1. The expenditure for the 2 three-year pilot projects for students with specific learning difficulties (SpLD) and non-Chinese speaking (NCS) students commissioned as from the 2015/16 school year is estimated to be about \$16.6 million, with approximately \$7.8 million allocated for services to NCS students.
2. The three-year pilot projects aim to trial-run programmes that would enable these students to understand their personal strengths, provide them with the knowledge about different jobs and prepare them to enter the career world through authentic career-related experience. The programmes are specially designed to assist the students with SpLD to understand their strengths and overcome their difficulties through mentorship and job-shadowing, and NCS students to prepare for the cultural adaption and integration at work. Practical guidelines on preparing these students for transition to work are being developed for parents, teachers and mentors. Two non-governmental organisations have been commissioned to run the territory-wide programmes. It is estimated that a total number of 2 250 students and 135 schools will participate in the projects. EDB will monitor the progress of the pilot projects through meetings, on-site visits and reports to be submitted by the service providers.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 754)

Reply:

The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary and secondary schools and the creation of an inclusive learning environment in schools. In this connection, in the 2015/16 school year, a total of 197 schools (i.e. 112 primary schools and 85 secondary schools) are provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers, etc., it is the established practice that we do not disclose the name and situation of individual schools particularly when the additional funding support is applicable to all public sector schools meeting the threshold so as to avoid unnecessary misconception and possible labelling on individual schools. The number of schools provided with the additional funding and the number of NCS students in these schools by district in the 2015/16 school year are tabulated at Annex. The percentage of NCS students among all students in these schools ranges from 1.0% to 98.9%.

The school plans submitted show that most of these schools are deploying the additional funding to employ additional Chinese Language teachers to implement various intensive learning and teaching modes such as pull-out learning, split-class/group learning, after-school consolidation, etc. as appropriate. On strengthening communication with NCS parents and creation of an inclusive learning environment in schools, while some schools deploy the resources for employing ethnic minority teachers/teaching assistants, some procure translation services and/or organise briefings dedicated for NCS parents on schools’ policies and support for NCS students, etc.. In the 2015/16 school year, according to the school plans submitted, a total of about 70 ethnic minority teachers/teaching assistants are employed by these schools. As regards the number of contacts with NCS parents, given different practices of schools in keeping such records, related statistics are not available.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 755)Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools. To enhance Chinese language teachers’ professional capability in teaching Chinese as a second language, a total of 55 seminars and workshops have been organised since June 2014 to enable every primary and secondary school admitting NCS students to have the professional development opportunities for their teachers to understand the “Learning Framework” as well as to use the assessment tools and curriculum planning tools effectively. In the 2015/16 school year, a total of 197 schools (including 112 primary schools and 85 secondary schools) are provided with the enhanced funding to

facilitate their implementation of the “Learning Framework” and the creation of an inclusive learning environment in schools. The annual school plans submitted by the schools concerned show that they have arranged for their teachers to participate in training programmes relevant to the “Learning Framework” and will continue to arrange for their teachers to join the diversified and progressively advanced professional development programmes with a view to enhancing their professional capability in teaching Chinese to their NCS students.

In tandem, EDB has launched the “Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language)” funded under the Language Fund, starting from the 2014/15 school year on a pilot basis, with a view to encouraging serving Chinese Language teachers to pursue relevant courses including those at Master-degree level to enhance their pedagogical knowledge and skills in teaching Chinese to NCS students. So far, applications from 23 and 32 serving Chinese Language teachers teaching at primary and secondary levels have respectively been approved under the Scheme. Besides, the 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students” for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. The programme for the 2015/16 school year is still open for application, and hence the number of teachers enrolled is not available. In addition, to enhance pedagogical effectiveness in supporting NCS students’ learning of the Chinese language, how to teach Chinese from a second language learners’ perspective and elements of cultural sensitivity are embedded in various professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to provide the number of teachers who have attended the programmes or its breakdown.

EDB has also stepped up the school-based professional support services through diversified modes including on-site support provided by EDB professional support teams and support rendered through the University-School Support Programmes, Professional Development Schools Scheme and School Support Partners (Seconded Teacher) Scheme financed by the Education Development Fund. In the 2015/16 school year, 97 schools admitting NCS students are receiving the professional support services.

2. Architecture and engineering						
3. Testing and certification						
4. Creative industries						
5. Logistics						
6. Tourism and hospitality						
					Total :	960 million

Asked by: Hon CHEUNG Kwok-che (Member Question No. 767)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based

programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The estimated expenditure on subsidy in respect of different programmes selected for the 2015/16 and 2016/17 cohort is set out at **Annex**. Programmes selected for the 2017/18 cohort will be announced later this year.

Question:

It is mentioned in paragraph 117 of the Budget that to further encourage continuing education, the Government shall implement a pilot scheme to provide tuition fee subsidy for 3 cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year. Programmes in the disciplines of construction, engineering and technology will be covered. The total commitment will be \$200 million, benefiting 5 600 people. In this connection, please inform this Committee of how the \$200 million will be allocated.

Programme type	Tuition fee	Total number of subsidised places for 3 cohorts	Expenditure (\$)
1. Construction			
2. Engineering			
3. Technology			
4. Others			
		Estimated 5 600 people	Total: 200 million

Asked by: Hon CHEUNG Kwok-che (Member Question No. 768)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and

- (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register.

The tuition fee level per annum varies with different programmes and the number of modules a student takes up in each term. Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts with no pre-set quota for individual programmes. A breakdown of the estimated expenditure and number of new beneficiaries by cohort is as follows –

	2016/17 cohort	2017/18 cohort	2018/19 cohort	Total
Estimated expenditure (\$ million)	62	68	70	200
Estimated number of new beneficiaries	1 700	1 900	2 000	5 600

- End -

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of NCS ethnic minority students studying at different grade levels in public sector and Direct Subsidy Scheme secondary schools in the 2015/16 school year are tabulated at Annex A and Annex B respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

**Number of non-Chinese speaking students studying at different grade levels
in secondary schools in the 2015/16 school year**

Grade	S1	S2	S3	S4	S5	S6
Number of NCS students	1 730	1 547	1 457	1 505	1 324	1 219

Notes:

1. Figures refer to the position as at September of 2015.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. The above data cover students studying in public sector and Direct Subsidy Scheme secondary schools. Figures do not include special schools.

**Number of non-Chinese speaking ethnic minority students by ethnicity
studying in secondary schools in the 2015/16 school year**

	S1	S2	S3	S4	S5	S6
Indonesian	14	12	12	8	9	2
Filipino	273	275	259	254	221	228
Indian	218	221	184	223	196	181
Pakistani	599	528	484	489	401	347
Nepalese	249	242	199	235	209	191
Japanese	6	10	10	12	10	9
Thai	33	19	15	29	8	11
Korean	8	11	9	5	5	12
Other Asian	65	30	34	25	20	31
White	52	33	42	48	22	21
Others	91	60	75	82	48	34
Total	1 608	1 441	1 323	1 410	1 149	1 067

Notes:

1. Figures refer to the position as at September of 2015.
2. Figures cover students studying in public sector and Direct Subsidy Scheme secondary schools. Figures do not include special schools.
3. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures have excluded those students whose ethnicity is not Chinese but with Chinese as spoken language at home.

Question:

What are the numbers of non-Chinese speaking students and the numbers of ethnic minorities studying at different class levels in kindergartens in the 2015/16 school year?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 853)

Reply:

At present, all kindergartens in Hong Kong are privately run and the kindergarten (KG) sector, which is made up of local and non-local KGs, flexibly copes with parents' diverse demands and various needs of children. According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of ethnic minority students studying in kindergartens in the 2015/16 school year are tabulated at Appendix 1 and Appendix 2 respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

**Number of non-Chinese speaking students studying at different grade levels
in kindergartens in the 2015/16 school year**

	K1	K2	K3
Number of NCS students	4 470	4 437	3 075

Notes:

1. Figures refer to the position as at September of 2015
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures cover students studying in kindergarten-cum-child care centres.
4. The above data cover both local and non-local kindergartens.

**Number of ethnic minority students studying at different grade levels
in kindergartens in the 2015/16 school year**

	K1	K2	K3
Indonesian	25	47	25
Filipino	182	223	221
Indian	444	432	266
Pakistani	488	513	502
Nepalese	306	335	325
Japanese	312	238	206
Thai	21	39	20
Korean	116	99	46
Other Asian	151	142	93
White	1 271	1 273	676
Others	547	527	370
Total	3 863	3 868	2 750

Notes:

1. Figures refer to the position as at September of 2015.
2. Figures cover students studying in kindergarten-cum-child care centres.
3. The above data cover ethnic minority students regardless of their spoken language.
4. The above data cover both local and non-local kindergartens.

Question:

What were the respective numbers of government and aided primary schools provided with student guidance officers, student guidance teachers and Student Guidance Service Grant in each of the past 5 school years?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 884)

Reply:

Under the Comprehensive Student Guidance Service policy, teachers work in collaboration with student guidance officers (SGO), student guidance teachers (SGT) or student guidance personnel funded by the Student Guidance Service Grant (SGSG) to provide remedial, preventive and development guidance services for all students in a holistic and integrated manner. The number of public sector primary schools under the provision of SGO, SGT or SGSG for the past 5 school years (i.e. the 2010/11 to the 2014/15 school years) are as follows:

Number of Public Sector Primary Schools Provided with	2010/11 School Year	2011/12 School Year	2012/13 School Year	2013/14 School Year	2014/15 School Year
Student Guidance Officers	27	21	19	15	13
Student Guidance Teachers	134	132	132	129	127
Student Guidance Service Grant	301	303	302	309	312

Question:

Please provide the respective number of public sector primary schools that hired professional supervision services for frontline personnel of student guidance services to provide comprehensive guidance services, that hired student guidance services which included professional supervision services, that provided frontline personnel of student guidance services with professional supervision services on their own, and that did not hire or provide any professional supervision services for frontline personnel of student guidance services in the past 5 school years?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 887)

Reply:

Primary schools opting for the Student Guidance Service (SGS) Grant may, based on their own needs, procure student guidance service from non-governmental organisations or recruit full-time or part-time student guidance personnel to provide remedial, preventive and developmental guidance services for all students in a holistic and integrated manner. If a school considers that professional supervision is required for the Student Guidance Personnel, it may procure additional professional supervision service from service providers with established professional quality assurance at the time of hiring student guidance services. Under school-based management, schools can flexibly deploy the SGS Grant and need not report to the Education Bureau the detailed use of the Grant. Hence, we do not have the data required.

Director of Bureau: Secretary for Education

Question:

Starting from the 2012/13 school year, the Education Bureau has, in addition to the Student Guidance Service Grant (SGS Grant), provided each public sector primary school with an additional grant according to the number of classes. The amount of the additional grant is equivalent to \$15,000 per class per year. In this connection, would the Administration advise this Committee of the following:

1. The total amount of SGS Grant per year since the 2012/13 school year;
2. The total amount of the additional grant per year since the 2012/13 school year;
3. The total amount of unspent grants per year of the public sector primary schools receiving SGS Grant since the 2012/13 school year.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 888)

Reply:

1. and 2. The total amount of SGS Grant and Top-up Grant for the 2012/13 to 2015/16 school years is tabulated as follows:

	2012/13 School Year	2013/14 School Year	2014/15 School Year	2015/16 School Year
SGS Grant	\$127.3m	\$139.3m	\$146.3m	\$157.3m
Top-up Grant	\$56.9m	\$61.1m	\$65.4m	\$68.3m
Total:	\$184.2m	\$200.4m	\$211.7m	\$225.6m

3. The total amount of unspent SGS Grant (including Top-up Grant) of public sector primary schools for the 2012/13 and 2013/14 school years is \$19.0m and \$15.4m respectively. Relevant information of the 2014/15 school year is not available as the audited accounts for the school year is not yet due.

Question:

What is the respective number of students with special educational needs studying in non-public sector mainstream primary schools in the school years from 2010 to 2013? Please provide separate information by grade and type of disabilities.

Asked by: Hon CHEUNG Kwok-che (Member Question No.996)

Reply:

The number of students with special educational needs (SEN) studying in non-public sector mainstream primary schools, known to the Education Bureau (EDB), from the 2010/11 to 2012/13 school years is as follows:

School Year	2010/11	2011/12	2012/13
Number of Students with SEN	357	417	423

EDB does not maintain data from Direct Subsidy Scheme Schools. The above data only cover students with SEN studying in primary classes of English School Foundation schools (except its special school), other private international schools, and private independent schools as reported by the schools concerned in response to the annual Student Enrolment Survey (the Survey). It denotes the position as at September of the respective years. The data, however, are not exhaustive as some schools did not respond to the Survey in this respect. Besides, these private schools have their own system of classifying students with SEN which may not be comparable with those adopted in public sector schools. Thus, providing breakdown by SEN types can be misleading. We do not collect the data by grade levels and hence, we are not able to provide breakdown by grade levels.

Director of Bureau: Secretary for Education

Question:

What is the respective number of students with special educational needs studying in non-public sector mainstream primary schools in the school years from 2013 to 2016? Please provide separate information by grade and type of disabilities.

Asked by: Hon CHEUNG Kwok-che (Member Question No.997)

Reply:

The number of students with special educational needs (SEN) studying in non-public sector mainstream primary schools, known to the Education Bureau (EDB), from the 2013/14 to 2015/16 school years is as follows:

School Year	2013/14	2014/15	2015/16
Number of Students with SEN	439	549	768

EDB does not maintain data from Direct Subsidy Scheme Schools. The above data only cover students with SEN studying in primary classes of English School Foundation (ESF) schools (except its special school), other private international schools, and private independent schools as reported by the schools concerned in response to the Annual Enrolment Survey (the Survey). It denotes the position as at September of the respective years. The data, however, are not exhaustive as some schools did not respond to the Survey in this respect. Besides, these private schools have their own system of classifying students with SEN which may not be comparable with those adopted in public sector schools. Thus, providing breakdown by SEN types can be misleading. We do not collect the data by grade levels and hence, we are not able to provide breakdown by grade levels.

Besides, ESF classifies the needs level of students with SEN according to the level of teaching and learning adjustments required, and offers three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF had advised that they have standardized their practice by requiring all ESF schools to include in their returns to the Survey for the 2015/16 school year not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for the 2015/16 school year.

Question:

What are the numbers of special schools by type and their students in the 2010-2012 and 2015/16 school years and the projected numbers for the 2016/17 school year?

Numbers of Special Schools by Type and Their Students for the School Year				
School Type	Year		2016/17	
	(Projection)			
	Number of Schools	Number of Students	Number of Schools	Number of Students
Visually Impaired				
Hearing Impaired				
Physically Disabled				
Mildly Intellectually Disabled				
Moderately Intellectually Disabled				
Severely Intellectually Disabled				
School for Social Development				
Hospital School				
Total				

Asked by: Hon CHEUNG Kwok-che (Member Question No. 1004)

Reply:

Number of special schools by type and their students in the 2010/11, 2011/12 and 2015/16 school years and the projected numbers for the 2016/17 school year are set out at the Appendix.

**Number of Special Schools by Type and their Students
in the 2010/11, 2011/12 and 2015/16 School Years and the Projected Numbers for the 2016/17 School Year**

School Type	2010/11 School Year		2011/12 School Year		2015/16 School Year		2016/17 School Year	
	Number of Schools	Number of Students ^(Note 1)	Number of Schools	Number of Students ^(Note 1)	Number of Schools	Number of Students ^(Note 1)	Projected Number of Schools	Projected Number of Students
Visually Impaired	2	143	2	126	2	125	2	130
Hearing Impaired	2	136	2	145	2	87	2	90
Physically Disabled	7	877	7	932	7	915	7	890
Mildly Intellectually Disabled	17 ^(Note 2)	3 072	17 ^(Note 2)	3 116	17 ^(Note 2)	3 049	17 ^(Note 3)	3 120
Moderately Intellectually Disabled	21 ^(Note 2)	1 697	21 ^(Note 2)	1 756	21 ^(Note 2)	1 879	19 ^(Note 3, 4)	1 960
Severely Intellectually Disabled	10	749	10	746	10	679	10	710
School for Social Development	7	710	7	775	7	600	7	590
Hospital School ^(Note 5)	1	358	1	348	1	369	1	310
Total	-	7 742	-	7 944	-	7 703	-	7 800

Notes

- (1) Number of students is as at September of respective year.
- (2) The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 7 schools for children with MiID and children with MoID.
- (3) The schools for children with MiID and schools for children with MoID include the respective sections of the 5 schools for children with MiID and children with MoID.
- (4) The MoID section of 2 schools for children with MiID and children with MoID will be completely phased out in the 2016/17 school year.
- (5) The Hospital School operates classes at 18 hospitals.

CONTROLLING OFFICER'S REPLY

EDB348

(Question Serial No. 4413)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- 1) Regarding duty visits outside Hong Kong made by the Bureau's politically appointed officials since the current-term Government has taken office, please list the places, purposes and main itineraries, names of accompanying politically-appointed officials, numbers of accompanying civil servants and total expenditure incurred.
- 2) Please list the dates of leave of the Bureau's politically appointed officials and whether they were away from Hong Kong on each occasion since the current-term Government has taken office.

Asked by: Hon Alan LEONG Kah-kit (Member Question No. 76)

Reply:

- 1) Information about duty visits outside Hong Kong made by Secretary for Education (SED) and Political Assistant to Secretary for Education (PA/SED) as well as Under Secretary for Education (US(Ed)) since their assumption of office in 2012 are at Annexes A to B respectively.
- 2) Since assuming their positions in 2012, SED, US(Ed) and PA/SED were entitled to paid vacation leave of 22 working days per year of service or such proportion of it on a pro rata basis. They all took their vacation leave within their entitlement.

**Duty visits outside Hong Kong made by
Secretary for Education from 2012-13 to 2015-16 up to 8 March 2016
(as at 8 March 2016)**

Year (number of visits)*	Purpose of visits	Number of official entourage from SED's Office in each visit (Note 1)	Total expenditure incurred by SED and official entourage from SED's Office (\$)(Note 2)
2012-13 (4)	<ul style="list-style-type: none"> To pay a courtesy visit to the Ministry of Education in Beijing To attend a ceremonial function in the Mainland To attend an education forum in the United Kingdom To promote the New Academic Structure cum Hong Kong Diploma of Secondary Education and Hong Kong as a regional education hub in Canada and the USA 	1 - 2	565,090
2013-14 (10)	<ul style="list-style-type: none"> To learn about kindergarten education and information technology in education in Korea, Singapore and Australia To officiate and/or address in international forum/seminars in Singapore and United Kingdom and exchange views on education policies, co-operation and development, etc. with Minister of Education of other countries, local educational officials and institutions as well as students To pay goodwill visits to education authorities and officials in Shenzhen, Guangzhou and Nansha to exchange views on the latest development on the educational front and visit local schools To lead a delegation of education professionals and sector representatives to Shanghai and Beijing for professional exchange To visit Indonesia for boosting educational co-operation and exchange with member states of the Association of Southeast Asian Nations and promoting Hong Kong's role as a regional education hub To lead a delegation from the education sector to attend an international convention in Shanghai To attend an international summit in New Zealand and to have bilateral meetings with Minister of Education of other countries 	1 - 2	688,414

(Question Serial No. 5709)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

- (1) Please provide a breakdown of the numbers of assistant teachers and teaching assistants in government secondary and primary schools, aided secondary and primary schools and special schools in the past 5 years. (Please explain in case no such data can be provided.)
- (2) What are the proportion of teachers within establishment, teachers outside establishment, assistant teachers and teaching assistants in government secondary and primary schools, aided secondary and primary schools and special schools this year? (Please explain in case no such data can be provided.)
- (3) What is the estimated expenditure of the Administration this year regarding the assistant teachers and teaching assistants of government secondary and primary schools, aided secondary and primary schools and special schools? (Please explain in case no such data can be provided.)
- (4) What are the average and median salaries of the above assistant teachers and teaching assistants in the past 5 years? (Please explain in case no such data can be provided.)
- (5) Many assistant teachers and teaching assistants indicate that they have to teach several classes and act as class teachers, which is no different from the duties of the teachers within establishment, but receiving only half of a teacher's salary if not lower. How will the Administration address the problem that assistant teachers and teaching assistants have to bear extra workload at deprived wages for a prolonged period of time?
- (6) While there is a serious shortage of teacher posts in Hong Kong, the education institutions continue to admit a large number of students to their Postgraduate Diploma in Education programmes. Consequently, many graduates are forced to work as teaching assistants at low salaries. Will the Government consider increasing the financial provisions for education to create additional teacher posts and implement small class teaching? Otherwise, how is it going to address the problem?

Asked by: Hon LEUNG Kwok-hung (Member Question No. 515)

Reply:

- (1) The Education Bureau (EDB) has been providing schools with different kinds of grants under various initiatives which allow the flexibility for schools to employ additional teaching staff. As we do not capture the school-based information on the deployment of such grants and the employment of various types of additional teaching staff, we are unable to provide the information on the number of assistant teachers and teaching assistants in schools.

(2), (3) & (4)

The percentage of teachers within and outside the establishment in government secondary and primary schools, aided secondary and primary school and special schools for the 2015/16 school year is tabulated below.

Type of Schools	Percentage of Teachers (Estimate)	
	Within Establishment	Outside Establishment
Government Secondary Schools	82.6%	17.4%
Government Primary Schools	79.8%	20.2%
Aided Secondary Schools	88.0%	12.0%
Aided Primary Schools	90.9%	9.1%
Special Schools	95.5%	4.5%

As we do not capture information on assistant teachers and teaching assistants in schools, we are unable to provide the breakdown of their percentage, the estimated expenditure of EDB regarding these staff and the average and median salaries of assistant teachers and teaching assistants in schools.

- (5) EDB has all along encouraged schools to provide a stable working environment for staff and enhance their commitment to delivering quality education. Schools are always reminded to adopt the practices of good employers in the employment of staff, both teaching and non-teaching. At present, the resources which schools can use for employment of staff are mostly recurrent in nature. Therefore, schools should be able to offer reasonable remuneration for their staff, establish a well-defined mechanism of pay adjustment and adjust their pay appropriately, having regard to the nature of their duties as a teacher, an assistant teacher or a teaching assistant, the level of respective responsibility and the economic environment in the society. Schools should also maintain good communication with their staff on employment matters to uphold their morale.
- (6) When planning the allocation of teacher education places, EDB will take into account the trend of student population in the coming years with a view to balancing and stabilizing the supply and demand of teachers in primary and secondary schools. In recent years, the total number of graduates of full-time Bachelor of Education and Post-graduate Diploma in Education programmes was around 1 000 per year. Based on past experience, there are about 2 000 primary and secondary school teachers leaving the profession each year due to retirement and other personal reasons. The teaching vacancies arising from such natural turnover should provide the vacancies to absorb new teachers.

The financial and manpower resources for schools have been increased in recent years through various initiatives, such as the implementation of small class teaching in public sector primary schools, the improvement of the teacher-to-class ratio for the senior secondary levels and the provision of various grants to meet specific policy objectives. We will continue to keep in view the situation and will provide the resources based on the needs of policy initiatives and priority in resource utilization.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

What are the estimated expenditure and staff provision for the implementation of the Primary 3 Territory-wide System Assessment (TSA) this year?

Asked by: Hon WONG Yuk-man (Member Question No. 68)

Reply:

The Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

On Primary 3 TSA, the Committee recognises that the assessment paper and question design could be adjusted and different formats of school reports could be adopted. The Committee suggests that the related arrangements should be tested out in the form of a tryout in 2016. In addition, professional support strategies would be provided to schools to enhance their knowledge and skills in homework policy, assessment literacy such as using assessment data to improve curriculum planning, learning and teaching, using diversified assessment methods to align with learning targets in school curricula and providing students with quality feedback with a view to improve learning effectiveness.

The Hong Kong Examinations and Assessment Authority issued letters on 29 February 2016 to invite 50 primary schools to participate in the 2016 Tryout Study (Primary 3) and they are of different types (i.e. about 10 per cent of the primary schools in the territory with each participating as a unit). Schools are invited on the basis of various factors including districts, types of schools (government, aided, Direct Subsidy Scheme) and school size to ensure representativeness, reliability and validity of the tryout study. The invited schools of the tryout study can consider if they would participate with reference to their school-based situations. Other schools are also encouraged to take part on a voluntary basis. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

Director of Bureau: Secretary for Education

Question:

About 30 student suicide cases were reported in the recent 6 months. What are the causes for the great number of student suicides as considered by the Bureau? How will the Bureau strengthen school psychological support services to students?

Asked by: Hon WONG Yuk-man (Member Question No. 69)

Reply:

Suicide is a complex behaviour with no single cause, but results from a complicated interaction of biological, psychological, cognitive and environmental factors.

Education Bureau (EDB) recommends schools to adopt a Three-tier Support Model, to provide different levels of identification and support by teachers, guidance personnel and specialized helping professionals respectively, to help students who have emotional difficulties and possibly are at risk of suicidal behaviour. If teachers suspect their students to have emotional difficulties and in need for professional assessment or consultation services, they may approach professionals in their schools such as school social workers who will communicate with the students and their parents, as well as educational psychologists if necessary. If further specialized support is required, there is a referral mechanism so that further evaluation and treatment by medical professionals such as clinical psychologists and psychiatrists can be arranged.

To alert professionals and school personnel on students' emotional difficulties and risk for suicidal behaviours, EDB provides an "eBook on Student Suicide for Schools: Early Detection, Intervention and Postvention" for reference and use by school personnel. EDB's School Administration Guide also includes a guideline entitled "How can schools help students with mental health problems?". EDB has been providing teachers with structured training courses as well as co-organising with Hospital Authority (HA) seminars on different mental health topics, such as "Psychosis", "Depression" and "Anxiety Disorders" to enhance school personnel's identification, assessment and support of students with emotional difficulties. In tandem, the Government has been making efforts to enhance school-based psychology service for schools. The School-based Educational Psychology Service (SBEPS) will cover all public sector primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs, including those with social, emotional and behavioral needs, from the 2016/17 school year. We will continuously review and enhance the existing support and measures for schools to help needy students when necessary.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Quite a number of teachers who have been employed for many years are unable to become regular teachers and the problem lies with the grants given to schools by the Education Bureau. Starting from this year, the Government allows secondary schools to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts. What criteria and indicators will be adopted by the Government to evaluate the effectiveness of this measure? Under what circumstances will the Bureau further increase the amount of subsidy for primary and secondary schools in order to keep up the morale of teachers and maintain the overall teaching quality?

Asked by: Hon WONG Yuk-man (Member Question No. 70)

Reply:

As announced by the Chief Executive in the 2016 Policy Address, public sector secondary schools may turn the existing Senior Secondary Curriculum Support Grant (SSCSG) and Career and Life Planning Grant (CLPG) into regular teaching posts starting from the 2016/17 school year to enhance the implementation of the senior secondary curriculum and to strengthen life planning education and related guidance services. The measure aims to provide schools with more stable teacher manpower to enhance the respective policies. Since the situations vary from school to school, the decision of whether and when to turn the two grants into regular teaching posts is entirely school-based. We will maintain communication with the school sector and review the implementation of the measure in the next two school years.

The current arrangement of providing teaching staff resources for aided schools by means of provision of regular teaching staff supplemented by cash grants can maintain the stability of the teaching force on the one hand, and provide schools with flexibility to deploy their resources to employ additional teachers or procure outside services to meet school-based development needs and provide appropriate support for students on the other.

All along, the Government is committed to enhancing the quality of education in Hong Kong and has injected substantial resources to support schools in taking forward various initiatives, such as increasing the ratio of graduate teacher posts from 50% to 65% in public sector primary schools starting from the 2015/16 school year and introducing a series of targeted relief measures to address the temporary decline of secondary student population. As any increase of subsidies to schools in terms of staff provision and grants would have far-reaching financial implications, we will consider the necessity of increasing such subsidies based on the actual need and priority in resource utilization.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Apart from offering opportunities for students to join Mainland exchange programmes and arranging professional exchange programmes for teachers, what are the other support measures offered by the Administration for the national education? What is the estimated expenditure on supporting national education by the Administration this year?

Asked by: Hon WONG Yuk-man (Member Question No. 71)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Key Learning Areas/subjects as well as, where appropriate, provision of professional support to schools etc. Apart from offering opportunities for students to join Mainland exchange programmes (MEPs) and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items is absorbed by the recurrent expenditure of the Education Bureau (EDB), expenditure in respect of subsidising MEPs for primary and secondary school teachers and students can be separately identified. The estimated expenditure on MEPs in 2016-17 is as follows:

Financial Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2016-17 ⁺⁺	96.4	1.2

[@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau

⁺⁺ Estimated figures

CONTROLLING OFFICER'S REPLY

EDB354

(Question Serial No. 4561)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

What is the manpower involved in the Bureau's mechanism for handling vacant school premises (VSP)?

How will the Bureau improve the measures for identifying and allocating VSP?

How the Education Bureau improve the situation in which school sponsoring bodies refused to surrender the VSP?

Asked by: Hon WONG Yuk-man (Member Question No. 72)

Reply:

Matters related to vacant school premises (VSP) are mainly handled by the Policy and Research Support Section of the Infrastructure and Research Support Division, Education Bureau (EDB) with support from other relevant sections such as the Regional Education Offices. Related work is overseen by a Deputy Secretary, a Principal Assistant Secretary and seven non-directorate staff, amongst other responsibilities. There is no separate breakdown on the manpower support for handling vacant school premises.

In light of the recommendations of the Audit Report and the related report of the Public Accounts Committee (PAC) tabled at the Legislative Council on 17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, Lands Department (LandsD), Planning Department and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

In respect of those VSP on private land, we have worked out with LandsD the improved mechanism as set out in the workflow in Appendices 33 and 34 of the PAC Report No. 65. We will enhance communication and cooperation with LandsD in dealing with such VSP. When a VSP is identified in future, we will take a more proactive approach to consult LandsD on the information relating to the land on which the VSP is located, including details about the type of land (e.g. whether the land is under a Private Treaty Grant), whether the land lease contains a land use restriction clause, a cessation of user clause, etc., which are important considerations for drawing up feasible follow-up actions to be taken.

For VSP which EDB considers are required for re-allocation for school or other educational uses but the school sponsoring body refuses to surrender the site, we will liaise with LandsD on how to recover possession of the land as far as practicable in accordance with the provisions of the relevant contracts (including land leases, tenancy agreements or service agreements). In all such cases, the Government must act in accordance with the contracts concerned. Besides, recovering possession of land by exercising the right conferred by the contract may not be the only way to make gainful use of the land. We will, in consultation with LandsD, review each case on its own merits.

(Question Serial No. 4616)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Will the government inform this Council of:

- (a) The number and percentage of non-Chinese speaking students who have participated in Primary One Admission (POA) System for the school year 2015/16 among the number of non-Chinese speaking students in K3 in the school year 2014/15;
- (b) The number and percentage of non-Chinese speaking students who have got admission in Discretionary Places Admission”(DP) stage for school year 2015/16 among the number of non-Chinese speaking students participated in Primary One Admission (POA) System;
- (c) The number and percentage of non-Chinese speaking students who have got admission in “Central Allocation” (CA) stage in school year 2015/16 among the no. of non-Chinese speaking students participated in Primary One Admission (POA) System;
- (d) The number and percentage of non-Chinese speaking students who have participated in Secondary School Places Allocation (SSPA) System for school year 2015/2016 among the number of non-Chinese speaking students in P.6 in the school year 2014/15;
- (e) The number and percentage of non-Chinese speaking students who have got admission in Discretionary Places Admission”(DP) stage for school year 2015/2016 among the number of non-Chinese speaking students participated in Secondary School Places Allocation (SSPA) System;
- (f) The number and percentage of non-Chinese speaking students who have got admission in “Central Allocation” (CA) stage for school year 2015/2016 among the no. of non-Chinese speaking students participated in Secondary School Places Allocation (SSPA) System;
- (g) The number and percentage of non-Chinese speaking students who got admission in direct subsidy school in the school year of 2015/2016, and the percentage of total students who got admission in direct subsidy school in the same school year.

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 61)

Reply:

- (a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS

students participating in the Primary One Admission (POA) 2015 for admission to Primary 1 in the 2015/16 school year is 1 199.

The number of NCS children studying in kindergartens (including kindergarten-cum-child care centres) at Kindergarten 3 level is 3 196 in the 2014/15 school year. According to the eligibility requirements, a child is not required to study at Kindergarten 3 for participation in the POA. Besides, the number of NCS children studying at Kindergarten 3 has included local and non-local kindergartens. As such, the corresponding percentage share of NCS children participating in the POA cannot be worked out.

- (b) The number and percentage of NCS students who were offered a Primary 1 place at the “Discretionary Places” stage are 752 and 62.7% respectively for the 2015/16 school year (i.e. POA 2015).
- (c) The number and percentage of NCS students who were allocated a Primary 1 place at the “Central Allocation” stage are 447 and 37.3% respectively for the 2015/16 school year (i.e. POA 2015).
- (d) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) 2015 for admission to Secondary 1 in the 2015/16 school year is 1 435. The corresponding percentage share among all Primary 6 NCS students in public sector schools, schools under the Direct Subsidy Scheme (DSS) offering the local curriculum and private schools (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) is 96.6% in the 2014/15 school year.
- (e) The number and percentage of Primary 6 NCS students who were allocated a Secondary 1 place at the “Discretionary Places” stage are 893 and 62.2% respectively for the 2015/16 school year (i.e. SSPA 2015).
- (f) The number and percentage of Primary 6 NCS students who were allocated a Secondary 1 place at the “Central Allocation” stage are 542 and 37.8% respectively for the 2015/16 school year (i.e. SSPA 2015).
- (g) The number of NCS students who were admitted to DSS schools offering the local curriculum is 5 714 in the 2015/16 school year and the corresponding percentage share among all NCS students in public sector (excluding special schools) and DSS schools offering the local curriculum is 32.5%. The corresponding percentage of students admitted to DSS schools offering the local curriculum is 10.1% in the 2015/16 school year.

Question:

Will the government inform this Council of the details in the number and amount of subsidies released to non-Chinese speaking students for alternative Chinese language examinations (the General Certificate of Secondary Education (GCSE), the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level), as tabulated in the tables below:

	2011/12	2012/13	2013/14	2014/15	2015/16
Number of students receiving subsidy for alternative Chinese language examinations					
Number of students receiving subsidy for GCSE					
Number of students receiving subsidy for GCSE for the first time					
Number of students receiving subsidy for IGCSE					
Number of students receiving subsidy for IGCSE for the first time					
Number of students receiving subsidy for GCE AS-Level					
Number of students receiving subsidy for GCE AS-Level for the first time					
Number of students receiving subsidy for GCE A-Level					
Number of students receiving subsidy for GCE A-Level for the first time					

	2011/12	2012/13	2013/14	2014/15	2015/16
Expenditure on subsidy for NCS students on GCSE Chinese					
Expenditure on subsidy for NCS students on IGCSE Chinese					
Expenditure on subsidy for NCS students on GCE AS-Level Chinese					
Expenditure on subsidy for NCS students on GCE A-Level Chinese					

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 62)

Reply:

Eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education. Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level. Besides, starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy non-Chinese speaking (NCS) students sitting for the GCSE (Chinese) examinations can apply for full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards.

The number of NCS students subsidised to sit for the afore-mentioned examinations from the 2011/12 to 2015/16 school years is tabulated below:

Alternative Chinese Examinations	Number of NCS students subsidised (Number of NCS students subsidised for the first time in the respective examinations)				
	2011/12 school year	2012/13 school year	2013/14 school year	2014/15 school year	2015/16 school year
GCSE Chinese	536 (476)	1 003 (949)	900 (819)	995 (919)	1 000 (938)
IGCSE Chinese	-	27 (27)	48 (40)	53 (53)	91 (91)
GCE AS-Level Chinese	-	82 (82)	175 (175)	273 (271)	289 (284)
GCE A-Level Chinese	-	7 (7)	99 (98)	150 (142)	156 (150)
Total	536	1 119	1 222	1 471	1 536

Expenditure on the subsidies for NCS students sitting for the afore-mentioned examinations from the 2011/12 to 2015/16 school years is tabulated below:

Alternative Chinese Examinations	Actual expenditure in the 2011/12 school year \$ million	Actual expenditure in the 2012/13 school year \$ million	Actual expenditure in the 2013/14 school year \$ million	Actual expenditure in the 2014/15 school year \$ million	Estimated expenditure in the 2015/16 school year \$ million
GCSE Chinese	0.28	0.54	0.53	0.64	0.71
IGCSE Chinese	-	0.02	0.08	0.09	0.16
GCE AS-Level Chinese	-	0.18	0.39	0.64	0.71
GCE A-Level Chinese	-	0.02	0.33	0.50	0.51
Total	0.28	0.76	1.33	1.87	2.09

CONTROLLING OFFICER'S REPLY**EDB357****(Question Serial No. 4618)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

- (a) The number of primary and secondary schools that received 1-9 non-Chinese speaking students, the number of kindergarten that received 1-7 non-Chinese speaking students, and the number of special schools that received 1-5 non-Chinese speaking students, as tabulated below:

Number of schools:				
Kindergartens with 1-7 NCS students				
Primary schools with 1-9 NCS students				
Secondary schools with 1-9 NCS students				
Special schools with 1-5 NCS students				

- (b) The list of support and funding available to the schools above, given that the small number of NCS students in their school does not make them eligible for support funding designated for NCS students.

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 63)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students ranging from “1-7” in kindergartens, “1-9” in public sector and Direct Subsidy Scheme primary and secondary schools and “1-5” in special schools in the 2015/16 school year are tabulated at Annex A.
- (b) The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. As regards schools admitting a handful of NCS students (i.e. 1 to 9 for ordinary schools and 1 to 5 for special schools), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 per year on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. In tandem, we will continue to encourage these schools to optimise the use of their immersed Chinese language environment and deploy other resources flexibly with holistic planning

according to their school-based circumstances to support their NCS students' mastery of the Chinese language as appropriate. Besides, NCS students in these schools may benefit from other support measures as set out at Annex B.

For NCS students in kindergartens, under the free quality kindergarten education policy with effect from the 2017/18 school year, a grant comparable to the recommended salary of one teacher will be provided for kindergartens admitting 8 or more NCS students. With the additional resources, kindergartens could provide teachers with more manpower support and professional training to develop effective strategies to help NCS students learn through the Chinese medium so as to lay a foundation for their study in local primary schools. These kindergartens should also enhance the communication with the parents of NCS students and strengthen home-school cooperation. Besides, school-based professional support will continue to be provided and further enhanced to help the kindergartens (including those admitting less than 8 NCS students) build up the expertise in facilitating NCS students' learning of the Chinese language for a smooth transition to primary education. Teacher training programmes on the teaching and learning of the Chinese language for NCS students in kindergartens will also be enhanced.

**Number of schools with non-Chinese speaking (NCS) students
ranging from 1 to 7 in kindergartens, 1 to 9 in public sector and Direct Subsidy Scheme
primary and secondary schools, and 1 to 5 in special schools in the 2015/16 school year**

	Number of NCS students	Number of schools
Pre-primary	1-7	322
Primary	1-9	217
Secondary	1-9	193
Special	1-5	23

Notes:

1. Figures refer to the position as at September of 2015.
2. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
3. Figures for primary and secondary levels cover NCS students studying in public sector and Direct Subsidy Scheme primary and secondary schools.
4. Hospital school is not included in special schools due to the transitional nature of the education service provided.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2015/16 school year**

Support measures	Estimated expenditure in the 2015/16 school year (\$ million)
Enhanced school-based professional support has been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language.	Note
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	3.7
Summer Bridging Programme for NCS students in primary schools Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.6
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	4.9
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	2.09
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children aged 3 to 9 to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	2.58

Note:

These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

- End -

Bachelor degree programmes				
Other				
Unknown				

Asked by: Hon Michael TIEN Puk-sun (Member Question No. 64)

Reply:

According to the information collected through annual Student Enrolment Survey, the number of Secondary 6 (S6) non-Chinese speaking (NCS) students and total number of S6 students in secondary day schools from the 2011/12 to 2014/15 school years are tabulated at Annex A.

According to the information provided by institutions, the number of NCS students and the total number of students admitted to full-time locally-accredited sub-degree (including associate degree and higher diploma) and undergraduate programmes from the 2012/13 to 2015/16 academic years are tabulated at Annex B. Breakdown of NCS students in associate degree and higher diploma programmes is not available.

The number of NCS students and total number of students admitted to dedicated and non-dedicated classes of Diploma of Foundation Studies (DFS) (formerly known as Foundation Diploma (Level 3)) programmes offered by the Vocational Training Council from the 2012/13 to 2015/16 academic years are set out at Annex C. We do not have relevant figures concerning other institutions' foundation diploma programmes, other or unknown programmes.

Enrolment of Secondary 6 (S6) non-Chinese speaking (NCS) students and total number of S6 students in secondary day schools from the 2011/12 to 2014/15 school years

School Year	2011/12	2012/13	2013/14	2014/15
No. of S6 NCS students	648	725	892	1 011
Total no. of S6 students	69 522	69 806	65 649	61 773

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures include those students whose ethnicity is Chinese but who are NCS based on the spoken language at home.
3. Figures include Government, Aided, Caput and Direct Subsidy Scheme schools only.

**Number of non-Chinese (NCS) speaking students and the total number of students
admitted to full-time locally-accredited sub-degree and undergraduate programmes
from the 2012/13 to 2015/16 academic years**

Academic Year	2012/13	2013/14	2014/15	2015/16 [#]
No. of sub-degree NCS students	164	156	288	309
Total no. of sub-degree students	41 520 [^]	32 513	32 238	32 881
No. of undergraduate NCS students	307	335	366	382
Total no. of undergraduate students	40 219 [^]	23 426	24 762	24 388

Notes:

- Figures include students admitted to both public-funded and self-financing programmes.
 - Figures on undergraduate programmes also include first-year student intakes of non-first-year-first-degree programmes.
- “[^]” To tie in with the implementation of the new academic structure, institutions admitted two cohorts of students under the old and new academic structures in the 2012/13 academic year.
- “[#]” Provisional figures.

Number of Non-Chinese Speaking (NCS) students and the total number of students admitted to dedicated and non-dedicated classes of Diploma of Foundation Studies (DFS) programmes offered by the Vocational Training Council (VTC) from the 2012/13 to 2015/16 academic years

Academic Year	2012/13 ^(Note)	2013/14	2014/15	2015/16
No. of NCS students studying DFS in VTC	8	73	153	144
Total no. of DFS students in VTC	3 273	6 341	6 050	5 370

Note: The number of students (including NCS students) admitted to DFS (or the then Foundation Diploma (Level 3)) programmes was lower in the 2012/13 academic year as compared with the subsequent years due to lower awareness of the programme at that time since it was first launched for the first cohort of Secondary 6 graduates under the new academic structure.

CONTROLLING OFFICER'S REPLY**EDB359****(Question Serial No. 4643)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As mentioned in paragraph 118 of the Budget Speech, a pilot scheme will be implemented to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year. Programmes in the disciplines of construction, engineering and technology will be covered. The total commitment will be \$200 million, benefiting 5 600 people. Will the Government provide:

1. a breakdown of the number of people by discipline; and
2. the amount of tuition fee subsidy and its percentage share in the total amount of tuition fee.

Asked by: Hon James TIEN Pei-chun (Member Question No. 76)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total with no pre-set quota for individual programmes. A breakdown of the number of new beneficiaries by cohort as follows –

	2016/17 cohort	2017/18 cohort	2018/19 cohort	Total
Estimated number of new beneficiaries	1 700	1 900	2 000	5 600

- End -

(Question Serial No. 3433)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

It is mentioned in the Government's reply to my question last year that there were a number of reserved school sites. Will the Government inform this Committee of the following:

1. What is the development plan for schools on the list at present? Regarding the projects on Anderson Road, when are the works expected to commence?
2. How many projects on the list have already converted to other development plans? Has the Education Bureau (EDB) provided additional reserved school sites? If it has, what are the details?
3. What is the existing establishment for reviewing the development of reserved school sites? What mechanism does the EDB have in place to decide on whether the reserve school sites should be developed?

Asked by: Hon WU Chi-wai (Member Question No. 83)

Reply:

1 and 2. As at March 2016, there are a total of 22 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as technical feasibility study and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 22 reserved school sites by districts with their location, site area and planned use is set out in the table below. Among them, funding approval for two was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2012-13 LegCo Session with the school building works already underway; six were approved in the LegCo Session in 2014-15 with the school building works commenced in 2015 or to be commenced soon; while projects on another three sites would be submitted for funding approval from FC in the 2015-16 LegCo Session. For the remaining 11 sites, four fall within or site availability are affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

(Table): Reserved School Sites by District

No.	District	Location	Site Area (rounded to the nearest hundred m ²)	Planned use	Number of classrooms	Remark
1	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)
2	Kowloon City	Kai Tak Development	6 600	Primary School	30	(i)

4	Kowloon City	Kai Tak Development	7 500	Secondary School	30	(ii)
5	Kowloon City	Kai Tak Development	7 700	Secondary School	30	(iii)
6 [#]	Kowloon City	Ho Man Tin	7 700	Primary School	24	(iv)
7	Kwun Tong	Jordan Valley	6 900	Special School	18	(i)
8	Kwun Tong	Anderson Road	7 200	Secondary School	30	(iii)
9	Kwun Tong	Anderson Road	6 400	Primary School	30	(ii)
10	Kwun Tong	Anderson Road	6 200	Primary School	30	(iii)
11	Eastern	North Point	12 300	Primary School	24	(i)
12	Eastern	North Point	(Total)	Primary School	24	(i)
13	North	Fanling	7 100	Primary School	36	(i)
14	Sham Shui Po	Cheung Sha Wan	6 500	Primary School	30	(iii)
15	Sham Shui Po	Cheung Sha Wan	4 400	Special School	12	(i)
16	Sai Kung	Tseung Kwan O	6 200	Primary School	30	(iv)
17	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	(iv)
18 [#]	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	(iii)
19	Tuen Mun	Tuen Mun West	7 100	Special School	16	(ii)
20	Islands	Tung Chung	5 800	Special School	18	(iii)
21 [#]	Sha Tin	Shui Chuen O	8 700	Primary School	30	(iii)
22 [#]	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from the Finance Committee of the Legislative Council for the school building project.
- (ii) Funding approval would be sought from the Finance Committee of the Legislative Council in the 2015-16 Legislative Council Session for the school building project. As regards the primary school site at Development at Anderson Road, subject to funding approval by Finance Committee within the current legislative session, construction is planned to commence in late 2016.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

All the reserved school sites listed in the table above are planned for educational purposes. As compared with previous year, four additional reserved school sites are provided (i.e. those denoted in “#” in the table above).

3. EDB will work with the Planning Department (PlanD) to identify sites for school development for meeting future educational needs. When planning for the School Building Programme for reserved school sites, EDB will consider the latest school-age population projections, the prevailing educational initiatives, other factors that may affect the demand for school places in certain districts and different options to increase the supply of places (e.g. utilising vacant classrooms in existing schools) in particular districts. We will consider if there is a long-term need to identify reserved school sites to meet the projected demand and relevant educational initiatives, and liaise with PlanD accordingly when such need arises. We will also consider the projected demand for school places in the district in the medium and the longer term, the technical feasibility of developing the site and the likelihood of acquiring alternative school sites in the district, etc., before we decide to retain or release a particular reserved school site so as to facilitate better utilisation of valuable land resources.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the use and disposal of vacant school premises, please advise this Committee of the following:

- 1) In 2016-17, what are the work details and expenditure of the Education Bureau (EDB) in relation to improvement of the utilisation rate of vacant school premises as mentioned in the Director of Audit's Report No. 65?
- 2) Please list by district information of the 29 vacant school premises as mentioned in the Director of Audit's Report No. 65, including location and site area of the respective premises, and the number of years for which the premises has been left idle.
- 3) Please list by district information of the 71 vacant school premises the physical possession of which has not been delivered to the Government after cessation of school operation as mentioned in the Director of Audit's Report No. 65, including location and site area of the respective premises, and the number of years for which the premises has been left idle.

Asked by: Hon WU Chi-wai (Member Question No. 141)

Reply:

(1) It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

In light of the recommendations of Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP and the related report of the Public Accounts Committee tabled at the Legislative Council on

17 February 2016, EDB is undertaking a series of measures to improve the handling and disposal of VSP. Firstly, we are reviewing the mechanism for identifying and allocating VSP for school or other educational uses, including defining and clarifying what constitutes VSP that should be handled with a view to drawing up a genuine database on VSP for better management of the use and disposal of VSP instead of simply a record of ex-school premises. In addition, we are also conducting a stock-taking exercise by comparing the existing VSP records with the school registration records and conducting site visits where necessary to ascertain if there are any possible missed cases of VSP and to enhance the comprehensiveness of the VSP database. This will be followed by revamping the existing database with the objective of facilitating the management of those VSP that requires follow-up action or monitoring. An internal manual will be drawn up to set out the requirements and guidelines on the identification, screening, allocation and management of VSP for all related EDB sections to follow. We strive to complete the above tasks by June 2016.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for medium or long-term educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau, Home Affairs Department, Lands Department (LandsD), PlanD and Social Welfare Department) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

The relevant manpower expenses in carrying out the above improvement measures will be absorbed by the recurrent expenditure of EDB. We do not have a separate breakdown on expenditure in this regard.

(2) As stated in the Audit Report, at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use, nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are in Table (1) below:

Table (1) – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use

2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5.	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

(3) According to LandsD, regarding the 71 VSP mentioned in the Audit Report the physical possession of which had not been delivered to the Government after cessation of school operation, the land leases of 28 VSP do not contain a cessation/diminution of user clause allowing the Government to re-enter the land after the cessation of school use while the leases of two VSP allow uses other than school use. In other words, the Government does not have a contractual right to re-enter the private land concerned on the ground that the school has ceased operation. For the remaining 41 VSP, 26 are under EDB's purview. EDB and LandsD will co-ordinate with each other in taking action to re-enter the sites if EDB has confirmed that the sites are required for re-allocation for school or other educational uses or in processing applications from the grantees/licencees for alternative uses as appropriate. Information on the district, year of school closure and site area of these 41 VSP provided by LandsD is in Table (2) below:

Table (2) – 41 VSP the physical possession of which had not been delivered to the Government upon cessation of operation of the original use and the land lease of them contains a cessation/diminution of user clause (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Approx. site area (rounded to the nearest hundred m ²) (Note 2)
1	Wong Tai Sin	2008/09	2 000 *
2	North	2005/06	7 700 *
3	North	2006/07	16 100 *

27	Kowloon City	2008/09	1 200
28	Kowloon City	2008/09	1 700
29	Kowloon City	2013/14	3 200
30	Sham Shui Po	2008/09	1 300
31	Sham Shui Po	2007/08	1 300
32	Sham Shui Po	2006/07	1 900
33	Sham Shui Po	2006/07	4 600
34	Yau Tsim Mong	2005/06	1 000
35	Yau Tsim Mong	2010/11	1 100
36	North	2006/07	2 800
37	Sai Kung	2008/09	41 300
38	Sha Tin	2012/13	6 400
39	Sha Tin	2008/09	5 000
40	Tai Po	2011/12	3 100
41	Islands	2007/08	6 200

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises marked with * is only a rough estimate provided by PlanD. The site area of other school premises is a rough estimate based on records available to EDB and the figures are rounded to the nearest hundred m² and for reference only.

Note 3: Table (2) did not include a school premises located in Southern District (which ceased operation in the 2012/13 school year with approximate site area being 6 000 m²) which is required to be surrendered under the service agreement though its land lease does not contain a cessation/diminution of user clause. However, due to some technical problems, EDB would need to further discuss with relevant departments on the feasible way forward.

EDB and LandsD have agreed on the mechanism and procedures for handling VSP, including VSP on sites where the leases provide the Government with the rights to re-enter after cessation/diminution of school use, and will strengthen communication and co-ordination under the mechanism in order to optimise the use of VSP as early as possible. LandsD will, as appropriate, continue to take suitable actions to recover possession of VSP on sites for which there is a cessation/diminution of user clause in the land lease and VSP held on government land licences. For VSP located on private land which EDB considers are required for re-allocation for school or other educational uses but the school sponsoring body refuses to surrender the site, EDB will liaise with LandsD on how to recover possession of the land as far as practicable in accordance with the provisions of the relevant contracts (including land leases, tenancy agreements or service agreements). In all such cases, the Government must act in accordance with the contracts concerned. Besides, recovering possession of land by exercising the right conferred by the contract may not be the only way to make gainful use of the land. Each case will need to be assessed on its own merits.

(Question Serial No. 4752)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. The Education Bureau (EDB) has, starting from the 2014/15 school year, earmarked provision per year to step up the education support for non-Chinese speaking students in learning the Chinese Language through, among others, facilitating schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework". Please set out, by item, the expenditure and the number of schools and students benefiting from the efforts.
2. Has the Administration developed quantitative standards for evaluating the effectiveness and progress of the above efforts? If yes, please provide details by item.

Asked by: Hon MA Fung-kwok (Member Question No. 55)

Reply:

- (1) The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. The related support measures, estimated expenditure, number of schools and students benefited in the 2015/16 school years are tabulated at Annex.
- (2) The support measures would be reviewed on an on-going basis in light of all relevant consideration, including the findings under the research framework drawn up in light of advice from research and language experts. As regards the "Learning Framework", EDB has consulted teachers and language experts when formulating it and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the "Learning Framework", especially the supporting materials, on an on-going basis and refine them in due course after consolidating different views and collecting learning and teaching experience in different school context. At the curriculum level, the "Learning Framework" would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, in the area of school-based professional support, feedback is being collected regarding our collaboration on student learning, teacher development and school development. EDB will, based on the research framework, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students to ensure the quality of the support measures and refine individual measures where appropriate.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2015/16 school year**

Measures	Estimated expenditure in the 2015/16 school year (\$ million)	Number of schools / students benefited in the 2015/16 school year
<p>Enhanced funding support has been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools.</p> <p>Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.</p>	223.9	<ul style="list-style-type: none"> - About 8 330 NCS students in 112 primary schools; 8 120 NCS students in 85 secondary schools; and 300 NCS students in 25 special schools - About 140 NCS students in 34 primary schools; 180 NCS students in 48 secondary schools; and 20 NCS students in 9 special schools
Enhanced school-based professional support for schools, including the University-school Support Programme financed by the Education Development Fund	Note 1	About 8 150 NCS students in 97 schools
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0 Note 1	Note 2
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	Note 2
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	3.7	About 970 NCS students

Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	4.9	Note 3
<p>Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education</p> <p>Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.</p>	2.09	About 1 540 NCS students

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. The “Learning Framework” is applicable to all public sector primary and secondary schools and Direct Subsidy Scheme schools offering the local curriculum which admit NCS students. Similarly, all teachers teaching the Chinese language to NCS students can join the professional development programmes. In the 2015/16 school year, there are about 610 schools (including 330 primary schools and 280 secondary schools) admitting about 17 700 NCS students (8 900 at primary level and 8 800 at secondary level); and 49 special schools admitting about 360 NCS students.
3. For 2016-18 cohort, since application from schools is still in progress, the number of NCS students applying for the courses of Applied Learning Chinese (for NCS students) is not yet available.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Will the Education Bureau/University Grants Committee (UGC) provide information on 2011 to 2015:

- (a) the numbers of programmes, places, students, graduates, the average amount of tuition fees paid by each graduate for completing the programme for the respective academic year as well as the average annual salary of graduates from self-financing associate degree programmes (please provide a breakdown by institution and programme category);
- (b) the numbers of programmes, places, students, graduates, the average amount of tuition fees paid by each graduate for completing the programme for the respective academic year as well as the average annual salary of graduates from self-financing higher diploma programmes (please provide a breakdown by institution and programme category);
- (c) the numbers of programmes, places, students, graduates, the average amount of tuition fees paid by each graduate for completing the programme for the respective academic year as well as the average annual salary of graduates from self-financing undergraduate programmes (please provide a breakdown by institution and programme category).

Asked by: Hon MA Fung-kwok (Member Question No. 61)

Reply:

(a), (b) and (c)

The number of full-time locally-accredited self-financing sub-degree and undergraduate programmes, their estimated intakes, enrolment and average annual tuition fees by institution from the 2011/12 to 2015/16 academic years are set out at **Annex A**. The number of graduates of full-time locally-accredited self-financing sub-degree and undergraduate programmes are only available from the 2010/11 to 2013/14 academic years and are set out at **Annex B**. The average annual salaries of graduates of full-time locally-accredited self-financing sub-degree programmes by institution are only available from 2011 to 2014 and are set out at **Annex C**. We do not have readily available information on the average salary of graduates from self-financing undergraduate programmes. Besides, we do not have the breakdown of all the above figures by subject.

Notes:

[1] Excludes sub-degree programmes provided under the old academic structure.

[2] Figures include subsidised places under the Study Subsidy Scheme for Designated Professions/Sectors.

[3] The estimated intakes for full-time and part-time sub-degree programmes under the Hong Kong Art School in the 2012/13 academic year was 85. In view of the demand for full-time sub-degree places, there were no student intakes for part-time programmes.

“-” Denotes no relevant programmes were offered.

CONTROLLING OFFICER'S REPLY**EDB364****(Question Serial No. 4761)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown, by age group (under 30, 30-40, 41-50 and 51-60), of the wastage rates and numbers of primary and secondary teachers in government, subsidised, private and Direct Subsidy Scheme (DSS) schools in 2015/16.
2. Please give a breakdown, by class level, of the numbers of primary and secondary students who left school in government, subsidised, private and DSS schools in the past 3 years.

Asked by: Hon MA Fung-kwok (Member Question No. 64)

Reply:

- (1) The number of primary and secondary school teachers and the wastage rate in government, aided, caput (secondary only), private and Direct Subsidy Scheme (DSS) schools by age group for the 2015/16 school year are as follows.

Primary Schools (Government, Aided, Private and DSS)

2015/16 (Estimate)	Government		Aided		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)	No. of Teachers*	Wastage Rate^ (%)
< 30	120	10.8	2 920	7.5	370	10.4	360	12.6
30 – 40	380	4.1	7 290	2.6	740	6.7	610	7.1
41 – 50	710	2.8	5 210	2.7	430	4.4	190	4.0
51 – 60	270	7.1	2 480	10.1	160	8.5	70	13.9

Secondary Schools (Government, Aided, Caput, Private and DSS)

2015/16 (Estimate)	Government		Aided		Caput		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate [^] (%)	No. of Teachers*	Wastage Rate [^] (%)	No. of Teachers*	Wastage Rate [^] (%)	No. of Teachers*	Wastage Rate [^] (%)	No. of Teachers*	Wastage Rate [^] (%)
< 30	170	15.7	2 680	8.5	10	14.3	80	11.4	900	8.6
30 – 40	360	8.6	7 490	3.0	40	8.9	230	13.8	1 900	5.2
41 – 50	700	2.5	7 060	1.8	30	5.7	80	13.1	750	4.8
51 – 60	420	12.5	3 850	10.1	20	12.0	50	0.0	430	8.4

* Numbers are rounded to the nearest 10.

[^] “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

- (2) The Education Bureau does not compile statistics on the numbers of primary and secondary students who left school in government, subsidised, private and DSS schools.

- End -

Question:

1. Please advise the numbers and proportions of local, mainland, Taiwan and overseas students who studied in international schools, including the English Schools Foundation, with a breakdown by primary and secondary schools and special education, as well as the numbers and proportions of students of the top 5 countries or regions in 2015/16;
2. As stated in last year's reply (EDB481), the Bureau commissioned a new round of the study in October 2014 to better understand the demand for school places in the next few years. According to the result of the study, is the current supply of international schools in Hong Kong considered sufficient?

Asked by: Hon MA Fung-kwok (Member Question No. 65)

Reply:

1. The number of local and non-local students in international primary, secondary and special schools and the breakdown of the non-local students by top five nationalities in the 2015/16 school year are tabulated at the **Appendix**.
2. Further to the consultancy study completed in end 2012, we commissioned a new round of the study in October 2014 to update the latest provision of international school places at primary and secondary levels in the territory and to project the supply and demand in the next few years. The study will collect views through surveys from international schools and the business sector as well as the international community in order to have a broader understanding of the concerns of different stakeholders. Such information, coupled with the past trends of demand for international school places and the forecast changes in economic growth, would be useful reference for projecting the demand from overseas families coming to Hong Kong for work or investment. The study is expected to complete by mid-2016.

**Number of Local and Non-local Students (Chinese or Others) Enrolled in
International Primary, Secondary and Special Schools in 2015/16 School Year**
(based on the student enrolment survey conducted in September 2015)

Primary Schools

	Students	%
Local	4 158	20.3%
Non-local Chinese	784	3.8%
Non-local Others	15 497	75.8%
Total	20 439	100.0%

Secondary Schools

	Students	%
Local	2 931	17.7%
Non-local Chinese	817	4.9%
Non-local Others	12 782	77.3%
Total	16 530	100.0%

Special School

	Students	%
Local	11	16.4%
Non-local Chinese	0	0.0%
Non-local Others	56	83.6%
Total	67	100.0%

Notes:

- (1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.
- (2) Non-local Chinese students refer to students who hold Chinese nationality and do not have right of abode in Hong Kong (e.g. Mainlanders, Macaoese and Taiwanese). There is no further breakdown on the number of students with Chinese nationality.
- (3) Figures of primary and secondary schools include students studying in English Schools Foundation (ESF) schools and other private international schools but not the special school operated by ESF.
- (4) Figures of special school refer to the special school operated by ESF.
- (5) Figures refer to position as at September 2015.

**Number of Non-local Students by Top 5 Nationality Enrolled in
International Primary, Secondary and Special Schools in 2015/16 School Year
(based on the student enrolment survey conducted in September 2015)**

Primary Schools

Rank	Nationality	Students	% to overall students
1	British	3 045	14.9%
2	American	2 232	10.9%
3	Australian	2 033	9.9%
4	Canadian	1 584	7.7%
5	Japanese	1 246	6.1%

Secondary Schools

Rank	Nationality	Students	% to overall students
1	British	2 789	16.9%
2	American	1 857	11.2%
3	Canadian	1 566	9.5%
4	Australian	1 192	7.2%
5	French	996	6.0%

Special School

Rank	Nationality	Students	% to overall students
1	British	20	29.9%
2	American	8	11.9%
3	Australian	6	9.0%
4	Indian	4	6.0%
5	Canadian	3	4.5%
5	New Zealander	3	4.5%

Notes:

- (1) Nationality refers to issuing country of the passport.
- (2) British National (Overseas) Passport holders are excluded from British students.
- (3) Figures of primary and secondary schools include students studying in English Schools Foundation (ESF) schools and other private international schools but not the special school operated by ESF.
- (4) Figures of special school refer to the special school operated by ESF.

Director of Bureau: Secretary for Education
Question:

Regarding the statement “continue to take measures to encourage the UGC-funded institutions to strengthen their pursuits of the initiatives of internationalisation and engagement with the Mainland” under Matters Requiring Special Attention in 2016-17, will the Administration advise on the following:

1. the numbers of Hong Kong students attending higher education institutions in the Mainland and those who have returned to Hong Kong to work or pursue further study (postgraduate programmes) upon graduation in the past year;
2. the number of applications for assessment of academic qualifications obtained in the Mainland that the Hong Kong Council for Accreditation of Academic and Vocational Qualifications received in the past year; and among such applications, the percentages of cases in which the qualifications concerned were formally recognised and those which were not;
3. the latest progress in mutual recognition and articulation of professional qualifications such as medical practitioners, Chinese medicine practitioners, dentists, pharmacists, rehabilitation therapists, nurses, specialists, architects, accountants and social workers?

Asked by: Hon MA Fung-kwok (Member Question No. 68)

Reply:

1. The Government does not maintain records of the number of Hong Kong students pursuing studies in the Mainland and those who have returned to Hong Kong to work or pursue further study upon graduation. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland higher education institutions and research institutes was 15 483 as at October 2015.
2. In 2015-16 (as at 29 February 2016), the number of qualifications assessments made by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications in response to applications submitted by holders of Mainland qualifications is 717, in which 98.9% of the qualifications concerned were assessed as comparable to the level of their counterparts in Hong Kong.
3. Hong Kong and the Mainland are committed to enhancing mutual recognition of professional qualifications and the access of Hong Kong professional services to the Mainland market under the framework of the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA). The Government also encourages professional bodies of both sides to pursue mutual recognition of professional qualifications and to foster exchanges among professional and technical talents. In respect of the professions mentioned, the latest development is summarised below:

Medical and Health Sector

At present, there is no mutual recognition for Medical and Health Sector between Hong Kong and Mainland. Specialist doctors (including medical practitioners, Chinese medicine practitioners and dentists) who are Hong Kong permanent residents with Chinese citizenship are allowed to apply for and obtain the Mainland's "medical practitioner's qualification certificates" through accreditation. On the other hand, eligible registered medical practitioners, Chinese medicine practitioners, dentists and pharmacists may sit the Mainland's qualification examination. Furthermore, twelve types of statutory healthcare professionals (namely medical practitioners, Chinese medicine practitioners, dentists, pharmacists, nurses, midwives, medical laboratory technologies, occupational therapists, optometrists, radiographers, physiotherapists and chiropractors) who are registered to practise in Hong Kong are allowed to provide short-term services in the Mainland without the need to sit the examinations in the Mainland. Under the Agreement on Trade in Services signed under the framework of CEPA, Hong Kong permanent residents are allowed to apply for registration as practising pharmacists in accordance with the relevant Mainland's regulations.

Architects / Construction Sector

For Construction Sector, Estate Surveyors, Architects, Structural Engineers, Planners, Quantity Surveyors and Building Surveyors have reached mutual recognition agreements under CEPA.

Accountant

Under the framework of CEPA, qualified members of the Hong Kong Institute of Certified Public Accountants enjoy exemption from certain examination papers when they apply for Mainland's certified public accountant uniform examination.

Social Worker

The Social Workers Registration Board, being the registration authority of social workers in Hong Kong, does not have any plan and has not received any formal request for developing mutual recognition of professional qualifications.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of Learning Support Grant (LSG), please advise of:

- a. the number of students requiring tier-2 and tier-3 support, the amount of subsidy per student and the total expenditure in the 2015/16 school year;
- b. the number of schools with the grant clawed back by the Education Bureau and the amount involved in the school years of 2012/13, 2013/14 and 2014/15;
- c. further to the above question, has the Administration looked into the reasons for schools not utilising the grant effectively and provided recommendations for improvement? If yes, what are the details?

Asked by: Hon MA Fung-kwok (Member Question No. 80)

Reply:

(a) to (c)

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools, including the Learning Support Grant (LSG). In the 2015/16 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,403 and \$26,806 respectively and the basic provision per school per annum for the first one to six students requiring tier-3 support has also been raised to \$160,836. The number of students with SEN studying in public sector primary and secondary schools is 39 470 and the revised estimate on LSG is \$500 million in the 2015/16 school year.

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. To our understanding, individual schools had underspending leading to claw back at the end of a specific year due to some unexpected difficulties, e.g. time required for employment of additional staff longer than expected, early termination of contract by additional staff, difficulties in hiring appropriate professional services, etc.

The number of schools with LSG clawed back at the end of the 2012/13 and 2013/14 school years (aided and caput schools)/ 2012-13 and 2013-14 financial years (government schools) and the amount of LSG clawed back in the school years/ financial years concerned are tabulated below. As the amount to be clawed back from aided and caput schools for the 2014/15 school year will be confirmed only after the schools'

submission of audited accounts by end of February 2016 and verification by the Education Bureau, we are unable to provide the claw-back information for the 2014/15 school year.

	2012/13 school year (aided & caput schools) / 2012-13 financial year (government schools)	2013/14 school year (aided & caput schools) / 2013-14 financial year (government schools)
No. of schools with LSG clawed back	131	81
LSG claw-back amount (\$ million)	5.33	3.05

Note: The figures denote position as at March 2016.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation each year, similar to other school policies and measures. EDB also requires schools to submit a self-evaluation report on the implementation of the Whole School Approach to Integrated Education to EDB at the end of each school year. To further enhance transparency, schools are required to set out how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. Furthermore, with our stepped-up efforts to monitor the utilization of LSG by schools through providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for SEN support, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected, the surplus situation of LSG in schools has started to improve in the 2013/14 school year / 2013-14 financial year.

Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Mainland University Study Subsidy Scheme (MUSSS) has been implemented with effect from the 2014/15 academic year to support needy students pursuing studies under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Will the Education Bureau advise on the following:

- a. the number of students passing the means test in the 2015/16 academic year (with a breakdown by full rate subsidy and half rate subsidy);
- b. the total expenditure on the MUSSS in the 2015/16 academic year;
- c. the number of students pursuing studies in the Mainland through the MUSSS in the 2015/16 academic year.

Asked by: Hon MA Fung-kwok (Member Question No. 81)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we have advanced the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. We plan to brief the Legislative Council Panel on Education in April 2016 on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

The Admission Scheme was introduced in 2012 as a government-to-government initiative whereby Hong Kong students may seek admission to designated Mainland higher education institutions on the basis of their Hong Kong Diploma of Secondary Education examination results, and are thus exempted from taking the Joint Entrance Examination for Universities in the Mainland. The number of students admitted by Mainland institutions under the Admission Scheme in the 2015/16 academic year was 1 444. As regards the number of Hong Kong students pursuing studies in the Mainland through other admission channels, including the Joint Entrance Examination for Universities in the Mainland and the recruitment exercises of individual Mainland Higher Education Institutions, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland higher education institutions and research institutes was 15 483 as at October 2015.

Question:

Regarding cross-boundary students, would the Education Bureau advise of the following:

- a. The number of cross-boundary students in the 2015/16 school year (by kindergarten student, primary school student and secondary school student);
- b. The number of cross-boundary students applying for the central allocation in the 2015/16 school year;
- c. The number of school places in the school nets exclusively for cross-boundary students in the 2015/16 school year (by school net);
- d. The number of schools operating classes for Hong Kong students under the Scheme of Classes for Hong Kong Students jointly implemented by Hong Kong and Shenzhen as well as the school fees and enrolments in the 2015/16 school year.

Asked by: Hon MA Fung-kwok (Member Question No. 82)

Reply:

- (a) The number of cross-boundary students (CBS) by school level in the 2015/16 school year is tabulated at Annex A.
- (b) 2714 CBS participated in the Central Allocation stage of the Primary One Admission (POA) 2015 for admission to Primary 1 (P1) in the 2015/16 school year.
- (c) To alleviate the impact of increasing CBS on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

The number of P1 places exclusively for CBS for the Central Allocation of POA 2015 for admission to P1 in the 2015/16 school year by school net is tabulated at Annex B.

- (d) In the 2015/16 school year, 11 minban schools, including two new schools which started operation in this school year, are offering Hong Kong curriculum classes to some 3 100 Hong Kong students residing in Shenzhen under the “Scheme of Classes for Hong Kong Students”. The tuition fees range from RMB7,000 to RMB41,600 per year.

Number of Cross-boundary Students (CBS) by School Level in the 2015/16 School Year

School Level	Number of CBS
Kindergarten (including kindergarten-cum-child care centre)	10 407
Primary school	14 567
Secondary school	3 132

Note:

Figures are based on the annual survey conducted via schools in September 2015 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

**Primary One Places in Choice of Schools List for Central Allocation
for Cross-boundary Students in Primary One Admission (POA) 2015 by School Net
(For Admission to Primary One in the 2015/16 School Year)**

POA School Net	P1 Places
43	150
66	175
70	616
71	201
72	695
74	70
80	112
81	117
83	24
84	152
89	100
98	200

Note:

Figures refer to the position as at January of 2015 when the 2015 Choice of Schools List for Central Allocation (For Applicant Children Residing in the Mainland) was compiled to facilitate parents to make school choices for the Central Allocation of POA 2015.

CONTROLLING OFFICER'S REPLY**EDB370****(Question Serial No. 5272)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Administration provide the following information:

- (1) In the past 3 years, how many civil service posts belonging to the grades of information technology (IT) staff were requested to create by the Education Bureau by seeking approval from the Civil Service Bureau (CSB)? How many of them were approved by the CSB (Please list by department, year and post title)?
- (2) If any of the requests for creating posts belonging to the grades of IT staff had been changed or rejected, what were CSB's justifications?

Asked by: Hon Charles Peter MOK (Member Question No. 46)

Reply:

- (1) The number of civil service posts approved for creation in the grades of information technology (IT) staff (the IT grades include (1) Analyst/Programmer; (2) Computer Operator and (3) Data Processor) in the Education Bureau in the past three years is set out below:

Financial Year	Number of posts approved
2013-14	1
2014-15	1
2015-16	1

- (2) The Government's guiding principles for considering the creation of additional civil service posts are as follows: when the operational need is fully justified; and the work involved cannot be handled by streamlining the procedures, re-organisation, re-deployment of existing staff or any other means. The above principles are applicable across all the civil service grades, including the IT grades. Manpower in the IT grades will be increased as and when it is fully justified on the grounds of maintaining effective operation and addressing the manpower needs arising from new and improved services.

In respect of the public relations expenditure of government departments, please inform this Committee of the following:

(1) the total expenditure of the Education Bureau for publishing advertisements, sponsored content or advertorials in newspapers registered under the Registration of Local Newspapers Ordinance in the past year as well as the relevant details:

Date of publish (Day/Month/Year)	Status (one-off/ ongoing/done) (as at 29 February 2016)	Government or public organisation (including policy bureau/ department/ public organisation/ government advisory body)	Name and purpose of advertisement	Name of media organisation and newspaper	Frequency (as at 29 February 2016)	Expenditure (as at 29 February 2016)

(2) the expenditure of the Education Bureau for sponsoring local free-to-air television stations, paid television stations and radio stations to provide information and produce programmes or materials in the past year as well as the relevant details:

Date of broadcast (Day/Month/Year)	Status (one-off/ ongoing/ done) (as at 29 February 2016)	Government or public organisation (including policy bureau/ department/ public organisation/ government advisory body)	Name and purpose of advertisement	Media organisation	Frequency (as at 29 February 2016)	Expenditure (as at 29 February 2016)

(3) the media organisations which published or broadcast advertisements/sponsored content of the Education Bureau in the past 3 years, as well as the frequency and the total expenditure involved (in descending order of amount spent):

Name of media organisation	Frequency	Total expenditure (\$)

(4) the websites/network platforms on which the Education Bureau published online advertisements/sponsored content in the past 3 years, as well as the frequency, the duration (days) and the total expenditure involved (tabulated in descending order of amount spent):

Website/ network platform	Content of advertisement	Frequency	Duration (days)	Hit rate, frequency of exposure and number of viewers	Total expenditure (\$)

Asked by: Hon Charles Peter MOK (Member Question No. 60)

Reply:

(1) For 2015-16 (up to 29 February, 2016), the total expenditure on placing advertisements and advertorials in newspapers registered under the Registration of Local Newspapers Ordinance is about \$1.38 million. These advertisements and advertorials are mainly to inform parents, students, the education sector and the community at large about initiatives and events of interest to them, such as education expo, kindergarten admission arrangements and scholarship scheme. Details are set out as follows.

Name of Campaigns	Published Time (Month/Year)	Advertisements/ Advertorials/ Sponsored Content	Expenditure (\$ million)
Information Expo on Multiple Pathways 2015	April and May 2015	Advertisements	0.05
2015 Summer Bridging Programme for non-Chinese speaking students	May and June 2015	Advertisements	0.01
Quality Kindergarten Education	May, June, July 2015 and January 2016	Advertisements	0.12
Admission arrangements for Nursey (K1) Classes in Kindergartens for the 2016/17 school year	June 2015	Advertisements	0.14
Pre-primary Education Voucher Scheme/K1 Admission Arrangements 2016/17	August, September and October 2015	Advertisements	0.09

Hong Kong Scholarship for Excellence Scheme	September 2015	Advertisements	0.11
Study Subsidy Scheme for Designated Professions/Sectors	October 2015 and January 2016	Advertisements	0.20
2015 Mainland Higher Education Expo	October and November 2015	Advertisements	0.20
Life Planning and Business-School Partnership Programme	November and December 2015	Advertorials	0.21
Induction Programme for Newly Arrived Children	December 2015	Advertisements	0.01
Student Education Fair on Science, Technology and Mathematics 2016	January 2016	Advertisements	0.15
Electronic Advance Application System for Post-secondary Programmes	January and February 2016	Advertisements	0.09
Total (\$ million)			1.38

(2) For 2015-16 (up to 29 February, 2016), there is no expenditure for sponsoring local free-to-air television station, paid television stations and radio stations to provide information and produce programmes or materials.

(3) For the past three years, the expenditure of advertising in the media is \$2.61 million. Details are set out as follows:

Name of Campaigns	Media Types	Expenditure (\$ million)
Admission Arrangements for K1 Places in Kindergartens	Advertisements in newspapers	0.14
Electronic Advance Application System for Post-secondary Programmes	Advertisements in newspapers and magazine	0.33
Hong Kong Scholarship for Excellence Scheme	Advertisements in newspapers	0.11

Induction Programme for Newly Arrived Children	Advertisements in newspapers	0.03
Information Expo on Multiple Pathways	Advertisements in newspapers and magazine	0.28
Life Planning and Business-School Partnership Programme	Advertorials in newspapers	0.21
Mainland Higher Education Expo	Advertisements in newspapers and magazine	0.49
Pre-primary Education Voucher Scheme	Advertisements in newspapers	0.19
Quality Kindergarten Education	Advertisement in newspapers	0.06
Student Education Fair on Science, Technology and Mathematics 2016	Advertisements in newspapers	0.15
Study Subsidy Scheme for Designated Professions/Sectors	Advertisements in newspapers and magazine	0.41
Summer Bridging Programme for non-Chinese speaking students	Advertisements in newspapers and magazine	0.02
Briefing for Employers on New Academic Structure	Advertisements in newspapers	0.06
Gifted Education in Hong Kong	Advertorial in newspaper	0.05
Hong Kong Jockey Club Life-wide Learning Fund	Advertorials in newspapers	0.08
Total (\$ million)		2.61

(4) For the past three years, the expenditure of advertising on online platforms is \$2.56 million. Details are set out as follows:

Name of Campaigns	Online advertisements/ Sponsored Content	Expenditure (\$ million)
Admission Arrangements for K1 Places in Kindergartens	Online advertisements	0.18
Designated webpage to provide information on multiple pathways for Hong Kong Diploma of Secondary Education Examinations candidates	Online advertisements	0.48

Electronic Advance Application System for Post-secondary Programmes	Online advertisements	0.31
Hong Kong Scholarship for Excellence Scheme	Online advertisements	0.29
Information Expo on Multiple Pathways	Online advertisements	0.35
Mainland Higher Education Expo	Online advertisements	0.48
Quality Kindergarten Education	Online advertisements	0.13
Study Subsidy Scheme for Designated Professions/Sectors	Online advertisements	0.34
Summer Bridging Programme for non-Chinese speaking students	Online advertisements	0.002
Total (\$ million)		2.56

- End -

Question:

Regarding the Government expenditure for implementing E-textbooks, will the Administration advise the Committee of the following:

- (a) The revised estimated expenditure for the E-textbook Market Development Scheme (EMADS) for 2015-16 is \$3.853 million. What are the work items and details of expenditure involved?
- (b) What work has been completed under Phase 2 of the EMADS implemented by the Education Bureau and its schedules, manpower establishment and expenditure?
- (c) What are the respective numbers of organisations which applied to join, withdrew from and failed to be chosen to join Phase 2 of the EMADS?
- (d) Is there any plan to launch Phase 3 of the EMADS? If yes, what are the details? If not, what are the reasons?
- (e) The revised estimated expenditure for supporting schools to adopt E-textbooks for 2015-16 is \$3.263 million. What are the work items and details of expenditure involved?
- (f) What are the respective percentages of public sector and aided primary and secondary schools adopting E-textbooks for the past 3 years?

Asked by: Hon Charles Peter MOK (Member Question No. 111)

Reply:

- (a) We launched two phases of the e-Textbook Market Development Scheme (EMADS) in 2012 and in 2013 respectively, with a commitment of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. Among the \$30.6 million seeding grant disbursed to the NPM developers for both phases since 2012-13, about \$3.8 million was disbursed in 2015-16. The remaining seeding grant of around \$8.9 million will be disbursed in the next two years.
- (b) Developers of Phase Two of EMADS were allowed to opt for the launch of the e-textbooks in the market in either 2015/16 (Plan A) or 2016/17 (Plan B) school year. 12 sets of e-textbooks developed

under Plan A that have undergone the quality assurance mechanism have been included on the Recommended e-Textbook List for school use. The quality vetting on the final e-textbook deliverables submitted by Plan B developers is now underway. Having undergone the same quality assurance mechanism, another 4 sets of e-textbooks developed under Plan B are expected to be available for school use in the 2016/17 school year. Among the \$20.6 million seeding grant approved for the 10 applications from four NPM organisations under Phase Two, \$14.4 million has been disbursed, while the remaining seeding grant of around \$6.2 million will be disbursed in the next two years. Other manpower and administrative costs for implementation of EMADS have been absorbed within the existing resources of the Education Bureau.

- (c) We launched Phase Two of EMADS in August 2013 and received 57 applications upon the closing date in November 2013. 20 applications were approved in December 2013. Out of the 20 approved applications, 16 had signed the project agreement with the Government while four had not entered into agreement out of business consideration.
- (d) An evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning. Concurrently, e-textbooks for all subjects are now accepted for review. We do not have any plan for launching another round of EMADS for the time being.
- (e) We launched the “Support Scheme for e-Learning in Schools” in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools’ Learning Management System and various e-textbooks/e-learning resources platforms. The remaining \$5 million was used from early 2014 up to 2015-16 on other support measures such as provision of programme management services for schools. The revised estimate of \$3.263 million (which is part of the \$5 million) for 2015-16 was mainly used for hire of contract staff including programme management officers and Information Technology professionals tasked for consolidation and dissemination of successful experiences from the 100 schools for reference of the remaining some 900 public sector schools which will enhance their WiFi infrastructure in the next phase from 2015/16 school year under the Fourth Strategy on Information Technology in Education.
- (f) e-Textbooks developed under EMADS were first available in May 2014. In the 2014/15 and 2015/16 school years, over 320 schools, including 143 primary schools and 180 secondary schools, accounting for 27.2% of primary schools and 37.6% of secondary schools respectively, have chosen to use the e-textbooks developed under EMADS via different approaches. It is expected that with the increase in teachers’ knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum.

Director of Bureau: Secretary for Education

Question:

Regarding the Government expenditure on teacher training in respect of information technology in education, will the Administration inform the Committee of the following:

- (a) What were the expenditures involved and work items on teacher training in respect of information technology in education for the past 3 years?
- (b) Among the teachers teaching information technology subjects in public sector and aided primary and secondary schools, how many of them have background in information technology in education? (Please tabulate the figures by types of schools).
- (c) How many teachers and staff members have attended trainings organised by the Administration that were related to information technology in education for the past 3 years?
- (d) In response to the reply to item (c), how many of them do not have any background in information technology in education?
- (e) What are the plans of the Government to review teacher training in respect of information technology in education and the estimated expenditure for 2016-17?
- (f) According to the information provided by the Government, less than 50% of the teachers are ready for the implementation of e-learning in 2015-16, 2016-17 and 2017-18. What were the expenditures and work items for the implementation of e-learning for the past 3 years?
- (g) What are the plans of the Government to review the implementation of e-learning and the estimated expenditure for 2016-17?

Asked by: Hon Charles Peter MOK (Member Question No. 112)

Reply:

(a), (c), (d) and (e)

We have been conducting on-going Professional Development Programmes (PDPs) to better equip school leaders and teachers with the necessary knowledge and skills on the latest practice of e-learning, covering a wide range of topics under five categories : (i) e-leadership series for school leaders; (ii) technological series for middle managers; (iii) pedagogical series for teachers; (iv) subject-related series for teachers; and (v) e-safety series for education professionals and parents. During the period from 2013/14 to 2015/16 school years, as at February 2016, a total of 22 000 participants have attended the PDPs. In addition, we have set up "Centre of Excellence" (CoE) schools for the sharing of good practices on IT in education with other

schools. We have been evaluating our PDPs constantly in the light of latest development on e-learning as well as feedbacks from participants and trainers for continuous refinement.

The expenditure involved for the organisation of PDPs and the setting up of CoE schools have been absorbed within EDB's own resources. We do not have any statistics on the academic background of the participants of our PDPs.

(b)

All teachers in local primary and secondary schools, regardless of being subject-trained or not, are required to meet basic academic qualification requirements before they can be registered to teach in schools. Given the varied availability of subject expertise in schools, individual school management is always in the best position to recruit and/or flexibly deploy suitable teachers to provide the best learning opportunities for students in various subjects, including computer/ICT. Thus, the percentage of computer/ICT teachers who have the background of information technology education is not available. However, PDPs for serving computer/ICT teachers have been organised continuously to enhance the quality of learning and teaching of computer/ICT in schools.

(f)

We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. The amounts of CITG for the past three financial years were \$328 million for 2013-14, \$341 million for 2014-15 and \$353 million for 2015-16.

Apart from recurrent grant, we have also launched the following e-learning initiatives over the past three financial years in the promotion of e-learning –

- (i) two phases of the e-Textbook Market Development Scheme (EMADS) launched in 2012 and in 2013 respectively, with a non-recurrent funding of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. About \$30.6 million seeding grant has been disbursed to the NPM developers for both phases since 2012-13. In the past three years, \$5.6 million was disbursed in 2013-14, \$20.2 million in 2014-15 and \$3.8 million in 2015-16. The remaining seeding grant of around \$8.9 million will be disbursed in the next two years;
- (ii) the “Support Scheme for e-Learning in Schools” in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools’ Learning Management System and various e-textbooks/e-learning resources platforms. The Scheme is now completed; and
- (iii) the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; another one-off grant of \$10 million was disbursed to Hong Kong Education City Limited for acquisition of e-learning resources. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

(g)

An evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning.

Besides, one of the six actions under the ITE4 is sustaining the coherent development of ITE. Ongoing researches and evaluation studies will be conducted to gauge the progress and effectiveness of various e-learning measures. These would include school surveys, case study research, and other methodologies that would provide useful information on the implementation of ITE4 and the effectiveness of e-learning.

The costs for conducting the evaluation studies on EMADS and ITE4 in 2016-17 will be absorbed within EDB's own resources.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Regarding the Composite Information Technology Grant (CITG), will the Administration inform us:

- (a) the expenditures of CITG in the past 3 years, and its estimated expenditure for 2016-17;
- (b) the number of supporting technicians employed by schools using the CITG in the past 3 years;
- (c) based on the information of (b), their average duration of contracts and amount of salaries;
- (d) the amount of subsidy provided to schools for procuring technical support services from providers via the CITG and the types of services in the past 3 years; and
- (e) the respective numbers of public sector and aided primary and secondary schools applying for the CITG in the past 3 years (please list by categories).

Asked by: Hon Charles Peter MOK (Member Question No. 114)

Reply:

We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. The amounts of CITG for the past three financial years were \$328 million for 2013-14, \$341 million for 2014-15 and \$353 million for 2015-16. For 2016-17, the estimated amount of CITG is \$361 million. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. We therefore do not have any information on the actual use of CITG by schools, such as the employment statistics of technical support staff.

Question:

Regarding the expenditure of Hong Kong Examinations and Assessment Authority (HKEAA) on information technology, will the Administration inform us:

- (a) HKEAA's expenditures on information technology (infrastructures, personnel, services, etc.) over the past 3 years, and its estimated expenditure (please list by types) for 2016-17;
- (b) HKEAA's expenditures on outsourced contracts for information technology in the past 3 years, and its estimated expenditure (please list by contents of services) for 2016-17;
- (c) the number of system errors occurred in HKEAA in the past 3 years, how many of those systems involved were developed by outsourced providers? And
- (d) Has the Administration reviewed those outsourced information technology items to see how many of them can be internally developed by the government? If yes, what are the details? If no, what are the reasons?

Asked by: Hon Charles Peter MOK (Member Question No. 117)

Reply:

(a)&(b)

The expenditures incurred on information technology (IT), including the outsourced services, by the Hong Kong Examinations and Assessment Authority (HKEAA) in the past 3 years, and the estimated expenditure for 2016/17 are listed below:

Item	2013/14 (Actual) \$ m	2014/15 (Actual) \$ m	2015/16 (Forecast) \$ m	2016/17 (Projection) \$ m
(a) IT cost, i.e. staff cost, services cost, capital expenditure, etc. (including outsourced services provided in (b) below)	72.2	65.5	80.7	77.7

Item	2013/14 (Actual) \$ m	2014/15 (Actual) \$ m	2015/16 (Forecast) \$ m	2016/17 (Projection) \$ m
(b) Outsourced services (IT service & maintenance costs)	29.0	29.2	45.0	39.6

Note: HKEAA's financial year runs from 1 September to 31 August.

- (c) According to HKEAA's information, 1 system incident occurred in the past 3 years and the system concerned was developed by a outsourced provider.
- (d) The HKEAA is a statutory body set up in 1977 under the HKEAA Ordinance (Cap 261) which operates on a self-financing basis. Within the broad policy framework set by the government in respect of its statutory functions, the HKEAA enjoys autonomy in its day-to-day operation. All requisitions of equipment/material/services are required to go through the HKEAA's procurement procedures to ensure the most cost effective solutions would be purchased.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the expenditure on providing subsidies for local students to conduct exchanges and further their studies in the Mainland, will the Administration provide the following information:

- (a) the number of beneficiaries of the Pilot Mainland Experience Scheme for Post-secondary Students and the annual expenditure incurred since its introduction (please list in tabular form by year), as well as the estimated expenditure and number of students expected to benefit from it for the coming year;
- (b) the number of beneficiaries of the Mainland University Study Subsidy Scheme (MUSSS) since its introduction and the annual expenditure incurred (please list in tabular form by year);
- (c) according to Item 47, the Government will expand the scope of MUSSS in 2016-17. Please advise the estimated expenditure and number of students expected to benefit from it, as well as the rates of increase for the coming year;
- (d) the Government has allocated \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland. What will be the work targets of the scheme and the estimated expenditure for the coming year?
- (e) regarding the arrangement of professional exchange programmes for teachers for the purpose of national education in the past 3 years, what were the annual expenditure, activities and details of the exchange programmes, number of participating teachers for each year and the manpower involved, as well as the details of the exchange programmes for teachers and the estimated expenditure for 2016-17?

Asked by: Hon Charles Peter MOK (Member Question No. 120)

Reply:

- (a) The number of beneficiaries under the Pilot Mainland Experience Scheme for Post-secondary Students since its introduction in July 2011 and the total amount of matching grants involved are set out below:

Academic year	Number of beneficiaries*	Total amount of matching grants involved (HK\$ million)
2011/12	3 200	9.8
2012/13	7 700	23.2
2013/14	5 800	17.5
2014/15	4 000	12.0

Academic year	Number of beneficiaries*	Total amount of matching grants involved (HK\$ million)
2015/16 [#]	3 900	11.9
2016/17 ⁺	3 400	10.5

* *Rounded down to the nearest hundred*

[#] *Provisional figures*

⁺ *Estimated figures*

(b) The number of beneficiaries under the Mainland University Study Subsidy Scheme (MUSSS) since its introduction in July 2014 and the total amount of subsidy granted are set out below:

Academic year	Number of beneficiaries	Total amount of subsidy granted (HK\$ million)
2014/15	263	3.1
2015/16*	479	5.9

* *Including subsidy renewal and newly approved applications*

(c) According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we have advanced the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. We plan to brief the Legislative Council Panel on Education in April 2016 on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

(d) The Chief Executive announced in the 2015 Policy Address to launch a three-year pilot scheme from the 2015/16 school year through which financial and professional support will be provided to local public sector and Direct Subsidy Scheme primary and secondary schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities.

The number of Hong Kong-Mainland primary and secondary sister schools is expected to increase progressively to about 600 in three years starting from the 2015/16 school year. In addition, through experience sharing and learning from each other, the pilot scheme will promote professional interflows between schools in Hong Kong and the Mainland. The proposed three-year pilot scheme will involve a non-recurrent funding of \$200 million and the estimate for 2016-17 is \$56.5 million.

(e) Teachers participate in different kinds of professional exchange programmes through a variety of channels, including those organised by school sponsoring bodies and schools to meet the professional development needs of teachers. Insofar as the mode of study tour is concerned, the Education Bureau (EDB) provides professional exchange for teachers through the “National Day Delegation from the Educational Sector of Hong Kong” (香港教育界國慶訪京暨專業交流團), etc. Apart from this, teachers also participate in the Mainland exchange programmes for students as learning facilitators according to the “1 teacher:10 students ratio”. These different types of exchange programmes organised by EDB and the school sector cover different provinces and cities in the Mainland. The manpower for the implementation of professional exchange programmes for teachers is absorbed in the recurrent expenditure of EDB

The number of teachers who were provided with Mainland exchange activities in the past three years (from 2013-14 to 2015-16) and 2016-17, and the expenditure involved are shown below:

Financial Year	Number of Teachers **	Expenditure (\$million) @
2013-14	370	2.0
2014-15 [#]	240	1.0
2015-16 [*]	260	1.5
2016-17 ⁺⁺	290	1.2

@ Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau

Actual figures revised from last year's estimates

* Provisional figures

++ Estimated figures

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau provided a one-off grant of \$10 million to the Hong Kong Education City Limited in early 2014 for development of an online integration platform for linking up schools' learning management systems and various e-textbooks/e-learning resource platforms. In this regard, will the Administration inform this Committee of the following:

- (a) Whether the phase two development of the platform was completed and put into operation in 2015?
- (b) What are the number of schools joining the platform and the number of students benefiting from it (by school type)?
- (c) What are the annual operational expenses of the platform?
- (d) Is there any plan to evaluate the effectiveness of the platform? If yes, what is the timetable?
- (e) What are the expenditure on the hardware and software of cloud computing technology, and the manpower costs for project management, technical support, security audit and other professional services? What are the estimated expenditure for the above items this year?
- (f) What are the details and progress of the work relating to the support of more industry standards in digital publishing, exchange of learning data, and the large-scale implementation of e-learning? What are the staffing, timetable, expenditure and estimated expenditure involved?

Asked by: Hon Charles Peter MOK (Member Question No. 122)

Reply:

We provided a one-off grant of \$10 million to the Hong Kong Education City Limited (HKECL) in early 2014 for development of an online integration platform for linking up schools' learning management system and various e-textbooks/e-learning resources platforms. The development cost for the platform covers the costs of hardware and software, manpower for project management and technical support as well as security audit and other professional services. The annual operational expenses for the platform will be absorbed within the recurrent subvention to HKECL.

The development of the online integration platform is divided into two phases. Phase one, covering single-sign-on service, common learning platform for students and content updating mechanism, had been completed by the third quarter of 2014 as scheduled. Phase two, covering the support of more industry

standards in digital publishing, exchange of learning data and capacity to support large scale implementation, was also completed and put into operation by HKECL in mid-2015 as scheduled.

As at early-March 2016, 14 070 students from 159 primary schools and 4 338 students from 61 secondary schools have used the services from the platform. HKECL has been conducting regular surveys to gauge user feedbacks for continuous refinement to the services of the platform, the latest of which was conducted in December 2015.

Director of Bureau: Secretary for Education

Question:

Will the Administration inform this Committee of the following:

(a) Starting from the 2015/16 academic year, the Government launches the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. Please provide information regarding the Scheme for 2016/17 academic year:

Institutions	Disciplines	Programmes	Number of Subsidised Places	Maximum Subsidy Amount Per Student Per Academic Year (\$)

(b) It is mentioned in the 2016 Budget that since this academic year, a subsidy scheme of \$960 million will be launched for students pursuing self-financing undergraduate programmes in selected disciplines. Please provide information regarding the scheme for this academic year:

Institutions	Disciplines	Programmes	Number of Subsidised Places	Maximum Subsidy Amount Per Student Per Academic Year (\$)

(c) Are there any plans to extend the scheme mentioned in (b) to cover programmes related to information technology? If no, what are the reasons?

(d) It is mentioned in the 2016 Budget that starting from the next academic year a pilot scheme will be implemented to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council. Please provide information regarding the scheme for the coming academic year:

Disciplines	Programmes	Number of Subsidised Places	Maximum Subsidy Amount Per Student Per Academic Year (\$)

Asked by: Hon Charles Peter MOK (Member Question No. 125)

Reply:

(a) to (c)

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years are set out at Annex A.

(d)

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework (QF) Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in "Architecture and Town Planning" or "Engineering and Technology" under the classification of the Hong Kong Qualifications Register (QR).

A list of eligible programmes offered by VTC by area of study/training under the Hong Kong QR and QF level as at December 2015 is at **Annex B**. It should however be noted that there may be changes to the award titles to some of the programmes later in 2016. Also, some new programmes that meet the criteria are in the pipeline and will be introduced by VTC later.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts.

**Relevant Institutions, Selected Programmes, Number of Subsidised Places
and Annual Subsidy Amount for the Cohort Admitted in the 2015/16 Academic Year**

Institutions	Disciplines	Programmes	Number of subsidised places	Annual subsidy amount (\$)

44.	Professional Certificate in Railway Signalling System (Level 4)	4
45.	Professional Certificate in Rolling Stock Maintenance (Level 4)	4
46.	Professional Certificate in Watch Services Management (Level 4)	4
47.	Professional Certificate in Watch Technology and Repairing (Level 4)	4
48.	Professional Certificate in iPhone Applications Development	4
49.	Professional Diploma in Electrical and Mechanical Technology in Buildings (Level 4)	4
50.	Professional Diploma in Environmental Technology and Management	4
51.	Professional Diploma in Fine & Fashion Jewellery (Level 4)	4
52.	Professional Diploma in Mobile Applications Development	4
53.	Professional Diploma in Railway Engineering	4
54.	Professional Diploma in Watch Technology and Services Management (Level 4)	4
55.	Professional Diploma in Plumbing Engineering for Building Services	5

Note: The classification under the Hong Kong QR has been revised starting from 1 January 2016. “Architecture, Construction and Town Planning” has been revised as “Architecture and Town Planning”.

- End -

CONTROLLING OFFICER'S REPLY**EDB380****(Question Serial No. 5340)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Administration inform this Committee of the following:

- (1) What is the total number of IT-related vocational education and training (VET) programmes offered by institutions under the Vocational Training Council (VTC)? What are the levels of these programmes under the Qualifications Framework (QF)? What is their distribution among the various levels?

QF Level	Number of programmes

- (2) What is the employment situation of graduates of IT-related VET programmes offered by institutions under the VTC? Has any statistical survey been conducted on the employment situation of these graduates? If yes, what are the findings and details of the staffing and other expenditure involved? If there is no such plan, what are the reasons?
- (3) What are the specific details, staffing arrangement, timetable and estimated expenditure of the Administration's plan to enhance VTC's IT-related programmes to better suit the needs of the sector? If there is no such plan, what are the reasons?
- (4) Does the Administration have any plan to develop IT professional certification under the QF to accord IT practitioners a common professional status they deserve? If yes, what are the specific details, staffing arrangement, timetable and estimated expenditure of such plan? If there is no such plan, what are the reasons?

Asked by: Hon Charles Peter MOK (Member Question No. 127)

Reply:

- (1) In the 2015/16 academic year, the Vocational Training Council (VTC) offers 37 vocational and professional education programmes in the Information Technology (IT) discipline which are registered under the area of study/training of "Computer Science and Information Technology" in the Qualifications Register (QR) and their levels under the Qualifications Framework (QF) are given below –

QF Level	Number of programmes
3	4
4	28
5	5

- (2) An employment survey is conducted each year for graduates of full-time programmes six months after their graduation. Part-time programmes are designed for in-service personnel and thus employment survey is not conducted. The employment survey for the graduates of the 2014/15 academic year is being conducted and the statistics are not yet available. According to the employment survey conducted for the graduates of the 2013/14 academic year, the employment rate of the economically active graduates from the IT discipline for the year is about 84%. Since the conduct of employment survey is part of the on-going efforts of VTC, no additional manpower resources and expenditure are required.
- (3) VTC regularly reviews its programmes to ensure their relevance to the industry's latest trend and manpower requirements. Manpower surveys on the IT sector are conducted biennially to provide information on the existing manpower situation and training needs, and to project manpower demand. The Committee on Information Technology Training and Development (CITTD) of VTC will start conducting its 17th biennial manpower survey in April 2016. Besides, representatives from the IT sectors are invited as members / advisors of CITTD to advise on the direction and strategy of academic development, course planning, curriculum development and quality assurance systems. As these activities form an integral part of VTC's on-going work, no additional manpower resources and expenditure are required.
- (4) The Education Bureau (EDB) has set up the Information and Communications Technology (ICT) Industry Training Advisory Committee (ITAC) in 2005 to implement QF in the industry. The ITAC has already drawn up the Specification of Competency Standards (SCS) for the software products and software services sector, as well as the communications and information services sector. It is now drafting the SCS for the media technology sector and a set of Elementary Competencies for the ICT industry. The SCS are useful reference materials for education and training providers to offer learning programmes which meet industry needs. We also encourage stakeholders including employers and professional associations to make full use of the SCS as basis for recruitment, in-house training, performance management, entry requirements or standards for admission to professional associations or award of professional qualifications. For the ICT industry, we understand that the Hong Kong Computer Society has established a professional recognition scheme under which the underpinning job competences required are based on the relevant SCS developed by the ITAC. Administrative work of the ITAC is absorbed by the existing manpower resources of the QF Secretariat, the executive arm of EDB dedicated to the implementation of QF.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (6) Vocational and Professional Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Please inform this Committee of:

- (1) What were the specific work details and timetable of the Vocational Training Council (VTC) regarding the enhancement of information technology infrastructure and services in 2015-16? What were the details of the manpower and other estimated expenditures involved?
- (2) What were the specific work details and timetable of the VTC regarding the enhancement of e-Learning platform and ancillary support services in 2015-16? What were the details of the manpower and other estimated expenditures involved?

Asked by: Hon Charles Peter MOK (Member Question No. 129)

Reply:

- (1) The enhancement of information technology (IT) infrastructure and services in the Vocational Training Council (VTC) covers three core areas, namely development of a smart campus, system support for the new curriculum, and IT security.

Regarding the development of a smart campus, VTC has enhanced the mobile access coverage at 17 campuses of the Hong Kong Institute of Vocational Education and Youth College by installing additional advanced servers and access points, thereby providing faster and reliable Wi-Fi access. Mobile applications and new mobile-based IT services for e-learning and student support services have also been introduced to enhance learning experience, student support services and information dissemination.

On the support for the new curriculum, VTC has enhanced the various computing systems including the Student Portal, Career Development and Advisory Services System, Student Admission System, Student Records Management System, Timetabling and Module Selection Platform as well as Holistic Programme Planning System.

As for IT security, VTC's network infrastructure has been enhanced by upgrading the firewalls and intrusion detection and prevention systems, as well as introducing a real-time analysis and monitoring system to proactively identify security attacks. VTC is also improving the functionalities of its user account management system for students and staff to enhance the IT resources and privileges management. Separately, the Software Asset Management System has been enhanced to better monitor the software licenses and usage matters.

The above items of work have commenced in 2013-14 and will be completed by 2017-18. The estimated expenditure involved is \$67.2 million in total, covering both manpower resources and capital expenses.

- (2) To improve students' learning experience, further enhancement of the e-Learning platform and deployment of IT Services Desk has been carried out. System customisations have been made to incorporate new functions. Integration of products and services of the e-Learning platform has also been introduced to improve the user-friendliness of the solution. Video services of the e-Learning platform will be further enhanced in terms of capacity and performance. The IT Service Desk, aiming to provide one-stop IT support services for students, is being implemented in stage.

The above items of work have commenced in 2014-15 and are expected to complete in 2018-19. The estimated expenditure involved is \$9.8 million in total, covering both manpower resources and capital expenses.

- End -

CONTROLLING OFFICER'S REPLY**EDB382****(Question Serial No. 5354)**

Director of Bureau: Secretary for Education

Question:

(1) Please provide, in table form, the number of requests for information under the Code on Access to Information received by the Education Bureau and its subvented organisations in 2015-16 as well as the relevant details:

Bureau/ Department/ Organisation	Number of requests received	Information involved (items)	Number of requests being handled	Number of requests in which all information was provided	Number of requests in which some information was provided	Average number of days taken to handle the requests (working days)

(2) the 3 pieces of information most frequently requested by the public and the number of such requests;

(3) the 5 requests for information which took the longest time to handle, the number of days taken to handle such requests and the reasons; and

(4) the content of the requests refused, the reasons for the refusal and the number of requests for reviews lodged by the public.

Asked by: Hon Charles Peter MOK (Member Question No. 144)

Reply:

During the period from January to September 2015, the Education Bureau received 53 requests for information made under the Code on Access to Information (the Code). The information requested varied from case to case without duplication. As at 30 September 2015, there were 2 cases under processing.

Among the cases completed during the above period, 37 requests were met in full, 7 requests were met in part, 4 requests were refused. For the remaining 4 requests, we do not possess the requested information. Requests were refused because the information asked for involved internal discussion and advice (paragraph 2.10 of the Code) (1 case); research, statistics and analysis (paragraph 2.13 of the Code) (2 cases); third party information (paragraph 2.14 of the Code) (1 case); and privacy of the individual (paragraph 2.15 of the Code) (1 case) ^{Note 1}. The 5 cases which took the longest processing time were all completed within

51 days^{Note 2} from the date of receipt of the requests. Reasons for lengthy processing included the need to consult the third parties involved and the need to seek legal advice.

During the said period, the Bureau did not receive any request for internal review of the cases handled.

Note

1. Some of the cases involved more than one reason for refusal to provide information. Therefore, the sum of the numbers in brackets exceeds 4 cases.
2. In accordance with the requirements of the Code, if it is not possible for a department to respond to a request within 21 days, an explanation should be given, and any deferral should not normally exceed 51 days from date of receipt of the request.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

As stated in the Policy Address, the free quality kindergarten education policy will be implemented starting from the 2017/18 school year, and the teacher-pupil ratio will be further improved to 1:11 in order to strengthen support for students with diverse needs. What is the current teacher-pupil ratio in kindergartens? What is the estimated annual provision for the Government's implementation of the above policy?

Asked by: Hon CHAN Chi-chuen (Member Question No. 194)

Reply:

At present, the minimum requirement on teacher-to-pupil (TP) ratio in kindergartens (KGs) is 1:15 (including the principal). KGs under the Pre-primary Education Voucher Scheme (PEVS) are required to meet this TP ratio with teachers possessing the Certificate in Early Childhood Education (C(ECE)) qualification. Individual KGs may have lower TP ratio because of under-enrolment, school-specific operation arrangements, etc. In the 2015/16 school year, the provisional average TP ratio of KGs under PEVS (counting only teachers possessing C(ECE) qualification, principal not included) is 1:10.9.

Under the free quality KG education policy to be implemented in the 2017/18 school year, the minimum requirement on TP ratio for eligible KGs will be enhanced from 1:15 (including the principal) to 1:11 (excluding the principal). The Education Bureau is formulating the implementation details in consultation with various stakeholders. Details will be released in the third quarter of 2016. The estimated expenditure for the free quality KG education policy in the 2017/18 school year is \$6.7 billion.

Question:

As stated in the Policy Address, the Government will, starting from the 2017/18 school year, provide eligible local non-profit-making kindergartens with a basic subsidy for a three-year quality half-day service for all eligible children. It is estimated that about 70% to 80% of the places in half-day kindergartens will become free-of-charge. What are the estimated provision and recurrent expenditure of the subsidy for the coming year? What is the estimated number of children benefiting from the subsidy?

Asked by: Hon CHAN Chi-chuen (Member Question No. 196)

Reply:

The free quality kindergarten education policy will be implemented in the 2017/18 school year and the Bureau will continue to provide direct fee subsidies to parents of eligible children enrolled in kindergartens under the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year. The estimated expenditure on the PEVS in 2016-17 is \$3,183.9 million, while the estimated number of students under the PEVS in the 2016/17 school year is 138 000.

EDB385

(Question Serial No. 5446)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The Policy Address states that in order to enhance the implementation of the senior secondary curriculum, and strengthen life planning education and related guidance services, schools may turn the existing Senior Secondary Curriculum Support Grant as well as Career and Life Planning Grant into regular teaching posts from the 2016/17 school year. This will provide about 1 000 additional teaching posts at the Graduate Master/Mistress rank. In this connection, what is the existing number of posts created with the Senior Secondary Curriculum Support Grant and Career and Life Planning Grant? What are the staff and expenditures expected to be involved in turning the above two grants into regular teaching posts?

Asked by: Hon CHAN Chi-chuen (Member Question No. 205)

Reply:

Under the existing arrangement, public sector secondary schools may deploy the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) flexibly for recruiting teachers or teaching assistants and acquiring services to facilitate the implementation of the senior secondary curriculum as well as life planning education. Schools are not required to submit information on the number of teachers employed by the SSCSG and CLPG to the Education Bureau. Therefore, we are unable to provide the relevant figures in this regard.

The measure of turning the SSCSG and CLPG into regular teaching posts aims to provide schools with more stable teacher manpower to enhance the respective policies. The implementation of the measure cuts across various divisions, and the required manpower and related expenditure are subsumed into EDB's recurrent expenditure.

CONTROLLING OFFICER'S REPLY**EDB386****(Question Serial No. 5447)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Programme states that during 2016-17, the Bureau will provide financial and professional support on a pilot basis to local public sector and DSS schools having formed sister schools with their counterparts in the Mainland to further strengthen professional interflows among them. Please tabulate the additional number of sister schools formed every year since the implementation of the Sister School Scheme. What are the manpower and expenditure involved? What is the effectiveness?

Asked by: Hon CHAN Chi-chuen (Member Question No. 206)

Reply:

Since 2004, 334 schools in Hong Kong have participated in the Sister School Scheme and formed a total of 489 pairs of sister schools with their counterparts in the Mainland through the coordination of the Education Bureau (EDB). In addition, many schools in Hong Kong have formed sister schools with their counterparts in the Mainland on their own initiative and through other means and no reporting of this kind of pairing up to EDB is required. As such, we could only provide the number of sister school pairs newly formed each year through the coordination of EDB as tabulated below:

Year	No. of Sister School Pairs Formed
2004	26
2005	33
2006	40
2007	55
2008	37
2009	31
2010	28
2011	97
2012	46
2013	23
2014	25
2015	48
Total	489

Over the years, EDB has collected views from schools in Hong Kong that have formed sister schools with their counterparts in the Mainland through different means, such as surveys, sharing sessions and seminars conducted from time to time as well as day-to-day contacts. Feedback collected by EDB reveals that local participating schools are in general positive towards the Sister School Scheme and they consider it a good

platform to facilitate cultural interflows, expand schools' network, enhance teachers' professionalism and broaden students' horizons.

Hitherto, there is no designated funding for sister school exchanges provided for schools in Hong Kong. Exchange activities between sister schools have all along been jointly arranged by the schools concerned in collaboration and consultation with each other with reference to their development needs and circumstances. The manpower for supporting the Sister School Scheme was absorbed by the recurrent expenditures of the EDB.

EDB has earmarked a total provision of \$200 million for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland and plans to provide a fixed grant of \$120,000 per annum through a three-year pilot scheme from the 2015/16 school year to local public sector and Direct Subsidy Scheme schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities.

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated under the Programme, the Education Bureau provides various support to non-Chinese speaking students in the learning of Chinese Language including, among others, the promotion of early adaptation in pre-primary education to parents, provision of funding and professional support to schools admitting non-Chinese speaking students, enhancing professional capabilities of Chinese Language teachers in teaching Chinese as a second language and subsidising after-school support programmes on Chinese learning for non-Chinese speaking students. Please provide in tabular form a breakdown of the number of schools which received such funding in the past year and the amount of expenditure by district. At the same time, what will be the estimated manpower and expenditure incurred under such funding for non-Chinese speaking students in the coming year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 207)

Reply:

The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. In this connection, all public sector primary and secondary schools and Direct Subsidy Scheme schools offering local curriculum which admit 10 or more NCS students are provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. The expenditure may vary from year to year. The breakdown of the number of schools by district based on the location of the schools concerned and the estimated expenditure in the 2015/16 school year are tabulated at Annex.

**Number of schools admitting non-Chinese speaking (NCS) students
provided with additional recurrent funding by district and

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Over 170 organisations have participated in the Business-School Partnership Programme (BSPP), which enhances students' understanding of different trades and prepares them for future employment through activities such as career talks, workplace visits, mentorship programmes and work experience programmes. Please provide, in a table format, a list of participating organisations, the growth of the number of business partners and the staffing and expenditures involved in the BSPP. How will the government enhance, reinforce and review the BSPP in the following year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 213)

Reply:

Since 2005, the Education Bureau (EDB) has been in collaboration with over 170 companies / organisations in arranging career exploration activities under the Business-School Partnership Programme (BSPP) for students. In the 2014/15 school year, more than 120 companies and organisations participated in the BSPP. Within the first six months of the 2015/16 school year, i.e. from September 2015 to February 2016, we have already organised activities with more than 100 companies and organisations under the BSPP. The names of these companies and organisations are listed at the Appendix. To further enhance and reinforce the BSPP, EDB will mobilise more business organisations to forge closer partnership with schools. Our target is to increase the number of business partners from 120 in the 2014/15 school year to 135 in the 2015/16 school year and further to 150 in the 2016/17 school year. The manpower and expenditure involved in BSPP are subsumed under EDB's recurrent expenditure.

With a view to deepening business-school collaboration and engaging more business partners, we will explore the possibility of conducting different modes of BSPP activities, such as work shadowing, work experience programmes, taster programmes, mentorship programmes and adopt-a-school programmes, etc. Apart from encouraging schools to integrate BSPP activities into the school curriculum, promoting BSPP activities and organising experience-sharing sessions for BSPP partners and schools, we will extend the BSPP activities to cover more school principals, teachers and parents so as to equip them with the knowledge to support students and children for life planning. We have started reviewing and consolidating the key elements of effective practices to inform planning and to facilitate the setting up of a platform to showcase the exemplars of business-school partnership.

CONTROLLING OFFICER'S REPLY**EDB389****(Question Serial No. 5455)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

With the gradual increase in the number of students born to non-local parents, the number of cross-boundary students (CBS) studying in Hong Kong is on the rise, causing a tight supply of places in kindergartens and primary schools in the North District. In this regard, would the Administration:

(1) provide the number of CBS attending kindergartens and primary schools in Hong Kong in the past 2015/16 school year as well as the distribution of the districts these schools are in?

(2) estimate the number of CBS attending kindergartens and primary schools in Hong Kong in the coming 2016/17 school year and the respective number of school places allocated to CBS by various districts? What measures are available to address the demand on admission among local and CBS and what are the estimated manpower and expenditures involved in the process?

Asked by: Hon CHAN Chi-chuen (Member Question No. 214)

Reply:

(1) The number of cross-boundary students (CBS) attending kindergartens (including kindergarten-cum-child care centres) and primary schools by district in the 2015/16 school year is as follows:

District	Kindergarten (including kindergarten-cum-child care centre)	Primary school
North	5 431	6 117
Tai Po	346	1 990
Yuen Long	2 547	3 435
Tuen Mun	1 856	2 301
Sha Tin	62	473
Tsuen Wan	0	7
Kwai Tsing	91	41
Tung Chung	73	65
Wong Tai Sin	1	138

Note: Figures are based on the annual survey conducted via schools in September 2015 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(2) As regards CBS, their number and choice of boundary control point through which they would access Hong Kong are subject to significant year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc. In addition, kindergarten education has all along been provided by the private sector. Parents may choose a kindergarten suitable for their children with regard to their needs, and admission is at the full discretion of individual kindergartens which may have different admission practices and procedures. Therefore, the Education Bureau (EDB) has no basis to reliably project the overall number of CBS and their geographical distribution in the coming 2016/17 school year. To alleviate the impact of increasing CBS on primary schools in individual districts, notably the North District, the EDB has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA) system. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS. In POA 2016 (for admission to P1 in the 2016/17 school year), the School Choice List for the Central Allocation for CBS included about 2 790 P1 places. Administrative work for implementing the revised arrangements for the Central Allocation in the 2016/17 school year will be absorbed within the existing manpower resources of EDB.

CONTROLLING OFFICER'S REPLY**EDB390****(Question Serial No. 5456)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In the past 2 years, how many Hong Kong students pursued further studies under the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme)? How many of them received a bursary of up to \$15,000 per year during the study period of their programmes? What were the manpower and expenditure involved? Currently, how many Mainland institutions are participating in the Admission Scheme?

Asked by: Hon CHAN Chi-chuen (Member Question No. 215)

Reply:

- (a) Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme)

In the 2014/15 and 2015/16 academic years, there were respectively 1 535 and 1 444 Hong Kong students admitted by Mainland higher education institutions under the Admission Scheme. A total of 78 Mainland institutions have participated in the Admission Scheme in the 2015/16 academic year.

The total expenditure involved in implementing the Admission Scheme in the 2014/15 and 2015/16 academic years was \$2.54 million and \$3.23 million respectively. As for the manpower and related expenditure involved in implementing the Admission Scheme, since the Education Bureau (EDB) has been handling the work with existing resources, the manpower and related expenditure involved have been subsumed under the establishment and provision for EDB.

- (b) Mainland University Study Subsidy Scheme (MUSSS)

MUSSS was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Admission Scheme. Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy.

The total expenditure for implementing MUSSS in the 2014/15 and 2015/16 academic years was about \$4 million and \$6.3 million respectively. As for the manpower and related expenditure involved in implementing the scheme, apart from the three time-limited civil service posts (namely, one Executive Officer I, one Clerical Officer and one Assistant Clerical Officer) created to cope with the additional workload arising from the implementation of the scheme, EDB and the Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In the past year, what was the actual number of students from post-secondary institutions that participated in internship and exchange programmes outside Hong Kong and what were the expenditures involved? What was the respective number of post-secondary students that joined exchange programmes in the Mainland, Taiwan and the overseas? How many of them received a Government subsidy to participate in exchange programmes outside Hong Kong? What were the manpower and expenditures involved in the sponsorship? For the coming year, what will be the manpower and expenditures involved in subsidising students to participate in exchange programmes outside Hong Kong? What percentages will students joining exchange programmes in the Mainland, Taiwan and the overseas account for?

Asked by: Hon CHAN Chi-chuen (Member Question No. 217)

Reply:

Student exchanges do not only benefit outgoing students by broadening their global exposure but also help internationalise local campuses by bringing in more non-local students through the reciprocal exchange arrangement. Internship helps enhance the employability of students by providing them with better understanding of, and seamless transition to, the workplace. The number of students studying full-time publicly-funded post-secondary programmes who undertook exchange and internship outside Hong Kong for the 2014/15 academic year is at **Annex**. Of the 10 602 students who participated in exchange programmes in the 2014/15 academic year, 2 185 and 1 082 went to the Mainland and Taiwan respectively, whereas the remaining 7 335 participated in other overseas exchange programmes. The expenditure involved is not available.

The estimated number of students who will participate in exchange programmes outside Hong Kong in the 2016/17 academic year is not available.

The manpower and related expenditure involved in subsidising students to participate in exchange programmes outside Hong Kong have been subsumed under the establishment and provision for the Education Bureau.

**Number of Full-time Students of Publicly-funded Programmes
Undertaking Exchange and Internship Outside Hong Kong
in the 2014/15 Academic Year**

Institutions	Exchange	Internship
City University of Hong Kong	1 158	381
Hong Kong Baptist University	430	150
Lingnan University	398	229
The Chinese University of Hong Kong	1 162	1 027
The Hong Kong Academy for Performing Arts	4	44
The Hong Kong Institute of Education	167	127 (Note 3)
The Hong Kong Polytechnic University	662	1 209
The Hong Kong University of Science and Technology	966	99
The University of Hong Kong	1 228	549
Vocational Training Council	4 427	219
Total:	10 602	4 034

Notes:

1. Outgoing exchange students refer to those students of publicly-funded full-time long programmes who enrol in credit-bearing courses in non-local partner institutions for at least one semester (including summer semester) due to exchange activities.
2. An internship refers to a period of work arranged or endorsed by the institution providing the publicly-funded programme in which the student is enrolled. There is no restriction about the duration of internship which can be a part-time or full-time work arrangement, provided that it forms a compulsory or elective component of the programme, regardless of whether it is credit-bearing or not.
3. The figure for the Hong Kong Institute of Education does not include field experience for students.

Director of Bureau: Secretary for Education

Question:

The Administration indicated that it would continue to develop learning and teaching resource packages and an assessment bank for promoting Basic Law education at senior primary and junior secondary levels. Please tabulate the details of developing the learning and teaching resource packages and the assessment bank, including developers, manpower, expenditure and contents, in the past 3 years. What is the estimated amount of funding and manpower to be allocated for promoting Basic Law education at senior primary and junior secondary levels in the coming year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 218)

Reply:

The Education Bureau (EDB) would continuously develop learning and teaching resources and assessment banks at senior primary and junior secondary levels with a view to enhancing students' understanding of the Basic Law. The "Let's Learn the Basic Law" Learning Package (Senior Primary) was developed (in printed and web versions) and distributed in 2012. Meanwhile, the Chinese and English versions of the Understanding the Law, Access to Justice: Basic Law Learning Package (Junior Secondary) have been distributed to schools in stages from January 2012 to January 2013. To keep pace with the development of e-learning, an e-book version of the above learning packages for junior secondary has also been developed in February 2014. A revamped and updated e-book version of the "Understanding the Law, Access to Justice: Basic Law Learning Package (Junior Secondary)" was also developed. Besides, an "Effective Use of 'Let's Learn the Basic Law' Learning Package", which is a collection of schools' good practices, was distributed to all primary schools in 2015. To further deepen students' knowledge and understanding of the Basic Law, EDB developed the "Basic Law Audio-visual Learning and Teaching Package" in junior secondary and we are currently developing the "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" for senior primary students. EDB will also continue to enrich and update the assessment banks and collect feedback through various channels to further refine the above resource materials. Content of the learning packages and the assessment banks are as follows:

Content and developer of learning and teaching packages	<p>The following packages are designed by EDB according to the learning stages of the students. Contents of the packages can be incorporated by teachers in relevant learning and teaching contexts.</p> <ul style="list-style-type: none"> - Understanding the Law, Access to Justice: Basic Law Learning Package (Junior Secondary): 13 units for junior secondary - Effective Use of 'Let's Learn the Basic Law' Learning Package: 16 units for senior primary - Basic Law Audio-visual Learning and Teaching Package 2015: 5 units for junior secondary
Content and developer	- Two sets of questions are separately designed by EDB for senior primary

of assessment banks	and junior secondary level - Schools could make use of the assessment banks to generate questions for students to attempt online or for internal assessment purpose - Questions are divided into Basic and Challenge levels at junior secondary level
---------------------	---

Expenditure for the related curriculum work and support measures, which include research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. are absorbed by the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. There is no separate breakdown for individual items, only the expenditure on developing learning and teaching resources could be provided. The manpower requirement will be absorbed by the existing provision. Expenditure on developing learning and teaching resources for senior primary and junior secondary levels in the past 3 years and the coming year are as follows:

2013-14 [@]	2014-15 ^{@#}	2015-16 ^{@*}	2016-17 ^{@++}
\$0.65 million	\$2.07 million	\$3.65 million	\$1.84 million

[@] Manpower resources in the provision are absorbed by the recurrent expenditure of EDB

CONTROLLING OFFICER'S REPLY**EDB393****(Question Serial No. 5460)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated under the Programme, the Education Bureau will offer opportunities for students to join Mainland exchange programmes and arrange professional exchange programmes for teachers. Please provide details of these programmes. What will be the manpower and expenditure involved? What were the resources and manpower allocated to national education in the past year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 219)

Reply:

The Education Bureau (EDB) provides Mainland exchange programmes (MEPs) for primary and secondary students mainly through the “Mainland Exchange Programme for Junior Secondary and Upper Primary Students” (「同根同心」——香港初中及高小學生內地交流計劃), the “Mainland Exchange Programme for Senior Secondary School Students” (「同行萬里」高中學生內地交流計劃), the “Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland” (初中及高小學生交流活動資助計劃——「赤子情 中國心」), the “Senior Secondary School Students Mainland Exchange Programme Subvention Scheme” (高中學生內地交流活動資助計劃), the “Mainland Exchange Programme for Student Leaders” (領袖生內地交流計劃) and some thematic MEPs. In 2015-16, the expenditure for student MEPs is \$62.7 million*.

Teachers participate in different kinds of professional exchange programmes through a variety of channels, including those organised by school sponsoring bodies and schools to meet the professional development needs of teachers. Insofar as the mode of study tour is concerned, EDB provides professional exchange for teachers through the “National Day Delegation from the Educational Sector of Hong Kong” (香港教育界國慶訪京暨專業交流團), etc. Moreover, teachers also participate in the MEPs for students as learning facilitators according to the “1 teacher: 10 students ratio”. The expenditure for professional exchange programmes for teachers in 2015-16 is \$1.5 million*. The staffing resources for the provision of MEPs for students and professional exchange programmes for teachers are absorbed in the recurrent expenditure of EDB.

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources, provision of Mainland exchange opportunities to complement student's learning in relevant Key Learning Areas/subjects as well as, where appropriate, provision of professional support to schools etc. With staffing

and expenditure for most of these items being absorbed in the recurrent expenditure of EDB, we are not able to provide a separate breakdown of the expenditure involved and manpower involved.

CONTROLLING OFFICER'S REPLY**EDB394****(Question Serial No. 5461)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated under the Programme, the estimated 5 551 non-directorate posts as at 31 March 2016 will rise by 131 posts to 5 682 posts as at 31 March 2017 and there will be an estimated 32 directorate posts as at 31 March 2016 rising by 2 posts to 34 posts as at 31 March 2017, what are the categories and job nature of the above new posts? What are the categories, salaries, allowances and job nature of the 34 directorate posts? What are the categories, numbers, salaries, allowances and job nature of the 5 682 non-directorate permanent posts?

Asked by: Hon CHAN Chi-chuen (Member Question No. 220)

Reply:

There is an increase of two directorate posts and a net increase of 131 non-directorate posts^{Note} in 2016-17, comprising 101 education professional and 32 general and common grades posts. The additional posts include 24 for implementing the new subsidised kindergarten policy; 65 for conversion of cash grants to teaching posts in government schools, 13 for enhancing teacher training; 7 for strengthening services provided to students with special educational needs and 24 for enhancing support for various areas including the Sister School Scheme, Students Mainland Exchange Programmes, School-based After-School Learning and Support Programmes as well as for replacing long-term non-civil service contract positions.

The information concerning the directorate and non-directorate posts is tabulated as follows -

<u>Category</u>	<u>Number of Posts</u>	<u>Job Nature</u>
(a) Directorate		
(i) Education professionals	19	Formulation and implementation of education-related policies, programmes and internal administration
(ii) Other professionals and general grades	15	
Total:	34	

<u>Category</u>	<u>Number of Posts</u>	<u>Job Nature</u>
(b) Non-directorate		
(I) Posts in government schools		Delivery of education-related services and administration support
(i) Education professionals	2 952	
(ii) General and common grades	503	
(II) Posts in Education Bureau		
(i) Education professionals	1 183	
(ii) Other professionals, general and common grades	1 044	
Total:	5 682	

In 2016-17, the financial provision for salaries and allowances (including job-related allowances) under Head 156 are \$3,186.1 million and \$42.7 million respectively.

Note

The increase of 131 non-directorate posts in 2016-17 is the net result of the planned creation of 258 posts and planned deletion of 127 posts.

Subhead (No. & title): (000) Operational Expenses
Programme: (1) Director of Bureau's Office
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

As stated under the Programme, the Office of the Secretary for Education is responsible for providing support to the Secretary for Education in undertaking political work. This includes the support provided by the Under Secretary and the Political Assistant. The work includes the planning, co-ordination and implementation of all arrangements for the Secretary's public, media and community functions. Will the Bureau list in a table the time, locations, sizes of entourage, expenditures and details of the public and community functions attended by the Secretary for Education in the past 3 years?

Asked by: Hon CHAN Chi-chuen (Member Question No. 221)

Reply:

The Secretary for Education attends from time to time various functions to cultivate contacts with different sectors of the community. We have not kept statistics on past events attended by the Secretary. Hence, we are unable to provide the requested information. Expenditure incurred, if any, in connection with the attendance of such events has already been reflected in the operating expenses of the Education Bureau.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

According to the Policy Address, the Government will continue to provide financial support for public sector primary and secondary schools to set up Wi-Fi infrastructure in campuses and procure mobile computing devices. Related works at half of the public sector schools in Hong Kong have been completed. At present, how many public sector schools have already completed the related works? What was the yearly Government expenditure for these works in the past? What are the estimated expenditure and rate of increase for the coming year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 225)

Reply:

We launched the "Support Scheme for e-Learning in Schools" or WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices.

Furthermore, we launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools under the WiFi-900 project in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

For 2016-17, the estimated expenditure for implementation of the ITE4 includes \$30 million one-off grant for the second batch of some 300 schools under the WiFi-900 project for acquisition of mobile computing devices, and an extra recurrent grant of \$70,000 on average per school for these 300 schools for subscription of WiFi services.

According to information collected from schools, as at February 2016, some 460 public sector schools have completed the enhancement of WiFi infrastructure under the WiFi-100 and the first phase of WiFi-900 projects.

CONTROLLING OFFICER'S REPLY**EDB398****(Question Serial No. 5467)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated in paragraph 117 of the Budget, to further encourage continuing education, the Administration will implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council starting from the next academic year. Programmes in the disciplines of construction, engineering and technology will be covered. The total commitment will be \$200 million, benefiting 5 600 people. According to the Administration's estimation, what are the estimated expenditure and the types of programmes involved for each of the next 3 academic years? How many people are expected to benefit from it each year?

Asked by: Hon CHAN Chi-chuen (Member Question No. 226)

Reply:

In order to further encourage continuing education, the Government plans to implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
 - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
 - (ii) under the area of study/training in "Architecture and Town Planning" or "Engineering and Technology" under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Applicants may apply for fee refund for not more than two eligible programmes under the pilot scheme. The tuition fee will be reimbursed by instalments at the end of each term of the programme upon successful completion.

Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts. A breakdown of the estimated expenditure and number of new beneficiaries by cohort is as follows –

	2016/17 cohort	2017/18 cohort	2018/19 cohort	Total
Estimated expenditure (\$ million)	62	68	70	200
Estimated number of new beneficiaries	1 700	1 900	2 000	5 600

Percentage share among local KGs	Not applicable	Not applicable	0.2%	0.3%	0.3%
Percentage share among KGs joining PEVS	Not applicable	Not applicable	0.3%	0.4%	0.4%

* Position as of February 2016.

- (c) The estimated expenditure on reimbursement of rent for NPM KGs in 2016-17 is \$229.9 million.
- (d) As announced in the 2016 Policy Address, a new free quality KG education policy will be implemented from the 2017/18 school year. In order to lessen the KGs' rental-related financial burden, rental subsidy will be provided to eligible KGs under the new KG education policy. Details are as follows:
 - (i) For KGs in housing estates operated in premises allocated under the school allocation or nomination mechanisms administered by the Education Bureau which are paying rental at concessionary rate as assessed by the Hong Kong Housing Authority (around 50% of market rent) and stipulated in the tenancy agreements, they will continue to be eligible for full rental subsidy subject to the fill-up rate as in the long-standing arrangements under the existing Rent Reimbursement Scheme (RRS). While there are only two tiers of fill-up rate under the existing RRS (i.e. KGs with fill-up rate of 50% or above will be provided with full rental subsidy while KGs with fill-up rate of below 50% will be provided with 50% of rental subsidy), more tiers of fill-up rate will be introduced to guard against using public funds to subsidise over-provision of KG places.
 - (ii) For former aided child care centres (FACs) (Note) currently in receipt of rental reimbursement and mainly situated in premises of public housing estates paying less than 50% of market rent, they will continue to be eligible for full rental subsidy.

Note: FACs were operated under the Social Welfare Department before harmonization. They usually operate longer service hours.

- (iii) For other eligible KGs, the rental subsidy will be subject to a ceiling and the student enrolment to ensure proper use of public funds. To avoid circumstances where the rental component would become disproportionate to the subsidy package per KG under the new KG education policy, the rental subsidy for these KGs will be subject to "dual" caps at 50% of open market rental, or 15% of the "basic HD unit subsidy", whichever is lower. For KGs currently paying market rent under the existing RRS but will be entitled to less subsidy under the new rental subsidy scheme, a grace period of four years from the implementation of the new policy in the 2017/18 school year will be allowed for these KGs to migrate to the new scheme. The new rental subsidy scheme will apply to them thereafter.

- End -

CONTROLLING OFFICER'S REPLY**EDB400****(Question Serial No. 3490)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of the kindergartens in Hong Kong in each of the past 3 school years, by district, what are the numbers of enrolment applications, the numbers of students admitted, the amount of application fee collected from each student and the total amount of application fee collected? Please provide a breakdown by 18 districts.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 8)

Reply:

According to regulation 61(1) of the Education Regulations (Cap. 279A), schools must first obtain the written approval of the Permanent Secretary for Education before collecting any fees, including entrance examination fee (commonly known as application fee). To streamline schools' administrative procedures, the Education Bureau (EDB) has set a ceiling for application fee of kindergartens (KGs) and given blanket approval for KGs to collect application fee within the approved ceiling, with the actual level determined by individual KGs having regard to their own circumstances. KGs that wish to collect application fee exceeding the approved ceiling are required to seek prior approval from EDB. As student admission is a school-based matter, KGs are not required to provide EDB with information on the number of admission applications received, the total amount of application fee collected and number of students admitted each year. In view of the above, EDB is unable to provide the required information. Notwithstanding this, the enrolment (in particular in Nursery classes) may partly reflect the situation. According to the information collected through the annual Student Enrolment Survey, the number of KG students by level in the past three school years (2013/14, 2014/15 and 2015/16) by district is tabulated at Appendix.

Number of Students in Kindergartens by District and by Grade Level from the 2013/14 to 2015/16 School Years

Districts	2013/14				2014/15				2015/16

(Question Serial No. 3494)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) As chancellor of the 8 local universities, what duties and powers does the Chief Executive have?
- (b) In the past 3 years, did the Chief Executive give his advice to universities on the list of honorary doctorates to be conferred by exercising his powers as the chancellor of the 8 local universities? If yes, which year was that and what were the details?
- (c) In the past 3 years, did the Chief Executive give his advice to universities on the appointment of president/vice-chancellor and vice-president/pro-vice-chancellor as well as other academic staff by exercising his powers as the chancellor of the 8 local universities? If yes, which year was that and what were the details?
- (d) Will the University Grants Committee earmark resources for conducting a review on the roles, duties and powers of the Chief Executive as university chancellor in 2016-17 and 2017-18? If yes, what are the details and estimated expenditures? If no, what are the reasons?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 37)

Reply:

According to the respective ordinances governing the eight University Grants Committee (UGC)-funded institutions, the Chief Executive is the Chancellor, the purpose of which is to maintain the linkages between the Government and the institutions and to demonstrate the Government's support to the higher education sector. Relevant provisions in the ordinances and statutes of the institutions specify the powers and duties of the Chancellor in order to meet the needs of the institutions. The Chief Executive has the statutory power and responsibility to carry out the duties specified in relevant provisions in the ordinances.

As regards appointment of presidents/vice-chancellors, vice-presidents/pro-vice-chancellors as well as other academic staff, according to the respective ordinances of the UGC-funded institutions, the appointment power rests with their respective councils. Neither the CE/Chancellor nor the Government has any role to play in staff appointment matters.

The statutory system of having the CE as the Chancellor of the UGC-funded institutions has been operating effectively over the years. Neither the Government nor the UGC has earmarked resources for conducting a review on this system.

Question:

Regarding the implementation of the Territory-wide System Assessment (TSA), please inform this Committee:

- (a) What were the annual expenditure of Primary 3 (P3), Primary 6 (P6) and Secondary 3 (S3) TSA in the past 3 years?
- (b) What are the estimated expenditure of P3, P6 and S3 TSA respectively in 2016-17?
- (c) In 2016-17, the Government will invite about 50 schools to participate in P3 TSA. What are the details and estimated expenditure?
- (d) What are the member list, the attendance rate of each member, number of meetings and expenditure of the committee appointed to review TSA in 2015-16? What are the work plan and estimated expenditure of the committee in 2016-17?
- (e) Will the Government retain or cancel the entire TSA in 2016-17 and 2017-18 for public consultation? If yes, what are the details and estimated expenditure? If no, why?
- (f) Did the Bureau investigate the condition of test drilling for TSA in primary and secondary schools in the past 3 years? If yes, what were the details and expenditure? If no, why?
- (g) Did the Bureau conduct any survey and collect parents' views on TSA in the past 3 years? If yes, what were the details and expenditure? If no, why?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 39)

Reply:

(a) to (g)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment (BCA) project, including Territory-wide System Assessment (TSA). The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA under the contract is set out in the following table:

Contract period	Expenditure on TSA (\$ million)	Average expenditure per year (\$ million)
2011-2014 (4 years)	220	55
2015-2018 (4 years)	296	74

The expenditure on P3, P6 and S3 TSA under the 2011 to 2014 contract is \$76 million, \$68 million and \$76 million respectively.

The Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

Four Committee meetings were held from December 2015 to February 2016 to review TSA. Membership list of the Committee is at Annex. The attendance rates of members of the four meetings range from 71% to 81%.

In conducting the review on TSA, the Committee attaches great importance to the views of stakeholders. In particular, a number of parent sessions have been set up to meet various groups of parents, including district parent-teacher associations, parent concern groups and parents of 18 districts in regional seminars. A seminar open to all parents was also organised to introduce TSA to them and collect their views.

The costs incurred for the above work was absorbed within the resources of the EDB.

To address various concerns in the community about TSA (including over-drilling, different stakeholders' perception of the stakes involved and the provision of support to schools and students), the Committee has proposed in the recommendations a package of various improvement and support measures addressing specific concerns, including improvement on item and assessment design, trying out different formats of school report, provision of training on enhancing assessment literacy of the education sector, online learning and teaching tools and exemplars as well as the promotion of communication among different stakeholders. Besides, the EDB will strengthen internal guidelines stating explicitly that the EDB will not use TSA data to assess the performance of a school (e.g. External School Review). From the 2016/17 school year, TSA should be removed from the focus questions under "8.1 Academic Performance" of the "Performance Indicators" to alleviate schools' concerns. In addition, provision on schools' good use of TSA data to provide feedback to learning and teaching should be further emphasised under "3.3 Performance Assessment".

On Primary 3 TSA, the Committee recognises that the assessment paper and question design could be adjusted and different formats of school reports could be adopted. The Committee suggests that the related arrangements should be tested out in the form of a tryout in 2016. In addition, professional support strategies would be provided to schools to enhance their knowledge and skills in homework policy, assessment literacy such as using assessment data to improve curriculum planning, learning and teaching, using diversified assessment methods to align with learning targets in school curricula and providing students with quality feedback with a view to improve learning effectiveness.

The Hong Kong Examinations and Assessment Authority issued letters on 29 February 2016 to invite 50 primary schools to participate in the 2016 Tryout Study (Primary 3) and they are of different types (i.e. about 10 per cent of the primary schools in the territory with each participating as a unit). Schools are invited on the basis of various factors including districts, types of schools (government, aided, Direct Subsidy Scheme) and school size to ensure representativeness, reliability and validity of the tryout study. The invited schools of the tryout study can consider if they would participate with reference to their school-based situations. Other schools are also encouraged to take part on a voluntary basis. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

Programme: (5) Other Educational Services and Subsidies, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) The Bureau appointed the Hong Kong Institute of Vocational Education (Sha Tin) to conduct an independent questionnaire survey in late 2013 to collect information about the duties, workload and training needs of laboratory technicians in aided secondary schools. What were the purposes, findings, study period and expenditures of the survey?
- (b) Has the report on survey findings been made public? If yes, what are the channel and date of disclosure? If no, why?
- (c) Does the Bureau plan to launch a laboratory technicians downsizing programme in all aided secondary schools? If yes, what is the specific plan? What is the estimated expenditure? Has the school sector been consulted?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 211)

Reply:

- (a) The survey aimed to collect information about the duties of laboratory technicians, and identify the training needs for the laboratory technicians with the full implementation of the senior secondary curriculum under the New Academic Structure. The survey revealed that the laboratory technicians performed mainly the duties listed in the Code of Aid. They also provided support to the implementation of science related activities (such as science extra-curricular activities and science competitions). Furthermore, they provided support to non-science related tasks in their schools. The survey was conducted in the 2013/14 school year and the total expenditure was \$391,950.
- (b) The gist of survey results has been uploaded to the webpage of Science Education Section, EDB in April 2015. Please refer to <http://www.edb.gov.hk/en/curriculum-development/kla/science-edu/whats-new.html>
- (c) To facilitate the smooth implementation of science curricula in schools under the New Academic Structure, the provision of laboratory technicians from the 2009/10 school year to 2015/16 school year has been frozen. In the midst of the latest development in curriculum implementation of science education and "Science, Technology, Engineering and Mathematics" (STEM) related activities, the duties of laboratory technician should also be updated.

Since early June 2015, EDB has been adopting the established channels to communicate with stakeholders (including principal associations/school councils, science teachers and the three laboratory technician unions), and a total of 14 meetings were held. Matters related to updating of the duties of

laboratory technicians and the calculation of the provisions of laboratory technicians in schools were discussed.

To align with the development of the ongoing renewal of the school curriculum, EDB has recently announced the extension of the arrangements for freezing the provision of laboratory technicians to the end of 2016/17 school year. It is expected that the updated duties of laboratory technician and the updated calculation for the provision of laboratory technicians will be announced in the coming school year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) The Government introduced the Mainland University Study Subsidy Scheme in the 2014/15 academic year to enable needy Hong Kong students pursuing studies under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions to receive grants during the study period of their programmes. What are the details, the number of beneficiary and expenditures involved each year?

(b) In 2016-17, will the Government earmark resources for working on the recognition of Mainland university qualifications in Hong Kong? If yes, what are the details and estimated expenditures of such work?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 263)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we have advanced the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. We plan to brief the Legislative Council Panel on Education in April 2016 on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year.

To promote co-operation between the Mainland and Hong Kong in education and student exchanges, a Memorandum of Understanding between the Mainland and Hong Kong on Mutual Recognition of Academic Degrees in Higher Education (MoU) was signed between the Ministry of Education and the then Education and Manpower Bureau of the Hong Kong Special Administrative Region in July 2004. The MoU facilitates the mutual recognition of academic qualifications awarded in both places for the purpose of further studies in recognised Mainland and Hong Kong higher education institutions with powers to award degrees at Bachelor's level or above. The list of recognised higher education institutions in both places are attached as Annex to the MoU and updated regularly.

Recognition of individual qualifications is essentially a matter for the users to decide. In general, it is up to individual employers (in both the public and private sectors) or professional bodies to decide whether a particular qualification obtained by an applicant should be regarded as meeting the requirements for filling the relevant job position or membership registration.

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) The review of the subvention arrangement for the English Schools Foundation (ESF) was completed. The Education Bureau has decided that starting from the 2016/17 school year, the recurrent subvention to ESF schools will be phased out in 13 years. What is the progress of the phasing out arrangement? Has the Bureau received any request for help from parents, teachers or students? If yes, what is the number of cases?
- (b) For each of the past 5 years, what were the respective numbers of non-Chinese speaking students with special educational needs studying in ESF's mainstream schools and its special school, the number of school places provided by these schools, as well as the number of people waiting for the school places?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 284)

Reply:

- (a) The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. As reported to the Legislative Council Panel on Education in July 2013, the recurrent subvention for ESF's mainstream primary and secondary schools of \$249.7 million will be maintained for three years from the 2013/14 to 2015/16 school years. Starting from the 2016/17 school year, the annual recurrent subvention will be phased out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. The existing recurrent subvention of \$28.3 million a year for students with special education needs (SEN) in ESF's mainstream schools as well as its special school will be excluded from the phasing out arrangement and frozen at the current level pending further review. We have not received any requests for assistance in relation to the phasing out arrangement since the announcement of the agreed phasing-out arrangement with ESF in mid-2013.
- (b) Based on ESF's return to the annual student enrolment survey conducted by the Education Bureau (EDB), statistics between the 2011/12 and 2015/16 school years on (i) the total number of students with SEN in its mainstream schools and the special school; (ii) the total number of places in learning support centres in its mainstream schools; as well as (iii) the number of places in its special school, with breakdown by primary and secondary levels, are set out in the **Annex**. We do not have readily available information on the number of non-Chinese speaking students with SEN in ESF schools, or the actual number of students on the waitlist for SEN places in ESF schools.

**Numbers of students with special educational needs (SEN)
studying in schools operated by the English Schools Foundation (ESF)**

School Year (P – Primary; S – Secondary)	2011/12		2012/13		2013/14		2014/15		2015/16	
	P	S	P	S	P	S	P	S	P	S
Number of students with SEN (including mainstream schools and the special school)	143	202	141	232	139	239	136	256	230*	435*
Number of school places in the learning support centres in mainstream schools	84	81	98	92	105	108	105	112	105	113
Number of places in the special school	33	30	33	30	34	36	34	36	26	44

* ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and offer three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF has advised that they have standardised their practice by requiring all ESF schools to include in their returns to the student enrolment survey for 2015/16 not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for 2015/16.

Subhead (No. & title): (000) Operational Expenses
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- (a) Regarding the Education Bureau's efforts to enhance the development of Hong Kong as a regional education hub in the 2015/16 school year, what are the details of the work and expenditure involved?
- (b) Regarding the Education Bureau's efforts to enhance the development of Hong Kong as a regional education hub for the 2016/17 school year, what are the work plans, manpower arrangements and estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 285)

Reply:

- (a) In recent years, we have been taking steps to enhance the development of Hong Kong as a regional education hub by internationalisation and diversification of the higher education sector.

Regarding internationalisation, we have implemented a basket of measures, including doubling the non-local student quotas of publicly-funded sub-degree, undergraduate and taught postgraduate programmes to 20% (whereby non-local students are primarily admitted by over-enrolment on top of the approved student number), establishing the HKSAR Government Scholarship Fund (Scholarship Fund) to provide government scholarships to outstanding local and non-local students, allowing non-local students to take on summer jobs and on-campus part-time jobs, allowing non-local sub-degree students to take up mandatory, study/curriculum-related internship in Hong Kong, extending student exchange from degree and above programmes to sub-degree programmes, providing local students of sub-degree and degree programmes with means-tested grant to participate in exchange activities outside Hong Kong, enabling non-local students to stay in Hong Kong without limitations for 12 months after graduation as well as aligning the permitted period of stay of non-local students with the normal duration of their study programmes.

As regards diversification, we have introduced in recent years a number of measures to facilitate the sustainable development of the self-financing post-secondary sector. These measures include –

- (i) Land Grant Scheme (LGS), which provides land sites and vacant government premises at nominal premium/rent to non-profit-making self-financing post-secondary institutions. Since the launch of the LGS in 2002, 11 sites and six vacant school premises have been allocated;
- (ii) Start-up Loan Scheme, which provides interest-free loans to support non-profit-making self-financing post-secondary institutions to develop new college premises and re-provision existing

premises operating in sub-optimal environment, such as refurbishing vacant school premises. Of the total commitment of \$9 billion, loans amounting to \$7.3 billion have been approved;

- (iii) The Self-financing Post-secondary Education Fund, with a total injection of \$3.52 billion, is set up as an endowment fund that generates recurrent income to provide scholarships to students pursuing full-time locally-accredited self-financing sub-degree or undergraduate programmes, and support worthwhile initiatives and schemes that aim to enhance the quality of self-financing post-secondary education; and
- (iv) Research Endowment Fund, which includes an earmarked injection of \$3 billion to support the self-financing degree sector in enhancing its academic and research development.

Our efforts have started to bear fruit. In the 2014/15 academic year, about 31 700 non-local students from more than 70 countries or regions came to Hong Kong for post-secondary studies. Moreover, there were about 5 600 incoming students on exchange in our publicly-funded institutions and 6 200 students taking part in exchange activities outside Hong Kong in the same year, i.e. around one out of four of our undergraduate students has the opportunity to go on exchange during their study period.

The above initiatives are regular policy work of the Education Bureau (EDB) hence the implementation is funded by our existing resources.

- (b) Starting from the 2016/17 academic year, the following new initiative will be implemented to further promote internationalisation of our institutions and enhance the development of Hong Kong as a regional education hub:
 - (i) Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the Scholarship Fund to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the expenditure involved for the first academic year will be at most \$1.2 million.
 - (ii) To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for “Belt and Road” Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to encourage them to pursue study in the universities along the Belt and Road region. The Government will take this into account in working out the detailed proposals.

The scholarship to be granted under the Hong Kong Scholarship for “Belt and Road” Students will only be used to cover the tuition fees payable by the students, subject to a ceiling of \$120,000 per student per annum, and it will be funded by the investment income generated from the Scholarship Fund. Administration of the scholarship will be funded by existing resources of EDB. The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

Question:

The Education Bureau stated its plan to set up a Gifted Education Fund of \$800 million. What are the details and estimated expenditure of the plan? How many students are expected to be benefited?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 287)

Reply:

We plan to set up the Gifted Education Fund (the Fund) to enhance the development of gifted education so as to enrich the talent pool and enhance the competitiveness of Hong Kong, in particular, to support the Hong Kong Academy for Gifted Education to nurture exceptionally gifted students. Details regarding the use of the Fund are being worked out.

Education Bureau has adopted a broad definition of giftedness from the perspective of multiple intelligences, and a three tier model of gifted education. Among the three tiers, Level 1 and Level 2 take place mainly in schools. Level 1 refers to using pedagogies that could make good use of the potential of students in creativity, critical thinking, problem solving or leadership in classrooms, and Level 2 refers to offering pull-out programmes in disciplinary or interdisciplinary areas for the more able students within the school. Level 3 refers to the provision of learning opportunities for exceptionally gifted students by very specialist training outside the school setting.

Under the above-mentioned broad meaning of giftedness, we cannot be specific at this stage about the number of students to benefit from the Fund.

Question:

The Education Bureau indicated that it would provide financial and professional support on a pilot basis to local public sector and Direct Subsidy Scheme schools having formed sister schools with their counterparts in the Mainland in 2016-17. What are the details and the estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 288)

Reply:

The Chief Executive announced in the 2015 Policy Address to launch a three-year pilot scheme from the 2015/16 school year through which financial and professional support will be provided to local public sector and Direct Subsidy Scheme primary and secondary schools, including special schools, that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities.

To this end, the Education Bureau has earmarked a total provision of \$200 million for the implementation of the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and Mainland ("the Pilot Scheme"). Under the Pilot Scheme, upon vetting and approval of the applications, a successful applicant school will be provided with a fixed grant of \$120,000 per annum within the three-year implementation period starting from the 2015/16 school year. We will also provide professional support to schools through pairing up of sister schools, organising sharing sessions and related programmes, collecting and disseminating good practices, etc. Implementation details will be announced through a circular to be issued to schools in due course.

Question:

The Government indicated that it will introduce the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong starting from the 2016/17 academic year. In this connection, please advise:

- a) the total amount of the scholarship;
- b) the maximum amount of scholarship per student;
- c) the estimated number of beneficiaries;
- d) the award criteria.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 301)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December last year, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the expenditure involved for the first academic year will be at most \$1.2 million. Same as the TSS, the scholarship will be offered to students who are enrolled in publicly-funded degree programmes in Hong Kong. Participating publicly-funded institutions will, having regard to the recommendations of the Indonesian Government, nominate students for selection by the Steering Committee of the Scholarship Fund. Selection will be based on a number of factors including the student's academic achievement and other attributes such as leadership qualities and potential.

To encourage more outstanding students from countries and regions along the "Belt and Road" to pursue studies in Hong Kong, the Chief Executive proposed in the 2016 Policy Address to inject \$1 billion into the Scholarship Fund and use the investment income thus generated to further increase the number of additional offers for the Hong Kong Scholarship for "Belt and Road" Students to 100 by phases. We note that there are views in the community that the Government should also provide scholarship to Hong Kong students to

encourage them to pursue study in the universities along the Belt and Road regions. The Government will take this into account in working out the detailed proposals.

Question:

- (a) Regarding the EDB's "support to the 57th International Mathematical Olympiad 2016", what were the details of work, expenditure and staff arrangement in the past?
- (b) In 2016, what are the plan, staff arrangement and estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 302)

Reply:

- (a) As the supporting organisation of the 57th International Mathematical Olympiad 2016 (IMO 2016), Education Bureau (EDB) has been working with the International Mathematical Olympiad Hong Kong Committee Limited (Host Organisation) and the Hong Kong University of Science and Technology (Host University) through regular meetings in order to provide professional views, and to monitor the planning as well as the event logistics closely, with a view to ensuring smooth delivery of IMO 2016.

EDB has pledged to offer financial support on three major items, namely: (i) medals and souvenirs for the winners, (ii) printing materials for publicity of IMO 2016, and (iii) official opening and closing of IMO 2016 and the hospitality package ancillary to these two ceremonies. The estimated expenditure is \$3 million.

- (b) EDB will continue to support IMO 2016 through providing professional views, liaising with the Host Organisation, the Host University and other stakeholders, monitoring the preparation and implementation of the event, including managing the planning of the event logistics, and promoting the event in the school sector. All the expenditure on the manpower in EDB, including a designated project officer for this project, is absorbed by EDB's recurrent expenditure.

Question:

According to the Bureau, during the 2016/17 school year, it will provide free lunch at schools for eligible needy primary students in special schools, what are the details, estimated expenditure and number of students expected to benefit from it?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 305)

Reply:

For the 2016/17 school year, we have earmarked a provision of about \$223 million to provide free lunch at school for needy primary students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector schools (including special schools) or primary schools under the Direct Subsidy Scheme. Regarding special schools, based on past experience, not all eligible students would join the programme. This is mostly because some special schools provide boarding service including lunch and some others have received funding or lunch subsidy of similar nature from other charities or organisations. For budgetary purposes, it is estimated that about 580 eligible primary students in special schools would benefit from the programme in the 2016/17 school year with an estimated expenditure of about \$2.2 million.

Question:

- a) Regarding strengthening schools' internal management and reducing teachers' administrative workload, what are the details and expenditures of the efforts made in the 2015/16 school year?
- b) Regarding strengthening schools' internal management and reducing teachers' administrative workload, what are the specific work plan and estimated expenditures of the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 307)

Reply:

(a) and (b)

To support schools to strengthen their administration management, as well as to streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity, the Education Bureau (EDB) has launched the Pilot Project on Strengthening Schools' Administration Management (Pilot Project) since the 2011/12 school year. Each participating school is provided with professional support and a grant of \$0.45 million for trying out appropriate measures to enhance school administration.

A total of 132 public sector schools have participated in the Pilot Project in four phases, with the last phase to be completed by the end of 2016. The expenditure involving the last batch of schools is estimated at about \$16.2 million.

Based on the successful experience and good foundation of the Pilot Project, EDB will enhance the Web-based School Administration and Management System, as well as continue to consolidate and disseminate the good school practices of the Pilot Project with a view to benefiting more schools. Besides, all public sector and Direct Subsidy Scheme schools which have not participated in the Pilot Project before were provided with a one-off grant of \$0.25 million in March 2016 to enable them to initiate improvement measures for enhancing school administration in the coming two school years. The total expenditure incurred is about \$214 million.

Director of Bureau: Secretary for Education
Question:

Regarding the collection of tuition fees and intake of students by self-financing post-secondary institutions, please advise of the following:

- (a) the respective total amount of application fees and enrolment deposits collected by self-financing post-secondary institutions, as well as the total amount of non-refundable enrolment deposits paid by students who subsequently declined offers in the past 3 academic years, with a breakdown by academic year and institution;
- (b) the respective number of places and actual student intake of self-financing post-secondary institutions in the past 2 academic years, with a breakdown by institution and programme type (e.g. sub-degree, top-up degree and degree programmes);
- (c) whether reviews have been scheduled for the 2016/17 academic year to look at the supply of and demand for programme places and the operation of programmes offered by self-financing post-secondary institutions, as well as the future development of these institutions; if yes, the details and findings of the reviews; if no, whether the Administration will embark on a review in the short term; if it will, the details of the work plan; if it will not, the reasons for that; and
- (d) given that the progressive drop in secondary student population in the next few years will have direct impact on the student enrolment and even viability of self-financing post-secondary institutions, whether the Administration has formulated targeted measures to support self-financing post-secondary institutions in exploring new development directions; if yes, the details of such measures; if no, the reasons for that.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 308)

Reply:

(a) and (b)

Based on the data provided by institutions offering full-time locally-accredited self-financing sub-degree and undergraduate programmes, the information on application fees and enrolment deposits collected by each of the institutions from the 2012/13 to 2014/15 academic years is in **Annex A**. Based on the data provided by the institutions, the estimated and actual intakes of self-financing sub-degree, top-up degree and undergraduate programmes by institution in the last two academic years are in **Annex B**.

(c) and (d)

With regard to monitoring the operation and development of the self-financing post-secondary institutions, the Government places the focus on enhancing transparency, strengthening quality assurance, promoting

good governance and safeguarding the interest of students. To further enhance transparency, the Committee on Self-financing Post-secondary Education (CSPE) launched the Concourse website (www.cspe.edu.hk) in December 2013 to provide comprehensive information and statistics of the self-financing post-secondary education sector, which helps enhance transparency and accountability. The Education Bureau (EDB) has been publicising the estimated intake places of institutions offering self-financing sub-degree and undergraduate programmes in each academic year through the Information Portal for Accredited Post-secondary Programmes website (www.ipass.gov.hk) and the Concourse website.

While self-financing post-secondary institutions are diverse in size, character and mission, good governance and quality assurance are of pivotal importance to the healthy and sustainable development and operation of the self-financing sector. To further promote the enhancement of governance and quality assurance for the sector, CSPE has promulgated the Code of Good Practices on Governance and Quality Assurance for Self-financing Post-secondary Education Sector in June 2015 for all self-financing post-secondary institutions to adopt on a voluntary basis. The key aspects covered by the Code are institutional governance; programme design and delivery; and staff, other resources and student support. Implementation of the Code will enhance the quality, transparency and sustainable development of the self-financing post-secondary education sector.

Furthermore, EDB has been communicating and discussing with institutions on various occasions the strategies and issues relating to the consolidation on both the quality and quantity of their programmes in the light of declining student population proceeding to post-secondary education in the coming years. Meanwhile, institutions are reminded to remain prudent in launching new programmes taking into consideration the availability of similar programmes and the demand for programmes to be offered.

Notes:

[1] The figures in brackets represent enrolment deposits that have not eventually become part of tuition fees.

“-” indicates no such programme is offered or no such fee is charged by the institution.

“#” includes the application fees for University Grants Committee (UGC)-funded or self-financing senior year places of Business Administration programmes.

“~” excludes degree programmes provided by the institution.

“%/” The institution does not have such figures.

“@” Application fees are only applicable for non-local applicants in this academic year.

“*” Application fees are applicable to both local and non-local applicants.

“^” As a common application arrangement is adopted for both its publicly-funded and self-financing programmes, VTC cannot provide the figures for application fees for self-financing programmes separately.

“+” VTC will automatically turn enrolment deposits into part of tuition fees at the beginning of the academic year regardless of whether the applicants have taken up its offers.

(Question Serial No. 3567)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Regarding the tuition fee reimbursement mechanism put in place by the Education Bureau to provide a flat-rate academic expenses grant for needy students pursuing eligible full-time programmes below sub-degree level and which has been regularised starting from the 2014/15 academic year, please advise:

- a) the details, eligible programmes, assessment criteria, manpower resources, number of beneficiaries and expenditure involved for 2015-16;
- b) the estimated expenditure and number of beneficiaries for 2016-17.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 309)

Reply:

In the 2013/14 academic year, the Community Care Fund launched a programme to enhance the support for eligible students pursuing below sub-degree programmes in two aspects, including the introduction of a tuition fee reimbursement mechanism, and provision of a flat-rate academic expenses grant for students. The Government has regularised the programme starting from the 2014/15 academic year.

In order to ensure the quality of the programmes, student beneficiaries should meet all the criteria below –

- (a) they are pursuing full-time programmes below sub-degree level;
- (b) they are pursuing Government-subvented programmes; for self-financing programmes, the following conditions must be satisfied –
 - (i) the programmes are accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications;
 - (ii) the tuition fee levels are approved by the Education Bureau; and
 - (iii) the programmes are accepted by the Civil Service Bureau as meeting the entry qualification of civil service grades requiring Level 2 in five subjects, including Chinese Language and English Language, in the Hong Kong Diploma of Secondary Education examination;
- (c) they are eligible for full or half grant assistance under the means-test mechanism of the Working Family and Student Financial Assistance Agency (WFSFAA); and

- (d) their families are not recipients of the Comprehensive Social Security Assistance (CSSA), since “school fees and school-related expenses” are already covered by the “special grants” under CSSA.

In addition to the above criteria, only students pursuing full-year programmes will be eligible for the flat-rate academic expenses grant.

For the 2015/16 academic year, students meeting the above criteria (a)-(d) are those pursuing Diploma Yi Jin (DYJ) programme and subvented programmes below sub-degree level offered by the Vocational Training Council (VTC), as well as the self-financed Diploma of Foundation Studies programme offered by VTC. Some of these programmes are full-year programmes and some are not. Students eligible to receive full or half grant under the means-test mechanism of the WFSFAA will be eligible to receive reimbursement of 100% or 50% of the tuition fees respectively. However, it is worthy to note that students pursuing DYJ programme are already entitled to tuition fee reimbursement under WFSFAA’s existing student financial assistance scheme, and are therefore not covered by the tuition fee reimbursement scheme above.

If students pursue programmes of duration at one year or above, they may also receive full or half level of the flat-rate academic expenses grant. For reference, eligible students are entitled to a full-grant of \$2,236 or a half-grant of \$1,118 in the 2015/16 academic year. The amount of the flat rate grant will be subject to annual price adjustment.

For the 2015/16 academic year, the estimated expenditure for the programme is about \$54 million, and about 2 900 and 4 000 students will receive the tuition fee reimbursement and flat-rate academic expenses grant respectively. The expenditure only covers the financial assistance to students and the Government will provide administrative support using existing manpower resources.

The information for the 2016/17 academic year is not yet available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- a) What were the details and expenditure in overseeing the Hong Kong Examinations and Assessment Authority in each of the past 5 years?
- b) What are the detailed plan and estimated expenditure in overseeing the Hong Kong Examinations and Assessment Authority in 2016-17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 310)

Reply:

(a)&(b)

The Hong Kong Examinations and Assessment Authority (HKEAA) is a statutory body set up in 1977 under the HKEAA Ordinance (Cap.261). Within the broad policy framework set by the Government in respect of its statutory functions, the HKEAA enjoys autonomy in its day-to-day operation. It is governed by the HKEAA Council with members drawn from various sectors, including tertiary institutions, schools, business and the Government. In respect of the Government's general monitoring role, the Education Bureau (EDB) is represented on the HKEAA Council and its committees. HKEAA is also required to submit its annual estimates of income and expenditure and programme of its proposed activities to the Government for approval, and to table its annual audited accounts and report of activities at the Legislative Council every year, under the HKEAA Ordinance (Cap.261). As regards specific monitoring of the use of one-off non-recurrent grant to HKEAA for specific projects, the EDB will, apart from being represented on the relevant committees, require HKEAA to report progress of the projects on a regular basis. The manpower and administrative costs for the EDB's monitoring role have been absorbed within the existing resources of the EDB.

Question:

Regarding the old-style school premises commonly known as “matchbox-style school premises”, please advise of the following:

- (1) the current number, locations, commissioning dates and usage of “matchbox-style school premises” of public sector schools;
- (2) whether any timetable is drawn up to phase out all the existing “matchbox-style school premises”; if yes, the timetable and details; if no, whether the Administration will consider drawing up such a timetable and work plan; if it will, the details; if it will not, the reasons for that; and
- (3) given that at present, the school premises of some public sector schools that are subject to space constraints can hardly meet the current standards even if improvement works are carried out, whether the Administration will consider according priority to these schools in the allocation of vacant school premises to increase the space of their school premises; if yes, the specific arrangements; if no, the reasons for that.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 311)

Reply:

(1) At present, there are about 850 ordinary public sector primary and secondary school premises built in different periods in accordance with the standards at the time of construction, which cover various facilities and have been changing over the years. Nevertheless, existing school premises in operation are required to comply with prevailing statutory requirements. As at November 2015, over 200 of them were built according to prevailing standards.

Among the schools built in different periods, cuboidal shaped school premises were constructed between mid-1960s and 1980 at public housing estates for primary school use. These school premises are often referred to as “matchbox-style school premises”. At present, 28 public sector primary schools are operating in such premises. Details of the location and age of the school premises of are provided in the table below.

(Table): Information of the 28 matchbox-style school premises

(2) & (3) Over the years, the Education Bureau (EDB) has put in place various measures to enhance the facilities of school premises according to the needs of existing schools, so as to improve their teaching and learning environment. In addition to daily maintenance including major repairs projects, these measures mainly include the School Improvement Programme (SIP) implemented between 1994 and 2006, reprovisioning programme, redevelopment programme and minor improvement projects.

SIP, one of the recommendations of the Education Commission in its Report No. 5, was introduced in 1994 to progressively upgrade the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phase One to three of SIP focused on upgrading the schools' facilities for teaching, learning and administrative needs. Phase Four and the Final Phase aimed to upgrade the schools' facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under SIP varied according to the schools' vision and mission, characteristics, the facilities in place and site conditions. Between 1994 and 2006, about 700 ordinary public sector schools built according to the planning standards when the schools were constructed have their school facilities enhanced through one of the five phases of SIP. Among the 28 primary schools mentioned above, all except one have benefited from the SIP (with 12 of them participating in Phase Four or the Final Phase of the Programme).

For reprovisioning of existing schools to new school premises built on reserved school sites or vacant school premises (VSP) which are suitable for this purpose, allocation is generally done through open and competitive bidding under the School Allocation Exercises (SAE). All eligible school sponsoring bodies in the territory can apply for reprovisioning of existing schools under their sponsorship when SAE for reprovisioning purpose are launched from time to time. When assessing the applications, condition of the existing school premises is one of the factors of consideration. Among the 28 primary schools mentioned above, six have submitted applications in SAE for reprovisioning launched in the past five years and two of them have been allocated new premises. It is worth noting that suitable school sites and VSP for reprovisioning purpose are not evenly distributed throughout the territory and may not be in the same district with the schools seeking for reprovisioning.

For in-situ redevelopment projects, interested schools would indicate their intention for redevelopment to EDB which would assess whether it is worth supporting based on a set of eligibility criteria including the technical feasibility in light of site constraint, quality of education provided, sustainability of the school under consideration, availability of suitable decanting premises, readiness of the school, etc. We also need to take into account the available manpower and foreseeable school building commitments within EDB, as well as the likely capacity constraints of the construction sector as gauged from past experience when deciding on the number of projects to be supported. We are now working on seven in-situ redevelopment projects with funding secured for three of them. We will consider taking up additional projects having regard to the progress of the school projects in hand as well as the redevelopment projects committed so far, funding availability under the Public Works Programme in recent years and the demand from schools for redevelopment.

We are mindful that the need and intention for redevelopment and reprovisioning varies among schools. Neither the age nor the size of the school premises can be the only factor for consideration.

As for minor improvement works, EDB applies for block allocations under the Capital Works Reserve Fund every year to implement such works so as to improve the facilities of schools in need. Examples included construction of additional classrooms and administrative and teaching facilities, installation of lifts, etc.

Question:

The Government has granted start-up loans to various post-secondary institutions. In this connection, what are the amount of loans obtained by and the loan repayment situation of each institution at present?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 329)

Reply:

In 2001, the Government launched the Start-up Loan Scheme (SLS) to provide interest-free loans to support non-profit-making self-financing post-secondary institutions to develop new college premises and/or re-provision existing premises operating in sub-optimal environment. Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years. As at March 2016, 39 loans amounting to a total of about \$7.3 billion were approved. 13 loans have been fully repaid and the total amount of outstanding loan is about \$4.5 billion. Details of the approved loans and loan repayment are set out at Annex.

(Question Serial No. 3586)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

(a) Please provide a list of the programmes ceased to operate by each self-financing institution in the past 3 years with the respective reasons.

(b) In this connection, how many students were affected by each of the above programme?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 330)

Reply:

According to the information provided by institutions for the purpose of publishing in the Information Portal for Accredited Post-secondary Programmes (iPASS) under the Education Bureau, the lists of full-time locally-accredited self-financing sub-degree, undergraduate and top-up degree programmes which ceased to operate by institutions from the 2014/15 to 2016/17 academic years are at Annex. We do not have readily available information on the reasons behind the cessation of those programmes or in relation to (b).

**List of Full-time Locally-Accredited Self-financing Programmes Ceased to Operate by Institution
in the 2014/15 Academic Year**

(Question Serial No. 3587)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

How many schools in Hong Kong have currently formed sister schools with schools in the Mainland? Regarding the sister schools formed between Hong Kong and the Mainland, does the Bureau have any guidelines or measures to assess the effectiveness?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 331)

Reply:

Since 2004, 334 schools (including 136 primary schools, 193 secondary schools and 5 special schools) in Hong Kong have participated in the Sister School Scheme and formed 489 pairs of sister schools with their counterparts in the Mainland through the coordination of the Education Bureau (EDB). In addition, many schools in Hong Kong have formed sister schools with their counterparts in the Mainland on their own initiative and through other means and no reporting of this kind of pairing up to EDB is required. As such, we do not have the total number of schools in Hong Kong that have paired up with their counterparts in the Mainland. Hitherto, no designated funding has been provided for sister school exchange activities which are arranged by schools concerned on their own, with reference to their development needs and circumstances. Over the years, EDB has collected views from participating Hong Kong schools through different means, such as surveys, sharing sessions and seminars conducted from time to time as well as day-to-day contacts. Feedback from participating schools is generally positive towards the Scheme. It is generally agreed that sister schools have served as a platform and network for professional interflow and cooperation between local and Mainland schools.

CONTROLLING OFFICER'S REPLY**EDB424****(Question Serial No. 3854)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) What were the respective numbers of teachers in long whole-day kindergartens, whole-day kindergartens, half-day kindergartens and kindergartens with both half-day and whole-day classes in the past 3 years?
- (b) What were the numbers and percentages of teacher wastage in long whole-day, whole-day and half-day kindergartens, their length of service, salaries, academic qualifications and average age in the past 3 years?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 334)

Reply:

- (a) The respective number of serving teachers in local whole-day (WD) kindergartens (KGs), half-day (HD) KGs and KGs with both HD and WD classes in the 2013/14, 2014/15 and 2015/16 school years is tabulated below:

School Year	2013/14	2014/15	2015/16 (Note 1)
No. of teachers in local WD KGs	2 197	2 309	2 416
No. of teachers in local HD KGs	3 246	3 546	3 856
No. of teachers in local KGs with both HD and WD classes	6 169	6 231	6 206

Separately, the number of serving teachers in former aided child care centres (FACs) (Note 2) in the 2013/14, 2014/15 and 2015/16 school years is tabulated below:

School Year	2013/14	2014/15	2015/16 (Note 1)
No. of teachers in FACs (Note 2)	2 235	2 319	2 411

- (b) The number and percentage of wastage; average years of service, average salary, academic qualifications and average age of serving KG teachers in local WD KGs, HD KGs and KGs with both HD and WD classes in the 2013/14, 2014/15 and 2015/16 school years are tabulated below:

2013/14 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	136 (6.5%)	263 (8.2%)	491 (8.5%)
Average years of service	12.9	13.8	13.9
Average salary per month	\$20,904	\$20,340	\$18,271
Number of teachers with Certificate in Early Childhood Education or above	2 090	2 776	5 305
Average age	35.0	36.7	36.9

2014/15 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	161 (7.3%)	280 (8.6%)	627 (10.2%)
Average years of service	12.8	13.5	13.5
Average salary per month	\$21,443	\$21,136	\$18,982
Number of teachers with Certificate in Early Childhood Education or above	2 235	3 097	5 591
Average age	34.9	36.5	36.4

2015/16 school year (Note 1)

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	158 (6.8%)	328 (9.2%)	554 (8.9%)
Average years of service	12.7	13.6	13.4
Average salary per month	\$23,212	\$22,534	\$20,140
Number of teachers with Certificate in Early Childhood Education or above	2 343	3 382	5 647
Average age	34.9	36.6	36.1

Separately, the number and percentage of wastage; average years of service, average salary, academic qualifications and average age of serving KG teachers in FACs (Note 2) in the 2013/14, 2014/15 and 2015/16 school years are tabulated below:

Teachers in FACs (Note 2)			
School year	2013/14	2014/15	2015/16 (Note 1)
Number of wastage (Note 3) (%)	146 (6.8%)	169 (7.6%)	163 (7.0%)
Average years of service	12.8	12.6	12.5
Average salary per month	\$20,664	\$21,197	\$22,956
Number of teachers with Certificate in Early Childhood Education or above	2 140	2 258	2 351
Average age	34.8	34.7	34.7

Note:

1. The figures of the 2015/16 school year are provisional.
2. The FACs were operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.
3. “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs/FACs as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a local KG/FAC as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Question:

Regarding the pre-primary education, please provide, by District Council districts, the number of non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (PEVS), the number of kindergartens not joining the PEVS, the number of school places they offered and their average school fees in the past 3 years.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 335)

Reply:

The number of local non-profit-making (NPM) kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) and the number of school places and average school fees of these KGs by District Council district in the past 3 years are tabulated at Appendix 1. For local KGs not joining the PEVS, relevant information is tabulated at Appendix 2.

Number of local non-profit-making kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) and number of school places and average school fees of these KGs by District Council district from the 2013/14 to 2015/16 school years

(Question Serial No. 3856)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- (a) What were the details and amount of subsidies (including those for the Pre-primary Education Voucher Scheme, Kindergarten and Child Care Centre Fee Remission Scheme, refund of rent, rates and government rent, Child Care Centre Subsidy Scheme and training of principals and teachers) provided by the Government for pre-primary education in the past 3 years?
- (b) What are the details of and the estimated expenditure for subsidies (including those for the Pre-primary Education Voucher Scheme, Kindergarten and Child Care Centre Fee Remission Scheme, refund of rent, rates and government rent, Child Care Centre Subsidy Scheme and training of principals and teachers) provided by the Government for pre-primary education in 2016-17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 336)

Reply:

(a) and (b)

Details of Government subsidy for pre-primary education are as follows:

- (i) Under the Pre-primary Education Voucher Scheme (PEVS), non-means-tested direct fee subsidy, in the form of voucher, is provided for parents with eligible children studying in kindergartens (KGs) to defray school fees.
- (ii) Fee remission is provided for KG children from needy families under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) on top of the non-means-tested fee subsidy under the PEVS.
- (iii) Rental subsidy is provided under the Rent Reimbursement Scheme to eligible non-profit-making (NPM) KGs to meet the rent expenses. NPM KGs may also claim full refund of rates and government rent for their school premises.
- (iv) Financial assistance is provided under the Child Care Centre Subsidy Scheme (CCCCSS) to eligible NPM child care centres rendering services for children below the age of three.
- (v) Various professional training courses on early childhood education (ECE) are provided for KG principals and teachers for professional upgrading and development. To provide further support for the professional upgrading of principals and teachers, course fee reimbursement was offered for serving KG principals and teachers under the PEVS if they pursue a relevant approved ECE course in the 2012/13 and/or 2013/14 school year(s) and can successfully complete the course before the end of the 2013/14 school year.

The respective expenditure incurred from 2013-14 to 2016-17 are as follows:

	2013-14	2014-15	2015-16	2016-17
	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Revised Estimate)	(Estimate)
(i) PEVS*	2,428.6	2,535.7	2,966.3	3,183.9
(ii) KCFRS	465.8	539.9	548.4	616.8
(iii) Refund of rent, rates and government rent	218.8	238.0	259.2	282.9
(iv) CCCSS	15.2	15.9	15.6	17.6
(v) Principal and teacher training #	1.0	3.7	1.5	0.9

* Including the one-off school development grant for PEVS KGs in the 2013/14 school year.

As for the course fee reimbursement for those who successfully completed the relevant approved courses by the end of the 2013/14 school year, the number of principals and teachers applying for reimbursement in 2014-15 was larger than that in 2013-14 and no payment is required for 2015-16.

Question:

How many international schools are currently leasing Government premises? Regarding international schools operated on school premises leased from the Government, please provide the following information in table form:

1. Name of international school
2. School address
3. Number of students
4. Area of school
5. Rent

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 337)

Reply:

According to our record, 11 international schools are currently leasing Government premises. Their school name, address and site area of the leased premises, the number of students at these schools at the premises concerned in the 2015/16 school year and the type of rent payable for the premises are set out at **Appendix**.

**Name of schools leasing Government premises, address and site area of the leased premises,
number of enrolled students at the premises in the 2015/16 school year, and
the type of rent payable for the premises**

School Name	Address	Site Area (about)	No. of Students	Type of Rent
Carmel School	460 Shau Kei Wan Road, Hong Kong	3 380 m ²	96	Nominal
	10-12 Borrett Road, Hong Kong	2 737 m ²	124	Nominal
Christian Alliance PC Lau Memorial International School	Lai Yiu Estate, Kwai Chung, New Territories	4 410 m ²	445	Nominal
German Swiss International School	162 Pok Fu Lam Road, Pok Fu Lam, Hong Kong	2 146 m ²	296	Nominal
French International School	1 Cheung Man Road, Chai Wan, Hong Kong	6 432 m ²	375	Nominal
	68 Gillies Avenue, Hung Hom, Kowloon	1 895 m ²	271	
International College Hong Kong (New Territories)	60 Sha Tau Kok Road, Sha Tau Kok, New Territories	8 180 m ²	274	Nominal
Lantau International School	Cheung Sha Upper Village, Lantau, New Territories	488 m ²	13	Market ^{Note 1}
	113 Tong Fuk Village, Lantau, New Territories	934 m ²	99	
Nord Anglia International School, Hong Kong	11 On Tin Street, Lam Tin, Kowloon	4 555 m ²	639	Nominal
Norwegian International School	170 Kam Shan Road, Tai Po, New Territories	4 550 m ²	140	Nominal
Singapore International School (Hong Kong)	2 Police School Road, Wong Chuk Hang, Hong Kong	4 552 m ²	422	Nominal
The International Montessori School – An IMEF School	Phase III, Ma Hang Estate, Stanley, Hong Kong	4 730 m ²	334	Nominal

School Name	Address	Site Area (about)	No. of Students	Type of Rent
Umah International Primary School	Fung Chi Tsuen, Wang Chau, Yuen Long, New Territories	1 730 m ²	31	Nominal

Note 1 According to the tenancy agreements, the rent cannot be disclosed without consent by the tenant.
Hence, only the type of rent is set out above.

Question:

- a) What were the respective numbers and percentages of local and non-local students in individual international schools, and the respective tuition fees charged by individual school in the past 3 years?
- b) What were the highest, lowest and median tuition fees charged by international schools last year and this year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 338)

Reply:

- (a) The number and percentage of local and non-local students of individual international schools from the 2013/14 to 2015/16 school years are set out at **Annex 1**.

Information on the median annual tuition fee of individual schools from the 2013/14 to 2015/16 school years is set out at **Annex 2**.

- (b) The highest, lowest and median tuition fees charged by international schools in the 2014/15 and 2015/16 school years are set out at **Annex 3**.

**Number and percentage of local and non-local students enrolled
in international schools (excluding special school) from the 2013/14 to 2015/16 school years
(based on the student enrolment survey conducted in September of respective years)**

CONTROLLING OFFICER'S REPLY**EDB429****(Question Serial No. 3859)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) Please give a breakdown of the supply and demand as well as the balance of international school places in Hong Kong by District Council district in the past 5 years.
- b) According to the Bureau's estimation, what will be the supply and demand for international school places in Hong Kong by District Council district in the coming 3 school years starting from 2016/17?
- c) The Bureau states that it will "continue to monitor and facilitate the provision of school places for meeting the needs of the international community in Hong Kong, particularly through allocation of vacant school premises and greenfield sites for international school development". What are the details and the relevant expenditure? Among which, please list out the locations of the vacant school premises and greenfield sites for international school development by district. What will be the numbers of international school places estimated to be increased in the respective districts?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 339)

Reply:

International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the English Schools Foundation schools and other private international schools), students enrolled and vacancies by the districts in which the international schools are located from the 2011/12 to 2015/16 school years are set out at the **Annex** for illustration purpose.

The consultancy study completed in end 2012 has projected that based on the position of the 2011/12 school year, there will be a shortfall of around 4 200 primary school places in the 2016/17 school year. We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, it is projected that around 4 210 additional places will be available between 2016/17 and 2018/19 school years. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

Further to the consultancy study completed in end 2012, we commissioned a new round of the study in October 2014 to update the latest provision of international school places at primary and secondary levels in the territory and to project the supply and demand in the next few years. The study will collect views through surveys from international schools and the business sector as well as the international community in order to have a broader understanding of the concerns of different stakeholders. Such information, coupled

with the past trends of demand for international school places and the forecast changes in economic growth, would be useful reference for projecting the demand from overseas families coming to Hong Kong for work or investment. The study is expected to complete by mid-2016. Subject to the results of the study and availability of suitable sites or vacant school premises for international school development, we will consider whether and when to launch a new round of SAE for international school development.

Recurrent administrative expenditure arising from the monitoring of the supply and demand of international school places, supporting international school expansion projects and the management of school allocation exercises for international school development will be absorbed by the existing resources of this Bureau.

Question:

What were the estimated and actual intakes of the self-financing post-secondary programmes offered by local self-financing post-secondary institutions in the past 3 years? Please provide a breakdown by academic year and post-secondary institution.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 401)

Reply:

On the basis of the information provided by institutions, the number of estimated intakes and actual intakes of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes by institution from the 2013/14 to 2015/16 academic years is set out at **Annexes A and B**.

(Question Serial No. 3937)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Will the Administration consider providing additional grants for primary and secondary schools to employ substitute teachers in 2016-17? If yes, what are the rate of increase and the estimated expenditure involved? If no, what are the reasons?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 482)

Reply:

At present, aided schools are provided with funding to employ supply or temporary teachers to substitute regular teachers on approved leave. Aided schools which have yet to establish incorporated management committees (non-IMC schools) may claim reimbursement from the Education Bureau (EDB) on a case-by-case basis for the appointment of daily-rated supply teachers to substitute regular teachers taking approved leave for 3 to 89 days. For approved leave of 90 days or more, schools may apply to EDB for reimbursement for hiring temporary teachers on monthly term. As regards aided schools with incorporated management committees (IMC schools), they are provided with the Teacher Relief Grant (TRG) for appointing supply teachers in general to substitute regular teachers on approved leave less than 30 days instead of claiming reimbursement on a case-by-case basis. For other approved leave of 30 to 89 days and of 90 days or more, IMC schools may claim reimbursement from EDB for the appointment of daily-rated supply teachers and monthly pay temporary teachers as appropriate like the non-IMC schools.

According to the latest (i.e. 2013/14 school year) financial statements submitted by schools, most of the schools had surplus in respect of their TRG accounts. Only two IMC schools ran into deficit and they were able to deploy the surplus of the Expanded Operating Expenses Block Grant (EOEBG) to cover the related expenses. We will continue to keep in view the implementation of TRG and review the current arrangement where necessary.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (1) Director of Bureau's Office
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

What were the respective numbers of duty visits outside Hong Kong made by the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education since their assumption of office? Please give the following information for each of their duty visits outside Hong Kong.

- (1) Date;
- (2) Destination;
- (3) Purpose and main itinerary;
- (4) Number of official entourage;
- (5) Number of non-official entourage;
- (6) Hotel accommodation and room class;
- (7) Airline and fare class of air ticket;
- (8) Effectiveness; and
- (9) Total expenditure incurred.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 167)

Reply:

Information about duty visits outside Hong Kong made by Secretary for Education (SED) and Political Assistant to Secretary for Education (PA/SED) as well as Under Secretary for Education (US(Ed)) since their assumption of office in 2012 are at Annexes A to B respectively.

Duty visits outside Hong Kong by SED and his entourage are conducted in strict compliance with the relevant Government requirements and have delivered results. Through in-depth exchanges with the education officers, academics and education sector of the places visited, we had gained more thorough understanding of their good practices and valuable experiences, which served as a useful source of reference for us to formulate major education policies, such as the 15-year free education, vocational education and e-learning, in recent years. Furthermore, SED had also showcased internationally Hong Kong's achievements in education, broadened and strengthened ties and cooperation with these places, and consolidated Hong Kong's role as a regional education hub to facilitate exchange of talents. SED had been invited from time to time to attend international education forums and seminars held in various countries/places to exchange views on education policy, discuss the future developments in education policy/teaching profession, and explore bilateral co-operation opportunities with education officials as well as educators from around the world. In almost all his duty visits outside Hong Kong, SED had exchanges with and listened to the views of students from Hong Kong. In addition, the rapid development of our country in various areas such as its economy and technology in recent years together with the

implementation of the “Belt and Road” initiative have presented new and unprecedented opportunities for Hong Kong. Through duty visits to and exchanges with the Mainland, SED had enhanced education co-operation and strengthened the ties between the two places, thereby providing more and wider opportunities for progression and development for Hong Kong students.

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) In 2015-16, what were the resources and work for improving the learning and teaching of the English Language in primary schools by the Education Bureau (EDB)?
- (b) EDB has indicated that it will continue to improve the learning and teaching of the English Language in primary schools in 2016-17. What are the details of the work and estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 168)

Reply:

(a) and (b)

In the 2015-16 financial year, we have been implementing various measures for improving the learning and teaching of English Language in primary schools. The estimated expenditure in 2015-16 financial year is \$434.38 million, of which \$32.95 million is from the Language Fund. In 2016-17 financial year, we will continue to improve the learning and teaching of English Language in primary schools. The estimated expenditure for the initiatives in 2016-17 financial year is \$445.65 million, of which \$32.74 million is from the Language Fund.

Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		

No.	Name of Project	Details
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects	To engage community partners in organising language-related events/competitions in the community.

* Initiatives funded by Language Fund

** Initiative is funded out of Head 173 Student Financial Assistance Agency

Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

(a) Up to 2015-16, how many primary schools in the territory have yet to provide school-based educational psychology service?

(b) The EDB said that it will continue to expand the School-based Educational Psychology Service to cover all public sector primary schools by the 2016/17 school year. What are the details and estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 169)

Reply:

(a) and (b)

In the 2015/16 school year, 401 public sector primary schools are receiving the School-based Educational Psychology Service (SBEPS), covering about 88% of all public sector primary schools. The remaining 53 public sector primary schools will be covered in the 2016/17 school year when the SBEPS extends to cover all public sector primary and secondary schools by then. The Government will also further enhance the SBEPS by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs. In the 2016/17 school year, about 30 primary and secondary schools will receive enhanced SBEPS. In the 2017/18 school year, the number of schools that will receive enhanced SBEPS will increase to 80. The estimated expenditure incurred for the provision of SBEPS in public sector primary and secondary schools in the 2016/17 school year is about \$141 million.

Programme: (2) Primary Education
(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide a list of the number of students with special education needs (SEN) in public sector primary schools by districts. (Please tabulate the number by district council districts)
- (b) Please provide a list of the number of students with SEN in secondary schools by districts. (Please tabulate the number by district council districts).

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 170)

Reply:

(a) and (b)

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools in the 2015/16 school year are 19 830 and 19 640 respectively. As the provision of support services for students with SEN does not have relationship with the district in which they live or study, breakdown of the number of students with SEN by district can be misleading. Hence, we have not compiled such figures.

EDB436

(Question Serial No. 5860)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- (a) What measures were taken by the Education Bureau (EDB) to support needy primary school students in 2015-16? What was the expenditure involved?
- (b) EDB has indicated that it will continue to subsidise schools and non-profit making organisations to organise after-school activities for supporting needy students under the School-based After-school Learning and Support Programmes in 2016-17. What are the contents and estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 171)

Reply:

- (a) The Education Bureau (EDB) has implemented various student financial assistance programmes to ensure that no student in Hong Kong will be denied access to education due to a lack of means. The Student Finance Office of the Working Family and Student Financial Assistance Agency administers a number of means-tested financial assistance schemes for needy primary students. Needy primary students may apply for assistance under the School Textbook Assistance Scheme for assistance to purchase textbooks and meet other school-related expenses; the Student Travel Subsidy Scheme to meet expenses of home-school travels; and the Subsidy Scheme for Internet Access Charges for Internet learning at home. In the 2015/16 school year (as at 31 January 2016), around \$602.6 million has been disbursed.
- (b) To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, EDB has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance or full grant under the Student Financial Assistance Schemes.

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of Comprehensive Social Security Assistance or full grant under the Student Financial Assistance Schemes but identified by schools as needy. Besides, eligible participating schools (i.e. having a

utilisation rate of 80% or above of the provision in the previous year) have been provided with an incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision). The total provision for the Programme is about \$240 million in the 2016/17 school year, which is shared almost equally by the two Grants.

Question:

- (a) In respect of facilitating the implementation of the “Chinese Language Curriculum Second Language Learning Framework” for non-Chinese speaking students in schools, what were the details and expenditure for 2015-16?
- (b) How does the Education Bureau evaluate the effectiveness of the “Chinese Language Curriculum Second Language Learning Framework”?
- (c) In respect of facilitating the implementation of the “Chinese Language Curriculum Second Language Learning Framework” for non-Chinese speaking students in schools, what are the work plans and estimated expenditure for 2016-17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 172)

Reply:

- (a) & (c) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. Estimated expenditure for the related support measures for the 2015/16 and 2016/17 school years is tabulated at Annex.
- (b) EDB has consulted teachers and language experts when formulating the “Learning Framework” and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the “Learning Framework” on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school context. At the curriculum level, the “Learning Framework” would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of the support measures for NCS students and refine them as appropriate.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2015/16 and 2016/17 school years**

Support measures	Estimated expenditure in the 2015/16 school year (\$ million)	Estimated expenditure in the 2016/17 school year (\$ million)
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	223.9 Note	244.8 Note

Subhead (No. & title): (000) Operational Expenses
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

The Bureau indicates that it will further enhance the ratio of graduate teacher posts in public sector primary schools to 60% and 65% in 2016-17 and 2017-18 respectively. What are the details and estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 173)

Reply:

Pursuant to the increase in the ratio of graduate teacher posts from 50% to 55% in public sector primary schools in the 2015/16 school year, the Education Bureau (EDB) will further enhance the ratio to 60% and 65% in the 2016/17 and 2017/18 school years respectively. Under this enhancement measure, the additional full year cost is estimated to be \$328 million. In line with the existing arrangements, public sector primary schools will fill the additional graduate teacher posts by regrading qualified serving non-graduate teachers in accordance with their school-based selection criteria and mechanism and with reference to EDB's guidelines.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) In the past 3 years, the Education Bureau (EDB) implemented a series of targeted relief measures in light of the temporary decline of the secondary 1 student population. What were the details and expenditure involved?
- b) In 2016-17, the EDB will continue to implement the above measures. What are the details and expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 202)

Reply:

(a) & (b)

The package of targeted relief measures the Education Bureau (EDB) implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in Secondary 1 (S1) student population. In gist, the targeted relief measures include:

- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
- ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
- iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

To further stabilise the teaching force, the Chief Executive has announced in the 2016 Policy Address that schools with surplus teachers arising from reduction of S1 classes in the 2013/14 and 2014/15 school years, if in need, may apply to extend the retention period for these surplus teachers up to the 2017/18 school year. The expenditure for putting in place the targeted relief measures is subsumed under the overall expenditure of EDB, and a breakdown of the expenditure in the past 3 school years and the estimated expenditure for the 2016/17 school year in this regard are not available.

Question:

- a) According the Education Bureau (EDB), in the 2016/17 school year, it will allow schools to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts. What are the details and expenditure involved?
- b) Has the EDB evaluated the influence on contract posts by turning the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts? If yes, how many contract teachers will be affected according to the evaluation?
- c) Has the EDB evaluated the influence on the life planning policy by turning the Career and Life Planning Grant into regular teaching posts? If yes, what are the details? If no, what are the reasons?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 203)

Reply:

(a) & (b)

As announced by the Chief Executive in the 2016 Policy Address, public sector secondary schools may turn the existing Senior Secondary Curriculum Support Grant (SSCSG) and Career and Life Planning Grant (CLPG) into regular teaching posts starting from the 2016/17 school year to enhance the implementation of the senior secondary curriculum and to strengthen life planning education and related guidance services. The measure aims to provide schools with more stable teacher manpower to enhance the respective policies. As situations vary from school to school and some schools may have already made arrangements for deploying the grants, for example, to employ contract teachers, acquire outside services or employ specialized staff, the decision of turning the grants or not is entirely school-based. In this regard, we are unable to provide information on the expenditure involved or evaluate the impact on the contract teachers at this stage. We will review the measure in the coming two years.

(c)

Teachers filling the regular posts converted from the CLPG should assist in enriching and expanding the scope of career guidance service and enhancing the quality of life planning education. For schools which opt to retain the CLPG, the ambit of the CLPG remains unchanged. The policy of life planning education is not confined to the provision of CLPG to schools. EDB has also taken measures to strengthen professional support for schools and teachers in providing life planning and career guidance services for students, such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes, promoting professional exchanges among schools and teachers, conducting advisory visits to provide professional advice to schools, engaging business organisations to provide

students with career exploration opportunities via the Business School Partnership Programme, disseminating updated information on further studies and career opportunities on the webpage, issuing a Guide on Life Planning Education and Career Guidance for Secondary Schools for reference, etc. EDB will continue to provide the above enhanced support measures, and will make vigorous effort to promote life planning education, including forging more business partners to expand the variety and scale of career exploration activities for students, arranging activities for parents to enhance their understanding about the importance of life planning education and nurturing the culture of supporting the young generation in life planning. We will continue to pay advisory visits to all eligible secondary schools by the 2016/17 school year. Information collected will serve as useful feedback to inform the future planning of life planning education.

Question:

- (a) What were the wastage rates of teachers in special schools in the past 5 years?
- (b) Regarding the establishment of the special school cum resource centres through which special schools collaborate with mainstream schools, what are the work and expenditure involved in the 2015/16 school year? What are the work and expenditure in this area for the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 204)

Reply:

- (a) The wastage rates of teachers in special schools in the 2010/11 to 2014/15 school years are 7.8%, 5.4%, 7.9%, 6.3% and 6.8% respectively.
- (b) Special Schools cum Resource Centres (SSRCs) place emphasis on empowering teachers of mainstream schools in catering for their students with special educational needs through cross-fertilization of expertise and networking. There are 10 SSRCs providing support services for the mainstream schools through on-site consultation, lesson observation, case conferences, school-based workshops/seminars, and sharing of resource materials, etc. in the 2015/16 and 2016/17 school years. The SSRCs also conduct district-based seminars and workshops for sharing of good practices. Besides, there are 7 schools for social development (SSD) serving as Resource Centres [SSRCs(SSD)] in the 2015/16 and 2016/17 school years. The SSRCs(SSD) provide support for their leavers in their first year of returning to mainstream schools and for the mainstream schools concerned to facilitate the smooth integration of these students into the school life. The expenditure on the SSRCs for the 2015/16 and 2016/17 school years is estimated to be \$4.0 million and \$4.6 million respectively.

Question:

Regarding the free kindergarten education policy:

- (a) How much consultation work was done by the Education Bureau (EDB) for the education sector and the public in the 2015/16 school year? What were the details and expenditure involved?
- (b) Has EDB conducted a survey on the rental of kindergarten premises? If yes, what are the findings and the expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 205)

Reply:

- (a) The Committee on Free Kindergarten Education (Committee) was set up in April 2013 to examine the various related issues and recommend practicable and sustainable proposals for implementing free quality kindergarten (KG) education. The Committee submitted its Report to the Education Bureau (EDB) in May 2015. Having regard to the recommendations of the Committee, and views collected through public consultation from June to July 2015, the Chief Executive announced in the 2016 Policy Address the implementation of free quality KG education policy starting from the 2017/18 school year. Since the announcement, EDB has conducted about 30 meetings/briefing sessions with various stakeholders including KG operators/sponsoring bodies, KG principals and teachers, relevant educational organisations, the public (including parents), non-governmental organisations, etc. to collect their feedback on the new policy and views on the implementation details. Major features of the new policy, including the objectives, the rationale in calculating each component of the subsidy, measures in enhancing the quality of KG education in particular improvement in the teacher-pupil ratio, teachers' professional development, remuneration and career ladder, catering for students' diverse needs, monitoring and quality assurance, revision of the "Guide to Pre-primary Curriculum", etc. were discussed. EDB will continue to meet different stakeholders with a view to formulating the specific implementation details. It is scheduled to announce the details in the third quarter of 2016. The expenditure incurred for the consultation activities conducted by EDB has been subsumed under EDB's overall expenditure.
- (b) EDB commissioned the "Consultancy Study on Rental and Related Issues on Kindergarten Premises" in July 2014. It was recommended that, basically, the eligibility criteria for rental subsidy should tie in with those criteria for joining the future KG education policy. Besides, given that the rental charges among different KGs vary considerably, there should be a ceiling on the amount of rental subsidy to be provided for each eligible KG, and the level of rental subsidy should be determined by the KG's fill-up rate, as under the existing Rent Reimbursement Scheme, to ensure prudent use of public funds. The

findings and proposals have been provided for consideration of the Committee. In June 2015, the executive summary of the consultancy report was provided to the Legislative Council Subcommittee to Study the Implementation of Free KG Education under the Panel on Education. The expenditure on this consultancy study is \$998,000.

(Question Serial No. 6191)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (2) Primary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

In the 2016/17 school year, the Bureau will invite about 50 schools to participate in the Territory-wide System Assessment (TSA) with a view to trying out the improved test items for Primary 3. What are the school selection criteria, details and expenditure of the manpower involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 210)

Reply:

The Hong Kong Examinations and Assessment Authority issued letters on 29 February 2016 to invite 50 primary schools to participate in the 2016 Tryout Study (Primary 3) and they are of different types (i.e. about 10 per cent of the primary schools in the territory with each participating as a unit). Schools are invited on the basis of various factors including districts, types of schools (government, aided, Direct Subsidy Scheme) and school size to ensure representativeness, reliability and validity of the tryout study. The invited schools of the tryout study can consider if they would participate with reference to their school-based situations. Other schools are also encouraged to take part on a voluntary basis. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

- End -

CONTROLLING OFFICER'S REPLY**EDB444****(Question Serial No. 6192)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Bureau plans to implement the free kindergarten education policy to replace the Pre-primary Education Voucher Scheme (PEVS) with effect from the 2017/18 school year. In this connection, please provide:

- (a) the number of students expected to be able to benefit from totally free kindergarten education.
- (b) the number of students in non-profit-making kindergartens that still have to pay school fee.
- (c) the estimated funding for the provision of rental assistance to kindergartens.
- (d) the progress and timetable of implementation.
- (e) whether it will consider to include kindergarten premises in land planning in the long run.

Asked by: Hon Kenneth CHAN Ka-lok (Member Question No. 212)

Reply:

(a) to (d)

The free quality kindergarten (KG) education policy will be implemented in the 2017/18 school year and the Education Bureau (EDB) will continue to provide direct fee subsidies to parents of eligible children enrolled in KGs under the Pre-primary Education Voucher Scheme in the 2016/17 school year. For the new policy to be implemented in the 2017/18 school year, EDB is formulating the implementation details in consultation with various stakeholders. Details will be released in the third quarter of 2016. Estimated funding for individual measures such as rental subsidy under the new policy is not yet available at this stage. Similarly, the number of students studying in KGs offering free KG places and the number of students in non-profit-making KGs who need to pay school fee will be affected by various factors like distribution of various modes of services, parental choices on the modes of services and types of KGs, etc.. Relevant information is not available at this stage.

(e)

According to the Hong Kong Planning Standards and Guidelines, the need for setting up KGs is taken into account in housing estates and large-scale private development projects where space is allocated for such uses. The current standard for provision of KG places is 730 half-day (HD) and 250 whole-day (WD) places for every 1 000 children in the age group of three to under six. This planning standard will be reviewed and revised as necessary to 500 WD and 500 HD places as a long-term goal to increase WD places to meet the increasing demand and to support working parents.

With a view to increasing the number of KGs that will not have to charge any school fees to defray rental expenses, a stable supply of Government-owned quality KG premises is crucial. For achieving this and as a long-term strategy, adequate space would be earmarked for KG use in new public housing estates with new demand, and available KG space identified for relocation of existing KGs that require substantial

improvement to their physical accommodation. We will also explore the feasibility of increasing Government-owned KG premises in accordance with the established mechanisms for site search and/or premises allocation as appropriate. The feasibility of co-location of KGs and primary schools will also be explored. As it involves a number of complicated issues touching on design, management, operational matters, etc., we will further examine the feasibility on a case-by-case basis in consultation with relevant bureaux or departments.

Question:

- (a) What were the activity details and expenditures of the implementation of national education by the Education Bureau in the past 3 years?
- (b) What are the contents of plans and estimated expenditure of the implementation of national education by the Education Bureau for the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 214)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Areas/subjects, etc. Apart from offering opportunities for students to join Mainland exchange programmes (MEPs) and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items are absorbed by the recurrent expenditure of the Education Bureau, expenditure in respect of subsidising MEPs for primary and secondary school teachers and students can be separately identified. Expenditure on MEPs in the past three school years (from 2013/14 to 2015/16) and the 2016/17 school year is as follows:

School Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2013/14	37.2	1.3
2014/15 [#]	52.7	1.1

- (d) Will the Education Bureau undertake any review or reform of the Liberal Studies under the New Senior Secondary curriculum in the 2016/17 school year? If yes, what will be the work plans and estimated expenditures? Will any public consultation be conducted on this?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 215)

Reply:

(a) to (d)

The Education Bureau (EDB), Curriculum Development Council, and the Hong Kong Examinations and Assessment Authority (HKEAA) jointly conducted the New Academic Structure Review on the senior secondary curriculum and assessment from 2012 to 2015. The review was completed in the 2014/15 school year, with recommendations made on trimming/streamlining/updating curriculum contents and public assessment including School-based Assessment. The recommendations, including those on Liberal Studies, were reported to the Panel on Education of this Council on 15 July 2015.

Future review of the curriculum and assessment of each subject, including Liberal Studies, will be conducted following the renewal cycle of each subject or curriculum area as appropriate in response to contemporary trends and needs arising from social and economic changes. As a usual practice, EDB and HKEAA will consult different stakeholders when reviewing the curriculum and assessment of senior secondary subjects in future.

Since the review was carried out by EDB in-house, the cost was subsumed under EDB's overall expenditure. A separate breakdown of the expenses incurred is not available.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 216)

Reply:

(a) and (b)

As part of the New Academic Structure Medium-term review, the curriculum review on the subject of Chinese Language was completed in July 2015. Twelve classical set texts have been introduced in the curriculum starting from the 2015/16 school year, leading to Hong Kong Diploma of Secondary Education Examination in 2018. There will be no further curriculum reform on Chinese Language in the 2016/17 school year. As an ongoing practice, the Education Bureau will continue to engage various stakeholders to collect their views and feedback on curriculum and assessment issues. The expenditure required will be absorbed by the recurrent provisions.

Question:

- (a) What are the number of schools offering New Senior Secondary Applied Learning courses, the number of courses offered, the number of student applications by level, the total number of students taking Applied Learning courses and the amount of subsidy provided by the Government in the past 3 years?
- (b) What are the implementation plan of providing New Senior Secondary Applied Learning and the estimated expenditure for the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 217)

Reply:

(a) Each cohort of New Senior Secondary Applied Learning (ApL) courses lasts for 2 years and Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) courses lasts for 3 years. From 2012/13 to 2014/15 school year, 4 cohorts of ApL courses (2011-13, 2012-14, 2013-15 and 2014-16 cohorts) have been offered to students. The number of schools offering ApL courses, the number of courses offered, the number of student applications, the total number of students taking ApL courses and the amount of subsidy provided by the Government are as follows:

Cohort	2011-13	2012-14	2013-15	2014-16
Number of schools offering New Senior Secondary ApL courses	298	318	315	316
Number of courses offered	35	35	37	36
Number of student applications (Note: student can only apply to start at S5, application by level (S6) is thus not applicable.)	10 139	10 254	8 649	8 086
Total number of students taking ApL courses	6 061	5 782	5 047	4 791

Starting from the 2014/15 school year, ApL(C) is first introduced for the 2015-17 cohort. The amount of subsidy (Diversity Learning Grant and Student Grant for ApL(C)) provided by the Government from 2012/13 to 2014/15 school year is as follows:

School Year	2012/13	2013/14	2014/15
Diversity Learning Grant (\$ million)	49	51	50
Student Grant for ApL(C) (\$ million)	NA	NA	2*

* It refers to the Student Grant for the 2 ApL(C) courses offered under 2015-17 cohort to 181 Secondary 4 students from 14 schools in the 2014/15 school year.

(b) The New Senior Secondary ApL has been implemented since the 2010/11 school year. The Education Bureau supports schools through providing implementation handbook and prospectus, arranging briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to have informed choices. An E-system has also been developed to facilitate the application process and implementation in schools. In addition, the Government provides Diversity Learning Grant and Student Grant for ApL(C) to support secondary schools in offering ApL and ApL(C) courses respectively. As stated in the 2016 Policy Address, the Government has accepted all the recommendations of the Task Force on Promotion of Vocational Education and will actively consider how to implement them. To this end, full subsidy will be provided for students to take ApL courses in the 2016/17 school year and beyond. The estimated expenditure of Diversity Learning Grant for the 2016/17 school year is \$65 million and the estimated expenditure of Student Grant for ApL(C) for the 2016/17 school year is \$8 million.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) In the 2015-16 school year, the Education Bureau conducts Quality Review for kindergartens joining the Pre-primary Education Voucher Scheme (PEVS). What are the details and expenditure? How many kindergartens are involved?
- b) In the 2016-17 school year, the Bureau states that it will continue to conduct Quality Review for kindergartens joining the PEVS. What will be the details and estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 238)

Reply:

a) & b)

The existing Quality Assurance Framework for kindergartens (KGs) comprises School Self-evaluation (SSE) and Quality Review (QR). All KGs under the Pre-primary Education Voucher Scheme are required to conduct ongoing SSE for school development and accountability purposes. KGs should prepare development plans and conduct holistic review on their state of performance by making reference to the Performance Indicators (Pre-primary Institutions) issued by the Education Bureau (EDB).

EDB arranges QR to make professional judgement on the overall performance of KGs. Apart from scrutinising the School Reports and stakeholder survey results submitted by KGs, the review team of EDB conducts on-site visits to KGs to validate their findings in SSE. The QR reports will be issued to the KGs and uploaded onto the EDB website, which is linked to the KG Profile, to facilitate parents in making informed choices of kindergarten for their children.

EDB plans to conduct QR for 123 KGs in 2015/16 school year. All the QRs are conducted by EDB staff and the relevant expenditure is subsumed in the overall expenditure of EDB.

Director of Bureau: Secretary for Education

Question:

- (a) For the past 3 years, what are the total number of participants and expenditure on professional training and support programmes to school leaders, middle managers and teachers on implementing the Senior Secondary (SS) Curriculum?
- (b) In 2016-17, what are the work plan and estimated expenditure on the above-mentioned training and support programmes?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 239)

Reply:

(a) & (b)

To support the implementation of the senior secondary (SS) curriculum under the New Academic Structure (NAS) and the Hong Kong Diploma of Secondary Education (HKDSE) Examination (including School-based Assessment), the Education Bureau (EDB) continues to provide training, support as well as resource materials for school leaders, middle managers and teachers. A series of professional development programmes (PDPs) under different themes has been organised every year to suit different needs of school leaders, middle managers and teachers. For 2013-14, the total number of participants in PDPs is about 23 600 and the actual expenditure is about \$4.4 million. For 2014-15, the total number of participants in PDPs is about 18 800 with an actual expenditure of about \$3.3 million. For 2015-16, the total number of participants in PDPs is about 13 300 whilst the actual expenditure is about \$4.4 million. The estimated expenditure on PDPs in 2016-17 is about \$2.9 million. The decrease in estimated expenditure for 2016-17 as compared with the last financial year is attributable to the fact that PDPs were purposefully enhanced in 2015-16 to help teachers implement the recommendations of the NAS Review.

Apart from the scheduled PDPs, EDB continues to provide school-based professional support service to enhance the professional capacity of teachers. Learning and teaching resource materials (e.g. curriculum and assessment guides, supplementary notes, learning and teaching packages) for the SS subjects were developed during the last few years to support school leaders, middle managers and teachers in the implementation of SS curriculum. There is continuous updating of resource materials such as exemplars and resource packages to meet teachers' needs. Since the provision of school-based professional support and resources materials is carried out by EDB and the cost is subsumed under EDB's overall expenditure, a separate breakdown on the staffing and financial implications is not available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) In the past 3 years, what were the details of the work in which the Education Bureau (EDB) worked with the Committee on Professional Development of Teachers and Principals in enhancing the professional development of the teaching profession at different career stages and the expenditure incurred;
- b) For 2016-17, what are the EDB's work plan in respect of the above work and the estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 240)

Reply:

(a) The Committee on Professional Development of Teachers and Principals (COTAP), reconstituted from the then Advisory Committee on Teacher Education and Qualifications (ACTEQ) since 1 June 2013, is tasked with advising the Government on policies and strategies to enhance the competencies and capabilities of the teaching profession at various career stages. Since its setup, COTAP has conducted meetings with stakeholders from various groups, including school councils, heads' and deputy heads' associations, school sponsoring bodies, educational bodies, teachers' association, parents, kindergarten sector and teacher education institutions, to understand better their views on the professional development needs of teachers and school leaders as well as issues of concern. COTAP has then drawn up a number of areas of focus under an overarching project "T-excel@hk" as the first phase of its work and published its first Progress Report in early 2015. Given that EDB has been providing the secretarial support to COTAP, and the related expenditure so far incurred is mainly the preparation work involved for the implementation of the "T-excel@hk", we could not identify the expenditure separately as it has been subsumed under the overall expenditure of EDB.

(b) COTAP will continue to schedule stakeholder group meetings and focus group sessions to solicit the views of the sector in order to further develop, prioritise and implement in phases the various areas of focus under the "T-excel@hk", having regard to feasibility, availability of resources, etc. For example, consultation sessions will be held from end of 2016 to solicit stakeholders' comments on the work on T-standard⁺ which will provide a clear reference for teacher preparation and continuing professional development. Subject to the formulation of the work plan, the estimated expenditure would be available.

Question:

- (a) Regarding the provision of teacher training and development of resource materials by the Education Bureau (EDB) to support schools in the implementation of the senior secondary academic structure in the 2015/16 school year, what are the details and expenditure involved?
- (b) Regarding the provision of teacher training and development of resource materials by EDB to support schools in the continued implementation of the senior secondary academic structure for the 2016/17 school year, what are the work plans and estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 241)

Reply:

(a) & (b)

To support the implementation of the senior secondary (SS) curriculum under the New Academic Structure (NAS) and the Hong Kong Diploma of Secondary Education (HKDSE) Examination (including School-based Assessment), the Education Bureau (EDB) continues to provide training, support as well as resource materials for school leaders, middle managers and teachers. A series of professional development programmes (PDPs) under different themes has been organised every year to suit their different training needs. The programmes aim to enhance their capacity in curriculum leadership, management, whole-school curriculum planning as well as curriculum planning and evaluation at Key Learning Area (KLA) and subject levels. Besides, continual support is provided for teachers on effective learning and teaching strategies, especially those with cross-KLA nature such as catering for learner diversity, enhancing assessment literacy, strengthening reading across the curriculum, promoting information literacy, effective use of e-learning resources as well as STEM education (through Science, Technology and Mathematics Education KLAs). For 2015-16, the actual expenditure on teacher training is about \$4.4 million. The estimated expenditure on teacher training for 2016-17 is about \$2.9 million. The decrease in estimated expenditure for 2016-17 as compared with the last financial year is attributable to the fact that PDPs were purposefully enhanced in 2015-16 to help teachers implement the recommendations of the NAS Review.

Apart from the scheduled PDPs, EDB continues to provide school-based support service to enhance the professional capacity of teachers. Question:

In respect of the kindergartens (KGs) in each District Council district in each of the past 3 school years, (i) the number of enrolment applications received and the total amount of application fees collected by each KG on average, (ii) the name of the KG among them which collected the highest application fee and the amount involved, and (iii) the name of the KG among them which collected the highest total amount of application fees and the amount involved.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 242)

Reply:

According to regulation 61(1) of the Education Regulations (Cap. 279A), schools must first obtain the written approval of the Permanent Secretary for Education before collecting any fees, including entrance examination fee (commonly known as application fee). To streamline schools' administrative procedures, the Education Bureau (EDB) has set a ceiling for application fee of kindergartens (KGs) and given blanket approval for KGs to collect application fee within the approved ceiling, with the actual level determined by individual KGs having regard to their own circumstances. KGs that wish to collect application fee exceeding the approved ceiling are required to seek prior approval from EDB. As student admission is a school-based matter, KGs are not required to provide EDB with information on the number of admission applications received and the total amount of application fee collected. In view of the above, EDB is unable to supply the information.

Subhead (No. & title): (000) Operational Expenses

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the applications received by the Education Bureau for the collection of an application fee or registration fee exceeding the ceiling stipulated by the Bureau in the past three school years, what are the respective numbers of application received, the names of schools, the amounts of application fee or registration fee proposed to be collected, the grounds for making the application, and the application outcome. Please provide the details of each application.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 243)

Reply:

The respective number of applications received and approved by the Education Bureau (EDB) in the past three school years (i.e. 2012/13, 2013/14 and 2014/15) for collection of an application fee or registration fee by kindergartens (KGs) which exceeds the approved ceilings is set out at the Appendix. It is not appropriate to disclose application details of individual KGs (including their names, the proposed amount of application fee or registration fee, as well as grounds and outcome of their applications) as they cover data concerning KGs' operation and internal matters. That said, EDB has included information on the permissible amount of application fee and registration fee of individual KGs in the online version of the Profile of Kindergartens and Kindergarten-cum-Child Care Centres for access by parents and the public.

Number of applications received and approved by EDB for collection of an application fee or registration fee exceeding the approved ceilings in the 2012/13, 2013/14 and 2014/15 school years

(1) Application Fee

School Year	Number of Applications	Number of Applications Approved
2012/13	3	3
2013/14	29	18
2014/15	5	5

(2) Registration Fee

School Year	Number of Applications	Number of Applications Approved
2012/13	1	0
2013/14	5	3
2014/15	12	1

(Question Serial No. 6209)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Will the Government consider comprehensively reviewing the requirement on collection of application fees and registration fees by kindergartens as well as the mechanism for vetting and approval of applications for collection of an application fee or registration fee exceeding the relevant ceiling in 2016-17? If it will, what are the details, latest progress and estimated expenditure of the review? If not, what are the reasons for that?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 245)

Reply:

According to regulation 61(1) of the Education Regulations (Cap. 279A), schools must obtain the written approval of the Permanent Secretary for Education before collecting any fees, including entrance examination fee (commonly known as application fee) and pupil registration fee. To streamline schools' administrative procedures, the Education Bureau (EDB) has set the approved ceilings for application fee and registration fee of kindergartens (KGs) and given blanket approval for KGs to collect the fees within the respective approved ceilings. In early 2014, EDB conducted a review of the approved ceilings of application fee and registration fee and issued a circular in April 2014 to notify KGs of the revised approved ceilings. We have no plan to conduct another review for the moment.

KGs that wish to collect application fee or registration fee at a level exceeding the approved ceilings are required to seek prior approval from EDB with justifications. EDB will consider each application in the light of the specific situation of individual KGs and the justifications they put forward, including the additional expenses incurred for handling applications and admission related matters. The vetting process has been under regular review and will be revised when necessary.

Question:

- (a) Please tabulate the number of non-Chinese speaking (NCS) students who studied in mainstream schools (including kindergartens, primary schools, secondary schools and tertiary institutions) in the past 3 years.
- (b) What were the details of the Education Bureau's support measures for NCS students in the 2015/16 school year and the expenditure and manpower so involved?
- (c) What are the Education Bureau's work programmes on the support measures for NCS students in the 2016/17 school year and the expenditure and manpower so involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 246)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students from the 2013/14 to 2015/16 school years is tabulated at Annex A.
- (b) & (c) The support measures for NCS students in the 2015/16 and 2016/17 school years and the estimated expenditure are tabulated at Annex B.

**Number of non-Chinese speaking (NCS) students
from the 2013/14 to 2015/16 school years**

Level	2013/14 school year	2014/15 school year	2015/16 school year
Pre-primary (K1 to K3)	12 029	11 933	11 982
Primary (Primary 1 – 6)	8 290	8 697	8 958
Secondary (Secondary 1 – 6)	7 576	8 224	8 782

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools. Figures do not include special schools.
5. Admissions to post-secondary programmes in tertiary institutions including certificate/diploma courses, higher diploma, sub-degree and undergraduate degree courses, etc. are offered to eligible applicants, irrespective of their race and language spoken at home. However, statistics with breakdown by local and non-local NCS students are not available.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2015/16 and 2016/17 school years**

Support measures	Estimated expenditure in the 2015/16 school year \$ million	Estimated expenditure in the 2016/17 school year \$ million
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	223.9 Note 1	244.8 Note 1

CONTROLLING OFFICER'S REPLY**EDB459****(Question Serial No. 6211)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please tabulate the number of non-Chinese speaking (NCS) students with special educational needs (SEN) who studied in mainstream schools (including kindergartens, primary schools, secondary schools and tertiary institutions) in the past 3 years.
- (b) What were the details of the Education Bureau's support measures for NCS students with SEN in the 2015/16 school year and the expenditure and manpower so involved?
- (c) What are the Education Bureau's work programmes on the support measures for NCS students with SEN in the 2016/17 school year and the expenditure and manpower so involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 247)

Reply:

(a)

As support services for children with special educational needs (SEN) at pre-primary levels are provided by the Social Welfare Department, EDB does not maintain data on non-Chinese speaking (NCS) students with SEN at kindergarten levels. The number of NCS students with SEN in public sector mainstream primary and secondary schools in the 2013/14, 2014/15 and 2015/16 school years is set out at Appendix 1. We do not maintain such data for tertiary institutions. Thus, we are unable to provide the requested figures for the institutions.

(b) & (c)

The Government is committed to supporting the integration of NCS students (including those with SEN) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese Language. A breakdown of the estimated expenditure of the major support measures for NCS students, which are also applicable to NCS students with SEN, in the 2015/16 and 2016/17 school years is tabulated at Appendix 2.

EDB has also been providing public sector schools with additional resources, professional support and teacher training to help them cater for the students with SEN, including NCS students with SEN. The additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, top-up fund, etc. Schools should deploy school resources holistically and flexibly to render appropriate support

services to students with SEN based on their needs, such as employing additional teachers, teaching assistants or hiring professional services. EDB also arranges teacher professional development and school networking for sharing of good practices, and develops teaching resources for use of teachers and parents. In addition, the professional staff of EDB pays regular visits to schools to render professional advice on their support policies and measures, teaching strategies, resource deployment, etc. Professional support is also provided through assessment and consultation services of educational psychologists, speech therapists and audiologists to help schools cater for students with SEN. All NCS students with SEN benefit from the above support and services. For budgetary purpose, the total estimated expenditure on additional support and services provided for public sector primary and secondary mainstream schools in catering for students with SEN in the 2015/16 and 2016/17 school years is \$1,315 million and \$1,369 million respectively.

As the support services are provided to cater for all the students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

Number of non-Chinese speaking (NCS) students with special educational needs (SEN) in public sector mainstream primary and secondary schools in the 2013/14, 2014/15 and 2015/16 school years

School Year	Number of NCS Students with SEN	
	Primary Schools	Secondary Schools
2013/14	236	101
2014/15	233	116
2015/16	304	158

Notes:

1. Figures above denote the position as at September of the respective school years.
2. Figures cover those students whose home language is known to EDB and is NOT Chinese regardless of their ethnicity.

**Educational support measures for non-Chinese speaking (NCS) students
in the 2015/16 and 2016/17 school years**

Notes:

- These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
- The estimated expenditure of the USP project is \$6.3 million and \$1.8 million for the 2015/16 and 2016/17 school years respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

Director of Bureau: Secretary for Education

Question:

Over the past 3 years, what were the respective numbers of students per class, the unit cost of each subsidised place and the student-to-teacher ratio by year in schools for children with mild, moderate and severe intellectual disabilities?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 248)

Reply:

The average number of students per class, average unit cost per school place and student-to-teacher ratio in schools for children with mild intellectual disability, schools for children with moderate intellectual disability and schools for children with severe intellectual disability in the 2013/14 to 2015/16 school years are set out at the Appendix.

**Average Number of Students per Class, Average Unit Cost per School Place and Student-to-Teacher Ratio
in Schools for Children with Mild Intellectual Disability, Schools for Children with Moderate Intellectual Disability
and Schools for Children with Severe Intellectual Disability in the 2013/14 to 2015/16 School Years**

School Type	2013/14 School Year			2014/15 School Year			2015/16 School Year		
	Average Number of Students per Class	Average Unit Cost per School Place	Student-to-Teacher Ratio	Average Number of Students per Class	Average Unit Cost per School Place	Student-to-Teacher Ratio	Average Number of Students per Class	Average Unit Cost per School Place	Student-to-Teacher Ratio
Mild Intellectual Disability ^{Note}	15.0	\$145,500	6.3 : 1	14.3	\$171,000	5.9 : 1	14.1	\$171,500	5.8 : 1
Moderate Intellectual Disability ^{Note}	9.3	\$218,000	4.1 : 1	9.3	\$239,500	4.1 : 1	9.3	\$253,000	4.0 : 1
Severe Intellectual Disability	7.1	\$281,000	3.9 : 1	6.9	\$313,000	3.8 : 1	6.9	\$329,000	3.8 : 1

Note: The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include 7 schools for children with MiID and children with MoID.

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding Education Bureau's provision of life planning and career guidance services to special schools and schools for children with intellectual disability, what were the details, staff arrangements and expenditures involved in the past 2 years? What are the related work plans and estimated expenditure for the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 249)

Reply:

Starting from the 2014/15 school year, Education Bureau (EDB) has provided public sector schools (including special schools) and Direct Subsidy Scheme Schools operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG) to strengthen life planning education for secondary students. The CLPG per school is benchmarked to the mid-point salary of the Graduate Master pay scale. The expenditure for the provision of the CLPG to special schools for the 2014/15 school year is \$29.6 million while the estimated expenditure for the 2015/16 school year is \$30.8 million. The estimated expenditure for the 2016/17 school year is 30.8 million. The prime aim of providing CLPG is to enhance the capacity of the teaching team involved in providing support in career guidance service and life planning education for students (including students with special educational needs).

From September 2014 to the end of December 2015, EDB has conducted advisory visits to about 30 special schools (about 53% of all special schools in the territory). Based on observations from the school visits, special schools are taking forward life planning education in a more systematic and co-ordinated manner. It is noted that many special schools have had life planning education integrated into school-based curriculum or adapted Applied Learning courses designed for students with mild and upper-end moderate grade intellectual disability. Different strategies and life planning education programmes / activities are planned and school-based targets set, taking into account the developmental needs of the students.

Apart from the provision of the CLPG, EDB has also taken a range of measures to strengthen professional support for schools (including special schools) and teachers in providing life planning and career guidance services for students (including students with special educational needs), such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes, sharing session for professional exchanges among special schools and teachers, engaging business organisations to provide students with career exploration opportunities via the Business School Partnership Programme (BSPP), disseminating updated information on further studies and career opportunities on the webpage, issuing a Guide on Life Planning Education and Career Guidance for Secondary Schools for reference, etc.

In the 2016/17 school year, EDB will continue to enhance the support services provided for schools (including special schools) as detailed above. Besides, EDB will make vigorous effort to promote life

planning education, including forging more business partners to expand the variety and scale of career exploration activities for students, arranging activities for parents to enhance their understanding about the importance of life planning education and nurturing the culture of supporting the young generation in life planning. We will pay advisory visits to all special schools by the 2016/17 school year. Information collected will serve as useful feedback to inform the future planning of life planning education.

Programme: (4) Special Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Has the Education Bureau (EDB) provided any support in early identification of non-Chinese speaking (NCS) students with special educational needs (SEN) in the past 3 years? If yes, what were the support details and expenditure? What are the work plan and estimated expenditure in the same regard in the 2016/17 school year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 250)

Reply:

Non-Chinese speaking (NCS) students are covered by the “Early Identification and Intervention Programme for Primary One Students with Learning Difficulties” implemented in all public sector primary schools. Under the programme, teachers are required to make use of the “Observation Checklist for Teachers” developed by the Education Bureau (EDB) to identify as early as possible primary one students, including NCS students, with learning difficulties and arrange for early intervention. To assist teachers in using the checklist to identify NCS students in need of attention, EDB has provided them with a guideline which sets out the points to note and factors to consider for identifying NCS students with special educational needs (SEN). Learning difficulties encountered by NCS students at lower primary level may be language- and culture-related. Hence, with reference to the Response to Intervention model that has been proven effective overseas, we advise schools to provide appropriate intervention for students first and continually review their learning progress after intervention to identify NCS students with learning difficulties. Students whose difficulties are severe or persistent despite intervention will be referred to specialists for assessment.

As the support services are provided to cater for all students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) What is the Education Bureau's procedure on registration of kindergartens?
- b) In the past 3 years, did the Bureau receive any cases of kindergarten jumping the gun in admitting students before the completion of registration procedures? If yes, what was the case about and how did the Bureau handle it?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 251)

Reply:

(a)

According to the Education Ordinance (Cap. 279), if a proposed school (including kindergarten) is to be operated in premises which are not designed and constructed for the purposes of a school, clearance from the Town Planning Board and the Lands Department should be obtained in respect of the proposed school premises. The applicant for school registration is also required to obtain the safety certificates and notice in respect of the premises issued by the Fire Services Department and the Buildings Department (BD) / Housing Authority. If the proposed school is to be operated in premises designed and constructed as a school, the applicant is required to present the Occupation Permit issued by BD or the Handover Certificate issued by the Education Bureau (EDB). Moreover, the applicant is required to submit other necessary documents and information such as syllabi and timetables for the proposed courses, details of the proposed tuition fees and application form(s) for manager registration. After all the aforesaid documents are received and found in order, EDB will consider issuing a certificate of provisional registration to the school, and the school may then commence operation.

(b)

Upon receipt of an application for registration of a school, EDB will in the first instance issue a reminder letter to the applicant advising him/her that no educational courses shall be conducted in the premises until the school is provisionally registered under the Education Ordinance, Cap. 279. If circumstances warrant, EDB may issue further reminders to the applicant when the application is being processed. In the past three years, there were eight complaint cases alleging kindergartens of commencing operation before their application for registration had been approved. Inspectors of Schools of EDB conducted investigation visits to the concerned premises to collect evidence on whether any provisions of the Education Ordinance had been contravened. One of the cases was found established and the operator was given a written warning.

Director of Bureau: Secretary for Education

Question:

- (a) In respect of “promoting Basic Law education at senior primary and junior secondary levels”, what were the details, manpower arrangements and expenditures of the work undertaken by the Education Bureau (EDB) in the past 3 years?
- (b) What are EDB’s work plans and estimated expenditures for the 2016/17 school year in this aspect?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 252)

Reply:

- (a) Pursuant to the 2010-11 Policy Address, the Education Bureau (EDB) started developing learning packages to enhance students’ understanding of the Basic Law from November 2010. In the past 3 years, EDB continuously developed learning and teaching resources on the Basic Law education. To keep pace with the development of e-learning, an e-book version of the learning packages for junior secondary has been developed in February 2014. A Pack on “Effective Use of ‘Let’s Learn the Basic Law’ Learning Package”, which is a collection of schools’ good practices, was developed and distributed to all primary schools in 2015. EDB developed the “Basic Law Audio-visual Learning and Teaching Package” for junior secondary students in April 2015 and we are currently developing the “Basic Law Audio-visual Learning and Teaching Package (Senior Primary)” for senior primary students to deepen their knowledge of the Basic Law. Apart from the above, EDB organised a Basic Law Inter-school Competition in May 2015 to arouse students’ interest in studying the Basic Law.

To enhance teachers’ understanding of the concepts and essence of the Basic Law as well as strategies for using the learning packages and web-based resources in their school-based learning and teaching practices, EDB has organised, from time to time, professional development programmes during the past five years.

Expenditure for the related curriculum work and support measures, which includes research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is absorbed by the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. The expenditure of EDB for developing learning and teaching resources on Basic Law education from 2013-14 to 2015-16, for which there is no breakdown for individual items, is as follows:

2013-14 [@]	2014-15 ^{@#}	2015-16 ^{@*}
\$0.65 million	\$2.07 million	\$3.65 million

- @ Manpower resources in the provision are absorbed
by the recurrent expenditure of EDB
- # Actual figures revised from last year's estimates
- * Provisional figures

- (b) Apart from developing the learning and teaching resources and assessment banks, and conducting professional development programmes for primary and secondary schools, EDB will organise the 2nd Basic Law Inter-school Competition for both primary and secondary schools students in July 2016. The estimated expenditure for developing Basic Law-related learning and teaching resources in 2016-17 is \$1.84 million.

Question:

- (a) What were the details, manpower arrangements and expenditure of the work undertaken by the Education Bureau (EDB) in respect of promotion e-learning and e-textbooks in primary and secondary schools in the past 3 years?
- (b) Has EDB assessed the effectiveness of the aforesaid promotion of e-learning and e-textbooks? If yes, what is the effectiveness? If no, what are the reasons?
- (c) How many schools currently use e-textbooks?
- (d) What are the details and estimated expenditure of the work to be undertaken by EDB for the 2016/17 school year in this aspect?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 253)

Reply:

- (a) We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. The amounts of CITG for the past three financial years were \$328 million for 2013-14, \$341 million for 2014-15 and \$353 million for 2015-16.

Apart from recurrent grant, we have also launched the following e-learning initiatives over the past three financial years in the promotion of e-learning –

- (i) two phases of the e-Textbook Market Development Scheme (EMADS) launched in 2012 and in 2013 respectively, with a non-recurrent funding of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. About \$30.6 million seeding grant has been disbursed to the NPM developers for both phases since 2012-13. In the past three years, \$5.6 million was disbursed in 2013-14, \$20.2 million in 2014-15 and \$3.8 million in 2015-16. The remaining seeding grant of around \$8.9 million will be disbursed in the next two years;

- (ii) the “Support Scheme for e-Learning in Schools” in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools’ Learning Management System and various e-textbooks/e-learning resources platforms. The Scheme is now completed; and
- (iii) the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; another one-off grant of \$10 million was disbursed to Hong Kong Education City Limited for acquisition of e-learning resources. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

Other manpower and administrative costs for promoting e-learning and implementing EMADS have been absorbed within the existing resources of the Education Bureau.

- (b) We conducted a research study on the Pilot Scheme on e-learning in Schools implemented from 2010/11 to 2013/14 school years to examine the benefits of e-learning. The findings are positive in that, among others, e-learning has facilitated the learning and teaching of students and the adoption of e-learning pedagogies by teachers. The outcome shows that we are promoting IT in education in the right direction and it is useful for mapping out the proposed measures under the ITE4. Besides, ongoing researches and evaluation studies will be conducted to gauge the progress and effectiveness of various e-learning measures. These would include school surveys, case study research, and other methodologies. In addition, an evaluation is underway to assess the effectiveness of EMADS, including other related areas such as the use of e-textbooks in schools and the impact on classroom learning and teaching in the context of the promotion of e-learning.
- (c) For the 2015/16 school year, 55 primary schools and 85 secondary schools, accounting for 10.5% of primary schools and 17.7% of secondary schools respectively, have chosen to use the e-textbooks developed under EMADS via different approaches. It is expected that with the increase in teachers' knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum.
- (d) For 2016-17, the estimated expenditure for implementation of the ITE4 includes \$30 million one-off grant for the second batch of some 300 schools under the WiFi-900 project for acquisition of mobile computing devices, and an extra recurrent grant of \$70,000 on average per school for these 300 schools for subscription of WiFi services. As for EMADS, it is estimated that around \$7.8 million seeding grant will be disbursed to the NPM developers for both Phase One and Phase Two of EMADS in 2016-17.

- End -

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- a) In the plan of the Education Bureau to launch the Fourth Strategy on Information Technology in Education, one of the major initiatives is the phased provision of wireless network for all public sector schools and local schools under the Direct Subsidy Scheme, how is the current progress? How many schools have wireless network installed? What is the expenditure involved?
- b) Did the Education Bureau select the same network provider to provide wireless network for all public sector schools and local schools under the Direct Subsidy Scheme? If yes, what is the name of the network provider? If no, please list the names of all selected network providers and the numbers of schools each of them serves.
- c) In respect of the provision of wireless network for all public sector schools and local schools under the Direct Subsidy Scheme by the Education Bureau, how does the Bureau choose network providers? What is the procedure? Will a tendering procedure be used?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 254)

Reply:

(a)

We launched the "Support Scheme for e-Learning in Schools" or WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices.

Furthermore, we launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools under the WiFi-900 project in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

According to information collected from schools, as at February 2016, some 460 public sector schools have completed the enhancement of WiFi infrastructure under the WiFi-100 and the first phase of WiFi-900 projects.

(b) and (c)

The procurement exercises for selection of service providers for enhancement of WiFi infrastructure were conducted by individual schools following prescribed procurement procedures. According to the information we gathered from schools of the WiFi-100 and WiFi-900 projects, the following 16 service providers set out in alphabetical order had been awarded with contracts for enhancement of WiFi infrastructure. The list may not be exhaustive as some relevant schools have not provided the names of their WiFi services providers to us. As regards the numbers of contracts awarded to individual services providers, they are market sensitive data which we are not in an appropriate position to disclose.

Question:

The Education Bureau announced that it will commission non-governmental organisations, on a pilot basis, to provide career exploration opportunities and relevant experiences for students with specific learning difficulties and non-Chinese speaking students respectively. What are the details, the estimated number of students who will be benefited from the measure and the estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 255)

Reply:

To enhance the readiness of students with specific learning difficulties (SpLD) and non-Chinese speaking (NCS) students for work and further studies, the Education Bureau (EDB) has commissioned non-governmental organisations, on a pilot basis, to organise work experience programmes for these students over a three-year period as from the 2015/16 school year. The pilot projects aim to trial-run programmes that would enable these students to understand their personal strengths, provide them with the knowledge about different jobs and prepare them to enter the career world through authentic career-related experience. The programmes are specially designed to assist students with SpLD to understand their strengths and overcome their difficulties through mentorship and job-shadowing, and NCS students to prepare for the cultural adaption and integration at work. Practical guidelines on preparing these students for transition to work are being developed for parents, teachers and mentors. It is estimated that a total number of 2 250 students (1 800 NCS and 450 SpLD students) will participate in the two projects in these three years. The expenditure for the three-year pilot projects is estimated to be about \$16.6 million.

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Regarding the Education Bureau's implementation of the Professional Enhancement Grant Scheme (Scheme) with the Language Fund to enhance Chinese Language teachers' professional capability in teaching Chinese as a second language, what are the details of the Scheme? Please also provide the number of teachers applying grants under the Scheme, the number of applications approved, the average amount of approved grant for each teacher and the expenditure involved.
- (b) Will the Education Bureau continue to implement the Scheme in 2016-17? If yes, what are the estimated expenditure and estimated number of beneficiaries? If no, what are the reasons?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 256)

Reply:

With a view to encouraging serving Chinese Language teachers at primary and secondary levels to take courses that aim to enhance their pedagogical knowledge and skills in teaching Chinese to non-Chinese speaking (NCS) students, the Education Bureau (EDB) launches a Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, starting from the 2014/15 school year on a pilot basis for 3 years up to the 2016/17 school year. Of the 57 applications received so far, 55 have been approved for earmarking of grant under the Scheme. The provision of grant comprises two tiers, including a basic subsidy and an extra subsidy. A basic level of subsidy will be offered at 30% of the tuition fee of a programme of study recognised under the Scheme, subject to maximum of \$30,000 per teacher, upon successful completion of programme of study. There is no undertaking requirement. In order to encourage more Chinese Language teachers currently teaching Chinese to NCS students to apply for the grant and continue to teach in schools offering local school curriculum upon successful completion of programme of study, an extra 30% of the tuition fee, subject to an additional maximum of \$30,000 per teacher, will be offered to those teachers who continue to teach NCS students Chinese in schools offering local school curriculum for a total of three years within five years upon successful completion of programme of study. An estimated expenditure of \$0.78 million will be incurred for the reimbursement of grant to 28 teachers who have been approved for earmarking of the grant and will complete the recognised programmes under the Scheme within 2016-17.

Reply:

The Education Bureau continues to provide more Mainland exchange opportunities for primary and secondary students mainly through the “Mainland Exchange Programme for Junior Secondary and Upper Primary Students” (「同根同心」—— 香港初中及高小學生內地交流計劃), the “Mainland Exchange Programme for Senior Secondary School Students” (「同行萬里」高中學生內地交流計劃), the “Junior Secondary and Upper Primary School Students Exchange Programme Subsidy Scheme: Understanding Our Motherland” (初中及高小學生交流活動資助計劃——「赤子情中國心」), the “Senior Secondary School Students Mainland Exchange Programme Subvention Scheme” (高中學生內地交流活動資助計劃), the “Mainland Exchange Programme for Student Leaders” (領袖生內地交流計劃) and some thematic Mainland exchange programmes.

The number of places to be offered for secondary and primary school students to join Mainland exchange programmes in the 2015/16 and 2016/17 school years and the expenditure involved are shown below:

School Year	Number of students (rounded down to the nearest hundred)	Expenditure (\$million)
2015/16+	65 600	70.5
2016/17++	93 000	101.9

Subhead (No. & title): (000) Operational Expenses
Programme: (5) Other Educational Services and Subsidies
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

(a) What are the details and expenditures of the work undertaken by the Education Bureau to support the Committee on Home-School Co-operation in 2015-16?

(b) What are the Bureau's specific work plans and estimated expenditures for 2016-17 in this aspect?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 258)

Reply:

(a) The Education Bureau (EDB) is committed to promoting home-school co-operation. The Committee on Home-School Co-operation (CHSC) has been supported by EDB in organising seminars and annual symposium for parents, producing radio programmes, maintaining website update, organising publicity activities, publishing the Primary and Secondary School Profiles for parents' reference, and providing grants to Parent-Teacher Associations (PTAs) in schools and District Federations of PTAs (FPTAs) for organising home-school co-operation programmes and activities. The expenditure involved in the 2015-16 financial year is about \$30.8 million.

(b) In the 2016-17 financial year, the estimated expenditure involved is about \$31.6 million. The existing efforts for promoting home-school co-operation will continue. With a view to deepening home-school co-operation, CHSC will organise more publicity programmes to increase parents' awareness of home-school co-operation and enhance parents' involvement in PTAs.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) In 2015-16, what were the work and expenditure for the Pilot Training and Support Scheme? What was the number of young people benefited? For 2016-17, what are the work and estimated expenditure for the Scheme? What is the estimated number of young people to be benefited?
- b) Will the Bureau conduct review on the Pilot Training and Support Scheme? If yes, what are the details and estimated expenditure? If no, what are the reasons?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 259)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit 2 000 students with an approved commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education and would actively consider how to implement them. Among others, the Task Force recommended extending the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general is well received by the participating employers and students. Therefore, the Government plans to extend the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. With this extension, the total commitment of the Pilot Scheme will be \$288 million. The implementation details such as the guaranteed level of salary and allowance offered by the Government and industries covered will remain the same.

The commitment of the Pilot Scheme only covers the allowance provided by the Government to students and VTC will provide administrative support using existing manpower resources. VTC will conduct a tracking study on the employment status of graduates under the Pilot Scheme including questionnaire surveys to collect information about their jobs, remunerations, changes of jobs or trades, etc. In the 2014-15 and 2015-16 financial years, the expenditure of the Pilot Scheme is about \$17 million in total. As at end February 2016, about 900 students were participating under the Pilot Scheme and it is estimated that some 1 200 students will join the Pilot Scheme in the 2016/17 academic year.

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) In 2015-16, what did the Education Bureau (EDB) do in promoting the upholding of the quality of vocational and professional education and training (VPET)? What was the expenditure involved?
- b) For 2016-17, what are the EDB's work plan in respect of the above work and the estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 260)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at **Annex**. Among others, the Task Force recommended to rebrand VET to "vocational and professional education and training" (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations and would actively consider how to implement them. The Education Bureau has been following up on the implementation of the recommendations and the major progress so far is as follows

- (a) producing and launching three Announcement in Public Interests (APIs) in the first quarter of 2016 to promote the professional image of VPET;
- (b) earmarking a site in the urban district to develop a Vocational Training Council (VTC) campus with adequate capacity and state-of-the-art facilities, and launching a new round of Land Grant Scheme in February 2016 for post-secondary education institutions offering self-financing programmes at sub-degree level or above (which include relevant VPET providers) for reprovisioning purpose with a view to providing conducive learning environment for students;
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme (Pilot Scheme) for two more cohorts of 2 000 students to be admitted in the 2016/17 and 2017/18 academic years (the Pilot Scheme, with an approved commitment of \$144 million, has been implemented in VTC since the 2014/15 academic year which targets to benefit 2 000 students. Under the Pilot Scheme, apprenticeship training for

targeted industries is provided to students alongside a guaranteed level of salary and incentive allowance);

- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) reviewing the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) in order to consider whether to extend the Scheme (SSSDP, with a total commitment of \$960 million, has been launched since the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments. SSSDP is implemented on a pilot basis for three cohorts and a review is underway.);
- (h) enhancing the promotion of the Qualifications Framework (QF) with the QF Fund;
- (i) conducting a benchmark perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) writing to post-secondary education institutions, VPET providers as well as major chambers of commerce to appeal for their support of the relevant recommendations made by the Task Force.

Some of the recommendations are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to implement other recommendations so far is some \$160 million.

The financial provision of Programme (6) Vocational and Professional Education (or Vocational Education previously) in 2015-16 and 2016-17 is as follows –

2015-16 (Revised estimate) (\$ million)	2016-17 (Estimate) (\$ million)
2,302.8	2,319.1

Apart from the above, the financial provision of \$960 million for implementing SSSDP for three cohorts of students admitted from the 2015/16 to 2017/18 academic years is included under Programme (7) Policy and Support instead. In order to further encourage continuing education, the Financial Secretary announced in the 2016-17 Budget Speech that the Government would implement a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes offered by VTC, covering programmes in the disciplines of construction, engineering and technology, of which related industries are highly specialised and facing keen manpower demand. Subject to the approval by the Finance Committee of the Legislative Council within the 2015-16 legislative year, the pilot scheme will be launched starting from the 2016/17 academic year. It will incur an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme. It is estimated that the pilot scheme will benefit around 5 600 students in total for three cohorts.

**List of 27 Recommendations Made by
the Task Force on Promotion of Vocational Education**

Strategy 1: Rebranding Vocational Education and Training (VET)

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

Strategy 2: Strengthening Promotion

(a) Promotion of Professional Image of VPET

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

(b) Provision of More Information about VPET and Related Career

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

(f) Provision of Financial Support by the Government

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

Strategy 3: Sustaining Efforts

(a) Influence by the Government

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

(b) Promotion of Qualifications Framework

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

(c) Tracking Surveys on Attitude Change

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

CONTROLLING OFFICER'S REPLY**EDB473****(Question Serial No. 6225)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) What were the number of students from various post-secondary institutions who undertook internships in Hong Kong, the Mainland and the overseas in the past 5 years and the expenditure involved for each year and each institution?
- b) What are the estimated expenditure in this regard and the estimated number of students who will benefit in the 2016/17 academic year?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 261)

Reply:

Internship helps enhance the employability of students by providing them with better understanding of, and seamless transition to, the workplace. The number of students studying full-time publicly-funded post-secondary programmes who undertook internships in Hong Kong, the Mainland and other destinations for the 2011/12 to 2015/16 academic years is at Annex. The estimated number of students who will undertake internship in the 2016/17 academic year is not available.

The University Grants Committee (UGC) and the Administration have all along been supportive of institutions' efforts to provide exchange and internship opportunities to students. In 2012, we launched the \$2.5 billion Sixth Matching Grant Scheme (MGS) and encouraged institutions to make use of the funds available from the MGS for, inter alia, exchange and internship programmes. The UGC also provided an additional one-off \$50 million to the eight UGC-funded institutions to enhance exchange opportunities, including internship opportunities, for local students. We have also launched a five-year Pilot Mainland Experience Scheme in the 2011/12 academic year with a total commitment of \$100 million to subsidise on a matching basis post-secondary students to participate in short-term internship or learning programmes in the Mainland. In 2012, an injection of \$1 billion was made each into the Hong Kong SAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund (SPEF) to establish more scholarships or awards to benefit a wider range of students. A new award, called Reaching Out Award, was set up under the two funds to support meritorious students studying in both publicly-funded and self-financing institutions to participate in, inter alia, learning, internship or service programmes. Starting from the 2014/15 academic year, a recurrent funding of about \$18 million has been allocated to the Vocational Training Council to provide industrial attachment opportunities for about 9 000 students every year. Besides, a new category was launched under the Quality Enhancement Support Scheme of SPEF in January 2016 for a pilot period of two years to provide funding support to industrial attachment projects that aim to increase students' employability by sourcing more internship opportunities for post-secondary students or enhancing relevant institutional support for students.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

- a) The Government launched a new scholarship scheme in the 2014/15 academic year to support up to 100 outstanding students each cohort to pursue studies in renowned universities outside Hong Kong. What are the details, progress, schedule for reviewing and estimated expenditure of the scheme?
- b) Regarding the above scheme, please provide the number of awardees for each year and the renowned universities outside Hong Kong at which they are pursuing studies funded by the scholarship starting from the 2014/15 academic year.

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 262)

Reply:

The Hong Kong Scholarship for Excellence Scheme (HKSES), launched on 25 November 2014, aims to support local students to pursue studies in world renowned universities outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy. The scheme also seeks to support those students who have excellent academic achievement but lack the financial means to study in top-notch universities outside Hong Kong. With a funding commitment of about \$348 million approved by the Legislative Council in July 2014, the HKSES will benefit three cohorts of students, with initially up to 100 students per cohort, starting from the 2015/16 academic year, and be subject to a review of the effectiveness of the scheme afterwards.

Selection of awardees under the HKSES is merit-based, targeting the best and most outstanding Hong Kong students who are admitted to world renowned universities or programmes. All awardees will receive a non-means-tested scholarship to cover their tuition fees, subject to a ceiling of HK\$250,000 per student per annum, whichever is lower. Financially needy students may also apply for the means-tested bursary, subject to a ceiling of HK\$200,000 per student per annum. Awardees would be required to complete the specific study programme and undertake to return to Hong Kong upon graduation to work for at least two years or a period equivalent to the duration of receiving the scholarship, whichever is longer.

The selection process of the first cohort (i.e. 2015/16 academic year) of applications received under the HKSES has been completed. We have awarded scholarship to a total of 92 students, of whom 62 are going to pursue undergraduate study and 30 postgraduate study in world renowned universities in the UK, the US, Australia and Canada. A list of the awardees and their respective universities and study programmes is available at the HKSES website (www.edb.gov.hk/hkses).

By the closing of the application period of the second cohort (i.e. 2016/17 academic year) of applications, 658 applications were received. Following the success of its first year of implementation, the HKSES will adopt broadly the same criteria and procedures in selecting the second cohort of awardees. Selection will be based on academic achievements and other attributes such as leadership qualities and potential, contribution and commitment to the society, etc. A three-stage selection process – preliminary screening (from January to February 2016), shortlisting (from February to March 2016) and interview (from April onwards), will continue to be adopted so as to facilitate an objective and rigorous selection. Shortlisting of the applications is now underway. Results will be announced in August 2016.

Director of Bureau: Secretary for Education

Question:

With regard to supporting schools to cater for students with special educational needs, will the Administration advise of the following:

- a. Whether there were earmarked expenditures and manpower in the past 3 years and in the 2016-17 Estimates for supporting schools to cater for students with learning difficulties? If yes, what are the respective amounts? If no, what are the details?
- b. What were the numbers of applications for funding in the past 3 years? For schools which were granted with funding, how did they use such funding? Please list the items on which such funding was used by schools.
- c. Are there any measures to monitor the use of funding by schools? If yes, what are the measures? What are the details on the manpower involved?
- d. Are there any measures to assess the effectiveness of the use of funding by schools? If yes, what are the assessment measures and assessment results?

Asked by: Dr Hon KWOK Ka-ki (Member Question No. 263)

Reply:

(a) to (d)

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools, including the Learning Support Grant (LSG). The amount of the LSG is calculated on the basis of the number of students with SEN and the tier of support the students require. There is no need for schools to make applications for LSG. To further enhance the support for students with SEN in mainstream schools, EDB has increased the grant rates of the LSG by 30% in the 2014/15 school year. The grant rates and its ceiling have been adjusted annually according to the change in the Composite Consumer Price Index starting from the 2015/16 school year. In the 2015/16 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,403 and \$26,806 respectively and the basic provision per school per annum for the first one to six students requiring tier-3 support has also been raised to \$160,836. The ceiling of LSG is \$1,546,500 per school per annum. Other additional resources include Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, additional teachers to cater for low academic achievers, etc. Schools are

required to deploy their resources holistically and flexibly to provide appropriate support services for students with SEN based on their needs, such as employing additional teachers, teaching assistants or hiring professional services (such as speech therapy services), etc. Since the context of individual schools differs, and school-based support services vary according to the genuine needs of their students with SEN, the use of grant by each public sector school on hiring different types of staff or professional services differs.

Apart from the additional resources mentioned above, EDB also provides schools with professional support and teacher training to help them cater for their students with SEN. The total expenditure for supporting public sector mainstream primary and secondary schools in catering for students with SEN for the 2013/14 and 2014/15 school years was \$1,075 million and \$1,222 million respectively, whereas the estimated expenditure for the 2015/16 and 2016/17 school years is \$1,315 million and \$1,369 million respectively.

When using Government subventions for employing staff and purchases, including hiring of services, all public sector schools are required to adopt a sound control system, maintain proper records and conduct periodic inspections. Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation each year, similar to other school policies and measures. EDB also requires schools to submit a self-evaluation report on the implementation of the Whole School Approach to Integrated Education at the end of each school year. To further enhance transparency, schools are required to set out how resources are deployed to provide support services for students with SEN and upload such information into their school websites. Besides, EDB's professional staff conduct regular school visits and organise training and sharing sessions for schools to ensure proper deployment of resources for supporting students with SEN. In short, the effective use of resources by schools to support students with SEN is under on-going review under an established accountability and monitoring mechanism.

Question:

Will the Administration please inform us of the numbers of students with various types of learning difficulties in the past 3 years? Please give a breakdown of the numbers of students by their age groups and types of learning difficulties as well as the percentage share of such figures in the population of the respective age groups.

Asked by: Dr Hon KWOK Ka-ki (Member Question No. 264)

Reply:

The Education Bureau maintains data of students with special educational needs (SEN) by grade levels and their SEN types. We do not keep the student data by age groups. The number of students with SEN in public sector mainstream schools by grade levels and by SEN types from the 2012/13 to 2014/15 school years is tabulated at the Appendix. We are unable to provide the percentage share of students with SEN in the population of the respective age groups.

**Numbers of students with SEN in public sector mainstream schools
by grade levels by SEN types from the 2012/13 to 2014/15 school years ^(Note)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

With regard to teacher training, will the Administration please advise on:

- (a) the respective numbers of primary and secondary school teachers who had completed the basic course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?
- (b) the respective numbers of primary and secondary school teachers who had completed the advanced course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?
- (c) the respective numbers of primary and secondary school teachers who had completed the thematic course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?

Asked by: Dr Hon KWOK Ka-ki (Member Question No. 266)

Reply:

(a) to (c)

The Education Bureau (EDB) is committed to enhancing the professional capacity of teachers in catering for students with special educational needs (SEN). We launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at basic, advanced and thematic levels (BAT Courses) are conducted for serving teachers. To further enhance the capacity of mainstream school teachers in catering for students with SEN, EDB has launched a new round of BAT Courses starting from the 2012/13 school year.

The number of public sector mainstream school teachers having completed the BAT Courses from 2012/13 to 2014/15 is as follows:

Course	2012/13		2013/14		2014/15	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	120	339	215	356	215	295
Advanced	89	152	92	141	74	86
Thematic	144	222	200	281	152	316

As the same teacher may attend one or more of the BAT Courses, providing the percentage share of teachers having attended the basic, advanced and thematic courses in the total numbers of primary and secondary teachers is considered inappropriate and misleading.

Question:

Will the government inform this Council of:

- (1) The number of non-Chinese speaking students currently enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
- (2) The number of secondary schools with students currently enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
- (3) The amount of subsidies the government has granted for students to be enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
- (4) Whether the government has allocated any funding to the two course providers of the Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts apart from the subsidies of the course fees for the enrolled students (e.g. funding for developing the curriculum); and
- (5) Which level in the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") a non-Chinese speaking student are expected to have reached before taking each of the two Applied Learning Chinese (for non-Chinese speaking students) courses and which level in the Learning Framework a student is expected to reach after completing each of the two Applied Learning Chinese (for non-Chinese speaking students) courses.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 414)

Reply:

- (1) & (2) Starting from the 2014/15 school year, Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) was first introduced for the 2015-17 cohort. The enrolment figures are as follows:

	Number of students enrolled	Number of schools with students enrolled
ApL(C) - Chinese for the Service Industry	125	7
ApL(C) - Practical Chinese in Hospitality	56	7
Total	181	14

- (3) Starting from the 2014/15 school year, ApL(C) was first introduced for the 2015-17 cohort. The Government provides Student Grant for ApL(C) to fully subsidise schools for offering ApL(C) to students. For the 2015-17 cohort, the Student Grant for ApL(C) in the 2014/15 school year is as follows:

	Student Grant for ApL(C) (\$ million)*
ApL(C) - Chinese for the Service Industry	1.64
ApL(C) - Practical Chinese in Hospitality	0.61
Total	2.25

(* rounded to two decimal places)

(4) Apart from the subsidies of the course fees for the enrolled students, the Government does not allocate any funding to course providers of ApL(C).

(5) Non-Chinese speaking students (NCS) who aspire to study ApL(C) should have fundamental language competency to enable them to learn Chinese language through different modes of activities in a simulated applied learning context. At the point of entry, they are expected to have achieved most of the learning outcome of the “Learning Framework” at level 4 or above. Upon completion of courses, NCS students are expected to have achieved the relevant learning outcome of the “Learning Framework” at level 6 or above.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What were the situations and numbers of students with special educational needs who had used the following support services including physiotherapy, occupational therapy, speech therapy, braille books, audiobooks and other assistive devices (please specify types of devices), sign language interpretation service in the special education system and integrated education system respectively for the past 5 years?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 526)

Reply:

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

On top of regular teaching provisions, special schools are provided with non-teaching staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braillists according to the specific needs of their students. All students in the special schools could benefit from the above specialist services in accordance with their individual needs.

To help mainstream schools cater for their students with SEN, EDB has been providing them with additional resources on top of the regular subvention, including the Learning Support Grant, Enhanced Speech Therapy Grant, Top-up Fund. The mainstream schools could deploy these resources to procure assistive devices or therapeutic services such as physiotherapy, occupational therapy, speech therapy etc. to cater for the needs of students. As the context of individual schools differs and school-based support services rendered to students with SEN vary, we do not have detailed statistics about the assistive device and services provided by schools and their utilisation rate.

Question:

1. Please provide figures of suicide cases among students in primary and secondary schools over the past 5 years.
2. What are the government policies to prevent suicide cases among students?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 545)

Reply:

1. Education Bureau (EDB) has been assisting the Labour and Welfare Bureau to collect information about suspected fatal suicidal cases in primary and secondary schools. The number of related cases is pending confirmation after the legal proceedings of the Coroner's Court.
2. Education Bureau (EDB) has a mechanism in place to timely identify and support students with behavioural and/or emotional needs, including students at risk of suicidal behaviour. We encourage schools to adopt the Three-tier Support Model to provide different levels of identification and support by teachers, guidance personnel and professional staff respectively. If further specialized support is required, there is a referral mechanism so that further evaluation and treatment by medical professionals such as clinical psychologist and psychiatrist can be arranged. We continuously develop and update resources and guidelines for use by schools for early identification and intervention of students at risk. We will also step up the professional support and training for school personnel in order to strengthen their professional capability to identify and support students with behavioral and/or emotional needs and/or suicidal risk.

EDB has always attached great importance to enhancing students' competency to cope with adversity, and is committed to nurturing students' positive attitude towards life. Since 2001, moral and civic education aiming to cultivate students' positive values and attitudes has been accorded as one of the Four Key Tasks for the curriculum reform in primary and secondary schools. Among those positive values, "Perseverance" is one of the priority values for promotion to help students courageously face with the challenges and trials in different stages of life. Through a holistic school curriculum comprising "knowledge", "skills" and "values and attitudes" for students' whole person development, we nurture in students a positive attitude towards life, and help them improve their mental quality, and develop healthy lifestyle. Different Key Learning Areas and subjects have covered relevant contents of healthy lifestyle and life education.

In parallel with the curriculum, EDB has actively organized diversified guidance programmes for primary and secondary school students featuring adventure-based, teamwork and problem-solving training, etc. to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. In recent years, EDB has also introduced a number of guidance projects based on positive psychology concepts to help students develop a positive self-image and learn how to respect and cherish life. Moreover, we have been promoting a caring and harmonious school culture, strengthening the relationship between teachers and students and enhancing peer support so that students can enjoy their learning and school life.

In response to recent student suicide incidents, EDB will set up a committee to study the problem of the issue and recommend preventive measures. The committee will include school representatives, professionals, parents, and government officials, and submit a report to the Secretary for Education in six months. If needed, the Committee will submit an interim report in three months.

Besides, in the coming months, EDB will organize teacher seminars and parent talk to enhance their identification of the students with emotional difficulties and/or suicidal intent as well as knowledge on help-seeking resources. EDB will also form a specialized team to work in coordination with the school-based educational psychology service in order to provide additional support to individual schools on need basis.

Question:

1. Regarding the support for students with special educational needs (SEN), what are the criteria for allocation according to disability situation under the current 3-Tier Intervention Model?
2. How to determine students of which tier of support or level of disabilities can participate in the individual education plan (IEP)?
3. What is the number of students participating in the IEP currently and what is their percentage share in the total number of students with SEN?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 23)

Reply:

(1) - (3)

The Education Bureau (EDB) encourages schools to adopt the Whole School Approach to support the students with special educational needs (SEN) through a 3-Tier Intervention Model, taking into account their support needs. Under the Model, students with severe learning difficulties, regardless of their SEN type, are provided with tier-3 support and schools are required to draw up an individual education plan (IEP) for each of these students. An IEP is formulated after discussion among school personnel, related professionals like the educational psychologist and the parents. During the implementation of the IEP, teachers make observations, communicate with parents and collect data on the progress of the student on an ongoing basis to evaluate the effectiveness of the instructional strategies and classroom practices so that adjustment to the support can be arranged. Schools also review IEP regularly following the schedule set therein with involvement of the parents as appropriate.

In gist, whether a student with SEN requires an IEP depends solely on his support needs and it is also a school-based professional judgement and decision. As for the other students with SEN, schools are required to keep a Student Support Register to record the support and adaptations offered as well as their performance and progress for regular review and adjustment of the level of support required as appropriate. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Hence, we are unable to provide the number of students with IEP and their percentage share in the total number of students with SEN.

Question:

With the increasing emphasis on the importance of sign language which also signifies the emphasis on and implementation of the Convention on the Rights of Persons with Disabilities by the international community, will the Government advise on whether it will introduce a post-secondary course on sign language interpretation and put it under post-secondary education and the Qualifications Framework to attract more talents to join the profession?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 89)

Reply:

It is the Government's established policy objective to create a barrier-free environment and promote barrier-free communication, thereby facilitating full integration of persons with disabilities into the community. To further promote the use of sign language and social inclusion, the Rehabilitation Advisory Committee (RAC) formed a Working Group on Promoting Sign Language in 2010 to advise the Government on ways to promote sign language. The Working Group comprises members of RAC, persons with hearing impairment, sign language interpreters and representatives from the non-Governmental organisations of the rehabilitation sector and the education sector. Representatives of relevant Government bureaux and departments also attend meetings for discussion as and when required. Apart from launching a series of public education initiatives in promoting the use of sign language, the Working Group is pursuing, in consultation with stakeholders, the issue of enhancing professional training and publishing the information of sign language interpreters to facilitate wider adoption of interpretation service. The Government has included sign language into the domain of the Continuing Education Fund (CEF) and accepts applications from course providers for the registration of sign language courses as CEF courses.

Post-secondary education institutions in Hong Kong enjoy institutional autonomy in planning for their programmes taking into account, among other things, the community needs. Sign language courses provided by these institutions may be recognised under the Qualifications Framework and registered in the Qualifications Register (QR) if they are quality assured by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or the self-accrediting institutions. At present, a number of sign language-related courses are registered in the QR.

(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the information on primary and secondary students having transferred to other schools in the past 5 years.

	No. of transferred students with SEN	Total no. of students with SEN	No. of transferred students without SEN	Total no. of students without SEN
P1 to P3				
P4 to P6				
S1 to S3				
S4 to S6				

2. Please list the reasons for students transferring to other schools by category.

3. What are the Education Bureau's policies on handling students transferring to other schools and the support service for these students?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No.19)

Reply:

(1) to (2)

The Education Bureau (EDB) does not collect information on specific reasons for transfer of school of individual students. In general, students may change schools due to different reasons, such as removal, family reasons and adaptation problem. We consider that providing a breakdown of the information on primary and secondary students having transferred to other schools by whether the students are with special educational needs (SEN) or not is inappropriate and can be misleading.

(3)

EDB provides placement assistance to school-aged children in need upon request. If there is information indicating that the school transfer is due to special reasons of the students such as poor adjustment in their original schools, SEN or changes in family status that warrant schools' particular attention, EDB will contact the schools concerned for appropriate arrangement to meet the specific needs of the students. Schools currently adopt a Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as induction / adjustment programmes, peer support scheme and therapeutic

group work, to help students adapt to the new learning environment and integrate into the new school life. Schools also deliver multifarious teaching strategies and counselling services to cater for students' different abilities and aptitude, with a view to helping students solve their learning difficulties and handling their behaviour problems as appropriate.

For students with SEN who are unable to cope with learning in mainstream schools and in need of transferring to special schools, EDB will, with consent from parents, place them in appropriate special schools according to the assessment results and recommendations of medical specialists / professionals. Special schools, subject to parental consent, may also refer students who are found to be more capable in learning as compared to other students to their educational psychologists for assessment for consideration of transferring to mainstream schools.

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of reported cases of bullying in school received by the Education Bureau (EDB) and the numbers of students with and without special educational needs respectively in the past 5 years.
2. What are the EDB's policy on handling bullying in school and strategies for reducing the occurrence of bullying?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 25)

Reply:

1. Based on the information retrieved from EDB's annual questionnaire survey on guidance and discipline in public sector primary and secondary schools, the number of students (including students with special educational needs (SEN)) involved in school bullying cases in the past 5 years (i.e. from the 2010/11 to the 2014/15 school years) is as follows:

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
Number of students involved in school bullying cases (students with SEN)	242 (20)	219 (17)	257 (26)	254 (20)	214 (23)

2. EDB will not tolerate any act of bullying in schools. In this connection, circulars and guidelines have been issued requiring all schools to take the matter seriously and implement proactive measures to ensure the safety of students at school. The School Administration Guide sets out guidelines on the handling and prevention of bullying cases for reference by all schools. Schools are advised to adopt a Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident.

The anti-bullying awareness of students and staff is also enhanced through preventive education, training programmes and various guidance and discipline activities. Schools are required to augment the personal development education and life education elements in various domains of their school curriculum to instil in students a sense of respect for others and help them acquire communication, social and conflict-management skills. Starting from the 2011/12 school year, EDB has launched the Harmonious School – Anti-bullying Campaign, under which schools will organise Anti-bullying Day/Week events with the provision of teaching/promotional materials, an anti-bullying charter and training for Peace Ambassadors. To facilitate students with SEN to integrate into their school life, EDB encourages schools to adopt a Whole School Approach to integrated education. Through peer support programmes, circles of friends, learning groups

and collaborative teaching, etc., students can get to know and accept each other, and all teachers and students will respect individual differences and jointly create a harmonious school environment. Besides, home-school cooperation is very important. Through parent education, parents are encouraged to listen patiently to their children, support them to face their problems with a caring attitude, maintain communication with schools, and seek help from teachers, guidance personnel and social workers whenever necessary.

(Question Serial No. 6051)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education
(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of the implementation of "New Funding Mode" under the integrated education policy so far, would the Government please list the expenditure details of each year:

1. The comparison among the unit cost of each type of special schools, the unit cost for supporting students with special needs studying in mainstream schools and the unit cost of students other than those with special needs;
2. The percentage share of the expenditure on integrated education in the overall education expenditure; and
3. The percentage share of the expenditure on special education in the overall education expenditure.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 26)

Reply:

(1) - (3)

Under the prevailing education policy, the Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with special educational needs (SEN) may attend mainstream schools. EDB has been providing regular subvention for all mainstream schools to cater for student diversity. All students, including students with SEN, will benefit from support services rendered. In addition, to support mainstream schools in catering for students with SEN, EDB has been providing schools with additional resources, professional support and teacher training. The total expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention from the 2011/12 to 2015/16 school years is set out at Appendix 1. It should be noted that some of the additional resources and support services are provided for individual schools for meeting the specific needs of their students with SEN (e.g. Top-up Fund for procurement of special furniture and equipment). In other words, not all schools and students with SEN are receiving the same support services and the funding involved can vary. Hence, providing the unit cost for students with SEN across all mainstream schools or the percentage share of expenditure on integrated education in the overall expenditure of education is inappropriate and misleading. The unit cost of each subsidised place in aided primary and secondary schools from 2011-12 to 2015-16 is set out at Appendix 2.

The average unit cost of each type of special schools from the 2011/12 to 2015/16 school years and the percentage share of the expenditure on special education in the overall education expenditure from 2011-12 to 2015-16 are set out in Part I and Part II of Appendix 3.

**Expenditure on additional support and services for
students with SEN in public sector mainstream schools
from the 2011/12 to 2015/16 school years
(on top of the regular subvention)**

School Year	Expenditure (\$ million)
2011/12	964
2012/13	1,009
2013/14	1,075
2014/15	1,222
2015/16 (Revised Estimate)	1,315

**Unit cost of each subsidised place in
aided primary and secondary schools**

Financial Year	Primary	Secondary
2011-12	\$39,227	\$44,972
2012-13	\$44,451	\$49,246

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Integrated education has been implemented by the Government for over 10 years and many problems have arisen. Will the Government conduct a comprehensive review of the integrated education policy?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 27)

Reply:

The Whole School Approach (WSA) to Integrated Education (IE) currently implemented in Hong Kong is in line with the global trend in the development of IE. The Education Bureau (EDB) has kept the implementation of IE under constant review by monitoring the deployment of resources and implementation of measures through its daily work, sending officers on study tours to other countries and regions to learn from their experience, and collecting feedback from the sector and stakeholders through different channels. EDB set up the Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to strengthen communication and co-operation as well as to tap their views on the implementation of IE.

In the light of our on-going review and having considered the need of the students and views of the different stakeholders, EDB has introduced a number of enhancement measures in the past years, including regularizing the Enhanced Speech Therapy Grant and the resource schools and special schools cum resource centres, introducing the teacher professional development framework on IE, enhancing the funding arrangements of the Learning Support Grant, extending the School-based Educational Psychology Service to cover all public sector primary and secondary schools. EDB will also progressively improve the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year.

In addition, starting from the 2015/16 school year, the Community Care Fund has funded a three-year pilot project, under which a cash grant equivalent to the mid-point salary of a Graduate Master/Mistress or an Assistant Primary School Master/Mistress is provided for mainstream schools with relatively more students with special educational needs (SEN) and financial needs so that a dedicated teacher can be deployed to co-ordinate matters relating to SEN support.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies and measures, including the support for students with SEN, through self-evaluation each year, which is validated in External School Review conducted by EDB. EDB also requires schools to submit an annual self-evaluation report on the implementation of WSA to IE at the end of

the school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN. With a view to supporting schools to better utilize their resources, professional staff of EDB conducts regular school visits to provide consultation and organise training and sharing sessions for schools to facilitate proper deployment of resources for supporting students with SEN.

According to our observations and communication with schools, schools are in support of IE. With accumulated practical experience gained over the years, more and more schools are adopting WSA in providing appropriate support for students with SEN and successful cases have been seen in schools in respect of culture building, policy formulation and implementation. EDB will continue to closely monitor the implementation of IE in schools and introduce improvement measures as and when necessary.

(Question Serial No.6053)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

1. What are the existing teacher training requirements in respect of supporting students with special educational needs?
2. How do these requirements compared to those of other developed countries, including Taiwan, Canada, the U.S.A and Britain?
3. What proportion of teachers have received adequate training? Please list the respective data of mainstream schools and special schools.
4. Does the Government have any strategies to provide all teachers with training in supporting students with special needs?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 28)

Reply:

(1) and (2)

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (IE) in the 2007/08 school year. Under the framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers to enhance their capacity in supporting students with special educational needs (SEN). Taking into account the situation of teachers trained as well as the types and numbers of students with SEN enrolled in mainstream schools, the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year are further raised as follows:

- (i) at least 15% to 25% of teachers will have completed the Basic Course;
- (ii) at least six to nine teachers will have completed the Advanced Course; and
- (iii) at least six to nine teachers will have completed the Thematic Courses (with at least one teacher completing the course(s) under each category as far as possible).

Since the 2012/13 school year, we have also provided a Training Course for Special School Teachers on Education of Students with Severe or Multiple Disabilities (TCSST) specifically for special school teachers.

As the education system and policy vary among different countries, it is considered not appropriate to make any direct comparison with other countries in respect of teacher training in supporting students with SEN.

(3) and (4)

As at the 2014/15 school year, the percentage of teachers having received special education training in public sector mainstream primary and secondary schools is 43% and more than 23% respectively. The percentage of secondary school teachers having received special education training is lower than that of their primary counterpart mainly because secondary school teachers have given priority to training programmes related to the implementation of the New Senior Secondary curriculum in previous years. As for special schools, more than 73% of the teachers have received special education training.

To support schools in arranging teachers to attend the BAT Courses and the TCSST in a systematic manner, regular teachers of government and aided primary, secondary and special schools are granted paid study leave for attending these courses, and supply teachers are provided to the schools concerned. Letters have been sent to mainstream schools annually to inform them of the latest training position of the school to facilitate their planning of teachers to attend the BAT Courses as well as school-based professional development programmes.

It should be noted that apart from the BAT Courses and the TCSST, EDB also provides teachers with different theme-based training activities, including seminars, workshops, sharing sessions to share good practices and update teachers on the current trend and approach in catering for students with SEN.

Besides, EDB has maintained communication with teacher education institutions (TEIs) to request them to include “supporting students with SEN or learner diversity” as a core module in the pre-service education programmes. According to our understanding, the TEIs have already included this module in their pre-service teacher training programmes to enhance prospective teachers’ knowledge in this area. EDB has also incorporated topics on catering for student diversity and spearheading IE implementation in the Preparation for Principalship Course for Aspiring Principals and induction programme for newly appointed principals to strengthen the leadership of principals in the implementation of the Whole School Approach to IE.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education
(3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The most common services currently provided by schools for students with various special educational needs.
(The first 3 most common services)

Type of Schools in Which Students Study	The Most Common Service Provided (Type of Service and Utilisation Rate of Service)	The Second Most Common Service Provided (Type of Service and Utilisation Rate of Service)	The Third Most Common Service Provided (Type of Service and Utilisation Rate of Service)
Kindergarten			
Primary School			
Secondary School (S1 to S3)			
Secondary School (S4 to S5)			
University			

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 30)

Reply:

Support services for children with special educational needs (SEN) at pre-primary levels are provided by the Social Welfare Department. The Education Bureau (EDB) does not maintain data on students with SEN at kindergarten levels.

To support public sector primary and secondary schools to cater for their students with SEN, EDB has been providing schools with additional resources on top of the regular subvention for all mainstream schools. These additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, etc. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN based on their needs, including employing additional teachers and teaching assistants to provide in-class support or supplemental coaching after class, arrange small group learning and pull-out programmes, or hiring professional services (such as speech therapy, other specialist services, training groups on social/communication/executive functioning skills, emotion management, learning strategies, peer-mediated activities, etc). Schools can also apply for the Top-up fund to procure special furniture and equipment or carry out minor conversion work for students with disabilities if necessary. For students with significant emotional and behavioral problems despite provision of support, EDB will consider providing the schools with a time-limited grant to employ additional

teaching assistants to help the students establish classroom routine. In addition, the professional staff of EDB pays regular visits to schools to render professional advice on their support policies and measures, teaching strategies and resource deployment, etc. EDB also provides schools with professional support through assessment and consultation services of educational psychologists, speech therapists and audiologists, teacher training and develops teaching resources for use by teachers and parents, etc. to help schools cater for students with SEN. As the context of individual schools differs and school-based support services vary according to the genuine needs of their students with SEN, we do not have detailed statistics about the services provided by schools and their utilisation rate.

At post-secondary level, many institutions provide special arrangement and support services according to the needs of students with SEN, including assigning academic advisors, providing tutorial services, special examination and assessment arrangements, arranging for programme applications flexibly, special measures for learning support (e.g. extra tutorials and early dissemination of handouts), appropriate boarding in campus as well as learning and amenity facilities, procuring and providing appropriate equipment (e.g. automatic page turner), providing scholarships and loans, career advisory and support services, etc. Under the principle of institutional autonomy, post-secondary institutions can determine how to deploy their resources to assist students with SEN. Hence we are unable to provide the detailed information as requested.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give information on the current provision of services for students with special educational needs in primary and secondary schools by educational psychologists:

	Secondary school	Primary school
No. of school visits made per month for providing services		
Average no. of counselling cases per month		
Average length of counselling time for each student		
Average number of years of services provided to each student		

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No.31)

Reply:

Under the School-based Educational Psychology Service (SBEPS), one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). They visit their schools regularly throughout the school year to provide service at the school system, teacher support and student support levels. Specifically, EPs provide assessment and intervention for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases and thus reporting the average number of cases counselled by the EPs does not reflect comprehensively the actual service provided under the SBEPS. Likewise, the number of visit days paid to each school and the length of counselling time spent on each student vary, depending on the specific needs of the schools and their students. In principle, students will receive SBEPS on a need basis throughout their years of schooling in public sector primary and secondary schools. We do not have detailed statistics about the school visits by EPs as requested in the table.

CONTROLLING OFFICER'S REPLY**EDB492****(Question Serial No. 6057)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the information on the complaints received by the Education Bureau from parents of students with special educational needs on primary and secondary schools in the past 5 years.

	Secondary School	Primary School
Total number of complaints		
Number of schools being complained		
Number of completed cases		
Number of cases waiting to be processed		
Average time for waiting processing		
Average case processing time		

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 32)

Reply:

The number of complaints lodged by parents of students with special educational needs received by the Education Bureau (EDB) in the past five years is as follows:

2011-2012

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	4	1
Number of schools being complained	0	4	1
Number of completed cases	0	4	1

2012-2013

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	2	2	3
Number of schools being complained	2	2	3
Number of completed cases	2	2	3

2013-2014

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	1	1	4
Number of schools being complained	1	1	4
Number of completed cases	1	0	4

2014-2015

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	3	4
Number of schools being complained	0	3	3
Number of completed cases	0	3	4

2015-2016 (latest data available)

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	2	2
Number of schools being complained	0	2	2
Number of completed cases	0	1	0

Note:

- (i) The statistics above are counted on a case-basis and some cases may involve more than one complainant.
- (ii) Number of completed cases reflects the position as at February 2016.

EDB will handle the complaints received in the first instance. We have no statistics on the number of cases waiting to be processed and the average time for waiting processing. The time spent on handling each complaint case would depend on the nature and complexity of the case. In general, it takes about two to three months to handle a formal complaint case. It may take a longer time to handle some complicated cases.

Question:

In all kinds of schools, what types of complaints are received by the Education Bureau from parents of students with special educational needs?

	Types of Complaints		
	Common Complaints Type 1	Common Complaints Type 2	Common Complaints Type 3
Kindergarten			
Primary School			
Secondary School (Secondary 1 to Secondary 3)			
Secondary School (Secondary 4 to Secondary 6)			
University			

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 33)

Reply:

The common types of complaints received by the Education Bureau (EDB) from parents of students with special educational needs in the past 5 years are listed below:

	Types of Complaints		
	Common Complaints Type 1	Common Complaints Type 2	Common Complaints Type 3
Primary School	Discrimination	Learning Support, School Maladministration, Promotion of Students	-
Secondary School (Note)	School Maladministration	-	-
Special School	School Maladministration	Student Safety	-

Note: There is no breakdown on the statistics of junior and senior secondary level.

EDB recorded only one case from parents of students with special educational needs in kindergartens on discrimination and student support, and no case in universities during the period.

Programme: (2) Primary Education, (3) Secondary Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What are the strategies adopted by the Government to handle the complaints made by parents of students with special educational needs?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 34)

Reply:

Cultivating a culture of good communication and establishing a well-defined complaint handling system are essential elements of good governance and quality services. All along, the Education Bureau (EDB) encourages schools to strengthen the communication and cooperation with parents for mutual understanding of their roles and responsibility in the implementation of integrated education. We require schools to establish a regular communication mechanism to let parents understand the special educational needs (SEN) of their children, participate in the formulation of support plans, review the learning progress and adjust the support measures, etc.

According to the prevailing complaint-handling mechanism, schools are required to establish a school-based mechanism and procedures, through which schools and parents can work together to resolve the problems by means of consultation. With regard to complaints about disability discrimination, if schools and complainants cannot reach a settlement, both parties can refer the case to the respective Regional Education Office for arrangement for a mediation meeting to work out a solution. If the above procedures fail to settle the matter, EDB will set up a Case Study Group (the Group) to seek opinion of outsiders. Members of the Group are appointed by EDB. Except the Chairperson, all members are non-EDB members, including parents, representatives from the education sector and other professionals such as representatives from the medical or legal sector, educational psychologist, and the field of social work. The Group will review the case in an objective, impartial and fair manner, and put forward settlement proposal to EDB.

EDB launched the "Pilot Project on Enhancement of Complaint Management in Schools" (Pilot Project) from the 2012/13 to 2014/15 school year to assist schools to establish or enhance their school-based mechanism and procedures for handling complaints, including complaints related to students with SEN. In view of the positive evaluation results of the Pilot Project, EDB has launched the "Project on Enhancement of Complaint Management in Schools" since September 2015 to facilitate all public sector and Direct Subsidy Scheme schools which did not join the Pilot Project to set up or enhance their school-based complaint handling mechanism as early as possible.

Question:

1. Please provide the latest number of teachers who have completed the Basic, Advanced and Thematic Courses (BAT Courses) under the teachers' professional development framework on special education and give a breakdown of the number of teachers who have not yet completed the BAT Courses.
2. How does the Administration assess the effectiveness of the BAT Courses in special education?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 35)

Reply:

(1) and (2)

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year, under which structured training courses pitched at Basic, Advanced and Thematic Courses (BAT Courses) are provided for serving teachers in primary and secondary schools to enhance their capacity in catering for students with special educational needs (SEN).

As at the 2014/15 school year, the number of teachers who have completed Basic, Advanced and Thematic courses is 5 322, 2 058 and 4 925 respectively. It should be noted that apart from the BAT Courses, EDB has also arranged other teacher training programmes such as "Training Course for Teachers on Effective Strategies for Managing Students' Challenging Behaviour: A Psychological Approach", and thematic seminars and workshops organised from time to time. As such, we consider that providing the number of teachers who have not yet completed the BAT Courses does not give a complete picture of the training situation and will be misleading.

We have been monitoring the effectiveness of the BAT Courses through various means, including lesson observation, review meetings with the course providers, analysis of participants' feedback and examination of the evaluation reports by the course providers. A review of the Framework has been conducted, in which the views of school principals and teachers were gauged and the evaluation of the course providers scrutinized. The findings showed that the BAT Courses were effective in enhancing the teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic courses with a view to helping teachers apply the knowledge acquired. Taking into account the situation of teachers trained as well as the types and number of students with SEN, we have further raised the training targets which have to be achieved by every public sector mainstream school by the end of the 2019/20 school year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the number of hours of special education training in the pre-service teacher training courses currently provided by tertiary institutions.
2. As special education involves different areas, will the Administration consider resuming the previous two-year special education training for teachers provided by the Hong Kong Institute of Education?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 36)

Reply:

Higher education institutions in Hong Kong enjoy institutional autonomy in the planning and curriculum development of their programmes. As such, the Government and the University Grants Committee (UGC) do not collect information on the number of hours of special education training in pre-service teacher training programmes offered by the teacher education institution (TEIs). That said, we understand that modules and electives relevant to special education are currently made available in these programmes.

Besides, at present, The Hong Kong Institute of Education (HKIEd) offers a UGC-funded part-time top-up Bachelor of Education (Honours) (Special Needs) programme to in-service teachers. During the 2016/17 to 2018/19 triennium, a new UGC-funded part-time top-up Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs programme will also be offered by HKIEd. Moreover, both HKIEd and The University of Hong Kong offer UGC-funded part-time Postgraduate Diploma in Education programmes with majors in Special Education to in-service teachers.

Starting from the 2007/08 school year, the Education Bureau (EDB) has introduced a teacher professional development framework on integrated education (IE), under which structured training courses pitched at Basic, Advanced and Thematic Courses (BAT Courses) are provided. It is expected that a critical mass of teachers having received related training would be formed in each school and those teachers would lead the continuous professional development of the school and guide their counterparts to implement IE through the Whole School Approach. Apart from the BAT Courses, EDB also arranges other training programmes on specific topics such as "Training Course for Teachers on Effective Strategies for Managing Students' Challenging Behaviour: A Psychological Approach". Besides, EDB regularly organizes various kinds of thematic training activities, including talks, workshops and sharing sessions, to keep teachers abreast of the latest development in IE and to share good practices. In short, schools may arrange teachers to attend different training programmes having regard to the needs of the school and the teachers. Teachers may also choose to attend other relevant in-service training courses offered by local teacher education institutions according to their training needs. As such, we do not have plans to resume the previous two-year special education training for teachers.

Question:

Please provide the number of students with special educational needs identified and referred by using the "Observation Checklist for Teachers" and "The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students" in the past 5 years.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 38)

Reply:

Under the Early Identification and Intervention of Learning Difficulties Programme for Primary One Pupils (EII Programme), teachers complete the Observation Checklist for Teachers and the Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students to identify Primary One students at risk of learning difficulties and arrange early intervention for them. The progress of these students will be monitored and those students whose difficulties are severe or persistent despite intervention will be referred to specialists for assessment. The number of students identified to have marked difficulties via the EII Programme and referred for diagnostic assessment from the 2010/11 to 2014/15 school years is about 3 000, 3 300, 3 600, 3 800 and 3 800 respectively.

Director of Bureau: Secretary for Education
Question:

Regarding post-secondary institutions' support for students with special educational needs, please advise:

1. of the number of interpreters or note-takers provided by various post-secondary institutions in the past 5 years and whether the relevant expenses had to be borne by students themselves;
2. of the amount of financial resources involved in providing support services for students with special educational needs in post-secondary institutions in the past 5 years, with a breakdown by area of spending; and
3. whether the Government will consider formulating a package of overarching policies and allocating additional resources to enable post-secondary institutions to enhance their support for students with special educational needs, given the difference and inconsistency in these institutions' current policies to provide support for students with special educational needs.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 40)

Reply:

1. The Government does not maintain records of the number of interpreters or note-takers provided by various post-secondary institutions or the relevant expenses to be borne by students.
2. As far as institutions funded by the University Grants Committee (UGC) are concerned, since funding for SEN students is included in the Block Grant provided for individual institutions, UGC is not able to provide the actual amount of expenditure on support services for such students.

As for the provision for the Vocational Training Council (VTC), starting from the 2013-14 financial year, an additional recurrent funding of \$12 million has been allocated to VTC each year to enhance services for SEN students. These services include provision of equipment and technical learning aids, special in-class arrangements, consultation and assessment services by clinical psychologist, assessment and support services by educational psychologist, enhanced support for teaching and learning, and career advisory services. Besides, Youth College (Yeo Chei Man) was set up under VTC in the 2012/13 academic year to provide dedicated support for SEN students and non-Chinese speaking students. In 2016-17, the Government has earmarked about \$25.9 million of subvention for the operation of Youth College (Yeo Chei Man).

In addition, the Government made two separate injections of \$20 million each, bringing the total to \$40 million, into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund in 2013 to establish scholarships to give recognition to deserving publicly-funded and self-financing

post-secondary SEN students in the pursuit of academic and other excellence. About 150 SEN students pursuing full-time locally-accredited undergraduate and sub-degree programmes were awarded the scholarships in the 2014/15 academic year.

The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund, to implement a programme from 2015/16 to 2017/18 academic year, for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, by purchasing equipment. Each eligible student is offered an additional academic expenses grant of up to \$8,000 every year depending on the level of assistance assessed in the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency.

3. The Government is committed to providing young people, including SEN students, with flexible and diversified study pathways with multiple entry and exit points, which include undergraduate and sub-degree programmes and vocational education programmes. While post-secondary education institutions will make special arrangements and provide support services according to the needs of SEN students, UGC and the Education Bureau (EDB) will, among others, maintain liaison with UGC-funded and self-financing institutions to follow up on the provision of support by individual institutions for SEN students. EDB has also established a platform to organise workshops, seminars and sharing sessions as needed from time to time so as to facilitate information and experience sharing among the institutions in the provision of support for SEN students.

To further promote the inclusive culture, UGC has provided a one-off special grant of \$20 million in total for the eight UGC-funded institutions starting from 2015. The grant has been allocated on a pro-rata basis according to the number of SEN students admitted to individual institutions, so that institutions may implement additional measures to enhance their support services for SEN students. The funding scheme, which aims to foster an inclusive culture in the campus, will last for two years. Upon conclusion of the scheme, institutions are required to deploy resources from the Block Grant to continue with the provision of such measures.

Director of Bureau: Secretary for Education
Question:

1. Please provide a breakdown of students' average waiting time for the service of educational psychologists in the past 5 years.
2. Please provide figures on the number of educational psychologists and the average caseload per educational psychologist in the past 5 years.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 41)

Reply:

(1)

In the past four years (i.e. from the 2011/12 to 2014/15 school years), about 90% of the cases referred to educational psychologists (EPs) were assessed within five months (for the 2011/12 and 2012/13 school years) and four months (for the 2013/14 and 2014/15 school years) respectively. Figure for the 2015/16 school year is not yet available since data from EPs in the aided sector are collected at the end of the school year. The remaining cases with a longer waiting time for assessment were often due to some specific circumstances, e.g. assessment deferred on the request of the parents and assessment held up pending the students' medical treatment.

(2)

The number of EPs involved in the provision of School-based Educational Psychology Service (SBEPS) from the 2011/12 to 2015/16 school years is 52, 68, 80, 99 and 114 respectively. As the SBEPS adopts a comprehensive and integrated service mode that aims at enhancing schools' capacity to cater for students' diverse educational needs, the services provided by EPs go beyond handling individual student cases. Thus, reporting the average number of assessment cases handled by each EP does not reflect comprehensively the actual service provided under the SBEPS and can be misleading.

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the expenditure involved in catering for the needs of students with special educational needs as well as on the promotional and educational work of integrated education in the past 5 years. How does the Administration evaluate the effectiveness of related work?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 42)

Reply:

To help mainstream schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing schools with additional resources, professional support and teacher training. The expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention for all mainstream schools in the 2010/11, 2011/12, 2012/13 2013/14 and 2014/15 school years is \$900 million, \$964 million, \$1,009 million, \$1,075 million and \$1,222 million respectively. The cost of the promotional and public education work, including the manpower cost for different functions or activities, is subsumed under EDB's existing provision and we are unable to provide the cost separately.

EDB has kept the implementation of integrated education (IE) under constant review by monitoring the deployment of resources and implementation of measures through its daily work and collecting feedback from the sector and stakeholders through different channels. EDB set up the Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to tap their views on the implementation of IE, SEN support measures and promotional and public education activities. EDB's professional staff also conduct regular school visits and annual reviews, and organises training and sharing sessions for schools to ensure the proper deployment of resources for supporting students with SEN.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies and measures, including the support for students with SEN, through self-evaluation each year, which is validated through External School Review conducted by EDB. EDB also requires schools to submit an annual self-evaluation report on the implementation of the Whole School Approach to IE at the end of the school year. As revealed in schools' self-evaluation, students with SEN have shown improvements in their social adjustment, learning performances and learning attitudes. Home-school cooperation has also been strengthened. According to our observations and communication with schools, it is noted that more and more schools are adopting a Whole School Approach in providing appropriate support for students with SEN and successful cases have been seen in schools in respect of culture building, policy formulation and implementation. The promotional and public education activities are also well received.

Owing to the increased awareness among parents and teachers, more parents are willing to disclose the SEN details of their children and hence more students with SEN have been assessed for early intervention. EDB will continue to closely monitor the implementation of IE in schools, enhance public awareness and acceptance of students with SEN and promote an inclusive culture in the community.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the up-to-the-minute information on the respective numbers of schools that can and cannot meet the requirements on barrier-free access set out by the Buildings Department, as well as a breakdown of the number of barrier-free facilities.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 44)

Reply:

In the 2015/16 school year, out of 929 public sector and Direct Subsidy Scheme (DSS) schools in Hong Kong, 230 schools constructed after 1997 are in compliance with the prevailing requirements promulgated by the Buildings Department on barrier-free access to facilitate access to school buildings and facilities by persons with disabilities. As for public sector and DSS schools built before 1997, subject to technical feasibility, the Education Bureau (EDB) has, through the second and subsequent phases of the School Improvement Programme, installed barrier-free facilities such as lifts, accessible toilets, ramps, etc., in their premises.

When major alteration or improvement works are carried out in schools, EDB will also take the opportunity to install in their premises the barrier-free facilities in need as far as possible and in accordance with the latest requirements on barrier free access and other established criteria. Furthermore, schools may apply to carry out repairs and improvement works on their school facilities according to their needs in the context of the annual major repairs/alteration programme, including the provision of barrier-free facilities. In the process, consideration will be given to technical feasibility, urgency for such facilities as compared with other applications, availability of alternative measures to solve the inaccessibility problem, agreement of the schools concerned and availability of funding. For instance, 36 public sector schools have been included for lift installation since 2010/11 school year.

To cater for the special educational needs of students, schools can also apply for the Top-up Fund from EDB to procure special furniture and equipment or carry out minor conversion work such as construction of ramp, conversion of toilet or tailor-made desks and chairs for students with physical disability.

EDB does not keep statistics on the barrier-free facilities of individual schools. However, EDB would, through the above channels, continue to install or improve the barrier-free facilities in school premises to facilitate access to buildings and for use by persons with disabilities as far as possible.

CONTROLLING OFFICER'S REPLY**EDB502****(Question Serial No. 6377)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the number of students with special educational needs who are Secondary 3 school leavers in the past 5 years, as well as their percentage share among the overall population of Secondary 3 school leavers.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 81)

Reply:

Data relating to students with special educational needs (SEN) are collected from schools through a separate computer system which was developed for use by secondary schools in the 2008/09 school year. The number of secondary students with SEN who left school after completing Secondary 3 (S3) is captured through the system only since the 2011/12 school year. As such, information about students with SEN who left school after completing S3 in the 2010/11 school year is not available. For the 2011/12, 2012/13, 2013/14 and 2014/15 school years, about 170, 260, 300 and 320 students with SEN respectively were reported to have left school after completing S3. The increase in number of such students reported across the school years may be attributed to a greater number of students identified with SEN as a result of enhanced awareness of SEN among the schools and parents as well as the improvement in the identification tools and mechanisms. According to the information reported by schools, the main reasons for these students leaving the schools include attending full-time or part-time courses run by the Vocational Training Council, joining the Apprenticeship schemes or pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc. Since we have not captured the overall number of S3 school leavers under the afore-mentioned system which was designed specifically for maintaining information about students with SEN, we are unable to provide the percentage share of S3 school leavers with SEN among the overall population of S3 school leavers.

CONTROLLING OFFICER'S REPLY**EDB503****(Question Serial No. 6380)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please list out, by district, the numbers of students with special educational needs participating in the individual education plan (IEP).
2. What categories and levels of students are arranged to participate in the IEP by schools? In what way can the effectiveness be assessed?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 84)

Reply:

(1) to (2)

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

All schools are requested to adopt the Whole School Approach to support these students through a 3-Tier Intervention Model, taking into account their support needs. It should be noted that even for students with the same type of SEN, their need and the degree of support required vary. Under the 3-Tier Intervention Model, students with severe learning difficulties, regardless of their SEN type, are provided with tier-3 support under which schools are required to draw up an individual education plan (IEP) for each student. An IEP includes the learning objectives and strategies which meet the individual needs of students, with achievement criteria stated in an observable and measurable manner. It is formulated after discussion among school personnel, related professionals like the educational psychologist and the parents. During the implementation of the IEP, teachers make observations, communicate with parents and collect data on the progress of the student on an ongoing basis to evaluate the effectiveness of the instructional strategies and classroom practices so that adjustment to the support can be arranged. Schools also review IEP regularly following the schedule set therein with involvement of the parents as appropriate. These help to ensure that appropriate support is provided for the student and the IEP is suitably implemented. As for the other students with SEN, schools are required to keep a Student Support Register to record the support and adaptations offered as well as their performance and progress for regular review and adjustment of the type and level of support required as appropriate. As such, the level of support of students with SEN may require upward or downward adjustment. Hence, the distribution of students under the 3-Tier Intervention Model may change from time to time according to the changing needs of the students. In gist, whether a student with SEN requires an IEP depends solely on his prevailing support needs and is a school-based professional decision. It may not have any relationship with his grade level, category of disabilities and the district in which he lives or studies, hence we are unable to provide the information as requested.

	Secondary	67 566			53 913			35 173		

- * In the 2011/12 school year, there was a considerable increase in the number of students receiving textbook assistance at the full rate. This was mainly due to the relaxation of the income ceiling for full level of assistance under the means test mechanism of the then Student Financial Assistance Agency (renamed to the Student Finance Office of the Working Family and Student Financial Assistance Agency on 1 March 2015) in the year. The situation continues in the school years from 2012/13 to 2014/15, though because of a drop in the student population at the secondary level, the overall number of students receiving full grant has correspondingly reduced.
- # Not applicable as the CSSA data is as at end-December of each year while the student population is based on each school year. The corresponding percentage share cannot be worked out.

2. The number and percentage share of primary and secondary students receiving full grant, half grant, and the CSSA who participated in the School-based After-School Learning and Support Programmes, Community Care Fund (CCF) - After-school Care Pilot Scheme and Hong Kong Jockey Club Life-wide Learning Fund in the 2012/13, 2013/14 and 2014/15 school years are listed in the following tables where applicable. As for the Child Development Fund, the Government does not keep relevant data.

School-based After-School Learning and Support Programmes*

	School Year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2012/13	59 130	91.8%	33 060	N.A.#
	2013/14	64 470	99.4%	31 820	N.A.#
	2014/15	63 190	95.0%	29 640	N.A.#
Secondary	2012/13	80 110	97.6%	44 790	N.A.#
	2013/14	73 070	99.9%	39 900	N.A.#
	2014/15	68 300	99.9%	36 700	N.A.#

* Eligible students under the School-based After-School Learning and Support Programmes are students from families in receipt of CSSA or receiving full grant under the Student Financial Assistance Schemes studying in public sector schools or schools under the Direct Subsidy Scheme. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant.

Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the School-based After-School Learning and Support Programmes is based on each school year. The corresponding percentage share cannot be worked out.

Community Care Fund - After-school Care Pilot Scheme*

	School Year	CSSA, full grant and half grant ⁺	Percentage share among all CSSA, full grant and half grant students
Primary and Secondary [^]	2012/13	5 237 [@]	N.A.#
	2013/14	10 167	N.A.#
	2014/15	9 665	N.A.#

* Participating schools of the CCF - After-school Care Pilot Scheme may use not more than 25% of the places of their after-school care services to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA, full grant or half grant.

[^] Breakdown on primary and secondary students is not available.

⁺ Breakdown on CSSA, full grant and half grant students is not available.

- # Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the CCF After-school Care Pilot Scheme is based on each school year. The corresponding percentage share cannot be worked out.
- @ Eligible students under the CCF After-school Care Pilot Scheme in 2012/13 were students from families in receipt of CSSA or receiving full grant assistance under the SFAS studying in public sector schools or schools under the Direct Subsidy Scheme. The eligibility criteria were expanded in subsequent years to cover half-grant students.

Hong Kong Jockey Club Life-wide Learning Fund*

	School Year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2012/13	52 352	81.3%	21 233	N.A.#
	2013/14	54 021	83.3%	20 346	N.A.#
	2014/15	54 596	82.1%	19 762	N.A.#
Secondary	2012/13	56 202	68.4%	22 886	N.A.#
	2013/14	54 113	74.0%	21 888	N.A.#
	2014/15	49 205	72.8%	19 610	N.A.#

- * Eligible students under the Hong Kong Jockey Club Life-wide Learning Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools (excluding English School Foundation and international schools). Starting from September 2005, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant.
- # Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the Hong Kong Jockey Club Life-wide Learning Fund is based on each school year. The corresponding percentage share cannot be worked out.

- End -

CONTROLLING OFFICER'S REPLY**EDB505****(Question Serial No. 6388)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide details of the staffing of the various types of special schools and boarding sections (if any), the amounts of salary of different categories of posts and grant for different areas (including maintenance of facilities) of the various types of schools, construction cost, standard school infrastructure, cost per capita in the school section, area of space per boarder and cost per capita in the boarding section.
2. Please provide the numbers of students, new students and their age, and school leavers and their age with regard to schools for children with severe intellectual disability in the past 5 years. Please provide the numbers of new applicants waiting for the various types of services for adults in the past 5 years. Please provide the numbers of school leavers who could receive the various types of services for adults in the past 5 years.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 98)

Reply:

- (1) Aided special schools are provided with teaching staff, various types of specialists and non-teaching/non-specialist staff on their staff establishment. The number of staff and their respective salary scales in the 2015/16 school year are set out at Appendix 1 and Appendix 2 respectively. The average unit cost per school place and per boarding place of each type of aided special schools in the 2015/16 school year is set out at Appendix 3.

Currently, all aided special schools are provided with an Expanded Operating Expenses Block Grant (EOEBG) for meeting operating expenses. The EOEBG includes virtually all non-salary recurrent grants, except those which are ad-hoc in nature, currently under review, and paid for very specific purpose on a reimbursement basis. It also includes the Composite Furniture and Equipment Grant for schools to procure furniture and equipment items, to cover the maintenance/repairs fees for these items, etc. The details of EOEBG can be accessed from the website of the Education Bureau:
<http://www.edb.gov.hk/en/sch-admin/fin-management/subsidy-info/ref-e-oebg-cfeg/index.html>.

There are different types/scales of special schools with different provision of facilities to meet the different needs of their target students. Taking the two Capital Works special school projects approved by the Finance Committee of the Legislative Council in February 2015, namely "3108ET – Two special schools at Sung On Street, To Kwa Wan" and "3107ET – A school for social development for girls at Choi Hing Road, Kwun Tong, Kowloon" as example, the estimated construction unit cost, represented by the building and building services costs, is \$17,988 and \$18,931 per m² of construction floor area in September 2014 prices respectively.

Apart from essential school facilities in the school section such as classrooms, special rooms (e.g. visual arts room, computer room, design and technology room and home economics room, etc. depending on the subjects offered by the special school), library, student activity centre, multi-purpose area, assembly hall, staff room and other ancillary facilities, including a disabled/fireman's lift, facilities for the disabled, store rooms, toilets, depending on the type and scale of a special school, the facilities provided to different types of special schools would be different. Other facilities such as physiotherapy room(s), occupational therapy room(s), speech therapy room(s) and social worker's room(s), etc., would also be provided as appropriate. The school facilities to be provided to each newly constructed special school are approved by the Property Vetting Committee (PVC) on a project basis. PVC is chaired by Assistant Director (Architectural) of Architectural Services Department with Members from Government Property Agency, Treasury Branch of the Financial Services and the Treasury Bureau and other members to be co-opted as required.

Similarly, approval would be sought from PVC on a project basis for the boarding section of special school, if any. Common facilities such as bedrooms, study area, TV/common room, dining/multi-purpose room, kitchen, laundry room, drying area, warden's office, houseparents' and programme workers' office, nurse duty room/a sick bay, sleep-in room(s) for staff on night shift and other ancillary facilities, including stores, toilets, bathrooms, relevant facilities for the disabled, etc., would be provided.

- (2) The number of students, new students and leavers of schools for children with severe intellectual disability (SID) in the past five years is set out in Table I of Appendix 4. The number of students admitted to and waiting for admission for adult services for the past five years is set out in Table II of Appendix 4. According to our record, the age range of new students in the past five school years is from 6 to 17. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, students of special schools, including schools for children with SID, will leave school after completion of their Secondary Six. Under special circumstances where individual students may need to extend their years of study due to valid reasons, arrangements will be made in accordance with the established mechanism. On the other hand, some students may leave earlier due to various reasons, such as having secured a post-school placement or deceased. The age range of school leavers in the past five school years is from 6 to 23.

I. Staff Establishment of the School Section in the 2015/16 School Year

School Type	Number of Teaching Staff ¹	Non-teaching Staff	
		Number of Specialist Staff ²	Number of Non-specialist Staff ³
Visual Impairment	37.6	13.5	29
Hearing Impairment	31.3	5.5	26
Physical Disability	197.2	149.5	292
Mild Intellectual Disability ⁴	523.7	106	235.8
Moderate Intellectual Disability ⁴	469.1	103.5	265.2
Severe Intellectual Disability	178.3	115	284
School for Social Development	159.5	17	80
Hospital School	60.1	Not Applicable ⁵	28

Note:

- 1 Teaching staff excludes head of school and teachers employed with other grants (resource teacher for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teacher for Home-bound Teaching Programme in Hospital School), if any.
- 2 Specialist staff includes school social worker, speech therapist, physiotherapist, occupational therapist, occupational therapy assistant, educational psychologist, braille staff and nurse, if any.
- 3 Non-specialist staff includes clerical staff, laboratory technician, workshop attendant, janitor staff, motor/special driver, teacher assistant and artisan, if any.
- 4 The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 7 schools for children with MiID and children with MoID.
- 5 The Hospital School operates classes at 18 hospitals. Specialist services for their students are provided by the respective hospitals.

II. Staff Establishment of the Boarding Section in the 2015/16 School Year

School Type	Number of Specialist Staff ¹	Number of Non-specialist Staff ²
Visual Impairment	39	28.8
Hearing Impairment	3	2
Physical Disability	131	71
Moderate Intellectual Disability	105	67.3
Severe Intellectual Disability	195	122.8

Note:

- 1 Specialist staff includes nurse, warden, assistant warden, houseparent-in-charge, houseparent and programme worker.
- 2 Non-specialist staff includes clerical assistant, janitor staff, cook and watchman.

I. Salary Scale of Teaching Staff in the 2015/16 School Year

Post	Salary Scale
Certificated Master/Mistress	\$25,505 – \$41,215
Assistant Master/Mistress	\$43,105 – \$51,805
Senior Assistant Master/Mistress	\$54,220 – \$62,235
Assistant Primary School Master/Mistress	\$26,785 – \$51,805
Primary School Master/Mistress	\$54,220 – \$62,235
Senior Primary School Master/Mistress	\$63,095 – \$64,745
Graduate Master/Mistress	\$26,785 – \$62,235
Senior Graduate Master/Mistress	\$63,095 – \$77,650
Principal Graduate Master/Mistress	\$74,210 – \$84,480
Principal II	\$80,990 – \$95,215
Principal I	\$101,620 – \$117,080

II. Salary Scale of Specialist Staff in the 2015/16 School Year

Post		Salary Scale
Educational Psychologist II		\$39,360 – \$62,235
Educational Psychologist I		\$63,095 – \$95,215
Occupational Therapist Assistant		\$16,890 – \$26,785
Occupational Therapist II		\$25,505 – \$41,215
Occupational Therapist I		\$43,105 – \$63,095
Senior Occupational Therapist		\$63,095 – \$77,650
Physiotherapist II		\$25,505 – \$41,215
Physiotherapist I		\$43,105 – \$63,095
Senior Physiotherapist		\$63,095 – \$77,650
Speech Therapist		\$28,140 – \$62,235
Special School Social Worker	Assistant Social Work Officer	\$28,140 – \$62,235
	Senior Social Work Assistant	\$39,360 – \$51,805
Registered Nurse		\$26,785 – \$43,105
Braille Staff		\$15,845 – \$26,785
Warden	Assistant Social Work Officer	\$28,140 – \$62,235
	Senior Social Work Assistant	\$39,360 – \$51,805
	Chief Social Work Assistant	\$54,220 – \$62,235
Assistant Warden	Social Work Assistant	\$19,160 – \$37,590
	Senior Social Work Assistant	\$39,360 – \$51,805
Houseparent		\$19,160 – \$37,590
Houseparent-in-charge		\$19,160 – \$37,590 ¹
Programme worker		\$19,160 – \$37,590

Note:

- 1 A responsibility allowance will be payable to the houseparent-in-charge at the rate of two increments (range from \$2,390 to \$3,625) above their substantive pay.

II. Salary Scale of Non-specialist Staff in the 2015/16 School Year

Post	Salary Scale
Laboratory Technician III	\$12,590 – \$14,290
Laboratory Technician II	\$17,995 – \$35,890
Laboratory Technician I	\$37,590 – \$49,465
Workshop Attendant	\$12,325 – \$15,065
Artisan	\$14,905 – \$17,995
Motor Driver	\$14,905 – \$17,995
Special Driver	\$17,995 – \$20,305
Teacher Assistant	\$11,570 – \$13,640
Watchman	\$12,325 – \$15,065
Cook	\$14,905 – \$17,995
Clerical Assistant	\$11,575 – \$20,305 #
Assistant Clerical Officer	\$13,120 – \$26,785 #
Janitor Staff	\$11,570 – \$13,640 #

Aided special schools are provided with an Administration Grant (AG) or Revised Administration Grant (RAG) for employing clerical and janitor staff, or contracting out clerical or janitor service to meet their specific needs. The schools concerned will be provided with a lump sum equivalent to the salary of the clerical (solely for RAG) and janitor staff posts. The salary scale of these posts in the above table is for the calculation of grant/reference of the schools.

I. The Average Unit Cost per School Place per year in the 2015/16 School Year

School Type	Average Unit Cost per School Place
Visual Impairment	\$293,000
Hearing Impairment	\$293,000
Physical Disability	\$294,000
Mild Intellectual Disability	\$171,500
Moderate Intellectual Disability	\$253,000
Severe Intellectual Disability	\$329,000
School for Social Development	\$164,000
Hospital School	\$178,000

II. The Average Unit Cost per Boarding Place per year in the 2015/16 School Year

School Type	Average Unit Cost per Boarding Place
Visual Impairment	\$166,000
Hearing Impairment	\$403,500
Physical Disability	\$282,500
Moderate Intellectual Disability	\$243,000
Severe Intellectual Disability	\$306,000

I. Number of Students, Number of New Students and Leavers of Schools for Children with Severe Intellectual Disability (SID) from the 2010/11 to 2014/15 School Years

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
Number of Students ¹	749	746	729	704	691
Number of New Students ^{2, 4}	61	67	49	65	59
Number of School Leavers ^{3, 4}	79	67	83	76	79

Note:

- 1 Number of students is as at September of the respective school years.
- 2 Only first admission to SID is counted.
- 3 Only last attendance at SID is counted.
- 4 Excluding those students transferred between SID schools.

II. Number of Students of Schools for Children with SID Admitted To and Waiting for Admission for Adult Services from the 2010/11 to 2014/15 School Years

School Year	2010/11	2011/12	2012/13	2013/14	2014/15
Admission	42	21	39	38	49
Wait-listing	11	13	17	12	10

Note:

- 1 Adult Services include Supported Hostel, Day Activity Centre, Sheltered Workshop cum Hostel, etc.
- 2 The information was collected from special schools in July and August of the respective school years. As such, the above figures may not reflect the actual situation of the post-school arrangement of the students who left school.

- End -

CONTROLLING OFFICER'S REPLY**EDB506****(Question Serial No. 6392)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (350) Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the following figures and their projected figures for the last year and the coming 3 years:

- a) How many kindergarten-age children are there in Hong Kong in total? What is the distribution of these children among all districts?
- b) How many children are attending kindergartens? What is the distribution of these children among all districts?
- c) How many students are eligible to apply for the Kindergarten and Child Care Centre Fee Remission Scheme? How many of these eligible students are receiving allowances?

2. What is the current situation in respect of collection of miscellaneous fees by kindergartens?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 106)

- 1a) Figures on projected school-age population aged 3-5 who are residing in Hong Kong by district from the 2015/16 to 2018/19 school years are detailed at Appendix 1. This age group is generally considered appropriate for kindergarten (KG) education. Since the population projections refer to the projected number of children aged 3-5, irrespective of whether they are enrolled in schools or not, the figures should not be taken as the projected number of students at KG level. Besides, given that students under or over the concerned age group may enrol in KGs and students may study in districts other than their resident district, the actual number of students at district and territory-wide levels may be different from those of the projected school-age population.
- b) The number of students in KGs by school districts in the 2015/16 school year is detailed at Appendix 2. It is not plausible to accurately project the overall number of KG students in the coming school years and their geographical distribution as the number of KG students is subject to year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc. In addition, KG education has all along been provided by the private sector; parents may choose a KG suitable for their children with regard to their needs, and admission is at the full discretion of individual KGs.
- c) The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy KG students with financial assistance in the form of fee remission, on top of the fee subsidy from the Pre-primary Education Voucher Scheme (PEVS). Fee remission under the KCFRS will be granted to needy

families which can pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency. The number of successful applications of KG students who meet the eligibility criteria under the KCFRS for the 2015/16 school year is set out at Appendix 3. We do not have information on the number of eligible KG students who can receive fee remission under the KCFRS in the coming three school years.

2. As regards the sale of school items such as school uniform and textbook and provision of paid services, KGs are required to comply with the rules and regulations set out by the EDB. Specifically, KGs are not allowed to generate any profit from the sale of textbooks, and the profit in the sale of other school items and provision of paid services, which should be on a voluntary basis, is limited to a maximum of 15% of the cost. In any case, for non-profit-making KGs, such profits should be ploughed back to the KG for use for education purpose. While EDB does not collect detailed data about the type and amount of miscellaneous charges collected by individual KGs, we have advised KGs to disclose relevant information to parents through various means (e.g. leaflets, school website) to enhance transparency. KGs joining PEVS are also required to provide the reference price of major school items in the Profile of Kindergartens and Kindergarten-cum-Child Care Centres produced by EDB for parents' information.

Projected school-age population aged 3-5 who are residing in Hong Kong by district,
2015/16 – 2018/19 school years

District	2015/16	2016/17	2017/18	2018/19
Central and Western	7 900	8 000	7 500	6 800

Southern	5 700	5 400	4 800	4 600
Yau Tsim Mong	10 700	11 100	11 100	10 300
Sham Shui Po	10 100	10 500	9 900	9 600
Kowloon City	10 400	10 500	10 000	9 200
Wong Tai Sin	7 600	7 300	6 700	6 700
Kwun Tong	13 600	13 400	12 900	13 000
Sai Kung	11 900	11 800	11 000	10 400
Sha Tin	14 700	15 900	15 900	15 700
Tai Po	6 800	7 500	7 800	7 800
North	7 300	7 500	7 400	7 300
Yuen Long	14 900	15 900	15 700	15 200
Tuen Mun	11 900	12 100	12 300	12 500
Tsuen Wan	8 800	8 700	8 400	7 700
Kwai Tsing	10 600	9 800	8 400	8 000
Islands	4 500	4 300	4 300	4 100
All Districts	175 200	177 300	170 700	164 400

- Notes : (1) Figures in the above table are compiled with reference to the 2014-based Population Projections released by the Census and Statistics Department (C&SD) in September 2015 and the “Projections of Population Distribution 2014 – 2023” released by the Planning Department in December 2014.
- (2) School-age population aged 3-5 is considered appropriate for kindergarten education (i.e. nursery (K1) to upper kindergarten (K3)).
- (3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 3-5 residing in the districts concerned. The projected figures should not be taken as the projected number of students attending schools in the districts concerned. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under the age of 3 or over the age of 5 may also enrol at kindergarten education. The above figures do not include cross-boundary students.
- (4) The projections of school-age population **residing in Hong Kong** are compiled based on the 2014-based Population Projections released by C&SD in September 2015. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures. Amongst those assumptions, of particular relevance is that related to babies born in Hong Kong to Mainland women. It should be noted that it is difficult to accurately predict the actual numbers of such babies who would settle in Hong Kong and if so, when.
- (5) Figures are rounded to the nearest hundred and may not add up to the respective totals due to rounding.

Number of students in kindergartens by district in the 2015/16 school year

Districts	Students
Central & Western	6 057
Wan Chai	6 691
Eastern	12 357
Southern	4 820
Yau Tsim Mong	6 469
Sham Shui Po	9 442
Kowloon City	23 603
Wong Tai Sin	7 644
Kwun Tong	12 369
Sai Kung	9 177
Sha Tin	14 460

CONTROLLING OFFICER'S REPLY**EDB507****(Question Serial No. 6393)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (228) Student Financial AssistanceProgramme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies, (7) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

1. How many students are now receiving the Comprehensive Social Security Assistance (CSSA)? Please list out the respective numbers of students who are receiving CSSA in kindergartens, primary schools and secondary schools.

2. What are the number of students who travel to and from schools by school buses and their distributions by districts? And what are the school bus fares involved?

3. How much was last year's provision for the School-based After-School Learning and Support Programmes (Programme)? How many schools took part in the Programme and what was their percentage share among all schools in the territory? What was the number of students who benefited from the Programme? What was the composition of students (including the respective numbers of students receiving CSSA, full grants under the School Textbook Assistance Scheme (STAS), half grants under STAS or other students)? How many people were benefited? How many activities were one-off? How many activities were for long-term development? How much cash assistance was provided to each student per year for participating in extracurricular activities? What was the effectiveness of the Programme? What are the estimated amounts of provisions for the next 3 years?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 107)Reply:

1. The number of students in receipt of the Comprehensive Social Security Assistance (CSSA) with breakdown by level is tabulated below:

School level	As at end-December 2015 (preliminary figures)
Kindergarten	8 872
Primary school	25 399
Secondary school	30 101

2. In the light that schools and parents would arrange school busing for their students / children on their own, the number of students who travel to and from schools by school bus with breakdown by districts and fares is not available.

3. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the

School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance (SFA) Schemes.

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFA but identified by schools as needy. Besides, eligible participating schools (i.e. having a utilization rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision). In the 2015/16 school year, the total funding earmarked for the Programme is about \$240 million, which is shared almost equally by the two Grants.

For the School-based Grant, 889 schools which constitute about 90% of all the schools in the territory with 219 860 eligible students qualified for the grant have participated in the Programme. Of the afore-mentioned eligible students, about 61 740, 126 360 and 31 760 are in receipt of CSSA, full grant of SFA and others (i.e. participating under the 25% discretionary quota) respectively.

Regarding the Community-based Project Grant, the 511 projects organised by 175 NGOs are targeted at individual eligible students totaling about 103 000. To avoid unnecessary labelling on participating students, NGOs have not asked participating students to identify themselves as CSSA or full-grant SFA recipients. Breakdown of participating students by students in receipt of CSSA or full grant of SFA is therefore not available.

The objectives of various after-school activities organised by participating schools under the Programme are to help increase learning effectiveness (such as homework tutorials and training of learning skills), broaden learning experience outside classroom (such as art and cultural as well as sports activities) and raise understanding of and sense of belonging to the community (such as voluntary services). Seen from this perspective, the activities, some of which may be one-off, are for sustainable development of the students concerned.

The provision of the Programme is complementary in nature. Apart from the Programme, the Government has launched various funding schemes to support schools and NGOs to organise after-school activities including after-school tutorial services to cater for the diverse needs of needy students. Besides, flexible deployment of the grants provided, as encouraged by EDB, has enabled schools to inject more funding into after-school activities for needy students. The amount of cash assistance provided to each student participating in after-school activities is not available.

Assessment of the effectiveness of the Programme is done annually at two levels. In line with the spirit of school-based management, the Incorporated Management Committee / School Management Committee of the school in receipt of the School-based Grant is accountable for proper use of the grant for its intended objectives and for review of the effectiveness of the Programme. To enhance transparency, schools are required to include the Programme in their School Annual Plan and conduct an annual review of the effectiveness of the Programme with the findings included in the School Report. NGOs are required to submit, among others, an evaluation report on the effectiveness of the projects organised to EDB. In addition, EDB collects feedback from stakeholders through surveys and conducts supervisory visits to examine the implementation of the Programme. In general, stakeholders agree that the Programme for the afore-mentioned objectives is effective. As for the implementation of the Programme, upon review of the utilisation of the funding, EDB has enhanced the School-based Grant starting from the 2014/15 school year as mentioned above. For budgetary purpose, EDB will continue to earmark a provision of \$240 million for the Programme for the years ahead.

- End -

CONTROLLING OFFICER'S REPLY**EDB508****(Question Serial No. 6399)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

As stated in Paragraph 188 of the Policy Address, in respect of the implementation of the free kindergarten education policy, the Government will “further improve the teacher-pupil ratio to 1:11 to strengthen support for students with diverse needs” and “strengthen support for needy students, non-Chinese speaking students and students with diverse learning needs”. Please provide details of the measures, resource allocation and expected effectiveness.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 121)

Reply:

With the implementation of the free quality kindergarten (KG) education policy from the 2017/18 school year, the overall teacher-pupil (TP) ratio for eligible KGs will be substantially enhanced from 1:15 to 1:11 (principal not included). KG teachers will have more capacity for lesson preparation, development of school-based curriculum, professional collaboration and development, communication with parents and catering for the diverse needs of the students, including those with special needs or at risk of developmental delay, etc. The principal will be excluded from the TP ratio so that they can devote their time fully to the administration and management as well as supervision of the day-to-day operation of the KG.

On strengthening support for needy students, non-Chinese speaking (NCS) students and students with diverse needs, details are set out below -

KG students from needy families

Fee remission (at different levels of 100%, 75% or 50%) will continue to be provided for students from needy families under the existing Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS). Besides, we will provide an additional grant (at different levels of 100%, 75% or 50%) for KG students from needy families who pass the means test and meet the same eligibility criteria under KCFRS. The grant rate will be pegged at the level of grant for school-related expenses (i.e. books, stationery, school uniforms, miscellaneous and minor one-off expenses) for pre-primary students under the Comprehensive Social Security Assistance, which is \$3,600 in the 2015/16 school year. Before the implementation of the new policy in the 2017/18 school year, the Commission on Poverty approved in March 2016 the allocation of funds from the Community Care Fund for the provision of a one-off grant for school-related expenses to each eligible KG student in the 2016/17 school year.

NCS students in KGs

To enable KGs to enhance the support for their NCS students, a grant comparable to the salary of one KG teacher will be provided for KGs admitting eight or more NCS students. With the additional resources,

KGs could provide teachers with more manpower support and professional training to develop effective strategies to help NCS students learn through the Chinese medium so as to lay a foundation for their study in local primary schools and to raise teachers' empathy and cultural and religious sensitivity in handling NCS students. These KGs should also deploy the additional resources to enhance communication with the parents of NCS students and strengthen home-school cooperation. Apart from the additional grant, school-based professional support will continue to be provided and further enhanced to help KGs with NCS students build up the expertise in facilitating NCS students' learning of the Chinese language for a smooth transition to primary education. Teacher training programmes on the teaching and learning of the Chinese language for NCS students in KGs will also be enhanced.

KG students with special needs or at risk of developmental delay

The Government has been providing different services for children with developmental delay through the collaborative efforts of various Government bureaux/departments. Labour and Welfare Bureau has launched a two-year pilot scheme through the Lotteries Fund to provide on-site rehabilitation services for children with special needs at KGs in addition to the range of existing rehabilitation and related support services. Under the pilot scheme, the multi-disciplinary service teams of the non-governmental organisations (NGOs), which are composed of social workers, speech therapists, occupational therapists, physiotherapists, clinical psychologists/educational psychologists and special child care workers, will offer on-site rehabilitation services and training to children with special needs, supplemented by training at centres with rehabilitation facilities. While the service targets were children diagnosed to have special needs who are attending KGs/KG-cum-CCCs, the participating NGOs may flexibly deploy part of the service quotas to serve those children waiting for assessment. The service teams will also give professional advice to KG teachers to assist them in taking care of children with special needs. They will also provide support for parents in fostering positive attitude and developing effective skills in raising their children with special needs. The enhancement of the teacher-pupil ratio to 1:11 will create more space for KG teachers to collaborate among themselves to take care of the diverse needs of students (including those at risk of developmental delay) and to enable better professional collaboration with the inter-disciplinary teams in the above pilot project to support the students with special needs.

On the part of the Education Bureau (EDB), apart from enhancing the TP ratio as afore-mentioned, we will continue to work jointly with the Food and Health Bureau to strengthen the existing training for KG teachers to facilitate early identification of KG students with developmental problems. In addition, we will devise a teacher professional development framework to enhance their understanding of the children's development needs and to empower them to identify and cater for learner diversity, including children at risk of developmental or behavioral problems. Under the framework, more structured in-service training programmes will be offered for KG teachers and training targets will be set for each KG. In addition, we will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use of KG teachers and parents to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers. Besides, a cross-Bureau/Department platform would be set up to give advice on the development of initiatives to cater for KG children with special needs.

The full-year recurrent expenditure on the new free quality KG education will be about \$6.7 billion in the 2017/18 school year. EDB is formulating the implementation details in consultation with various stakeholders. Details will be released in the third quarter of 2016. Estimated funding for individual measures such as those on catering for students' diverse needs is not yet available at this stage. With various measures to enhance the quality of KG education, KGs' administration as well as management and accountability under an effective governance framework and EDB stepping up monitoring on KGs' compliance with the rules and regulations, it is expected that the new policy of free quality KG education will bring about substantial improvement to KG education, including more effective catering for students' diverse needs as afore-mentioned.

- End -

(Question Serial No. 6402)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Please provide information on the breach of regulations by registered teachers in the past 5 years, with details on the type of cases and disciplinary actions taken and the number of cases in which registration was cancelled as a result.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 130)

Reply:

For the years from 2011 to 2015, 58 teachers had their registration cancelled or application refused by the Education Bureau. They mainly committed sex offence, sex-related offence or fraud-related offence, and some relatively minor but repeated offences (e.g. operating unregistered school) or had serious integrity problem.

CONTROLLING OFFICER'S REPLY

EDB510

(Question Serial No. 6415)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. What were the number of students in special schools for children with intellectual disabilities and the unit cost per capita in the past 5 years (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
2. What are the number of new students and their age (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
3. What are the number of school leavers and their age (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
4. What are the number of new special school graduates waiting for various types of services for adults (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 163)

Reply:

(1) to (4)

The Education Bureau does not keep school-based personal data and information such as residence status of parents, students' parent background, etc., and is therefore not able to provide the related information as requested.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools for children with intellectual disability from the 2010/11 to 2014/15 school year are set out at Appendix I.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of leavers with age range by day student, 5-day boarding and 7-day boarding, and number of graduates waiting for adult services from the 2010/11 to 2014/15 school year in special schools for children with intellectual disability are set out at Appendix II.

Table 1: The Average Unit Cost per School Place for Each Type of Special Schools for Children with Intellectual Disability from the 2010/11 to 2014/15 School Years

School Type	Average Unit Cost per School Place				
	2010/11	2011/12	2012/13	2013/14	2014/15
Mild Intellectual Disability ^{Note}	\$110,000	\$122,500	\$140,000	\$145,500	\$171,000
Moderate Intellectual Disability ^{Note}	\$185,000	\$198,500	\$216,500	\$218,000	\$239,500
Severe Intellectual Disability	\$242,500	\$263,000	\$278,000	\$281,000	\$313,000

Note: The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 7 schools for children with MiID and children with MoID.

Table 2: The Average Unit Cost per Boarding Place for Each Type of Special Schools for Children with Intellectual Disability from the 2010/11 to 2014/15 School Years

School Type	Average Unit Cost per Boarding Place				
	2010/11	2011/12	2012/13	2013/14	2014/15
Mild Intellectual Disability ^{Note 1}	Not Applicable	Not Applicable	Not Applicable	Not Applicable	Not Applicable
Moderate Intellectual Disability ^{Note 2}	\$168,500	\$177,500	\$190,500	\$198,000	\$233,500
Severe Intellectual Disability	\$214,000	\$226,500	\$242,500	\$255,500	\$294,500

Notes:

1. There is no boarding service for schools for children with mild intellectual disability.
2. The schools for children with moderate intellectual disability (MoID) with boarding section include 1 school for children with MiID and children with MoID with boarding section.

Information on Students of Special Schools for Children with Intellectual Disability (ID schools) from the 2010/11 to 2014/15 School Years

Item			Age Range (Year)	School Year ^{Note 1}				
				2010/11	2011/12	2012/13	2013/14	2014/15
1	Number of Students (No. of Non-Chinese Speaking Students (NCS) ^{Note 2})			5 518 (122)	5 618 (133)	5 637 (147)	5 624 (193)	5 607 (223)
2	Boarders (No. of NCS)	5-day		385 (3)	352 (3)	347 (3)	324 (5)	306 (5)
		7-day		297 (0)	328 (1)	340 (1)	352 (2)	362 (2)
3	New Students ^{Note 3} (No. of NCS)	Day Place	6-20	525 (32)	515 (30)	479 (27)	523 (40)	560 (30)
		5-day Boarding	6-19	55 (1)	40 (0)	39 (0)	45 (3)	31 (1)
		7-day Boarding	6-21	71 (0)	43 (1)	46 (2)	40 (0)	60 (2)
4	Leavers ^{Note 4} (No. of NCS)	Day Place	6-23	428 (5)	462 (8)	532 (12)	599 (12)	569 (23)
		5-day Boarding	6-23	70 (1)	50 (0)	64 (0)	55 (2)	52 (0)
		7-day Boarding	7-23	25 (0)	25 (1)	36 (0)	31 (0)	48 (1)
5	Number of Graduates Waiting for Adult Services ^{Note 5} (No. of NCS)			39 (1)	60 (0)	86 (0)	98 (3)	42 (1)

Notes:

- Number of students of item 1-3 is as at September of respective school year.
- Number of Non-Chinese Speaking Students covers those students whose home language is known to EDB and is NOT Chinese regardless of their ethnicity.
- The number of New Students is counted as follows:
 - Day place:
 - only first admission to ID school is counted;
 - excluding those students transferred between ID schools.
 - 5-day and 7-day boarding:
 - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.
- The number of Leavers is counted as follows:
 - Day place:
 - only last attendance at ID school is counted;
 - excluding those students transferred between ID schools.
 - 5-day and 7-day boarding:
 - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as leavers of that type of boarding.
- Students who completed secondary education are counted.
 - Adult Services include Supported Hostel, Day Activity Centre, Sheltered Workshop cum Hostel, etc.

- (iii) The information was collected from special schools in July and August of the respective school year. As such, the above figures may not reflect the actual situation of the post-school arrangement of the students who left school.

- End -

Question:

Please provide the year-on-year % change for SEN students by grade (from P.1 to S.6) and by diagnosis. Please list the statistics in the past 5 years.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 167)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade levels and by SEN types for the past 5 years (2011/12 to 2015/16 school years) is set out at the Appendix. As student population changes over the years, making direct comparison of the percentage change of students with SEN by grade levels in different cohorts is inappropriate. Besides, since the number of students of some SEN types is relatively small, annual fluctuation will easily cause significant variation in percentage terms, providing the year-on-year percentage change of students with SEN by grade levels and by SEN types can therefore be misleading.

**Number of students with SEN studying in public sector mainstream primary and secondary schools
by grade levels by major SEN types from the 2011/12 to 2015/16 school years**

Question:

How many SEN qualified teachers are in DSS schools? How many SEN qualified teachers are also qualified to teach in English?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 169)

Reply:

Teachers of Direct Subsidy Scheme (DSS) schools are provided with relevant training on par with the teachers in the public sector schools and they can enroll on the Basic, Advanced and Thematic Courses to enhance their professional capacity in catering for students with special educational needs (SEN). We do not collect training information on teachers in DSS schools and thus are unable to provide the information as required.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

The EDB has stated that they do not know how many are on the waiting list at ESF mainstream learning support and Jockey Club Sarah Roe School. However, the government still provides \$28.3 million in subvention. And, ESF administrators have stated that they regularly report waiting list numbers to the EDB. Can the EDB clarify this?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 170)

Reply:

The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. As reported to the Legislative Council Panel on Education in July 2013, the recurrent subvention for ESF's mainstream primary and secondary schools of \$249.7 million will be maintained for three years from the 2013/14 to 2015/16 school years. Starting from the 2016/17 school year, the annual recurrent subvention will be phased out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. The existing recurrent subvention of \$28.3 million a year for students with special education needs (SEN) in ESF's mainstream schools as well as its special school will be excluded from the phasing out arrangement and frozen at the current level pending further review. The subvention of \$28.3 million a year covers part of the administrative expenditure and manpower in the Learning Support Centres set up in ESF mainstream schools, its special school, and other SEN support services. We have been monitoring ESF's use of the subvention by considering the audited accounts, budget and tuition fee revision proposals submitted by the ESF every year. We would seek clarifications or further information from ESF, and ask ESF to explain its financial position if and when necessary.

While we have asked ESF and other private international schools to provide, on a voluntary basis, the aggregate numbers of applicants with SEN placed in their waiting lists under the annual student enrolment survey, we are mindful that the same applicant may be placed in the waiting list of multiple schools at the same time, and students who are admitted to a school may continue to stay on the waiting list of other schools. The number also changes from time to time. We therefore do not have the actual number of applicants waiting for places with SEN support in ESF schools and other private international schools.

EDB515

(Question Serial No. 6422)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The EDB has provided "Details of newly developed or expanded international schools (From 2010/11 to 2014/15 school years)", including number of places added in primary and secondary schools. How many SEN supported places have been added? What are the terms of the service agreement with international schools with regards to SEN support promised?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 171)

Reply:

All vacant school premises and greenfield sites for international school development are allocated through an open and competitive school allocation exercise (SAE) in accordance with prevailing practice. Support to students including students with special educational needs (SEN) has all along been a major consideration under the marking scheme for assessing applications received under SAE for international school development. Favourable consideration will be given to applications which propose appropriate measures to support students with SEN. Under the Service Agreement entered with the Education Bureau, the successful applicants are required to operate the school according to the school proposal submitted, including the proposed support measures for students with SEN. In the last SAE completed in 2015, all of the five successful applicants have included support measures for students with SEN in their school proposals, such as measures to facilitate identification of SEN of students, as well as different approaches to facilitate learning of students with SEN. Some have also specified that they would set aside manpower/resources to specifically cater for the needs of these students.

The number of students with SEN in ESF schools and other private international schools from 2011/12 to 2015/16 school years is at the **Annex**. We understand that most of the international schools do not designate a specific number of places for students with SEN and we do not have readily available information in this respect.

Number of students with special educational needs (SEN) in English Schools Foundation (ESF) schools and other private international schools from the 2011/12 to 2015/16 School Years

School Year	ESF		International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2011/12	143	202	128	86	271	288
2012/13	141	232	190	97	331	329
2013/14	139	239	262	88	401	327
2014/15	136	256	329	163	465	419
2015/16	230*	435*	385	175	615	610

* ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and offer three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF has advised that they have standardised their practice by requiring all ESF schools to include in their returns to the student enrolment survey for 2015/16 not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for 2015/16.

Notes : (1) Figures refer to the position as at September of the respective years.

(2) The figures are based on the returns of ESF and other private international schools to the Annual Enrolment Survey conducted by the Education Bureau. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

CONTROLLING OFFICER'S REPLY**EDB516****(Question Serial No. 6423)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The government has reported "No. of students with SEN participated in TSA*". Why is the number of students with SEN reported taking the TSA is greater than total number of SEN students for that grade? For example, for 2013/14, for Primary 3, 4984 students were reported as SEN students participating in TSA. However, in the chart listing all SEN students, in P3, there was a total of 3697 SEN students (combined 8 diagnosis).

Also, why are the number of students with SEN taking the tests declining? There are only 329 P6 students with SEN taking the TSA and 2385 S3 students with SEN taking the TSA. More importantly, the % of SEN students as a proportion of all students taking the TSA is declining between P3 (approx 10%) to P6 (approx 8%) to S3 (approx 4%). Why are fewer SEN students participating in the TSA as they progress in grade?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 172)

Reply:

In compiling statistics of students with special education needs (SEN) in public sector mainstream primary schools, the Education Bureau (EDB) has counted those who have been assessed by specialists as having any of the following SEN types: specific learning difficulties, intellectual disability, autism spectrum disorders, attention deficit/hyperactivity disorder, physical disability, visual impairment, hearing impairment and speech and language impairment.

In the context of Territory-wide System Assessment (TSA), students with SEN reported taking the assessment refer to those who have been provided with facilitation measures according to their needs as requested by schools, such as allowing students to take assessments separately, extending assessment duration, providing auxiliary facilities and equipment, Braille scripts and enlarged scripts, etc.

Since 2012, P6 TSA is implemented every odd-number years. In even-number years, schools will participate in TSA on a voluntary basis. Hence, there will be fluctuation in number of students taking P6 TSA between years. In addition, as the facilitation measures are based on requests made by schools, relevant figures of students with SEN between different levels should not be used for direct comparison.

CONTROLLING OFFICER'S REPLY**EDB519****(Question Serial No. 6426)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Since Learning Support Grants are paid to schools based on Tier 2 and Tier 3 level of the SEN student (as well as top up), then for the past five years, how much learning support grant was paid for Tier 2 level SEN student and how much at the Tier 3 level SEN student (excluding top up)?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 175)

Reply:

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing schools with additional resources including the Learning Support Grant (LSG), professional support and teacher training on top of the regular subvention and encourages schools to adopt the Whole School Approach to support the students with SEN through a 3-Tier Intervention Model, taking into account their support needs.

To further enhance the support for students with SEN, EDB has raised the ceiling of LSG from \$1 million to \$1.5 million per school per annum from the 2013/14 school year. The grant rates of LSG have also been increased by 30% in the 2014/15 school year. From the 2015/16 school year onwards, the grant rates and the ceiling of LSG for each school year will continue to be adjusted annually according to the change in the Composite Consumer Price Index. The expenditure on LSG for the past five years is as follows:

School year	2011/12	2012/13	2013/14	2014/15	2015/16 (revised estimate)
Expenditure on LSG (\$ million)	265.9	293.4	330.9	450.1	500.0

Although LSG is calculated on the basis of the number of students with SEN admitted and the tier of support the students require (with a basic provision for the first one to six student(s) requiring tier-3 support), schools should pool and deploy LSG and other school resources flexibly and holistically for employing additional teachers, teaching assistants, or hiring professional services, etc. to render appropriate support services for students with SEN based on their needs. Hence, providing the information on LSG paid for the students requiring tier-2 and tier-3 support (excluding the basic provision) is not meaningful and can be misleading.

- End -

CONTROLLING OFFICER'S REPLY**EDB520****(Question Serial No. 6739)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide details of the various vacant school premises which have currently been returned to the Government, including their addresses, floor areas, the types of educational institutions to which the original users belonged, the numbers of classrooms and facilities available therein, the duration for which they have been left vacant, their current situations, as well as the finalised uses of the school premises or the sites on which such school premises are located.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 325)

Reply:

It has all along been the Education Bureau's (EDB) policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 106 ex-school premises were under EDB with 29 not being used, 101 ex-school premises were returned to the central clearing house and 27 have been or were going to be demolished for housing or other developments. EDB had subsequently referred four VSP under EDB (out of the above-mentioned 106 ex-school premises) to PlanD under the central clearing house mechanism. In other words, as at end-December 2015, among these 234 VSP, EDB has referred a total of 105 VSP to PlanD. Information on these 105 VSP is set out in the table below:

(Question Serial No. 6759)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (001) Salaries
Programme: (1) Director of Bureau's Office
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Please list the monthly salaries, allowances and other expenses of Mr Eddie NG Hak-kim, the Secretary for Education, in the past 5 years, as well as the amount of his monthly pension and the total amount of his pension after retirement.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 352)

Reply:

The monthly salary in respect of the position of Secretary for Education (SED) was \$282,080 from July 2012 to January 2015 and is \$298,115 with effect from February 2015. No expenditure has been incurred for regularly-paid allowances, job-related allowances and non-accountable allowances for SED. According to the remuneration package for politically appointed officials (PAOs) serving in the fourth-term HKSAR Government, SED and all other PAOs are not entitled to any pension benefits other than the Mandatory Provident Fund contribution by the Government.

CONTROLLING OFFICER'S REPLY

EDB522

(Question Serial No. 6791)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Will the government inform this Council of the list of Chinese language programmes partially or fully funded by the government currently run for non-Chinese speaking students or school leavers, and for each programme, the amount of the funding, the name of the organization running the programmes, the specific target group of the programme (if any), and whether the programme is pegged at any levels of the Qualifications Framework.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 415)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary and secondary schools and the creation of an inclusive learning environment in schools. Among the various support measures, Chinese language programmes for NCS students, funded by EDB and/or different Funds, are offered in collaboration with tertiary institutions and/or non-governmental organisations as appropriate to complement the support offered by schools. Estimated expenditure for the major Chinese language programmes concerned in the 2015/16 school year is tabulated at Annex.

**Chinese language programmes for non-Chinese speaking (NCS) students
offered in collaboration with tertiary institutions and non-governmental organisations
in the 2015/16 school year**

Programme	Organisation commissioned to organise the programme	Target participants	Estimated expenditure in the 2015/16 school year (\$ million)
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in learning the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	The University of Hong Kong	NCS students in primary and secondary schools	3.7
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre	NCS children aged 3 to 9	2.58
Vocational Chinese Language Courses for NCS School Leavers, pegged at Level 1 or 2 of the Qualification Framework with a view to enhancing the employability of NCS school leavers to be launched in mid-2016 or earlier	(a) Vocational Training Council (b) School of Continuing and Professional Education, City University of Hong Kong	NCS school leavers	1.49

Note:

In parallel, eligible schools admitting NCS students are provided with additional recurrent funding to support the learning of the Chinese language of NCS students. With the additional funding and schools' deployment of resources, it is not uncommon for schools to offer Chinese language programmes in collaboration with tertiary institutions and/or non-governmental organisations. The relevant expenses are subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

(Question Serial No. 6792)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education
(3) Secondary Education
(5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

1. the number of ethnic minority students with special educational needs in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by ethnicity; and
2. the number of non-Chinese speaking students with special educational needs in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by ethnicity.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 416)

Reply:

(1) and (2)

At pre-primary levels, support services for children with special educational need (SEN) are provided by the Social Welfare Department. The Education Bureau does not maintain the related data. The number of non-Chinese speaking (NCS) ethnic minority (EM) students with SEN and the number of NCS students with SEN disaggregated by grade level and by ethnicity in public sector mainstream schools and disaggregated by ethnicity in special schools in the 2015/16 school year are set out at Appendix 1 and Appendix 2 respectively. It is a common practice for special schools to adopt flexible grouping across grade levels and individual education plans to cater for the SEN of the students. Presenting the number of students according to grade levels cannot reflect the actual operation of special schools. We do not collect relevant data from Direct Subsidy Scheme schools.

**Number of non-Chinese speaking (NCS) ethnic minority (EM) students with special educational needs (SEN)
in special schools by ethnicity and number of NCS EM students with SEN in public sector mainstream schools by ethnicity and by grade level
in the 2015/16 school year**

CONTROLLING OFFICER'S REPLY**EDB524****(Question Serial No. 6793)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau is allocating funding to primary and secondary schools according to the number of non-Chinese speaking students they admit. In this connection, will the government:

1. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 non-Chinese speaking students in 2015/16 respectively;

	Number of primary schools admitting such a number of non-Chinese speaking students	Names of these primary schools admitting such a number of non-Chinese speaking students	Number of secondary schools admitting such a number of non-Chinese speaking students	Names of these secondary schools admitting such a number of non-Chinese speaking students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

2. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 ethnic minority students in 2015/16 respectively;

	Number of primary schools admitting such a number of ethnic minority students	Names of these primary schools admitting such a number of ethnic minority students	Number of secondary schools admitting such a number of ethnic minority students	Names of these secondary schools admitting such a number of ethnic minority students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

3. tabulate the number of primary and secondary schools where non-Chinese speaking students account for 0%, 1% to 31%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16;

	Number of primary schools where non-Chinese speaking students account for this percentage of the student population	Names of primary schools where non-Chinese speaking students account for this percentage of the student population	Number of secondary schools where non-Chinese speaking students account for this percentage of the student population	Names of secondary schools where non-Chinese speaking students account for this percentage of the student population
0%				
1% to 31%				
31% to 50%				
51% to 70%				
71% to 90%				
More than 90%				

4. tabulate the number of primary and secondary schools where ethnic minority students account for 0%, 1% to 31%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16;

	Number of primary schools where ethnic minority students account for this percentage of the student population	Names of primary schools where ethnic minority students account for this percentage of the student population	Number of secondary schools where ethnic minority students account for this percentage of the student population	Names of secondary schools where ethnic minority students account for this percentage of the student population
0%				
1% to 31%				
31% to 50%				
51% to 70%				
71% to 90%				
More than 90%				

5. if the government refuses to provide the data above, inform the Council of how it and the public can monitor whether there is *de facto* racial segregation in the education system; and
6. given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, inform the Council how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic minority students, whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 417)

Reply:

- (1) to (4) For planning of education support measures, whether students whose spoken language at home is Chinese, rather than their ethnicity, is our concern. According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students, notably ethnic minority (EM) students, ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”, and the percentage of NCS students among all students of these schools in the 2015/16 school year are tabulated at Annex A. It is the established practice

that we do not disclose the name and situation of individual schools so as to avoid unnecessary misconception and possible labelling on individual schools.

- (5) We note the concern about the percentage of NCS students in individual schools with regard to the provision of an immersed Chinese language environment in schools to facilitate their learning of the Chinese language. After thorough deliberation, stakeholders generally considered it necessary to take into account the worries and views of some NCS students and parents about school choice as well as concerns of schools. On balancing the views of different stakeholders, the Education Bureau (EDB) revised, in the 2013/14 school year, the mode of support to schools admitting NCS students by abolishing the so-called “designated schools” system. Starting from the 2014/15 school year, EDB has allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools.

Besides, to enable NCS students studying in schools with a relatively high concentration of NCS students to learn together with Chinese-speaking students, we have been actively encouraging the schools concerned to form learning circles for Chinese learning activities (such as buddy reading programmes) in collaboration with schools admitting a larger number of Chinese-speaking students, and/or launch programmes for promoting awareness of cultural diversity (for example, engaging NCS students in community services) with a view to exposing NCS students to more Chinese through learning activities outside school and interaction with their Chinese-speaking peers. In addition to the implementation of the “Learning Framework”, schools receiving the additional funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. The schools concerned have generally deployed about 10% of the additional funding provided for appointment of EM assistants and/or procurement of translation services to strengthen communication with NCS parents and organise multi-cultural activities. Regarding individual schools which have admitted more NCS students, some have, in collaboration with the tertiary institution, set up the Chinese Language Learning Support Centre in their schools to strengthen the support to the students concerned. They have also actively engaged their NCS students in community activities with a view to enhancing their interaction with their Chinese-speaking peers and broadening their exposure to Chinese.

- (6) EDB is committed to encouraging and supporting NCS students’ integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in English and Chinese and there is a designated webpage on the education services for NCS students. The information or publications published with translation into major EM languages provided to NCS parents and students are tabulated at [Annex B](#). In tandem, EDB has been promoting parent education emphasising that parents (including NCS parents) should take into account the aspirations and needs of their children when making school choices, and encouraging NCS parents to consider schools which can provide more immersed Chinese language learning environment for the NCS students. EDB has, starting from the 2015/16 school year, distributed the English version of the School Profiles to each NCS student to help NCS parents grasp the basic information of all public sector schools. EDB will continue to encourage schools to keep on enriching the contents of the English School Profiles and school websites. Besides, dedicated briefing sessions with simultaneous interpretation services will continue to be organised for NCS parents. EDB has also been encouraging schools to organise parents’ visits to schools on a school / district basis for parents (including NCS parents) to get to know more about the schools before making school choices.

Number of schools with non-Chinese speaking (NCS) students ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”, and the percentage of NCS students among all students of such schools in the 2015/16 school year

2015/16 school year	Number of NCS students						
	0	1 to 9	10 to 25	26 to 50	51 to 75	76 to 90	91 or above
Primary schools							
Number of schools	146	217	57	21	6	2	26
Percentage of NCS students among all students of the schools	0%	0.1% - 6.1%	1.1% - 29.2%	3.6% - 31.8%	8.9% - 54.9%	19.8% - 21.5%	17.1% - 98.8%
Secondary schools							
Number of schools	175	193	41	12	8	0	25
Percentage of NCS students among all students of the schools	0%	0.1% - 1.9%	1.0% - 7.1%	2.6% - 9.4%	4.5% - 23.4%	-	15.9% - 98.9%

Notes:

- Figures refer to the position as at September 2015.
- The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
- The data cover NCS students in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum. Figures do not include students in special schools.

CONTROLLING OFFICER'S REPLY

EDB525

(Question Serial No. 6794)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

- (1) whether all official information of the Education Bureau is available in both Chinese and English, our official languages;
- (2) the number of English-language parent briefing sessions conducted on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (3) the number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in the 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (4) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choice, that are only available in Chinese but not English;
- (5) the list of information disseminated or publications published by the Education Bureau, including its school directories and reports on schools' qualities, particularly those that inform parents and students of their school choice, that are available in both printed and web versions in Chinese but only available in web versions in English;
- (6) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choice, that are available in languages other than Chinese and English, and what languages they are available in; and
- (7) if some information about schools and the education system given by the Education Bureau is available in Chinese only, how non-Chinese speaking parents can make an informed school choice for their children and whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 418)

Reply:

- (1) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.
- (2)&(3) To facilitate participation of non-Chinese speaking (NCS) students and parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English with simultaneous interpretation services are organised annually in two modes, i.e. briefing sessions open to all NCS parents and briefing sessions for NCS parents in individual kindergartens or primary schools upon their requests. A total of 9 sessions on POA which were open to all NCS parents were organised in each of the school years from 2012/13 to 2015/16 in Wan Chai, Kwun Tong and Kowloon City, which are easily accessible to parents. The number of participating parents in the briefing sessions was 248, 333, 316 and 311 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. As regards SSPA, in the light that it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on school choices to Primary 6 students and parents, one briefing session open to all NCS parents was organised in Sham Shui Po in each of the school years from 2012/13 to 2015/16. The number of participating parents was 49, 70, 66 and 73 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. We have not kept a separate record of the briefing sessions organised on request of individual kindergartens or primary schools, which may vary over the years and are therefore unable to provide the related number.
- (4)&(5) All information related to school choices is available in both Chinese and English on the Bureau's website. Relevant information is also published in other language versions where applicable to facilitate the reference by NCS communities.
- (6) EDB is committed to encouraging and supporting NCS students' integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in English and Chinese and there is a designated webpage on the education services for NCS students. We also provide NCS parents and students with the list of information or publications published in both Chinese and English with translation into major ethnic minority languages as tabulated at Annex.
- (7) As elucidated in (6) above, information about the education system and schools published by EDB is not in Chinese only. EDB has been promoting parent education highlighting that parents (including NCS parents) should take into account the aspirations and needs of their children when making school choices, and encouraging NCS parents to consider schools which can provide more immersed Chinese language learning environment for NCS students. Dedicated briefing sessions with simultaneous interpretation services will continue to be organised for NCS parents. In tandem, EDB has been encouraging schools to organise parents' school visits on a school / district basis to enable parents (including NCS parents) to get to know more about the schools before making school choices.

CONTROLLING OFFICER'S REPLY**EDB526****(Question Serial No. 6795)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau is allocating funding to primary and secondary schools according to the number of non-Chinese speaking (NCS) students they admit. In this connection, will the government inform this Council:

1. for the purpose of funding purpose, how the Education Bureau determines whether a student is an NCS student; and
2. whether the Education Bureau determines if a student is an NCS student during the Primary One Allocation and the Secondary School Place Allocation processes respectively; and if so, how.

In the Primary One Allocation process, the Education Bureau asks parents / guardians to indicate on the "Application Form for Admission to Primary One" if the applicant child "Cannot use Chinese as learning medium" (item 7 on the application form). In addition, according to the "Notes on How to Complete the 'Application Form for Admission to Primary One'" published by the Education Bureau in 2015 and 2016, "if parents / guardians claim, on the application form, that the applicant child cannot use Chinese as the learning medium," they may choose from a list of eight schools, listed in Appendix 3 of the document, that traditionally admit more non-Chinese speaking students. Will the government also inform the Council:

3. how many applicants checked the option "Cannot use Chinese as learning medium" on the "Application Form for Admission to Primary One" in 2011/12, 2012/13, 2013/14, 2014/15, 2015/16, and 2016/17 school years admission respectively; and
4. What percentage of the students who checked the option "Cannot use Chinese as learning medium" entered one of the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" in the in 2014/15, 2015/16, and 2016/17 school years admission respectively.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No.419)

Reply:

1. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students.
2. The Government is committed to encouraging and supporting NCS students' integration into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. The Education Bureau (EDB) ensures equal opportunities in school admission for all

eligible children (including NCS children) and NCS children's learning of Chinese on par with their Chinese-speaking counterparts. The same arrangements are applicable to all eligible students, irrespective of whether they are Chinese speaking or non-Chinese speaking, for admission to Primary 1 and Secondary 1 under Primary One Admission (POA) and Secondary School Places Allocation respectively. Taking into account the worries and views of some NCS children at tender age and parents about studying in schools with a handful of NCS students, EDB flexibly allows parents, who choose to indicate in the application form of POA that the applicant child cannot use Chinese as the learning medium, to choose schools traditionally admitting more NCS students in addition to schools in the school net in which they reside when filling in Part B of the Choice of Schools Form at the Central Allocation stage.

Apart from keeping on encouraging parents to arrange their NCS children to study in schools with an immersed Chinese language environment as early as possible to facilitate their mastery of the Chinese language, EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" in schools to help NCS students overcome the difficulties of learning Chinese as a second language and the creation of an inclusive learning environment in schools.

3. The number of applicants who checked the option "Cannot use Chinese as learning medium" on the application form of POA is 595, 631, 665, 679 and 700 in the 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. POA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
4. The percentage of students who checked the option "Cannot use Chinese as learning medium" and were subsequently admitted by schools traditionally admitting more NCS students is 52.3% and 48% in the 2014/15 and 2015/16 school years respectively. POA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.

CONTROLLING OFFICER'S REPLY**EDB527****(Question Serial No. 6946)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give the position of the vacant school premises at present, including the district lands office to which they belong, their locations, areas, availability dates, land status, and the current planned use by district.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 525)

Reply:

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house mechanism; 14 have been reused or reallocated/ planned for educational use, nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are in the Table below:

Table – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and Western	2008/09	1 600	School Use
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use

4	Kwun Tong	2010/11	2 900	School Use
5.	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

For the nine VSP earmarked for school or other educational use, EDB has launched a School Allocation Exercise in February 2016 for one of these premises. EDB would assess and update the proposed educational use of the VSP under EDB from time to time.

(Question Serial No. 6949)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the distribution of the numbers of students with special educational needs (SEN) by District Council district, primary and secondary levels and types of SEN, as well as their proportions in the total number of students in their respective districts.
2. What does the Education Bureau (EDB) think of the situation in which the proportions of students with SEN in certain districts are significantly higher and how will it cater to the needs as far as the injection of resources and the formulation of policies are concerned?
3. At the frontline implementation level, is there currently any communication and collaboration mechanism between the districts offices of the EDB and the Social Welfare Department to support families of students with SEN?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 530)

Reply:

(1) to (2)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Intensive Remedial Teaching Programme and Integrated Education Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The provision of the above mentioned additional resources and professional support is based on various parameters such as the number of students with SEN, their level of support required, the number of classes or by applications of individual schools when need arises, but irrespective of the districts of schools. As the needs of individual schools have already been taken into account in the provision, breaking down the number of students by districts for comparison of resources is not meaningful and can be misleading.

The number of students with SEN studying in public sector mainstream primary and secondary schools by SEN types in the 2015/16 school year is as follows:

	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment
Primary	8 370	660	4 420	3 850	120	30	280	2 100
Secondary	11 020	930	2 380	4 350	190	80	390	300

(3)

In supporting students with SEN, the EDB and the Social Welfare Department (SWD) have different roles and duties. All along, the EDB has maintained communication and collaboration with SWD to ensure orderly service delivery within our own professional ambit, including provision of assessment, treatment and referral services for students with SEN, as well as arrangement of rehabilitation services and family support services for them.

(Question Serial No. 7070)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. In respect of the current ratio of school-based educational psychologists of the Education Bureau (excluding hiring of services) to students in receipt of the Learning Support Grant, the average number of cases handled by each school-based educational psychologist, as well as the average, highest and lowest number of school visits, please give a breakdown by district as well as by primary and secondary schools.
2. Please provide the wastage rate of educational psychologists in the past 5 years.
3. Please provide the number of cases in which students suspected to have dyslexia have yet to be assessed by educational psychologists. Please list out the respective number by primary and secondary schools, and also by study level.
4. Please list out and give an account of the support and adaptation being provided by schools for suspected cases.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 626)

Reply:

(1)

The School-based Educational Psychology Service (SBEPS) adopts a comprehensive and integrated service model that aims at enhancing schools' capacity to cater for students' diverse educational needs. The support rendered to schools by the educational psychologists (EPs) encompasses the school system, teacher support, and student support levels. Specifically, EPs provide assessment and intervention for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases. By enhancing the school support system and teachers' knowledge and skills in catering for students' diverse needs, all students in the participating schools will benefit from the provision of SBEPS directly or indirectly. Thus, reporting the ratio of EP to students receiving the Learning Support Grant can be misleading. Likewise, reporting the average number of cases handled by each EP does not reflect comprehensively the actual service provided under SBEPS and can also be misleading.

Under SBEPS, one EP serves six to ten schools. EPs visit their schools regularly throughout the school year. The number of visit days paid to each school varies, depending on the specific needs of the schools and their students. Besides, as EPs may serve both primary and secondary schools in different districts, breakdown on the number of school visits by district and by level is not available.

(2)

The wastage rate of EPs serving schools under SBEPS in the past five years (i.e. from the 2011/12 to 2015/16 school years) is 0%, 4.2%, 2.8%, 2.5% and 6.7% respectively.

(3) and (4)

The Education Bureau (EDB) has put in place a territory-wide “Early Identification and Intervention of Learning Difficulties Programme” for all public sector primary schools to identify students in primary one (P1) suspected of having learning difficulties, including those suspected with Specific Learning Difficulties. EPs will provide consultation to schools in identifying P1 students at-risk of having learning difficulties and draw up necessary intervention plans for these students. Schools will arrange prompt learning support for these students, with reference to the remedial teaching packages developed by EDB. They will also collaborate with the parents on homework and assessment accommodation, and provide ongoing monitoring of the progress of the students to facilitate adjustment of the early intervention measures. As we do not capture the information about the suspected cases, we are unable to provide the figures as requested. For students showing severe or persistent learning difficulties despite the intervention rendered, schools will refer them to EPs or other professionals as appropriate for assessment. In the 2014/15 school year, about 85% of the cases referred to EPs were assessed within two months and about 90% within four months. The remaining cases with a longer waiting time for assessment were often due to some specific circumstances. For example, there were cases whose parents requested to defer the assessment and cases in which the assessment had to be held up pending the students’ medical treatment.

(Question Serial No.7071)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education, (4) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Government provide the following information:

1. The number of teachers who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau in the last 5 financial years with a breakdown by kindergarten, primary and secondary school teachers.
2. The number of Chinese and English language teachers currently in schools who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau, and their percentage shares in the Chinese and English language teachers of the same class level.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 627)

Reply:

(1) and (2)

The Education Bureau launched a five-year teacher professional development framework on integrated education in the 2007/08 school year, under which structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers in primary and secondary schools to enhance their capacity in catering for students with special educational needs (SEN). The number of teachers who attended the BAT Courses from the 2010/11 to 2014/15 school years is set out at the Appendix. Figures for the 2015/16 school year are not yet available.

Since the BAT Courses are intended to equip teachers, regardless of which subject(s) they teach, with the expertise in supporting the students with SEN, we do not have the number of language teachers who have attended the BAT Courses or their percentage share in the population of language teachers.

**Numbers of teachers attending the Basic, Advanced and Thematic Courses
from the 2010/11 to 2014/15 school years**

Course	Teachers	School Year				
		2010/11	2011/12	2012/13	2013/14	2014/15
Basic	Primary	111	156	136	232	230
	Secondary	279	234	373	412	360
Advanced	Primary	133	174	103	103	83
	Secondary	189	237	176	169	101
Thematic	Primary	570	610	160	226	167
	Secondary	527	417	255	338	347

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the distribution of all students with special educational needs (SEN) by grade level (from K1 to F.6) in Hong Kong for the past 5 school years, as well as the total number of students with SEN proceeding to study sub-degree programmes, the total number of students with SEN proceeding to study UGC-funded degree programmes, the total number of students with SEN proceeding to study self-financing degree programmes, the total number of students with SEN proceeding to study postgraduate level programmes and the total number of students with SEN proceeding to overseas studies at tertiary institutions. The above information is to be broken down by the 9 main types of SEN.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 682)

Reply:

The major types of special educational needs (SEN) adopted by the Education Bureau for SEN related matters are Specific Learning Difficulties, Intellectual Disability, Autism Spectrum Disorders, Attention Deficit/Hyperactivity Disorder, Physical Disability, Visual Impairment, Hearing Impairment and Speech and Language Impairment. The number of students with SEN studying in public sector mainstream primary and secondary schools from the 2011/12 to 2015/16 school years by grade level and eight SEN types is set out at Appendix 1. At pre-primary levels, services for children with SEN are provided by the Social Welfare Department. The Education Bureau does not have the related data.

Based on the information provided by the post-secondary institutions, the number of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes under the University Grants Committee-funded (UGC-funded) and non-UGC-funded institutions from the 2011/12 to 2015/16 academic years is set out at Appendix 2. We do not have information on the number of students with SEN proceeding to study postgraduate level programmes and overseas studies at tertiary institutions.

CONTROLLING OFFICER'S REPLY**EDB533****(Question Serial No. 7124)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the Vocational Development Programmes and Youth Colleges under the Vocational Training Council (VTC) in the past 5 years by expenditure, enrolment, training hours, completion rate and the industries concerned.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 690)

Reply:

The Youth College (YC) of the Vocational Training Council (VTC) provides a variety of vocational and professional education programmes for graduates of Secondary 3 or above including the Diploma of Vocational Education (DVE), Diploma of Foundation Studies (DFS), etc. These programmes help students build a solid foundation for further studies and employment. The training hours vary depending on the type of programmes enrolled. For example, the DVE programmes adopt a curriculum structure made up of credit-based modules with multiple entry and multiple exit points. It allows flexible exit at various intermediate stages with the awards of Certificate of Vocational Education, Certificate of Basic Craft Studies or Certificate of Technician Foundation Studies or continuing on to obtain the final award of DVE. Students who have completed Secondary 3 normally take three to four years to obtain the DVE award. Most YC students who are enrolled in DVE and DFS programmes would normally attend a full-time course of about 700 to 1 000 training hours per academic year (AY). As the facilities in different campuses are often shared by students of different levels of programmes offered by VTC, and staff may be deployed to different campuses as and when required, the expenditure for YC alone is not available.

The number and the graduation rate of students attending full-time and part-time vocational and professional education programmes in the eight campuses of YC in the recent five AYs are as follows –

AY	Number of students at all years	Graduation rate*
2011/12	5 570	71%
2012/13	8 844	65%
2013/14	10 347	76%
2014/15	10 499	78%
2015/16 (provisional)	11 050	Not available yet as students will graduate in August 2016

* Number of graduating students is taken as a percentage of the number of final year students who have obtained an award.

The Vocational Development Programme (VDP) offers courses which target youths aged between 14 and 24. Each course lasts for 300 training hours delivered over a three-month period. VDP is funded by the Employees Retraining Board (ERB) and the Labour and Welfare Bureau (LWB), with expenditures from 2011-12 to 2015-16 listed as follows –

Financial Year	\$ million
2011-12	30
2012-13	25
2013-14	25
2014-15	22
2015-16	22

The training for participants aged between 15 and 20 is funded under ERB. The training for the remaining participants is funded under LWB.

The number of students and the completion rate of VDP are listed below –

AY	Number of students	Completion rate
2011/12	990	70%
2012/13	811	71%
2013/14	786	67%
2014/15	631	73%
2015/16	Staggered intakes over the year; admission is still in progress	

YC's programmes and VDP courses are offered in various disciplines/fields, including business, beauty care and hairdressing, design, engineering, catering, information technology, etc.

EDB534

(Question Serial No. 7125)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Would the Government inform this Committee of the following:

1. What was the number of young people/children who needed to change school due to domestic violence in each year from 2007 to 2012? What was the male-to-female ratio?
2. What was their learning progress after they changed school? (For instance, did they need to repeat class or take supplementary classes?)
3. Are there any measures taken by schools to support these students? If yes, please provide the information in table form. If no, what are the reasons?
4. What amount of resources is needed every year? Please list the information in table form.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 691)

Reply:

(1) to (3) The Education Bureau (EDB) does not have statistics about the school-aged children who need to change school due to domestic violence and other information such as the learning progress of individual students. EDB provides placement assistance to school-aged children upon request. If there is information indicating that the school transfer warrants schools' particular attention, EDB will contact the schools concerned for appropriate arrangement to meet the specific needs of the students.

To support students in need, schools currently adopt a Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as an induction / adjustment programme, peer support scheme and therapeutic group work, etc. to help students adapt to the new learning environment and integrate into the new school life. Schools will also deliver multifarious teaching strategies and counselling services to cater for students' different abilities and aptitude, with a view to helping students solve their learning difficulties and handling their behavioral problems as appropriate.

Students who have been exposed to domestic violence may suffer from fear, distress, anger, confusion and frustration. School personnel have been advised to be sensitive to the traits manifested by the students affected so as to provide them with immediate and necessary assistance, with reference to the "Procedural Guide for Handling Intimate Partner Violence Cases" and the "Procedural Guide for Handling Child Abuse Cases" issued by the Social Welfare Department (SWD). To enhance front-line teachers' awareness in early identification and support of students affected by domestic violence, EDB has collaborated with SWD to organise an annual "Seminar on Helping Students Affected by Domestic Violence". For known student cases, we understand that the family social workers of the Integrated Family Service Centres of the SWD

provide follow-up support for these students and their families. Professional staff of the schools (including school social workers, student guidance personnel and school-based educational psychologists) will work in collaboration with them to help these students solve their family problems.

To enhance students' resilience, schools may also join the support programmes organised by EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for Secondary 2 to Secondary 5 students. EDB also encourages schools to make use of teaching resources, such as lesson plans on "Prevention and Helping Students Affected by Domestic Violence" and "Self-protection" provided by EDB in delivering their guidance service as well as to strengthen their parent education programmes and parent-child activities.

(4) EDB has been providing schools with various resources to meet students' adjustment needs in whole person development. It is not possible to apportion the expenditure involved for the students requiring school transfer because of domestic violence.

Director of Bureau: Secretary for Education
Question:

Could the Administration inform us of the resources allocated by the Government to the skills opportunity schools and the unit cost of each student for the past 5 years and the next financial year?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 693)

Reply:

All skills opportunity schools had completed mainstreaming in August 2005. No government resources were allocated specifically for skills opportunity schools since then, and hence there is no information on the related unit cost per student.

Director of Bureau: Secretary for Education

Question:

In the Budget this year, a \$960 million has been allocated to subsidise certain self-financing undergraduate programmes. Will the Administration please explain why they do not increase the undergraduate and sub-degree intake places directly so that students do not have to take out loans for their education?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 715)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions / Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. Compared to increasing the number of subsidised programme places in the University Grants Committee (UGC)-funded sector, SSSDP should be able to –

- (a) increase the supply of subsidised undergraduate places by leveraging on the supply of the self-financing sector;
- (b) nurture talent in support of specific industries with keen manpower demand;
- (c) encourage the self-financing post-secondary education sector to offer programmes in selected disciplines that meet Hong Kong's social and economic needs by providing targeted financial support; and
- (d) support the healthy and sustainable development of the self-financing post-secondary education sector to complement the UGC-funded sector in broadening and diversifying study opportunities.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the

selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 46% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, about 70% of them have access to post-secondary education. In recent years, the Government has implemented a series of measures, including the SSSDP, to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways. On full implementation of these measures, and given the declining student population, we envisage that there will be sufficient publicly-funded and self-financing first-year first-degree (FYFD) places for all secondary school leavers meeting minimum entrance requirements for university admission by the 2016/17 academic year, assuming the performance of secondary school graduates is maintained at comparable level. We therefore do not see a genuine need to increase UGC-funded FYFD places at this juncture.

CONTROLLING OFFICER'S REPLY

EDB537

(Question Serial No. 5018)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Financial Secretary stated in paragraph 148 of the 2015-16 Budget Speech that, "(I) asked all policy bureaux to achieve more efficient use of resources through re-engineering and re-prioritising. I have also launched the "0-1-1" envelope savings programme to reduce operating expenditure by a total of two per cent over the next three financial years. Resources saved will be re-allocated for new services." Please inform this Committee of the ways of implementing the "0-1-1" envelope savings programme by the Education Bureau in 2015-16, 2016-17 and 2017-18, the services affected and the details of the expenditure involved.

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 51)

Reply:

In the face of an ageing population, shrinking labour supply and slowing economic growth, the Government needs to contain the expenditure to ensure fiscal sustainability. The "0-1-1" envelope savings programme is a fiscal planning tool aimed at achieving more efficient use of public resources through greater efforts in re-engineering and re-prioritization such that the savings can be re-deployed to the implementation of new or enhanced services.

To achieve the savings required under the "0-1-1" programme, the Education Bureau (EDB) has conducted reviews and made necessary adjustments with an aim to enhancing effectiveness in the use of available resources. Through the adjustments, EDB will deliver the savings without compromising the quality of education.

Notwithstanding the savings programme, the recurrent education expenditure for 2016-17 is estimated to increase by \$2.2 billion or 3.1% over 2015-16 revised estimates taking into account the additional resources required for gradual implementation of initiatives introduced in past years and the new initiatives to be launched in 2016-17. In addition, starting from 2017/18 school year, EDB will implement the new free quality kindergarten education policy and provide kindergartens with direct subsidy. It is estimated that Government's recurrent expenditure for pre-primary education will substantially increase to about \$6.7 billion in 2017/18 school year, representing an increase of \$2.8 billion or 72% over that of 2015-16 revised estimates.

989	Applied Learning (ApL) Extension Programme for Workplace Experience	4.8	-	-	2.4	2.4
Sub-total			193.5	398.7	324.0	505.3
Total			197.7	1,400.1	1,325.6	505.3

* The original commitment for the item, as approved on 4 July 2014, was \$144 million. An increase in the commitment is sought in the context of the Appropriation Bill 2016.

This is a new item, funding for which is sought in the context of the Appropriation Bill 2016.

The expenditure under Subhead 700 General non-recurrent may vary significantly year by year due to the following reasons –

- (a) Expenditure items under Subhead 700 General non-recurrent are controlled by both the approved commitment of the item and the current year provision approved for the subhead. The approved commitment of an expenditure item represents the total cost of the project / scheme, which may straddle several years. The actual expenditure of individual project / scheme may vary from year to year depending on its own implementation schedule.
- (b) The sums involved in some projects / schemes are significant, particularly those one-off injections into various funds e.g. Qualifications Framework Fund. The completion of these projects / schemes would cause significant fluctuations in the expenditure under this subhead year by year.

- End -

CONTROLLING OFFICER'S REPLY**EDB539****(Question Serial No. 4939)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (871) Vocational Training Council

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the actual expenditure for 2014-15, the approved estimate for 2015-16, the revised estimate for 2015-16 and the estimate for 2016-17 under Subhead 871, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 57)

Reply:

The breakdown of Subhead 871 required is given below –

		<u>Approved commitment</u>	<u>Actual expenditure 2014-15</u>	<u>Approved estimate 2015-16</u>	<u>Revised estimate 2015-16</u>	<u>Estimate 2016-17</u>
		\$'000	\$'000	\$'000	\$'000	\$'000
1.	Enhancement of information technology infrastructure and services	67,218	7,918	20,133	21,408	10,199
2.	Provision of augmented reality/virtual reality-assisted training facilities and equipment	4,500	Note		2,250	1,570
3.	Enhancement of e-Learning platform and ancillary support services	9,834	1,664	1,580	1,580	1,415
		81,552	9,582	21,713	25,238	13,184

Note: The project "Provision of augmented reality/virtual reality-assisted training facilities and equipment" only commenced in 2015-16.

The estimated expenditure of the above three projects in 2016-17 decreases as compared with the revised estimate in 2015-16 because of the decrease in cash flow requirement in 2016-17.

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (000) Operational Expenses
Programme: Not Specified
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the subventions under Subhead 000 for:

- Code of Aid for primary schools
- Code of Aid for secondary schools
- Code of Aid for special schools
- Direct Subsidy Scheme
- English Schools Foundation junior schools
- English Schools Foundation secondary schools
- Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms
- Miscellaneous educational services
- Vocational Training Council

please give a breakdown of the actual expenditure for 2014-15, the approved estimate for 2015-16, the revised estimate for 2015-16 and the estimate for 2016-17, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 59)

Reply:

The provisions of various subventions under Subhead 000 Operational expenses for 2014-15, 2015-16 and 2016-17 are provided in the table below:

Subventions under Subhead 000 Operational expenses	2014-15 Actual	2015-16 Original Estimate	2015-16 Revised Estimate	2016-17 Estimate
	\$ million	\$ million	\$ million	\$ million
Code of Aid for primary schools	12,204.8	12,868.4	13,271.4	13,882.2
Code of Aid for secondary schools	18,994.9	19,074.1	19,675.8	19,792.4
Code of Aid for special schools	1,975.0	2,127.3	2,170.4	2,241.9
Direct Subsidy Scheme (DSS)	3,383.1	3,557.7	3,671.4	3,800.7
English Schools Foundation (ESF) junior schools	119.0	119.3	118.6	109.0
ESF secondary schools	170.7	171.5	171.1	171.6
Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms	337.6	380.6	375.5	407.1
Miscellaneous educational services	273.1	312.9	294.5	319.1
Vocational Training Council (VTC)	2,129.5	2,141.8	2,238.4	2,238.3

The major reasons for the changes over years for respective subventions are as follows:

- (a) Code of Aid for primary schools, secondary schools and special schools: The increase in 2015-16 over 2014-15 is mainly due to increased provision arising from 2015 pay adjustment, the increase in the graduate teacher ratio in primary schools and the full year payment for various measures introduced in the 2014/15 school year, including the provision of free lunch at schools for eligible needy primary students, career and life planning grant in secondary schools, etc. The increase in 2016-17 over 2015-16 is mainly due to further increase in the graduate teacher ratio in primary schools and increased provisions for various existing grants to schools.
- (b) DSS: The increase in 2015-16 over 2014-15 is mainly due to increase in DSS unit subsidy rates largely as a result of 2015 pay adjustment, the progressive increase in the graduate teacher ratio in primary schools and the full year payment for various measures introduced in the 2014/15 school year, including the provision of free lunch at schools for eligible needy primary students, career and life planning grant in secondary schools, etc. The increase in 2016-17 over 2015-16 is mainly due to increase in projected student enrolment and increase in projected DSS unit subsidy rate.
- (c) ESF junior schools and ESF secondary schools: The financial provisions include subventions to nine ESF junior schools, five ESF secondary schools and one ESF special school. Pursuant to the outcome of the subvention review, the recurrent subventions to ESF's mainstream primary and secondary schools are frozen at the level as at the 2012/13 school year for three years from the 2013/14 school year until the 2015/16 school year and will be phased out in 13 years starting from the 2016/17 school year.
- (d) Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms: The increase over the years is mainly due to increase in the rental / rateable values.

- (e) Miscellaneous educational services: The financial provision mainly includes subventions to education related organisations and government subsidy to non-governmental organisations for running school programmes. The increase over the years is mainly due to increased provision for school programmes.
- (f) VTC: The increase in 2015-16 over 2014-15 is mainly due to increased provision arising from 2015 pay adjustment.

- End -

Notes

1. Some government grants are not received by most of the aided and government schools, or are received by a few schools only. To present a more realistic picture of the unspent balance of grants kept by individual schools, this Annex only shows information on those grants that were received by the majority of aided and government schools (i.e. more than 50% of the aided and government secondary schools, the aided and government primary schools, or the aided special schools as appropriate) from the Government.
2. Information on government grants disbursed to aided and government schools and the respective unspent amount of government schools are provided on a financial year basis, while the respective unspent amount of aided schools is provided on a school year basis.
3. Information on the unspent amount of government grants for aided schools for the years 2014-15 and 2015-16 are not available as the schools have yet to submit their annual audited accounts.
4. Amount unspent is calculated after taking into account the amount brought forward from the previous school/financial year and after deduction of the excessive surplus amount to be refunded to the Government.
5. Information on government grants disbursed to aided and government schools for the financial year 2015-16 is the position up to 29.2.2016.

CONTROLLING OFFICER'S REPLY**EDB543****(Question Serial No. 4943)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Regarding the measure implemented by the Government to progressively reduce the number of students allocated per S1 class in public sector secondary schools in the 2015/16 school year, please give, for each of the 18 school districts, a breakdown on the numbers of schools involved and their total number:
- (i) the numbers of schools accepting or not accepting this measure and their percentages;
 - (ii) among the schools accepting this measure, what are the numbers of schools choosing “2-1-1” or “1-1-1” options and their percentage share in the total number of public sector secondary schools in the territory;
 - (iii) the numbers of classes and places reduced in schools choosing “2-1-1” or “1-1-1” options in the 2013/14 school year;
 - (iv) the number of schools which have to freeze teacher establishment due to under-enrollment after the introduction of “2-1-1” or “1-1-1” options, as well as the actual number of teachers affected.
- (b) In the 2015/16 school year, the Government will continue to reduce 1 place per S1 class in schools accepting the measure. Please give, for each of the 18 school districts, a breakdown on the number of S1 places to be reduced each year.
- (c) Does the Administration have other corresponding measures to help schools and teachers cope with the decline in S1 student population?

Asked by: Hon IP Kin-yuen (Member Question No. 61)

Reply:

- (a)(i) When mapping out the series of targeted relief measures announced in end-2012 with a view to maintaining the stability and strengths of public sector secondary schools and the teaching force, the Education Bureau (EDB) has given due consideration to the transient decline in Secondary One (S1) student population in recent years. Taking into account the school sector's proposal to reduce the number of students allocated per S1 class, EDB, aiming to strike a balance between the concerns and interest of different stakeholders including parents and the school sector, has further implemented the progressive reduction of the number of students allocated per S1 class on a year-on-year basis by “2-1-1” and “1-1-1” for schools to opt for the period from the 2013/14 to 2015/16 school years. The number of schools adopting reduction of the number of students allocated per S1 class by district and their percentage in the 2015/16 school year is tabulated at [Annex 1](#).

- (ii) The number of schools choosing the “2-1-1” or “1-1-1” option and their percentage share in the total number of public sector secondary schools in the territory is tabulated at Annex 2.
 - (iii) The number of places reduced in schools choosing the “2-1-1” or “1-1-1” option with the number of classes involved by district in the 2013/14 school year is tabulated at Annex 3.
 - (iv) Under the package of targeted relief measures introduced in the 2013/14 school year to address the temporary decline of the S1 student population, aided schools with reduced number of S1 classes from the 2013/14 to the 2015/16 school years are allowed to retain their surplus teachers for three school years. However, there is no such arrangement in this measure to allow schools to freeze their teaching staff establishment as depicted in the question asked. Hence, we are unable to provide the information related to the freezing of teaching staff establishment.
- (b) The number of S1 places reduced in the 2015/16 school year according to the measure is tabulated at Annex 4.
- (c) The package of targeted relief measures EDB has implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in S1 student population. In gist, the targeted relief measures include:
- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
 - ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
 - iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

To further stabilise the teaching force, the Chief Executive has announced in the 2016 Policy Address that schools with surplus teachers arising from reduction of S1 classes in the 2013/14 and 2014/15 school years, if in need, may apply to extend the retention period for these surplus teachers up to the 2017/18 school year.

(Question Serial No. 4944)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (-) Not Specified
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding duty visits outside Hong Kong made by the Secretary for Education and the Permanent Secretary for Education in their official capacities, please provide the dates, reasons for visits, number of entourage, the related expenditure incurred and the details in the three financial years from 2013-14 to 2015-16, as well as the estimate in this regard for the 2016-17 financial year.

Asked by: Hon IP Kin-yuen (Member Question No. 62)

Reply:

Information about duty visits outside Hong Kong made by Secretary for Education (SED) and Permanent Secretary for Education (PS(Ed)) in the past three years from 2013-14 to 2015-16 are at Annexes A to B respectively.

In 2016-17, duty visits will be conducted based on operational needs and prior approval is needed before related expenses are incurred. In making an application for duty visit, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. The duty visit expenditure will be governed by relevant regulations and guidelines and charged to the relevant votes to ensure effective control and use of public money.

**Duty visits outside Hong Kong made by
Secretary for Education from 2013-14 to 2015-16 up to 8 March 2016
(as at 8 March 2016)**

CONTROLLING OFFICER'S REPLY**EDB545****(Question Serial No. 4945)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (950) Hong Kong Examinations and Assessment Authority

Programme: Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) Please provide a breakdown of the 2014-15 actual expenditure, 2015-16 approved estimate, 2015-16 revised estimate and 2016-17 estimate under Subhead 950, and explain any changes in expenditure.

(2) Regarding the Hong Kong Diploma of Secondary Education Examination conducted by the Hong Kong Examinations and Assessment Authority in 2012-13, 2013-14 and 2014-15, please give a breakdown of the following:

(a) the number of appeal applications received (please list out separately the appeals for rechecking scores and appeals for remarking scripts) by subject, the number of cases with result upgraded after review, the expenditure involved and the amount of fees refunded; and

(b) the number of appeal review applications received by category, the number of cases with different results after review by category, the expenditure involved and the total amount of fees refunded.

Asked by: Hon IP Kin-yuen (Member Question No. 63)

Reply:

(1) The actual expenditure for 2014-15, approved estimate for 2015-16, revised estimate for 2015-16 and estimate for 2016-17 of Subhead 950 Hong Kong Examinations and Assessment Authority are listed below:

Subhead	Actual expenditure 2014-15 (\$ million)	Approved estimate 2015-16 (\$ million)	Revised estimate 2015-16 (\$ million)	Estimate 2016-17 (\$ million)
950 - Hong Kong Examinations and Assessment Authority (HKEAA)	5.848	-	-	-

The expenditure under this Subhead is subvention for HKEAA for the development of Hong Kong Diploma of Secondary Education Examination system. As the project has been completed in 2014-15, there is no estimate for this Subhead for 2015-16 and 2016-17.

(2) HKEAA is a statutory body established under the Hong Kong Examinations and Assessment Authority Ordinance which operates on a self-financing basis. Regarding the Hong Kong Diploma of Secondary Education (HKDSE) Examination conducted in 2013 to 2015, HKEAA has provided the following information -

- (a) The number of appeal applications by subject, the number of cases with results upgraded after review, the expenditure involved and the fees refunded to applicants are at Appendix 1.
- (b) The number of appeal review applications by category, the number of cases with different results after review, the expenditure involved and the fees refunded to applicants are at Appendix 2.

Categories of school fee	DSS	ESF	Private	International	
Annual school fee under \$10,000					
Annual school fee between \$10,000 and \$20,000					
Annual school fee over \$20,000					

(d) Please provide the numbers of primary schools and secondary schools which applied to join DSS in the past 5 school years in the tables below:

Table 20

Districts	No. of aided primary schools which applied to join DSS	number of aided secondary schools which applied to join DSS	No. of private primary schools which applied to join DSS	No. of private secondary schools which applied to join DSS	Other categories	Total

Table 21

Districts	No. of aided primary schools which were granted approval to join DSS	No. of aided secondary schools which were granted approval to join DSS	No. of private primary schools which were granted approval to join DSS	No. of private secondary schools which were granted approval to join DSS	Other categories	Total

(e) How many complaint cases about insufficient consultation by aided schools in applying to join DSS in the past 5 school years were received by the Administration? How many complaint cases about the lack of transparency of the financial status of DSS schools were received? Will the Government continue to subsidise DSS schools in the long run or let DSS schools turn into private independent schools? What are the manpower and expenditure involved in implementing the policy each year?

Asked by: Hon IP Kin-yuen (Member Question No. 64)

Reply:

- (a) The required information on Direct Subsidy Scheme (DSS) primary/secondary schools in the past 5 school years (from the 2011/12 to 2015/16 school years) is tabulated at Appendix 1.
- (b) According to the students' pathway surveys for the secondary 6 and secondary 7 graduates conducted by the Education Bureau (EDB), the number and percentage of secondary 6/7 graduates of government, aided, DSS and local private schools studying Bachelor's degree programmes in Hong Kong, as well as the number and percentage of those students studying Bachelor's degree programmes overseas among those secondary 6/7 graduates studying outside Hong Kong in the past 5 school years (from the 2011/12 to 2015/16 school years) are tabulated at Appendix 2. Relevant information for ESF and international schools is not available as the surveys did not cover these schools.
- (c) EDB does not have the statistics on the number and percentage of students of government, aided, DSS, ESF, private and international schools who are living in public rental housing estates and receiving Comprehensive Social Security Assistance.
- (d) The number of primary schools and secondary schools which have applied to join DSS in the past 5 school years (from the 2011/12 to 2015/16 school years) is tabulated at Appendix 3.
- (e) In the past 5 school years (from the 2011/12 to 2015/16 school years), EDB has received 1 complaint about the lack of transparency of the financial status of DSS schools and 22 complaints about insufficient consultation by aided schools in applying to join the DSS.

The DSS was introduced in 1991 pursuant to the recommendations of the Education Commission Report No. 3. The objectives of introducing the DSS are to inject diversity to our school system and give parents more choices. As the DSS sector has added much desired diversity to our school system, the Government has no plan to turn DSS schools into private independent schools at this stage.

Regarding the manpower and expenditure involved in the implementation of the DSS policy, since the work related to the administration and operation of the DSS cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to segregate the manpower and expenditure allocated for implementing the DSS policy.

Table 2

DSS Primary Schools					
School Year	Average of Subsidy per Student ^{Note 1}	Average of Subsidy per DSS School ^{Note 2}	Median of Subsidy per DSS School ^{Note 2}	Average of Tuition Fee Charged ^{Note 2}	Median of Tuition Fee Charged ^{Note 2}
2011/12	39,338 or 35,950	25,239,000	27,431,000	22,901	21,000
2012/13	43,445 or 40,332	29,004,524	30,510,000	23,189	21,000
2013/14	46,672 or 43,750	31,397,619	32,427,000	23,512	21,000
2014/15	50,073 or 47,117	34,705,524	35,250,000	24,198	22,400
2015/16	52,132 or 49,654	-- ^{Note 3}	-- ^{Note 3}	25,073	23,900

Note 1: The figures show the DSS unit subsidy for each eligible student at the commencement of the respective school years. The higher rate would be applied to schools with an age of 16 years or above while the lower rate to those with an age below 16 years.

Note 2: The amount of subsidy is calculated on a financial year basis. DSS schools admit students on a territory-wide basis and the amount of government subsidy provided for a DSS school is based on student enrolment, school age and calculated in terms of the average unit cost of an aided school place irrespective of the district of the school. Similarly, the tuition fee charged by a DSS school would depend on individual school's needs in delivering education services to students with no direct relation to the location of the school.

Note 3: Since the 2015-16 financial year has not yet been concluded, the amount of subsidy provided to each DSS school is not yet available.

2015/16	S1 – 3: 52,829 or 50,881 S4 – 6: 62,979 or 60,700	-- Note 3	-- Note 3	19,570	22,361	18,000	17,600

Note 1: The figures show the DSS unit subsidy for each eligible student at the commencement of the respective school years. The higher rates would be applied to schools with an age of 16 years or above while the lower rates to those with an age below 16 years. Upon the full implementation of New Senior Secondary academic structure in the 2012/13 school year, the Secondary 7 level has been phased out.

Note 2: The amount of subsidy is calculated on a financial year basis. DSS schools admit students on a territory-wide basis and the amount of government subsidy provided for a DSS school is based on student enrolment, school age and calculated in terms of the average unit cost of an aided school place irrespective of the district of the school. Similarly, the tuition fee charged by a DSS school would depend on individual school's needs in delivering education services to students with no direct relation to the location of the school.

Note 3: Since the 2015-16 financial year has not yet been concluded, the amount of subsidy provided to each DSS school is not yet available.

Table 4

DSS Primary Schools					
School Year	Average of Financial Reserve Note 2	Median of Financial Reserve Note 2	Average Annual Expenditure of Fee Remission and Scholarship Note 3	Median Annual Expenditure of Fee Remission and Scholarship t Note 3	Average No. of Students Benefited from the Scholarship Note 3

Note 1: Relevant information for the 2014/15 and 2015/16 school years is not available as the audited accounts for these two school years are not yet due.

Note 2: The financial reserve refers to the schools' operating reserve which may vary among individual schools and includes the net book value of additional school buildings and constructions within the school premises. DSS schools have varied backgrounds and characteristics irrespective of the district. Figures on a territory-wide basis provide an overall financial situation of the schools.

Note 3: DSS schools are only required to provide information on the total expenditure of fee remission and scholarship in their annual audited accounts. They are not required to provide a separate breakdown for fee remission, scholarship and the number of student beneficiaries.

Table 12

(Number and Percentage of Secondary 6/7 Graduates Studying Bachelor's Degree Programmes Overseas among those Secondary 6/7 graduates studying outside Hong Kong)

School Year ^{Note 2}	Secondary 6/7 Graduates Studying Bachelor's Degree Programmes Overseas		Number of Secondary 6/7 Graduates Studying outside Hong Kong
	Number	Percentage	
2011/12	2 827	66.8	4 234
2012/13	4 194	75.1	5 582
2013/14	4 664	77.2	6 044
2014/15	4 512	81.5	5 548
2015/16 ^{Note 4}	--	--	--

Note 1: A number of schools and secondary 6/7 graduates did not respond to the surveys concerning the secondary 6/7 students' pathway. As the activity status of those non-responded students was likely to be totally different from that of the responded students, the figures provided above should only be taken as a raw reference.

Note 2: Distribution of figures by districts is not available.

Note 3: Schools classified under "Others" include DSS and local private schools while data of Caput schools are included under aided schools.

Note 4: Since the 2015/16 school year has not yet been concluded, the relevant figures are not yet available.

**Number of Primary and Secondary Schools Having Applied to Join DSS
from the 2011/12 to 2015/16 School Years**

CONTROLLING OFFICER'S REPLY

EDB547

(Question Serial No. 4947)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

As to supporting schools to enhance life planning and career guidance services,

- (a) What other measures were implemented by the Administration to help schools take forward life planning work in the past year in addition to the provision for schools? What are the details and expenditure involved?
- (b) Upon turning the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts, what support will be rendered by the Administration to enhance career guidance services and teacher training?

Asked by: Hon IP Kin-yuen (Member Question No. 65)

Reply:

- (a) Starting from the 2014/15 school year, the Education Bureau (EDB) has provided public sector and Direct Subsidy Scheme schools operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG). The CLPG per school is benchmarked to the mid-point salary of the Graduate Master pay scale, i.e. \$541,560 per annum at the 2015 salary level. The total expenditure for the provision of CLPG for the 2014/15 school year is \$264.6 million while the estimated expenditure for the 2015/16 school year is \$273.8 million.

Apart from the provision of CLPG, EDB has also taken measures to strengthen professional support for schools and teachers in providing life planning and career guidance services for students, such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes, promoting professional exchanges among schools and teachers, conducting advisory visits to provide professional advice to schools, engaging business organisations to provide students with career exploration opportunities via the Business School Partnership Programme, disseminating updated information on further studies and career opportunities on the webpage, issuing a Guide on Life Planning Education and Career Guidance for Secondary Schools for reference, etc.

To enhance the readiness of non-Chinese speaking students and students with specific learning difficulties for work and further studies, EDB has also commissioned non-governmental organisations, on a pilot basis, to organise work experience programmes for these students over a three-year period as from the 2015/16 school year. The expenditure for the three-year pilot projects is estimated to be about \$16.6 million.

The Business-School Partnership Programme (BSPP) has been an effective means to provide career exploration for students to exercise successful career planning and management. In the 2014/15 school year, more than 120 organisations collaborated with EDB to organise over 750 activities benefitting some 250 000 students. From September to November 2015, more than 70 BSPP partners have collaborated with EDB to organise over 220 BSPP activities benefitting more than 26 000 students.

(b) As announced in the 2016 Policy Address, schools may turn the existing CLPG into regular teaching posts from the 2016/17 school year. EDB will continue to provide the enhanced support measures as detailed at (a). Besides, EDB will make vigorous effort to promote life planning education, including forging more business partners to expand the variety and scale of career exploration activities for students, arranging activities for parents to enhance their understanding about the importance of life planning education and nurturing the culture of supporting the young generation in life planning. We will continue to pay advisory visits to all eligible secondary schools by the 2016/17 school year. Information collected will serve as useful feedback to inform the future planning of life planning education.

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Primary Education, (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please list the measures and financial provision on improving the learning and teaching of the English Language in secondary and primary schools respectively by the Administration in the past 5 years (2011/12 to 2015/16) and 2016/17; and
- (b) What are the details of expenditure on the Native-speaking English Teacher (NET) Scheme in primary schools and the Enhanced NET Scheme in secondary schools by the Administration in the past 5 years (2011/12 to 2015/16) and 2016/17?

Asked by: Hon IP Kin-yuen (Member Question No. 69)

Reply:

- (a) Throughout the years, we have been implementing various support measures for improving the learning and teaching of English Language in secondary and primary schools. The provision for the purpose totalled \$690.78 million (of which \$40.22 million is from Language Fund) in 2011-12 financial year, \$740.31 million (of which \$37.0 million is from Language Fund) in 2012-13 financial year, \$761.48 million (of which \$34.47 million is from Language Fund) in 2013-14 financial year, \$792.11 million (of which \$35.64 million is from Language Fund) in 2014-15 financial year, and \$845.08 million (of which \$33.27 million is from Language Fund) in 2015-16 financial year.

In 2016-17 financial year, we will continue to improve the teaching and learning of the English Language in primary and secondary schools. The estimated expenditure in 2016-17 is \$876.33 million, of which \$32.74 million is from Language Fund. Details of the support measures are tabulated as below:

Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Scheme for Secondary Schools (EES)	To strengthen the teaching and learning of English of secondary schools through strategic planning with a holistic school-based plan on capacity building of English teachers with a view to enhancing students' English proficiency.

No.	Name of Project	Details
*2.	Refined English Enhancement Scheme for Secondary Schools	To support schools to build on the foundation of EES to adjust and/or refocus relevant items of their plans as appropriate to put in place their school-based fine-tuned Medium of Instruction arrangements.
*3.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
4.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
B. School-based support		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
C. Professional development		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning/teaching (e.g. the teaching of reading skills to upper primary students).
D. Creating a facilitating environment for English learning		
1.	The Native-speaking English Teacher (NET) Scheme for Primary Schools (PNET Scheme)	Under the PNET Scheme, NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools (ENET Scheme)	Under the ENET Scheme, NETs collaborate with local English teachers to enrich the English language environment in schools and to enhance the learning and teaching of English with linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school is provided with a NET.
*3.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*4.	Sponsorship Project	To engage community partners to organize language-related events/competitions in the community.

* Initiatives funded by Language Fund

** The initiative is funded out of Head 173 Student Financial Assistance Agency

- (b) Details of the expenditure over the past 5 years (2011-12 to 2015-16 financial years) and the estimated expenditure for the 2016-17 financial year of the PNET Scheme and the ENET Scheme, are tabulated as below:

	Expenditure (Million)					
	11-12	12-13	13-14	14-15	15-16 #	16-17 (estimated)
PNET Scheme	312.5	328.5	336.3	357.0	317.3	401.7
Enhanced NET Scheme in Secondary Schools	344.5	357.9	350.6	371.2	322.7	429.4

as at 31 January 2016

Question:

The EDB states that it will provide professional support, where appropriate, to schools for national education. In this connection, please provide:

- (a) the details, items and expenditures of the professional support for national education in the past 5 years (2011/12 to 2015/16);
- (b) the specific details and budget involved in the professional support for national education in the year ahead (2016/17); and
- (c) the details of the professional exchange programmes for teachers in the past 5 years (2011/12 to 2015/16) and the year ahead (2016/17), including the programmes completed, programme locations, the Mainland or overseas government departments and organisations involved, as well as the expenditures involved.

Asked by: Hon IP Kin-yuen (Member Question No. 70)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources, provision of Mainland exchange opportunities to complement student's learning in relevant Key Learning Areas/subjects as well as, where appropriate, provision of professional support to schools etc. The professional support includes providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. With staffing and expenditure for most of these items being absorbed by the recurrent expenditure of the Education Bureau (EDB), we are not able to provide a separate breakdown of the professional support to schools from the 2011/12 to 2016/17 school years.

Teachers participate in different kinds of professional exchange programmes through a variety of channels, including those organised by school sponsoring bodies and schools to meet the professional development needs of teachers. Insofar as the mode of study tour is concerned, EDB provides professional exchange for teachers through the "National Day Delegation from the Educational Sector of Hong Kong" (香港教育界國慶訪京暨專業交流團), etc. Apart from this, teachers also participate in the Mainland exchange programmes (MEPs) for students as learning facilitators according to the "1 teacher:10 students ratio". These different types of exchange programmes organised by EDB and the school sector cover different

provinces and cities in the Mainland. The manpower for the implementation of professional exchange programmes for teachers is absorbed in the recurrent expenditure of EDB.

Expenditure on MEPs for teachers from the 2011/12 to 2016/17 school years is as follows:

School Year	Expenditure (\$million) [@]
2011/12	1.9
2012/13	1.0
2013/14	1.3
2014/15 [#]	1.1
2015/16 [*]	1.5
2016/17 ⁺⁺	1.3

[@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau

[#] Actual figures revised from last year's estimates

^{*} Provisional figures

⁺⁺ Estimated figures

Question:

Regarding the Military Summer Camp for Hong Kong Youth co-organised by the Education Bureau (EDB):

- (a) What were the expenditure involved and the staff establishment for the Military Summer Camp for Hong Kong Youth co-organised by EDB and the Hong Kong Garrison of the Chinese People's Liberation Army in the past 5 years (2011/12 to 2015/16)?
- (b) Which Policy Programme and Subhead of EDB does this summer camp fall under? What are the criteria on choosing the co-organisers? Has the effectiveness of the summer camp been assessed? If yes, what are the details?

Asked by: Hon IP Kin-yuen (Member Question No. 71)

Reply:

(a) The "Military Summer Camp for Hong Kong Youth" (The Summer Camp) is jointly organised by the Concerted Efforts Resource Centre, the Hong Kong Garrison of the Chinese People's Liberation Army and the Education Bureau (EDB). EDB has no funding allocation for the Summer Camp. The manpower of EDB for co-organising the Summer Camp is absorbed in the recurrent expenditure of EDB.

(b) The Summer Camp aims to provide discipline training and thematic talks so as to develop morality and leadership potential among students, and to foster their endurance, self-discipline, compliance and spirit of unity. In recognition of the educational value of the activity, EDB has agreed to be one of the co-organisers. After completion of the Summer Camp, feedback of the participants was collected through questionnaires. Based on the information collected, a great majority of the participants reflected that the learning objectives of the Summer Camp were met.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please specify the various funds (such as the Quality Education Fund) set up by the government that have funded programmes relating to national education during the school years from 2011/12 to 2015/16 and the amount of annual funding;
2. Please list out the details of the national education activities that were coordinated or organised by the Education Bureau (EDB) or organised by non-government organisations commissioned by EDB during the school years from 2011/12 to 2015/16; and
3. Please provide a list of the non-government organisations commissioned by the government to organise Mainland exchange programmes during the school years from 2012/13 to 2015/16, as well as the number of exchange programmes organised by each of the organisations and the respective funding involved.

Asked by: Hon IP Kin-yuen (Member Question No. 72)

Reply:

1. The Quality Education Fund (QEF) finances projects for the promotion of quality school education in Hong Kong. It caters for one-off, innovative, worthwhile non-profit making and bottom-up initiatives that support students' learning. It welcomes applications on various themes including national education. In fact, it was one of the priority themes from April 2008 to March 2013 and has been subsumed under values education since April 2013. Details of related programmes can be found in the QEF's website: <https://qcrc.qef.org.hk/>

The approved funding for the projects relating to national education from the 2011/12 to 2015/16 school years is as follows:

School Year	Approved Funding (\$million)
2011/12	7.5
2012/13	3.1
2013/14	2.5
2014/15	4.9
2015/16 (up to 31 Jan 2016)	0

2. Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated in a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching

resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Key Learning Areas/subjects, etc. Apart from offering opportunities for students to join Mainland exchange programmes (MEPs) and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items are absorbed by the recurrent expenditure of the Education Bureau (EDB), expenditure in respect of subsidising MEPs for primary and secondary school teachers and students can be separately identified. Expenditure on MEPs from 2011/12 to 2015/16 school years is as follows:

School Year	Expenditure (\$million) [@]	
	Programmes for students	Programmes for teachers
2011/12	52.3	1.9
2012/13	33.0	1.0
2013/14	37.2	1.3
2014/15 [#]	52.7	1.1
2015/16 [*]	70.5	1.5

- [@] Staffing resources in the provision of MEPs are absorbed by the recurrent expenditure of the Education Bureau
- [#] Actual figures revised from last year's estimates
- ^{*} Provisional figures

3. The EDB-commissioned MEPs are conducted through the prescribed procurement procedures. Among the service providers of MEPs commissioned by EDB, the non-government organisations (NGOs) involved and the number of programmes they provide are as follows:

School Year	NGOs* involved	No. of MEPs provided
2012/13	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	1
2013/14	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	1
	Wofoo Social Enterprises Limited (和富社會企業有限公司)	1
2014/15	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	2
	Wofoo Social Enterprises Limited (和富社會企業有限公司)	1
	Chinese Language Education Research Association Limited (中國語文教育研究學會有限公司)	1
2015/16	Wofoo Social Enterprises Limited (和富社會企業有限公司)	2
	Chinese Language Education Research Association Limited (中國語文教育研究學會有限公司)	1

The contract periods of the NGOs concerned do not fully coincide with the school year and their contract amount cannot be apportioned to the respective school years concerned. Besides, the amount of expenditure for the commissioned programmes depends on the actual number of students who participate in these programmes on a voluntary basis. A breakdown of the funding involved is not available.

- * The list of NGOs refers to those which have been granted tax exemption under Section 88 of the Inland Revenue Ordinance.

Question:

- (a) Please provide the respective number of students pursuing undergraduate, taught postgraduate and research postgraduate programmes in Mainland universities in each of the past 5 years (2011/12 to 2015/16 academic years), broken down by institution.
- (b) Please provide the list of Mainland institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) in each of the past 5 years (2011/12 to 2015/16 academic years).
- (c) Please provide the respective number of student applicants and those admitted under the Admission Scheme in each of the past 5 years (2011/12 to 2015/16 academic years), broken down by institution.
- (d) Please provide the first quartile, median and lower quartile of the Hong Kong Diploma of Secondary Education (HKDSE) examination results of student applicants under the Admission Scheme in each of the past 5 years (2011/12 to 2015/16 academic years).
- (e) Please provide the first quartile, median and lower quartile of the HKDSE examination results of students admitted under the Admission Scheme in each of the past 5 years (2011/12 to 2015/16 academic years).
- (f) How many civil servants in the Education Bureau were involved in handling matters relating to the Admission Scheme in each of the past 5 years (2011/12 to 2015/16 academic years)? What are the details of the staffing establishment? What is the amount of public funds involved?

Asked by: Hon IP Kin-yuen (Member Question No. 73)

Reply:

- (a) Regarding the number of Hong Kong students pursuing studies in the Mainland, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland higher education institutions and research institutes was 15 483 as at October 2015.
- (b) The Ministry of Education has implemented the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) since the 2012/13 academic year. The number of Mainland higher education institutions participating in the Admission Scheme was 63, 70, 75 and 78 in the 2012/13, 2013/14, 2014/15 and 2015/16 academic years respectively, list of which can be downloaded from the website of the Education Bureau at www.edb.gov.hk/expo2011, www.edb.gov.hk/expo12, www.edb.gov.hk/expo13 and www.edb.gov.hk/expo14.

(c) The number of students enrolling in the Admission Scheme in the 2012/13, 2013/14, 2014/15 and 2015/16 academic years was 4 248, 2 278, 3 249 and 2 988 respectively whereas the number of students admitted under the scheme was 976, 1 188, 1 535 and 1 444 respectively. As regards the number of students admitted by individual Mainland higher education institutions participating in the Admission Scheme, the relevant information provided by the institutions for the 2013/14, 2014/15 and 2015/16 academic years was set out in the "Handbook on the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions" for the 2014/15, 2015/16 and 2016/17 academic years, which can be downloaded from the website of the Education Bureau at www.edb.gov.hk/expo13, www.edb.gov.hk/expo14 and www.edb.gov.hk/expo15 respectively.

(d) & (e) As regards the Hong Kong Diploma of Secondary Education examination results attained by those students who had enrolled in or were admitted under the Admission Scheme over the years, we do not maintain such records.

(f) The manpower and related expenditure for implementing the Admission Scheme have been subsumed under the establishment and provision for the Education Bureau. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau introduced the Mainland University Study Subsidy Scheme in August 2014 to provide assistance for needy Hong Kong students to pursue undergraduate programmes in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions.

(a) Please provide by institution the number of enrolment under the Mainland University Study Subsidy Scheme as well as the number of students with full grant and half grant in the past 2 years (2014/15 and 2015/16 academic years)

(b) Please provide by institution the number of attrition among students in receipt of grant under the Mainland University Study Subsidy Scheme.

(c) How many civil servants in the Education Bureau are involved in handling matters relating to the Mainland University Study Subsidy Scheme? What are the details of the staffing establishment? What is the amount of public funds involved?

Asked by: Hon IP Kin-yuen (Member Question No. 74)

Reply:

1. The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

Of the 448 applications received for the 2014/15 academic year, 263 applicants pass the means test, with 152 eligible to receive the full-rate subsidy and the remaining 111 to receive the half-rate subsidy. As for the 2015/16 academic year, 336 new applications were received. Of them, 236 applicants pass the means test, with 161 eligible to receive the full-rate subsidy and the remaining 75 to receive the half-rate subsidy. Including both newly approved applications and subsidy renewal, subsidy was provided to 479 students in total, with 304 receiving the full-rate subsidy and 175 receiving the half-rate subsidy. Breakdowns of the applicants and those receiving the full-rate and half-rate subsidy by institutions in the 2014/15 and 2015/16 academic years are set out in the Annexes 1 & 2 respectively.

2. Three cases of attrition among the students in receipt of the subsidy under the MUSSS have been reported so far.

3. Apart from the three time-limited civil service posts (namely, one Executive Officer I, one Clerical Officer and one Assistant Clerical Officer) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

(Question Serial No. 4957)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

Regarding the annual Mainland Higher Education Expo jointly organised in a row by the Education Bureau of Hong Kong and the Ministry of Education of the Mainland, please:

- (a) provide information on the respective date, venue, theme and turnout of the Mainland Higher Education Expos held in the past 5 years (from the 2011/12 to 2015/16 academic years);
- (b) advise whether the expenses for the Mainland Higher Education Expos jointly organised by the Education Bureau of Hong Kong and the Ministry of Education of the Mainland are shared equally and of the sum of public money drawn from the coffer of the Hong Kong SAR Government to cover the expenses of the Mainland Higher Education Expos in each of the past 5 years (from the 2011/12 to 2015/16 academic years); and
- (c) advise of the number of civil servants from the Education Bureau that were involved in dealing with the Mainland Higher Education Expos in the past 5 years (from the 2011/12 to 2015/16 academic years) and provide information on their ranks and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (Member Question No. 75)

Reply:

- (a) To help local secondary schools, students and parents understand better the details of and arrangements for the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme), the Education Bureau (EDB) and Ministry of Education (MoE) jointly organised the Mainland Higher Education Expos in Hong Kong annually from 2011 to 2015 to inform teachers, students and parents of the particulars of the Admission Scheme and latest development on further studies in the Mainland. Information about the past five Mainland Higher Education Expos is as follows:

Date	Venue	Theme	Approximate number of visitors
10 & 11 December 2011	Queen Elizabeth School	Details and arrangements of the Admission Scheme and the latest development on further studies in the Mainland.	7 500
3 & 4 December 2012	KITEC [^]		7 000
23 & 24 November 2013	KITEC [^]		7 500
1 & 2 November 2014	KITEC [^]		9 000
7 & 8 November 2015	KITEC [^]		12 000

[^] Kowloonbay International Trade & Exhibition Centre (KITEC)

- (b) EDB is responsible for all the costs incurred for organising the Mainland Higher Education Expos. The actual expenditure involved in the organisation of the annual Expos over the past five years is as follows:

Financial Year	Actual Expenditure (\$ million)
2011-12	1.17
2012-13	2.43
2013-14	2.48
2014-15	2.54
2015-16	3.23

At the Expos, Mainland institutions participating in the Admission Scheme set up exhibition booths and held talks to disseminate information on their institutions and disciplines, admission requirements, number of student places, tuition fees, etc. There were also thematic sharing sessions for representatives of the institutions to brief teachers, students and parents on the characteristics of individual specialised programmes and employment prospects of graduates. MoE would support representatives of the Mainland institutions to come to Hong Kong to participate in the Expos at its cost.

- (c) The manpower and related expenditure for organising the Mainland Higher Education Expos have been subsumed under the establishment and provision for EDB. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

- End -

(Question Serial No. 4958)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide a breakdown by institution the total number of courses, estimated intake, actual intake, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, sub-degree and higher diploma programmes offered by self-financing post-secondary institutions in the past 5 years (i.e. 2011/12 to 2015/16 academic years);
- (b) Please provide a breakdown by institution the total number of courses, estimated intake, actual intake, unit cost as well as the tuition fees of the taught postgraduate and research postgraduate programmes offered by self-financing post-secondary institutions in the past 5 years (i.e. 2011/12 to 2015/16 academic years); and
- (c) In the past 5 years (i.e. 2011/12 to 2015/16 academic years), how many civil servants of the Education Bureau were involved in handling matters relating to self-financing post-secondary institutions? What was the staff establishment? How much public funding was involved?

Asked by: Hon IP Kin-yuen (Member Question No. 76)

Reply:

(a) and (b)

The number of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes, their estimated intakes, actual intakes and the average annual tuition fees by institution from the 2011/12 to 2015/16 academic years are set out at **Annexes A to D**. The number of locally-accredited self-financing taught postgraduate and research postgraduate programmes, actual intakes and the average annual tuition fees by institution from the 2011/12 to 2015/16 academic years are set out at **Annexes E and F**. We do not have information on the estimated intakes of post-graduate programmes and the unit costs.

(c)

While the Further and Higher Education Branch of the Education Bureau is responsible for, among others, the policy matters of the self-financing post-secondary education sector, the staff of this Branch also oversees many other subject areas. Therefore, we are unable to provide the staff establishment and related expenditure for handling matters related to the self-financing post-secondary institutions alone.

Notes:

[1] Provisional figures as at late October 2015. The final actual intakes may vary.

[2] Excludes sub-degree programmes provided under the old academic structure.

[3] Figures include intakes under the Study Subsidy Scheme for Designated Professions/Sectors.

[4] Hong Kong Adventist College ceased to accept intake with effect from the 2013/14 academic year.

[5] Pui Ching Academy eventually decided not to offer any programmes in the 2012/13 and 2014/15 academic years. As a result, there were no student intakes in these two academic years.

“-” Indicates that no relevant programmes were offered by the institutions.

@ Figures are not provided by institution due to incomplete admission cycle.

CONTROLLING OFFICER'S REPLY**EDB556****(Question Serial No. 4959)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the number and percentage of schools equipped with wireless internet (WiFi) facilities in the past 5 school years (2011/12 to 2015/16 school years) by district and by the categories of secondary, primary and special schools; and
2. In the past 5 school years (2011/12 to 2015/16 school years), how many schools were subsidised by the Government to install wireless internet (WiFi) facilities? How much public expenditure was involved in it? Please list in detail.

Asked by: Hon IP Kin-yuen (Member Question No. 77)

Reply:

1. According to information collected from schools, as at February 2016, 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project launched in early 2014 and 368 first batch schools under the WiFi-900 project of the Fourth Strategy on Information Technology in Education (ITE4) launched in August 2015 have completed the enhancement of WiFi infrastructure. The figures are broken down as follows –

School type	Number and percentage of schools with enhanced WiFi infrastructure	Total number of schools
Government primary	7 (21%)	34
Government secondary	7 (23%)	31
Aided primary	217 (49%)	443
Aided secondary	209 (49%)	423
Aided special	28 (47%)	60
Total	468 (47%)	991

Note: Aided schools also include local schools under the Direct Subsidy Scheme.

We do not have information on further breakdown of these 468 schools by districts. We also do not have the figure on those schools which have enhanced their WiFi infrastructure using their own funds.

2. We have been providing all public sector schools with an annual recurrent Composite Information Technology (CITG) at amounts ranging from \$189,686 to \$652,397, depending on the school type and the number of classes. School can use the grant to cover expenditure such as Internet service fee, upgrading and replacement of IT facilities including WiFi equipment, purchase of digital resources materials for learning and teaching (including annual subscription/renewal fees for licences and software), etc. The amounts of CITG over the past five financial years are shown in the table below.

Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education, including the installation of WiFi equipment in schools and are not required to report to us on how they have used the grant.

	Amount of CITG
2011-12	\$300 million
2012-13	\$335 million
2013-14	\$328 million
2014-15	\$341 million
2015-16	\$353 million

Apart from CITG, we have also launched the following two e-learning initiatives over recent years to enhance WiFi infrastructure in schools.

We launched the WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to the 100 public sector schools under the WiFi-100 project in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices.

In addition, we launched the ITE4 in August 2015 with a non-recurrent funding of \$105 million, of which around \$40 million was disbursed to the first batch of 412 schools under the WiFi-900 project in 2015-16 as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school for these 412 schools for subscription of WiFi services.

(e) Please give a breakdown by 18 districts and by class level of the numbers of students with one of the parents being non-Hong Kong resident and both parents being non-Hong Kong residents who resided in Hong Kong in the past five school years (2011/12 to 2015/16 school years).

(f) In view of the increasing number of cross-boundary students or newly-arrived students from the Mainland, did the Administration increase the numbers of classes and teachers in schools from 2011/12 to 2015/16 school years? If yes, please list the number of classes and teachers increased and their respective class levels as well as the number of the schools involved and their respective districts? What is the amount of money involved?

Asked by: Hon IP Kin-yuen (Member Question No. 78)

Reply:

(a) The Education Bureau (EDB) does not collect information on the residency status of the parents of cross-boundary students (CBS). Hence, we are unable to provide the requested information.

(b) Under the Pre-primary Education Voucher Scheme, every child, aged 2 years 8 months or above, as at end August prior to the commencing of the new school year, with right of abode, right to land or valid permission to remain without any condition of stay in Hong Kong, may apply for the Certificate of Eligibility. Children meeting the above criteria will be issued with the Certificate of Eligibility by the Student Finance Office of the Working Family and Student Financial Assistance Agency. We do not collect the figures of children issued with Certificate of Eligibility by the category of CBS and hence are unable to provide the information as requested.

(c) In designing the survey for collecting CBS figures, the information of residency status of the parents and the special educational needs of CBS is, among other variables, not the target item. Hence, we are unable to provide the information as requested.

(d) The number of CBS is subject to significant year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc. In addition, kindergarten education has all along been provided by the private sector. Parents may choose a kindergarten suitable for their children with regard to their needs, and admission is at the full discretion of individual kindergartens which may have different admission practices and procedures. It is therefore not plausible to accurately project the overall number of CBS and their geographical distribution in the coming 5 school years.

(e) and (f) EDB does not collect information on the residency status of the parents of students and hence is unable to provide the number of students with breakdown by their parents' residency status. Eligible students, irrespective of whether they are CBS or newly-arrived students from the Mainland, may receive education in public sector schools if they so wish. The year-on-year changes in the total number of operating classes and the number of teachers are due to various factors such as the changes in school-age population by level and by district, parental choices, etc. It is not possible to segregate the impact of CBS and newly-arrived students from the Mainland from other concurrent developments. We are therefore not able to provide the number of additional classes and teachers arising solely from the increase of CBS and newly-arrived students from the Mainland.

- Notes:
- (1) Figures refer to the position as at September of the respective school years.
 - (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
 - (3) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.
 - (4) Local/cross-boundary school coach services are intended for CBS attending kindergartens and primary schools only. These coaches are allowed to carry eligible CBS from kindergartens and primary schools at the same time.

- Notes:
- (1) Figures refer to the position as at September of the respective school years.
 - (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.

(b) According to Police records, for the period from 1 January to 10 March 2016, there were two reported cases of accident at LMCSL CP, each involving minor injury of one CBS (one kindergarten grade and one primary grade). In 2015, there was one reported case of accident at LMCSL CP involving minor injury of one CBS (kindergarten grade). In 2014, there were two reported cases of accident at LMCSL CP, each involving minor injury of one CBS (kindergarten grade) as well as one reported case of accident at SZB CP involving minor injury of three CBS (kindergarten grade). For years before 2014, figures and breakdown are not readily available.

(c) The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to the LW and LMCSL CPs to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the LMC, MKT, STK and SZB CPs; implementation of simplified clearance services at the LMCSL, LW and SZB CPs and on-board clearance services at MKT, STK and LMC CPs. The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary supporting measures to cater for their needs and ensure their safety.

(b) As the number of cross-boundary students is increasing in recent years, what is being and what will be done by the Government to upgrade or improve supporting facilities in schools? What is the amount of expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 80)

Reply:

(a) The number of cross-boundary students (CBS) attending kindergartens (including kindergarten-cum-child care centres), primary schools and secondary schools in Hong Kong and the number of school places in the respective districts from the 2011/12 to 2015/16 school years as requested are tabulated below.

Table 1

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) "NA" indicates that no data were collected from schools in the district in the respective school year.

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) Upon the full phasing in of the New Senior Secondary Academic Structure, there is no Secondary 7 class under local curriculum starting from the 2012/13 school year.

Table 3a

Number of CBS and school places in kindergartens (including kindergarten-cum-child care centres) by district and by class level from the 2011/12 to 2015/16 school years

Notes:

(1) Figures refer to the position as at September of the respective school years.

Table 3a (Cont'd)

Notes:

- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) “NA” indicates that no data were collected from schools in the district in the respective school year.
- (4) Figures on school places do not include vacant classrooms and vacant child care centre portions. Special schools are excluded.

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) "NA" indicates that no data were collected from schools in the district in the respective school year.

Table 3b (Cont'd)

Notes:

- (4) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary primary schools are included and special schools are excluded.

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) “NA” indicates that no data were collected from schools in the district in the respective school year.

Table 3c (Cont'd)

Notes:

- (4) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary secondary day schools are included, and special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses are excluded.
- (5) Upon the full phasing in of the New Senior Secondary Academic Structure, there is no Secondary 7 class under local curriculum starting from the 2012/13 school year.

Table 3d

Number of CBS and school places in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and by school level from the 2011/12 to 2015/16 school years

(i) School Year: 2011/12

District	Number of CBS (percentage)				Number of school places			
	Kindergarten (including kindergarten- cum-child care centre)	Primary school	Secondary school	Sub-total	Kindergarten (including kindergarten- cum-child care centre)	Primary school	Secondary school	Sub-total
North	3 677 (33.8%)	3 928 (22.9%)	1 432 (6.3%)	9 037 (17.8%)	10 865	17 153	22 701	50 719

Notes:

(1) Figures refer to the position as at September of the respective school years.

Table 3d (Cont'd)

Notes:

- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2011/12 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan and Kwai Tsing districts. The survey was extended to Tung Chung and Wong Tai Sin districts in the 2012/13 school year and 2014/15 school year respectively.
- (3) “NA” indicates that no data were collected from schools in the district in the respective school year.
- (4) Figures on school places in kindergartens (including kindergarten-cum-child care centres) do not include special schools. Vacant classrooms and vacant child care centre portions are excluded.
- (5) Figures on school places in primary schools and secondary schools refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary primary and secondary day schools are included, and special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses are excluded.

(b) Alteration and conversion works have been / are being conducted in nine primary schools in the North District and four primary schools in Yuen Long with a view to providing additional classrooms and other facilities for improving the physical condition of the schools concerned. Renovation works to a vacant school premises in Yuen Long has been carried out for setting up a time-limited aided primary school with a maximum provision of 30 classrooms. The total project estimate for these improvement works is \$242 million. At the same time, the construction of a 36-classroom primary school in Fanling Area 36 for reprovisioning an existing 27-classroom primary school in the North District has started in June 2015 with the project cost at \$417.2 million.

CONTROLLING OFFICER'S REPLY

(Question Serial No. 4975)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

At present, how many funds and scholarship schemes are available under the various authorities (such as Education Bureau, Student Financial Assistance Agency and University Grants Committee) administered by the Secretary for Education? Please give a breakdown of these funds and scholarship schemes by the year of establishment, purpose and assessor as well as the balance, income, expenditure and number of beneficiaries in each of the past 5 years (from 2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 93)

Reply:

Information on the scholarship schemes and funds under the purview of the Education Bureau and scholarship schemes with secretariat support from the Working Family and Student Financial Assistance Agency and the Research Grants Council under the aegis of the University Grants Committee are at the annex. In addition to the scholarship funds listed in the table, the Agency also provided advice to a number of private and/or statutory scholarship funds like the Sir Robert Black Trust Fund and the Grantham Scholarship Funds.

Scholarships under the Purview of the Education Bureau and Scholarships with Secretarial Support from the Working Family and Student Financial Assistance Agency and the Research Grants Council

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Education Scholarships Fund	1956	A total of 181 scholarships have been established under the Fund, with the aim of giving due recognition to meritorious students from primary to tertiary levels. (Note : Distribution of new awards have been suspended for majority of the scholarship schemes in 2011/12, 2012/13, 2014/15 and 2015/16 because the surplus of the Fund has been insufficient to cover the disbursement of another round of new awards. Most awards distributed in those four years were renewal awards.)	Distributed according to the terms and conditions set by individual donors. Most recipients are nominated by schools and institutions, while the rest are based on the results of the best performers at public examinations. The nominations / recommendations are then endorsed by the Education Scholarships Fund Committee.	2011/12	0.67 ¹	0.08	0.09	109
				2012/13	0.66 ¹	0.08	0.09	93
				2013/14	0.49 ¹	0.08	0.25	490
				2014/15	0.50 ¹	0.08	0.07	87
				2015/16 ²	0.50 ¹	0.07	0.07	70

¹ The balance excludes capital of \$5.83 million which cannot be used for disbursement of awards.

² Estimates for 2015/16.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
HKSAR Government Scholarship Fund	2008	To attract outstanding local and non-local students to pursue publicly-funded higher education in Hong Kong and to stay in Hong Kong after graduation; To recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and To promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	Participating institutions ³ according to the stipulated selection criteria of the Fund.	2011/12	2,305 ⁴	55	35	657
				2012/13	2,313 ⁵	62	74	2 837
				2013/14	2,432	214	95	4 075
				2014/15	2,262	(68)	102	4 546
				2015/16 ⁶	2,202	50	110	4 900 ⁷

³ Participating institutions of the HKSAR Government Scholarship Fund are the eight University Grants Committee-funded institutions (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Hong Kong Institute of Education, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.

⁴ An additional injection of \$1 billion was made in August 2012.

⁵ Including an injection of \$20 million in 2012/13.

⁶ Estimates for 2015/16. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

⁷ The above figure covers the recipients of the HKSAR Government Scholarship Scheme, Targeted Scholarship Scheme and Endeavour Merit Award and estimated figures for Talent Development Scholarship (TDS) and Reaching Out Award (ROA) which are still under processing by institutions for 2015/16 academic year.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Hong Kong PhD Fellowship Scheme	2009	To attract the best and brightest students in the world to pursue PhD programmes in the University Grants Committee -funded institutions in Hong Kong.	Applications are made to the Research Grants Council. Individual University Grants Committee -funded institutions may conduct interviews with applicants where necessary. Two Selection Panels of the Scheme are formed by the Research. Grants Council, and shortlisted applications, subject to their areas of studies, will be reviewed by one of the two Selection Panels with experts in the relevant broad areas.	2011/12	NA	55.5 ⁸	55.5	222 ⁹
				2012/13	NA	96.8 ⁸	96.8	387 ⁹

²³ Information not yet available.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School Year	Balance at year end (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Hong Kong Scholarship for Excellence Scheme (HKSES) ²⁴	2014	<p>To support local students to pursue studies outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy; and</p> <p>To support those students who have excellent academic achievement but lack the financial means to study in top-notch universities outside Hong Kong.</p>	<p>A Steering Committee (SC) was set up to advise the Administration on the policy, strategy and administration of the HKSES.</p> <p>Interview panels will be set up by the SC to interview and assess shortlisted applicants.</p> <p>Selection of the final awardees will rest with the SC having regard to the assessment given by the interview panels on individual applicants.</p>	2015/16	327.45 ²⁵	0	20.51 ²⁵	92

²⁴ The HKSES will benefit three cohorts of students starting from the 2015/16 academic year and then be subject to a review on its effectiveness.

²⁵ Estimates for 2015/16.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School Year	Balance at year end (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Qualifications Framework Fund (QFF)	2014	To provide a steady source of income to support the sustainable development and implementation of Qualifications Framework.	The Steering Committee on QFF	2014-15	NA ²⁶	NA ²⁶	NA ²⁶	2 435 practitioners and 235 education and training providers 27, 28
				2015-16	1,000 ²⁹	NA ²⁶	NA ²⁶	1 981 practitioners and 242 education and training providers 27, 30

²⁶ The capital of QFF has been injected and placed with the Exchange Fund for investment in March 2016. No income has been generated from the \$1,000 million yet. Since it takes time to accumulate sufficient income to meet the funding requirements, the balance of the approved commitment for Qualifications Framework Support Scheme (QFSS) will continue to be used for meeting the cash flow requirements of the various initiatives under QFF for the time being.

²⁷ The above figures which are readily available are not exhaustive as the QFF supports a wide range of stakeholders including education and training providers, practitioners, assessment agencies and quality assurance body through various initiatives.

²⁸ For the period from April 2014 to 31 March 2015.

²⁹ Position as at 31 March 2016.

³⁰ For the period from 1 April 2015 to 29 February 2016 only.

- End -

Director of Bureau: Secretary for Education

Question:

(a) Please provide separate figures on the financial surplus/deficit arising from local and non-local examinations handled by the Hong Kong Examinations and Assessment Authority in the past 5 years (2011/12 to 2015/16).

(b) Please provide separate information on the salaries and positions of the 10 highest-paid officers in the Hong Kong Examinations and Assessment Authority in the past 5 years (2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 94)

Reply:

(a) The financial surplus/deficit of Hong Kong Diploma of Secondary Education (HKDSE) Examination, Hong Kong Advanced Level Examination (HKALE) and other examination services conducted by the Hong Kong Examinations and Assessment Authority (HKEAA) in the past 5 years (2011/12 to 2015/16) are listed below:

Year	HKDSE \$ m Surplus / (Deficit)	HKALE \$ m Surplus / (Deficit)	Other Examination Services \$ m Surplus / (Deficit)
2011/12	13.0	9.7	41.2
2012/13	12.2	(6.3)	54.9
2013/14	(25.6)	-	33.0
2014/15	(44.2)	-	38.1
2015/16 (Forecast)	(53.9)	-	34.7

Notes:

1. HKEAA's financial year runs from 1 September to 31 August.
2. All examinations mentioned above are conducted locally. "Other Examination Services" include examinations administered by International and Professional Examinations (IPE), of which some are provided by overseas examination boards but many are offered by local professional bodies.

- (b) The number of key management personnel (Directors and above) who are entitled to receive remuneration and the bands of remuneration they fell into as reported in HKEAA's audited accounts are listed below:

Bands of remuneration	2011/12	2012/13	2013/14	2014/15
Less than \$500,000	-	-	-	-
\$500,001 to \$1,000,000	-	-	-	-
\$1,000,001 to \$1,500,000	-	-	-	-
\$1,500,001 to \$2,000,000	1	2	-	-
\$2,000,001 to \$2,500,000	4	2	4	3
\$2,500,001 to \$3,000,000	-	1	1	1

Notes:

1. HKEAA's financial year runs from 1 September to 31 August.
2. The year 2015/16 of HKEAA closes on 31 August 2016 and thus the information for 2015/16 is not yet available.

Question:

- (a) Please provide the number and the respective percentages of the population of the relevant cohort admitted to the UGC-funded degree programmes in the past 5 years (i.e. 2011/12 to 2015/16 academic years).
- (b) Please provide the number and the respective percentages of the population of the relevant cohort admitted to the UGC-funded sub-degree programmes in the past 5 years (i.e. 2011/12 to 2015/16 academic years).
- (c) Please provide the number and the respective percentages of the population of the relevant cohort admitted to self-financing degree programmes in the past 5 years (i.e. 2011/12 to 2015/16 academic years).
- (d) Please provide the number and the respective percentages of the population of the relevant cohort admitted to self-financing sub-degree programmes in the past 5 years (i.e. 2011/12 to 2015/16 academic years).

Asked by: Hon IP Kin-yuen (Member Question No. 98)

Reply:

The requested information for the past five years is set out at Annex.

Number of intake places in publicly-funded and self-financing undergraduate and sub-degree programmes and the respective participation rates of the relevant cohorts, 2011/12 to 2015/16 academic years

Academic year	Publicly-funded undergraduate intake places ¹		Self-financing undergraduate intake places ³		Overall undergraduate participation rate of the relevant cohort ^{2,4}	Publicly-funded sub-degree intake places ⁵		Self-financing sub-degree intake places ⁶		Overall post-secondary participation rate of the relevant cohort ^{2,7}
	Number	Participation rate of the relevant cohort ²	Actual intakes	Participation rate of the relevant cohort ²		Actual intakes	Participation rate of the relevant cohort ²	Actual intakes	Participation rate of the relevant cohort ²	
2011/12 ⁸	16 842	20.8%	7 721	9.5%	30.3%	8 684	N/A	25 349	N/A	N/A
2012/13 ⁹	32 814	N/A	12 878	N/A	N/A	9 903	N/A	31 617	N/A	N/A
2013/14	18 153	22.6%	13 477	16.8%	39.4%	11 047	13.7%	21 466	26.7%	67.0%
2014/15	19 165	24.0%	17 682	22.2%	46.2%	12 480	15.7%	19 758	24.8%	68.5%
2015/16 ¹⁰	20 377	26.5%	15 407	20.0%	46.5%	12 791	16.6%	20 095	26.1%	71.3%

Notes:

1. Including first-year first-degree (FYFD) and senior year undergraduate intake places offered by the University Grants Committee (UGC)-funded institutions, the Hong Kong Academy for Performing Arts (HKAPA) and under the Study Subsidy Scheme for Designated Professions/Sectors starting from the 2015/16 academic year.
2. Relevant cohort refers to the average mid-year resident population between the ages of 17 to 20 for the 2011/12 academic year and between the ages of 18 to 20 as from the 2012/13 academic year onwards, as a result of the implementation of the New Academic Structure.
3. Including the actual intakes of full-time locally-accredited self-financing FYFD and top-up degree programmes.
4. The overall undergraduate participation rate of the relevant cohort takes into account the number of publicly-funded undergraduate intake places and the actual intakes of self-financing undergraduate programmes.
5. Including the actual intakes of publicly-funded sub-degree programmes offered by UGC-funded institutions, HKAPA and the Vocational Training Council.
6. Including the actual intakes of full-time locally-accredited self-financing sub-degree programmes.
7. The overall post-secondary participation rate of the relevant cohort takes into account the number of publicly-funded FYFD places; the actual intakes of self-financing FYFD places; and the actual intakes of publicly-funded and self-financing sub-degree programmes.
8. The 2011/12 academic year was a gap year during which there were no Secondary Five graduates. Sub-degree participation rate is undefined for the year.
9. The 2012/13 academic year was a double cohort year. Publicly-funded FYFD places offered in the year were doubled to cater for two cohorts of senior secondary students graduating in the same year. Undergraduate and sub-degree participation rates are undefined for the year.
10. Figures for the 2015/16 academic year are provisional.

(Question Serial No. 4981)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) What were the actual expenditures of the Committee on Self-financing Post-secondary Education, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee in the past 5 years (2011/12 to 2015/16) and what are the estimates for 2016/17?

(b) How many programmes were assessed by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee respectively in the past 5 years (2011/12 to 2015/16)? How many programmes were found to be not up to standard?

Asked by: Hon IP Kin-yuen (Member Question No. 99)

Reply:

- (a) The Committee on Self-financing Post-secondary Education (CSPE) is established to advise the Government on the development of the self-financing post-secondary education sector. The Education Bureau (EDB) provides secretariat support to CSPE and the secretariat posts are part of EDB's establishment. The service of these posts to CSPE is part and parcel of the officers' duties for the relevant subject areas. The related expenditure of the secretariat posts could not be identified separately as they are absorbed by the existing resources of EDB.

The Joint Quality Review Committee (JQRC) is established by the Heads of Universities Committees to provide peer review of the quality assurance processes of self-financing sub-degree programmes offered by the University Grants Committee (UGC)-funded institutions. The Government does not provide any funding to JQRC and has no information about their annual expenditure.

The Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) is established under the HKCAAVQ Ordinance (Cap. 1150) to provide accreditation and assessment services for academic and vocational qualifications. It is responsible for the quality assurance of all operators and programmes except UGC-funded institutions with self-accrediting status. HKCAAVQ is a self-financed body and does not receive recurrent subvention from the Government.

Being a statutory body, HKCAAVQ's annual report is tabled at the Legislative Council every year in accordance with the HKCAAVQ Ordinance. The actual expenditures of HKCAAVQ in the past five years from 2011-12 to 2015-16 and the estimated expenditure for 2016-17 are as follows –

2011-12	2012-13	2013-14	2014-15	2015-16 (As at end February 2016)	2016-17 (Estimate)
(\$ million)					
60.1	65.7	72.2	79.8	91.2	91.3

The Quality Assurance Council (QAC), established under the aegis of UGC, aims to assure that the quality of educational experience in all first degree level programmes and above, however, funded, offered in UGC-funded institutions is sustained and improved, and is at an internationally competitive level.

The actual expenditures of QAC in the past five years from the 2011-12 to 2015-16 and the estimated expenditure for 2016-17 are as follows –

2011-12	2012-13	2013-14	2014-15	2015-16 (As at end February 2016)	2016-17 (Estimate)
(\$ million)					
0.6	0.7	0.4	0.8	1.4	1.6

The expenditure of QAC mainly includes expenses for air passage, accommodation, as well as per-diem allowance of QAC members and auditors who are not based in Hong Kong. The higher actual/estimated expenditures in 2015-16 and 2016-17 are mainly due to the audit activities conducted for the second round of QAC quality audits which commenced in 2015. QAC members and auditors who are not based in Hong Kong receive honoraria for their participation in the QAC/audit activities. The rates of honoraria, which are reviewed according to the rates of civil service salary adjustments, ranged from \$72,000 to \$88,850 for QAC members annually and \$40,000 to \$48,950 for QAC auditors over the period from 2011-12 to 2015-16.

- (b) HKCAAVQ is empowered under the HKCAAVQ Ordinance to conduct accreditation for academic and vocational programmes. In the past five years from 2011-12 to 2015-16, the number of post-secondary programmes accredited/re-accredited, as well as those not approved by HKCAAVQ are as follows –

Number of Programmes	Financial Year				
	2011-12	2012-13	2013-14	2014-15	2015-16 (As at end February 2016)
Accredited/ Re-accredited ^{Note}	66	76	91	86	59
Not approved ^{Note}	1	0	1	0	2

HKCAAVQ spares no effort in making operators aware of the accreditation requirements in order to facilitate self-evaluation of their readiness to undergo accreditation. Operators are alerted early in the accreditation process should they be unable to demonstrate sufficient evidence to meet the required accreditation standards. Operators would have chosen not to proceed with the accreditation exercise if the chance of successful accreditation is considered slim. Therefore, the number of unsuccessful accreditation at the end is small.

Note: Figures include accredited and re-accredited local and non-local programmes but do not include programmes covered by Programme Area Accreditation (PAA). PAA allows providers to develop and operate learning programmes within an approved scope of programme area(s) at specified Qualifications Framework Level(s) for an approved period of time, and have the qualifications of its learning programmes entered into the Qualifications Register (QR) without going through learning programme accreditation or re-accreditation by HKCAAVQ.

On the other hand, JQRC endorses self-financing sub-degree programmes of UGC-funded institutions for the purpose of registration on QR. It should be noted that both JQRC and QAC do not accredit individual programmes of UGC-funded institutions as these institutions already have self-accrediting status. In the past five years from 2011-12 to 2015-16, the number of self-financing sub-degree programmes endorsed/re-endorsed, as well as those not endorsed/re-endorsed by JQRC for registration on QR are as follows –

Number of Programmes	Financial Year				
	2011-12	2012-13	2013-14	2014-15	2015-16 (As at end February 2016)
Endorsed / Re-endorsed	626	416	114	400	535
Not Endorsed / Not Re-endorsed	19	26	6	21	14

- End -

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

1. To promote the healthy and sustainable development of the self-financing post-secondary sector, the Government has introduced a number of measures to boost the standard of the sector. Please provide the amount of public funds used by each of the following in the past 5 years (2011/12 to 2015/16):

- (a) Land Grant Scheme;
- (b) Start-up Loan Scheme;
- (c) Quality Enhancement Grant Scheme;
- (d) Self-financing Post-secondary Education Fund;
- (e) Qualifications Framework Support Schemes and Qualifications Framework Fund;
- (f) Matching Grant Scheme;
- (g) Research Endowment Fund; and
- (h) means-tested and non-means tested assistance for post-secondary students of the self-financing sector.

2. Please provide detailed information on the number of applications received, the items approved, the amount of loans awarded and the repayment dates under the Start-up Loan Scheme in the past 5 years (2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 100)

Reply:

- 1(a) Under the Land Grant Scheme, land sites and vacant Government premises are allocated at nominal premium and leased at nominal rent respectively to non-profit-making institutions for operation of full-time and/or part-time locally-accredited self-financing post-secondary programmes. From the 2011/12 to 2015/16 academic year, four land sites and three vacant school premises were allocated.
- 1(b) Under the Start-up Loan Scheme (SLS), interest-free loans are provided for non-profit-making self-financing post-secondary institutions to develop new college premises and/or re-provision existing premises operating in sub-optimal environment. The loan disbursement from the 2011/12 to 2015/16 academic year is as follows -

Academic Year	Amount of Loans disbursed under SLS (\$ million)
2011/12	346.0
2012/13	94.0
2013/14	1,259.8
2014/15	902.7
2015/16 (Estimate)	252.3
Total	2,854.8

- 1(c) The Quality Enhancement Grant Scheme (QEGS) was implemented from the 2008/09 to 2010/11 academic year to support projects dedicated to enhancing the quality of teaching and learning of self-financing post-secondary programmes. Three rounds of applications for QEGS had been completed. A total of 65 projects involving a total amount of around \$99.4 million were approved from the 2008/09 to 2010/11 academic year. Having regard to the success of the QEGS, the Quality Enhancement Support Scheme (QESS) under the Self-financing Post-secondary Education Fund (SPEF) was launched in November 2012 to continue to support the enhancement of quality of teaching and learning.
- 1(d) SPEF has been set up since the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector and further enhance Hong Kong's status as a regional education hub. SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes under the Self-financing Post-secondary Scholarship Scheme (SPSS) as well as supports quality enhancement projects by institutions under QESS.

The amount of scholarships and awards given out under SPSS and the total amount of grants approved under QESS from the 2011/12 to 2015/16 academic year are set out as follows -

Academic Year	Amount of Scholarships and Awards Given out under SPSS (\$ million)	Amount of Grants Approved under QESS (\$ million)
2011/12	35.8	Note 1
2012/13	56.0	73.7
2013/14	67.3	22.9
2014/15	71.7	41.6
2015/16 (Estimate)	76.8	Note 2

Note 1: The first round of QESS application commenced in the 2012/13 academic year.

Note 2: The 2015/16 round of application is under processing.

- 1(e) The Qualifications Framework (QF) Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of QF. Since it takes time for the QF Fund to generate and accumulate sufficient investment income to meet the funding requirements, the balance of the approved commitment for QF Support Schemes (QFSS) will continue to be used for meeting the cash flow requirements of the various initiatives under the QF Fund for the time being. The amount of subsidies disbursed under the approved commitment of QFSS from 2011-12 to 2015-16 is as follows -

Financial Year	Amount of subsidies disbursed under QFSS (\$ million)
2011-12	9.1
2012-13	28.5
2013-14	15.2
2014-15	22.5
2015-16	23.4

(as at end February 2016)	
Total	98.7

- 1(f) The Government has launched six rounds of Matching Grant Scheme (the Scheme) from 2003 to 2014 (the first five rounds covered the period from July 2003 to March 2011, and the sixth round from August 2012 to July 2014) in order to help the higher education sector diversify its funding sources. Starting from the fourth round, self-financing degree-awarding institutions have been included in the Scheme. The Scheme was further extended to cover all statutory post-secondary institutions and approved post-secondary colleges in the sixth round, which ended in July 2014, for the benefit of students of both publicly-funded and self-financing locally-accredited programmes at sub-degree level or above in these institutions. From the 2011/12 to 2015/16 academic year (under the sixth round of the Scheme), a total of \$385 million of grants was allocated to self-financing operations of publicly-funded institutions, statutory post-secondary institutions and approved post-secondary colleges under the Scheme.

- 1(g) Under the Research Endowment Fund, the competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The funding awarded in the 2014/15 and 2015/16 academic year is as follows -

Academic Year	Amount Awarded (\$ million) ^{Note 1}
2014/15	103.0
2015/16	86.3
Total ^{Note 2}	189.3

Note 1: Position as at end February 2016.

Note 2: Figures may not add up to the total due to rounding.

- 1(h) The Financial Assistance Scheme for Post-secondary Students (FASP) provides means-tested grant and/or loan to eligible full-time students pursuing locally-accredited, self-financing post-secondary education programmes at sub-degree or degree level. The Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) provides non-means-tested loan to students pursuing programmes covered under FASP. The amount of assistance disbursed under the two schemes from the 2011/12 to 2015/16 academic year is as follows -

	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
FASP					
Amount of grant disbursed (\$ million)	952	1,226	1,187	1,106	843
Amount of loan disbursed (\$ million)	276	267	231	200	109
Total amount of assistance disbursed (\$ million)#	<u>1,228</u>	<u>1,492</u>	<u>1,418</u>	<u>1,307</u>	<u>952</u>
NLSPS					
Total amount of loan disbursed (\$ million)	<u>555</u>	<u>590</u>	<u>651</u>	<u>708</u>	<u>623</u>
Total (\$ million)#	<u>1,783</u>	<u>2,082</u>	<u>2,069</u>	<u>2,015</u>	<u>1,575</u>

* As at 31 January 2016

Figures may not add up to the corresponding total due to rounding.

2. From the 2011/12 to 2015/16 academic year, a total of 19 start-up loan applications were received under SLS. Among them, 12 applications were not processed further as the institutions concerned

did not successfully apply under the Land Grant Scheme for the land sites or vacant Government premises on which the construction or renovation projects needed to be financed; or some of them were withdrawn by the institutions concerned or found ineligible after submission. At last, seven applications were approved with a total loan amount of \$2,092.5 million and the details are set out below -

Academic Year	Applicant	Loan Amount (\$ million)	Date of Final Loan Repayment ^{Note}
2011/12	The Chinese University of Hong Kong (for School of Continuing and Professional Studies)	40	February 2023
	Caritas-Hong Kong (for Caritas Institute of Higher Education)	300	Subject to date of final drawdown
	Vocational Training Council (for Technological and Higher Education Institute of Hong Kong)	670	Subject to date of final drawdown
2012/13	Hong Kong Arts Centre (for Hong Kong Art School)	2.5	January 2024
	Hang Seng School of Commerce (for Hang Seng Management College)	800	Subject to date of final drawdown
2013/14	HKCT Group Limited (for Hong Kong College of Technology and HKCT Institute of Higher Education)	30	Subject to date of final drawdown
2014/15	Chu Hai College of Higher Education	250	Subject to date of final drawdown
Total		2,092.5	

Note: Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years.

- End -

Question:

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors since 2015/16 academic year to subsidise around 1 000 students per cohort to pursue designated self-financing undergraduate programmes. Please provide information of the programmes using the table below.

Name of programme	Course providers	Total number of intakes (irrespective of whether they are receiving subsidy or not)		Annual tuition fee (before deduction of subsidy)		Number of subsidised places		Subsidy amount per student	
		2015/16 academic year	2016/17 academic year (Estimated)	2015/16 academic year	2016/17 academic year (Estimate)	2015/16 academic year	2016/17 academic year (Estimate)	2015/16 academic year	2016/17 academic year (Estimate)

Asked by: Hon IP Kin-yuen (Member Question No. 101)

Reply:

Starting from the 2015/16 academic year, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs. SSSDP is implemented on a pilot basis for three cohorts of students admitted from the 2015/16 to 2017/18 academic years.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with relevant bureaux/departments.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

The subsidised places are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

The list of selected programmes and relevant institutions, number of subsidised places, actual intakes/available places, average annual tuition fee before deduction of subsidy and subsidy amount for each programme for the cohorts admitted/to be admitted in the 2015/16 and 2016/17 academic years are set out at **Annex**.

**List of Selected Programmes, Relevant Institutions, Number of Subsidised Places,
Actual Intakes, Average Annual Tuition Fee (before Deduction of Subsidy)
and Annual Subsidy Amount for the Cohort Admitted in the 2015/16 Academic Year**

Programmes	Institutions	Number of subsidised places	Actual intakes (including subsidised and self-financing places)	Average annual tuition fee (before deduction of subsidy) (\$)	Annual subsidy amount (\$)

CONTROLLING OFFICER'S REPLY**EDB566****(Question Serial No. 4985)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. What support measures are currently provided by the Education Bureau for students with special educational needs (SEN), including hearing impairment, visual impairment and physical disability, etc., in post-secondary institutions to meet their learning needs?
2. Please provide in tabular form the following information on students with SEN in all University Grants Committee-funded institutions and in all member institutions of the Vocational Training Council from the 2011/12 to 2015/16 academic years.

Institution	Number of students with SEN	Type of learning difficulties	Average amount of money each student received under the support measures

Asked by: Hon IP Kin-yuen (Member Question No. 103)

Reply:

- (1) To support students with special educational needs (SEN) in the post-secondary sector, the Government has implemented various initiatives in recent years with a view to enhancing support to post-secondary students with SEN, including –
 - (a) Starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council (VTC) each year to enhance services for students with SEN. These services include provision of equipment and technical learning aids, special in-class arrangements, consultation and assessment services by clinical psychologist, assessment and support services by educational psychologist, enhanced support for teaching and learning, and career advisory services;
 - (b) Youth College (Yeo Chei Man) was set up under VTC in the 2012/13 academic year to provide dedicated support for students with SEN and non-Chinese speaking students. In 2016-17, the Government has earmarked about \$25.9 million of subvention for the operation of Youth College (Yeo Chei Man);
 - (c) In view of the diverse needs of post-secondary students with SEN, we have been encouraging information sharing among the Government, institutions and related non-government organisations, so that relevant guidelines, codes of practice and experience in relation to supporting various types of students with SEN can be discussed, shared and disseminated. To address the needs expressed by

institutions, we circulated a set of guidelines on “Support Services to Students with Specific Learning Disabilities in Hong Kong Tertiary Institutions”, which was jointly compiled by the Hong Kong Society of Child Neurology & Developmental Paediatrics, the Hong Kong Association for Specific Learning Disabilities and ten higher education institutions, to other post-secondary institutions in Hong Kong in March 2014. Besides, we organised a seminar on in May 2014 on support to students with SEN, whereby speakers from the Equal Opportunities Commission, the Hong Kong Examinations and Assessment Authority, as well as institutions with experience in providing support to students with SEN were invited to share their knowledge and experience in support to students with SEN, in particular on special examination arrangements, with both publicly-funded and self-financing post-secondary institutions;

- (d) The Government made two separate injections of \$20 million each, bringing the total to \$40 million, into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund in 2013 to establish scholarships to give recognition to deserving publicly-funded and self-financing post-secondary students with SEN in the pursuit of academic and other excellence. About 150 students with SEN pursuing full-time locally-accredited undergraduate and sub-degree programmes were awarded the scholarships in the 2014/15 academic year;
- (e) To further promote the inclusive culture, the University Grants Committee (UGC) has provided a one-off special grant of \$20 million in total for the eight UGC-funded institutions starting from 2015. The grant has been allocated on a pro-rata basis according to the number of students with SEN admitted to individual institutions, so that institutions may implement additional measures to enhance their support services for students with SEN. The funding scheme, which aims to foster an inclusive culture in the campus, will last for two years. Upon conclusion of the scheme, institutions are required to deploy resources from the Block Grant to continue with the provision of such measures; and
- (f) The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund, to implement a programme from 2015/16 to 2017/18 academic year, for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, by purchasing equipment. Each eligible student is offered an additional academic expenses grant of up to \$8,000 every year depending on the level of assistance assessed in the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency.

(2) The number of students with SEN studying full-time UGC-funded sub-degree and undergraduate programmes, by institution and type of disability from the 2011/12 to 2015/16 academic years is at **Annex A**. Funding for students with SEN is subsumed under the block grant allocated to the UGC-funded institutions, and hence the UGC is unable to attribute the exact amount provided in supporting these students.

The number of students with SEN studying in all member institutions of the VTC from the 2011/12 to 2015/16 academic years is at **Annex B**.

**Number of Students with Special Educational Needs (SEN)^(note 1)
Pursuing Full-time UGC-funded Sub-degree and Undergraduate Programmes
from the 2011/12 to 2015/16 Academic Years**

Director of Bureau: Secretary for Education
Question:

(a) Please provide a breakdown by departments and programmes the intakes and actual intakes of funded degree programmes and sub-degree programmes offered by the UGC-funded institutions in the past 5 years (i.e. 2011/12 to 2015/16 academic years).

(b) Please provide a breakdown by departments and programmes the intakes and actual intakes of self-financing degree programmes and sub-degree programmes offered by the self-financing operations of the UGC-funded institutions in the past 5 years (i.e. 2011/12 to 2015/16 academic years).

(c) Please provide a breakdown by departments and programmes the intakes and actual intakes of self-financing degree programmes and sub-degree programmes offered by self-financing institutions (under non-UGC-funded institutions) in the past 5 years (i.e. 2011/12 to 2015/16 academic years).

Asked by: Hon IP Kin-yuen (Member Question No. 105)

Reply:

(a)
The number of approved student number targets and student enrolment of University Grants Committee (UGC)-funded sub-degree and undergraduate programmes by institution and by broad Academic Programme Category (APC) from the 2011/12 to 2015/16 academic years is set out at **Annexes A and B**.

(b) and (c)
The number of estimated intakes and actual intakes of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes from the 2011/12 to 2015/16 academic years offered by the self-financing operations of UGC-funded institutions is set out at **Annexes C and D** and those offered by non-UGC-funded institutions is set out at **Annexes E and F**. We do not have breakdown by department or by programme.

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

2. ^ The numbers include places allocated to HKIEd which was approved to use some of the sub-degree places (i.e. 216 in 2011/12) for enrolling students to its Bachelor of Education (Honours) (Early Childhood Education) programme.
3. '-' denotes nil.

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. [&] To tie in with the implementation of the new academic structure, UGC-funded institutions have admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic years.
3. [^] In the 2011/12 academic year, HKIEd was approved to use some of the sub-degree places (i.e. 216 in 2011/12) for enrolling students to its Bachelor of Education (Honours) (Early Childhood Education) programme.
4. ‘-’ denotes nil.
5. Abbreviations for institution are as follows:
CityU City University of Hong Kong
HKBU Hong Kong Baptist University
LU Lingnan University
CUHK The Chinese University of Hong Kong
HKIEd The Hong Kong Institute of Education
PolyU The Hong Kong Polytechnic University
HKUST The Hong Kong University of Science and Technology
HKU The University of Hong Kong

Notes:

[1] Provisional figures as at late October 2015. The final actual intakes may vary.

[2] Excludes sub-degree programmes provided under the old academic structure.

[3] Figures include intakes under the Study Subsidy Scheme for Designated Professions/Sectors.

[4] Hong Kong Adventist College ceased to accept intake with effect from the 2013/14 academic year.

[5] Pui Ching Academy eventually decided not to offer any programmes in the 2012/13 and 2014/15 academic years. As a result, there were no student intakes in these two academic years.

“-” Indicates that no relevant programmes were offered by the institutions.

@ Figures not provided by institution due to incomplete admission cycle.

CONTROLLING OFFICER'S REPLY

EDB568

(Question Serial No. 4990)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (-) Not Specified
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

Regarding the allocation under various scholarship schemes administered by the Government in the past 5 academic years:

- (a) please provide the respective number of scholarships allocated to funded and self-financing post-secondary institutions, expenditure involved and rate of change;
- (b) please provide by place of origin the respective number of local and non-local applications, number of scholarships awarded, success rate among applicants and total amount of scholarships awarded.

Asked by: Hon IP Kin-yuen (Member Question No. 108)

Reply:

(a) and (b)

The HKSAR Government Scholarship Fund (GSF) was established in 2008 as an endowment fund to generate investment income to support various government scholarship schemes for outstanding students. Each academic year, scholarships under GSF are allocated to ten institutions offering full-time publicly-funded programmes at degree or above and sub-degree levels, including the eight University Grants Committee (UGC)-funded institutions, the Hong Kong Academy for Performing Arts and the Vocational Training Council. The allocation of scholarships by institution and place of origin under GSF in the past 5 academic years are set out at **Annex A**.

The Hong Kong PhD Fellowship Scheme (the Scheme), established in 2009, is open to local as well as non-local students who wish to pursue their PhD programmes in the UGC-funded institutions. The Fellowship provides each awardee with a monthly stipend of HK\$20,000 and a conference and research-related travel allowance of HK\$10,000 per year for up to three years. The allocation by institution and place of origin under the Scheme in the past 5 academic years are set out at **Annex B**.

The Self-financing Post-secondary Education Fund (SPEF) has been set up since the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector and further enhance Hong Kong's status as a regional education hub. SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes under the Self-financing Post-secondary Scholarship Scheme. The allocation of scholarships under SPEF by institution and place of origin in the past five academic years are set out at **Annex C**.

CONTROLLING OFFICER'S REPLY

EDB569

(Question Serial No. 4991)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (2) Primary Education, (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- (a) In the past 2 school years, what was the number of days of sick leave and sick leave due to work injuries taken by teaching staff? What were the highest, lowest and average numbers of days, as well as the converted salary expenditure?
- (b) Please list the types of cases of sick leave due to injuries-on-duty as well as the medical expenses and amount of employees' compensation for work injuries involved.

Asked by: Hon IP Kin-yuen (Member Question No. 109)

Reply:

- (a) For teaching staff in Government schools, the sick leave days and sick leave days related to injury on duty (IOD) taken were 11 414 and 2 546 in 2013/14 school year, and 12 294 and 2 024 in 2014/15 school year respectively. In view that not all teaching staff have taken sick leave during the two school years and the duration of each sick leave varies, it would be misleading to compute the average, highest or lowest number of sick leave days taken on the basis of the total number of sick leave days taken. The Bureau does not have information on the salary expenditure in respect of the sick leave taken.
- (b) There are a total of 17 types of IOD cases as prescribed by the Commissioner for Labour under the Employees' Compensation Ordinance (Cap 282). During the 2013/14 and 2014/15 school years, the majority of IOD cases in Government schools were related to slipping, tripping or falling on the same level. Provision for employees' compensation as a whole is centrally provided for under Head 120 Pensions and there is no separate provision under Head 156. Civil servants who are injured on duty could seek medical services provided by the Hospital Authority and the Department of Health. The Bureau does not have information on the medical expenses for IOD cases relating to teaching staff.

- End -

CONTROLLING OFFICER'S REPLY**EDB570****(Question Serial No. 4992)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (6) Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide the number of senior management staff, the expenditure on salary and benefits in this regard and the percentage it accounts for the total expenditure on salary and benefits in the past 3 academic years; and
- (b) Please provide a breakdown, by terms of employment, of the number of teaching staff and other staff on contract and substantive appointment and the percentage share in the total number of staff.

Asked by: Hon IP Kin-yuen (Member Question No. 110)

Reply:

- (a) The information required for staff at the top three tiers in the Vocational Training Council (VTC) is as follows –

Financial year	Number of Staff	Staff expenses (\$ million)	% to total staff expenses
2013-14	14	34	1%
2014-15	14	38	1%
2015-16 (Estimate)	14	41	1%

- (b) In the 2015/16 academic year, the provisional number of teaching staff and administrative and supporting staff and their percentages (as compared to the total number of staff) under the New Remuneration Package, Old Remuneration Package and Short-Term Contract is as follows –

Staff type	Number of staff employed under			Total number of staff
	Old Remuneration Package	New Remuneration Package	Short-term Contract	
Teaching	757 (12.9%)	1 626 (27.6%)	509 (8.6%)	5 883
Administrative and supporting	1 118 (19.0%)	1 498 (25.5%)	375 (6.4%)

EDB571

(Question Serial No. 4996)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) At present, the EDB is responsible for the enforcement of the Non-local Higher and Professional Education (Regulation) Ordinance. Please provide the number of staff in the establishment that is responsible for the enforcement of the Ordinance in 2014-15, 2015-16 and 2016-17 (or the number of staff as in the revised estimates and estimates); and

(b) Earlier on, some courses registered according to the Ordinance were allegedly related to administrative confusion, including assisting students in making forged documents so that they could be awarded bachelor's degrees through improper means by overseas institutions. What measures will be taken by the Bureau next year to prevent similar incidents?

Asked by: Hon IP Kin-yuen (Member Question No. 115)

Reply:

(a) In accordance with the Non-local Higher and Professional Education (Regulation) Ordinance (the Ordinance), all courses conducted in Hong Kong leading to the award of non-local higher academic qualifications or non-local professional qualifications (hereafter referred to collectively as "non-local courses") must be registered or exempted from registration. A Principal Assistant Secretary for Education of the Education Bureau (EDB) has been appointed as the Registrar of Non-local Higher and Professional Education Courses, who is assisted by the Non-local Courses Registry (NCR) for enforcement of the Ordinance. From 2014-15 to 2016-17, the staff establishment of the NCR mainly includes one Senior Executive Officer and four Executive Officers.

(b) EDB is very concerned about the quality of non-local courses and the way of running the courses by operators. Any suspected non-compliant cases, if found, will be handled in accordance with the established procedures. If necessary, such cases will be referred to the law enforcement agencies for follow-up action. A review of the existing monitoring measures is being conducted with a view to enhancing the whole monitoring system and thus providing better protection for students.

CONTROLLING OFFICER'S REPLY**EDB572****(Question Serial No. 4997)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (7) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the implementation of the Territory-wide System Assessment (TSA), please provide:

- (a) The expenditure and staff involved in TSA in the past 5 financial years; and
- (b) The estimated expenditure and staff to be involved in TSA in 2016-17.

Asked by: Hon IP Kin-yuen (Member Question No. 116)

Reply:

(a) and (b)

The manpower and the relevant staff costs in relation to the Basic Competency Assessment (BCA) project could not be identified separately as they are absorbed by the existing resources of the EDB.

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the BCA project, including Territory-wide System Assessment (TSA) at Primary 3 (P3), Primary 6 (P6) and Secondary 3 (S3). The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA under the contract is set out in the following table:

Contract period	Expenditure on TSA (\$ million)	Average expenditure per year (\$ million)
2011-2014 (4 years)	220	55
2015-2018 (4 years)	296	74

The Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on TSA in late October 2015. Two working groups were set up under the Committee to conduct in-depth studies of the reporting and administration and the papers and question design of TSA respectively. The Committee submitted the report in February 2016 to the EDB reaffirming the intent and value of the establishment of TSA and recognising the functional use of TSA data to provide feedback to learning and teaching and to facilitate the formulation of measures to support learning. The report has set out the short-term, medium/long term recommendations. The EDB has accepted the report of the Committee. The report has been uploaded onto the website (<http://www.edb.gov.hk/attachment/en/curriculum-development/tsa/report.pdf>).

The Committee and its Working Groups will follow up on the implementation of the recommendations, including the 2016 Tryout Study (Primary 3), the provision of professional support strategies and monitoring the progress. They will also provide views on the data and experience obtained in the tryout study. The outcome of the 2016 Tryout Study (Primary 3) would be appropriately adopted for enhancement of the 2017 assessment arrangement. At the present stage, schools are being invited to sign up for the tryout study. The number of schools taking part in the tryout study and relevant expenditure is yet to be finalised.

CONTROLLING OFFICER'S REPLY

EDB573

(Question Serial No. 4998)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

A Basic Law video teaching resource package, entitled “Basic Law Audio-visual Learning and Teaching Package” (活學趣論·基本說法 — 基本法視像教材套2015), was produced by the Education Bureau (EDB) last year. In this connection, please provide the following information:

- (a) The production fee of the resource package;
- (b) Did the Administration offer pecuniary benefits (including salaries and other forms of compensation) to people providing assistance in the production of the resource package, including academics, solicitors and counsels? If yes, please provide the expenditure involved.
- (c) Did the Administration procure outsourcing services (e.g. services of a production house) for the production of the resource package? If yes, please provide the names of service providers and the contract value.
- (d) As stated in Paragraph 34 of the Controlling Officer's Report for this head, EDB will “continue to develop learning and teaching resource packages and an assessment bank for promoting Basic Law education at senior primary and junior secondary levels”. In this connection, please advise of the following:
 - (i) The estimated expenditure and the number of staff on establishment for developing the related resource packages and the assessment bank in the 2016-17 financial year.
 - (ii) The specific plans to promote Basic Law education at senior primary and junior secondary levels.

Asked by: Hon IP Kin-yuen (Member Question No. 117)

Reply:

- (a) The Education Bureau (EDB) developed the “Basic Law Audio-visual Learning and Teaching Package” for junior secondary students in April 2015 and the production fee of the Package, which includes filming of students' forum, video editing, production of animation, replicating and packaging of DVD and delivery, etc. is \$1.24 million.
- (b) The Basic Law teaching resource package was prepared by relevant colleagues of EDB and seconded teachers. Quite a number of people were involved in the development of resource package by different means, including focus group meetings, etc. No pecuniary benefits (including salaries and other forms of compensation) were offered to any people providing assistance in the production of the resource package.

- (c) EDB procured outsourcing services for the production of “Basic Law Audio-visual Learning and Teaching Package” from three contractors, namely The Hong Kong Federation of Youth Groups Jockey Club M21, Ambition Video Services Ltd. and Government Logistics Department. The procurement of services was conducted EDB, in accordance with the procedures set out in Stores and Procurement Regulations, which are applicable to government procurement. Details of the contract, including the names of contractors, expenditure involved and services provided are as follows:

Name of Contractor	Expenditure Involved (\$ million)	Details of Services Provided
The Hong Kong Federation of Youth Groups Jockey Club M21	0.53	<ul style="list-style-type: none"> ● Filming of students’ forum ● Acquirement of historical footage ● Video editing ● Production of animations ● Post production of video clips
Ambition Video Services Ltd.	0.46	<ul style="list-style-type: none"> ● DVD subtitling ● Designing and printing of front face of DVD ● Replicating and packaging of DVD ● Artwork design of paper box ● Formatting of content sheets ● Production of paper boxes of the package ● Conversion of the content of DVD into a web version ● Delivery
Government Logistics Department	0.25	<ul style="list-style-type: none"> ● Printing of booklets

- (d) (i) Expenditure and manpower resources for the Basic Law-related curriculum work and support measures, which includes research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is absorbed by the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. Other than expenditure on developing learning and teaching resources, there is no separate breakdown for individual items. The estimated expenditure of EDB for developing learning and teaching resources on Basic Law education of 2016-17 is \$1.84 million.
- (ii) Apart from developing the learning and teaching resources and assessment banks, EDB will continue organising professional development programmes for teachers to enhance their teaching strategies of using the packages. EDB will also organise the 2nd Basic Law Inter-school Competition for both primary and secondary schools students in July 2016.

(Question Serial No. 5006)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (3) Secondary Education
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education

Question:

(a) How many schools in total were provided with the Career and Life Planning Grant by the Education Bureau in the 2015/16 school year? What was the total amount involved? Under the title of the Grant, how many contracted teaching staff (including teaching, assistant teachers, and teaching assistants) in total was employed?

(b) How many schools in total were provided with the Senior Secondary Curriculum Support Grant by the Education Bureau in the 2015/16 school year? What was the total amount involved? Under the title of the Grant, how many contracted teaching staff (including teaching, assistant teachers, and teaching assistants) in total was employed?

Asked by: Hon IP Kin-yuen (Member Question No. 125)

Reply:

(a) & (b) In the 2015/16 school year, the number of public sector secondary and Direct Subsidy Scheme schools provided with Career and Life Planning Grant (CLPG) and Senior Secondary Curriculum Support Grant (SSCSG) is 507 and 504 respectively. The total expenditure for the provision of the CLPG and SSCSG is estimated to be about \$273.8 million and \$305.4 million.

Since schools may use the CLPG and SSCSG flexibly for recruiting teachers or teaching assistants, and buying services, etc. to facilitate the implementation of life planning education and the senior secondary curriculum, we are unable to provide the information on the number of contract teaching staff hired under this grant.

CONTROLLING OFFICER'S REPLY**EDB575****(Question Serial No. 5007)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies, (7) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

According to the 2016 Policy Address, the Education Bureau will progressively improve the ratio of educational psychologist to school to 1:4 for public sector ordinary primary and secondary schools with a large number of students with special educational needs from the 2016/17 school year. In this regard, will the Administration please inform this Committee of:

- (a) the respective ratios of educational psychologist to school for public sector ordinary primary and secondary schools in the 2014/15 and 2015/16 school years;
- (b) whether the Administration has assessed the number of primary and secondary schools to be benefitted by the above policy in the 2016/17 school year; whether the Administration has objective indicators in determining the number of benefitted schools; whether the indicators will be adjusted in the future?
- (c) the ways to increase the manpower of the educational psychologists in view of the current inadequacy of the Educational Psychology Service; and what is the timetable for achieving the above ratio of educational psychologist to school?

Asked by: Hon IP Kin-yuen (Member Question No. 126)Reply:

(a)

Under School-based Educational Psychology Service (SBEPS), one Educational Psychologist (EP) serves six to ten public sector schools (including primary and secondary schools).

(b) and (c)

The SBEPS will cover all public sector primary and secondary schools by the 2016/17 school year. The Government will further enhance the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. In the 2016/17 school year, a total of about 30 primary and secondary schools will receive the enhanced provision. In the 2017/18 school year, the number of schools that will receive the enhanced provision will increase to 80.

The Education Bureau (EDB) will accord priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students

requiring individual support, etc. EDB will continue to keep in view the service needs of schools as a whole.

To ensure a steady supply of EPs to meet the service needs, EDB has suggested the University Grants Committee to increase the provision of EP (professional practice) training places through its triennial manpower planning, with effect from the 2009/10 academic year. Currently, the University of Hong Kong and Hong Kong Polytechnic University provide 25 and 15 EP (professional practice) training places respectively in alternate years. The steady EP supply is able to meet the demand arising from the progressive expansion of SBEPS over the years. EDB will continue to keep in view of the supply of EPs in Hong Kong and, where necessary, liaise with the two local universities for meeting the manpower demand.

- End -

CONTROLLING OFFICER'S REPLY**EDB576****(Question Serial No. 5008)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education, (3) Secondary Education, (5) Other Educational Services and Subsidies, (7) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Starting from the 2015/16 school year, the Community Care Fund has funded a three-year pilot project to provide cash grant for ordinary schools with relatively more students with special educational needs and financial needs. In this connection, please advise this Committee of:

(a) How many secondary and primary schools in Hong Kong have respectively joined the pilot project? What is the respective amount of funding involved?

(b) Using the table below, please provide the number of additional teaching staff members employed by secondary and primary schools respectively under the pilot project.

	Teacher	Assistant teacher	Teaching assistant	Others
Secondary schools				
Primary schools				

(c) Please provide the number of additional non-teaching staff members employed by secondary and primary schools respectively under the pilot project.

Asked by: Hon IP Kin-yuen (Member Question No. 127)Reply:

(a)

A total of 124 public sector mainstream schools, including 65 secondary schools and 59 primary schools, have participated in the three-year Pilot Project on Special Educational Needs Coordinators (SENCO) funded by the Community Care Fund (CCF) starting from the 2015/16 school year. A cash grant equivalent to the respective mid-point salary of Assistant Primary School Masters/Mistresses and Graduate Masters/Mistresses is provided to each participating primary and secondary school during each year of the three-year period. The total funding provision for the pilot project is about \$219 million, which covers the cash grant for schools as well as expenses for professional training for SENCOs and evaluation of the pilot project.

(b) and (c)

During the three-year pilot period, the participating schools may use the cash grant provided to employ additional teaching staff so that a designated teacher can be deployed to co-ordinate matters relating to

special educational needs (SEN) support. To ensure that the cash grant is mainly used to provide additional manpower, schools are required to deploy at least 90% of the grant for the said purpose so that the SENCOs may have more capacity to perform the duty of supporting students with SEN. Information on additional manpower employed will be collected by the end of each school year. We are unable to provide the breakdown on the number of additional teaching staff appointed at this stage.

Director of Bureau: Secretary for Education

Question:

Would the Government inform this Council of:

- (a) The respective numbers of kindergartens admitting 0; 1- 7; 8 to 25; 26 to 50; 51 to 75; 76 to 90; and more than 90 non-Chinese speaking (NCS) students in 2015/16;

Number of enrolled NCS students	Number of kindergartens
More than 90	

- (b) The respective numbers of kindergartens admitting 0; 1- 7; 8 to 25; 26 to 50; 51 to 75; 76 to 90; and more than 90 ethnic minority students in 2015/16;

Number of enrolled ethnic minority students	Number of kindergartens
More than 90	

- (c) The respective numbers of kindergartens where NCS students account for 0%, 1% to 30%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16; and

Percentage of NCS students	Number of kindergartens
More than 90%	

- (d) The respective numbers of kindergartens where ethnic minority students account for 0%, 1% to 30%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16.

Percentage of ethnic minority students	Number of kindergartens
More than 90%	

Asked by: Hon IP Kin-yuen (Member Question No. 128)

Reply:

At present, all kindergartens in Hong Kong are privately run and the kindergarten (KG) sector, which is made up of local and non-local KGs, flexibly copes with parents' diverse demands and various needs of children. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. According to the information collected through the annual Student Enrolment Survey, the number of KGs with NCS students and ethnic minority (EM) students, ranging from "0", "1 to 7", "8 to 25", "26 to 50", "51 to 75", "76 to 90" and "more than 90", and the percentage of NCS students and EM students among all students of these kindergartens in the 2015/16 school year are tabulated at Appendices 1 and 2 respectively.

Number of kindergartens with non-Chinese speaking (NCS) students ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “more than 90”, and the percentage of NCS students among all students of the kindergartens in the 2015/16 school year

2015/16 school year	Number of NCS students						
	0	1 to 7	8 to 25	26 to 50	51 to 75	76 to 90	more than 90
Number of kindergartens	440	322	127	45	24	7	35
Percentage of NCS students among all students of the kindergartens	-	0.1%-70.0%	0.8%-100.0%	3.3%-100.0%	16.9%-100.0%	26.5%-100.0%	10.4%-100.0%

Notes:

1. Figures refer to the position as at September 2015.
2. Figures include students studying in kindergarten-cum-child care centres.
3. The above data cover those students whose ethnicity is Chinese but who are NCS based on the spoken language at home.
4. The above data cover both local and non-local kindergartens.

Number of kindergartens with ethnic minority (EM) students ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “more than 90”, and the percentage of EM students among all students of the kindergartens in the 2015/16 school year

2015/16 school year	Number of EM students						
	0	1 to 7	8 to 25	26 to 50	51 to 75	76 to 90	more than 90
Number of kindergartens	382	377	136	50	20	9	26
Percentage of EM students among all students of the kindergartens	-	0.2%-50.0%	0.8%-100.0%	4.0%-100.0%	15.2%-97.1%	30.5%-100.0%	10.9%-100.0%

Notes:

1. Figures refer to the position as at September 2015.
2. Figures include students studying in kindergarten-cum-child care centres.
3. The above data cover EM students regardless of their spoken language.
4. The above data cover both local and non-local kindergartens.

- End -

CONTROLLING OFFICER'S REPLY**EDB578****(Question Serial No. 5010)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Primary Education (3) Secondary Education (4) Special Education (5) Other Education Services and SubsidiesControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Would the Government inform this Council of:

(a) the list of non-governmental organisations or academic institutions that receive funding from the Education Bureau to provide support programmes to all students from kindergartens to secondary schools academically in 2015/16, and the details of each batch of the funding including the amount, period covered and target groups;

(b) the number of students attending each of these support programmes in 2015/16;

(c) the number of non-Chinese speaking students attending each of these support programmes in 2015/16;

(d) the list of non-governmental organisations or academic institutions that receive funding from the Education Bureau to specifically provide support programmes for non-Chinese students' learning of Chinese Language and other subjects in 2015/16 and the details of each batch of the funding including the amount, period covered and target groups; and

(e) the number of non-Chinese speaking students attending each of the support programmes referred to in (d) in 2015/16.

Asked by: Hon IP Kin-yuen (Member Question No. 129)

Reply:

(a), (b) and (c)

Apart from core education at schools, the Education Bureau (EDB) provides various support programmes to students such as Induction Programmes for newly-arrived children and young people, educational support programmes in learning Chinese for non-Chinese speaking (NCS) students, School-based After-school Learning and Support Programmes for needy students, Life Education Activity Programme to enhance students' awareness of health issues, Summer Career-related Experience Scheme to provide opportunities for students to experience the actual working environment, recreational programmes such as the Hong Kong Schools Dance Festival and Outdoor Education Camp Scheme, etc. The funding for organising / running these programmes may channel through recurrent subvention to educational bodies, subsidies to organisers on application basis or fees to service providers commissioned through competitive procurement / tendering process. As such, we do not have ready information on all the non-governmental organisations (NGOs) / academic institutions that receive funding from EDB for providing support programmes, as well as the

related information on programme details, amount involved, period covered, target groups, number of students attended in the 2015/16 school year.

(d) and (e)

The NGOs / academic institutions that receive funding from EDB in the 2015/16 school year to provide programmes specifically for supporting NCS students' learning of Chinese with details including the target participants and estimated amount of funding are set out in the table below.

NGOs / academic institutions	Target participants	Estimated expenditure (\$ million, round up to nearest one decimal)
The University of Hong Kong to offer remedial programmes after school hours and during holidays at the Chinese Language Learning Support Centres for those NCS students who have a late start in learning the Chinese language	NCS students in primary and secondary schools	3.7
(i) The Hong Kong Christian Service (ii) The HKSKH Lady MacLehose Centre to organise district-based programmes to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc.	NCS children aged 3 to 9	1.7 0.9 (funded by the Language Fund)
Caritas - Hong Kong to organise "Pilot on Providing Career-related Experience for NCS students in Secondary Schools"	NCS students attending senior secondary class levels	0.4
(i) The University of Hong Kong (for kindergartens and primary schools) (ii) The PolyU Technology & Consultancy Company Limited and Department of Chinese and Bilingual Studies of the Hong Kong Polytechnic University (for primary schools only) to organise school-level University-School Support Programme for kindergartens and primary schools in respect of the learning and teaching of Chinese for NCS students	Kindergartens and primary schools admitting NCS students which have applied for this support programme	14.8 2.3 (funded by the Education Development Fund)

Notes:

In parallel, eligible schools admitting NCS students are provided with additional recurrent funding to support the learning of the Chinese language of NCS students. With the additional funding and schools' deployment of resources, it was not uncommon for schools to offer Chinese language programmes in collaboration with NGOs and/or academic institutions. The relevant expenses were subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

- End -

Question:

Will the government inform this Council of:

- (a) The number of non-Chinese speaking students who have participated in Primary One Admission (POA) System in each of the school years from 2013/14 to 2015/16 and their percentage among all non-Chinese speaking students in K.3 in those school years;
- (b) The number of non-Chinese speaking students who got admitted by a primary school in the "Discretionary Places Admission" stage in each of the school years from 2013/14 to 2015/16;
- (c) The number of non-Chinese speaking students who got admitted by a primary school in the "Central Allocation" stage in each of the school years from 2013/14 to 2015/16;

(a), (b) and (c): NCS students who:	2013/14	2014/15	2015/16
Studied in K.3			
Participated in POA			
Gained admission in the Discretionary Places Admission stage			
Gained admission in the Central Allocation stage			

- (d) The number of non-Chinese speaking students who have participated in Secondary School Places Allocation System in each of the school years from 2013/14 to 2015/16 and their percentage among all non-Chinese speaking students in P.6 in those school years;
- (e) The number of non-Chinese speaking students who got admitted by a secondary school in the "Discretionary Places Admission" stage in each of the school years from 2013/14 to 2015/16;
- (f) The number of non-Chinese speaking students who got admitted by a secondary school in the "Central Allocation" stage in each of the school years from 2013/14 to 2015/16;

(d), (e) and (f): NCS students who:	2013/14	2014/15	2015/16
Studied in P.6			
Participated in SSPA			
Gained admission in the Discretionary Places Admission stage			
Gained admission in the Central Allocation stage			

- (g) The numbers of non-Chinese speaking students admitted into Primary 1 and Secondary 1 of Direct Subsidies Scheme (DSS) schools in each of the years from 2013/14 to 2015/16 respectively and their respective percentages among all non-Chinese speaking Primary 1 students and all non-Chinese speaking Secondary 1 students in public schools in each of those school years.

Asked by: Hon IP Kin-yuen (Member Question No. 132)

Reply:

- (a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS students participating in the Primary One Admission (POA) 2014 (for admission in the 2014/15 school year) and POA 2015 (for admission in the 2015/16 school year) is 1 202 and 1 199 respectively. POA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.

The number of NCS children studying in kindergartens (including kindergarten-cum-child care centres) at Kindergarten 3 level is 3 173, 3 196 and 3 075 in the 2013/14, 2014/15 and 2015/16 school years respectively. According to the eligibility requirements, a child is not required to study at Kindergarten 3 for participation in the POA. Besides, the number of NCS children studying at Kindergarten 3 has included local and non-local kindergartens. As such, the corresponding percentage share of NCS children participating in the POA cannot be worked out.

- (b) The number of NCS students who were admitted through the “Discretionary Places” stage in POA 2014 (for admission in the 2014/15 school year) and POA 2015 (for admission in the 2015/16 school year) is 728 and 752 respectively. POA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
- (c) The number of NCS students who were allocated a Primary 1 place at the “Central Allocation” stage in POA 2014 (for admission in the 2014/15 school year) and POA 2015 (for admission in the 2015/16 school year) is 474 and 447 respectively. POA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
- (d) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) 2014 (for admission in the 2014/15 school year) and SSPA 2015 (for admission in the 2015/16 school year) is 1 398 and 1 435 respectively. The corresponding percentage share among all Primary 6 NCS students in public sector schools, schools under the Direct Subsidy Scheme (DSS) and private schools (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) is 95.6% and 96.6% in the respective years. SSPA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
- (e) The number of Primary 6 NCS students who were allocated a Secondary 1 place at the “Discretionary Places” stage in SSPA 2014 (for admission in the 2014/15 school year) and SSPA 2015 (for admission in the 2015/16 school year) is 874 and 893 respectively. SSPA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
- (f) The number of Primary 6 NCS students who were allocated a Secondary 1 place at the “Central Allocation” stage in SSPA 2014 (for admission in the 2014/15 school year) and SSPA 2015 (for admission in the 2015/16 school year) is 524 and 542 respectively. SSPA 2016 has not yet completed and relevant figures for the 2016/17 school year are not available.
- (g) The number of NCS students who were admitted to Primary 1 in DSS schools in the 2013/14, 2014/15 and 2015/16 school years is 195, 188 and 192 respectively. The corresponding percentage share among all Primary 1 NCS students in public sector (excluding special schools) and DSS schools is 13.5%, 11.9% and 12.1% in the 2013/14, 2014/15 and 2015/16 school years respectively.

As for Secondary 1, the number of NCS students who were admitted to DSS schools in the 2013/14, 2014/15 and 2015/16 school years is 773, 768 and 767 respectively. The corresponding percentage share among all Secondary 1 NCS students in public sector (excluding special schools) and DSS schools is 53.8%, 47.6% and 44.3% in the 2013/14, 2014/15 and 2015/16 school years respectively.

Question:

Will the Government inform this Council of:

- (a) Details of funding (excluding that spent by schools under the implementation of the “Chinese Language Curriculum Second Language Learning Framework”) designated for the education of parents of non-Chinese speaking students, including the amount of each batch of funding, the names of any non-governmental organizations receiving the funding, the period covered by each batch of funding, and the target group of each batch of funding;
- (b) The number of education-related events, talks, sessions or forums which are designated for the parents of non-Chinese speaking students funded by the Government in each of the years from 2014/15 to 2015/16;
- (c) The number of non-Chinese speaking parents attending each of the events mentioned in (b);
- (d) The number of education-related events, talks, sessions or forums which are designated for the parents of non-Chinese speaking students organized by the Education Bureau in each of the years from 2014/15 to 2015/16;
- (e) The number of non-Chinese speaking parents attending each of the events mentioned in (d);
- (f) The number of education-related events, talks, sessions or forums for all parents conducted in Chinese only, the number of these events conducted in both Chinese and English and the number of these events conducted in languages other than Chinese and English in each of the years from 2014/15 to 2015/16;
- (g) The number of non-Chinese speaking parents attending each of the types of event mentioned in (f); and
- (h) The number of enquiries and complaints from non-Chinese speaking students and parents received by each regional education office of the Education Bureau in each of the schools years from 2014/15 to 2015/16, and the numbers of substantiated and unsubstantiated complaints in each of these years.

Asked by: Hon IP Kin-yuen (Member Question No. 133)

Reply:

- (a) to (g) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in

primary and secondary schools and the creation of an inclusive learning environment in schools. In this connection, in the 2014/15 and 2015/16 school years, a total of 173 and 197 schools are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students respectively. The school plans and reports submitted show that, in addition to implementation of the “Learning Framework”, schools will flexibly deploy the additional funding to organise briefings and seminars for NCS parents. On the other hand, diversified modes of education-related programmes including seminars, briefing sessions, workshops, etc. for NCS parents are also offered by EDB and/or in collaboration with tertiary institutions and/or non-governmental organisations as appropriate. For instance, briefing sessions dedicated for NCS parents on, among others, Pre-primary Education Voucher Scheme, student financial assistance schemes, admission to Primary 1 and Secondary 1 in public sector schools, educational support for NCS students, etc. are organised from time to time. Interpretation services of major ethnic minority languages are provided where necessary. The objectives of these programmes are to help NCS parents/students better understand our school system, major education policies and related support services; encourage NCS parents to send their children to schools with an immersed Chinese language environment; and facilitate NCS parents to make informed school choices. Besides, starting from 2013, the Summer Bridging Programme for NCS students has been refined to allow NCS parents to accompany their children to attend with a view to enhancing their exposure to, and use of, Chinese and support for their children in learning the Chinese language. About 360 and 240 NCS parents participated in the programme in 2014 and 2015 respectively. In tandem, the Chinese Language Learning Support Centres also organise workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students’ learning of Chinese. In the 2014/15 school year, about 122 NCS parents participated in the parent workshops. The 2015/16 school year has not yet completed and hence the data are not available. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available. Given the diversified modes of the briefings, seminars and workshops offered for NCS parents, involving different parties including schools, tertiary institutions, and non-governmental organisations, related statistics on NCS parents’ participation are not available.

- (h) From the 2014/15 to 2015/16 school years, EDB has not received any complaints regarding NCS students’ learning of the Chinese language or education-related programmes, seminars or workshops for NCS parents. As regards enquiries, as EDB does not keep particular record on the enquirers’ ethnicity or spoken language at home, statistics on enquiries from NCS students or parents are not available.

Programme: (3) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

- (a) The number of non-Chinese speaking students dropping out in each of the grade levels from S1 to S5 in each of the school years from 2014/15 to 2015/16;
- (b) The number of ethnic minority students dropping out in each of the grade levels from S1 to S5 in each of the school years from 2014/15 to 2015/16;
- (c) The number of students dropping out in each of the grade levels from S1 to S5 in each of the school years from 2014/15 to 2015/16;
- (d) If such data disaggregated by language and ethnicity is not available, the reasons for it; and
- (e) Details of any support, including the amount of funding spent and relevant non-governmental organizations providing the support, to non-Chinese speaking and ethnic minority students to prevent them from dropping out.

Asked by: Hon IP Kin-yuen (Member Question No. 134)

Reply:

(a) to (e)

It is the Government's policy to provide nine-year free and universal basic education to children aged between 6 and 15. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. Non-attendance cases would be identified for follow up with a view to bringing students back to school at the earliest opportunity. The number of non-attendance students at S1 to S5 levels reported in the 2014/15 school year is tabulated below. Information for the 2015/16 school year is not available as the school year has not yet come to a close.

Grade level \ School year	School year
	2014/15
S1	570
S2	711
S3	1 484
S4	1 698
S5	1 168

We do not readily have breakdown of the non-attendance cases by language and ethnic group as schools need not provide such information in their report to EDB.

EDB is committed to assisting all non-Chinese speaking students in adapting to the local education system. Towards this end, it has provided various support services to school administrators, teachers and parents to cater for their learning and adaption needs. Where there is a need, support for individual cases would be provided by teachers, student guidance personnel or school social workers.

Question:

Please provide the following information concerning regular and non-regular teachers in government and aided primary, secondary and special schools in the past 5 years:

- (a) median age and mean age; and
- (b) wastage rate.

Asked by: Hon IP Kin-yuen (Member Question No. 135)

Reply:

(a) & (b)

The median age, mean age and wastage rate of the establishment teachers (teachers fill the posts of the approved teaching establishment) and non-establishment teachers (teachers fill the posts outside the approved teaching establishment) in government primary schools, aided primary schools, government secondary schools, aided secondary schools and special schools for the school years from 2011/12 to 2015/16 are as follows:

Government Primary Schools

School Year	Establishment Teachers			Non-establishment Teachers		
	Median Age	Mean Age	Wastage Rate (%)	Median Age	Mean Age	Wastage Rate (%)
2011/12	41	42	2.4	31	33	20.9
2012/13	42	43	3.2	32	34	16.5
2013/14	43	44	3.5	34	36	13.9

Question:

The current ratio of social worker post to student is 0.5:35 and 1:70 in special schools. With the adjustments to the class size in some special schools, the posts of social workers will be affected. In this connection, please advise of the following:

- (a) What is the current number of social workers in special schools and what is the expenditure involved?
- (b) When was the current student-social worker ratio determined? Will the Administration consider improving the ratio to strengthen support for special schools?
- (c) How will the Administration address the unreasonable scenario where the class size is adjusted while the social worker posts have to be reduced?

Asked by: Hon IP Kin-yuen (Member Question No. 136)

Reply:

(a)
The number of school social workers (SSW) provided in aided special schools in the 2015/16 school year is 116.5 and the estimated expenditure is \$61.5 million.

(b) and (c)
Given that children with more severe or multiple disabilities are placed in special schools for intensive support, special schools are provided with 0.5 SSW for every 35 students. Furthermore, where a sponsor operates two or more special schools, the ratio of provision may be applied to the combined capacity of the schools as if they were a single school.

The student-social worker ratio was first introduced in 1981. Instead of considering the provision of social workers in isolation, we should take into account the specific circumstances and mode of delivery of services in special schools. Specifically, teachers in special schools have to work in collaboration with SSW and related professionals to provide preventive, remedial and developmental guidance services for all students. As a general practice, special schools teachers will help their students plan and apply for post-school placement having regard to their interest, capabilities and service needs as required. Currently, special schools operating classes at senior secondary level are also provided with Career and Life Planning Grant (CLPG) to strengthen life planning education and related guidance services to meet the developmental needs of their students. Starting from the 2016/17 school year, schools will be allowed to turn the CLPG into regular teaching posts to strengthen the services. Special schools may also deploy their existing manpower as well as additional resources to provide developmental and guidance services to their students through a cross-disciplinary collaboration approach among different professionals, such as teachers, SSW and other

specialist staff.

Reduction of class size is one of the improvement measures introduced by the Education Bureau (EDB) with a view to improving special education services in special schools, and hopefully lead to expansion in the number of classes as well as staff provision. The reduction of class size of schools for children with mild intellectual disability from 20 to 15 students per class had been fully implemented in the 2014/15 school year and resulted in an increase in the number of classes as well as the number of staff. In addition, the class size of the school for children with visual impairment and schools for social development has reduced from 15 to 12 students per class progressively starting from the 2014/15 school year. EDB will continue to keep in view all relevant factors and consider additional improvement measures as necessary.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) The Administration plans to support more needy Hong Kong students who are pursuing undergraduate studies in those Mainland higher education institutions participating in the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions. What are the details?
- (b) Please list the number of recipients of the subsidy, names of the institutions they studied and total amount of subsidy involved in the past.
- (c) What are the estimated increases in the number of recipients of the subsidy and in expenditure?

Asked by: IP Kin-yuen (Member Question No. 111)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies on the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students who pass a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. According to the original plan, the MUSSS will benefit three cohorts of students starting from the 2014/15 academic year.

In the 2014/15 academic year, subsidy was provided to 263 students under MUSSS, with 152 receiving the full-rate subsidy and the remaining 111 receiving the half-rate subsidy. The total amount of subsidy granted was about \$3.1 million. As for the 2015/16 academic year, subsidy was provided to 479 students (including subsidy renewal and newly approved applications), with 304 receiving the full-rate subsidy and the remaining 175 receiving the half-rate subsidy. The total amount of subsidy granted was about \$5.9 million. Breakdown of the MUSSS recipients by different Mainland higher education institutions is set out in the Annex.

According to our understanding, over 3 000 Hong Kong students are admitted to the first year of undergraduate study in the Mainland every year. To provide Hong Kong students with more opportunity to articulate into undergraduate study and ensure that they will not be denied access to higher education due to a lack of means, we have advanced the review of MUSSS as to how to expand its scope to benefit more students studying in the Mainland, including those who are pursuing undergraduate study in those Mainland institutions participating in the Admission Scheme. We plan to brief the Legislative Council Panel on Education in April 2016 on the results of review of the MUSSS and enhancements to be introduced to the scheme starting from the 2016/17 academic year. Expenditure to be involved in implementing the enhanced MUSSS and the expected number of beneficiaries will be contingent on the outcome of the review and subject to the number of approved applications. Sufficient provision has been earmarked in the 2016-17 Estimates to meet the funding requirements of the year.

CONTROLLING OFFICER'S REPLY

EDB585

(Question Serial No. 7181)

Head: (156) Government Secretariat: Education Bureau
Subhead (No. & title): (-) Not Specified
Programme: (7) Policy and Support
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)
Director of Bureau: Secretary for Education
Question:

- (a) Please list out by district the list of vacant school premises, their addresses, areas and the number of years for which they have been left vacant for this year and the coming year.
- (b) Please state the future use of the school premises.
- (c) Which school premises have not yet been returned to the Education Bureau or other government departments? What are the reasons? What follow-up measures does the Administration have in place?

Asked by: Hon IP Kin-yuen (Member Question No. 111)

Reply:

(a) and (b) It has all along been the Education Bureau's (EDB) policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. In addition, EDB will also take into account factors like the demand for public sector school places in the district, reprovisioning needs of existing schools especially those in the district, the need for decanting premises for in-situ redevelopment or extension of existing schools, and the need to provide diversity in the school system etc., with a view to meeting various educational needs in the territory and supporting relevant policy initiatives.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would refer them to PlanD for consideration of suitable alternative uses in accordance with the central clearing house mechanism.

As stated in the Report No. 65 of the Director of Audit (Audit Report) on the use and disposal of VSP, at 30 April 2015, there were records of 234 VSP in EDB's database. Among these 234 VSP, 105 were not being used, of which 29 were under EDB; 102 were being used, of which 77 were under EDB; and 27 have been or were going to be demolished for housing or other developments. In other words, 106 ex-school premises were under EDB with 29 not being used.

Among these 29 premises under EDB's purview, as at end December 2015, four have been referred to PlanD for consideration of suitable alternative uses in accordance with the above-mentioned central clearing house

mechanism; 14 have been reused or reallocated/ planned for educational use, nine are earmarked for educational use; and the remaining two premises which are on private land require further discussion between EDB and relevant departments on the way forward. Detailed breakdown of the 29 VSP are in Table (1) below:

Table (1) – 29 VSP under EDB which were not being used as mentioned in the Audit Report (position as at end-December 2015)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m ²) (Note 2)	Present re-deployment / earmarked/planned use of the premises
A. Four premises that have been referred to PlanD under the Central Clearing House Mechanism				
1	Central and Western	2005/06	1 600	Not Applicable
2	Southern	2004/05	2 400	Not Applicable
3	Wan Chai	2008/09	2 700	Not Applicable
4	Yuen Long	2004/05	2 300	Not Applicable
B. 14 premises that have been reused or reallocated/planned for educational use				
1	Southern	2013/14	3 300#	School Use
2	Southern	2011/12	2 000	Other educational use
3	Wan Chai	2006/07	1 600	School Use
4	Kowloon City	2003/04	3 000	School Use
5	Kwun Tong	2007/08	3 100#	School Use
6	Kwun Tong	2008/09	3 200#	School Use
7	Sham Shui Po	2008/09	1 300	School Use
8	Sham Shui Po	2007/08	1 200	Other educational use
9	Yau Tsim Mong	2006/07	1 200	Other educational use
10	North	2004/05	700	School Use
11	Sha Tin	2009/10	5 200#	School Use
12	Sha Tin	2012/13	6 400	Other educational use
13	Tai Po	2012/13	5 800	School Use
14	Yuen Long	2012/13	3 050	School Use
C. Nine premises earmarked for educational use				
1	Central and	2008/09	1 600	School Use

	Western			
2	Eastern	2010/11	4 300#	School Use
3	Kwun Tong	2011/12	3 700#	School Use
4	Kwun Tong	2010/11	2 900	School Use
5.	Sham Shui Po	2013/14	3 700	School Use
6	Tai Po	1999/00	2 400	School Use
7	Tsuen Wan	2010/11	3 600#	School Use
8	Tuen Mun	2010/11	5 300#	School Use
9	Islands	2006/07	5 800	School Use
D. Two premises which require further discussion				
1	Southern	2012/13	6 000	Not Applicable
2	Kowloon City	2013/14	3 200	Not Applicable

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB. As there is a need to earmark/retain some VSP to cater for the anticipated increase in demand for school places in future and to allow flexible arrangements required for meeting the changing demand, including the uncertainty involved, and various needs, it is not practicable to set a fixed target of vacancy period or number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP already earmarked for educational use but suitable for short-term use to relevant bureaux/departments with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(c) According to the Lands Department (LandsD), regarding the 71 VSP mentioned in the Audit Report the physical possession of which had not been delivered to the Government after cessation of school operation, the land leases of 28 VSP do not contain a cessation/diminution of user clause allowing the Government to re-enter the land after the cessation of school use while the leases of two VSP allow uses other than school use. In other words, the Government does not have a contractual right to re-enter the private land concerned on the ground that the school has ceased operation. For the remaining 41 VSP, 26 are under EDB's purview. EDB and LandsD will co-ordinate with each other in taking action to re-enter the sites if EDB has confirmed that the sites are required for re-allocation for school or other educational uses or in processing applications from the grantees/licencees for alternative uses as appropriate. Information on the district, year of school closure and site area of these 41 VSP provided by LandsD is in Table (2) below:

Table (2) – 41 VSP the physical possession of which had not been delivered to the Government upon cessation of operation of the original use and the land lease of them contains a cessation/diminution of user clause (position as at end-December 2015)

Note 1: “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

Note 2: The site area of school premises marked with * is only a rough estimate provided by PlanD. The site area of other school premises is a rough estimate based on records available to EDB and the figures are rounded to the nearest hundred m² and for reference only.

Note 3: Table (2) did not include a school premises located in Southern District (which ceased operation in the 2012/13 school year with approximate site area being 6 000 m²) which is required to be surrendered under the service agreement though its land lease does not contain a cessation/diminution of user clause. However, due to some technical problems, EDB would need to further discuss with relevant departments on the feasible way forward.

EDB and LandsD have agreed on the mechanism and procedures for handling VSP, including VSP on sites where the leases provide the Government with the rights to re-enter after cessation/diminution of school use, and will strengthen communication and co-ordination under the mechanism in order to optimise the use of VSP as early as possible. LandsD will, as appropriate, continue to take suitable actions to recover possession of VSP on sites for which there is a cessation/diminution of user clause in the land lease and VSP held on government land licences. For VSP located on private land which EDB considers are required for re-allocation for school or other educational uses but the school sponsoring body refuses to surrender the site, EDB will liaise with LandsD on how to recover possession of the land as far as practicable in accordance with the provisions of the relevant contracts (including land leases, tenancy agreements or service agreements). In all such cases, the Government must act in accordance with the contracts concerned. Besides, recovering possession of land by exercising the right conferred by the contract may not be the only way to make gainful use of the land. Each case will need to be assessed on its own merits.

Vocational Training Council ³								
- Higher technician / technician level	2,082	2,182	2,303	2,319	81,200	85,000	90,000	90,100
- Craft level					67,200	71,500	73,600	73,600
University Grants Committee-funded Institutions ⁴	14,989	15,983	17,457	17,822	222,422	228,213	242,260	278,650
The Hong Kong Institute of Education ⁴	655	701	742	803	151,897	158,128	161,920	193,470

There is no direct government funding to the training providers of the Project Yi Jin / Diploma Yi Jin programme and adult education. Students taking courses under Project Yi Jin / Diploma Yi Jin programme or the Financial Assistance Scheme for Designated Evening Adult Education Courses and meeting the eligibility criteria can receive partial or full tuition fee reimbursement under the financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

Notes

1. The financial provision covers government subsidy to non-profit-making kindergartens and kindergarten-cum-child care centres under the Child Care Centre Subsidy Scheme, as well as the Pre-primary Education Voucher Scheme (PEVS). Unit cost is not applicable here as substantial part of the financial provision is provided to parents for paying school fees under the PEVS, and not funding allocated to the kindergartens, etc.
2. The unit cost for government primary and secondary schools includes expenditure chargeable to Head 156 Government Secretariat: Education Bureau and staff on-costs such as pensions, housing benefits, etc.
3. The financial provision for the Vocational Training Council (VTC) covers the vocational education courses offered by the Hong Kong Institute of Vocational Education and the VTC's training and development centres. The unit costs are calculated on an academic year and a full-time-equivalent basis.
4. Subventions to individual institutions under Head 190 University Grants Committee are as follows –

	2013-14 Actual	2014-15 Actual	2015-16 Revised Estimate	2016-17 Estimate
	\$ million	\$ million	\$ million	\$ million
City University of Hong Kong	1,757	1,939	2,208	2,277
Hong Kong Baptist University	897	992	1,102	1,121
Lingnan University	363	379	411	409
The Chinese University of Hong Kong	3,551	3,752	4,027	4,032
The Hong Kong Institute of Education	655	701	742	803
The Hong Kong Polytechnic University	2,380	2,536	2,745	2,853
The Hong Kong University of Science and Technology	1,865	1,989	2,110	2,175
The University of Hong Kong	3,522	3,695	4,112	4,153
Total*	14,989	15,983	17,457	17,822

*Figures may not add up due to rounding.

The non-recurrent funding under the Matching Grant Scheme is not included. The unit cost figures are calculated on an academic year and a full-time-equivalent basis.

The unit cost for 2016/17 estimate is calculated based on the approved student number targets and does not assume any over-enrolment, whereas the unit cost for 2013/14, 2014/15 and 2015/16 revised estimate is calculated based on the actual student number with over-enrolment, hence higher unit cost in 2016/17. In practice, institutions do over-enroll, in particular to take in non-local students who are on top of the approved student number targets.

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS), the Financial Assistance Scheme for Post-secondary Students (FASP) and the Non-means-tested Loan Schemes (NLS), would the Government please inform this Committee of the following –

- a. the three institutions with the largest number of applications for deferment of loan repayment in terms of the number of grant / loan applications approved and their respective percentages in 2013/14 and 2014/15;
- b. the three institutions with the largest number of unsuccessful applications for deferment of loan repayment in terms of the number of grant / loan applications approved and their respective percentages in 2013/14 and 2014/15; and
- c. the three institutions with the largest number of default cases in terms of the number of grant / loan applications approved and their respective percentages in 2013/14 and 2014/15.

Asked by: Hon Albert HO Chun-yan (Member Question No. 80)

Reply:

- a. We do not maintain information on the deferment applications in relation to individual institutions. The number of applications for deferment of loan repayment received from loan borrowers[@], and their percentages in terms of the number of loan repayment accounts under the TSFS, FASP and NLS in the 2013/14 and 2014/15 academic years are as follows –

	Academic Year	
	2013/14	2014/15
(A) TSFS		
No. of deferment applications received [#]	730	552
No. of loan repayment accounts	25 446	24 453
Percentage of deferment applications in terms of loan repayment accounts*	2.87%	2.26%
(B) FASP		
No. of deferment applications received [#]	1 264	885
No. of loan repayment accounts	24 753	26 599
Percentage of deferment applications in terms of loan repayment accounts*	5.11%	3.33%
(C) NLS		
No. of deferment applications received [#]	3 875	3 051
No. of loan repayment accounts	117 226	119 460
Percentage of deferment applications in terms of loan repayment accounts*	3.31%	2.55%
Total		
No. of deferment applications received [#]	5 869	4 488
No. of loan repayment accounts	167 425	170 512
Percentage of deferment applications in terms of loan repayment accounts*	3.51%	2.63%

@ Excluding defaulters

Excluding applications from loan borrowers who have opted for one-year deferred activation of loan repayment after completion of their study. This measure of deferred activation of loan repayment was introduced in the 2012-13 and 2013-14 Budgets and was made a standing arrangement in the 2014 Policy Address to alleviate the financial burden of fresh graduates.

* Each deferment application may involve more than one loan repayment account. Meanwhile, applicants may apply for deferment of repayment in respect of the same loan repayment account for more than one time in an academic year.

- b. We do not maintain information on the unsuccessful deferment applications in relation to individual institutions. The number of rejected applications for deferment of loan repayment made by loan borrowers[@], and their percentages in terms of the number of loan repayment accounts under the TSFS, FASP and NLS in the 2013/14 and 2014/15 academic years are as follows –

	Academic Year	
	2013/14	2014/15
(A) TSFS		
No. of rejected deferment applications [^]	205	138
No. of loan repayment accounts	25 446	24 453
Percentage of rejected deferment applications in terms of loan repayment accounts	0.81%	0.56%
(B) FASP		
No. of rejected deferment applications [^]	230	169
No. of loan repayment accounts	24 753	26 599
Percentage of rejected deferment applications in terms of loan repayment accounts	0.93%	0.64%
(C) NLS		
No. of rejected deferment applications [^]	843	665
No. of loan repayment accounts	117 226	119 460
Percentage of rejected deferment applications in terms of loan repayment accounts	0.72%	0.56%
Total		
No. of rejected deferment applications [^]	1 278	972
No. of loan repayment accounts	167 425	170 512
Percentage of rejected deferment applications in terms of loan repayment accounts	0.76%	0.57%

@ Excluding defaulters

[^] For most cases, the applications for deferment of loan repayment were rejected due to lack of documentary evidence from the loan borrowers. Other applications were rejected due to unjustified circumstances.

- c. We do not maintain information on the default rate⁸ of individual institutions. The number of default cases and the default rate in terms of the number of loan repayment accounts under the TSFS, FASP and NLS in the 2013/14 and 2014/15 academic years are as follows –

	Academic Year	
	2013/14	2014/15
(A) TSFS		
No. of default cases~		
(i) No. of default cases in which the Student Finance Office (SFO) of the Agency would initiate recovery action against the defaulters and the indemnifiers concerned	328	188
(ii) No. of default cases in which legal recovery action had been initiated+	1 119	1 067
Sub-total	<u>1 447</u>	<u>1 255</u>
No. of loan repayment accounts	25 446	24 453
Default rate in terms of loan repayment accounts	5.69%	5.13%
(B) FASP		
No. of default cases~		
(i) No. of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned	575	412
(ii) No. of default cases in which legal recovery action had been initiated+	808	1 007
Sub-total	<u>1 383</u>	<u>1 419</u>
No. of loan repayment accounts	24 753	26 599
Default rate in terms of loan repayment accounts	5.59%	5.33%
(C) NLS		
No. of default cases~		
(i) No. of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned	3 186	1 891
(ii) No. of default cases in which legal recovery action had been initiated+	7 920	7 815
Sub-total	<u>11 106</u>	<u>9 706</u>
No. of loan repayment accounts	117 226	119 460
Default rate in terms of loan repayment accounts	9.47%	8.12%

	Academic Year	
	2013/14	2014/15
Total		
No. of default cases~		
(i) No. of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned	4 089	2 491
(ii) No. of default cases in which legal recovery action had been initiated+	9 847	9 889
Sub-total	<u>13 936</u>	<u>12 380</u>
No. of loan repayment accounts	167 425	170 512
Default rate in terms of loan repayment accounts	8.32%	7.26%

§ Cases with two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as default cases. The default rate is the percentage of the number of default cases in relation to the number of loan repayment accounts as at the end of the academic year concerned.

~ The number of default cases in the 2013/14 and 2014/15 academic years is the number as at the end of the academic years concerned respectively (i.e. 31 July 2014 and 31 July 2015). The number represents the number of loan borrowers who have started repayment in the previous academic years and the academic year concerned but are still in default on that date.

+ The figures include those referred to the Department of Justice and filed directly to the Small Claims Tribunal, loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement or deferment / write-off applications were under processing.

(Question Serial No. 3303)

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (000) Operational expenses

Programme: (1) Student Assistance Scheme
(2) Low-income Working Family Allowance

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

The establishment of the Working Family and Student Financial Assistance Agency as at 31 March 2016 will be 1 117 permanent posts. It is expected that there will be an increase of 81 permanent posts (around 7.5%) in 2016-17.

Why will the personal emoluments of the Agency increase by 34% from \$290 million to \$393 million?

Asked by: Hon Albert HO Chun-yan (Member Question No. 80)

Reply:

Apart from the increased salary provision for 81 additional civil service posts for the Student Finance Office, the increase of salaries by about \$103 million (34%) over the revised estimate for 2015-16 is also due to the full-year effect for civil service posts for implementing the Low-income Working Family Allowance Scheme which will start receiving applications in 2016-17.

Reply:

The employment of NCSC staff in the Working Family and Student Financial Assistance Agency (WFSFAA) is set out below -

		2015-16^{Note 1} (as at 31 January 2016)
Number of NCSC staff		294 (+10.9%)
Breakdown of positions held by NCSC staff	Administration / Executive Support	61 (+8.9%)
	Scheme Administration	210 (+12.3%)
	General Office Support	3 (-62.5%)
	IT Support	20 (+42.9%)
Expenditure on salaries of NCSC staff (\$'000)		\$82,483 ^{Note 2} (+5.7%)
Monthly salary range of NCSC staff	\$30,001 or above	47 (+20.5%)
	\$16,001 to \$30,000	115 (+155.6%)
	\$8,001 to \$16,000	132 (-27.1%)
	\$6,501 to \$8,000	0 (0%)
	\$6,240 to \$6,500	0 (0%)
	Less than \$6,240	0 (0%)
Length of service of NCSC staff	15 years or above	7 (+600%)
	10 to less than 15 years	47 (0%)
	5 to less than 10 years	93 (-19.1%)
	3 to less than 5 years	22 (-63.3%)
	1 to less than 3 years	22 (+37.5%)
	Under 1 year	103(+296.2%)

	2015-16^{Note 1} (as at 31 January 2016)
Number of staff converted to civil servants	There is no mechanism for NCSC staff to be directly converted to civil servants. NCSC staff who met the basic entry requirements could apply for civil service vacancies through open recruitment and compete with other candidates on a fair and equal basis. Generally speaking, NCSC staff who have met the basic entry requirements and possess working experience relevant to the job would enjoy a competitive edge in the selection process over other candidates with less relevant experience.
Percentage of NCSC staff out of the total number of staff in the department	20.8% (-25.7%)
Percentage of staff costs for NCSC staff out of the total departmental staff costs	21.3% ^{Note 2} (-18.1%)
Number of staff who have received severance payments / long service payments / contract gratuities	214 (-21.0%)
Amount of severance payments / long service payments / contract gratuities paid (\$'000)	\$3,544 (-18.9%)
Number of staff whose severance payments / long service payments have been offset by and whose contract gratuities are calculated based on the accrued benefits attributable to employer's MPF contributions (contract gratuities is at a specified percentage inclusive of the government's MPF contributions. As both are funded by the government, there is no question of reducing the payable contract gratuities)	8 (-38.5%)
Amount of severance payments / long service payments offset by and amount of contract gratuities calculated based on the accrued benefits attributable to employer's MPF contributions (contract gratuities is at a specified percentage inclusive of the government's MPF contributions. As both are funded by the government, there is no question of reducing the payable contract gratuities) (\$'000)	\$227 (-19.0%)
Number of staff with paid meal break	294 (+10.9%)
Number of staff without paid meal break	0 (0%)
Number of staff on five-day week	293 ^{Note 3} (+10.6%)
Number of staff on six-day week	0 (0%)

() Change in percentage as compared with 2014-15.

Notes

1. We adopt the latest position of 31 January 2016 as compared with the position as at 1 March 2015.
2. Information provided covers the projected expenditure up to 31 March 2016.
3. Excluding one NCSC staff not on five-day week.

(201) Means-tested loan for tertiary students pursuing publicly-funded programmes
(202) Non-means-tested loan scheme
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the statement “continue the concerted efforts to recover student loans in arrears and tackle the default problem”, please –

1. Set out in table form the actions taken in recovering student loans in arrears, the expenditure involved and the amount recovered of the individual actions in the past three years.
2. Specify what departments are taking part to make the aforementioned “concerted efforts”. What is the expenditure incurred when they perform their functions? Which actions are more effective?
3. Provide statistics of the characteristic profile of defaulters, e.g. year of graduation, name of university, academic discipline or stream (arts, science, commerce or fine arts), employment situation, key reasons of default, debt age etc.

Asked by: Hon IP Kwok-him (Member Question No. 24)

Reply:

1. Student loan borrowers who have two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as defaulters. On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service (SMS) or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the Department of Justice (DoJ) or filing claims to the Small Claims Tribunal (SCT) directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

As a series of actions are taken to recover the outstanding loans, we do not maintain information on the expenditure involved and the amount recovered related to individual actions. The total expenditure involved in recovering student loans and the amount recovered in the 2013/14 to 2015/16 academic years are as follows –

	Academic Year		
	2013/14	2014/15	2015/16
Total expenditure ^ (\$ million)	24.3	27.6	28.1#
Amount recovered (\$ million)	167.2	128.3	52.2@

^ Mainly for salaries provision for staff (including civil servants and non-civil service contract staff of the Student Finance Office (SFO) of the Agency and the DoJ) involved in the work

Estimated expenditure for the whole 2015/16 academic year

@ Up to 31 January 2016

- On recovery of defaulted student loans through legal means, the SFO has maintained close collaboration with the DoJ which has set up a dedicated team since October 2010 to handle default cases referred by the SFO. In the 2015/16 academic year, the estimated expenditure involved in recovering defaulted student loans by both the SFO and the DoJ is \$28.1 million which is mainly for salaries provision for staff involved in the work.

Apart from loan recovery work, we have also implemented enhanced measures to prevent loan borrowers from becoming defaulters through sending them SMS earlier to remind them to repay on time and settle the arrears (if any), and appeal to them to approach us for assistance if they have genuine financial difficulties. In addition, we have further strengthened the promotion of prudent financial and credit management and responsible borrowing to students on all fronts through the SFO's website, enhancing collaboration with tertiary education institutions and related organisations (such as the Investor Education Centre), and disseminating more publicity materials pertinent to financial education to loan applicants and loan repayers at different junctures. The above measures should help student loan borrowers better manage their personal finance and encourage them to seek our assistance at an earlier stage when they have difficulty in repaying the student loans. This will in turn further reduce the number of default cases, default rate and debt age of default cases. We do not maintain information on the expenditure incurred by individual departments, institutions and organisations for the above measures.

Through all the above concerted efforts in recent years, the overall default rate in relation to the number of loan repayment accounts has dropped considerably from 12.45% at the end of the 2009/10 academic year (i.e. 31 July 2010) to 7.33% in the 2015/16 academic year (as at 31 January 2016). The number of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned has also reduced significantly by 76.4% from 11 855 at the end of the 2009/10 academic year to 2 801 in the 2015/16 academic year (as at 31 January 2016), notwithstanding an increase in the number of loan repayment accounts by 20.6% (from about 139 500 to 168 300) over the same period. The improvement in the default situation is the result of the concerted efforts of the loan recovery actions taken and the implementation of the above measures.

- As a defaulter may have more than one defaulted loan account under more than one financial assistance scheme for his / her study of different courses in different institutions, we do not maintain a statistical breakdown on the year of graduation, name of university, academic discipline or stream of defaulters. In addition, we do not maintain information on the employment situation of defaulters.

We have appealed to student loan defaulters to approach the SFO if they have financial difficulties in repaying their loans and have established a mechanism to handle their applications for loan restructuring or deferment of loan repayment. While some defaulters would approach the SFO to restructure their

loans or to defer repayment, others would ignore notices of loan repayment and reminders issued by the SFO, and would not approach the SFO to seek assistance. When faced with legal recovery action, some defaulters may repay all the loans in full or agree with the SFO to repay by instalments. The SFO is unable to ascertain the reasons of default for individual defaulters. As for loan borrowers who approach the SFO to seek deferment of repayment, their main reasons are financial hardship, further full-time studies and serious illness.

In the 2015/16 academic year (as at 31 January 2016), all default cases (excluding cases in which legal recovery action had been initiated, loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement or deferment applications were under processing by the SFO) are of debt age within one year.

CONTROLLING OFFICER'S REPLY**EDB601****(Question Serial No. 3897)**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (000) Operational expenses

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

In the 2016/17 academic year, will the Working Family and Student Financial Assistance Agency make available additional resources to study if it is feasible to accrue loan interest payable by students under the Non-means-tested Loan Scheme only after their graduation? If yes, what are the details and the estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 404)

Reply:

The non-means-tested loan schemes aim at providing financial assistance for post-secondary students who do not wish or fail to go through the means test. They are different from the means-tested loan schemes which target students from low-income families who lack the means to pursue post-secondary studies. To ensure the proper use of public funds, the non-means-tested-loan schemes operate on a no-gain-no-loss and full-cost recovery basis. Interest is accrued upon loan drawdown and throughout the study period until the loan is repaid in full.

The Government has implemented a package of improvement measures to reduce the repayment burden of students, prevent excessive borrowing by students and tighten the eligibility of courses since the 2012/13 academic year. The risk-adjusted-factor rate has been reduced from 1.5% to 0% per annum (which is currently under review) and the current interest rate for non-means-tested loan is 1.282% per annum. In addition, the standard loan repayment period has been extended from ten years to 15 years. Moreover, under the relaxed deferment arrangement, loan borrowers who have difficulty in repaying their loans on grounds of financial hardship, further full-time studies or serious illness and have been granted approval for deferment of loan repayment are allowed an extension of the loan repayment period without interest during the approved deferment period, subject to a maximum of two years. Together with the standard repayment period of 15 years, the entire repayment period can be up to 17 years.

If interest is waived during the study period, it would mean students who do not wish or fail to go through the means test could take out loans at zero cost from the Government during the study period. This would induce some students to take out the interest-free loans, potentially leading to unnecessary and/or excessive borrowing, and increasing the borrowers' repayment burden in the future.

Taking the above into account, the Government considers that the present arrangement for charging interest on non-means-tested loans during the study period is appropriate.

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

- (a) What are the details of work and expenditure involved in recovering student loans in arrears and tackling the default problem by the Student Finance Office (SFO), the number of recovered cases and the amount recovered in 2015/16?
- (b) What are the details of the above work, and the estimated expenditure involved in 2016/17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 461)

Reply:

- (a) Student loan borrowers who have two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as defaulters. On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service (SMS) or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the Department of Justice (DoJ) or filing claims to the Small Claims Tribunal (SCT) directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

In the 2015/16 academic year, the estimated expenditure involved in recovering defaulted student loans is \$28.1 million which is mainly for salaries provision for staff involved in the work. The number of

recovered cases and the amount recovered in the 2015/16 academic year (up to 31 January 2016) are 6 995 cases and \$52.2 million respectively.

- (b) In the 2016/17 academic year, apart from continuing the concerted efforts to recover the outstanding student loans from the defaulters and their indemnifiers in an expeditious manner, we will continue to implement enhanced measures to prevent loan borrowers from becoming defaulters through sending them SMS earlier to remind them to repay on time and settle the arrears (if any), and appeal to them to approach us for assistance if they have genuine financial difficulties. In addition, we will further strengthen the promotion of prudent financial and credit management and responsible borrowing to students on all fronts through the SFO's website, enhancing collaboration with tertiary education institutions and related organisations (such as the Investor Education Centre), and disseminating more publicity materials pertinent to financial education to loan applicants and loan repayers at different junctures. The above measures should help student loan borrowers better manage their personal finance and encourage them to seek our assistance at an earlier stage when they have difficulty in repaying the student loans. This will in turn further reduce the number of default cases, default rate and debt age of default cases.

The estimated expenditure involved in recovering defaulted student loans in the 2016/17 academic year is \$29.8 million which is mainly for salaries provision for staff involved in the work.

(103) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide the numbers and percentages of applicants from families in receipt of the Comprehensive Social Security Assistance (CSSA) under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP) in the past five years.
2. Please advise on the situation of applications for financial assistance under the TSFS and FASP from students of families in receipt of the CSSA and the assistance items involved in the past five years.
3. Please advise on the number of successful applicants of the TSFS and FASP from families in receipt of the CSSA who were granted the hostel subsidy for needy undergraduates provided by the Community Care Fund (CCF) since 2014, and the amount of funding involved.

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 178)

Reply:

- 1 & 2. All applicants from families in receipt of the CSSA are eligible for financial assistance in the form of full grant and loan under the respective schemes. In the 2011/12 to 2015/16 academic years, the numbers and percentages of successful applicants from families in receipt of the CSSA under the TSFS and FASP, the numbers of these applicants disbursed with grant and loan are as follows –

	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
TSFS					
(a) Number of successful applicants	26 330	30 184	28 701	26 802	23 256
(b) Number of successful applicants from families in receipt of CSSA (%)	5 270 (20.0%)	6 029 (20.0%)	5 167 (18.0%)	5 163 (19.3%)	4 724 (20.3%)
(c) Number of applicants in (b) disbursed with grant	5 270	6 029	5 167	5 163	4 724
(d) Number of applicants in (b) disbursed with loan	1 881	2 130	1 737	1 562	1 273
FASP					
(a) Number of successful applicants	22 878	28 383	26 657	23 002	19 253
(b) Number of successful applicants from families in receipt of CSSA (%)	5 916 (25.9%)	6 958 (24.5%)	6 079 (22.8%)	5 000 (21.7%)	4 550 (23.6%)
(c) Number of applicants in (b) disbursed with grant	5 916	6 958	6 079	5 000	4 550
(d) Number of applicants in (b) disbursed with loan	2 732	2 462	1 923	1 576	1 046

* As at 31 January 2016

3. In the 2014/15 and 2015/16 academic years, the number of CSSA applicants under the TSFS and FASP who received the hostel subsidy funded by the CCF are as follows –

	2014/15	2015/16#
TSFS		
Number of CSSA applicants disbursed with hostel subsidy	1 001	880
Amount of hostel subsidy disbursed to CSSA applicants (\$ million)	7.10	3.66
FASP		
Number of CSSA applicants disbursed with hostel subsidy	25	56
Amount of hostel subsidy disbursed to CSSA applicants (\$ million)	0.17	0.16

The figures show the number of CSSA applicants disbursed with the hostel subsidy for the first term of 2015/16. The subsidy for the second term will be disbursed around July 2016.

(E) ENLS @

The Government completed a review of the Non-means-tested Loan Schemes in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories.

The number of students receiving loans in respect of each of the nine categories of eligible courses/course providers under the ENLS in the 2011/12 academic years are as follows –

Category of Eligible Courses	Academic Year
	2011/12
Category 1 – Courses offered by the Open University of Hong Kong	338
Category 2 – Courses offered by the Hong Kong Shue Yan University	4
Category 3 – Part-time publicly-funded programmes or self-financing, local award-bearing programmes (i.e. programmes of study leading to the award of local academic qualifications) or training or development courses at the post-secondary level offered by publicly-funded institutions (including their Schools of Professional and Continuing Education)	2 347
Category 4 – Project Yi Jin	785

Category of Eligible Courses	Academic Year	
	2011/12	
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 868	
Category 6 – Post-secondary courses, adult education courses, continuing and professional education courses offered by schools registered under section 13(a) or exempted from registration under section 9(1) of the Education Ordinance (Chapter 279)	841	
Category 7 – Courses offered by Post Secondary Colleges registered under the Post Secondary Colleges Ordinance (Chapter 320)	82	
Category 8 – Training or development courses provided or funded by statutory bodies	77	
Category 9 – Continuing and professional education courses offered by other institutions approved by the then Controller, Student Financial Assistance Agency	238	
Total	7 580	

The number of students receiving loans in respect of each of the five categories of eligible courses/course providers under the ENLS in the 2012/13 to 2015/16 academic years are as follows –

Category of Eligible Courses	Academic Year			
	2012/13	2013/14	2014/15	2015/16*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status ++	3 887	3 644	3 215	2 321
Category 2 – Courses under Diploma Yi Jin	1 110	925	872	803
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	4	1	1
Category 4 – Training or development courses provided or funded by local statutory bodies	8	5	2	4
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 707	2 707	2 638	1 721
Total	7 713	7 285	6 728	4 850

* As at 31 January 2016

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the number of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

++ The figures include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

- (ii) The numbers of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2011/12 to 2015/16 academic years are as follows –

(A) TSFS

Total	8 393	11 572	12 140	12 359	12 009

* As at 31 January 2016

As for the ENLS, we do not maintain information on the study level of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

- (iii) We do not have a separate breakdown of the administrative cost involved in the processing of loan applications by individual institution or study level of programmes.

- End -

Head: (173) Working Family and Student Financial Assistance Agency
(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance
(101) Means-tested loan for tertiary students pursuing publicly-funded programmes
(103) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP), will the Government please provide in table form the total number of applicants, number of successful applicants, number of applicants from families in receipt of Comprehensive Social Security Assistance (CSSA), number of successful applicants from families in receipt of the CSSA, and number of applicants from families in receipt of the CSSA who are disbursed with loans to meet living expenses in the past five years?

Asked by: Dr Hon Fernando CHEUNG Chiu-hung (Member Question No. 504)

Reply:

In the 2011/12 to 2015/16 academic years, the information regarding the applicants under the TSFS and FASP and those from families in receipt of the CSSA are set out as follows –

	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
TSFS					
(a) Number of applicants	29 210	33 923	32 147	31 010	29 784
(b) Number of successful applicants	26 330	30 184	28 701	26 802	23 256
(c) Number of successful applicants from families in receipt of CSSA	5 270	6 029	5 167	5 163	4 724
(d) Number of applicants in (c) who accepted and were disbursed with loans to meet living expenses	1 881	2 130	1 737	1 562	1 273

	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
FASP					
(a) Number of applicants	27 760	33 934	31 402	27 367	26 565
(b) Number of successful applicants	22 878	28 383	26 657	23 002	19 253
(c) Number of successful applicants from families in receipt of CSSA	5 916	6 958	6 079	5 000	4 550
(d) Number of applicants in (c) who accepted and were disbursed with loans to meet living expenses	2 732	2 462	1 923	1 576	1 046

* As at 31 January 2016

All applicants from families in receipt of CSSA are eligible for full assistance under the respective schemes, and the Student Finance Office of the Agency will process their applications expeditiously.

(E) ENLS @

The Government completed a review of the Non-means-tested Loan Schemes in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories.

The number of students receiving loans in respect of each of the nine categories of eligible courses/course providers under the ENLS in the 2011/12 academic year are as follows –

Category of Eligible Courses	Academic Year
	2011/12
Category 1 – Courses offered by the Open University of Hong Kong	338
Category 2 – Courses offered by the Hong Kong Shue Yan University	4
Category 3 – Part-time publicly-funded programmes or self-financing, local award-bearing programmes (i.e. programmes of study leading to the award of local academic qualifications) or training or development courses at the post-secondary level offered by publicly-funded institutions (including their Schools of Professional and Continuing Education)	2 347

Category of Eligible Courses	Academic Year
	2011/12
Category 4 – Project Yi Jin	785
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 868
Category 6 – Post-secondary courses, adult education courses, continuing and professional education courses offered by schools registered under section 13(a) or exempted from registration under section 9(1) of the Education Ordinance (Chapter 279)	841
Category 7 – Courses offered by Post Secondary Colleges registered under the Post Secondary Colleges Ordinance (Chapter 320)	82
Category 8 – Training or development courses provided or funded by statutory bodies	77
Category 9 – Continuing and professional education courses offered by other institutions approved by the then Controller, Student Financial Assistance Agency	238
Total	7 580^{##}

The number of students receiving loans in respect of each of the five categories of eligible courses/course providers under the ENLS in the 2012/13 to 2015/16 academic years are as follows –

Category of Eligible Courses	Academic Year			
	2012/13	2013/14	2014/15	2015/16*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status ⁺⁺	3 887	3 644	3 215	2 321
Category 2 – Courses under Diploma Yi Jin	1 110	925	872	803
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	4	1	1
Category 4 – Training or development courses provided or funded by local statutory bodies	8	5	2	4
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 707	2 707	2 638	1 721
Total	7 713^{##}	7 285^{##}	6 728^{##}	4 850^{##}

* As at 31 January 2016

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the number of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

⁺⁺ The figures include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

^{##} Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loans by category is larger than the figure in (a) above.

(ii) The number of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2011/12 to 2015/16 academic years are as follows –

(A) TSFS

Level of Study	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
Degree or above	7 091	8 013	7 142	6 319	4 792
Sub-degree	1 743	1 635	1 562	1 305	948
Total	8 834	9 648	8 704	7 624	5 740

(B) FASP

Level of Study	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
Degree / Top-up degree	2 970	3 169	3 293	3 415	2 135
Sub-degree	6 458	5 516	4 073	2 661	1 477
Total	9 428	8 685	7 366	6 076	3 612

(C) NLSFT

Level of Study	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
Degree or above	4 274	7 007	7 663	8 660	8 406
Sub-degree	1 083	1 501	1 720	1 684	1 658
Total	5 357	8 508	9 383	10 344	10 064

(D) NLSPS

Level of Study	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
Degree / Top-up degree	2 434	4 152	5 284	6 990	7 077
Sub-degree	5 959	7 420	6 856	5 369	4 932
Total	8 393	11 572	12 140	12 359	12 009

* As at 31 January 2016

As for the ENLS, we do not maintain information on the study level of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

(iii) The lowest, average, median and highest loan amounts disbursed under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2011/12 to 2015/16 academic years are as follows –

Loan Disbursed (\$)	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
(A) TSFS (loans are to cover living expenses)					
Lowest	1,890	1,180	2,040	3,180	2,650
Average	28,657	29,535	29,997	31,367	33,017
Median	37,000	39,000	40,000	40,000	43,905
Highest **	56,940	59,470	61,440	63,780	66,460
(B) FASP (loans are to cover living expenses)					
Lowest	1,000	1,189	2,000	2,126	3,000
Average	29,300	30,699	31,366	32,986	30,285
Median	37,960	39,650	40,960	42,520	26,586
Highest **	62,250	65,740	68,110	71,580	75,590

Highest	42,100	42,100	43,940	51,310	51,310
(D) NLSPS (loans were to cover tuition fees, academic expenses and living expenses in the 2011/12 academic year, and are to cover tuition fees only starting from the 2012/13 academic year)					
Lowest	1,370	1,460	1,190	510	1,810
Average	66,071	50,973	53,587	57,289	51,886
Median	67,935	49,500	50,400	52,560	51,200
Highest	278,960	247,731	341,064	261,911	267,143
(E) ENLS (loans are to cover tuition fees)					
Lowest	2,320	2,100	3,000	1,500	3,253
Average	45,319	47,091	49,936	53,254	44,000
Median	29,500	36,250	38,800	41,400	40,550
Highest	520,000	300,000	312,300	325,700	340,000

* As at 31 January 2016

** Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of an academic year on a discretionary basis.

Prior to the implementation of the measure to extend the standard repayment period to 15 years commencing from the 2012/13 academic year, student loan borrowers under the TSFS and FASP were required to repay their loans by 20 quarterly instalments in five years while those under the NLSFT, NLSPS and ENLS were required to repay their loans by 40 quarterly instalments in ten years upon completion or cessation of their studies. Most of the student loan borrowers repaid their loans according to the standard repayment period, though some might settle their loans earlier on their own accord.

We do not have information on the distribution of student loan borrowers by district of residence, type of housing, sex and age profile.

- (c) The number of students receiving grant and the number of students receiving full grant under the TSFS and FASP in different institutions in the 2011/12 to 2015/16 academic years are set out below. We do not have readily available information on the breakdown of the beneficiaries by department and year of study.

(A) TSFS

* As at 31 January 2016

- (d) The number of students receiving loans in different institutions as well as the average loan amount disbursed under the NLSFT, NLSPS and ENLS in the 2011/12 to 2015/16 academic years are provided in (a) and (b) above. We do not maintain statistical breakdown on the distribution of student loan borrowers by department and year of study.
- (e) The information on the average loan amount and the median loan amount of student loan borrowers who obtained loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2011/12 to 2015/16 academic years is provided in (b)(iii) above. As regards the information on their average and median monthly repayment amounts, we do not keep track of the students based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times. Based on the information of student loan borrowers who graduated and commenced loan repayment in the 2011/12 to 2014/15 academic years, the average loan amount, the median loan amount, the average monthly repayment amount and the median monthly repayment amount are as follows –

Loan/ Repayment Amount (\$)	Academic Year			
	2011/12	2012/13	2013/14	2014/15
(A) TSFS				
Average loan amount ^^	50,519	55,507	60,139	59,644
Median loan amount ^^	37,250	44,920	50,340	48,710
Average monthly loan repayment amount	898	332~	360~	357~
Median monthly loan repayment amount	663	269~	301~	292~

Loan/ Repayment Amount (\$)	Academic Year			
	2011/12	2012/13	2013/14	2014/15
(B) FASP				
Average loan amount ^^	44,830	52,478	53,449	55,559
Median loan amount ^^	37,065	40,000	39,650	40,960
Average monthly loan repayment amount	797	314~	320~	333~
Median monthly loan repayment amount	659	240~	237~	245~
(C) NLSFT				
Average loan amount ^^	68,053	72,877	73,315	71,033
Median loan amount ^^	61,400	64,100	65,075	60,500
Average monthly loan repayment amount	696	466~	470~	448~
Median monthly loan repayment amount	628	410~	417~	381~
(D) NLSPS#				
Average loan amount ^^	94,607	103,249	96,805	89,425
Median loan amount ^^	83,227	87,000	84,600	85,867
Average monthly loan repayment amount	963	661~	621~	564~
Median monthly loan repayment amount	835	557~	542~	541~
(E) ENLS				
Average loan amount ^^	53,912	58,675	66,883	64,520
Median loan amount ^^	42,000	49,200	57,000	49,000
Average monthly loan repayment amount	455	366~	418~	400~
Median monthly loan repayment amount	418	307~	357~	304~

^^ The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (a) and (b) above which are calculated based on the amount of loans disbursed in a particular academic year.

~ Based on a 15-year repayment period. For the TSFS and FASP, the interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.282% per annum.

In the 2011/12 academic year, the NLSPS loans were to cover tuition fees, academic expenses and living expenses. Starting from the 2012/13 academic year, the NLSPS loans are to cover tuition fees only.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2015/16 academic year is not yet available.

We do not maintain information on the default rate[§] of student loan borrowers based on when they obtained loans. The default rate of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2011/12 to 2015/16 academic years is as follows –

Scheme	Academic Year				
	2011/12	2012/13	2013/14	2014/15	2015/16*
TSFS	6.70%	6.04%	5.69%	5.13%	6.05%
FASP	8.42%	6.29%	5.59%	5.33%	6.73%
NLSFT	7.36%	7.03%	5.79%	4.80%	4.27%
NLSPS	11.78%	10.48%	8.84%	7.54%	6.86%
ENLS	13.70%	12.52%	10.99%	9.59%	9.38%
Overall	10.64%	9.55%	8.32%	7.26%	7.33%

* As at 31 January 2016

§ Student loan borrowers who fail to repay two or more consecutive quarterly instalments / six or more consecutive monthly instalments for one or more loan repayment account(s) are considered as defaulters. The default rate is the percentage of the number of default cases[^] in relation to the number of loan repayment accounts as at the end of

the academic year concerned, unless otherwise specified.

- ^ The number of default cases in the 2011/12 to 2015/16 academic years is the number as at the end of the academic years concerned (i.e. 31 July 2012, 31 July 2013, 31 July 2014 and 31 July 2015) and 31 January 2016 respectively. The number represents the number of loan borrowers who should have started repayment in the previous academic years and the academic year concerned but are still in default on the date.

- End -

CONTROLLING OFFICER'S REPLY**EDB613****(Question Serial No. 4964)**Head: (173) Working Family and Student Financial Assistance AgencySubhead (No. & title): (228) Student financial assistanceProgramme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)Director of Bureau: Secretary for EducationQuestion:

1. Please provide, in the table below, information on the titles of all publicly-funded scholarships, the average and median values of award of each scholarship, as well as the numbers of local and non-local students awarded scholarships in the past five years (2011/12 to 2015/16).

Table 1

Title of scholarship	Median value of award	Average value of award	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved

2. Please provide, in the table below, information on non-local students granted publicly-funded scholarships in the past five years (2011/12 to 2015/16), such as nationality/place of origin, average value of award, median value of award and the amount of government expenditure involved.

Table 2a

Title of scholarship	Number of non-local students granted publicly-funded scholarships								
	Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Others (please specify)

Table 2b

Place of origin of non-local students granted publicly-funded scholarships	Total number of students (%)	Number of scholarships	Average value of award	Median value of award	Total amount of government expenditure involved
Mainland China					
Taiwan					
USA					
UK					
Japan					
South Korea					
France					
Canada					
Others (please specify)					

3. Please provide detailed information on the titles of all publicly-funded university scholarships, as well as the numbers, with percentage, of local students and non-local students granted scholarships by institution, department and year of study in the past five years (2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 82)

Reply:

1. Regarding the publicly-funded scholarships that are administered by the Student Finance Office (SFO) of the Agency in the past five school years from 2011/12 to 2015/16, the information required is set out in Table 1 below –

Table 1

Title of scholarship	School Year	Median value of award	Average value of award	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved (\$ million)
Scholarship for Prospective English Teachers ^a	2011/12	\$50,000	\$51,429	80 ^b (95.2%)	4 (4.8%)	4.32
	2012/13		\$50,962	151 ^b (96.8%)	5 (3.2%)	7.95
	2013/14		\$50,686	171 ^b (97.7%)	4 (2.3%)	8.87
	2014/15		\$50,343	173 ^b (98.9%)	2 (1.1%)	8.81
	2015/16*		\$50,345	172 ^b (98.9%)	2 (1.1%)	8.76

* As at 31 January 2016

Remarks

- ^a The scholarship was established in 2010/11 as one of a series of measures to enhance the professionalism of English teachers in Hong Kong. The aim of the scholarship is to attract persons proficient in English to pursue relevant local bachelor degree programmes and / or teacher training programmes which will qualify them to become English teachers on graduation.
- ^b The figure includes renewal awards for students pursuing bachelor degree programmes at Year 2 or above and / or teacher training programmes.

2. Tables 2a and 2b below list the information on non-local students awarded publicly-funded scholarships in the past five school years from 2011/12 to 2015/16 –

Table 2a

Title of scholarship	School Year	Number of non-local students awarded the publicly-funded scholarships

CONTROLLING OFFICER'S REPLY**EDB614****(Question Serial No. 4965)**Head: (173) Working Family and Student Financial Assistance AgencySubhead (No. & title): (228) Student financial assistance
(700) General non-recurrent
Item 508 Continuing Education FundProgramme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency
(Mr Esmond LEE)Director of Bureau: Secretary for EducationQuestion:

1. Please provide in the table below information on the following student financial assistance schemes in the past five years (2011/12 to 2015/16) –

	Number of applications	Number of beneficiaries	Average amount of assistance disbursed (\$)	Median amount of assistance disbursed (\$)	Total amount of assistance disbursed (\$ million)
Kindergarten and Child Care Centre Fee Remission Scheme					
Pre-primary Education Voucher Scheme					
Examination Fee Remission Scheme					
Subsidy Scheme for Internet Access Charges					
School Textbook Assistance Scheme					
Student Travel Subsidy Scheme					
Community Care Fund – Enhancement of the Flat-rate Grant under the School Textbook Assistance Scheme					
Community Care Fund – Enhanced Travel Subsidy for Needy Special School Students					

Financial Assistance Scheme for Designated Evening Adult Education Courses					
Tuition fee reimbursement under the Diploma Yi Jin					
Student Travel Subsidy for Tertiary or Post-secondary Students					
Continuing Education Fund					

2. How will the Government enhance or improve its measures on financial assistance for the present and future? What is the amount involved?

Asked by: Hon IP Kin-yuen (Member Question No. 83)

Reply:

1. The requested information for the above student financial assistance schemes for the past five years (i.e. 2011/12 to 2015/16 school years) is set out in the Appendix.
2. The Government is committed to ensuring that no students will be denied access to education because of a lack of means, and that continuous learning should be supported. Premised on this, the Government reviews the student financial assistance schemes from time to time to assess their effectiveness, and to ascertain whether the schemes can achieve the objectives they are set up for. Where areas for improvement are identified, enhancement measures will be put in place promptly so that students in need will be provided with the necessary assistance. Specifically, the Government will launch the following improvement measures –
 - (a) to continue to lift the fee remission ceilings under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) to the 75th percentile of the school fees of kindergartens under the Pre-primary Education Voucher Scheme in the 2016/17 school year before the implementation of the new kindergarten education policy in the 2017/18 school year. This lifting of the fee remission ceilings under the KCFRS is estimated to incur an additional expenditure of around \$70 million in the 2016/17 school year; and
 - (b) to provide a grant for school-related expenses for kindergarten students from needy families to defray expenditure incurred from learning or education upon the implementation of the new kindergarten education policy in the 2017/18 school year. To provide timely support for needy families to meet school-related expenses incurred from their children's kindergarten education before the implementation of the new policy in the 2017/18 school year, a one-off grant funded by the Community Care Fund will be disbursed to eligible kindergarten students in the 2016/17 school year. This measure is estimated to incur an expenditure of around \$157 million.

CONTROLLING OFFICER'S REPLY**EDB615****(Question Serial No. 3988)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

1. Under the Programme, it is stated that "Knowledge Transfer - The UGC recognises the importance of knowledge transfer in bringing about socio-economic benefits and impact to the community and businesses. Recurrent funding of \$62.5 million per year in the 2016/17 to 2018/19 triennium will be allocated to its funded institutions to further strengthen and broaden their endeavours, commensurate with their roles and missions", while Higher Aims Limited, a consultancy firm, states that "the funding for and reporting mechanisms of the 8 institutions concerning knowledge transfer activities should be based on the recommendations of the consultant during the 2012-15 triennium." Will the Government advise of the indicators for knowledge transfer as mentioned in the Programme?
2. Please list the number of graduates of undergraduate programmes offered by various engineering departments of the University of Hong Kong, the Hong Kong University of Science and Technology, the Hong Kong Polytechnic University, the Chinese University of Hong Kong and the City University of Hong Kong over the past 5 years and, among them, the number of those awarded First Class Honours.

Asked by: Hon Albert HO Chun-yan (Member Question No. 85)

Reply:

1. Knowledge transfer (KT) is a natural extension of higher education institutions' teaching and research activities and has become their third core function. The UGC recognises the importance of KT in bringing about socio-economic benefits and impact to the community and businesses. Recurrent funding of \$62.5 million per year will be allocated in the 2016/17 to 2018/19 triennium to UGC-funded institutions to further strengthen and broaden their endeavours, commensurate with their roles and missions. As a condition of the funding, institutions are required to submit annual reports on the use and outcomes of the funding to the UGC, which are uploaded to the UGC website. To show the outcomes and activities undertaken in the past year, institutions provide information under specified performance indicators such as number of patents filed and granted, number of economically active spin-off companies, number of consultancies and income thereby generated, number of collaborative researches and income generated, number of public lectures/symposiums/exhibitions and speeches to a community audience, etc. Institutions may also provide information under additional performance indicators appropriate for their particular KT activities.
2. The number of graduates of UGC-funded undergraduate programmes in engineering disciplines of The University of Hong Kong, The Hong Kong University of Science and Technology, The Hong Kong Polytechnic University, The Chinese University of Hong Kong and City University of Hong Kong for the 2010/11 to 2014/15 academic years and, among them, the number of those awarded First Class Honours are set out below.

(Headcount)					
Institution	Number of Graduates in Academic Year				
	2010/11	2011/12	2012/13	2013/14	2014/15
City University of Hong Kong	498	465	482	452	459
Graduates with First Class Honours	77	79	58	62	52
The Chinese University of Hong Kong	352	294	371	382	418
Graduates with First Class Honours	35	28	39	49	47
The Hong Kong Polytechnic University	840	859	884	896	925
Graduates with First Class Honours	87	71	74	77	85
The Hong Kong University of Science and Technology	687	702	729	698	714
Graduates with First Class Honours	96	84	104	122	117
The University of Hong Kong	478	429	437	453	442
Graduates with First Class Honours	67	69	75	86	59
Total	2 854	2 749	2 903	2 881	2 958
Graduates with First Class Honours	361	331	350	396	359

Note:

Programmes in engineering disciplines refer to programmes in the Academic Programme Category of Engineering and Technology as reported by the UGC-funded institutions.

Asked by: Hon James TO Kun-sun (Member Question No. 88)

Reply:

- (a) – (e) In the 2015/16 academic year, 115 local students whose ethnicity and / or spoken language at home is not Chinese (collectively referred to as non-Chinese speaking students) were admitted to University Grants Committee(UGC)-funded full-time post-secondary programmes under the Joint University Programmes Admissions System (JUPAS). Information on these students' Chinese Language qualifications is not available. NCS students meeting prescribed circumstances are allowed to submit alternative qualifications in Chinese language (i.e. Chinese Language in General Certificate of Education Examination, General Certificate of Secondary Education Examination (GCSE) or International GCSE) in lieu of general Chinese language requirement through JUPAS for the purpose of satisfying minimum entrance requirements for admission. It is noteworthy that student admission is a matter of institutional autonomy and the Government does not monitor institutions in terms of the qualifications of their intakes.
- (f) In the 2015/16 academic year, a total of 14 254 local students were admitted to UGC-funded full-time post-secondary programmes through JUPAS.
- (g) and (h) In the 2015/16 academic year, a total of 37 829 students (provisional figure as of October 2015), including 438 non-Chinese speaking students, were admitted to full-time locally accredited non-UGC-funded post-secondary programmes.

Asked by: Hon James TO Kun-sun (Member Question No. 89)

Reply:

In 2015, there were a total of 72 859 candidates sitting for the Hong Kong Diploma of Secondary Education (HKDSE) Examination. Among them, 25 782 met the general entrance requirements of undergraduate programmes, and 22 232 received admission offers to post-secondary programmes through the Joint University Programmes Admissions System (JUPAS).

In 2015, out of 930 Secondary 6 non-Chinese speaking (NCS) students attending public sector and Direct Subsidy Scheme schools offering local curriculum, 830 took the HKDSE Examination. Among these 830 NCS students, 97 sat for HKDSE (Chinese Language) Examination. Out of the 830 NCS students taking HKDSE Examination, 220 met the general entrance requirements of undergraduate programmes. In the same year, 145 NCS students received admission offers to post-secondary programmes through JUPAS.

CONTROLLING OFFICER'S REPLY**EDB618****(Question Serial No. 4061)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The intake of senior year undergraduate places in University Grants Committee (UGC)-funded institutions will progressively increase by a total of 1000 places. In this connection, please advise the following information :

- (a) the spending for each school year between 2015/16 and 2018/19, with a breakdown of expenditure items;
- (b) the number of students studying in the first year of sub-degree programmes in last 3 years, with a breakdown of disciplines and institutions;
- (c) the number of students who were able to articulate to UGC-funded degree programmes in last 3 years, with a breakdown of disciplines and institutions;
- (d) whether all UGC-funded degree programmes provide senior year undergraduate places for sub-degree graduates to apply; if yes, of the details; if no, of that reasons?

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 77)Reply:

- (a) As funding for the senior year places is subsumed under the block grant to institutions, the UGC is unable to identify and attribute the actual expenditure on specific programmes. It is noteworthy that according to the institutions, the average student unit cost per annum of a UGC-funded undergraduate (including senior year) place for the 2014/15 academic year was \$222,000, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the academic years from 2015/16 onwards is not yet available.
- (b) The numbers of first year student intakes of UGC-funded sub-degree programmes for the 2013/14 to 2015/16 academic years by institution and broad academic programme category are at Annex A.
- (c) The numbers of senior year student intakes of UGC-funded undergraduate programmes for the 2013/14 to 2015/16 academic years by institution and broad academic programme category are at Annex B.
- (d) Institutions are entitled to exercise a considerable degree of latitude in planning their academic portfolios, including the allocation of senior year undergraduate places to different disciplines. Generally speaking, to ensure comparable articulation prospect for sub-degree graduates of different disciplines, institutions endeavour to allocate senior year places with reference to the distribution of

sub-degree graduates (in both publicly-funded and self-financing sectors) across various disciplines. Furthermore, it should be reckoned that for some programmes that would lead to professional qualifications, due to statutory and professional requirements, it is not possible to admit students at the senior year level.

CONTROLLING OFFICER'S REPLY**EDB619****(Question Serial No. 4062)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The UGC is working with the Government and the institutions to have more hostel places as quickly as practicable. In this connection, please advise the following information:

- (a) the number of students who were on the waiting list for hostel places in last 3 years broken down by institutions;
- (b) the number of supply of hostel places in the last 3 years; the number of additional hostel places that will be created in coming 3 years, please provide details and expenditure involved.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 78)Reply:

Under the Government's prevailing hostel policy, subject to the availability of land and resources, the provision of publicly-funded student hostels in the University Grants Committee (UGC)-funded institutions is calculated in accordance with the following criteria¹: all undergraduate students should be given the opportunity to stay in student hostel for at least one year of their courses; and all research postgraduates, non-local students as well as undergraduate students whose daily travelling time exceeds four hours, should be provided with student hostel places.

The actual allocation of student hostel places to individual students is a matter within institutional autonomy. The UGC-funded institutions allocate publicly-funded, privately-funded and temporary hostel places to their local and non-local students enrolled in the UGC-funded and non-UGC-funded programmes as well as exchange students according to their own sets of criteria and procedures. UGC does not collect information from the institutions regarding the number of students put on waiting lists, if any, for hostel places.

For indicative purpose, the supply of and additional requirements for publicly-funded hostel places, with breakdown by institution, in the last three academic years are given in the table below.

¹ The criteria are applicable to all UGC-funded institutions, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Hong Kong Institute of Education (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the Institute having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

Institution	Supply (S) and additional requirement (AR) for publicly-funded hostel places					
	2013/14		2014/15		2015/16	
	S	AR	S	AR	S	AR
City University of Hong Kong	3 485	1 426	3 485	1 898	3 485	2 011
Hong Kong Baptist University	1 710	723	1 710	881	1 711	1 128
Lingnan University	1 300	-	1 300	-	1 300	-
The Chinese University of Hong Kong	6 182	1 111	6 182	1 271	6 182	1 304
The Hong Kong Institute of Education	2 003	-	2 003	-	2 003	-
The Hong Kong Polytechnic University	4 654	774	4 654	1 250	4 654	1 406
The Hong Kong University of Science and Technology ²	4 101	1 054	4 101	1 159	4 141	953
The University of Hong Kong	5 725	1 848	5 725	1 891	5 728	1 858
Total	29 160	6 936	29 160	8 350	29 204	8 660

Regarding the number of additional publicly-funded hostel places in the coming three years, one hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by institution) was approved by the Legislative Council in mid-2015. This project is currently under construction for completion in mid-2018. Upon its completion, it will provide 676 publicly-funded hostel places to The Chinese University of Hong Kong.

- End -

² Including 520 hostel places to be provided in mid-2016 under the project 8015EL “Tseung Kwan O Joint Student Hostel”. It was originally a joint project with a provisional split of 370 places for The Hong Kong University of Science and Technology and 150 places for Hong Kong Baptist University (HKBU). Subsequently, HKBU decided to transfer its 150 hostel places from the Tseung Kwan O Joint Student Hostel to a new hostel and academic building project at a new site at Renfrew Road, Kowloon Tong near its main campus. The proposed transfer was agreed by the two universities in April 2015 and as a result, the student hostel in Tseung Kwan O is now solely owned by HKUST.

CONTROLLING OFFICER'S REPLY**EDB620****(Question Serial No. 4063)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The total number of students studying in full-time UGC-funded programmes will decrease from 95 538 to 83 897. In this connection, please advise the following information :

- (a) the details of having such decrease;
- (b) since the Administration reiterated that the number of secondary school leavers will decline to 45 000 in the 2021/22 academic year, whether it will drive the Administration to reduce the number of FYFD places; if yes, the reasons for that;
- (c) given that the number of students studying in full-time UGC-funded research postgraduate programmes will decrease by 24% in 2016-2017, whether it will affect the supply of talent in the research field; the number of local and non-local students studying in full-time UGC-funded research postgraduate programmes in last 3 years as well as the spending involved.

Asked by: Hon Abraham SHEK Lai-him (Member Question No. 79)

Reply:

- (a) The University Grants Committee (UGC)-funded institutions may over-enroll students to their UGC-funded programmes on the understanding that no extra resources are provided by the UGC. Generally speaking, over-enrollment across the whole institution not exceeding 4% for local students is permitted. As regards non-local students, in accordance with Government's policy, the UGC-funded institutions may enroll non-local students to their UGC-funded sub-degree, undergraduate and taught postgraduate programmes up to 20% of the approved UGC-funded student number targets for these programmes. This 20% comprises up to 4% within the UGC funded number and up to 16% outside the UGC-funded number (the so called "4%-in-16%-out" policy). Over the years, institutions have been exercising this flexibility in over-enrollment in their UGC-funded sub-degree, undergraduate and taught postgraduate programmes.

Besides, it is noteworthy that, starting from the 2016/17 academic year, the "4%-in-16%-out" policy will be replaced by a "20%-out" policy, i.e. all new non-local students in sub-degree, undergraduate and taught postgraduate programmes will have to be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes, by study level.

For research postgraduate (RPg) programmes, institutions are allowed to enroll RPg students up to 40% over and above their respective approved student numbers, subject to conditions as stipulated in

the UGC Notes on Procedures. Over the years, institutions have been exercising this flexibility in over-enrolment in support of their research projects.

As a result of over-enrollment, the actual number of students enrolled in UGC-funded programmes in the 2015/16 academic year was 95 538, while the total approved student number for that year was 83 895. The total approved student number in the 2016/17 academic year is 83 897, about the same level as compared with the 2015/16 academic year. The actual number of students in the 2016/17 academic year is likely to continue to exceed the approved student number target.

- (b) In the 2012/13 to 2014/15 triennium, the Government has increased the number of UGC-funded first-year first-degree (FYFD) places from 14 620 to 15 000 per annum. Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education in the coming decade. The number of secondary school graduates will continue to drop from about 62 700 in 2015 to 43 400 in 2022. In his 2014 Policy Address, the CE has announced a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways. On full implementation of these measures, and given the declining student population, we envisage that there will be sufficient publicly-funded and self-financing FYFD places for all secondary school leavers meeting minimum entrance requirements for university admission by the 2016/17 academic year, assuming the performance of secondary school graduates is maintained at comparable level. Against the above, the Government has decided to maintain the number of UGC-funded FYFD places at the same level (i.e. 15 000 per annum) for the 2016/17 to 2018/19 triennium.

Whilst maintaining the number of UGC-funded FYFD places, as announced in the 2014 Policy Address, the Government and UGC will increase the number of UGC-funded senior year intake places progressively by 1 000 places by the end of the 2016/17 to 2018/19 triennium. This will provide meritorious sub-degree graduates with more opportunities for articulation to the last two years of a publicly-funded undergraduate programme. This aims to foster a flexible, diversified and multiple-entry multiple-exit education framework with greater inter-flow between the self-financing and publicly-funded sectors, and between the sub-degree and degree sectors.

- (c) As mentioned in part (a), for RPg programmes, institutions are allowed to enroll RPg students up to 40% over and above their respective approved student numbers, subject to conditions as stipulated in the UGC Notes on Procedures. Over the years, institutions have been exercising this flexibility in over-enrolment in support of their research projects. As a result, the approved student number for the UGC-funded RPg programmes has been maintained at 5 595 per annum since the 2012/13 academic year, while the actual number of students admitted for 2014/15 and 2015/16 were 7 103 and 7 360 respectively. The actual number of students in RPg programmes in the 2016/17 academic year is likely to continue to exceed the approved student number target.

The number of local and non-local students studying in UGC-funded research postgraduate programmes from the 2013/14 to 2015/16 academic years is at [Annex](#).

**Number of Local and Non-local Students of UGC-funded
Research Postgraduate Programmes, 2013/14 to 2015/16**

Academic year	Full-time equivalent		
	Local	Non-Local	Total
2013/14	1 531	5 454	6 985
2014/15	1 427	5 676	7 103
2015/16#	1 434	5 926	7 360

Notes :

1. # Provisional figures
2. The number of RPg students are in decimal places which are all rounded to the nearest whole numbers in this table. This is because if the RPg students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.

(Question Serial No. 3852)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

What is the number of students with disabilities enrolled in subvented sub-degree and undergraduate programmes in the past 6 years (i.e. 2010-11, 2011-12, 2012-13, 2013-14, 2014-15 and 2015-16), broken down by the type of disabilities (including intellectual disability, autism spectrum disorder, attention deficit/hyperactivity disorder, physical disability, visual impairment, hearing impairment, and speech and language impairment)?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 93)

Reply:

The number of students with special educational needs enrolled in full-time University Grants Committee (UGC)-funded sub-degree and undergraduate programmes by type of disability from the 2011/12 to 2015/16 academic years is set out at Annex.

Number of Students with Disabilities Enrolled in Full-time UGC-funded Sub-degree and Undergraduate Programmes, 2011/12 to 2015/16 Academic Years

headcount

Level of Study	Type of Disability	Academic Year				
		2011/12	2012/13 [^]	2013/14	2014/15	2015/16 (Provisional)
Sub-degree	Specific Learning Difficulties	1	1	-	-	-
	Autism Spectrum Disorders	2	2	1	-	-
	Attention Deficit / Hyperactivity Disorder	1	-	-	-	-
	Physical Disability	3	2	1	2	2
	Visual Impairment	1	1	1	-	-

CONTROLLING OFFICER'S REPLY**EDB622****(Question Serial No. 4375)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the average student unit cost, the number of places and the number of students enrolled with regard to full-time, part-time, funded and self-financing bachelor degree and associate degree programmes in nursing, physiotherapy and occupational therapy offered by tertiary institutions in the past academic year and in the coming academic year.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 309)

Reply:

The numbers of approved student places of the University Grants Committee (UGC)-funded full-time undergraduate programmes in nursing, physiotherapy and occupational therapy by institution for the 2015/16 and 2016/17 academic years and the respective student intakes for the 2015/16 academic year are at **Annex A**. There is no sub-degree programme and no part-time programme in nursing, physiotherapy and occupational therapy in the 2015/16 and 2016/17 academic years. As funding for publicly-funded undergraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes. Based on the information as reported by the institutions, the average student unit cost per annum of a publicly-funded undergraduate place for the 2014/15 academic year was \$222,000, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year for undergraduate programmes). Information for the academic years from 2015/16 onwards is not yet available.

For full-time locally-accredited non-UGC-funded sub-degree and undergraduate programmes relating to nursing, physiotherapy and occupational therapy, the number of estimated intakes from the 2014/15 to 2016/17 academic years, as well as the actual number of students enrolled (i.e. in all years of study) in the 2014/15 academic year by institution are set out at **Annex B**. We do not have information on the unit cost of each programme place.

Approved Student Places and Student Intakes of Full-time UGC-funded Undergraduate Programmes of Nurses, Physiotherapists and Occupational Therapists, 2015/16 to 2016/17

(Full-time equivalent)

Manpower Area	Academic Year	Institution	Approved Student Places	Student Intakes
Nurses	2015/16	The Chinese University of Hong Kong	257	263
		The Hong Kong Polytechnic University	283	274
		The University of Hong Kong	215	212
		Total	755	749
	2016/17	The Chinese University of Hong Kong	257	N.A.
		The Hong Kong Polytechnic University	283	N.A.
		The University of Hong Kong	215	N.A.
		Total	755	N.A.
Physiotherapists	2015/16	The Hong Kong Polytechnic University	110	109
	2016/17	The Hong Kong Polytechnic University	130	N.A.
Occupational Therapists	2015/16	The Hong Kong Polytechnic University	90	89
	2016/17	The Hong Kong Polytechnic University	100	N.A.

Notes:

1. There is no sub-degree programme in nurses, physiotherapists and occupational therapists in the above academic years.
2. There is no part-time programme in nurses, physiotherapists and occupational therapists in the above academic years.
3. 'N.A.' denotes not available.
4. Figures of student intakes for 2015/16 are provisional.

Number of Estimated Intake and Enrolment in Full-time Locally-accredited non-UGC-funded Programmes relating to Health Care, Nursing, Physiotherapy and Occupational Therapy, 2014/15 – 2016/17 Academic Years

Institution	Level	2014/15		2015/16	2016/17#
		Estimated intake	Enrolment	Estimated intake	Estimated intake

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the local clinical psychology programmes, please advise this Committee of the number of places, intakes and graduates as well as the amount of subsidy for such programmes over the past 5 years, broken down by year and institution.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 324)

Reply:

The University Grants Committee (UGC)-funded full-time programmes in clinical psychology are offered at the taught postgraduate (TPg) level only. The approved intake places and student intakes of these programmes for the 2011/12 to 2015/16 academic years and the number of graduates for the 2011/12 to 2014/15 academic years by institution are at Annex. The bulk of recurrent grants to the institutions are in the form of a block grant based on the approved student numbers allocated to institutions. As funding for the said programmes is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes. The average student unit cost for a particular level is derived based on the actual cost incurred on UGC-funded expenditure items as reported by institutions. Based on the information as reported by the institutions, the average student unit cost per annum at TPg level for the 2011/12 to 2014/15 academic years was \$203,000, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). The average student unit cost for the 2015/16 academic year is not yet available.

(Question Serial No. 5590)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the local subsidised undergraduate programmes and sub-degree programmes, please inform this Committee:

the numbers of non-Chinese speaking students admitted through the Joint University Programmes Admissions System (JUPAS) and through the non-JUPAS route respectively in each of the previous 5 academic years.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 327)

Reply:

The number of non-Chinese speaking (NCS) students (i.e. local students whose ethnicity and/or spoken language at home are not Chinese) admitted to the University Grants Committee (UGC)-funded full-time sub-degree and undergraduate programmes, by admission route, for the 2011/12 to 2015/16 academic years is at the Annex.

Number of Non-Chinese Speaking Students Admitted to Full-time UGC-funded Sub-degree and Undergraduate Programmes via JUPAS and Non-JUPAS Routes, 2011/12 to 2015/16

(Headcount)

Notes:

1. Non-Chinese speaking students refer to local students whose ethnicity and/or spoken language at home are not Chinese. Hence, students of Chinese ethnicity who do not speak Chinese at home are included.
2. The information is provided by the students upon admission to the institutions. There are students who choose not to provide information on their ethnicity.
3. * To tie in with the implementation of the new academic structure, UGC-funded institutions have admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. '-' denotes nil.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the articulation opportunities to senior year places of undergraduate programmes offered by various funded institutions, will the University Grants Committee (UGC) please:

- (a) list the number of approved senior year student intakes of UGC-funded undergraduate programmes by institution and programme/discipline in 2015/16 and over the past 4 years; and
- (b) provide the number of graduates of the government-funded and self-financing sub-degree programmes over the past 4 years?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 784)

Reply:

- (a) The number of approved senior year undergraduate places of the University Grants Committee (UGC)-funded programmes for the 2011/12 to 2015/16 academic years is at **Annex A**.
- (b) The number of graduates of full-time UGC-funded sub-degree programmes for the 2011/12 to 2014/15 academic years are at **Annex B**. The number of graduates of self-financing sub-degree programmes offered by UGC-funded institutions for the 2010/11 to 2013/14 academic years are at **Annex C**. Information on graduates for 2015/16 is not yet available.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the sub-degree programmes offered by various funded institutions, will the University Grants Committee (UGC) please:

- (1) list the number of approved student intakes of UGC-funded sub-degree programmes by institution and programme/discipline in 2015/16 and over the past 4 years; and
- (2) advise whether such sub-degree programmes will be cancelled or converted to degree programmes? If yes, what are the reasons?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 785)

Reply:

- (1) The approved student number targets of UGC-funded sub-degree (SD) programmes by institution and broad academic programme category from the 2011/12 to 2015/16 academic years are at Annex.
- (2) As a matter of policy, SD programmes in the UGC-funded sector should generally be run on a self-financing basis. SD programmes will continue to be subsidised if (a) they require high start-up and maintenance costs or access to expensive laboratories or equipment; (b) they meet specific manpower needs; or (c) they are regarded as “endangered species”. SD programmes that do not meet the established retention criteria for public funding will continue to be phased out in accordance with the schedule that has been mutually agreed with the institutions. As regards SD programmes that do meet the retention criteria and would remain publicly-funded, the student number targets for these programmes will continue to be determined by the Government during each funding cycle. Once the student number targets are approved, institutions should not transfer numbers between levels of study without specific approval, as it may cause disruption to the overall policy and planning of the Government.

**Approved Student Number Targets of UGC-funded Sub-degree Programmes by Institution
and Broad Academic Programme Category, 2011/12 to 2015/16 Academic Years**

CONTROLLING OFFICER'S REPLY**EDB629****(Question Serial No. 5613)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

With regard to the project of Tseung Kwan O Joint Student Hostel, will the University Grants Committee please advise us of its current progress? What are the reasons for the failure to complete the project on schedule?

Asked by: Hon CHEUNG Kwok-che (Member Question No. 786)

Reply:

The Tseung Kwan O Joint Student Hostel¹ was originally planned for completion in September 2014. According to the latest progress report from The Hong Kong University of Science and Technology (HKUST), the superstructure works has largely been completed and the institution is awaiting inspection and issue of occupation permit from relevant authorities. The project is expected to be completed in mid-2016. The delay in this project is mainly due to unexpected underground conditions that led to additional piling works before the commencement of superstructure works. HKUST has made every effort to make progress with a view to completing the project for occupation before the start of the new academic year in September 2016.

- End -

¹ The Tseung Kwan O Joint Student Hostel was originally a joint project providing a total of 520 hostel places, with a provisional split of 370 places for HKUST and 150 places for Hong Kong Baptist University (HKBU). Subsequently, HKBU decided to transfer its 150 hostel places from the Tseung Kwan O Joint Student Hostel to a new hostel and academic building project at a new site at Renfrew Road, Kowloon Tong near its main campus. The proposed transfer was agreed by the two universities in April 2015 and as a result, the student hostel in Tseung Kwan O is now solely owned by HKUST.

CONTROLLING OFFICER'S REPLY**EDB630****(Question Serial No. 6875)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Please list the total provision of grants to University Grants Committee-funded institutions, the percentage share in the overall provision for education and the percentage share in our gross domestic product in the respective year from 2012-13 to 2015-16.

Asked by: Hon CHEUNG Kwok-che (Member Question No. 345)Reply:

The required information is tabulated below:

Financial year	Total grants ¹ to University Grants Committee (UGC)-funded institutions ² (\$million)	Total expenditure on education ² (\$million)	Total grants to UGC-funded institutions as a percentage of total expenditure on education	Gross Domestic Product (GDP) ³ (\$million)	Total grants to UGC-funded institutions as a percentage of GDP
	[a]	[b]	[a / b]	[c]	[a / c]
2012-13	14,759	76,600	19.3%	2,037,059	0.7%
2013-14	15,042	76,392	19.7%	2,138,010	0.7%
2014-15	15,743	73,724	21.4%	2,258,225	0.7%
2015-16	17,084	79,122	21.6%	2,402,506	0.7%

Notes:

1. Included recurrent grants and matching grants under the Sixth Matching Grant Scheme allocated to UGC-funded institutions.
2. The total grants to UGC-funded institutions and total expenditure on education for 2015-16 are revised estimate figures.
3. The figures are calendar-year-based at current market prices, and the GDP figures for 2014-15 and 2015-16 are subject to revision by the Census & Statistics Department.

- End -

CONTROLLING OFFICER'S REPLY**EDB631****(Question Serial No. 4757)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Would the Education Bureau/ University Grants Committee provide the following information for all years from 2011 to 2015:

- (a) the number, number of places, student intakes, number of graduates of various publicly-funded sub-degree programmes and the average amount of tuition fees paid by graduates upon completion of the programme and their average annual emolument in the academic year concerned (broken down by institution and discipline);
- (b) the number, number of places, student intakes, number of graduates of various publicly-funded higher diploma programmes and the average amount of tuition fees paid by graduates upon completion of the programme and their average annual emolument in the academic year concerned (broken down by institution and discipline);
- (c) the number, number of places, student intakes, number of graduates of various publicly-funded undergraduate programmes and the average amount of tuition fees paid by graduates upon completion of the programme and their average annual emolument in the academic year concerned (broken down by institution and discipline)?

Asked by: Hon MA Fung-kwok (Member Question No. 60)

Reply:

(a) & (b) The approved student number targets and student enrolment of the UGC-funded sub-degree (SD) programmes (which include associate degree (AD) and higher diploma (HD) programmes) by institution and broad academic programme category (APC) from the 2011/12 to 2015/16 academic years are set out at **Annex A**. The number of graduates of these programmes with the same breakdowns for the 2011/12 to 2014/15 academic years are set out at **Annex B**. The average annual salaries of graduates of the full-time SD programmes who were in full-time employment for the 2011/12 to 2013/14 academic years are set out at **Annex C**. The tuition fee for local students of the UGC-funded SD programmes offered by City University of Hong Kong and The Hong Kong Polytechnic University is set at \$31,575 per student per year, while that of The Hong Kong Institute of Education is \$15,040 per student per year. The UGC does not collect statistics on the number of SD programmes, nor does it collect breakdown information of SD programmes by exit qualification (AD/HD).

(c) The approved student number targets and student enrolment of the UGC-funded undergraduate (Ug) programmes by institution and broad academic programme category (APC) from the 2011/12 to 2015/16 academic years are set out at **Annex D**. The number of graduates of these programmes with the same breakdowns for the 2011/12 to 2014/15 academic years are set out at **Annex B**. The average annual salaries

of graduates of the full-time Ug programmes who were in full-time employment for the 2011/12 to 2013/14 academic years are set out at **Annex C**. The tuition fee for local students of the UGC-funded undergraduate programmes is \$42,100 per student per year. The UGC does not collect statistics on the number of Ug programmes.

Notes :

1. Figures may not add up to the corresponding totals owing to rounding. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures and rounded to the nearest whole number..
2. '-' denotes nil.
3. '0' denotes 'magnitude of less than 0.5'.

Notes :

1. The employment information of graduates from full-time UGC-funded programmes in a given year is collected through the Graduate Employment Survey which is conducted annually by the UGC-funded institutions with a time frame up to December of the same year. The Survey on graduates in 2014/15 is in progress and therefore figures for the year are not available.
2. Graduates covered in the Graduate Employment Survey refer to the students graduated from the year in which the Survey was conducted. However, for first degree graduates of medical programmes, they refer to those students who graduated one year immediately before the survey year.
3. Annual salaries include commission and other cash allowances.
4. ‘-’ denotes nil.

Notes:

- Figures may not add up to the corresponding totals owing to rounding. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures and rounded to the nearest whole number..
- & To tie in with the implementation of the new academic structure, UGC-funded institutions have admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic years.
- ^ In 2011/12, HKIEd was approved to use some of the sub-degree places (i.e. 216) for enrolling students to its Bachelor of Education (Honours) (Early Childhood Education) programme.
- ‘-’ denotes nil.

CONTROLLING OFFICER'S REPLY**EDB632****(Question Serial No. 4771)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Will the Education Bureau (EDB)/University Grants Committee (UGC) inform this Committee of:

- (a) The breakdown of the respective numbers of publicly-funded, privately-funded and temporary hostel places provided by tertiary institutions in Hong Kong, and the ratios of allocation of such places between local and non-local students in the 2015/16 academic year by institution; and
- (b) According to Reply No. EDB 604 to the Examination of Estimates of Expenditure of last year, the UGC would support 10 hostel projects under planning by local tertiary institutions. Please set out the numbers of hostel places to be provided under these projects, the amount of funding support from the EDB and UGC, and timetables for completion of these projects by institution.

Asked by: Hon MA Fung-kwok (Member Question No. 74)Reply:

- (a) The number of hostel places available in the University Grants Committee (UGC)-funded institutions and the ratio of hostel places allocated to local and non-local students at the beginning of the 2015/16 academic year as advised by the UGC-funded institutions are at the Annex.
- (b) Regarding the ten hostel projects supported by the UGC, they are under different stages of development. Eight of the projects are either under the detailed design stage or will soon commence detailed design. The remaining two are under the planning stage. The number of hostel places each institution will deliver are shown below. The Education Bureau and the UGC will continue to work with the institutions involved to seek funding support under the established mechanism.

Institution	No. of hostel projects	No. of publicly-funded hostel places involved
City University of Hong Kong	1	2 168
Hong Kong Baptist University	1	1 625
The Chinese University of Hong Kong	3	1 226
The Hong Kong Polytechnic University	1	1 279
The Hong Kong University of Science and Technology	1	1 200
The University of Hong Kong	3	1 882
Total	10	9 380

(A) Hostel places available for allocation to students in UGC-funded institutions

CONTROLLING OFFICER'S REPLY**EDB633****(Question Serial No. 5335)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding Massive Open Online Courses (MOOCs), will the Government please inform this Committee whether there is any plan to assist tertiary institutions in promoting MOOCs. If yes, what are the related expenditure, projects, work targets and schedules? If no, what are the reasons?

Asked by: Hon Charles Peter MOK (Member Question No. 121)Reply:

The University Grants Committee (UGC) attaches great importance to teaching and learning in the UGC-funded institutions. To motivate and better enable institutions to accelerate the adoption of necessary pedagogical changes and innovations, a funding scheme was introduced in the 2012-15 triennium. The scheme provided one-off funding to support worthwhile initiatives, including e-learning initiatives such as development of Massive Open Online Courses (MOOCs), proposed by the UGC-funded institutions that would help meet the learning needs of the new generation of students of this information age and better prepare them to compete well in the globalised economy.

The funding scheme has received positive response from the institutions. Many of the proposals are collaborative in nature, which will be of great benefit to the development of teaching and learning of the sector as a whole. A total of 23 projects with a total project cost of \$123.7 million (funded jointly by the UGC, the Education Bureau (EDB) and UGC-funded institutions) have been approved under the funding scheme, of which \$86.6 million was contributed by the UGC and the EDB. Three of the projects funded are related to MOOCs at a total cost of \$29.67 million. They are –

1. *A Joint E-learning/MOOC platform for Hong Kong's Tertiary Education Sector* (involving six institutions) - This project aims to establish a joint e-learning/MOOC platform to facilitate collaboration in teaching and learning for Hong Kong's tertiary education sector and to adopt innovative pedagogies for enhancing the learning experience of students. The project is expected to be completed by April 2018;
2. *Knowledge and Education Exchange Platform (KEEP)* (involving seven institutions) - This project provides a centralised and one-stop KEEP education cloud to enable all the education resources, particularly those developed by local educators, to be easily showcased, shared, searched, and made accessible to target users through KEEP. One of its major components is to provide cutting-edge e-learning platforms for teachers and students to experiment blended-learning on advanced MOOC environments. The project is expected to be completed by September 2017; and
3. *Using Small Private Online Courses (SPOCs) as Vehicles to Address Fundamental Issues in the Effective Design, Organization, and Assessment of Learning Outcomes in Massive Open Online*

Courses (MOOCs) (involving three institutions) - This project involves a rethinking on how universities can best use online learning, whether it is in the form of the publicly available MOOCs, SPOCs, or blended online on-campus courses. The project is expected to be completed by March 2017.

In view of the overwhelming support from the institutions to the funding scheme in the 2012-15 triennium, another one-off funding scheme will be launched in the 2016-19 triennium to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with Mainland China; and (d) language enhancement. A total \$140 million has been earmarked for the scheme. The scheme is scheduled to be rolled out in the second quarter of 2016.

CONTROLLING OFFICER'S REPLY**EDB634****(Question Serial No. 5464)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The University Grants Committee (UGC) provides funding for about 15 000 first-year first-degree (FYFD) places of various tertiary institutions each year. In this connection, will the Government advise on the actual number of students pursuing UGC-funded FYFD programmes in various institutions in the past year (2015/2016 academic year), with a breakdown by local, Mainland and overseas student, and the amount of subsidies involved; as well as the actual number of students pursuing postgraduate programmes in various institutions in the past year (2015/2016 academic year), with a breakdown by local, Mainland and overseas student, and the amount of expenditure involved.

Asked by: Hon CHAN Chi-chuen (Member Question No. 223)

Reply:

The student enrolment of the University Grants Committee (UGC)-funded undergraduate (Ug), taught postgraduate (TPg) and research postgraduate (RPg) programmes by institution, level of study and place of origin for the 2015/16 academic year is set out at Annex.

Subvention for the UGC-funded institutions is estimated at \$17.7 billion in the 2015/16 academic year. The bulk of the funding is allocated to institutions in the form of block grant based on the approved student numbers allocated to institutions. Institutions enjoy autonomy in the allocation and deployment of the block grant at different study levels. According to the institutions, the average student unit costs per annum of a publicly-funded Ug, TPg and RPg place for the 2014/15 academic year were \$222,000, \$215,000 and \$511,000 respectively, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the 2015/16 academic year is not yet available. As regards non-local students in Ug and TPg programmes, they are primarily admitted through over-enrolment beyond approved student numbers and are required to pay tuition fee at a level that is at least sufficient to cover the direct additional cost.

Question:

In 2016-17, how will the University Grants Committee follow up the results of the Research Assessment Exercise 2014? What is the estimated expenditure involved?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 312)

Reply:

To stay competitive in the globalised higher education sector, the University Grants Committee (UGC) continuously seeks to motivate and reward excellent research of the institutions. To this end, after consulting the sector, the UGC implemented the Research Assessment Exercise (RAE) 2014, which assessed the research quality of the UGC-funded institutions using international benchmarks and sharpened measures, in order to encourage world-class research and drive excellence. Results of the RAE 2014 provide guidance for the institutions' future developments in respect of pursuing research excellence and reveal the areas of strength in their research. Starting from the 2016/17 to 2018/19 triennium, the results of the exercise will form the basis for distribution of part of the Research Portion of the Block Grant. In 2016-17, the follow-up work on the RAE 2014 will be undertaken by the existing staff of the UGC Secretariat and the estimated expenditure is subsumed in the overall expenditure of the UGC.

Question:

It is learnt that the University Grants Committee (UGC) will initiate the academic development planning process for the 2016/17 to 2018/19 triennium. What are the work plan, manpower arrangement and annual estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 313)

Reply:

The University Grants Committee (UGC) conducts academic planning and recurrent grants assessment with its funded institutions on a triennial basis. To ensure the precious publicly-funded student places are put to their best use for the benefit of the community, we need to have a mechanism to encourage institutions to review periodically their institutional strategy and academic priorities, as well as to advance institutions' international competitiveness in line with the role of individual institutions and the higher education sector as a whole. To this end, the UGC has conducted and completed the academic development planning process for the 2016/17 to 2018/19 triennium with the broad parameters set by the Government.

The UGC evaluated the Academic Development Proposals (ADPs) submitted by institutions for the 2016/17 to 2018/19 triennium against four broad assessment criteria, namely "Strategy, Mission and Vision", "Teaching & Learning", "Academic Programme Design", and "Addressing the Needs of Society in General". The evaluation was carried out in a fair, interactive and transparent manner. The UGC submitted its funding recommendations at a total cost of \$53,557.1 million for the new triennium to the Government in September 2015 and the Chief Executive in Council approved the recommendations in January 2016. The Panel on Education of the Legislative Council was consulted on the funding recommendations in February 2016.

The work related to the academic development planning exercise for the 2016/17 to 2018/19 triennium was mainly undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC. In addition, a consultant was engaged to assist in formulating the detailed procedure/parameters of the exercise and in the scrutiny of institutions' ADPs at an expenditure of \$419,294.

Question:

- a) The New Academic Structure (NAS) was implemented in 2012 and the first cohort of students under the four-year undergraduate curriculum will graduate in 2016. Will the University Grants Committee (UGC) provide additional resources for conducting a tracking survey on that cohort of students on a sampling basis to facilitate analysis and improvement of NAS curriculum? If yes, what are the details, the timetable of the survey, manpower arrangements and estimated expenditure involved?
- b) Further to the question above, will additional resources be provided for conducting a survey on the employers of that cohort of graduates under NAS to assess the achievement of NAS and the impact on students? If yes, what are the details, manpower arrangements and estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 314)

Reply:

We understand that higher education institutions conduct graduate employment surveys on the employment situations of first-degree graduates on an annual basis. Besides, the Education Bureau (EDB) has been conducting surveys on opinions of employers on major aspects of performance of post-secondary programmes graduates from time to time with the aim of keeping track of employers' views on the quality of graduates over time. Institutions and EDB will continue to engage in these surveys in future, in order to keep track of the employment situations and employers' views on the performance of graduates both before and after the implementation of the New Academic Structure.

CONTROLLING OFFICER'S REPLY**EDB638****(Question Serial No. 3573)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- a) The University Grants Committee (UGC) submitted the report "Aspirations for the Higher Education System in Hong Kong" to the Government in 2010. What did UGC and the Education Bureau (EDB) do to implement the report's recommendations in 2015-16? What was the expenditure involved?
- b) Further to the above, what are UGC and EDB's work plans for implementing the report's recommendations in 2016-17? What is the estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 315)Reply:

The University Grants Committee (UGC) submitted the report "Aspirations for the Higher Education System in Hong Kong" report (the Report) to the Government in December 2010. Following the Government's announcement in November 2011 of its endorsement of the overall strategies and directions recommended in the report, the Government and the UGC have taken actions to follow up on the recommendations, including (i) measures to facilitate students' progression; (ii) deepening of internationalisation and engagement with Mainland China; (iii) enhancement of teaching and learning, and research; and (iv) establishment of oversight body and enhancement of quality assurance.

(a) Progression Pathways

The report recommended that pathways for student progression should be clear in order to facilitate students to make informed choices on their future. The Government agrees in principle that a vertical Credits Accumulation and Transfer System (CATS) should be developed for the whole post-secondary system. Regarding the development of CATS, the Education Bureau (EDB) has been working with stakeholders in pressing ahead this development in the context of the Qualifications Framework (QF). In 2012, EDB announced the implementation of QF credit. Since 2013, committees have been set up under the auspices of the Liaison Committee on Quality Assurance (comprising EDB, the Quality Assurance Council, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) and the Joint Quality Review Committee) to develop the CATS and implement QF credits. A consultant was engaged to develop policy and principles of CATS under QF, which were promulgated in July 2014. Later in November 2014, a consultant has been engaged to develop a set of operational guidelines for CAT implementation. The development of the CAT operational guidelines was completed and the guidelines were promulgated in March 2016. Working in tandem, another committee is examining issues relating to the articulation between sub-degree programmes and degree programmes (including the senior year places or top-up programmes). The UGC will continue to participate in these efforts.

To enhance transparency of the institutions in admitting sub-degree students to senior year places, the UGC-funded institutions supported the UGC's suggestion of a centralised, user-friendly online portal for the disclosure of comprehensive and relevant information on senior year articulation opportunities. As proposed by the UGC-funded institutions, the EDB has enriched the website of its Information Portal for Accredited Post-secondary Programmes (iPASS) system to include the information on the senior year/top-up degree programmes. The relevant expenditure was borne by the EDB. To further enhance the articulation opportunities for meritorious sub-degree graduates, the number of UGC-funded senior year undergraduate intake places has been increasing progressively since the 2015/16 academic year, and will reach 5 000 per annum by the 2018/19 academic year. These additional places have been allocated by the UGC to the institutions having regard to, amongst others, their commitment to the development of CATS. The estimated additional annual expenditure upon full implementation of the proposal in 2019/20 is \$475 million.

(b) Internationalisation and Engagement with Mainland China

In order to motivate UGC-funded institutions to enhance their pursuit of internationalisation and engagement with Mainland China with a view to embedding the initiative as part and parcel of the culture and mindset of the entire UGC sector, following a strategic dialogue with institutions, the UGC rolled out a \$30 million funding scheme (with funds contributed by the UGC, the Education Bureau and institutions) to support initiatives in a number of areas concerning internationalisation and engagement with Mainland China in the 2013/14 and 2014/15 academic years. The four initiatives include (i) funding student-initiated projects or initiatives that encourage multi-cultural integration; (ii) setting up a Hong Kong Pavilion in international education conferences to promote Hong Kong's higher education sector as a united entity; (iii) establishing a sector-wide search engine to provide easier access to information of institutions and programmes they offer for prospective students; and (iv) subsidising financially-needy students to travel to places outside Hong Kong for exchange activities.

In 2015-16, with the good results achieved, institutions have continued to set up the Hong Kong Pavilion at international education conferences. Expenditures on this front are absorbed by institutions. Other promotional efforts such as the sector-wide search engine also continued. Related expenditure was covered in the \$30 million funding scheme.

In the 2016/17 to 2018/19 triennium, the UGC will continue efforts on this front. A one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$17.5 million (to be matched with funds from institutions) has been earmarked for the area of internationalisation and engagement with Mainland China. Emphasis will be put on development of and implementation of (i) strategies for the broader enhancement of internationalisation and engagement with Mainland China; (ii) holistic strategies/programmes to enhance student integration; and (iii) strategies/programmes to enrich the learning experience of commuting local students. In addition, a total of \$12 million has been earmarked for institutions for continuing to set up a Hong Kong Pavilion in international education conferences.

(c) Enhancement of Teaching and Learning

The UGC recognises the importance of teaching excellence in the UGC-funded institutions. At present, over 75 per cent of the Block Grant is purported for teaching. In particular, the grants that the UGC allocates for the specific purpose of enhancing the teaching and learning of the UGC-funded institutions in the 2015/16 academic year include (i) \$45.4 million as Teaching Development Grant to encourage institutions to adopt innovative approaches to teaching and enrich the learning environment; (ii) \$135.3 million as Language Enhancement Grant to support the institutions' provision of language enhancement activities; (iii) \$5 million to support professional development activities of all frontline teaching staff; (iv) up to \$1.5 million for the conduct of the annual UGC Teaching Award to honour those who excel in teaching in the UGC-funded sector; and (v) \$4 million to provide start-up funding to facilitate the establishment of teaching and learning 'Communities of Practice' by institutions.

In the 2016/17 academic year, the grants that the UGC will allocate for the specific purpose of enhancing the teaching and learning of the UGC-funded institutions include (i) \$170.9 million as Teaching Development and

Language Enhancement Grant (by merging the Teaching Development Grant and the Language Enhancement Grant) to encourage institutions to adopt innovative approaches to teaching and enrich the learning environment, as well as to promote their students' language proficiency in both English and Chinese (including Putonghua); and (ii) up to \$1.5 million for the conduct of the annual UGC Teaching Award to honour those who excel in teaching in the UGC-funded sector. For the 2016/17 to 2018/19 triennium, a one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$140 million (to be matched with funds from institutions) has been earmarked for the funding scheme.

(d) Research

On research, the report recommended that “research funding and resources should be allocated increasingly on a competitive basis” and a “thorough review of the practical effectiveness of the periodic Research Assessment Exercise should be undertaken before it is held again”. To implement the first recommendation, an increasing number of UGC-funded research postgraduate places, and an increasing proportion of the research portion of the Block Grant is being allocated on a competitive basis starting from the 2012/13 academic year. On the second recommendation, the review on the Research Assessment Exercise has been completed, and as agreed with the institutions, another exercise which adopted international benchmarks and sharpened measures was conducted in 2014. The Research Assessment Exercise 2014 was implemented in a fair, transparent and rigorous manner. The results were announced to the institutions and the public in January 2015. The expenditure for the exercise in the 2015-16 financial year is \$4.3 million and the estimated expenditure for following up the exercise in the 2016-17 financial year is subsumed in the overall expenditure of the UGC.

The report also recommended reviewing self-financing institutions' access to competitive research funding periodically. The Government made an injection into Research Endowment Fund (REF) in 2012, the investment income of \$3 billion provides competitive research funding for the local self-financing degree sector to enhance academic and research development. New funding schemes for the local self-financing degree sector were launched in December 2013. In the 2015/16 academic year, the amount of funding approved under the funding schemes was \$86.3 million. The actual expenditure in the 2016/17 academic year will depend on the quality of applications received in the year.

(e) Oversight Body and Quality Assurance

In order to oversee the strategic development of the self-financing post-secondary education sector and to advise the Government, the Committee on Self-financing Post-secondary Education (CSPE) was established on 1 April 2012 in response to the Report. CSPE serves as a useful platform for discussing macro and strategic issues of common interest to the self-financing post-secondary sector, as well as promoting quality and good practices.

As stated in its response to the UGC's Higher Education Review Report, the Government considers that periodic external audits and reviews should be conducted on both self-financing and publicly-funded sub-degree operations under the aegis of UGC-funded institutions so as to enhance quality assurance and ensure consistency and coherence in standards. To this end, a working group comprising representatives nominated by the UGC, the UGC-funded institutions and the HKCAAVQ was formed to plan for and oversee external quality audits on sub-degree operations of UGC-funded institutions.

The working group completed its deliberation and made its recommendations on the optimal approach for the external quality audits and the long-term mechanism for such audits to the Education Bureau in June 2015. The Government accepted the recommendation of the working group and invited the UGC to assume the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded institutions, with the involvement of the Quality Assurance Council (QAC) as the audit operator. With the agreement of the UGC and the QAC to take on the responsibility, preparation for the conduct of the external quality audits, including formulation of an audit manual, is underway, with a view to commencing the audit cycle in end 2016. In the 2016-17 financial year, around \$0.97 million has been reserved for preparing the audit manual.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

a) In 2015-16, what was the Quality Assurance Council's (QAC) work in undertaking quality audits of the 8 UGC-funded institutions? What was the expenditure involved?

b) QAC's second audit cycle for the funded institutions will take place in 2015 and 2016. What are the work plans, manpower arrangements and estimated expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 316)

Reply:

The Quality Assurance Council (QAC), established under the aegis of the University Grants Committee (UGC), aims to assure that the quality of educational experience in all first degree level programmes and above, however funded, offered in the UGC-funded institutions is sustained and improved, and is at an internationally competitive level. Taking into account the experience of the first audit cycle completed in 2011 and in consultation with the institutions, the QAC has revised the audit framework. On the basis of the Audit Manual of the second audit cycle, the second round of audits commenced in 2015. Two institutions were audited in the 2014-15 financial year. By the end of the 2015-16 financial year, another four institutions would have been audited. Two institutions are scheduled to be audited in the 2016-17 financial year.

The QAC is supported by a secretariat with manpower provided from within the UGC Secretariat. The actual expenditure of audit activities in the 2014-15 financial year amounted to \$0.39 million. The revised estimated expenditures of audit activities in the 2015-16 financial year is around \$2.22 million and the estimated expenditure in the 2016-17 financial year is around \$2.70 million. The expenditures cover mainly (i) fee for consultancy services to assist in conducting the audits; (ii) expenses for the audit meetings; and (iii) honoraria for auditors.

CONTROLLING OFFICER'S REPLY**EDB640****(Question Serial No. 3575)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- a) What are the work and expenditure of the University Grants Committee (UGC) and Education Bureau in overseeing the sub-degree operations of UGC-funded institutions in 2015-16?
- b) What are the work plan and estimated expenditure in overseeing the sub-degree operations of UGC-funded institutions in 2016-17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 317)Reply:

The Government attaches great importance to the quality assurance of sub-degree programmes offered by both University Grants Committee (UGC)-funded and self-financing institutions. To safeguard the quality of the sub-degree programmes, the Liaison Committee on Quality Assurance (LCQA), comprising representatives of the Education Bureau (EDB), the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ), the Quality Assurance Council and the Joint Quality Review Committee (established by the Heads of Universities Committees to provide peer review of the quality assurance processes of self-financing sub-degree programmes offered by the UGC-funded institutions themselves), has been formed to promote sharing of good practices among all the quality assurance bodies and foster consistency and transparency so as to enhance accountability. Manpower and administrative costs of the LCQA have been and will continue to be absorbed by the existing resources of EDB.

As stated in its response to the UGC's Higher Education Review Report, the Government considers that periodic external audits and reviews should be conducted on both self-financing and publicly-funded sub-degree operations under the aegis of UGC-funded institutions so as to enhance quality assurance and ensure consistency and coherence in standards. To this end, a working group comprising representatives nominated by the UGC, the UGC-funded institutions and the HKCAAVQ was formed to plan for and oversee external quality audits on sub-degree operations of UGC-funded institutions.

The working group completed its deliberation and made its recommendations on the optimal approach for the external quality audits and the long-term mechanism for such audits to the Education Bureau in June 2015. The Government accepted the recommendation of the working group and invited the UGC to assume the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded institutions, with the involvement of the Quality Assurance Council (QAC) as the audit operator. With the agreement of the UGC and the QAC to take on the responsibility, preparation for the conduct of the external quality audits, including formulation of an audit manual, is underway, with a view to commencing the audit cycle in end 2016. Question:

- a) In 2015-16, did the Government conduct any review on the tuition fees charged by universities? If so, what were the details and results of the review? What was the expenditure involved?
- b) In 2016-17, will the Government conduct any review on the tuition fees charged by universities? If so, what are the specific plans, schedules and related expenditure?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 340)

Reply:

(a) and (b)

The recurrent grant to the University Grants Committee (UGC)-funded institutions is a deficiency subvention calculated by deducting an assumed income from tuition fees and other sources from the estimated gross funding requirement of the UGC-funded institutions. The assumed tuition fee income is based on the indicative tuition fee level determined by the Chief Executive in Council.

There is no plan to increase the indicative tuition fee level at present and we will maintain the indicative tuition fee at the current level during the 2016/17 to 2018/19 triennium, i.e. \$42,100 per student per year for UGC-funded programmes at degree level. This has formed the basis for calculating the recurrent grants for the UGC-funded institutions in the 2016/17 to 2018/19 triennium. Having said that, the tuition fee level has remained at the same level for nearly two decades. Hence, the Government has invited the University Grants Committee (UGC) to conduct a study on the practices in respect of tuition fee policy in other jurisdictions and propose options to the Government for consideration with due regard to the situation in Hong Kong. This is to enable the Government to lead an informed and rational discussion on the way forward.

The above-mentioned study commenced in February 2016. It is expected that the study will be completed in about 12 to 18 months.

The work related to the study on the tuition fee policy in other jurisdictions is mainly undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC. In addition, a consultant is engaged to assist in the preparation of the consultancy report at an expenditure of USD39,620 (or HKD 0.3 million).

Question:

What are the respective numbers of recipients under the Hong Kong PhD Fellowship Scheme and the Areas of Excellence Scheme in 2015/16? What are the respective total amounts of scholarship awarded? What are the respective anticipated numbers of recipients under these two schemes in 2016/17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 402)

Reply:

The Hong Kong PhD Fellowship Scheme (HKPFS) provides an annual stipend of HK\$240,000 and a conference and research-related travel allowance of HK\$10,000 per year up to three years for all awardees. For the 2015/16 academic year, there were 216 awardees under the HKPFS. For the 2016/17 academic year, 231 research postgraduate places are reserved for the HKPFS.

The Areas of Excellence (AoE) Scheme was launched in 1998 to build upon Hong Kong's existing research strengths and develop them into areas of excellence. Students are not eligible to apply for the AoE Scheme. Unlike other funding schemes administered by the Research Grants Council, applications under the AoE Scheme are not called for annually. So far, six rounds of exercises have been implemented and a total of 18 projects (including eight completed projects) have been funded. The call for the seventh round of the AoE Scheme was closed on 4 January 2016 and the funding results will be announced around December 2016.

CONTROLLING OFFICER'S REPLY**EDB643****(Question Serial No. 3921)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

- a) In 2015-16, what measures did the University Grants Committee (UGC) take to encourage the UGC-funded institutions to strengthen their pursuits of the initiatives of internationalisation and engagement with the Mainland?
- b) What are the action plans and the estimated expenditure for the above areas of work in 2016-17?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 453)

Reply:

- a) In order to motivate UGC-funded institutions to enhance their pursuit of internationalisation and engagement with the Mainland, the UGC rolled out a \$30 million funding scheme (with funds contributed by the UGC, the Education Bureau and institutions) to support initiatives in a number of areas concerning internationalisation and engagement with the Mainland in the 2013/14 and 2014/15 academic years. The initiatives included (i) funding student-initiated projects or initiatives that encourage multi-cultural integration; (ii) setting up a Hong Kong Pavilion in international education conferences to promote Hong Kong's higher education sector as a united entity; (iii) establishing a sector-wide search engine to provide easier access to information of institutions and programmes they offer for prospective students; and (iv) subsidising financially-needy students to travel to places outside Hong Kong for exchange activities. Institutions responded positively to the scheme.

In 2015/16, with the good results achieved, the institutions have continued to set up the Hong Kong Pavilion at international education conferences. Other promotional efforts such as the sector-wide search engine also continued.

- b) In the 2016/17 to 2018/19 triennium, the UGC will continue efforts on this front. A one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions' in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$17.5 million (to be matched with funds from institutions) has been earmarked for the area of internationalisation and engagement with the Mainland. Emphasis will be put on the development and implementation of (i) strategies for the broader enhancement of internationalisation and engagement with the Mainland; (ii) holistic strategies/programmes to enhance student integration; and (iii) strategies/programmes to enrich the learning experience of commuting local students. In addition, a total of \$12 million has been earmarked for institutions for continuing to set up a Hong Kong Pavilion in international education conferences in the triennium.

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

- (a) In 2015-16, what did the University Grants Committee (UGC) do to help ensure the continuing good financial governance and sound financial planning of the institutions?
- (b) In 2016-17, what are the action plan and the estimated expenditure in this regard?

Asked by: Dr Hon Kenneth CHAN Ka-lok (Member Question No. 454)

Reply:

- (a) Subsequent to the completion of the review of the financial affairs of the University Grants Committee (UGC)-funded institutions conducted by the Financial Affairs Working Group of the UGC in October 2013, with the assistance of an external consultant, the UGC has been working with the UGC-funded institutions on the implementation of the report's recommendations to improve the cost allocation practices and the level of financial transparency in institutions. In 2015-16, the UGC completed the formulation of a new set of cost allocation guidelines and updated the accounting and disclosure practices of the institutions with reference to the generally accepted accounting principles and overseas practices. As a result, an updated version of the Statement of Recommended Practice for UGC-funded Institutions (the SORP) and a new set of Cost Allocation Guidelines for the UGC-funded and the Non-UGC-funded Activities (the Guidelines) were promulgated to institutions for them to comply with in their financial statements for 2015/16 (except for segment reporting requirements which will be put into effect in the financial statements for 2016/17) and 2018/19 respectively. The two documents aim to improve the cost allocation practices and the level of financial transparency in institutions.
- (b) In 2016-17, with the assistance of the external consultant, the UGC will assist the institutions in implementation of the SORP and the Guidelines, such as in providing advice to institutions on whether their implementation plans are consistent with the overall goals of the SORP and the Guidelines, and in compliance with and implementable within the requirements of the SORP and the Guidelines. The related work will be absorbed by the existing staff of the UGC Secretariat. \$1.5 million has been earmarked as the expenditure for engaging the consultant to provide professional advice.

CONTROLLING OFFICER'S REPLY

EDB645

(Question Serial No. 5019)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide the following information on research projects funded by the University Grants Committee in 2013/14 to 2015/16 academic years:

- (1) titles;
- (2) amounts of funding for each research project;
- (3) titles of research projects in collaboration with Mainland post-secondary institutions;
- (4) number, titles and amount of funding of research projects with Hong Kong as the subject of research; and
- (5) whether there are concrete plans to promote and encourage more academic researches on local topics by scholars in universities of Hong Kong; If yes, what are the details and the funding for such plans? If not, what are the reasons?

Asked by: Dr Hon Helena WONG Pik-wan (Member Question No. 54)

Reply:

- (1) & (2) There were 1 170, 1 302 and 1 245* approved research projects under various funding schemes administered by the Research Grants Council (RGC) in the 2013/14, 2014/15 and 2015/16 academic years respectively. Details of these projects including the titles, participating institutions and amount awarded are searchable at the UGC's website (<http://www.ugc.edu.hk/eng/rgc/result/result.htm>). In view of the large number of projects involved, members are invited to visit the website for the details of the projects.

* Position up to 29 February 2016.

- (3) The RGC runs two Joint Research Schemes with the Mainland organisations, namely the National Natural Science Foundation of China and the Science and Technology Development Centre, Ministry of Education (the latter ceased in the 2014/15 academic year). These two schemes provide funding support for collaboration projects between local and Mainland academics. Projects funded in the 2013/14, 2014/15 and 2015/16 academic years under the two schemes are listed at **Annex A**.

Besides, it is also noteworthy that, except for the Joint Research Schemes collaborated with designated regions, all other funding schemes administered by the RGC do not impose restriction

on the place of origin of the Co-Investigators. Hence, there may be some projects with Co-Investigators from the Mainland in these other funding schemes.

- (4) The RGC gives equal support to different types of research. All applications for research funding are professionally assessed by the local and non-local experts of the RGC based on the academic quality of research proposals. Apart from the Theme-based Research Scheme (TRS), the RGC currently does not administer any other research funding schemes which require the applicants to focus their research on matters related to Hong Kong. Given the vast number of projects funded each year, the RGC does not maintain a comprehensive list of projects with Hong Kong as the subject of research.

As regards the TRS, it was established in 2010 and is supported by investment income from \$4 billion of the Research Endowment Fund to focus academic research efforts of the UGC-funded institutions on large-scale projects under themes of strategic importance to the long-term development of Hong Kong. The list of large-scale projects funded under the TRS from the 2013/14 to 2015/16 academic years is at **Annex B**.

- (5) Starting from the 2014/15 academic year, the RGC has allocated additional resources, on top of the project costs, under the General Research Fund and Early Career Scheme to support academic research with elements of public policy development in Hong Kong. In the 2015/16 academic year, an amount of \$20.3 million and \$3.3 million were approved under the General Research Fund and Early Career Scheme respectively for such purpose.

Under the TRS, after consultation with the stakeholders, the Government introduced a new theme "Advancing Emerging Research and Innovations Important to Hong Kong" starting from the 2016/17 exercise. The new theme encompasses a significant broad base of disciplines to cover emerging topics of importance to Hong Kong.

**Projects funded under the Joint Research Schemes with
the National Natural Science Foundation of China (NSFC) and
Science & Technology Development Centre (STDC) under the Ministry of Education
(2013/14 to 2015/16)**

2013/14

NSFC and RGC

1. Investigation of Antenna Design and Electromagnetic Compatibility in Radio-Frequency System-in-Package
2. Delay-Aware Radio Resource Management:- Theory and Algorithm Design for Cloud Radio Access Networks
3. Investigation of the bulk and interface traps in III-nitride semiconductor heterostructure power electronic devices
4. Effective Location-based Spatial Crowdsourcing
5. Key technology in time-reversal based optical scanning holography and its application on fluorescent biological specimens
6. Research problems on carving and tamper detection of fragmented multimedia evidence for forensic investigation
7. Structural Studies of Flagellar Motor Switch from *H. pylori*: A Combination of X-ray Crystallography and Cryo-electron Microscopy Approaches
8. Probing the dioxin-induced neuromuscular defects: A signaling mechanism leading to the alteration of acetylcholinesterase at the neuromuscular junctions
9. Identifying critical transitions and gene regulatory networks controlling phases of chondrocyte differentiation in the growth plate
10. Study Role of PCNA-binding protein TRAIP in Replicative Stress Responses and Tumor Suppression
11. Role of TRPC5 Channels in Multidrug Resistance in Adriamycin-resistant Breast Cancer Cells
12. Development of Triterpenoid Natural Product Derivatives as New Antiviral Drugs Directly Blocking the Receptor Binding Site of Influenza Virus
13. High-performance Sunlight-driven Water Purification Pilot Plant Based on Plasmonic Photocatalysis and Microfluidic Planar Reactors
14. Response of air-sea CO₂ fluxes in the northern South China Sea to the carbon and nutrient export associated with the Pearl River plume (PRP)
15. Three Dimensional Graphene/Metal Oxide (Sulfide) Composite Nanoarchitectures for Anode Applications in Li-ion Batteries
16. Design and Biological Response of Biodegradable Mg-Sr-Zn Alloy for Ligament/tendon-bone Reconstruction
17. Processing and Characterization of 3D Graphene Based Thermal Interface Materials

18. Palladium-catalyzed Asymmetric Allylic Alkylations and Its Application in Total Synthesis of Cryptotrine and Bolivianine
19. Novel One-dimensional Quantum States of Spin-orbit Coupled Ultra Cold Atoms beyond Standard Paradigms
20. The Application of Organic Electrochemical Transistors as a State-of-the-art Platform for Label-free, Ultrasensitive, High Throughput and Portable Nucleic Acid Detection
21. Development of polymer/polymer-blend-based bulk-heterojunction organic photovoltaics
22. Investigation of new multi-functional materials based on hierarchical porous mixed oxides and carbon aerogels for air purification and disinfection
23. Dynamic Regulation of the p53 Pathway and Its Control Over Cell Fate at the Single-cell Level

STDC and RGC

24. Inference of Large Epidemic-like Information Spreading: Theories and Network Forensics
25. Impact of Hypoxia-inducible Factor 1 Alpha on EpCAM+ Hepatic Cancer Stem Cells in Hepatocellular Carcinoma
26. Elucidating the Therapeutic Mechanisms of Deep Brain Stimulation in Parkinson's Disease by Selective in vivo Optogenetic Manipulation Strategy
27. Ethylene-induced Subcellular Re-distribution of EIN2 and Its Functional Implications
28. High Performance Aqueous Rechargeable Battery Based on Anodic Compound Electrodes
29. Theoretical Chemical Kinetics for Pyrolysis and Oxidation of Large Biodiesel Molecules
30. Elucidating molecular mechanisms of the Maltose transporter (MalFGK2) using Markov State Models
31. A Fundamental Investigation of PCC Energy Pile and Load Transfer Mechanism: Geotechnical Aspects
32. Quality control and mechanism study of Guizhi-Fuling-Capsule, An ancient herbal formulation for primary dysmenorrhea, by a systemic biology approach
33. Control of the fabrication process and properties of multifunctional magnetoelectric oxide films
34. Revenue Maximization for Wireless Operators in Hybrid Macrocell-Femtocell Networks
35. In search for critical Inflammatory modulator regulated by MT1-MMP
36. Magmatic conduit system of the Jinchuan Cu-Ni-(PGE) sulfide deposit (NW China) with implication for exploration

2014/15

NSFC and RGC

1. Key Functional Photonic Elements for On-chip Mode-multiplexed Optical Interconnects
2. Key technologies for the next-generation real-time high-resolution minimally-invasive implantable Electrocorticography (ECoG) system

3. III-V-on-Silicon Coupled-Resonator-Optical-Waveguide Lasers for Direct-Modulated Multi-Wavelength Emission and Active Mode-Locking
4. Understanding the evolution and interspecies transmission of betacoronaviruses by structural and biophysical approaches
5. Schizophrenia-related de novo and compound heterozygous mutations
6. Nur77: new insights in signaling and mechanism of activation of epithelial-mesenchymal transition and tumor metastasis
7. Fatty acid binding protein-4 as a mediator of autoimmune diabetes: from molecular mechanism to clinical significance
8. Orexin-induced modulation of activity-dependent synaptic plasticity is critical for the maturation of vestibular circuitry and functions
9. Design and Optimizing Laser-Based 3D Printing of Metallic Glass: A Systematic Study of the Joining and Crystallization Mechanisms of Amorphous Structures under Laser Irradiation
10. Metal/Oxide Nanostructures as Plasmonic Catalysts for the Synthesis of Organic Molecules
11. Photovoltaic, Spin Field Effect Transistor and Sensing Devices Based on Polar Oxide Heterostructural Two-dimensional Electron Gas
12. Development of Multifunctional Nanocomposite Particles for Imaging and Gene Therapy in Cancer Treatment
13. Development of Multi-modality AIE Nanoprobes for Targeted Detection of Drug Resistant Gene AXL in Lung Cancer and their Preclinical Application
14. Nanostructured n-type Photoanodes and p-type Photocathodes for High Performance Water Splitting Photoelectrochemical Whole Cells
15. Thermo-mechanical coupling and spatiotemporal effects in phase transitions of shape memory materials
16. Rationalizing scaffold design with optimal cell niche for mesenchymal stem cell (MSC)-based therapy in disc degeneration
17. Organic memory array fabricated under ambient air environment: from polycrystalline thin film to single crystal devices
18. Approximation Analysis of Information Theoretic Learning and Ranking Type Learning Problems
19. Programmable and Integrated Fabrication of Nano-material Devices by Optically - Induced Force Field
20. Synthesis and Enantioselective Transformation of Carborane-fused Cyclobutenes and Alkenylcarboranes
21. On Mathematical Theory of the Compressible Fluid-dynamical Equations
22. Sparse Optimization: Algorithms and Theories

NSFC and RGC

1. A Micro Array Chip based Single Cell Manipulation System for Characterization of Electrical Stimulation Induced Stem Cell Differentiation
2. Non-convex Optimization for Robust Sparse Recovery: Fast Algorithms and Theoretical Analysis
3. Interactive Attribute Mining and Animated Speech Synthesis for Web-based Spoken Dialog Interactions
4. Single-crystalline silicon cantilever-resonator gas sensor array fabricated using silicon-migration technology for air quality monitoring
5. Reversal of P-gp-mediated Paclitaxel Resistance: Identification of Modulator-binding Site on P-gp and Rational Design of Next Generation P-gp Modulators
6. Functional and in vivo study of the Neuroligin and Itch Interaction
7. Neurodevelopmental effect of gene-environment interaction among early-onset schizophrenia patients: a combined genetic and neuroimaging approach
8. Development of DNA-encoded DNA-glycan constructs as multivalent influenza hemagglutinin inhibitors
9. A comprehensive functional ultrasound imaging framework: the assessment of vascular mechanics for the diagnosis of cardiovascular diseases
10. Advancing Transportation Systems Analysis by Integrating Safety Evaluation
11. Investigation of characteristics and mechanism of earthquakes associated with the Hutubi gas reservoir
12. Stoichiometric dynamics of carbon and nitrogen in two major hypoxia zones of Chinese coastal water
13. Mechanistic study of the degradation of multiple indoor air pollutants through Vacuum UV photocatalysis
14. Fluorescent Organic Compound-Phosphorescent Inorganic Transition Metal Complex Conjugates as Bioprobes and Imaging Reagents
15. Synthesis and Optoelectronic Properties of the White Graphene
16. Visible-light optomechanical integrated circuits based on III-nitride semiconductors
17. Microengineering Organic Semiconductor Materials for Flexible OTFT Devices
18. Detect Electroluminescence of Single Conjugated Polymers
19. Photonic Integration in GaN Membranes on Silicon
20. Characterization and Control of a System with Multiple Offshore Power Inverters Connected in Parallel with Long Cables
21. Experimental Studies of Geometrical Properties, Vorticity Dynamics and Small-Scale Statistics of Vortex Structures in Rotating Thermal Convection
22. Design, synthesis and application of fused osmacycles/iridacycles containing main group heteroatoms

23. Highly parallel algorithms for fluid-structure interaction problems and applications

Projects funded under the Theme-based Research Scheme**2013/14 (Total number of projects: 3)**

<u>Title</u>	<u>Amount awarded</u> (\$million)
1. Systematic Development of Molecular Targets for Nasopharyngeal Carcinoma	\$55.6
2. An Integrated Trans-omics Approach to Diabetic Cardio-renal Complications: From Novel Discoveries to Personalized Medicine	\$60.3
3. Smart Solar Energy Harvesting, Storage, and Utilization	\$60.3

2014/15 (Total number of projects: 4)

<u>Title</u>	<u>Amount awarded</u> (\$million)
1. Viral, Host and Environmental Determinants of Influenza Virus Transmission and Pathogenesis	\$75.1
2. Genetics and Functional Genomics of Neural Crest Stem Cells and Associated Disease: Hirschsprung Disease	\$62.4
3. Sustainable Power Delivery Structures for High Renewables	\$47.1
4. Delivering 21st Century Healthcare in Hong Kong - Building a Quality-and-Efficiency Driven System	\$20.5

2015/16 (Total number of projects: 5)

<u>Title</u>	<u>Amount awarded</u> (\$million)
1. Molecular Basis for Interspecies Transmission and Pathogenesis of Middle East Respiratory Syndrome Coronavirus	\$46.7
2. Centre for Research into Circulating Fetal Nucleic Acids	\$48.8

CONTROLLING OFFICER'S REPLY

EDB646

(Question Serial No. 4966)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by institution and programme, the following information for the past 5 years (2011/12 to 2015/16):
 - a. the number of places, student intake and tuition fees of the funded associate degree and higher diploma programmes offered by University Grants Committee (UGC)-funded institutions;
 - b. the number of places, student intake and tuition fees of the self-financing associate degree and higher diploma programmes offered by UGC-funded institutions;
 - c. the expenditure required for and revenue generated from the funded associate degree and higher diploma programmes offered by UGC-funded institutions;
 - d. the expenditure required for and revenue generated from the self-financing associate degree and higher diploma programmes offered by UGC-funded institutions.
2. Please list, by institution, the overall surplus, donations received, total amount of capital and liabilities of the UGC-funded institutions respectively for the past 5 years (2011/12 to 2015/16).
3. Please list, by institution, the overall surplus, donations received, total amount of capital and liabilities of the self-financing departments of UGC-funded institutions respectively for the past 5 years (2011/12 to 2015/16).

Asked by: Hon IP Kin-yuen (Member Question No. 84)

Reply:

- 1a. The approved intake places, approved student number targets and student enrolment of the University Grants Committee (UGC)-funded sub-degree programmes by institution and broad academic programme category from the 2011/12 to 2015/16 academic years are at Annex A. The tuition fees for the programmes are \$15,040 per student per annum for the Hong Kong Institute of Education and \$31,575 per student per annum for other UGC-funded institutions.
- b. According to the information provided by the institutions, the number of intake places, actual intakes and tuition fees of full-time locally-accredited self-financing sub-degree programmes provided by the UGC-funded institutions from the 2011/12 to 2015/16 academic years by institution and broad academic programme category are at Annex B.
- c. The bulk of recurrent grants to the institutions are in the form of a block grant based on the approved student numbers allocated to institutions. As funding for the sub-degree programmes is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes. It is noteworthy that based on the information as reported by the institutions, the average

student unit costs per annum of a UGC-funded sub-degree place for the 2011/12 to 2014/15 academic years was \$144,000, the bulk of which is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$15,040 per student per annum for the Hong Kong Institute of Education and \$31,575 per student per annum for other UGC-funded institutions). The average student unit cost for the 2015/16 academic year and beyond is not yet available. We do not have information on income generated by the UGC-funded sub-degree programmes.

- d. We do not have information on the expenditure involved and income generated by the self-financing associate degree and higher diploma programmes by UGC-funded institutions.
2. Based on the annual financial reports of the eight UGC-funded institutions, the surpluses / deficits, donations received, total funds and liabilities of each institution for the 2011/12 to 2014/15 academic years are at Annex C. Information for the 2015/16 academic year is not available.
3. Based on the information provided by institutions, the surpluses / deficits of self-financed programmes for the 2011/12 to 2014/15 academic years are at Annex D. Information for the 2015/16 academic year is not available. We do not have the information on donations received, total funds and liabilities of the self-financing departments of UGC-funded institutions for the 2011/12 to 2015/16 academic years.

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures. In the above table, the relevant figures are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. ^ The numbers include places allocated to HKIEd which was approved to use some of the sub-degree places (i.e. 216 in 2011/12) for enrolling students to its Bachelor of Education (Honours) (Early Childhood Education) programme.
3. '-' denotes nil.

CONTROLLING OFFICER'S REPLY**EDB647****(Question Serial No. 4967)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide the following information in respect of the First-Year-First-Degree programmes offered by various University Grants Committee (UGC)-funded institutions for the past 5 years (2011/12 to 2015/16 academic years):

- (a) the numbers of approved places and intakes;
- (b) a breakdown, by programme and by academic qualification of students not admitted through the Joint University Programmes Admissions System (JUPAS), of the numbers and percentages of JUPAS and non-JUPAS students among the total enrolment;
- (c) a breakdown, by programme, of the numbers and percentages of local students, Mainland students and other non-local students among the total enrolment;
- (d) a breakdown, by programme and by year, of the numbers of students taking undergraduate programmes and the numbers of students attending half-day and whole-day programmes; and
- (e) a breakdown, by programme, of the annual average unit costs of UGC-funded undergraduate programmes.

Asked by: Hon IP Kin-yuen (Member Question No. 85)

Reply:

- (a) to (c) The approved student number targets and the number of local and non-local students admitted to the University Grants Committee (UGC)-funded first-year first-degree (FYFD) places by institution, broad academic programme category (APC) and place of origin, for the 2015/16 academic year are at Annex A. The number of local students admitted to the UGC-funded FYFD places by institution, broad APC and admission route for the 2015/16 academic year is at Annex B. Details covering the 2011/12 to 2014/15 academic years were set out in our reply (EDB589) to a question (Serial No. 4110) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 last year. Given the length of the reply, the details covering the 2011/12 to 2014/15 academic years are not repeated herein.
- (d) The student enrolment of the UGC-funded undergraduate programmes by institution, broad APC and mode of study for the 2015/16 academic year is at Annex C. Details covering the 2011/12 to 2014/15 academic years were set out in our reply (EDB589) to a question (Serial No. 4110) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 last year. Given the length of the reply, the details covering the 2011/12 to 2014/15 academic years are not

repeated herein.

- (e) As funding for publicly-funded undergraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes. Based on the information as reported by the institutions, the average student unit costs per annum of a publicly-funded undergraduate place, by broad APC, for the 2011/12 to 2014/15 academic years are tabulated below, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the 2015/16 academic year is not yet available. As regards non-local students in the undergraduate programmes, who are primarily admitted through over-enrolment beyond approved student numbers, they are required to pay tuition fee at a level that is at least sufficient to cover the direct additional cost.

Broad APCs	Average Student Unit Cost (\$)			
	2011/12	2012/13	2013/14	2014/15 (Note 1)
A. Medicine & Dentistry	585,000	485,000	442,000	501,000
B. Engineering & Laboratory Based Studies	263,000	225,000	236,000	252,000
C. Others	199,000	175,000	182,000	190,000
Overall	233,000	203,000	209,000	222,000

Notes :

1. The average student unit costs for the 2014/15 academic year are provisional figures.
2. Student unit costs are affected by a variety of factors such as prevailing costs for different programmes and disciplines, student enrolment numbers, stages of development of individual institutions, etc.

Annex A

**Approved Student Number Targets and Number of Local and Non-local Students Admitted to UGC-funded First-Year First-Degree Places
by Institution, Broad Academic Programme Category and Place of Origin, 2015/16**

Institution	Broad Academic Programme Category	Approved student number targets	Local Students (Provisional)		Non-local Students (Provisional)						Total (Provisional)

Notes:

1. The student numbers are decimal figures and rounded to the nearest whole number. Figures may not add up to the corresponding totals owing to rounding. This is because some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis.
2. Overall enrolment of non-local students at undergraduate level is subject to a maximum of 20% of the approved student number targets at the aggregate level. They are primarily admitted by over-enrolment outside the approved numbers.
3. Figures in brackets denote the ratio to approved student number targets. Percentages may not add up to the corresponding totals owing to rounding.

4. '-' denotes nil.
5. '@' denotes 'magnitude less than 0.5'.
6. '*' denotes 'less than 0.05%'.
7. Abbreviations:

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided, regardless of whether that qualification has been completed or not.
2. The student numbers are decimal figures and rounded to the nearest whole number. Figures may not add up to the corresponding totals owing to rounding. This is because some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis.

3. Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate Degree, Higher Diploma, etc.
5. “Others” include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor’s degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
6. ‘-’ denotes nil.
7. ‘@’ denotes ‘magnitude less than 0.5’.
8. ‘*’ denotes ‘less than 0.05%’.
9. Figures in brackets denote percentage share to respective totals. Percentages may not add up to the corresponding totals owing to rounding.

CONTROLLING OFFICER'S REPLY**EDB648****(Question Serial No. 4968)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding the provision and requirement of student hostel places in various institutions in the past 5 years (from the 2011/12 to 2015/16 academic years), please provide the following information:

- (a) the requirement, shortfall and unit cost of publicly-funded hostel places of each UGC-funded institution;
- (b) the criteria for working out the number of hostel places, including the length of accommodation offered for various categories of students according to their place of origin, level of study, and funding mode of programmes; and
- (c) the capital works projects of UGC-funded institutions involving student hostel places, the project amounts, completion dates and expected number of hostel places to be provided.

Asked by: Hon IP Kin-yuen (Member Question No. 86)Reply:

- (a) The requirements for publicly-funded hostel places and additional requirements for publicly-funded hostel places above the level of supply broken down by the University Grants Committee (UGC)-funded institutions for the five academic years (2011/12 to 2015/16) are tabulated at the Annex.

The unit cost of a student hostel place depends mainly on the prevailing construction cost in the market and the site conditions and varies from time to time. For indicative purpose, the estimated cost of a publicly-funded hostel project submitted to the Finance Committee of the Legislative Council in July 2015, taking into account all associated facilities, was about \$788,000 per hostel place in September 2014 prices (or about \$835,300 per hostel place in September 2015 prices). Under the prevailing hostel policy, the Government will fund up to 75% of the capital cost of the approved level of publicly-funded student hostel provision, with the remainder to be met by the respective institutions using their own sources of private funding.

- (b) Under the prevailing hostel policy, subject to the availability of land and resources, the UGC-funded institutions are provided with publicly-funded student hostels calculated in accordance with the following criteria¹:

¹ The criteria are applicable to all UGC-funded institutions, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Hong Kong Institute of Education (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the Institute having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

- (i) all undergraduate students should be given the opportunity to stay in student hostels for at least one year of their courses;
- (ii) all research postgraduate students should be granted student hostel places;
- (iii) all non-local students should be granted student hostel places; and
- (iv) all undergraduate students whose daily travelling time exceed four hours should be provided with student hostel places throughout their courses.

The UGC-funded institutions allocate their publicly-funded and privately-funded hostel places to their students according to their own established criteria and procedures, taking into account, among other things, the actual number and individual merits of applications received.

- (c) Between September 2011 and March 2016, a total of six hostel projects providing some 6 650 hostel places have been completed. Details on these six completed hostel projects are listed below.

Project Code	Project Title (Institution)	No. of Hostel Places Provided	Approved Project Estimate² (\$ million)	Actual Completion Date
8023EJ	Student hostel, phase 4 (City University of Hong Kong)	700	182.0	Dec 2011
8005EU	New academic block and student hostel (Lingnan University)	300	88.1 ³	Feb 2012
8028EK	Student hostel, phase 3 (The Hong Kong Polytechnic University)	1 650	522.1	Jul 2012
8053EG	1 800-place student residences at Lung Wah Street, Kennedy Town (The University of Hong Kong)	1 800	643.6	Sep 2012
8013EL	701-place student residences (The Hong Kong University of Science and Technology)	701	201.3	Nov 2012
8053EF	1 500-place student hostel (The Chinese University of Hong Kong)	1 500	466.4	Feb 2013

Besides, one publicly-funded hostel project, namely 8015EL “Tseung Kwan O Joint Student Hostel” with an approved project estimate of \$198.3 million (excluding 25% contribution by institution) will be completed in mid-2016 providing 520 publicly-funded hostel places to The Hong Kong University of Science and Technology starting from 2016/17 academic year. Currently, another publicly-funded hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by institution) was approved by the Legislative Council in mid-2015. This project is currently under construction for completion in mid-2018. Upon its completion, it will provide 676 publicly-funded hostel places to The Chinese University of Hong Kong.

² Excluding 25% contribution by institution.

³ The approved project estimate of 8005EU of Lingnan University is \$216 million, including \$127.9 million for the academic block and \$88.1 million for the student hostel.

CONTROLLING OFFICER'S REPLY**EDB649****(Question Serial No. 4969)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

In respect of the senior year undergraduate programmes offered by the UGC-funded institutions, please provide the following information:

1. the number of publicly-funded senior year undergraduate places and their distribution by discipline; and the number of self-financing senior year undergraduate places, their distribution by discipline and the tuition fees in the past 5 years (2011/12 to 2015/16 academic years);
2. the number of publicly-funded senior year undergraduate places offered by each institution in the past 5 years; and for students admitted to top-up degree programmes, please list, by institution, the previous institutions from which these students completed their sub-degree programmes; and
3. given that the number of publicly-funded senior year undergraduate places will be gradually increased to 5 000 in the 2018/19 academic year, please list the number of places to be increased in each year and their distribution by discipline.

Asked by: Hon IP Kin-yuen (Member Question No. 87)Reply:

1. The approved number of senior year undergraduate intake places allocated to the University Grants Committee (UGC)-funded institutions by programme from the 2011/12 to 2015/16 academic years is at **Annex A**. The number of estimated intakes and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes from the 2011/12 to 2015/16 academic years are at **Annex B**.
2. The number of UGC-funded senior year undergraduate intake places allocated to the UGC-funded institution from the 2011/12 to 2015/16 academic years is at **Annex A**. The actual intakes of the UGC-funded senior year undergraduate programmes by the types of institutions where the admitted students previously studied from which the highest qualification was achieved before entering the senior year programme from the 2011/12 to 2015/16 academic years are at **Annex C**.
3. The Government has announced that the number of UGC-funded senior year undergraduate intake places will be progressively increased by 1 000 from 4 000 to 5 000 per annum, with effect from the 2015/16 academic year and during the planning triennium that immediately follows. The approved number of senior year undergraduate intake places allocated to the UGC-funded institutions by programme for the 2015/16 to 2018/19 academic years is at **Annex D**.

Notes:

1. Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
HKIEd	The Hong Kong Institute of Education	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Sciences and Technology	HKU	The University of Hong Kong

2. The figures refer to students enrolled into the approved UGC-funded senior year intake places and having sub-degree qualification as their highest qualification achieved.
3. Figures in brackets denote percentage share to respective total number of intakes.
4. Figures may not add up to the corresponding totals owing to rounding.
5. '-' denotes nil.
6. '*' Provisional figures
7. HKIEd did not have approved senior year places before 2012/13.

CONTROLLING OFFICER'S REPLY**EDB650****(Question Serial No. 4970)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide information on the expenditure of the University Grants Committee on postgraduate programmes and postgraduate students for the past 5 years (from 2011-12 to 2015-16):

1. Please provide a breakdown, by institution and course, of the number of full-time and part-time places of taught postgraduate programmes offered by funded institutions; the places and intakes of funded courses; the intakes and tuition fees of self-financing courses; and the respective numbers and ratios of local, mainland and non-local students;
2. Please provide a breakdown, by institution and course, of the number of full-time and part-time places of research postgraduate programmes offered by funded institutions; the number of places and intakes in master's degree and doctorate programmes; the intakes and tuition fees of self-financing courses; and the respective numbers and ratios of local, mainland and other non-local students; and
3. The number of awardees of the Hong Kong PhD Fellowship Scheme, the nationalities of the awardees and the amount of award involved.

Asked by: Hon IP Kin-yuen (Member Question No. 88)

Reply:

1. The numbers of student intakes of the University Grants Committee (UGC)-funded taught postgraduate (TPg) programmes by institution, mode of study, broad Academic Programme Category (APC) and place of origin from the 2011/12 to 2015/16 academic years are at [Annex A](#).

Regarding the self-financing sector, according to the information provided by the institutions, the number of actual intakes and student enrolment (with breakdown by place of origin) of locally-accredited self-financing taught postgraduate programmes provided by the UGC-funded institutions for the 2011/12 to 2014/15 academic years is at [Annex B](#). Information on the total tuition fees for the 2011/12 to 2015/16 academic years is at [Annex C](#).

2. Admission to research postgraduate (RPg) programmes is conducted by institutions throughout the year. The student enrolment of the UGC-funded RPg programmes by institution, broad APC and place of origin from the 2011/12 to 2015/16 academic years is at [Annex D](#). Breakdown figures by level of award (PhD /MPhil degrees) are not available.

Regarding the self-financing sector, according to the information provided by the institutions, the student enrolment of locally-accredited self-financing research postgraduate programmes provided by UGC-funded institutions for the 2011/12 to 2014/15 academic years is at [Annex E](#). Information on the total tuition fees is at [Annex F](#). Breakdown figures by level of award and place of origin are not available.

3. The Hong Kong PhD Fellowship Scheme, established in 2009, is open to local as well as non-local students who wish to pursue their PhD programmes in the UGC-funded institutions. The Fellowship provides each awardee with a monthly stipend of HK\$20,000 and a conference and research-related travel allowance of HK\$10,000 per year for up to three years. The number of students awarded the Fellowship from the 2011/12 to 2015/16 academic years is tabulated below:

Academic Year	No. of Awardees
2011/12	116
2012/13	165
2013/14	185
2014/15	223
2015/16	216

The breakdown of the awardees by place of origin from the 2011/12 to 2015/16 academic years is tabulated at [Annex G](#).

First-year Student Intakes of UGC-funded Taught Postgraduate Programmes by Institution, Mode of Study, Broad Academic Programme Category and Place of Origin, 2011/12 to 2015/16

Notes:

1. Figures may not add up to the corresponding totals owing to rounding. Since some UGC-funded programmes are mapped to more than one Academic Programme Category (APC), the student enrolment of these programmes is counted across the APCs concerned on a pro rata basis. Thus some student numbers are decimal figures and rounded to the nearest whole number.
2. The place of origin of non-local students is determined having regard to their nationality.
3. '@' denotes 'magnitude less than 0.5'.
4. '-' denotes nil.
5. # Provisional figures

Notes:

- Figures may not add up to the corresponding totals due to rounding. Since some UGC-funded programmes are mapped to more than one Academic Programme Category (APC), the student enrolment of these programmes is counted across the APCs concerned on a pro rata basis. In addition, if the RPg students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Thus some student numbers are decimal figures and rounded to the nearest whole number.
- The place of origin of non-local students is determined having regard to their nationality.
- RPg figures include only students funded by UGC within normal study periods.
- '@' denotes 'magnitude less than 0.5.
- '-' denotes nil.
- # Provisional figures

CONTROLLING OFFICER'S REPLY**EDB651****(Question Serial No. 4971)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

The University Grants Committee (UGC) usually conducts academic planning with its funded institutions on a triennial basis.

1. Please provide details of the outcomes of the competitive allocation mechanism in previous 3 exercises, including:
 - (a) the number of approved places in each UGC-funded institutions;
 - (b) the number of places reserved by each institutions for reallocation, a list of courses which originally offered these places, and the percentage of that number in the total number of places offered by the institution;
 - (c) the resulting number of places after reallocation, and a list of courses cancelled and created;
 - (d) the gains/losses in funding as a result of reallocation.
2. Will the UGC continue to implement the competitive allocation mechanism in the next triennium? If yes, please list:
 - (a) the number of places to be set aside by each institution and the percentage it accounts for;
 - (b) the procedures and timetable for implementation;
 - (c) other details.

Asked by: Hon IP Kin-yuen (Member Question No. 89)Reply:

The University Grants Committee (UGC) usually conducts academic planning and recurrent grants assessment with its funded institutions on a triennial basis. To ensure that precious publicly funded student places are put to their best use for the benefit of the community, we need to establish a mechanism for re-distribution of places from time to time in order to encourage institutions to review periodically their institutional strategies and academic priorities and advance institutions' international competitiveness in accordance with the roles of individual institutions and the higher education sector as a whole. To this end, we have adopted the Competitive Allocation Mechanism (CAM) since the 2009/10 to 2011/12 triennium to distribute a small number of first-year first-degree (FYFD) places with due regard to institutions' performance. During the process, FYFD places in disciplines under manpower planning (such as medicine, health sciences and education) are not included in the mechanism. Under the CAM, the UGC conducts the assessment according to agreed criteria, and centrally processes and re-distributes the places among institutions to reflect their comparative merits. For the 2016/17 to 2018/19 triennium, a total of 730 FYFD places (representing 4.9% of the total 15 000 FYFD places) are distributed under the CAM, while the remaining bulk (representing 95.1% of all FYFD places) are unaffected.

The UGC evaluated the Academic Development Proposals (ADPs) submitted by institutions for the 2016/17 to 2018/19 triennium against four broad assessment criteria, namely “Strategy, Mission and Vision”, “Teaching & Learning”, “Academic Programme Design”, and “Addressing the Needs of Society in General”. The evaluation was carried out in a fair, interactive and transparent manner.

Details on the competitive allocation for the 2016/17 to 2018/19 triennium are set out at Annex. However, a breakdown by programme is not available. The institutions take into account the overall student number targets as allocated by the UGC (including those FYFD places for distribution under the CAM and the remaining places), their respective strategic objectives, as well as the needs of society when designing their academic portfolio. Therefore, we are unable to differentiate the number of FYFD intake places allocated under the CAM to individual programmes by the institutions from the overall student number target. Details on the competitive allocation for the 2012/13 to 2014/15 triennium were set out in our reply (EDB275) to a question (Serial No. 3012) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2014-15.

The CAM involved setting aside a small number of FYFD places to a central pool, which would eventually be re-distributed to the eight UGC-funded institutions based on assessment of the ADPs against the agreed criteria. As such, there would not be any impact on the total amount of funding to the UGC-funded sector after the redistribution of FYFD places.

As regards the academic development planning beyond the 2016/17 to 2018/19 triennium, the UGC will work out the details in consultation with the institutions.

Approved FYFDs allocated to the eight UGC-funded institutions, for each year in the 2016/17 to 2018/19 triennium

	CityU	HKBU	LU	CUHK	HKIEd	PolyU	HKUST	HKU	Total
(a) Overall distribution of FYFD places for 2015/16	2 095	1 223	553	3 247	621	2 337	1 901	3 023	15 000
(b) Non-manpower-planned places for 2015/16	2 035	1 103	553	2 656	120	1 713	1 901	2 395	12 476
(c) Number of places set aside under the CAM [i.e. 6% of (b)] ^{Note 1}	122	66	22 (4%)	159	0	103	114	144	730
(d) Number of places earned back as a result of distribution under the CAM ^{Note 2}	122	14	0	209	-39 ^{Note 3}	108	164	152	730
(e) Overall distribution of FYFD places (for each year in the 2016–19 triennium) (including both non-manpower and manpower places) (% change between 2015/16 and 2016/17 [i.e. $\frac{(e) - (a)}{(a)} \times 100\%$])	2 095 (0%)	1 171 (-4.3%)	531 (-4.0%)	3 297 (+1.5%)	582 (-6.3%)	2 342 (+0.2%)	1 951 (+2.6%)	3 031 (+0.3%)	15 000 (0%)

Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
HKIEd	The Hong Kong Institute of Education	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology	HKU	The University of Hong Kong

^{Note 1} Each institution was required to set aside 6% of their non-manpower-planned places for competitive allocation, except for LU and HKIEd. LU was required to set aside 4% of its FYFD places because of its “small size”. HKIEd did not need to set aside any places for competitive allocation, since most of its programmes were either subject to the Administration’s manpower planning requirement or “protected” areas – in June 2009, the Executive Council approved the provision of 120 additional FYFD places to HKIEd to provide non-teacher-education programmes starting from 2010/11 onwards to pave way for its development into a multi-disciplinary institution.

^{Note 2} Including 85 places allocated to meet additional manpower requirements and other changes in manpower-planned places.

^{Note 3} The 39 places reduced are the result of the decrease in requirement for teacher education places at primary level as per Government’s advice. These places were redistributed to meet the requirements of other manpower-planned disciplines.

- End -

CONTROLLING OFFICER'S REPLY

EDB652

(Question Serial No. 4972)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the funding expenditure of the University Grants Committee (UGC) on research, please provide the following for the past 5 years (2011/12 to 2015/16):

1. the amount of Government provisions for various funded institutions to carry out researches with breakdown by institution and department; and the amount of research funding secured by various institutions through the competitive allocation mechanism implemented by UGC/ Research Grants Council;
2. the number of research projects terminated prematurely, the funds involved and the reasons;
3. the staff establishment, minimum salary point, mode of employment and wastage of research assistants and senior research assistants of various funded institutions;
4. the annual investment income, financial expenditure, administrative expenses and balance of the Research Endowment Fund; and
5. the amount of research grants open to self-financing institutions for competition with breakdown by institution and department; and the amount received by each institution.

Asked by: Hon IP Kin-yuen (Member Question No. 90)

Reply:

1. According to information provided by the UGC-funded institutions, the amount of funding received from the Government which was utilized for research purposes in the past four academic years (2011/12 to 2014/15) is listed at Annex A. Information in respect of the 2015/16 academic year is not yet available as such information will only be reported by institutions after the completion of the 2015/16 academic year. We do not have ready information from the institutions on the number of projects funded from various Government sources and the breakdown of provisions by academic department of institution.

The amount of funding secured through UGC/RGC competitive research funding schemes in the past five academic years (2011/12 to 2015/16), with breakdown by institution, is listed below. It is noteworthy that competitive research funding secured in an academic year does not need to be fully spent within the same academic year.

Institution	2011/12 (\$ million)	2012/13 (\$ million)	2013/14 (\$ million)	2014/15 (\$ million)	2015/16 (\$ million) (Note 1)
City University of Hong Kong	78.7	83.6	100.7	121.1	172.2
Hong Kong Baptist University	29.9	47.0	42.9	49.3	49.5
Lingnan University	4.0	5.9	8.7	3.5	7.6
The Chinese University of Hong Kong	246.0	190.1	380.5	217.3	212.5
Hong Kong Institute of Education	13.7	14.3	19.7	19.2	27.3
The Hong Kong Polytechnic University	90.4	90.5	121.2	123.6	117.7
The Hong Kong University of Science and Technology	161.3	204.3	237.9	154.8	196.7
The University of Hong Kong	357.3	318.8	206.8	414.2	254.9
Total (Note 2)	981.1	954.5	1,118.4	1,103.0	1,038.4

The amount of funding secured through UGC/RGC competitive research funding schemes in the past five academic years (2011/12 to 2015/16), with breakdown by broad subject category, is listed below.

Broad Subject Category	2011/12 (\$ million)	2012/13 (\$ million)	2013/14 (\$ million)	2014/15 (\$ million)	2015/16 (\$ million) (Note 1)
Biology and Medicine	415.1	364.7	441.3	408.2	327.0
Business	63.3	62.1	53.7	76.8	93.2
Engineering	204.1	266.2	286.7	299.9	313.1
Humanities and Social Sciences	99.5	110.2	126.1	134.4	144.5
Physical Sciences	199.2	151.4	210.6	183.7	160.5
Total (Note 2)	981.1	954.5	1,118.4	1,103.0	1,038.4

Note 1 Position up to 29 February 2016.

Note 2 Figures may not add up due to rounding.

- The total number of research projects monitored by the UGC and RGC, as well as the number of research projects terminated in the past five academic years (2011/12 to 2015/16) are as follows:

Academic Year	No. of projects monitored by UGC/ RGC	No. of terminated projects (% total)	Funds involved (\$ million)	Funds returned to UGC/ RGC (\$ million)
2011/12	4 751	13 (0.27%)	9.2	1.3
2012/13	5 145	15 (0.29%)	9.6	3.6
2013/14	5 513	12 (0.22%)	6.4	1.0
2014/15	6 074	19 (0.31%)	9.3	0.7
2015/16 (Note 3)	6 321	25 (0.40%)	14.6	3.4

Note 3 Position up to 29 February 2016.

The reasons for terminating the 84 projects in the past five academic years (2011/12 to 2015/16) are as follows:

Reason	Number
Departure of the Principal Investigators from UGC-funded institutions	64
Progress reports overdue	8
Principal Investigators retired	5
Principal Investigators passed away	4
Change of eligibility status of Principal Investigators	3

- The staff establishment, minimum salary point, mode of employment and turnover rate of research assistants and senior research assistants of UGC-funded institutions, broken down by institution in the past five academic years (2011/12 to 2015/16) are set out at Annex B.
- The annual investment income, expenditure and balance of the Research Endowment Fund (REF) for 2011/12 to 2014/15 (Note 4) are tabulated below. Information for 2015/16 is not yet available.

	For the year ended			
	31 August 2012 (\$ million)	31 August 2013 (\$ million)	31 August 2014 (\$ million)	31 August 2015 (\$ million)
Investment income	1,190	1,304	1,036	1,248
Research grants	787	662	864	1,018
Administrative expenses	2	1	0	0
Fund balance	25,318	25,959	26,131	26,360

Note 4 The accounting period for REF runs from 1 September to 31 August of the following year.

Note 5 Figures may not add up due to rounding.

- The competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The amount of funding secured through the competitive research funding schemes for the local self-financing degree sector in the 2014/15 and 2015/16 academic years, with breakdown by local self-financing degree-awarding institution, is listed below.

Institution	2014/15 (\$ million) (Note 6)	2015/16 (\$ million) (Note 6)
Caritas Institute of Higher Education	11.1	13.7
Centennial College	15.8	6.8
Chu Hai College of Higher Education	18.6	0.5
Hang Seng Management College	12.3	20.0
Hong Kong Shue Yan University	16.9	2.8
The Open University of Hong Kong	12.9	17.1
Tung Wah College	15.4	2.0
HKCT Institute of Higher Education (Note 7)	-	2.5
Hong Kong Nang Yan College of Higher Education (Note 7)	-	-
School of Continuing Education, Hong Kong Baptist University (Note 7)	-	6.8
School of Professional Education and Executive Development, The Hong Kong Polytechnic University (Note 7)	-	1.2
Technological and Higher Education Institute (THEi) of Hong Kong (Note 7)	-	12.9
Total (Note 8)	103.0	86.3

Note 6 Position up to 29 February 2016.

Note 7 Institutions were eligible for the funding schemes starting from the 2015/16 academic year.

Note 8 Figures may not add up due to rounding.

The amount of funding secured through the competitive research funding schemes for the local self-financing degree sector in the 2014/15 and 2015/16 academic years, with breakdown by broad subject category, is listed below.

Broad Subject Category	2014/15 (\$ million) (Note 9)	2015/16 (\$ million) (Note 9)
Biology and Medicine	2.2	7.0
Business	6.5	5.6
Engineering	9.3	7.4
Humanities and Social Sciences	14.7	11.3
Physical Sciences	2.4	2.3
Institutional Development Scheme (IDS) (Note 10)	68.0	52.8
Total (Note 11)	103.0	86.3

Note 9 Position up to 29 February 2016.

Note 10 In view of the nature of the IDS projects, the projects cannot be categorized by broad subjects.

Note 11 Figures may not add up due to rounding.

CONTROLLING OFFICER'S REPLY**EDB653****(Question Serial No. 4973)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

Regarding the expenditure on salaries and the recruitment of staff of the University Grants Committee (UGC)-funded institutions, please provide the figures of the following for the past 5 years (2011/12-2015/16) and the estimated figures for the 2016/17 academic year:

1. a breakdown, by terms of employment, of the numbers, proportions and percentage changes of the teaching and non-teaching staff on temporary contract, term contract, long-term contract and substantive appointment in the 8 UGC-funded institutions;
2. the increase/decrease in the number of senior staff, the expenditure on their salaries and the percentage of such expenditure in the overall expenditure in each of the funded institutions; and
3. the amount of expenditure on salaries and benefits of each institution which are funded by public money and income other than public funds respectively.

Asked by: Hon IP Kin-yuen (Member Question No. 91)Reply:

1. The total numbers and respective percentages of staff on contract and substantive appointment in the academic years of 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16 as provided by the eight UGC-funded institutions are set out at Annex A. The breakdown between staff on temporary contract and term contract, and between academic and administrative / support staff is not readily available. Meanwhile, the percentages of staff changes for each of the UGC-funded institutions from the 2011/12 to 2015/16 academic years are at Annex B. Estimate for the 2016/17 academic year is not available.
2. The changes in the number of senior staff by institutions from the 2011/12 to 2015/16 academic years are at Annex C. Estimate for the 2016/17 academic year is not available.

As regards expenditure on salaries of senior staff, the UGC does not seek to control for funding purposes actual expenditure on salaries and the senior to junior staff ratio in the institutions since the delinking of institutional salaries from the civil service salary scales in 2003. The information requested is thus not available.

3. The bulk of the Government subvention to the eight UGC-funded institutions is in the form of a block grant which provides for a one-line allocation of resources for a funding period (usually a triennium). Expenditure of institutions (including expenditure on salaries and benefits) is not solely covered by Government funding. Institutions have other sources of income including tuition fees and other fees,

interest and investment income, donations and endowments, auxiliary services and other incomes. Apportionment of expenditure on salaries and benefits by funding source is not available.

However, as an indication and according to the annual financial reports of eight UGC-funded institutions, the expenditure on salaries and benefits and the income for the 2011/12 to 2014/15 academic years are set out at Annex D. Information for the 2015/16 academic year is not available and there is no estimate made for the 2016/17 academic year.

Regarding the admission of students with special educational needs (SEN), students with disabilities and local non-Chinese speaking students by UGC-funded and self-financing institutions, please provide the following information for the past 5 years (from 2011/12 to 2015/16):

- (a) the number of intakes of SEN students and students with disabilities in these institutions, as well as the expenditure involved in supporting these students, with a breakdown by institution and type of students;
- (b) the number of student hostels in these institutions provided with barrier-free facilities (in terms of hostel places) and the expenditure involved in constructing barrier-free facilities in each institution over the past 5 years; and
- (c) the number of local non-Chinese speaking students admitted to these institutions, with a breakdown by institution and Chinese language qualification held by these students.

Asked by: Hon IP Kin-yuen (Member Question No. 92)

Reply:

- (a) The number of students with special educational needs (SEN) studying full-time University Grants Committee (UGC)-funded sub-degree and undergraduate programmes by institution and type of disability, from the 2011/12 to 2015/16 academic years is at **Annex A**. Funding for students with SEN is subsumed under the block grant allocated to the UGC-funded institutions, and hence the UGC is unable to attribute the exact amount provided in supporting these students.
- (b) Some 31 500 student hostel places in the UGC-funded institutions are provided with barrier-free facilities, such as ramps, special toilets, braille on lift buttons and guided paths. As most of these facilities were provided during construction of hostel buildings, there is no separate breakdown on the expenditure incurred for the installation of the barrier-free facilities.
- (c) The number of local non-Chinese speaking (NCS) students admitted to the UGC-funded full-time sub-degree and undergraduate programmes from the 2011/12 to 2015/16 academic years is set out at **Annex B**. There is no information on the Chinese language qualification of the NCS students.

**Number of Students with Special Educational Needs (SEN)^(note 1) Pursuing Full-time UGC-funded
Sub-degree and Undergraduate Programmes, 2011/12 to 2014/15 Academic Years**

CONTROLLING OFFICER'S REPLY**EDB655****(Question Serial No. 4977)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide the following for the past 5 years (2011/12 to 2015/16):

- (a) the names of the top 10 funded undergraduate programmes, offered by each UGC-funded institution, which admitted the most local applicants who hold non-local public examination results or academic qualifications (in terms of number and percentage respectively); the number of local applicants who hold non-local public examination results or academic qualifications admitted to each of such programmes, as well as their percentage and median admission score; and the number of JUPAS applicants admitted to each of such programmes and their median admission score; and
- (b) whether it knows the names of the top 10 undergraduate programmes, offered by each UGC-funded institution, which admitted the most non-local students (in terms of number and percentage respectively) in the past 5 years; the number of applicants of this type admitted to each of such programmes, as well as their percentage and median admission score; and the number of JUPAS applicants admitted to each of such programmes and their median admission score.

Asked by: Hon IP Kin-yuen (Member Question No. 95)

Reply:

Student admission is within the autonomy of the University Grants Committee (UGC)-funded institutions. Following the principles of fairness and merit-based selection, each institution administers its own admission policy and criteria for different undergraduate programmes to assess applications submitted through the Joint University Programmes Admissions System (JUPAS) and non-JUPAS routes.

According to the UGC-funded institutions, undergraduate admission is conducted on the basis of a rigorous and holistic assessment of applicants in a variety of aspects, including their academic qualifications and results, interview performance, personal attributes, non-academic achievements, interests and experiences, as well as programme preferences, etc. Institutions have accumulated a wealth of experience in assessing the relative merits of local applicants with different academic qualifications. They have also been continuously monitoring the relative post-admission performance of students admitted with different academic qualifications to ensure that equivalent admission threshold is applied to candidates holding different academic qualifications. We understand that institutions do not apply any formula to convert and compare different academic and non-academic qualifications.

Besides, having regard to institutional autonomy in student admission, neither the Government nor the UGC would require institutions to specify a particular ratio of local students admitted through the JUPAS and non-JUPAS routes. That said, we understand that individual institutions have taken the initiative to lay down guidelines which set a ceiling for admission of local students through the non-JUPAS route.

JUPAS candidates continue to be the major source of local students for UGC-funded undergraduate programmes over the years. It is noteworthy that the majority of the local students admitted through non-JUPAS route in the past years were admitted on the basis of local sub-degree qualifications or other local qualifications. It must also be stressed that both local students applying through the JUPAS and non-JUPAS routes deserve equal opportunities to be considered on the basis of fair competition for articulation to UGC-funded programmes.

The requested details regarding the top 10 UGC-funded first-year-first-degree (FYFD) programmes of each UGC-funded institution with the highest ratio of local students with overseas qualifications to the total number of students admitted in the 2015/16 academic year are at **Annex A**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded institution with the largest number of local students with overseas qualifications in the 2015/16 academic year are at **Annex B**. The same details covering the 2011/12 to 2014/15 academic years were set out in our reply (EDB597) to a question (Serial No. 4454) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 last year. Given the length of the reply, the details covering the 2011/12 to 2014/15 academic years are not repeated herein.

Non-local students, including those originating from the Mainland and overseas, are admitted to the UGC-funded undergraduate programmes up to a level not exceeding 20% of the approved UGC-funded student number. Since non-local students are primarily admitted by over-enrolment on top of the approved student number, they will not compete directly with local students.

Non-local students need to apply for admission to UGC-funded programmes through the non-JUPAS route. According to the institutions, applications for admission submitted by non-local candidates are held distinct and handled separately from local applications. Similar to local applications, non-local applications are considered by the institutions in accordance with the principles of fairness and merit-based selection. Each institution administers its own admission policy and criteria to identify the most-deserving among the non-local candidates.

The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded institution with the highest ratio of non-local students to the total number of students admitted in the 2015/16 academic year are at **Annex C**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded institution with the largest number of non-local students in the 2015/16 academic year are at **Annex D**. The same details covering the 2011/12 to 2014/15 academic years were set out in our reply (EDB597) to a question (Serial No. 4454) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 last year. Given the length of the reply, the details covering the 2011/12 to 2014/15 academic years are not repeated herein.

All four annexes are prepared based on information provided by the institutions.

UGC-funded first-year-first-degree programmes with the highest ratio of local students with overseas qualifications to total no. of students admitted, 2015/16 (provisional)

Institution: City University of Hong Kong

Programme name		No. of students admitted						Local students with major overseas qualifications as percentage of total no. of students admitted (A)/(B)	For major admission qualifications ⁽¹⁾ , average score obtained by local students		
		Local students				Non-local students	Total (B)		JUPAS	Non-JUPAS	
		JUPAS	Non-JUPAS						HKDSE ⁽⁶⁾	GCE ⁽⁷⁾	IB ⁽⁸⁾
			Major Overseas qualifications (A) ⁽²⁾⁽³⁾	Sub-degree qualifications ⁽²⁾⁽⁴⁾	Others ⁽⁵⁾						
1	Bachelor of Arts in Digital Television and Broadcasting	-	2	-	-	-	2	100.0%	-	*	*
2	Bachelor of Science in Applied Biology	-	2	1	-	-	3	66.7%	-	*	-
3	Bachelor of Social Sciences in Criminology	-	3	2	-	-	5	60.0%	-	*	*

10	Bachelor of Arts in Translation and Interpretation	-	1	1	1	-	3	33.3%	-	-	*

Notes:

- They cover primarily major admission qualifications in which standardized grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual institutions, though they are also major admission qualifications held by intake students.
- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided.
- Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
- "Others" include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5*=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20

“-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.

8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

UGC-funded first-year-first-degree programmes with highest ratio of local students with overseas qualifications to total no. of students admitted, 2015/16 (provisional)

- Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
 $5^{**}=7$, $5^{*}=6$, $5=5$, $4=4$, $3=3$, $2=2$, $1=1$, ‘unclassified’=0
 “-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
 A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
 AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20
 “-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.
 “*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

- Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, ‘unclassified’=0
“-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20
“-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.
“*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

**UGC-funded first-year-first-degree programmes with the largest number of local students with overseas qualifications,
2015/16 (provisional)**

Institution: Lingnan University

Programme name		No. of students admitted						Local students with major overseas qualifications as percentage of total no. of students admitted	For major admission qualifications ⁽¹⁾ , average score obtained by local students			
		Local students				Non-local students	Total		JUPAS		Non-JUPAS

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardized grading schemes are adopted.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20
“-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardized grading schemes are adopted.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20
“-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- HKUST introduced School-based admission and so the figures are presented at School level.

UGC-funded first-year-first-degree programmes with the largest number of non-local students, 2015/16 (provisional)

Institution: The University of Hong Kong

Programme name		No. of students admitted				Non-local students as percentage of total no. of students admitted	Average score in major admission qualifications ⁽¹⁾ obtained by intake students			
		Local		Non-local	Total		Local students via JUPAS route	Non-local students via Non-JUPAS route		
		JUPAS	Non-JUPAS					HKDSE ⁽²⁾	GCE ⁽³⁾	IB ⁽⁴⁾
1	Bachelor of Business Administration / Bachelor of Economics and Finance	269	80	212	561	37.8%	20.3	272.5	40.0	106.3
2	Bachelor of Engineering	353	110	117	580	20.2%	18.4	273.1	*	133.3
3	Bachelor of Science	291	59	78	428	18.2%	18.1	280.0	36.6	132.3
4	Bachelor of Social Sciences	127	39	53	219	24.2%	20.5	*	38.0	98.5
5	Bachelor of Arts	317	64	27	408	6.6%	19.4	-	35.3	81.8
6	Bachelor of Science in Actuarial Science	48	7	21	76	27.6%	20.9	-	-	146.1
7	Bachelor of Arts in Architectural Studies	35	17	16	68	23.5%	21.8	*	*	123.8
8	Bachelor of Journalism	13	4	14	31	45.2%	20.5	*	36.3	96.3
9	Bachelor of Engineering (Engineering Science)	8	3	9	20	45.0%	19.6	-	*	140.6
10	Bachelor of Science in Quantitative Finance	17	3	8	28	28.6%	22.1	-	-	124.0

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardized grading schemes are adopted.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:
5**=7, 5*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0
“-” denotes the students concerned are not HKDSE qualification holders. “*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:
A-Level : A* – 140; A – 120; B – 100; C – 80; D – 60; E – 40
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20
“-” denotes the students concerned are not GCE qualification holders. “*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.
“*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.

CONTROLLING OFFICER'S REPLY

EDB656

(Question Serial No. 4978)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide, by institution and programme, the following information for the past 5 years (2011/12 to 2015/16):

- (a) the number of enrolment applications and the place of origin for funded taught postgraduate programmes and self-financing taught postgraduate programmes offered by each University Grants Committee (UGC)-funded institution;
- (b) the number of student intake and the place of origin for funded taught postgraduate programmes and self-financing taught postgraduate programmes offered by each UGC-funded institution;
- (c) the number of enrolment applications and the place of origin for funded research postgraduate programmes and self-financing research postgraduate programmes offered by each UGC-funded institution; and
- (d) the number of student intake and the place of origin for funded research postgraduate programmes and self-financing research postgraduate programmes offered by each UGC-funded institution.

Asked by: Hon IP Kin-yuen (Member Question No. 96)

Reply:

- (a) Information on the number of applications and place of origin of applicants of University Grants Committee (UGC)-funded and self-financing taught postgraduate (TPg) programmes is not available.
- (b) Student intakes of UGC-funded TPg programmes by institution and place of origin from the 2011/12 to 2015/16 academic years are at **Annex A**. Student intakes of self-financing TPg programmes offered by UGC-funded institutions, by institution and place of origin, from the 2011/12 to 2014/15 academic years are at **Annex B**. Figures for the 2015/16 academic year are not yet available.
- (c) & (d) The number of applications and student intakes of UGC-funded research postgraduate (RPg) programmes by institution and place of origin from the 2011/12 to 2015/16 academic years are at **Annex C**.

Information on the number of applications and place of origin of applicants of self-financing RPg programmes is not available. Student intakes of self-financing RPg programmes offered by UGC-funded institutions, by institution and place of origin, from the 2011/12 to 2014/15 academic years are at **Annex D**. Figures for the 2015/16 academic year are not yet available.

	Total	1 868	535	13 352	1 613	3 548	240	18 768	2 388

Notes:

1. Number of applications of research postgraduate programmes refers to the number one year prior to the corresponding academic year.
2. Each applicant can concurrently submit multiple applications to different institutions, and hence the number of applicants is actually smaller than the number of applications. UGC-funded institutions, however, do not have information on the number of applicants. Based on empirical data, UGC-funded institutions assessed that, on average, each local applicant would submit two applications for admission. The number of applications submitted by non-local applicants considerably varies, and hence UGC-funded institutions are unable to estimate the number of non-local applicants on the basis of the number of non-local applications received.
3. The place of origin of non-local students is determined having regard to their nationality.
4. The number of RPg students are in decimal places which are all rounded to integers in this table. If the RPg students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.
5. 'N.A.' denotes figures not available.

Notes :

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within normal study periods.
3. To tie in with the implementation of the new academic structure, UGC-funded institutions have admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. ^ The number of RPg students are in decimal places which are all rounded to the nearest whole numbers in this table. This is because if the RPg students are financed by institutions using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.
5. ‘-’ denotes nil.
6. # Provisional figures.
7. Abbreviations:
CityU City University of Hong Kong
HKBU Hong Kong Baptist University
LU Lingnan University
CUHK The Chinese University of Hong Kong
HKIEd The Hong Kong Institute of Education
PolyU The Hong Kong Polytechnic University
HKUST The Hong Kong University of Science and Technology
HKU The University of Hong Kong

CONTROLLING OFFICER'S REPLY**EDB659****(Question Serial No. 4989)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- (a) Please set out the respective amounts of funding provided by the Government to institutions funded by the University Grants Committee (UGC) and the percentages of such funding in the total amounts of income of the institutions in the past 5 years (2011/12 to 2015/16):

Sources of income	Institutions (million) (as % of the total amount of income)								UGC sector
	CityU	HKBU	LU	CUHK	HKIED	PolyU	HKUST	HKU	
Recurrent funding from UGC									
Funding from Research Grants Council (RGC)									
Other funding provision from Government (please specify)									
Sub-total									
Tuition fees and other charges									
Interest and investment return									
Donations and endowments									
Income from subsidiaries									
Other sources of income (please specify)									
Total amount of income									

- (b) Please provide a list of subsidiaries established or owned by UGC-funded institutions, irrespective of whether they are located within or outside Hong Kong, by institution.

Asked by: Hon IP Kin-yuen (Member Question No. 107)

Reply:

- (a) Total income by source of the eight University Grants Committee (UGC)-funded institutions for the 2011/12 to 2014/15 academic years, based on institutions' annual financial reports, is provided at Annex A. Information for the 2015/16 academic year is not available.
- (b) A list of subsidiaries / principal subsidiaries of UGC-funded institutions as disclosed in their 2014/15 consolidated annual financial reports are provided at Annex B.

Total income by source of the University Grants Committee (UGC)-funded institutions for the 2011/12 to 2014/15 academic years

CONTROLLING OFFICER'S REPLY**EDB660****(Question Serial No. 4993)**Head: (190) University Grants CommitteeSubhead (No. & title): (-) Not SpecifiedProgramme: University Grants CommitteeControlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)Director of Bureau: Secretary for EducationQuestion:

- (a) Some funding within the Research Portion of the Block Grant has been allocated on a more competitive basis in a gradual manner. What are the details?
- (b) Please list the amount of funding secured by each institution under the Earmarked Research Grant, the Theme-based Research Scheme and the Areas of Excellence Scheme in the past 3 academic years (if applicable), and the research topics concerned.
- (c) Please set out the amount of funding, details and approving criteria of the new competitive research funds for the local self-financing degree sector.
- (d) The Government will earmark a time-limited funding of \$17.5 million for competitive allocation under the new consolidated funding scheme of teaching and learning to incentivise institutions to further enhance their efforts in internationalisation and engagement with the Mainland thus benefitting the learning experience of students. Please set out the details of the scheme, approving criteria and the amount of funding available each year.
- (e) Regarding the six rounds of Matching Grant Schemes already completed, please list the amounts of donations and matching grants secured by each institution, and their uses.
- (f) What are the numbers of contract staff and substantive staff employed by UGC-funded institutions in this and next academic years, and the percentages of these staff in the total number of staff in the institutions.

Asked by: Hon IP Kin-yuen (Member Question No. 112)Reply:

- (a) To promote research excellence, since the 2012/13 academic year, the University Grants Committee (UGC) has been gradually allocating the Research Portion of the Block Grant to its funded institutions on a more competitive basis according to their success in obtaining peer-reviewed Research Grants Council (RGC) Earmarked Research Grants. Over a period of nine years (starting from the 2012/13 academic year), about 50% of the prevailing Research Portion will be allocated in this manner. The fund is disbursed to the institutions as part of the Block Grant as infrastructure funding to enable institutions to provide both the staffing and facilities (e.g. accommodation and equipment) necessary to carry out research, and to fund a certain level of research.

- (b) The amount of funding secured through the Earmarked Research Grants, the Theme-based Research Scheme and the Areas of Excellence Scheme in the past three academic years (2013/14 to 2015/16), with breakdown by institution, is listed at **Annex A**. It is noteworthy that competitive research funding secured in an academic year does not need to be fully spent within the same academic year.

Details of the projects including the titles, participating institutions and amount awarded are searchable at the UGC's website (<http://www.ugc.edu.hk/eng/rgc/result/result.htm>). In view of the large number of projects involved, members are invited to visit the website for the details of the projects.

- (c) The competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The schemes include the Faculty Development Scheme (FDS), the Institutional Development Scheme (IDS), and the Inter-Institutional Development Scheme (IIDS). The FDS aims at developing the research capacity of individual academics in the local self-financing degree-awarding institutions so that they can transfer their research experiences and new knowledge into teaching and learning. The IDS aims at building up the research capacity of the local self-financing degree-awarding institutions in their strategic areas. The IIDS aims at enhancing academics' research capability in the local self-financing degree-awarding institutions and keeping them abreast of new developments and challenging research topics in relevant fields. The research funding provision is competitive and non-recurrent in nature.

Peer-review mechanism is adopted and assessment is mainly based on the academic quality / merit of the proposals. The funding awarded in the 2014/15 and 2015/16 academic years is as follows -

Academic Year	Amount Awarded (\$ million) (Note 1)
2014/15	103.0
2015/16	86.3
Total ^(Note 2)	189.3

Note 1 Position up to 29 February 2016.

Note 2 Figures may not add up due to rounding.

- (d) In the 2016/17 to 2018/19 triennium, a one-off consolidated teaching and learning funding scheme will be launched to incentivise institutions in exploring and developing further in the sector-wide strategic areas including (a) innovation; (b) enhancement of student learning experience; (c) enhancement of internationalisation and engagement with the Mainland; and (d) language enhancement. A total of \$17.5 million (to be matched with funds from institutions) has been earmarked for the area of internationalisation and engagement with Mainland China. Emphasis will be put on development of and implementation of (i) strategies for the broader enhancement of internationalisation and engagement with Mainland China; (ii) holistic strategies/programmes to enhance student integration; and (iii) strategies/programmes to enrich the learning experience of commuting local students. Some of the selection criteria include relevance of the projects, the design of the projects, the element of collaboration, how would the project influence the sector, the monitoring and evaluation of the project outcome etc. The details of the project are being finalised by the UGC.
- (e) The Matching Grant Scheme (the Scheme) provides institutions with additional resources to offer quality higher education. It is noteworthy that the sixth round of the Scheme had further extended to cover all statutory post-secondary institutions and approved post-secondary colleges for the benefit of students of both publicly-funded and self-financing, locally-accredited programmes at sub-degree level or above in these institutions. According to the annual returns provided by participating institutions, the matched grants and donations were used in the enhancement of teaching and learning; organisation of student-oriented activities including exchange programmes; scholarships, support to capital works projects; etc. The total amount of donations raised and reported by individual institutions, and the matching grants allocated, for the six rounds of the Scheme are tabulated below –

Institutions	Donations raised (\$ million)	Matching grants (\$ million)	Total (\$ million)
City University of Hong Kong	649	380	1,029
Hong Kong Baptist University	977	564	1,541

CONTROLLING OFFICER'S REPLY

EDB661

(Question Serial No. 5001)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the self-financing programmes offered by various funded institutions, will the Controlling Officer please advise on:

- (a) the respective numbers of various types of self-financing programmes (i.e. sub-degree, degree, taught postgraduate and research postgraduate programmes) offered by the departments of each funded institution in each of the past 5 academic years, as well as (i) the student intakes, (ii) the tuition fee income, (iii) the number of full-time and part-time teaching and non-teaching staff members employed, and (iv) payroll expenses for such staff members, of such programmes respectively; and
- (b) the amounts of surpluses/deficits as a result of offering self-financing programmes by the departments of each funded institution in each of the past 5 academic years.

Asked by: Hon IP Kin-yuen (Member Question No. 120)

Reply:

- (a) The number of full-time locally-accredited self-financing sub-degree and undergraduate degree programmes (including top-up degree programmes) offered by University Grants Committee (UGC)-funded institutions and their actual intakes for the 2011/12 to 2015/16 academic years are set out at Annexes A and B. The number of locally-accredited self-financing taught postgraduate and research postgraduate programmes and their actual intakes by UGC-funded institutions for the 2011/12 to 2015/16 academic years are set out at Annexes C and D.

According to the information provided by UGC-funded institutions, the tuition fee income, and information on the number of full-time and part-time teaching and non-teaching staff members employed, and payroll expenses for such staff members of self-financing programmes for the 2011/12 to 2014/15 academic years are set out at Annexes E and F. Information for the 2015/16 academic year is not available.

- (b) According to the information provided by UGC-funded institutions, the surplus / deficit from self-financing programmes for the 2011/12 to 2014/15 academic years is at Annex G. Information for the 2015/16 academic year is not available.

CONTROLLING OFFICER'S REPLY

EDB662

(Question Serial No. 6618)

Head: (160) Radio Television Hong Kong
Subhead (No. & title): (-) Not Specified
Programme: (3) School Education Television Programme
Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)
Director of Bureau: Secretary for Education

Question:

Has Radio Television Hong Kong compiled statistics on the number of lessons used in primary and secondary schools for watching educational television (ETV) programmes over the past 5 years? If not, what are the reasons?

Asked by: Dr Hon KWOK Ka-ki (Member Question No. 299)

Reply:

Neither RTHK nor EDB collects data to compile statistics on the number of lessons used in primary and secondary schools for watching educational television (ETV) programmes as schools can now make use of ETV programmes to support learning and teaching anywhere and anytime rather than in specific lessons. Since 2006, schools can download ETV programmes from the Internet for use by teachers and students. In addition, a mobile application on ETV programmes was introduced in 2014. As such, the viewing of ETV programmes is not restricted to designated ETV lessons.
