG for each school will continue to be adjusted annually according to the change in the CCPI.

In addition, starting from the 2015/16 school year, the Community Care Fund (CCF) has funded a three-year pilot project, under which a cash grant equivalent to the mid-point salary of a Graduate Master/Mistress or an Assistant Primary School Master/Mistress is provided for mainstream schools with relatively more students with SEN and financial needs so that a dedicated teacher can be deployed to co-ordinate matters relating to SEN support. A total of 124 schools (65 secondary schools and 59 primary schools) participated in the pilot project, benefitting about 9 000 students with SEN each year. The total funding provision for the pilot project is around \$220 million.

Over and above the regular spending on students in mainstream primary and secondary schools (which all students including those with SEN benefit alike), the estimated additional expenditure on the above support measures for students with SEN in mainstream schools in the 2016/17 school year (the CCF pilot project not included) is about \$1,369 million. As some of the support services are provided to primary and secondary schools as a whole (e.g. teacher training), we are not able to breakdown the cost separately for primary and secondary schools.

Question:

The Administration implemented the e-Textbook Market Development Scheme in order to promote e-teaching and learning and alleviate the financial burden of parents in purchasing textbooks. In this connection, will the Administration inform this Committee of the amount of resources it allocated to promote e-learning and internet textbooks in primary and secondary schools in the past 2 years? Please list out details of every expenditure item as well as the effectiveness.

Asked by: Hon Starry LEE Wai-king (Member Question No. 5)

Reply:

We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. The amounts of CITG for the past two financial years were \$341 million for 2014-15 and \$353 million for 2015-16.

Apart from recurrent grant, in the past two financial years, we launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to 412 schools in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; another one-off grant of \$10 million was disbursed to Hong Kong Education City Limited for acquisition of e-learning resources; and \$5 million has been reserved for other support measures, such as hire of contract staff for project management. The remaining non-recurrent funding would be disbursed to schools by phases in the coming financial years.

One of the six actions under the ITE4 is sustaining the coherent development of ITE. Ongoing researches and evaluation studies will be conducted to gauge the progress and effectiveness of various e-learning measures. These would include school surveys, case study research, and other methodologies that would provide useful information on the implementation of ITE4 and the effectiveness of e-learning.

Besides, two phases of the e-Textbook Market Development Scheme (EMADS) were launched in June 2012 and August 2013 respectively, with a non-recurrent funding of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. About \$30.6 million seeding grant has been disbursed to

the NPM developers for both phases since 2012-13. In the past two years, \$20.2 million was disbursed in 2014-15 and \$3.8 million in 2015-16. The remaining seeding grant of around \$8.9 million will be disbursed in the next two years. An evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Non-Chinese speaking (NCS) students have difficulties in adapting to the Chinese language curriculum for local students and their Chinese standard is behind local students, which hinders their participation in education and employment. In this connection, the Administration has implemented the "Chinese Language Curriculum Second Language Learning Framework" with a funding of \$200 million starting from the 2014/15 school year. Will the Administration inform this Committee:

- (a) the detailed allocation arrangements of the \$200 million funding in the 2015/16 school year, including the relevant expenditure on implementing the "Learning Framework", the additional recurrent funding for schools, training of teachers and their details;
- (b) the average amount of resources allocated to each NCS student;
- (c) the respective numbers of NCS students studying in public sector primary schools, public sector secondary schools and Direct Subsidy Scheme schools in the 2015/16 school year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 6)

Reply:

- (a) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. The relevant expenditure with breakdown by support measures for the 2015/16 school year is tabulated at Annex A.
- (b) As regards the expenditure for each NCS student, it is worth noting that as shown in the table on major support measures at Annex A, the relevant manpower resources and expenditure for supporting NCS students are subsumed under the overall expenditure of EDB, overall provision of grants to schools and/or different Funds. A breakdown of the expenditure for each NCS student is therefore not available.
- (c) According to the information collected through the annual Student Enrolment Survey, the number of NCS students studying in the public sector and Direct Subsidy Scheme primary and secondary schools in the 2015/16 school year is tabulated at Annex B.

**Educational support measures for non-Chinese speaking (NCS) students
in primary and secondary schools in the 2015/16 school year**

Support measures	Estimated expenditure in the 2015/16 school year (\$ million)
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	223.9 Note
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	3.7
Summer Bridging Programme for NCS students in primary schools Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.6
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	4.9
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	2.09

Note:

These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

**Number of non-Chinese speaking (NCS) students
in public sector and Direct Subsidy Scheme primary and secondary schools
in the 2015/16 school year**

Level	No. of NCS students in public sector schools	No. of NCS students in Direct Subsidy Scheme schools
Primary (Primary 1 – 6)	7 728	1 230
Secondary (Secondary 1 – 6)	4 144	4 638

Notes:

1. Figures refer to the position as at September of 2015.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures do not include special schools.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of national education, the Education Bureau offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools. In this regard, please inform this Committee of the following:

1. What were the respective numbers of Mainland exchange programmes arranged by the Administration for students and teachers in the past 3 years? What were the respective numbers of students and teachers participated in the programmes? What was the total amount of resources allocated to the programmes?
2. Will the Administration allocate more resources for additional Mainland exchange programmes next year to enhance local students' and teachers' understanding about our nation?

Asked by: Hon Starry LEE Wai-king (Member Question No. 7)

Reply:

1. The number of Mainland exchange programmes (MEPs) for students, including those commissioned by the Education Bureau (EDB) and those organised by individual schools with government subsidies, varies annually as schools make decision on whether and when to join having regard to their other learning activities planned for the year. In the past three years, MEPs for students were mainly provided through the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」—— 香港初中及高小學生內地交流計劃), the "Senior Secondary School Students Mainland Exchange Programme Subvention Scheme" (高中學生內地交流活動資助計劃), the "Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland" (初中及高小學生交流活動資助計劃——「赤子情 中國心」), the "Mainland Exchange Programme for Senior Secondary School Students" (「同行萬里」高中學生內地交流計劃), the "Mainland Exchange Programme for Student Leaders" (領袖生內地交流計劃) and some thematic MEPs. A substantial number of teachers participated in the above MEPs as learning facilitators according to the "1 teacher : 10 students ratio". Apart from this, professional exchange programmes for teachers were also provided through the "National Day Delegation from the Educational Sector of Hong Kong" (香港教育界國慶訪京暨專業交流團), etc.

In the past three years (2013-14, 2014-15 and 2015-16), the number of participants and expenditure involved in MEPs are shown below:

Financial Year	Number of participants		Expenditure (\$million)	
	Students*	Teachers**	Students	Teachers
2013-14	42 900	370	41.2	2.0
2014-15 [#]	44 000	240	45.9	1.0
2015-16 ⁺	58 000	260	62.7	1.5

Actual figures revised from last year's estimates

+ Provisional figures

* Rounded down to the nearest hundred

** Rounded down to the nearest ten

2. In 2016-17, an estimated amount of \$96.4 million will be allocated for providing more Mainland exchange opportunities to students and EDB will continue to organise professional study tours for teachers. With an increase in MEPs for students, proportionally more teachers will participate.

- End -

Question:

Regarding the professional upgrading of kindergarten teachers, please make a list of the course titles, course providers, course fees, number of places and applications received, unit cost as well as amount of subsidies of each place for all the fully-subsidised, partly-subsidised, and non-subsidised teacher training courses (including certificate, diploma and degree programmes) offered to serving kindergarten teachers for the 2015/16 school year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 8)

Reply:

The course titles, course providers, course fees and enrolments in different subsidised and non-subsidised teacher training courses (including certificate, degree and post-graduate diploma programmes) offered to serving kindergarten teachers for the 2015/16 school year are as follows:

(A) In-service Certificate in Early Childhood Education Training Programme

	HKIEd	OpenU
No. of intake in 2015/16		
UGC-funded	29	-
Non-subsidised (Self-financed)	-	58
Tuition fees per course		
UGC-funded	Free	-
Non-subsidised (Self-financed)	-	\$69,366 - \$102,000

(B) In-service Bachelor of Education (Early Childhood Education) Training Programme

	HKIEd	HKBU	OpenU
No. of intake in 2015/16			
UGC-funded	391	-	-
Non-subsidised (Self-financed)	-	132	33
Tuition fees per course			
UGC-funded	\$84,300	-	-
Non-subsidised (Self-financed)	-	\$104,370 (ordinary degree) \$115,500 - \$134,400 (honours degree)	\$71,220 (ordinary degree) \$120,400 (honours degree)

(C) In-service Postgraduate Diploma in Education (Early Childhood Education) Training Programme

	HKIEd	HKBU	HKU
No. of intake in 2015/16			
UGC-funded	119	-	25
Non-subsidised (Self-financed)	-	38	-
Tuition fees per course			
UGC-funded	\$42,100	-	\$42,100
Non-subsidised (Self-financed)	-	\$65,000	-

Interested applicants make applications to the course providers direct. The Education Bureau does not have details of the number of applications received. Information on the unit cost and amount of subsidies of each of the subsidised training places for serving kindergarten teachers is not available as recurrent funding is provided to UGC-funded institutions mainly in the form of block grants.

Key:

HKIEd - The Hong Kong Institute of Education

HKBU - Hong Kong Baptist University

HKU - The University of Hong Kong

OpenU - The Open University of Hong Kong

UGC - University Grants Committee

- End -

CONTROLLING OFFICER'S REPLY**EDB055****(Question Serial No. 0913)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is mentioned in paragraph 116 of the Budget Speech that “Since this academic year, we have launched a subsidy scheme of \$960 million for students pursuing self-financing undergraduate programmes in selected disciplines, including healthcare, architecture and engineering, testing and certification, creative industries, logistics as well as tourism and hospitality”. Please advise on the names of the institutions that delivered those self-financing undergraduate programmes, the names of the programmes and the numbers of intakes under the scheme in 2015/16 academic year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 9)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at **Annex**.

**Relevant Institutions, Selected Programmes, Number of Subsidised Places and Actual Intakes,
and Annual Subsidy Amount for the Cohort Admitted in the 2015/16 Academic Year**

Institutions	Disciplines	Programmes	Number of subsidised places	Number of actual intakes	Annual subsidy amount (\$)
Chu Hai College of Higher Education	Architecture and Engineering	Bachelor of Architecture (Honours)	40	20	40,000
Hang Seng Management College	Logistics	Bachelor of Business Administration (Honours) in Supply Chain Management	70	70	40,000
The Open University of Hong Kong	Creative Industry	Bachelor of Fine Arts with Honours in Animation and Visual Effects	80	74	70,000
	Health Care	Bachelor of Nursing with Honours in General Health Care	150	150	70,000
	Health Care	Bachelor of Nursing with Honours in Mental Health Care	70	70	70,000

CONTROLLING OFFICER'S REPLY**EDB056****(Question Serial No. 0914)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Starting from the 2015/16 school year, the Administration will increase the ratio of graduate teacher posts in public sector primary schools by phases for 3 years from the current 50% to 65% in the 2017/18 school year to attract more talent to join the teaching force of primary education, costing \$328 million a year. In this connection, will the Administration please advise, for each of the past 2 school years (i.e. 2014/15 and 2015/16 school years):

1. the number of public sector primary school teachers without degree qualifications or equivalent (with a breakdown by district and years of service), and their respective percentage share in the total number of public sector primary school teachers;
2. the number of teachers with degree qualifications or equivalent, their respective percentage share among all teachers in the sector and the number of these teachers appointed to the post of Certificated Master/Mistress in public sector primary schools.

Asked by: Hon Starry LEE Wai-king (Member Question No. 10)

Reply:

- (a) The number of teachers without degree qualifications or equivalent in public sector primary schools for the 2014/15 and 2015/16 school years and their respective percentage share among the total number of teachers in the sector are as follows.

Public Sector Primary School Teachers without Degree Qualifications or Equivalent	School Year	
	2014/15	2015/16 (Estimate)
Number*	800	710
Percentage Share	4.2%	3.6%

*Remark: Numbers are rounded to the nearest 10.

The Education Bureau (EDB) does not have readily available breakdown of teachers by district and by years of teaching service.

- (b) The number of teachers with degree qualifications or equivalent and their respective percentage share among all teachers in the sector and the number of these teachers appointed to the post of Certificated

Master/Mistress (CM post) in public sector primary schools for the 2014/15 and 2015/16 school years are as follows.

Public Sector Primary School Teachers with Degree Qualifications or Equivalent	School Year	
	2014/15	2015/16 (Estimate)
Number*	18 150	18 710
Percentage Share	95.8%	96.4%
Appointed to CM Post*	9 150	9 360

*Remark: Numbers are rounded to the nearest 10.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education,
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide details of special education training programmes in the past 3 years (i.e. from 2013/14 to 2015/16 school years), including course types, hours of instruction, number of places, funding involved, number of participating teachers and unit cost of each training place.

Asked by: Hon Starry LEE Wai-king (Member Question No. 14)

Reply:

The breakdown of training programmes on catering for students with special educational needs (including the type of courses, hours of instruction, number of places, provision involved, number of participants and unit cost of each training place) provided to teachers in the 2013/14, 2014/15 and 2015/16 school years is summarised at the Appendix.

Teacher Training Programmes on Catering for Students with Special Educational Needs from the 2013/14 to 2015/16 School Years

Type of Courses		2013/14 School Year (Actual)				2014/15 School Year (Actual)				2015/16 School Year (Estimate)			
		Course Hours	No. of places (No. of participants)	Provision (\$) (Note 1)	Unit Cost (\$)	Course Hours	No. of places (No. of participants)	Provision (\$) (Note 1)	Unit Cost (\$)	Course Hours	No. of places (Note 2)	Provision (\$) (Note 1)	Unit Cost (\$)
1	Professional development programme for teachers (Catering for diverse learning needs) Basic Level	39	240 (193)	3,600,000	15,000	39	240 (190)	3,600,000	15,000	39	240	3,600,000	15,000
2	Professional development programme for teachers (Catering for diverse learning needs) Advanced Level	117	200 (175)	9,000,000	45,000	117	200 (162)	9,000,000	45,000	117	200	9,000,000	45,000

Type of Courses		2013/14 School Year (Actual)				2014/15 School Year (Actual)				2015/16 School Year (Estimate)			
		Course Hours	No. of places (No. of participants)	Provision (\$) (Note 1)	Unit Cost (\$)	Course Hours	No. of places (No. of participants)	Provision (\$) (Note 1)	Unit Cost (\$)	Course Hours	No. of places (Note 2)	Provision (\$) (Note 1)	Unit Cost (\$)
8	Course on “Effective Strategies for Managing Students’ Challenging Behaviour : A Psychological Approach” (Note 3)	120	50 (42)	1,591,800	37,900	120	45 (38)	1,520,000	40,000	120	45	1,921,500	42,700
9	Workshops on “Catering for Diverse Learning Needs for Teaching Assistants / Teacher Assistants”	12	560 (559)	894,400	1,600	12	720 (720)	1,260,000	1,750	12	640	870,400	1,360
10	Theme-based Seminars / Workshops / Learning Circles for ordinary and special schools on Autism, Specific Learning Difficulties, Teaching Strategies for Students with Learning Difficulties, Children with Medical Complexity, etc.	2-42	7 610 (6 008)	722,100	NA (Note 5)	2-42	6 800 (5 451)	1,450,700	NA (Note 5)	2-42	8 890	2,104,000	NA (Note 5)
11	Training Course for Special School Teachers on Education of Students with Severe or Multiple Disabilities (Note 3)	240	40 (40)	4,288,000	107,200	240	40 (38)	4,495,400	118,300	240	40	4,796,000	119,900
TOTAL				63,233,300				60,771,800				69,978,900	

Note 1: Provision for items 1 and 2 is calculated based on the number of places offered by the service providers while that for the other items are calculated according to the number of participants of the respective programmes.

Note 2: Number of participants for the 2015/16 school year is not yet available.

Note 3: These courses are operated in a full-time block release mode with the provision of supply teachers. The respective provisions cover both the cost of the courses and provisions for supply teacher grant.

Note 4: The 12-hour optional attachment has become a compulsory module of the Advanced Course from the 2014/15 school year onwards.

Note 5: These training programmes are partly conducted by Education Bureau staff and partly commissioned to outside professionals, but the respective provisions only cover the latter. Hence, the unit cost cannot be calculated.

CONTROLLING OFFICER'S REPLY

EDB059

(Question Serial No. 0923)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education,
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the support provided for non-Chinese speaking (NCS) students in the 2014/15 and 2015/16 school years, will the Government please provide the following information:

- (a) The amount of special grant received by each school with school-based support programmes specifically arranged for NCS students, the number of NCS students admitted (with a breakdown by grade), and the percentage of such students among all students of the school; and
- (b) The number of schools which have admitted NCS students, broken down respectively by the intake of such students (less than 10, 10-19, 20-29 and 30 or above) and the percentage of such students among all students of the school.

Asked by: Hon Starry LEE Wai-king (Member Question No. 26)

Reply:

- (a) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, facilitating schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and the creation of an inclusive learning environment in schools. In this connection, all schools admitting 10 or more NCS students are provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. A total of 173 and 197 schools are provided with the enhanced funding to support their NCS students in the 2014/15 and 2015/16 school years respectively. The percentage of NCS students among all students in these schools ranges from 1.1% to 98.7% and 1.0% to 98.9% in the 2014/15 and 2015/16 school years respectively. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers, etc., it is the established practice that we do not disclose the name and situation of individual schools particularly when the additional funding support is applicable to all public sector schools meeting the threshold so as to avoid unnecessary misconception and possible labelling on individual schools.
- (b) The number of schools with NCS students ranging from "less than 10", "10 to 19", "20 to 29" and "30 or above", and the percentage of NCS students among all students of these schools are at Annex.

**The number of schools with non-Chinese speaking (NCS) students ranging from
less than 10, 10 to 19, 20 to 29 and 30 or above,
and the percentage of NCS students among all students of these schools
in the 2014/15 and 2015/16 school years**

School year	Number of schools / Percentage of NCS students among all students of the schools	Number of NCS students			
		Less than 10	10 to 19	20 to 29	30 or above
Primary schools					
2014/15	Number of schools	221	39	17	44
	Percentage of NCS students among all students of the schools	0.1%-3.6%	1.3%-22.4%	2.5%-24.1%	4.2%-98.5%
2015/16	Number of schools	217	48	15	49
	Percentage of NCS students among all students of the schools	0.1%-6.1%	1.1%-10.0%	2.5%-29.2%	3.6%-98.8%
Secondary schools					
2014/15	Number of schools	193	32	8	34
	Percentage of NCS students among all students of the schools	0.1%-3.6%	1.1%-3.8%	2.1%-6.6%	3.9%-98.7%
2015/16	Number of schools	193	33	16	37
	Percentage of NCS students among all students of the schools	0.1%-1.9%	1.0%-4.0%	2.3%-7.1%	4.4%-98.9%

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. The data include NCS students in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum. Figures do not include students in special schools.

Question:

Regarding the vocational training provided by the Vocational Training Council (VTC), will the Government inform this Committee of the following:

1. in the 2015/16 and 2016/17 academic years, the numbers of programmes and planned places dedicated to non-Chinese speaking (NCS) students at the VTC (by programme types); and
2. in the 2013/14 and 2014/15 academic years, the numbers of applications and graduates/students completed training of the programmes dedicated to NCS students at the VTC (by programme types)?

Asked by: Hon Starry LEE Wai-king (Member Question No. 27)

Reply:

1. The number of the programmes and planned places dedicated to non-Chinese speaking (NCS) students in the Vocational Training Council (VTC) in the 2015/16 and 2016/17 academic years are as follows –

	2015/16 Academic Year		2016/17 Academic Year (Provisional)	
	Number of programmes	Number of places	Number of programmes	Number of places
Programmes at diploma level	4	140	4	150
Applied Learning courses and Other Learning Experience (OLE) courses	3	190	3	180
Vocational Development Programmes	1	20	1	20
Basic vocational Chinese short courses	8	340	8	340
Other vocational and professional education and training (VPET) programmes	5	60	5	60

2. The number of applications and graduates / students who completed training of the programmes dedicated to NCS students in VTC in the 2013/14 and 2014/15 academic years are as follows –

	2013/14 Academic Year		2014/15 Academic Year	
	Number of applications	Number of graduates / students completed training	Number of applications	Number of graduates / students completed training
Programmes at certificate / diploma level	218	112	257	93
Applied Learning courses and OLE courses	275	173	161	152
Vocational Development Programmes	27	13	27	11
Basic vocational Chinese short courses	550	213	707	318
Other VPET programmes	93	85	51	41

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The EDB plans to provide an annual grant of \$120,000 through a three-year pilot scheme from the 2015/16 to the 2017/18 school years to each public sector or DSS school having formed sister schools with their counterparts in the Mainland to support the multi-faceted development of sister school activities. Since the implementation of the scheme, how many schools have succeeded in forming sister schools with their counterparts in the Mainland and how much funding has been used?

Asked by: Hon Starry LEE Wai-king (Member Question No. 28)

Reply:

EDB has earmarked a total provision of \$200 million for the implementation of the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland ("the Pilot Scheme"). Under the Pilot Scheme, upon vetting and approval of the applications, a successful applicant school will be provided with a fixed grant of \$120,000 per annum within the three-year implementation period of the Pilot Scheme starting from the 2015/16 school year. EDB will announce the implementation details to schools through a circular in due course. Since the Pilot Scheme has yet to be launched, we do not have the information as requested.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What were the respective average annual wastage rates of teachers in government, subsidised, private and Direct Subsidy Scheme schools (both primary and secondary schools if applicable) in the past 3 years? What were the wastage rates of teachers by subject?

Asked by: Hon Starry LEE Wai-king (Member Question No. 41)

Reply:

The wastage rates* of teachers in government, aided, private and Direct Subsidy Scheme schools for the school years from 2013/14 to 2015/16 are as follows:

Primary Schools

Financial Type	2013/14	2014/15	2015/16 (Estimate)
Government	4.5%	4.4%	4.9%
Aided	4.7%	4.3%	4.5%
Private	6.4%	8.1%	6.8%
Direct Subsidy Scheme	6.6%	6.4%	8.7%

Secondary Schools

Financial Type	2013/14	2014/15	2015/16 (Estimate)
Government	6.9%	5.4%	7.8%
Aided	4.8%	4.8%	4.8%
Private	17.0%	14.8%	12.4%
Direct Subsidy Scheme	7.0%	6.1%	6.8%

* Wastage rate refers to the percentage of teachers of the previous school year who did not serve in schools in the 12-month period prior to mid-September of the respective school years.

The wastage rates of teachers[#] by their major subject taught (grouped by Key Learning Areas) for the school years from 2013/14 to 2015/16 are as follows:

Primary Schools

Key Learning Areas	2013/14	2014/15	2015/16 (Estimate)
Chinese Language Education	3.5%	3.1%	4.0%
English Language Education	5.3%	4.9%	5.2%
Mathematics Education	3.4%	3.1%	3.2%
Science Education	6.6%	5.9%	5.8%
Technology Education	2.2%	0.0%	3.3%
Personal, Social and Humanities Education	12.9%	9.6%	6.4%
Arts Education	3.6%	4.5%	5.0%
Physical Education	3.3%	4.5%	3.2%

Secondary Schools

Key Learning Areas	2013/14	2014/15	2015/16 (Estimate)
Chinese Language Education	4.0%	4.2%	4.1%
English Language Education	7.6%	7.4%	6.9%
Mathematics Education	4.2%	4.2%	4.5%
Science Education	3.6%	3.9%	5.0%
Technology Education	3.9%	3.2%	3.4%
Personal, Social and Humanities Education	4.8%	4.7%	5.0%
Arts Education	5.3%	4.4%	4.3%
Physical Education	3.4%	3.2%	3.0%

Since many private school teachers did not provide to the Education Bureau the information about their subjects taught, private school teachers' information was not included when the wastage rates by Key Learning Areas was computed .

Director of Bureau: Secretary for Education

Question:

How many sites are reserved for school use (including primary, secondary and special school uses) in each of the District Council district? What are the location, size, planned use, student capacity, present situation (e.g. whether there is a concrete school building programme or technical feasibility study is being carried out) and development timeframe of each site?

Asked by: Hon LEE Wai-king, Starry (Member Question No. 43)

Reply:

As at March 2016, there are a total of 22 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as technical feasibility study and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 22 reserved school sites by districts with their location, site area and planned use is set out in the Table below. Among them, funding approval for two was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2012-13 LegCo Session with the school building works already underway; six were approved in the 2014-15 LegCo Session with the school building works commenced in 2015 or to be commenced soon; while projects on another three sites would be submitted for funding approval from FC in the current LegCo Session. For the remaining 11 sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

Reserved School Sites by District

No.	District	Location	Site Area (rounded to the nearest hundred m ²)	Planned use	Number of classrooms	Remark
1	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)
2	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)
3	Kowloon City	Kai Tak Development	8 000	Two Special Schools	12 each	(i)

No.	District	Location	Site Area (rounded to the nearest hundred m ²)	Planned use	Number of classrooms	Remark
4	Kowloon City	Kai Tak Development	7 500	Secondary School	30	(ii)
5	Kowloon City	Kai Tak Development	7 700	Secondary School	30	(iii)
6	Kowloon City	Ho Man Tin	7 700	Primary School	24	(iv)
7	Kwun Tong	Jordan Valley	6 900	Special School	18	(i)
8	Kwun Tong	Anderson Road	7 200	Secondary School	30	(iii)
9	Kwun Tong	Anderson Road	6 400	Primary School	30	(ii)
10	Kwun Tong	Anderson Road	6 200	Primary School	30	(iii)
11	Eastern	North Point	12 300	Primary School	24	(i)
12	Eastern	North Point	(Total)	Primary School	24	(i)
13	North	Fanling	7 100	Primary School	36	(i)
14	Sham Shui Po	Cheung Sha Wan	6 500	Primary School	30	(iii)
15	Sham Shui Po	Cheung Sha Wan	4 400	Special School	12	(i)
16	Sai Kung	Tseung Kwan O	6 200	Primary School	30	(iv)
17	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	(iv)
18	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	(iii)
19	Tuen Mun	Tuen Mun West	7 100	Special School	16	(ii)
20	Islands	Tung Chung	5 800	Special School	18	(iii)
21	Sha Tin	Shui Chuen O	8 700	Primary School	30	(iii)
22	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from the Finance Committee of the Legislative Council for the school building project.
- (ii) Funding approval would be sought from the Finance Committee of the Legislative Council in the 2015-16 Legislative Council Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

When planning the School Building Programme for reserved school sites, EDB will consider the school-age population projections, the prevailing educational initiatives, other factors that may affect the demand for school places in certain districts and different options to increase the supply of places (e.g. utilising vacant classrooms in existing schools) in particular districts.

CONTROLLING OFFICER'S REPLY**EDB065****(Question Serial No. 0947)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Hong Kong senior secondary school leavers can pursue studies in the Mainland through three channels, namely the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme), Joint Entrance Examination for Undergraduates in the People's Republic of China and admission of Hong Kong students by individual education institutions in the Mainland. The Government recommends that the Mainland University Study Subsidy Scheme (the Scheme) be rolled out from the 2014/15 academic year so that needy Hong Kong students pursuing studies under the Admission Scheme may receive a mean-tested bursary of up to \$15,000 per year during their study period. The scheme is not subject to any quota. Will the Government inform this Committee of the following:

Since the implementation of the Scheme, what is the respective number of Hong Kong students pursuing studies in the Mainland through different channels? What are their major subjects of studies? What is the amount of funding for each year? Will the Government study the possibility of expanding the Scheme to cover students pursuing studies in the Mainland through other channels? If yes, what are the details? If not, what are the reasons?

Asked by: Hon Starry LEE Wai-king (Member Question No. 50)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million. Breakdown of the MUSSS recipients by different disciplines is set out in the Annex.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we will advance the review of MUSSS as to how to expand its scope to benefit more

students studying in the Mainland, including those who are admitted to undergraduate study in those Mainland institutions participating in the Admission Scheme through different admission channels. The review is expected to be completed by the first quarter of 2016. We will afterwards brief the Legislative Council Panel on Education on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

The Admission Scheme was introduced in 2012 as a government-to-government initiative whereby Hong Kong students may seek admission to designated Mainland higher education institutions on the basis of their Hong Kong Diploma of Secondary Education examination results, and are thus exempted from taking the Joint Entrance Examination for Universities in the Mainland. The total number of students admitted by Mainland institutions under the Admission Scheme from the 2012/13 to 2015/16 academic years was over 5 100. As regards the number of Hong Kong students pursuing studies in the Mainland through other admission channels, including the Joint Entrance Examination for Universities in the Mainland and the recruitment exercises of individual Mainland Higher Education Institutions, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland higher education institutions and research institutes was 15 483 as at October 2015.

Mainland University Study Subsidy Scheme**Breakdowns of the Recipients by Disciplines
in the 2014/15 and 2015/16 Academic Years**

Discipline	Total number of recipients	
	2014/15 Academic Year	2015/16 Academic Year

Question:

The EDB will continue to implement the Fourth Strategy on Information Technology in Education. Please inform this Committee:

1. What are the funding and initiatives for promoting the use of information technology in teaching in primary and secondary schools in 2016-17?
2. What is the progress of providing wireless network services to all primary and secondary schools in the territory?

Asked by: Hon Starry LEE Wai-king (Member Question No. 54)

Reply:

1. The estimated expenditure for the implementation of the Fourth Strategy on Information Technology in Education for 2016-17 includes \$30 million one-off grant for some 300 schools for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment, and an extra recurrent grant of \$70,000 on average per school for these 300 schools for subscription of WiFi services.
2. The enhancement of WiFi infrastructure in all public sector primary and secondary schools is progressing well. Some 460 schools have completed the enhancement process.

CONTROLLING OFFICER'S REPLY**EDB067****(Question Serial No. 3018)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the key learning areas of science, technology and mathematics education under the secondary curriculum, please advise this Committee of the 2016-17 expenditures on measures to enhance the information technology training of secondary students to nurture information technology talents for Hong Kong in the long run. To achieve the purpose of nurturing talents, how much resources will the Administration inject into efforts to enhance teacher training?

Asked by: Hon Starry LEE Wai-king (Member Question No. 56)

Reply:

To promote STEM education which includes information technology (IT), we are renewing the curriculum guides of the Science Education, Technology Education and Mathematics Education Key Learning Areas (KLAs) which are scheduled to be released in the 2016/17 school year. There would be on-going professional development programmes for curriculum leaders and teachers. We will also enrich the learning and teaching resources for relevant curricula of the above KLAs.

Computer lessons are offered in most primary and secondary schools. Schools are encouraged to adopt whole-school approach in the curriculum planning of integrating programming in relevant subjects. Modules of Computer Awareness Programme for primary schools, including basic programming, have been developed by Education Bureau (EDB) to enable primary students to grasp the basic programming skills and computer knowledge. The modules have been updated in 2015 and could be used flexibly in relevant curricula or according to the contexts of schools. EDB will continue organising practical workshops and setting up school networks as support measures. EDB would also partner with community organisations to train up teachers and explore resources on this regard.

Schools teach IT related content at the secondary level through implementing the Technology Education Key Learning Area (TEKLA) Curriculum Guide (the 'Guide') as well as incorporating IT skills in the learning and teaching of the different Key Learning Areas and/or subjects. The Guide provides an open and flexible framework for schools to develop their school-based TEKLA curriculum which builds on the strengths of their schools and the needs of their students. The learning elements at the junior secondary level in the Guide were enriched in August 2013 to give students a broad and balanced foundation on technology education. For students with talents or are interested in pursuing the study of IT further, Information and Communication Technology is offered as an elective subject at the senior secondary level. Teachers are supported by the EDB to organise pull-out programmes in IT through the provision of resource materials and professional development programmes, as well as off-site programmes in IT provided by the Hong Kong Academy for Gifted Education to maximise students' potential.

We will continue to arrange professional development programmes for teachers in the forthcoming years so as to enhance their professional capacity and to build learning communities within and across schools to benefit student learning. In addition, we have set up “Centre of Excellence” (CoE) schools for the sharing of good practices on IT in education with other schools. The expenditure on and manpower for curriculum development, resource materials development, professional development programmes and CoE are absorbed by the recurrent expenditures of EDB.

Question:

Regarding the provision of Applied Learning courses, please inform this Committee:

- (1) why does the number of Applied Learning courses decrease by 4 in 2016-17 as compared with that of 2015-16; and
- (2) a breakdown of the number of schools offering Applied Learning courses and the number of student applications from 2013/14 to 2015/16 by areas of studies and course clusters.

Asked by: Hon Starry LEE Wai-king (Member Question No. 57)

Reply:

(1) Applied Learning (ApL) courses are regularly reviewed and refined in light of student needs, development of society and feasibility of implementation. Therefore, there are minor fluctuations in the number of courses offered across cohorts. Currently, the number of ApL courses is around 35 to 40 in each cohort, offering diverse course choices for students.

(2) Each cohort of ApL courses lasts for 2 years and Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) courses lasts for 3 years. From 2013/14 to 2015/16 school year, 4 cohorts of ApL courses (2012-14, 2013-15, 2014-16 and 2015-17 cohorts) have been offered to students. The number of schools offering ApL courses and the number of student applications for each of the course clusters under the areas of studies are as follows:

Number of schools offering ApL courses:

Area of studies	Course Clusters	2012-14 Cohort	2013-15 Cohort	2014-16 Cohort	2015-17 Cohort

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Administration will plan to set up a Gifted Education Fund of \$800 million to nurture more gifted students in an effort to enrich the talent pool and enhance the competitiveness of Hong Kong. In this connection, will the Administration inform us of the operation of the fund in detail?

Asked by: Hon Starry LEE Wai-king (Member Question No. 58)

Reply:

We plan to set up the Gifted Education Fund (the Fund) to enhance the development of gifted education so as to enrich the talent pool and enhance the competitiveness of Hong Kong, in particular, to support the Hong Kong Academy for Gifted Education (HKAGE) to nurture more gifted students. In order to benefit more students, we hope to set up the Fund as early as possible after consulting the Education Panel and the Finance Committee of the Legislative Council.

Details regarding the operational arrangements of the Fund are being worked out. Other than supporting the HKAGE, the Fund may also be used for implementing other projects related to gifted education when considered appropriate.

CONTROLLING OFFICER'S REPLY**EDB070****(Question Serial No. 3184)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is mentioned in paragraph 196 of the Policy Address this year that “The Government has accepted all the recommendations of the Task Force on Promotion of Vocational Education and will actively consider how to implement them.” In this regard, will the Government inform this Committee of the expenditure involved for implementing all the recommendations and the timetable?

Asked by: Hon Starry LEE Wai-king (Member Question No. 59)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. Among others, the Task Force recommended to rebrand VET to “vocational and professional education and training” (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations and would actively consider how to implement them. The Education Bureau (EDB) has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years;

- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors in order to consider whether to extend the Scheme;
- (h) enhancing the promotion of Qualifications Framework (QF) with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

EDB will provide administrative support to implement the recommendations. One time-limited civil service post at the rank of Senior Executive Officer will be created to help cope with the implementation workload. One civil service post at the rank of Executive Officer II will also be created to support the promotion of VPET in long run.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

CONTROLLING OFFICER'S REPLY**EDB071****(Question Serial No. 0966)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What was the expenditure on duty visits outside Hong Kong incurred by the Secretary for Education after he took office and what is the estimated expenditure in this regard for the coming year? In tabular form, please give a list of the locations, participants, expenses, effectiveness and follow-up actions. What overseas practices and examples have been identified as suitable for application to the education system of Hong Kong and what will be the estimated expenditure as well as the implementation schedule?

Asked by: Dr Hon LAM Tai-fai (Member Question No.18)

Reply:

Information about duty visits outside Hong Kong made by Secretary for Education (SED) after his assumption of office is at the Annex.

Duty visits outside Hong Kong by SED and his entourage are conducted in strict compliance with the relevant Government requirements and have delivered results. Through in-depth exchanges with the education officers, academics and education sector of the places visited, we had gained more thorough understanding of their good practices and valuable experiences, which served as a useful source of reference for us to formulate major education policies, such as the 15-year free education, vocational education and e-learning, in recent years. Furthermore, SED had also showcased internationally Hong Kong's achievements in education, broadened and strengthened ties and cooperation with these places, and consolidated Hong Kong's role as a regional education hub to facilitate exchange of talents. SED had been invited from time to time to attend international education forums and seminars held in various countries/places to exchange views on education policy, discuss the future developments in education policy/teaching profession, and explore bilateral co-operation opportunities with education officials as well as educators from around the world. In almost all his duty visits outside Hong Kong, SED had exchanges with and listened to the views of students from Hong Kong. In addition, the rapid development of our country in various areas such as its economy and technology in recent years together with the implementation of the "Belt and Road" initiative have presented new and unprecedented opportunities for Hong Kong. Through duty visits to and exchanges with the Mainland, SED had enhanced education co-operation and strengthened the ties between the two places, thereby providing more and wider opportunities for progression and development for Hong Kong students.

In 2016-17, duty visits will be conducted based on operational needs and prior approval is needed before related expenses are incurred. In making an application for duty visit, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. The duty visit expenditure will be governed by relevant regulations and guidelines and charged to the relevant votes to ensure effective control and use of public money.

**Duty visits outside Hong Kong made by
Secretary for Education from 2012-13 to 2015-16 up to 8 March 2016

CONTROLLING OFFICER'S REPLY

EDB072

(Question Serial No. 0967)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

During 2016-17, the Bureau will further enhance the ratio of graduate teacher posts in public sector primary schools to 60 per cent and 65 per cent in the 2016/17 and 2017/18 school years respectively upon increasing such ratio from 50 per cent to 55 per cent in the 2015/16 school year to attract more talent to join the teaching force of primary education so as to enhance the quality of teaching. Will the Administration please advise the expenditure and manpower expected to be involved each year?

Asked by: Dr Hon LAM Tai-fai (Member Question No. 19)

Reply:

Pursuant to the increase in the ratio of graduate teacher posts from 50% to 55% in public sector primary schools in the 2015/16 school year, the Education Bureau will further enhance the ratio to 60% and 65% in the 2016/17 and 2017/18 school years respectively. The cumulative total number of additional graduate teacher posts to be created since the implementation of the enhancement measure is estimated to be around 1 900 and 3 100 respectively in the above two school years, to be offset by the corresponding number of non-graduate teacher posts. The annual cost to be incurred is about \$150 million and \$260 million for 2016-17 and 2017-18 respectively.

- End -

CONTROLLING OFFICER'S REPLY**EDB073****(Question Serial No. 0968)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of national education, the Education Bureau offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools. What were the details of work, expenditure involved and manpower involved over the past 5 years; and what will they be for the coming year? How many primary and secondary schools have benefited? What was the effectiveness?

Asked by: Dr Hon LAM Tai-fai (Member Question No. 20)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources, provision of Mainland exchange opportunities to complement student's learning in relevant Key Learning Areas/subjects as well as, where appropriate, provision of professional support to schools etc. The professional support includes providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. With staffing and expenditure for most of these items being absorbed by the recurrent expenditure of the Education Bureau (EDB), we are not able to provide a separate breakdown of the expenditure involved and manpower involved.

In respect of national education, school sponsoring bodies and schools make use of different arrangements and professional support as well as exchange programmes through various aspects, under the notion of values education, to cater for the needs of students having regard to their own circumstances. Therefore, we do not possess data on schools specifically benefited in this regard.

Expenditure in respect of subsidising Mainland exchange programmes (MEPs) for primary and secondary school teachers and students can be separately identified. Expenditure on MEPs in the past five financial years (from 2011-12 to 2015-16) and 2016-17 is as follows:

Financial Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2011-12	46.7	1.0
2012-13	32.3	2.2
2013-14	41.2	2.0
2014-15 [#]	45.9	1.0
2015-16 [*]	62.7	1.5

Financial Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2016-17 ⁺⁺	96.4	1.2

[@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

After the completion of each Mainland exchange programme, feedback of participants was collected through questionnaires and focus group meetings. Based on the information collected, a majority of the participants reflected that the learning objectives of programmes were met.

- End -

CONTROLLING OFFICER'S REPLY**EDB074****(Question Serial No. 0969)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

During 2016-17, the Bureau will advance the review of the Mainland University Study Subsidy Scheme (MUSSS) with a view to expanding the scope of the scheme to support more needy Hong Kong students who are pursuing undergraduate studies in those Mainland higher education institutions participating in the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions, starting from the 2016/17 academic year. When will the Administration complete the review? To what extent will the scope of the MUSSS be expanded and what will be the expenditure involved? Please provide details of the relevant work in the past 5 years and list out, for each year, the number of students who received subsidy, names of the Mainland institutions they attended and the expenditure involved.

Asked by: Dr Hon LAM Tai-fai (Member Question No. 21)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million. Breakdown of the MUSSS recipients by different Mainland higher education institutions is set out in the Annex.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we will advance the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. The review is expected to be completed by the first quarter of 2016. We will afterwards brief the Legislative Council Panel on Education on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year. Expenditure to be involved in implementing the enhanced MUSSS will be contingent on the outcome of the review and subject to the number of approved applications. Sufficient fund has been reserved for the purpose.

CONTROLLING OFFICER'S REPLY**EDB075****(Question Serial No. 0970)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

During 2016–17, the Education Bureau will continue to monitor and facilitate the provision of school places for meeting the needs of the international community in Hong Kong, particularly through allocation of vacant school premises and greenfield sites for international school development. Please list out the locations of the existing vacant school premises in Hong Kong and the number of vacant school premises expected to be released in the coming year or in the future for other purposes, including the facilitation of the provision of kindergarten, primary and secondary school places, as well as for meeting the needs of the international community in Hong Kong. What are the specific plans and the expenditure and manpower involved?

Asked by: Dr Hon LAM Tai-fai (Member Question No. 22)

Reply:

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house

mechanism; 14 have been reused or reallocated/ planned for educational use, nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are set out in the Table below:

Table – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5.	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

The Government is committed to developing a vibrant international school sector mainly to meet the demand for international school places from overseas families living in Hong Kong and families coming to Hong

Kong for work or investment. To address the shortfall in international school places as projected by a consultancy study completed in end 2012, we have completed two school allocation exercises (SAEs) in April 2013 and May 2015 respectively to allocate a total of five VSP and three greenfield sites for international school development.

Further to the consultancy study completed in end 2012, we commissioned a new round of the study in October 2014 to update the latest provision of international school places at primary and secondary levels in the territory and to project the supply and demand in the next few years. The study will collect views through surveys from international schools and the business sector as well as the international community in order to have a broader understanding of the concerns of different stakeholders. Such information, coupled with the past trends of demand for international school places and the forecast changes in economic growth, would be useful reference for projecting the demand from overseas families coming to Hong Kong for work or investment. The study is expected to complete by mid-2016. Subject to the results of the study and availability of suitable sites or vacant school premises for international school development, we will consider whether and when to launch a new round of SAE for international school development.

Recurrent administrative expenditure and manpower involved in handling VSP under EDB, the monitoring of supply and demand of international school places and the management of SAEs will be absorbed by the recurrent expenditure of this Bureau. We do not have a separate breakdown on expenditure in this regard.

CONTROLLING OFFICER'S REPLY**EDB076****(Question Serial No. 0971)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

During 2016-17, the Bureau will continue to provide evaluation tools for School Self-evaluation and conduct External School Reviews for continuous school improvement. What were the specific work, expenditures and manpower involved, and the effectiveness of such work in the past 5 years? The EDB has earlier on accepted the recommendations of the report of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy, namely to implement trial runs for Primary 3 TSA and invite schools to participate. What are the progress, estimated expenditures and manpower involved? What will be done to ensure that the data collected will not be used for school categorisation, banding, assessing schools' performance and school closure?

Asked by: Dr Hon LAM Tai-fai (Member Question No. 23)

Reply:

To facilitate schools' continuous development and improvement through School Self-evaluation (SSE), the Education Bureau (EDB) provides a range of self-evaluation tools (e.g. Performance Indicators, Key Performance Measures and a set of stakeholder questionnaires, etc.), and conducts External School Review (ESR) to validate SSE and provide schools with suggestions for improvement. According to the independent impact study on SSE and ESR, schools are now making much greater use of self-evaluation tools and employing a variety of strategies and approaches to embed SSE in day-to-day practice. The report of the impact study is available for downloading from the website of EDB (<http://www.edb.gov.hk/en/sch-admin/sch-quality-assurance/reports/expert-advice-report/impactstudy-2ndcycle-sda.html>). The expenditures and manpower involved are subsumed under the recurrent expenditure of EDB.

The Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

On Primary 3 TSA, the Committee recognises that the assessment paper and question design could be adjusted and different formats of school reports could be adopted. The Committee suggests that the related arrangements should be tested out in the form of a tryout in 2016. In addition, professional support strategies would be provided to schools to enhance their knowledge and skills in homework policy,

assessment literacy such as using assessment data to improve curriculum planning, learning and teaching, using diversified assessment methods to align with learning targets in school curricula and providing students with quality feedback with a view to improve learning effectiveness.

The Hong Kong Examinations and Assessment Authority issued letters on 29 February 2016 to invite 50 primary schools to participate in the 2016 Tryout Study (Primary 3) and they are of different types (i.e. about 10 per cent of the primary schools in the territory with each participating as a unit). Schools are invited on the basis of various factors including districts, types of schools (government, aided, Direct Subsidy Scheme) and school size to ensure representativeness, reliability and validity of the tryout study. The invited schools of the tryout study can consider if they would participate with reference to their school-based situations. Other schools are also encouraged to take part on a voluntary basis. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

Since its introduction in 2004, TSA has been a low-stakes assessment. At the student level, TSA does not provide assessment results of individual students, it is by no means a tool for grading students, determining their advancement in studies or allocating school places for admission to Secondary 1. At the school level, EDB does not use TSA results to assess the performance of schools. TSA is neither a tool for ranking schools nor an indicator for closing schools.

The Committee is aware of the concerns about TSA raised recently in part of the community. In particular, on different stakeholders' perception of the stakes involved, EDB will follow up the recommendations of the Committee to strengthen internal guidelines stating explicitly that EDB will not use TSA data to assess the performance of a school. From the 2016/17 school year, TSA will be removed from the focus questions under "8.1 Academic Performance" of the "Performance Indicators". In addition, provision on schools' good use of TSA data to provide feedback to learning and teaching will be further emphasised under "3.3 Performance Assessment". Moreover, EDB will also step up public education and promote assessment literacy to encourage the public and the education sector for cultivating a positive and right attitude towards the application of assessment data to serve the function of "assessment for learning".

CONTROLLING OFFICER'S REPLY**EDB077****(Question Serial No. 0405)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Liberal Studies is a core subject under the current academic structure for senior secondary education. Information shows that the expenditure on support measures for Liberal Studies has increased progressively in the past 3 years from \$8 million in 2012-13 to \$16 million in 2014-15, while the expenditure incurred by the review of Liberal Studies has been absorbed by the recurrent expenditure of the Education Bureau. In this connection, will the Administration inform this Committee of:

1. the items of expenditure on support measures for Liberal Studies in the past 3 years; and
2. whether the Government will allocate more resources to meet the recurrent expenditure on Liberal Studies? If yes, to what specific areas will these resources be dedicated? If no, what are the reasons?

Asked by: Dr Hon Priscilla LEUNG Mei-fun (Member Question No. 10)

Reply:

1. Since the 2008/09 school year, schools have been provided with the Senior Secondary Curriculum Support Grant (SSCSG) on a recurrent basis. Schools can make flexible deployment of the grant to facilitate smooth implementation of the Senior Secondary (SS) curriculum, including Liberal Studies. The SSCSG was enhanced from the 2008/09 to the 2011/12 school years to an amount equivalent to the mid-point salary of 0.15 Graduate Master / Mistress (GM) teacher per SS class. From the 2012/13 school year onwards, the SSCSG is equivalent to the mid-point salary of 0.1 Graduate Master / Mistress (GM) teacher per SS class. In the spirit of school-based management, schools have deployed the SSCSG flexibly together with other funding sources. The provision of the SSCSG in the past 3 years is as follows:

	2013-14 (\$ million)	2014-15 (\$ million)	2015-16 (\$ million)
Senior Secondary Curriculum Support Grant	263.4	265.1	262.1

EDB continues to provide a wide array of measures to support the implementation of Liberal Studies, including organising professional development programmes and networking activities for teachers, developing learning and teaching materials in support of the curriculum, maintaining a web-based resource platform, and providing school-based support services. Expenditures for the above on-going support measures in the past 3 years are as follows:

	2013-14 (\$ million)	2014-15 (\$ million)	2015-16 (\$ million)
Expenditure on Liberal Studies Support Measures	13.7	16	9.2

Please note that some costs, e.g. staffing cost, are not reflected in the above figures, as a significant part of the above support measures, which was carried out by professional staff of EDB, is absorbed by the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

2. SSCSG has been provided to schools on a recurrent basis to support the implementation of the senior secondary curriculum, including Liberal Studies. In addition, schools can also flexibly deploy their resources to implement Liberal Studies based on the school context. There is no plan to allocate additional provision to Liberal Studies.

- End -

CONTROLLING OFFICER'S REPLY**EDB078****(Question Serial No. 0643)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The implementation of the Territory-wide System Assessment (TSA), especially Primary 3 (P3) TSA, has attracted extensive attention from parents, particularly in 2015. In general, parents are deeply worried about the content, teaching materials, question items and mode of assessment of TSA. Would the Administration inform this Committee:

1. How much funding was injected into TSA in the past 3 years? What are the expenditures on P3 TSA? Please give a breakdown of these expenditures.
2. What progress has been made by the Administration regarding the suspension of P3 TSA? In this connection, how much funding has been injected into the review?

Asked by: Dr Hon Priscilla LEUNG Mei-fun (Member Question No. 9)

Reply:

1. The Education Bureau has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Territory-wide System Assessment (TSA). The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA under the contract is set out in the following table:

Contract period	Expenditure on TSA (\$ million)	Average expenditure per year (\$ million)
2011-2014 (4 years)	220	55
2015-2018 (4 years)	296	74

The expenditure on P3 TSA under the 2011-2014 contract is \$76 million.

2. The Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to the EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

The Committee and its Working Groups will follow up on the implementation of the recommendations, including the 2016 Tryout Study (Primary 3), the provision of professional support strategies and monitoring the progress. They will also provide views on the data and experience obtained in the tryout study. The outcome of the 2016 Tryout Study (Primary 3) would be appropriately adopted for enhancement of the 2017 assessment arrangement. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

CONTROLLING OFFICER'S REPLY

EDB079

(Question Serial No. 0649)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the Pilot Training and Support Scheme (Pilot Scheme) introduced by the Government, will the Administration inform this Committee on the following:

1. In the past 3 years, how many eligible students benefitted from the Pilot Scheme? In the coming 3 years, will the number of students benefitted from the Pilot Scheme be increased? If yes, what is the increased provision accordingly? If no, what are the reasons?
2. Regarding the career path of students, what is the amount of resources to be deployed for 2016-17?

Asked by: Dr Hon Priscilla LEUNG Mei-fun (Member Question No. 17)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit a total of 2 000 students with a commitment of \$144 million.

Under the Pilot Scheme, apprenticeship training for targeted industries will be provided to students alongside a guaranteed level of salary and incentive allowance. During the apprenticeship training which normally lasts for four years, the specific industries will offer an incentive allowance of \$30,800 in total to each student (on top of their monthly salary). The Government will offer each student an average monthly allowance of \$2,000 during the study-cum-work period from the second to fourth years. In addition, employers will commit to pay a minimum monthly salary of \$8,000 to students during the study-cum-work period from the second to fourth years, and a minimum of \$10,500 upon their graduation.

As at end February 2016, the electrical and mechanical services of the construction industry, printing industry, clock and watch industry, automobile industry and testing and certification industry have joined the Pilot Scheme and about 900 students were participating under the Pilot Scheme. The estimated non-recurrent expenditure in 2016-17 is about \$35.5 million. Since the first cohort of participants will only graduate from the Pilot Scheme at the end of the 2016/17 academic year, employment situation of graduates is not yet available.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education and would actively consider how to implement them. Among others, the Task Force recommended extending the Pilot Scheme to benefit

more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With this extension, the total commitment of the Pilot Scheme will be \$288 million. The implementation details such as the guaranteed level of salary and allowance offered by the Government and industries covered will remain the same.

CONTROLLING OFFICER'S REPLY**EDB080****(Question Serial No. 3193)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (5) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Many ethnic minority students are unable to adapt to the Chinese language curriculum for local students. Their unsatisfactory Chinese language competency has become obstacles to their further studies and employment. In this connection, please inform this Committee of the following:

1. How many resources has the Administration allocated to the integrated education for ethnic minority students in the past 3 years? Will the Administration provide a detailed breakdown of the expenditure?
2. To enhance support for ethnic minority students in learning Chinese language, the Administration plans to provide the "Chinese Language Curriculum Second Language Learning Framework". Will the Administration facilitate schools' implementation of the plan by increasing the resources and manpower? If yes, what are the details? If no, what are the reasons?
3. Ethnic minorities do not only face language barriers, but also cultural and religious differences at the same time. Does the Administration have any policies to facilitate their integration into the society from varied perspectives? If yes, what are the details? If no, what are the reasons?

Asked by: Dr Hon Priscilla LEUNG Mei-fun (Member Question No. 53)Reply:

- (1) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The major support measures for NCS students from the 2013/14 to 2015/16 school years and the expenditure are tabulated at Annex.
- (2) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, the provision of the Applied Learning Chinese (for NCS students) courses and the creation of an inclusive learning environment in schools. Expenditure for the related support measures for the 2014/15 and 2015/16 school years has been included in the Annex. Besides, EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

- (3) The 2014 policy Address has announced a comprehensive package of support measures to step up support for ethnic minorities, especially the younger generation and newcomers, to help them integrate into the community. On education, apart from having learning elements on “respect for others”, “global understanding” and “gender role” embedded in the school curriculum, we have, starting from the 2014/15 school year, enhanced the provision of annual additional funding to eligible schools according to the number of NCS students admitted. One of the objectives of the enhanced funding is to facilitate schools to create an inclusive learning environment so as to foster an environment for accommodating ethnic diversity in schools, promoting respect to cultural and religious differences and strengthening communication with NCS parents. Besides, EDB has issued guidelines and organised annual sharing sessions, in collaboration with the Equal Opportunities Commission, to remind all educational establishments of their responsibilities to make their best endeavours in supporting the teaching and learning of all their students irrespective of race, in accommodating ethnic diversity in schools and in respecting cultural and religious differences. We have also set up a dedicated webpage and translated key information, including the Non-Chinese Speaking Parent Information Package: Your Guide to Education in Hong Kong, leaflets on Pre-primary Education Voucher Scheme, school places allocation systems for public sector primary and secondary schools, support measures for NCS students, etc., into major ethnic minority languages, complemented with dedicated briefing sessions with simultaneous interpretation services for NCS parents organised annually.

Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	-	2.3	4.9
<p>Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education</p> <p>Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.</p>	1.33	1.87	2.09

District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	2.51	1.09	2.58
Support for kindergartens admitting NCS students -			
(a) University-School Support Programmes financed by the Education Development Fund:			
(i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years	3.0	3.0	0.7
(ii) a 2-year project to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years	-	-	Note 2
(b) School-based professional support services	Note 1	Note 1	Note 1

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. The estimated expenditure of the USP project is \$6.3 million and \$1.8 million for the 2015/16 and 2016/17 school years respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

(Question Serial No. 1117)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding local self-financing sub-degree and degree programmes, will the Education Bureau provide information on the intake places, total enrolment and average annual tuition fee of full-time locally-accredited self-financing sub-degree and degree programmes by institution from the 2013/14 to 2015/16 academic years?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 15)

Reply:

On the basis of information provided by institutions, the number of estimated intakes, total enrolment as well as the average annual tuition fees of full-time locally-accredited self-financing sub-degree and undergraduate programmes by institution for the 2013/14 to 2015/16 academic years are set out at Annex.

(Question Serial No. 0074)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

To "continue to improve the learning and teaching of the English Language in primary schools", please advise on the following:

1. What were the measures and their respective financial provision to improve the learning and teaching of the English Language in primary schools in the past year? (Please provide details in tabular form.)
2. How did the Administration evaluate the effectiveness of the new and suspended measures to improve the learning and teaching of the English Language in primary schools in the past 3 years?
3. How does the Administration determine whether the English proficiency of primary school students is increasing?

Asked by: Hon IP Kwok-him (Member Question No. 27)

Reply:

- (1) In the past year, we have been implementing various measures for improving the learning and teaching of English Language in primary schools. The provision for the purpose totalled **\$434.38 million in 2015-16 financial year**, of which **\$32.95 million is from the Language Fund**. Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills.

		The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance 2014/15	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects 2015/16	To engage community partners in organising language-related events/competitions in the community.

* Initiatives funded by Language Fund

** Initiative is funded out of Head 173 Student Financial Assistance Agency

- (2) On-going evaluation of the support measures are conducted through various means, including curriculum development visits and lesson/activity observations of participating schools, questionnaire surveys and/or focus group interviews with participants, quality assurance meetings with service providers, self-evaluations and submission of progress and final reports by grantees.
- (3) Education Bureau (EDB) has been keeping track of the English proficiency of primary students through their results in the Territory-wide System Assessment (TSA). The results in the past few years have shown that the English standard of the primary students is progressing steadily. The percentage of P3 students achieving Basic Competency (BC) in English Language improved from 75.9% in 2004 to 80.4% in 2015, whereas that of P6 students achieving BC improved from 70.5% in 2005 to 72% in 2015.

- End -

CONTROLLING OFFICER'S REPLY**EDB083****(Question Serial No. 0075)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding “continue to subsidise schools and non-profit making organisations to organise after-school activities under the School-based After-school Learning and Support Programmes” at primary and secondary school levels,

1. please list out the schools and non-profit making organisations receiving the grant and the amount of provision received by each school and organisation in recent years;
2. how does the Administration monitor the use of grant by each school and organisation in “organising after-school activities for supporting the needy students”?

Asked by: Hon IP Kwok-him (Member Question No. 28)

Reply:

1. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance or full grant under the Student Financial Assistance Schemes.

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, provided eligible schools (i.e. having a utilisation rate of 80% or above of the provision of the previous year) with an incentive funding (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision).

In the past three years (i.e. the 2013/14, 2014/15 and 2015/16 school years), the number of schools having the School-based Grant is 877, 884 and 889 with the total funding of \$84 million, \$113 million and \$120 million respectively. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers and non-Chinese speaking students, etc., it is the established practice that we do not disclose the name and provision of funding in respect of each of the individual schools particularly when the additional funding support is calculated on the basis of the number of eligible students to avoid unnecessary misconception and possible labelling on individual schools. The NGOs which have been provided with the Community-based Project Grant from the 2013/14 to 2015/16 school years are tabulated at Annexes A to C respectively.

2. For the purpose of monitoring, NGOs in receipt of the Community-based Project Grant are required to submit progress reports and a final report upon completion of the project including the audited account and an evaluation on the effectiveness of the project. In line with the spirit of school-based management, the Incorporated Management Committee / School Management Committee of the school in receipt of the School-based Grant is accountable for proper use of the grant for its intended objectives. To enhance transparency, schools are required to include the Programme in their School Annual Plan and conduct an annual review of the effectiveness of the Programme with the findings included in the School Report. In addition, EDB conducts supervisory visits to schools and NGOs and collects feedbacks from stakeholders through surveys.

EDB084

(Question Serial No. 0076)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the series of targeted relief measures continued to be implemented in light of the temporary decline of the secondary 1 student population, please advise:

1. The amount of provision for the series of measures in the past 2 years and the estimated provision for the coming year.
2. In which year does the Administration expect to see an initial rebound of secondary 1 student population and whether the series of targeted relief measures can be reduced or cancelled by then?

Asked by: Hon IP Kwok-him (Member Question No. 29)

Reply:

(1) & (2)

The package of targeted relief measures the Education Bureau (EDB) implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in Secondary 1 (S1) student population. In gist, the targeted relief measures include:

- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
- ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
- iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

We anticipate that S1 student population will gradually increase in 2017/18 and subsequent years. To further stabilise the teaching force, schools with surplus teachers arising from reduction of S1 classes in 2013/14 and 2014/15, if in need, may apply to extend the retention period for these surplus teachers up to 2017/18. The expenditure for putting in place the targeted relief measures is subsumed under the overall expenditure of EDB and a breakdown of the expenditure in this regard is not available.

(Question Serial No. 0078)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding to “provide financial and professional support to local public sector and DSS schools having formed sister schools with their counterparts in the Mainland to further strengthen professional interflows among them”, please inform this Committee:

1. What is the Administration’s definition of “professional interflows”?
2. Please explain with examples (including names of related interflow activities and their declared expenditures).
3. Does the Administration anticipate any expenditure or have any guidelines on expenditures regarding professional interflows, such that Hong Kong schools have to bear all, most or half of the expenditures? If no, what is the basic percentage of expenditures shared by Hong Kong schools in practice?

Asked by: Hon IP Kwok-him (Member Question No. 42)

Reply:

The scope of professional interflows will vary with the stakeholders concerned in schools and among schools. To meet the diversified professional development needs of various stakeholders, professional interflows can be arranged at different levels, including the school management, teachers and students, and in such areas as school development and planning, lesson observation and evaluation, school-parental partnership, student activities, through school visits, seminars and experience-sharing, etc.

EDB has earmarked a total provision of \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland (“the Pilot Scheme”). Under the Pilot Scheme, upon vetting and approval of the applications, a successful applicant school will be provided with a fixed grant of \$120,000 per annum within the three-year implementation period of the Pilot Scheme starting from the 2015/16 school year. Participating schools should use the designated grant to meet the expenses of sister school exchange activities and relevant support relating to the objectives of the Pilot Scheme. Any unspent grant by the schools at the end of the 2017/18 school year will be returned to EDB. Implementation details will be announced through a circular to be issued to schools in due course. Schools are required to observe the established principles and requirements on the use of public funds as set out by EDB when using the grant. Given the diverse modes and contents of exchange activities and the different school circumstances, schools would need some flexibility in deployment of the grant. In line with the existing accountability requirement, schools applying to join the Pilot Scheme are required to submit a plan endorsed by their Incorporated Management Committee/School Management Committee listing out the planned activities and related budget.

Director of Bureau: Secretary for Education
Question:

Regarding the services and support provided for the work in respect of gifted students, measures relating to gifted students are shown as a Gifted Education Fund of \$800 million on Page 357.

1. What were the support measures for gifted students in the past and their respective provisions? After the setting up of the proposed Gifted Education Fund of \$800 million, will the expenses of all the original and new support measures be centrally borne by the fund? Will the original support measures with direct financial commitments be cancelled?
2. How was the amount of \$800 million of the Gifted Education Fund determined? Can it meet future needs?
3. Did the Administration gather any statistics on the future courses, including further studies and employment as well as significant inventions and achievements, of students who have received the support?

Asked by: Hon IP Kwok-him (Member Question No. 30)

Reply:

1. Education Bureau (EDB) has adopted a broad definition of giftedness from the perspective of multiple intelligences, and a three tier model of gifted education. Among the three tiers, Level 1 and Level 2 take place mainly in schools. Level 1 refers to using pedagogies that could make good use of the potential of students in creativity, critical thinking, problem solving or leadership in classrooms, and Level 2 refers to offering pull-out programmes in disciplinary or interdisciplinary areas for the more able students within the school. Level 3 refers to the provision of learning opportunities for exceptionally gifted students by very specialist training outside the school setting. EDB supports schools to cater for the needs of gifted students at Levels 1 and 2 through production of curriculum resources, provision of professional development programmes for teachers, provision of learning activities for students and collaboration with other stakeholders. The Hong Kong Academy for Gifted Education (HKAGE) has been providing off-school programmes for the exceptionally gifted students at Level 3 since 2008, in collaboration with tertiary institutions and non-governmental organisations. In addition, it also supports the participation of Hong Kong students in international competitions, and provides services for parents. Schools can make use of the various resource provisions such as Capacity Enhancement Grant, Diversity Learning Grant for Other Programmes flexibly to cater for the needs of gifted students at Levels 1 and 2. In this light, we are unable to provide the exact amount of provisions allocated to gifted students.

We plan to set up the \$800 million Gifted Education Fund (the Fund) to enhance the development of gifted education so as to enrich the talent pool and enhance the competitiveness of Hong Kong, in particular, to support the HKAGE to nurture exceptionally gifted students at Level 3. After its set up, expenses of those measures offered by EDB at Level 1 and Level 2 will continue to support teachers and schools in implementing their school-based gifted education programmes and activities.

2. In determining the amount of the Fund, the Government has made reference to the financial need of the relevant projects to ensure that there is an effective use of public money, reflecting the Government's commitment on gifted education and a responsible spending philosophy. The Fund together with its expected investment return based on 3% to 4% per annum would provide a regular revenue source to support the operation of the HKAGE and to enhance the development of gifted education in Hong Kong. The HKAGE is planning to expand its services in the future and to widen its sources of income, such as soliciting donations from other sources as well as imposing a fee-charging mechanism in some of their programmes.
3. Regarding statistics of future courses and studies of students who have received support, the tracking of gifted students has only been started by the HKAGE and systematic data are not available from institutions which also provide programmes at Level 3. As such, we did not gather any statistics of gifted students on the future courses, including further studies and employment. However, records of Hong Kong students participating in some major national, regional and international competitions are being kept. Some of these records contain information of significant inventions by the students.

Question:

Regarding the plan to “continue to provide training and support to school leaders, middle managers and teachers for the implementation of the senior secondary curriculum”, please:

1. List the support measures and financial provision targeted for the abovementioned 3 positions.
2. The New Senior Secondary (NSS) Curriculum has been implemented for over 5 years, have the support and financial provision for the implementation of the NSS Curriculum been gradually reduced? Please provide the information on the financial provision for the related support in the recent 3 years.

Asked by: Hon IP Kwok-him (Member Question No. 41)

Reply:

(1) & (2)

To support the implementation of the New Senior Secondary (NSS) curriculum under the New Academic Structure (NAS) and the Hong Kong Diploma of Secondary Education (HKDSE) Examination (including School-based Assessment), the Education Bureau (EDB) continues to provide training, support as well as resource materials for school leaders, middle managers and teachers. A series of professional development programmes (PDPs) under different themes have been organised every year to suit different needs of school leaders, middle managers and teachers. School-based professional support services have been provided to enhance the professional capacity of teachers. Besides, learning and teaching resource materials (e.g. curriculum and assessment guides, supplementary notes, learning and teaching packages) for the NSS subjects were developed during the last few years to support school leaders, middle managers and teachers in the implementation of NSS curriculum.

The expenditures for teachers' professional development for the NAS have varied in the recent 3 years. For 2013-14, the expenditure on teacher training is about \$4.4 million. For 2014-15, the expenditure on teacher training is about \$3.3 million. The adjustment in the expenditure is attributable to the fact that most teachers have been equipped with the necessary knowledge and skills of the learning, teaching and assessment for the NSS subjects, thus the need for relevant training declined. For 2015-16, the expenditure on teacher training is about \$4.4 million. The increase is ascribed to the fact that more PDPs were organised to help teachers implement the recommendations of the NAS Review.

Since the provision of school-based professional support and resources materials is carried out by EDB and the cost is subsumed under EDB's overall expenditure, a separate breakdown on the staffing and financial implications is not available.

Director of Bureau: Secretary for Education

Question:

It is stated in paragraph 11 that the Government will continue to expand the School-based Educational Psychology Service to cover all public sector primary schools by the 2016/17 school year and further enhance the service by progressively improving the ratio of educational psychologist to schools to 1:4 from the same school year for public sector primary schools with a large number of students with special educational needs. In this connection, please advise this Committee of the following:

- (1) How to define public sector primary schools with a large number of students with special educational needs?
- (2) Based on the definition in (1), what was the number of public sector primary schools with a large number of students with special educational needs in the 2014/15 school year and what is the corresponding number in the 2015/16 school year?
- (3) What is the current ratio of educational psychologist to schools and what is the schedule for progressively improving the ratio of educational psychologist to schools to 1:4 for public sector primary schools with a large number of students with special educational needs?
- (4) What are the revised estimates or estimates for School-based Educational Psychology Service in the 2015-16 and 2016-17 financial years and what are the reasons for the changes in the estimates?

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 39)

Reply:

(1) to (3)

The School-based Educational Psychology Service (SBEPS) will cover all public sector primary and secondary schools by the 2016/17 school year. Under SBEPS, one Educational Psychologist (EP) serves six to ten public sector schools (including primary and secondary schools).

The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. The Education Bureau (EDB) will accord priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students requiring individual support, etc. EDB will continue to keep in view the service needs of schools as a whole.

(4)

The revised estimate in the provision of SBEPS for public sector primary schools for the 2015/16 school year is \$51.7 million. With the extension of SBEPS to cover all public sector primary schools, and implementation of enhanced provision to schools with a higher level of need, the estimated expenditure in the 2016/17 school year is \$73.4 million.

Reply:

All along, we have been implementing various measures for improving the learning and teaching of English Language in primary schools. The measures taken have built up the capacity of the schools for raising students' English proficiency, developed students' reading interest, facilitated whole-school curriculum planning, enhanced professionalism and pedagogy of English teachers, provided students with a rich and authentic language environment in schools for further raising their interest in learning and using English.

In 2016-17 financial year, we will continue to improve the teaching and learning of English Language in primary schools. Details of the support measures and provisions in 2015-16 and 2016-17 financial years are tabulated below. The provisions for the two financial years (including those from the Language Fund) are very similar.

Initiative/Project	Objectives and details	Provision (financial year)	
		<u>2015-16</u> <u>(\$m)</u>	<u>2016-17</u> <u>(\$m)</u>
A. Grants to school			
*1. English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.	Provision was approved in the 2009-10 financial year.	
2. English Extensive Reading Scheme (ERS)	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.	0.21	Figures are not available as it depends on the number of non-Incorporated

Initiative/Project	Objectives and details	Provision (financial year)	
		<u>2015-16</u> <u>(\$m)</u>	<u>2016-17</u> <u>(\$m)</u>
			Management Committee schools in the 2016/17 school year which is yet to be confirmed.
B. School-based support			
*1. Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).	26.4	26.4
C. Professional development			
*1. Professional Development Incentive Grant Scheme for Language Teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.	Provisions were approved in the 2003-04 and 2005-06 financial years.	
1. Scholarship scheme to attract talent to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.	10.78	10.96
2. Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.	0.38	0.23

Initiative/Project	Objectives and details	Provision (financial year)	
		<u>2015-16</u> <u>(\$m)</u>	<u>2016-17</u> <u>(\$m)</u>
3. Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).	0.06	0.02
D. Creating a facilitating environment for English learning			
1. The Native-speaking English Teacher Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.	390.00	401.70
*2. English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.	6.14	6.34
*3. Sponsorship Programme	To engage community partners in organising language-related events/competitions in the community.	0.41	Funding has not been approved.
Total:		434.38 (32.95 from Language Fund)	445.65 (32.74 from Language Fund)

* Initiatives are funded by the Language Fund.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In respect of the support measures for non-Chinese speaking (NCS) students mentioned in paragraphs 11 and 18, will the Administration inform this Committee of:

- (1) the numbers of secondary and primary schools eligible to receive the provision to enhance support for NCS students in learning the Chinese language in the 2014/15 and 2015/16 school years respectively;
- (2) the revised estimate or estimate for the implementation of various measures to enhance support for NCS students in learning the Chinese language in primary schools in 2015-16 and 2016-17 respectively, as well as the reasons for the increase or decrease in the expenditure; and
- (3) the revised estimate or estimate for the implementation of various measures to enhance support for NCS students in learning the Chinese language in secondary schools in 2015-16 and 2016-17 respectively, as well as the reasons for the increase or decrease in the expenditure.

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 41)

Reply:

- (1) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary and secondary schools and the creation of an inclusive learning environment in schools. In this connection, all schools admitting 10 or more NCS students are provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. A total of 173 schools (including 100 primary schools and 73 secondary schools) and 197 schools (including 112 primary schools and 85 secondary schools) are provided with the enhanced funding to support their NCS students in the 2014/15 and 2015/16 school years respectively.
- (2) & (3) The estimated expenditure for primary and secondary schools for the 2015/16 and 2016/17 schools years with breakdown by relevant support measures is tabulated at Annex A and Annex B respectively. As shown in the tables at Annexes A and B, the major component of the expenditure in question is the recurrent funding for schools depending on the number of NCS students admitted. The expenditure may therefore vary from year to year.

CONTROLLING OFFICER'S REPLY**EDB091****(Question Serial No. 2807)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

According to Paragraph 18, the Bureau will “continue to provide Applied Learning courses for senior secondary students”. In this connection, please advise this Committee on the following:

- (1) the total revised estimate or estimate for the provision of Applied Learning courses, the revised estimate or estimate per student of the Applied Learning courses, and the number of students taking the Applied Learning courses in the 2015-16 and 2016-17 financial years; and
- (2) the revised estimate or estimate for promoting the Applied Learning courses to students, parents, local employers and other stakeholders in the 2015-16 and 2016-17 financial years, and the reasons for the increase or decrease in the estimate.

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 42)

Reply:

- (1) Details of EDB's expenditure regarding the implementation of Applied Learning in 2015-16 and 2016-17 are as follows:

Financial Year	2015-16	2016-17
Estimated Expenditure (\$ million)	56	73
Estimated Number of Enrolments	9 196	9 915
Estimated Expenditure per Student per Course (\$)*	6,100	7,400

(* rounded to the nearest hundreds)

The table above shows the costs of providing the Diversity Learning Grant and Student Grant for Applied Learning Chinese (for non-Chinese speaking students) for subsidising schools for paying course fees to Course Providers operating Applied Learning and Applied Learning Chinese (for non-Chinese speaking students) courses respectively. The increase in the total expenditure and the expenditure per student per course is due to the increase of the estimated course fees and implementation of full subsidy in the 2016/17 school year and beyond for Applied Learning courses.

- (2) There have been continuous promotions to students, parents, employers etc on Applied Learning courses since the implementation. The expenditure for organising the promotion activities (including briefing to schools, parents seminars, exhibition, sharing with employers) for Applied Learning courses is absorbed under staffing and operational expenditure and no separate estimate can be identified.

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

According to Paragraph 23, the Bureau will “continue with the establishment of the special school cum resource centres through which special schools collaborate with mainstream schools” and “continue to implement the adapted curriculum in schools for children with intellectual disability (ID) and enrich learning and teaching materials for implementing the New Academic Structure”. In this connection, please advise this Committee on the following:

- (1) The respective number of special school cum resource centres and the estimate for each special school cum resource centre in the 2015-16 and 2016-17 financial years; and
- (2) The respective revised estimate or estimate to implement the adapted curriculum in schools for children with intellectual disability and enrich learning and teaching materials for implementing the New Academic Structure in the 2015-16 and 2016-17 financial years, as well as the specific programmes to provide support for children of mild, moderate or severe ID and children with special educational needs (non-ID) and the estimate for such programmes in the 2015-16 and 2016-17 financial years.

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 43)

Reply:

- (1) Special Schools cum Resource Centres (SSRCs) place emphasis on empowering teachers of mainstream schools in catering for their students with special educational needs through cross-fertilization of expertise and networking. There are 10 SSRCs providing support services for the mainstream schools through on-site consultation, lesson observation, case conferences, school-based workshops/seminars, and sharing of resource materials, etc. in the 2015/16 and 2016/17 school years. The SSRCs also conduct district-based seminars and workshops for sharing of good practices. Besides, there are 7 schools for social development (SSD) serving as Resource Centres [SSRCs(SSD)] in the 2015/16 and 2016/17 school years. The SSRCs(SSD) provide support for their leavers in their first year of returning to mainstream schools and for the mainstream schools concerned to facilitate the smooth integration of these students into the school life. In addition to the basic provision of \$182,000, the additional amount of subsidies provided for SSRCs/SSRC(SSD)s is calculated based on the actual number of schools they support and the number of cases they handle. Estimated expenditures in the 2015/16 and the 2016/17 school years for 10 SSRCs and 7 SSRCs(SSD) are set out in the Appendix.
- (2) According to the 2015/16 school year revised estimates and the 2016/17 school year estimates, the total expenditures on implementing adapted curriculum in schools for children with intellectual disability (ID) and on enriching learning and teaching materials for implementing the new academic structure are \$19.5 million and \$20.5 million respectively. The expenditures incurred for the specific programmes to provide support for schools have covered different categories of ID students (mild, moderate or

severe grade) and non-ID students with special educational needs in special schools. These programmes include curriculum adaptation and resource development, provision of senior secondary curriculum support grant and diversity learning grant for schools. The revised estimates for these programmes for 2015/16 school year are \$13.9 million and estimates for the 2016/17 school year are \$18.3 million.

.

Reply:

- (1) The Vocational Training Council (VTC), as the major vocational and professional education and training (VPET) provider in Hong Kong, has been actively promoting the benefits and value of VPET. The key promotion strategies and activities are highlighted as follows –
 - (a) To strengthen the engagement with different stakeholders in the community, including students, parents, school principals, teachers and the general public to promote VPET;
 - (b) To enhance public awareness of VPET programmes via advertising and promotion campaigns in various media including television, newspaper, outdoor platforms, social media as well as digital media;
 - (c) To raise the awareness of the general public of the importance of VPET and skills training through organising skills competitions, demonstrations and career exhibitions; and
 - (d) To promote apprenticeship and traineeship schemes to attract young people to join various industries and help them plan their career pathways.

All these activities form an integral part of VTC's on-going work and no additional resources are sought. Furthermore, in response to the Government's acceptance of the recommendations made by the Task Force on Promotion of Vocational Education in the 2016 Policy Address, VTC is currently reviewing its strategies in promoting VPET with a view to widening the acceptance of VPET among the general public.

- (2) With the Government's one-off funding support of \$43 million in 2012-13, VTC had launched a two-year pilot programme to support industrial attachments for student intakes to subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The programme aims at enhancing the employability of students and preparing them for a smooth transition from study to work.

The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employment-readiness. Given the encouraging results, recurrent funding of about \$18 million has been allocated to VTC starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in VTC will benefit every year.

CONTROLLING OFFICER'S REPLY**EDB094****(Question Serial No. 2811)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is mentioned in paragraph 46 that “the Bureau continues to collaborate with the Standing Committee on Language Education and Research in supporting language education at all key stages and improving the language skills of the community in general”. In this regard, will the Bureau inform this Council of the specific measures or support that have been taken or given by the Bureau and the Standing Committee on Language Education and Research to improve the language skills of the community in general, the revised estimates or estimates for carrying out those measures and the reasons for the increase or decrease in the estimates for 2015-16 and 2016-17 financial years.

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 46)

Reply:

All along, we have been implementing various support measures for raising the Chinese and English standards of our primary and secondary students as well as the community in general. In 2015-16 financial year, the provision for the purpose totalled \$919.63 million, of which \$102.88 million is from Language Fund. In 2016-17 financial year, the estimated expenditure is \$892.66 million, of which \$44.13 million is from Language Fund. The decrease in the estimates for 2016-17 financial year is mainly due to the allocation of funds for research and development projects in 2015-16 financial year. Details of the support measures are tabulated as below:

Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their

No.	Name of Project	Details
		professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the Chinese and English Language curriculum more effectively.
4.	Resource packages for language teachers	To enhance teachers' knowledge and skills and to give them suggestions on effective learning, teaching and assessment of Chinese and English Language.
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme for Primary Schools (PNET Scheme)	Under the PNET Scheme, NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools (ENET Scheme)	Under the ENET Scheme, NETs collaborate with local English teachers to enrich the English language environment in schools and to enhance the learning and teaching of English with linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school is provided with a NET.
*3.	Promotion of Chinese	To promote Chinese writing to local students, nurture writing culture in schools, arouse students' interest and enhance their proficiency in writing. District-based

No.	Name of Project	Details
		programmes are also organised for non-Chinese speaking (NCS) students to motivate them to learn Chinese Language.
*4.	Promotion of Putonghua	To create a conducive language environment for students and provide them opportunities to use Putonghua.
*5.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*6.	Sponsorship Project	To engage community partners to organise language-related events/competitions in the community.
E. Others		
*1.	Research and Development Projects#	To fund research and development projects on specific themes which are of strategic importance to the language education of Hong Kong.
*2.	Workplace English Campaign	To heighten public awareness on the importance of English in the workplace and raise the English standards of the Hong Kong workforce.
3.	Support for Non-Chinese Speaking (NCS) Students in Learning Chinese Language	To develop the “Learning Framework” and the supporting learning and teaching materials for implementation starting from the 2014/15 school year.
*4.	Strengthening Support for Non-Chinese Speakers in Learning Chinese Language	To develop vocational Chinese Language courses for non-Chinese speaking school leavers to enhance their employability, and develop learning and teaching materials to provide them with self-learning tools in learning Chinese Language as well as enhance effectiveness in teaching Chinese Language for NCS.

* Initiatives funded by Language Fund

**The initiative is funded out of Head 173 Student Financial Assistance Agency

An allocation of \$50.9 million was approved in 2015-16 financial year under the Language Fund for research and development projects which will be completed by 2018-19 financial year.

CONTROLLING OFFICER'S REPLY

EDB095

(Question Serial No. 2812)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is mentioned in paragraph 47 that the Education Bureau (EDB) will “continue to monitor and facilitate the provision of school places for meeting the needs of the international community in Hong Kong, particularly through allocation of vacant school premises and greenfield sites for international school development”. Will EDB inform this Committee of the following:

- (1) In the 2015/16 and 2016/17 financial years, what is the revised estimate or the estimate for the said initiatives?
- (2) In the 2015/16 financial year, what are the total number of international secondary schools, international primary schools, international kindergarten and other types of international schools, as well as the number of school places of the respective types of international schools?
- (3) In the 2016/17 financial year, what will be the estimated total number of international secondary schools, international primary schools, international kindergarten and other types of international schools, as well as the number of school places of the respective types of international schools?
- (4) Has EDB taken initiatives to proactively assist overseas professionals in making arrangements for their children's enrolment in international schools in Hong Kong? If it has, what are the details of the initiatives? What is the revised estimate or the estimate for the said initiatives for the 2015/16 and 2016/17 financial years?

Asked by: Hon Mrs Regina IP LAU Suk-yee (Member Question No. 47)

Reply:

The Government is committed to developing a vibrant international school sector mainly to meet the demand for international school places from overseas families living in Hong Kong and families coming to Hong Kong for work or investment. In this regard, the Government has been supporting development of international primary and/or secondary schools through allocation of suitable vacant school premises and greenfield sites, as well as providing support for in-situ expansion of existing international primary and/or secondary schools. Under the prevailing policy, international schools receiving government assistance in the form of vacant premises or sites are required to admit non-local students at no less than 70% of their overall student population. Under the last school allocation exercise completed in 2015, favourable consideration was given to proposals accepting a higher proportion of non-local students. All of the five successful applicants have committed to allocate 80% or more of the school places to non-local students.

In the 2015/16 school year, there are a total of 50 international schools (excluding the special school) in Hong Kong, offering some 22 400 primary school places (including reception places as appropriate) and about 18 700 secondary school places ^{note}.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, it is projected that around 1 100 additional places will be available in 2016/17 school year. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

Recurrent administrative expenditure arising from the monitoring of the supply and demand of international school places, supporting international school expansion projects and the management of school allocation exercises for international school development will be absorbed by the existing resources of this Bureau.

Note

- (1) Figures include English Schools Foundation (ESF) schools and other private international schools but not the special school operated by ESF.
- (2) Figures refer to position as at September 2015.
- (3) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.

- End -

CONTROLLING OFFICER'S REPLY**EDB096****(Question Serial No. 1296)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Bureau aims at providing a broad range of support services for kindergartens as well as primary and secondary schools and catering for learner diversity. In recent years, the number of children with developmental disabilities such as attention deficit disorder and dyslexia has continued to increase. In this regard:

- (1) What support services for ordinary kindergartens or kindergarten-cum-child care centres have been provided by the Bureau so that students in need of such services can receive training and treatment as soon as possible during the golden period for intervention? Will the Bureau increase resources to provide support for kindergartens or child care centres and provide more relevant training and support for frontline teachers? If yes, what are the details? How are they different from those of 2014 and 2015? If no, what are the reasons?
- (2) Will the Bureau consider extending the relevant support services to primary schools to provide continuous support for students? If yes, what are the details? What are the estimated expenditure and manpower arrangement? If no, what are the reasons?

Asked by: Hon Paul TSE Wai-chun (Member Question No. 14)

Reply:

(1)

The Government has all along been providing various services for children with developmental problems through the collaborative efforts of various government departments, including Department of Health (DH), Hospital Authority (HA), Social Welfare Department (SWD) and Education Bureau (EDB). Specifically, DH and HA arrange assessment, treatment and referral of rehabilitation services for children with developmental disorders. SWD provides pre-school rehabilitation services for children with disabilities from birth to the age of six and helps their families meet their special needs. EDB provides training for kindergarten (KG) teachers in collaboration with DH to equip pre-primary teachers, among others, so that they can identify children with developmental problems for due referral for initial assessment at Maternal and Child Health Centres (MCHCs). Professional development programmes and school-based support services are also provided by EDB to strengthen teachers' capacity in formulating appropriate teaching strategies to meet the developmental needs of children and to handle individual differences.

Besides, the Labour and Welfare Bureau has launched a pilot scheme to provide on-site rehabilitation services to benefit children with special needs who are studying in KGs and KG-cum-child care centres. The service is delivered by inter-disciplinary teams (comprising occupational therapists, physiotherapists, speech therapists, clinical / educational psychologists, social workers and special child care workers). With the implementation

of the free quality KG education policy with effect from the 2017/18 school year, the enhanced teacher-pupil ratio of 1:11 (principal not included) will create space for KG teachers to collaborate among themselves to take care of the diverse needs of students (including those at risk of developmental delay), and to enable better professional collaboration with the inter-disciplinary teams in the above-mentioned pilot project to support the students with special needs.

In addition, EDB will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use of KG teachers to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers. Besides, EDB will devise a teacher professional development framework to enhance their understanding of the children's development needs and to empower them to identify and cater for learner diversity, including children at risk of developmental or behavioral problems. Under the framework, more structured in-service training programmes will be offered for KG teachers and training targets will be set for each KG.

(2)

For students who are entering Primary One and assessed as having special educational needs (SEN) by the Child Assessment Service (CAS) under the DH/HA, EDB will, upon parent consent, transfer their information provided by CAS to the schools concerned before commencement of the school year for early arrangement of suitable support services. Moreover, EDB has put in place a territory-wide "Early Identification and Intervention Programme for Primary One Students with Learning Difficulties" for all public sector primary schools to identify students in primary one suspected of having learning difficulties. Schools will arrange early intervention for those students identified to have learning difficulties and monitor the progress of the students. All students assessed to have SEN, including students with specific learning difficulties and attention deficit/hyperactivity disorder will be provided with support by their schools having regard to their individual needs, under a 3-Tier Intervention Model. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to "add-on" intervention, such as small group learning and pull-out programmes, for students with persistent learning difficulties including those with SEN. Tier-3 support refers to intensive individualized support for students with severe learning difficulties and SEN.

To support schools to cater for their students with SEN, EDB has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, and additional teachers under different schemes, etc. Schools should pool school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN based on their needs, including employing additional teachers, teaching assistants or hiring professional services (such as speech therapy and other specialist services).

EDB provides schools with professional support on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists. Besides, the professional staff of EDB pays regular visits to schools to render professional advice on their support policies and measures, teaching strategies and resource deployment, etc. Starting from the 2016/17 school year, the School-based Educational Psychology Service will cover all public sector primary and secondary schools and it will be further enhanced by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with SEN. We have also been developing teaching resources for use of teachers and parents to cater for students with SEN. EDB has invited schools with rich experience in supporting students with SEN and implementing integrated education (IE) to serve as Special Schools cum Resource Centres and Resource Schools on Whole School Approach. They conduct professional exchanges with other mainstream schools on effective strategies in implementing IE and provide school-based support for them.

In terms of teacher training, EDB launched a teacher professional development framework in the 2007/08 school year to enhance teachers' capacity in supporting students with SEN, under which structured teacher training pitched at basic, advanced and thematic levels (BAT Courses) are arranged. Apart from the BAT Courses, EDB also provides teachers and other school personnel such as school heads and teaching assistants with different theme-based training activities, including seminars, workshops and sharing sessions to equip school staff at different levels with relevant knowledge and skills to cater for the students with SEN.

The estimated additional expenditure on support and services provided for public sector primary and secondary mainstream schools in catering for students with SEN in the 2015/16 school year is about \$1,315 million.

	<u>Post/Rank</u>	<u>Number</u>	<u>Nature</u> ^{Note 1}	<u>Annual</u> <u>Salary</u> ^{Note 2} <u>(\$million)</u>
		24	Non-CS	
(v)	Curriculum Development Officer	91 103	CS Non-CS	157.40
(w)	Project Officer	See Note 4	NCSC	See Note 4

Notes

- 1 PA denotes politically-appointed officials; CS denotes civil service posts; NCSC denotes non-civil service contract positions and Non-CS denotes non-civil service posts.
- 2 Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries of the civil service posts.
- 3 This figure excludes the Executive Officer/Secretary for Education's Office post (i.e. post/rank (f)).
- 4 We may engage these personnel in a year to meet changing operational and service needs. We are therefore unable to project the number in the 2016-17 financial year before it begins.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 General Expenses of the Civil Service and there is no provision for individual officers under Head 156. As regards the non-civil service Curriculum Development Officers posts, the estimates for expenditure for housing benefits of the incumbents in 2016-17 under Head 156 are \$12.6 million. There is no provision for housing allowances for the Secretary, Under Secretary, Political Assistant and the other non-civil service contract staff.

In 2016-17, officials of Education Bureau will conduct duty visits and consume official meals based on operational needs and prior approval is needed before incurring any related expenses. In making an application for duty visit or official entertainment, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. There is no provision for expenses for duty visits and entertainment for individual officers.

- End -

CONTROLLING OFFICER'S REPLY**EDB098****(Question Serial No. 2181)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In the 2015/16 school year, how many cross-boundary students (CBS) were allocated P1 school places through the dedicated school net of the Central Allocation? How many were admitted to P1 through the Discretionary Places Admission? Please list by districts.

Asked by: Hon LEUNG Kwok-hung (Member Question No. 2038)

Reply:

The Primary One Admission (POA) System is divided into two stages, namely the Discretionary Places Admission stage and the Central Allocation stage. In brief, at the Discretionary Places Admission stage, parents including parents of cross-boundary students (CBS) may apply to any public sector primary schools. School places in the Central Allocation stage are allocated to students who have not been offered a Discretionary Place by schools and based primarily on parents' prioritised choices. In the case of over-subscribed schools at the Central Allocation stage, applicant children residing in school nets under the POA System will be allocated a Primary 1 (P1) place in any school having available places in the school net to which they belong, though the schools allocated may not have been chosen by the parents. Likewise, CBS will be allocated a school place in the schools having available places and specified in the respective Choice of Schools List for the Central Allocation of the POA cycle. The Choice of Schools List for the Central Allocation (For Applicant Children Residing in the Mainland) consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS. The number of P1 places included in the Choice of Schools List for the Central Allocation (For Applicant Children Residing in the Mainland) of POA 2015 for admission to P1 in the 2015/16 school year by school net is tabulated at Annex A.

In POA 2015 (for admission to P1 in the 2015/16 school year), a total of 4 149 CBS were allocated a P1 place including 1 435 at the Discretionary Places Admission stage and 2 714 at the Central Allocation stage.

Every eligible applicant child will be allocated a public sector P1 place under the POA System. Apart from the afore-mentioned arrangement under the POA, due to various factors (including the number of newly arrived children from the Mainland, parental choices, etc.), there are uncertainties about the actual demand for P1 places and the situation in different districts or school nets in each allocation cycle may vary. The eventual number of places for the Central Allocation is subject to adjustment based on the actual demand for school places from January (school choice making) to May (computer-processing for the Central Allocation) every year. Based on the annual surveys conducted via schools, the number of CBS studying in public sector schools at P1 level in the 2015/16 school year with breakdown by district is at Annex B.

**Primary One Places in Choice of Schools List for Central Allocation
for Cross-boundary Students in Primary One Admission (POA) 2015 by School Net
(For Admission to Primary One in the 2015/16 School Year)**

POA School Net	P1 Places
43	150
66	175
70	616
71	201
72	695
74	70
80	112
81	117
83	24
84	152
89	100
98	200

Note:

Figures refer to the position as at January of 2015 when the 2015 Choice of Schools List for Central Allocation (For Applicant Children Residing in the Mainland) was compiled to facilitate parents to make school choice for Central Allocation of POA 2015.

**Number of Cross-boundary Students (CBS) Studying in Public Sector Schools
at Primary One in the 2015/16 School Year**

District	Number of CBS
North	1 194
Tai Po	550
Yuen Long	1 039
Tuen Mun	716
Tsuen Wan	7
Kwai Tsing	38
Tung Chung	57
Sha Tin	162
Wong Tai Sin	106
Total	3 869

Note:

Figures are based on the annual survey conducted via schools in September 2015 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

CONTROLLING OFFICER'S REPLY

EDB099

(Question Serial No. 2076)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Under this programme, it is stated that the Bureau continues to oversee the implementation of the Basic Competency Assessment and it is mentioned under Matters Requiring Special Attention that the Bureau will continue to implement measures and make refinements to enhance the development of Hong Kong as a regional education hub, including planning to introduce the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong starting from the 2016/17 academic year. Will the Administration inform this Committee of the followings:

- (1) For 2016-17, what are the staffing, estimated annual expenditure on emoluments and operational expenses for overseeing the implementation of the Basic Competency Assessment under this programme?
- (2) What are the staffing, estimated annual expenditure on emoluments and operational expenses for overseeing the Territory-wide System Assessment (TSA) at primary 3, primary 6 and secondary 3 under this programme?
- (3) It is learnt that the Deputy Secretary for Education (5) is responsible for the review of the TSA. What is the annual expenditure on emoluments for this post for 2016-17?
- (4) For 2016-17, what are the staffing, estimated annual expenditure on emoluments and operational expenses for implementing measures relating to the Hong Kong Scholarship for Belt and Road Students?
- (5) For 2016-17, what are the staffing, estimated annual expenditure on emoluments and operational expenses for enhancing the development of Hong Kong as a regional education hub?
- (6) What are the operational expenses, staffing, estimated annual expenditure on emoluments for this programme for 2016-17?
- (7) There is an increase of 26 posts in 2016-17 under this programme, what are the names, main duties and estimated annual emoluments of these 26 posts?

Asked by: Hon Albert CHAN Wai-yip (Member Question No. 37)

Reply:

(1) and (2)

The manpower and the relevant staff costs in relation to the Basic Competency Assessment (BCA) project could not be identified separately as they are absorbed by the existing resources of the Education Bureau (EDB).

EDB has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the BCA project, including the Primary 3, Primary 6 and Secondary 3 Territory-wide System Assessment (TSA). The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The contract sum on TSA under the 2015-2018 contract is \$296 million. Average expenditure per year is \$74 million. Taking into account the report by the Coordinating Committee on Basic Competency Assessment and Assessment Literacy on TSA, we will follow up on the implementation of the recommendations, including reviewing the related resources requirement.

(3)

The annual salary for Deputy Secretary for Education (5) (DS(Ed)5) is \$2.29 million. ^{Notes 1 and 2}

(4)

The amount of scholarship to be granted under the Hong Kong Scholarship for "Belt and Road" Students in 2016-17 will be at most \$1.2 million. The manpower and related expenditure for the administration of the scheme could not be identified separately as they are absorbed by the existing resources of EDB.

(5)

The initiatives of enhancing Hong Kong as a regional education hub are regular policy work of EDB. Hence, the manpower and related expenditure for its implementation could not be identified separately as they are absorbed by the existing resources of EDB.

(6)

For 2016-17, the financial provision for the operational expenses for Programme 7 is \$2,102.16 million. The staffing and provision of personal emoluments for this programme are 1 679 and \$1,011.1 million respectively.

(7)

The increase of 26 posts under Programme 7 in 2016-17 is the net result of the planned creation of 32 posts and planned deletion of 6 posts. The breakdown of the above posts by rank and annual salary is as follows-

<u>Rank</u>	<u>Posts to be created</u>	<u>Annual Salary</u> ^{Note 1} <u>(\$million)</u>
Education Officer (Administration)	4	3.73
Assistant Education Officer (Administration)	4	2.37
Principal Inspector	1	1.31
Inspector (Graduate)	2	1.70
Assistant Inspector (Graduate)	3	1.86
Treasury Accountant	1	0.89
Senior Accounting Officer	1	0.93
Senior Executive Officer	2	1.86
Executive Officer I	1	0.68
Executive Officer II	6	2.71
Analyst/Programmer I	1	0.68
Analyst/Programmer II	2	0.90

<u>Rank</u>	<u>Posts to be created</u>	<u>Annual Salary</u> ^{Note 1} <u>(\$million)</u>
Statistician	1	0.85
Assistant Clerical Officer	2	0.49
Workman II	1	0.15
Sub-total (A):	32	

<u>Rank</u>	<u>Posts to be deleted</u>	<u>Annual Salary</u> ^{Note 1} <u>(\$million)</u>
Senior Education Officer (Administration)	-1	1.31
Education Officer (Administration)	-2	1.86
Assistant Education Officer (Administration)	-1	0.59
Treasury Accountant	-1	0.89
Systems Manager	-1	0.93
Sub-total (B):	-6	
Net Total [(A)+(B)]:	26	

The 26 net additional posts are mainly for strengthening the professional and administrative support to various services; and for replacing long-term non-civil service contract positions.

Note 1: Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries of the civil service posts.

Note 2: The review of TSA only accounts for a very small part of DS(Ed)5's duties.

(Question Serial No. 2077)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the ongoing consultation on the renewal of the Chinese Language Education Key Learning Area Curriculum Guide (Primary 3 to Secondary 6), would the Government inform this Committee what is the estimated annual salary expenditure of the Chief Curriculum Development Officer (Chinese Language Education) responsible for the above consultation exercise in the Curriculum Development Institute of the Bureau in 2016-17?

Asked by: Hon Albert CHAN Wai-yip (Member Question No. 38)

Reply:

The Chief Curriculum Development Officer (Chinese Language Education) (CCDO(CLE)) is responsible for the curriculum development of Chinese Language Education. In 2016-17, the estimated annual salary expenditure of the CCDO(CLE) is \$1.3 million.

Note: Notional Annual Mid-point Salary (NAMS) is used for calculating the salary of the CCDO(CLE) post.

- End -

CONTROLLING OFFICER'S REPLY**EDB101****(Question Serial No. 2562)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Under the Brief Description of this Programme, the Administration states that the Bureau offers opportunities for students to join Mainland exchange programmes and arranges professional exchange programmes for teachers. It also provides professional support, where appropriate, to schools. The Administration even refers the above works as national education. In this regard, will the Government inform this Committee of the following:

- (1) What were the operating expenses involved in offering opportunities for students to join Mainland exchange programmes in 2015-16? What was the number of participants? What was the number of schools involved?
- (2) What are the operating expenses, manpower and estimated annual expenditure on emoluments involved in offering opportunities for students to join Mainland exchange programmes in 2016-17?
- (3) What are the operating expenses, manpower and estimated annual expenditure on emoluments of the Students Mainland Exchange Programme Section in 2016-17?
- (4) In respect of arranging professional exchange programmes for teachers, what was the number of teachers participated in the programme in 2015-16? What was the number of schools involved?
- (5) What are the manpower and annual expenditure on emoluments in arranging professional exchange programmes for teachers in 2016-17?

Asked by: Hon Albert CHAN Wai-yip (Member Question No. 51)

Reply:

- (1) The number of secondary and primary school students who had received subsidies to join the Mainland exchange programmes (MEPs) in 2015-16 and the expenditure involved are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)	Expenditure (\$million)
2015-16 ⁺	58 000	62.7

⁺ Provisional figures

The Education Bureau (EDB) does not keep information about whether and when individual schools have joined the MEPs, and therefore does not have a readily available number of schools involved.

(2) & (3) The estimated expenditure for organising MEPs for students in 2016-17 is \$96.4 million. The establishment of the Students Mainland Exchange Programme Section includes 15 officers of various ranks and the estimated expenditure on salaries in 2016-17 is about \$12 million.

(4) In 2015-16, the number of teachers participated in professional exchange programmes for teachers is 260. As teachers participated in the programmes in personal capacity, we do not keep data on schools involved.

(5) The staffing resources for the provision of professional exchange programmes for teachers are absorbed in the recurrent expenditures of EDB.

Note: Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries.

Question:

What are the respective estimated expenditures on the annual pay of the Secretary for Education, his Under Secretary and Political Assistant for 2016-17?

Asked by: Hon WONG Yuk-man (Member Question No. 10)

Reply:

For budgetary purposes, the estimates for the salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education in 2016-17 are \$3.58 million, \$2.33 million and \$1.25 million respectively.

- End -

CONTROLLING OFFICER'S REPLY**EDB103****(Question Serial No. 1965)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (5) Other Educational Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

The Education Bureau allocates funding to schools admitting non-Chinese speaking students to implement the "Chinese Language Curriculum Second Language Learning Framework". Schools can adopt different modes like pull-out teaching, split-class/ group learning, after-school consolidation, increasing Chinese Language lesson time, cross-curricular learning, allocating more teachers or teaching assistants to a class, etc.

In this connection, will the government inform this Council of how different schools use the funding by tabulating the amount of funding used by schools on various types of support programmes for non-Chinese speaking students and the respective numbers of schools using the funding in each of these ways in 2015/16.

Mode	Number of primary schools adopting such a mode	Number of secondary schools adopting such a mode	Total amount of funding spent by all schools on such a mode
Pull-out teaching			
Split-class/ group learning			
After-school consolidation			
Increasing Chinese Language lesson time			
Cross-curricular learning			
Allocating more teachers or teaching assistants to a class			
Others (please specify)			
Total number of schools implementing the Learning Framework			

Asked by: Hon Claudia MO (Member Question No. 15)Reply:

The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. The "Learning Framework" is applicable to all public sector primary and secondary schools and Direct Subsidy Scheme schools offering the local curriculum which admit NCS students. In the 2015/16 school year, there are about 610 schools (including 330 primary schools and 280 secondary schools) admitting NCS students.

To facilitate implementation of the “Learning Framework”, schools admitting 10 or more NCS students are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students to adopt diversified intensive learning and teaching modes as appropriate with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes.

In the 2015/16 school year, a total of 197 schools (including 112 primary schools and 85 secondary schools) are provided with the enhanced funding. The school plans submitted by these schools show that they will make reference to the learning progress of their NCS students at different learning stages based on the “Learning Framework” and adjust the learning targets and teaching strategies, including different intensive learning and teaching modes like pull-out learning, split-class/group learning, after-school consolidation, etc. as appropriate. The intensive learning and teaching modes adopted by schools are tabulated below:

Intensive learning and teaching modes ^{Note 1}	Number of primary schools adopting such mode	Number of secondary schools adopting such mode
Pull-out learning	67	54
Split-class/group learning	36	35
After-school consolidation ^{Note 2}	141	115
Increasing Chinese Language lesson time	30	18
Learning Chinese across the curriculum	15	8
Co-teaching with 2 or more teachers/teaching assistants to provide in-class support	51	19

Notes:

1. Schools may adopt more than one learning and teaching mode.
2. The figures include 34 primary schools and 48 secondary schools admitting a handful (i.e. 1 to 9) of NCS students with additional funding for after-school consolidation.

Schools receiving the enhanced funding generally adopt a holistic approach in resource planning and deployment of staff for implementation of different intensive learning and teaching modes which may be adjusted having regard to the changing needs and circumstances of their NCS students in learning the Chinese language. A breakdown of expenditure by each mode is therefore not available.

- End -

CONTROLLING OFFICER'S REPLY**EDB104****(Question Serial No. 2092)**

Head: (156) Government Secretariat: Education Bureau

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (5) Other Educational Services and Subsidies, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

- (a) the number of primary schools using Chinese as the primary medium of instruction, the number of students studying in these primary schools, the number of non-Chinese speaking students studying in these primary schools and the number of ethnic minority student studying in these primary schools;
- (b) the number of primary schools using English as the primary medium of instruction, the number of students studying in these primary schools, the number of non-Chinese speaking students studying in these primary schools and the number of ethnic minority student studying in these primary schools;
- (c) of the primary schools referenced in (b), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these primary schools;
- (d) the number of secondary schools using Chinese as the primary medium of instruction, the number of students studying in these secondary schools, the number of non-Chinese speaking students studying in these secondary schools and the number of ethnic minority student studying in these secondary schools; and
- (e) the number of secondary schools using English as the primary medium of instruction, the number of students studying in these secondary schools, the number of non-Chinese speaking students studying in these secondary schools and the number of ethnic minority student studying in these secondary schools; and
- (f) of the secondary schools referenced in (e), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these secondary schools.

Asked by: Hon Claudia MO (Member Question No. 18)

Reply:

On primary school education, the Government advocates the use of the mother tongue (i.e. Chinese, in the context of Hong Kong) as the principal medium of instruction (MOI) since students learn most effectively through the mother tongue. Irrespective of the school-based MOI arrangements adopted, schools should endeavour to nurture talents proficient in both Chinese and English. We will continue to strengthen language

learning and teaching in primary schools to help students build a solid foundation for a smooth transition to secondary education.

As regards secondary school education, starting from the 2010/11 school year, there is no longer bifurcation of public sector secondary schools into Chinese-medium and English-medium schools based on the teaching medium adopted at the junior secondary levels of Secondary 1 to Secondary 3. To ensure students' learning effectiveness, the choice and number of subjects taught in English may vary between classes within individual schools as well as among schools under the prescribed criteria. Besides, schools may also choose to conduct extended learning activities in English, which include, among others, the use of the English medium for not more than two non-language subjects. With the adoption of subject grouping at senior secondary levels in public sector schools, schools have the discretion to decide on the number of students in each teaching group including the teaching medium having regard to students' needs, aspiration and capabilities to facilitate students' articulation to multiple pathways.

Separately, it is worth noting that we are committed to encouraging and supporting non-Chinese speaking (NCS) students' integration into the community, facilitating their early adaptation to the local education system and mastery of the Chinese language. It is the earlier and the more the better for their exposure to and learning of Chinese.

Given the afore-mentioned diversified school-based arrangements, the number of students including NCS and ethnic minority (EM) students studying in public sector primary and secondary schools with breakdown by different teaching medium is not available. The total number of students studying in primary and secondary schools with breakdown by the number of NCS and EM students in the 2015/16 school year, according to the information collected through the annual Student Enrolment Survey, is tabulated below for reference:

Level	Total number of students (Notes 1 and 2)	Number of NCS students (Notes 2 and 3)	Number of NCS EM students (Notes 2 and 4)
Primary (Primary 1 - 6) (Note 5)	288 126	8 958	8 338
Secondary (Secondary 1 - 6) (Note 5)	329 757	8 782	7 998

Notes:

1. The total number of students includes also those who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.
2. Figures refer to the position as at September of 2015.
3. Figures on NCS students cover those whose ethnicity is Chinese but who are NCS based on the spoken language at home.
4. Figures on NCS EM students have excluded those whose ethnicity is not Chinese but with Chinese as the spoken language at home.
5. Figures cover students studying in public sector and Direct Subsidy Scheme primary and secondary schools. Figures do not include special schools.

In respect of the MOI for the Chinese Language Subject, primary and secondary schools may use Cantonese and/or Putonghua having regard to their own circumstances. As the number of schools that use Putonghua to teach the Chinese Language subject may vary every year, we do not possess such information.

CONTROLLING OFFICER'S REPLY

EDB106

(Question Serial No. 2094)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Education Bureau (EDB) has implemented the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) with a view to enabling non-Chinese speaking students to bridge over to mainstream Chinese classes. In this connection, will the government inform this Council of:

The EDB’s working definition of a non-Chinese speaking student who has successfully “bridged-over” to the mainstream Chinese class;

The methods through which the EDB determines the number of non-Chinese speaking students who have successfully bridged over to mainstream Chinese classes in a school;

The number of non-Chinese speaking students who have bridged over to mainstream Chinese classes in the 2014/15 and 2015/16 school years, and which grade levels these students are in;

The number of non-Chinese speaking students who are expected to bridge over to mainstream Chinese classes in the second half of the 2014/15 and 2015/16 school years, and which grade levels these students are in;

The policy goal of the Learning Framework, in terms of the number and rate of non-Chinese speaking students bridging over to mainstream Chinese classes; and

Given the EDB stated that “the number of NCS students who have bridged over or are expected to bridge over to mainstream Chinese classes would in any case only serve as reference for evaluating the effectiveness of the support measures”, all the other methods with which the EDB evaluates the effectiveness of the support measures.

Asked by: Hon Claudia MO (Member Question No. 20)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools.

The “Learning Framework”, developed from the perspective of second language learners, aims to provide teachers with a systematic set of learning targets, learning objectives and expected learning outcome arranged in “small” steps at different learning stages in accordance with the curriculum. It also serves as a set of

benchmarks for student attainment adopted as reference for evaluation of learning effectiveness. Schools are also provided with assessment tools that help them assess the attainment of NCS students as their on-going internal assessment with reference to the expected outcome of different levels. Through on-going observation and tracking of students' learning progress with reference to the expected outcome of the "Learning Framework", schools could then make evidence-based recommendations as to whether individual NCS students could bridge over to mainstream Chinese Language classes (i.e. generally referring to learning with their Chinese-speaking classmates at the same grade level) and help them make an informed choice for articulation to mainstream Chinese Language examination in the Hong Kong Diploma of Secondary Education or taking the Applied Learning Chinese (for NCS students) courses and attaining other internationally recognised Chinese Language qualifications.

All students, including NCS students, may experience ups and downs in their learning journey in primary and secondary schools. Individual NCS students' learning progress in Chinese may vary due to various factors. Teachers need to continue to monitor NCS students' learning progress even though they have been identified as suitable for studying in mainstream Chinese Language classes. Necessary support and counselling for NCS students' articulation to multiple pathways should be given in a timely manner to cater for their diversified learning needs and changes in learning progress, if any.

Against the above, to facilitate schools' implementation of the "Learning Framework" and creation of an inclusive learning environment in schools, schools provided with the enhanced funding according to the number of NCS students admitted from the 2014/15 school year are required to submit a school plan at the beginning of a school year and a report at the end of a school year. The plan and the report should include, among others, their NCS students' learning performance in Chinese based on the results of their performance evaluated by the assessment tools in conjunction with the "Learning Framework", the diversified intensive learning and teaching modes adopted to help the NCS students learn effectively and make steady progress with a view to bridging over to mainstream Chinese Language classes, and relevant feedback from major stakeholders. EDB has commissioned the University of Hong Kong to conduct analysis on NCS students' overall learning performance in Chinese by making reference to the results based on the assessment tools. The findings, in brief, show that NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to bridge over to mainstream Chinese classes in due course.

EDB has consulted teachers and language experts when formulating the "Learning Framework" and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. EDB will be reviewing the "Learning Framework" on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school contexts. At the curriculum level, the "Learning Framework" would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed.

The support measures, including the "Learning Framework", need time to take root and create a sustainable impact on the NCS students. The number of NCS students who have bridged over or are expected to bridge over to mainstream Chinese Language classes would in any case only serve as reference for evaluating the effectiveness of the support measures. EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

(Question Serial No. 2095)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau launched a Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, starting from the 2014/15 school year on a pilot basis. In this connection, will the government inform this Council of:

The number of kindergarten teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all kindergarten teachers in Hong Kong;

The number of kindergarten with teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all kindergartens in Hong Kong;

The number of primary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all primary school teachers in Hong Kong;

The number of primary schools with teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all primary schools in Hong Kong;

The number of secondary school teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all secondary school teachers in Hong Kong;

The number of secondary schools with teachers who are receiving or have completed post-secondary training in teaching Chinese as a second language and their percentage share among all secondary schools in Hong Kong;

The respective number of kindergarten, primary school and secondary school teachers subsidized by the Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language) in 2014/15 and 2015/16, and are in the relevant recognised post-secondary programmes; and

Whether the Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language) will be extended to kindergarten teachers, and if so, when.

Asked by: Hon Claudia MO (Member Question No. 21)

Reply:

In respect of teaching Non-Chinese Speaking (NCS) students to learn Chinese language, schools make different arrangements to cater for the needs of these students having regard to their own circumstances. The number of teachers teaching NCS students Chinese language may vary from school to school and even for the same school, from year to year. We do not possess data on teachers with training in teaching Chinese as a second language nor can we provide the number of schools with teachers in this regard.

With a view to encouraging serving Chinese Language teachers at primary and secondary levels to take courses that aim to enhance their pedagogical knowledge and skills in teaching Chinese to non-Chinese speaking (NCS) students, the Education Bureau (EDB) launches a Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, starting from the 2014/15 school year on a pilot basis. In the 2014/15 and 2015/16 school years, 14 and 18 as well as nine and 14 serving Chinese Language teachers teaching at primary and secondary levels have respectively been approved for earmarking of grant under the Scheme. The provision of grant comprises two tiers, including a basic subsidy and an extra subsidy. A basic level of subsidy will be offered at 30% of the tuition fee of a programme of study recognised under the Scheme, subject to maximum of \$30,000 per teacher, upon successful completion of programme of study. There is no undertaking requirement. In order to encourage more Chinese Language teachers currently teaching Chinese to NCS students to apply for the grant and continue to teach in schools offering local school curriculum upon successful completion of programme of study, an extra 30% of the tuition fee, subject to an additional maximum of \$30,000 per teacher, will be offered to those teachers who continue to teach NCS students Chinese in schools offering local school curriculum for a total of three years within five years upon successful completion of programme of study. Upon completion of the pilot run, we will wrap up the experience and consider whether the Scheme could be extended to kindergarten teachers.

- End -

CONTROLLING OFFICER'S REPLY**EDB108****(Question Serial No. 2096)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has set up a dedicated team in the Bureau to step up the monitoring of the enhanced funding support for schools to support non-Chinese speaking students' learning. The team also examines the annual plans of the schools concerned on the use of the funding and verifies them against their annual school reports. Also, the Education Bureau has finalized the research framework to evaluate the effectiveness of various support measures for non-Chinese speaking students. In this connection, will the government inform this Council of:

- (1) The membership of the dedicated team;
- (2) The indicators set under the research framework to evaluate the effectiveness of the support measures for non-Chinese speaking students and the relative weights of these indicators;
- (3) The timeline of research framework and whether results from the research will be made publicly available;
- (4) Whether there is periodic review of the impact of the support measures including the "Chinese Language Curriculum Second Language Learning Framework";
- (5) How the Education Bureau engages researchers and teachers to make the evaluation and proposals following the evaluation more evidence-based;
- (6) What kinds of information the Bureau will make public from the evaluation process to be accountable to the public; and
- (7) How the Bureau will engage stakeholders such as civil society organizations and ethnic minorities in the evaluation process.

Asked by: Hon Claudia MO (Member Question No. 22)

Reply:

- (1) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. A dedicated team, comprising EDB officers, has been set up in EDB to ensure schools' proper use of the enhanced funding ranging from \$800,000 to \$1,500,000 provided for each eligible school

per school year for this purpose. Specifically, the team will examine the annual plans of the schools concerned on the use of the funding and verify them against their annual school reports. To monitor use of the funding, which is purpose-specific for supporting NCS students' learning of the Chinese language, the team will also conduct supervisory visits to the schools. Besides, feedback will be collected from major stakeholders of each school concerned (including the principals and the co-ordinator of support measures for NCS students in each school, Chinese Language teachers teaching NCS students, NCS parents, NCS students and non-governmental organisations where appropriate) through questionnaires, interviews, etc..

- (2) EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students to ensure the quality of the support measures and refine individual measures where appropriate.
- (3)&(6) Data collection and associated research work under the research framework has started from the end of the 2014/15 school year, when initial data on the performance of NCS students and feedback on the impact of various support measures are available. EDB would share with stakeholders the findings, including the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement where appropriate.
- (4) The support measures would be reviewed on an on-going basis in light of all relevant consideration, including the findings under the research framework. As regards the "Learning Framework", EDB has consulted teachers and language experts when formulating it and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the "Learning Framework", especially the supporting materials, on an on-going basis and refine them in due course after consolidating different views and collecting learning and teaching experience in different school context. At the curriculum level, the "Learning Framework" would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, in the area of school-based professional support, feedback is being collected regarding our collaboration on student learning, teacher development and school development.
- (5) The research design is commissioned to researchers from tertiary institutions to benefit from their academic rigorousness and objectivity. First-hand information based on observation on the use of the "Learning Framework" for curriculum planning, learning, teaching and assessment as well as discussion with teachers will be used as the basis for evaluating the effectiveness of the support measures.
- (7) As an integral part of the evaluation process, EDB would engage widely stakeholders including non-governmental organisations and the ethnic minority communities through various data collection methods such as focus group discussions and interviews.

(Question Serial No. 2097)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

The list of government-funded kindergarten support programmes for non-Chinese speaking ("NCS") students in 2014/15 and 2015/16, including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of kindergartens supported, the percentage of these kindergartens among all kindergartens with NCS students, the number of NCS students supported by the programme, the percentage of these kindergarten schoolchildren among all NCS kindergarten school children, and the amount of funding allotted;

The list of government-funded primary school support programmes for NCS students in 2014/15 and 2015/16, including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of primary schools supported, the percentage of these primary schools among all primary schools with NCS students, the number of NCS students supported by the programme, the percentage of these NCS students among all NCS primary school students, and the amount of funding allotted;

The list of government-funded secondary school support programmes for NCS students in 2014/15 and 2015/16, including the institution implementing the programmes, the support target group of the programmes, the programme goal and nature, programme period, the number of secondary schools supported, the percentage of these secondary schools among all secondary schools with NCS students, the number of NCS students supported by the programme, the percentage of these NCS students among all NCS secondary school students, and the amount of funding allotted;

Asked by: Hon Claudia MO (Member Question No. 23)

Reply:

The list of government-funded support programmes implemented by institutions for non-Chinese speaking (NCS) students in the 2014/15 and 2015/16 school years and related information are provided below. As the support programmes have different objectives, target groups, durations, funding arrangements and enrollment arrangements, information like the number of students / schools supported by school levels and the related percentage figures is not readily available.

Name of programme and institution	Target participants	Goal and nature	Number of students supported in the 2014/15 & 2015/16 school years	Expenditure [#] (\$million)	
				2014/15	2015/16
Chinese Language Learning Support Centres The University of Hong Kong	NCS students in primary and secondary schools	To offer remedial programmes after school hours and during holidays at the Chinese Language Learning Support Centres for those NCS students who have a late start in learning the Chinese language	About 970 per year	3.8	3.7*
District-based programmes The Hong Kong Christian Service and The HKSKH Lady MacLehose Centre	NCS students aged 3 to 9 in localities with a greater concentration of NCS children	To motivate NCS students to learn Chinese through fun activities such as games and creative arts, etc.	About 400 per year	1.1	2.6*
Pilot on Providing Career-related Experience for NCS Students in Secondary Schools Caritas - Hong Kong	NCS students attending senior secondary class levels	To provide students with the knowledge about different jobs and prepare them for cultural adaption and integration at work through authentic career-related experience	About 600 in the 2015/16 school year	- [@]	0.4*
University-school Support Programmes (USP) The University of Hong Kong The PolyU Technology & Consultancy Company Limited and Department of Chinese and Bilingual Studies of the Hong Kong Polytechnic University	Kindergartens/ primary schools / secondary schools+ admitting NCS students which have applied for this support programme	To provide school-based professional support for schools to build teachers' capacity of the learning and teaching of Chinese language for NCS students	The USP are provided at school level and the number of students supported is not available.	11.1	17.1*

[#] Round up to nearest one decimal

* Estimated figure

[@] The pilot project commenced in the 2015/16 school year

+ The USP provided for secondary schools was completed in the 2014/15 school year.

Director of Bureau: Secretary for Education

Question:

Will the government tabulate the details of all the Education Bureau's support programmes for non-Chinese speaking students in 2014/15, 2015/16 and 2016/17 including the "Chinese Language Curriculum Second Language Learning Framework", development of the Supplementary Guide to the Chinese Language Curriculum for Non-Chinese Speaking Students, teacher training, Chinese Language Learning Support Centres and alternative Chinese examinations subsidies, and inform the Council of the actual total expenditure on support measures for non-Chinese speaking students in 2014/15 and the estimated total expenditures on support measures for non-Chinese speaking students in 2015/16 and 2016/17.

Asked by: Hon Claudia MO (Member Question No. 24)

Reply:

The support measures for non-Chinese speaking students from the 2014/15 to 2016/17 school years and the expenditure are tabulated at Annex.

**Educational support measures for non-Chinese speaking (NCS) students
from the 2014/15 to 2016/17 school years**

Support measures	Actual expenditure in the 2014/15 school year \$ million	Estimated expenditure in the 2015/16 school year \$ million	Estimated expenditure in the 2016/17 school year \$ million
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	197.8 Note 1	223.9 Note 1	244.8 Note 1
Development of the "Learning Framework" (to complement the Supplementary Guide to the Chinese Language Curriculum for NCS Students) and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1	3.0 Note 1	3.0 Note 1
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	3.8	3.7	4.0
Summer Bridging Programme for NCS students in primary schools Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.8	2.6	2.9

Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	2.3	4.9	7.5
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	1.87	2.09	2.34
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	1.09	2.58	1.72
Support for kindergartens admitting NCS students - (a) University-School Support Programmes financed by the Education Development Fund: (i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years (ii) a 2-year project to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years (b) School-based professional support services	 3.0 - Note 1	 0.7 Note 2 Note 1	 - Note 2 Note 1

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. The estimated expenditure of the USP project is \$6.3 million and \$1.8 million for the 2015/16 and 2016/17 school years respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

CONTROLLING OFFICER'S REPLY**EDB111****(Question Serial No. 2099)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) In the 2015-16 financial year, the estimated provisions for providing native-speaking English teachers (NETs) for public sector primary and secondary schools are \$390 million and \$409.2 million respectively. What are the ultimate revised estimates? What are the respective estimates for providing NETs for public sector primary and secondary schools in the 2016-17 financial year? The Administration has indicated that it will prudently consider the views of different organisations on the NET Scheme, including a public opinion survey which reveals that more than half of the respondents support the deployment of resources for the NET Scheme to provide training for local English teachers. In addition, an internal study has been conducted and an academic has been commissioned to make an evaluation in this regard. Please advise if there will be any changes to the NET Scheme in the near future.
- (b) Please provide a list of the public sector primary and secondary schools with NETs and the number of NETs in each school. What is the average amount of public funding per NET in the 2015-16 financial year? Of this amount, how much is for salaries, training, housing allowance, airfare grant, etc.? What is the cost of employing a local English teacher as compared to a NET?

Asked by: Hon Claudia MO (Member Question No. 25)

Reply:

- (a) The revised estimates and estimates for providing Native-speaking English Teachers (NETs) for public sector primary and secondary schools in the 2015-16 and 2016-17 financial years are as follows:

NET Scheme	Financial Year	
	2015-16 Revised Estimates (\$ million)	2016-17 Estimates (\$ million)
Primary Schools	385.1	401.7
Secondary Schools	398.7	429.4

The effectiveness of the NET Scheme in Primary Schools (PNET Scheme) and the Enhanced NET Scheme in Secondary Schools (ENET Scheme) is constantly under review, through commissioned evaluation studies and ongoing monitoring by EDB through school surveys, visits and inspections, etc. The latest PNET Scheme evaluation will conclude by the end of the 2015/16 school year. The commissioned

evaluation study of the ENET Scheme will commence in the latter half of the 2015/16 school year. EDB is currently exploring means to further enhance the English learning environment in primary schools.

(b) Under the NET Scheme, a NET is normally provided to every public sector secondary school and every public sector primary school operating six classes or more which offers mainstream curriculum. For example, in the 2015/16 school year, there are 459 and 406 public sector primary and secondary schools in the NET Scheme.

In the 2015/16 school year, the average provisions for a NET under the NET Schemes in primary and secondary schools are \$868,201 and \$1,038,426 respectively. A breakdown of the provisions is as follows:

Items	Provision (\$ million)	
	Primary Schools	Secondary Schools
Annual Salary including Mandatory Provident Fund	251.1	279.9
Contract Gratuity	25.6	32.3
Special Allowance	100.4	84.2
Medical Insurance, Passage & Baggage Allowance	4.9	4.4
Retention Incentive	16.5	17.7
Total	398.5	418.5

Please note that only NETs whose normal place of residence is established to be outside Hong Kong are entitled to special allowance and medical insurance, passages and baggage allowance. The retention incentive in cash, will be provided to eligible NETs with satisfactory performance serving in the third and fourth year (5% of basic salary) and the fifth year of continuous service onwards (10% of basic salary).

Professional development programmes are designed to cater for the professional growth of both NETs and local English teachers. There is an induction programme for newly appointed NETs as well. The cost for the different professional development activities mentioned is absorbed into the recurrent expenditure of EDB.

While there are separate provisions and designated accounts for handling the expenditures of the NET Scheme, the salaries for local English teachers are put under a single account for all local teachers. We do not keep separate provisions and expenditure information for local English teachers, and hence no comparison could be made between the cost of employing a local English teacher and a NET.

Director of Bureau: Secretary for Education

Question:

Regarding the latest development of using Putonghua to teach the Chinese Language subject at primary and secondary schools, would the Administration advise this Committee on the following:

1. Has the Administration considered making it compulsory for schools to use Putonghua to teach the Chinese Language subject in future? What are the reasons?
2. Please provide details of the expenditure for funding the Mainland-Hong Kong Teachers Exchange and Collaboration Programme (Programme) in the past 3 years, as well as the estimated expenditure for the 2016-17 financial year.
3. Please provide a list of schools on the Mainland and primary and secondary schools in Hong Kong participating in the Programme, and set out the number of teachers participating in the Programme by school in Hong Kong.
4. The Administration has indicated that continued support will be provided in the second and third years of the Programme for schools to use Putonghua to teach the Chinese Language subject in light of their own circumstances. What are the details of the work and expenditure involved?
5. How many schools and students in Hong Kong participated in the "National Essay Writing Competition" in the past 3 years to take part in speech or debate competitions in Putonghua with students from the Mainland?

Asked by: Hon Claudia MO (Member Question No. 27)

Reply:

- (1) Scholars hold different views on whether Putonghua should be used as the medium of instruction (MOI) for teaching the Chinese Language subject. There is no consensus probably because there are many variables affecting the efficacy of Putonghua as the MOI for teaching the Chinese Language subject. Such variables include, for example, teachers' ability to use Putonghua fluently and the language environment of the schools and the social circles of the students concerned. With a view to promoting biliteracy and trilingualism, the Education Bureau (EDB) encourages primary and secondary schools to nurture students' Putonghua proficiency, but schools are given the flexibility to use Cantonese and/or Putonghua as the MOI for teaching the Chinese Language subject having regard to their own circumstances.

- (2)-(4) The primary aim of the Mainland-Hong Kong Teachers Exchange and Collaboration Programme is to foster the professional exchange between Mainland teachers and local teachers and the scope of support is not limited to the Chinese Language Education Key Learning Area, a breakdown of information for schools using Putonghua to teach the Chinese Language subject is not available.
- (5) SCOLAR sponsored the “National Essay Writing Competition (HONG KONG)” in the past three years through the use of the Language Fund. The project, which aimed to enhance the writing skills of secondary school students in Hong Kong and foster their creativity, comprised literary sharing sessions for secondary school students in Hong Kong, an award presentation ceremony for Hong Kong region and an anthology containing essays of award-winning students of Hong Kong.

According to the information provided by the programme partner, dozens of cities in the Mainland take part in the “National Essay Writing Competition” every year. Through the use of resources other than Language Fund, the programme partner has, over the past three years, sent a total of 25 students from 21 secondary schools representing Hong Kong region to participate in the final round of the national competition conducted in the Mainland. They joined a contest of reading, writing, listening and speaking together with the participants from other regions. The parts of listening and speaking were conducted in Putonghua.

(Question Serial No. 2106)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As mentioned in the consultation paper on the Chinese Language education curriculum for primary and secondary schools, students should be able to read simplified Chinese characters after learning the traditional Chinese characters. In this connection, would the Administration advise on the following:

- (a) Has the Administration held an internal discussion or commissioned an academic to carry out a study to explore the feasibility of formally incorporating simplified Chinese characters into the primary and secondary school curriculum? If yes, what are the details?
- (b) Has a study been conducted to compare the differences in effectiveness of learning Chinese with traditional characters and simplified characters among local students? If yes, what are the findings?
- (c) Is there any provision reserved for the education of simplified Chinese characters at local primary and secondary schools for the 2016-17 financial year? If yes, what are the details of the work and expenditure involved?

Asked by: Hon Claudia MO (Member Question No. 33)

Reply:

- (a) EDB has never issued a mandate for primary and secondary school students to learn and use simplified Chinese characters in Chinese language lessons. The ability to recognise simplified Chinese characters could be developed in terms of extensive reading activities, only after the students have developed a solid foundation in reading and writing traditional Chinese characters, is a rationale of curriculum development in the Chinese Language Key Learning Area Curriculum Guide recommended in 2002 by the Curriculum Development Council. The preparation of the Guide had solicited views from the school sector, academics and professionals. No related research has been made.
- (b) EDB has never issued a mandate for primary and secondary school students to learn and use simplified Chinese characters in Chinese language lessons. The ability to recognise simplified Chinese characters could be developed in terms of extensive reading activities, only after the students have developed a solid foundation in reading and writing traditional Chinese characters, is a rationale of curriculum development in the Chinese Language Key Learning Area Curriculum Guide recommended in 2002 by the Curriculum Development Council. No related research has been made.
- (c) Since EDB has no plan to promote the learning of simplified Chinese characters in local primary and secondary schools, there is no related expenditure to be earmarked in 2016-17.

- End -

CONTROLLING OFFICER'S REPLY**EDB114****(Question Serial No. 1646)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the Territory-wide System Assessment (TSA), would the Administration inform this Committee:

- (a) In the past 5 years, what effect did the data collected from TSA have on the supervision, review and formulation of education policies? Please make a list of the studies conducted and policies formulated or adjusted by making reference to TSA data? What was the expenditure involved?
- (b) What were the expenditures of implementing TSA in 2014/15 and 2015/16 school years and the anticipated expenditure in 2016/17 school year?

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 30)

Reply:

(a) As part of the Basic Competency Assessment (BCA), the Territory-wide System Assessment (TSA) is an assessment on students' basic competencies (BCs) in Chinese Language, English Language and Mathematics (CEM) upon completion of the three key learning stages (i.e. Primary 3, Primary 6 and Secondary 3 levels). Basic competencies form part of the curriculum, and are the essential knowledge and skills acquired by students in relation to the learning targets and objectives set out in the curriculum for each key stage, in order to learn effectively at next stage. Students are expected to acquire the basic competencies in the three curricula in order to proceed effectively to the next key learning stage.

At the territory-wide level, TSA data helps the Government review policies and provides focused support to schools. The Education Bureau (EDB) has been making reference to the TSA data for observation of the students' overall performance in CEM and preparing the "Territory-wide System Assessment Report" to be uploaded onto the web. The EDB also makes reference to the overall student performance in different BCs to set directions, focuses and themes, such as pedagogy for enhancing reading, for the school-based support services and professional development. To address the learning difficulties of students, the EDB conducts case studies and collects views from teachers through focus group interviews to develop a learning and teaching website entitled "Web-based Learning and Teaching Support" where follow-up measures and suggestions are provided for teachers' selection and reference to enable them to better understand the BCs to be acquired by students. The cost incurred is absorbed within the resources of the EDB.

(b) The Education Bureau has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the BCA project, including TSA. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA under the contract is set out in the following table:

Contract period	Expenditure on TSA (\$ million)	Average expenditure per year (\$ million)
2011-2014 (4 years)	220	55
2015-2018 (4 years)	296	74

Question:

Regarding the promotion of all-round quality education, does the Administration conduct a thorough examination of the current education and examination systems on a regular basis to see if the aims of education of “enabling our students to enjoy learning, enhancing their effectiveness in communication and developing their creativity and sense of commitment” as well as breaking down barriers and creating room for students as stated in the “Reform Proposals for the Education System in Hong Kong” in 2000 have been achieved? If yes, what are the details and expenditure involved? If no, will the Administration consider conducting a detailed review in this regard?

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 31)

Reply:

One initiative of the “Reform Proposals for the Education System in Hong Kong” in 2000 was the curriculum and assessment reform in basic education, which was followed in new senior secondary (NSS) education starting in 2009 as part of the New Academic Structure (NAS). The aims of the curriculum and assessment reform were to achieve lifelong learning and whole-person development through introducing the seven learning goals, a broad and balanced school curriculum with specialisation for 12 years of free education, the introduction of the Hong Kong Diploma of Secondary Education (HKDSE) that is articulated direct to local and overseas post-secondary pathways and work place replacing the two selective examinations in the old academic structure.

With regard to the curriculum and assessment reform in basic education, EDB conducted a mid-term review which was part of a 10-year review that phases into the continual curriculum renewal. The mid-term report *Improving the Quality of Education in Our Schools – A Mid Term Report on Curriculum Reform to the Public of Hong Kong* was published in 2007/08 documenting the achievements made in basic education. For the curriculum and assessment reform in senior secondary education, EDB, together with the Curriculum Development Council (CDC) and the Hong Kong Examinations and Assessment Authority (HKEAA), conducted the NAS Review from 2012 to 2015. The first progress report *The New Senior Secondary Learning Journey – Moving Forward to Excel* was released by EDB, CDC and HKEAA in 2012/13 on the short-term review, and the *Report on the New Academic Structure Medium-term Review and Beyond – Continual Renewal from Strength to Strength* was released in 2015/16 to complete the review on senior secondary curriculum and assessment. The reports indicated that the learning goals were generally achieved, and academic, vocational and professional multiple pathways to local and non-local institutions are opened up.

Future review of the school curriculum and assessment will follow the natural curriculum development cycle of each subject and curriculum area, and will be conducted on a regular basis by the CDC and HKEAA. At

present, a review of the curricula of the eight Key Learning Areas in primary and secondary education is being conducted to keep abreast of the changing needs of students and society, and is expected to be completed by 2016.

At the system level, the reports indicated that under the NAS, about 85% of Secondary 6 graduates went on to full-time further studies in local or non-local institutions, compared with less than half of Secondary 5 graduates entering Secondary 6 in the old academic structure. Students expressed that their own efforts, teachers' teaching methods and their interest in the elective subjects that they studied were the top three factors contributing to their success in learning, showing that they had the room and commitment to pursue their interest under the NAS. At the receiving end, representatives from tertiary institutions indicated that Secondary 6 graduates from the NAS had performed well in their transition to higher education with better communication skills and being more proactive in their learning, and attributed these to the senior secondary curriculum which had prepared students well for lifelong learning and for furthering their studies. Employers also expressed very positive views on Secondary 6 graduates of the NAS in terms of language proficiency, numeracy, generic skills and attitudes, with the great majority agreeing that the graduates met or exceeded job requirements in many aspects.

Since the evaluation of the NAS/NSS and the school curriculum was conducted using data from various sources, the cost is absorbed by EDB's recurrent expenditure. Similarly, other focuses of the whole reform package including reforming the admission systems (at Primary One, Secondary One, Secondary 3 and Secondary 4, university admission) to break down barriers for all, formulating an effective resource strategy, enhancing the professionalism of teachers, implementing measures to support frontline teachers, and other education policies have been implemented and reviewed with on-going feedback collected from different sources. A separate breakdown of the expenses incurred is not available.

Question:

Regarding the Quality Review for kindergartens, will the Administration please inform this Committee of the following:

- (a) As kindergartens joining the Pre-primary Education Voucher Scheme (PEVS) are subject to the Quality Review, what actions will be taken by the Government against those kindergartens which have a sub-par performance to guarantee that kindergartens will improve their teaching and what are the details of the manpower and expenditure involved?
- (b) Have there been any kindergartens suspended from joining the PEVS because of unsatisfactory quality? If yes, what are the details?
- (c) In implementing the free quality kindergarten education policy, are there any plans to strengthen the manpower and expenditure in monitoring the quality of kindergartens, and specific indicators being formulated to monitor the situations? If yes, what are the details? If no, what are the reasons?

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 32)

Reply:

- (a) The existing Quality Assurance Framework for kindergartens (KGs) comprises School Self-evaluation (SSE) and Quality Review (QR). KGs joining the Pre-primary Education Voucher Scheme (PEVS) are required to undertake their self-evaluation and prepare their development plan for facilitating their sustainable development with reference to the EDB's recommendations made in the QR. QR is improvement-oriented and the review team will evaluate the effectiveness of school by making reference to EDB's recommendations made in the previous QR. If deemed necessary, EDB will provide professional support to the KGs whose performance is not satisfactory. Besides, EDB has been organising training activities to familiarise KGs with the Quality Assurance Framework and the good practices of learning and teaching.

All the QRs are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of expenditure for QR of KG is therefore not available.

- (b) One KG was suspended from joining the PEVS because of failing to meet the prescribed standards in QR.
- (c) Government's monitoring on KGs receiving subsidies will be stepped up to ensure their compliance with the rules and regulations as well as the quality of services. KGs will be required, and supported, to

enhance their administration, management and accountability under an effective governance framework with transparency, and well-defined roles and responsibilities of school personnel. In the medium and long-term, each KG should have a Management Committee comprising representatives from different KG stakeholders. To ensure that KGs have well-established mechanism in handling various administrative matters, comprehensive administrative guidelines and operation manuals would be drawn up for compliance by KGs. To enhance the transparency of KG operations, EDB will require KGs to provide key operational information on their websites, and consider prescribing the key information or items that all participating KGs would be required to disclose to the public, such as the miscellaneous charges for optional school items and paid services. Besides, to tie in with the implementation of free quality kindergarten education policy and better align with the latest trends of the KG education, EDB has been conducting a comprehensive review of the Performance Indicators which serve as an important tool for schools to conduct their SSE and EDB to evaluate school performances covering the major domains of “Management and Organisation”, “Learning and Teaching” and “Support to Children and School Culture” through QR under the Quality Assurance Framework. Views are being collected from frontline school personnel, education practitioners and professionals. The manpower and relevant expenditure are subsumed in the overall expenditure of EDB, and a breakdown of expenditure for the tasks concerned is not available.

Question:

Regarding the improvement of the learning and teaching of the English Language in primary schools, would the Administration advise this Committee on the following:

- (a) What were the measures and expenditure for improving the learning and teaching of the English Language in primary schools in the past 3 years?
- (b) How many measures were implemented in the past 3 years to increase the oral and written proficiency in the English Language? What were the details and the expenditure involved?
- (c) Will there be an increase in expenditure for enhancing the oral and written proficiency of primary school students? If yes, what are the details? If no, what are the reasons?

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 33)

Reply:

(a) & (b)

In the past three years, we have been implementing various measures for improving the learning and teaching of English Language in primary schools, including oral and written proficiency in English. The expenditure for the purpose totalled \$402.43 million (of which \$45.14 million is from Language Fund) in 2013-14 financial year, \$396.04 million (of which \$29.40 million is from Language Fund) in 2014-15 financial year. In the 2015-16 financial year, the provision for the measures totalled \$434.38 million (of which \$32.95 million is from Language Fund). Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.

No.	Name of Project	Details
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance 2014/15	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.

No.	Name of Project	Details
*3.	Networking and Partnership Project	To mobilise the community forces and create possible synergy in providing a more conducive English learning environment for the students beyond the classrooms.
*4.	Sponsorship Projects 2015/16	To engage community partners in organising language-related events/competitions in the community.

* Initiatives funded by Language Fund

** Initiative is funded out of Head 173 Student Financial Assistance Agency

- (c) The existing English Language curriculum framework allows space and flexibility for schools to provide a variety of activities to enhance students' learning motivation and develop the integrative use of the four language skills of listening, speaking, reading and writing. In the coming years, the Bureau will continue to provide substantial resources for the implementation of various support measures to enhance learning and teaching effectiveness and students' English ability. The resources are allocated for conducting in-service professional development programmes, developing learning and teaching resources, strengthening the English environment in schools, providing on-site school-based support services and implementing the Native-speaking English Teacher (NET) Scheme.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In respect of applying information technology (IT) in education, what is the expenditure for promoting such IT pedagogies as the Flipped Classroom approach? Will more resources be allocated to promote the Flipped Classroom approach to tie in with the science, technology, engineering and mathematics (STEM) education? If yes, what are the details? If no, what are the reasons?

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 48)

Reply:

The Education Bureau (EDB) encourages adoption of innovative pedagogies and effective use of information technology (IT) to enhance students' learning effectiveness. "Flipped Classroom" is one of the innovative pedagogies to enhance the effectiveness of learning and teaching. The EDB encourages teachers to make appropriate use of "Flipped Classroom". Professional development programmes (PDPs) are provided to strengthen teachers' knowledge and skills to use it in different subjects. In the past 2 school years, we arranged 19 relevant training programmes for teachers; and for the first five months of the current school year, we have already organised 15 relevant training programmes, reflecting our acknowledgement of the increasing application of "Flipped Classroom". The expenditures for organising PDPs on "Flipped Classroom" have been absorbed within EDB's resources.

In addition, we provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. Schools could make use of the CITG to implement "Flipped Classroom" in accordance with their school circumstances.

CONTROLLING OFFICER'S REPLY**EDB119****(Question Serial No. 3299)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following information in tabulated form:

- (1) the expenditure and staffing for online/social media publicity and its percentage share among the total expenditure of the Education Bureau in 2015-16, please list out by categories of publicity channel;
- (2) the ways Education Bureau assesses the effectiveness of the abovementioned measures, and whether the money is well spent; and
- (3) the Education Bureau's estimated expenditure and staffing for the abovementioned measures in 2016-17.

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 52)

Reply:

(1) During the 2015-16 financial year, the total expenditure of the Education Bureau (EDB) on publicity on online and social media is \$1.08 m, representing about 0.002 per cent of the revised estimated recurrent expenditure. The manpower involved is subsumed under the overall establishment of EDB and could not be separately accounted for. Details of the expenditure by publicity channels are set out as follows:

Name of Campaigns	Online/ Social Media	Expenditure (\$ million)
Free Quality Kindergarten Education	Advertisements on online and social media	0.11
Application for 2016/17 School Year Pre-primary Education Voucher Scheme	Advertisement on online media	0.04
Admission Arrangements for Nursery (K1) Classes in Kindergartens for the 2016/17 school Year	Advertisement on online media	0.03
Mainland Higher Education Expo 2015	Advertisements on online and social media	0.07
Hong Kong Scholarship for Excellence Scheme	Advertisements on online and social media	0.29

Study Subsidy Scheme for Designated Professions / Sectors	Advertisements on online and social media	0.15
Electronic Advance Application System for Post-secondary Programmes	Advertisements on social media	0.04
Information Expo on Multiple Pathways 2015	Advertisements on online and social media	0.13
International Students' Visual Arts Contest-cum-Exhibition of Hong Kong	Production of a designated website to publicise the event	0.07
Designated Webpage to provide information on multiple pathways for candidates of the Hong Kong Diploma of Secondary Education (HKDSE) Examinations	Advertisements on online and social media	0.15
Total (\$ million)		1.08

(2) In assessing the effectiveness of the publicity on online and social media, EDB will consider factors such as the hit rates of webpages, number of programme participants or service users, questionnaires conducted during the events, opinions from target groups or relevant stakeholders, and relevant press reports and commentaries. The assessment will be used for reference for mapping out publicity and promotional strategies in future.

(3) EDB has adopted a multi-pronged approach in promoting its policy initiatives and events of interests to the public, with the use of online and social media being one of the facets. The public relations strategy of each initiative and event of interest to the public will be drawn up having regard to the nature of the campaign, target audience and effectiveness of the publicity means. As the publicity expenditure is subsumed under individual operating accounts, and the public relations strategies of individual initiatives have yet to be mapped out, the estimated expenditure for the use of online and social media in 2016/17 is not available at the moment. The staffing requirement is absorbed by existing manpower resources of the EDB and could not be separately accounted for.

CONTROLLING OFFICER'S REPLY**EDB120****(Question Serial No. 2022)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In order to strengthen the support for ordinary schools in catering for students with special educational needs (SEN), the Bureau has raised the Learning Support Grant since 2014/15 school year to \$1.5 million. Please inform this Committee the average grant received by each school having applied for the Learning Support Grant in the past 2 school years (2014/15 and 2015/16); how many schools that currently receive the ceiling funding will be entitled to more funding if the grant is calculated on the basis of the number of students that required support? What initiatives will be taken to provide further support to these schools?

Asked by: Hon Frankie YICK Chi-ming (Member Question No. 41)

Reply:

To support mainstream schools to cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training. The additional resources include the Learning Support Grant (LSG), Enhanced Speech Therapy Grant, additional teachers and funding under the Intensive Remedial Teaching Programme and Integrated Education Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Schools may pool together and deploy flexibly the LSG and other school resources for employing additional teachers, teaching assistants or hiring professional services, etc. to render appropriate support for the students with SEN.

To further enhance the support for public sector mainstream schools to cater for students with SEN, EDB has raised the ceiling of the LSG from \$1 million to \$1.5 million per school per annum starting from the 2013/14 school year. The grant rates of LSG have also been increased by 30% from the 2014/15 school year. From the 2015/16 school year onwards, the grant rates and the ceiling of LSG for each school will continue to be adjusted annually according to the change in the Composite Consumer Price Index. In fact, the amount of LSG received by each school is calculated according to the number of students with SEN admitted and the tier of support service that the students require. In other words, the amount of LSG involved can vary among schools and across years depending on their students' genuine needs. Hence, providing the average grant received by each school is not meaningful and can be misleading. In the 2014/15 school year, there were eight primary schools and 20 secondary schools with the amount of LSG reaching the ceiling. In the 2015/16 school year, there are 21 primary schools and 25 secondary schools with the amount of LSG reaching the ceiling.

Starting from the 2015/16 school year, the Community Care Fund has funded a three-year pilot project, under which a cash grant equivalent to the mid-point salary of a Graduate Master/Mistress or an Assistant Primary School Master/Mistress is provided for mainstream schools with relatively more students with SEN

and financial needs so that a dedicated teacher can be deployed to co-ordinate matters relating to SEN support.

Moreover, School-based Educational Psychology Service (SBEPS) will cover all public sector primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding premises designated for use as kindergarten premises in public housing estates:

1. Please provide the list of kindergarten premises under construction/planning by the Hong Kong Housing Authority. What are their completion dates?
2. According to the Government's reply to my question last year (Reply Serial No.: EDB546), a number of kindergarten premises will be completed in 2015-16 and 2016-17. At present, are there any plans for allocation of the premises? If there are, what are the details? If no, what are the reasons?
3. In respect of the kindergarten premises in public housing estate in the territory, how many of them are currently vacant? Does the Government have any plans to change the use?
4. Had any kindergarten premises converted for other uses over the past 4 years? If yes, what are the details?

Asked by: Hon WU Chi-wai (Member Question No. 67)

Reply:

- (1)&(2) Information on estate kindergarten ("KG") premises in public housing estates under construction / planning in different districts and their tentative completion dates provided by the Hong Kong Housing Authority ("HKHA") is as follows –

District	Name of Projects	Tentative Completion Date (in financial year)
Yuen Long	Hung Shui Kiu Area 13 (Phase 3)	2015-16 (Completed)
Sha Tin	Sha Tin Area 52 (Phase 2) (two KG premises)	2015-16 (Completed)
Kwun Tong	Lower Ngau Tau Kok (Phase 2)	2015-16 (Completed)
Kwun Tong	Anderson Road Site D	2016-17
Kwun Tong	Anderson Road Site E (Phase 2)	2016-17
Sha Tin	Sha Tin Area 52 (Phase 3)	2016-17
Islands	Tung Chung Area 56	2016-17
Tuen Mun	Tuen Mun Area 54 Site 2 (Phase 1)	2016-17
Kwun Tong	Anderson Road Site B (Phase 2)	2017-18
Sham Shui Po	Redevelopment of So Uk Estate (Phase 2)	2017-18
Islands	Tung Chung Area 39	2018-19

Sham Shui Po	Cheung Sha Wan Wholesale Food Mkt Site 5	2018-19
Sha Tin	Shek Mun Estate (Phase 2)	2018-19
Sham Shui Po	Lai Chi Kok Road-Tonkin Street Phase 2	2018-19
North	Choi Yuen Road Sites 3 & 4	2018-19
Shatin	Fo Tan ST Area 16 & 58D	2018-19 (Phase 1)
Sham Shui Po	North West Kowloon Reclamation Site 6 Phase 1	2019-20
Tseung Kwan O	Tseung Kwan O Area 65C2	2019-20
Sham Shui Po	Pak Tin Estate Phase 11	2019-20
North	Queen's Hill	Beyond 2019-20

According to the established mechanism, at the request of HKHA, the Education Bureau (EDB) will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify a SAE, EDB would inform HKHA for their consideration of whether to put the estate KG premises to other alternative use. HKHA may also arrange open rental tender of KG premises at market rent from time to time. SAE have been completed for the five KG premises of Hung Shui Kiu Area 13 (Phase 3) in Yuen Long District, Sha Tin Area 52 (Phase 2) in Sha Tin District and Anderson Road Site D and Lower Ngau Tau Kok (Phase 2) in Kwun Tong District, with the results to be announced within March 2016. EDB will follow up with the remaining ones in accordance with the foresaid mechanism.

- (3) At present, all KG in Hong Kong are privately run. KG generally operate in premises identified in the private market on their own, premises owned by their school sponsors or in estate KG premises under the HKHA. EDB does not compile statistics on vacant KG premises. According to HKHA's records, there are currently four vacant KG premises in public housing estates under HKHA, including three located at Hong Kong Island and one in New Territories. EDB will follow up in accordance with the aforesaid mechanism.
- (4) If EDB considers that it is not necessary to launch an SAE for the estate KG premises after considering the demand and supply of KG places in the vicinities and other relevant factors, HKHA may arrange open rental tender at market rent from time to time. HKHA may also arrange conversion of the premises to other uses such as welfare use having consulted the relevant departments. According to HKHA's records, eight vacant estate KG premises had been converted to welfare use over the past four years.

- End -

CONTROLLING OFFICER'S REPLY**EDB122****(Question Serial No. 1563)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

From this academic year onwards, a \$960 million scheme will be implemented to subsidise students to pursue designated professional self-financing undergraduate programmes, covering tourism and hospitality. Please advise the details of application and coverage of the programmes in tourism and hospitality.

Asked by: Hon YIU Si-wing (Member Question No. 339)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at Annex. There is one programme under the discipline of tourism and hospitality, namely the Bachelor

of Arts (Honours) in Culinary Arts and Management offered by Technological and Higher Education Institute of Hong Kong of the Vocational Training Council, selected under SSSDP for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

For 2015-16, the revised estimate is 6% higher than the original estimate for the Director of Bureau's Office for the Education Bureau,

- 1) Please advise the reasons for the expenditure exceeding the original estimate.
- 2) Please list in the table below information on all duty visits outside Hong Kong made by the Secretary for Education in 2015:

Date of visit	Place of visit	Purpose of visit	Expenditure involved

- 3) Please list in the table below information on all community functions attended by the Secretary for Education in 2015:

Date of community function	Place of function	Purpose of function	Expenditure involved

Asked by: Hon Gary FAN Kwok-wai (Member Question No. 7)

Reply:

1. The increased estimate is mainly attributable to pay adjustments for the Secretary for Education (SED), the Under Secretary for Education and the Political Assistant to SED with effect from 1 February 2015.
2. Information about duty visits outside Hong Kong made by SED in 2015-16 is at the Annex.
3. SED attends from time to time various functions to cultivate contact with different sectors of the community. We have not kept statistics on past events attended by SED. Hence, we are unable to provide the requested information. The expenditure incurred, if any, in connection with the attendance of such events has already been reflected in the operating expenses of the Education Bureau.

**Duty visits outside Hong Kong made by
Secretary for Education in 2015-16 up to 8 March 2016

Question:

The Bureau estimates that the number of kindergarten students will decrease to 181 600 in the 2016/17 school year. In this regard, please list the number of cross-boundary kindergarten students and the number of school places to be provided by District Council district in the 2016/17 school year.

District Council district	Number of cross-boundary students	Number of school places to be provided

Asked by: Hon Gary FAN Kwok-wai (Member Question No. 8)

Reply:

The Education Bureau (EDB) collects information on the number of cross-boundary students attending schools in selected districts in September after the commencement of the new school year. Hence, we are not able to provide the figures for the coming 2016/17 school year at this stage.

The projected supply of kindergarten (KG) places by District Council districts in the 2016/17 school year is tabulated below. It should be noted that the figures are mainly based on the number of KG places offered in the 2015/16 school year; the estimated number of places that could be offered in existing vacant registered classrooms of KGs (including child care centre portions) based on permitted accommodation of the classrooms; and the number of KGs to commence or cease operation in the coming year known to EDB at the time of projection.

District	Projected number of KG places
Central & Western	9 600
Wan Chai	9 200
Eastern	20 000
Southern	9 700
Yau Tsim Mong	9 900
Sham Shui Po	13 900
Kowloon City	33 500
Wong Tai Sin	10 800

District	Projected number of KG places
Kwun Tong	17 300
Sai Kung	12 800
Sha Tin	20 000
Tai Po	9 000
North	14 200
Yuen Long	21 500
Tuen Mun	15 900
Tsuen Wan	10 500
Kwai Tsing	13 700
Islands	5 800

Question:

The Government plans to introduce the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong starting from the 2016/17 academic year, please provide:

1. the estimated staffing for implementing the Hong Kong Scholarship for “Belt and Road” Students and the expenditure to be involved for each of the next 3 academic years;
2. the estimated number of offers under the Hong Kong Scholarship for “Belt and Road” Students for each of the next 3 academic years;
3. a list of countries or regions to be covered under the Hong Kong Scholarship for “Belt and Road” Students in the next 3 academic years and their respective numbers of offers.

Asked by: Hon Gary FAN Kwok-wai (Member Question No. 58)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the scholarship to be granted in the 2016/17, 2017/18 and 2018/19 academic years will amount to at most \$1.2 million, \$2.4 million and \$3.6 million respectively, and it will be funded by the investment income generated from the Scholarship Fund. Administration of the scholarship will be funded by existing resources of the Education Bureau (EDB). The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to

encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

The “Belt and Road” regions cover many countries and regions spanning Asia, Eastern Europe, Middle East and Africa. Given the objective of the Hong Kong Scholarship for “Belt and Road” Students to further strengthen the ties and educational exchanges between Hong Kong and the “Belt and Road” regions, the scheme will be implemented as a Government-to-Government collaborative initiative and introduced to students of individual “Belt and Road” regions separately by phases. Subject to and upon the approval of the Finance Committee of the Legislative Council for the proposed injection of \$1 billion into the Scholarship Fund as mentioned above, we will identify and approach the governments of those “Belt and Road” regions with which we have collaboration in the field of education for introducing the Hong Kong Scholarship for “Belt and Road” Students to their students. The number of scholarship to be offered to students of individual “Belt and Road” regions will be worked out at that stage.

(Question Serial No. 3116)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Bureau estimated the number of students in kindergartens in the 2016/17 school year to be 181 600. Please provide the respective numbers of students in half-day, whole-day and long whole-day kindergartens.

Asked by: Hon Gary FAN Kwok-wai (Member Question No.59)

Reply:

The number of students in kindergartens (KG) in the 2016/17 school year is estimated with reference to the school-age population projections, which are compiled based on the population projections updated regularly by the Census and Statistics Department, and take into account the latest trend of age-specific enrolment ratio for studying kindergartens, the actual number of existing students at various levels and the estimated number of cross-boundary students. There are no breakdowns of the estimated number by half-day, whole-day and long whole-day classes which would be affected by various factors, including but not limited to parental choice, KGs' offer of half-day and whole-day, etc. The Education Bureau collects information on the number of KG children attending half-day or whole-day classes in September each year via the annual Enrolment Survey, after the commencement of a new school year. Hence, we are only able to provide the figures for the coming 2016/17 school year after the completion of the survey.

CONTROLLING OFFICER'S REPLY**EDB127****(Question Serial No. 1589)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Education Bureau advise of the following:

- (a) according to the reply (EDB163) to the Examination of Estimates of Expenditure of last year, the number of vacant school premises in the territory was 108. However, it was later mentioned in the Director of Audit's reports that the number of vacant school premises should be 234. Why are the two figures different?
- (b) please provide the names, locations and vacancy period of the said 234 vacant school premises (with a breakdown by 18 districts);
- (c) which of these vacant school premises are managed by the Government (please provide names and locations) and which government department(s) is/are responsible for managing them?
- (d) please provide the number, names, locations, vacancy period and the original school sponsoring bodies of vacant school premises which have not been returned to the Education Bureau (with a breakdown by 18 districts);
- (e) in connection with item (d) above, for the school premises which have not been returned to the EDB, what procedure will the EDB take to recover possession of the land as soon as possible?
- (f) what is the expenditure involved in managing all vacant school premises in the territory in the 2015/16 school year?
- (g) what is the estimated expenditure for managing all vacant school premises in the territory in the 2016/17 school year?
- (h) what is the number of vacant school premises earmarked for further school use or other educational use as at the end of the 2015/16 school year? How is the progress in this respect? If the premises have yet to commence operation, what are the reasons?
- (i) has the Administration explored ways to improve the central clearing house mechanism to expedite the progress of reallocation of school premises? If it has, what are the details? If no, what are the reasons?

Asked by: Hon MA Fung-kwok (Member Question No. 5)

Reply:

(a)-(e) The data on vacant school premises (VSP) submitted to the Legislative Council (LegCo) were first compiled in relation to the questions raised during LegCo's examination of the estimates of expenditure concerning the policy on "Consolidation of Under-utilised Primary Schools" ("Consolidation Policy"). Since then, the Education Bureau (EDB) has been mainly adopting the Consolidation Policy as the framework for preparing subsequent replies and information on VSP with the relevant specifications for the sake of consistency and have set out the framework adopted clearly in the replies. It was on this basis that we have prepared replies to questions raised during LegCo's examination of the estimates of expenditure in March 2015.

It has all along been EDB's policy objective to put VSP into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, as at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use; nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are in Table (1) below:

Table (1) – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use

4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing

estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

In light of the recommendations of the Audit Report and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply keeping a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (B/Ds) (including the Home Affairs Bureau, Home Affairs Department, Lands Department (LandsD), PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(f) and (g) EDB is responsible for the management of VSP located on sites allocated to EDB, including those referred to PlanD under the central clearing house mechanism but that LandsD has requested EDB to continue the management until the next users have been identified and taken over the land. The estimated expenditures to be incurred by EDB for management of VSP, which mainly includes security patrol and inspections, pest control, removal of litter, cleansing and weeding, are \$1.262 million and \$1.490 million for 2015-16 and 2016-17 respectively. The increase in expenditures is mainly due to the full-year effect of a VSP requiring 12-hour property management service in 2016-17 (compared to 7 months of such service in 2015-16) and the general increase in contract price based on the latest renewed contract commencing in March 2016.

(h) As shown in Table (1), as at end December 2015, nine of the 29 VSP have been earmarked for school or other educational use. EDB launched a School Allocation Exercise in February 2016 for one of these premises. EDB would periodically assess and update the proposed educational use of the VSP under EDB.

As there is a need to earmark/retain some VSP to cater for the anticipated increase in demand for school places and to allow flexible arrangements required for meeting the changing demand, including the uncertainty involved, and various needs, it is not practicable to set a fixed target of vacancy period or number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP already earmarked for educational use but suitable for short-term use to relevant B/Ds with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(i) The Government will ensure that VSP continue to be handled in accordance with the established central clearing house mechanism. The Development Bureau has advised that according to the established mechanism, PlanD will consider suitable long-term alternative uses (e.g. government, institution or community, residential and other uses) for sites of the vacant or to-be-vacated school premises when EDB notifies PlanD and other relevant departments that it no longer requires such premises for allocation for school uses. Upon confirmation on the future uses for the sites of the VSP, PlanD will inform the concerned departments for their follow-up as appropriate. In the meantime, relevant B/Ds would, where appropriate, pursue and arrange temporary or short-term uses to ensure efficient utilisation of land resources.

For example, for VSP on government land under the control of LandsD where long-term uses are yet to be determined or not immediately required for the long-term uses identified, LandsD would try to put the sites, together with the VSP, to temporary uses, such as allocating them for use by B/Ds, renting them out by short-term tenancy upon identification of a suitable temporary use, or including the VSPs into the list of vacant government sites that are available in the relevant districts for application for greening and community uses on short-term basis.

EDB128

(Question Serial No. 1592)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Education Bureau has been providing secondary schools with a Career and Life Planning Grant since the 2014/15 school year. Will the Administration advise the following:

- a. the expenditures on provision of Career and Life Planning Grant and the number of schools receiving the Grant in the 2014/15 and 2015/16 school years;
- b. the use of Career and Life Planning Grant by schools in the 2014/15 and 2015/16 school years, e.g. the number of schools using the Grant to employ teachers and the number of schools using the Grant to procure services;
- c. whether the initiative announced in the Policy Address this year that schools may turn the Career and Life Planning Grant into regular teaching posts from the 2016/17 school year will be implemented on a voluntary basis and whether schools may still flexibly use the Grant to meet their own needs;
- d. whether a school will be provided with other grants for procurement of services if it chooses to turn the Career and Life Planning Grant into teaching posts; and
- e. how the Administration is going to assess the schools' effectiveness in using the Career and Life Planning Grant?

Asked by: Hon MA Fung-kwok (Member Question No. 8)

Reply:

(a) In the 2014/15 and 2015/16 school years, EDB has provided 509 and 507 schools with the Career and Life Planning Grant (CLPG) respectively. The total expenditure for the provision of the CLPG is \$264.6 million and \$273.8 million respectively.

(b) The aim of the CLPG is to enhance the capacity of the schools and their responsible team so as to take forward comprehensive life planning education. As set out in the relevant circular, the CLPG should primarily be used for its major purpose of empowering and enhancing the capacity of the teaching team, though schools may use the remainder of the grant to enrich relevant school-based services for students by providing career-related learning beyond the classroom. EDB has collected information about the use of the CLPG in schools through a school survey completed in September 2015 and advisory visits paid to 295 schools up to the end of November 2015. It is noted that the majority of the schools have made use of the CLPG appropriately in such areas as employing additional teachers to take up the teaching duties of career teachers so as to enhance their capacity in Life Planning Education (LPE), procuring LPE-related teaching

materials or assessment services for students, and financing students to participate in career exploration activities. About 80% of the schools spent most of the CLPG on employment of additional staff.

(c) & (d) As announced in the Policy Address 2016, schools may turn the existing CLPG into regular teaching posts from the 2016/17 school year. Schools may decide whether to turn the CLPG into regular teaching posts in the 2016/17 school year or in the later years based on their actual circumstances. We will review the implementation of the measure in schools in the next two school years.

Schools which choose to turn the CLPG into regular teaching posts may still deploy other cash grants or the surplus under the Expanded Operating Expenses Block Grant for aided schools (Expanded Subject and Curriculum Block Grant for government schools) for providing relevant school-based services to students. To nurture the culture of supporting the young generation for life planning, EDB has been making vigorous efforts to engage various stakeholders in schools and reach out to parents, business organisations and the community at large through social media, issuing newspaper supplements and sharing highlights of BSPP activities on the BSPP homepage throughout the year.

(e) In planning for career guidance service, schools are required to formulate strategies and build up monitoring/evaluation mechanism for continuous development. In line with the spirit of school-based management, the Incorporated Management Committee (IMC) / School Management Committee (SMC) of the school is accountable for proper use of cash grant for its intended objectives. EDB has strongly recommended that IMC/SMC considers inclusion of life planning education as one of the major concerns in the School Development Plan and monitors as well as evaluates its implementation through the school annual plan and school report. To enhance transparency, the work plan and details on the use of the CLPG should be endorsed by IMC/SMC and uploaded onto the school's homepage by December each year.

EDB will continue to conduct advisory visits to the secondary schools to track progress and provide on-site advice. During the school visits, EDB inspectors would engage in professional dialogue with the school guidance teams and render advice on improvements to the work plans and deployment of resources to enhance schools' forward planning. Information collected will be consolidated to feed back on the evaluation of the life planning education at the territory level.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The amount of \$1 billion will be used to set up the Hong Kong Scholarship for “Belt and Road” Students to attract outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. What will be the mode of operation of the scholarship? Please explain its mode of operation, assessment of applications and decision-making respectively.

Asked by: Hon MA Fung-kwok (Member Question No. 11)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. The scholarship is tenable for the normal duration of the programme concerned and renewable annually subject to satisfactory academic performance of the awardees. Same as the TSS, the scholarship will be offered to students who are enrolled in publicly-funded degree programmes in Hong Kong. Participating publicly-funded institutions will, having regard to the recommendations of the Indonesian Government, nominate students for selection by the Steering Committee of the Scholarship Fund.

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

Programme: (2) Primary Education, (3) Secondary Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In light of the temporary decline of the secondary 1 student population, the Administration stated that it will continue to implement a series of targeted relief measures aiming at facilitating the sustainable development of schools and maintaining the stability and strengths of the teaching force. Please give a breakdown of the expenditure of the subhead for the series of targeted relief measures, the number of schools benefitted and the number of their students.

Asked by: Hon MA Fung-kwok (Member Question No. 12)

Reply:

The package of targeted relief measures the Education Bureau (EDB) implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in Secondary 1 (S1) student population. In gist, the targeted relief measures include:

- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
- ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
- iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

The above targeted relief measures are applicable to all aided, caput and government secondary schools. To further stabilise the teaching force, the Chief Executive has announced in the 2016 Policy Address that schools with surplus teachers arising from reduction of S1 classes in 2013/14 and 2014/15, if in need, may apply to extend the retention period for these surplus teachers up to 2017/18. The expenditure for putting in place the targeted relief measures is subsumed under the overall expenditure of EDB and a breakdown of the expenditure in this regard is not available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated under the Matters Requiring Special Attention in 2016-17, the Bureau will continue to implement the Fourth Strategy on Information Technology in Education and the major initiatives include the phased provision of wireless network and other supporting facilities for all public sector schools. In this regard, please inform this Committee of the following:

- (a) What are the specific measures of the Fourth Strategy on Information Technology in Education? What are the expenditures on implementing each of the measures?
- (b) Currently, what is the progress of the phased provision of wireless network and other supporting facilities for all public sector schools? When is the related work expected to be completed?
- (c) Regarding the development of e-textbooks, how many e-textbooks are available for use by schools in the 2015/16 and 2016/17 school years respectively? What are the subjects involved? How many of them were published under the e-Textbook Market Development Scheme (EMADS)?
- (d) How many schools will use e-textbooks in teaching in the 2016/17 school year? What will be their percentage share in the total number of schools in Hong Kong? How will be the effectiveness?
- (e) Will the Administration launch the EMADS again? If yes, what are the details? If no, what are the reasons?
- (f) What measure will the Administration adopt to encourage different corporates and organisations to develop more e-textbooks?
- (g) When promoting e-learning, how does the Administration ensure that schools are fully prepared in terms of hardware and software? Will the Administration consider adopting measures to standardise the usage format of e-textbooks so that schools using e-textbooks and publishers developing e-textbooks will have a standard to follow?
- (h) Will the Administration fully implement e-learning in the long run? Also, will the Administration consider formulating a long-term policy to promote e-learning as well as setting a clear time frame and objective for improving the hardware and software ancillary facilities in schools, enhancing teachers' training on e-teaching, adjusting teaching concepts and learning models, and developing electronic teaching materials, etc. so that various stakeholders, including schools, teachers, students, parents, publishers, etc. can understand more clearly the direction the development of e-learning is taking?

Asked by: Hon MA Fung-kwok (Member Question No. 37)

Reply:

- (a) Under the Fourth Strategy on Information Technology in Education (ITE4), we have formulated six actions for implementation from the 2015/16 school year covering the areas of (i) upgrading of WiFi infrastructure in all public sector schools; (ii) enhancing the supply of quality e-learning resources; (iii) curriculum renewal and transformation of pedagogical and assessment practices; (iv) building professional leadership and capacity; (v) community involvement; and (vi) conducting on-going research and evaluation studies for sustaining the coherent development of IT in education.

In terms of financial commitments, we have created a one-off commitment of \$105 million for implementation of the ITE4, of which \$90 million is for some 900 public sector schools to acquire mobile computing devices by phases, \$10 million is for Hong Kong Education City Limited to acquire e-learning resources, and \$5 million is for other support measures, such as hire of contract staff for project management.

- (b) The enhancement of WiFi infrastructure in all public sector primary and secondary schools is progressing well. Some 460 schools have completed the enhancement process. As regards the remaining schools, we expect that their WiFi infrastructure enhancement works could be completed by phases in the coming two school years.
- (c) 34 sets of e-textbooks have been included on the Recommended e-Textbook List (eRTL) for school use in the 2015/16 and 2016/17 school years, covering primary education subjects of Chinese Language, English Language, Mathematics, Putonghua, General Studies and Physical Education; and junior secondary education subjects of Chinese Language, English Language, Mathematics, Geography, History and Life and Society. Among the 34 sets of e-textbooks, 30 sets were developed under the e-Textbook Market Development Scheme (EMADS). In addition, another 4 sets (covering junior secondary education subjects of Geography and Computer Education) of e-textbooks developed under Phase Two of the EMADS are expected to be available for school use in the 2016/17 school year.
- (d) Figures of schools using e-textbooks in the 2016/17 school year are not available. For the 2015/16 school year, 55 primary schools and 85 secondary schools, accounting for 10.5% of primary schools and 17.7% of secondary schools respectively, have chosen to use the e-textbooks developed under the EMADS via different approaches. It is expected that with the increase in teachers' knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum. An evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning.
- (e) An evaluation is underway to assess the effectiveness of EMADS. Concurrently, e-textbooks for all subjects are now accepted for review. We do not have any plan for launching another round of EMADS for the time being.
- (f) To encourage the development of e-textbooks, we have been accepting by phases e-textbooks for different subjects for review since late 2014. At present, e-textbook review is open to all subjects. e-Textbooks that have undergone the quality assurance mechanism will be included on the eRTL, alongside the e-textbooks developed under the EMADS. In addition, we are also reviewing the submission schedule for e-textbooks to increase the number of submission periods per year to scale up the supply of e-textbooks for selection by schools.
- (g) & (h) All e-textbooks on the eRTL have undergone the quality assurance mechanism and observed the technical requirements outlined under the EMADS. On top of the experience gained in the EMADS, e-textbook developers, publishers, professionals and educators in IT in education, school principals and frontline teachers have been invited to discuss and share their views on the standard requirements to be adopted for future e-textbooks submitted for review.

Furthermore, the ITE4 aims to unleash the learning power of our students to learn to learn and to excel through realizing the potential of IT in enhancing interactive learning and teaching experiences. The actions being implemented, including the provision of funding for schools to upgrade their WiFi infrastructure, enhancing the supply of quality e-learning resources, and building up professional leadership and capacity of education professionals, will facilitate the readiness of schools to implement e-learning. Under the principle of school-based management, it is at the discretion of individual schools to determine their own pace of e-learning having regard to their school circumstances and development needs.

Director of Bureau: Secretary for Education

Question:

Regarding the enhancement of equipment and support for IT education, please inform this Committee:

- (a) the expenditures of updating and providing additional IT equipment (including both hardware and software) for government and aided primary and secondary schools in the past 3 years (please list out the equipment by category in a table);
- (b) the expenditure involved in WiFi 100;
- (c) the estimated total expenditure of WiFi900 and the estimated expenditure in 2016-17;
- (d) the number and percentage of government and aided primary and secondary schools with WiFi installations (please list out in a table);
- (e) Based on the figures of (d), what is the average number of classrooms sharing one radio base station (please list out by school type in a table)?
- (f) the number of IT technicians in aided primary and secondary schools in the past 3 years; and
- (g) what is the median salary of IT technicians?

Asked by: Hon Charles Peter MOK (Member Question No. 109)

Reply:

(a), (f) & (g)

We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. The amounts of CITG for the past three financial years were \$328 million for 2013-14, \$341 million for 2014-15 and \$353 million for 2015-16. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. We therefore do not have any information pertaining to the expenditures of schools on IT equipment as well as the employment statistics of technical support staff.

(b)

We launched the "Support Scheme for e-Learning in Schools" or WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools' Learning Management System and various e-textbooks/e-learning resources platforms. The remaining

\$5 million was used from early 2014 up to 2015-16 on other support measures such as provision of programme management services for schools. The Scheme is now completed.

(c)

We launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools under the WiFi-900 project in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

For 2016-17, the estimated expenditure for implementation of the ITE4 includes \$30 million one-off grant for the second batch of some 300 schools under the WiFi-900 project for acquisition of mobile computing devices, and an extra recurrent grant of \$70,000 on average per school for these 300 schools for subscription of WiFi services.

(d)

According to information collected from schools, as at February 2016, some 460 public sector schools have completed the enhancement of WiFi infrastructure under the WiFi-100 and the first phase of WiFi-900 projects. The figures are broken down as follows –

School type	Number and percentage of schools with enhanced WiFi infrastructure		Total number of schools
Government primary	7	(21%)	34
Government secondary	7	(23%)	31
Aided primary	217	(49%)	443
Aided secondary	209	(49%)	423
Aided special	28	(47%)	60
Total	468	(47%)	991

Note: Aided schools also include local schools under the Direct Subsidy Scheme.

(e)

We have not collected any data from relevant schools on the average number of classrooms served by each access point.

Director of Bureau: Secretary for Education

Question:

Regarding the enhancement of IT education, please inform this Committee:

- (a) In connection with the revised estimated expenditure of \$50,340,000 for the Implementation of the Fourth Strategy on Information Technology in Education in 2015-16, what were the work items and expenditures involved?
- (b) What are the Government's targets, timetable and estimated expenditures for the implementation of the Fourth Strategy on Information Technology in Education in 2016-17?
- (c) What were the Government's expenditures and work items in respect of the promotion of STEM (science, technology, engineering and mathematics) education in 2015-16?
- (d) How much resources will the Bureau set aside in 2016-17 for updating and enhancing STEM curricula, learning activities and related teacher training? What are the content, timetable, manpower requirement, expenditures and other resources involved in the measures?
- (e) What are the follow-up action and timetable of the consultation on promotion of STEM education?
- (f) What are the IT-related subjects in junior and senior secondary curricula and the number of students taking each subject?
- (g) Is there any STEM-related learning activities jointly organised with tertiary institutions, professional groups or other related organisations? If yes, what are the related expenditures, work items, targets and timetable?

Asked by: Hon Charles Peter MOK (Member Question No. 110)

Reply:

(a) & (b)

We launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million. The revised estimate of \$50.34 million for 2015-16 included a one-off grant of around \$40 million disbursed to the first batch of 412 schools under the WiFi-900 project for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. The remaining \$10 million was disbursed to Hong Kong Education City Limited as one-off grant for acquisition of e-learning resources. Apart from the project vote for ITE4, we also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

For 2016-17, the estimated expenditure for implementation of the ITE4 includes \$30 million one-off grant for the second batch of some 300 schools under the WiFi-900 project for acquisition of mobile computing devices, and an extra recurrent grant of \$70,000 on average per school for these 300 schools for subscription of WiFi services. We expect that the WiFi infrastructure enhancement process for these 300 schools will be completed at the commencement of 2016/17 school year.

(c) The total expenditure on the promotion of STEM education in 2015-16 was about \$56.6 million. About \$1.1 million was spent on organising the Student Education Fair held in January 2016. A total of about \$55.5 million is to be released as a one-off grant for the promotion of STEM education to all government, aided and DSS primary schools, including special schools with a primary section, in the 2015/16 school year. The amount of the one-off grant is \$100,000 per school.

(d) To promote STEM education, we are renewing the Curriculum Guides of the Science Education, Technology Education and Mathematics Education Key Learning Areas (KLAs) which are scheduled to be released in the 2016/17 school year. There would be on-going professional development programmes for curriculum leaders and teachers. We will also enrich the learning and teaching resources for relevant curricula of the above KLAs. The expenditure for the above strategies will be absorbed by recurrent expenditures of the Education Bureau. Separate estimate is not available.

(e) Subsequent to the two-month consultation on promoting STEM education held in November 2015 to January 2016, views collected from stakeholders will be carefully considered. The Report on promoting STEM education is being prepared and concrete suggestions will be put forward for each of the strategies proposed in the consultation document. The Report has been scheduled to be released by the end of this year.

(f) The subjects related to information technology (IT) and student enrolment at the junior and senior secondary levels in the 2014/15 school year are set out as follows:

Level	Junior Secondary	Senior Secondary
Subject(s) / Key Learning Area	Computer Literacy / Enriched Technology Education Key Learning Area curriculum	Information and Communication Technology
Number of Students in the 2014/15 School Year	About 169 000	21 640

It is noteworthy that, at the junior secondary level, all secondary schools have been recommended to implement the enriched Technology Education Key Learning Area curriculum from Secondary 1 starting from the 2014/15 school year. The core and extension learning elements under the “Information and Communication Technology” knowledge context will replace the Computer Literacy syllabus.

(g) We collaborated with various tertiary institutions, professional bodies and other related organisations in organising the Student Education Fair in January 2016. They included the Hong Kong Science and Technology Parks Corporation, The University of Hong Kong, The Hong Kong Polytechnic University, Vocational Training Council, Hong Kong Association for Science and Mathematics Education, and Hong Kong Technology Education Association.

The Student Education Fair aimed to showcase and celebrate a wide range of student achievements on STEM-related areas, and provide quality learning experiences for primary and secondary students to enhance their interests in learning, creativity and innovation as well as to strengthen their ability in integrating and applying cross-disciplinary knowledge and skills.

The expenditure on organising the above Student Education Fair was about \$1.1 million.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Please advise this Committee on the following:

- (1) The number of hours of computer programming lessons at senior secondary levels and the number of students involved in 2015-16;
- (2) The percentage of computer programming teachers who have the background of information technology education; and
- (3) Are there any measures to subsidise or enhance the computer programming lessons at senior secondary levels in public sector and aided schools? If yes, please provide information on the expenditure in the past 3 years as well as the estimated expenditure, support initiatives, work targets, timetable and manpower for the coming year?

Asked by: Hon Charles Peter MOK (Member Question No. 130)

Reply:

- (1) The senior secondary curriculum has an elective subject entitled Information and Communication Technology (ICT) which has programming elements. The number of hours allocated to the compulsory part and elective part of ICT are 20 and 75 hours respectively. The number of students studied this subject in the 2014/15 school year was 21 640.
- (2) All teachers in local primary and secondary schools, regardless of being subject-trained or not, are required to meet the basic academic qualification requirements before they can be registered to teach in schools. Given the varied availability of subject expertise in schools, individual school management is always in the best position to recruit and/or flexibly deploy suitable teachers to provide the best learning opportunities for students in various subjects, including computer/ICT. Thus, the percentage of computer programming teachers who have the background of information technology education is not available. However, professional development programmes (PDPs) for serving computer/ICT teachers have been organised continuously to enhance the quality of learning and teaching of computer/ICT in schools.
- (3) The curriculum content of the elective subject ICT was revised in 2015 in order to enhance the teaching of computer programming. PDPs will continuously be organised to equip teachers to teach the updated contents. In addition, learning and teaching resource will be developed. The expenditure on and manpower for curriculum development, resource materials development and PDPs are absorbed by the recurrent expenditures of EDB. Separate estimate is not available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Belt and Road Initiative will have far-reaching implications on the economy of Hong Kong. In this connection, please provide information on the expenditure and manpower for the promotion of the Belt and Road Initiative at primary and secondary schools and universities.

Asked by: Hon CHAN Han-pan (Member Question No. 9)

Reply:

In the 2016/17 school year, the expenditure and manpower involved in the promotion of the "Belt and Road" initiative at primary and secondary schools are absorbed by the recurrent estimate and the establishment of the Education Bureau (EDB). Therefore, we are not able to provide a separate breakdown of the expenditure and the manpower for the promotion of the "Belt and Road" initiative in terms of these 2 levels.

In terms of higher education, to encourage more outstanding students from countries and regions along the "Belt and Road" to pursue university studies in Hong Kong, we propose to, starting from the 2016/17 academic year, introduce the Hong Kong Scholarship for "Belt and Road" Students by expanding the Targeted Scholarship Scheme under the HKSAR Government Scholarship Fund (Scholarship Fund) from 10 offers per year at present to cover 100 additional offers per year by phases. In this connection, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to increase the number of additional offers for the Hong Kong Scholarship for "Belt and Road" Students to 100 by phases.

Apart from the proposed injection of \$1 billion into the Scholarship Fund as mentioned above, the expenditure and manpower involved in promoting the "Belt and Road" initiative in the higher education sector will be funded by existing resources of EDB and subsumed under the establishment and provision for EDB. It is difficult to quantify them separately.

Question:

Career and life planning is crucial to the development of students. What were the expenditure and manpower involved with the career and life planning in the past 3 years?

Asked by: Hon CHAN Han-pan (Member Question No. 10)

Reply:

Starting from the 2014/15 school year, Education Bureau (EDB) has provided public sector and Direct Subsidy Scheme schools operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG) to strengthen life planning education for secondary students. The CLPG per school is benchmarked to the mid-point salary of the Graduate Master pay scale. The expenditure for the provision of the CLPG for the 2014/15 school year is \$264.6 million while the estimated expenditure for the 2015/16 school year is \$273.8 million.

Besides, to enhance the readiness of non-Chinese speaking students and students with specific learning difficulties for work and further studies, EDB has also commissioned non-governmental organisations, on a pilot basis, to organise work experience programmes for these students over a three-year period as from the 2015/16 school year. The total expenditure for the above three-year pilot projects is estimated to be about \$16.6 million.

Apart from the provision of the CLPG, EDB has also taken a range of measures to strengthen professional support for schools and teachers in providing life planning and career guidance services for students, such as increasing the number of structured teacher training places, organising seminars/workshops on specific themes, promoting professional exchanges among schools and teachers, conducting advisory visits to provide professional advice to schools, engaging business organisations to provide students with career exploration opportunities via the Business School Partnership Programme (BSPP), disseminating updated information on further studies and career opportunities on the webpage, issuing a Guide on Life Planning Education and Career Guidance for Secondary Schools for reference, etc. To nurture the culture of supporting the young generation for life planning, EDB has been making vigorous efforts to engage various stakeholders in schools and reach out to parents, business organisations and the community at large through social media, issuing newspaper supplements and sharing highlights of BSPP activities on the BSPP homepage throughout the year. The whole Career Guidance Section with EDB staff and seconded teachers is committed to carrying out the above duties to support schools in the implementation of life planning education. The required manpower and related expenditure are subsumed into EDB's recurrent expenditure.

CONTROLLING OFFICER'S REPLY

EDB141

(Question Serial No. 0148)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational expenses
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) What are the details of the idle sites which have currently been planned for educational purposes, including their locations, areas, the numbers of years for which they have been left idle, their planned uses and latest situations?
- b) What are the details of the existing vacant school premises, including their addresses, the numbers of classrooms and facilities available therein, their areas, original uses, the number of years for which they have been left vacant, their planned uses and latest situations?
- c) Has the Government drawn up specific work plans and timetables in respect of the planned uses of all sites for educational purposes and vacant school premises? If it has, what are the details? If not, will the Government draw up such plans and timetables shortly? If it will draw up such plans, what are the details? If not, what are the reasons for that?
- d) Had the Government and other bureaux asked the Education Bureau (EDB) to rezone idle sites planned for educational purposes to other uses in the past three years? If they had, please set out in table form the locations, areas, expected uses and development plans of such sites.
- e) Does the EDB have plans to strive for rezoning more idle sites earmarked for educational purposes in 2016/17? If it has, what are the details? If not, what are the reasons for that?
- f) Last November, the Report No. 65 of the Director of Audit stated that of the 234 vacant school premises recorded in the EDB's database, only 102 were being used, while 105 were not being used and had ceased operation for an average of 6 to 12 years. The Audit Commission criticised the EDB that the numbers maintained in the database were inaccurate and the public also had difficulty in accessing the list of vacant premises for short-term use. Will the EDB earmark expenditure for improving the said situation? If yes, what are the details? What is the estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 2)

Reply:

(a) & (c) As at March 2016, there are a total of 22 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as technical feasibility study and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 22 reserved school sites by districts with their location, site area and planned

use is set out in Table (1). Among them, funding approval for two was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2012-13 LegCo Session with the school building works already underway; six were approved in the LegCo Session in 2014-15 with the school building works commenced in 2015 or to be commenced soon; while projects on another three sites would be submitted for funding approval from FC in the 2015-16 LegCo Session. For the remaining 11 sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

Table (1) – Reserved School Sites by District

No.	District	Location	Site Area (rounded to the nearest hundred m ²)	Planned use	Number of classrooms	Remark
1	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)
2	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)
3	Kowloon City	Kai Tak Development	8 000	Two Special Schools	12 each	(i)
4	Kowloon City	Kai Tak Development	7 500	Secondary School	30	(ii)
5	Kowloon City	Kai Tak Development	7 700	Secondary School	30	(iii)
6	Kowloon City	Ho Man Tin	7 700	Primary School	24	(iv)
7	Kwun Tong	Jordan Valley	6 900	Special School	18	(i)
8	Kwun Tong	Anderson Road	7 200	Secondary School	30	(iii)

10	Kwun Tong	Anderson Road	6 200	Primary School	30	(iii)
11	Eastern	North Point	12 300	Primary School	24	(i)
12	Eastern	North Point	(Total)	Primary School	24	(i)
13	North	Fanling	7 100	Primary School	36	(i)
14	Sham Shui Po	Cheung Sha Wan	6 500	Primary School	30	(iii)
15	Sham Shui Po	Cheung Sha Wan	4 400	Special School	12	(i)
16	Sai Kung	Tseung Kwan O	6 200	Primary School	30	(iv)
17	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	(iv)
18	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	(iii)
19	Tuen Mun	Tuen Mun West	7 100	Special School	16	(ii)
20	Islands	Tung Chung	5 800	Special School	18	(iii)
21	Sha Tin	Shui Chuen O	8 700	Primary School	30	(iii)
22	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from the Finance Committee of the Legislative Council for the school building project.
- (ii) Funding approval would be sought from the Finance Committee of the Legislative Council in the 2015-16 Legislative Council Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.

(iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

(b) & (c) It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, as at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use; nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are in Table (2) below:

Table (2) – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises

1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB. As there is a need to earmark/retain some VSP to cater for the anticipated increase in demand for school places and to allow flexible arrangements required for meeting the changing demand, including the uncertainty involved, and various needs, it is not practicable to set a fixed target of vacancy period or number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP already earmarked for educational use but suitable for short-term use to relevant bureaux/departments with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(d) & (e) Under the established mechanism, PlanD will reserve sites for school development when preparing town plans and planning large-scale residential developments having regard to the planned population intake and on the basis of the needs for community services in accordance with the guidelines set out in the Hong Kong Planning Standards and Guidelines. In the process, EDB will be consulted on whether school sites should be reserved. As far as long-term planning in primary and secondary education is concerned, EDB will make reference to the school-age population projections, which are compiled based on the population projections updated regularly by the Census and Statistics Department^{Note 1}, and take into account the actual number of existing students at various levels and the estimated number of cross-boundary students^{Note 2} as well as the latest demographic changes, including the number of newly-arrived children from the Mainland, in estimating the future demand for school places and relevant resources. When planning the School Building Programme for reserved school sites, EDB will consider the latest projections, the prevailing educational initiatives, other factors that may affect the demand for school places in certain districts and different options to increase the supply of places (e.g. utilising vacant classrooms in existing schools) in particular districts. We will consider if there is a long-term need to identify reserved school sites to meet the projected demand^{Note 3} and relevant educational initiatives, and liaise with PlanD accordingly when such need arises. We will also consider the projected demand for school places in the district in the medium and the longer term, the technical feasibility of developing the site and the likelihood of acquiring alternative school sites in the district, etc., before we decide to retain or release a particular reserved school site so as to facilitate better utilisation of valuable land resources. For example, the ex-reserved secondary school site at Choi Hing Road, Kwun Tong has been released to PlanD for alternative use following the earlier review of the School Building Programme in 2011. PlanD has already identified a replacement site for school development for meeting future educational needs.

As regards the publicly-funded post-secondary education sector, the Government and the University Grants Committee (UGC) are committed to supporting the development of publicly-funded teaching facilities and student hostels by UGC-funded institutions in accordance with the established policies and calculation criteria. To ensure optimal use of limited land resources, the Government and UGC encourage UGC-funded institutions to identify suitable sites within campus or consider the conversion or expansion of existing campus structures so as to make the best use of campus land. Where necessary, we will also identify suitable government land outside the campus for UGC-funded institutions to meet their development needs under the prevailing policies and calculation criteria.

As for the self-financing post-secondary education sector, the Government has been actively identifying suitable sites and vacant government premises (including VSP) to facilitate the operation of quality self-financing locally-accredited post-secondary programmes by non-profit-making institutions. Subject to the demand of the self-financing post-secondary education sector, the Government will identify suitable sites/premises for campus development of the institutions concerned.

Note 1 : The latest set of population projections (i.e. 2014-based Population Projections) was released in September 2015, which had adopted the latest assumptions on fertility of local women, time and rate of return of over 180 000 babies born to Mainland women in Hong Kong whose fathers are non-permanent

residents of Hong Kong (i.e. Type II babies) during 2006 to 2012, and children admitted under One-way Permits. It is worth noting that the actual number of Type II babies who would settle in Hong Kong and if so, when, is subject to high uncertainty and that should they settle and live in Hong Kong, it is more difficult to predict their demand for school places in individual districts.

Note 2 : Cross-boundary students (CBS) are not counted as part of Hong Kong resident population. Their numbers and choice of the boundary control points through which they would access Hong Kong are subject to significant year-on-year changes depending on family factors, distribution of their place of residence, and adjustment of related policies, etc. Therefore, it is not plausible to accurately project the overall number of CBS and their geographical distribution.

Note 3 : If it is established that there is a need for more public sector school places in individual district, we will, as a general rule, first consider providing additional classrooms within the existing school premises and recycling suitable vacant school premises for school use. We will implement school building projects to increase the supply when the above measures are unable to meet the expected and sustainable demand. Flexible measures such as converting other rooms into classrooms, borrowing school places from other school nets etc. will be adopted if the demand is believed to be temporary in nature.

(f) In light of the recommendations of the Audit Report and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply keeping a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, LandsD, PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

The relevant manpower expenses in carrying out the above improvement measures will be absorbed by the recurrent expenditure of EDB. We do not have a separate breakdown on expenditure in this regard.

CONTROLLING OFFICER'S REPLY**EDB142****(Question Serial No. 0152)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) From 1 July 2012 onwards, what were the dates of Legislative Council meetings the Secretary for Education (SED) and the Under Secretary for Education (US(Ed)) had attended each year and the durations of their attendance (Please provide the attendance data of the two political appointees respectively)?
- b) From 1 July 2012 onwards, what were the details of meetings of the Legislative Council's Panel on Education, Bills Committee and sub-committees the SED and the US(Ed) had attended each year, including the dates of meetings, the respective committees, the agenda items and the number of hours of attendance?
- c) From 1 July 2012 onwards, what were the respective numbers of Legislative Council meetings, committee meetings, sub-committee meetings and other meetings the US(Ed) had attended on behalf of the SED each year due to his duty visits outside Hong Kong, absence on leave or other reasons?
- d) Does the Education Bureau has any mechanism for determining whether the SED or the US(Ed) should attend a Legislative Council meeting? If yes, what are the details?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 6)

Reply:

- (a)-(b) The numbers of Legislative Council (LegCo) meetings, committee meetings and sub-committee meetings the Secretary for Education (SED) and the Under Secretary to Education (US(Ed)) had attended since 1 July 2012 are tabulated as follows:

	LegCo Year 2011-2012	LegCo Year 2012-2013	LegCo Year 2013-2014	LegCo Year 2014-2015	LegCo Year 2015-2016 (up to 2 March 2016)
LegCo meetings	0	32	28	30	14
Committee Meetings	1	29	26	23	11
Sub-committee meetings	0	9	10	13	0

- (c) Since his assuming the office on 5 November 2012, US(Ed) had attended a total of 9 LegCo meetings and 3 committee meetings in the capacity of Acting SED during the LegCo year 2012-2013 to 2015-2016 (up to 2 March 2016).
- (d) SED and US(Ed) attend LegCo meetings on the basis of operational needs and in accordance with relevant internal government circulars.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Would the Education Bureau provide the attendance rates of members at meetings of the Committee on Free Kindergarten Education (Committee) and its sub-committees since its establishment? (Please set out the attendance rate of each member by Committee meeting and sub-committee meeting.)

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 33)

Reply:

There were changes in the membership of the Committee on Free Kindergarten Education (Committee) and its sub-committees during the two years of work. The average attendance rates of members at the Committee and individual sub-committee meetings reflect the participation of the members in the Committee/sub-committees. The relevant information is as follows:

Committee/Sub-committee	Average attendance rate
The Committee	87%
Sub-committee on Objectives, Teacher Professionalism and Research	84%
Sub-committee on Operation and Governance	76%
Sub-committee on Funding Modes	76%
Sub-committee on Catering for Student Diversity	78%
Sub-committee on Communication Strategy	75%

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (001) Salaries

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) What were the pay and allowances for the Secretary for Education, the Under Secretary and the Political Assistant respectively for each year from 1 July 2012 onwards? What were the respective numbers of paid leave days to which they were entitled and the respective numbers of paid leave days they took for each year?
- b) Please list respectively the dates of leave of the Secretary for Education, the Under Secretary and the Political Assistant in 2015-16.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 40)

Reply:

The salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education from 1 July 2012 onwards is as follows –

	<u>Salary (\$million)</u>			
	2012-13	2013-14	2014-15	2015-16
	<i>(from 1 July 2012 to 31 March 2013)</i>			
Secretary for Education	2.54	3.38	3.42	3.58
Under Secretary for Education	0.89*	2.20	2.22	2.33
Political Assistant to Secretary for Education	0.48*	1.18	1.20	1.25

* The respective posts were vacant from 1 July 2012 to 4 November 2012.

Since assuming the positions in 2012, the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education were entitled to paid vacation leave of 22 working days per year of service or such proportion of it on a pro rata basis. They all took their vacation leave within their entitlement.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Regarding the overseas duty visits made by officials and departmental staff of the Education Bureau, please itemise the programmes of these visits and using the table below, provide details on the destinations, purposes, size of tour and expenditures involved in each of the past 5 years:

Year	Programmes of overseas duty visits and destinations	Purpose of visit	Number of participating officials	Expenditures involved

2. In connection with the above overseas duty visits, please provide by programme the annual figures on total carbon footprints (including carbon footprints from flights and those from city transport used at the destinations) in the table below and provide the method for measuring carbon footprints:

Year	Programmes of overseas duty visits	Total carbon footprints	Carbon footprints from flights	Footprints from city transport

3. Have carbon offsets been purchased for the above overseas duty visits by the Administration using public funds or private money of the Secretary for Education and other officials? If yes, please use the table below to provide figures on carbon offsetting in each of the past 5 years:

Year	Programmes of overseas duty visits	Emission of carbon dioxide offset	Methods for carbon offsetting	Expenditures involved

Asked by: Hon Kenneth LEUNG (Member Question No. 3.19)

Reply:

1. Information about duty visits outside Hong Kong made by Education Bureau officials in the past 5 years is as follows:

Financial Year	Purpose of visits	No. of Visits	No. of Officials	Expenditure (\$'000)
2011-12	The major objectives of the duty visits were to promote the education initiatives of Hong Kong, share experience on education reforms, explore co-operation on other educational fronts and attend international conferences on education issues.	111	297	4,708
2012-13		114	349	4,911
2013-14		98	306	5,109
2014-15		131	327	4,098
2015-16		148	398	3,435

The destinations of the duty visits include the Mainland, Argentina, Australia, Belgium, Canada, Colombia, Czech, Estonia, Finland, France, Germany, Indonesia, Iran, Ireland, Italy, Japan, Kazakhstan, Malaysia, Mexico, New Zealand, Norway, Philippines, Portugal, Singapore, South Africa, South Korea, Spain, Switzerland, Taiwan, Thailand, United Kingdom, United Arab Emirates and United States of America.

2. The total carbon footprint for each duty visit outside Hong Kong cannot be calculated as the Bureau does not have details of the local transport taken in the destinations visited.

3. Currently there is no requirement of carbon offsetting for visits undertaken by government officials in the Administration.

Director of Bureau: Secretary for Education

Question:

Regarding the Mainland University Study Subsidy Scheme (MUSSS), please provide:

1. the number of students applying for the MUSSS, the distribution of successful applicants by institution and programme; and
2. the staffing and expenditure involved in implementing the MUSSS in the past year.

Asked by: Hon KWOK Wai-keung (Member Question No. 34)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

Of the 448 applications received for the 2014/15 academic year, 263 applicants pass the means test, with 152 eligible to receive the full-rate subsidy and the remaining 111 to receive the half-rate subsidy. As for the 2015/16 academic year, 336 new applications were received. Of them, 236 applicants pass the means test, with 161 eligible to receive the full-rate subsidy and the remaining 75 to receive the half-rate subsidy. Including both newly approved applications and subsidy renewal, subsidy was provided to 479 students in total, with 304 receiving the full-rate subsidy and 175 receiving the half-rate subsidy. Breakdowns of the MUSSS recipients by different Mainland higher education institutions and disciplines are set out in the Annex.

The total expenditures for implementing the MUSSS in the 2014/15 and 2015/16 academic years were about \$4 million and \$6.3 million respectively. As for the manpower and related expenditure involved in implementing the MUSSS, apart from the three time-limited civil service posts (namely, one Executive Officer I, one Clerical Officer and one Assistant Clerical Officer) created to cope with the additional workload arising from the implementation of the scheme, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

2	
3	
4	
5	
6	
7 or above	
Total	

Asked by: Hon Dennis KWOK (Member Question No. 19)

Reply:

(a)

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

To support schools to cater for their students with SEN, EDB has been providing public sector schools with additional resources, professional support and teacher training. The estimated additional expenditures on support and services provided for public sector primary and secondary mainstream schools in catering for students with SEN in the 2015/16 school year is \$1,315 million. It should be noted that schools are required to deploy the resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Hence, we are unable to provide the average cost of students with different types of SEN in mainstream schools.

(b)

The number of students with SEN studying in public sector mainstream primary schools by SEN type in the 2013/14 to 2015/16 school years are as follows:

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Total
2013/14	8 190	750	3 310	2 850	120	30	260	1 880	17 390
2014/15	8 090	740	3 800	3 270	110	30	270	1 890	18 200
2015/16	8 370	660	4 420	3 850	120	30	280	2 100	19 830

(c) & (d)

All schools are requested to adopt the Whole School Approach to support these students through a 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to “add on” intervention, such as small group learning and pull-out programmes etc., for students with persistent learning difficulties, including those with SEN. Tier-3 support refers to intensive individualised support for students with severe learning difficulties and SEN under which schools are required to draw up an individual education plan (IEP) for each of these students. Irrespective of the tier of support required by the students with SEN and whether the student may require an IEP, schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward, and the need for providing an IEP may change, from time to time according to the performance and prevailing support needs of the students. Hence, we are unable to provide the distribution of students in each tier and the number of students provided with IEP in schools under the 3-Tier Intervention Model.

- End -

Question:

Regarding the policy of integrated education, please advise this Committee on the following:

- (a) In 2014/15, there were 18 900 teachers teaching in mainstream primary schools. Please provide information on the changes in the number of teachers and the changes in the number of serving teachers who had received the following training courses in the past 5 years:
- i. 30-hour basic course;
 - ii. 90-hour advanced course;
 - iii. 90-hour to 120-hour thematic course
- (b) Please tabulate the data on expenditure involved for providing each of the above training courses by the Administration and its breakdown in the past 5 years.
- (c) Among those teaching in mainstream primary schools, how many teachers have possessed higher and more professional qualifications on special education than the above courses offered? What are the details of the qualifications? Please provide the information in table form.

Asked by: Hon Dennis KWOK (Member Question No. 20)

Reply:

- (a)
The number of public sector mainstream primary school teachers from the 2010/11 to 2014/15 school years is as follows:

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
No. of teachers	18 000	17 900	17 900	18 300	18 900

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at basic, advanced and thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream primary school teachers having completed the BAT Courses from the 2010/11 to 2014/15 school years is as follows:

Course	2010/11	2011/12	2012/13	2013/14	2014/15
Basic	97	147	120	215	215
Advanced	118	160	89	92	74
Thematic	531	592	144	200	152

Note: As at the end of the 2014/15 school year, 94%, 90% and 93% of public sector mainstream primary schools have achieved the training targets of the basic course; advanced course and thematic courses respectively. Schools have to continue to arrange for further training to fill the gap arising from trained teachers' leaving / resignation from service. Taking into account the situation of teachers trained in public sector mainstream schools and the types and number of students with SEN enrolled in mainstream schools, we have further raised the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year. The training targets will be reviewed with regard to the training situation of schools in due course.

(b)

The actual expenditure on the BAT Courses, which are open for both secondary and primary school teachers, from the 2010/11 to 2014/15 school years is as follows:

Course	Actual Expenditure (\$ million)				
	2010/11	2011/12	2012/13	2013/14	2014/15
Basic	4.1	4.3	6.3	7.9	7.3
Advanced	11.2	14.6	11.0	10.7	7.8
Thematic	25.1	25.1	18.4	24.5	24.4
TOTAL	40.4	44.0	35.7	43.1	39.5

(c)

Apart from the BAT Courses, there are courses on special education at certificate or degree level. EDB does not collect information on teachers who have studied courses on special education other than the BAT Courses, we are not able to provide the information in this respect.

- End -

CONTROLLING OFFICER'S REPLY**EDB152****(Question Serial No. 0419)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The integrated education policy in mainstream schools at the secondary level has been implemented by the Government since 1997 to facilitate students with special educational needs (SEN) to study in mainstream schools. Will the Administration please provide the following information:

- (a) the average unit cost of school places for students with different types of SEN studying in mainstream secondary schools in the past 5 years;
- (b) the number of students with SEN studying in mainstream secondary schools in table form:

	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Total
2013/14									
2014/15									
2015/16									

- (c) the distribution of students with SEN in mainstream secondary schools in the territory by severity (i.e. tiers 1, 2 and 3):

	Tier 1	Tier 2	Tier 3
2011/12			
2012/13			
2013/14			
2014/15			
2015/16			

- (d) the statistics on secondary schools implementing the Individual Education Plan (IEP) in the territory:

Number of IEP Implemented	Number of Schools
1	
2	
3	
4	
5	
6	
7 or above	
Total	

Asked by: Hon Dennis KWOK (Member Question No. 21)

Reply:

(a)

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

To support schools to cater for their students with SEN, EDB has been providing public sector schools with additional resources, professional support and teacher training. The estimated additional expenditures on support and services provided for public sector primary and secondary mainstream schools in catering for students with SEN in the 2015/16 school year is \$1,315 million. It should be noted that schools are required to deploy their resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Hence, we are unable to provide the average cost of students with different types of SEN in mainstream schools.

(b)

The number of students with SEN studying in public sector mainstream secondary schools by SEN type from the 2013/14 to 2015/16 school years is as follows:

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Total
2013/14	9 890	930	1 660	3 010	240	100	400	210	16 440
2014/15	10 520	910	1 990	3 640	220	90	380	240	17 990
2015/16	11 020	930	2 380	4 350	190	80	390	300	19 640

(c) and (d)

All schools are requested to adopt the Whole School Approach to support these students through a 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to “add on” intervention, such as small group learning and pull-out programmes, etc., for students with persistent learning difficulties, including those with SEN. Tier-3 support refers to intensive individualised support for students with severe learning difficulties and SEN under which schools are required to draw up an individual education plan (IEP) for each of these students. Irrespective of the tier of support required by the students with SEN and whether the student may require an IEP, schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward, and the need for providing an IEP may change, from time to time according to the performance and prevailing support needs of the students. Hence, we are unable to provide the distribution of students in each tier and the number of students provided with IEP in schools under the 3-Tier Intervention Model.

Asked by: Hon Dennis KWOK (Member Question No. 22)

Reply:

- (a)
The number of public sector mainstream secondary school teachers from the 2010/11 to 2014/15 school years is as follows:

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
No. of teachers	24 400	25 700	24 100	23 500	23 300

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at basic, advanced and thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream secondary school teachers having completed the BAT Courses from the 2010/11 to 2014/15 school years is as follows:

Course	2010/11	2011/12	2012/13	2013/14	2014/15
Basic	264	211	339	356	295
Advanced	169	213	152	141	86
Thematic	484	386	222	281	316

Note: As at the end of the 2014/15 school year, 82%, 83% and 89% of public sector mainstream secondary schools have achieved the training targets of the basic course; advanced course and thematic courses respectively. Schools have to continue to arrange for further training to fill the gap arising from trained teachers' leaving / resignation from service. Taking into account the situation of teachers trained in public sector mainstream schools and the types and number of students with SEN enrolled in mainstream schools, we have further raised the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year. The training targets will be reviewed with regard to the training situation of schools in due course.

(b)

The actual expenditure on the BAT Courses, which are open for both secondary and primary school teachers, from the 2010/11 to 2014/15 school years is as follows:

Course	Actual Expenditure (\$ million)				
	2010/11	2011/12	2012/13	2013/14	2014/15
Basic	4.1	4.3	6.3	7.9	7.3
Advanced	11.2	14.6	11.0	10.7	7.8
Thematic	25.1	25.1	18.4	24.5	24.4
TOTAL	40.4	44.0	35.7	43.1	39.5

(c)

Apart from the BAT Courses, there are courses on special education at certificate or degree level. EDB does not collect information on teachers who have studied courses on special education other than the BAT Courses, and is therefore not able to provide the information in this respect.

Director of Bureau: Secretary for Education

Question:

As stated in this year's Policy Address, the Hong Kong Scholarship for "Belt and Road" Students will be set up to attract outstanding overseas students to pursue undergraduate programmes in Hong Kong. Do the places concerned belong under University Grants Committee-funded places? What are the expenditures relating to the Hong Kong Scholarship for "Belt and Road" Students, including administration expenses, the expenditure on subsidising such places and the amount of scholarship to be offered to the students themselves? Does the amount of \$1 billion cover all the related expenses? Please explain in details in tabular form.

Asked by: Hon Dennis KWOK (Member Question No. 23)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the expenditure involved for the first academic year will be at most \$1.2 million. Same as the TSS, scholarship recipients will be admitted to publicly-funded degree programmes in Hong Kong as non-local students, and they will be counted outside the University Grants Committee (UGC)-funded student number. To encourage more outstanding students from countries and regions along the "Belt and Road" to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for "Belt and Road" Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

In terms of expenditures, the scholarship to be granted under the Hong Kong Scholarship for "Belt and Road" Students will only be used to cover the tuition fees payable by the students, subject to a ceiling of \$120,000 per student per annum, and it will be funded by the investment income generated from the Scholarship Fund. Administration of the scholarship will be funded by existing resources of the Education Bureau (EDB). The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It is indicated under "Matters Requiring Special Attention in 2016-17" that the Bureau will provide financial and professional support on a pilot basis to local public sector and DSS schools having formed sister schools with their counterparts in the Mainland. Would the Government inform this Committee:

(a) The number of primary and secondary schools in the territory that have formed sister schools with their counterparts in the Mainland and the number of primary and secondary schools that have received financial support. Please make a list of the above school names in a table format.

(b) Please make a list of the primary and secondary schools that have received financial support, indicating the average funding received by each school, the funding items, year of funding and the progress of each school in a table format.

Asked by: Hon Dennis KWOK (Member Question No. 24)

Reply:

(a) Since 2004, 334 schools (including 136 primary schools, 193 secondary schools and 5 special schools) in Hong Kong have participated in the Sister School Scheme and formed 489 pairs of sister schools with their counterparts in the Mainland through the coordination of the Education Bureau (EDB). In addition, many schools in Hong Kong have formed sister schools with their counterparts in the Mainland on their own initiative and through other means and no reporting of this kind of pairing up to EDB is required. As such, we do not have an exhaustive list of schools in Hong Kong that have formed sister schools in the Mainland. At present, there is no designated funding for sister school exchanges provided for schools in Hong Kong.

(b) EDB has earmarked a total provision of \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland and plans to provide an annual grant of \$120,000 through a three-year pilot scheme from the 2015/16 school year to local public sector and Direct Subsidy Scheme schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities. Since the Pilot Scheme has yet to be launched, we are unable to advise about the names of schools and their implementation progress at this stage.

CONTROLLING OFFICER'S REPLY**EDB156****(Question Serial No. 0427)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the number of teachers and teacher assistants for schools for children with intellectual disability, physical disability, and visual impairment cum intellectual disability as well as the psychiatric classes of hospital schools etc. which provide special education services, will the Administration inform this Committee of the following:

- (a) What are the current teacher-to-student and teacher assistant-to-student ratio in special schools? What are the total number of teachers and teacher assistants in special schools in Hong Kong? Please provide data with regard to the number of teachers and teacher assistants in the above-mentioned special schools in the past 5 years.
- (b) What are the general starting salary of teachers and teacher assistants in special schools and their duties?
- (c) What is the expenditure involved for employing teachers and teacher assistants in the above-mentioned special schools in the past 5 years?

Asked by: Hon Dennis KWOK (Member Question No. 36)

Reply:

- (a) The current teacher-to-student ratio in each type of aided special schools is tabulated below.

School Type	Teacher-to-Student Ratio
Visual Impairment	1 : 3.3
Hearing Impairment	1 : 2.8
Physical Disability	1 : 4.6
Mild Intellectual Disability ^{Note}	1 : 5.8
Moderate Intellectual Disability ^{Note}	1 : 4.0
Severe Intellectual Disability	1 : 3.8
School for Social Development	1 : 3.8
Hospital School	1 : 6.1

Note: The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 7 schools for children with MiID and children with MoID.

For teacher assistants (TAs), they are provided for some types of schools, such as schools for children with severe intellectual disability, schools for children with physical disability etc. to cater for the specific needs of their students. As the provision under the Code of Aid for Special Schools / Code of Aid for Aided Schools does not cover all types of aided special schools, providing the TA-to-student ratio in aided special schools is inappropriate and may be misleading.

The number of teachers and TAs in the schools that are provided with TAs in the past five years is as follows:

School Year	Number of teachers¹	Number of TAs²
2011/12	1 339.9	117.5
2012/13	1 368.1	116.5
2013/14	1 397.7	115.0
2014/15	1 427.6	329.5
2015/16	1 445.4	336.0

Note:

- 1 Number of teachers exclude school heads of aided special schools and the teachers for Home-bound Teaching Programme in hospital school.
- 2 The Education Bureau has introduced an improvement measure to provide additional TAs for the above-mentioned schools starting from the 2014/15 school year.

- (b) Teachers in aided special schools are required to perform teaching duties or other duties directly related to teaching as well as duties of special responsibility, such as curriculum planning and development, counselling, organizing extra-curricular activities, providing remedial teaching/support and other related duties as considered appropriate. TAs are required to assist teachers in arranging learning activities, production of teaching aids, preparing students' performance records, and providing individual care and support for the students as and when required, etc. The starting salary of teachers and TAs in aided special schools is as follows:

Post	Starting Salary in the 2015/16 School Year
Certificated Master/Mistress	\$25,505
Assistant Master/Mistress	\$43,105
Senior Assistant Master/Mistress	\$54,220
Assistant Primary School Master/Mistress	\$26,785
Primary School Master/Mistress	\$54,220
Senior Primary School Master/Mistress	\$63,095
Graduate Master/Mistress	\$26,785
Senior Graduate Master/Mistress	\$63,095
Principal Graduate Master/Mistress	\$74,210
Teacher Assistant	\$11,570

- (c) The expenditure for employing teachers and TAs in the past 5 years is as follows:

School Year	Teachers (in million)	Teacher Assistants (\$ million)
2010/11	632.18	14.32
2011/12	701.84	15.86
2012/13	750.16	16.70
2013/14	780.55	16.74
2014/15	867.63	46.26

- End -

CONTROLLING OFFICER'S REPLY**EDB157****(Question Serial No. 1468)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What was the financial provision for improving the learning and teaching of the English Language in primary schools in each of the past 3 years? What were the details and the effectiveness? How much does the Administration plan to allocate to this area for the 2016-17 financial year? What are the details and the intended effects?

Asked by: Hon Christopher CHEUNG Wah-fung (Member Question No. 27)

Reply:

In the past three years, we have been implementing various measures for improving the learning and teaching of English Language in primary schools. The provision for the purpose totalled \$390.84 million (of which \$33.55 million is from Language Fund) in 2013-14 financial year, \$404.54 million (of which \$35.64 million is from Language Fund) in 2014-15 financial year, \$434.38 million (of which \$32.95 million is from Language Fund) in 2015-16 financial year. The measures taken have built up the capacity of the schools for raising students' English proficiency, developed students' reading interest, facilitated whole-school curriculum planning, enhanced professionalism and pedagogy of English teachers, provided students with a rich and authentic language environment in schools for further raising their interest in learning and using English.

In 2016-17 financial year, we will continue to improve the teaching and learning of English Language in primary schools. The estimated provision in the 2016-17 financial year is \$445.65 million, of which \$32.74 million is from the Language Fund.

The objectives and details of the support measures implemented since 2013-14 financial year are tabulated as below:

No.	Name of Project	Objectives and Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.

No.	Name of Project	Objectives and Details
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance 2014/15	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects 2015/16	To engage community partners in organising language-related events/competitions in the community.

* Initiatives funded by Language Fund

** Initiative is funded out of Head 173 Student Financial Assistance Agency

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (1) Director of Bureau's Office
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

The revised estimate for Director of Bureau's Office has increased by 6% to \$12.4 million for this year, what are the reasons? Besides, the estimate for 2016-17 has also increased to \$12.4 million, i.e. 6% higher than last year's original estimate, what are the reasons? For 2015-16, what are the total number of duty visits outside Hong Kong made by the Secretary for Education (SED) and total expenditure incurred? What is the estimated expenditure on duty visits outside Hong Kong made by the SED for the coming year?

Asked by: Hon Christopher CHEUNG Wah-fung (Member Question No. 38)

Reply:

The increased estimate is mainly attributable to pay adjustments of the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education with effect from 1 February 2015.

In 2015-16, the Secretary for Education has made 13 duty visits outside Hong Kong. The total expenditure is \$482,820.

In 2016-17, duty visits will be conducted based on operational needs and prior approval is needed before related expenses are incurred. In making an application for duty visit, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. The duty visit expenditure will be governed by relevant regulations and guidelines and charged to the relevant votes to ensure effective control and use of public money.

*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance 2014/15	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects 2015/16	To engage community partners in organising language-related events/competitions in the community.

* Initiatives funded by Language Fund

** Initiative is funded out of Head 173 Student Financial Assistance Agency

- (b) In the 2015/16 school year, under the Native-speaking English Teacher (NET) Scheme in Primary Schools, 459 NETs are engaged in public sector primary schools. The Education Bureau is currently exploring means of enhancing the English learning environment in primary schools further.

Question:

Please provide:

1. the percentages (under 5%, 5-10%, 11-20%, 21-30%, above 30%) of Learning Support Grant (LSG) clawed back from schools in the past 4 years;
2. the amount of LSG clawed back and the number of schools concerned in the past 4 years;
3. the total amount of LSG clawed back.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 22)

Reply:

(1) – (3)

Schools are encouraged to fully utilise, in the respective school year, the Learning Support Grant (LSG) provided every school year to cater for the needs of their students with special educational needs. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. This arrangement was introduced in the 2011-12 financial year ^{Note 1}.

The number of schools with LSG clawed back at the end of the 2011/12, 2012/13 and 2013/14 school years (aided and caput schools)/ 2011-12, 2012-13 and 2013-14 financial years (government schools) by percentage range in relation to 12 months' provision and the amount of LSG clawed back in the school years/ financial years concerned are tabulated below. The total amount of LSG clawed back in the above period is \$12.34 million. As the amount to be clawed back from aided and caput schools for the 2014/15 school year will be confirmed only after the schools' submission of audited accounts by end of February 2016 and verification by the Education Bureau, we are unable to provide the claw-back information for the 2014/15 school year and beyond. With our stepped-up efforts to monitor the utilization of LSG by schools through providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for SEN support, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected, the surplus situation of LSG in schools has started to improve in the 2013/14 school year/ 2013-14 financial year.

Claw-back percentage and amount \ No. of schools ^{Note 2}	2011/12 school year (aided primary schools)/ 2011-12 financial year (government schools)	2012/13 school year (aided & caput schools)/ 2012-13 financial year (government schools)	2013/14 school year (aided & caput schools)/ 2013-14 financial year (government schools)
Under 5%	19	35	21
5–10%	5	23	15
11–20%	8	23	15
21–30%	7	14	8
Over 30%	12	36	22
LSG claw back amount (\$ million)	3.96 ^{Note 3}	5.33 ^{Note 3}	3.05

Note 1: This arrangement was first implemented in government schools in the 2011-12 financial year. It came into effect in aided primary schools and aided/caput secondary schools starting from the 2011/12 and 2012/13 school years respectively.

Note 2: The figures denote position as at March 2016.

Note 3: The LSG claw-back amount in the 2011/12 school year/2011-12 financial year included that of aided primary schools and government schools only. Since the claw-back mechanism for aided and caput secondary schools came into effect starting from the 2012/13 school year, both the number of schools having LSG clawed back and the claw-back amount increased in the 2012/13 school year/2012-13 financial year.

Question:

Please provide a breakdown by using the following table, by types of disabilities, of the distribution and data of students with special educational needs in each of the 3 tiers under the 3-Tier Intervention Model in each of the past 4 years.

	Number of students requiring tier-1 support	Number of students requiring tier-2 support	Number of students requiring tier-3 support
Specific Learning Difficulties			
Intellectual Disability			
Autism Spectrum Disorders			
Attention Deficit/Hyperactivity Disorder			
Physical Disability			
Visual Impairment			
Hearing Impairment			
Speech & Language Impairment			

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 20)

Reply:

The Education Bureau encourages schools to adopt the Whole School Approach to supporting these students through a 3-Tier Intervention Model, taking into account their need and the tier of support required. Under the Model, appropriate support measures are adopted to cater for the students' diverse needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to "add on" intervention, such as small group learning and pull-out programmes etc., for students with persistent learning difficulties, including those with special educational needs (SEN). Tier-3 support refers to intensive individualised support for students with severe learning difficulties and SEN. Schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward from time to time according to the performance of the students. Hence, we are unable to provide the distribution of students in each tier under the 3-Tier Intervention Model.

The number of students with SEN studying in public sector mainstream primary and secondary schools by SEN types from the 2012/13 to 2015/16 school years is set out at the Appendix.

**Number of students with SEN studying in public sector mainstream primary and secondary schools by major SEN Types
from the 2012/13 to 2015/16 school years**

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/ Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment

Director of Bureau: Secretary for Education

Question:

Please use the following table to provide the distribution of students with special educational needs in the 3 bands of secondary schools in each of the past 4 years by categories of disabilities.

	Band 1 No. of student	Band 2 No. of student	Band 3 No. of student
Specific Learning Difficulties			
Intellectual Disability			
Autism Spectrum Disorders			
Attention Deficit/Hyperactivity Disorder			
Physical Disability			
Visual Impairment			
Hearing Impairment			
Speech & Language Impairment			

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 21)

Reply:

“Banding of a student or secondary school” is a misconception. In brief, the Secondary School Places Allocation (SSPA) System is designed for, among other objectives, allocation of a Secondary One place to each participating student in an orderly manner to reduce undue pressure on students when seeking admission to Secondary One through the SSPA System. The so-called “banding” is merely an intermediary product in the computer-processing of school choice during the Central Allocation (CA) of the SSPA System to differentiate the order of allocation of participating students to a secondary school when the number of students making the choice to the secondary school exceeds the CA quota of the school. To avoid labelling of students and schools, and adverse impact on learning and teaching in schools, there is a consensus in the school sector that any information related to the “banding” of students should not be disclosed. The Education Bureau has been, through various means of parent education, calling for parents’ consideration of the needs, aptitudes and abilities of children when making school choice to reduce unnecessary competition for school places and alleviate undue pressure on students. The number of students with special educational needs (SEN) studying in Secondary One in public sector mainstream secondary schools by SEN type in the past four years (from the 2012/13 to 2015/16 school years) is tabulated at the Annex. However, like other SSPA applicants, we do not have the number of students with SEN by SEN type in secondary schools of different “banding”.

**Number of Secondary One students with SEN studying in public
sector mainstream secondary schools by SEN type from the 2012/13 to 2015/16 school years**

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment
2012/13	2 267	149	294	577	33	8	66	73
2013/14	2 297	183	396	710	32	12	60	65
2014/15	2 259	180	435	847	18	3	57	70
2015/16	2 198	219	495	938	18	8	63	107

Question:

Please provide a breakdown of the distribution of all students with special educational needs (SEN) by grade level (from K1 to F.6) in Hong Kong for the past 5 school years, as well as the total number of students with SEN proceeding to study sub-degree programmes, the total number of students with SEN proceeding to study UGC-funded degree programmes, the total number of students with SEN proceeding to study self-financing degree programmes, the total number of students with SEN proceeding to study postgraduate level programmes and the total number of students with SEN proceeding to overseas studies at tertiary institutions. The above information is to be broken down by the 8 types of SEN.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 113)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools from the 2011/12 to 2015/16 school years by grade level and SEN types is set out at Appendix 1. At pre-primary levels, services for children with SEN are provided by the Social Welfare Department. The Education Bureau does not have the related data.

Based on the information provided by the post-secondary institutions, the number of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes under the University Grants Committee-funded (UGC-funded) and non-UGC-funded institutions from the 2011/12 to 2015/16 academic years is set out at Appendix 2. We do not have information on the number of students with SEN proceeding to study postgraduate level programmes and overseas studies at tertiary institutions.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is stated in paragraph 194 of the Policy Address that the Government will further enhance the School-based Educational Psychology Service by progressively improving the ratio of educational psychologist to school to 1:4 for public sector primary and secondary schools with a large number of students with special educational needs. Please provide information on the details of this initiative, allocation of relevant resources and expected effectiveness. Please also explain the criteria for defining schools with a large number of students with special educational needs.

Asked by: Dr Hon Fernando CHEUNG Chiu Hung (Member Question No. 122)

Reply:

The School-based Educational Psychology Service (SBEPS) will cover all public primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. The Education Bureau (EDB) will accord priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students requiring individual support, etc.

With the enhanced provision, the schools will be better supported in catering for student diversity. Apart from helping the schools strengthen their preventive and developmental work, Educational Psychologists (EP) will pay regular and more frequent visits throughout the school year and provide comprehensive and regular follow-up to students and intervention services to the schools concerned based on the specific needs of the schools and their students.

The estimated additional expenditure incurred for the enhancement in the 2016/17 and 2017/18 school years is \$14.2 million.

Director of Bureau: Secretary for Education
Question:

It is mentioned in Matters Requiring Special Attention that the Bureau will continue to provide more Mainland exchange opportunities for primary and secondary school students. Please list out:

1. The names of schools which participated in Mainland exchange programmes arranged or commissioned by the Education Bureau from 2013/14 to 2015/16;
2. The names of the exchange projects and their details;
3. The names of the organisers of the exchange projects and the receiving organisations in the Mainland;
4. The total expenditures for the projects and the expenditure for each individual Mainland exchange project in each of the past 3 years;
5. Details of Mainland exchange opportunities provided for primary and secondary school students and the estimated expenditure in 2016/17.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 24)

Reply:

1. The Education Bureau (EDB) does not keep information about whether and when individual schools have joined the Mainland exchange programmes (MEPs), and therefore EDB does not have a readily available list of schools participating in MEPs from 2013-14 to 2015-16.
2. MEPs for students include programmes commissioned by EDB and those organised by schools under EDB's subvention schemes. In 2013-14, 2014-15 and 2015-16, MEPs for students were mainly provided through the "Mainland Exchange Programme for Junior Secondary and Upper Primary Students" (「同根同心」－香港初中及高小學生內地交流計劃), the "Mainland Exchange Programme for Senior Secondary School Students" (「同行萬里」高中學生內地交流計劃), the "Mainland Exchange Programme for Student Leaders" (領袖生內地交流計劃), the "Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland" (初中及高小學生交流活動資助計劃－「赤子情 中國心」), the "Senior Secondary School Students Mainland Exchange Programme Subvention Scheme" (高中學生內地交流活動資助計劃) and some thematic MEPs.
3. The service providers for EDB-commissioned MEPs in 2013-14, 2014-15 and 2015-16 include China Travel Service (Hong Kong) Limited (香港中國旅行社有限公司), Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司), Hong Kong-Beijing

Management Promotion Centre Limited (港京管理人才交流中心有限公司), Hong Kong-Beijing Tourist Agency Limited (港京旅行社有限公司), Plate-Forme (Hong Kong) Limited (旅遊學庫(香港)), Wofoo Social Enterprises Limited (和富社會企業有限公司), Yazhou Travel Service Limited (亞洲旅行社有限公司), and Chinese Language Education Research Association Limited (中國語文教育研究學會). The service providers collaborate with different receiving organizations in the Mainland according to the terms of the respective contracts. EDB does not keep a list of the receiving organisations concerned.

4. In the past three years (2013-14, 2014-15, and 2015-16), the expenditure involved in MEPs for students is shown below:

Financial Year	Expenditure (\$million)
2013-14	41.2
2014-15#	45.9
2015-16*	62.7

Actual figures revised from last year's estimates

* Provisional figures

5. In 2016-17, EDB plans to provide more Mainland exchange opportunities for primary and secondary students on top of the existing provision. The estimated expenditure is \$96.4 million.

Question:

As mentioned under Matters Requiring Special Attention, the Hong Kong Scholarship for “Belt and Road” Students will be introduced to attract outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong, please list:

1. the publicity means of the scholarship as well as the number of scholarship offers and estimated expenditure for 2016/17;
2. the names of programmes in which the awardees may enroll;
3. the names of countries at which the publicity will be targeted and the criteria for selecting such countries;
4. a forecast of the first date of promotion and total number of students applying for the scholarship;
5. the short, medium and long term benefits of the scholarship; and
6. the estimated manpower requirement and expenditure on creating posts of supervisory ranks for the project.
7. Will consideration be given to changing the policy from giving priority to the local people to allowing Hong Kong students to further their studies in the Belt and Road countries? If yes, what are the details? If not, what are the reasons?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 25)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the expenditure involved in 2016-17 will be at most \$1.2 million. Same as the TSS, the scholarship will be offered to students who are enrolled in publicly-funded degree programmes

in Hong Kong. Participating publicly-funded institutions will, having regard to the recommendations of the Indonesian Government, nominate students for selection by the Steering Committee of the Scholarship Fund. They have been requested to provide their nominations by 29 April 2016.

Given the objective of the Hong Kong Scholarship for “Belt and Road” Students to further strengthen the ties and educational exchanges between Hong Kong and the “Belt and Road” regions, the scheme will be implemented as a Government-to-Government collaborative initiative and introduced to students of individual “Belt and Road” regions separately by phases. Pursuant to the signing of a Memorandum of Understanding (MOU) on education co-operation between the Education Bureau (EDB) and the Ministry of Education and Culture of the Indonesian Government to enhance education collaboration between the two places in December 2015, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia) was launched as a concrete deliverable of the MoU.

Publicity of the Hong Kong Scholarship for “Belt and Road” Students (Indonesia) included issue of press release, posting of the details of the scheme on the website of EDB, placement of newspaper advertisements in Indonesia, dissemination of the details of the scheme through the Hong Kong Economic and Trade Offices in Singapore and the office of the Hong Kong Trade Development Council in Jakarta, etc.

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

The “Belt and Road” regions cover many countries/regions spanning Asia, Eastern Europe, Middle East and Africa. Encouraging more “Belt and Road” students to come to Hong Kong to pursue university study will help promote internationalisation of our institutions. Hong Kong is home to world-class universities which have the advantage of using English as the medium of instruction. This has all along been attracting students from all around the world. Recruiting non-local students for post-secondary programmes in Hong Kong will help diversify the local higher education sector and enhance the competitiveness of our students and Hong Kong as a whole. A multi-cultural learning environment, with students coming from other countries/regions, will help enhance cultural exchanges, broaden the horizons of the local students and help ensure that our graduates are globally competitive. While it is difficult to measure the abovementioned benefits by setting a rigid target, we believe that our drive to attract more students from all around the world, in particular outstanding students from the “Belt and Road” regions, to pursue studies in Hong Kong is the right direction. In the long run, it will help establish a platform for educational, cultural and youth exchanges between Hong Kong and the “Belt and Road” regions and bring benefits to Hong Kong.

Administration of the Hong Kong Scholarship for “Belt and Road” Students will be funded by existing resources of EDB. The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

Question:

It is stated under Matters Requiring Special Attention that the Education Bureau will continue to develop learning and teaching resource packages and an assessment bank for promoting Basic Law education at senior primary and junior secondary levels. In this connection, please provide the following information:

1. the manpower and expenditures involved to develop resource packages and assessment bank for promoting Basic Law education in each of the years between 2013/14 and 2015/16;
2. names and particulars of persons and bodies that have participated in and offered advice on the development of the resource packages and assessment bank;
3. details and expenditures of activities held in relation to the resource packages and assessment bank between 2013/14 and 2015/16; and
4. details of projects to promote Basic Law education at senior primary and junior secondary levels in 2016/17.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 26)

Reply:

1. Expenditure for the Basic Law-related curriculum work and support measures, which include research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is absorbed by the recurrent expenditure of the Education Bureau (EDB) as an integral part of day-to-day curriculum development work. Other than the expenditure on developing learning and teaching resources, there is no separate breakdown for individual items. The manpower requirement is being absorbed by the recurrent expenditure of EDB and we are not able to provide a separate breakdown of the manpower provisions of EDB for Basic Law education. The expenditure of EDB for developing resource packages and assessment bank on Basic Law education from 2013-14 to 2015-16 is as follows:

2013-14 [@]	2014-15 ^{@#}	2015-16 ^{@*}
0.65 million	2.07 million	3.65 million

[@] Manpower resources in the provision are absorbed by the recurrent expenditure of EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

2. The Basic Law teaching resource packages were prepared by relevant colleagues of EDB and seconded teachers. Quite a number of people were involved in the development of resource packages by different means, including focus groups, meetings, etc. We do not possess specific information on the participants.
3. Expenditure for the Basic Law-related curriculum development work and support measures, which include research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is absorbed by the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. Other than expenditure on developing learning and teaching resources, there is no separate breakdown for individual items, including the expenditure of activities (such as professional development programmes) held in relation to the resource packages and assessment bank.
4. Apart from developing the learning and teaching resources and assessment banks, and conducting professional development programmes for primary and secondary schools, EDB will organise the 2nd Basic Law Inter-school Competition for both primary and secondary schools students in July 2016.

(Question Serial No. 2693)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In respect of the programmes offered by self-financing post-secondary institutions, please provide a breakdown by institution:

- (1) The estimated intake, actual intake, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, sub-degree and higher diploma programmes offered by self-financing post-secondary institutions in the past 3 years (i.e. 2013/14 to 2015/16 academic years).
- (2) The estimated intake, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, sub-degree and higher diploma programmes offered by self-financing post-secondary institutions in the 2016/17 academic year.
- (3) Will the Government consider using voucher or other means to provide subsidy to students studying at self-financing post-secondary institutions? If yes, what are the details? If no, what are the reasons?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 27)

Reply:

(1) and (2)

According to the information provided by institutions, the number of estimated intakes, actual intakes and average annual tuition fees of full-time locally-accredited self-financing sub-degree (including Associate Degree and Higher Diploma), first-year-first-degree and top-up degree programmes by institution from the 2013/14 to 2015/16 academic years are set out at **Annexes A to C** respectively. The estimated intakes of full-time locally-accredited self-financing sub-degree and undergraduate programmes (the figures for top-up degree programmes are not available) by institution in the 2015/16 academic year are set out at **Annex D**. We do not have information on the tuition fees for the 2016/17 academic year and the unit costs of the programmes.

(3)

It is the Government's policy to support the parallel development of the publicly-funded and self-financing post-secondary education sectors. We have implemented a basket of measures to support the quality and sustainable development of the self-financing post-secondary education sector including land at nominal premium and Government premises at nominal rent; interest-free start-up loans; a \$3.52 billion Self-financing Post-secondary Education Fund to provide scholarships and support quality enhancement efforts of institutions; Research Endowment Fund to support research activities; Matching Grant Scheme and student finances. Comparing with vouchers, these measures can enhance the quality of post-secondary education and facilitate the provision of quality pathways for students pursuing further studies.

Moreover, as one of the initiatives to broaden the opportunities for local students to receive higher education, the Government has, starting from the 2015/16 academic year, launched the Study Subsidy Scheme for Designated Professions / Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts and we are reviewing its effectiveness.

CONTROLLING OFFICER'S REPLY**EDB170****(Question Serial No. 2694)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

On the attendance at public examinations and other territory-wide examinations by students with special educational needs (SEN), please provide the information of the past 3 years (2013/14 to 2015/16 school years):

(1) among the students with SEN who attended the Hong Kong Diploma of Secondary Education (HKDSE) Examination, the number of students applying for special examination arrangements by category of SEN and category of special arrangements;

(2) the number of dropped out Secondary 4 and Secondary 5 students with SEN and the number of students with SEN who have studied Secondary 6 but eventually did not enrol in the HKDSE or have enrolled in the HKDSE but were absent at the examination, by category of SEN and category of special arrangements;

(3) the Hong Kong Examinations and Assessment Authority's expenditure on making special examination arrangements for candidates of public examinations;

(4) the details of the current special examinations arrangements made by mainstream schools for students with SEN to attend the Pre-Secondary One Hong Kong Attainment Test and Territory-wide System Assessment, as well as the Education Bureau's expenditure on making this kind of special examination arrangements in the past 3 years.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 28)

Reply:

(1) The number of students with SEN applying for special examination arrangements in the HKDSE Examination in the past three years (2013/14 to 2015/16 school years), listed by categories of SEN and special examination arrangements is at **Appendix**.

(2) For the 2013/14 and 2014/15 school years, about 400 and 410 students with SEN were reported to have left school after completing Secondary 4 (S4) or Secondary 5 (S5) respectively. According to the information reported by schools, the main reasons for these students leaving the schools include attending full-time or part-time courses run by the Vocational Training Council, joining the Apprenticeship schemes or pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc. With the implementation of the new senior secondary curriculum and the diversified articulation to different pathways for lifelong learning, all students,

including those with different types of SEN, will consider a variety of factors such as one's own academic/ vocational/ career/ life aspirations, interests, aptitude and educational needs to make an informed choice of their exit pathway. Providing a breakdown of S4 and S5 students who left school by their SEN types is not meaningful and can be misleading.

We do not have the information on the number of Secondary 6 students with SEN who did not enroll in the HKDSE Examination. The number of SEN absentees, listed by categories of SEN, is only available since the 2015 HKDSE and is set out as follows -

Year of Examination	Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2015	HKDSE	0	0	0	1	0	2	3

- (3) The expenditure incurred by the Hong Kong Examinations and Assessment Authority (HKEAA) on the provision of special examination arrangements for HKDSE Examination in the past three years is as follows -

School Year	Expenditure (\$ million)
2013/14	7.2
2014/15	10.7
2015/16	12.4*

Note: HKEAA's financial year runs from 1 September to 31 August.

* Figure projected based on the resources required in handling the increase in number of candidates with SEN and the complexity for special examination arrangements, and with reference to September 2015 to January 2016 actual expenditure.

- (4) For the Pre-Secondary One Hong Kong Attainment Test, the Education Bureau (EDB) has been facilitating primary schools to indicate the needs of their students with special educational needs as well as their recommendations of the support to be required in a prescribed form for Primary 6 parents/students to be delivered to the secondary schools to which each student is allocated a school place so that the secondary schools will provide the special arrangements accordingly. The special arrangements required mainly include extending the time of the test, exemption of the listening test and special seating arrangements. Secondary schools may request EDB's assistance, if necessary, such as provision of enlarged question and answer booklets. EDB incurred a total cost of about \$260,000 for this purpose in the past three years from the 2013/14 to 2015/16 school years.

For Territory-wide System Assessment (TSA), schools may select special arrangements for SEN students according to their needs. The special arrangements for Oral, Chinese audio-visual (CAV) and Written assessments are as follows -

(i) Oral and CAV assessments

CAV assessments for primary schools and Oral assessments are conducted on a sampling basis. Under normal circumstances, SEN students would not be included in the Student Sample List. However, depending on individual needs, schools may request in writing to put any SEN students in the pool for random selection. In that case, no special arrangements will be provided to those students concerned.

(ii) Written assessments

Schools may make reference to their own special arrangements for SEN students in recent internal examinations and adopt them in the TSA where appropriate. In addition, the Hong Kong Examinations and Assessment Authority would provide some major adjustment arrangements such as allowing students to take assessments separately, extending assessment duration, providing

auxiliary facilities and equipment (e.g. typewriter or magnifier for students with Visual Impairment), Braille scripts, enlarged scripts, single-paged printing of question papers, coloured question papers (e.g. ivory, green) as well as A3 question-answer booklets, allowing students to use screen readers and other answering methods (e.g. typing the answers through the use of computers) and other ways to present the questions such as reading aloud the questions for students with Severe Reading Difficulties sitting for Listening and Writing papers.

The expenditure on the provision of special examination arrangements for the TSA in the past three years is as follows –

School Year	Expenditure (\$ million)
2013/14	0.12
2014/15	0.13
2015/16	0.15*

Note: HKEAA's financial year runs from 1 September to 31 August.

CONTROLLING OFFICER'S REPLY**EDB171****(Question Serial No. 2695)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee:

- (1) The number of ethnic minority students took part in the Primary 3 (P3), Primary 6 (P6) and Secondary 3 (S3) Territory-wide System Assessment (TSA) of the Chinese Language subject in 2015;
- (2) Among the students mentioned in (1), what is the number of students who had attained the basic competencies of the Chinese Language subject in the P3, P6 and S3 TSA respectively;
- (3) The number of non-Chinese speaking students took part in the P3, P6 and S3 TSA of the Chinese Language subject in 2015; and
- (4) Among the students mentioned in (3), what is the number of students who had attained the basic competencies of the Chinese Language subject in the P3, P6 and S6 TSA respectively.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 29)

Reply:

In brief, the Territory-wide System Assessment (TSA), underpinned by the concept of assessment for learning, is a standards-referenced assessment set against Basic Competencies (BCs) in the core subjects of Chinese, English and Mathematics. It aims to give a comprehensive picture of students' learning needs objectively and systematically and generate effective assessment data at both the system level in the form of a territory-wide, trend-analysis type of report and the school level in the form of individual school reports including item analysis reports. With such meaningful, measurable and reliable evidence, stakeholders may work individually and collaboratively to address, in a targeted fashion, the learning gap so identified or, generally, to raise the overall standards. TSA, complemented by findings of studies as appropriate and other relevant data, also forms an evidence-based feedback loop to facilitate reflection and refinement of teaching practices and provide an informed view on how to better ensure the continued relevance of the teacher competencies, which is crucial to teachers' continuing professional development.

In the 2014/15 school year, 1 395, 1 341 and 1 400 non-Chinese speaking (NCS) students participated in the Chinese Language assessment under TSA at Primary 3, Primary 6 and Secondary 3 respectively. According to our established practice, we will not disclose the attainment rate of individual groups of students to avoid labeling and piece-meal misinterpretation of the results. The information generated, though may not be fully representative in light of the relatively low participation, served as reference for the review of NCS students' learning of the Chinese language by the Education Bureau (EDB) and the schools

concerned in the manner as afore-mentioned. In fact, NCS students' learning of the Chinese language cannot simply be based on their attainment rates of BCs under TSA. With the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") from the 2014/15 school year, schools are provided with assessment tools in conjunction with the "Learning Framework" to enable them to conduct ongoing and systematic internal assessment of their NCS students at different learning stages according to individual learners' needs so as to keep track of their learning progress. EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of support measures for NCS students and refine them as appropriate.

- End -

CONTROLLING OFFICER'S REPLY**EDB172****(Question Serial No. 2696)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the expenditures and estimates of the Territory-wide System Assessment (TSA), please provide the following information:

- (1) In the past 5 years (school years 2011/12 to 2015/16), the manpower involved in TSA every year and the administrative salary expenditures involved;
- (2) In the past 5 years (school years 2011/12 to 2015/16), the details of expenditures of Hong Kong Examinations and Assessment Authority in processing and implementing TSA; and
- (3) In the past 5 years (school years 2011/12 to 2015/16), the number of staff required for providing feedback on learning and teaching to each school participated in TSA and the number of schools having made improvements in learning and teaching as a result of their participation in TSA.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 30)

Reply:

(1) and (2)

The manpower and the relevant staff costs in relation to the Basic Competency Assessment (BCA) project could not be identified separately as they are absorbed by the existing resources of the Education Bureau (EDB).

The EDB has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the BCA project, including Territory-wide System Assessment (TSA). The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA under the 2011 to 2014 and the 2015 to 2018 contracts are as follows:

Contract period	Expenditure on TSA (\$ million)	Average expenditure per year (\$ million)
2011-2014 (4 years)	220	55
2015-2018 (4 years)	296	74

(3)

In the past 5 school years, after the release of TSA report in November/December every year, HKEAA, as part of the contract to administer the BCA project, will conduct seminars for primary and secondary schools on TSA assessment results and use of assessment data to inform learning and teaching. A total of 36 seminars were held in the past five school years with about 1 000 representatives from schools participated in the seminars every year.

(Question Serial No. 2697)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education
(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In regard to the support received by students and respective training programmes attended by teachers for integrated education (IE), please provide the following for the past 5 years (2011/12 to 2015/16 school years):

- (1) The number of students with special educational needs (SEN) in mainstream primary and secondary schools by stage, grade level, SEN type, and tier of support;
- (2) The respective percentage share of students with SEN studying in mainstream schools in the total number of students with SEN and their percentage share in the total expenditure involved by SEN type and tier of support; and
- (3) The annual number of primary and secondary school teachers who have completed the basic, advanced and thematic (BAT) courses and the details of expenditure by course type.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 31)

Reply:

(1) and (2)

All schools are requested to adopt the Whole School Approach to support students with special educational needs (SEN) through a 3-Tier Intervention Model, taking into account their support needs. To help schools cater for their students with SEN, the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training.

The number of students with SEN studying in public sector mainstream primary and secondary schools by grade levels and by SEN types for the past 5 years (2011/12 to 2015/16 school years) is set out at Appendix 1. The percentage share of students with SEN by SEN type in the total number of students with SEN in the same period is tabulated at Appendix 2.

Schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward from time to time according to the performance of the students. Hence, we are unable to provide the distribution of students in each tier under the 3-Tier Intervention Model. The expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention for all mainstream schools from the 2011/12 to 2015/16 school years is as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16 (Revised Estimate)
Expenditure (\$ million)	964	1,009	1,075	1,222	1,315

It should be noted that schools are required to deploy their resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Besides, some expenditure items are on services for students with SEN irrespective of the types of SEN or tiers of support (e.g. teacher training and psychological support services). Hence, we are not able to provide the breakdown of the expenditure by different types of SEN or tiers of support of the students.

(3)

EDB launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at basic, advanced and thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream school teachers having completed the BAT Courses from the 2011/12 to 2015/16 school years is as follows:

Course	2011/12 (Actual)		2012/13 (Actual)		2013/14 (Actual)		2014/15 (Actual)		2015/16 (Provisional)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	147	211	120	339	215	356	215	295	201	382
Advanced	160	213	89	152	92	141	74	86	100	146
Thematic	592	386	144	222	200	281	152	316	188	308

The expenditure on the BAT courses from the 2011/12 to 2015/16 school years is as follows:

Course	Expenditure (\$ million)				
	2011/12 (Actual)	2012/13 (Actual)	2013/14 (Actual)	2014/15 (Actual)	2015/16 (Revised Estimate)
Basic	4.3	6.3	7.9	7.3	8.5
Advanced	14.6	11.0	10.7	7.8	12.3
Thematic	25.1	18.4	24.5	24.4	26.9
TOTAL	44.0	35.7	43.1	39.5	47.7

(Question Serial No. 2698)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (1) Please provide in the form of a table the details of the overseas duty visits made by the Secretary and Under Secretary for Education between 2012-13 and 2015-16, including the date of visit, place of visit, size of entourage, purpose of visit, expenses on hotel accommodation, air tickets and meals, as well as annual total expenditures of these visits.
- (2) Please provide details of the programmes and estimated expenditures of the overseas duty visits to be made by the Secretary and Under Secretary for Education in 2016-17.
- (3) Has assessment been made to measure the effectiveness of these visits in enhancing the work of the Education Bureau? Will any restrictions be worked out to limit the number of overseas duty visits made by the Secretary and Under Secretary for Education within a year? If yes, what is the effectiveness reflected by the assessment and what will be the maximum number of overseas duty visits? If no, what are the reasons?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 32)

Reply:

- (1) Information about duty visits outside Hong Kong made by Secretary for Education (SED) and Under Secretary for Education (US(Ed)) from 2012-13 to 2015-16 are at Annexes A and B respectively.
- (2) In 2016-17, duty visits will be conducted based on operational needs and prior approval is needed before related expenses are incurred. In making an application for duty visit, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. The duty visit expenditure will be governed by relevant regulations and guidelines and charged to the relevant votes to ensure effective control and use of public money.
- (3) Duty visits outside Hong Kong by SED and his entourage are conducted in strict compliance with the relevant Government requirements and have delivered results. Through in-depth exchanges with the education officers, academics and education sector of the places visited, we had gained more thorough understanding of their good practices and valuable experiences, which served as a useful source of reference for us to formulate major education policies, such as the 15-year free education, vocational education and e-learning, in recent years. Furthermore, SED had also showcased internationally Hong Kong's achievements in education, broadened and strengthened ties and cooperation with these places, and consolidated Hong Kong's role as a regional education hub to facilitate exchange of talents. SED had been invited from time to time to attend international education forums and seminars held in various countries/

places to exchange views on education policy, discuss the future developments in education policy/teaching profession, and explore bilateral co-operation opportunities with education officials as well as educators from around the world. In almost all his duty visits outside Hong Kong, SED had exchanges with and listened to the views of students from Hong Kong. In addition, the rapid development of our country in various areas such as its economy and technology in recent years together with the implementation of the “Belt and Road” initiative have presented new and unprecedented opportunities for Hong Kong. Through duty visits to and exchanges with the Mainland, SED had enhanced education co-operation and strengthened the ties between the two places, thereby providing more and wider opportunities for progression and development for Hong Kong students.

CONTROLLING OFFICER'S REPLY**EDB176****(Question Serial No. 2700)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) Over the past 5 years, how many post-secondary, secondary and primary school students received subsidies respectively to join the Mainland exchange? What were the details and expenditure involved?

(2) In 2016/17, according to the Government's estimation, how many post-secondary, secondary and primary school students will be subsidised by the Government respectively to join the Mainland exchange? What are the details and the estimated expenditure?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 34)

Reply:

(1) The number of post-secondary, secondary and primary school students who had received subsidies to join the Mainland exchange programmes over the past five years (2011-12, 2012-13, 2013-14, 2014-15 and 2015-16) and the expenditure involved are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)			Expenditure (\$million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2011-12	1 200	19 700	19 900	3.7	33.1	13.6
2012-13	5 900	12 800	7 400	17.8	27.8	4.5
2013-14	7 100	26 200	16 700	21.4	30.6	10.6
2014-15 [#]	4 500	26 600	17 400	13.8	34.6	11.3
2015-16 ⁺	4 000	37 300	20 700	12.3	48.0	14.7

[#] Actual figures revised from last year's estimates

⁺ Provisional figures

(2) The estimated number of places to be offered for post-secondary, secondary and primary school students to join Mainland exchange programmes in 2016-17 and the estimated expenditure are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)			Estimated expenditure (\$million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2016-17	3 500	53 300	32 900	10.6	71.7	24.7

CONTROLLING OFFICER'S REPLY**EDB177****(Question Serial No. 2701)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is mentioned in the Estimates that “continue to uphold the quality of vocational and professional education and training (VPET) and support the Government in promotion of VPET”.

Please provide the following:

- 1) What was the amount of funding for the programme from 2013/14 to 2015/16? Which Government departments had been involved in the promotion? What was the total number of student beneficiaries?
- 2) What are the estimates and details for VPET for 2016/17?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 35)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. Representatives of the Education Bureau (EDB) and Labour and Welfare Bureau were, inter alia, members of the Task Force. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. Among others, the Task Force recommended to rebrand VET to “vocational and professional education and training” (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force’s recommendations and would actively consider how to implement them. EDB has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council (VTC) campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;

- (e) extending the Pilot Training and Support Scheme (Pilot Scheme) for two more cohorts of 2 000 students to be admitted in the 2016/17 and 2017/18 academic years (the Pilot Scheme, with an original commitment of \$144 million, has been implemented in VTC since the 2014/15 academic year which targets to benefit 2 000 students. Under the Pilot Scheme, apprenticeship training for targeted industries is provided to students alongside a guaranteed level of salary and incentive allowance.);
- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) in order to consider whether to extend the Scheme (SSSDP, with a total commitment of \$960 million, has been launched since the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments. SSSDP is implemented on a pilot basis for three cohorts and a review is underway.);
- (h) enhancing the promotion of the Qualifications Framework (QF) with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

The financial provision of Programme (6) Vocational and Professional Education (or Vocational Education previously) from 2013-14 to 2016-17 is as follows –

2013-14 (\$ million)	2014-15 (\$ million)	2015-16 (Revised estimate) (\$ million)	2016-17 (Estimate) (\$ million)
2,081.8	2,182.1	2,302.8	2,319.1

Apart from the above, the financial provision of \$960 million for implementing SSSDP for three cohorts of students admitted from the 2015/16 to 2017/18 academic years is included under Programme (7) Policy and Support instead. In order to further encourage continuing education, the Financial Secretary announced in the 2016-17 Budget Speech that the Government would implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by VTC, covering programmes in the disciplines of construction, engineering and technology. Subject to the approval by the Finance Committee of the Legislative Council, the pilot scheme will be implemented from the 2016/17 academic year and incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. The scheme will benefit around 5 600 students in total for three cohorts.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a

separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

As stated in the Estimates, “(the Bureau will) continue to implement a series of targeted relief measures aiming at facilitating the sustainable development of schools and maintaining the stability and strengths of the teaching force”.

Please provide the following information:

- 1) the effectiveness indicators of such measures implemented by the Administration, the details of the resources allocated and the number of schools benefited from 2013/14 to 2015/16;
- 2) a list of secondary and primary schools which ceased operation from 2013/14 to 2015/16;
- 3) the estimated resources to be allocated to implement such measures in 2016/17; and
- 4) a list of secondary and primary schools expected to cease operation in 2016/17.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 36)

Reply:

(1) & (3)

The package of targeted relief measures the Education Bureau (EDB) implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in Secondary 1 (S1) student population. They are applicable to all aided, caput and government secondary schools. In gist, the targeted relief measures include:

- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
- ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
- iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

The relief measures in place have been effective in stabilising the secondary school sector notwithstanding the comparatively large extent of the decline in S1 student population in the school years from 2013/14 to

2015/16. To further stabilise the teaching force, schools with surplus teachers arising from reduction of S1 classes in the 2013/14 and 2014/15 school years, if in need, may apply to extend the retention period for these surplus teachers up to the 2017/18 school year. The expenditure for putting in place the targeted relief measures is subsumed under the overall expenditure of EDB and a breakdown of the expenditure in the 2013/14 to 2015/16 school years and the estimated expenditure for the 2016/17 school year in this regard are not available.

(2) & (4)

The above targeted relief measures is not applicable to primary schools. Hence, only information on secondary school closure will be provided. During the school years from 2013/14 to 2015/16, 2 aided secondary schools were closed, namely Hong Kong & Kowloon Chiu Chow Public Association Ma Chung Sum Secondary School and Po Leung Kuk Wai Yin College. Based on the available information, no schools will be closed in the 2016/17 school year.

(Question Serial No. 2703)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It is stated in the Estimates that the Government will continue to support the work of the Committee on Home-School Co-operation and facilitate the promotion of home-school co-operation.

In this connection, please provide the following information:

- (1) details and expenditures of subsidised activities held and to be held by the Committee on Home-School Co-operation between 2013/14 and 2015/16; and
- (2) estimated expenditures and project details of the Committee in 2016/17.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 37)

Reply:

(1) The Education Bureau (EDB) is committed to promoting home-school co-operation. The Committee on Home-School Co-operation (CHSC) has been supported by EDB in organising seminars and annual symposium for parents, producing radio programmes, maintaining website update, organising publicity activities, publishing the Primary and Secondary School Profiles for parents' reference, and providing grants to Parent-Teacher Associations (PTAs) in schools and District Federations of PTAs (FPTAs) for organising home-school co-operation programmes and activities. The expenditure involved from the 2013-14 to 2015-16 financial years is about \$27.7 million, \$28.2 million and \$30.8 million respectively.

(2) In the 2016-17 financial year, the estimated expenditure involved is about \$31.6 million. The existing efforts for promoting home-school co-operation will continue. With a view to deepening home-school co-operation, CHSC will organise more publicity programmes to increase parents' awareness of home-school co-operation and enhance parents' involvement in PTAs.

(Question Serial No. 2705)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It is mentioned in the estimates that the Bureau will “provide financial and professional support to local public sector and DSS schools having formed sister schools with their counterparts in the Mainland to further strengthen professional interflows among them”.

Please provide:

- (1) details of the estimates and support for the “Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland” in 2015/16 and 2016/17;
- (2) the estimated number of students, teachers, principals and administrators of each school expected to take part in the exchange activities;
- (3) a list of schools that are expected to use the grant to support Mainland students, teachers, principals and administrators visiting Hong Kong and the estimated expenditures.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 40)

Reply:

(1) The Chief Executive announced in the 2015 Policy Address to launch a three-year pilot scheme from the 2015/16 school year through which financial and professional support will be provided to local public sector and Direct Subsidy Scheme primary and secondary schools (including special schools) that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities. To this end, the Education Bureau (EDB) has earmarked a total provision of \$200 million for the implementation of the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland (“the Pilot Scheme”). Under the Pilot Scheme, upon vetting and approval of the applications, a successful applicant school will be provided with an annual grant of \$120,000 within the three-year implementation period starting from the 2015/16 school year. EDB will also provide professional support to schools through pairing up of sister schools, organising sharing sessions and related programmes, collecting and disseminating good practices, etc.

(2) & (3)

Eligible local schools can apply to join the Pilot Scheme on an entirely voluntary basis. Based on their development needs, participating schools are going to arrange sister school exchange activities with their Mainland counterparts on their own initiative and should deploy the designated grant to meet the expenses of sister school exchange activities and relevant support relating to the objectives of the Pilot Scheme.

Implementation details, including general guidelines for deployment of the designated grant, will be announced through a circular to be issued to schools in due course. Given the different school development needs and circumstances, and diverse modes and contents of exchange activities, and that the Pilot Scheme has yet to be launched, we are unable to provide information on the estimated number of participating school personnel and students from local or Mainland schools. Besides, expenses incurred by the school personnel and students of the Mainland sister schools to visit Hong Kong are not covered by the grant.

Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

For 2012/13 to 2015/16 school years, please provide the following information in tabular format:

- (a) the numbers of qualified in-service kindergarten teachers, and the numbers of principals and teachers among them;
- (b) the respective numbers of teachers in whole-day kindergartens, half-day kindergartens and kindergartens with both half-day and whole-day classes;
- (c) the respective numbers of teachers in kindergartens under and not under the subsidy of the Pre-primary Education Voucher Scheme (PEVS);
- (d) the numbers and percentages of kindergarten teachers holding a Certificate in Early Childhood Education (C(ECE)), the numbers and percentages of kindergarten teachers pursuing a C(ECE) programme; please give the total numbers and by PEVS kindergartens and non-PEVS kindergartens;
- (e) the numbers and percentages of kindergarten principals holding a Bachelor Degree in Early Childhood Education (BEd(ECE)), the numbers and percentages of principals pursuing a BEd(ECE) programme; please give the total numbers and by PEVS kindergartens and non-PEVS kindergartens;
- (f) the respective numbers of kindergarten teachers holding a Master Degree in Early Childhood Education (Med(ECE)) or pursuing a Med(ECE) programme;
- (g) the respective numbers of teachers holding a C(ECE), BEd(ECE) or a Med(ECE) in each year, and their annual rates of increase; and
- (h) the respective numbers and percentages of wastage of whole-day and half-day kindergarten teachers, the age distribution and length of service of these teachers, as well as the numbers and percentages of them holding a Certificate/Diploma, Bachelor Degree or a Master Degree in Early Childhood Education.

Asked by: Hon IP Kin-yuen (Member Question No. 1)

Reply:

- (a) The respective number of qualified kindergarten (KG) teachers serving in local KGs, and the number of principals and teachers among them from the 2012/13 to 2015/16 school years is tabulated below:

School year	Number of principals (a)	Number of qualified KG teachers (b)	Total number of qualified KG teachers (a)+(b)
2012/13	860	9 731	10 591
2013/14	872	10 179	11 051
2014/15	868	10 727	11 595
2015/16	872	11 086	11 958

- (b) The respective number of qualified KG teachers serving in local whole-day (WD) KGs, half-day (HD) KGs and KGs with both HD and WD classes from the 2012/13 to 2015/16 school years is tabulated below:

School year	Number of qualified KG teachers		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2012/13	2 051	3 002	5 538
2013/14	2 165	3 031	5 855
2014/15	2 290	3 319	5 986
2015/16	2 394	3 596	5 968

- (c) The respective number of qualified teachers serving in local KGs under and not under the subsidy of the Pre-primary Education Voucher Scheme (PEVS) from the 2012/13 to 2015/16 school years is tabulated below:

School Year	Number of qualified KG teachers	
	PEVS KGs	Non-PEVS KGs
2012/13	8 971	1 620
2013/14	9 105	1 946
2014/15	9 546	2 049
2015/16	9 967	1 991

- (d) The respective number and percentage of serving KG teachers holding a Certificate in Early Childhood Education (C(ECE)) qualification in local KGs under and not under PEVS from the 2012/13 to 2015/16 school years is tabulated below:

School Year	Number of serving KG teachers (%) holding C(ECE) in local KGs	
	PEVS KGs	Non-PEVS KGs
2012/13	8 036 (86.9%)	1 359 (74.3%)
2013/14	8 457 (89.7%)	1 714 (78.4%)
2014/15	9 073 (92.8%)	1 850 (80.3%)
2015/16	9 564 (93.7%)	1 808 (79.7%)

The number and percentage of serving KG teachers pursuing C(ECE) programmes in KGs from the 2012/13 to 2015/16 school years is tabulated below:

School Year	Number of serving KG teachers (%) pursuing C(ECE)
2012/13	1 384 (12.5%)
2013/14	1 072 (9.2%)
2014/15	988 (8.2%)
2015/16	644 (5.2%)

Breakdown by under and not under PEVS is not available, as such breakdown is not included in the information provided by tertiary education institutions offering these programmes.

- (e) The respective number and percentage of serving KG principals holding a Bachelor Degree in Early Childhood Education (BEd(ECE)); and the respective number and percentage of principals pursuing a BEd(ECE) in local KGs under and not under PEVS from the 2012/13 to 2015/16 school years are tabulated below:

School Year	Number of serving KG principals (%) holding BEd(ECE)			Number of serving KG principals (%) pursuing BEd(ECE)			Grand Total (%)
	PEVS KGs	Non-PEVS KGs	Total	PEVS KGs	Non-PEVS KGs	Total	
2012/13	567 (77.0%)	74 (57.4%)	641 (74.1%)	28 (3.8%)	8 (6.2%)	36 (4.2%)	677 (78.3%)
2013/14	592 (81.1%)	92 (61.3%)	684 (77.7%)	14 (1.9%)	6 (4.0%)	20 (2.3%)	704 (80.0%)
2014/15	611 (84.2%)	88 (60.3%)	699 (80.2%)	7 (1.0%)	9 (6.2%)	16 (1.8%)	715 (82.0%)
2015/16	627 (85.3%)	90 (65.2%)	717 (82.1%)	7 (1.0%)	1 (0.7%)	8 (0.9%)	725 (83.0%)

- (f) Information on the number of serving KG teachers holding a Master Degree in Early Childhood Education (MEd(ECE)) or pursuing a MEd(ECE) programme is not available. The Education Bureau (EDB) conducts annual questionnaire survey to collect information on the type of teacher training in ECE held by KG teachers in KGs in September of each school year. The information on MEd(ECE) has not been collected.
- (g) The respective number and annual rate of increase of serving KG teachers holding C(ECE) and BEd(ECE) in local KGs from the 2012/13 to 2015/16 school years is tabulated below. The information on MEd(ECE) has not been collected.

School Year	Number of serving KG teachers (annual rate of increase* in the specified period)	
	Holding C(ECE)	Holding BEd(ECE)
2012/13	6 211	3 184
2013/14	6 311 (1.6%)	3 860 (21.2%)
2014/15	6 543 (3.7%)	4 380 (13.5%)
2015/16	6 428 (-1.8%)	4 944 (12.9%)

* The annual rate of increase refers to the increase in the number of KG teachers holding C(ECE)/BEd(ECE) or equivalent as compared with the number of such teachers in the previous school year.

- (h) The respective number and percentage of wastage[#] in local WD KGs, HD KGs and KGs with both HD and WD classes; the age distribution and average years of service of these teachers; as well as the number and percentage of them holding C(ECE) and BEd(ECE) from the 2012/13 to 2015/16 school years are tabulated below. The information on MEd(ECE) has not been collected.

- (i) Number and percentage of wastage in local WD KGs, HD KGs and KGs with both HD and WD classes

School year	Number of wastage (%) in local KGs		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2012/13	139 (6.8%)	263 (8.9%)	461 (8.6%)
2013/14	136 (6.5%)	263 (8.2%)	491 (8.5%)
2014/15	161 (7.3%)	280 (8.6%)	627 (10.2%)
2015/16	158 (6.8%)	328 (9.2%)	554 (8.9%)

- (ii) Age distribution of drop-out teachers in local KGs

2012/13 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	272	304	152	113	22	863

2013/14 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	306	313	161	91	19	890

2014/15 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	359	330	204	146	29	1 068

2015/16 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	415	293	177	136	19	1 040

(iii) Average years of service of drop-out teachers in local KGs

School year	Average years of service
2012/13	12.1
2013/14	11.3
2014/15	12.0
2015/16	11.0

(iv) Number and percentage of drop-out teachers holding C(ECE) and BEd(ECE) in local KGs

School year	Holding C(ECE)	Holding BEd(ECE)
2012/13	333 (38.6%)	119 (13.8%)
2013/14	407 (45.7%)	183 (20.6%)
2014/15	464 (43.4%)	225 (21.1%)
2015/16	508 (48.8%)	252 (24.2%)

“Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note: Figures for the 2015/16 school year are provisional.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information regarding the kindergartens under the Pre-primary Education Voucher Scheme (PEVS) in the 2015/16 school year:

1. How many kindergartens operate half-day classes only? How many of them charge a school fee of \$30,000 or above, a school fee of \$32,900 or above, and a school fee that reaches the threshold of \$33,770?
2. How many kindergartens operate both half-day and whole-day classes? How many of them charge for half-day classes a school fee of \$30,000 or above, a school fee of \$32,900 or above, and a school fee that reaches the threshold of \$33,770?
3. Among the kindergartens with both half-day and whole-day classes, how many charge for whole-day classes a school fee of \$39,000 or above, a school fee of \$42,770 or above, and a school fee that reaches the threshold of \$67,540?
4. How many kindergartens operate whole-day classes only? How many of them charge a school fee of \$39,000 or above, a school fee of \$42,770 or above, and a school fee that reaches the threshold of \$67,540?
5. How many kindergartens/kindergarten-cum-child care centres provide long whole-day (normally 8 hours) services? How many of them charge a school fee of \$49,000 or above, a school fee of \$52,640 or above, and a school fee that reaches the threshold of \$67,540?

Asked by: Hon IP Kin-yuen (Member Question No. 2)

Reply:

The Pre-primary Education Voucher Scheme (PEVS) provides fee subsidy to parents in form of voucher to alleviate their financial burden of paying school fees for their children's kindergarten (KG) education. Fee thresholds are set to limit the maximum amount of school fees paid by parents on top of the voucher. In the 2015/16 school year, the thresholds for half-day (HD) and whole-day (WD) classes are \$33,770 and \$67,540 respectively. School fees collected by schools basically reflect their overall operating expenses. Under the new free quality KG policy, the basic HD unit subsidy (crudely estimated to be about \$32,900 in the 2017/18 school year) provided on a per student basis includes teaching staff salary, supporting staff salary and other operating expenses. For WD classes, an additional subsidy, set at 30% of the basic HD unit subsidy, will be provided (i.e. crudely estimated to be about \$42,770 for each place in the 2017/18 school year). For former child care centres operated under Social Welfare Department before harmonisation, the additional subsidy is set at 60% of the basic HD unit subsidy (i.e. crudely estimated to be about \$52,640 for

each place in the 2017/18 school year). In addition to the afore-mentioned per capita grant, KGs will be provided additional grants for special circumstances, for example, rental subsidy, premises maintenance grant, grant for cook, support for non-Chinese speaking students, etc. In view of the above, the fee thresholds under PEVS and the subsidy rates under the new KG policy cannot and should not be compared. Given that it can be misleading to consider the information in the proposed framework, we consider it inappropriate to compile the details.

CONTROLLING OFFICER'S REPLY**EDB183****(Question Serial No. 1683)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the course titles, course providers, course fees, number of places and applications received, unit cost as well as amount of subsidies of each place for all the fully-subsidised, partly-subsidised, and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and serving kindergarten teachers in the school years from 2011/12 to 2015/16.

Asked by: Hon IP Kin-yuen (Member Question No. 3)

Reply:

The course titles, course providers, course fees and enrolments in different subsidised and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and serving kindergarten teachers in the school years from 2011/12 to 2015/16 are tabulated below:

(A) Certificate in Early Childhood Education (C(ECE)) Training Programme

Pre-service C(ECE)						
Course provider	Financing Mode	No. of intake (Tuition fee per course in brackets)				
		2011/12 school year	2012/13 school year	2013/14 school year	2014/15 school year	2015/16 school year
HKIVE	VTC-funded	324 (Note)	327 (\$54,300 - \$71,500)	487 (\$60,500)	481 (\$63,140)	488 (\$63,140)
HKIED	UGC-funded	221 (Note)	243 (\$30,080 - \$45,120)	226 (\$30,080 - \$45,120)	276 (\$30,080)	340 (\$30,080)
HKBU	Non-subsidised (Self-financed)	70 (Note)	155 (\$133,955 - \$137,340)	127 (\$133,955 - \$137,340)	--	--

(C) Postgraduate Diploma in Education (Early Childhood Education) (PGDE(ECE)) Training Programme

Pre-service PGDE(ECE)						
Course provider	Financing Mode	No. of intake (Tuition fee per course in brackets)				
		2011/12 school year	2012/13 school year	2013/14 school year	2014/15 school year	2015/16 school year
HKBU	Non-subsidised (Self-financed)	21 (Note)	38 (\$65,000)	38 (\$65,000)	31 (\$65,000)	34 (\$65,000)

In-service PGDE(ECE)						
Course provider	Financing Mode	No. of intake (Tuition fee per course in brackets)				
		2011/12 school year	2012/13 school year	2013/14 school year	2014/15 school year	2015/16 school year
HKIEd	UGC- funded	83 (\$42,100)	80 (\$42,100)	80 (\$42,100)	126 (\$42,100)	119 (\$42,100)
HKBU	Non-subsidised (Self-financed)	32 (\$63,000)	29 (\$65,000)	36 (\$65,000)	36 (\$65,000)	38 (\$65,000)
HKU	UGC- funded	33 (\$42,100)	27 (\$42,100)	26 (\$42,100)	26 (\$42,100)	25 (\$42,100)

Interested applicants make applications to the course providers direct. The Education Bureau (EDB) does not have details of the number of applications received. Information on the unit cost and amount of subsidies of each of the subsidised training places for pre-service and serving kindergarten teachers is not available as recurrent funding is provided to UGC-funded institutions/VTC mainly in the form of block grants.

Note:

The course providers offering pre-service C(ECE), BEd(ECE) and PGDE(ECE) training programmes were not requested to provide EDB with the information on the tuition fee per course before the 2012/13 school year.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please set out the number and type (whole-day kindergarten, half-day kindergarten, whole-day and half-day kindergarten, and long whole-day kindergarten) of kindergartens in the 2015/16 school year by student intake as follows:

1. Below 50
2. 50 to below 150
3. 150 to below 300
4. 300 to below 600
5. 600 or above

Asked by: Hon IP Kin-yuen (Member Question No. 4)

Reply:

At present, the minimum number of teachers required to be present and on duty in a KG shall be one teacher for every 15 pupils or part thereof. In light of this, it is more appropriate to consider the number of KG students at intervals of multiples of 15, for example, 90 students per interval. The number of kindergartens (KGs) operating whole-day (WD) classes only, KGs operating half-day (HD) classes only and KGs operating both WD and HD classes by student enrolment in the 2015/16 school year is tabulated as follows:

Student enrolment	Number of KGs operating WD classes only	Number of KGs operating HD classes only	Number of KGs operating both WD and HD classes
90 or below	123	102	79
91 to 180	123	51	128
181 to 270	4	41	142
Above 270	0	117	90

The number of Former Aided Child Care Centres (FACs) (Note) by student enrolment in the 2015/16 school year is tabulated as follows:

Student enrolment	Number of FACs
90 or below	128
91 to 180	118
181 to 270	0
Above 270	0

Note: FACs are former child care centres operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Basic Competency Assessment (Student Assessment (SA) and the Territory-wide System Assessment (TSA)), please provide the following information from 2010/11 to 2014/15 school years:

- (a) the numbers of primary and secondary schools adopted SA, their percentage share in the respective school types and the total number of student logged in SA by school type;
- (b) Please use Table 1 to provide the respective numbers of primary 3, primary 6 and secondary 3 students participated in TSA, the number of students with special educational needs (SEN) and their percentage share, and the number of non-Chinese speaking (NCS) students participated in the Chinese assessment and their percentage share;

(Table 1)

		School Years				
		2010/11	2011/12	2012/13	2013/14	2014/15
Primary 3						
Students participated in TSA						
	Students with SEN					
	Percentage share in students participated in TSA (%)					
	NCS students participated in the Chinese assessment					
	Percentage share in students participated in TSA (%)					
Primary 6						
Students participated in TSA						
	Students with SEN					
	Percentage share in students participated in TSA (%)					
	NCS students participated in the Chinese assessment					
	Percentage share in students participated in TSA (%)					
Secondary 3						
Students participated in TSA						

	Students with SEN					
	Percentage share in students participated in TSA (%)					
	NCS students participated in the Chinese assessment					
	Percentage share in students participated in TSA (%)					

(c) Please use Table 2 to provide the separated expenditure and total expenditure of the Basic Competency Assessment by contract periods, as well as the total amounts of expenditure of all 3 contract periods;

(Table 2)

Contract Periods	Expenditure		Total Expenditure
	SA	TSA	
2000-2006			
2007-2010			
2011-2014			
Total Amounts			

(d) Please provide the expenditure of making adaptations for students with SEN and NCS students in 2000-2006, 2007-2010 and 2011-2014 and the percentage share in the total expenditure of TSA in the respective contract period;

(e) Whether the estimated expenditure will increase or decrease as a result of the Bureau's implementation of the proposal on inviting 50 primary schools to participate in TSA in 2016/17 school year? Please provide details; and

(f) As it is pointed out in Report No.63 of the Director of Audit that the justification for the continued use of single tender for the SA and TSA may diminish with time, does the Bureau have any plan to conduct the procurement by open competitive tenders? If yes, what is the plan? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 6)

Reply:

(a) The number of primary and secondary schools which participated in the Student Assessment (SA), their percentage share in the respective school types and the number of login records in SA from 2010/11 to 2014/15 school years are listed in the following tables:

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
No. of primary schools using SA	159	191	208	222	167
Percentage of primary schools using SA	31%	37%	40%	46%	32%
No. of login records by primary school students	358 623	327 951	455 292	392 600	398 661

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
No. of secondary schools using SA	61	78	92	137	67
Percentage of secondary schools using SA	13%	17%	20%	34%	15%
No. of login records by secondary school students	88 351	72 603	75 845	101 866	78 258

(b) The numbers of primary and secondary students participated in the Territory-wide System Assessment (TSA), the number of students with special educational needs (SEN) and their percentage share and the number of non-Chinese speaking (NCS) students participated in the Chinese assessment and their percentage share are listed in the table below:

	School Year				
	2010/11	2011/12	2012/13	2013/14	2014/15
Primary 3					
No. of students participated in TSA	49 519	47 094	46 343	47 776	50 448
No. of students with SEN participated in TSA*	4 061	4 203	4 285	4 984	4 920
Percentage share in students participated in TSA (%)	8.2%	8.9%	9.2%	10.4%	9.8%
No. of NCS students participated in the Chinese assessment*	873	921	913	982	1 395
Percentage share in students participated in TSA (%)	1.8%	2.0%	2.0%	2.1%	2.8%
Primary 6					
No. of students participated in TSA	57 328	5 694	52 510	4 012	47 317
No. of students with SEN participated in TSA*	3 180	365	3 758	329	3 902
Percentage share in students participated in TSA (%)	5.5%	6.4%	7.2 %	8.2%	8.2%
No. of NCS students participated in the Chinese assessment*	816	80	826	91	1 341
Percentage share in students participated in TSA (%)	1.4%	1.4%	1.6%	2.3%	2.8%
Secondary 3					
No. of students participated in TSA	75 103	71 006	65 344	59 725	59 776
No. of students with SEN participated in TSA*	1 768	1 863	2 227	2 385	2 676
Percentage share in students participated in TSA (%)	2.4%	2.6%	3.4%	4.0%	4.5%
No. of NCS students participated in the Chinese assessment*	327	352	410	430	1 400
Percentage share in students participated in TSA (%)	0.4%	0.5%	0.6%	0.7%	2.3%

* These students with SEN and NCS students were all provided with facilitation measures according to their needs as requested by schools.

(c) The Education Bureau has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including SA and TSA. The expenditure on SA and TSA in three contract periods are listed below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)
	SA	TSA	
2000-2006	104	117	221
2007-2010	77	176	253
2011-2014	99	220	319
Total Amounts	280	513	793

(d) The total expenditure on TSA under the contract administered by HKEAA (please refer to part (c) of this question) for the period of 2011-14 was \$220 million, from which about \$0.64 million was spent on the provision of the facilitation measures for students with SEN and NCS students who participated in TSA. HKEAA does not keep the relevant expenditure for the contract periods 2000-2006 and 2007-2010.

(e) At the present stage, schools are being invited to sign up for the 2016 Tryout Study (Primary 3). The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

(f) BCA comprises two components, namely the TSA and SA, which are complementary to one another to achieve the best impact. When the project was at an early stage of development, engaging one single institution to implement both the TSA and SA was considered necessary in ensuring consistency in defining and assessing the basic competencies of different subjects.

In the light of the development over the years, the Education Bureau invited other institutions through open quotations to participate in designing and setting items for SA in 2011. In enriching and expanding the SA assessment bank, two tertiary institutions have been involved in the development of assessment tasks on Chinese Reading and English Reading and Writing through open invitation for quotations in 2015. We hope that the experience gained will serve as reference for the next quotation invitation exercise for the BCA project.

(Question Serial No. 1687)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the small class teaching (SCT) policy in primary and secondary schools:

(a) Please give a breakdown, for each of the 18 districts in Hong Kong from the 2012/13 school year to the 2015/16 school year:

(1) of the number of primary schools implementing SCT with a class size of 25, their percentage share in the total number of primary schools in the respective districts, and the number of Primary 1 (P1) places and students in the respective districts;

(2) of the number of schools maintaining non-SCT arrangements in each district and their percentage share in the total number of primary schools in the respective districts;

(3) of the number of schools which have implemented SCT but needed to increase the number of allocated P1 students per class, their respective class size upon such allocation, their percentage share in the total number of primary schools in the respective districts, as well as their numbers of students involved;

(b) What were the numbers of schools implementing SCT and subsequently were requested to increase the number of allocated P1 students per class from the 2013/14 school year to the 2015/16 school year? What were the additional expenditure involved and its breakdown? And what are the estimated number, additional expenditure involved and its breakdown for the 2016/17 school year?

(c) Regarding those schools which were required to increase their number of P1 classes due to insufficient school places from the 2011/12 school year to the 2015/16 school year, please provide the number of those schools as well as the class number and class size of each school involved;

(d) For those with additional P1 classes, how many schools and classes have made use of the existing vacant classrooms, how many of them have converted special rooms/activity rooms, how many of them have carried out works for addition of classrooms for such purpose? And

(e) Does the Administration plan to implement SCT at the junior secondary stage? If yes, what are the timetable and estimated expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 7)

Reply:

(a)(1) & (2) The number of public sector primary schools by district with breakdown of schools implementing small class teaching (i.e. allocated 25 students per Primary One (P1) class) and those maintaining 30 students per P1 class from the 2012/13 to 2015/16 school years,

as well as the total number of P1 places and students in the respective school years, are tabulated at [Annex A](#).

- (a)(3) According to the latest information available, the school-age population aged 6 is projected to increase temporarily in the coming few years and reach the peak in 2018 before it decreases to a stable level. The school-age population aged 6 is generally considered appropriate for admission to P1. The demand for public sector P1 places is projected to increase correspondingly in this transitional period.

The projected transient increasing demand for P1 places in the run up to 2018 is mainly due to babies born to Mainland women in Hong Kong whose spouses are not Hong Kong permanent residents, i.e. Type II babies, before the implementation of the “zero delivery quota” policy in 2013. Nonetheless, any deviations in the assumptions (such as the actual numbers of Type II babies to settle in Hong Kong for settlement and the timing) from the eventual situation may render the projected figures different from the actual turnout figures. For those Type II babies that do not return to Hong Kong for settlement, some of them will attend school in Hong Kong every day as cross-boundary students (CBS). Among CBS are also children of Hong Kong residents living in Shenzhen and it is difficult to accurately predict the number of CBS seeking admission to P1. Besides, due to various factors, in particular parental choice, there are uncertainties about the actual demand for school places in districts/school nets under the Primary One Admission (POA) System. These year-on-year changes are therefore not fully foreseeable.

To alleviate the impact of increasing CBS on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child’s POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

In parallel, EDB and the school sector have reached a consensus that construction of new schools to meet the transient increase in demand should be avoided as far as possible in light of the scarcity of land resources. Instead, flexible arrangements including, among others, temporarily allocating more students to each P1 class should be adopted to increase the supply of P1 places during the transitional period.

The number of schools implementing small class teaching in the districts which have been allocated more students per P1 class under the POA to meet the projected transient increase in demand from the 2012/13 to 2015/16 school years, their percentage share in the total number of primary schools in the districts as well as the number of students involved are tabulated at [Annex B](#).

- (b) Various factors as elucidated in (a)(3) above have accounted for the need for temporary allocation of more P1 students per class in schools including schools implementing SCT in individual districts / school nets concerned in light of the demand for P1 places at the Central Allocation stage. Please refer to [Annex B](#) for the number of schools implementing SCT which were allocated temporarily more students per P1 class to meet the projected transient increase in demand with breakdown by district, and the increase in the number of places in the 2013/14, 2014/15 and 2015/16 school years. The relevant estimated figures for the 2016/17 school year have also been tabulated at [Annex B](#).

Under the prevailing arrangements, when schools implementing SCT are required to temporarily increase the number of students to 30 per P1 class for the Central Allocation, eligible schools will be provided with a time-limited additional Assistant Primary School Master/Mistress (APSM) post for the cohort of students concerned for a period of six years (i.e. for the cohort to complete the six-year primary education in the school). This is in accordance with the provision of additional APSM posts by phases to schools maintaining 30 students per class upon the implementation of SCT progressively starting from P1 in public sector schools since the 2009/10 school year. In the case when the actual number of students allocated to each P1 class of a school (including schools implementing SCT) exceeds 30, EDB will provide the schools concerned with an additional funding for each additional student above 30 in each P1 class for the cohort of students concerned for a period of six years.

On top of the above-mentioned enhanced support, EDB has, starting from the 2015/16 school year, provided eligible schools implementing SCT with the Additional Supplementary Learning Grant when they are temporarily allocated more students per P1 class up to a total of 30 students per class for the cohort of students concerned for a period of six years. The estimated expenditure with breakdown in the 2013/14, 2014/15, 2015/16 and 2016/17 school years is tabulated at [Annex C](#).

- (c)&(d) Referring to the districts / school nets with temporary allocation of more students per P1 class from the 2011/12 to 2015/16 school years and as expected in the 2016/17 school year, 4, 2 and 4 schools have changed the use of their other rooms (with no special / activity rooms involved) for operation of a total of 4, 2 and tentatively 6 additional P1 classes in the 2013/14, 2015/16 and 2016/17 school years respectively. No schools in question changed the use of other rooms or special rooms for operation of additional P1 classes in the 2011/12, 2012/13 and 2014/15 school years.
- (e) International studies have suggested that SCT is more effective when students are of younger age and its effectiveness tends to wane as students age. In considering whether to implement SCT in secondary schools, we must take into account the existing conditions of secondary schools, the teaching and learning environment as well as provision of support to secondary schools, overseas experience and resource implications and assess whether it is feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board, particularly when the secondary student population is projected to rebound in the 2017/18 school year. Besides, with the adoption of subject grouping at senior secondary levels, the actual number of students in each teaching class / group is rather small. Conceptually speaking, SCT is more a teaching strategy involving teaching setting or grouping driven by pedagogical considerations. The size of grouping should not be fixed across-the-board, but adjusted according to the learning objectives and students' needs. We have no plan to implement SCT in secondary schools having regard to the afore-mentioned considerations.

Notes:

- Figures refer to schools participating in Primary One Admission (POA) 2012, 2013, 2014, 2015 and 2016.
- The situation of the 2016/17 school year is an estimated one which was worked out based on the number of POA applicants as at late January 2016. The total number of additional P1 places involved is estimated to be 183 in the North District (school nets 80 and 81 only), 314 in Yuen Long (school nets 73 and 74 only) and 455 in Tai Po.
- Under the POA System, Yuen Long comprises School Nets 72, 73 and 74. The temporary arrangement of allocating more students per P1 class was/would be adopted in School Nets 73 and 74 only in the 2014/15, 2015/16 and 2016/17 school year. The schools in School Net 72 are therefore not included in the above table.
- Under the POA System, the North District comprises School Nets 80, 81 and 83. The temporary arrangement of allocating more students per P1 class was adopted in School Nets 80, 81 and 83 in the 2013/14 school year, and would be adopted in School Nets 80 and 81 only in the 2016/17 school year. The schools in School Net 83 are therefore not included under the 2016/17 school year in the above table.

**Additional expenditure for schools implementing small class teaching
with temporary increase of number of students allocated per P1 class
in the 2013/14, 2014/15 and 2015/16 school years**

Breakdown of additional expenditure	2013/14 school year (Note 1)	2014/15 school year (Note 1)	2015/16 school year (Note 1)	2016/17 school year (Note 1 &2)
Provision of time-limited additional APSM posts for the cohort of students concerned for a period of six years (Note 3)	\$ 7.4 million	\$ 31.1 million	\$ 32.1 million	\$ 45.6 million
Provision of additional funding for each additional student above 30 in each P1 class for the cohort of students concerned for a period of six years	\$ 6.5 million	\$ 6.7 million	\$ 6.7 million	\$ 12.8 million
Provision of Additional Supplementary Learning Grant for the cohort of students concerned for a period of six years	Not applicable	Not applicable	\$ 7.5 million	\$ 18.5 million
Total:	\$ 13.9 million	\$ 37.8 million	\$ 46.3 million	\$ 76.9 million

Notes:

1. The number of schools implementing SCT temporarily allocated with more students per P1 class to meet the projected transient increase in demand for the 2013/14, 2014/15 and 2015/16 school years and the estimated number for the 2016/17 school year are at Annex B.
2. The situation of the 2016/17 school year is an estimated one which was worked out based on the number of POA applicants as at late January 2016.
3. The additional cost for provision of the time-limited additional APSM posts was worked out based on the mid-point salary of the prevailing APSM post.

Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant, from the 2012/13 to the 2015/16 school years, please provide the following information:

- (a) the number of primary schools applied for the said grant and their percentage share among all primary schools in the territory;
- (b) the respective numbers of social workers, student guidance officers and teachers employed by primary schools with the said grant, broken down by the name of schools in each of the 18 districts within the territory;
- (c) the total expenditure on the Student Guidance Service Grant and the estimates for the 2016/17 school year; and
- (d) given that the high annual wastage of guidance teachers has affected the continuity of guidance, but the need for the guidance services from primary schools has been increasing day after day, whether the Administration has any plan to improve, review and expand the abovementioned service; if yes, the total estimated expenditure; if not, the reasons.

Asked by: Hon IP Kin-yuen (Member Question No.8)

Reply:

(a) and (b) In the 2012/13, 2013/14, 2014/15 and 2015/16 school years, 302 (67%), 309 (68%), 312 (69%) and 317 (70%) public sector primary schools are provided with Student Guidance Service (SGS) Grant respectively to employ student guidance personnel or procure student guidance service. Under school-based management, schools are entrusted with the responsibility, and thus held accountable for effective use of the SGS Grant for its intended purposes. Schools need not report to the Education Bureau (EDB) the details of student guidance personnel employed through the SGS Grant. Hence, we do not have the data required.

(c) The total expenditure on the SGS Grant, including the top-up grant, for the 2012/13, 2013/14 and 2014/15 school years is \$184.2 million, \$200.4 million and \$211.7 million respectively, and is estimated to be about \$225.6 million and \$247.2 million for the 2015/16 and 2016/17 school years respectively.

(d) All primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimising the impact arising from staff turnover. EDB has been gauging feedback from schools through school visits and

other established channels for service improvement. The feedback thus gauged suggests that, overall, the existing mode of funding is able to meet the diversified needs of primary schools and is well received by schools and school sponsoring bodies. Hence, as of now, EDB has no plan to change the existing funding mode which recognizes the diverse needs of different schools and allows schools to have flexibility in resource deployment to meet their identified needs in a specific manner.

Question:

Please provide the following information for the 2011/12 to 2015/16 school years:

- (a) the respective average school fees, median school fees, highest school fees and lowest school fees charged by whole-day and half-day kindergartens under the subsidy of the Pre-primary Education Voucher Scheme (PEVS);
- (b) the respective average school fees, median school fees, highest school fees and lowest school fees charged by private independent whole-day and half-day kindergartens;
- (c) the respective average school fees, median school fees, highest school fees and lowest school fees charged by non-profit-making whole-day and half-day kindergartens not joining the PEVS;
- (d) the respective number of whole-day and half-day kindergartens under the PEVS that have obtained the approval to increase their school fees, and the greatest, smallest and average rate of increase; and
- (e) under the kindergarten fee remission scheme, the total expenditures, the respective number of whole-day and half-day kindergarten students applying for fee remission, the respective number and percentage of successful applicants for fee remission, as well as the respective number and percentage of students granted a level of remission at 50%, 75% and 100% in each of the school years from 2011/12 to 2015/16.

Asked by: Hon IP Kin-yuen (Member Question No. 9)

Reply:

For the 2011/12 to 2015/16 school years:

- (a) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for whole-day (WD) and half-day (HD) classes charged by kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) are tabulated at Appendix 1;
- (b) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for WD and HD classes charged by local private independent KGs are tabulated at Appendix 2;
- (c) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for WD and HD classes charged by non-profit-making (NPM) KGs not under the PEVS are tabulated at Appendix 3;

- (d) the respective number of NPM WD and HD KGs under the PEVS that have been approved to increase their school fees, and the highest, lowest and rates of increase of the weighted average school fees are tabulated at Appendix 4; and
- (e) the respective amount of fee remission disbursed under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS), number of applications from parents with children attending KGs for fee remission under the KCFRS, number and percentage of approved applications and number and percentage of students granted with a level of assistance at 50%, 75% and 100% of the school fee or the fee remission ceiling are tabulated at Appendix 5.

Highest school fee	WD	\$134,100	\$139,700	\$145,300	\$154,100	\$166,500
	HD	\$54,100	\$57,300	\$61,100	\$65,100	\$53,000
Lowest school fee	WD	\$23,300	\$67,200	\$44,400	\$51,100	\$55,100
	HD	\$14,100	\$20,100	\$20,100	\$21,800	\$22,900

Number of non-profit making (NPM)
whole-day (WD) and half-day (HD) kindergartens (KGs)
under the Pre-primary Education Voucher Scheme (PEVS) with fee increase,
and the highest, lowest and rate of increase of weighted average school fee
from the 2011/12 to 2015/16 school years

2011/12 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	405	343
The highest rate of increase	30.3%	53.0%
The lowest rate of increase	0.07%	0.05%
The rate of increase of the weighted average fee	4.3%	4.3%

2012/13 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	436	382
The highest rate of increase	34.9%	26.0%
The lowest rate of increase	0.03%	0.40%
The rate of increase of the weighted average fee	4.1%	4.1%

2013/14 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	468	383
The highest rate of increase	27.1%	64.5%
The lowest rate of increase	0.66%	0.55%
The rate of increase of the weighted average fee	5.2%	4.9%

2014/15 school year (Note 2)	WD	HD
Number of NPM KGs under the PEVS with school fees increased	548	433
The highest rate of increase	102.8%	82.7%
The lowest rate of increase	0.01%	0.16%
The rate of increase of the weighted average fee	9.0%	10.8%

2015/16 school year (Note 2)	WD	HD
Number of NPM KGs under the PEVS with school fees increased	551	429
The highest rate of increase	40.2%	61.6%
The lowest rate of increase	0.28%	0.30%
The rate of increase of the weighted average fee	9.3%	11.0%

Note:

1. KGs with both HD and WD classes will be counted in both columns for HD and WD.
2. As a one-off short-term measure recommended by the Committee on Free KG Education to address the imminent needs of KGs, the voucher subsidy was increased by \$2,500 per year in the 2014/15 and 2015/16 school years. The increase in voucher subsidy provided more room for the KGs to increase their school fees to meet the increasing operating cost. At the same time, the increased amount of voucher subsidy would offset the increase in school fees so that parents' financial burden regarding KG education could be alleviated. Hence, the number of KGs under the PEVS with school fees increased and the rates of increase in the 2014/15 and 2015/16 school years are higher than those in previous years.

Amount of fee remission disbursed
under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS),
number of applications from parents with children attending KGs for fee remission under the KCFRS,
number and percentage of approved applications and
number and percentage of students granted with a level of assistance at 50%,
75% and 100% of the school fee or the fee remission ceiling
from the 2011/12 to 2015/16 school years

School Year		2011/12	2012/13	2013/14	2014/15	2015/16 (Note 1)
Total amount of fee remission disbursed (\$ million)		399.5	448.2	473.3	502.1	280.3
Number of applications from students attending WD KG classes		21 271	24 117	25 381	25 259	26 086
Number of applications from students attending HD KG classes		13 922	14 409	15 024	14 188	18 059
Number of approved applications from students attending WD KG classes (%)		20 264 (95.3%)	22 759 (94.4%)	23 317 (91.9%)	23 116 (91.5%)	22 909 (87.8%)
Number of approved applications from students attending HD KG classes (%)		12 790 (91.9%)	13 159 (91.3%)	13 382 (89.1%)	12 364 (87.1%)	13 620 (75.4%)
Number of students attending WD KG classes in receipt of fee remission (%)	50% fee remission	4 724 (23.3%)	5 753 (25.3%)	6 420 (27.5%)	6 925 (30.0%)	7 132 (31.1%)
	75% fee remission	1 541 (7.6%)	1 651 (7.3%)	1 735 (7.4%)	1 745 (7.5%)	1 839 (8.0%)
	100% fee remission	13 999 (69.1%)	15 355 (67.5%)	15 162 (65.0%)	14 446 (62.5%)	13 938 (60.8%)
Number of students attending HD KG classes in receipt of fee remission (%)	50% fee remission	2 798 (21.9%)	3 327 (25.3%)	3 872 (28.9%)	3 847 (31.1%)	4 630 (34.0%)
	75% fee remission	830 (6.5%)	879 (6.7%)	980 (7.3%)	854 (6.9%)	1 015 (7.5%)
	100% fee remission	9 162 (71.6%)	8 953 (68.0%)	8 530 (63.7%)	7 663 (62.0%)	7 975 (58.5%)

Note 1: Figures for the 2015/16 school year are provisional figures as at end January 2016.

CONTROLLING OFFICER'S REPLY

EDB189

(Question Serial No. 1690)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Please provide the following information for the 2011/12 to 2015/16 school years:

- (a) the amount of Government subsidy under the Pre-primary Education Voucher Scheme (PEVS) and the Government expenditures on various aspects of pre-primary education (e.g. fee remission, training and rent subsidy);
- (b) the respective number of whole-day kindergartens under the subsidy of PEVS, the respective number of school places provided and the respective number of these kindergartens providing extended service (please list by school district and give the total);
- (c) the respective number of half-day kindergartens under the subsidy of PEVS and the respective number of school places provided (please list by school district and give the total); and
- (d) the respective number of kindergartens providing both whole-day and half-day service under the subsidy of PEVS and the respective number of school places provided (please list by school district and give the total).

Asked by: Hon IP Kin-yuen (Member Question No. 10)

Reply:

- (a) The breakdown of expenditure on pre-primary education, including Pre-primary Education Voucher Scheme (PEVS), from 2011-12 to 2015-16 is tabulated at Appendix 1.
- (b) The number of whole-day (WD) kindergartens (KGs) under the PEVS, the number of school places provided and the number of these KGs providing Extended Hours Service by District Council district and the respective total number from the 2011/12 to 2015/16 school years is tabulated at Appendix 2.
- (c) The number of half-day (HD) KGs under the PEVS and the number of school places provided by District Council district and the respective total number from the 2011/12 to 2015/16 school years is tabulated at Appendix 3.
- (d) The number of KGs providing both WD and HD service under the PEVS and the number of school places provided by District Council district and the respective total number from the 2011/12 to 2015/16 school years is tabulated at Appendix 4.

Expenditure on pre-primary education from 2011-12 to 2015-16

	2011-12	2012-13	2013-14	2014-15	2015-16
	(\$ million)	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Actual)	(Actual)	(Revised Estimate)
Pre-primary Education Voucher Scheme (PEVS)*	1,998.8	2,128.1	2,428.6	2,535.7	2,966.3
Kindergarten and Child Care Centre Fee Remission Scheme	352.3	395.3	465.8	539.9	548.4
Refund of rent, rates and government rent	197.3	202.5	218.8	238.0	259.2
Child Care Centre Subsidy Scheme	13.5	14.6	15.2	15.9	15.6
Principal and teacher training#	17.5	7.3	1.0	3.7	1.5

* Including Teacher Development Subsidy provided under the PEVS up to the 2011/12 school year, and the one-off school development grant for PEVS KGs in the 2013/14 school year.

Including the payments for the commissioned “Three-Year-In-service Certificate in Early Childhood Education Course” (In-service ECE Course) for the 2007, 2008 and 2009 intakes (as applicable) and course fee reimbursement to principals and teachers of kindergartens and kindergarten-cum-child care centres not under the PEVS for approved course(s) in early childhood education. There is a drastic drop in the actual expenditure for 2011-12, 2012-13 and 2013-14 as the commissioned In-service ECE Course was completed by phases and only payment for the last intake of the course (i.e. 2009 Intake) is required for 2012-13 and no payment is required for 2013-14.

CONTROLLING OFFICER'S REPLY**EDB190****(Question Serial No. 1691)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2011/12 to 2015/16 school years:

- (a) The total number of school-age children attending kindergartens (KGs) and the percentage;
- (b) The number of local non-profit-making (NPM) KGs, local private independent (PI) KGs and non-local/international KGs as well as the breakdown of the number of teachers and students in these KGs and their total number;
- (c) The number of local NPM KGs and the number of teachers and students in these KGs. Also, please provide figures by the following categories: NPM KGs joining the Pre-primary Education Voucher Scheme (PEVS), NPM KGs not joining the PEVS, and NPM KGs converted from PI KGs receiving subsidies under the PEVS;
- (d) The number of local PI KGs not joining the PEVS and the number of teachers and students in these KGs;
- (e) The increase/decrease in the number of NPM KGs converted from PI KGs in each year, such change in percentage and the actual accumulated number;
- (f) The number of kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the number of KG-cum-CCCs joining the PEVS, and the number of teachers and students involved;
- (g) The number of KGs/nursery schools with whole-day classes and the number of teachers and students involved; the number of KGs/nursery schools with whole-day classes receiving subsidies under the PEVS, the number of teachers and students involved, and their percentage share among the kindergarten students receiving subsidies under the PEVS;
- (h) The respective numbers and percentages of whole-day and half-day kindergarten students receiving subsidies under the PEVS;
- (i) The number of kindergartens withdrawn from the PEVS from the 2012/13 to 2015/16 school years, and their increase/decrease in percentage when compared with the previous year; and
- (j) Has the Education Bureau (EDB) collected rental-related information of all types of kindergartens, such as the types of school premises, whether the school premises are privately owned or rental properties and the rental of school premises. If no, how does EDB do planning for issues relating to kindergarten premises, and what is the estimated expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 11)

Reply:

For the 2011/12 to 2015/16 school years,

- (a) the respective total number of children attending kindergartens (KGs) and the gross enrolment ratios of participation in kindergarten education are tabulated at Appendix 1;
- (b) the respective number of local non-profit-making (NPM) KGs, local private independent (PI) KGs, non-local KGs, and the number of teachers and students in these KGs and the respective total number are tabulated at Appendix 2;
- (c) the respective number of local NPM KGs joining the Pre-primary Education Voucher Scheme (PEVS) and NPM KGs not joining PEVS and the number of teachers and students in these KGs are tabulated at Appendix 3. There was no conversion of PI KGs in the NPM operation for the purpose of admission to the PEVS during the period;
- (d) the respective number of local PI KGs not joining PEVS, and the number of teachers and students in these KGs are tabulated at Appendix 4;
- (e) the respective increase/decrease in the number of PI KGs converted to NPM KGs for joining PEVS, such change in percentage and the actual accumulated number are tabulated at Appendix 5;
- (f) the respective number of local kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the number of KG-cum-CCCs joining PEVS, and the number of teachers and students in these KG-cum-CCCs are tabulated at Appendix 6;
- (g) the respective number of local KGs/KG-cum-CCCs with whole-day (WD) classes, and the number of their teachers and students, number of KGs/KG-cum-CCCs with WD classes joining PEVS, and the number of their teachers and students, and their percentages among the KG students under the subsidy of PEVS are tabulated at Appendix 7;
- (h) the respective number and percentages of WD and HD KG students under the subsidy of PEVS are tabulated at Appendix 8; and
- (i) the number of KGs withdrawn from the PEVS from the 2012/13 to 2015/16 school years, and their increase/decrease in percentage when compared with the previous year are tabulated at Appendix 9.
- (j) Rental related information is captured through various sources including the KG fee revision exercise, the Rent Reimbursement Scheme and the EDB-administered school allocation or nomination mechanism. KGs in housing estates operated in premises allocated under the school allocation or nomination mechanisms which are paying rental at concessionary rate as assessed by the Hong Kong Housing Authority and stipulated in the tenancy agreements are provided with rental subsidy. Besides, KGs which are former aided child care centres under Social Welfare Department are also provided with rental subsidy. For other KGs, rental subsidy is considered on individual merits with reference to a number of factors such as proven demand for KG places in the district concerned, operating standard of the KG, its NPM status, school fees level, etc. The estimated expenditure on rental subsidy in 2016-17 is \$229.9 million.

Total number of children attending kindergartens (KGs) and
Gross enrolment ratios (GER) of participation in kindergarten education
from the 2011/12 to 2015/16 school years

School Year	2011/12	2012/13	2013/14	2014/15 (Revised)	2015/16 (Provisional)
Total number of children attending KGs (Note 1)	159 040	166 400	171 497	178 119	187 155
GER (%) (Note 2)	101.6	101.9	100.4	99.2	99.2

Note 1: Position as at September of the school year.

Note 2: GER is defined as total enrolment in KGs (including KGs, kindergarten-cum-child care centres and Special Child Care Centres), regardless of age, expressed as a percentage of the school-age-population corresponding to the same level of education in a given school year. Hence, the percentage can exceed 100%. The school-age population for the KG level refers to children of 3-5. GER for 2011/12 to 2015/16 has been compiled using the population estimates which have incorporated the benchmarking data available from the 2011 Population Census.

Number of local non-profit-making (NPM) kindergartens (KGs), local private independent (PI) KGs, non-local KGs and number of teachers and students in these KGs from the 2011/12 to 2015/16 school years

2011/12 school year

CONTROLLING OFFICER'S REPLY**EDB191****(Question Serial No. 1692)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2012/13 to 2015/16 school years:

- (a) The respective number of whole-day and half-day kindergarten students under the subsidy of the Pre-primary Education Voucher Scheme (PEVS), the respective number and percentage of whole-day and half-day kindergarten students who are issued with education vouchers but still have to pay school fees in excess of the voucher value as well as the average extra amount of school fees paid;
- (b) The respective number and percentage of half-day kindergarten students under the subsidy of the PEVS who have to pay extra amount of school fees of below \$100, \$100 to below \$400, \$400 to below \$700, \$700 to below \$1,000, \$1,000 to below \$1,300, \$1,300 to below \$1,600 and \$1,600 or above;
- (c) The respective number and percentage of whole-day kindergarten students under the subsidy of the PEVS who have to pay extra amount of school fees of below \$500, \$500 to below \$1,000, \$1,000 to below \$2,000, \$2,000 to below \$3,000, \$3,000 to below \$4,000 and \$4,000 or above; and
- (d) The expenditures on the subsidy allocated to the PEVS and any other expenditures on pre-primary education (including Kindergarten and Child Care Centre Fee Remission Scheme, principal and teacher training, and rent, rates and government rent subsidies, etc.) in table form.

Asked by: Hon IP Kin-yuen (Member Question No.12)

Reply:

(a), (b) and (c)

The information requested in (a) to (c) is tabulated at Appendix 1. On top of the non-means-tested fee subsidy under the Pre-primary Education Voucher Scheme, fee remission is provided for parents in need under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) for their children to receive kindergarten education. The level of fee remission is 100%, 75% or 50% of the difference between the voucher subsidy and the actual fee or the fee remission ceiling (i.e. \$29,300 for a half-day place and \$44,700 for a whole-day place for the 2015/16 school year), whichever is lower.

(d)

The breakdown of expenditure on pre-primary education from 2012-13 to 2015-16 is tabulated at Appendix 2.

(a) The number of whole day (WD) and half day (HD) kindergarten students under the Pre-primary Education Voucher Scheme (PEVS)

	2012/13 school year		2013/14 school year		2014/15 school year		2015/16 School year (Provisional)	
	HD	WD	HD	WD	HD	WD	HD	WD
(i) Number of students under PEVS	90 166	41 272	89 204	42 516	90 427	42 873	94 551	44 576
(ii) Number of students paying school fee on top of the voucher subsidy	77 871	41 201	78 454	42 456	77 979	42 841	79 924	44 466
(iii) Percentage (%) of (ii) over (i)	86.4%	99.8%	87.9%	99.9%	86.2%	99.9%	84.5%	99.8%
(iv) Average amount of school fee on top of the voucher subsidy	\$4,614	\$15,941	\$4,923	\$17,081	\$4,743	\$17,604	\$4,885	\$18,722

(b) The number of half-day kindergarten students under the PEVS

\$1,300 - below \$1,600	2 995	3.85	2 788	3.55	2 294	2.94	3 962	4.96
\$1,600 or above	65 989	84.74	68 830	87.73	64 089	82.19	63 772	79.79

(c) The number of whole-day kindergarten students under the PEVS

Range of annual school fee above the voucher subsidy	2012/13 school year		2013/14 school year		2014/15 school year		2015/16 school year (Provisional)	
	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)	No. of students	Percentage (%)
Below \$500	0	0.00	0	0.00	0	0.00	0	0.00
\$500 - below \$1,000	0	0.00	32	0.08	0	0.00	0	0.00
\$1,000 - below \$2,000	32	0.08	0	0.00	32	0.07	140	0.31
\$2,000 - below \$3,000	0	0.00	0	0.00	85	0.20	125	0.28
\$3,000 - below \$4,000	40	0.10	0	0.00	234	0.55	167	0.38
\$4,000 or above	41 129	99.82	42 424	99.92	42 490	99.18	44 034	99.03

The breakdown of expenditure on pre-primary education from 2012-13 to 2015-16 are as follows:

	2012-13	2013-14	2014-15	2015-16
	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Actual)	(Revised Estimate)
Pre-primary Education Voucher Scheme (PEVS)*	2,128.1	2,428.6	2,535.7	2,966.3
Kindergarten and Child Care Centre Fee Remission Scheme	395.3	465.8	539.9	548.4
Refund of rent, rates and government rent	202.5	218.8	238.0	259.2
Child Care Centre Subsidy Scheme	14.6	15.2	15.9	15.6
Principal and teacher training#	7.3	1.0	3.7	1.5

* Including the one-off school development grant for PEVS KGs in the 2013/14 school year.

Including the payments for the commissioned “Three-Year-In-service Certificate in Early Childhood Education Course” (In-service ECE Course) for the 2009 intakes and course fee reimbursement to principals and teachers of kindergartens and kindergarten-cum-child care centres not under PEVS for approved course(s) in early childhood education. There is a drastic drop in the actual expenditure for 2013-14 as the commissioned In-service ECE Course was completed and no payment is required for 2013-14. On the other hand, the estimated expenditure for 2014-15 increases because we offer an one-off course fee reimbursement for KG principals and teachers serving in PEVS KGs who pursued relevant approved courses in the 2012/13 and/or 2013/14 school year and successfully completed the course by the end of the 2013/14 school year with a view to further supporting their professional upgrading.

CONTROLLING OFFICER'S REPLY**EDB192****(Question Serial No. 1693)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the 2014/15 and 2015/16 school years, please provide the following information:

- (a) The respective numbers of teachers in whole-day kindergartens under the subsidy of the Pre-primary Education Voucher Scheme (PEVS) whose salary is \$15,410 (i.e. salary point 7) or above and whose salary is below \$15,410, and the percentage share of these teachers in the total number of teachers in whole-day kindergartens;
- (b) The respective average salaries, median salaries, highest salaries and lowest salaries for teachers in whole-day and half-day kindergartens under the subsidy of the PEVS;
- (c) The respective numbers of principals of whole-day kindergartens under the subsidy of the PEVS whose salary is \$23,285 (i.e. salary point 14) or above and whose salary is below \$23,285, and the percentage share of these principals in the total number of principals of whole-day kindergartens as well as the respective average salaries, median salaries, highest salaries and lowest salaries for principals of whole-day and half-day kindergartens under the subsidy of the PEVS;
- (d) If information on the principals has not been collected, will the Bureau collect information regarding item (c) at the same time when conducting annual questionnaire survey on the monthly salary of full-time regular kindergarten teachers in September of each school year and what are the considering factors when deciding whether to collect the information or not;
- (e) The respective average salaries, median salaries, highest salaries and lowest salaries for teachers and principals of local private independent kindergartens as well as whole-day and half-day kindergartens; and
- (f) From the 2012/13 to 2015/16 school years, the median salary and its rate of increase for teachers in whole-day kindergartens under the subsidy of the PEVS in each year.

Asked by: Hon IP Kin-yuen (Member Question No. 13)

Reply:

- (a) The respective number and percentage of teachers in whole-day (WD) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) whose salary is \$15,410 or above and those below \$15,410 in the 2014/15 and 2015/16 school years are tabulated below:

2014/15 school year

Monthly salary level	No. of teachers in WD KGs under PEVS	Percentage (%) share of the total no. of teachers in WD KGs
\$15,410 or above	1 901	97.9%
Below \$15,410	41	2.1%
Total	1 942	100%

2015/16 school year

Monthly salary level	No. of teachers in WD KGs under PEVS	Percentage (%) share of the total no. of teachers in WD KGs
\$15,410 or above	2 000	97.6%
Below \$15,410	49	2.4%
Total	2 049	100%

- (b) The respective average salary, median salary, highest salary and lowest salary of teachers in WD KGs and half-day (HD) KGs under PEVS in the 2014/15 and 2015/16 school years are tabulated below:

2014/15 school year

	Salary of teachers in KGs under PEVS		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$20,448	\$21,360	\$18,786
Median salary	\$19,675	\$20,905	\$17,488
Highest salary	\$57,045	\$35,930	\$70,490
Lowest salary	\$8,000	\$10,400	\$8,925

2015/16 school year

	Salary of teachers in KGs under PEVS		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$21,950	\$23,139	\$19,992
Median salary	\$20,600	\$22,490	\$18,705
Highest salary	\$59,445	\$39,360	\$85,323
Lowest salary	\$8,000	\$8,645	\$8,000

- (c) & (d)

The Education Bureau (EDB) conducts annual questionnaire survey on the monthly salary of full-time regular KG teachers in September of each school year. Information on the salary of KG principals before the 2015/16 school year has not been collected. For the 2015/16 school year, the respective number and percentage of principals serving in WD KGs under PEVS whose salary is \$23,285 or above and those below \$23,285; and the average salary, median salary, highest salary and lowest salary of principals in WD KGs and HD KGs under PEVS are tabulated below:

- (i) Number and percentage of principals serving in WD KGs under PEVS whose salary is \$23,285 or above and those below \$23,285 in the 2015/16 school year

Monthly salary level	No. of principals in WD KGs under PEVS	Percentage (%) share of the total no. of principals in WD KGs
\$23,285 or above	227	100%
Below \$23,285	0	0%
Total	227	100%

- (ii) Average salary, median salary, highest salary and lowest salary of principals serving in WD KGs and HD KGs under PEVS in the 2015/16 school year

	Salary of principals in KGs under PEVS		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$38,635	\$37,158	\$37,096
Median salary	\$39,370	\$37,590	\$37,100
Highest salary	\$62,235	\$56,820	\$101,620
Lowest salary	\$19,330	\$23,285	\$12,760

- (e) (i) The respective average salary, median salary, highest salary and lowest salary for teachers in local private independent (PI) WD KGs and HD KGs in the 2014/15 and 2015/16 school years are tabulated below:

2014/15 school year

	Salary of teachers in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$22,665	\$19,444	\$19,670
Median salary	\$20,680	\$18,100	\$17,010
Highest salary	\$75,874	\$32,760	\$89,094
Lowest salary	\$9,450	\$15,410	\$9,000

2015/16 school year

	Salary of teachers in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$23,955	\$21,409	\$21,379
Median salary	\$22,290	\$19,500	\$18,000
Highest salary	\$81,237	\$35,890	\$90,738
Lowest salary	\$10,500	\$16,500	\$9,100

- (ii) Information on the salary of KG principals in local PI WD KGs and HD KGs before the 2015/16 school year has not been collected. The average salary, median salary, highest salary and lowest salary for principals in local PI WD KGs and HD KGs in the 2015/16 school year is tabulated below:

	Salary of principals in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$46,292	\$38,295	\$38,882
Median salary	\$42,500	\$38,295	\$32,000
Highest salary	\$75,000	\$40,700	\$74,000
Lowest salary	\$27,300	\$35,890	\$18,800

- (f) The median salary and its rate of increase for full-time regular KG teachers serving in WD KGs under PEVS from the 2012/13 to 2015/16 school years are as follows:

School Year	2012/13	2013/14	2014/15	2015/16
Median salary	\$19,010	\$20,115	\$20,905	\$22,490
Year-on-year % change	8.6%	5.8%	3.9%	7.6%

Note: Information provided in the reply is based on an annual questionnaire survey on the monthly salary of full-time regular KG teachers conducted by EDB in September of the respective school years. The figures for the 2015/16 school year are provisional.

Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the Non-profit-making Kindergartens Rent Reimbursement Scheme, please provide the following information from 2011/12 to 2015/16 school years:

- (a) the number of applications for the Non-profit-making Kindergarten Rent Reimbursement Scheme every year, the number of applications approved and the respective percentage share among local kindergartens and kindergartens subsidised by the Pre-primary Education Voucher Scheme (PEVS);
- (b) the respective numbers of kindergartens that have received full and 50% reimbursement of rent under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the respective total amounts;
- (c) the highest, lowest, median and average rent subsidies received by kindergartens under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the highest, lowest, average and median rent subsidies received by the kindergartens granted with 50% reimbursement of the rent;
- (d) among the above applications and applications approved, what is the number of kindergartens that were converted from private independent to non-profit-making to be eligible for PEVS, and their percentage share among the overall applications and applications approved.

Asked by: Hon IP Kin-yuen (Member Question No. 15)

Reply:

Regarding the Rent Reimbursement Scheme for Non-profit-making Kindergartens (RRS), the information requested in seriatim is as follows:

- (a) The number of applications and approval granted to non-profit-making (NPM) kindergartens (KGs) for rent reimbursement and their respective percentage share among local KGs and KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2011/12 to 2015/16 school years are tabulated below:

School year	2011/12	2012/13	2013/14	2014/15	2015/16*
No. of local KGs	856	861	869	874	872
No. of KGs joining PEVS	751	735	724	724	732
No. of applications	6	7	8	7	3
Percentage share among local KGs	0.7%	0.8%	0.9%	0.8%	0.3%
Percentage share among KGs joining PEVS	0.8%	1.0%	1.1%	1.0%	0.4%
No. of approval granted	0	0	2	3	3
Percentage share among local KGs	Not applicable	Not applicable	0.2%	0.3%	0.3%
Percentage share among KGs joining PEVS	Not applicable	Not applicable	0.3%	0.4%	0.4%

* Position as of February 2016.

- (b) The respective number of KGs that have received full and 50% reimbursement of rent under RRS; and the respective total amount of subsidy disbursed to these KGs in 2011-12, 2012-13, 2013-14 and 2014-15 are tabulated below. The information for 2015-16 is not yet available.

Financial Year	No. of KGs in receipt of rent reimbursement		Total amount of rent reimbursed	
	Full	50%	Full	50%
2011-12	379	3	\$157,947,932	\$824,700
2012-13	377	3	\$163,011,828	\$638,600
2013-14	379	3	\$172,929,994	\$511,350
2014-15	381	3	\$185,472,576	\$702,517

- (c) The respective highest, lowest, median and average rent subsidy provided to KGs in receipt of full and 50% reimbursement of rent in 2011-12, 2012-13, 2013-14 and 2014-15 are tabulated below. The information for 2015-16 is not yet available.

Financial Year	Rent Reimbursement							
	Highest Rent		Lowest Rent		Median Rent		Average Rent	
	Full	50%	Full	50%	Full	50%	Full	50%
2011-12	\$3,561,000	\$480,000	\$37,476	\$167,700	\$353,430	\$177,000	\$415,652	\$274,900
2012-13	\$4,176,000	\$340,000	\$37,476	\$121,600	\$368,100	\$177,000	\$432,392	\$212,867
2013-14	\$4,190,000	\$245,000	\$37,476	\$89,350	\$387,732	\$177,000	\$456,280	\$170,450
2014-15	\$4,200,000	\$310,250	\$37,476	\$121,457	\$412,000	\$270,810	\$486,805	\$234,172

- (d) For the 2011/12 to 2015/16 school years, no approval has been granted for rent reimbursement to KGs which were converted from private independent KGs to NPM KGs for joining PEVS.

CONTROLLING OFFICER'S REPLY**EDB194****(Question Serial No. 1695)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

There are 576 staff under Programme (5). Please provide the following information:

(a) What is the area of work of the 576 staff? What is the total number of staff in the Kindergarten Education Division or responsible for duties relating to kindergartens and kindergartens cum child care centres, their division of labour and staff-related expenditures?

(b) Regarding the free kindergarten education policy to be implemented in 2017, does the Bureau plan to increase the manpower above or set up an "Early Childhood Education Division" accordingly? If yes, please provide: (i) the objective of the new division; (ii) the estimated additional manpower required and why; (iii) the division of labour and area of work of the additional staff; (iv) the estimated staff-related expenditures; and (v) the overall estimated expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 16)

Reply:

(a) and (b)

The work of the 576 staff members under Programme (5) covers various areas, including strengthening the professional preparation and continuing professional development of school principals and teachers, providing resources for pre-primary education and other services for specific educational purposes, etc.

The Education Bureau (EDB) is planning to set up a new Kindergarten Education (KGE) Division starting from 2016-17. Subject to the deliberation of the Legislative Council Establishment Subcommittee and approval of the Finance Committee, EDB will create one supernumerary post at the rank of Assistant Director of Education to head the new KGE Division in the initial three years from 2016-17 to 2018-19 and one permanent post at the rank of Principal Education Officer to support his/her work in the initial years and head the KGE Division when the supernumerary post has lapsed. Besides, 22 and 37 non-directorate posts will be created in 2016-17 and 2017-18 respectively to support the implementation of the free quality kindergarten (KG) policy. Amongst them, 20 posts (including two time-limited posts for 2016-17 and up to 2018-19 respectively) will be created in the new KGE Division in 2016-17 to cope with the increased workload and take up the duties of eight time-limited posts to be lapsed by 1 April 2016 (i.e. a net increase of 12 posts in the KGE Division). Another 20 posts will be created in KGE Division in 2017-18 to further strengthen the support for the full implementation of the free quality KG education in the 2017/18 school year, including eight posts regraded from the Inspector (Graduate) grade to Education Officer (Administration) grade or vice versa according to the nature of the tasks involved. With one time-limited post lapsed by end of 2016-17, the net increase of posts in the KGE Division in 2017-18 will be 11. As

regards the remaining two (both are time-limited posts) and 17 non-directorate posts (including one regraded post) to be created in 2016-17 and 2017-18 respectively, they will either be created in other EDB Divisions for professional support to teachers in catering KG students with risks of developmental delay, strengthening financial monitoring and development of relevant information technology systems, etc. or in the Rating and Valuation Department for assessment of rental subsidy.

In 2016-17, upon creation of the above-mentioned posts, there will be a total of 83 posts in the new KGE Division. It will take charge of the preparation for, and implementation of, the new free quality (KG education policy, including formulation of specific details of the measures, overseeing the implementation of the new policy and monitoring the progress of the relevant measures. The division of labour and areas of the work for staff in the KGE Division are as follows:

(i) The Kindergarten Special Duty Section, with all its posts currently (2015-16) being time-limited, is now responsible for formulating the framework of measures under the new policy, soliciting feedback from major stakeholders with a view to refining the implementation details and drawing up guidelines for KGs' compliance and reference. It will be regularised starting from 2016-17 to co-ordinate implementation issues that involve inter-departmental collaboration. Besides, it will also be responsible for co-ordinating admission arrangements for Nursery (K1) classes (including measures to ensure that a child is not holding more than one school place at a time); handling premises-related issues (including allocation of KG premises, review of the Planning Standard, exploration of the setting up of Resource Centres for KG education and co-location of KGs in primary schools, etc.); disbursement of funds to KGs; promotion of parent education, etc.

(ii) The Kindergarten Administration Section is now responsible for administration of the Pre-primary Education Voucher Scheme, fee increase applications, KG teachers' professional development, etc. Under the new KG policy, it will be tasked to formulate proposals regarding specific details on, and monitor of KGs in, compliance of guidelines in teacher-student ratio, remuneration and career ladder for teachers, collection of miscellaneous charges and trading operation in KGs, mechanism for KGs' entry to, and exit from, the new scheme, etc. Besides, it will continue to co-ordinate matters on fee increase applications which will involve more vigorous vetting to ensure KGs' proper use of government funding and offer of free KG education as appropriate. Besides, it will collaborate with relevant experts in promoting KG teachers' professional development including formulation of a Teacher Competencies Framework and a Principal Competencies Framework, developing a continuous professional development policy for KG teachers, etc.

(iii) The Kindergarten Inspection Section monitors and evaluates the performance of KGs through inspections, and promotes quality KG education in Hong Kong. Under the new policy, in addition to its current tasks, it will enhance the quality assurance framework (including review of the Performance Indicators to tie in with the implementation of free quality KG education policy and better align with the latest trends of the KG education) and conduct more focus inspections to promote quality KG education. It will also take charge of the strategies in the promotion and/or conduct of local research on the latest trends in child development and impact of the new policy on the quality of KG education.

(iv) The Joint Office for Kindergartens and Child Care Centres will continue to be responsible for supervising the operation of Kindergarten-cum-Child Care Centres (KG-cum-CCCs), including processing various applications from KG-cum-CCCs. In addition, it will review the schedule of accommodation for KGs and the Operation Manual for Pre-primary Institutions.

The estimated staff-related expenditure of KGE Division in 2016-17 is around \$50.42 million, and a rough estimate for 2017-18 is around \$53.53 million. Upon implementation of the free quality KG education, the expenditure on KG education is estimated to be about \$6.7 billion in the 2017/18 school year.

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (Committee) and its two working groups, please provide the following information:

- (a) The dates of meetings, the number of meeting as well as the attendance rates of members at each meeting since the establishment of the Committee and its two working groups;
- (b) The total expenditure involved with the Committee; and
- (c) The Committee's working arrangements and the estimated expenditure following the submission of the Report on Review of the Territory-wide System Assessment.

Asked by: Hon IP Kin-yuen (Member Question No. 17)

Reply:

(a) The details for the meetings of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) as well as the Working Group on Administration and Reporting and the Working Group on Territory-wide System Assessment (TSA) Papers and Question Design are as follows:

	Meeting dates	Attendance rate (%)
The Committee	10 Dec 2015	81%
	23 Dec 2015	71%
	18 Jan 2016	81%
	4 Feb 2016	76%
Working Group on Administration and Reporting	5 Jan 2016	100%
	21 Jan 2016	82%
Working Group on TSA Papers and Question Design	23 Dec 2015	81%
	6 Jan 2016	79%
	25 Jan 2016	83%
	25 Feb 2016	69%

- (b) The cost incurred is absorbed within the resources of the Education Bureau (EDB).

(c) The Committee was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to the EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

The Committee and its Working Groups will follow up on the implementation of the recommendations, including the 2016 Tryout Study (Primary 3), the provision of professional support strategies and monitoring the progress. They will also provide views on the data and experience obtained in the tryout study. The outcome of the 2016 Tryout Study (Primary 3) would be appropriately adopted for enhancement of the 2017 assessment arrangement. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please set out the name, duration, content and expenditure of each measure or programme supported by the Language Fund to facilitate the learning of Putonghua among primary and secondary school students from the 2012/13 school year to the 2016/17 school year, as well as the total expenditure of all support measures involved; and
- (b) Please provide the total expenditure of the Scheme to Support Schools in Using Putonghua to Teach the Chinese Language Subject, which was completed in August 2014. What is the progress of the review? Will the review report be submitted to the Legislative Council? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 18)

Reply:

- (a) Between 2012/13 and 2016/17 school years, the Language Fund has been providing a diversified and fun-filled environment for primary and secondary school students to learn Putonghua outside the classroom so as to further enhance their Putonghua proficiency:

School Year	Project Name	Content	Expenditure/ Allocation (\$ million)
2012/13	Promotion of Putonghua in 2012/13 School Year	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competition, Chinese language enrichment programme and drama performances.	1.71
2013/14	Promotion of Putonghua in 2013/14 School Year	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising carnival and public speaking competition.	1.20

School Year	Project Name	Content	Expenditure/ Allocation (\$ million)
2014/15	Promotion of Putonghua in 2014/15 School Year	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competition, radio drama competition and drama performances.	2.54*
2015/16	Promotion of Putonghua in 2015/16 and 2016/17 School Years #	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competitions, radio story-telling competition and drama performances.	4.28^

* Actual expenditure as at 31 January 2016

A project for two school years

^ Allocation of Fund

- (b) To maintain the competitive edge of Hong Kong as an international city and embrace the opportunities of globalisation, students must develop their biliterate and trilingual abilities, including English, Cantonese and Putonghua, in a balanced manner. In the 2008/09 school year, the Standing Committee on Language Education and Research (SCOLAR) launched the “Scheme to Support Schools in using Putonghua to teach Chinese Language Subject” (the Support Scheme) which was completed in August 2014. As at January 2016, total expenditure of the Support Scheme was \$202.3 million ^{Note}. SCOLAR is conducting the review of the Support Scheme and will release the results once available.

Note: The expenditures incurred in the 2014/15 and 2015/16 school years were to cover the manpower resources required to undertake administration work and review relating to the Support Scheme after its completion.

CONTROLLING OFFICER'S REPLY**EDB197****(Question Serial No. 1698)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(a) For the 2015/16 school year, please provide the number of aided primary and secondary schools which have employed teachers for a defined contract period (DCP) to fill permanent teaching posts within their approved teaching establishment, and the number of such contract teachers. Please set out the figures for each of the 18 school districts in the form of annexes (as illustrated below):

Aided secondary schools (Annex 1)

EDB school district	Number of aided secondary schools in the district	Employment of teachers on DCP terms to fill permanent teaching posts within the approved teaching establishment (aided secondary schools)	
		Number of schools	Number of contract teachers
School district			
Total			
Total balance for all districts:			

Aided Primary Schools (Annex 2)

EDB school district	Number of aided primary schools in the district	Employment of teachers on DCP terms to fill permanent teaching posts within the approved teaching establishment (aided primary schools)	
		Number of schools	Number of contract teachers
School district			
Total			
Total balance for all districts:			

(b) Regarding teachers employed on DCP terms to fill permanent teaching posts within the approved teaching establishment in the 2015/16 school year, what is their average total length of service in the same post in a school? What is their longest total length of service?

(c) Please provide a breakdown of the number of teachers employed on DCP terms to fill permanent teaching posts within the approved teaching establishment in primary and secondary schools and the respective increase/decrease in each of the school years from the 2012/13 to 2016/17 school years respectively; and

(d) Make a comparison of the change in the number of regular teachers on contract terms in primary and secondary schools between the 2014/15 and 2015/16 school years (as illustrated below):

Secondary Schools (Annex 3)

Changes between the 2014/15 and 2015/16 school years		Number of schools	Number of regular teachers on contract terms in the 2014/15 school year	Number of regular teachers on contract terms in the 2015/16 school year
Regular teachers on DCP terms	Increase			
	Remain unchanged			
	Decrease			

Primary Schools (Annex 4)

Changes between the 2014/15 and 2015/16 school years		Number of schools	Number of regular teachers on contract terms in the 2014/15 school year	Number of regular teachers on contract terms in the 2015/16 school year
Regular teachers on DCP terms	Increase			
	Remain unchanged			
	Decrease			

Asked by: Hon IP Kin-yuen (Member Question No. 19)

Reply:

The posts in the approved teaching establishment of aided schools, except time-limited posts, are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. Based on the provisional information provided by schools on the appointment of teachers, while most regular teachers do not have a fixed term of employment, a small number of regular teachers are employed for a clearly defined contract period (DCP). The reply to the four parts of the question is as follows:

- (a) The number of regular teachers on DCP terms to fill regular posts in aided secondary and primary schools in the 2015/16 school year are at Annexes 1 and 2 respectively.
- (b) Among the 1 266 regular teachers on DCP terms in the 2015/16 school year, the average length of service as regular teachers on DCP terms in their existing schools is 2.1 years (up to the end of the 2015/16 school year), and the longest service being 10 years.
- (c) Statistics on the number of regular teachers on DCP terms from 2011/12 to 2015/16 school years are as follows:

	Number of regular teachers on DCP terms (Compare with previous school year)				
	2011/12	2012/13	2013/14	2014/15	2015/16
Aided Secondary Schools	1 299	1 374 (+75)	1 101 (-273)	965 (-136)	878 (-87)

Aided Primary Schools	482	564 (+82)	566 (+2)	446 (-120)	388 (-58)
-----------------------	-----	--------------	-------------	---------------	--------------

- (d) Comparison on the numbers of regular teachers on DCP terms in aided secondary and primary schools of the 2014/15 and 2015/16 school years are at Annexes 3 and 4 respectively.

CONTROLLING OFFICER'S REPLY

EDB198

(Question Serial No. 1699)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools:

- (a) In the 2015/16 school year, the ratio of graduate teacher posts in public sector primary schools has been increased from 50% to 55%. How many schools have increased the ratio of graduate teacher posts to 55% and what is the increased number of graduate teachers and expenditure involved?
- (b) What is the respective number, median age, average age, percentage and wastage rate of teachers appointed as graduate teachers and certificated masters/mistresses in public sector schools from the 2012/13 to 2016/17 school years? In respect of the latter, the number, median age, average age, percentage and wastage rate of those with a recognised degree?
- (c) How will the Administration ensure that the progress of filling the graduate teacher posts by schools will meet the policy requirement? Will it review the policy concerned and set aside an amount in its budget to enable all teachers with a recognised degree to be appointed as graduate teachers? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 20)

Reply:

- (a) Pursuant to the enhancement of the ratio of graduate teacher posts in public sector primary schools from 50% to 55% in the 2015/16 school year, the Education Bureau (EDB) will further enhance the ratio to 60% and 65% in the 2016/17 and 2017/18 school years respectively. In line with the existing arrangements, public sector primary schools will fill the additional graduate teacher posts by regrading qualified serving non-graduate teachers in accordance with their school-based selection criteria and mechanism and with reference to EDB's guidelines. As the teaching staff establishment and teachers' turnover of individual schools may vary across years, we do not readily have the number of regraded teachers and the expenditure involved for the newly created graduate teacher posts in the 2015/16 school year.

- (b) The number and percentage of teachers appointed as graduate teachers and non-graduate teachers and the respective median age, mean age and wastage rate of these teachers in public sector schools for the school years from 2011/12 to 2015/16 are as follows:

Primary Schools (Government and Aided)

School Year	Graduate Teachers					Non-graduate Teachers				
	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) ^	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) ^
2011/12	6 970	39.0	41	42	3.5	10 900	61.0	36	37	6.2
2012/13	7 150	39.9	41	42	2.9	10 770	60.1	36	38	6.2
2013/14	7 330	40.0	42	42	3.4	10 990	60.0	37	38	5.6
2014/15	7 550	39.9	42	43	3.0	11 400	60.1	37	38	5.2
2015/16 (Estimate)	7 950	41.0	42	43	3.2	11 460	59.0	37	37	5.5

Secondary Schools (Government, Aided and Caput)

School Year	Graduate Teachers					Non-graduate Teachers				
	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) ^	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) ^
2011/12	19 790	77.1	40	40	3.3	5 880	22.9	32	35	5.8
2012/13	18 820	78.2	41	41	7.0	5 240	21.8	32	35	12.6
2013/14	18 510	78.8	42	41	4.2	4 990	21.2	33	36	7.9
2014/15	18 300	78.6	42	42	4.3	4 970	21.4	33	36	6.9
2015/16 (Estimate)	17 950	78.5	43	43	4.2	4 920	21.5	33	36	7.8

Regarding the non-graduate teachers, the number and percentage of teachers who have degree qualifications (degree holders) and the respective wastage rate of these teachers in public sector schools for the school years from 2011/12 to 2015/16 are as follows:

Primary Schools (Government and Aided)

School Year	Non-graduate Teachers				
	No. of degree holders*	%	Median Age	Mean Age	Wastage rate (%) ^
2011/12	9 720	89.1	35	36	5.2
2012/13	9 760	90.7	36	37	5.4
2013/14	10 100	91.9	36	37	4.8
2014/15	10 600	93.0	36	37	4.6
2015/16 (Estimate)	10 760	93.8	36	37	4.9

Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers				
	No. of degree holders*	%	Median Age	Mean Age	Wastage rate (%) [^]
2011/12	5 300	90.2	30	33	5.7
2012/13	4 760	91.0	31	34	12.6
2013/14	4 560	91.4	32	35	7.9
2014/15	4 580	92.2	32	35	6.6
2015/16 (Estimate)	4 580	93.1	32	35	7.5

* Numbers are rounded to the nearest 10.

[^] “Wastage Rate” refers to the number of drop-out teachers as a percentage of the total number of teachers as at mid-September of the preceding school year; and “drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

- (c) Schools are advised to select qualified non-graduate teachers to fill the graduate teacher posts to fully utilize the resources provided during our daily contact with them. EDB has set the target of enhancing the ratio of graduate teacher posts in public sector primary schools to 65% by phases in three years starting from the 2015/16 school year. As for public sector secondary schools, the ratio of graduate teacher posts has been increased to 85% since the 2009/10 school year. There is no immediate plan to further increase the ratios for the time being. We shall continue to keep in view all relevant factors, including the financial implications, prioritization of resources deployment and schools’ progress in filling graduate teacher posts, etc. and review the ratios of graduate teacher posts when necessary.

- End -

(5) Other Educational Services and Subsidies, (6) Vocational and Professional EducationControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Please provide a breakdown of the following information in such areas as higher education, secondary education, primary education, pre-primary education, special education and vocational education for 2014/15 to 2016/17:

- (a) The items of one-off provisions for education under the General Revenue Account and the amount involved; and
- (b) All the items of non-recurrent grants/capital subventions for education under the General Revenue Account and the amount of provision involved.

Asked by: Hon IP Kin-yuen (Member Question No. 22)Reply:

- (a) The one-off injections to education funds under the General Revenue Account (GRA) are:

	One-off injections to funds / education level	Amount involved \$ million
2015-16	Injection for setting up the Qualifications Framework Fund (no designated education level)	1,000
2016-17	Proposed injection into the HKSAR Government Scholarship Fund* (post-secondary education)	1,000
	Proposed injection for setting up the Gifted Education Fund* (no designated education level)	800

* Subject to the approval of the Finance Committee of the Legislative Council.

There was no injection to funds in 2014-15.

(b) The non-recurrent grants/capital subventions under GRA by education level are:

	2014-15 Actual \$ million	2015-16 Revised Estimate \$ million	2016-17 Estimate \$ million	Remarks
Post-secondary Education	265.7	97.6	228.6	Funding provision mainly for the Study Subsidy Scheme for Designated Professions/Sectors, the Scholarship Scheme for Studying Outside Hong Kong, the Pilot Mainland Experience Scheme for Post-secondary Students and the Mainland University Study Subsidy Scheme and the Sixth Matching Grant Scheme (only for 2014-15).
Secondary Education	335.9	390.0	430.7	Funding provision mainly for the maintenance, repairs and minor improvement projects in secondary schools and the implementation of the Fourth Strategy on Information Technology in Education.
Primary Education	309.6	343.9	364.3	Funding provision mainly for the maintenance, repairs and minor improvement projects in primary schools, the implementation of the Fourth Strategy on Information Technology in Education and the After-school Learning Support Partnership Pilot Scheme.
Special Education	35.8	60.6	67.6	Funding provision mainly for the maintenance, repairs and minor improvement projects in special schools and the implementation of the Fourth Strategy on Information Technology in Education.
Vocational and Professional Education	56.1	64.4	88.1	Funding provision mainly for the grant to Vocational Training Council (VTC) for implementing the Pilot Training and Support Scheme, the replacement and acquisition of additional furniture and equipment for existing teaching and training venues and the development of information technology systems in VTC.

Note: There is no non-recurrent grants/capital subvention for pre-primary education level from 2014-15 to 2016-17.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

With regard to the provision of additional resources for implementing integrated education in mainstream primary and secondary schools, please list, by district, the following information in the past 5 years (from the 2011/12 to 2015/16 school years):

(a) the number of primary and secondary schools being allocated with the Learning Support Grant by using the table below:

	Primary Schools					Secondary Schools				
Provision of Learning Support Grant (\$)	2011/12	2012/13	2013/14	2014/15	2015/16	2011/12	2012/13	2013/14	2014/15	2015/16
0 – 110,000										
110,001 – 400,000										
400,001 – 600,000										
600,001 – 800,000										
800,001 – 1,000,000										
1,000,001 or above										

(b) the number of primary and secondary schools joining the School-based Educational Psychology Service;

(c) the annual total provision for the Enhanced Speech Therapy Grant, and the number of primary and secondary schools being allocated with basic grant and top-up grant;

(d) the number of primary and secondary schools joining the Intensive Remedial Teaching Programme for primary schools and the Integrated Education Programme, the number of students benefited from the programmes, the number of additional teachers, teaching assistants and learning support assistants hired, and the average unit cost per place;

(e) the number of schools being provided with additional teachers to cater for low academic achievers in secondary schools, and the number of additional teachers hired;

(f) a breakdown by district of the number of primary and secondary schools being provided with Intensive Support Grant for hardcore students with special educational needs, and the annual total provision; and

(g) the total provision of Top-up Fund and the number of primary and secondary schools benefited.

Asked by: Hon IP Kin-yuen (Member Question No. 23)

Reply:

(a) to (g)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The provision of the above mentioned additional resources and professional support is based on various parameters such as the number of students with SEN, their level of support required, the number of classes or by applications of individual schools when need arises, but irrespective of the districts of schools. Hence, we are unable to breakdown the provision by district. The number of mainstream public sector primary and secondary schools eligible for LSG by the required range of provision from the 2011/12 to 2015/16 school years is set out at Appendix 1.

The requested statistics on School-based Educational Psychology Service, ESTG, IRTP, IE Programme and additional teachers for supporting low academic achievers from the 2011/12 to 2015/16 school years are set out at Appendix 2.

As for Intensive Support Grant for hardcore cases and Top-up Fund for procurement of special furniture and equipment mentioned above, they are provided for individual schools on an application basis to meet the specific needs of individual students with SEN. In other words, not all schools and students with SEN are receiving the same resource provisions and the funding involved can vary among schools and across years. Hence, providing the total expenditure and number of schools receiving these additional resources separately is not meaningful and can be misleading.

Distribution of public sector primary and secondary schools according to the specific range of Learning Support Grant (LSG) allocated from the 2011/12 to 2015/16 school years

Provision of Learning Support Grant (\$)	Number of primary schools					Number of secondary schools				
	2011/12	2012/13	2013/14	2014/15	2015/16	2011/12	2012/13	2013/14	2014/15	2015/16
0 – 110,000	2	6	4	2	2	58	78	58	43	30
110,001 – 400,000	128	127	123	109	105	159	159	161	120	110
400,001 – 600,000	50	54	49	23	25	68	63	58	60	64
600,001 – 800,000	72	73	58	41	31	28	42	56	46	42
800,001 – 1,000,000	36	41	48	42	38	26	37	26	38	35
1,000,001 or above	0	0	19	87	109	0	0	23	76	101

Note: To enhance the support for schools having admitted larger number of students with SEN, EDB has raised the ceiling of the LSG from \$1 million to \$1.5 million per school per annum with effect from the 2013/14 school year and increased the grant rates by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the grant rates and ceiling of the LSG for each school will be adjusted annually according to the change in the Composite Consumer Price Index.

Table 1

Number of public sector primary and secondary schools receiving School-based Educational Psychology Service from the 2011/12 to 2015/16 school years

	2011/12	2012/13	2013/14	2014/15	2015/16
Primary schools	234	271	297	341	401
Secondary schools	228	259	282	308	333

Table 2

Total expenditure of Enhanced Speech Therapy Grant (ESTG) and number of primary schools provided with Basic Grant and Top-up Grant from the 2011/12 to 2015/16 school years

	2011/12	2012/13	2013/14	2014/15	2015/16
Number of schools	452	452	452	452	451
Total provision (\$ million)	45.6	48.1	51.5	54.4	57.4

Note: ESTG is provided to government and aided primary schools that have students with speech and language impairment (SLI) enrolled. Schools will be provided with Basic Grant and Top-up Grant according to the number of approved classes and the number of moderate or severe cases respectively each year. Most schools are provided with the Top-up Grant, except for a few that do not have moderate or severe cases. Secondary schools could utilize the LSG to support their students with SLI.

Table 3

A. Number of primary schools and additional teachers of the Intensive Remedial Teaching Programme (IRTP) from the 2011/12 to 2015/16 school years

	2011/12	2012/13	2013/14	2014/15	2015/16
Number of primary schools	259	253	251	250	243
Number of additional teachers	421	410	403	398	388

B. Number of schools, additional teachers and learning support assistants of the Integrated Education (IE) Programme from the 2011/12 to 2015/16 school years

	2011/12	2012/13	2013/14	2014/15	2015/16
Number of primary schools	27	27	27	27	25
Number of additional teachers in primary schools	23	23	23	23	21
Number of learning support assistants in primary schools	21	21	21	23	21
Number of secondary schools	15	15	11	9	8
Number of additional teachers in secondary schools	14	14	10	9	8
Number of learning support assistants in secondary schools	12	11	10	9	8

Note:

1. Since the introduction of the New Funding Mode (NFM) in the 2003/04 school year, schools operating IRTP and IE Programme have been encouraged to switch to NFM to enjoy greater flexibility in the use of resources in supporting students with SEN.
2. The number of students under the IRTP and IE Programme is only for calculation of additional manpower to be provided to the schools concerned. In actual practice, irrespective of the funding mode adopted, under the Whole School Approach to integrated education, schools should deploy the additional manpower to render appropriate support for students in need. Hence, students with SEN both within and outside the IRTP and IE Programme should benefit from such additional resources. As such, providing the number of students under the Programmes and the unit cost for these Programmes is not meaningful and can be misleading.

Table 4

Number of public sector secondary schools provided with additional teachers for supporting low academic achievers and number of additional teachers provided from the 2011/12 to 2015/16 school years

	2011/12	2012/13	2013/14	2014/15	2015/16
Number of schools provided with additional teachers to support low academic achievers	257	258	252	256	257
Number of additional teachers provided	657	620	592	577	564

CONTROLLING OFFICER'S REPLY**EDB201****(Question Serial No. 1702)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the number of classes at each level, number of students, the student unit cost, the class-to-teacher ratio and teacher-to-student ratio for the past 5 years (2011/12 to 2015/16 school years) and the coming year (2016/17) respectively by types of special schools.
2. Please provide information on the establishment and details of all supporting staff such as speech therapists, and details of schools which have actually employed or are unable to employ those staff for the past 5 years (2011/12 to 2015/16 school years) and the coming year (2016/17) respectively by types of special schools.

Asked by: Hon IP Kin-yuen (Member Question No. 24)

Reply:

1. The number of classes, number of students, average unit cost per school place, class-to-teacher ratio and teacher-to-student ratio of each type of special schools from the 2011/12 to 2015/16 school years are set out at Appendix 1. The estimated number of classes and students in different types of special schools in the 2016/17 school year are tabulated below. As the calculation of the class-to-teacher ratio and teacher-to-student ratio is based on the actual number of classes and students and the calculation of the unit cost per school place is based on the actual operating cost of the school, we are unable to provide these figures for different types of special schools for the 2016/17 school year at this stage.

School Type	Estimated Number of Classes	Estimated Number of Students
Visual Impairment	15	130
Hearing Impairment	13	90
Physical Disability	103	890
Mild Intellectual Disability	225	3 120
Moderate Intellectual Disability	207	1 960
Severe Intellectual Disability	100	710
School for Social Development	86	590
Hospital School	33	310

It is a common practice for special schools to adopt flexible groupings across grade levels and individualized education programmes to cater for the special educational needs of the students. Presenting the numbers of classes by level is therefore not reflecting the actual operation in special schools.

2. Special schools are provided with non-teaching specialist staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braillists according to the needs of their students. The specialist staff establishment of different types of special schools from the 2011/12 to 2015/16 school years are set out at Appendix 2. As the calculation of the specialist staff establishment is based on the actual number of classes being operated, we are unable to provide these figures for the 2016/17 school year at this stage. Please note that to address potential recruitment difficulties, special schools may encash different numbers of vacant posts of speech therapist, physiotherapist, occupational therapist and school nurse to employ qualified temporary staff or hire speech therapy/occupational therapy/physiotherapy/nursing services to meet the needs of their students. In other words, special schools have the flexibility to employ these specialist staff on the establishment or make use of the cash grant to hire specialist service. As such, providing details of schools which have actually employed or are unable to employ those staff under the establishment may be misleading.

CONTROLLING OFFICER'S REPLY**EDB202****(Question Serial No. 1703)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the vocational education and training provided by the Vocational Training Council (VTC) in the past 5 years (i.e. the 2011/12 to 2015/16 academic years), please give the following information:

1. a breakdown of the target students, number of intake and total number of students in the member institutions of VTC by categories of qualifications awarded by each member institution;
2. the ratio of subvented to non-subvented programmes, and their tuition fees for the various levels of programmes offered by the member institutions of VTC;
3. a breakdown, by programme, of the numbers of places, student intake as well as the total number of students under the apprenticeship scheme and other vocational training schemes; and
4. a breakdown, by institution and programme, of the numbers of graduates from subvented and non-subvented higher diploma programmes of the VTC who progressed to subvented top-up programmes, and their percentage shares in the total numbers of graduates.

Asked by: Hon IP Kin-yuen (Member Question No. 25)

Reply:

1. The Vocational Training Council (VTC) through its member institutions offers a wide range of full-time and part-time vocational and professional education programmes from post-secondary 3 up to degree levels. The target students, number of new intake and total number of students of VTC's vocational and professional education programmes from the 2011/12 to 2015/16 academic years (AY) are as follows –

Award Level (Note 1)	Target Students (Note 2) (for 2015/16)	Mode of study	2011/12		2012/13		2013/14		2014/15		2015/16 (provisional)	
			New Intake	Total	New Intake	Total	New Intake	Total	New Intake	Total	New Intake	Total
Degree and Top-up Degree	Secondary 6 leavers and Higher Diploma holders	Full-Time	1 360	1 828	2 060	2 445	2 367	3 037	3 265	4 306	3 800	5 500
		Part-Time	361	1 153	681	1 391	766	1 607	1 207	2 135	1 400	2 200

		Part-Time	52	86	145	207	166	367	677	907	900	1 700
Certificate	Secondary 3 to 6 leavers and in-service personnel	Full-Time	1 682	2 054	1 341	1 556	1 473	2 099	1 974	2 583	1 300	1 900
		Part-Time	4 561	6 313	4 214	5 994	4 144	6 657	4 141	6 514	3 900	6 300

Notes:

1. The above table includes publicly-funded and self-financing programmes offered by VTC's member institutions. There are other part-time programmes funded under Head 141 Government Secretariat: Labour and Welfare Bureau.
2. The target students reflect the position as at the 2015/16 AY under the new academic structure. Under the old academic structure, some of the programmes target at Secondary 5 or Secondary 7 leavers.
2. The ratio of subvented to self-financed student places for the full-time programmes above is around 60% to 40%. The tuition fee levels of full-time programmes for the 2011/12 to 2015/16 AY are as follows –

		Average Fee Level per Annum (AY)				
		2011/12	2012/13	2013/14	2014/15	2015/16 (provisional)
(a)	Subvented					
	Higher Diploma	\$24,750	\$28,860	\$29,890	\$31,490	\$31,560
	Diploma of Foundation Studies	\$17,200	\$19,600	\$19,600	\$20,500	\$20,500
	Diploma of Vocational Education (1-year Intensive)	\$17,200	\$19,600	\$19,600	\$20,500	\$20,500
	Certificate	\$1,970	\$9,900	\$13,500	\$13,500	\$13,500
(b)	Self-financed					
	Top-up Degree	\$57,000 to \$72,000	\$57,200 to \$78,600	\$57,200 to \$78,600	\$61,900 to \$81,600	\$64,200 to \$87,900
	Degree	-	\$74,160	\$74,800	\$77,280	\$80,800
	Higher Diploma	\$41,630	\$46,030	\$46,810	\$49,030	\$51,610
	Diploma Yi Jin	\$29,500	\$32,000	\$33,500	\$34,700	\$36,200

3. The number of new intake and total number of apprentices and trainees in VTC's vocational and professional education programmes from the 2011/12 to 2015/16 AY are as follows –

	2011/12		2012/13		2013/14		2014/15		2015/16 (provisional)	
	New Intake	Total	New Intake	Total	New Intake	Total	New Intake	Total	New Intake	Total

* Traineeship Scheme for services industry is funded under Head 141 Government Secretariat: Labour and Welfare Bureau

4. The number of Higher Diploma (HD) graduates pursuing further studies in subvented programmes, and the percentage to the total number of graduates from the 2011/12 to 2013/14 AY are as follows –

Discipline	2011/12		2012/13		2013/14	
	Subvented HD	Self-financed HD	Subvented HD	Self-financed HD	Subvented HD	Self-financed HD
Applied Science	25 (3%)	1 (10%)	35 (5%)	- -	77 (7%)	- -
Business Administration	- -	19 (1%)	1 (1%)	22 (1%)	1 (1%)	61 (2%)
Child Education and Community Services	- -	- -	1 (0.2%)	- -	2 (0.4%)	2 (4%)
Design	44 (4%)	19 (6%)	36 (3%)	10 (5%)	88 (5%)	26 (13%)
Engineering	169 (7%)	- -	136 (6%)	- -	202 (7%)	- -
Hotel, Service and Tourism Studies	10 (2%)	- -	11 (2%)	- -	13 (1%)	- -
Information Technology	76 (11%)	37 (7%)	79 (10%)	10 (2%)	118 (12%)	17 (4%)
Overall	324 (6%)	76 (2%)	299 (5%)	42 (1%)	501 (6%)	106 (2%)

Note: Figures in () refer to the percentage of graduates pursuing further studies in subvented programmes to the total number of graduates.

To achieve higher response rate, the survey period for collecting questionnaires from graduates for the 2014/15 AY is extended and statistics will only be available in April 2016. As the 2015/16 AY will only end in August 2016, the information about the graduates is also not yet available.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the staffing and relevant expenses of the Vocational Training Council (VTC), please advise on the following in the past 5 years (from 2011/12 to 2015/16):

1. the annual expenditure of the VTC on staff emoluments and benefits; the amount and proportion of such expenditure funded by government recurrent subvention; and whether the VTC has deployed resources other than government subvention (such as donations) for staff employment, and if so, please provide an annual breakdown of the number and rank of the staff involved and the related expenditure on emoluments;
2. the annual salaries of the 5 highest paid staff;
3. staff employment of various departments under the 3 systems of the VTC, and the estimates for the upcoming 2016/17, including :
 - (a) the numbers of teaching staff and staff from other grades employed under the 3 systems, and the percentages of staff under each system;
 - (b) amongst staff on temporary/short-term contracts, the respective numbers of teaching staff and staff from other grades with a contract duration of less than 1 year, continuously employed for 2 or more years, and more than 6 years but yet to be offered long term employment; and the greatest number of times of contract renewal and the longest duration of such employment;
 - (c) the estimated number of staff on temporary/short-term contracts to be converted to fixed-term contracts in 2016, and the number of teaching staff among them; and
 - (d) the number of teaching staff on new fixed-term contracts to be promoted or converted to long term contracts, and the number of teaching staff among them.

Asked by: Hon IP Kin-yuen (Member Question No. 26)

Reply:

1. The full-time staffing expenses for subvented programmes incurred by the Vocational Training Council (VTC) from 2011-12 to 2015-16 are as follows –

Financial year	Staff expenses for subvented programmes (\$ million)	Government recurrent subvention towards staff expenses*	
		(\$ million)	%
2011-12	2,027	1,636	81
2012-13	2,135	1,748	82
2013-14	2,289	1,807	79
2014-15	2,448	1,880	77

Financial year	Staff expenses for subvented programmes (\$ million)	Government recurrent subvention towards staff expenses*	
		(\$ million)	%
2015-16 (Estimate)	2,623	1,993	76

* Apart from Government subvention, the staff expenses for subvented programmes are also met by income generated by VTC (mainly tuition fees and training charges).

In addition to its recurrent subvented activities, VTC operates programmes that are self-financed or financed by specific funds from other organisations. VTC staff may be deployed to work on both subvented and self-financing programmes and activities as appropriate to meet operational requirements, and staff costs are charged to relevant accounts. Therefore, breakdown of number and rank of staff funded by resources other than Government subvention is not available. The total number of VTC's full-time staff and related expenditure from 2011-12 to 2015-16 are as follows –

Financial year	Number of teaching staff	Number of administrative and supporting staff	Total number of staff	Total staff expenses (\$ million)	Staff expenses for non-subvented activities (\$ million)
2011-12	2 620	2 765	5 385	2 568	541
2012-13	2 675	2 810	5 485	2,702	567
2013-14	2 738	2 937	5 675	2,892	603
2014-15	2 805	2 960	5 765	3,048	600
2015-16 (Provisional)	2 892	2 991	5 883	3,271	648

2. The annual salary of the five highest paid staff in the 2015/16 academic year are as follows –

	Annual salary(\$ million)
1 st highest	2.75
2 nd highest	2.64
3 rd highest	2.19
4 th highest	2.18
5 th highest	2.16

3. Information about staff employed under various packages for the past five years is given below –

- (a) Numbers of teaching staff and administrative and supporting staff and their percentages (as compared to the total number of staff) under the New Remuneration Package, Old Remuneration Package and Short-Term Contract –

Academic year	Staff type	Number of staff employed under			Total number of staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract	
2011/12	Teaching	1 002 (18.6%)	1 271 (23.6%)	347 (6.4%)	5 385
	Administrative and supporting	1 355 (25.2%)	1 012 (18.8%)	398 (7.4%)	
2012/13	Teaching	979 (17.9%)	1 333 (24.3%)	363 (6.6%)	5 485
	Administrative and supporting	1 329 (24.2%)	1 094 (19.9%)	387 (7.1%)	
2013/14	Teaching	914 (16.1%)	1 428 (25.2%)	396 (7.0%)	5 675

Academic year	Staff type	Number of staff employed under			Total number of staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract	
	Administrative and supporting	1 290 (22.7%)	1 254 (22.1%)	393 (6.9%)	
2014/15	Teaching	803 (13.9%)	1 542 (26.7%)	460 (8.0%)	5 765
	Administrative and supporting	1 173 (20.3%)	1 353 (23.5%)	434 (7.5%)	
2015/16	Teaching	757 (12.9%)	1 626 (27.6%)	509 (8.6%)	5 883
	Administrative and supporting	1 118 (19.0%)	1 498 (25.5%)	375 (6.4%)	

The information for the 2016/17 academic year is not yet available as the staff requirement projection is subject to the on-going student recruitment.

- (b) Numbers of staff under Short-term Contract of which the contract duration is less than one year from the 2011/12 to 2015/16 academic years –

Academic year	Staff type	Short-term contract for less than one year
2011/12	Teaching	91
	Administrative and supporting	147
2012/13	Teaching	122
	Administrative and supporting	138
2013/14	Teaching	168
	Administrative and supporting	158
2014/15	Teaching	143
	Administrative and supporting	166
2015/16 (Provisional)	Teaching	126
	Administrative and supporting	135

The information for the 2016/17 academic year is not yet available.

Numbers of staff on fixed-term contract who have been continuously employed for two to six years and numbers of staff employed for more than six years from the 2011/12 to 2015/16 academic years –

Academic year	Number of fixed-term contract staff who have served for		Longest serving fixed-term contract staff	
	Two years to six years	more than six years	Years of service	Number of contract renewal
2011/12	1 125	132	15	8
2012/13	930	156	16	9
2013/14	1 045	453	17	9
2014/15	1 114	508	18	10
2015/16 (Provisional)	1 086	602	19	11

The information for the 2016/17 academic year is not yet available.

- (c) The information for the estimated number of staff under Short-term Contract to be transferred to fixed-term contracts in the 2016/17 academic year is not yet available.

- (d) Numbers of staff employed under the New Remuneration Package who were transferred from fixed-term contracts to open-ended contracts from the 2011/12 to 2014/15 academic years –

Academic year / Calendar Year	Number of staff employed under New Remuneration Package who were transferred from fixed-term contracts to open-ended contracts		
	Teaching	Administrative and supporting	Total
2011/12	122	98	220
2012/13 (Note 1)	0	0	0
2013/14 (Note 2)	104	71	175
2015 (Note 3)	18	21	39

Note:

1. Taking into account the uncertainty in student recruitment and manpower demand, transfer to open-ended contracts was considered and recommended on the merits of individual cases by the various operating units. No recommendation for transfer to open-ended contract was put forward in the 2012/13 academic year.
2. The last batch of the standalone annual transfer exercise was conducted in the 2013/14 academic year, which also covered certain staff with contract due to expire in 2015.
3. As from May 2015, the transfer to open-ended contracts has been subsumed under the administration of further appointment which is conducted on a quarterly basis and a breakdown of number of staff transferred by academic year is not available after the 2013/14 academic year.

The information for 2016 is not yet available.

- End -

CONTROLLING OFFICER'S REPLY**EDB204****(Question Serial No. 1705)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (5) Other Educational Services and Subsidies, (7) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

(a) Using the table below, please provide a breakdown of the total numbers of students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(b) Using the table below, please provide a breakdown of the numbers of cross-boundary students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(c) Using the table below, please provide a breakdown of the numbers of cross-boundary students diagnosed as having special educational needs (SEN) in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(d) Using the table below, please provide a breakdown of the numbers of students who are new arrivals (with less than 7 years' residence in Hong Kong) in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(e) Using the table below, please provide a breakdown of the numbers of students from ethnic minorities in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(f) Using the table below, please provide a breakdown of the numbers of disabled students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2011/12 to 2015/16 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(g) In the past 5 school years (2011/12 to 2015/16), how did the Administration assist the student groups mentioned in item (b) to item (f)? What were the related policies? What new plans will be coming? How much public funding is involved?

Asked by: Hon IP Kin-yuen (Member Question No. 27)

Reply:

- (a) The total number of students in kindergartens, primary and secondary schools by district and by sector from the 2011/12 to 2015/16 school years are detailed at Appendix 1.
- (b) The number of cross-boundary students attending kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and by sector from the 2011/12 to 2015/16 school years is provided in Appendices 2(a), 2(b) and 2(c) respectively.
- (c) The Education Bureau (EDB) does not collect statistics on the cross-boundary students with special educational needs (SEN).

- (d) The number of newly admitted pupils from the Mainland in primary and secondary schools by district and by sector from the 2011/12 to 2015/16 school years are tabulated at Appendix 3. Please note that EDB does not collect information on the newly admitted pupils from the Mainland in kindergartens.
- (e) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students in kindergartens, public sector and Direct Subsidy Scheme primary and secondary schools by district from the 2011/12 to 2015/16 school years are tabulated at Appendix 4.
- (f) Support services for children with SEN at pre-primary levels are provided by the Social Welfare Department. EDB does not maintain data on students with SEN at kindergarten levels. The total number of students with SEN studying in public sector primary and secondary schools, English Schools Foundation (ESF) schools, other private international schools, and private independent schools (PIS) from the 2011/12 to 2015/16 school years are set out at Appendix 5.
- (g) *Newly-Arrived Children and Cross-boundary Students (CBS)*
EDB provides newly-arrived children with the choice of attending the six-month full-time “Initiation Programme” operated by local schools, or the “Induction Programme” run by non-governmental organisations alongside the various school-based programmes organised by their respective schools. We also provide schools with the “School-based Support Scheme Grant”. These Programmes/Grant primarily aim at helping them integrate into the local community and overcome their learning difficulties. Expenditure for the Initiation Programme, the Induction Programme and the School-based Support Scheme Grant for newly-arrived children from the 2011/12 to 2015/16 school years is tabulated at Appendix 6. By virtue of their right of abode in Hong Kong, CBS enjoy the same education services as our local students. If CBS are newly-arrived children, they also enjoy the education services mentioned above.

Non-Chinese Speaking Students

The EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools, provision of the Applied Learning Chinese (for NCS students) courses and the creation of an inclusive learning environment in schools. The support measures for NCS students from the 2011/12 to 2015/16 school years and the expenditure are tabulated at Appendix 7. Besides, EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

Students with SEN

To support schools in catering for students with SEN, EDB has been providing public sector primary and secondary schools with additional resources on top of the regular subvention for all mainstream schools, professional support as well as teacher training. Starting from the 2016/17 school year, the School-based Educational Psychology Service will cover all public sector primary and secondary schools and it will be further enhanced by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with SEN. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN. The estimated expenditure on additional support and services for students with SEN in mainstream schools in the 2016/17 school year is about \$1,369 million.

Recurrent subvention has been provided to students with SEN in ESF’s mainstream schools and special schools. In the 2015/16 school year, the recurrent subvention for this purpose amounts to \$28.3 million.

Number of Students in Kindergartens by District and by Type of Kindergartens from the 2011/12 to 2015/16 School Years

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.

(3) All kindergartens (including kindergarten-cum-child care centres) are private schools. In the surveys, we did not collect information on the type of kindergartens the students were attending. Hence, the information as requested is not available.

Note: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.

- Notes : (1) Figures refer to the position as at September of the respective school years.
- (2) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as NCS students.
- (3) Figures cover students studying in ordinary public sector and DSS secondary day schools, but not special schools. We do not have readily available information about the number of NCS students in private, ESF and other international schools.

Number of Students with Special Educational Needs (SEN) in Public Sector Mainstream Schools from the 2011/12 to 2015/16 School Years

	School Year				
School Level	2011/12	2012/13	2013/14	2014/15	2015/16
Primary	15 940	16 810	17 390	18 200	19 830
Secondary	12 690	14 580	16 440	17 990	19 640
Total	28 630	31 390	33 830	36 190	39 470

Notes: (1) We do not provide the number of students with SEN by district as the provision of support services for students with SEN does not have relationship with the district in which they live or study.

(2) SEN-related resources are subsumed under the DSS unit subsidy and we do not separately collect the number of students with SEN in DSS schools.

Number of Students with Special Educational Needs (SEN) in English Schools Foundation (ESF) schools, other private international schools, and private independent schools (PIS) from the 2011/12 to 2015/16 School Years

School Year	ESF		PIS		International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2011/12	143	202	175	208	128	86	446	496

CONTROLLING OFFICER'S REPLY

EDB205

(Question Serial No. 1706)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please set out the details and expenditure of the Education Bureau's work plans for promoting the Basic Law education at primary and secondary schools in the past 5 years (2011/12 to 2015/16 school years) and for the coming year.
2. What is the progress of the development of learning and teaching resource packages and the assessment bank? What is the expenditure involved? Has the Administration evaluated the effectiveness of such work? If yes, what are the details?

Asked by: Hon IP Kin-yuen (Member Question No. 28)

Reply:

- (1) Pursuant to the 2010-11 Policy Address, Education Bureau (EDB) started developing learning packages to enhance students' understanding of the Basic Law from November 2010. The Chinese and English versions of the learning packages for junior secondary and senior primary students, developed during the 2011-12, have been distributed to schools in stages from January 2012 to January 2013. During the same period, web-based resources supporting the learning of the Basic Law were also made available for school use. To keep pace with the development of e-learning, an e-book version of the learning packages for junior secondary has also been developed in February 2014. A Pack on "Effective Use of 'Let's Learn the Basic Law' Learning Package", which is a collection of schools' good practices, was developed and distributed to all primary schools in 2015. EDB developed the "Basic Law Audio-visual Learning and Teaching Package" for junior secondary students in April 2015 and we are currently developing the "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" for senior primary students to deepen their knowledge of the Basic Law. Apart from the above, EDB organised a Basic Law Inter-school Competition in May 2015, and will organise the 2nd Basic Law Inter-school Competition in July 2016 to arouse students' interest in studying the Basic Law.

To facilitate teachers in their assessment of students' understanding of the Basic Law, 2 databases of questions for assessment in schools have been provided for primary and secondary school teachers respectively by June 2012. Students can assess their own understanding of the Basic Law online through responding to questions or engaging in online games available from December 2012.

To enhance teachers' understanding of the concepts and essence of the Basic Law as well as strategies for using the learning packages and web-based resources in their school-based learning and teaching practices, EDB has organised, from time to time, professional development programmes during the past 5 years.

Expenditure for the related curriculum work and support measures, which includes research and development, provision of learning activities for students and professional programmes for school heads

and teachers, etc. is absorbed by the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. Other than expenditure on developing learning and teaching resources, there is no separate breakdown for individual items. The expenditure of EDB for developing learning and teaching resources on Basic Law education from 2011-12 to 2016-17 is as follows:

2011-12 [@]	2012-13 [@]	2013-14 [@]	2014-15 ^{@#}	2015-16 ^{@*}	2016-17 ^{@++}
\$16 million	\$0.8 million	\$0.65 million	\$2.07 million	\$3.65 million	\$1.84 million

[@] Manpower resources in the provision are absorbed by the recurrent expenditure of EDB

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

- (2) EDB conducted trial teaching of the revamped and updated e-book version of the junior secondary learning package and reprint its teacher version with minor amendments in 2015. Meanwhile, EDB developed a "Basic Law Audio-visual Learning and Teaching Package" for junior secondary students in April 2015 and we are currently developing a "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" to deepen students' understanding of the Basic Law in junior secondary and senior primary levels. The estimated expenditure for developing learning and teaching resources for Basic Law education for secondary schools and primary schools in 2016-17 is \$0.98 million and \$0.86 million respectively. EDB will also continue to enrich and update the assessment bank. On an on-going basis, EDB will collect feedback on the effectiveness of its work through various channels to further enrich and refine the above resource materials.

- End -

CONTROLLING OFFICER'S REPLY**EDB206****(Question Serial No. 1707)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) Using the table below, please provide information on cross-boundary projects or programmes in which the Education Bureau of Hong Kong collaborated with Mainland department(s) or is/has been involved as well as the manpower and expenditure involved in the past 5 years (from the 2011/12 to 2015/16 school years) and the coming year (2016/17):

Project/ Programme	Details and objective	Mainland department/ organisation involved	Progress	Has the project/ programme been released to the public?	Other HKSAR government departments and/or commissioned services involved and/or name of the organisation sponsored	Details of the legislation and policies involved in the project/ programme	Manpower and expenditure involved

(b) please set out the numbers, details, objectives and expenditures of the meetings between the Education Bureau and the Liaison Office of the Central People's Government in the Hong Kong Special Administrative Region/Mainland officials in the past 5 years (2011/12 to 2015/16);

(c) please set out the numbers, details, objectives, numbers of participants and expenditures of the duty visits and study trips made by Education Bureau officials to the Mainland in the past 5 years (2011/12 to 2015/16); and

(d) please set out the numbers, details, objectives, numbers of participants and expenditures of the overseas duty visits and study trips (except those to the Mainland) made by Education Bureau officials in the past 5 years (2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 29)

Reply:

Part (a)

By cross-boundary projects or programmes which the Education Bureau (EDB) collaborated with Mainland department(s), we refer to those projects/programmes with direct involvement of both EDB and Mainland department(s). The manpower and expenditure involved in these projects in the past five years (2011-12 to 2015-16) and the coming year (2016-17) are at Annex A and Annex B respectively.

Part (b)

The required information on the meetings of EDB with the Liaison Office of the Central People's Government in the Hong Kong SAR (CPGLO) and other mainland officials is provided in the table below:

Financial Year	No. of Meetings with CPGLO	No. of Meetings with Mainland officials
2011-12	1	33
2012-13	1	30
2013-14	2	29
2014-15	2	33
2015-16	3	23

The Government of the Hong Kong Special Administrative Region (HKSAR) maintains necessary working relationship with the mainland government authorities and the offices set up by the Central People's Government in the HKSAR, with a view to ensuring mutual understanding and effective exchanges. The meetings are mainly for experience sharing and discussion of cooperation plans. We do not keep a separate account to capture expenditure on meetings with them.

Parts (c) and (d)

The details and expenditure on duty visits outside Hong Kong incurred by EDB officials are as below:

Financial Year	Mainland			Overseas		
	No. of Visits	No. of Officials	Expenditure (\$'000)	No. of Visits	No. of Officials	Expenditure (\$'000)
2011-12	77	208	1,452	34	89	3,256
2012-13	80	267	1,509	34	82	3,402
2013-14	61	198	1,350	37	108	3,759
2014-15	91	216	941	40	111	3,157
2015-16	116	307	1,542	32	91	1,893

The major objectives of the duty visits to the Mainland or overseas were to promote the education initiatives of Hong Kong, share experience on education reforms, explore co-operation on other educational fronts and attend international conferences on education issues.

- (c) the details of and the expenditure incurred by the Education Bureau (EDB) on the development of the Support Network (Education services for NCS students);
- (d) the number of NCS students pursuing the remedial programmes offered by the Chinese Language Learning Support Centres and the number of such centres in various districts;
- (e) the numbers of students and schools participating in the Project of After-school Extended Chinese Learning and the total provision involved;
- (f) the number of schools joining the Language Support Services, the number of NCS students benefited from such services and the expenditure involved;
- (g) the number of schools joining the School-based Curriculum Development Support Services for primary schools, the number of NCS students benefited from such services and the expenditure involved;
- (h) the number of students participating in the Induction programme, Initiation programme and 4-week Summer bridging programme, the number of schools offering such programmes and the total provision involved;
- (i) details of the Pilot Scheme on Workplace Chinese Language, and the annual number of NCS students participating in the scheme as well as the total provision involved since its introduction in July 2012;
- (j) the implementation details of activities co-organised by the EDB and non-governmental organisations and targeted at NCS students, as well as the numbers of participants and participating organisations of such activities;
- (k) the number of NCS students sitting for the Chinese examinations under the General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE) and General Certificate of Education (GCE) and the number of students who were granted full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme; and
- (l) the expenditure and staff establishment involved in implementing the Chinese Language Curriculum Second Language Learning Framework designed for NCS students, and the numbers of primary and secondary teachers, ethnic minority teachers and teaching assistants who received the relevant training.

Asked by: Hon IP Kin-yuen (Member Question No. 30)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) ethnic minority students by ethnicity as asked in the question studying at different grade levels in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools, and special schools from the 2011/12 to 2015/16 school years is tabulated at Annex A, Annex B and Annex C respectively. The number of ethnic minority students studying at different grade levels in kindergartens from the 2011/12 to 2015/16 school years is tabulated at Annex D.
- (b) The number of schools with NCS students ranging from “less than 10”, “10 to 30”, “31 to 50” and “51 or above” in kindergartens, public sector and DSS primary and secondary schools, and special schools from the 2011/12 to 2015/16 school years is tabulated at Annex E.
- (c) From the 2006/07 to 2012/13 school years, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experiences with other schools were provided with additional funding and professional support services to develop school-based support programmes specifically arranged for NCS students to further help their NCS students in learning and integration.

The funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or above NCS students are provided with additional recurrent funding to enhance the support for learning of Chinese Language of NCS students. Starting from the 2014/15 school year, the funding support has been enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and creation of an inclusive learning environment in schools. Through the sharing of these schools with other schools admitting NCS students via the school support network that EDB has formed, all NCS students will benefit. The development of the support network is undertaken by different sections of EDB and deployment of staff may be adjusted having regard to the needs and circumstances. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

- (d) The number of NCS students participating in the after-school support programmes offered by the Chinese Language Learning Support Centres and number of venues from the 2011/12 to 2015/16 school years are tabulated below:

School year	No. of participating NCS students	No. of venues
2011/12	588	15
2012/13	503	16
2013/14	523	19
2014/15	970	24
2015/16 (Note)	974	22

Note: Figures as at January 2016.

- (e) The time-limited Project of After-school Extended Chinese Learning for NCS Students funded by the Language Fund has started since the 2010/11 school year. Starting from the 2014/15 school year, the provision has been regularised and subsumed under the additional recurrent funding for schools admitting NCS students. The number of participating schools and NCS students from the 2011/12 to 2013/14 school years is tabulated below:

School year	No. of participating schools	No. of participating NCS students	Expenditure (\$ million)
2011/12	90	4 000	12
2012/13	92	4 300	13
2013/14	134	8 200	21

- (f) The number of schools admitting NCS students provided with the Language Learning Support Services from the 2011/12 to 2015/16 school years is as follows:

School year	No. of participating schools	No. of participating NCS students
2011/12	18	4 200
2012/13	21	5 100
2013/14	25	6 200
2014/15 (Note)	17	1 400
2015/16 (Note)	26	2 240

Note:

From the 2014/15 school year, EDB has enhanced the school-based professional support services for schools admitting NCS students through diversified modes. In addition to the professional support services provided under Language Learning Support Services, schools admitting NCS students are also supported through the Professional Development Schools Scheme, the University-School Support Programmes, School Support Partners (Seconded Teacher) Scheme, etc. funded by the Education

Development Fund. In the 2014/15 and 2015/16 school years, a total of 79 and 97 schools admitting NCS students are receiving the professional support services respectively, benefitting about 9 410 and 8 150 NCS students in the respective school years. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure is not available.

- (g) One of the objectives of the school-based curriculum development support services is to support schools to address learner diversity from the curriculum perspective. The services are school-based and contextualised in the needs of schools to benefit all students including but not limited to NCS students in the participating schools. From the 2011/12 to 2015/16 school years, about 160 primary schools received school-based support services each year. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure is not available.
- (h) The number of schools / non-governmental organisations (NGOs) participating in the full-time Initiation Programme, Induction Programme and Summer Bridging Programme for NCS students, the number of participating NCS students and the expenditure from the 2011/12 to 2015/16 school years are tabulated below:

Initiation Programme

School year	No. of participating schools	No. of participating NCS students	Expenditure (\$ million)
2011/12	3	185	4.53
2012/13	3	159	5.06
2013/14	3	124	5.34
2014/15	3	159	5.73
2015/16 (estimated)	3	155	6.00

Induction Programme

School year	No. of participating NGOs	No. of participating NCS students	Expenditure (\$)
2011/12	1	10	17,700
2012/13	1	17	18,600
2013/14	0	0	0
2014/15	0	0	0
2015/16 (estimated)	1	10	21,000

Summer Bridging Programme

School year	No. of participating schools	No. of participating NCS students	Expenditure (\$ million)
2011/12	25	1 300	1.4
2012/13	31	1 700	2.0
2013/14 (Note)	38	1 730	2.5
2014/15 (Note)	40	1 750	2.8
2015/16 (Note)	33	1 650	2.6

Note:

Starting from 2013, the Summer Bridging Programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children. About 250, 360 and 240 NCS parents participated in 2013, 2014 and 2015 respectively.

- (i) The Pilot Scheme on Workplace Chinese Language Programme for NCS Students was implemented from the 2011/12 to 2014/15 school years, prior to the implementation of the Applied Learning Chinese (for NCS students) courses starting from the 2014/15 school year, with a view to enhancing NCS students' competitiveness in the workplace. 12 courses pegged with Qualifications Framework Levels 1 to 3 were provided by phases. In the 2011/12, 2012/13, 2013/14 and 2014/15 school years, about 60, 100, 60 and 70 NCS students participated in the programmes respectively. The total expenditure for this project was about \$0.95 million from the 2011/12 to 2014/15 school years.
- (j) Since the 2012/13 school year, in collaboration with NGOs, district-based programmes have been organised for NCS students aged 3 to 9 in localities with a greater concentration of NCS children with a view to motivating them to learn Chinese through fun activities such as games and creative arts, etc.. A total of about 2 100 NCS students have joined the programmes organised by 4 NGOs.
- (k) Eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education. Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level. Besides, starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy NCS students sitting for the GCSE (Chinese) examinations can apply for full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards. The number of NCS students subsidised and granted full or half fee remission of the subsidised examination fee under the EFRS from the 2011/12 to 2015/16 school years are tabulated below:

School year	No. of NCS students subsidised	No. of NCS students granted full fee remission	No. of NCS students granted half fee remission
2011/12	536	60	41
2012/13	1 119	125	88
2013/14	1 222	128	95
2014/15	1 471	143	121
2015/16	1 536	Not yet available	Not yet available

- (l) EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up education support for NCS students in learning the Chinese Language through, among others, facilitating schools' implementation of the "Learning Framework". Related measures are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme projects for primary and secondary schools funded under the Education Development Fund. A total of 55 seminars and workshops have been arranged since June 2014 to enable every primary and secondary school admitting NCS students to have the professional development opportunities for their teachers to understand the "Learning Framework" as well as to use the assessment tools and planning tools effectively. In addition, to enhance pedagogical effectiveness in supporting NCS students' learning of the Chinese language, how to teach Chinese from a second language learners' perspective has been embedded in different professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown. The manpower resources and expenses for providing the training programmes are mainly subsumed under the overall expenditure of EDB.

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for kindergartens cover students studying in kindergarten-cum-child care centres.
4. The data include NCS students in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum.
5. Hospital school is not included in special schools due to the transitional nature of the education service provided.

- End -

CONTROLLING OFFICER'S REPLY**EDB208****(Question Serial No. 1709)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

On the attendance at public examinations and other territory-wide examinations by students with special educational needs (SEN), please provide the information of the past 5 years (2011/12 to 2015/16 school years):

(a) among the students with SEN who attended the Hong Kong Certificate of Education Examination (HKCEE), Hong Kong Advanced Level Examination (HKALE) and Hong Kong Diploma of Secondary Education (HKDSE) Examination, the number of students applying for special examination arrangements by category of SEN and category of special arrangements;

(b) the number of dropped out Secondary 4 and Secondary 5 students with SEN and the number of students with SEN who have studied Secondary 6 but eventually did not enrol in the HKDSE or have enrolled in the HKDSE but were absent at the examination, by category of SEN and category of special arrangements;

(c) the Hong Kong Examinations and Assessment Authority's expenditure on making special examination arrangements for candidates of public examinations;

(d) the details of the current special examinations arrangements made by mainstream schools for students with SEN to attend the Pre-Secondary One Hong Kong Attainment Test and Territory-wide System Assessment, as well as the Education Bureau's expenditure on making this kind of special examination arrangements in the past 5 years.

Asked by: Hon IP Kin-yuen (Member Question No. 31)

Reply:

- (a) The number of students with SEN applying for special examination arrangements in the HKALE and HKDSE Examination in the past five years from the 2011/12 to 2015/16 school years, listed by categories of SEN and special examination arrangements is at **Appendix**. As HKCEE has been ceased since 2011/12 school year, relevant figure is not available.
- (b) For the 2011/12 to 2014/15 school years, about 230, 330, 400 and 410 students with SEN were reported to have left school after completing Secondary 4 (S4) or Secondary 5 (S5) respectively. According to the information reported by schools, the main reasons for these students leaving the schools include attending full-time or part-time courses run by the Vocational Training Council, joining the Apprenticeship schemes or pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc. With the implementation of the new senior secondary

curriculum and the diversified articulation to different pathways for lifelong learning, all students, including those with different types of SEN, will consider a variety of factors such as one's own academic/ vocational/ career/ life aspirations, interests, aptitude and educational needs to make an informed choice of their exit pathway. Providing a breakdown of S4 and S5 students who left school by their SEN types is not meaningful and can be misleading.

We do not have the information on the number of Secondary 6 students with SEN who did not enroll in the HKDSE Examination. The number of SEN absentees, listed by categories of SEN, is only available since the 2015 HKDSE and is set out as follows -

Year of Examination	Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2015	HKDSE	0	0	0	1	0	2	3

- (c) The expenditure incurred by the Hong Kong Examinations and Assessment Authority (HKEAA) on the provision of special examination arrangements for HKALE and HKDSE Examination in the past five years is as follows -

School Year	Expenditure (\$ million)
2011/12	4.5
2012/13	3.4
2013/14	7.2
2014/15	10.7
2015/16	12.4*

Note: HKEAA's financial year runs from 1 September to 31 August.

* Figure projected based on the resources required in handling the increase in number of candidates with SEN and the complexity for special examination arrangements, and with reference to September 2015 to January 2016 actual expenditure.

- (d) For the Pre-Secondary One Hong Kong Attainment Test, the Education Bureau (EDB) has been facilitating primary schools to indicate the needs of their students with special educational needs as well as their recommendations of the support to be required in a prescribed form for Primary 6 parents/students to be delivered to the secondary schools to which each student is allocated a school place so that the secondary schools will provide the special arrangements accordingly. The special arrangements required mainly include extending the time of the test, exemption of the listening test and special seating arrangements. Secondary schools may request EDB's assistance, if necessary, such as provision of enlarged question and answer booklets. EDB incurred a total cost of about \$370,000 for this purpose in the past five years from the 2011/12 to 2015/16 school years.

For Territory-wide System Assessment (TSA), schools may select special arrangements for SEN students according to their needs. The special arrangements for Oral, Chinese audio-visual (CAV) and Written assessments are as follows -

(i) Oral and CAV assessments

CAV assessments for primary schools and Oral assessments are conducted on a sampling basis. Under normal circumstances, SEN students would not be included in the Student Sample List. However, depending on individual needs, schools may request in writing to put any SEN students in the pool for random selection. In that case, no special arrangements will be provided to those students concerned.

(ii) Written assessments

Schools may make reference to their own special arrangements for SEN students in recent internal

examinations and adopt them in the TSA where appropriate. In addition, the Hong Kong Examinations and Assessment Authority would provide some major adjustment arrangements such as allowing students to take assessments separately, extending assessment duration, providing auxiliary facilities and equipment (e.g. typewriter or magnifier for students with Visual Impairment), Braille scripts, enlarged scripts, single-paged printing of question papers, coloured question papers (e.g. ivory, green) as well as A3 question-answer booklets, allowing students to use screen readers and other answering methods (e.g. typing the answers through the use of computers) and other ways to present the questions such as reading aloud the questions for students with Severe Reading Difficulties sitting for Listening and Writing papers.

The expenditure on the provision of special examination arrangements for the TSA in the past five years is as follows –

School Year	Expenditure (\$ million)
2011/12	0.13
2012/13	0.21
2013/14	0.12
2014/15	0.13
2015/16	0.15*

Note: HKEAA's financial year runs from 1 September to 31 August.

CONTROLLING OFFICER'S REPLY**EDB209****(Question Serial No. 1710)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of self-financing post-secondary institutions admitting students with special educational needs (SEN), students with disabilities and non-Chinese speaking students, please provide information for the past 5 years (i.e. 2011/12 to 2015/16 academic years) on:

- (a) The numbers of intake of students with SEN and intake of students with disabilities in these institutions, as well as the expenditure arising from the support for those students, please give a breakdown by institution and by type of students;
- (b) Of the student hostels in these institutions, how many have been provided with barrier-free facilities (in terms of hostel places)? What were the expenditure involved in constructing the barrier-free facilities for each institution in the past 5 years; and
- (c) The numbers of local non-Chinese speaking students admitted to these institutions, please give a breakdown by institution and by Chinese qualifications of the students.

Asked by: Hon IP Kin-yuen (Member Question No. 32)

Reply:

- (a) According to the information provided by institutions, the number of students with special educational needs (SEN) pursuing full-time locally-accredited sub-degree and undergraduate programmes from the 2011/12 to 2015/16 academic years by type are at **Annex A**. We do not provide the data in respect of individual institutions since quite a number of institutions of varying scales and with different facilities are involved and some of them are concerned about the publication and use of such data. We do not have information on the expenditure arising from the support of SEN students by institution.
- (b) There are two self-financing post-secondary institutions providing student hostels, both of them have provided barrier-free facilities. We do not have information on the expenditure involved in constructing barrier-free facilities in hostel by the institutions.
- (c) According to the statistics provided by institutions, the number of enrolment of non-Chinese speaking students pursuing full-time locally-accredited sub-degree and undergraduate programmes from the 2011/12 to 2015/16 academic years by institution are set out at **Annex B**. We do not have statistics confining to local non-Chinese speaking students or by Chinese qualifications of the students.

**Number of Students with SEN ^(Note 1) Pursuing Full-time Locally-accredited Self-financing
Sub-degree and Undergraduate Programmes by Type
from the 2011/12 to 2015/16 Academic Years**

Type of SEN	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16
Specific Learning Difficulties	17	28	41	61	82
Intellectual Disability	0	0	0	0	0
Autism Spectrum Disorders	7	13	14	21	26
Attention Deficit / Hyperactivity Disorder	7	9	17	34	64
Physical Disability	45	35	38	62	49
Visual Impairment	33	47	43	41	45
Hearing Impairment	45	45	57	79	64
Speech and Language Impairment	5	5	8	12	16
Others ^(Note 2)	62	70	52	102	98
Total	221	252	270	412	444

Notes:

1. The number of students with SEN is based on information as declared by individual students.
2. Including multiple types of disabilities. Data presented may not reflect the reality with the difference in the classification of SEN types across institutions.

CONTROLLING OFFICER'S REPLY**EDB210****(Question Serial No. 1711)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown by member institution and by type of students the numbers of students with special educational needs, students with disabilities and local non-Chinese speaking students admitted to the member institutions of Vocational Training Council in the past 5 years (i.e. 2011/12 to 2015/16 academic years), as well as the details of the support measures for these students and the expenditure incurred.

Asked by: Hon IP Kin-yuen (Member Question No. 33)

Reply:

The number of students with special educational needs (SEN) (including students with disabilities) and local non-Chinese speaking (NCS) students from the 2011/12 to 2015/16 academic years (AY) studying in the member institutions of the Vocational Training Council (VTC) is set out below –

Type of Student / Institution	2011/12 AY	2012/13 AY	2013/14 AY	2014/15 AY	2015/16 AY (provisional)
Number of Students with SEN ^(Note 1)	402	577	657	955	1 087
<i>Technological and Higher Education Institute of Hong Kong</i>	<i>N/A</i> ^(Note 3)	<i>0</i>	<i>0</i>	<i>3</i>	<i>5</i>
<i>School for Higher and Professional Education</i>	<i>13</i>	<i>17</i>	<i>11</i>	<i>17</i>	<i>9</i>
<i>Hong Kong Institute of Vocational Education / Hong Kong Design Institute</i>	<i>249</i>	<i>244</i>	<i>268</i>	<i>421</i>	<i>487</i>
<i>Youth College</i>	<i>121</i>	<i>304</i>	<i>352</i>	<i>478</i>	<i>561</i>
<i>Hotel and Tourism Institute / Chinese Culinary Institute / International Culinary Institute</i>	<i>19</i>	<i>12</i>	<i>26</i>	<i>36</i>	<i>25</i>
Number of NCS Students ^(Notes 1 & 2)	698	757	1 018	1 145	970
<i>Technological and Higher Education Institute of Hong Kong</i>	<i>N/A</i> ^(Note 3)	<i>0</i>	<i>7</i>	<i>13</i>	<i>20</i>
<i>Hong Kong Institute of Vocational Education / Hong Kong Design Institute</i>	<i>306</i>	<i>293</i>	<i>544</i>	<i>700</i>	<i>630</i>
<i>Youth College</i>	<i>125</i>	<i>146</i>	<i>168</i>	<i>180</i>	<i>150</i>
<i>Hotel and Tourism Institute / Chinese Culinary Institute / International Culinary Institute</i>	<i>267</i>	<i>318</i>	<i>299</i>	<i>252</i>	<i>170</i>

Note:

1. The number of students includes students in publicly-funded and self-financing programmes offered by VTC.

2. In the 2011/12 and 2012/13 AYs, the number of local NCS students refers to those studying in dedicated programmes only because VTC did not keep separate figures for NCS students studying in other programmes not dedicated to NCS students. Starting from the 2013/14 AY, figures of NCS students studying in other non-dedicated programmes are also included.
3. The Technological and Higher Education Institute of Hong Kong was established in the 2012/13 AY.

N/A: Figures not available.

Since 2013-14, an additional recurrent funding of \$12 million has been allocated to VTC each year to enhance services for students with SEN. These services include provision of equipment and technical learning aids, special in-class arrangements, consultation and assessment services by clinical psychologist, assessment and support services by educational psychologist, enhanced support for teaching and learning, and career advisory services.

NCS students of VTC's pre-employment programmes enjoy various support services to help them better cope with study and adapt to campus life. These services include academic and learning support, such as student orientations, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme and various student activities for promoting a culture of inclusion and integration with the community as well as advisory support for articulation and career development. Separate breakdown of resources deployed to support services for NCS students is not available.

Furthermore, Youth College (Yeo Chei Man) was set up under VTC in the 2012/13 AY to provide diversified study opportunities for students, as well as dedicated support for NCS students and students with SEN. In 2016-17, the Government has earmarked about \$25.9 million of subvention for the operation of Youth College (Yeo Chei Man), covering staff salaries, administrative costs and other operating expenses.

CONTROLLING OFFICER'S REPLY**EDB211****(Question Serial No. 1712)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please list the class-to-teacher ratio of the member institutions of the Vocational Training Council (VTC) in the past 5 years (2011/12 to 2015/16 academic years) by institution and programme level. What measures are available to improve the class-to-teacher ratio of the member institutions?
- (b) Has the VTC taken any measures to deal with the decline in secondary student population? Will the job stability of the teaching staff working in the VTC be affected by these measures?

Asked by: Hon IP Kin-yuen (Member Question No. 34)

Reply:

- (a) The member institutions under the Vocational Training Council (VTC) share resources in many aspects, and depending on the operational needs, teaching staff may be deployed to different operation units to best utilise their expertise. The overall student-to-teacher ratios of VTC's member institutions (including the Hong Kong Institute of Vocational Education, Hong Kong Design Institute, Youth College, Hotel and Tourism Institute, Chinese Culinary Institute, International Culinary Institute, Maritime Services Training Institute and Pro-Act Training and Development Centres) for the 2011/12 to 2015/16 academic years are as follows –

Academic Year	Student-to-Teacher Ratio
2011/12	20.2:1
2012/13	19.9:1
2013/14	19.3:1
2014/15	19.3:1
2015/16	19.3:1

VTC will continue to ensure optimal deployment of resources to provide quality vocational and professional education and training.

- (b) VTC regularly reviews its programme provisions and services, taking into account changing manpower demands of industries, Government policy directions and evolving developments of disciplines. New initiatives are launched from time to time to cater for emerging needs. More recent examples include the Pilot Training and Support Scheme, use of new technology for enhanced learning and development of online courses. These new initiatives and other curriculum enhancements will provide opportunity for deployment of existing staff with expertise matching the requirements of the initiatives concerned.

Question:

Please provide the data from 2011-12 to 2015-16 on the following items:

- (a) Total expenditure and total recurrent expenditure on education, as well as their percentage shares in the Government's total public expenditure and total recurrent expenditure respectively;
- (b) Please provide a breakdown of the total expenditure on education by recurrent expenditure, non-recurrent and capital account expenditure under General Revenue Account (GRA) as well as capital expenditure under Capital Works Reserve Fund (CWRP) and Loan Fund (LF); and
- (c) Please list the following information on pre-primary education, primary education, secondary education, teacher training, adult education, higher education, technical education, vocational education and departmental support:
 - (i) The recurrent and non-recurrent expenditures under GRA, their respective percentage shares in GRA as well as in recurrent and non-recurrent expenditures on education;
 - (ii) The total expenditure (including GRA, CWRP and LF) of the above education areas and its share in the total expenditure on education;
 - (iii) The expenditure on education (including recurrent expenditure, non-recurrent and capital account expenditure under GRA only) for each of the above education areas and their respective percentage shares in the Gross Domestic Product (GDP);
 - (iv) The total expenditure on education (including GRA, CWRP and LF) of the above education areas and its percentage share in the GDP; and
 - (v) The provisions for each of the education areas and their percentage changes in the past 5 years (i.e. 2011-12 to 2015-16).

Asked by: Hon IP Kin-yuen (Member Question No. 35)

For adult education, starting from the 2005/06 school year, subsidies are provided to students through the Financial Assistance Scheme for Designated Evening Adult Education Courses under Head 173 Working Family and Student Financial Assistance Agency. With effect from the 2011/12 school year, the scheme has been running on a recurrent basis and the expenditure is reflected under recurrent expenditure of secondary education.

Notes

1. Expenditure on vocational and professional education covers provision to the Vocational Training Council and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.
2. Expenditure on post-secondary education covers provision for degree or above and sub-degree education (excluding vocational and professional education) and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

The increase in expenditure in 2012-13 is mainly due to one-off injections into various funds totaling \$7 billion in-year, viz the Research Endowment Fund (\$5 billion), the HKSAR Government Scholarship Fund (\$1 billion) and the Self-financing Post-secondary Education Fund (\$1 billion). These injections were completed in 2012-13 and hence the decrease in expenditure in 2013-14.

3. Others include expenditure on Project Yi Jin / Diploma Yi Jin / below sub-degree programmes (excluding vocational and professional education), home-school co-operation activities, school uniformed group activities, bureau support, etc. and other non-recurrent expenditure. The increase in expenditure in 2013-14 is mainly due to one-off injection into the Language Fund (\$5 billion). The injection was completed in 2013-14 and hence the decrease in expenditure in 2014-15. The increase in expenditure in 2015-16 is mainly due to one-off injection into the Qualifications Framework Fund (\$1 billion).
4. The sums of figures may not add up to total due to rounding.
5. Teacher training includes the Training and Development Grant provided to schools, costs of in-service and pre-service teacher training courses, refunds of course fees to teachers and teacher education programmes provided by University Grant Committee-funded institutions. The related expenditure has been subsumed in the respective education level.
6. GDP is calendar-year-based and may be subject to further revision by the Census & Statistics Department.

There is no direct government funding to the training providers of the Project Yi Jin / Diploma Yi Jin programme and adult education. Students taking courses under Project Yi Jin / Diploma Yi Jin programme or the Financial Assistance Scheme for Designated Evening Adult Education Courses and meeting the eligibility criteria can receive partial or full tuition fee reimbursement under the financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

Notes

1. The financial provision covers government subsidy to non-profit-making kindergartens and kindergarten-cum-child care centres under the Child Care Centre Subsidy Scheme, as well as the Pre-primary Education Voucher Scheme (PEVS). Unit cost is not applicable here as substantial part of the financial provision is provided to parents for paying school fees under the PEVS, and not funding allocated to the kindergartens, etc.
2. The unit cost for government primary and secondary schools includes expenditure chargeable to Head 156 Government Secretariat: Education Bureau and staff on-costs such as pensions, housing benefits, etc.
3. The financial provision for the Vocational Training Council (VTC) covers the vocational education courses offered by the Hong Kong Institute of Vocational Education and the VTC's training and development centres. The unit costs are calculated on an academic year and a full-time-equivalent basis.
4. Subventions to individual institutions under Head 190 University Grants Committee are as follows –

	2011-12 Actual	2012-13 Actual	2013-14 Actual	2014-15 Actual	2015-16 Revised Estimate
	\$ million	\$ million	\$ million	\$ million	\$ million
City University of Hong Kong	1,383	1,577	1,757	1,939	2,208
Hong Kong Baptist University	684	814	897	992	1,102
Lingnan University	283	333	363	379	411
The Chinese University of Hong Kong	2,661	3,166	3,551	3,752	4,027
The Hong Kong Institute of Education	551	610	655	701	742
The Hong Kong Polytechnic University	1,902	2,201	2,380	2,536	2,745
The Hong Kong University of Science and Technology	1,475	1,705	1,865	1,989	2,110
The University of Hong Kong	2,695	3,144	3,522	3,695	4,112
Total*	11,634	13,550	14,989	15,983	17,457

**Figures may not add up due to rounding.*

The non-recurrent funding under the Matching Grant Scheme is not included. The unit cost figures are calculated on an academic year and a full-time-equivalent basis.

The lower unit costs in 2012/13 academic year are mainly due to increase in student numbers under the new four-year curriculum, partly offset by price adjustments in 2012/13.

- End -

CONTROLLING OFFICER'S REPLY

EDB214

(Question Serial No. 2361)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education, (4) Special Education, (5) Other Educational Services and Subsidies, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by categories of special schools and District Council districts, the number of special school students who were able to pursue further studies (in post-secondary institutions, vocational training schools and so on) after completing secondary education in the past 5 school years (from the 2011/12 to the 2015/16 school years) and by types of the institutions where they pursued further their studies; and
2. What were the policies in support of special school students to pursue further studies in the past 5 school years (from the 2011/12 to the 2015/16 school years)? Which new policies will be introduced in the future? What is the amount of public expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 38)

Reply:

(1) and (2)

As a general practice, special schools will help their students plan and apply for post-school placement having regard to their interest, capabilities and service needs. The number of students in different types of special schools who have completed secondary education and pursued further studies or vocational training, with breakdown by type of institutions (according to the information provided by the special schools), from the 2011/12 to 2014/15 school years is at the Appendix. Information for the 2015/16 school year is not available at this stage. Apart from pursuing further studies, special school leavers may also receive vocational rehabilitation service, day-time training service, day care service, etc. As post-school placement for special school students does not have any relationship with the districts where the students study, providing the figures by district is not meaningful.

The Education Bureau (EDB) has been providing resources and support for special schools to help students develop their potential and prepare for further studies or post school training/services. The relative smaller class size of special schools (ranges from 8 to 15 per class in different types of special schools) facilitates more individualized support to cater for students' diversity. Besides, additional resource teachers and specialists including speech therapist, physiotherapist, occupational therapist, educational psychologist, school nurse, school social worker, etc. are provided for the schools to cater for various needs of the students. With a view to enhancing the quality of learning and teaching in special schools, we have also been enhancing the interface between basic and senior secondary education and strengthening teacher professional development through various projects. A number of measures have also been introduced to further enhance the education services provided by special schools for their students since the 2014/15 school year. They include providing

additional teacher assistants for schools for children with intellectual disability (ID), physical disability, and visual impairment (VI) cum ID as well as the psychiatric classes of hospital school; reducing progressively the class size to 12 students per class for the school for children with VI and schools for social development. EDB will continue to implement the above measures in the coming years. Starting from the 2016/17 school year, special schools operating senior secondary levels will be allowed to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services.

The actual/estimated expenditure on special education from the 2011-12 to 2016-17 financial years is as follows:

Financial Year	2011-12	2012-13	2013-14	2014-15	2015-16 (revised estimate)	2016-17 (estimate)
Expenditure (\$ million)	1,606.2	1,775.3	1,822.5	2,010.8	2,231.0	2,309.5

**Number of students of special schools who have completed secondary education
and pursued further studies or vocational training
from the 2011/12 to 2014/15 school years**

HI: Hearing Impairment

PD: Physical Disability

SSD: Schools for Social Development

VI cum ID: Visual Impairment cum Intellectual Disability

MiID: Mild Intellectual Disability

MoID: Moderate Intellectual Disability

SID: Severe Intellectual Disability

Notes: (1) The above figures are based on information collected from special schools as at September in the following school year. Students waitlisted for vocational training in the respective school years are not included.

(2) The schools for children with MiID and schools for children with MoID include the respective sections of the 7 schools for children with MiID and children with MoID.

(3) Figures for Hospital School are not included in view of the transitional nature of its education programmes. As the school for children with VI only provides education up to secondary three, its school leavers will continue their secondary education in mainstream schools.

CONTROLLING OFFICER'S REPLY**EDB215****(Question Serial No. 2362)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of schools across the territory that had introduced the National Education subject or Moral and National Education subject in the junior secondary level in the past 5 school years (from the 2011/12 to the 2015/16 school years) and their implementation periods, by districts and categories of primary, secondary and special schools;
2. What were the government's expenditures in the past 5 school years (from the 2011/12 to the 2015/16 school years) and what is the estimated expenditure for the 2016/17 school year on promoting National Education?
3. What were the respective numbers of students and teachers of kindergartens, primary and secondary schools and universities to whom the Education Bureau had offered Mainland exchange programmes in the past 5 school years (from the 2011/12 to the 2015/16 school years)? Please provide a breakdown of the number of exchange programmes, number of students and teachers as well as the public funding involved; and
4. In the past 5 school years (from the 2011/12 to the 2015/16 school years) and the 2016/17 school year, what are the staffing provisions of the Education Bureau for National Education? How much public funding is involved?

Asked by: Hon IP Kin-yuen (Member Question No. 39)

Reply:

On 30 April 2012, the Secretary for Education accepted the recommendations by the Curriculum Development Council on the refined Curriculum Guide for the "Moral and National Education" (MNE) subject in primary and secondary schools. In consideration of the views of the public, the MNE curriculum was shelved alongside the abolition of its initiation period in early October 2012. Schools and school sponsoring bodies (SSBs) are given the latitude to decide whether to implement the MNE curriculum and if so, how. In view of the discretion given to SSBs and schools, the Government has not conducted and will not conduct any data collection exercise that aims to specifically gauge the number of schools and SSBs that decide to implement the MNE initiative or the National Education (NE) subject. Therefore, we are not able to provide a specific breakdown of the implementation of the MNE initiative or the NE subject in the past 5 school years (from 2011/12 to 2015/16).

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as

provision of Mainland exchange opportunities to complement students' learning in relevant Key Learning Areas/subjects, etc. As the staffing and expenditure for most of these items is absorbed by the recurrent expenditure of the Education Bureau (EDB), we are not able to provide a separate breakdown of the staffing provisions of EDB for NE for the past 5 school years (from 2011/12 to 2015/16) and the 2016/17 school year.

Expenditure in respect of subsidising Mainland exchange programmes (MEPs) for primary and secondary school teachers and students can be separately identified. Expenditure on MEPs in the past 5 school years (from 2011/12 to 2015/16) and the 2016/17 school year are as follows:

School Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2011/12	52.3	1.9
2012/13	33.0	1.0
2013/14	37.2	1.3
2014/15 [#]	52.7	1.1
2015/16 [*]	70.5	1.5
2016/17 ⁺⁺	101.9	1.3

[@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

The number of post-secondary, secondary and primary school students who were provided with MEPs in the past 5 school years (from 2011/12 to 2015/16) and the expenditure involved are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Expenditure (\$million) [@]		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2011/12	3 200 [◇]	21 800	21 300	9.8	37.9	14.4
2012/13	7 700 [◇]	18 200	10 900	23.2	26.1	6.9
2013/14	5 800 [◇]	22 600	14 400	17.5	29.2	8.0
2014/15 [#]	4 000 [◇]	31 700	18 900	12.0	40.1	12.6
2015/16 [*]	3 900 [◇]	36 700	28 900	11.9	52.8	17.7

[@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the number of kindergartens (including kindergarten-cum-child care centres), primary and secondary schools and the number of operating classes, places, students and vacant places by grade in these schools under different categories of schools, and provide the respective totals of these items, by the 18 school districts for the 2015/16 school year.

Asked by: Hon IP Kin-yuen (Member Question No. 40)

Reply:

The number of kindergartens (including kindergarten sections of kindergarten-cum-child care centres), primary and secondary day schools and the number of operating classes, places, students and vacant places by grade in these schools under different categories of schools broken down by district in the 2015/16 school year are detailed at Appendix 1.

Table 1: Number of Kindergartens by District and by Type, 2015/16 School Year

District	Non-Profit Making	Private Independent	All Types
Central & Western	30	11	41

- Notes:
- (1) Figures do not include special schools. International schools include English Schools Foundation schools.
 - (2) Figures refer to the position as at September 2015.
 - (3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
 - (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.

- Notes:
- (1) Figures do not include special schools. International schools include English Schools Foundation schools.
 - (2) Figures refer to the position as at September 2015.
 - (3) Figures on number of vacant places, no matter at grade, district and territory-wide levels, are derived by deducting the number of students from the corresponding number of places. They reflect the net number of vacant places in individual districts/grades after off-setting by students over-enrolled in some schools of the districts concerned.

- Notes:
- (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include English Schools Foundation schools.
 - (2) Figures refer to the position as at September 2015.
 - (3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
 - (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.
 - (5) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from 2012/13 school year.

Table 3: Number of Vacant Places in Secondary Day Schools by District, by Grade and by Sector, 2015/16 School Year

- Notes:
- (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include English Schools Foundation schools.
 - (2) Figures refer to the position as at September 2015.
 - (3) Figures on number of vacant places, no matter at grade, district and territory-wide levels, are derived by deducting the number of students from the corresponding number of places. They reflect the net number of vacant places in individual districts/grades after off-setting by students over-enrolled in some schools of the districts concerned.
 - (4) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from 2012/13 school year.

- End -

(Question Serial No. 2364)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education, (5) Other Educational Services and Subsidies, (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform us of all items with unspent provisions on education (including provisions for schools, student financial assistance, capital works and non-recurrent items, etc.), the amount returned to the Treasury in respect of each item and the percentage of its actual provision over estimated provision from 2011-12 to 2015-16 respectively.

Asked by: Hon IP Kin-yuen (Member Question No. 41)

Reply:

The breakdown of unspent provision on education from 2011-12 to 2015-16 by broad categories is provided in the **Annex**. In accordance with the established mechanism, unspent provision in the estimate automatically lapses after the close of the financial year.

Education Expenditure in 2011-12 to 2015-16

CONTROLLING OFFICER'S REPLY**EDB218****(Question Serial No. 2365)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (4) Special EducationControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Please provide the following information for the school years from 2013/14 to 2015/16:

- (a) The actual average teacher-to-student and class-to-teacher ratios for government, aided and private primary and secondary schools as well as special schools, Direct Subsidy Scheme schools and international schools.
- (b) The actual class-to-teacher ratios for junior secondary (Secondary 1 to 3) and senior secondary (Secondary 4 to 6) classes in government, aided, Direct Subsidy Scheme and private secondary schools.
- (c) The number of regular teachers, teachers under defined contract period (DCP) terms and teaching assistants in public sector primary and secondary schools as well as special schools.
- (d) The number of establishment and non-establishment staff in public sector primary and secondary schools, broken down by the following types:

Public Sector Secondary School	2013/14			2014/15			2015/16		
	2013/14	Number of teachers	Total number of teachers	2014/15	Number of teachers	Total number of teachers	2015/16	Number of teachers	Total number of teachers
Establishment teachers	Regular teachers			Regular teachers			Regular teachers		
	Regular teachers employed under DCP terms			Regular teachers employed under DCP terms			Regular teachers employed under DCP terms		
Non-establishment teachers	Paid by government funding/specific fund			Paid by government funding/specific fund			Paid by government funding/specific fund		
	Paid by school funding			Paid by school funding			Paid by school funding		
Public Sector Primary School	2013/14			2014/15			2015/16		
	2013/14	Number of teachers	Total number of teachers	2014/15	Number of teachers	Total number of teachers	2015/16	Number of teachers	Total number of teachers
Establishment teachers	Regular teachers			Regular teachers			Regular teachers		
	Regular teachers employed under			Regular teachers employed under			Regular teachers employed under		

	DCP terms			DCP terms			DCP terms		
Non-establishment teachers	Paid by government funding/specific fund			Paid by government funding/specific fund			Paid by government funding/specific fund		
	Paid by school funding			Paid by school funding			Paid by school funding		

- (e) The average number of teaching periods for teachers in government, aided and private primary and secondary schools.

Asked by: Hon IP Kin-yuen (Member Question No. 42)

Reply:

- (a) The average student-to-teacher ratio and the average teacher-to-class ratio for public sector and private primary and secondary schools as well as special schools, Direct Subsidy Scheme (DSS) schools and international schools (including schools under English Schools Foundation) for the school years from 2013/14 to 2015/16 are tabulated below. Please note that teachers of local primary and secondary schools include regular / contract teachers (i.e. those employed under teacher establishment and various education initiatives, grants or funding from different sources).

Student-to-Teacher Ratio

	2013/14	2014/15	2015/16 (Estimate)
Government Primary Schools	14.8 : 1	14.5 : 1	14.4 : 1
Government Secondary Schools	14.7 : 1	13.9 : 1	13.4 : 1
Aided Primary Schools	14.1 : 1	14.0 : 1	14.0 : 1
Aided Secondary Schools	13.7 : 1	12.9 : 1	12.3 : 1
Private Primary Schools*	16.2 : 1	15.8 : 1	15.7 : 1
Private Secondary Schools*	12.1 : 1	11.1 : 1	10.9 : 1
Caput Secondary Schools	14.0 : 1	13.1 : 1	13.4 : 1
Special Schools	4.8 : 1	4.6 : 1	4.6 : 1
DSS Schools*	12.2 : 1	11.9 : 1	11.8 : 1
International Schools*	11.1 : 1	11.0 : 1	10.9 : 1

Teacher-to-Class Ratio

	2013/14	2014/15	2015/16 (Estimate)
Government Primary Schools	1.8 : 1	1.8 : 1	1.8 : 1
Government Secondary Schools	2.3 : 1	2.3 : 1	2.3 : 1
Aided Primary Schools	1.9 : 1	1.9 : 1	1.9 : 1
Aided Secondary Schools	2.3 : 1	2.3 : 1	2.3 : 1
Private Primary Schools*	1.8 : 1	1.9 : 1	1.9 : 1
Private Secondary Schools*	1.7 : 1	1.9 : 1	1.9 : 1
Caput Secondary Schools	2.3 : 1	2.4 : 1	2.3 : 1
Special Schools	2.2 : 1	2.2 : 1	2.2 : 1
DSS Schools*	2.5 : 1	2.5 : 1	2.5 : 1
International Schools*	2.1 : 1	2.1 : 1	2.1 : 1

* The student-to-teacher ratio and the teacher-to-class ratio vary among individual DSS schools, private schools and international schools.

- (b) As a teacher may teach both junior forms and senior forms in a secondary school, it is not possible to breakdown the teacher-to-class ratio for these levels separately.

- (c) The number (rounded to the nearest 10) of establishment teachers (teachers filling the posts of the approved teaching establishment) in public sector schools for the school years from 2013/14 to 2015/16 is as follows:

Establishment Teachers

	2013/14	2014/15	2015/16 (Estimate)
Government Primary Schools	1 250	1 230	1 190
Government Secondary Schools	1 450	1 440	1 370
Aided Primary Schools	15 660	16 100	16 300
Aided Secondary Schools	19 310	19 050	18 570
Caput Secondary Schools	110	100	100
Special Schools	1 570	1 610	1 620

For aided schools, some of the establishment teachers are employed on defined contract period terms (DCP teachers). The number (rounded to the nearest 10) of DCP teachers in aided schools for the school years from 2013/14 to 2015/16 is as follows:

DCP Teachers

	2013/14	2014/15	2015/16 (Estimate)
Aided Primary Schools	570	450	390
Aided Secondary Schools	1 100	970	880

Please note that there are no DCP teachers in government schools and caput schools, and the Education Bureau (EDB) does not have information on DCP teachers in special schools and the number of teaching assistants in schools.

- (d) EDB has the figures on the number of non-establishment teachers in public sector schools but we do not keep the information on the type of funding under which they are employed. Besides, there are no DCP teachers in government schools and caput schools. Hence, we can only provide the number (rounded to the nearest 10) of establishment teachers and non-establishment teachers in aided schools as follows:

		2013/14		2014/15		2015/16 (Estimate)	
		Sub-total	Total	Sub-total	Total	Sub-total	Total
Aided Primary Schools							
Establishment teachers	Regular teachers*	15 090	15 660	15 650	16 100	15 910	16 300
	DCP teachers	570		450		390	
Non-establishment teachers		-	1 240	-	1 390	-	1 630
Aided Secondary Schools							
Establishment teachers	Regular teachers*	18 210	19 310	18 080	19 050	17 690	18 570
	DCP teachers	1 100		970		880	
Non-establishment teachers		-	2 380	-	2 420	-	2 540

* Including regular teachers on permanent terms and the Native-speaking English Teachers.

- (e) The average number of teaching periods for teachers in government, aided primary and secondary teachers per cycle for the school years from 2013/14 to 2015/16 is tabulated below. EDB does not have information on the average number of teaching periods for teachers in private primary and secondary schools.

Average number of teaching periods per cycle per teacher*

	2013/14	2014/15	2015/16 (Estimate)
Government secondary school teachers	25	24	24
Government primary school teachers	26	26	26
Aided secondary school teachers	26	25	25
Aided primary school teachers	26	26	26

* In computing the figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and length of each teaching period may vary from school to school as well as across school years.

- End -

CONTROLLING OFFICER'S REPLY**EDB219****(Question Serial No. 2366)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide information about public primary and secondary schools by year from 2011/12 to 2015/16 school years on:

- (a) the number of classes and school places reduced due to reduction of classes as well as the amount of saving as a result;
- (b) the number of schools and school places reduced as well as the amount of saving as a result of school operation cessation; and
- (c) the number of classes and school places reduced as well as the total amount of saving in the above altogether.

Asked by: Hon IP Kin-yuen (Member Question No. 43)

Reply:

The information on the number of classes and school places reduced, the number of schools closed as well as the savings involved in government and aided primary and secondary schools from the 2011/12 to the 2015/16 school years are as follows:

- (a) The number of classes and school places reduced due to reduction of classes and the savings involved

School Year	Primary			Secondary		
	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)
2011/12	5	141	3	No reduction of classes ("double cohort" year)		
2012/13	No reduction of classes (with a net increase in the number of classes)			Not applicable (Note 2)		
2013/14				328	10 299	Not applicable (Note 3)
2014/15				289	8 670	
2015/16				269	7 747	

(b) The number of classes and school places reduced due to school closure and the savings involved

School Year	Primary				Secondary			
	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)
2011/12	2	8	225	9	No school closure			
2012/13	1	3	82	4	1	5	164	5
2013/14	1	4	107	5	No school closure			
2014/15	No school closure				No school closure			
2015/16	No school closure				2	5	144	11

(c) The total number of classes and school places reduced due to reduction of classes or school closure and the total savings involved

School Year	Primary			Secondary		
	Total No. of Classes Reduced	Total No. of Estimated School Places Reduced	Total Estimated Savings (\$million) (Note 1)	Total No. of Classes Reduced	Total No. of Estimated School Places Reduced	Total Estimated Savings (\$million) (Note 1)
2011/12	13	365	11	Not applicable ("double cohort" year)		
2012/13	Not applicable (with a net increase in the number of classes)			Not applicable (Note 2)		
2013/14				328	10 299	Not applicable (Note 3)
2014/15				289	8 670	
2015/16				274	7 891	

Remark: Figures may not add up to the corresponding totals due to rounding.

Notes:

- Savings due to reduction of classes and school closure depend on a number of factors such as the number of operating classes, operation overheads and maintenance cost, etc. Unless a school is closed, there cannot be proportionate reduction in the overheads due to class reduction. In the case of school closure, the actual savings vary significantly between schools and have to be worked out on a school-by-school basis. The figures quoted represent a very crude assessment.
- In the "double cohort" year of 2011/12, there was an increase in the number of classes and expenditure in the public sector secondary schools due to the co-existence of the Secondary 6 and Secondary 7 students under the old and new academic structures respectively. With the phasing out of secondary 7 classes in the 2012/13 school year, the total number of classes reduced. As such, it is misleading to compare the number of classes and school places reduced in the 2012/13 school year to the figures in the previous years and to estimate the consequential savings.
- The reduction of classes from the 2013/14 to 2015/16 school years is mainly due to the planned changes of class structure, especially for the schools joining the Voluntary Optimisation of Class Structure Scheme (the Scheme). Since a large amount of additional resources is required for the provision of the enhanced measures under the Scheme, there are no savings arising from the reduction of classes.

- End -

CONTROLLING OFFICER'S REPLY

EDB220

(Question Serial No. 2367)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) Please give a breakdown of the number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more classes at Secondary 1 to Secondary 5 levels by the 18 school districts in the 4 school years from 2012/13 to 2015/16.

(b) Please give a breakdown of the total number of schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 classes in the 3 school years from 2011/12 to 2013/14.

(c) Since the implementation of the Voluntary Optimisation of Class Structure Scheme in the 2011/12 school year, how many schools have joined the Scheme? How many modes of class reduction are there (e.g. some schools reduce classes every other year)? What is the breakdown of the number of participating schools by mode of class reduction? What were the respective numbers of classes reduced for all class levels in secondary schools each year in the school years from 2012/13 to 2015/16? How many school places of Secondary 1 and/or class levels were reduced?

(d) The Government has implemented the Voluntary Optimisation of Class Structure Scheme to allow schools to freeze their teaching establishment for not more than 8 years. What were the increase in the number of teachers who had remained in the schools as a result of the freeze of teaching establishment and the cumulative total number of these teachers in the school years from 2011/12 to 2015/16?

(e) Please give a breakdown of the number of public secondary schools which operate Secondary 1 classes with a standard class size of 32, 33 and 34 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts in the 2015/16 school year.

Asked by: Hon IP Kin-yuen (Member Question No. 44)

Reply:

(a) The number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 to Secondary 5 classes in the 18 school districts in the school years from 2012/13 to 2015/16 is set out at Appendices 1, 2, 3 and 4 respectively.

(b) The total number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 classes in the 3 school years from 2011/12 to 2013/14 are as follows:

School Year	Number of Schools with 1 Class	Number of Schools with 2 Classes	Number of Schools with 3 Classes	Number of Schools with 4 Classes	Number of Schools with 5 Classes	Number of Schools with 6 Classes	Number of Schools with 7 or more Classes
2011/12	2	7	42	303	30	4	2
2012/13	1	4	43	297	36	4	1
2013/14	1	7	47	296	30	4	1

(c) As of the 2015/16 school year, there is a total of 220 schools in the Voluntary Optimisation of Class Structure Scheme (the Scheme). The number excludes 1 school which has joined the Direct Subsidy Scheme in the 2013/14 school year and is thus considered having left the Scheme.

There are generally 2 modes of class reduction in terms of the planned class structure a school would attain ultimately. Among the 220 schools joining the Scheme, 212 will attain a symmetrical class structure (i.e. same number of classes across Secondary 1 to Secondary 6 levels) and 8 will attain a cyclic symmetrical class structure (i.e. same number of classes at every other class level as a result of class reduction in every other school year).

The number of Secondary 1 classes reduced and estimated number of school places reduced under the Scheme in the 2012/13, 2013/14, 2014/15 and 2015/16 school years are as follows:

School Year	Number of Secondary 1 Classes Reduced	Estimated Number of Secondary 1 School Places Reduced ^{Note}
2012/13	213	6 965
2013/14	217	6 814
2014/15	211	6 330
2015/16	218	6 278

Note: The estimated number of Secondary 1 school places reduced is calculated by multiplying the number of classes reduced by the average class size of secondary schools. The average class sizes of secondary schools in the 2012/13, 2013/14, 2014/15 and 2015/16 school years are 32.7, 31.4, 30 and 28.8 respectively.

While the approved number of Secondary 1 classes after reduction will be carried forward to upper class levels, the Scheme does not require schools to reduce classes voluntarily in other class levels in the same school year. Thus, under the Scheme, the number of classes and school places reduced in class levels other than Secondary 1 is nil.

(d) Schools joining the Scheme are given a maximum quota of 6 teaching posts during the six-year transitional period. After the six-year transitional period, the teaching post quota will be withdrawn gradually over 3 years until the end of the Scheme. However, there is no such arrangement in the Scheme to allow schools to freeze their teaching staff establishment as depicted in the question asked. Hence, we are unable to provide the information related to the freezing of teaching staff establishment.

(e) The distribution of aided and government secondary schools by various average class size in the 18 school districts in the 2015/16 school year is set out at Appendix 5.

**Number of Aided and Government Secondary Schools
with 1, 2, 3, 4, 5, 6 and 7 or more classes

CONTROLLING OFFICER'S REPLY**EDB221****(Question Serial No. 2368)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (a) the measures implemented for New Senior Secondary Applied Learning and the details of the provisions involved in the 5 school years from 2011/12 to 2015/16;
- (b) the number of schools offering New Senior Secondary Applied Learning courses, the number of courses offered, the student applications by level, the total number of students taking Applied Learning courses and the amount of subsidy provided by the Government from 2012/13 to 2015/16;
- (c) a breakdown of the number of schools offering Applied Learning courses and the student applications for each of the 18 course clusters under the 6 areas of studies from 2012/13 to 2015/16; and
- (d) the measures implemented for Other Learning Experiences under the New Senior Secondary academic structure and the details of the provisions involved in the 5 school years from 2011/12 to 2015/16.

Asked by: Hon IP Kin-yuen (Member Question No. 45)

Reply:

(a) The New Senior Secondary Applied Learning (ApL) has been implemented since the 2010/11 school year. The Education Bureau supports schools through providing implementation handbook and prospectus, briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to have informed choices when choosing ApL. An E-system has also been developed to facilitate the application process and implementation in schools. In addition, the Government provides Diversity Learning Grant and Student Grant for Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) to support secondary schools in offering ApL and ApL(C) courses respectively. The amount of Diversity Learning Grant and the amount of Student Grant for ApL(C) from the 2011/12 to 2015/16 school year are as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16
Diversity Learning Grant (\$ million)	47	49	51	50	51
Student Grant for ApL(C) (\$ million)	NA	NA	NA	2	5

(b) Each cohort of ApL courses lasts for 2 years and ApL(C) courses lasts for 3 years. From 2012/13 to 2015/16 school year, 5 cohorts of ApL courses (2011-13, 2012-14, 2013-15, 2014-16 and 2015-17 cohorts) have been offered to students. The number of schools offering New Senior Secondary ApL courses, the

number of courses offered, the number of student applications, the total number of students taking ApL courses and the amount of subsidy provided by the Government are as follows:

Cohort	2011-13	2012-14	2013-15	2014-16	2015-17
No. of schools offering New Senior Secondary ApL courses	298	318	315	316	327
No. of courses offered	35	35	37	36	40
No. of student applications (Note: student can only apply to start at S4 (for ApL (C)) and S5 (for ApL), application by level is thus not applicable.)	10 139	10 254	8 649	8 086	7 320
No. of students taking ApL courses	6 061	5 782	5 047	4 791	4 506

The amount of subsidy (Diversity Learning Grant and Student Grant for ApL(C)) provided by the Government from 2012/13 to 2015/16 school year is as follows:

School Year	2012/13	2013/14	2014/15	2015/16
Diversity Learning Grant (\$ million)	49	51	50	51
Student Grant for ApL(C) (\$ million)	NA	NA	2	5

(c) The breakdown of the number of schools offering ApL courses and the student applications for each of the course clusters under the 6 areas of studies from 2012/13 to 2015/16 school year are as follows:

Number of schools offering ApL courses:

(d) Other Learning Experiences (OLE) have been implemented since the 2009/10 school year as an integral part of the new senior secondary (NSS) curriculum. Under the new recommendations for fine-tuning the NSS curriculum and assessment made in April 2013, schools could flexibly deploy 10% to 15% of the total curriculum time inside and outside normal school hours to OLE activities, which help students develop positive values and key generic skills to promote whole-person development. Schools have deployed existing resources (e.g. operation funds) to implement their school-based OLE.

While most OLE activities are available for free, e.g. career talks and sports days, schools are advised to consider the affordability of fee-incurring programmes to students with lower socio-economic backgrounds. To help financially needy students to participate in some OLE activities, schools are making good use of existing resources (e.g. Operating Expenses Block Grant) and schemes (e.g. Hong Kong Jockey Club Life-wide Learning Fund, School-based After-school Learning and Support Programmes) to ensure that all students have equal access to these programmes and activities.

Preparatory work to ensure a smooth launching of OLE had commenced prior to its actual implementation in the 2009/10 school year. The Education Bureau has supported schools to implement OLE through facilitating the sharing of good practices among teachers, developing electronic tools for Student Learning Profile, making arrangements for career-related and community service projects for students, and organising professional development programmes for teachers. The expenditure in the 5 school years from 2011/12 to 2015/16 is summarised below:

Expenditure for 2011/12 (\$ million)	Expenditure for 2012/13 (\$ million)	Expenditure for 2013/14 (\$ million)	Expenditure for 2014/15 (\$ million)	Expenditure for 2015/16 (\$ million)
1.15	0.73	0.37	0.02	0.29

(Note: The expenditure for developing electronic tools was incurred largely before 2012/13. Only enhancement cost of these electronic tools was incurred from 2012/13 onwards, thus, the expenditure is largely reduced since then.)

CONTROLLING OFFICER'S REPLY**EDB222****(Question Serial No. 2369)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education
(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In regard to the support received by students and respective training programmes attended by teachers for integrated education (IE), please provide the following for the past 5 years (2011/12 to 2015/16 school years):

- a. The number of students with special educational needs (SEN) in mainstream primary and secondary schools by stage, grade level, SEN type, and tier of support;
- b. The respective percentage share of students with SEN studying in mainstream schools in the total number of students with SEN and their percentage share in the total expenditure involved by SEN type and tier of support; and
- c. The annual number of primary and secondary school teachers who have completed the basic, advanced and thematic (BAT) courses and the details of expenditure by course type.

Asked by: Hon IP Kin-yuen (Member Question No. 46)

Reply:

(a) and (b)

All schools are requested to adopt the Whole School Approach to support students with special educational needs (SEN) through a 3-Tier Intervention Model, taking into account their support needs. To help schools cater for their students with SEN, the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training.

The number of students with SEN studying in public sector mainstream primary and secondary schools by grade levels and by SEN types for the past 5 years (2011/12 to 2015/16 school years) is set out at Appendix 1. The percentage share of students with SEN by SEN type in the total number of students with SEN in the same period is tabulated at Appendix 2.

Schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward from time to time according to the performance of the students. Hence, we are unable to provide the distribution of students in each tier under the 3-Tier Intervention Model. The expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention for all mainstream schools from the 2011/12 to 2015/16 school years is as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16 (Revised Estimate)
Expenditure (\$ million)	964	1,009	1,075	1,222	1,315

It should be noted that schools are required to deploy their resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Besides, some expenditure items are on services for students with SEN irrespective of the types of SEN or tiers of support (e.g. teacher training and psychological support services). Hence, we are not able to provide the breakdown of the expenditure by different types of SEN or tiers of support of the students.

(c)

EDB launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at basic, advanced and thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream school teachers having completed the BAT Courses from the 2011/12 to 2015/16 school years is as follows:

Course	2011/12 (Actual)		2012/13 (Actual)		2013/14 (Actual)		2014/15 (Actual)		2015/16 (Provisional)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	147	211	120	339	215	356	215	295	201	382
Advanced	160	213	89	152	92	141	74	86	100	146
Thematic	592	386	144	222	200	281	152	316	188	308

The expenditure on the BAT courses from the 2011/12 to 2015/16 school years is as follows:

Course	Expenditure (\$ million)				
	2011/12 (Actual)	2012/13 (Actual)	2013/14 (Actual)	2014/15 (Actual)	2015/16 (Revised Estimate)
Basic	4.3	6.3	7.9	7.3	8.5
Advanced	14.6	11.0	10.7	7.8	12.3
Thematic	25.1	18.4	24.5	24.4	26.9
TOTAL	44.0	35.7	43.1	39.5	47.7

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies, (6) Vocational and Professional Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

1. The recurrent public expenditure and total public expenditure on education and their respective percentage shares in the Gross Domestic Product (GDP)?
2. The recurrent expenditure and total expenditure on kindergarten education and their respective percentage shares in the GDP;
3. The recurrent expenditure and total expenditure of the various types of primary schools and their respective percentage shares in the GDP? And what are the respective school fees of the Direct Subsidy Scheme (DSS) schools and international schools?
4. The recurrent expenditure and total expenditure of the various types of secondary schools and their respective percentage shares in the GDP? And what are the respective school fees of the Direct Subsidy Scheme (DSS) schools and international schools?
5. With regard to sub-degree places, what is the expenditure of subsidised places paid by public money and what are the bursaries offered by the Student Financial Assistance Scheme? What are the tuition fees paid by students for subsidised sub-degree places and self-financing sub-degree places respectively?
6. As for university education, what are the respective expenditures of subsidised degree places, taught postgraduate courses and research postgraduate courses paid by public money? What are the respective bursaries offered by the Student Financial Assistance Scheme? What are the tuition fees paid by students for subsidised degree places and for self-financing degree places respectively?

Asked by: Hon IP Kin-yuen (Member Question No. 47)

Reply:

1 The information required for expenditure on education is as follows -

	2016-17 Estimate	
	\$ million	as % of GDP
Recurrent public expenditure on education	74,695	3.02
Total public expenditure on education	84,024	3.39

2 The information required for pre-primary education is as follows -

	2016-17 Estimate	
	\$ million	as % of GDP
Recurrent expenditure	4,249	0.17
Total expenditure	4,250	0.17

3 & 4 The information required for primary and secondary education is as follows -

Expenditure

	2016-17 Estimate	
	\$ million	as % of GDP
Primary education		
Recurrent expenditure	16,823	0.68
-- Out of total recurrent expenditure, funding allocated to various types of schools		
--- Government primary schools	1,173	
--- Aided primary schools	13,882	
--- English Schools Foundation Junior Schools	109	
--- Primary schools under the Direct Subsidy Scheme	817	
Total expenditure	17,645	0.71

	2016-17 Estimate	
	\$ million	as % of GDP
Secondary education		
Recurrent expenditure	25,470	1.03
-- Out of total recurrent expenditure, funding allocated to various types of schools		
--- Government secondary schools	1,597	
--- Aided secondary schools	19,792	
--- Caput schools	98	
--- English Schools Foundation Secondary Schools	172	
--- Secondary schools under the Direct Subsidy Scheme	2,984	
Total expenditure	26,331	1.06

Recurrent expenditure on education for the respective education levels covers recurrent provisions to schools as well as student financial assistance to students under various schemes administered by the Working Family and Student Financial Assistance Agency.

Total expenditure on education for the respective education levels comprises recurrent expenditure, non-recurrent and capital expenditure under General Revenue Account, capital expenditure under Capital Works Reserve Fund (CWRP) (mainly for capital works projects) and Loan Fund. Total expenditure by school type for primary and secondary education is not available as some projects under CWRP cannot be classified by types of schools, such as feasibility study and site investigation for vacant school premises.

School fees for international schools and schools under DSS

For international schools, their school fees in the 2015/16 school year range from \$5,800 to \$183,250 at primary level and from \$42,000 to \$204,900 at secondary level. For schools under DSS, their school fees in the 2015/16 school year are appended in the table below. School fee information for the 2016/17 school year is not yet available.

Amount of school fee	Primary 1 to 6* (No. of schools)	Secondary 1 to 3* (No. of schools)	Secondary 4 to 6* (No. of schools)
\$0 – \$5,000	0	16	9
\$5,001 – \$10,000	1	7	12
\$10,001 – \$20,000	9	9	12
\$20,001 – \$30,000	5	9	9
\$30,001 – \$50,000	4	12	13
\$50,001 – \$80,000	2	4	4
\$80,001 – \$98,000	0	0	1

* For schools that are charging different school fees for different class levels, the highest school fee within the range of class level is used for classification purpose.

5 & 6 The information required for sub-degree and degree places is as follows –

Expenditure

	2016-17 Estimate
Funding allocated to University Grants Committee–funded institutions	\$ million 17,822
Financial assistance to students pursuing sub-degree / degree / post-graduate programmes ^φ	
-- Tertiary Student Finance Scheme – Publicly-funded Programmes	
--- sub-degree programmes	267
--- degree programmes	786
--- post-graduate programmes	8
-- Financial Assistance Scheme for Post-secondary Students	
--- sub-degree programmes	563
--- degree programmes	622
Funding allocation for the Study Subsidy Scheme for Designated Professions/ Sectors	133

^φ The financial provision represents projected grants to students in the 2015/16 academic year.

Funding for University Grants Committee (UGC)-funded programmes is subsumed under the block grant to institutions without precise requirements as to how it should be spent. Institutions are given the autonomy to allocate funds internally to programmes at different levels (e.g. sub-degree, undergraduate, taught postgraduate and research postgraduate) as they see fit. UGC is therefore unable to identify and attribute the actual expenditure on specific levels of studies.

In addition, the Vocational Training Council (VTC) offers a wide range of vocational and professional education programmes some of which lead to qualifications at sub-degree and above level. Funding for the publicly-funded programmes offered by VTC is subsumed in the annual subvention to VTC and the breakdown of funding by level is not available. In 2016-17, the estimated recurrent subvention to VTC in respect of vocational and professional education is \$2,238 million.

Separately, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years. Approval from the Finance Committee of Legislative Council was obtained in July 2014 with a total commitment of \$960 million for the implementation of the Scheme.

Apart from the above, in order to further encourage continuing education, the Financial Secretary announced in the 2016-17 Budget Speech that the Government would implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes (including sub-degree and above programmes) offered by VTC, covering programmes in the disciplines of construction, engineering and technology. Subject to the approval by the Finance Committee of the Legislative Council, the pilot scheme will be implemented from the 2016/17 academic year and incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. The scheme will benefit around 5 600 students in total for three cohorts.

Tuition fees

UGC-funded programmes and publicly-funded programmes in VTC

The tuition fee for local students of the UGC-funded sub-degree programmes offered by the City University of Hong Kong and the Hong Kong Polytechnic University is set at \$31,575 per year, while that of the Hong Kong Institute of Education is \$15,040 per year. The tuition fee for local students of the UGC-funded undergraduate, taught postgraduate and research postgraduate programmes is \$42,100 per year. The indicative tuition fees remain unchanged for the 2016/17 academic year. As regards VTC, the tuition fee for publicly-funded sub-degree programmes for the 2016/17 academic year ranges from \$30,800 to \$31,570 per year.

SSSDP programmes

The average annual tuition fees of subsidised places under SSSDP programmes range from \$17,533 to \$47,533 (after deducting the subsidy) for the 2015/16 academic year.

Self-financing programmes

The average annual tuition fees of full-time locally-accredited self-financing sub-degree and undergraduate programmes for the 2015/16 academic year are appended in the table below. Tuition fee information for the 2016/17 academic year is not yet available.

Institution	Sub-degree \$	Undergraduate \$
Caritas Bianchi College of Careers	54,000 - 60,500	-
Caritas Institute of Community Education	46,000 - 48,500	-
Caritas Institute of Higher Education	54,000 - 58,500	66,250 - 94,050

(Question Serial No. 3050)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Please provide:

- (1) a breakdown of the expenditures in the original estimate for 2015-16, the revised estimate for 2015-16 and the estimate for 2016-17, together with the reasons for the changes;
- (2) the details on the school-based professional support services for kindergartens, primary and secondary schools;
- (3) the details on the assessment tools for School Self Evaluation and the conduct of External School Reviews;
- (4) the details on the assistance in various education reform initiatives; and
- (5) the details on the pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work.

Asked by: Hon IP Kin-yuen (Member Question No. 48)

Reply:

Re (1). The breakdown of the expenditures under Programme (7) Policy and Support for 2015-16 and 2016-17 is as follows:

	2015-16 Original Estimate	2015-16 Revised Estimate	2016-17 Estimate
	\$ million	\$ million	\$ million
One-off injection to Qualifications Framework Fund	1,000.0	1,000.0	-
Cash flow for various support schemes / projects such as Study Subsidy Scheme for Designed Professions/Sectors, Yi Jin Diploma programme and Scholarship Scheme for studying Outside Hong Kong under non-recurrent expenditure	342.8	245.9	430.3
Subsidy and scholarship schemes for vocational and post-secondary education	188.2	172.0	275.2
Operational expenses for formulation of policies and provision of support to the education sector	1,827.3	1,751.1	1,826.9
Total	3,358.3	3,169.0 (-5.6%)	2,532.4 (-20.1%)

The revised estimate for 2015-16 under Programme (7) Policy and Support is \$189.3 million or 5.6% lower than the original estimate. This is mainly due to the lower than budgeted requirement for various support schemes / projects under non-recurrent expenditure as well as for operational expenditure.

Provision for 2016-17 is \$636.6 million or 20.1% lower than the revised estimate of 2015-16. This is mainly due to the completion of the injection of \$1 billion into the Qualifications Framework Fund in 2015-16 partly offset by higher cash flow requirement in 2016-17 for various support schemes / projects under non-recurrent expenditure.

Re (2) to (5). The administrative expenses involved in the education services / initiatives listed in (2) to (5) are absorbed in the overall operational expenses of Education Bureau (EDB) and cannot be separately identified. The following sets out the details together with the specific funding for implementing the education services / initiatives concerned:

Education services / initiatives	Resources implication
<u>School-based professional support services (SBSS) for kindergartens, primary and secondary schools</u> EDB provides schools with a wide range of SBSS in areas such as catering for learner diversity, supporting non-Chinese speaking students to learn Chinese language, supporting students with special educational needs and facilitating self-directed learning. The SBSS may, depending on the needs and circumstances of participating schools, take various forms, including on-site professional support services provided by the school-based support sections of EDB and projects funded by the Education Development Fund (EDF) such as University-School Support Programmes, Professional Development Schools Scheme, School Support Partners (Seconded Teacher) Scheme as well as inter-school collaboration and professional sharing. Schools are invited to apply for the SBSS around April each year according to their needs.	The school-based support services are mainly funded by EDF, a total of \$137.7 million has been earmarked under the Fund for the programmes held / to be held in the 2015/16 school year.

Education services / initiatives	Resources implication
<p><u>Assessment tools for School Self Evaluation (SSE) and the conducting of External School Reviews (ESR)</u></p> <p>To facilitate schools' continuous development and improvement through SSE, EDB provides a range of self-evaluation tools (e.g. Performance Indicators, Key Performance Measures and a set of stakeholder questionnaires, etc.), and conducts ESR to validate SSE and provide schools with suggestions for improvement.</p>	
<p><u>Assistance in various education reform initiatives</u></p> <p><i>Implementation of new academic structure</i></p> <p>The New Academic Structure (NAS) has been implemented since September 2009 as a crucial part of the education reform which commenced in 2001. To provide updates on the implementation and development of the NAS, including articulation to multiple pathways, communication with the general public and stakeholders has been strengthened since 2005 through various channels and platforms.</p> <p>The Senior Secondary (SS) curriculum aims at providing a broad and balanced curriculum with diversified choices to cater for students' interests, abilities and needs. The SS curriculum has continued to earn international recognition since its inception in 2009/10 and different feedback prove its initial positive impact on students. With a view to responding to the changes over the past years in our society and around the world, EDB, the Curriculum Development Council, and the Hong Kong Examinations and Assessment Authority jointly conducted the NAS Review from 2012 to 2015. Following the announcement of the last batch recommendations of the NAS Review in June 2015, future curriculum renewal will follow the natural development cycles of each subject and curricular areas in a regular and continual manner.</p> <p>In the meantime, EDB will continue to support the implementation of the SS curriculum through, for example, the continued provision of support and training to help build the professional capacity of teachers, fostering professional exchanges and sharing of good practices, development of quality learning and teaching resource materials, and disbursement of various SS grants to enable schools to provide quality secondary education for the benefit of the students.</p> <p>The NAS has also been implemented in the post-secondary education sector starting from the 2012/13 academic year. Post-secondary institutions have made necessary curriculum and assessment changes aiming to infuse students with a broadened knowledge base, balanced development, sound language and other generic skills, as well as a propensity for life-long learning. The four-year undergraduate programme, which comprises the core, major and elective courses with an emphasis on general education and exposure to both academic and non-academic skills and knowledge, will provide smoother articulation for further studies or work in Hong Kong. The international recognition given to the NAS also facilitates students' articulation to other major education systems in the world. EDB has set up a liaison group joined by representatives from all UGC-funded institutions to oversee the implementation of the NAS in the UGC-funded sector. There is also regular communication between EDB and the self-financing post-secondary education sector on the NAS implementation.</p>	<p>In 2005, the Finance Committee approved a non-recurrent commitment of \$2,447.2 million for implementing the measures to support the development of the new academic structure in both secondary school and UGC sectors. The project has already been completed in 2013-14 and the total spending of the project is \$2,436.8 million.</p> <p>The total provision for disbursement of various recurrent SS grants under Programme (3) Secondary Education and Programme (4) Special Education is about \$387.8 million in 2016-17.</p>

Education services / initiatives	Resources implication
<p><i>School places allocation</i></p> <p>As part of the Education Reform initiatives, the arrangements under the Primary 1 and Secondary 1 places allocation systems have been revised starting from 2000, including the abolition of the Academic Aptitude Test. The revised arrangements continue in the 2015/16 and 2016/17 school years.</p>	
<p><u>Pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work</u></p> <p>The Pilot Project on Strengthening Schools' Administration Management (Pilot Project) aims at supporting schools to strengthen their school administration management, as well as streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity. Each participating school is provided with professional support and a grant of \$0.45 million for trying out appropriate measures to enhance school administration.</p> <p>A total of 132 public sector schools (including government and aided schools) have participated in the Pilot Project since its launch in the 2011/12 school year. We will continue to consolidate and disseminate the experiences of the Pilot Project with a view to benefiting other public sector schools and teachers.</p>	<p>A total of \$59.4 million has been provided under Programme (2) Primary Education, Programme (3) Secondary Education and Programme (4) Special Education in the relevant financial years for conducting the Pilot Project.</p>

(Question Serial No. 3143)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant for primary schools, please provide the following information:

- (a) the staff establishment of guidance teachers in primary schools and their ratio to students, the number of primary schools in receipt of the said grant and their percentage share among all primary schools in the territory from the 2012/13 to the 2015/16 school years;
- (b) the respective numbers of social workers, student guidance officers and teachers employed by primary schools with the said grant from the 2012/13 to the 2015/16 school years, broken down by the name of schools in each of the 18 districts within the territory;
- (c) the total expenditure on the Student Guidance Service Grant from the 2012/13 to the 2015/16 school years and the estimates for the 2016/17 school year; and
- (d) given that the high annual wastage of guidance teachers has affected the continuity of guidance, whether the Administration has any plan to improve, take forward or review the abovementioned service; if yes, the total estimated expenditure.

Asked by: Hon IP Kin-yuen (Member Question No. 49)

Reply:

(a) and (b) Since the 2006/07 school year, the manning ratio of student guidance officer/teacher has been improved to one for each public sector primary school with 18 or more classes. For public sector primary schools with 5 to 17 classes, they are provided with 0.5 student guidance officer/teacher. Primary schools opting for the Student Guidance Service (SGS) Grant may, based on their own needs, procure student guidance service from non-governmental organisations or recruit full-time or part-time student guidance personnel who can be registered social workers, registered teachers with experience in guidance and/or teaching or other professionals with equivalent qualifications and experience. To further enhance student guidance service, a top-up SGS Grant has been provided to all public sector primary schools starting from the 2012/13 school year. Therefore, the concepts of "staff establishment" and teacher-student ratio are not appropriate due to the flexibility given to schools in deciding their own modality of service delivery as well as the specific types of professional expertise that they wish to procure.

In the 2012/13, 2013/14, 2014/15 and 2015/16 school years, 302 (67%), 309 (68%), 312 (69%) and 317 (70%) public sector primary schools are provided with Student Guidance Service (SGS) Grant respectively to employ student guidance personnel or procure student guidance service. Under school-based management, schools are entrusted with the responsibility, and thus held accountable for effective use of the SGS Grant for

its intended purposes. Schools need not report to the Education Bureau (EDB) the details of student guidance personnel employed through the SGS Grant. Hence, we do not have the data required.

(c) The total expenditure on the SGS Grant, including the top-up grant, for the 2012/13, 2013/14 and 2014/15 school years is \$184.2 million, \$200.4 million and \$211.7 million respectively, and is estimated to be about \$225.6 million and \$247.2 million for the 2015/16 and 2016/17 school years respectively.

(d) All primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimising the impact arising from staff turnover. EDB has been gauging feedback from schools through school visits and other established channels for service improvement. The feedback thus gauged suggests that, overall, the existing mode of funding is able to meet the diversified needs of primary schools and is well received by schools and school sponsoring bodies. Hence, as of now, EDB has no plan to change the existing funding mode which recognizes the diverse needs of different schools and allows schools to have flexibility in resource deployment to meet their identified needs in a specific manner.

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide the number of non-Chinese speaking (NCS) students by grade and the student unit cost in kindergartens, primary schools, secondary schools and tertiary institutions from the 2013/14 to 2015/16 school years in Hong Kong.
- (b) Please provide the number and names of designated schools receiving intensive support by the Education Bureau to cater for the needs of NCS students, the number of these students by grade, the amount of provision received, the student unit cost and their percentage share in the total number of NCS students in Hong Kong from the 2013/14 to 2015/16 school years.
- (c) Please provide the number of NCS students by grade and the student unit cost in non-designated schools, as well as their percentage share in the total number of NCS students in Hong Kong from the 2013/14 to 2015/16 school years.
- (d) Please provide details of measures by and funding from the Education Bureau for educational support to NCS students from the 2013/14 to 2015/16 school years.
- (e) Please compare the various types of educational support and relevant funding provided by the Administration for NCS students between designated schools and non-designated schools in the 2014/15 and 2015/16 school year.
- (f) Will the Administration review the effectiveness of the education for NCS students? Will it consider further increasing the number of designated schools?

Asked by: Hon IP Kin-yuen (Member Question No. 50)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students by level and by grade from the 2013/14 to 2015/16 school years is tabulated at Annex A.
- (b) Starting from the 2006/07 school year, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experience with other schools have been provided with special grant which has been turned into additional recurrent funding ranging from \$300,000 to \$600,000 since the 2008/09 school year as well as professional support to develop school-based support programmes

specifically arranged for NCS students to further help their NCS students in learning and integration. Through the sharing of these schools with other schools admitting NCS students via the school support network that EDB has formed, all NCS students will benefit. This mode of support is generally known as the so-called “designated schools” system. To remove the misconception arising from the “designated school” label which is in fact a misnomer and to raise schools’ awareness to support NCS students’ learning of the Chinese language, the funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or more NCS students have been provided with additional recurrent funding ranging from \$300,000 to \$600,000 per year, depending on the number of NCS students admitted, to enhance the support for learning of the Chinese language of NCS students. Starting from the 2014/15 school year, the funding support has been enhanced to facilitate schools’ implementation of the “Chinese Language Curriculum Second Language Learning Framework” and the creation of an inclusive learning environment in schools. All schools admitting 10 or more NCS students have been provided with an additional recurrent funding ranging from \$800,000 to \$1,500,000 per year, depending on the number of NCS students admitted.

A total of 151, 173 and 197 schools are provided with additional recurrent funding in the 2013/14, 2014/15 and 2015/16 school years respectively to enhance the support for learning of the Chinese language of NCS students. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers, etc., it is the established practice that we do not disclose the name and situation of each of individual schools particularly when the additional funding support is applicable to all public sector schools meeting the threshold so as to avoid unnecessary misconception and possible labelling on individual schools that we intend to remove by abolition of the so-called “designated schools” system from the 2013/14 school year. As reference, the number of NCS students by grade in schools provided with the additional recurrent funding from the 2013/14 to 2015/16 school years is tabulated at [Annex B](#). The percentage of NCS students in these schools among all NCS students in public sector and Direct Subsidy Scheme (DSS) schools excluding special schools in Hong Kong in the 2013/14, 2014/15 and 2015/16 school years is 92.5%, 92.5% and 92.7% respectively.

- (c) According to the information collected through the Student Enrolment Survey, the number of NCS students by grade in schools other than those provided with additional recurrent funding as mentioned in (b) above from the 2013/14 to 2015/16 school years is tabulated at [Annex C](#). The percentage share of NCS students in these schools among all NCS students in public sector and DSS schools excluding special schools in Hong Kong in the 2013/14, 2014/15 and 2015/16 school years is 7.5%, 7.5% and 7.3% respectively.
- (d) The educational support measures for NCS students from the 2013/14 to 2015/16 school years and the expenditure are tabulated at [Annex D](#).
- (e) As mentioned in (b) above, the so-called “designated schools” system has been abolished since the 2013/14 school year.
- (f) EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

**Number of non-Chinese speaking (NCS) students
by level and by grade from the 2013/14 to 2015/16 school years**

Level	Grade	2013/14 school year	2014/15 school year	2015/16 school year

	S1-S6	7 576	8 224	8 782

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools. Figures do not include special schools.
5. Admissions to post-secondary programmes in tertiary institutions including certificate/diploma courses, higher diploma, sub-degree and undergraduate degree courses, etc. are offered to eligible applicants, irrespective of their race and language spoken at home. However, statistics with breakdown by local and non-local NCS students are not available.
6. Regarding the unit cost, the provision of teachers and grants to public sector schools is basically the same. The total amount of resources for individual schools may vary depending on the education initiatives that a school has applied for.

<p>A total funding of \$77 million has been earmarked for Project of After-school Extended Chinese Learning for NCS Students, that started in the 2010/11 school year under the Language Fund, to provide funding to schools other than those with school-based support programmes specifically arranged for NCS students to put in place diversified extended Chinese learning programmes. Starting from the 2013/14 school year, all schools may apply.</p> <p>Starting from the 2014/15 school year, the provision has been regularised and subsumed under the additional recurrent funding for schools admitting NCS students.</p>	21.0	-	-
<p>Summer Bridging Programme for NCS students in primary schools</p> <p>Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.</p>	2.5	2.8	2.6
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	-	2.3	4.9
<p>Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education</p> <p>Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.</p>	1.33	1.87	2.09
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	2.51	1.09	2.58

Support for kindergartens admitting NCS students -			
(a) University-School Support Programme financed by the Education Development Fund:			
(i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years	3.0	3.0	0.7
(ii) a 2-year project to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years	-	-	Note 2
(b) School-based professional support services	Note 1	Note 1	Note 1

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. The estimated expenditure of the USP project is \$6.3 million and \$1.8 million for the 2015/16 and 2016/17 school years respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

Director of Bureau: Secretary for Education

Question:

Please give a breakdown, by school type, school district and school sponsoring body, of the number of schools which had established an incorporated management committee (IMC), the percentage of aided IMC schools among all aided schools, and the amount of grant provided by the Administration for the establishment of IMCs in aided schools from the 2013/14 to 2015/16 school years.

Asked by: Hon IP Kin-yuen (Member Question No. 51)

Reply:

As at 1 March 2016, 823 aided schools of 226 school sponsoring bodies (SSBs) have set up their incorporated management committees (IMCs). The number of IMC schools under individual SSBs ranges from one to 77. The percentage of aided IMC schools among all aided schools in the 2013/14, 2014/15 and 2015/16 school years (as at 1 March 2016) is 88.4%, 98.0% and 98.0% respectively. The number of aided IMC schools by district and category in the 2013/14, 2014/15 and 2015/16 school years is at Appendix.

The actual expenditure in 2013-14, 2014-15 and the revised estimated expenditure in 2015-16 for supporting schools to set up their IMCs are \$19.1 million, \$34.5 million and \$33.2 million respectively.

Number of Aided Schools with an Incorporated Management Committee (IMC) by District and Category

District	2013/14 School Year (as at 31 August 2014)				2014/15 School Year (as at 31 August 2015)				2015/16 School Year (as at 1 March 2016)			
	Secondary School	Primary School	Special School	Total	Secondary School	Primary School	Special School	Total	Secondary School	Primary School	Special School	Total

CONTROLLING OFFICER'S REPLY**EDB228****(Question Serial No. 3146)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding student-to-teacher ratio, please provide the following information:

- (a) From the 2011/12 to 2015/16 school years and in the estimate of the 2016/17 school year, what are the reasons for the changes in the student-to-teacher ratio in government and aided primary schools and the expenditure involved?
- (b) From the 2011/12 to 2015/16 school years and in the estimate of the 2016/17 school year, what are the reasons for the changes in the student-to-teacher ratio in government and aided secondary schools and the expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 52)

Reply:

- (a) The student-to-teacher ratios of public sector primary schools from the 2011/12 to 2015/16 school years as well as the projection of the 2016/17 school year are as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16 (Estimate)	2016/17 (Projected)
Student-to-teacher ratio	14.9 : 1	14.4 : 1	14.2 : 1	14.0 : 1	14.1 : 1	14.1 : 1

The improvement of the student-to-teacher ratios in public sector primary schools is mainly due to the implementation of Small Class Teaching (SCT) and the provision of various grants under various initiatives such as the Learning Support Grant which provide flexibility for schools to employ additional teachers. As the Education Bureau (EDB) does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

- (b) The student-to-teacher ratios of public sector secondary schools from the 2011/12 to 2015/16 school years as well as the projection of the 2016/17 school year are as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16 (Estimate)	2016/17 (Projected)
Student-to-teacher ratio	15.3 : 1	14.5 : 1	13.8 : 1	13.0 : 1	12.4 : 1	11.9 : 1

The improvement of the student-to-teacher ratios is mainly due to the introduction of a series of relief measures, including the reduction in the number of students allocated to S1 classes, the implementation of Voluntary Optimisation of Class Structure Scheme and the extension of retention period of surplus teachers, all of which help retain serving teachers in force. Moreover, the provision of specific grants for the new senior secondary curriculum, and other grants provided under such initiatives as the English Enhancement Scheme, the Learning Support Grant, the Career and Life Planning Grant, etc., also enable schools to employ additional teachers. As EDB does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

- End -

CONTROLLING OFFICER'S REPLY**EDB229****(Question Serial No. 3263)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) What were the details of and the expenditure incurred by the Education Bureau on various initiatives to implement the Qualification Framework (QF) from 2011/12 to 2015/16?
- (b) What QF initiatives does the Administration have in 2016/17? What are the specific details and the estimated expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 53)

Reply:

- (a) The expenditures for the implementation of the Qualifications Framework (QF), including operating expenditure of the QF Secretariat; subsidies and funding disbursed under the approved commitment of the QF Support Schemes (QFSS) (Note 1) for the various support schemes for QF, QF-related studies/projects and public education; as well as expenditure to support Industry Training Advisory Committees (ITACs) to implement initiatives as announced in the 2013-14 Budget (Note 2), from 2011-12 to 2015-16 are as follows –

Financial Year	Expenditure (\$ million)
2011-12	32.5
2012-13	52.4
2013-14	46
2014-15	55.1
2015-16 (as at end February 2016)	51.5

Note 1: The QF Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of QF. Since it takes time for the QF Fund to generate and accumulate sufficient investment income to meet the funding requirements, the balance of the approved commitment for QFSS will continue to be used for meeting the cash flow requirements of the various initiatives under the QF Fund for the time being.

Note 2: The initiatives announced in the 2013-14 Budget include introducing the QF Award Scheme for Learning Experiences for outstanding practitioners to engage in learning activities in different places around the world, designing Specification of Competency Standards-based Training Packages that meet the needs of the industries, and stepping up promotion and publicity of QF for its wider acceptance among all sectors.

- (b) For 2016-17, we estimate that the expenditure for the implementation of QF will be about \$70.5 million. The major QF initiatives in 2016-17 include (i) three pilot projects on the development of vocational qualifications pathways by three ITACs (Automotive, Banking and Property Management); (ii) an exploratory study on possible alignment of professional qualifications under QF; (iii) a study on developing a brand strategy for QF; and (iv) a project with the New Zealand Qualifications Authority on referencing between the Hong Kong QF and the New Zealand QF.

- End -

CONTROLLING OFFICER'S REPLY**EDB230****(Question Serial No. 3264)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Diversity Learning Grant which has taken effect since the 2009/10 school year, please advise on the following:

- (a) The annual expenditure for the above Grant, the numbers of schools and students benefited from the Grant for the past 5 years (2011/12 to 2015/16); and
- (b) At present, the subsidy per student for "Other Languages" under the Grant is \$3,500 and the subsidy per student for "Other Programmes" is \$7,000. Has the Education Bureau planned to increase the amount of subsidy per student? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 54)

Reply:

- (a) The Diversity Learning Grant (DLG) is to support Applied Learning (ApL), Adapted Applied Learning (Adapted ApL), Other Languages (OL) and Other Programmes (OP) including programmes for gifted students and network programmes of senior secondary (SS) subjects.

From the 2011/12 school year to the 2015/16 school year, the annual expenditure of DLG, number of secondary schools and number of students/enrolments/classes benefited from the grant are as follows:

	2011/12	2012/13	2013/14	2014/15	2015/16 (provisional)
Expenditure of DLG (\$ million)	82	87.5	91.9	90.2	88.9
No. of secondary schools	447	456	466	464	468
No. of enrolments* (for ApL and Adapted ApL)	12 259	11 543	10 559	9 703	9 008
No. of students (for OL)	1 384	1 297	1 333	1 356	1 515
No. of classes (for OP)	4 010	4 514	4 712	4 688	4 634

Remarks: *Each eligible student is entitled to funding for a maximum of 2 ApL courses.

- (b) The rate of the subsidy for OL is \$3,500 per SS student per school year whereas the subsidy for OP should be \$7,000 per SS class per school year. An exercise was conducted in the 2011/12 school year to review the subsidy level of DLG and it was decided that the subsidy level for DLG(OL) and

DLG(OP) remain unchanged. We will keep the subsidy level of DLG in view and will review the subsidy level on a need basis.

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools, please advise of the following:

1. The respective number, percentage and wastage rate of teachers appointed as graduate teachers and certificated masters/mistresses in public sector schools from the 2011/12 to 2015/16 school years; and in respect of the latter, the number, percentage and wastage rate of those with a recognised degree; and
2. Whether the Administration will review the policy concerned and set aside an amount in its budget to enable all teachers with a recognised degree to be appointed as graduate teachers so that they will no longer be exploited in terms of their salary and benefit.

Asked by: Hon IP Kin-yuen (Member Question No. 55)

Reply:

1. The number and percentage of teachers appointed as graduate teachers and non-graduate teachers and their respective wastage rate in public sector schools for the school years from 2011/12 to 2015/16 are as follows:

Primary Schools (Government and Aided)

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2011/12	6 970	39.0	3.5	10 900	61.0	6.2
2012/13	7 150	39.9	2.9	10 770	60.1	6.2
2013/14	7 330	40.0	3.4	10 990	60.0	5.6
2014/15	7 550	39.9	3.0	11 400	60.1	5.2
2015/16 (Estimate)	7 950	41.0	3.2	11 460	59.0	5.5

Secondary Schools (Government, Aided and Caput)

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2011/12	19 790	77.1	3.3	5 880	22.9	5.8
2012/13	18 820	78.2	7.0	5 240	21.8	12.6

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2013/14	18 510	78.8	4.2	4 990	21.2	7.9
2014/15	18 300	78.6	4.3	4 970	21.4	6.9
2015/16 (Estimate)	17 950	78.5	4.2	4 920	21.5	7.8

Regarding the non-graduate teachers, the number of teachers who have degree qualifications (degree holders), their percentage share among all non-graduate teachers and their respective wastage rate in public sector schools for the school years from 2011/12 to 2015/16 are as follows:

Primary Schools (Government and Aided)

School Year	Non-graduate Teachers		
	No. of degree holders*	%	Wastage rate (%)^
2011/12	9 720	89.1	5.2
2012/13	9 760	90.7	5.4
2013/14	10 100	91.9	4.8
2014/15	10 600	93.0	4.6
2015/16 (Estimate)	10 760	93.8	4.9

Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers		
	No. of degree holders*	%	Wastage rate (%)^
2011/12	5 300	90.2	5.7
2012/13	4 760	91.0	12.6
2013/14	4 560	91.4	7.9
2014/15	4 580	92.2	6.6
2015/16 (Estimate)	4 580	93.1	7.5

* Numbers are rounded to the nearest 10.

^ “Wastage Rate” refers to the number of drop-out teachers as a percentage of the total number of teachers as at mid-September of the preceding school year; and “drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

2. We shall continue to keep in view all relevant factors, including the financial implications, prioritization of resources deployment and schools’ progress in filling graduate teacher posts etc., and review the ratios of graduate teacher posts when necessary. Graduate and non-graduate teacher posts belong to two different streams under the teaching grade structure of public sector schools. Schools should assign duties according to the rank and specialties of individual teachers instead of the academic qualifications they possess.

- End -

CONTROLLING OFFICER'S REPLY**EDB232****(Question Serial No. 2426)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The main duties and responsibilities of the Office of the Government Chief Information Officer (OGCIO) include nurturing information technology (IT) talents. In order to find out the effectiveness of the relevant measures and whether resources have been used appropriately, please provide the following information in tabular form:

1. The current measures and progress related to the implementation of computer programming education in primary and secondary schools. Please also list the financial resources and manpower involved.
2. At present, in all primary and secondary students in Hong Kong, what are the respective numbers of teachers teaching Information and Communication Technology related subjects, the teacher-to-student ratios and the amount of public funding involved?
3. At present, which subjects are IT-related in the curricular of the junior and senior secondary levels and how many students are enrolling in the respective subjects?
4. At present, which disciplines are IT-related in the degree programmes offered by the universities and how many students are enrolling in and graduated from the respective disciplines? and

How many financial resources and manpower were involved in promoting IT education in universities and secondary schools last year?

Asked by: Dr Hon Elizabeth QUAT (Member Question No. 1)

Reply:

1. Computer lessons are offered in most primary and secondary schools. Schools are encouraged to adopt whole-school approach in the curriculum planning of integrating programming in relevant subjects. Modules of Computer Awareness Programme (CAP) for primary schools, including basic programming, have been developed by Education Bureau (EDB) to enable primary students to grasp the basic programming skills and computer knowledge. The modules have been updated in 2015 and could be used flexibly in relevant curricula or according to the contexts of schools. EDB will continue organising practical workshops and setting up school networks as support measures. EDB would also partner with community organisations to train up teachers and explore resources on this regard.

Schools teach programming related content at the secondary level through implementing the Technology Education Key Learning Area (TEKLA) Curriculum Guide (the 'Guide'). The Guide provides an open and flexible framework for schools to develop their school-based TEKLA curriculum which builds on the strengths of their schools and the needs of their students. The learning elements at the junior secondary

level in the Guide were enriched in August 2013 to give students a broad and balanced foundation on technology education. For students with talents or are interested in pursuing the study of programming further, Information and Communication Technology is offered as an elective subject at the senior secondary level. We will continue to arrange professional development programmes for teachers in the forthcoming years so as to enhance their professional capacity and to build learning communities within and across schools to benefit student learning.

The expenditure on and manpower for curriculum development, resource materials development and professional development programmes are absorbed by the recurrent expenditures of EDB. Separate estimate is not available.

2. All teachers in local primary and secondary schools, regardless of being subject-trained or not, are required to meet basic academic qualification requirements before they can be registered to teach in schools. Given the varied availability of subject expertise in schools, individual school management is always in the best position to recruit and/or flexibly deploy suitable teachers to provide the best learning opportunities for students in various subjects, including computer/ICT. Thus, the teacher-to-student ratio as well as the amount of public funding for individual subject are not available.
3. The subject related to information technology (IT) and student enrolment at the junior and senior secondary levels as in the 2014/15 school year are set out as follows:

Level	Junior Secondary	Senior Secondary
Subject(s) / Key Learning Area	Computer Literacy / enriched Technology Education Key Learning Area curriculum	Information and Communication Technology
Number of Students as in 2014/15 School Year	About 169 000	21 640

It is noteworthy that, at the junior secondary level, all secondary schools have been recommended to implement the enriched Technology Education Key Learning Area curriculum from Secondary 1 starting from the 2014/15 school year. The core and extension learning elements under the “Information and Communication Technology” knowledge context will replace the Computer Literacy syllabus.

4. As regards the UGC-funded sector, it should be reckoned that the bulk of recurrent grants to the institutions are in the form of a block grant, and hence the UGC is unable to attribute the actual subvention/expenditure on specific academic programmes and activities, e.g. promotion of IT education. According to the information provided by the institutions, the average student unit cost per annum of a UGC-funded undergraduate place for the 2014/15 academic year was \$222,000, the bulk of which is subsidised by Government subvention, with the remainder funded by income from tuition fee (i.e. \$42,100 per year). Student enrolment and number of graduates in full-time University Grants Committee (UGC)-funded undergraduate programmes and locally-accredited self-financing undergraduate programmes (including top-up degree) related to IT in the 2014/15 academic year is set out at Annex. Regarding the self-financing post-secondary education sector, we do not have readily available information about the financial resources and manpower involved in the promotion of IT education and operation of IT-related programmes.

In addition, with a view to better harnessing IT as a tool to enhance learning and teaching effectiveness in secondary schools, we promote e-learning in the school sector. In the 2015-16 financial year, Composite Information Technology Grant (CITG), amounting to \$353 million, was allocated to public sector schools to meet the diversified needs of schools on e-learning. Besides, professional development programmes, learning and teaching resources, and student activities have been developed and organised to support IT education in various areas/curricula in schools. The expenditure on and manpower for these items are absorbed by the recurrent expenditures of EDB.

Student Enrolment and Number of Graduates of Full-time University Grants Committee-funded Undergraduate Programmes Related to Information Technology, 2014/15

(Headcount)

Academic Year	Student Enrolment	No. of Graduates
2014/15	3 119	811

Notes:

1. Programmes related to information technology are determined having regard to the academic programme categories (APCs) of the programmes as reported by the UGC-funded institutions.
2. Since some UGC-funded programmes are mapped to more than one APC, the figures of student enrolment and graduates of these programmes are counted on a pro rata basis under the relevant APC. Thus the student numbers could be in decimal figures. In this case, the relevant figures are rounded to the nearest whole number.

Student Enrolment and Number of Graduates of Full-time Locally-accredited Self-financing Undergraduate Programmes in “Computer Science and Information Technology”, 2014/15

(Headcount)

Academic Year	Student Enrolment	No. of Graduates
2014/15	1 119	329

- End -

CONTROLLING OFFICER'S REPLY

EDB233

(Question Serial No. 1771)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (4) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In respect of special education, the Bureau will establish the special school cum resource centres and implement the adapted curriculum in schools for children with intellectual disability. In this regard, will the Bureau allocate new financial resources to support the above measures? If yes, what are the estimated expenditures involved for those two measures? What is the estimated expenditure on providing training for the relevant teachers?

Asked by: Hon Martin LIAO Cheung-kong (Member Question No. 34)

Reply:

Special Schools cum Resource Centres (SSRCs) place emphasis on empowering teachers of mainstream schools in catering for their students with special educational needs through cross-fertilization of expertise and networking. They have been supporting mainstream schools since the 2003/04 school year. The Education Bureau will continue with the establishment of the SSRCs. The participating SSRCs are provided with a cash grant to enable them to share their experience by providing school-based support for mainstream schools and organising workshops and seminars, etc. The expenditure on the SSRCs for the 2015/16 school year is estimated to be \$4.0 million.

The implementation of the adapted curriculum in schools for children with intellectual disability (ID) has already taken place since the implementation of new academic structure in 2009/10 school year. In the 2016/17 school year, the total expenditure on implementing adapted curriculum in schools for children with ID and on enriching learning and teaching materials for implementing the new academic structure is \$20.5 million, which amount includes \$2.2 million for professional development and training programmes for the relevant teachers.

- End -

CONTROLLING OFFICER'S REPLY**EDB234****(Question Serial No. 1772)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It was mentioned in paragraph 110 of the Budget Speech that Government will continue to invest heavily in nurturing talents. Apart from our ongoing efforts to enhance the quality of education, we shall also offer more internship and exchange opportunities to students and encourage the workforce to pursue continuing education, developing a good mix of generalists and professionals in Hong Kong. However, as compared to previous year, there is only an increase of 0.7% in the estimated financial provision for the Vocational and Professional Education this year which is not in line with the idea of promoting vocational and professional education as stated in the Policy Address and the Budget Speech. What are the reasons?

Asked by: Hon Martin LIAO Cheung-kong (Member Question No. 35)

Reply:

Vocational and professional education and training (VPET) plays a pivotal role in the education system, providing flexible and multiple pathways for school leavers and in-service personnel with diverse aspirations and abilities. It prepares people for future employment by equipping them with professional knowledge, practical skills and appropriate attitudes. It also nurtures requisite human capital in support of Hong Kong's economy.

The Government set up the Task Force on Promotion of Vocational Education (Task Force) in June 2014 with a view to mapping out a strategy to promote VPET in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations. The Education Bureau (EDB) has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council (VTC) campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;

- (e) extending the Pilot Training and Support Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years;
- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) in order to consider whether to extend the Scheme (SSSDP, with a total commitment of \$960 million, has been launched since the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts and a review is underway);
- (h) enhancing the promotion of the Qualifications Framework (QF) with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

The financial provision of Programme (6) Vocational and Professional Education only includes subvention to the Vocational Training Council (VTC) in respect of vocational and professional education for 2016-17 as well as the estimated expenditure of some policy initiatives being implemented in VTC with cashflow requirement in 2016-17. The financial provision of \$960 million for implementing SSSDP for three cohorts of students admitted from the 2015/16 to 2017/18 academic years is included under Programme (7) Policy and Support instead. Moreover, some additional non-recurrent expenditure required for implementing the Task Force's recommendations has not been included under the estimated expenditure for 2016-17 as the cashflow is required in other financial years.

Apart from the above, in order to further encourage continuing education, the Financial Secretary announced in the 2016-17 Budget Speech that the Government would implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by VTC, covering programmes in the disciplines of construction, engineering and technology. Subject to the approval by the Finance Committee of the Legislative Council, the pilot scheme will be implemented from the 2016/17 academic year and incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. The scheme will benefit around 5 600 students in total for three cohorts.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It is noted that while the Bureau will carry out more work in 2016-17, the estimated provision under Programme (7) Policy and Support is substantially reduced by 20%. What are the reasons for that?

Asked by: Hon Martin LIAO Cheung-kong (Member Question No. 36)

Reply:

The provision for 2016-17 under Programme (7) Policy and Support is \$636.6 million or 20.1% lower than the revised estimate of 2015-16. This is mainly due to the completion of the \$1 billion injection into the Qualifications Framework Fund in 2015-16, partly offset by higher cash flow requirement in 2016-17 for other non-recurrent items including the Study Subsidy Scheme for Designated Professions/Sectors, the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland, and the Scholarship Scheme for Studying Outside Hong Kong.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

It was stated in paragraph 117 of the Budget Speech that “implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year.”

Will the Government list out the estimated expenditure and manpower for each cohort, the number of target beneficiary for each cohort, eligibility assessment mechanism, and the tuition fee subsidy level?

Asked by: Hon Martin LIAO Cheung-kong (Member Question No. 47)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the

scheme. The pilot scheme will benefit around 5 600 students in total for three cohorts. A breakdown of the estimated expenditure and number of new beneficiaries by cohort is as follows –

	2016/17 cohort	2017/18 cohort	2018/19 cohort	Total
Estimated expenditure (\$ million)	62	68	70	200
Estimated number of new beneficiaries	1 700	1 900	2 000	5 600

- End -

CONTROLLING OFFICER'S REPLY**EDB237****(Question Serial No. 2940)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Under Matters Requiring Special Attention in 2016-17, the Bureau plans to introduce the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. What are the estimated recurrent and non-recurrent expenditures on the work in this respect for the next 3 financial years? In which regions the Bureau expects to step up its promotional efforts? Please provide the estimated expenditure on promotion and the estimated number of students enrolled for each region.

Asked by: Hon Martin LIAO Cheung-kong (Member Question No. 37)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the scholarship to be granted in 2016-17, 2017-18 and 2018-19 will amount to at most \$1.2 million, \$2.4 million and \$3.6 million respectively, and it will be funded by the investment income generated from the Scholarship Fund. Administration of the scholarship will be funded by existing resources of the Education Bureau (EDB). The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

To encourage more outstanding students from countries and regions along the "Belt and Road" to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for "Belt and Road" Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

The "Belt and Road" regions cover many countries and regions spanning Asia, Eastern Europe, Middle East and Africa. Given the objective of the Hong Kong Scholarship for "Belt and Road" Students to further strengthen the ties and educational exchanges between Hong Kong and the "Belt and Road" regions, the scheme will be implemented as a Government-to-Government collaborative initiative and introduced to

students of individual “Belt and Road” regions separately by phases. Subject to and upon the approval of the Finance Committee of the Legislative Council for the proposed injection of \$1 billion into the Scholarship Fund as mentioned above, we will identify and approach the governments of those “Belt and Road” regions with which we have collaboration in the field of education for introducing the Hong Kong Scholarship for “Belt and Road” Students to their students. The number of scholarship to be offered to students of individual “Belt and Road” regions and the publicity work involved will be worked out at that stage.

- End -

CONTROLLING OFFICER'S REPLY**EDB238****(Question Serial No. 1737)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What are the number of staff and the percentage of the 3 types of staff employed by the Vocational Training Council (VTC), i.e. under the Old Remuneration Package (ORP), New Remuneration Package (NRP) and Short-term Contract (TERM) in the past 3 years? It was understood that the VTC once recommended that the ratio of staff on long-term contracts to those on medium or short-term contracts should be set at 65:35 but at present the staff ratio has not yet reached the recommended standard. What are the reasons? What plan does the VTC have in place to achieve said standard?

Asked by: Hon POON Siu-ping (Member Question No. 26)

Reply:

Information about staff employed under various packages in the Vocational Training Council (VTC) for the past three years is given below –

Academic Year	Old Remuneration Package (ORP)	New Remuneration Package (NRP)	Short-term Contract	Total number of staff
2013/14	2 204 (38.8%)	2 682 (47.3%)	789 (13.9%)	5 675
2014/15	1 976 (34.3%)	2 895 (50.2%)	894 (15.5%)	5 765
2015/16 (As at January 2016)	1 875 (31.9%)	3 124 (53.1%)	884 (15.0%)	5 883

Note: Figures in brackets represent the ratios as compared to the total number of staff.

According to VTC, the 65:35 refers to the ratio of the number of open-ended contracts to fixed term contracts under ORP/NRP. Staff under the Short-term Contract package are not counted for the purpose of calculating this ratio. It is not a target to meet and the 65% is a cap to observe when considering offer of open-ended contracts. The offer of open-ended contracts is subject to factors including operational needs. This has been communicated to staff members via relevant circular and at various staff communication platforms.

CONTROLLING OFFICER'S REPLY**EDB239****(Question Serial No. 2348)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It was stated in paragraph 196 of the 2016 Policy Address that “the Government has accepted all the recommendations of the Task Force on Promotion of Vocational Education and will actively consider how to implement them.” The Task Force recommended a three-pronged strategy with a total of 27 recommendations. Please list the details and expenditure of the 27 recommendations.

Asked by: Hon POON Siu-ping (Member Question No. 51)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. Among others, it is recommended to rebrand VET to “vocational and professional education and training” (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force’s recommendations and would actively consider how to implement them. The Education Bureau (EDB) has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years;

- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors in order to consider whether to extend the Scheme;
- (h) enhancing the promotion of QF with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

EDB will provide administrative support to implement the recommendations. One time-limited civil service post at the rank of Senior Executive Officer will be created to help cope with the implementation workload. One civil service post at the rank of Executive Officer II will also be created to support the promotion of VPET in long run.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the provision of laboratory technicians in secondary schools, please provide the following information:

- (1) In respect of the entitlement of laboratory technicians at each public sector secondary school, how many schools employed 2 or less and 3 or more laboratory technicians respectively in each of the past 3 years?
- (2) With the updated provision of laboratory technicians to be in place in the 2016/17 school year, will there be any change in the entitlement of laboratory technicians at each public sector secondary school? How many schools are expected to employ 2 or less and 3 or more laboratory technicians respectively?
- (3) Under the updated provision of laboratory technicians, what is the definition of practical period of science subjects? What are the updated job descriptions for laboratory technicians?

Asked by: Hon TANG Ka-piu (Member Question No. 46)

Reply:

(1), (2) to (3)

The arrangements for freezing the provision of the laboratory technicians to schools will be extended to 31 August 2017.

For part (1), the information required is not readily available.

As discussed during the communication with stakeholders such as principals, teachers and laboratory technicians in the last few months, the “practical period” refers to science-related activities such as experiments and investigations conducted during lessons or after school. Besides, the work of laboratory technicians is not confined to laboratory and preparation room. Furthermore, laboratory technicians are also expected to provide support in science-related activities as well as practical-related assessment, managing science-related resource materials, promoting laboratory safety, etc, if appropriate.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It was mentioned in the Budget Speech that “To further encourage continuing education, I shall implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) starting from the next academic year.” Will the Education Bureau please provide information on the following:

- (a) Details of the said scheme, including eligibility, programme coverage, details of expenditure and number of beneficiaries etc.
- (b) Does VTC have other measures to encourage continuing education?

Asked by: Dr Hon CHIANG Lai-wan (Member Question No. 9)

Reply:

- (a) In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts.

- (b) VTC, through its 13 member institutions, offers a wide range of vocational and professional education and training (VPET) programmes to provide opportunities to school leavers and in-service personnel to acquire skills and knowledge for life-long learning and development. Apart from the provision of comprehensive VPET programmes and activities, VTC is also responsible for administering various training schemes and offering trade-specific skills upgrading programmes for school leavers and adult learners to pursue further studies.

CONTROLLING OFFICER'S REPLY**EDB242****(Question Serial No. 1380)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The report with strategies and concrete recommendations to promote vocational education by the Task Force on Promotion of Vocational Education (Task Force) under the Education Bureau was submitted to the Education Bureau last year. Will the Bureau provide the details of implementing the recommendations made by the Task Force and the related expenditure and manpower planning involved?

Asked by: Dr Hon CHIANG Lai-wan (Member Question No. 12)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. Among others, it is recommended to rebrand VET to “vocational and professional education and training” (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations and would actively consider how to implement them. The Education Bureau (EDB) has been following up on the implementation of the recommendations and the major progress so far is as follows –

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years;

- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors in order to consider whether to extend the Scheme;
- (h) enhancing the promotion of QF with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

EDB will provide administrative support to implement the recommendations. One time-limited civil service post at the rank of Senior Executive Officer will be created to help cope with the implementation workload. One civil service post at the rank of Executive Officer II will also be created to support the promotion of VPET in long run.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

- (i) Pilot Training and Support Scheme (Pilot Scheme)
- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;
- (ii) Industrial Attachment (IA)
- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;
- (iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)
- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

EDB243

(Question Serial No. 1401)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (Scheme) since 2015 to subsidise students to pursue full-time locally-accredited self-financing undergraduate programmes in selected disciplines, with a view to nurturing talent that can meet Hong Kong's social and economic needs. In this connection, would the Government advise on the following:

1. What is the total expenditure involved with the Scheme since 2015?
2. What are the subsidised professions since 2015?
3. What is the total number of students receiving subsidies since 2015?
4. What is the number of students receiving subsidies in each designated profession?
5. How does the Government evaluate the effectiveness of the Scheme?

Asked by: Dr Hon CHIANG Lai-wan (Member Question No. 33)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the

selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at Annex.

Approval from the Finance Committee of the Legislative Council was obtained in July 2014 with a total commitment of \$960 million for the implementation of SSSDP. An actual expenditure of about \$61 million was recorded as at February 2016. We are reviewing the effectiveness of SSSDP by obtaining feedback from the first cohort of students admitted in the 2015/16 academic year, the participating institutions, other self-financing post-secondary education institutions, the Committee on Self-financing Post-secondary Education as well as the relevant bureaux/departments, in order to further improve the operation of SSSDP and consider whether to extend the Scheme.

**Relevant Institutions, Selected Programmes, Number of Subsidised Places and Actual Intakes,
and Annual Subsidy Amount for the Cohort Admitted in the 2015/16 Academic Year**

Institutions	Disciplines	Programmes	Number of subsidised places	Number of actual intakes	Annual subsidy amount (\$)

CONTROLLING OFFICER'S REPLY**EDB244****(Question Serial No. 1409)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Bureau plans to introduce the Hong Kong Scholarship for “Belt and Road” Students to attract outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong starting from the 2016/17 academic year. In this connection, please advise if the Bureau will consider the suggestion of people in the commerce and industry sector that the scope of the scholarship should be extended to provide subsidies for Hong Kong students to go to countries along the “Belt and Road” for further studies, internship and exchange with a view to broadening the horizons of local young people? If yes, what are the details? If not, what are the reasons?

Asked by: Ir Dr Hon LO Wai-kwok (Member Question No. 24)

Reply:

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue university studies in Hong Kong, we propose to, starting from the 2016/17 academic year, introduce the Hong Kong Scholarship for “Belt and Road” Students by expanding the Targeted Scholarship Scheme under the HKSAR Government Scholarship Fund (Scholarship Fund) from 10 offers per year at present to cover 100 additional offers per year by phases. In this connection, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

To capitalise on the new opportunities created by the “Belt and Road” initiative as well as strengthen and promote further educational exchanges between Hong Kong and the “Belt and Road” regions, we have recently introduced a new Scheme for Subsidy on Exchange to “Belt and Road” Regions for Post-secondary Students to encourage and support local students in need to go on exchanges in the “Belt and Road” regions. The scheme aims to provide local students of full-time locally-accredited programmes at sub-degree and undergraduate level with means-tested grant to participate in exchange activities along the “Belt and Road” regions. 37 institutions have already registered to participate in the first subsidised period of the scheme from July 2016 to August 2017. Each eligible student can apply for means-tested grants twice capped at around \$50,000 in total (the exact grant limit is subject to the destination and duration of the exchange activities and the financial needs of individual students).

Subhead (No. & title): (-) Not specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. As at the end of 2015, by 18 districts, how many half-day, whole-day, and long whole-day kindergartens are there in the territory?
2. Over the past 1 year, what was the expenditure on the Pre-primary Education Voucher Scheme (PEVS)? Compared to the expenditure required by the upcoming free kindergarten education, what is the difference between the two?

Asked by: Hon Christopher CHUNG Shu-kun (Member Question No. 39)

Reply:

1. The number of kindergartens (KGs) operating whole-day (WD) classes, the number of KGs operating half-day (HD) classes and the number of Former Aided Child Care Centres (FACs) (Note) by District Council district in the 2015/16 school year is tabulated below.

District	Number of KGs operating WD classes	Number of KGs operating HD classes	Number of FACs
Central & Western	21	31	9
Wan Chai	12	21	6
Eastern	56	68	17
Southern	22	34	8
Sham Shui Po	36	33	13
Yau Tsim Mong	26	24	14
Kowloon City	51	79	15
Wong Tai Sin	41	32	17
Kwun Tong	58	46	24
Tsuen Wan	24	32	10
Tuen Mun	58	47	19
Yuen Long	53	57	18
North	32	37	10
Tai Po	28	26	9
Sha Tin	54	57	20
Sai Kung	44	50	13
Islands	23	30	5
Kwai Tsing	50	46	19

2. The revised estimate of expenditure on the Pre-primary Education Voucher Scheme (PEVS) is about \$3 billion in 2015-16. Other related expenses are about \$0.9 billion for the Kindergarten and Child Care Centre Fee Remission Scheme, Child Care Centre Subsidy Scheme, refund of rent, rates and government rent, etc. The full-year recurrent expenditure on free quality kindergarten (KG) education policy is estimated to be about \$6.7 billion in the 2017/18 school year.

Note: FACs are former child care centres operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.

- End -

CONTROLLING OFFICER'S REPLY**EDB246****(Question Serial No. 2976)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the supply and demand of kindergarten and primary school places in the North District and Tai Po, will the Government advise this Committee on the following:

- (1) The respective number of kindergarten and primary school places available and the respective number of school-age children in the above 2 districts in the past 3 years; and
- (2) Based on the Government's estimation, will there be a shortage of kindergarten and primary school places in the North District and Tai Po in the 2016/17 school year? If yes, what measures will be taken to address the issue?

Asked by: Hon Alvin YEUNG Ngok-kiu (Member Question No. 33)

Reply:

- (1) The number of students and places in kindergartens (KGs) and primary schools in the North and Tai Po Districts from the 2013/14 to 2015/16 school year are tabulated at Annex A and Annex B.
- (2) Based on the projected supply of KG places and school-age population aged 3-5 in the North and Tai Po Districts for the 2016/17 school year as below, it is estimated that there is adequate supply of KG places in these two districts.

District	Projected number of KG places	Projected school-age population aged 3-5
North	14 200	7 500
Tai Po	9 000	7 500

Notes:

1. Figures of projected school-age population aged 3-5 are compiled with reference to the latest 2014-based Population Projections released by the Census and Statistics Department in September 2015 and the "Projections of Population Distribution 2014 – 2023" released by the Planning Department in December 2014.
2. Figures of projected number of KG places are mainly based on the number of KG places offered in the 2015/16 school year; the estimated number of places that could be offered in existing vacant registered classrooms of KGs (including child care centre portions) based on permitted accommodation of the classrooms; and the number of KGs to commence or cease operation in the

2016/17 school year known to the Education Bureau (EDB) at the time of projection. The projected number of places may also be affected by the operation of half-day or whole-day classes by individual KGs.

3. KG education is not compulsory and has all along been provided by the private sector. Admission to KGs is the discretion of KGs subject to compliance with relevant rules and guidelines issued by EDB.

According to the latest information available, the school-age population aged 6 is projected to increase temporarily in the coming few years and reach the peak in 2018 before it decreases to a stable level. The school-age population aged 6 is generally considered appropriate for admission to Primary One (P1). The demand for public sector P1 places is projected to increase correspondingly in this transitional period.

The projected transient increasing demand for P1 places in the run up to 2018 is mainly due to babies born to Mainland women in Hong Kong whose spouses are not Hong Kong permanent residents, i.e. Type II babies, before the implementation of the “zero delivery quota” policy in 2013. Nonetheless, any deviations in the assumptions (such as the actual numbers of Type II babies to settle in Hong Kong for settlement and the timing) from the eventual situation may render the projected figures different from the actual turnout figures. For those Type II babies that do not return to Hong Kong for settlement, some of them will attend school in Hong Kong every day as cross-boundary students (CBS). Among CBS are also children of Hong Kong residents living in Shenzhen and it is difficult to accurately predict the number of CBS seeking admission to P1. Besides, due to various factors, in particular parental choice, there are uncertainties about the actual demand for school places in districts/school nets under the Primary One Admission (POA) System. These year-on-year changes are therefore not fully foreseeable.

To alleviate the impact of increasing CBS on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the EDB has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child’s POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

In parallel, EDB and the school sector have reached a consensus that construction of new schools to meet the transient increase in demand should be avoided as far as possible in light of the scarcity of land resources. Instead, flexible arrangements including, among others, temporarily allocating more students to each P1 class should be adopted to increase the supply of P1 places to ensure that there will not be any shortage of public sector school places in all districts including the North District and Tai Po during the transitional period.

**Number of Students and Places in Kindergartens in the North and Tai Po Districts
from the 2013/14 to 2015/16 school year**

Districts	2013/14		2014/15		2015/16	
	Students	Places	Students	Places	Students	Places
North	11 653	12 228	12 563	13 114	12 970	13 450
Tai Po	6 130	7 016	6 406	7 187	6 865	7 734

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include nursery, lower and upper classes in kindergarten-cum-child care centres.
3. Figures on places do not include vacant classrooms and vacant child care centre portions.

**Number of Students and Places in Primary Schools in the North and Tai Po Districts
from the 2013/14 to 2015/16 school year**

Districts	2013/14		2014/15		2015/16	
	Students	Places	Students	Places	Students	Places
North	18 124	17 930	18 558	18 205	18 958	18 570
Tai Po	12 142	12 591	12 858	13 161	13 673	13 627

Notes:

1. Figures refer to the position as at mid-September of the respective school years.
2. Figures include ordinary primary schools, but not special schools.
3. Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.

CONTROLLING OFFICER'S REPLY**EDB247****(Question Serial No. 0757)**Head: (173) Working Family and Student Financial Assistance AgencySubhead (No. & title): (228) Student financial assistanceProgramme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)Director of Bureau: Secretary for EducationQuestion:

Regarding the number of families in receipt of student financial assistance (including kindergarten fee remission and financial assistance for primary and secondary students), please provide the respective figures for 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16 –

	2011/12	2012/13	2013/14	2014/15	2015/16
Kindergarten fee remission					
Financial assistance for primary and secondary students					

Asked by: Hon LEUNG Yiu-chung (Member Question No. 19)Reply:

In the school years from 2011/12 to 2015/16, the number of families in receipt of fee remission under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS)¹ and student financial assistance under the School Textbook Assistance Scheme (STAS)² are set out below –

	2011/12	2012/13	2013/14	2014/15	2015/16 (up to 31.1.2016)
KCFRS	36 117	38 735	39 232	37 773	35 030
STAS	197 311	185 292	175 891	170 457	159 308

¹ Figures of beneficiaries on family basis are only available from 2015/16 upon the adoption of a household application form in 2015/16 for families with children attending pre-primary, primary and secondary schools. The figures from 2011/12 to 2014/15 are on student basis.

² Financial assistance schemes available for needy primary and secondary students include the STAS, Student Travel Subsidy Scheme, Subsidy Scheme for Internet Access Charges and Examination Fee Remission Scheme. The STAS covers the largest number of recipients among these schemes.

CONTROLLING OFFICER'S REPLY**EDB248****(Question Serial No. 0767)**Head: (173) Working Family and Student Financial Assistance AgencySubhead (No. & title): (228) Student financial assistanceProgramme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)Director of Bureau: Secretary for EducationQuestion:

Please provide the number of children who are still required to pay school fee after being issued with education vouchers and granted fee remission (full remission), and the additional amount of school fee payable by these children in the table below –

	Number of children who are still required to pay school fee	Additional amount of school fee payable
Half-day		
Whole-day		
Long Whole-day		

Asked by: Hon LEUNG Yiu-chung (Member Question No. 30)Reply:

In the 2015/16 school year (as at 31 January 2016), the respective number of kindergarten (KG) students attending whole-day and half-day KGs who are still required to pay school fee after receiving the subsidy under the Pre-primary Education Voucher Scheme and full fee remission under the Kindergarten and Child Care Centre Fee Remission Scheme, and the additional amount of school fee payable by these students (up to the end of the school year) are set out below –

Students attending whole-day KGs

Additional amount of school fee payable	Number of KG students who are still required to pay school fee
\$1 - \$4,000	2 298
\$4,001 - \$8,000	408
\$8,001 - \$12,000	139
\$12,001 - \$16,000	68
\$16,001 or above	57
Total	2 970

Students attending half-day KGs

Additional amount of school fee payable	Number of KG students who are still required to pay school fee
\$1 - \$2,000	912
\$2,001 - \$4,000	550
\$4,001 - \$6,000	338
\$6,001 or above	8
Total	1 808

Note: In calculating the additional amount of school fee payable by the KG students concerned in 2015/16 (up to the end of the school year), it is assumed that the KG students will continue to study in the same KGs with the same assistance level throughout the school year.

We do not have information on the breakdown of the number of students attending the long whole-day KGs who are required to pay school fee and the additional amount of school fee involved.

CONTROLLING OFFICER'S REPLY**EDB249****(Question Serial No. 3071)**

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance
(101) Means-tested loan for tertiary students pursuing publicly-funded Programmes
(102) Non-means-tested loan scheme
(103) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Under this Programme, the Working Family and Student Financial Assistance Agency provides publicly-funded financial assistance in the form of grant and loan to students of different education levels. Please set out the internal standards or criteria of the Student Finance Office (SFO) for assessing the level of financial assistance to be offered, the number of successful appellants with the amount of financial assistance adjusted upward and their percentage in the total number of appellants.

Asked by: Hon LEUNG Yiu-chung (Member Question No. 54)

Reply:

The SFO of the Agency adopts a standard income test mechanism which operates on an "Adjusted Family Income" (AFI) formula as follows –

$$\text{AFI} = \frac{\text{Gross annual income of the family}}{\text{Number of household members} + 1^{\text{Note 1}}}$$

Note 1: For single-parent families of 2 or 3 members, the "plus 1" factor in the divisor of the AFI formula will be increased to "plus 2".

The AFI calculated is then referenced against a Ready Reckoner to assess the eligibility of the applicants for student financial assistance and if eligible, the level of assistance receivable.

The above income test mechanism was last reviewed in 2011 and approved by the Finance Committee vide FCR(2011-12)16. Applications for financial assistance for pre-primary, primary and secondary students are not subject to asset test.

As for applications for financial assistance for post-secondary students, the level of assistance calculated by way of the AFI formula is then subject to discounting in the asset test under which the Net Asset Value (NAV) of the family is referenced against the Sliding Scale of Asset Value for Discounting Financial Assistance. The NAV is arrived as follows -

$$\text{NAV} = \frac{\text{Total asset value}^{\text{Note 2}} \text{ of the applicant and parents}}{\text{Number of household members}}$$

Note 2: The value of the first home of the applicant's family is disregarded.

The AFI cut-off points in the Ready Reckoner and the NAV cut-off points in the Sliding Scale of Asset Value for Discounting Financial Assistance are adjusted annually according to the movement of the Consumer Price Index (A).

Appeals/applications for review of financial assistance mainly involve change to the applicant's family and financial circumstances which would affect the support then assessed and provided based on the family status before the change. Changes involving addition of new family members, change of families' financial status, etc will usually lead to an upward adjustment of financial assistance after reassessment. Details of the appeals/applications for review of financial assistance received and completed in the 2015/16 academic year (up to 31 January 2016) are as follows -

Financial Assistance Scheme	Total no. of appeals/applications for review received (A)	No. of cases in (A) with financial assistance adjusted upward (B)	% of cases in (A) with financial assistance adjusted upward (C) = (B)/(A) x 100%
Schemes for pre-primary, primary and secondary students			
Kindergarten and Child Care Centre Fee Remission Scheme	108	101	93.5%
Financial assistance for primary and secondary students [#]	1 132	756	66.8%
Schemes for post-secondary students			
Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS)	422	176	41.7%
Financial Assistance Scheme for Post-secondary Students (FASP)	326	110	33.7%

[#] Financial assistance schemes available for needy primary and secondary students include School Textbook Assistance Scheme, Student Travel Subsidy Scheme, Subsidy Scheme for Internet Access Charges and Examination Fee Remission Scheme.

As for the non-means-tested loan schemes (NLS) for post-secondary students and students pursuing continuing and professional education (i.e. the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT) (for students pursuing programmes covered under the TSFS), Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) (for students pursuing programmes covered under the FASP) and Extended Non-means-tested Loan Scheme (ENLS) (for students pursuing specific post-secondary/continuing and professional education courses)), loan borrowers are not required to go through any means test. The loan amount is capped at the tuition fee of the programme/course. With

effect from the 2012/13 academic year, two life-time loan limits have been imposed (i.e. the life-time combined loan limit under the NLSFT and NLSPS and a separate life-time loan limit under the ENLS) to prevent excessive borrowing. The two life-time loan limits are adjusted annually in accordance with the movement of the Composite Consumer Price Index. Both life-time loan limits for the 2015/16 academic year are \$340,000.

There was no review case on the result of NLS application in the past five academic years.

No. of loan borrowers who made repayment^	52 567	53 683	54 279	53 179	47 425
Total					
Amount of interests received (\$ million)	224.33	156.84	141.90	141.86	66.78
No. of loan borrowers who made repayment^	143 998	149 731	155 287	159 041	146 713

* As at 31 January 2016

^ One loan borrower may make repayment to loan account(s) under one or more financial assistance scheme(s) administered by the Student Finance Office (SFO) of the Agency.

As student loans are funded by public money, the SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers and will only consider writing off the loans when they are irrecoverable. Regarding the TSFS, FASP, NLSFT, NLSPS and ENLS, the number of write-off cases and the amount involved in the 2011/12 to 2015/16 academic years are as follows –

	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
(A) TSFS					
No. of write-off cases#	13	19	20	11	3
Amount involved (\$ million)	0.35	0.74	1.07	0.36	0.16
(B) FASP					
No. of write-off cases#	4	7	9	1	3
Amount involved (\$ million)	0.25	0.33	0.22	0.00	0.10
(C) NLSFT					
No. of write-off cases#	9	8	4	5	2
Amount involved (\$ million)	0.38	0.41	0.28	0.22	0.05
(D) NLSPS					
No. of write-off cases#	3	9	15	4	1
Amount involved (\$ million)	0.09	0.60	1.49	0.45	0.02
(E) ENLS					
No. of write-off cases#	27	46	54	63	17
Amount involved (\$ million)	0.76	2.00	2.06	1.99	0.56
Total					
No. of write-off cases#	56	89	102	84	26
Amount involved (\$ million)	1.83	4.08	5.12	3.02	0.89

* As at 31 January 2016

A write-off case may involve more than one loan repayment accounts of one or more financial assistance scheme(s) administered by the SFO.

The outstanding student loans above were irrecoverable and written off mainly due to the decease of loan borrowers or bankruptcy of both the loan borrowers and their indemnifiers.

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the initiative to “continue to develop the Integrated Student Financial Assistance System (ISFAST)”, please advise:

1. the technical content to be developed continuously, the expenditure involved and the expected time of completion.
2. whether the expected improvements in operational efficiency and effectiveness will contribute to lower recurrent expenditure, especially manpower savings?
3. the number of applications under various student financial assistance schemes processed in each of the past three years.

Asked by: Hon IP Kwok-him (Member Question No. 25)

Reply:

1. The Student Finance Office of the Agency will continue to develop the Integrated Student Financial Assistance System (ISFAST) and to carry out the organisation restructuring to build up a new function-based service delivery mode. The ISFAST is developed based on latest web application technologies, with high availability and load balancing features, and a rule-based engine to cater for various business rules for individual student financial assistance schemes. The system development work is actively underway and will be implemented by phases. The first phase of the ISFAST covering assistance schemes at pre-primary, primary and secondary levels has been put to production since March 2016 and the preparatory work for the second phase covering assistance schemes at post-secondary level has started. The development of the ISFAST is funded under Capital Works Reserve Fund Head 710.

The estimated expenditure for the implementation of the ISFAST for 2015-16 and 2016-17 are \$13.8 million and \$2.7 million respectively.

2. It is expected that savings in recurrent expenditure would be achieved upon full implementation of the ISFAST, including staff savings arising from the deletion of 38 posts of various ranks.
3. The number of applications received for processing under various student financial assistance schemes over the past three academic years are as follows -

Financial assistance scheme	2013/14	2014/15	2015/16 (as at 31.1.2016)
Tertiary Student Finance Scheme – Publicly-funded Programmes	32 147	31 010	29 784
Financial Assistance Scheme for Post-secondary Students	31 402	27 367	26 565
Non-means-tested Loan Schemes	38 002	39 283	39 865
Kindergarten and Child Care Centre Fee Remission Scheme	43 591	42 304	47 109
Continuing Education Fund (CEF)*	35 880	32 849	25 911
Examination Fee Remission Scheme (EFRS)	23 329	20 977	N.A. [@]
Subsidy Scheme for Internet Access Charges	168 379	159 491	149 084
School Textbook Assistance Scheme	247 541	234 761	219 582
Student Travel Subsidy Scheme	228 675	215 340	198 744
Tuition Fee Reimbursement under the Diploma Yi Jin	7 029	7 401 [^]	N.A. [#]
Financial Assistance Scheme for Designated Evening Adult Education Courses	808	762 [^]	N.A. [#]
Pre-primary Education Voucher Scheme	49 668	52 374	64 500

* The CEF is open to applications throughout the year. The figures shown here relate to financial rather than academic years. The Fund is under the purview of the Labour and Welfare Bureau.

@ The first batch of disbursement for the EFRS is normally made in March each year and hence as at 31.1.2016, relevant figures for the 2015/16 academic year are not available.

[^] The figures show the position as at 31.1.2016. A small number of 2014/15 reimbursement applications are still under processing.

[#] Reimbursement for 2015/16 applications will be processed in 2016-17 financial year.

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (000) Operational expenses

Programme: (1) Student Assistance Scheme
(2) Low-income Working Family Allowance

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

What are the estimated number of staff, annual emoluments, housing allowance and allowances for the expenses on visits and entertainment pertaining to the following posts in the Working Family and Student Financial Assistance Agency (WFSFAA) in the coming year?

- Head, WFSFAA
- Deputy Controller
- Assistant Controller
- Senior Executive Officer
- Principal Executive Officer
- Chief Executive Officer
- Executive Officer
- Senior Clerical Officer
- Senior Systems Manager
- Systems Manager
- Analyst/Programmer I
- Analyst/Programmer II
- Treasury Accountant
- Accounting Officer
- Project Manager
- Systems Analyst

Asked by: Hon LEUNG Kwok-hung (Member Question No. 2028)

Reply:

The estimated number of officers and the annual salaries in the coming year for the posts listed in the question are tabulated below –

Post/Rank	Number#	Annual Salary^ (\$ million)
Head, WFSFAA	1	2.29
Deputy Controller	5	6.55
Assistant Controller	12	11.18
Senior Executive Officer	9	8.39
Principal Executive Officer	2	3.33
Chief Executive Officer	5	6.55
Executive Officer (including Executive Officer I and II)	118	65.43
Senior Clerical Officer	104	53.80
Senior Systems Manager	2	2.62
Systems Manager	4	3.73
Analyst/Programmer I	8	5.45
Analyst/Programmer II	10	4.51
Treasury Accountant	2	1.78
Accounting Officer (including Accounting Officer I and II)	3	1.54
Project Manager	*	N/A
Systems Analyst	*	N/A

It refers to the projected establishment of civil servants in 2016-17 as at 31.3.2017.

^ Notional Annual Mid-point Salary is used for calculating the salaries of the civil service posts.

* We may engage these non-civil service contract (NCSC) staff in a year to meet changing operational and service needs. We are therefore unable to project the number in the 2016-17 financial year before it begins.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 General expenses of the civil service and there is no provision for individual officers under Head 173. There is no provision for housing allowances for NCSC staff.

For duty visits, we do not have plans to arrange any overseas visit or visit to the Mainland in 2016-17 and have therefore not earmarked any provision in the 2016-17 Estimates for the purpose. There is no provision for expenses for duty visits for individual officers.

For official entertainment, officials of the WFSFAA will consume official meals based on operational needs and prior approval is needed before incurring any related expenses. In making an application for official entertainment, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. There is no provision for expenses for entertainment for individual officers.

No. of recovered cases@	17 011	13 099	6 995

* As at 31 January 2016

The number of default cases in the 2013/14 to 2015/16 academic years is the number as at the end of the academic years concerned (i.e. 31 July 2014 and 31 July 2015) and 31 January 2016 respectively. The number represents the number of loan borrowers who have started repayment in the previous academic years and the academic year concerned but are still in default on that date.

^ The figures include those referred to the Department of Justice and filed directly to the Small Claims Tribunal, loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement (IVA) or deferment / write-off applications were under processing.

@ The number of default cases has no direct relevance to the number of recovered cases in an academic year. The former shows the default position as at the end of the academic year. The latter represents the number of defaulters who had responded to our loan recovery actions within that academic year.

(b) In the past three academic years, the numbers of applications for deferment of loan repayment on the ground of serious illness and writing off of the loans on the ground of permanent disability are as follows –

Schemes	Academic Year					
	2013/14		2014/15		2015/16*	
	No. of deferment applications	No. of write-off applications	No. of deferment applications	No. of write-off applications	No. of deferment applications	No. of write-off applications
TSFS	1	3	0	0	1	0
FASP	0	0	0	0	1	0
NLS	2	4	2	0	1	0
Total	3	7	2	0	3	0

Note: Each application for deferment or write-off may involve more than one loan repayment account of one or more financial assistance scheme(s).

* As at 31 January 2016

(c) In the 2015/16 academic year, the estimated expenditure involved in recovering defaulted student loans is \$28.1 million which is mainly for salaries provision for staff involved in the work.

As student loans are funded by public money, the SFO endeavours to make every effort to recover the outstanding loans from the defaulters and their indemnifiers and we have not set a specific target on the number of cases to be recovered. Through our concerted efforts in recent years, the overall default rate in relation to the number of loan repayment accounts has dropped considerably from 12.45% at the end of the 2009/10 academic year (i.e. 31 July 2010) to 7.33% in the 2015/16 academic year (as at 31 January 2016). The number of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned has also reduced significantly by 76.4% from 11 855 at the end of the 2009/10 academic year to 2 801 in the 2015/16 academic year (as at 31 January 2016), notwithstanding an increase in the number of loan repayment accounts by 20.6% (from about 139 500 to

168 300) over the same period. In the 2015/16 academic year (as at 31 January 2016), all default cases (excluding cases in which legal recovery action had been initiated, loan borrowers had been declared bankrupt / applied for IVA or deferment applications were under processing by the SFO) are of debt age within one year. The SFO will take appropriate recovery action to urge the defaulters and their indemnifiers to repay the outstanding loans.

In the 2016/17 academic year, apart from continuing the concerted efforts to recover the outstanding student loans from the defaulters and their indemnifiers in an expeditious manner, we will continue to implement enhanced measures to prevent loan borrowers from becoming defaulters through sending them short messaging service earlier to remind them to repay on time and settle the arrears (if any), and appeal to them to approach us for assistance if they have genuine financial difficulties. In addition, we will further strengthen the promotion of prudent financial and credit management and responsible borrowing to students on all fronts through the SFO's website, enhancing collaboration with tertiary education institutions and related organisations (such as the Investor Education Centre), and disseminating more publicity materials pertinent to financial education to loan applicants and loan repayers at different junctures. The above measures should help student loan borrowers better manage their personal finance and encourage them to seek our assistance at an earlier stage when they have difficulty in repaying the student loans. This will in turn further reduce the number of default cases, default rate and debt age of default cases.

(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Committee of the following –

- (1) What are the respective numbers of post-secondary students receiving grants and loans under various schemes administered by the Working Family and Student Financial Assistance Agency for the period from 2013/14 to 2015/16?
- (2) For loans provided to post-secondary students under various schemes administered by the Agency, what is the loan repayment rate for the period from 2013/14 to 2015/16? What are the manpower and expenditure involved?
- (3) For default cases in which the student loan borrowers have no intention or are unable to repay, what measures or follow-up actions will be taken by the Agency to recover the loans? What are the manpower and expenditure involved?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 39)

Reply:

- (1) The numbers of post-secondary students receiving grants and loans under the Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP), the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS) in the 2013/14 to 2015/16 academic years are as follows –

	Academic Year		
	2013/14	2014/15	2015/16*
TSFS

ENLS			
Number of students receiving loans	7 211	6 637	4 847

* As at 31 January 2016

- (2) Regarding the TSFS, FASP, NLSFT, NLSPS and ENLS, the loan repayment rates in the 2013/14 to 2015/16 academic years are as follows –

	Academic Year								
	2013/14			2014/15			2015/16*		
	Total amount demanded (\$ million)	Total amount settled # (\$ million)	Loan repayment rate	Total amount demanded (\$ million)	Total amount settled # (\$ million)	Loan repayment rate	Total amount demanded (\$ million)	Total amount settled # (\$ million)	Loan repayment rate
TSFS	253.41	246.00	97.08%	223.75	216.68	96.84%	102.52	96.77	94.39%
FASP	170.72	155.15	90.88%	192.15	169.34	88.13%	89.68	79.15	88.26%
NLSFT	230.22	220.85	95.93%	234.25	223.38	95.36%	124.17	111.91	90.13%
NLSPS	401.06	351.65	87.68%	444.40	380.98	85.73%	221.39	181.83	82.13%
ENLS	461.27	415.43	90.06%	439.20	401.24	91.36%	216.43	174.25	80.51%
Total	1,516.68	1,389.08	91.59%	1,533.75	1,391.62	90.73%	754.19	643.91	85.38%

* As at 31 January 2016

The figures denote the total of all amounts settled in respect of the demand notes issued in a particular academic year. These include the amounts settled in the academic year concerned and in subsequent years (up to 31 January 2016).

In the 2016/17 academic year, the estimated expenditure involved in managing loan accounts, including activation of loan accounts for repayment and issuing demand notes for loan repayment etc., is \$20.0 million. It is mainly for salaries provision for 73 staff (including civil servants and non-civil service contract (NCSC) staff of the Student Finance Office (SFO) of the Agency) involved in the work.

- (3) Student loan borrowers who have two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as defaulters. We have appealed to student loan defaulters to approach the SFO if they have financial difficulties in repaying their loans and have established a mechanism to handle their applications for loan restructuring or deferment of loan repayment. While some defaulters would approach the SFO to restructure their loans or to defer repayment, others would ignore notices of loan repayment and reminders issued by the SFO, and would not approach the SFO to seek assistance. When faced with legal recovery action, some defaulters may repay all the loans in full or agree with the SFO to repay by instalments. The SFO is unable to

ascertain the reasons of default for individual defaulters. As for loan borrowers who approach the SFO to seek deferment of repayment, their main reasons are financial hardship, further full-time studies and serious illness.

On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the Department of Justice (DoJ) or filing claims to the Small Claims Tribunal (SCT) directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

In the 2016/17 academic year, the estimated expenditure involved in recovering defaulted student loans is \$29.8 million. It is mainly for salaries provision for 105 staff (including civil servants and NCSC staff of both the SFO and the DoJ) involved in the work.

Director of Bureau: Secretary for Education

Question:

Regarding the non-local students studying in the universities in Hong Kong, will the Government inform this Committee of:

- (a) the total number of non-local students studying in funded institutions in Hong Kong in the past 3 academic years, with a breakdown by institution, country/place of origin, and undergraduate/postgraduate programme; and
- (b) the expenditure involved and the expenses for assisting these students in adapting to life in Hong Kong in the said academic years?

Asked by: Hon Starry LEE Wai-king (Member Question No. 19)

Reply:

- (a) The numbers of non-local students of UGC-funded programmes by institution, level of study and place of origin in the past three academic years are set out in the **Annex**.
- (b) Funding to institutions is made in the form of a block grant on the basis of approved student places allocated to the institutions. It is not possible to attribute specific amount of funding on measures to facilitate students' adaptation to life in Hong Kong.

CONTROLLING OFFICER'S REPLY

EDB256

(Question Serial No. 0917)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of approved senior year undergraduate places of University Grants Committee-funded programmes offered to associate degree graduates from the 2014/15 to 2018/19 academic years as well as relevant expenditure by institution and programme; and also the numbers of places and amounts of tuition fees of self-financing programmes offered to associate degree graduates for pursuing the second year or third year of their graduate studies in the 2014/15 and 2015/16 academic years.

Asked by: Hon Starry LEE Wai-king (Member Question No. 20)

Reply:

The number of approved University Grants Committee (UGC)-funded senior year undergraduate places by institution and programme for the 2014/15 to 2018/19 academic years is set out at **Annex A**.

Funding for the UGC-funded senior year places is subsumed under the block grant to institutions. Thus, the UGC is unable to identify and attribute the actual expenditure on specific programmes. It is noteworthy that according to the institutions, the average student unit cost per annum of a UGC-funded undergraduate (including senior year) place for the 2014/15 academic year was \$222,000, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the academic years from 2015/16 onwards is not yet available.

For the self-financing programmes, according to the information provided by institutions, the number of estimated intake places and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes for the 2014/15 and 2015/16 academic years are set out at **Annex B**.

It is noteworthy that all sub-degree graduates, including graduates of associate degree and higher diploma programmes, are eligible to apply for admission to senior year undergraduate places and top-up degree programmes.

CONTROLLING OFFICER'S REPLY**EDB257****(Question Serial No. 0919)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Please provide the figures on research funding secured by each institution through competition administered by the University Grants Committee (UGC)/the Research Grants Council (RGC) for the 2014/15 and 2015/16 academic years respectively.

Asked by: Hon Starry LEE Wai-king (Member Question No. 22)Reply:

Research funding secured by each UGC-funded institution through competition administered by UGC/RGC for the 2014/15 and 2015/16 academic years is listed below:

Institution	2014/15 (\$ million)	2015/16^(Note 1) (\$ million)
City University of Hong Kong	121.1	172.2
Hong Kong Baptist University	49.3	49.5
Lingnan University	3.5	7.6
The Chinese University of Hong Kong	217.3	212.5
Hong Kong Institute of Education	19.2	27.3
The Hong Kong Polytechnic University	123.6	117.7
The Hong Kong University of Science and Technology	154.8	196.7
The University of Hong Kong	414.2	254.9
Total^(Note 2)	1,103.0	1,038.4

Note 1 Position up to 29 February 2016.

Note 2 Figures may not add up due to rounding.

(Remarks: Research funding awarded to an institution in the academic year is meant to be spent in the coming several years, over the duration of a project.)

CONTROLLING OFFICER'S REPLY

EDB258

(Question Serial No. 0920)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

- (a) Under the prevailing hostel policy, all undergraduate students should be given the opportunity to stay in a student hostel for at least one year of their courses. Please provide a breakdown of the requirements for publicly-funded hostel places by UGC-funded institutions under the said hostel policy and the additional requirements that are above the existing level of supply in the 2015/16 academic year.
- (b) Please provide a breakdown of the respective numbers of student hostel places available for allocation by UGC-funded institutions, by the categories of publicly-funded, privately-funded and temporary hostel places, in the 2015/16 academic year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 24)

Reply:

- (a) Under the prevailing hostel policy, subject to the availability of land and resources, the provision of publicly-funded student hostels in the University Grants Committee (UGC)-funded institutions is calculated in accordance with the following criteria¹: all undergraduate students should be given the opportunity to stay in student hostel for at least one year of their courses; and all research postgraduates, non-local students as well as undergraduate students whose daily travelling time exceeds four hours, should be provided with student hostel places.

In the 2015/16 academic year, some 18 490 publicly-funded hostel places are required in order to provide one year stay in student hostel for all local undergraduate students in the UGC-funded institutions. Given that the actual allocation of student hostel places to individual students is a matter within institutional autonomy, we are unable to ascertain the number of existing hostel places allocated to satisfy the requirements of one year stay in student hostels. For indicative purpose, in the 2015/16 academic year, 19 395 local students successfully applied for hostel places (including publicly-funded, privately-funded and temporary). Details by institution are set out below:

¹ The criteria are applicable to all UGC-funded institutions, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Hong Kong Institute of Education (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the Institute having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

Institution	Requirements for publicly-funded hostel places for the provision of one year stay in hostel for local undergraduate students	Number of local students who successfully applied for hostel places
City University of Hong Kong	3 350	1 610
Hong Kong Baptist University	1 604	1 276
Lingnan University	656	1 991
The Chinese University of Hong Kong	3 505	5 205
The Hong Kong Institute of Education	677	1 725
The Hong Kong Polytechnic University	3 573	2 353
The Hong Kong University of Science and Technology	1 940	2 277
The University of Hong Kong	3 189	2 958
Total	18 494	19 395

- (b) The number of hostel places available in the UGC-funded institutions at the beginning of the 2015/16 academic year as advised by the UGC-funded institutions is listed below -

Institution	2015/16 academic year			
	Publicly-funded Hostel Places	Privately-funded Hostel Places	Temporary Hostel Places	Total
City University of Hong Kong	3 440	208	0	3 648
Hong Kong Baptist University	1 629	242	216	2 087
Lingnan University	1 164	1 170	101	2 435
The Chinese University of Hong Kong	5 534	2 593	348	8 475
The Hong Kong Institute of Education	2 000	0	186	2 186
The Hong Kong Polytechnic University	4 654	0	251	4 905
The Hong Kong University of Science and Technology	3 308	1 172	672	5 152
The University of Hong Kong	5 573	613	169	6 355
Total	27 302	5 998	1 943	35 243

CONTROLLING OFFICER'S REPLY**EDB259****(Question Serial No. 0921)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

A key factor in promoting internationalisation is the provision of hostel places – for both local and non-local students. Regarding university student hostel places, please provide information on:

- (a) student hostel places provided by each UGC-funded institution, numbers of student applications and percentages of successful applications with breakdown by local and non-local student hostel places in the 2014/15 and 2015/16 academic years; and
- (b) number of places in hostels to be built by each institution.

Asked by: Hon Starry LEE Wai-king (Member Question No. 23)Reply:

- (a) The number of hostel places available for allocation, the number of applications received from local and non-local students, and their respective success rates in the 2014/15 and 2015/16 academic years as advised by the University Grants Committee (UGC)-funded institutions are set out at the **Annex**.
- (b) One publicly-funded hostel project, namely 8015EL “Tseung Kwan O Joint Student Hostel”¹ with an approved project estimate of \$198.3 million (excluding 25% contribution by institution) will be completed in mid-2016 providing 520 publicly-funded hostel places to The Hong Kong University of Science and Technology (HKUST). Another publicly-funded hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by institution) is currently under construction with target completion in mid-2018. It will provide a total of 676 publicly-funded hostel places to The Chinese University of Hong Kong (CUHK).

The UGC and the Government continue to work closely with institutions to meet the additional requirements for publicly-funded hostel places. Apart from the projects mentioned above, the UGC has provided support to ten hostel projects under planning by institutions, which will provide a total of 9 380 publicly-funded hostel places. Of which, 8 454 places to be delivered in three projects from The University of Hong Kong, as well as one each from the CUHK, City University of Hong Kong, Hong Kong Baptist University, The Hong Kong Polytechnic University and HKUST, are undergoing the detailed design stage or will soon commence the detailed design after appointment of consultants. Institutions involved will seek funding support under the established mechanism. The remaining 926 places will be delivered in two capital project proposals planned by the CUHK.

¹ The Tseung Kwan O Joint Student Hostel was originally a joint project providing a total of 520 hostel places, with a provisional split of 370 places for HKUST and 150 places for Hong Kong Baptist University (HKBU). Subsequently, HKBU decided to transfer its 150 hostel places from the Tseung Kwan O Joint Student Hostel to a new hostel and academic building project at a new site at Renfrew Road, Kowloon Tong near its main campus. The proposed transfer was agreed by the two universities in April 2015 and as a result, the student hostel in Tseung Kwan O is now solely owned by HKUST.

Statistics on Allocation of Student Hostel Places in 2014/15 and 2015/16 Academic Years

-
- ¹ Include publicly-funded and privately-funded hostel places as well as temporary places available for allocation.
 - ² Include repeated applications from students who have resided in hostels in the past.
 - ³ Include applications from local students enrolled in UGC-funded and non-UGC funded programmes.
 - ⁴ Include applications from non-local students enrolled in UGC-funded and non-UGC funded programmes. Exchange students are also included.

- End -

CONTROLLING OFFICER'S REPLY**EDB260****(Question Serial No. 0922)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding Hong Kong Diploma of Secondary Education (HKDSE) candidates pursuing university and post-secondary programmes, please advise this Committee of the following:

1. the number of HKDSE candidates, the number of candidates who met the basic entry requirements for the University Grants Committee (UGC)-funded first-year first-degree (FYFD) programmes and the number of those who met the basic entry requirements but did not enter any of the UGC-funded FYFD programmes through the Joint University Programmes Admission System in the 2014/15 and 2015/16 academic years; and
2. the intakes of locally-accredited full-time sub-degree programmes in the 2014/15 and 2015/16 academic years, with breakdown by UGC-funded and non-UGC-funded programmes.

Asked by: Hon Starry LEE Wai-king (Member Question No. 25)Reply:

1. The number of candidates sitting for the Hong Kong Diploma of Secondary Education (HKDSE) examinations, the number of candidates who met the basic entry requirements for the University Grants Committee (UGC)-funded first-year first-degree (FYFD) programmes and the number and percentage of candidates having met the general entrance requirements but did not enter UGC-funded FYFD places through the Joint University Programmes Admissions System (JUPAS) in the 2014/15 to 2015/16 academic years are set out at Annex 1.

Student admission is within the autonomy of the institutions. Each institution has its own merit-based admission policy in assessing the applications of local students through the JUPAS and non-JUPAS routes. In addition to the general entrance requirements, individual institutions may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Hence, students meeting the general entrance requirements may not necessarily meet all requirements for admission to individual undergraduate programmes. Furthermore, students meeting all the general entrance requirements might not enter the UGC-funded FYFD places through JUPAS due to a variety of reasons. For instance, students might choose to pursue studies in self-financing undergraduate programmes in Hong Kong or further their studies outside Hong Kong (including the Mainland and elsewhere). For the 2015/16 academic year, in addition to the UGC-funded places, the Hong Kong Academy for Performing Arts offered 172 publicly-funded undergraduate intake places. The self-financing sector also offered some 9 060 intake places in full-time locally-accredited self-financing undergraduate programmes in the 2015/16 academic year. According to the 2015 Secondary 6 Students' Pathway Survey conducted by the Education Bureau in October to December 2015, about 10% of the Secondary 6 graduates who responded to the survey (or some 6 000 graduates out of a total of some 62 300 graduates of the 2014/15

school year who responded) have chosen to pursue further studies outside Hong Kong.

Furthermore, it should be noted that the number of local secondary school graduates will continue to drop significantly, from about 62 700 in 2015 to 43 400 in 2022. In his 2014 Policy Address, the CE has announced a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways. On full implementation of these measures, and given the declining student population, we envisage that there will be sufficient publicly-funded and self-financing FYFD places for all secondary school leavers meeting minimum entrance requirements for university admission by the 2016/17 academic year, assuming the performance of secondary school graduates is maintained at comparable level.

2. The number of student intakes of UGC-funded and non-UGC-funded locally accredited full-time sub-degree programmes in the 2014/15 to 2015/16 academic years are at Annex 2.

Admission of local students to UGC-funded first-year first-degree (FYFD) places through JUPAS route from the 2014/15 to 2015/16 academic years

Year	Joint University Programmes Admissions System (JUPAS)				
	No. of candidates sitting for the HKDSE examinations in the relevant year ⁽¹⁾	Candidates meeting the general entrance requirements of the UGC-funded FYFD programmes ⁽¹⁾		Candidates meeting the general entrance requirements but did not enter UGC-funded FYFD places through JUPAS ⁽³⁾	
		No.	% ⁽²⁾	No.	% ⁽²⁾
HKDSE Examination					
2014/15	78 400	27 971	35.7%	15 669	20.0%
2015/16	72 859	25 782	35.4%	13 450	18.5%

Notes:

- (1) Provided by the Hong Kong Examinations and Assessment Authority. In addition to the general entrance requirements, individual institutions may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only.
- (2) As a percentage of the number of candidates sitting for the HKDSE examinations in the relevant year.
- (3) Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded institutions through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursue further studies in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead, etc.

Student intakes (Headcount) of UGC-funded and non-UGC-funded locally accredited full-time sub-degree programmes, 2014/15 to 2015/16 academic years

Year	UGC-funded programmes	Non-UGC-funded programmes ⁽¹⁾
2014/15	2 031	30 207
2015/16	2 031 ⁽¹⁾	30 850 ⁽²⁾

Note :

1. Including publicly-funded programmes offered by the Vocational Training Council and self-financing programmes.
2. Provisional figures.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the admission of research postgraduate students in local institutions, will the Government advise this Committee on the numbers of applications applying for research postgraduate courses and the percentages of successful applications in the past 3 years. Please provide the information broken down by the students' places of origin and by Doctor of Philosophy and Master of Philosophy courses.

Asked by: Hon Starry LEE Wai-king (Member Question No. 29)

Reply:

The number of applications, intake numbers and intake numbers expressed as a percentage of number of applications to UGC-funded research postgraduate (RPg) programmes, broken down by academic level (Doctor of Philosophy / Master of Philosophy) and place of origin from the 2013/14 to 2015/16 academic years are tabulated in the Annex.

**Number of Applications and Student Intakes of UGC-funded Research Postgraduate Programmes
by Academic Level and Place of Origin, 2013/14 to 2015/16**

Notes:

1. Number of applications of research postgraduate programmes (RPg) refers to the number one year prior to the corresponding academic year.
2. The place of origin of non-local students is determined having regard to their nationality.
3. The number of RPg students are in decimal places which are all rounded to integers in this table. If the RPg students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.
4. # Student intakes for the 2015/16 academic year are provisional figures.
5. Abbreviations:

PhD Doctor of Philosophy

MPhil Master of Philosophy

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown by institution and programme of the number of Year 2 and Year 3 degree places funded by the University Grants Committee for sub-degree graduates and the expenditure involved in the 2016/17 academic year, and also of the number of Year 2 and Year 3 degree places of self-financing programmes for sub-degree graduates and the respective tuition fees in the 2015/16 academic year.

Asked by: Hon Starry LEE Wai-king (Member Question No. 47)

Reply:

The approved University Grants Committee (UGC)-funded senior year undergraduate places by institution and programme for the 2016/17 academic year are set out at Annex A. As funding for the senior year places is subsumed under the block grant to institutions, the UGC is unable to identify and attribute the actual expenditure on specific programmes. It is noteworthy that according to the institutions, the average student unit cost per annum of a UGC-funded undergraduate (including senior year) place for the 2014/15 academic year was \$222,000, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the academic years from 2015/16 onwards is not yet available.

As for the self-financing programmes, according to the information provided by the institutions, the number of estimated intake places and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes for the 2015/16 academic year are at Annex B.

CONTROLLING OFFICER'S REPLY**EDB263****(Question Serial No. 1105)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Please provide the number of places and amount of subvention for full-time and part-time publicly-funded and self-financing social work undergraduate and sub-degree programmes of all post-secondary institutions for the past 5 academic years and the coming academic year.

Post-secondary Institutions	Full-time/ Part-time	Publicly-funded/ self-financing	Undergraduate/ Sub-degree	Number of Places					
				2011/ 12	2012/ 13	2013/ 14	2014/ 15	2015/ 16	2016/ 17

Post-secondary Institutions	Full-time/ Part-time	Publicly-funded/ self-financing	Undergraduate/ Sub-degree	Amount of Subvention					
				2011/ 12	2012/ 13	2013/ 14	2014/ 15	2015/ 16	2016/ 17

Asked by: Hon CHEUNG Kwok-che (Member Question No. 2)Reply:

The approved numbers of the University Grants Committee (UGC)-funded places of the sub-degree and undergraduate social work programmes from the 2011/12 to 2016/17 academic years are at Annex A. The bulk of recurrent grants to the institutions are in the form of a block grant based on the approved student numbers allocated to institutions. As funding for the said programmes is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes. The average student unit cost for a particular level is derived based on the actual cost incurred on UGC-funded expenditure items as reported by institutions. Based on the information as reported by the institutions, the average student unit costs per annum at sub-degree and undergraduate levels for the 2011/12 to 2014/15 academic years were \$144,000 and \$216,000 respectively, the bulk of which is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$31,575 and \$42,100 for sub-degree and undergraduate programmes respectively). The average student unit cost for the 2015/16 academic year and beyond is not yet available.

The number of estimated intakes for full-time locally-accredited self-financing undergraduate and sub-degree programmes relating to social work programmes from the 2011/12 to the 2016/17 academic years are set out at Annex B.

CONTROLLING OFFICER'S REPLY**EDB264****(Question Serial No. 1116)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding the development of publicly-funded post-secondary education, will the Government provide the number of publicly-funded degree and sub-degree places, as well as the participation rates represented as the proportion of publicly-funded degree and sub-degree places to the population of the relevant cohort in each of the past 5 years?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 14)Reply:

The requested information for the past five years is tabulated below:

Academic year	Publicly-funded undergraduate intake places ¹		Overall undergraduate participation rate of the relevant cohort ^{2,3}	Publicly-funded sub-degree intake places ⁴		Overall post-secondary participation rate of the relevant cohort ^{2,5}
	Approved number	Participation rate of the relevant cohort ²		Actual intakes	Participation rate of the relevant cohort ²	
2011/12 ⁶	16 842	20.8%	30.3%	8 684	N/A	N/A
2012/13 ⁷	32 814	N/A	N/A	9 903	N/A	N/A
2013/14	18 153	22.6%	39.4%	11 047	13.7%	67.0%
2014/15	19 165	24.0%	46.2%	12 480	15.7%	68.5%
2015/16	20 377 [#]	26.5% [#]	46.5% [#]	12 791 [#]	16.6% [#]	71.3% [#]

Notes:

1. Including first-year first-degree (FYFD) and senior year undergraduate intake places offered by the University Grants Committee (UGC)-funded institutions, the Hong Kong Academy for Performing Arts (HKAPA) and under the Study Subsidy Scheme for Designated Professions/Sectors starting from the 2015/16 academic year.
2. Relevant cohort refers to the average mid-year resident population between the ages of 17 to 20 for the 2011/12 academic year and between the ages of 18 to 20 as from the 2012/13 academic year onwards, as a result of the implementation of the New Academic Structure.
3. The overall undergraduate participation rate of the relevant cohort takes into account the approved number of publicly-funded undergraduate intake places and the actual intakes of self-financing undergraduate programmes.
4. Including the actual intakes of sub-degree programmes offered by UGC-funded institutions, HKAPA and the Vocational Training Council.
5. The overall post-secondary participation rate of the relevant cohort takes into account the approved number of publicly-funded FYFD places; the actual intakes of self-financing FYFD places; and the actual intakes of publicly-funded and self-financing sub-degree programmes.

6. The 2011/12 academic year was a gap year during which there were no Secondary Five graduates. Sub-degree participation rate is undefined for the year.
7. The 2012/13 academic year was a double cohort year. Publicly-funded FYFD places offered in the year were doubled to cater for two cohorts of senior secondary students graduating in the same year. Undergraduate and sub-degree participation rates are undefined for the year.
8. # Provisional figures.

CONTROLLING OFFICER'S REPLY

EDB265

(Question Serial No. 2174)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the estimated number of staff, annual emoluments, housing allowance and allowances for the expenses on visits and entertainment pertaining to the following posts in the University Grants Committee in 2016-17:

- Secretary-General
- Deputy Secretary-General
- Assistant Secretary-General
- Executive Officer
- Statistician
- Research Manager
- Statistical Officer I
- Senior Executive Officer
- Senior Research Administrator
- Research Administrator
- Senior Project Officer
- Treasury Accountant
- Accountant
- Accounting Officer
- Senior Clerical Officer
- Clerical Officer
- Departmental Secretary
- Executive Co-ordinator
- Information Technology Officer

Asked by: Hon LEUNG Kwok-hung (Member Question No. 2031)

Reply:

The estimated number of permanent posts mentioned in the question and the annual salaries in the University Grants Committee (UGC) Secretariat in 2016-17 are tabulated below–

	Post/Rank	Number	Total Annual Salary^{Note}
(a)	Secretary-General	1	2,527,800
(b)	Deputy Secretary-General	2	3,946,800
(c)	Assistant Secretary-General	8	10,472,640
(d)	Senior Executive Officer, Executive Officer I and Executive Officer II	18	12,865,440
(e)	Statistician and Statistical Officer I	3	1,885,980
(f)	Treasury Accountant and Accounting Officer I	4	3,143,520
(g)	Senior Clerical Officer and Clerical Officer	4	1,689,420

Note: Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries.

Apart from the above permanent posts, the UGC Secretariat may also engage non-civil service contract staff in a year to meet changing operational and service needs, e.g. Research Manager, Senior Research Administrator, Research Administrator, Senior Project Officer, Accountant, Accounting Officer, Information Technology Officer, etc. We are unable to project the number of NCSC staff in the 2016-17 financial year before it begins.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 general expenses of the civil service and there is no provision for individual officers under Head 190. There is no provision for housing allowances for the non-civil service contract staff.

In 2016-17, officials of the UGC Secretariat will conduct duty visits and consume official meals based on operational needs and prior approval is needed before incurring any related expenses. In making an application for duty visit or official entertainment, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditures are fully justified and appropriate for the official purpose in question. There is no provision for expenses for duty visits and entertainment for individual officers.

CONTROLLING OFFICER'S REPLY

EDB266

(Question Serial No. 2565)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Under this Programme, will the Administration advise the Committee on:

- (1) the expenditure on full-year salary provision for the Secretary-General of University Grants Committee for 2016-17?
- (2) the number of non-local students in publicly-funded programmes in 2015-16? How many of them came from the Mainland? What is the expenditure involved?
- (3) the estimated number of non-local students in publicly-funded programmes in 2016-17? How many of them came from the Mainland? What is the estimated expenditure involved?
- (4) the estimated operational expenditure on the provision of hostel places for non-local students for 2016-17? What is the estimated number of hostel places to be offered to non-local students?

Asked by: Hon Albert CHAN Wai-yip (Member Question No. 75)

Reply:

- (1) The annual remuneration of the post of Secretary-General in 2016/17 is \$2,527,800. The Notional Annual Mid-point Salary (NAMS) is used for calculating the remuneration.
- (2) & (3) The number of non-local students enrolled in UGC-funded programmes in the 2015/16 academic year is 15 730, among whom 11 894 are from the Mainland China. The estimated number of non-local students of UGC-funded programmes for the 2016/17 academic year is not available.

Funding provided by the UGC to institutions is made in the form of a block grant on the basis of approved student places allocated to the institutions. It is not possible to attribute specific amount of funding to non-local students. That said, it is noteworthy that all non-local students of sub-degree, undergraduate and taught postgraduate programmes are required to pay tuition fee at a level that is at least sufficient to recover all additional direct costs.

- (4) UGC-funded institutions operate their student hostels on a self-financing basis through charges levied on hostel places. There is no provision of recurrent expenditure under Head 190 for the operation of student hostels of UGC-funded institutions.

The allocation of student hostel places to individual students is a matter within institutional autonomy. The UGC-funded institutions allocate their hostel places according to their own established criteria and procedures and taking into account the actual number and individual merits of applications received from

local and non-local students. Institutions have yet to administer the allocation of hostel places to individual local and non-local students for the 2016/17 academic year. The allocation of hostel places at the beginning of the 2015/16 academic year as advised by the UGC-funded institutions is as follows:

Institution	Number of hostel places allocated in the 2015/16 academic year	
	Local students	Non-local students
City University of Hong Kong	1 610	2 009
Hong Kong Baptist University	1 276	810
Lingnan University	1 991	399
The Chinese University of Hong Kong	5 205	3 270
The Hong Kong Institute of Education	1 725	399
The Hong Kong Polytechnic University	2 353	2 546
The Hong Kong University of Science and Technology	2 277	2 680
The University of Hong Kong	2 958	3 002
Total	19 395	15 115

- End -

CONTROLLING OFFICER'S REPLY**EDB267****(Question Serial No. 1982)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The number of non-local students pursuing University Grants Committee (UGC)-funded taught programmes in the 2014/15 academic year was 9 471, representing about 11% of the total student enrolment. In this connection, please advise on the following:

- a. The number of non-local students pursuing UGC-funded programmes from the 2011/12 to 2015/16 academic years, with a breakdown by the place of origin:

Place of origin/ academic year				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				

- b. The number of non-local students pursuing UGC-funded programmes from the 2011/12 to 2015/16 academic years, with a breakdown by the level of study set out in table form as shown below:

	Sub-degree programmes	Degree programmes	Taught Postgraduate Programmes	Research Postgraduate Programmes
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				

Oceania				
Southeast Asia				
South America				
North America				
Others				

- c. The respective numbers of local and non-local students pursuing UGC-funded programmes from the 2011/12 to 2015/16 academic years, with a breakdown by the level of study set out in table form.

Asked by: Hon Gary FAN Kwok-wai (Member Question No. 34)

Reply:

- a. The numbers of non-local students of UGC-funded programmes by place of origin from the 2011/12 to 2015/16 academic years are set out in the table below.

(headcount)

Place of Origin	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16 [#]
The Mainland of China	8 936	10 963	11 374	11 610	11 894
Taiwan	142	280	374	470	548
Japan and Korea	330	544	723	841	960
Other parts of Asia	883	1 281	1 398	1 520	1 622
Russia	13	21	24	32	38
European Union	220	286	307	321	307
Other European countries	39	50	54	53	50
Africa	37	49	60	86	104
Oceania	19	20	16	23	29
Central and South America	35	40	39	35	27
North America	115	127	142	160	151
Others	-	-	-	-	-
Total	10 770	13 661	14 510	15 151	15 730

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. To tie in with the implementation of the new academic structure, UGC-funded institutions admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
3. [#] Provisional figures.
4. '-' denotes 'nil'.
5. Figures may not add up to the corresponding totals owing to rounding. If research postgraduate students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students.

- b. The numbers of non-local students of UGC-funded programmes by level of study and place of origin from the 2011/12 to 2015/16 academic years are set out in the table below.

CONTROLLING OFFICER'S REPLY**EDB268****(Question Serial No. 1983)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding the number of students pursuing the University Grants Committee (UGC)-funded programmes, please advise the Committee of the following:

- (1) The revised estimate for the total number of students for the 2015/16 academic year is 95 538, which is an increase of 11 643 over the original estimate of 83 895. Is this entirely due to over-enrolment? If yes, please provide the respective numbers of local and non-local students admitted through over-enrolment by types of programmes (i.e. undergraduate, taught postgraduate, research postgraduate and sub-degree) in each UGC-funded tertiary institutions.
- (2) Are all the above over-enrolments beyond the approved student number targets funded by the UGC?

Asked by: Hon Gary FAN Kwok-wai (Member Question No. 35)

Reply:

The University Grants Committee (UGC)-funded institutions may over-enroll students to their UGC-funded programmes on the understanding that no extra resources are provided by the UGC. Generally speaking, over-enrollment across the whole institution not exceeding 4% for local students is permitted. As regards non-local students, in accordance with Government's policy, the UGC-funded institutions may enroll non-local students to their UGC-funded sub-degree, undergraduate and taught postgraduate programmes up to 20% of the approved UGC-funded student number targets for these programmes. This 20% comprises up to 4% within the UGC funded number and up to 16% outside the UGC-funded number (the so called "4%-in-16%-out" policy). Over the years, institutions have been exercising this flexibility in over-enrolment in their UGC-funded sub-degree, undergraduate and taught postgraduate programmes.

Besides, it is noteworthy that, starting from the 2016/17 academic year, the "4%-in-16%-out" policy will be replaced by a "20%-out" policy, i.e. all new non-local students in sub-degree, undergraduate and taught postgraduate programmes will have to be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes, by study level.

For research postgraduate (RPg) programmes, institutions are allowed to enroll RPg students up to 40% over and above their respective approved student numbers, subject to conditions as stipulated in the UGC Notes on Procedures. Over the years, institutions have been exercising this flexibility in over-enrolment in support of their research projects.

As a result of over-enrollment, actual student enrollment is bigger than the approved student number target. Details by institution and level of study for the 2015/16 academic year are set out at [Annex](#).

CONTROLLING OFFICER'S REPLY

EDB269

(Question Serial No. 2497)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Will the Education Bureau/ University Grants Committee (UGC) advise on:

- a. the amount of interest-free loans approved under the Start-up Loan Scheme in the 2014/15 and 2015/16 academic years by post-secondary institution?
- b. UGC recommended in its Report on Higher Education Review 2010 that a single quality assurance body for the entire post-secondary sector should be set up. The Government mentioned earlier that they needed time to explore the feasibility of the recommendation. Does the Administration have any decision on the setting up of a single quality assurance body? What are the details?

Asked by: Hon MA Fung-kwok (Member Question No. 75)

Reply:

- a. In 2001, the Government launched the Start-up Loan Scheme (SLS) to provide interest-free loans to support non-profit-making self-financing post-secondary institutions to develop new college premises and/or re-provision existing premises operating in sub-optimal environment. In the 2014/15 academic year, Chu Hai College of Higher Education was approved a loan of \$250 million to finance part of the construction cost of a new purpose-built campus in Tuen Mun East. No loan was approved in the 2015/16 academic year.
- b. The University Grants Committee (UGC) recommended in its Report on Higher Education Review 2010 that a single quality assurance (QA) body for the entire post-secondary sector should be set up. While the Government is open-minded towards the idea of a single QA body, balancing the mixed views of the stakeholders, the Government considers that incremental measures should be adopted in the meantime to enhance our QA mechanism, introduce an element of external overview, and ensure coherence. The measures include:
 - (a) The establishment of the Liaison Committee on Quality Assurance (LCQA) which comprises representatives of three QA bodies in Hong Kong (namely the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ), the Quality Assurance Council (QAC) under UGC and Joint Quality Review Committee (JQRC)) as well as the Education Bureau (EDB) to promote sharing of good practices among all the QA bodies and enhance consistency and transparency so as to enhance accountability; and
 - (b) The conduct of periodic external audits and reviews on both self-financing and publicly-funded sub-degree operations under the aegis of the UGC-funded institutions will be carried out to ensure consistency and coherence in standards. A working group comprising representatives

nominated by UGC, UGC-funded institutions and HKCAAVQ was formed to plan for and oversee external quality audits on sub-degree operations of the UGC-funded institutions. The working group completed its deliberations and made its recommendations on the optimal approach for the external quality audits and the long-term mechanism for such audits to the Education Bureau in June 2015. The Government accepted the recommendation of the working group and invited the UGC to assume the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded institutions, with the involvement of QAC as the audit operator. With the agreement of the UGC and the QAC to take on the responsibility, preparation for the conduct of the external quality audit, including formulation of the audit manual, is underway, with a view to commencing the audit cycle in end 2016.

- End -

CONTROLLING OFFICER'S REPLY**EDB270****(Question Serial No. 0055)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Under the existing policy, institutions funded by the University Grants Committee (UGC) may set aside up to 4% within the UGC-funded places and up to 16% outside the UGC-funded places for admission of non-local students to their UGC-funded sub-degree, undergraduate and taught postgraduate programmes (the 4%-in-16%-out policy). Starting from the 2016/17 academic year, UGC will change the 4%-in-16%-out policy to a 20%-out policy, so that all the UGC-funded places at institutions will be utilised for admission of local students.

- a) Since the implementation of the 4%-in-16%-out policy, what are the respective numbers of non-local students admitted by various UGC-funded institutions to UGC-funded first-year-first-degree (FYFD) programmes in each of the years? Please list out the numbers with the relevant (1) years, (2) names of the funded institutions, (3) programmes and (4) numbers of local students admitted to the programmes.
- b) What are the timetable of UGC and the expenditures involved for implementing the 20%-out policy? Will the policy be implemented by phases?
- c) Will consideration be given to increasing the number of UGC-funded FYFD places after the implementation of the 20%-out policy by UGC? If so, what are the details and the expenditures involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 3)Reply:

- a) The "4%-in-16%-out" policy has been implemented since the 2008/09 academic year. The numbers of local and non-local students admitted to UGC-funded first-year first-degree (FYFD) programmes by institution and broad academic programme category from the 2011/12 to 2015/16 academic years are at Annex.
- b) The new "20%-out" policy will be implemented starting from the 2016/17 academic year. All new non-local students in sub-degree, undergraduate and taught postgraduate programmes should be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes, by study level. The UGC has consulted its funded institutions and they have not indicated operational difficulties. The additional work involved is absorbed by the existing staff of the UGC Secretariat.
- c) In the 2012/13 to 2014/15 triennium, the Government has increased the number of UGC-funded FYFD places from 14 620 to 15 000 per annum. Looking ahead, the number of local secondary school

graduates will drop significantly, from about 62 700 in 2015 to 43 400 in 2022. In his 2014 Policy Address, the CE has announced a series of measures to increase subsidised higher education opportunities further, in a bid to provide school leavers with broader and more diversified articulation pathways. Following the full implementation of these measures, and given the declining student population, we envisage that there will be sufficient publicly-funded and self-financing FYFD places for all secondary school leavers meeting minimum entrance requirements for university admission by the 2016/17 academic year, assuming the performance of secondary school graduates is maintained at comparable level. Hence, the Government has decided to maintain the number of UGC-funded FYFD places at 15 000 per annum during the 2016/17 to 2018/19 triennium.

Number of Local and Non-local Students Admitted to UGC-funded First-year First-degree Programmes by Institution and Broad Academic Programme Category, 2011/12 to 2015/16 Academic Years

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures. In the above table, the relevant figures are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. ‘-’ denotes nil.
3. # Provisional figures.
4. ‘@’ denotes a number less than 0.5.
5. Abbreviations:

CONTROLLING OFFICER'S REPLY**EDB271****(Question Serial No. 0149)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- a) Please list in the table below the respective numbers of candidates sitting the Hong Kong Advanced Level (HKAL) and the Hong Kong Diploma of Secondary Education (HKDSE) examinations (figures since 2012 only) and the relevant figures in each of the past 5 years, i.e. 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16.

Year	Approved student number target of University Grants Committee (UGC)-funded first-year first-degree (FYFD) programmes	Joint University Programmes Admissions System (JUPAS)			Non-JUPAS	
		No. of candidates sitting the HKAL/ HKDSE examinations	No. of candidates meeting the general entrance requirements of the UGC-funded FYFD programmes	No. of candidates meeting the general entrance requirements but were not admitted to UGC-funded FYFD programmes through JUPAS	No. of applications for UGC-funded FYFD programmes from local students	No. of local students admitted
HKAL						
2011/12						
2012/13						
HKDSE						
2012/13						
2013/14						
2014/15						
2015/16						

- b) What are the respective numbers of private candidates sitting the HKAL and HKDSE examinations in each of the past 5 years, i.e. 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 1)Reply:

The number of candidates sitting for the Hong Kong Advanced Level (HKAL) and Hong Kong Diploma of Secondary Education (HKDSE) examinations, the approved student number targets of the University Grants

Committee (UGC)-funded first-year first-degree (FYFD) places, the number and percentage of candidates having met the general entrance requirements but did not enter UGC-funded FYFD places through the Joint University Programmes Admission System (JUPAS), the number of local students admitted through the non-JUPAS route, and the numbers of private candidates sitting the HKALE and HKDSE Examination in the past five years from the 2011/12 to 2015/16 academic years are set out at the Annex.

Student admission is within the autonomy of the institutions. Each institution has its own merit-based admission policy in assessing the applications of local students through the JUPAS and non-JUPAS routes. In addition to the general entrance requirements, individual institutions may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Hence, students meeting the general entrance requirements may not necessarily meet all requirements for admission to individual undergraduate programmes. Furthermore, students meeting all the general entrance requirements might not enter the UGC-funded FYFD places through JUPAS due to a variety of reasons. For instance, students might choose to pursue studies in self-financing undergraduate programmes in Hong Kong or further their studies outside Hong Kong (including the Mainland and elsewhere). For the 2015/16 academic year, in addition to the UGC-funded places, the Hong Kong Academy for Performing Arts offered 172 publicly-funded undergraduate intake places. The self-financing sector also offered some 9 060 intake places in full-time locally-accredited self-financing undergraduate programmes in the 2015/16 academic year. According to the 2015 Secondary 6 Students' Pathway Survey conducted by the Education Bureau in October to December 2015, about 10% of the Secondary 6 graduates who responded to the survey (or some 6 000 graduates out of a total of some 62 300 graduates of the 2014/15 school year who responded) have chosen to pursue further studies outside Hong Kong.

Furthermore, it should be noted that the number of local secondary school graduates will continue to drop significantly, from about 62 700 in 2015 to 43 400 in 2022. In his 2014 Policy Address, the CE has announced a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways. On full implementation of these measures, and given the declining student population, we envisage that there will be sufficient publicly-funded and self-financing FYFD places for all secondary school leavers meeting minimum entrance requirements for university admission by the 2016/17 academic year, assuming the performance of secondary school graduates is maintained at comparable level.

Admission of local students to UGC-funded first-year first-degree (FYFD) places through JUPAS and non-JUPAS routes from the 2011/12 to 2015/16 academic years

Year	Approved student number target of University Grants Committee (UGC)-funded first-year first-degree (FYFD) places	Joint University Programmes Admissions System (JUPAS)					Non-JUPAS

Notes:

- (1) Provided by the Hong Kong Examinations and Assessment Authority. Figures in () refer to private candidates. In addition to the general entrance requirements, individual institutions may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only.
- (2) As a percentage of the number of candidates sitting for the HKAL/HKDSE examinations in the relevant year. Figures in () refer to the percentage of the private candidates sitting for the HKAL/HKDSE examinations in the relevant year.
- (3) Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded institutions through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursue further studies in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead; those who participated in the Early Admissions Scheme (which ceased operation in the 2012/13 academic year), etc.
- (4) Local students applying via the non-JUPAS route include those applicants holding qualifications other than HKAL/HKDSE examinations, e.g. degree graduates pursuing a second degree, sub-degree graduates and students, secondary students holding international qualifications such as International Baccalaureate (IB) and the General Certificate of Education (GCE), etc.
- (5) Provided by the eight UGC-funded institutions. Each individual local student can only submit one application to each institution to apply for several programmes (except for HKIEd which requires applicants to submit multiple applications if they wish to apply for several programmes). However, one applicant may apply to more than one institution, and hence the UGC is unable to attribute the actual number of applicants applying to the UGC-funded programme via non-JUPAS.

- (6) For the 2012/13 academic year, some institutions have included the number of local applicants applying for 3-year and/or 4-year programmes in both figures as breakdown by cohort was not available.
- (7) Provisional figures.

(Question Serial No. 0176)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the operation of the University Grants Committee (UGC), please inform this Committee of:

- a) the meeting attendance rates of respective members of the UGC and its sub-committees in the past 2 years;
- b) the meeting attendance rates of respective members of the Research Grants Council (RGC) and its sub-committees in the past 2 years; and
- c) the meeting attendance rates of respective members of the Quality Assurance Council (QAC) and its audit panels in the past 2 years.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 36)

Reply:

- a) The attendance rates of members of the University Grants Committee (UGC) at the meetings of the UGC, its sub-committees and groups from 1 January 2014 to 31 December 2015 are at **Annex A**.
- b) The attendance rates of members of the Research Grants Council (RGC) at the meetings of the RGC, its committees, panels and working group from 1 January 2014 to 31 December 2015 are at **Annex B**.
- c) The attendance rates of members of the Quality Assurance Council (QAC) at the meetings of the QAC from 1 January 2014 to 31 December 2015 are at **Annex C**. QAC members are not members of the QAC quality audit panels.

Furthermore, to ensure openness and transparency, the attendance record of UGC, RGC and QAC members is posted on the UGC's website and updated on a regular basis.

CONTROLLING OFFICER'S REPLY**EDB273****(Question Serial No. 1920)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Will the Government provide this Committee with the following information:

- the respective numbers of local, Mainland and overseas students studying self-financed and University Grants Committee (UGC)-funded postgraduate programmes in the past 5 years;
- the amount of financial assistance provided by the Government through various scholarships in the past 5 years; and
- the respective numbers of local, Mainland and overseas postgraduate students receiving scholarships in the past 5 years?

Asked by: Hon Kenneth Leung (Member Question No. 2.02)

Reply:

According to figures provided by institutions, the number of students enrolled in self-financing and University Grants Committee (UGC)-funded postgraduate programmes from the 2011/12 to 2015/16 academic years, with a breakdown by place of origin are as follows.

Academic year	Number of students pursuing postgraduate programmes ¹					
	Self-financing ²			UGC-funded ³		
	Local	Mainland	Other places	Local	Mainland	Other places
2011/12	27 439	7 580	1 292	5 405	4 353	500
2012/13	25 604	10 029	1 327	5 279	4 648	613
2013/14	25 162	12 523	1 166	4 873	4 853	715
2014/15	24 644	13 001	1 158	4 817	4 978	798
2015/16 ⁴	N.A. ⁵			4 788	5 167	839

Notes :

1. Figures include taught and research postgraduate programmes.
2. Figures refer to enrolments in self-financing taught postgraduate programmes (full-time and part-time) and research postgraduate programmes (full-time).
3. Figures include students within normal study periods.
4. Figures in respect of UGC-funded postgraduate programmes for the 2015/16 academic year are provisional.
5. N.A. denotes figures not available.

Under two publicly-funded scholarship schemes, namely the HKSAR Government Scholarship Fund and the Scholarship for Prospective English Teachers, postgraduate students are eligible alongside students of other study levels. In addition, the Hong Kong PhD Fellowship Scheme launched by the Research Grants Council of the UGC welcomes applications from those students who are seeking admission as new full-time PhD students in UGC-funded institutions, irrespective of their country of origin. The total amounts disbursed under these three scholarship/fellowship schemes in the past five academic years are as follows:

Name of Scholarships/Fellowships	Disbursement by academic year (\$ million)				
	2011/12	2012/13	2013/14	2014/15	2015/16
HKSAR Government Scholarship Fund	32.1	71.7	89.4	96.1	97.6
Scholarship for Prospective English Teachers (figures refer to amount of disbursement to postgraduate students only)	0.5	0.55	0.65	0.25	0.6
Hong Kong PhD Fellowship Scheme	55.5	96.8	105.5	129.8	137.8

A breakdown of the scholarship recipients pursuing UGC-funded postgraduate programmes under the above three schemes is as follows:

(a) HKSAR Government Scholarship Fund

Academic year	Number of recipients pursuing UGC-funded postgraduate programmes under the HKSAR Government Scholarship Fund					
	Local	Amount (\$ million)	Mainland	Amount (\$ million)	Other places	Amount (\$ million)
2011/12	5	0.20	3	0.24	1	0.08
2012/13	46	0.61	28	0.28	7	0.14
2013/14	70	1.28	66	0.74	11	0.25
2014/15	55	1.03	64	0.71	9	0.09
2015/16 [^]	24	0.84	3	0.17	0	0

[^] Information on the Talent Development Scholarship and Reaching Out Award under the HKSAR Government Scholarship Fund are not available yet.

(b) Scholarship for Prospective English Teachers

Academic year	Number of recipients pursuing UGC-funded postgraduate programmes under the Scholarship for Prospective English Teachers					
	Local	Amount (\$ million)	Mainland	Amount (\$ million)	Other places	Amount (\$ million)
2011/12	10	0.5	0	0	0	0
2012/13	11	0.55	0	0	0	0
2013/14	13	0.65	0	0	0	0
2014/15	5	0.25	0	0	0	0
2015/16	12	0.6	0	0	0	0

(c) Hong Kong PhD Fellowship Scheme

The Scheme provides an annual stipend of HK\$240,000 and a conference and research-related travel allowance of HK\$10,000 per year up to three years for all awardees, irrespective of place of origin.

Academic year	Number of (new) recipients under the Hong Kong PhD Fellowship Scheme				
	Local	Mainland	Other places	Total new recipients	Total recipients
2011/12	10	78	28	116	222 [*]
2012/13	16	92	57	165	387 [*]
2013/14	14	103	68	185	422 [*]
2014/15	13	131	79	223	519 [*]
2015/16	14	133	69	216	551 [*]

^{*} Including new awardees and awardees from previous year(s) who continue to benefit from the Scheme.

CONTROLLING OFFICER'S REPLY**EDB274****(Question Serial No. 0423)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The actual number of students who pursued a sub-degree programme funded by the University Grants Committee (UGC) in the 2014/15 academic year was 4 300. Would the Government inform this Committee of:

- (a) the average unit cost of UGC-funded sub-degree places and the total amount of subventions involved in the past 5 years, i.e. from 2010/11 to 2014/15 academic years, with a breakdown by area of study and faculty in table form; and
- (b) the number of non-local students among the 4 300 students with a breakdown by institution, level of study, place of origin and mode of study.

Asked by: Hon Dennis KWOK (Member Question No. 29)Reply:

- (a) The bulk of the funding is allocated to institutions in the form of block grant based on the approved student numbers allocated to institutions. The average student unit costs of University Grants Committee (UGC)-funded sub-degree places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by institutions, and the total subventions for the 2010/11 to 2014/15 academic years are set out below:

	2010/11	2011/12	2012/13	2013/14	2014/15
Average student unit cost (\$'000) ^{Note 2}	147	147	137	139	156 ^{Note 1}
Total subvention for the UGC-funded institutions (\$ billion)	11.1	11.8	14.2	15.2	16.2

As funding for publicly-funded sub-degree places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

Notes:

1. Provisional figure.
2. The bulk of the student unit cost of a sub-degree place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$15,040 per student per year for the Hong Kong Institute of Education and \$31,575 per student per year for other UGC-funded institutions).

- (b) Almost all students who were enrolled in UGC-funded sub-degree programmes in the 2014/15 academic year were local students. Of the 4 300 students, only two were non-local students from the mainland of China studying full-time sub-degree programmes in The Hong Kong Polytechnic University.

- End -

CONTROLLING OFFICER'S REPLY**EDB275****(Question Serial No. 0424)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The actual number of students who pursued a degree programme funded by the University Grants Committee (UGC) in the 2014/15 academic year was 79 961. Would the Government inform this Committee of:

- (a) the average unit cost of UGC-funded degree places and the total amount of subventions involved in the past 5 years, i.e. from 2010/11 to 2014/15 academic years, with a breakdown by area of study and faculty in table form;
- (b) the number of non-local students among the 79 961 students with a breakdown by institution, level of study, place of origin and mode of study; and
- (c) the number of non-local students who pursued a non-UGC funded degree programme with a breakdown by institution, level of study, place of origin and mode of study.

Asked by: Hon Dennis KWOK (Member Question No. 30)Reply:

To clarify, the actual number of students who pursued an undergraduate programme funded by the University Grants Committee (UGC) in the 2014/15 academic year was 79 916. Our reply to Hon Kwok's question is as follows:

- (a) The bulk of the funding is allocated to institutions in the form of block grant based on the approved student numbers allocated to institutions. The average student unit costs of University Grants Committee (UGC)-funded undergraduate places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by institutions, and the total subventions for the 2010/11 to 2014/15 academic years are set out below:

	2010/11	2011/12	2012/13	2013/14	2014/15
Average student unit cost (\$'000) ^{Note 2}	222	233	203	209	222 ^{Note 1}
Total subvention for the UGC-funded institutions (\$ billion)	11.1	11.8	14.2	15.2	16.2

As funding for publicly-funded undergraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

Notes:

1. Provisional figure.

2. The bulk of the student unit cost of an undergraduate place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year).
- (b) Among the 79 916 students pursuing the UGC-funded undergraduate programmes in the 2014/15 academic year, 9 296 were non-local students. The distribution of these non-local students by institution, place of origin and mode of study is set out at **Annex A**.
- (c) The number of non-local students who pursued a non-UGC funded degree programme by institution, place of origin and mode of study for the 2014/15 academic year is set out at **Annex B**.

Number of Non-local Students of UGC-funded Undergraduate Programmes by Institution, Place of Origin and Mode of Study, 2014/15 Academic Year

(full-time equivalent)

Institution	Mode of Study	Place of Origin			
		The Mainland of China	Other parts of Asia	The rest of the world	Total

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

It is stated in Matters Requiring Special Attention in 2016-17 that the University Grants Committee (UGC) will take measures to encourage the institutions funded by it to strengthen their pursuits of the initiatives of internationalisation and engagement with the Mainland. In this connection, will the Government please inform this Committee of the following:

1. Have the serious conflicts between the Mainland and Hong Kong in recent years created any difficulties for UGC-funded institutions in engagement with the Mainland? How will the UGC encourage its funded institutions to strengthen engagement with the Mainland?
2. Please provide the respective numbers of Mainland and overseas students who pursued undergraduate and research postgraduate programmes in funded institutions in Hong Kong in the past 3 years.

Asked by: Hon Christopher CHEUNG Wah-fung (Member Question No. 32)

Reply:

1. According to institutions' feedback, they did not experience major difficulty in taking forward initiatives on engagement with the Mainland.

In order to motivate UGC-funded institutions to enhance their pursuit of internationalisation and engagement with the Mainland, the UGC rolled out a \$30 million funding scheme (with funds contributed by the UGC, the Education Bureau and institutions) to support initiatives in the 2013/14 and 2014/15 academic years in a number of areas concerning internationalisation, including funding student-initiated projects or initiatives that encourage multi-cultural integration in institutions. Institutions responded positively to the scheme.

In the 2016/17 to 2018/19 triennium, the UGC will continue efforts on this front. A one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$17.5 million (to be matched with funds from institutions) has been earmarked for the area of internationalisation and engagement with the Mainland. Emphasis will be put on the development and implementation of (i) strategies for the broader enhancement of internationalisation and engagement with the Mainland; (ii) holistic strategies/programmes to enhance student integration; and (iii) strategies/programmes to enrich the learning experience of commuting local students.

2. The numbers of Mainland and other non-local students who pursued UGC-funded undergraduate and research postgraduate programmes in the 2013/14 to 2015/16 academic years are set out below.

(Headcount)

Academic Year	Level of Study	Number of Non-local Students	
		From the Mainland of China	From the rest of the World
2013/14	Undergraduate	6 521	2 421
	Research Postgraduate	4 767	690
2014/15	Undergraduate	6 630	2 744
	Research Postgraduate	4 909	772
2015/16 #	Undergraduate	6 726	2 997
	Research Postgraduate	5 115	816

Notes :

1. The place of origin of non-local students is determined having regard to their nationality.

Director of Bureau: Secretary for Education

Question:

1. Please list the numbers of students with special educational needs pursuing tertiary programmes (sub-degree and diploma) and degree programmes, and their respective percentages in the total number of students with special educational needs and tertiary students for the past 5 financial years.
2. Please list the numbers of students with special educational needs graduated from tertiary programmes (sub-degree and diploma) and degree programmes, and their respective percentages in the total number of students with special educational needs and tertiary graduates for the past 5 financial years.
3. Please list the numbers of students with special educational needs pursuing tertiary programmes outside Hong Kong for the past 5 financial years.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 85)

Reply:

1. The number of full-time students with special educational needs (SEN) enrolled in University Grants Committee (UGC)-funded sub-degree and undergraduate programmes and the respective percentages to the total student enrolment from the 2011/12 to 2015/16 academic years are at Annex A.
2. The number of full-time students with SEN enrolled in the final year of UGC-funded sub-degree and undergraduate programmes and the respective percentages to the final year student enrolment from the 2011/12 to 2015/16 academic years are at Annex B. We do not have figures on graduates of UGC-funded programmes with SEN.
3. We do not have figures on students with SEN pursuing tertiary education outside Hong Kong in the past five years.

**Number of Full-time Students with Special Educational Needs (SEN) in UGC-funded
Sub-degree and Undergraduate Programmes, 2011/12 to 2015/16**

(Question Serial No. 2024)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

- (1) Please provide details of the projects operated by various UGC-funded institutions by making use of the Language Enhancement Grant and Teaching Development Grant from the 2013/14 to 2015/16 academic years. What are the evaluation results for each year?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 41)

Reply:

The University Grants Committee (UGC) attaches great importance to quality teaching and learning. Apart from the Block Grant (about 75% of which purportedly for teaching purposes), the UGC has allocated various grants for the specific purpose of enhancing teaching and learning, which include, among others, the Teaching Development Grant and the Language Enhancement Grant, details of which are set out below.

Teaching Development Grant (TDG)

The UGC has been providing TDG to encourage institutions to adopt innovative approaches to teaching and to improve the quality of the learning environment. Institutions primarily use TDG to fund teaching and learning projects which cover a variety of aspects, such as curriculum design and pedagogy, e-learning, experiential learning, capstone experience etc.

For the 2012-15 triennium, the total allocation of TDG to institutions was \$112.7 million. In the 2015/16 roll-over year, \$45.4 million was allocated. UGC has injected an additional \$5 million per annum in the 2012-15 triennium and in the 2015/16 roll-over year to TDG to support the professional development activities for frontline teaching staff.

Institutions will submit the final report on the use of TDG in the 2012-15 triennium and 2015/16 roll-over year to UGC in September 2016. A review on institutions' teaching activities in the 2012-15 triennium and 2015/16 roll-over year will be conducted in due course.

Language Enhancement Grant (LEG)

LEG has provided additional support to institutions, on top of resources from their block grants and other sources, in promoting their students' language proficiency in both English and Chinese (including Putonghua). The programmes funded by LEG came in different forms. Some were offered to all students compulsorily to form a basis for more advanced learning, while others were designed for specific disciplines to meet the needs of different professions. There were also courses to equip students with specific skills in writing or speaking to prepare them for their future careers, as well as workshops, summer courses and e-learning

programmes to provide students with a more flexible and innovative environment to brush up their language abilities.

UGC's total allocation of LEG to institutions was \$118.8 million per annum in the 2012-15 triennium. In the 2015/16 roll-over year, LEG to institutions amounted to \$135.3 million.

Institutions submit annual reports on the use of the LEG. External experts were engaged to review institutions' language enhancement activities supported by LEG in the 2012/13 and 2013/14 academic years, and the overall effectiveness of LEG. The findings are set out below.

(a) English language enhancement activities –

In preparing for the new four-year curriculum, institutions worked extensively with faculties, conducted needs analysis to design learning materials and assessment tasks. Institutions developed more extensive quality assurance mechanisms and processes for collecting formative feedback that could be used for refining and improving the existing courses, and expanding the number and range of elective courses, self-access, and extra-curricular activities. Significant development for the sector in general was made in the areas of self-evaluation of programme effectiveness, creativity and innovation in delivering English language enhancement activities to students, and inter-institutional collaboration. LEG has enabled UGC to provide continued funding to support the efforts of the institutions to experiment with and try-out innovative ideas in English language enhancement, and to do more of this collaboratively. Institutions found ways of strengthening and expanding existing inter-institutional collaboration as well as exploring new directions for collaboration. The expert was of the view that the activities conducted in general greatly benefited all eight institutions and the English language enhancement activities in higher education in Hong Kong.

(b) Chinese language enhancement activities –

Institutions were committed to provide Chinese language enhancement opportunities in and to improve students' Chinese language capabilities. The Chinese language enhancement programmes offered by the institutions were of very good quality. The syllabi were well thought out and the teaching materials most carefully put together. Institutions were offering a whole variety of co-curricular and extra-curricular activities, ranging from chit-chat sessions and essay competitions to summer internship. Institutions did not only take steps individually to strengthen and develop their Chinese language enhancement programmes, but had also done much in collaborating with other institutions.

Institutions will submit the report on their language enhancement activities in the 2015/16 academic year in October 2016. A review will be conducted on institutions' language enhancement activities in the 2014/15 and 2015/16 academic years in due course.

CONTROLLING OFFICER'S REPLY**EDB281****(Question Serial No. 2706)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- (1) Please tabulate the approved student number targets of each funded institution for the period from 2013/14 to 2015/16 by undergraduate programme, taught postgraduate programme, research postgraduate programme and sub-degree programme;
- (2) Please tabulate the numbers of non-local students of each funded institution for the period from 2013/14 to 2015/16 by undergraduate programme, taught postgraduate programme, research postgraduate programme and sub-degree programme; and
- (3) Will targets be set for recovering cost from non-local students pursuing funded postgraduate programmes?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 42)Reply:

- (1) The approved student number targets of UGC-funded programmes by institution and level of study for the period from 2013/14 to 2015/16 are at Annex A.
- (2) The non-local student enrolment of UGC-funded programmes by institution and level of study for the period from 2013/14 to 2015/16 are at Annex B.
- (3) Research is crucial to higher education development and enhancing the competitiveness of an economy. All along, the Government and UGC are committed to supporting the research work of institutions. Apart from research grants, the Government and UGC also provide publicly-funded research postgraduates (RPg) places to institutions, which serve to enhance academic standards, extend the frontiers of knowledge and develop theories through research activities.

The cost of subsidy to publicly-funded RPg places should be weighed against the immense benefits that RPg students bring to the higher education sector and the community as a whole. Firstly, with good RPg students, it would help attract leading professors, who are keenly sought after by universities around the world, to conduct research and teach in Hong Kong thus boosting the quality of research and education in our local higher education institutions. Besides, RPg students also play an important role in the sector by participating not only directly in a large number of research activities, but also in the teaching activities of institutions (such as acting as teaching assistants, laboratory administrators, etc.) as well as serve as a bridge between the undergraduates and the teaching staff, thereby contributing to the teaching and learning as well as knowledge transfer in institutions.

CONTROLLING OFFICER'S REPLY**EDB282****(Question Serial No. 2707)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- (1) Please provide details of work and expenditure involved for taking forward the initiative of internationalisation by each funded institution for the period from 2013/14 to 2015/16;
- (2) Please provide details and expenditure involved in respect of engagement with the Mainland by each funded institution for the period from 2013/14 to 2015/16; and
- (3) Please provide details of the preparatory work to be undertaken by each funded institution for promoting internationalisation and engagement with the Mainland in 2016/17 and the estimated provision involved.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 43)Reply:

Funding to institutions is made in the form of a block grant on the basis of approved student places allocated to the institutions. The funding for institutions to take forward initiatives on internationalisation and engagement with the Mainland is subsumed under the block grant to institutions without precise requirements as to how it should be spent. Institutions are given the autonomy to allocate funds internally as they see fit. The University Grants Committee (UGC) is therefore unable to attribute specific amount of funding and expenditure on institutions' work on these fronts.

On the part of the UGC, in order to motivate its funded institutions to enhance their pursuit of internationalisation and engagement with the Mainland, the UGC rolled out a \$30 million funding scheme (with funds contributed by the UGC, the Education Bureau and institutions) to support initiatives in the 2013/14 and 2014/15 academic years. The initiatives included (i) funding student-initiated projects or initiatives that encourage multi-cultural integration; (ii) setting up a Hong Kong Pavilion in international education conferences to promote Hong Kong's higher education sector as a united entity; (iii) establishing a sector-wide search engine to provide easier access to information of institutions and programmes they offer for prospective students; and (iv) subsidising financially-needy students to travel to places outside Hong Kong for exchange activities. Institutions responded positively to the scheme. In 2015/16, with the good results achieved, the institutions have continued to set up the Hong Kong Pavilion at international education conferences. Other promotional efforts such as the sector-wide search engine also continued.

In the 2016/17 to 2018/19 triennium, the UGC will continue efforts on this front. A one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$17.5 million (to be matched with funds from institutions) has been earmarked for

the area of internationalisation and engagement with the Mainland. Emphasis will be put on the development and implementation of (i) strategies for the broader enhancement of internationalisation and engagement with the Mainland; (ii) holistic strategies/programmes to enhance student integration; and (iii) strategies/programmes to enrich the learning experience of commuting local students. In addition, a total of \$12 million has been earmarked for institutions for continuing to set up a Hong Kong Pavilion in international education conferences.

CONTROLLING OFFICER'S REPLY

EDB283

(Question Serial No. 2930)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the establishment and salaries of Presidents, Vice-Presidents and staff of University Grants Committee (UGC) funded institutions, please provide the following information:

- (1) the number of Presidents and Vice-Presidents of UGC-funded institutions, the respective expenditure on salaries, as well as their fringe benefits and the expenditure on such benefits for the period from 2013/14 to 2015/16;
- (2) whether the salaries of Presidents and Vice-Presidents of UGC-funded institutions are paid by public money or by other sources of funding of the institutions concerned; the mechanisms adopted to determine their salaries and how the reasonableness of the salary levels is assessed;
- (3) the amounts of surplus of UGC-funded institutions as well as their establishment and expenditure on salaries of staff in the past 3 academic years;
- (4) the estimated expenditure on salaries of Presidents and Vice-Presidents of UGC-funded institutions for 2016/17; and
- (5) the establishment and estimated expenditure on salaries of staff of UGC-funded institutions for 2016/17.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 53)

Reply:

- (1) & (2) Based on information provided by the University Grants Committee (UGC)-funded institutions, the number and expenditure on staff costs of Presidents and Vice-Presidents of respective institutions for the 2013/14 and 2014/15 academic years is provided at Annex A. Information for the 2015/16 academic year is not available. In general, the expenditure of institutions (including expenditure on remuneration of Presidents and Vice-Presidents) is not solely covered by public funding (i.e. UGC funding and funding provision from other Government bureaux/departments). Institutions have other sources of income including tuition fees and other charges, interest and investment return, donations and endowments, auxiliary service and other income.

Institutions have their own established mechanisms in determining the remuneration packages of Presidents and Vice-Presidents, and are accountable for their decisions in this regard. Generally speaking, the remuneration of Presidents and Vice-Presidents is determined with reference to factors such as available market information, pay information of Hong Kong's public sector and

the international academic sector, qualification and experience of the candidate, internal salary relativity and financial position of the institution. Benchmarking review of the remuneration packages with local and international practices is conducted by some institutions with a view to ensuring their market competitiveness. According to the governing ordinances of the institutions, their councils are the ultimate authority in appointment matters related to the Presidents and Vice-Presidents.

- (3) According to the annual financial reports and information provided by institutions, information on surpluses / deficits, number of staff and staff costs of each institution for the 2013/14 to 2014/15 academic years is at Annex B. Information for the 2015/16 academic year is not available.
- (4) & (5) The estimate of staff costs of Presidents and Vice-Presidents and the number of staff and staff costs for the 2016/17 academic year are not available.

CONTROLLING OFFICER'S REPLY

EDB284

(Question Serial No. 2978)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The Chief Executive in Council has approved that the Hong Kong Institute of Education be granted university title. Will additional resources be provided to the future Education University of Hong Kong to cope with the increase in academic exchange, administrative staff, teaching staff, academic facilities, campus facilities and hostels following the retitling? If yes, what is the amount of additional funding to be granted? If no, what are the reasons?

Asked by: Hon Alvin YEUNG Ngok-kiu (Member Question No. 35)

Reply:

In 2009, the Government decided to support The Hong Kong Institute of Education (HKIEd) to develop into a multi-disciplinary institution with a focus on teacher education and a good spread of complementary disciplines (i.e. "Education-plus"), as well as to strengthen its research capability, through provision of additional University Grants Committee (UGC)-funded student numbers (120 first-year first-degree and 30 research postgraduate places). HKIEd has since utilised these additional student numbers to introduce a number of new undergraduate programmes in complementary disciplines, as well as research programmes.

Since its inception, HKIEd has been funded by the UGC on the same basis as the other UGC-funded universities, taking into account the approved student numbers allocated to the institutions. Upon its change in title, the UGC will continue to allocate funding to the future Education University of Hong Kong in accordance with the established mechanism as with other UGC-funded universities.

CONTROLLING OFFICER'S REPLY**EDB285****(Question Serial No. 0965)**

Head: (160) Radio Television Hong Kong

Subhead (No. & title): (-) Not Specified

Programme: (3) School Education Television Programme

Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)

Director of Bureau: Secretary for Education

Question:

The work of Radio Television Hong Kong includes producing school educational television programmes for the Education Bureau in support of the Government's education policies. What are the expenditure, estimated expenditure and manpower in the past 5 years and the coming year? Has any review been conducted to examine whether the current programmes of pre-primary, primary, junior and senior secondary levels are outdated and require revamps? Will contents regarding moral education, national education, Basic Law, etc. be included? If so, what are the details? If not, what are the reasons?

Asked by: Dr Hon LAM Tai-fai (Member Question No. 17)

Reply:

Nine programme directors and six animation designers are designated to ETV School programme production; other staff, such as production assistants, executive producers, cameramen, lighting-men, soundmen, editors, graphic designers, etc. are shared with other RTHK programme productions.

The expenditure in the past 5 years is as follows:

Financial Year	Actual (\$ million)
2014-15	30.8
2013-14	30.9
2012-13	27.6
2011-12	27.3
2010-11	28.4

The revised estimate for 2015-16 is \$31.8 million and the estimate for 2016-17 is \$33.9 million.

The Education Bureau collaborates with RTHK to produce 80 new Educational Television (ETV) Programmes each year. The programmes produced are in line with the latest developments in the local curriculum to ensure that relevant and updated information is provided. In addition, an annual survey "Survey for Compilation of Performance Indicators for Measuring the Effectiveness of ETV Services" has been commissioned to a tertiary institution since 2002 for measuring the effectiveness of ETV services to feed back on the production of programmes. The effectiveness of the programmes is assessed by using the weighted average of the satisfaction scores in the areas of pedagogical design, appropriateness of content and presentation, achievement of teaching objectives and promotion of students' interest and motivation to learn, etc. According to the last survey, the usefulness indicator for kindergartens, primary and secondary schools are 78, 79 and 72 out of 100 respectively. ETV programmes cover the eight Key Learning Areas and cross-curricular issues such as moral, civic and national education (including Basic Law education). From 2010-11 to 2015-16, about 30 programmes on moral, civic and national education including two programmes on Basic Law education have been produced.

CONTROLLING OFFICER'S REPLY

EDB286

(Question Serial No. 4022)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the educational support for non-Chinese speaking students, please provide:

- (a) the number of students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16;
- (b) the number of ethnic minority students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by their home language;
- (d) the number of students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2015/16;
- (e) the number of ethnic minority students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2015/16 disaggregated by ethnicity; and
- (f) the number of non-Chinese speaking students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2015/16 disaggregated by their home language.

Asked by: Hon James TO Kun-sun (Member Question No. 86)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of students by level and by grade studying in kindergartens, public sector and Direct Subsidy Scheme (DSS) primary and secondary schools in the 2015/16 school year is tabulated at Annex A.
- (b) & (c) The number of ethnic minority students studying at different grade levels in kindergartens and the number of non-Chinese speaking (NCS) ethnic minority students studying at different grade levels in public sector and DSS primary and secondary schools in the 2015/16 school year are tabulated at Annex B. The number of NCS students by level and by grade studying in kindergartens, public sector and DSS primary and secondary schools in the 2015/16 school year is tabulated at Annex C. The data provided in Annex B and Annex C are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

- (d) As regards the University Grants Committee (UGC)-funded sector, the number of local students enrolled in full-time post-secondary programmes is 75 133 in the 2015/16 academic year. A breakdown by level of study (i.e. sub-degree and undergraduate) and by institution is at Annex D. In tandem, a total of 76 241 students are enrolled in full-time locally-accredited self-financing post-secondary programmes in the 2015/16 academic year. A breakdown by level of study and by institution is at Annex E.
- (e) & (f) Admission to post-secondary programmes (including sub-degree and undergraduate programmes offered by UGC-funded institutions and self-financing institutions) is offered to eligible applicants, irrespective of their race and language spoken at home. The total number of local NCS students (i.e. students whose ethnicity and / or spoken language at home is not Chinese) admitted to the UGC-funded full-time post-secondary programmes is 253 in the 2015/16 academic year. However, statistics with breakdown by NCS students are not available for the self-financing sector.

**Number of students
by level and by grade in the 2015/16 school year**

Level	Grade	2015/16 school year
Pre-primary (K1 to K3)	K1	65 323

CONTROLLING OFFICER'S REPLY**EDB287****(Question Serial No. 4023)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What is the number of ethnic minority students in each of the member institutions of the Vocational Training Council in the school year 2014/15 and 2015/16 disaggregated by ethnicity?

Asked by: Hon James TO Kun-sun (Member Question No. 87)

Reply:

In the 2014/15 academic year, there were a total of 1 145 non-Chinese speaking (NCS) students enrolled in programmes dedicated and not dedicated to NCS students in the Vocational Training Council (VTC). Since applicants of most programmes, which are mainly of short duration, are not required to provide information about their ethnicity, a breakdown of all NCS students by ethnicity is not available. Based on the information collected from NCS students most of whom were enrolled in programmes of longer duration, a breakdown of those NCS students by major ethnicity group is given below –

Ethnicity	Number of NCS students ^(Note 2)
Pakistani	110
Nepalese	70
Filipino	55
Indian	55
White	18
Mixed and others ^(Note 1)	40

Note 1: Others include Indonesian, Korean, Thai, Latin American, etc.

Note 2: Only include the NCS students who are requested to provide information of their ethnicity.

It is estimated that there will be a total of 970 NCS students studying in VTC for the 2015/16 academic year while the breakdown of NCS students (for programmes of longer duration) is not yet available since student admission is still going on due to staggered intake of some programmes.

Director of Bureau: Secretary for Education
Question:

Secondary schools will be allowed to turn the Career and Life Planning Grant into regular teaching posts. In this connection, please advise the following information:

- (a) given that the Grant has implemented for 2 years only, whether the new measure is a result of the review on the Grant; if yes, of the details; if no, of that reasons;
- (b) the number of schools having unused balance of the Grant as well as the total amount in 2014/15 school year;
- (c) whether it had assessed the impact of the new measure over the flexibility in deploying the fund by schools, the continuation of existing Career Planning services, the manpower of schools as well as the effectiveness of the Grant; if yes, of the details?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 59)

Reply:

(a) & (c) The aim of the Career and Life Planning Grant (CLPG) is to enhance the capacity of the schools and their responsible team so as to take forward comprehensive life planning education. As set out in the relevant circular, the CLPG should primarily be used for its major purpose of empowering and enhancing the capacity of the teaching team, though schools may use the remainder of the grant to enrich relevant school-based services for students by providing career-related learning beyond the classroom. The Education Bureau (EDB) has collected information about the use of the CLPG in schools through a school survey completed in September 2015 and advisory visits paid to 295 schools up to the end of November 2015. It is noted that about 80% of the schools spent most of the CLPG on employment of additional staff.

To strengthen life planning education and related guidance services in schools, the Chief Executive announced in the Policy Address 2016 that schools may turn the CLPG into regular teaching posts from the 2016/17 school year. This measure will provide more stable teacher manpower for schools to implement life planning education. Teachers filling the regular posts converted from the CLPG should assist in enriching and expanding the scope of career guidance service and enhancing the quality of life planning education.

As situations vary from school to school, some schools may have already made arrangements for deploying the CLPG, schools are given the flexibility to decide whether to turn the CLPG into regular teaching posts in the 2016/17 school year or in the later years, based on their actual circumstances. For schools which opt to retain the CLPG, the ambit of the CLPG remains unchanged. We will review the implementation of the measure in the coming two years.

(b) Under the current practice, schools are allowed to retain the unspent balance of the CLPG up to 20% of the total provision disbursed for each year and to carry it forward for use in the next school year (aided and caput schools) or financial year (government schools). EDB will claw back any amount in excess of the said cap based on schools' annual audited accounts. Relevant information on the spending situation of the CLPG is not available as the audited accounts for the school year is not yet due.

Question:

Regarding the boarding section of special schools, will the Administration inform this Committee :

- (a) the occupancy rate of the boarding section of special schools, the number of students on the waiting list as well as the average waiting time in last 3 school years broken down by different type of special schools;
- (b) whether it had provided assistance to those who are on the waiting list; if yes, of the details as well as the expenditure incurred?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 60)

Reply:

- (a) At present, schools for children with visual impairment and some schools for children with hearing impairment, physical disability, moderate intellectual disability and severe intellectual disability provide boarding services. The fill-up rates of the boarding section of special schools by type and the number of students on the waiting list for the boarding services in the last three school years are set out in Appendix I. The average waiting time of students for admission to boarding service in the last three school years is set out in Appendix II.
- (b) Parents of students who are waiting for admission to boarding service can approach their school social worker for advice on available supporting service whenever necessary.

(Question Serial No. 4045)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (4) Special Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Bureau has improved the provision of teacher assistant for schools for children with severe intellectual disability, physical disability, and visual impairment cum intellectual disability as well as the psychiatric classes of the hospital school since 2014/15 school year. In this connection, please advise the following information:

- (a) the number of teacher assistants employed in 2014/15 and 2015/16 school years as well as the resource involved;
- (b) the wastage rate of teacher assistants in 2014/15 and 2015/16 school years; whether it knows the reasons of their demission; if yes, please provide details; whether it had reviewed the effectiveness of the improved provision of teacher assistants; if yes, of the details?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 61)

Reply:

- (a) Under the Code of Aid for Special Schools/Code of Aid for Aided Schools, 329.5 and 336 teacher assistant (TA) posts are provided to schools for children with intellectual disabilities, physical disability, and visual impairment cum intellectual disability as well as the psychiatric classes of the hospital school in the 2014/15 and 2015/16 school years respectively. The expenditure involved in employing TAs in the 2014/15 school year is \$46.26 million whereas the estimated expenditure in the 2015/16 school year is \$53 million.
- (b) The Education Bureau does not capture information on the TAs and therefore we are unable to provide the wastage rate and the reasons of their demission.

Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The revised financial provision for 2015-16 is \$4,176.3 million, which is 4.2% lower than the original estimate. Please provide the reasons and details for the decrease.

Asked by: Hon Abraham SHEK Lai-him (Member Question No.62)

Reply:

The revised estimate for 2015-16 under Programme (5) Other Educational Services and Subsidies is \$184.8 million or 4.2% lower than the original estimate. This is mainly due to the lower than budgeted requirement for Pre-primary Education Voucher Scheme resulting from the lower than expected number of students joining the scheme.

Question:

The Bureau will formulate strategies and details of specific measures for the implementation of the free quality kindergarten education policy starting from the 2017/18 school year. In this connection, please provide the following information: the manpower will be deployed for the preparation works in 2016/17; the details of their works as well as the spending involved with a breakdown of expenditure items.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 63)

Reply:

The Education Bureau (EDB) is planning to set up a new Kindergarten Education (KGE) Division starting from 2016-17. Subject to the deliberation of the Legislative Council Establishment Subcommittee and approval of the Finance Committee, EDB will create one supernumerary post at the rank of Assistant Director of Education to head the new KGE Division in the initial three years from 2016-17 to 2018-19 and one permanent post at the rank of Principal Education Officer to support his/her work in the initial years and head the KGE Division when the supernumerary post has lapsed. Besides, 22 and 37 non-directorate posts will be created in 2016-17 and 2017-18 respectively to support the implementation of the free quality kindergarten (KG) policy. Amongst them, 20 posts (including two time-limited posts for 2016-17 and up to 2018-19 respectively) will be created in the new KGE Division in 2016-17 to cope with the increased workload and take up the duties of eight time-limited posts to be lapsed by 1 April 2016 (i.e. a net increase of 12 posts in the KGE Division). Another 20 posts will be created in KGE Division in 2017-18 to further strengthen the support for the full implementation of the free quality KG education in the 2017/18 school year, including eight posts regraded from the Inspector (Graduate) grade to Education Officer (Administration) grade or vice versa according to the nature of the tasks involved. With one time-limited post lapsed by end of 2016-17, the net increase of posts in the KGE Division in 2017-18 will be 11. As regards the remaining two (both are time-limited posts) and 17 non-directorate posts (including one regraded post) to be created in 2016-17 and 2017-18 respectively, they will either be created in other EDB Divisions for professional support to teachers in catering KG students with risks of developmental delay, strengthening financial monitoring and development of relevant information technology systems, etc. or in the Rating and Valuation Department for assessment of rental subsidy.

In 2016-17, upon creation of the above-mentioned posts, there will be a total of 83 posts in the new KGE Division. It will take charge of the preparation for, and implementation of, the new free quality KG education policy, including formulation of specific details of the measures, overseeing the implementation of the new policy and monitoring the progress of the relevant measures. The division of labour and areas of the work for staff in the KGE Division are as follows:

(i) The Kindergarten Special Duty Section, with all its posts currently (2015-16) being time-limited, is now responsible for formulating the framework of measures under the new policy, soliciting feedback from major

stakeholders with a view to refining the implementation details and drawing up guidelines for KGs' compliance and reference. It will be regularised starting from 2016-17 to co-ordinate implementation issues that involve inter-departmental collaboration. Besides, it will also be responsible for co-ordinating admission arrangements for Nursery (K1) classes (including measures to ensure that a child is not holding more than one school place at a time); handling premises-related issues (including allocation of KG premises, review of the Planning Standard, exploration of the setting up of Resource Centres for KG education and co-location of KGs in primary schools, etc.); disbursement of funds to KGs; promotion of parent education, etc.

(ii) The Kindergarten Administration Section is now responsible for administration of the Pre-primary Education Voucher Scheme, fee increase applications, KG teachers' professional development, etc. Under the new KG policy, it will be tasked to formulate proposals regarding specific details on, and monitor of KGs in, compliance of guidelines in teacher-student ratio, remuneration and career ladder for teachers, collection of miscellaneous charges and trading operation in KGs, mechanism for KGs' entry to, and exit from, the new scheme, etc. Besides, it will continue to co-ordinate matters on fee increase applications which will involve more vigorous vetting to ensure KGs' proper use of government funding and offer of free KG education as appropriate. Besides, it will collaborate with relevant experts in promoting KG teachers' professional development including formulation of a Teacher Competencies Framework and a Principal Competencies Framework, developing a continuous professional development policy for KG teachers, etc.

(iii) The Kindergarten Inspection Section monitors and evaluates the performance of KGs through inspections, and promotes quality KG education in Hong Kong. Under the new policy, in addition to its current tasks, it will enhance the quality assurance framework (including review of the Performance Indicators to tie in with the implementation of free quality KG education policy and better align with the latest trends of the KG education) and conduct more focus inspections to promote quality KG education. It will also take charge of the strategies in the promotion and/or conduct of local research on the latest trends in child development and impact of the new policy on the quality of KG education.

(iv) The Joint Office for Kindergartens and Child Care Centres will continue to be responsible for supervising the operation of Kindergarten-cum-Child Care Centres (KG-cum-CCCs), including processing various applications from KG-cum-CCCs. In addition, it will review the schedule of accommodation for KGs and the Operation Manual for Pre-primary Institutions.

The estimated staff-related expenditure of KGE Division in 2016-17 is around \$50.42 million, and a rough estimate for 2017-18 is around \$53.53 million. EDB adopts a holistic approach in staff deployment which may be adjusted from time to time having regard to the changing operational needs, hence a breakdown of expenditure by item is not available.

Director of Bureau: Secretary for Education

Question:

The Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) was introduced starting from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. Each student shall receive subsidy ranging from \$40,000 to \$70,000 per year under two-tier subsidy arrangement. In this connection, please advise the following information:

- (a) the actual amount of tuition fee of each programme under SSSDP which students require to pay after deducting the subsidy from the gross tuition fee, as well as the maximum subsidy amount for each programme under SSSDP in 2015/16 and 2016/17;
- (b) the number of students choosing the SSSDP programmes as Band A choice in Joint University Programmes Admissions System last year; whether it had reviewed the effectiveness of publicity works of SSSDP; if yes, of the details;
- (c) whether it had mechanism to monitor the level of tuition fee of the programmes under SSSDP; if yes, of the details?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 70)

Reply:

(a)
Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments. The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The average annual tuition fee net of subsidy for each programme under SSSDP, as well as the subsidy amount for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years are set out at **Annex A**.

(b)

The number of students choosing the SSSDP programmes as Band A choice in the Joint University Programmes Admissions System (JUPAS) for the cohort admitted in the 2015/16 academic year is set out at **Annex B**. In consultation with the participating institutions of SSSDP, we shall step up the publicity of SSSDP where appropriate for the cohorts to be admitted in the 2016/17 and 2017/18 academic years.

(c)

Institutions may adjust the tuition fees of programmes selected for SSSDP if the level of adjustment is within the annual inflation rate. Any increase in the tuition fee beyond the inflation will require the prior approval of the Education Bureau, which will only approve cases that are fully justified with enhancement in teaching and learning.

Question:

The Government shall provide subsidy for needy post-secondary students studying in full-time locally-accredited undergraduate and sub-degree programmes to participate in exchange programmes. In this connection, please advise the following information :
the number of students benefited from this subsidy scheme in 2014/15, 2015/16 and 2016/17 school years, with a breakdown by institutions; the spending in these 3 school years, with a breakdown by expenditure items.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 71)

Reply:

As part of our effort to promote internationalisation of our institutions and enhance the development of Hong Kong as a regional education hub, a Scheme for Subsidy on Exchange for Post-secondary Students was introduced in January 2015 to encourage and support local students in need to go on exchanges. The scheme aims to provide local students of full-time locally-accredited programmes at sub-degree and undergraduate levels with means-tested grant to participate in exchange activities outside Hong Kong. A total of 31 institutions have participated in the first subsidised period of the scheme from January 2015 to August 2016. Breakdowns of the number of students benefited and the amount of grant approved under the scheme by different participating institutions from January to December 2015 are set out in the Annex.

Scheme for Subsidy on Exchange for Post-Secondary Students**Number of Student Benefited and Amount of Grant Approved
from 1 January to 31 December 2015**

CONTROLLING OFFICER'S REPLY**EDB295****(Question Serial No. 4057)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Bureau will advance its review of ways to extend the scope of the subsidy of the Mainland University Study Subsidy Scheme, with a view to assisting more students with financial needs to pursue further studies in the Mainland, according to the Policy Address 2016. In this connection, please advise the following information :

- (a) the reasons of advancing the review of the Scheme while other initiatives relating to higher education introduced in the same year with the Scheme do not; the schedule and scope of the review;
- (b) the number of students benefited from the Scheme in 2014/15 and 2015/16 school years, as well as the total number of students pursuing studies under the scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions in 2014/15 and 2015/16 school years;
- (c) whether it had received the feedback from the participants of the Scheme, reflecting that the level of subsidy is insufficient to cover the tuition fees and living expenses in the Mainland; if yes, of the details?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 72)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million. The levels of the subsidy were determined taking into account the study-related expenses in the Mainland institutions including tuition fee, hostel fee, insurance, communications, travel and other living expenses. They should be adequate to meet the needs of individual students in general. We have not received any formal feedback to the contrary.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a

lack of means, we have advanced the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. We plan to brief the Legislative Council Panel on Education in April 2016 on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

The number of students admitted by Mainland institutions under the Admission Scheme in the 2014/15 and 2015/16 academic years was 1 535 and 1 444 respectively.

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Bureau will continue provide financial and professional support for local public sector schools and Direct Subsidy Scheme (DSS) schools in a bid to progressively double the number of primary and secondary sister schools in Hong Kong and the Mainland to about 600 pairs. In this connection, please advise the following information:

the number of schools in Hong Kong has been paired up with schools in the Mainland before and after 2015/16 school year, with a breakdown of subsidized mode; the spending involved in providing financial and professional support for local public sector and DSS schools, with a breakdown of expenditure items; the progress of increasing the number of sister schools to about 600 pairs.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 74)

Reply:

Since 2004, 334 schools (including 28 government schools, 254 aided schools, 1 caput school, 45 Direct Subsidy Scheme (DSS) schools and 6 private schools) in Hong Kong have participated in the Sister School Scheme and formed 489 pairs of sister schools with their counterparts in the Mainland through the coordination of the Education Bureau (EDB). In addition, many schools in Hong Kong have formed sister schools with their counterparts in the Mainland on their own initiative and through other means and no reporting of this kind of pairing up to EDB is required. As such, we do not have the total number of schools in Hong Kong that have formed sister schools in the Mainland. At present, there is no designated funding for sister school exchanges provided for schools in Hong Kong.

EDB has earmarked a total provision of \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland ("the Pilot Scheme") and plans to provide a fixed grant of \$120,000 per annum through a three-year pilot scheme from the 2015/16 school year to local public sector and Direct Subsidy Scheme schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities. As the Pilot Scheme has yet to be launched, we are unable to provide the information as requested.

Question:

The places of the international schools in the territory are insufficient to cope with the expanding demand. In accordance with the findings of the Consultancy Study ("the Study") on the provision of international school places at primary and secondary levels in Hong Kong as reported by the Administration in 2012, it was projected that there will be a shortfall of 4 203 primary places in the 2016-2017 school year. In this connection, please advise the following information:

(a) given that a new round of the study was conducted in 2014, whether the number of shortage has been increased comparing with the Study in 2012; if yes, please provide the details; the number of shortage of international places in coming 3 years.

(b) whether it had simplified the procedures in processing international schools' application for school expansion; if yes, please provide the average time taken to complete each application in last 3 years; the amount of subventions or loans given for each application for school expansion in last 3 years;

(c) the progress of allocating vacant school premises and greenfield sites for international school development; the number of international school places created in the coming 3 years.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 75)

Reply:

(a) Further to the consultancy study completed in end 2012, we commissioned a new round of the study in October 2014 to update the latest provision of international school places at primary and secondary levels in the territory and to project the supply and demand in the next few years. The study will collect views through surveys from international schools and the business sector as well as the international community in order to have a broader understanding of the concerns of different stakeholders. Such information, coupled with the past trends of demand for international school places and the forecast changes in economic growth, would be useful reference for projecting the demand from overseas families coming to Hong Kong for work or investment. The study is expected to be completed by mid-2016.

(b) The time required for processing international schools' application for expansion depends on a number of factors, including whether the school premises applied for are suitable and available for international school use, whether the plans for expansion or redevelopment require approval from other departments or authorities (such as the Town Planning Board), whether the applications involve amending the use of land or buildings and the views of the community. We do not have statistics on the average time required in processing these applications. To facilitate planning for expansion or redevelopment of existing international schools to meet the demand for school places, we have uploaded the relevant information

including procedures involved in a designated website (<http://edb.hkedcity.net/internationalschools/planning.php?lang=en>).

International school operators allocated with greenfield sites may apply for capital assistance in the form of a 10-year interest-free loan for the construction of school premises subject to approval from the Finance Committee (FC) of the Legislative Council. FC last approved three such applications in 2012-13, and the total amount of loan approved is \$634.29 million.

(c) To address the shortfall in international school places projected by a consultancy study completed in end 2012, we have completed two school allocation exercises (SAEs) in April 2013 and May 2015 respectively allocating a total of five vacant school premises and three greenfield sites for international school development. Subject to the results of the consultancy study being conducted and availability of suitable sites or vacant school premises for international school development, we will consider whether and when to launch a new round of SAE for international school development.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, it is projected that around 4 210 additional places will be available between 2016/17 and 2018/19 school years. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

CONTROLLING OFFICER'S REPLY**EDB298****(Question Serial No. 4060)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Learning Support Grant ("The LSG") has further enhanced for public sector primary and secondary schools with effect from the 2014/15 school year to help schools cater for students with special educational needs ("SEN students"). In this connection, will the Administration advise:

- (a) the respective numbers of SEN students in primary and secondary schools benefited from the LSG between 2014/15 and 2016/17 school years as well as the spending amount between 2014/15 and 2016/17 school years, broken down by the ways that the primary and secondary schools spent;
- (b) the respective amount of unused balance in primary and secondary schools in last 3 years; whether it understood the reasons of having the unused balance;
- (c) Whether it had schedule for reviewing LSG , as well as monitoring mechanism to ensure cost-effectiveness of the LSG?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 76)

Reply:

(a) - (c)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector primary and secondary schools with additional resources on top of the regular subvention for all mainstream schools, including the Learning Support Grant (LSG) which is calculated according to the number of students with SEN and the tier of support the students require. EDB has strengthened the support for schools having admitted larger number of students with SEN by raising the ceiling of the LSG from \$1 million to \$1.5 million per school per annum with effect from the 2013/14 school year. To further enhance the support for students with SEN in mainstream schools, EDB has increased the grant rates of the LSG by 30% in the 2014/15 school year. In subsequent school years, we will also adjust the grant rates and its ceiling annually according to the change in the Composite Consumer Price Index. In the 2015/16 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,403 and \$26,806 respectively and the basic provision per school per annum for the first one to six students requiring tier-3 support has also been raised to \$160,836. LSG has been under regular review and will be enhanced whenever necessary and feasible.

Schools should pool together and deploy flexibly the LSG and other school resources for employing additional teachers, teaching assistants or hiring professional services (such as speech therapy and other specialist

services) to render appropriate support for the students with SEN. Hence, all students with SEN will benefit from the LSG.

The total expenditures on LSG for public sector primary and secondary schools from the 2014/15 to 2016/17 school years are as follows:

School Year	2014/15	2015/16 (Revised Estimate)	2016/17 (Estimate)
Expenditure on LSG (\$ million)	450.0	500.0	503.7

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. To our understanding, individual schools had underspending leading to claw back at the end of a specific year due to some unexpected difficulties, e.g. time required for employment of additional staff is longer than expected, early termination of contract by additional staff, difficulties in hiring of appropriate professional services, etc.

Based on the audited information as at March 2016, the amount of LSG clawed back at the end of the 2012/13 school year (aided and caput schools) / 2012-13 financial year (government schools), and 2013/14 school year (aided and caput schools) and 2013-14 financial year (government schools) is \$5.3 million and \$3.0 million respectively. As the amount to be clawed back from aided and caput schools for the 2014/15 school year will be confirmed only after the schools' submission of audited accounts by end of February 2016 and verification by EDB, we are unable to provide the amount for the 2014/15 school year and beyond.

When using Government subventions for employing staff and purchases, including hiring of services, all public sector schools are required to adopt a sound control system, maintain proper records and conduct periodic inspections. Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation each year, similar to other school policies and measures. EDB also requires schools to submit a self-evaluation report on the implementation of the Whole School Approach to Integrated Education at the end of each school year. To further enhance transparency, schools are required to set out how resources are deployed to provide support services for students with SEN and upload such information into their school websites. Besides, EDB's professional staff conduct regular visits and organise training and sharing sessions for schools to ensure proper deployment of resources for supporting students with SEN. In short, there is an established accountability and monitoring mechanism on the use of resources by schools to support students with SEN.

Asked by: Hon WONG Kwok-hing (Member Question No. 78)

Reply:

The majority of NCSC staff in this Bureau are employed by government schools under the school-based management initiative and by the Education Bureau Headquarters offices to provide support to various education initiatives on short-term or time-limited project basis. The details are at the **Annex** attached.

Employment of NCSC Staff in Education Bureau

		2015-16 ^{Note 1}	
Number of NCSC staff		Government Schools	Headquarters
		927 (-5.31%)	229 (-2.14%)
	Total	1 156 (-4.70%)	
Nature of work performed by NCSC staff		Government Schools	Headquarters
	Administrative support	9 (+12.5%)	50 (+19.05%)
	Clerical support	178 (-9.64%)	20 (-28.57%)
	Education / Training	323 (+6.60%)	77 (-4.94%)
	IT support	59 (0.00%)	2 (+100%)
	Project Co-ordinator	0 (0.00%)	33 (-23.26%)
	Research	2 (0.00%)	7 (-30.00%)
	Non-skilled	344 (-14.21%)	1 (0.00%)
	Others	12 (+33.33%)	39 (+39.29%)
Salary expenditure for NCSC staff		Government Schools (‘000)	Headquarters (‘000)
		131,531 (+4.39%)	103,030 (-4.45%)
	Total	234,561 ^{Note 2} (+0.32%)	
Monthly salaries of NCSC staff		Government Schools	Headquarters
	\$30,001 or above	0 (0.00%)	131 (0.00%)
	\$16,001 to \$30,000	13 (0.00%)	73 (+4.29%)
	\$8,001 to \$16,000	914 (-5.38%)	25 (-24.24%)
	\$6,501 to \$8,000	0 (0.00%)	0 (0.00%)
	\$6,240 to \$6,500	0 (0.00%)	0 (0.00%)
	Less than \$6,240	0 (0.00%)	0 (0.00%)

		2015-16 ^{Note 1}	
Length of employment of NCSC staff in years		Government Schools	Headquarters
	15 years or above	4 (N/A) ^{Note 3}	0 (0.00%)
	10 years to less than 15 years	52 (-1.89%)	2 (-50.00%)
	5 years to less than 10 years	111 (-23.45%)	27 (-42.55%)
	3 years to less than 5 years	130 (-8.45%)	34 (-20.93%)
	1 year to less than 3 years	289 (-1.70%)	70 (+6.06%)
	Under 1 year	341 (-1.16%)	96 (+29.73%)
Number of staff converted to civil servants		There is no mechanism for NCSC staff to be directly converted to civil servants. NCSC staff who met the basic entry requirements could apply for civil service vacancies through open recruitment and compete with other candidates on a fair and equal basis. Generally speaking, NCSC staff who have met the basic entry requirements and possess working experience relevant to the job would enjoy a competitive edge in the selection process over other candidates with less relevant experience.	
Percentage of NCSC staff in the total number of staff in the Bureau ^{Note 4}		15.10% (-3.02%)	
Percentage of payment for NCSC staff in the total staff costs of the Bureau ^{Note 4}		6.30% ^{Note 2} (-1.51%)	
Number of NCSC staff who received severance payment (SP)/long service payment (LSP)/contract gratuity (CG)		245 (+18.36%)	
Amount (\$'000) of SP/LSP/CG paid		8,958 (-4.39%)	
Number of NCSC staff with SP/LSP offset by the accrued benefits attributable to employer's contributions to MPF. (CG is at a specified percentage inclusive of the government's MPF contributions. As both are funded by the government, there is no question of reducing the payable CG.)		44 (+120%)	

	2015-16 ^{Note 1}	
Amount (\$'000) of SP/LSP offset by the accrued benefits attributable to employer's contributions to MPF. (CG is at a specified percentage inclusive of the government's MPF contributions. As both are funded by the government, there is no question of reducing the payable CG.)	1,914 (+145.38%)	
	Government Schools	Headquarters
Number of staff with paid meal time	583 (+0.87%)	228 (-2.15%)
Number of staff without paid meal time	344 (-14.21%)	1 (0.00%)
	Government Schools	Headquarters
Number of staff working 5 days a week	267 (+11.25%)	223 (-4.70%)
Number of staff with other work patterns (e.g. 5 ½ days a week, alternate Saturday off)	660 (-10.69%)	6 (N/A) ^{Note 3}
Number of staff working 6 days a week	0 (0.00%)	0 (0.00%)

() Change in percentage as compared with 2014-15

Note 1: Except for the two items on “salary expenditure for NCSC staff” and “percentage of payment for NCSC staff in the total staff costs of the Bureau” which are financial year figures, all other items are indicative of the position as at 31 December 2015.

Note 2: Information provided covers the projected expenditure up to 31 March 2016.

Note 3: N/A in percentage change indicates that there is an actual figure for the current year but nil (i.e. 0) for the preceding year.

Note 4: The “total number of staff in the Bureau” and the “total staff costs of the Bureau” include staff on civil service and non-civil service terms as well as politically appointed officials.

Since this academic year, the Administration has launched a subsidy scheme of \$960 million for students pursuing self-financing undergraduate programmes in selected disciplines, including healthcare. In this connection, please provide the respective numbers of subsidised self-financing undergraduate places of each institution involved each year.

Asked by: Prof Hon Joseph LEE Kok-long (Member Question No. 50)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the

2015/16 and 2016/17 academic years, and the number of actual intakes in the 2015/16 academic year are set out at **Annex**.

Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The provision for this year under Policy and Support is 20.1% less than the revised estimate of 2015-16. What is the specific reason for the decrease in provision?

Asked by: Prof Hon Joseph LEE Kok-long (Member Question No. 101)

Reply:

The provision for 2016-17 under Programme (7) Policy and Support is \$636.6 million or 20.1% lower than the revised estimate of 2015-16. This is mainly due to the completion of the \$1 billion injection into the Qualifications Framework Fund in 2015-16, partly offset by higher cash flow requirement in 2016-17 for other non-recurrent items including the Study Subsidy Scheme for Designated Professions/Sectors, the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland, and the Scholarship Scheme for Studying Outside Hong Kong.

Note: 1. Figures as at September of the respective school years.

2. With the implementation of New Senior Secondary Academic Structure, all secondary school students, including those with SEN, could enjoy 12-year free education up to S6 in the 2011/12 school year. Hence, the number of S6 students with SEN has increased since the 2011/12 school year.

CONTROLLING OFFICER'S REPLY**EDB306****(Question Serial No. 4306)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Financial Secretary has stated that the Government will continue to invest heavily in nurturing talents, enhance the quality of education and encourage the workforce to pursue continuing education. Please advise of the following:

1. Currently, after deducting the number of places for non-local students and non-JUPAS applicants, there remain about 12 000 places for first-year-first-degree programmes for JUPAS applicants. Will the Government provide sufficient places for funded undergraduate programmes for all secondary school graduates who meet the basic entry requirements for admission to universities? If yes, what will be the implementation details? If no, what are the reasons?
2. Will the Government increase the number of places for funded sub-degree programmes? If yes, what will be the implementation details? If no, what are the reasons?
3. Since its inception in 2002, the Continuing Education Fund has maintained the maximum level of subsidy at \$10,000 per applicant. Given the inflation and rise in consumer prices over the years, this has reduced the number of occasions and opportunities for adults with learning aspirations to pursue continuing education and training. Will the Government adjust the level of subsidy of the Continuing Education Fund? If yes, what will be the adjustment? If no, what are the reasons?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 61)

Reply:

1. All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 46% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, about 70% of them have access to post-secondary education. In recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways. On full implementation of these measures, and given the declining student population from about 62 700 in 2015 to 43 400 in 2022, we envisage that there will be sufficient publicly-funded and self-financing first-year first-degree (FYFD) places for all secondary school leavers meeting the general entrance requirements for university admission by the 2016/17 academic year.

Besides, it should be noted that student admission is within the autonomy of the institutions. Each University Grants Committee (UGC)-funded institution has its own merit-based admission policy in assessing the applications of local students through the Joint University Programmes Admissions System

(JUPAS) and non-JUPAS routes. The institutions strive to identify the most-deserving among all local candidates, regardless of the type of academic qualification held. All local students applying through the JUPAS and non-JUPAS routes deserve equal opportunities to be considered on the basis of fair competition for articulation to UGC-funded programmes.

As far as non-local students are concerned, starting from 2016/17, all new non-local students in sub-degree (SD), undergraduate and taught postgraduate programmes should be admitted through over-enrolment outside the approved UGC-funded student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes, by study level. This should help ensure that institutions will fully utilise 100% of the approved places, including the 15 000 UGC-funded FYFD places, for the admission of local students.

2. At present, the Vocational Training Council (VTC) is the major source of publicly-funded SD programmes. VTC regularly reviews the planned places of its publicly-funded SD programmes in view of the change in student population and manpower demand of respective industries.

As regards the UGC-funded sector, as a matter of policy, SD programmes in the UGC-funded sector should generally be run on a self-financing basis. SD programmes will continue to be subsidised if (a) they require high start-up and maintenance costs or access to expensive laboratories or equipment; (b) they meet specific manpower needs; or (c) they are regarded as “endangered species” (i.e. those that lack market appeal to the provider and the average student, such as pure arts or science).

3. The Government will conduct a review of the Continuing Education Fund in 2016-17 to meet the needs of society. The review will cover the amount and coverage of subsidy, and the submission of application and reimbursement claim under the Fund.

CONTROLLING OFFICER'S REPLY**EDB307****(Question Serial No. 4331)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has been providing a recurrent cash grant (hereinafter referred to as “the Grant”) to each public sector school and Direct Subsidy Scheme school operating classes at senior secondary levels since 2014/15 school year. It was mentioned in the reply (Reply Serial No. EDB018) regarding the examination of the situation of deployment of the Grant by schools in 2015-16 given by the Permanent Secretary for Education that work plans with clear objectives and strategies in implementing life planning education as well as effectiveness evaluation mechanism were in places, and EDB inspectors had rendered advice on improvement to the aforesaid work plans and deployment of resources to enhance schools’ forward planning. In this connection, will the Administration advise the Committee of:

1. The number of schools that have used the Grant to employ additional teaching staff, organise life planning activities, and enhance school-based career guidance services respectively in 2014-15 and 2015-16;
2. The content of the life planning activities organised by schools respectively in 2014-15 and 2015-16;
3. Among schools having used the Grant to employ additional staff in 2014-15 and 2015-16, how many of them have employed teachers, social workers and other professionals respectively with the Grant;
4. What are the detailed work plans in implementing life planning education according to the set objectives and strategies by schools as well as the effectiveness evaluation mechanism respectively in 2014-15 and 2015-16;
5. Whether EDB inspectors have written any reports or minutes of meeting in 2014-15 and 2015-16, based on the advice given to schools implementing life planning education; if yes, the details, and if no, the reasons for that.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 112)

Reply:

(1) & (3) The aim of the Career and Life Planning Grant (CLPG) is to enhance the capacity of the schools and their responsible team so as to take forward comprehensive Life Planning Education (LPE). As set out in the relevant circular, the CLPG should primarily be used for its major purpose of empowering and enhancing the capacity of the teaching team, though schools may use the remainder of the grant to enrich relevant school-based services for students by providing career-related learning beyond the classroom. EDB has collected information about the use of the CLPG in schools through a school survey completed in September 2015 and advisory visits paid to 295 schools up to the end of November 2015. It is noted that the majority of the schools have made use of the CLPG appropriately in such areas as employing additional

teachers to take up the teaching duties of career teachers so as to enhance their capacity in LPE, procuring LPE-related teaching materials or assessment services for students, and financing students to participate in career exploration activities. About 80% of the schools spent most of the CLPG on employment of additional staff.

(2) & (4) In line with the spirit of school-based management, the Incorporated Management Committee (IMC) / School Management Committee (SMC) of the school is accountable for proper use of cash grant for its intended objectives. Schools are required to formulate a work plan with clear objectives and strategies for life planning education and related career guidance service, and to build up a monitoring / evaluation mechanism for continuous development. EDB has strongly recommended IMC / SMC to consider inclusion of life planning education as one of the major concerns in the School Development Plan and to monitor as well as evaluate its implementation through the school annual plan and school report. To enhance transparency, the work plan and details on the use of the CLPG should be endorsed by IMC / SMC and uploaded onto the school's homepage by December each year. As life planning activities are school-based which have to be aligned with the specific needs of the students and the diverse school circumstances, a wide range of activities and programmes have been arranged in schools, including but not limited to those raising students' self-understanding and supporting their goal setting, development of positive work attitude and values, understanding different careers and the world of work.

(5) EDB officers would engage in professional discourse with the school guidance teams and render on-site advice on improvements to the work plans and deployment of resources to enhance schools' forward planning during the school visits. Advice specific to each school is recorded in our internal records.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

With the approval of the Legislative Council Finance Committee in July 2014 for a commitment of \$144 million, the Vocational Training Council (VTC) has implemented the Pilot Training and Support Scheme (Pilot Scheme) in 2014/15 academic year, targeting Secondary 3 to Secondary 6 school leavers and eligible adult learners. In this regard, will the Administration please inform this Committee of the following:

1. In 2014-15 and 2015-16, the number of students participating in the Pilot Scheme by industries joining the Pilot Scheme in the respective years;
2. In 2014-15 and 2015-16, the list of business establishments participating in the Pilot Scheme in the respective years;
3. In 2014-15 and 2015-16, the expenditure for the Pilot Scheme in the respective years.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 113)

Reply:

1. The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an approved commitment of \$144 million.

As at end February 2016, about 900 students were participating under the Pilot Scheme. The breakdown of participants by industry and academic year is given below –

Industry	Number of students joining the Pilot Scheme in the 2014/15 AY	Number of students joining the Pilot Scheme in the 2015/16 AY
Electrical and Mechanical (E&M)	236	423
E&M and Construction	6	128
Automobile industry	Note	68
Clock and watch industry		10
Printing industry		6
Testing and certification industry		20
Total	242	655

Note: The first cohort of students under the Pilot Scheme was only admitted in the 2015/16 academic year.

2. Under the Pilot Scheme, trade associations will liaise and consolidate the requirements of individual companies in respective industries in order to facilitate implementation of the Pilot Scheme. These associations include The Hong Kong Printers Association, The Federation of Hong Kong Watch Traders and Industries, The Hong Kong Federation of Electrical & Mechanical Contractors Ltd., Service Managers Association (for Automobile) and the Association of Construction Materials Laboratories. As at February 2016, more than 100 companies were participating in the Pilot Scheme.
3. In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education and would actively consider how to implement them. Among others, the Task Force recommended extending the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With this extension, the total commitment of the Pilot Scheme will be \$288 million. The implementation details such as the guaranteed level of salary and allowance offered by the Government and industries covered will remain the same.

The commitment of the Pilot Scheme only covers the allowance provided by the Government to students and VTC will provide administrative support using existing manpower resources. In the 2014-15 and 2015-16 financial years, the expenditure of the Pilot Scheme is about \$17 million in total.

CONTROLLING OFFICER'S REPLY**EDB309****(Question Serial No. 4333)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated in "Paragraph 38 in Page 382, Volume 1" of the 2016-17 Estimates, the Vocational Training Council (VTC) will "extend the Pilot Training and Support Scheme for two more cohorts of intakes admitted to VTC's training programmes in 2016/17 and 2017/18 academic years to benefit additional 2 000 students and attract young people to join industry sectors with a keen demand for labour." The Task Force on Promotion of Vocational Education, responsible for the Pilot Training and Support Scheme (Pilot Scheme), released the Report of the Task Force on Promotion of Vocational Education in 2015. In page 14 "Strategy 2: Strengthening Promotion (f) Provision of Financial Support by the Government (23)", it is stated that "the government to consider extending the Study Subsidy Scheme for Designated Professionals/Sectors (SSSDP) if it is proven effective". In this regard, will the Administration inform this Committee of the following:

1. Is there any report stating the extension of the Pilot Scheme? If there is, what are the details? If no, what are the reasons for extending the Pilot Scheme?
2. Are the expenditure for the Pilot Scheme for 2016-17 and 2017-18 the unspent fund for the last two cohorts? If no, what are the respective estimated expenditure for the Pilot Scheme for 2016-17 and 2017-18?
3. Will the estimated expenditure for the Pilot Scheme for 2016-17 and 2017-18 the same as the last two cohorts, which is \$144 million? If no, what are the reasons for the increase/decrease?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 114)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit 2 000 students with an approved commitment of \$144 million.

Under the Pilot Scheme, apprenticeship training for targeted industries will be provided to students alongside a guaranteed level of salary and incentive allowance. During the apprenticeship training which normally lasts for four years, the specific industries will offer an incentive allowance of \$30,800 in total to each student (on top of their monthly salary). The Government will offer each student an average monthly allowance of \$2,000 during the study-cum-work period from the second to fourth years. In addition, employers will commit to pay a minimum monthly salary of \$8,000 to students during the study-cum-work period from the second to fourth years, and a minimum of \$10,500 upon their graduation.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education and would actively consider how to implement them. Among others, the Task Force recommended extending the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With this extension, the total commitment of the Pilot Scheme will be \$288 million. The implementation details such as the guaranteed level of salary and allowance offered by the Government and industries covered will remain the same.

The commitment of the Pilot Scheme only covers the allowance provided by the Government to students and VTC will provide administrative support using existing manpower resources. In the 2014-15 and 2015-16 financial years, the expenditure of the Pilot Scheme is about \$17 million in total. The estimated non-recurrent expenditure of the Pilot Scheme for 2016-17 and subsequent years is as follows –

2016-17 (\$ million)	2017-18 (\$ million)	2018-19 (\$ million)	2019-20 (\$ million)	2020-21 (\$ million)	2021-22 (\$ million)
35.5	54.5	67.2	61.1	40	12.5

CONTROLLING OFFICER'S REPLY**EDB311****(Question Serial No. 4374)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

To help students with special educational needs (SEN) to integrate into mainstream schools, the Administration has implemented integrated education in mainstream primary and secondary schools. Regarding the post-school arrangements of school leavers with SEN from mainstream secondary schools, please provide the number and percentage of the respective school leavers in the past 3 years by school type:

Post-school arrangements of secondary school leavers	School Year (number of school leavers and percentage)
Employment	
Further studies	
Vocational training	
Attending pre-employment training programmes	
Apprenticeship training	
Emigration	
Others	
Total	

Asked by: Hon CHEUNG Kwok-che (Member Question No. 308)

Reply:

Data relating to students with special educational needs (SEN) are collected from schools through a separate computer system which was developed for use by secondary schools from the 2008/09 school year. Information about students with SEN who left secondary schools is captured through the system since the 2011/12 school year. According to the information reported by schools through the system, the post-school arrangements of school leavers with SEN after completing secondary education for the 2012/13 to 2014/15 school years are tabulated below.

Post-school arrangements of secondary school leavers	School year		
	2012/13	2013/14	2014/15
Employment	146	186	197
Further studies	323	473	553
Vocational training	259	363	401
Others (e.g. attend pre-employment training programme, apprenticeship, emigration, unknown to school) ^{Note}	375	433	425

Note: As there are no separate categories for “Pre-employment training programme”, “Apprenticeship schemes” and “Emigration” under the data collection of the separate computer system, such cases would be covered under the category of “Others”.

Since we have not captured the overall number of school leavers under the afore-mentioned computer system which was designed specifically for maintaining information about students with SEN, we are unable to provide the percentage share of the school leavers with SEN among the overall population of the school leavers.

With the implementation of the new senior secondary curriculum and the diversified articulation to different pathways for lifelong learning, all students, including those with SEN, will consider a variety of factors such as one’s own academic/ vocational/ career/ life aspirations, interests, aptitude and educational needs, but irrespective of school type, to make an informed choice of their exit pathway. Hence, providing a breakdown of post-school arrangements of secondary school leavers by school type is not meaningful and can be misleading.
