Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

4. '-' denotes 'nil'.
5. The zero figure quoted in the table represents magnitude of less than 0.5.
6. '\*' denotes less than 0.05%.

Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Sciences and Technology	HKU	The University of Hong Kong

**Number of Local Students and Non-local Students of UGC-funded Taught Postgraduate Programmes by University, Mode of Study  
Broad Academic Programme Category and Place of Origin, 2012/13 to 2016/17 Academic Years**

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. '-' denotes 'nil'.
4. The zero figure quoted in the table represents magnitude of less than 0.5.
5. '\*' denotes less than 0.05%.

Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Sciences and Technology	HKU	The University of Hong Kong

**Number of Local Students and Non-local Students of UGC-funded Research Postgraduate Programmes by University, Mode of Study  
Broad Academic Programme Category and Place of Origin, 2012/13 to 2016/17 Academic Years**

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within their normal study periods..
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. Also, if RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students. As such, figures may not add up to the corresponding totals.
4. '-' denotes 'nil'.
5. The zero figure quoted in the table represents magnitude of less than 0.5.
6. '\*' denotes less than 0.05%.

**CONTROLLING OFFICER'S REPLY**

**EDB264**

**(Question Serial No. 2292)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the number of non-local students, please set out in table form:

- (1) the number of non-local students pursuing sub-degree programmes funded by the University Grants Committee (UGC) in the past 5 academic years by year, institution, place of origin, mode of study and programme;
- (2) the number of non-local students pursuing UGC-funded undergraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme;
- (3) the number of non-local students pursuing UGC-funded taught postgraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme;
- (4) the number of non-local students pursuing UGC-funded research postgraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme.

Asked by: Hon CHU Hoi-dick (Member Question No. 33)

Reply:

- (1) The number of non-local students of University Grants Committee (UGC)-funded sub-degree programmes by university, mode of study, broad academic programme category and place of origin for the 2012/13 to 2016/17 academic years is given at **Annex A**.
- (2) The number of non-local students of UGC-funded undergraduate programmes by university, mode of study, broad academic programme category and place of origin for the 2012/13 to 2016/17 academic years is given at **Annex B**.
- (3) The number of non-local students of UGC-funded taught postgraduate programmes by university, mode of study, broad academic programme category and place of origin for the 2012/13 to 2016/17 academic years is given at **Annex C**.
- (4) The number of non-local students of UGC-funded research postgraduate programmes by university, mode of study, broad academic programme category and place of origin for ther 2012/13 to 2016/17 academic years is given at **Annex D**.

**Number of Non-local Students of UGC-funded Sub-degree Programmes by University,  
Mode of Study Broad Academic Programme Category and Place of Origin,  
2012/13 to 2016/17 Academic Years**

(Headcount)

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
4. '-' denotes 'nil'.
5. The zero figure quoted in the table represents magnitude of less than 0.5.

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within their normal study periods.
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. Also, if RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students. As such, figures may not add up to the corresponding totals.
4. '-' denotes 'nil'.
5. The zero figure quoted in the table represents magnitude of less than 0.5.

**CONTROLLING OFFICER'S REPLY**

**EDB265**

**(Question Serial No. 2340)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the provision of student hostel places of the universities funded by the University Grants Committee (UGC), please set out in table form:

- (1) the number of local applicants for hostel places and their success rates in the past 5 academic years by year and institution;
- (2) the respective numbers and percentages of hostel places for local students and non-local students in the past 5 academic years by year and institution;
- (3) the number of non-local applicants for hostel places and their successful rates in the past 5 academic years by year, institution and place of origin.

Asked by: Hon CHU Hoi-dick (Member Question No. 41)

Reply:

- (1) The number of applications received from local students and their success rates in the past five academic years as advised by the University Grants Committee (UGC)-funded universities are at **Annex A**.
- (2) The number and percentage of hostel places allocated to local and non-local students in the past five academic years as advised by the UGC-funded universities are at **Annex B**.
- (3) The number of applications received from non-local students and their success rates broken down by place of origin in the past five academic years as advised by the UGC-funded universities are at **Annex C**.

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

The Quality Assurance Council (QAC) is tasked to assist the University Grants Committee (UGC) in discharging its role in quality-related matters in respect of programmes offered at the UGC-funded universities. In this connection, please advise this Committee of:

1. the estimated provision for the QAC in 2017-18;
2. the manpower arrangement in 2017-18; and the adequacy of the present manpower level for undertaking quality audits in ensuring the teaching quality of the UGC-funded universities;
3. the specific work, with examples, of QAC in promoting quality assurance and enhancement in the past 3 years.

Asked by: Hon HO Kai-ming (Member Question No. 49)

Reply:

1, 2 and 3:

The Quality Assurance Council (QAC), established under the aegis of the University Grants Committee (UGC), aims to assure that the quality of the educational experience in all programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

QAC conducted its first round of quality audits on the eight UGC-funded institutions from 2008 to 2011. All the audit reports and progress reports have been published on the QAC website. The second audit cycle was conducted in 2015 and 2016. As at end February 2017, seven audit reports in the second audit cycle (i.e. The Hong Kong University of Science and Technology, The Chinese University of Hong Kong, Hong Kong Baptist University, The University of Hong Kong, Lingnan University, City University of Hong Kong and The Hong Kong Polytechnic University) have been published.

In 2016, UGC has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities, with the involvement of QAC as the audit operator. The sub-degree audit cycle has commenced in end 2016 with the promulgation of the Audit Manual. The first audit visit is planned to be conducted in end 2017.

The quality audits are conducted by independent Audit Panels appointed by QAC, which consist of local and non-local academics as well as lay auditors (where appropriate). The QAC Register of Auditors comprises local and non-local auditors who are suitable and willing to serve on QAC's audit panels. As at end

February 2017, the QAC Register of Auditors comprises 67 auditors.

QAC is supported by a secretariat with manpower provided from within the UGC Secretariat. The estimated expenditure of audit activities in the 2017-18 financial year is around \$2.51 million. The expenditures cover mainly (i) fee for consultancy services to assist in conducting the audits; (ii) expenses for the audit meetings; and (iii) honoraria for auditors.

Director of Bureau: Secretary for Education

Question:

Regarding paragraph 5, please set out in table form all the research projects, including their primary areas of research (such as social science, laws, engineering, medical science and arts), amounts of funding approved and funding periods, under the Research Grants Council (RGC) in the 2016-17 financial year, and the measures taken to safeguard against misuse of research funding.

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 13)

Reply:

There were 1 277\* approved research projects under various funding schemes administered by the Research Grants Council (RGC) in the 2016/17 academic year. Details of these projects including the titles, participating institutions, subject discipline and amount awarded are available at the University Grants Committee's (UGC's) website (<http://www.ugc.edu.hk/eng/rgc/result/result.htm>). In view of the large number of projects involved, members are invited to visit the website for the details of the projects.

All the research projects funded by the RGC are monitored to ensure that the projects are proceeding on schedule and that any problems identified are followed up by the Principal Investigator/Project Coordinator (PI/PC). According to the Disbursement, Accounting and Monitoring Arrangements which are also available at the UGC's website (<http://www.ugc.edu.hk/eng/rgc/dama/dama.htm>), the PI/PC of an approved project is required to submit progress reports and a completion report on the project for monitoring and scrutiny by RGC Committee/Subject Panel members. The sponsoring institution is required to manage the projects and expenditures, oversee the procurement of equipment and devices approved under the projects and to put in place a due internal monitoring system. From 2015/16 onwards, project funds of 97% of RGC's research projects are disbursed by instalments. The rest are short-term research projects that last for 12 months or less. The PI/PC concerned should demonstrate satisfactory progress before obtaining further instalments from the RGC. They may also be required to present the progress and achievements at a public symposium or during on-site visits.

\* Position up to 28 February 2017.

Question:

Would the Government please advise on:

the numbers of local and non-local students of the following full-time programmes funded by the University Grants Committee (UGC) in the past 3 years:

- 1) undergraduate programmes
- 2) taught postgraduate programmes
- 3) research postgraduate programmes
- 4) sub-degree programmes

Asked by: Hon LAM Kin-fung, Jeffrey (Member Question No. 40)

Reply:

The number of local students and non-local students of full-time UGC-funded programmes by level of study for the 2014/15 to 2016/17 academic years are in the Annex.

**Number of Local Students and Non-local Students of Full-time UGC-funded Programmes  
by Level of Study, 2014/15 to 2016/17 Academic Years**

(Headcount)				
Academic Year	Level of Study	Local Students	Non-local Students	Total
2014/15	Sub-degree	3 993	2	3 995
	Undergraduate	69 995	9 374	79 369
	Taught Postgraduate	1 029	95	1 124
	Research Postgraduate	1 417	5 679	7 097
<b>Total</b>		<b>76 434</b>	<b>15 150</b>	<b>91 585</b>
2015/16	Sub-degree	3 727	1	3 728
	Undergraduate	71 405	9 723	81 128
	Taught Postgraduate	1 048	74	1 122
	Research Postgraduate	1 438	5 928	7 366
<b>Total</b>		<b>77 618</b>	<b>15 726</b>	<b>93 344</b>
2016/17 (provisional)	Sub-degree	3 688	1	3 689
	Undergraduate	72 020	10 361	82 381
	Taught Postgraduate	1 122	61	1 183
	Research Postgraduate	1 519	6 049	7 567
<b>Total</b>		<b>78 349</b>	<b>16 472</b>	<b>94 820</b>

## Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within their normal study periods.
3. Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.

Director of Bureau: Secretary for Education

Question:

Regarding the time-limited funding of \$140 million earmarked by the University Grants Committee (“UGC”), will the Government advise this Committee of the following:

1. The details and assessment criteria of the competitive allocation mechanism; and how does the UGC ensure that the evaluation will be carried out in a fair and just manner;
2. What is the estimated number of staff involved in handling the funding, and what are their respective ranks and salaries?

Asked by: Hon LAM Kin-fung, Jeffrey (Member Question No. 39)

Reply:

In the 2016-19 triennium, the University Grants Committee (UGC) has earmarked a time-limited funding of \$140 million for competitive allocation in teaching and learning projects to incentivise universities in exploring and developing further in the sector-wide strategic areas of teaching and learning, language enhancement and internationalisation under the Funding Scheme for Teaching and Learning Related Proposals in the 2016-19 Triennium (the Funding Scheme). By the deadline of 30 December 2016, we have received a total of 89 proposals. Assessment of the proposals is underway.

1. Under the Funding Scheme, assessment of proposals is conducted by an Assessment Panel. The composition of the Assessment Panel is as follows –
  - (a) A Chairperson (a member of UGC);
  - (b) Two Members of UGC/Quality Assurance Council (QAC); and
  - (c) Two External Reviewers drawn from a pool of six to ten.

Each proposal is assessed by two External Reviewers who are scholars with rich experience in teaching and learning, internationalisation or language enhancement in other jurisdictions. The engagement of External Reviewers can expand the expertise of the Assessment Panel and enhance the credibility of the assessment exercise. As at end February 2017, we have engaged a total of 8 External Reviewers. The External Reviewers are closely involved in the selection process by preparing an analysis of the proposals received, ranking the proposals, and sharing with the Assessment Panel their experience in the promotion of teaching and learning, internationalisation and language enhancement in the higher education sector. UGC/QAC Members of the Assessment Panel would, on the basis of the analysis and recommendations of the External Reviewers, put up a recommendation for each proposal on

whether funding support is to be provided for QAC's consideration. All Members of the Assessment Panel and the External Reviewers are requested to declare any conflict of interest.

The following selection criteria are applied in considering the proposals under the Funding Scheme –

- (a) **Relevance:** to what extent the proposed project encourages the adoption of necessary pedagogical changes and innovations, enhances student learning experience, enhances internationalisation and/or engagement with Mainland China or enhances students' language abilities;
  - (b) **Design:** to what extent the project is designed with clear project objectives, specific activities and intended learning outcomes, and includes feasible budgets and timelines;
  - (c) **Collaboration:** whether the proposed project in itself involves inter-institutional collaboration and/or to what extent it contributes to more effective inter-institutional collaboration in terms of its impact;
  - (d) **Influence:** whether there is an outreach strategy to share outcomes of the proposed project in UGC/higher education sector, and how well the strategy is formulated;
  - (e) **Sustainability and capacity building:** whether there is any plan to sustain and scale up the initiative in the future and how well the proposed plan is formulated; and
  - (f) **Monitoring and evaluation:** whether a suitable mechanism has been put in place and how well it operates to monitor and evaluate the effectiveness and outcome of the proposed project.
2. QAC is supported by the QAC Secretariat. As at end February 2017, the Secretariat was headed by a Deputy Secretary-General, UGC, who was assisted by six non-directorate staff of the UGC Secretariat. The combined Notional Annual Mid-point Salary (NAMS) value of the seven posts was \$6,344,160.

Director of Bureau: Secretary for Education  
Question:

Please give a breakdown of the estimate for the number of officers, annual pay, housing allowances, expenses for duty visits and entertainment expenses for the following posts of the University Grants Committee in 2017-18:

- Secretary-General
- Deputy Secretary-General
- Assistant Secretary-General
- Executive Officer
- Statistician
- Research Manager
- Statistical Officer I
- Senior Executive Officer
- Senior Research Administrator
- Research Administrator
- Senior Project Officer
- Treasury Accountant
- Accountant
- Accounting Officer
- Senior Clerical Officer
- Clerical Officer
- Departmental Secretary
- Executive Co-ordinator
- Information Technology Officer

Asked by: Hon LEUNG Kwok-hung (Member Question No. 43)

Reply:

The estimated number of permanent posts mentioned in the question and the annual salaries in the University Grants Committee (UGC) Secretariat in 2017-18 are tabulated below–

<b>Post/Rank</b>	<b>Number</b>	<b>Total Annual Salary<sup>Note</sup></b>
(a) Secretary-General	1	2,634,000
(b) Deputy Secretary-General	2	4,112,400
(c) Assistant Secretary-General	8	10,911,360
(d) Senior Executive Officer, Executive Officer I and Executive Officer II	18	13,435,620
(e) Statistician, Statistical Officer I and Statistical Officer II	5	3,193,680
(f) Treasury Accountant and Accounting Officer I	4	3,281,880
(g) Senior Clerical Officer and Clerical Officer	4	1,768,500

Note: Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries.

Apart from the above permanent posts, the UGC Secretariat may also engage non-civil service contract (NCSC) staff in a year to meet changing operational and service needs, e.g. Research Manager, Senior Research Administrator, Research Administrator, Senior Project Officer, Accountant, Information Technology Officer, etc. We are unable to project the number of NCSC staff in the 2017-18 financial year before it begins.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 general expenses of the civil service and there is no provision for individual officers under Head 190. There is no provision for housing allowances for the NCSC staff.

In 2017-18, officials of the UGC Secretariat will conduct duty visits and consume official meals based on operational needs and will ensure that the expenditures are fully justified and appropriate for the official purpose in question. There is no dedicated provision for expenses for duty visits and entertainment for individual officers.

**CONTROLLING OFFICER'S REPLY****EDB272****(Question Serial No. 1830)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The number of non-local students pursuing publicly-funded programmes in the 2015/16 academic year was 9 799, representing about 11% of the total student enrolment. Please advise this Committee of the following:

- (a) The number of non-local students from the following countries/regions pursuing publicly-funded programmes between 2012 and 2016:

Region/year				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				

- (b) Of the figures set out in the above table, the number of non-local students from the following countries/regions pursuing publicly-funded undergraduate programmes:

Region/year				
Mainland China				
Taiwan				
Japan and Korea				
Russia				
Middle East				
Eastern Europe				
Western Europe				

Region/year				
Africa				
Oceania				
Southeast Asia				
South America				
North America				
Others				

- (c) What were the expenses incurred for supporting non-local students from Mainland China to pursue publicly-funded programmes between 2012 and 2016? What is the estimated expenditure for 2017-18?
- (d) In its Report No. 67, the Public Accounts Committee (PAC) of the Legislative Council criticised the University Grants Committee (UGC) for failing to admit more local students with its resources, and questioned whether internationalisation could be achieved through the admission of an excessive number of Mainland students. The PAC found the situation unacceptable. In this connection, what improvement measures will be taken to admit more local students?
- (e) The Government has earmarked \$17.5 million for 2016 to 2018 for competitive allocation under the new consolidated funding scheme of teaching and learning for universities to enhance their efforts in internationalisation and engagement with the Mainland. In this connection, how will the UGC review its mechanism to improve the mix of non-local students and increase the number of non-local students other than Mainland students in response to PAC's recommendations of further internationalisation?

Asked by: Hon MO Claudia (Member Question No. 8)

Reply:

- (a) The numbers of non-local students of UGC-funded programmes by place of origin from the 2012/13 to 2016/17 academic years are set out at **Annex A**.
- (b) The numbers of non-local students of UGC-funded undergraduate programmes by place of origin from the 2012/13 to 2016/17 academic years are set out at **Annex B**.
- (c) Funding provided by the UGC to universities is made in the form of a block grant on the basis of approved student places allocated to the universities. It is not possible to attribute specific amount of funding to non-local students.

It is noteworthy that starting from the 2016/17 academic year, all new non-local students in sub-degree (SD), undergraduate (Ug) and taught postgraduate (TPg) programmes should be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to the 20% of the approved UGC-funded student number targets for these programmes, by study level. Over-enrolment is allowed on the condition that no extra resources will be provided by the UGC. All non-local students of SD, Ug and TPg programmes are required to pay tuition fee at a level that is at least sufficient to recover all additional direct costs. In other words, no additional resources are involved in over-enrollment of non-local students.

- (d) Student admission is within the autonomy of the UGC-funded universities. In other words, the UGC does not intervene in student admission which is a matter of institutional autonomy.

As mentioned above, starting from 2016/17 academic year, all new non-local students in sub-degree, undergraduate and taught postgraduate programmes should be admitted through over-enrolment outside the approved UGC-funded student number targets, capped at a level equivalent to the 20% of the approved UGC-funded student number targets for these programmes, by study level. Since non-local students are admitted by over-enrolment on top of the approved student number, they will not compete directly with local students. This is to ensure that all precious publicly-funded places, including the 15 000 first-year-first-degree places, are used for admission of local students only.

No additional resources are involved in over-enrolment of non-local students. As such, there will be no unspent resources to admit more local students if the 20% enrolment quota for non-local students admitting into publicly-funded taught programmes had not been used up.

- (e) On internationalisation of UGC-funded universities, the Audit Commission and Public Accounts Committee have recommended further encouraging the universities to continue their efforts to attract more non-local students, in particular those other than Mainland students. The UGC recognises that internationalisation may come in many forms, including international strategies, curriculum development, international networks, non-local student recruitment and integration, and international faculty, etc. Therefore the UGC has all along been encouraging, and will continue to encourage, universities to internationalise in ways that fit their own institutional context. Funding would continue to be provided to universities in the 2016-19 triennium to continue their efforts to attract more diversified sources of non-local students, including setting up of the Hong Kong Pavilion in international education conferences to enable the universities to explore new markets and attract more non-local students from different regions as well as to promote the UGC sector as a united front.

**Number of Non-local Students of UGC-funded Programmes by Place of Origin,  
2012/13 to 2016/17 Academic Years**

(headcount)

Place of Origin	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17 <sup>#</sup>

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Last year, around 7 000 students met minimum requirements for university admission, but had not been admitted to undergraduate programmes funded by University Grants Committee. Actually, the number of places for publicly-funded first-year first-degree (FYFD) programmes has been maintained for many years. In this regard, will the Administration inform this Committee :

- (a) whether it will conduct review over the number of places for publicly-funded FYFD programmes; if it will, what factors will be taken into account for consideration; if it will not, of that reasons; and
- (b) given the Administration reiterated that the expected continuing decline in the number of secondary school leavers over the coming decade, whether the said situation will drive the Administration to reduce the number of FYFD places; if yes, the reasons for that?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 57)

Reply:

(a) & (b)

All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing first-year-first-degree (FYFD) places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of University Grants Committee (UGC)-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. In light of the above, the Government does not see a genuine need to change the number of UGC-funded FYFD places to be offered in the coming years and have maintained it at 15 000 per annum during the 2016/17 to 2018/19 triennium.

Planning for the 2019/20 to 2021/22 triennium will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded FYFD places to be offered in the next triennium.

Question:

It is noted that the 20% of enrolment quota for non-local students admitting into publicly-funded programmes had not been used up, whether it will consider deploying the unspent resources to admit more local students who met minimum requirements for university admission; if yes, of the details; if no, of that reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 58)

Reply:

In accordance with the University Grants Committee (UGC)'s Notes on Procedures, over-enrollment of local students not exceeding 4% across the whole university is permitted. Over-enrollment is allowed on the condition that no extra resources will be provided by the UGC. Starting from 2016/17 academic year, all new non-local students in sub-degree, undergraduate and taught postgraduate programmes should be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to the 20% of the approved UGC-funded student number targets for these programmes, by study level. All non-local students of these programmes are required to pay tuition fee at a level that is at least sufficient to recover all additional direct costs.

In other words, no additional resources are involved in over-enrollment of both local and non-local students. There will be no unspent resources to admit more local students if the 20% enrolment quota for non-local students admitting into publicly-funded taught programmes had not been used up.

Question:

Regarding the educational support for non-Chinese speaking students to be admitted in post-secondary programmes, please provide:

- (a) the number of ethnic minority local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2016;
- (b) the number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2016;
- (c) the number of local students admitted to UGC-funded post-secondary programmes using the DSE (Chinese) qualification through JUPAS in 2016;
- (d) the number of ethnic minority local students sitting for DSE (Chinese), Applied Learning (Chinese), GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in 2016;
- (e) the number of non-Chinese speaking local students sitting for DSE (Chinese), Applied Learning (Chinese), GCE (A-Level), GCE (AS Level), GCSE and IGCSE for the first time in 2016;
- (f) the number of local students sitting for DSE (Chinese) for the first time in 2016;
- (g) the respective number of ethnic minority local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE in 2017;
- (h) the respective number of non-Chinese speaking local students admitted to UGC-funded post-secondary programmes through JUPAS using each of the alternative Chinese qualifications, namely GCE (A-Level), GCE (AS Level), GCSE and IGCSE in 2017;

<b>(For (a), (b), (c) and (d)) Highest Chinese qualification used for JUPAS</b>	<b>Number of NCS students in UGC-funded programmes in 2016</b>	<b>Number of ethnic minority students in UGC-funded programmes in 2016</b>
HKDSE (Chinese)		
GCE (A-Level)		
GCE (AS Level)		
GCSE		
IGCSE		

- (i) if the data in (a) to (d) is not available, how the government monitors the effect of multiple exits in Chinese language qualification on ethnic minority students' post-secondary education opportunities;
- (j) the total number of students admitted to UGC-funded post-secondary programmes through JUPAS in 2016;
- (k) the total number of students admitted to full-time locally-accredited self-financing post-secondary programmes in 2016; and
- (l) the number of ethnic minority students and non-Chinese speaking students, respectively, admitted to full-time locally-accredited self-financing post-secondary programmes in 2016.

Asked by: Hon TO Kun-sun, James (Member Question No. 59)

Reply:

- (a), (b), (c), (g), (h), (i) and (j)

In the 2016/17 academic year, 150 local students whose ethnicity and / or spoken language at home is not Chinese (collectively referred to as non-Chinese speaking (NCS) students) were admitted to University Grants Committee (UGC)-funded full-time post-secondary programmes through the Joint University Programmes Admissions System (JUPAS).

In the 2016/17 academic year, 14 309 local students were admitted to UGC-funded full-time post-secondary programmes through JUPAS.

It is noteworthy that student admission is a matter of institutional autonomy and the Government does not monitor universities in terms of the qualifications of their intakes. Hence, information about the Chinese Language qualifications of these students is not available.

- (d) to (f) In 2016, 54 882 school candidates and 552 private candidates took Chinese Language in the Hong Kong Diploma of Secondary Education (HKDSE) Examination for the first time. Information about the number of NCS students taking Chinese Language in the HKDSE Examination for the first time in 2016 is not available.

As regards Applied Learning Chinese (ApL C), it is designed for NCS students as an alternative qualification in Chinese Language for the admission of NCS students and only NCS students can take ApL C. ApL C will be offered in the HKDSE Examination starting from 2017 and 153 NCS students are expected to take ApL C in 2017. The subject was not available in 2016.

Information about the number of NCS students taking Chinese Language in the General Certificate of Education Examination, General Certificate of Secondary Education Examination (GCSE) or International GCSE in 2016 is not available.

- (k) and (l) In the 2016/17 academic year, 36 575 students (provisional figure as of October 2016), including 597 NCS students, were admitted to full-time locally accredited non-UGC-funded post-secondary programmes.

Received JUPAS offer using DSE Chinese Language results					

Asked by: Hon TO Kun-sun, James (Member Question No. 60)

Reply:

- (a) In 2016, 66 874 candidates sat for the Hong Kong Diploma of Secondary Education (HKDSE) Examination. Among them, 24 557 (36.7%) met the general entrance requirements of University Grants Committee (UGC)-funded undergraduate programmes, and 23 318 (34.9%) received admission offers to post-secondary programmes through the Joint University Programmes Admissions System (JUPAS).

In 2016, 47 935 JUPAS applicants took the HKDSE Examination for the first time in 2016 and 21 467 (44.8%) of them received a JUPAS offer. The number among them who met the general entrance requirements of UGC-funded undergraduate programmes is not available.

- (b) 47 335 JUPAS applicants took Chinese Language in the HKDSE Examination for the first time in 2016 and 21 263 (44.9%) of them received a JUPAS offer. The number among them who met the general entrance requirements of UGC-funded undergraduate programmes is not available.

- (c) and (d)

In 2016, out of 1 150 Secondary 6 non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) attending public sector and Direct Subsidy Scheme schools offering the local curriculum, 1 046 took the HKDSE Examination (including 1 041 taking the HKDSE Examination for the first time). Among these 1 046 NCS students, 116 took Chinese Language in the HKDSE Examination (including 115 sitting for the first time). Out of the 1 046 NCS students taking the HKDSE Examination, 320 (30.6%) met the general entrance requirements of UGC-funded undergraduate programmes and 224 (21.4%) received admission offers to post-secondary programmes through JUPAS.

No separate breakdown statistics in respect of “ethnic minority students” are available.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the non-local students studying in Hong Kong with funding support from the Government, please advise this Committee of the following:

1. the number of non-local students studying in Hong Kong in the past 3 years by nationality;
2. the number of non-local students taking up employment in Hong Kong after completion of studies in the past 3 years.

Asked by: Hon WONG Kwok-kin (Member Question No. 15)

Reply:

1. The number of non-local students of University Grants Committee (UGC)-funded programmes by place of origin from the 2014/15 to 2016/17 academic years are set out in the **Annex**.
2. The Immigration Department (ImmD) administers the "Immigration Arrangements for Non-local Graduates (IANG)", which allows non-local students who have obtained an undergraduate or higher qualification in a full-time and locally-accredited local programme in Hong Kong to apply to stay/return and work in Hong Kong. Both non-local fresh graduates (i.e. non-local graduates who submit applications to the ImmD within six months after graduation) and returning non-local graduates (i.e. non-local graduates who submit applications to the ImmD beyond six months after graduation) are eligible under the scheme.

The number of applications approved by the ImmD under the IANG in the past 3 years is as follow:

Number of applications approved		
2014-15	2015-16	2016-17 (as at February 2017)
10 381	10 324	9 126

**Number of Non-local Students of UGC-funded Programmes by Place of Origin,  
2014/15 to 2016/17 Academic Years**

(headcount)

Place of Origin	Academic Year		
	2014/15	2015/16	2016/17 <sup>#</sup>
The Mainland of China	11 610	11 891	12 036
Taiwan	470	548	602
Japan and Korea	841	960	1 149
Other parts of Asia	1 520	1 622	1 954
Russia	32	38	44
European Union	325	311	283
Other European countries	49	46	49
Africa	86	104	139
Oceania	23	29	27
Central and South America	35	27	31
North America	160	151	159
<b>Total</b>	<b>15 151</b>	<b>15 727</b>	<b>16 474</b>

## Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. <sup>#</sup> Provisional figures.
3. Figures may not add up to the corresponding totals owing to rounding. If research postgraduate students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students.

Head: (160) Radio Television Hong Kong  
Subhead (No. & title): (-) Not Specified  
Programme: (3) School Education Television Programme  
Controlling Officer: Director of Broadcasting (LEUNG Ka Wing)  
Director of Bureau: Secretary for Education

Question:

Since the launch of Education Television (ETV) in 1971, it has been employed as a project for facilitating teaching in primary and secondary classes for years. However, the latest estimated financial provision in 2017-18 for school ETV is found to be reduced by almost 14.7%. Why does the Government plan to gradually reduce the hours of output of school ETV programmes? Is / Are there plan(s) in employing other multimedia project(s) for facilitating teaching to replace the role of ETV?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 38)

Reply:

The decrease in the number of output hours for school ETV programmes in 2017-18 is due to the redeployment of resources in the Education Bureau (EDB) for developing multimedia learning and teaching resources in accordance with the direction of curriculum development. In the years ahead, there will be a gradual shift from the sole production of ETV programmes to secondary production of related multimedia resources by EDB to support e-learning and self-directed learning among students.

- (b) The number of applications and approval granted to NPM KGs for rent reimbursement and their respective percentage share among local KGs and KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2012/13 to 2016/17 school years are tabulated below:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17*
No. of local KGs	861	869	874	872	876
No. of KGs joining PEVS	735	724	724	732	745
No. of applications	7	8	7	5	1#
Percentage share among local KGs	0.8%	0.9%	0.8%	0.6%	0.1%
Percentage share among KGs joining PEVS	1.0%	1.1%	1.0%	0.7%	0.1%
No. of approval granted	0	2	3	3	0
Percentage share among local KGs	Not applicable	0.2%	0.3%	0.3%	Not applicable
Percentage share among KGs joining PEVS	Not applicable	0.3%	0.4%	0.4%	Not applicable

\* Position as of February 2017.

# The application is still under processing.

- (c) The estimated expenditure on rental subsidy for NPM KGs in 2017-18 is \$314 million.

- (d) With the implementation of the Free Quality Kindergarten Education Scheme (“Scheme”) from the 2017/18 school year, rental subsidy will be provided for KGs approved to join the Scheme in order to lessen KGs’ rental-related financial burden. Details are as follows:
- (i) For KGs in housing estates operated in premises allocated under the school allocation or nomination mechanisms administered by the Education Bureau which are paying rental at concessionary rate as assessed by the Hong Kong Housing Authority (around 50% of market rent) and stipulated in the tenancy agreements, they will continue to be eligible for full rental subsidy subject to the fill-up rate as in the long-standing arrangements under the existing Rent Reimbursement Scheme (RRS). While there are only two tiers of fill-up rate under the existing RRS (i.e. KGs with fill-up rate of 50% or above will be provided with full rental subsidy while KGs with fill-up rate of below 50% will be provided with 50% of rental subsidy), more tiers of fill-up rate (i.e. KGs with fill-up rate of 50% or above will be provided with full rental subsidy, KGs with fill-up rate between 25% and below 50% will be provided with 50% of the rental subsidy, and KGs with fill-up rate below 25% will be provided with 25% of the rental subsidy) will be introduced to guard against using public funds to subsidise over-provision of KG places.
  - (ii) For former aided child care centres (FACs) (Note) currently in receipt of rental reimbursement and mainly situated in premises of public housing estates paying less than 50% of market rent, they will continue to be eligible for full rental subsidy.
  - (iii) For other eligible KGs, the rental subsidy will be subject to a ceiling and the student enrolment to ensure proper use of public funds. To avoid circumstances where the rental component would become disproportionate to the subsidy package per KG under the Scheme, the rental subsidy for these KGs will be subject to “dual” caps at 50% of open market rental, or 15% of the “basic half-day unit subsidy”, whichever is lower.
  - (iv) For individual KGs which are currently paying market rent and receiving rental subsidy under RRS but will be entitled to less subsidy under the new rental subsidy scheme, their current rented premises under RRS will continue to receive the current subsidy for a grace period of four years from the 2017/18 to 2020/21 school years. During the grace period, these KGs will be provided with full rental subsidy subject to the same set of fill-up rates for the group of KGs as set out at (i) above. Starting from the 2021/22 school year, these KGs will be under the “dual” caps as other KGs as set out at (iii) above.
  - (v) For KGs currently receiving rent reimbursement (except FACs (Note)) but will not join the Scheme in the 2017/18 school year, they will continue to receive the rent reimbursement as at present until they cease to operate the KGs in their current rented premises. This is only a transitional arrangement for these KGs. No new application for such rent reimbursement will be entertained with effect from the 2017/18 school year.

Note: FACs were operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational Expenses  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

What are the number of admission applications received, the number of students admitted, the amount of application fee collected from each student, and the total amount of application fee collected by kindergartens in various districts of the territory in the past 3 school years? Please provide a breakdown by 18 districts.

Asked by: Hon CHAN Tanya (Member Question No. 71)

Reply:

According to regulation 61(1) of the Education Regulations (Cap. 279A), schools must first obtain the written approval of the Permanent Secretary for Education before collecting any fees, including entrance examination fee (commonly known as application fee). To streamline schools' administrative procedures, the Education Bureau (EDB) has set a ceiling for application fee of kindergartens (KGs) and given blanket approval for KGs to collect application fee within the approved ceiling, with the actual level determined by individual KGs having regard to their own circumstances. KGs that wish to collect application fee exceeding the approved ceiling are required to seek prior approval from EDB. As student admission is a school-based matter, KGs are not required to provide EDB with information on the number of admission applications received, the total amount of application fee collected and number of students admitted each year. In view of the above, EDB is unable to provide the required information. Notwithstanding this, the enrolment (in particular in Nursery classes) may partly reflect the situation. According to the information collected through the annual Student Enrolment Survey, the number of KG students by level in the past three school years (2014/15, 2015/16 and 2016/17) by district is tabulated at Appendix.

**Number of Students in Kindergartens by District and by Grade Level from the 2014/15 to 2016/17 School Years**

Question:

- a) As the chancellor of the 8 local universities, what duties and powers does the Chief Executive have?
- b) In the past 3 years, did the Chief Executive give his advice to universities on the list of honorary doctorates to be conferred by exercising his powers as the chancellor of the 8 local universities? If yes, which year was that and what were the details?
- c) In the past 3 years, did the Chief Executive give his advice to universities on the appointment of president/vice-chancellor and vice-president/pro-vice-chancellor as well as other academic staff by exercising his powers as the chancellor of the 8 local universities? If yes, which year was that and what were the details?
- d) Will the University Grants Committee earmark resources for conducting a review on the roles, duties and powers of the Chief Executive as university chancellor in 2017-18? If yes, what are the details and estimated expenditures? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 5)

Reply:

According to the respective ordinances governing the eight University Grants Committee (UGC)-funded universities, the Chief Executive is the Chancellor, the purpose of which is to maintain the linkages between the Government and the universities and to demonstrate the Government's support to the higher education sector. Relevant provisions in the ordinances and statutes of the universities specify the powers and duties of the Chancellor in order to meet the needs of the universities. The Chief Executive has the statutory power and responsibility to carry out the duties specified in relevant provisions in the ordinances.

As regards appointment of presidents/vice-chancellors, vice-presidents/pro-vice-chancellors as well as other academic staff, according to the respective ordinances of the UGC-funded universities, the appointment power rests with their respective councils. Neither the CE/Chancellor nor the Government has any role to play in staff appointment matters.

The statutory system of having the CE as the Chancellor of the UGC-funded universities has been operating effectively over the years. Neither the Government nor the UGC has earmarked resources for conducting a review on this system.

Question:

Regarding the implementation of the Territory-wide System Assessment (TSA), please inform this Committee:

- (a) What were the annual expenditure of Primary 3 (P3), Primary 6 (P6) and Secondary 3 (S3) TSA in the past 3 years?
- (b) What are the estimated expenditure of P3, P6 and S3 TSA respectively in 2017-18?
- (c) In 2016-17, the Government invited about 50 schools to participate in P3 TSA. What were the details and expenditure involved?
- (d) In 2017-18, will the Government launch a public consultation on retaining or cancelling the entire TSA? If yes, what are the details and estimated expenditure? If no, why?
- (e) Did the Bureau investigate the condition of test drilling for TSA in primary and secondary schools in the past 3 years? If yes, what were the details and expenditure? If no, why?
- (f) Did the Bureau conduct any survey and collect parents' views on TSA in the past 3 years? If yes, what were the details and expenditure? If no, why?

Asked by: Hon CHAN Tanya (Member Question No. 6)

Reply:

(a) to (d)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concern, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA and related study under the project in the last two contract periods is set out below:

<b>Contract period</b>	<b>Expenditure on TSA and related study under the project (\$ million)</b>	<b>Average expenditure per year (\$ million)</b>
2011-2014	220	55
2015-2018	290	73

The expenditure on Primary 3, Primary 6 and Secondary 3 TSA under the 2011 to 2014 contract is \$76 million, \$68 million and \$76 million respectively; which under the 2015 to 2018 contract is \$96 million, \$92 million and \$102 million respectively.

2016 Tryout Study

In line with the Committee's recommendations, the 2016 Tryout Study covers four major initiatives as below:

- (i) Improving assessment papers and question design;
- (ii) Enhancing school reports;
- (iii) Strengthening professional support measures; and
- (iv) Including a questionnaire survey on students' learning attitude and motivation.

The above basket of initiatives is intended to eliminate the incentives for over-drilling induced by TSA; provide targeted measures to enhance the overall effectiveness of the cycle of Learning-Teaching-Assessment as an integral part to benefit students; and enhance communication and deepen mutual trust between schools and parents.

56 primary schools from different districts, types of schools (government, subsidised, Direct Subsidy Scheme and private schools) and school sizes (about 10% of the total number of primary schools in the territory) participated in the 2016 Tryout Study.

2017 Research Study

The Research Study in 2017, based on the positive feedback and experience collected from the 2016 Tryout Study, extends the above-mentioned four new initiatives for enhancement under the 2016 Tryout Study to all primary schools in the territory. It is a research study to allow more schools to participate and understand the new initiatives, and to collect more comprehensive feedback and richer information on the new initiatives to further review related arrangements with a view to continuing to enhance learning and teaching, and to benefit students.

The expenditure of the above initiatives was subsumed under the overall expenditure of the EDB.

(e)

The Committee has been concerned about the situation of over-drilling. Various measures under the 2016 Tryout Study were devised to eliminate the incentives for over-drilling. Feedback from participating schools and their parents was positive.

The EDB makes use of different channels and approaches, such as teacher training programmes, school development visits, school curriculum visits and focus inspections, to see how the various recommendations set out in EDB Circular No. 18/2015, particularly those pertaining to over-drilling, are implemented in schools, and to reiterate that the quality of homework is more important than the quantity. The modes and contents of homework should cater for the learning needs and abilities of students, and teachers need to help students consolidate and extend their learning based on their established foundation. Mechanical drills, repetitive copying and rote learning should be avoided. The expenditure was subsumed under the overall expenditure of the EDB.

(f)

In conducting the review on TSA since 2015, the Committee attaches great importance to the views of stakeholders. In particular, in 2015/16, a number of parent sessions have been set up to meet various groups of parents, including district parent-teacher associations, parent concern groups and parents of 18 districts in regional seminars. A seminar open to all parents was also organised to introduce TSA to them and collect their views.

As part of the 2016 Tryout Study, 19 focus group meetings for parents were organised. More than 100 parents of schools participating in the 2016 Tryout Study participated in the focus group meetings. Parents generally agreed that the questions of the 2016 Tryout Study were easier than before, which helped boost students' confidence. Many parents agreed that the school reports provided teachers with a good source of reference for adjusting teaching practices. Some parents supported that TSA needed to be held on a continuous basis for school reports provide both school and territory-wide data which help furnish schools with data to help them better understand their students' performance in the territory context as well as enabling teachers to identify students' strengths and weaknesses.

In 2016/17, to facilitate the implementation of the 2017 Research Study, seminars in the 18 districts for schools have been organised to introduce and share the concept and implementation of "assessment for learning" with various stakeholders including parents. The feedback from the participants is positive about the effectiveness of the four new initiatives for enhancement in enhancing learning and teaching.

Director of Bureau: Secretary for Education

Question:

(a) The Government introduced the Mainland University Study Subsidy Scheme in the 2014/15 academic year to enable needy Hong Kong students pursuing studies under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions to receive grants during the study period of their programmes. What are the details, the number of beneficiaries and expenditures involved each year?

(b) In 2017-18, will the Government earmark resources for working on the recognition of Mainland university qualifications in Hong Kong? If yes, what are the details and estimated expenditures of such work?

Asked by: Hon CHAN Tanya (Member Question No. 7)

Reply:

(a) The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2014/15 academic year, 263 applicants were eligible to receive the subsidy. For the 2015/16 and 2016/17 (as at 28 February 2017) academic years, including both newly approved applications and successful renewals, subsidy was provided to 479 students and 2,144 students respectively.

The total expenditure for implementing MUSSS in the 2014/15 and 2015/16 academic years was about \$4 million and \$6.5 million respectively. As for the 2016/17 academic year, the estimated total expenditure is about \$29 million. Apart from the five civil service posts (namely, one Executive Officer I, two Clerical Officers and two Assistant Clerical Officers) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

- (b) To promote co-operation between the Mainland and Hong Kong in education and student exchanges, a Memorandum of Understanding between the Mainland and Hong Kong on Mutual Recognition of Academic Degrees in Higher Education (MoU) was signed between the Ministry of Education and the then Education and Manpower Bureau of the Hong Kong Special Administrative Region in July 2004. The MoU facilitates the mutual recognition of academic qualifications awarded in both places for the purpose of further studies in recognised Mainland and Hong Kong higher education institutions with powers to award degrees at Bachelor's level or above. The list of recognised higher education institutions in both places are attached as Annex to the MoU and updated regularly.

Recognition of individual qualifications is essentially a matter for the users to decide. In general, it is up to individual employers (in both the public and private sectors) or professional bodies to decide whether a particular qualification obtained by an applicant should be regarded as meeting the requirements for filling the relevant job position or membership registration.

Question:

(a) Upon the completion of the review on the subvention arrangement for the English Schools Foundation (ESF), the Education Bureau has decided that starting from the 2016/17 school year, the recurrent subvention to ESF schools will be phased out in 13 years. What is the progress of the phasing out arrangement? Has the Bureau received any request for assistance from parents, teachers or students? If yes, what is the number of cases?

(b) For each of the past 5 years, what were the respective numbers of non-Chinese speaking students with special educational needs studying in ESF's mainstream schools and its special school, the number of school places provided by these schools, as well as the number of people waiting for such places?

Asked by: Hon CHAN Tanya (Member Question No. 72)

Reply:

(a) The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. As reported at the meeting of the Legislative Council Panel on Education on 9 July 2013, after intensive negotiations, the Board of Directors of ESF formally accepted the agreed arrangement for the phasing out of the government subvention for ESF in June 2013. According to the agreed arrangement, among others, the recurrent subvention for ESF's mainstream primary and secondary schools of \$249.7 million has been maintained for three more years from the 2013/14 to 2015/16 school years. From the 2016/17 school year onwards, the annual recurrent subvention has started to phase out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. The existing annual recurrent subvention of \$28.3 million for students with special educational needs (SEN) in ESF's mainstream schools as well as its special school are excluded from the phasing out arrangement and frozen at the current level pending further review. We have not received any requests for assistance in relation to the phasing-out arrangement since the announcement of the agreed phasing-out arrangement with ESF in mid-2013.

(b) Based on ESF's return to the annual student enrolment survey conducted by the Education Bureau (EDB), statistics between the 2012/13 and 2016/17 school years on (i) the total number of students with SEN in its mainstream schools and the special school; (ii) the total number of places in learning support centres in its mainstream schools; as well as (iii) the number of places in its special school, with breakdown by primary and secondary levels, are set out in the Annex. We do not have readily available information on the number of non-Chinese speaking students with SEN in ESF schools, or the actual number of students on the waitlist for SEN places in ESF schools.

**Numbers of students with special educational needs (SEN)  
studying in schools operated by the English Schools Foundation (ESF)**

School Year (P – Primary; S – Secondary)	2012/13		2013/14		2014/15		2015/16		2016/17	
	P	S	P	S	P	S	P	S	P	S
Number of students with SEN (including mainstream schools and the special school)	141	232	139	239	136	256	230*	435*	245	565
Number of school places in the learning support centres in mainstream schools	98	92	105	108	105	112	105	113	105	120
Number of places in the special school	33	30	34	36	34	36	26	44	25	45

\* ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and offer three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF has advised that from 2015/16 onwards they have standardised their practice by requiring all ESF schools to include in their returns to the student enrolment survey not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for 2015/16 as compared with previous years.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Will the Government earmark resources for conducting research or consultation on “provision of a salary scale for kindergarten teachers”? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 8)

Reply:

The Education Bureau (EDB) considers that salary-related practices under the funding mode of aided schools could not be applied to kindergartens (KGs) in isolation. In the aided sector, the funding mode is tied with several inter-connected components, such as EDB's annual approval for the number of operating classes which in turn determines the staff establishment, and is subject to a basket of control measures under the Government's prudent and balanced planning of school places operated through school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating half-day and whole-day classes to meet the needs of parents.

As compared to a mandatory salary scale in which teacher salary is determined solely in accordance with seniority, it is appropriate and fit to provide KGs with salary ranges which could ensure competitiveness while at the same time allow flexibility for the KG management to decide on their staff remuneration, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed, etc. In light of the above, we have no plans to provide a mandatory salary scale for KG teachers or earmark resources for conducting related research at this stage. We will continue to listen to views of various stakeholders.

Question:

The Government will implement the Kindergarten Scheme starting from the 2017/18 school year with enhancements in quality of kindergarten education through enhanced funding support to kindergartens; raising the requirement in teacher-pupil ratio; provision of a salary range and career ladder for kindergarten teachers; enhancements in quality assurance framework, governance and monitoring, teachers' professionalism, catering for student diversity, improving accommodation and facilities, etc. What are the details of "enhancement in quality assurance framework" and the estimated expenditure for this?

Asked by: Hon CHAN Tanya (Member Question No. 9)

Reply:

The existing Quality Assurance Framework for kindergartens (KGs) comprises School Self-evaluation (SSE) and Quality Review (QR). Under the Free Quality Kindergarten Education Scheme (Scheme) to be implemented starting from the 2017/18 school year, the Education Bureau (EDB) will enhance the existing Quality Assurance Framework to further ensure the quality of KG education. We will refine the Performance Indicators (PIs) which form the basis of SSE and QR to tie in with the Scheme. While EDB will continue to organise training activities to familiarise KGs with the Quality Assurance Framework and good practices of learning and teaching, we will involve an external independent member in the QR team as an external observer to enhance transparency. Besides, EDB will continue to make the QR reports available on the websites for public information. In addition to QR, EDB will conduct more frequent Focus Inspection (FI), which is another form of quality assurance measure in fostering KGs' continuous improvement in learning and teaching and in addressing areas of concerns. If deemed necessary, EDB will provide professional support to the KGs whose performance is not satisfactory. Besides, to further promote the sustainable development of KGs, EDB will identify good practices during QR and FI for dissemination. We will provide external independent members for QR with honoraria, and the relevant expenditure is estimated to be about \$0.2 million in 2017-18. All other assessment related tasks involved in the QR and FI are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of such expenditure is therefore not available.

Question:

The Government will implement the Kindergarten Scheme starting from the 2017/18 school year with enhancements in quality of kindergarten education through enhanced funding support to kindergartens; raising the requirement in teacher-pupil ratio; provision of a salary range and career ladder for kindergarten teachers; enhancements in quality assurance framework, governance and monitoring, teachers' professionalism, catering for student diversity, improving accommodation and facilities, etc. What are the details of "enhancement in governance and monitoring" and the estimated expenditure for this?

Asked by: Hon CHAN Tanya (Member Question No. 10)

Reply:

With the implementation of the Free Quality Kindergarten (KG) Education Scheme (Scheme) starting from the 2017/18 school year, KGs joining the Scheme (Scheme-KGs) will be required to enhance their administration, management and accountability under an effective governance framework with transparency, and well-defined roles and responsibilities of school personnel. In the medium and long-term, each Scheme-KG should have a Management Committee comprising representatives from different KG stakeholders such as school sponsoring body, the principal, and other stakeholders as appropriate.

On the other hand, EDB will step up monitoring. For instance, a more stringent mechanism is put in place in monitoring KGs in conducting trading operation. Specifically, KGs participating in the Scheme-KGs are required to include explicitly in their notices/circular letters the following statement: "Parents, please note that acquisition of any school items or services is entirely voluntary and parents can select individual items or services required according to their own needs." Relevant check boxes should also be provided for respective school items so that parents can "tick" as appropriate. In line with the current practice, all profit generated from trading operation must be ploughed back into KGs for use in school operation and provision of KG education services. Furthermore, to enhance transparency and help parents get a better understanding about the school items sold and paid services provided by the schools, Scheme-KGs are required to disclose the relevant information (including the fees charged and the list of items and services in the preceding school year) to parents on their school website. The "Profile of Kindergartens and Kindergarten-cum-Child Care Centres" published by EDB will list out the common items and services and other relevant information for parents' easy reference. All the monitoring work is performed by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of expenditure for monitoring of KG is therefore not available.

Director of Bureau: Secretary for Education

Question:

The Education Bureau stated that it will continue to implement a series of targeted relief measures aiming at facilitating the sustainable development of schools and maintaining the stability and strengths of the teaching force in light of the temporary decline of the secondary 1 student population. What are the details and the estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 12)

Reply:

The package of targeted relief measures the Education Bureau (EDB) implemented since the 2013/14 school year aims at preserving the stability and strengths of the schools as well as the teaching force in the period of the transient decline in Secondary 1 (S1) student population. In gist, the targeted relief measures include:

- i. a progressive reduction of the number of students allocated per S1 class by “2-1-1” / “1-1-1” under a district-/school-based approach in the 3 school years from 2013/14 to 2015/16;
- ii. relaxing the “not less than 3 S1 classes” requirement under which only schools operating 1 S1 class are required to apply for development options in order to continue their operation, and allowing schools with S1 classes reduced to 1 or 2 to participate in the next Secondary School Places Allocation exercise with a cap of 3 S1 classes; and
- iii. extending the retention period from 1 year to 3 years for surplus teachers arising from packing of S1 classes in the 3 school years from 2013/14 to 2015/16.

To further stabilise the teaching force, the Chief Executive announced separately in the 2016 Policy Address and 2017 Policy Address that schools with surplus teachers arising from reduction of S1 classes in the 2013/14, 2014/15 and 2016/17 school years, if in need, may apply to extend the retention period for these surplus teachers up to the 2017/18 school year. The expenditure for putting in place the targeted relief measures is subsumed under the overall expenditure of EDB, and a breakdown of the estimated expenditure in this regard is not available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (a) Please provide the details and expenditure involved in implementing STEM education at the primary, secondary and university levels in the past 3 years.
- (b) Please provide the detailed work plan and estimated expenditure for implementing STEM education in 2017/18.
- (c) Many hold the view that we need to reform the academic structure for the implementation of STEM education. Will the Government conduct any research in this respect? If yes, what are the details and estimated expenditure involved? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 13)

Reply:

(a) and (b) In the 2015 and 2016 Policy Addresses, the Government pledged to promote STEM education in primary and secondary schools. Since 2015, the Education Bureau (EDB) has been taking steps to implement the recommendations set out in the Report on Promotion of STEM education – Unleashing Potential in Innovation released in December 2016. The recommendations include renewing the curricula of the Science, Technology and Mathematics Education Key Learning Areas (KLAs), enriching learning activities for students, providing resources support to schools, enhancing professional development of teachers, strengthening partnerships with community key stakeholders, and conducting review and disseminating good practices.

The renewed curricula of the Science, Technology and Mathematics Education KLAs will be released in mid-2017. For professional development programmes on STEM education, on top of cross-KLA and KLA-based seminars/workshops, symposia will continue to be organised for school leaders and teachers. Four Professional Development Schools have been set up in the 2016/17 school year to establish communities of practice and disseminate good practices. Besides, learning and teaching resources are being developed and student learning activities enriched as ongoing support measures. Where appropriate, we have involved community key stakeholders such as professional bodies, tertiary institutions and other government departments in the above measures.

Subsequent to the disbursement of a one-off grant of \$100,000 to each public sector primary school to support school-based activities/projects on STEM education in the 2015/16 school year, a similar grant of \$200,000 has just been disbursed to each public sector secondary school in the 2016/17 school year. The total expenditures to be incurred for primary and secondary schools are about \$55.5 million and \$102.6 million

respectively. Besides, in January 2016, the Student Education Fair was organised to showcase and celebrate a wide range of student achievements and the expenditure for this event was about \$1.1 million.

In the 2017/18 school year, EDB will sustain the measures on promoting STEM education. On enhancing the training of teachers, on top of various cross-KLA and KLA-based professional development programmes (PDP), we will further provide training programmes for curriculum leaders and middle managers of primary and secondary schools to strengthen their capacity in planning and implementing school-based STEM-related activities.

For the above ongoing support measures to schools, the cost will be subsumed under EDB's overall expenditure and separate breakdown is not available.

As regards universities funded by the University Grants Committee (UGC), the approved student intake places of UGC-funded programmes of the academic programme categories of Sciences, and Engineering and Technology for the 2014/15 to 2017/18 academic years by level of study is given in the Annex. The bulk of recurrent grants to the universities are in the form of a block grant based on the approved student numbers allocated to universities. As funding for the programmes related to STEM education is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes.

(c) Regarding the proposal of reforming the academic structure to facilitate the promotion of STEM education in schools, EDB has been engaging relevant stakeholders including the school sector, tertiary institutions, curriculum advisory committees and the Hong Kong Examinations and Assessment Authority (HKEAA) to identify measures/arrangements that can motivate and facilitate student learning of STEM-related subjects. We shall continue to solicit views from different stakeholders for ongoing development of STEM education in schools. The cost will be subsumed under EDB's overall expenditure and separate breakdown is not available.

Question:

The Education Bureau mentions that it will continue to provide recurrent funding to schools to support their implementation of the “Chinese Language Curriculum Second Language Learning Framework” for non-Chinese speaking students with supporting learning, teaching and assessment materials with a view to facilitating their effective learning of Chinese as a second language. What were the details and expenditure of the above task in 2016-17? What are the details and estimated expenditure of the relevant task in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 74)

Reply:

The support measures for non-Chinese speaking students from the 2016/17 to 2017/18 school years and the expenditure are tabulated at Annex.

**Educational support measures for non-Chinese speaking (NCS) students  
from the 2016/17 to 2017/18 school years**

<b>Support measures</b>	<b>Estimated expenditure in the 2016/17 school year \$ million</b>	<b>Estimated expenditure in the 2017/18 school year \$ million</b>
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	244.9  Note 1	259.5  Note 1
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0  Note 1	3.0  Note 1
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	3.9	4.1
Summer Bridging Programme for NCS students in primary schools  Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.6	2.8
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	6.8	7.5

<p>Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education</p> <p>Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.</p>	2.58	3.07
<p>District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund</p>	1.72	Note 2
<p>Support for kindergartens admitting NCS students -</p> <p>(a) University-School Support Programmes financed by the Education Development Fund:</p> <p>(i) a 3-year project to support kindergartens to enhance the learning and teaching of Chinese for NCS children from the 2012/13 to 2014/15 school years</p> <p>(ii) a 2-year project to support NCS students in kindergartens in the transition to primary schools from the 2015/16 to 2016/17 school years</p> <p>(b) School-based professional support services</p> <p>(c) With the implementation of the free quality kindergarten education policy starting from the 2017/18 school year:</p> <p>(i) a grant comparable to the recommended salary of one kindergarten teacher will be provided to kindergartens admitting 8 or more NCS students for supporting NCS students</p> <p>(ii) training courses will be provided for kindergarten teachers on support of NCS students</p>	<p>0.7</p> <p>Note 3</p> <p>Note 1</p> <p>-</p> <p>-</p>	<p>-</p> <p>Note 3</p> <p>Note 1</p> <p>45.4</p> <p>1.8</p>

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. Subject to further deliberation by the Standing Committee on Language Education and Research, the estimated expenditure is still being worked out.
3. For the 2-year USP project from the 2015/16 to 2016/17 school years, the actual expenditure of the 2015/16 school year is \$2.25 million and the estimated expenditure of the 2016/17 and 2017/18 school years is \$5.85 million and \$0.9 million respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available. Besides, a funding of about \$10 million has also been earmarked for new USP project(s) to support kindergartens and primary schools admitting NCS students in the transition from kindergartens to primary schools from the 2017/18 to the 2018/19 school years.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (a) The Education Bureau will continue to allow schools to turn the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services. What are the details of the work and expenditure involved in 2016-17?
- (b) What are the detailed plan and estimated expenditure for the above work in 2017-18?
- (c) Has the Bureau assessed and consulted on the utilisation of the CLPG? If yes, what are the details and expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 84)

Reply:

(a) & (b) In the 2016/17 school year, slightly more than 230 public sector secondary schools have turned either or both of the Senior Secondary Curriculum Support Grant and Career and Life Planning Grant (CLPG) into some 370 regular teaching posts. The expenditure involved is subsumed under the Education Bureau's (EDB) recurrent expenditure. To enhance the implementation of the senior secondary curriculum and strengthen life planning education (LPE) and related guidance services, we will continue to encourage schools to turn the grants into regular teaching posts in the 2017/18 school year. A review on the measure will be conducted by the end of the 2017/18 school year.

(c) EDB has been keeping track of the development of LPE at schools through questionnaire surveys and advisory school visits since its implementation in the 2014/15 school year. The relevant expenditure is subsumed under EDB's recurrent expenditure. Based on the information collected from our surveys and school visits, it is noted that a predominant majority of the schools (over 90%) used CLPG in acquiring additional manpower, such as additional teachers and teaching assistants. Most of the schools used the remaining balance of the grant, which is usually less than 20%, to hire school-based career-related services for students, procuring relevant teaching materials and financing students to attend related programmes or activities.

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Education Bureau (EDB) will provide the Learning Support Grant for public sector secondary schools to cover students with mental illness in order to help schools cater for their learning, social, emotional and behavioural needs. What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 85)

Reply:

Students with mental illness (MI) need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers and educational psychologists have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support for students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB294**

**(Question Serial No. 3779)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau indicates that it will develop in the 2017/18 school year an evidence-based model with strategies and related teaching and learning resources for supporting the learning and development of senior secondary school students with autism having average to high average intelligence, premised on a support model developed for junior secondary school students with autism. What are the details and estimated expenditure of the above project?

Asked by: Hon CHAN Tanya (Member Question No. 86)

Reply:

With a view to developing a school support model suitable for students with autism spectrum disorders (ASD), the Education Bureau has been supporting 60 primary and 22 secondary schools to try out a 3-tier school support model from the 2014/15 to 2016/17 school years, aiming at improving the performance of primary and junior secondary students with ASD in learning, social and emotional adaptation. The model comprises arrangement of ASD-friendly strategies in the whole class level at tier-1, ASD-specific supplemental coaching after class in tier-2, and individual education plan (IEP) at tier-3.

Building on the empirically-validated support model for primary and junior secondary students with ASD, more evidence-based instructional strategies and resources appropriate for high functioning students with ASD attending senior secondary schools would be developed and tested out in the 22 secondary schools from the 2017/18 to 2018/19 school years. As regards primary schools, since 28 out of the 60 schools currently participating in the project would have solid experience in supporting students with ASD by the end of the 2016/17 school year and could sustain this support model on their own, we would focus our support to the remaining 32 primary schools for two more years to enrich their intervention strategies. Each school would be provided with additional funding to employ a teaching assistant to support the implementation of the enhanced measures. The effective practices consolidated from these schools would be compiled into an operation manual at the end of the project for the reference of other schools. The estimated expenditure for the two-year project is \$31.8 million.

Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

a) The Education Bureau will plan to provide a one-off grant at \$150,000 each to all public sector and Direct Subsidy Scheme secondary schools for the promotion of understanding of Chinese history and culture. What are the details and estimated expenditure?

b) Will the Education Bureau conduct any study or consultation on “making Chinese History as a compulsory subject” in the 2017/18 school year? If yes, what are the details and estimated expenditure? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 14 )

Reply:

a)  
To promote Chinese history and culture, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools), totalling about \$125 million, to help teachers enhance the teaching of General Studies in primary schools as well as Chinese Language, Chinese History and Chinese Literature in primary and secondary schools, so as to enable students to admire and inherit the spirit of excellence and the civilisation of the Chinese people.

In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources, supporting teachers to participate in interflow activities on learning and teaching in the Mainland and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. The estimated total expenditure incurred for secondary schools is \$77 million.

b) Regarding the issue of “making Chinese History as a compulsory subject”, we would like to clarify that the study of Chinese history and culture has already been made compulsory in the curriculum of primary and junior secondary levels since 2001. The learning contents are designated as well. Currently, nearly 90%

of the secondary schools offer Chinese History as an independent subject at the junior secondary level. For schools that have been promoting Chinese history education in a mode linking the two histories or through an integrated curriculum mode, they are required to make Chinese history the backbone of the curriculum and offer an independent and systematic Chinese history module in providing students with a holistic and systematic Chinese history education. In other words, regardless of the types of local secondary schools they attend, Chinese history education is compulsory.

Question:

The Education Bureau indicates that it will provide additional grant to schools for children with severe intellectual disability, schools for children with physical disability and school for children with visual impairment cum intellectual disability for employing additional nurses and related staff to strengthen support for 24-hour ventilator-dependent students. What are the details and estimated expenditure of this?

Asked by: Hon CHAN Tanya (Member Question No. 15)

Reply:

To strengthen the support for the 24-hour ventilator-dependent students, an additional grant will be provided to schools for children with severe intellectual disability, schools for children with physical disability and the school for children with visual impairment cum intellectual disability for employing additional nurses and related staff. The amount of the additional grant for the respective schools depends on the actual number of 24-hour ventilator-dependent students enrolled. The expenditure for the 2017/18 school year is estimated to be \$7.0 million.

Question:

The Education Bureau indicated that it plans to provide a one-off grant at \$150,000 each to all public sector special schools with a secondary section only, and those with both primary and secondary sections; and \$100,000 each to all public sector special schools with a primary section only for the promotion of understanding of Chinese history and culture. In this connection, what are the details and estimated expenditure? Will there be any measures to assess the effectiveness?

Asked by: Hon CHAN Tanya (Member Question No. 16)

Reply:

The Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools) for the promotion of Chinese history and culture education. In accordance with their school context and development needs, special schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources, supporting teachers to participate in interflow activities on learning and teaching in the Mainland and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. The estimated total expenditure for the one-off grant is \$125 million, of which about \$9 million will be disbursed to special schools.

Schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in its audited accounts to be submitted to EDB annually. EDB will also collect schools' feedback, in particular on students' participation and interest, to gauge the effectiveness of the grant through various channels, including focus groups meetings and curriculum development visits.

Question:

Regarding the matter that the Education Bureau will “develop learning and teaching resource packages and an assessment bank for promoting Basic Law education at senior primary and junior secondary levels”, what were the details of the work and the expenditure for this purpose over the past 3 years? What are the detailed work plan and the estimated expenditure for this purpose in 2017/18?

Asked by: Hon CHAN Tanya (Member Question No. 17)

Reply:

The Education Bureau (EDB) has continuously enriched and updated the content of learning packages of the Basic Law in order to keep abreast of the latest curriculum development. To keep pace with the development of e-learning, an e-book version of “Understanding the Law, Access to Justice - Basic Law Learning Package (Junior Secondary)” (Reprinted with minor amendments in 2015) has been available for use since June 2015. To support the use of the Package, a DVD of supplementary video clips was developed and distributed in 2016. The “Effective Use of ‘Let’s Learn the Basic Law’ Learning Package”, which is a collection of schools’ good practices, was developed and distributed to all primary schools in 2015. EDB developed the “Basic Law Audio-visual Learning and Teaching Package” for junior secondary students in April 2015 and we are currently developing the “Basic Law Audio-visual Learning and Teaching Package (Senior Primary)” for senior primary students to deepen their knowledge of the Basic Law. The Package will be disseminated in the 2017/18 school year.

On an on-going basis, EDB collects feedback and evaluates the effectiveness of its work through various channels to further enrich and refine the learning and teaching resource materials. Meanwhile, EDB will keep on organising professional development programmes for teachers in 2017/18 to enhance teachers’ understanding of the concepts and essence of the Basic Law as well as strategies for using the learning packages and web-based resources in their school-based learning and teaching practices. The expenditure of EDB for developing learning and teaching resources on Basic Law education from 2014-15 to 2017-18 is as follows:

2014-15 <sup>@</sup>	2015-16 <sup>@#</sup>	2016-17 <sup>@*</sup>	2017-18 <sup>@++</sup>
\$2.07 million	\$3.65 million	\$1.71 million	\$1.53 million

<sup>@</sup> Manpower resources in the provision are subsumed under the recurrent expenditure of EDB

<sup>#</sup> Actual figures revised from last year’s estimates

<sup>\*</sup> Provisional figures

<sup>++</sup> Estimated figures

Question:

The Education Bureau states that it will “develop support strategies to facilitate curriculum implementation, including the provision of professional development programmes, e-textbooks and preparation of learning and teaching resources for a variety of subjects”. What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 18)

Reply:

To facilitate curriculum implementation in schools, different support strategies, including the provision of professional development programmes, e-textbooks and preparation of learning and teaching resources for a variety of subjects, will be further developed for schools in 2017-18 by the Education Bureau (EDB):

- i. About 800 professional development programmes under various themes will be organised for school leaders, middle managers and teachers to support curriculum planning, implementation and evaluation.
- ii. e-Textbook review by EDB is now a regular practice with three submission periods per year and there are currently 46 sets of e-textbooks on the EDB Recommended e-Textbook List for schools' adoption.
- iii. About 200 items of learning and teaching resources for different subjects will be developed to provide continual support for curriculum implementation in schools. In addition, there are currently about 7 800 learning and teaching resources in the EDB One-stop Portal for Learning and Teaching Resources (OSP). EDB will continue to enrich the content of OSP to support learning and teaching in schools.

For (i) above, other than staffing cost which will be absorbed by the recurrent expenditure of EDB, the estimated expenditure in 2017-18 is about \$14.8 million. For (ii) and (iii), some costs, e.g. staffing cost as a significant part of the above support measures which will be carried out by professional staff of EDB, will be subsumed under the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

Question:

Regarding the plan to “continue to implement the Professional Enhancement Grant Scheme with the Language Fund to enhance Chinese Language teachers’ professional capability in teaching Chinese as a second language”, what are its details and estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 19)

Reply:

With a view to encouraging serving Chinese Language teachers at primary and secondary levels to take courses that aim to enhance their pedagogical knowledge and skills in teaching Chinese to non-Chinese speaking (NCS) students, the Education Bureau (EDB) launches a Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, starting from the 2014/15 school year on a pilot basis for 3 years up to the 2016/17 school year. Of the 71 applications received so far, 68 applications have been approved for earmarking of grant under the Scheme. The provision of grant comprises two tiers, including a basic subsidy and an extra subsidy. A basic level of subsidy will be offered at 30% of the tuition fee of a programme of study recognised under the Scheme, subject to maximum of \$30,000 per teacher, upon successful completion of programme of study. There is no undertaking requirement. In order to encourage more Chinese Language teachers currently teaching Chinese to NCS students to apply for the grant and continue to teach in schools offering local school curriculum upon successful completion of programme of study, an extra 30% of the tuition fee, subject to an additional maximum of \$30,000 per teacher, will be offered to those teachers who continue to teach NCS students Chinese in schools offering local school curriculum for a total of three years within five years upon successful completion of programme of study. An estimated expenditure of about \$1.97 million will be incurred for the reimbursement of grant to 68 teachers who have been approved for earmarking of the grant and have completed/will complete the recognised programmes under the Scheme in 2016-17 and thereafter.

Question:

The Education Bureau (EDB) will introduce a three-year paid non-local study leave scheme on a pilot basis for serving secondary school teachers to broaden their perspectives and enrich their experience. What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 75)

Reply:

Under the pilot scheme, teachers will be granted full-pay study leave in order to take part in customised non-local professional development programmes lasting about one to three months. High-performing education systems overseas such as Finland, Australia, etc. will be considered as target locations for these customised programmes, which will include specific courses and/or on-site experiential learning attachment programmes, followed by a reflection period of two to three weeks for participants to consolidate their learning and draw up a school-based initiative/ an action research plan to apply what they have learnt in their own schools.

An annual budget of \$9.3 million, totalling \$28 million for three years, has been earmarked. Funding will be provided to the schools concerned for the employment of supply teacher(s) covering the whole period of study leave. Air tickets and course fees for participating teachers will also be funded by the Government. Customised programmes for the first batch of some 50 teachers will be implemented in the 2017/18 school year. The 3-year scheme is expected to benefit some 150 teachers. Detailed operating parameters such as location and duration of customised programmes, procedures of application, etc. are being drawn up and will be announced in due course.

Question:

What were the details and expenditures of the work undertaken by the Education Bureau to support the Committee on Home-School Co-operation in the past 3 years? What will be the specific work plans and estimated expenditures in this aspect in 2017/18?

Asked by: Hon CHAN Tanya (Member Question No. 20)

Reply:

The Education Bureau (EDB) is committed to promoting home-school co-operation. The Committee on Home-School Co-operation (CHSC) has been supported by EDB in organising seminars and annual symposium for parents, producing radio programmes, maintaining website update, organising publicity activities, publishing the Primary and Secondary School Profiles for parents' reference, and providing grants to Parent-Teacher Associations (PTAs) in schools and district-based Federations of PTAs (FPTAs) for organising home-school co-operation programmes and activities. The expenditure involved from the 2014-15 to 2016-17 financial years is about \$28.2 million, \$29.7 million and \$31.5 million respectively.

In the 2017-18 financial year, the estimated expenditure involved is about \$34.9 million. The existing efforts for promoting home-school co-operation will continue. With a view to deepening home-school co-operation, CHSC will organise more publicity programmes to increase parents' awareness of home-school co-operation and enhance parents' involvement in PTAs.

Question:

The Education Bureau announced that it will continue to commission non-governmental organisations, on a pilot basis, to provide career exploration opportunities and relevant experiences for students with specific learning difficulties and non-Chinese speaking students respectively. What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 95)

Reply:

To enhance the readiness of students with specific learning difficulties (SpLD) and non-Chinese speaking (NCS) students for work and further studies, the Education Bureau (EDB) has commissioned non-governmental organisations, on a pilot basis, to organise work experience programmes for these students over a three-year period as from the 2015/16 school year. The pilot projects aim to trial-run programmes that would enable these students to understand their personal strengths, provide them with the knowledge about different jobs and prepare them to enter the career world through authentic career-related experience. The programmes are specially designed to assist students with SpLD to understand their strengths and overcome their difficulties through mentorship and job-shadowing, and NCS students to prepare for the cultural adaption and integration at work. Practical guidelines on preparing these students for transition to work are being developed for parents, teachers and mentors. The projects have been well received with participation of about 320 SpLD students and 1 300 NCS students in the first two years. It is estimated that a total number of 2 250 students (1 800 NCS and 450 SpLD students) will participate in the projects. The expenditure for the three-year pilot projects is estimated to be about \$16.6 million.

Question:

The Education Bureau indicated that it has the plan to launch the 7th round of Matching Grant Scheme with a commitment of \$500 million for eligible self-financing local degree-awarding institutions to apply. What are its details and estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 96)

Reply:

Following the announcement in the 2017 Policy Address, the Government will launch the seventh Matching Grant Scheme (MGS) for application by eligible local self-financing degree-awarding institutions (i.e. the Open University of Hong Kong, the Technological and Higher Education Institute under the Vocational Training Council and all approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320)), with a view to further enhancing the education quality of the self-financing post-secondary education sector by helping such institutions tap more funding sources and fostering a philanthropic culture. The duration of the seventh MGS will be two years, commencing from August 2017 tentatively. A total of \$500 million has been earmarked for the seventh MGS for matching purpose. The estimated expenditure for 2017-18 is \$300 million and that for 2018-19 and 2019-20 is \$200 million in total.

Question:

The Government stated that it will continue to implement the Hong Kong Scholarship for Excellence Scheme to support outstanding students to study in renowned universities outside Hong Kong for three cohorts from the 2015/16 academic year and be subject to a review on its effectiveness. What have been done in the past and what were the expenditures? What are the details of the review on its effectiveness? What are the work plan and estimated expenditure in this regard for the 2017/18?

Asked by: Hon CHAN Tanya (Member Question No. 21)

Reply:

The Hong Kong Scholarship for Excellence Scheme (HKSES), launched on 25 November 2014, aims to support local students to pursue studies in world renowned universities outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong's competitiveness as Asia's World City in a globalised knowledge economy. The scheme also seeks to support those students who have excellent academic achievement but lack the financial means to study in top-notch universities outside Hong Kong. The HKSES will benefit three cohorts of students, with up to 100 students per cohort, starting from the 2015/16 academic year and the effectiveness of the scheme will be subject to review afterwards.

For the first and second cohorts (i.e. 2015/16 and 2016/17 cohorts) of the HKSES, 658 and 681 applications were received respectively. We have awarded scholarship to a total of 185 students, of whom 119 are going to pursue undergraduate study and 66 postgraduate study in world renowned universities in the UK, the US, Australia, Canada and Spain. A list of the awardees and their respective universities and study programmes is available at the HKSES website ([www.edb.gov.hk/hkses](http://www.edb.gov.hk/hkses)). The total expenditure for the HKSES for 2015-16 and 2016-17 financial year, including both the actual expenditure and the committed expenditure, is around \$58.6 million.

A total of 856 applications were received under the third cohort of the scheme and the applications are being processed. Following the success of its first two years of implementation, the HKSES will adopt broadly the same criteria and procedures in selecting the third cohort of awardees. Selection will be based on academic achievements and other attributes such as leadership qualities and potential, contribution and commitment to the society, etc. A three-stage selection process – preliminary screening (from January to February 2017), shortlisting (from February to March 2017) and interview (from April onwards), will continue to be adopted so as to facilitate an objective and rigorous selection. Shortlisting of the applications is now underway. Results will be announced in August 2017. With reference to the expenditure in the first two cohorts, the estimated expenditure for the 2017-18 financial year will be \$63.8 million. A review on the effectiveness of HKSES will be conducted after the award of scholarships for the third cohort.

Question:

The Education Bureau indicates that it will continue to implement the Mainland University Study Subsidy Scheme to provide needy students pursuing undergraduate studies in designated Mainland institutions with a means-tested subsidy during their study period. What are the details and estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 98)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

The estimated expenditure on MUSSS in 2016/17 academic year is about \$29 million. As for 2017/18, while the estimated expenditure is not known yet as it depends on the number of applications and renewals, sufficient provision has been reserved for the purpose. Apart from the five civil service posts (namely, one Executive Officer I, two Clerical Officers and two Assistant Clerical Officers) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

Question:

- a) In 2016/17, the Government implemented initiatives to enhance the development of Hong Kong as a regional education hub, including the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. What were the details and expenditure involved? How many Hong Kong students benefited from the initiatives?
- b) In 2017/18, what are the Government's work plans and estimated expenditure on the above-mentioned initiatives?

Asked by: Hon CHAN Tanya (Member Question No. 23)

Reply:

The Government has set up a Targeted Scholarship Scheme (TSS) since 2012/13 academic year under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to ten scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of ten additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), up to ten scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. The expenditure on scholarship in 2016/17 is \$1.2 million and the estimated expenditure for 2017/18 is \$2.4 million.

The "Belt and Road" region covers over 60 economies spanning Asia, Eastern Europe, Middle East and Africa, with a total population of 4.4 billion. Encouraging more "Belt and Road" students to come to Hong Kong to pursue university study will help promote internationalisation of our institutions. A multi-cultural learning environment, with students coming from other countries/regions, will help enhance cultural exchanges, broaden the horizons of the local students and help ensure that our graduates are globally competitive. In the long run, it will also help establish a platform for educational, cultural and youth exchanges between Hong Kong and the "Belt and Road" regions and bring benefits to Hong Kong.

Recognising the benefits of the "Belt and Road" initiative, two privately-funded scholarship schemes for attracting Malaysian and Thai students to study in Hong Kong will be launched in the 2017/18 academic year. The Government will, taking into account the views of the community, continue to consider how best to develop Hong Kong into a regional education hub, including attracting students from the "Belt and Road" regions to study in Hong Kong.

Question:

The Government indicated that it will provide subsidy for needy post-secondary students studying in full-time locally-accredited undergraduate and sub-degree programmes to participate in exchange programmes:

- a) What were the work and expenditures on this aspect in the past 3 years? How many students have benefited from it?
- b) For the 2017/18 school year, what are the Government's working plan and estimated expenditure on this aspect?

Asked by: Hon CHAN Tanya (Member Question No. 99)

Reply:

To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau (EDB) has introduced a Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015. The SSE aims to provide local students enrolling in full-time locally accredited sub-degree or undergraduate programmes with means-tested grants so as to encourage their participation in exchange programmes outside Hong Kong. In the first subsidised period covering January 2015 to August 2016, around \$27 million was granted to 2 138 students.

EDB conducted a review on the effectiveness of the SSE in early 2016 and had extended its scope to cover exchange activities of shorter duration starting from July 2016. Besides, the ceiling of subsidy per student has been raised from HK\$15,000 to HK\$60,000 to support needy students participating in exchange activities held at farther destinations and of longer duration. Further, in order to capitalise on the new opportunities created by the "Belt and Road" initiatives, further to SSE, the Scheme for Subsidy on Exchange to "Belt and Road" Regions for Post-secondary Students, was introduced in July 2016 to encourage and support local students in need to go on exchanges in the "Belt and Road" regions. Each eligible student can apply for subsidies under the scheme twice capped at HK\$53,000 in total.

With the enhancements mentioned above, we envisage that the expenditure on subsidising post-secondary students to go on exchange will increase and more needy students will be benefited in the upcoming subsidised periods.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

According to the Government, it will reimburse tuition fees and provide a flat rate academic expenses grant for needy students pursuing eligible full-time programmes below sub-degree level:

- a) What were the details and the expenditure involved in the above task of the Bureau in the past 3 years? What was the number of beneficiaries in each of the years?
- b) In 2017/18, what are the details of the work plan and the estimated expenditure of the above task?

Asked by: Hon CHAN Tanya (Member Question No. 250)

Reply:

In the 2013/14 academic year (AY), the Community Care Fund launched a programme to enhance the support for eligible students pursuing below sub-degree programmes in two aspects, including the introduction of a tuition fee reimbursement mechanism, and provision of a flat-rate academic expenses grant for students. The Government has regularised the programme starting from the 2014/15 AY.

In order to ensure the quality of the programmes, student beneficiaries should meet all the criteria below –

- (a) they are pursuing full-time programmes below sub-degree level;
- (b) they are pursuing Government-subsided programmes; for self-financing programmes, the following conditions must be satisfied –
  - (i) the programmes are accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications;
  - (ii) the tuition fee levels are approved by the Education Bureau; and
  - (iii) the programmes are accepted by the Civil Service Bureau as meeting the entry qualification of civil service grades requiring Level 2 in five subjects, including Chinese Language and English Language, in the Hong Kong Diploma of Secondary Education examination;
- (c) they are eligible for full or half grant assistance under the means-test mechanism of the Working Family and Student Financial Assistance Agency (WFSFAA); and
- (d) their families are not recipients of the Comprehensive Social Security Assistance (CSSA), since “school fees and school-related expenses” are already covered by the “special grants” under CSSA.

In addition to the above criteria, only students pursuing full-year programmes will be eligible for the flat-rate academic expenses grant.

For the 2016/17 AY, students meeting the above criteria (a)-(d) are those pursuing Diploma Yi Jin (DYJ) programme and subvented full-time programmes below sub-degree level offered by the Vocational Training Council (VTC), as well as the self-financed Diploma of Foundation Studies programme offered by VTC. Some of these programmes are full-year programmes and some are not. Students eligible to receive full or half grant under the means-test mechanism of the WFSFAA will be eligible to receive reimbursement of 100% or 50% of the tuition fees respectively. However, it is worthy to note that students pursuing DYJ programme are already entitled to tuition fee reimbursement under WFSFAA's existing student financial assistance scheme, and are therefore not covered by the tuition fee reimbursement scheme above.

If students pursue programmes of duration at one year or above, they may also receive full or half level of the flat-rate academic expenses grant. For reference, eligible students are entitled to a full-grant of \$2,292 or a half-grant of \$1,146 in the 2016/17 AY. The amount of the flat rate grant will be subject to annual price adjustment.

The expenditure only covers the financial assistance to students and the Government will provide administrative support using existing manpower resources. The total expenditure spent and the number of students who received the tuition fee reimbursement and flat-rate academic expenses grant in the past three AYs are as follows –

	2014/15 AY	2015/16 AY	2016/17 AY (Provisional)
Total Expenditure	\$52.5 million	\$53.1 million	\$59.6 million
Number of Students who Received			
- Tuition Fee Reimbursement	2 779	2 820	About 3 000
- Flat-Rate Academic Expenses Grant	4 602	4 191	About 4 300

The information for the 2017/18 AY is not yet available.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

The Government indicates that it will continue to monitor the implementation of the Study Subsidy Scheme for Designated Professions/Sectors and prepare for its regularisation after the current three-cohort pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and increasing the number of subsidised places from about 1 000 per cohort to about 3 000 per cohort. What are the details and estimated expenditure of this?

Asked by: Hon CHAN Tanya (Member Question No. 251)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

The Education Bureau conducted review of SSSDP by gauging views from the students admitted under SSSDP in the 2015/16 and 2016/17 academic years; the participating institutions; other self-financing post-secondary education institutions; the Committee on Self-financing Post-secondary Education; the industry sector as well as policy bureaux. All stakeholders were generally supportive of continuing the scheme and increasing the number of subsidised places. As announced in the 2017 Policy Address, SSSDP will be regularised starting from the 2018/19 academic year, with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year, involving an expenditure of about \$850 million per year.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16, 2016/17 and 2017/18 academic years, and the number of actual intakes in the 2015/16 and 2016/17 academic years are set out at Annex. The Education Bureau will announce the details of the relevant institutions, selected programmes and the respective number of subsidised places for the cohort to be admitted in the 2018/19 academic year later this year after consulting policy bureaux.

**(Question Serial No. 3849)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

It is stated that the Vocational Training Council (VTC) will continue the industry attachment programme for students, with funding support from the Bureau, so as to enhance their employability and prepare them for a smooth transition from study to work; what are the details and estimated expenditure in this regard?

Asked by: Hon CHAN Tanya (Member Question No. 252)

Reply:

With the Government's one-off funding support of \$43 million in 2012-13, the Vocational Training Council (VTC) had launched a two-year pilot programme to support industrial attachments for student intakes to subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The programme aims at enhancing the employability of students and preparing them for a smooth transition from study to work. About 6 400 and 10 000 students had completed the industrial attachments in the 2012/13 and 2013/14 academic years respectively.

The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employment-readiness. Given the encouraging results, recurrent funding of about \$18 million has been allocated to VTC starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. Some 9 000 students in VTC will benefit every year.

**(Question Serial No. 3850)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Vocational Training Council (VTC) will implement the Pilot Subsidy Scheme for Students of Professional Part-time Programmes from the 2016/17 academic year to provide tuition fee subsidy for three cohorts of about 5 600 students in total admitted to designated professional part-time programmes, within the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register. What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 253)

Reply:

In order to further encourage continuing education, we have implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes (Pilot Scheme) starting from the 2016/17 academic year to provide tuition fee subsidy for working adults admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) covering programmes in the disciplines of construction, engineering and technology. The Pilot Scheme targets to encourage working adults to pursue higher qualifications which help enhance their upward mobility. It is estimated that the Pilot Scheme will benefit around 5 600 students in total for three cohorts.

Under the pilot scheme, eligible applicants for the subsidy should meet all the following criteria –

- (a) a resident of Hong Kong who is lawfully employable in Hong Kong; and
- (b) has newly and successfully enrolled for the first time into a self-financing part-time programme offered by VTC. The programmes enrolled should be –
  - (i) accredited at the Qualifications Framework Level 3 to 5 by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, excluding associate degree and bachelor's degree programmes; and
  - (ii) under the area of study/training in “Architecture and Town Planning” or “Engineering and Technology” under the classification of the Hong Kong Qualifications Register.

Successful applicants will be refunded 60% of the tuition fees of eligible programmes, subject to a maximum of \$45,000 per person. Each applicant may apply for fee refund for not more than two programmes under the Pilot Scheme. The Pilot Scheme will incur a total non-recurrent expenditure of \$200 million for three cohorts of students, including both tuition fee subsidy and VTC's administrative cost for implementing the Pilot Scheme. The estimated expenditure from the 2016-17 to 2021-22 financial years is as follows –

	<b>2016-17 \$ million</b>	<b>2017-18 \$ million</b>	<b>2018-19 \$ million</b>	<b>2019-20 \$ million</b>	<b>2020-21 \$ million</b>	<b>2021-22 \$ million</b>	<b>Total \$ million</b>
Tuition fee subsidy	6.3	33.1	55.7	60.2	27.6	6.1	<b>189.0</b>
Administrative cost	1.0	2.0	2.0	2.0	2.0	1.0	<b>10.0</b>
<b>Total</b>	<b>7.3</b>	<b>35.1</b>	<b>57.7</b>	<b>62.2</b>	<b>29.6</b>	<b>7.1</b>	<b>199.0</b>

Question:

The Education Bureau states that it will continue to implement the Fourth Strategy on Information Technology in Education. Major initiatives include the phased provision of wireless network services and other supporting facilities for all public sector schools. In this connection, what are the details and estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 254)

Reply:

The estimated expenditure for implementation of the Fourth Strategy on Information Technology in Education (ITE4) in 2017-18 is \$21.5 million for providing one-off grant for the last batch of some 180 schools under the WiFi-900 project for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; and for other support measures, including the promotion of e-safety. Besides, we will disburse an extra one-off IT grant of \$200,000 on average per school for the last batch of schools to enhance support on the practice of e-learning. An extra recurrent grant of \$70,000 will also be disbursed on average per school for all eligible public sector schools under the WiFi-900 project for subscription of WiFi services.

Question:

Regarding the Education Bureau's efforts to enhance the development of Hong Kong as a regional education hub in the 2016/17 school year, what are the work plans and expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 255)

Reply:

In recent years, we have been taking steps to enhance the development of Hong Kong as a regional education hub by internationalisation and diversification of the higher education sector.

Regarding internationalisation, we have implemented a basket of measures, including doubling the non-local student quotas of publicly-funded sub-degree, undergraduate and taught postgraduate programmes to 20% (whereby non-local students are admitted by over-enrolment on top of the approved student number), establishing the HKSAR Government Scholarship Fund (Scholarship Fund) to provide government scholarships to outstanding local and non-local students, allowing non-local students to take on summer jobs and on-campus part-time jobs, allowing non-local sub-degree students to take up mandatory, study/curriculum-related internship in Hong Kong, extending student exchange from degree and above programmes to sub-degree programmes, providing local students of sub-degree and degree programmes with means-tested grant to participate in exchange activities outside Hong Kong, enabling non-local students to stay in Hong Kong without limitations for 12 months after graduation as well as aligning the permitted period of stay of non-local students with the normal duration of their study programmes.

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), up to ten scholarships are offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. The expenditure on scholarship in 2016/17 is \$1.2 million.

As regards diversification, we have introduced in recent years a number of measures to facilitate the sustainable development of the self-financing post-secondary sector. These measures include –

- (i) Land Grant Scheme (LGS), which provides land sites and vacant government premises at nominal premium/rent to non-profit-making self-financing post-secondary institutions. Since the launch of the LGS in 2002, 11 sites and eight vacant government premises have been allocated;
- (ii) Start-up Loan Scheme, which provides interest-free loans to support non-profit-making self-financing post-secondary institutions to develop new college premises and re-provision existing premises operating in sub-optimal environment, such as refurbishing vacant government premises. Of the total commitment of \$9 billion, loans amounting to \$7.3 billion have been approved;
- (iii) The Self-financing Post-secondary Education Fund, with a total injection of \$3.52 billion, provides scholarships to students pursuing full-time locally-accredited self-financing sub-degree or undergraduate programmes; and supports worthwhile non-works projects that aim to enhance the quality of self-financing post-secondary education; and
- (iv) Research Endowment Fund, which includes an earmarked injection of \$3 billion to support the self-financing degree sector in enhancing its academic and research development.

The above initiatives are regular policy work of the Education Bureau hence the implementation is funded by our existing resources.

Question:

(a) The Education Bureau (EDB) will provide financial and professional support on a pilot basis to local public sector and Direct Subsidy Scheme (DSS) schools having formed sister schools with their counterparts in the Mainland in 2016-17. What are the details and expenditure involved? What is the total number of schools in the territory that have formed sister school with their counterparts in the Mainland? Please list the names of the schools.

(b) Will the EDB earmark resources for this purpose to continue the work in 2017/18? If yes, what are the details and estimated expenditure? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 256)

Reply:

(a) The Education Bureau has implemented a three-year Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland ("the Pilot Scheme") with effect from the 2015/16 school year through which a fixed grant of \$120,000 per annum and professional support are provided to local public sector and Direct Subsidy Scheme schools (including special schools) that have formed sister schools with their counterparts in the Mainland. The estimated expenditure for 2016-17 is about \$49 million. As at end of February 2017, the total number of Hong Kong schools that have sister school(s) in the Mainland is over 570. It is a prevailing practice that we do not disclose the name of each participating school in the Pilot Scheme to avoid possible labelling and unnecessary pressure on individual schools.

(b) The Pilot Scheme lasts for 3 years from the 2015/16 to 2017/18 school years. We have already reserved about \$149 million in 2017-18 for the continuation of the Pilot Scheme.

Question:

Starting from the 2016/17 academic year, the Government has introduced the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. In this connection, regarding the 2016/17 school year, please advise:

- a) the total amount of the scholarship;
- b) the maximum amount of scholarship per student;
- c) the number of benefitted students;
- d) the award criteria.

Asked by: Hon CHAN Tanya (Member Question No. 257)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places.

Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Ten Indonesian students have been awarded the scholarships and they are pursuing undergraduate studies in Hong Kong. Thus, the scholarship granted in the 2016-17 financial year was \$1.2 million. The scholarship is tenable for the normal duration of the programme concerned and renewable annually subject to satisfactory academic performance of the awardees.

The selection process of the Hong Kong Scholarship for "Belt and Road" Students (Indonesia) is merit-based. Participating institutions would make nominations to the Scholarship Fund Secretariat having regarded to the students' academic performance, leadership skills, communication skills, etc. The Indonesian Government would also be invited to make recommendations. The nominations and recommendations would then be passed to the Steering Committee of the Scholarship Fund for consideration and endorsement.

Question:

Will the Government continue to provide free lunch at schools for eligible needy primary students in special schools in the 2017/18 school year? If yes, what are the details, estimated expenditure and number of students expected to benefit from it? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 260)

Reply:

For the 2017/18 school year, we have earmarked a provision of about \$236 million to provide free lunch at school for needy primary students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector schools (including special schools) or primary schools under the Direct Subsidy Scheme. Regarding special schools, based on past experience, not all eligible students would join the programme. This is mostly because some special schools provide boarding service including lunch and some others have received funding or lunch subsidy of similar nature from other charities or organisations. For budgetary purposes, it is estimated that about 585 eligible primary students in special schools would benefit from the programme in the 2017/18 school year with an estimated expenditure of about \$2.3 million.

Question:

What were the numbers of ethnic minority students in Hong Kong in the past 3 years? (Please provide a breakdown by categories of ethnic minorities)

Asked by: Hon CHAN Tanya (Member Question No. 261)

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking ethnic minority students studying in public sector and Direct Subsidy Scheme primary and secondary schools in the past 3 years (i.e. from the 2014/15 to 2016/17 school years) is tabulated at Annex A and Annex B respectively. The number of ethnic minority students studying at kindergartens from the 2014/15 to 2016/17 school years is tabulated at Annex C.

**Number of non-Chinese speaking ethnic minority students by ethnicity studying in primary schools  
from the 2014/15 to 2016/17 school years**

	<b>2014/15</b>	<b>2015/16</b>	<b>2016/17</b>

Question:

- (a) Regarding strengthening schools' internal management and reducing teachers' administrative workload, what are the details and expenditures of the efforts made in the 2016/17 school year?
- (b) Regarding strengthening schools' internal management and reducing teachers' administrative workload, what are the specific work plan and estimated expenditures of the 2017/18 school year?

Asked by: Hon CHAN Tanya (Member Question No. 262)

Reply:

(a) and (b)

To support schools to strengthen their administration management, as well as to streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity, the Education Bureau (EDB) has launched the Pilot Project on Strengthening Schools' Administration Management (Pilot Project) since the 2011/12 school year. Each participating school is provided with professional support and a grant of \$0.45 million for trying out appropriate measures to enhance school administration.

A total of 132 public sector schools have participated in the Pilot Project in four phases, with the last phase completed by the end of 2016. The expenditure involving the last batch of schools was \$16.2 million.

In the light of the successful experience and good foundation of the Pilot Project, a one-off Strengthening School Administration Management (SAM) Grant at \$0.25 million has been provided in 2016 for public sector and Direct Subsidy Scheme schools which had not participated in the Pilot Project before to enable them to initiate improvement measures for enhancing the effectiveness of school administration management. Schools may use the SAM Grant up to 31 August 2018. The total expenditure incurred was \$214.3 million. We will continue to enhance the Web-based School Administration and Management System to further strengthen our support to all schools.

Question:

Regarding the collection of tuition fees and intake of students by self-financing post-secondary institutions, please advise of the following:

(a) the respective total amount of application fees and enrolment deposits collected by self-financing post-secondary institutions, as well as the total amount of non-refundable enrolment deposits paid by students who subsequently declined offers in the past 3 academic years, with a breakdown by academic year and institution;

(b) the respective number of places and actual student intake of self-financing post-secondary institutions in the past 2 school years, with a breakdown by institution and programme type (e.g. sub-degree, top-up degree and degree programmes);

(c) whether reviews have been scheduled for the 2017/18 academic year to look at the supply of and demand for programme places and the operation of programmes offered by self-financing post-secondary institutions, as well as the future development of these institutions; if yes, the details and findings of the reviews; if no, whether the Administration will embark on a review in the short term; if it will, the details of the work plan; if it will not, the reasons for that; and

(d) given that the progressive drop in secondary student population in the next few years will have direct impact on the student enrolment and even viability of self-financing post-secondary institutions, whether the Administration has formulated targeted measures to support self-financing post-secondary institutions in exploring new development directions; if yes, the details of such measures; if no, the reasons for that.

Asked by: Hon CHAN Tanya (Member Question No. 263)

Reply:

(a)  
Based on the data provided by institutions offering full-time locally-accredited self-financing sub-degree and undergraduate programmes, information on application fees and enrolment deposits collected by each of the institutions from the 2013/14 to 2015/16 academic years is set out at **Annex A**.

(b)  
Based on the data provided by the institutions, the estimated and actual intakes of self-financing sub-degree, top-up degree and undergraduate programmes by institution from the 2015/16 to 2016/17 academic years are set out at **Annex B and C**.

(c)&(d)

Through the development of the publicly-funded and self-financing sectors, about 45% of our young people in the relevant cohort now have access to degree-level education in Hong Kong. Including sub-degree education, over 70% of them now have access to post-secondary education locally. Looking ahead, we envisage the number of secondary school graduates to drop from about 57 000 in 2016 to 43 000 in 2022. At present, there are sufficient publicly-funded and self-financing post-secondary places at sub-degree level or above for all Secondary 6 students who meet the minimum entrance requirements for admission.

We have been communicating with self-financing post-secondary institutions on various occasions the strategies and issues relating to the consolidation on both the quality and quantity of their programmes in view of declining student population in the coming years. The institutions have also been reminded to remain prudent in launching new programmes and to take into consideration the availability of similar programmes and the demand for programmes to be offered.

At the same time, in order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year. The regularisation of SSSDP will also help encourage the self-financing institutions to focus on developing programmes which could meet the manpower needs and economic development of Hong Kong.

**Notes:**

[1] The figures in brackets represent enrolment deposits that have not eventually become part of tuition fees.

“-” indicates no such programme is offered or no such fee is charged by the institution.

“#” includes the application fees for University Grants Committee -funded or self-financing senior year places of business administration programmes.

“%” The institution does not have such figures.

“\*” Application fees are applicable to both local and non-local applicants.

“^” As a common application arrangement is adopted for both its publicly-funded and self-financing programmes, VTC cannot provide the figures for application fees for self-financing programmes separately.

“+” VTC will automatically turn enrolment deposits into part of tuition fees at the beginning of the academic year regardless of whether the applicants have taken up its offers.

**(Question Serial No. 3867)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the tuition fee reimbursement mechanism put in place by the Education Bureau to provide a flat-rate academic expenses grant for needy students pursuing eligible full-time programmes below sub-degree level and which has been regularised starting from the 2014/15 academic year, please advise:

- (a) the details, eligible programmes, assessment criteria, manpower resources, number of beneficiaries and expenditure involved for 2016/17;
- (b) the estimated expenditure and number of beneficiaries for 2017/18.

Asked by: Hon CHAN Tanya (Member Question No. 264)

Reply:

In the 2013/14 academic year (AY), the Community Care Fund launched a programme to enhance the support for eligible students pursuing below sub-degree programmes in two aspects, including the introduction of a tuition fee reimbursement mechanism, and provision of a flat-rate academic expenses grant for students. The Government has regularised the programme starting from the 2014/15 AY.

In order to ensure the quality of the programmes, student beneficiaries should meet all the criteria below –

- (a) they are pursuing full-time programmes below sub-degree level;
- (b) they are pursuing Government-subsidised programmes; for self-financing programmes, the following conditions must be satisfied –
  - (i) the programmes are accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications;
  - (ii) the tuition fee levels are approved by the Education Bureau; and
  - (iii) the programmes are accepted by the Civil Service Bureau as meeting the entry qualification of civil service grades requiring Level 2 in five subjects, including Chinese Language and English Language, in the Hong Kong Diploma of Secondary Education examination;
- (c) they are eligible for full or half grant assistance under the means-test mechanism of the Working Family and Student Financial Assistance Agency (WFSFAA); and

- (d) their families are not recipients of the Comprehensive Social Security Assistance (CSSA), since “school fees and school-related expenses” are already covered by the “special grants” under CSSA.

In addition to the above criteria, only students pursuing full-year programmes will be eligible for the flat-rate academic expenses grant.

For the 2016/17 AY, students meeting the above criteria (a)-(d) are those pursuing Diploma Yi Jin (DYJ) programme and subvented full-time programmes below sub-degree level offered by the Vocational Training Council (VTC), as well as the self-financed Diploma of Foundation Studies programme offered by VTC. Some of these programmes are full-year programmes and some are not. Students eligible to receive full or half grant under the means-test mechanism of the WFSFAA will be eligible to receive reimbursement of 100% or 50% of the tuition fees respectively. However, it is worthy to note that students pursuing DYJ programme are already entitled to tuition fee reimbursement under WFSFAA’s existing student financial assistance scheme, and are therefore not covered by the tuition fee reimbursement scheme above.

If students pursue programmes of duration at one year or above, they may also receive full or half level of the flat-rate academic expenses grant. For reference, eligible students are entitled to a full-grant of \$2,292 or a half-grant of \$1,146 in the 2016/17 AY. The amount of the flat rate grant will be subject to annual price adjustment.

For the 2016/17 AY, the estimated expenditure for the programme is about \$59.6 million, and about 3 000 and 4 300 students will receive the tuition fee reimbursement and flat-rate academic expenses grant respectively. The expenditure only covers the financial assistance to students and the Government will provide administrative support using existing manpower resources.

The information for the 2017/18 AY is not yet available.

Question:

- (a) What were the details and expenditure in overseeing the Hong Kong Examinations and Assessment Authority in each of the past 5 years?
- (b) What are the detailed plan and estimated expenditure in overseeing the Hong Kong Examinations and Assessment Authority in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 265)

Reply:

(a)&(b)

The Hong Kong Examinations and Assessment Authority (HKEAA) is a statutory body set up in 1977 under the HKEAA Ordinance (Cap. 261). Within the broad policy framework set by the Government in respect of its statutory functions, the HKEAA enjoys autonomy in its day-to-day operation. It is governed by the HKEAA Council with members drawn from various sectors, including tertiary institutions, schools, business and the Government. In respect of the Government's general monitoring role, the Education Bureau (EDB) is represented on the HKEAA Council and its committees. HKEAA is also required to submit its annual estimates of income and expenditure and programme of its proposed activities to the Government for approval, and to table its annual audited accounts and report of activities at the Legislative Council every year, under the HKEAA Ordinance (Cap. 261). As regards specific monitoring of the use of one-off non-recurrent grant to HKEAA for specific projects, the EDB will, apart from being represented on the relevant committees, require HKEAA to report progress of the projects on a regular basis. The manpower and administrative costs for the EDB's monitoring role are subsumed under the existing resources of the EDB.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the old-style school premises commonly known as “matchbox-style school premises”, please advise of the following:

- (1) the current number, locations, commissioning dates and usage of “matchbox-style school premises” of public sector schools;
- (2) whether any timetable is drawn up to phase out all the existing “matchbox-style school premises”; if yes, the timetable and details; if no, whether the Administration will consider drawing up such a timetable and work plan; if it will, the details; if it will not, the reasons for that;
- (3) given that at present, the school premises of some public sector schools that are subject to space constraints can hardly meet the current standards even if improvement works are carried out, whether the Administration will consider according priority to these schools in the allocation of vacant school premises to increase the space of their school premises; if yes, the specific arrangements; if no, the reasons for that.

Asked by: Hon CHAN Tanya (Member Question No. 24)

Reply:

(1) The so-called “matchbox-style school premises” refer to those cuboidal shaped premises constructed between mid-1960s and 1980 at public housing estates for primary school use. At present, there are 28 public sector primary schools operating in such premises and two of them have been allocated with new school premises for re-provisioning.

In response to the request made by the Legislative Council Panel on Education (the Panel) in March 2016, we have consulted the 28 schools concerned on whether they would agree to our releasing their school information to the Panel. Of the 28 schools concerned, 26 schools have sent in their replies. 23 of them have no objection to the release of their school information to the Panel while three schools do not agree so. The information related to the 23 schools which have given their consent is set out in the Annex. Among the remaining five schools, two are located in Kwun Tong, two in Tsuen Wan and one in Kwai Tsing, and all these school premises were built 41-50 years ago.

(2) Over the years, the Education Bureau (EDB) has put in place various measures to enhance the facilities of school premises according to the needs of the schools, so as to improve their teaching and learning environment. These measures mainly include the School Improvement Programme (SIP) implemented between 1994 and 2006, re-provisioning programme, redevelopment programme and minor improvement projects. School premises maintenance works will also be carried out to improve the facilities

of schools through the established mechanism of major repairs and emergency repairs, and about \$1,186 million, representing an increase of about 9% when compared to 2016-17, has been earmarked in 2017-18 for the purpose.

In light of the discussion and consensus reached by EDB, the Panel and the sector at the tripartite meetings held in 2016, the Chief Executive announced in his Policy Address on 18 January 2017 the initiative to improve the facilities of 26 “matchbox-style school premises” with regard to the unique design features of such premises. We have briefed Members of the Panel at its meeting of 13 February 2017 on the related arrangement, including five proposed improvement measures in relation to the common problems arising from the unique design features of these school premises, as well as exploration of potential scope for campus expansion and technically feasible means for better utilising the existing space. The Government will allocate additional resources to take forward the aforementioned improvement scheme.

(3) For reprovisioning of existing schools to new school premises built on reserved school sites or vacant school premises (VSP) which are suitable for this purpose, allocation is generally done through open and competitive bidding under the School Allocation Exercises (SAE). EDB launches SAE from time to time and all eligible school sponsoring bodies in the territory may submit applications for reprovisioning existing schools under their sponsorship. The applications will be assessed by the School Allocation Committee (the Committee), which comprises both official and non-official members. While quality of education is the prime consideration, the Committee will also take into account factors such as the operation track record of the school sponsoring body, the school plan after relocation, etc. Condition of the existing school premises is one of the major factors of consideration for reprovisioning cases.

We have reviewed the VSP and reserved school sites under EDB and shortlisted those which could potentially be allocated for the purpose of reprovisioning or physical extension of existing schools through SAE in 2017. While suitable new sites or VSP available for such purpose are limited in number and are not found in all the districts where “matchbox-style school premises” are situated, EDB will expedite the relevant allocation process through the existing school allocation mechanism. Schools may take into account their school-based considerations and consider if they would like to apply for the sites/premises concerned.

Question:

The Government has granted start-up loans to various post-secondary institutions. In this connection, what are the amount of loans obtained by and the loan repayment situation of each institution at present?

Asked by: Hon CHAN Tanya (Member Question No. 266)

Reply:

In 2001, the Government launched the Start-up Loan Scheme (SLS) to provide interest-free loans to support non-profit-making self-financing post-secondary institutions to develop new college premises and/or re-provision existing premises operating in sub-optimal environment. Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years. As at 10 March 2017, 39 loans amounting to a total of about \$7.3 billion were approved. 14 loans have been fully repaid and the total amount of outstanding loan is about \$4.2 billion. Details of the approved loans and loan repayment are set out at **Annex**.

**CONTROLLING OFFICER'S REPLY****EDB328****(Question Serial No. 4211)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau indicates that it will continue to oversee the implementation of the Basic Competency Assessment which comprises the Territory-wide System Assessment and the Student Assessment, the latter has been upgraded to Student Assessment Repository (STAR). What are the operational details and estimated expenditure of STAR?

Asked by: Hon CHAN Tanya (Member Question No. 150)

Reply:

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on SA and TSA and related study under the project for the contract period of 2015-2018 is set out below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)	Average expenditure per year (\$ million)
	SA	TSA and related study under the project		
2015-2018	3*	290	293	73

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017. The expenditure for STAR has been subsumed under the overall expenditure of the EDB.

The number of primary and secondary schools which participated in STAR, their percentage share in the respective school types and the number of login records in STAR in 2016/17 are listed in the following tables:

<b>School Year</b>	<b>2016/17</b>
	<b>STAR (Jan – Feb 2017)</b>
No. of primary schools using STAR	125
Percentage of primary schools using STAR	25%
No. of login records by primary school students	20 586

<b>School Year</b>	<b>2016/17</b>
	<b>STAR (Jan – Feb 2017)</b>
No. of secondary schools using STAR	39
Percentage of secondary schools using STAR	9%
No. of login records by secondary school students	3 573

SA has been upgraded to STAR platform since January 2017. The figures shown above reflect the situation for two months from January to February 2017.

Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

(a) In 2016-17, what were the work and expenditure for the Pilot Training and Support Scheme (Pilot Scheme)? How many young people benefited from the Pilot Scheme? For 2017-18, what are the work and estimated expenditure for the Pilot Scheme? How many young people are expected to benefit from the Pilot Scheme?

(b) Will the Bureau conduct a review of the Pilot Scheme? If yes, what are the details and estimated expenditure? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 151)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme was in general well received by the participating employers and students. Therefore, the Government has decided to extend the Pilot Scheme for two more cohorts of students admitted in the 2016/17 and 2017/18 AYs, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. The Pilot Scheme may be further extended in case there are unexpended funds after implementing for four cohorts. The Government and VTC will review the operation of the Pilot Scheme having regard to relevant data such as the percentage of trainees who successfully completed the apprenticeship training, the percentage of trainees who subsequently joined the relevant trades as apprentices and the retention rate of participants in the relevant industries in order to determine the way forward after the pilot run.

The commitment of the Pilot Scheme covers the allowance to be provided to students only, and VTC will provide administrative support for the Pilot Scheme using existing manpower resources. Up to the 2016-17 financial year, the expenditure of the Pilot Scheme is about \$60.9 million in total. As at 28 February 2017, about 2 400 trainees have benefitted from the Pilot Scheme. It is estimated that some 1 000 students will participate in the Pilot Scheme in 2017/18 AY and the estimated expenditure of the Pilot Scheme in the 2017-18 financial year is about \$66 million.

**(Question Serial No. 4215)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- a) In 2016-17, what did the Education Bureau (EDB) do in promoting the upholding of the quality of vocational and professional education and training (VPET)? What was the expenditure involved?
- b) For 2017-18, what are the EDB's work plan in respect of the above work and the estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 152)

Reply:

In June 2014, the Government set up the Task Force on Promotion of Vocational Education (Task Force) with a view to mapping out a strategy to promote vocational education and training (VET) in the community. The Task Force submitted its Report to the Government in July 2015, proposing a three-pronged strategy with a total of 27 recommendations as set out at Annex. Among others, the Task Force recommended to rebrand VET to "vocational and professional education and training" (VPET) covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the Task Force's recommendations and the Education Bureau (EDB) has been actively following up on the implementation of the recommendations. The major progress so far is as follows –

- (a) launching three Announcement in Public Interests APIs and three videos in the first quarter of 2016 and in early 2017 respectively to promote the professional image of VPET;
- (b) earmarking a site in Cha Kwo Ling to develop a Vocational Training Council (VTC) campus with adequate capacity and state-of-the-art facilities. Relevant planning work is underway. The Government also supports VTC in principle to construct the Aircraft and Marine Engineering Centre on the site of the Hong Kong Institute of Vocational Education (Tsing Yi);
- (c) encouraging secondary schools to adopt a whole school approach in career and life planning education and enhancing individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (d) fully subsidising Applied Learning (ApL) courses starting from the 2016/17 school year;
- (e) extending the Pilot Training and Support Scheme (PTSS) for two more cohorts benefitting 2 000 more students admitted in the 2016/17 and 2017/18 academic years with an additional estimated non-recurrent expenditure of \$144 million (the PTSS, with an original commitment of \$144 million, has been implemented in VTC since the 2014/15 academic year which targets to benefit a total of

2 000 students of two cohorts. Under the Pilot Scheme, apprenticeship training for targeted industries is provided to students alongside a guaranteed level of salary and incentive allowance);

- (f) launching a new category under the Quality Enhancement Support Scheme of the Self-financing Post-secondary Education Fund in January 2016 for a pilot period of two years to support industrial attachment projects that aim to increase students' employability;
- (g) regularising the Study Subsidy Scheme for Designated Professions/Sectors starting from the 2018/19 academic year and increasing the number of subsidised places to about 3 000 per cohort. The Scheme was first launched on a pilot basis in the 2015/16 academic year for three cohorts to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines to nurture talents to meet Hong Kong's social and economic needs;
- (h) enhancing the promotion of the Qualifications Framework (QF) with the QF Fund;
- (i) conducting a series of perception survey with a view to keeping track of any changes in the public's attitude towards VPET later; and
- (j) co-organising a VPET International Conference with VTC in June 2017 and supporting VTC in organising a large scale skills competition during the same period.

Separately, in order to further encourage continuing education, we have implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes starting from the 2016/17 academic year to provide tuition fee subsidy for working adults admitted to designated professional part-time programmes offered by VTC covering programmes in the disciplines of construction, engineering and technology. The Pilot Scheme targets to encourage working adults to pursue higher qualifications which help enhance their upward mobility. It is estimated that the Pilot Scheme will benefit around 5 600 students in total for three cohorts.

Some of the recommendations of the Task Force are implemented with existing manpower resources as well as funds already established, i.e. the Self-financing Post-secondary Education Fund and QF Fund. Apart from these, the estimated additional annual recurrent expenditure required to fully subsidise ApL courses is about \$13 million while the estimated additional non-recurrent expenditure to promote VPET so far arising from the recommendations of the Task Force and the Pilot Subsidy Scheme for Students of Professional Part-time Programmes is some \$360 million.

The financial provision for Vocational and Professional Education under Programme (7) in 2016-17 and 2017-18 is as follows –

2016-17 (Revised estimate) (\$ million)	2017-18 (Estimate) (\$ million)
2,456.2	2,464.3

**List of 27 Recommendations Made by  
the Task Force on Promotion of Vocational Education**

**Strategy 1: Rebranding Vocational Education and Training (VET)**

- (1) the Government to rebrand VET in Hong Kong as “vocational and professional education and training (VPET)” covering programmes up to degree level with a high percentage of curriculum consisting of specialised contents in vocational skills or professional knowledge;

**Strategy 2: Strengthening Promotion**

*(a) Promotion of Professional Image of VPET*

(i) Publicity Campaign

- (2) the Government to produce Announcement in Public Interest (API) on TV/radio by involving industry role models where appropriate. The API may also be broadcast on Facebook, YouTube, dedicated portal for VPET and other online media;
- (3) the Government to produce TV drama series (including related publicity and production of DVDs), presenting real success stories of persons graduated from VPET programmes and make them continuously accessible to the public through the VPET Portal which facilitates guidance to students;
- (4) the Government to continue to support major VPET provider(s) to organise large-scale skills competitions to showcase VPET students’ achievement and provide interactive activities for secondary school students’ experience, or even consider bidding for the hosting of such competitions in Hong Kong in due course with a view to raising public awareness of the professionalism of VPET and related industries as well as enhancing the skill level of local talent;

(ii) Campus Facilities of VPET Providers

- (5) the Government to facilitate the provision of state-of-the-art facilities to VPET providers in order to provide conducive learning environment to VPET students and enhance the professional image of VPET riding on the existing support schemes or otherwise;

(iii) Quality of Programmes Offered by VPET Providers and Research Capability

- (6) VPET providers to enhance quality of their VPET programmes, and strengthen the support services to students where possible;
- (7) VPET providers to consider whether it is appropriate for them to engage in (more) research activities (which could be action research, applied research, technology-oriented research other than academic research) to inform teaching and learning, etc.;

*(b) Provision of More Information about VPET and Related Career*

(i) VPET Portal

- (8) the Government to develop and maintain a VPET portal which gathers comprehensive and impartial information on VPET programmes and related industries in Hong Kong, as well as links up other relevant portals;

(ii) VPET Forum

- (9) the Government, VPET providers and industry sectors to attend international VPET forums from time to time to keep abreast of the latest development of VPET worldwide;
- (10) the Government or VPET providers to organise local VPET forums from time to time with the participation of the industry sectors, in order to provide up-to-date industry and career information to secondary school students, parents and teachers;

(c) Promotion of VPET through Career and Life Planning Education

- (11) the Education Bureau (EDB) to encourage secondary schools to adopt a whole school approach in career and life planning education and enhance individual guidance and support to students to facilitate self-understanding and exploration of multiple pathways including VPET;
- (12) VPET providers and major chambers of commerce to arrange (more) training workshops cum visits for principals, teachers and career masters in secondary schools, with the facilitation of EDB through the Business-School Partnership Programme (BSPP) so as to provide them with the latest developments of VPET in Hong Kong and the related careers. Such training workshops cum visits should also be extended to prospective secondary school teachers pursuing teaching programmes in tertiary institutions as well as non-governmental organisations which play a role in offering articulation and career advice to students;
- (13) VPET providers and major chambers of commerce to arrange (more) taster programmes for secondary school students with the facilitation of EDB through BSPP;
- (14) VPET providers and major chambers of commerce to organise seminars and visits for parents of secondary school students for their better understanding of VPET and the related careers as well as the progression pathways, with the facilitation of EDB;

(d) More Contribution from Industries

(i) Closer Collaboration with VPET Providers

- (15) the major chambers of commerce and VPET providers to have closer collaboration on the design and development of VPET programmes (including the curriculum, industrial attachment, etc.) such that the learning outcome could fulfill employers' needs and expectation;
- (16) the Vocational Training Council to regularly review the list of Training Boards to cover emerging industries so that manpower surveys would be conducted to better inform VPET training providers and prospective students of the areas with growing manpower demand;

(ii) Remuneration, Working Conditions and Progression Pathways

- (17) the major chambers of commerce to encourage their members to devise comprehensive human resource strategy to attract and retain staff, covering the remuneration package, working conditions and progression pathways, etc.;

(e) Promotion of Applied Learning

- (18) EDB to encourage course providers to arrange accreditation of more Applied Learning (ApL) courses under the Qualifications Framework (QF) where appropriate so that apart from the Hong Kong Diploma of Secondary Education (HKDSE), students completing ApL courses may obtain a separate QF-recognised qualification for further studies in the relevant fields or entry into the industries concerned;

- (19) post-secondary education institutions in Hong Kong to give due consideration of the results of ApL courses attained by students in the HKDSE Examination in student admission as an incentive for students to take ApL and benefit from the experiences and also an incentive for their parents to support them to do so;
- (20) the Government to consider providing 100% grant subsidies to schools for the ApL course fees and encourage more schools to offer ApL courses based on their student profiles;

*(f) Provision of Financial Support by the Government*

(i) Pilot Training and Support Scheme (Pilot Scheme)

- (21) the Government to consider extending the Pilot Scheme to benefit more students pending a review;

(ii) Industrial Attachment (IA)

- (22) the Government to extend the IA initiative to benefit students pursuing full-time locally-accredited self-financing sub-degree and undergraduate programmes where applicable;

(iii) Study Subsidy Scheme for Designated Professions / Sectors (SSSDP)

- (23) the Government to consider extending the SSSDP if it is proven effective;

**Strategy 3: Sustaining Efforts**

*(a) Influence by the Government*

- (24) the Government to encourage the senior Government officials to seize every opportunity to promote and support VPET on different occasions so as to demonstrate the Government's support and recognition of VPET as an integral part of the community;

*(b) Promotion of Qualifications Framework*

- (25) EDB to enhance the publicity efforts on QF targeting at employers and the general public. Articulation pathways for lifelong learning and progression pathways for different industries under QF should also be further promoted;
- (26) the major chambers of commerce to encourage their members to make reference to QF in recruitment and promotion, so as to increase the relevance of QF to learners and practitioners which would in turn help promote VPET; and

*(c) Tracking Surveys on Attitude Change*

- (27) the Government to conduct tracking surveys by involving relevant stakeholders to keep track of any changes in their attitude towards VPET.

- End -

Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- a) What were the number of students from each of the post-secondary institutions who undertook internships in Hong Kong, the Mainland or the overseas in the past 5 years and the expenditure involved for each year and each institution?
- b) What are the estimated expenditure in this regard and the estimated number of benefited students in the 2017/18 academic year?

Asked by: Hon CHAN Tanya (Member Question No. 153)

Reply:

Internship helps enhance the employability of students by providing them with better understanding of, and seamless transition to, the workplace. The number of students studying full-time publicly-funded post-secondary programmes who undertook internships in Hong Kong, the Mainland and other destinations for the 2012/13 to 2016/17 academic years is at Annex. The estimated number of students who will undertake internship in the 2017/18 academic year is not available.

The University Grants Committee (UGC) and the Administration have all along been supportive of institutions' efforts to provide exchange and internship opportunities to students. In 2012, we launched the \$2.5 billion Sixth Matching Grant Scheme (MGS) and encouraged institutions to make use of the funds available from the MGS for, inter alia, exchange and internship programmes. Following the announcement in the 2017 Policy Address, we will launch the seventh MGS to provide a maximum grant of \$500 million for application by eligible local self-financing degree-awarding institutions. The UGC also provided an additional one-off \$50 million to the eight UGC-funded institutions to enhance exchange opportunities, including internship opportunities, for local students. We have also launched a five-year Pilot Mainland Experience Scheme in the 2011/12 academic year with a total commitment of \$100 million to subsidise on a matching basis post-secondary students to participate in short-term internship or learning programmes in the Mainland. In 2012, an injection of \$1 billion was made each into the Hong Kong SAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund (SPEF) to establish more scholarships or awards to benefit a wider range of students. A new award, called Reaching Out Award, was set up under the two funds to support meritorious students studying in both publicly-funded and self-financing institutions to participate in, inter alia, learning, internship or service programmes. Starting from the 2014/15 academic year, a recurrent funding of about \$18 million has been allocated to the Vocational Training Council to provide industrial attachment opportunities for about 9 000 students every year. Besides, a new category was launched under the Quality Enhancement Support Scheme (QESS) of SPEF in January 2016 for a pilot period of two years to provide funding support to industrial attachment (IA) projects that aim to increase students' employability by sourcing more internship opportunities for post-secondary students or enhancing relevant institutional support for students. A total commitment of about \$15 million was approved for five IA projects under QESS in the 2015/16 academic year. We are processing applications for QESS in the 2016/17 academic year.

**Number of Students of Full-time Publicly-funded Post-secondary Programmes Undertaking Internship by Destination from the 2012/13 to 2016/17 Academic Years**

Notes:

1. An internship refers to a period of work arranged or endorsed by the institution providing the publicly-funded programme in which the student is enrolled. There is no restriction on the duration of internship, i.e. the internship can be a part-time or full-time work arrangement, provided that it forms a compulsory or elective component of the programme, regardless of whether it is credit-bearing.
2. The 2016/17 figures are provisional figures as at end 2016.
3. Figures for the Education University of Hong Kong do not include Field Experience for students.

**CONTROLLING OFFICER'S REPLY****EDB332****(Question Serial No. 4234)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the top-up degree programmes registered with the Non-local Courses Registry in the past 3 years, will the Hong Kong Council for Accreditation of Academic and Vocational Qualifications provide this Committee the statistics on the number of registrations, number of people who pursued such programmes, institutions that jointly run such programmes in Hong Kong and professional qualifications awarded for each year.

Asked by: Hon CHAN Tanya (Member Question No. 171)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (the Ordinance), courses conducted in Hong Kong leading to the award of non-local higher academic or professional qualifications are required to register or seek exemption from registration.

Completion of professional programmes registered / exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in the relevant legislation or by the respective professional bodies, take examination / assessment for attaining the professional qualifications. The Non-local Courses Registry does not collate information on the award of professional qualifications.

The information of top-up Bachelor degree programmes <sup>Note 1</sup> registered / exempted from registration under the Ordinance from the 2014/15 to 2016/17 academic years is set out below:

	2014/15		2015/16		2016/17 <sup>Note 2</sup>	
	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes
Number of top-up Bachelor degree programmes	93	104	94	104	95	95
Institutions jointly running the top-up Bachelor degree programmes						
Number of overseas institutions	28	25	28	25	23	28

Number of operators (for Registered programmes) / Number of local institutions of higher education (for Exempted programmes)	24	8	24	8	12	8
Number of students enrolled	4 565	5 985	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes – (a) Bachelor degree programmes (whether bearing “top-up degree” or not in the programme names) with duration not more than 18 months; and (b) sub-degree or equivalent qualification as an entry requirement.

Note 2: Information as at 28 February 2017.

Note 3: Statistics not yet available as the related information will only be provided by operators/ institutions six months after the end of an academic year.

- End -

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) What were the respective numbers of teachers in long whole-day kindergartens, whole-day kindergartens, half-day kindergartens and kindergartens with both half-day and whole-day classes in the past 3 years?
- (b) What were the numbers and percentages of teacher wastage in long whole-day, whole-day and half-day kindergartens, their length of service, salaries, academic qualifications and average age in the past 3 years?

Asked by: Hon CHAN Tanya (Member Question No. 269)

Reply:

- (a) The respective number of serving teachers in local whole-day (WD) kindergartens (KGs), half-day (HD) KGs and KGs with both HD and WD classes in the 2014/15, 2015/16 and 2016/17 school years is tabulated below:

School Year	2014/15	2015/16	2016/17 (Note 1)
No. of teachers in local WD KGs	2 309	2 417	2 522
No. of teachers in local HD KGs	3 546	3 857	3 955
No. of teachers in local KGs with both HD and WD classes	6 231	6 206	6 267

Among the above KGs with WD classes, the number of serving teachers in former aided child care centres (FACs) (Note 2) in the 2014/15, 2015/16 and 2016/17 school years is tabulated below:

School Year	2014/15	2015/16	2016/17 (Note 1)
No. of teachers in FACs (Note 2)	2 319	2 412	2 561

- (b) The number and percentage of wastage; average years of service, average salary, academic qualifications and average age of serving KG teachers in local WD KGs, HD KGs and KGs with both HD and WD classes in the 2014/15, 2015/16 and 2016/17 school years are tabulated below:

2014/15 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	161 (7.3%)	280 (8.6%)	627 (10.2%)
Average years of service	12.8	13.5	13.5
Average salary per month	\$21,443	\$21,136	\$18,982
Number of teachers with Certificate in Early Childhood Education or above	2 235	3 097	5 591
Average age	34.9	36.5	36.4

2015/16 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	157 (6.8%)	328 (9.2%)	554 (8.9%)
Average years of service	12.7	13.6	13.4
Average salary per month	\$23,212	\$22,532	\$20,140
Number of teachers with Certificate in Early Childhood Education or above	2 346	3 384	5 647
Average age	34.9	36.6	36.1

2016/17 school year (Note 1)

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3) (%)	232 (9.6%)	416 (10.8%)	663 (10.7%)
Average years of service	12.5	13.6	13.3
Average salary per month	\$24,398	\$23,887	\$21,417
Number of teachers with Certificate in Early Childhood Education or above	2 464	3 569	5 786
Average age	34.7	36.5	36.0

Among the above KGs with WD classes, the number and percentage of wastage; average years of service, average salary, academic qualifications and average age of serving KG teachers in FACs (Note 2) in the 2014/15, 2015/16 and 2016/17 school years are tabulated below:

Teachers in FACs (Note 2)			
School year	2014/15	2015/16	2016/17 (Note 1)
Number of wastage (Note 3) (%)	169 (7.6%)	162 (7.0%)	232 (9.6%)
Average years of service	12.6	12.5	12.2
Average salary per month	\$21,197	\$22,956	\$24,125
Number of teachers with Certificate in Early Childhood Education or above	2 258	2 352	2 509
Average age	34.7	34.7	34.4

Note:

1. The figures of the 2016/17 school year are provisional.
2. Long WD services refer to FACs operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.
3. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs/FACs as at mid-September of the preceding school year. "Drop-out teacher" refers to the teacher who had served in a local KG/FAC as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Subhead (No. & title): (000) Operational Expenses  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the pre-primary education, please provide the number of non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (PEVS), the number of kindergartens not joining the PEVS, the number of school places they offered and their average school fees by District Council district in the past 3 years.

Asked by: Hon CHAN Tanya (Member Question No. 270)

Reply:

The number of local non-profit-making (NPM) kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) and the number of school places and average school fees of these KGs by District Council district in the past 3 years are tabulated at Appendix 1. For local KGs not joining the PEVS, relevant information is tabulated at Appendix 2.

Number of local non-profit-making kindergartens (KGs) joining the Pre-primary Education Voucher Scheme (PEVS) and number of school places and average school fees of these KGs by District Council district from the 2014/15 to 2016/17 school years

**CONTROLLING OFFICER'S REPLY**

**EDB335**

**(Question Serial No. 4293)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

What were the details and amount of subsidies (including those for the Pre-primary Education Voucher Scheme, Kindergarten and Child Care Centre Fee Remission Scheme, refund of rent, rates and government rent, Child Care Centre Subsidy Scheme and training of principals and teachers) provided by the Government for pre-primary education in the past 3 years?

Asked by: Hon CHAN Tanya (Member Question No. 271)

Reply:

Details of Government subsidy for pre-primary education are as follows:

- (i) Under the Pre-primary Education Voucher Scheme (PEVS), non-means-tested direct fee subsidy, in the form of voucher, is provided for parents with eligible children studying in kindergartens (KGs) to defray school fees.
- (ii) Fee remission is provided for KG children from needy families under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) on top of the non-means-tested fee subsidy under the PEVS.
- (iii) Rental subsidy is provided under the Rent Reimbursement Scheme to eligible non-profit-making (NPM) KGs to meet the rent expenses. NPM KGs may also claim full refund of rates and government rent for their school premises.
- (iv) Financial assistance is provided under the Child Care Centre Subsidy Scheme (CCCSS) to eligible NPM child care centres rendering services for children below the age of three.
- (v) Various professional training courses on early childhood education (ECE) are provided for KG principals and teachers for professional upgrading and development.

The respective expenditure incurred from 2013-14 to 2016-17 are as follows:

	2014-15	2015-16	2016-17
	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Revised Estimate)
(i) PEVS	2,535.7	2,957.2	3,193.8
(ii) KCFRS	539.9	529.0	580.5
(iii) Refund of rent, rates and government rent	238.0	256.3	275.2
(iv) CCCSS	15.9	15.6	15.4
(v) Principal and teacher training #	3.7	1.5	1.0

# The expenditure for 2014-15 was relatively high because we offered course fee reimbursement for KG principals and teachers serving in PEVS KGs who pursued relevant approved courses in the 2012/13 and/or 2013/14 school year and successfully completed the course by the end of the 2013/14 school year with a view to further supporting their professional upgrading. The expenditure for 2016-17 slightly decreased because a project on thematic workshops for the 2015/16 school year has been completed. For other training programmes organised by various Sections of the Education Bureau (EDB), the relevant manpower resources and expenditure have been subsumed under the overall expenditure of EDB.

Question:

How many international schools are currently leasing Government premises? Regarding international schools operated on school premises leased from the Government, please provide the following information in table form:

1. Name of international school
2. School address
3. Number of students
4. Area of school
5. Rent

Asked by: Hon CHAN Tanya (Member Question No. 272)

Reply:

According to our record, 13 international schools are currently operating in leased Government premises. Their school name, address and site area of the leased premises, the number of students at these schools at the premises concerned in the 2016/17 school year and the type of rent payable for the premises are set out at the **Appendix**.

**Name of international schools leasing Government premises, address and site area of the leased premises, number of enrolled students at the premises in the 2016/17 school year, and the type of rent payable for the premises**

School Name	Address	Site Area (about)	No. of enrolled students	Type of Rent
American School Hong Kong	6 Ma Chung Road, Tai Po, New Territories	5 770 m <sup>2</sup>	96	Nominal
Carmel School	460 Shau Kei Wan Road, Hong Kong	3 380 m <sup>2</sup>	106	Nominal
	10-12 Borrett Road, Hong Kong	2 737 m <sup>2</sup>	140	
Christian Alliance PC Lau Memorial International School	Lai Yiu Estate, Kwai Chung, New Territories	4 410 m <sup>2</sup>	442	Nominal
French International School	1 Cheung Man Road, Chai Wan, Hong Kong	6 432 m <sup>2</sup>	354	Nominal
	68 Gillies Avenue, Hung Hom, Kowloon	1 895 m <sup>2</sup>	314	
German Swiss International School	162 Pok Fu Lam Road, Pok Fu Lam, Hong Kong	2 146 m <sup>2</sup>	219	Nominal
International College Hong Kong (New Territories)	60 Sha Tau Kok Road, Sha Tau Kok, New Territories	8 180 m <sup>2</sup>	272	Nominal
Lantau International School	Cheung Sha Upper Village, Lantau, New Territories	488 m <sup>2</sup>	19	Market <sup>Note</sup>
	113 Tong Fuk Village, Lantau, New Territories	934 m <sup>2</sup>	99	
Nord Anglia International School, Hong Kong	11 On Tin Street, Lam Tin, Kowloon	4 555 m <sup>2</sup>	782	Nominal
Norwegian International School	170 Kam Shan Road, Tai Po, New Territories	4 550 m <sup>2</sup>	136	Nominal
Singapore International School (Hong Kong)	2 Police School Road, Wong Chuk Hang, Hong Kong	4 552 m <sup>2</sup>	411	Nominal
The Harbour School	Ap Lei Chau Estate Phase I, Ap Lei Chau, Hong Kong	1 200 m <sup>2</sup>	122	Nominal

<b>School Name</b>	<b>Address</b>	<b>Site Area (about)</b>	<b>No. of enrolled students</b>	<b>Type of Rent</b>
The International Montessori School – An IMEF School	Phase III, Ma Hang Estate, Stanley, Hong Kong	4 730 m <sup>2</sup>	504	Nominal
Umah International Primary School	Fung Chi Tsuen, Wang Chau, Yuen Long, New Territories	1 730 m <sup>2</sup>	21	Nominal

<sup>Note</sup> According to the tenancy agreements, the rent cannot be disclosed without consent by the tenant. Hence, only the type of rent is set out above.

**CONTROLLING OFFICER'S REPLY**

**EDB337**

**(Question Serial No. 4295)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (a) What were the respective numbers and percentages of local and non-local students in individual international schools, and the respective tuition fees charged by individual schools in the past 3 years?
- (b) What were the highest, lowest and median tuition fees charged by international schools last year and this year?

Asked by: Hon CHAN Tanya (Member Question No. 273)

Reply:

(a) The number and percentage of local and non-local students of individual international schools from the 2014/15 to 2016/17 school years are set out at **Annex 1**.

Information on the median annual tuition fee of individual schools from the 2014/15 to 2016/17 school years is set out at **Annex 2**.

(b) The highest, lowest and median tuition fees charged by international schools in the 2015/16 and 2016/17 school years are set out at **Annex 3**.

**Numbers and percentages of local and non-local students enrolled  
in international schools (excluding special school) from 2014/15 to 2016/17 school years  
(based on the student enrolment survey conducted in September of respective years)**

Notes:

- (1) Schools operated by the English Schools Foundation (ESF) are indicated by (^).
- (2) In deriving the median, the annual chargeable tuition fee for each of the individual grades in the schools concerned is counted once, irrespective of the number of students enrolled.
- (3) With the phasing-out of the recurrent subvention to ESF from the 2016/17 school year, ESF has started to charge a different fee level for Year 1 students enrolled in 2016/17 (\$100,700) from Year 2 to Year 6 students (\$83,500). ESF schools adopting such fee charges are indicated by (#).

**The highest, lowest and median annual tuition fees  
charged by international schools in 2015/16 and 2016/17 school years**

**2015/16 school year**

	Primary	Secondary
Highest	\$183,250	\$204,900
Lowest	\$5,800	\$42,000
Median*	\$111,000	\$141,484

**2016/17 school year**

	Primary	Secondary

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- a) Please give a breakdown of the supply and demand as well as the balance of international school places in Hong Kong by District Council district in the past 5 years.
- b) According to the Bureau's estimation, what will be the supply and demand for international school places in Hong Kong by District Council district in the coming 3 school years starting from 2017/18?
- c) The Bureau states that it will "continue to monitor and facilitate the provision of school places for meeting the needs of the international community in Hong Kong, particularly through allocation of vacant school premises and greenfield sites for international school development". What are the details and the relevant expenditure? Among which, please list out the locations of the vacant school premises and greenfield sites for international school development by district. What will be the numbers of international school places estimated to be increased in the respective districts?

Asked by: Hon CHAN Tanya (Member Question No. 274)

Reply:

International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the English Schools Foundation schools and other international schools), students enrolled and vacancies by the districts in which the international schools are located from the 2012/13 to 2016/17 school years are set out at the **Annex** for illustration purpose.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, compared to the 2016/17 school year, it is projected that around 4 340 additional places will be available between 2017/18 and 2019/20 school years. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

As for the demand side, according to the findings of the consultancy study on the provision of international school places in primary and secondary levels in Hong Kong released in February 2017, compared to the 2016/17 school year, there will be an increase in demand for around 2 030 international school places between 2017/18 and 2019/20 school years.

According to the consultant's projections, there will be no shortfall in international school places at primary and secondary levels in the coming seven school years starting from 2016/17, except a small shortfall of

about 150 international school places at primary level in the 2016/17 school year. We will continue to closely monitor the provision of international schools places, in particular for meeting the demand of overseas families coming to Hong Kong for work or investment. We will also continue to facilitate the development of the international school sector and take appropriate actions, including launching another School Allocation Exercise for international school development subject to availability of suitable premises/sites, as and when necessary.

Recurrent administrative expenditure arising from the monitoring of the supply and demand of international school places, supporting international school expansion projects and the management of school allocation exercises for international school development is subsumed under the existing resources of this Bureau.

Question:

- (a) What were the activity details and expenditures of the implementation of national education by the Education Bureau in the past 3 years?
- (b) What are the contents of plans and estimated expenditure of the implementation of national education by the Education Bureau for the 2017/18 school year?

Asked by: Hon CHAN Tanya (Member Question No. 284)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated into a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Areas/subjects, etc. Apart from offering opportunities for students to join Mainland exchange programmes and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items are subsumed under the recurrent expenditure of the Education Bureau, expenditure in respect of subsidising Mainland exchange programmes for primary and secondary school teachers and students can be separately identified and that in the past three school years (from 2014/15 to 2016/17) and the 2017/18 school year is as follows:

School Year	Expenditure (\$million) <sup>@</sup>	
	Programmes for students	Programmes for teachers
2014/15	52.7	1.1
2015/16 <sup>#</sup>	61.9	1.5
2016/17 <sup>*</sup>	70.0	2.0
2017/18 <sup>++</sup>	114.6	1.9

<sup>@</sup> Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau

<sup>#</sup> Actual figures revised from last year's estimates

Question:

Regarding the New Senior Secondary curriculum, please advise:

- (a) Did the Education Bureau undertake any review or reform of the New Senior Secondary curriculum in the 2016/17 school year? If yes, what were the review findings, reform details and expenditures involved?
- (b) Will the Education Bureau undertake any review or reform of the New Senior Secondary curriculum in the 2017/18 school year? If yes, what will be the work plans and estimated expenditures?
- (c) Did the Education Bureau undertake any review or reform of Liberal Studies under the New Senior Secondary curriculum in the 2016/17 school year? If yes, what were the review findings, reform details and expenditures involved?
- (d) Will the Education Bureau undertake any review or reform of Liberal Studies under the New Senior Secondary curriculum in the 2017/18 school year? If yes, what will be the work plans and estimated expenditures? Will any public consultation be conducted on this?

Asked by: Hon CHAN Tanya (Member Question No. 285)

Reply:

(a) to (d)

The Education Bureau (EDB), Curriculum Development Council, and the Hong Kong Examinations and Assessment Authority (HKEAA) jointly conducted the New Academic Structure Review on the senior secondary curriculum and assessment from 2012 to 2015. The review was completed in the 2014/15 school year, with recommendations made on trimming/streamlining/updating curriculum contents and public assessment including School-based Assessment. The recommendations, including those on Liberal Studies, were reported to the Panel on Education of this Council on 15 July 2015.

Future review of the curriculum and assessment of each subject, including Liberal Studies, will be conducted following the renewal cycle of each subject or curriculum area as appropriate in response to contemporary trends and needs arising from social and economic changes. As a usual practice, EDB and HKEAA will consult different stakeholders when reviewing the curriculum and assessment of senior secondary subjects in future.

Since the review was carried out by EDB in-house, the cost was subsumed under EDB's overall expenditure. A separate breakdown of the expenses incurred is not available.

Question:

(a) Did the Education Bureau (EDB) undertake any review or reform regarding the Chinese Language subject in the New Senior Secondary (NSS) curriculum in the 2016/17 school year? If yes, what were the review findings, reform details and expenditures involved?

(b) Will the EDB undertake any reviews or reforms regarding the Chinese Language subject in the NSS curriculum in the 2017/18 school year? If yes, what will be the work plans and estimated expenditures? Will it bring forth a public consultation?

Asked by: Hon CHAN Tanya (Member Question No. 286)

Reply:

(a) and (b)

As part of the New Academic Structure Medium-term Review (thereafter the review), the curriculum review of the New Senior Secondary Chinese Language was completed in the 2014/15 school year, with recommendations made on trimming/streamlining/updating curriculum contents and public assessment including School-based Assessment. The recommendations were reported to the Panel on Education of this Council on 15 July 2015. Twelve classical set texts have been introduced in the curriculum starting from the 2015/16 school year, leading to the Hong Kong Diploma of Secondary Education Examination in 2018. There is no further curriculum reform on Chinese Language in the 2016/17 school year.

As an ongoing practice, the Education Bureau (EDB) will continue to engage various stakeholders to collect their views and feedback on curriculum and assessment issues through various channels such as school visits, focus group interviews and questionnaire surveys. The expenditure required will be subsumed under the recurrent expenditure of EDB as an integral part of its day-to-day curriculum development work. A separate breakdown of the expenses incurred is not available.

Question:

- (a) What are the number of schools offering New Senior Secondary Applied Learning courses, the number of courses offered, the number of student applications by level, the total number of students taking Applied Learning courses and the amount of subsidy provided by the Government in the past 3 years?
- (b) What are the implementation plan of providing Applied Learning courses for senior secondary students and the estimated expenditure for the 2017/18 school year?

Asked by: Hon CHAN Tanya (Member Question No. 287)

Reply:

(a) Each cohort of Senior Secondary Applied Learning (ApL) courses lasts for 2 years and Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) courses lasts for 3 years. From the 2013/14 to the 2015/16 school year, 4 cohorts of ApL courses (2012-14, 2013-15, 2014-16 and 2015-17 cohorts) and 1 cohort of ApL(C) courses (2015-17 cohort) have been offered to students. The number of schools offering ApL courses, the number of courses offered, the number of student applications, the total number of students taking ApL courses and the amount of subsidy provided by the Government are as follows:

Cohort	2012-14	2013-15	2014-16	2015-17
Number of schools offering Senior Secondary ApL courses	318	315	316	327
Number of courses offered	35	37	36	40
Number of student applications (Note: in general, student can only apply to start at S4 (for ApL(C)) and S5 (for ApL), application by level (S6) is thus not applicable.)	10 254	8 649	8 086	7 320
Total number of students taking ApL courses	5 782	5 047	4 791	4 506

Starting from the 2014/15 school year, ApL(C) was introduced for the first time to the 2015-17 cohort. The amount of subsidy (Diversity Learning Grant and Student Grant for ApL(C)) provided by the Government from the 2013/14 to the 2015/16 school year is as follows:

School Year	2013/14	2014/15	2015/16
Diversity Learning Grant (\$ million)	51	50	48
Student Grant for ApL(C) (\$ million)	NA	2*	4**

\* It refers to the Student Grant for the 2 ApL(C) courses offered under the 2015-17 cohort.

\*\* It refers to the Student Grant for the 2 ApL(C) courses offered under the 2015-17 and the 2016-18 cohorts.

(b) The Senior Secondary ApL has been implemented since the 2010/11 school year. The Education Bureau supports schools through providing an implementation handbook and prospectus, arranging briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to make informed choices. An E-system has also been developed to facilitate the application process and implementation in schools. In addition, the Government provides the Diversity Learning Grant (DLG) and the Student Grant (SG) for ApL(C) to support secondary schools in offering ApL and ApL(C) courses respectively. As stated in the 2016 Policy Address, the Government has accepted all the recommendations of the Task Force on Promotion of Vocational Education. To this end, full subsidy has been provided for students to take ApL courses effective from the 2016/17 school year. The estimated expenditure of DLG for the 2017/18 school year is \$70 million and the estimated expenditure of SG for ApL(C) for the 2017/18 school year is \$7 million.

Director of Bureau: Secretary for Education

Question:

- a) For the past 3 years, what are the total number of participants and expenditure on professional training and support programmes to school leaders, middle managers and teachers on implementing the senior secondary (SS) Curriculum?
- b) In 2017-18, what are the work plan and estimated expenditure on the above-mentioned training and support programmes?

Asked by: Hon CHAN Tanya (Member Question No. 288)

Reply:

(a) & (b)

To support the implementation of the senior secondary (SS) curriculum under the New Academic Structure (NAS) and the Hong Kong Diploma of Secondary Education (HKDSE) Examination (including School-based Assessment), the Education Bureau (EDB) continues to provide training, support as well as resource materials for school leaders, middle managers and teachers. A series of professional development programmes (PDPs) under different themes are organised every year to suit different needs of school leaders, middle managers and teachers. For 2014-15, the total number of participants in PDPs is about 18 800 and the actual expenditure is about \$3.3 million. For 2015-16, the total number of participants in PDPs is about 13 300 with an actual expenditure of about \$4.4 million. For 2016-17, the estimated total number of participants in PDPs is about 16 000 whilst the estimated expenditure is about \$5.3 million. The estimated expenditure on PDPs in 2017-18 is about \$4.7 million. The increase in estimated expenditure for 2016-17 as compared with 2015-16 is attributable to the fact that PDPs were purposefully enhanced in (i) Special Education to cater for learner diversity and special educational needs in mainstream/special schools; (ii) in Science Education to implement STEM education; and (iii) in Personal, Social and Humanities Education to promote Chinese History education.

Apart from the scheduled PDPs, EDB continues to provide school-based professional support services to enhance the professional capacity of teachers. Learning and teaching resource materials (e.g. curriculum and assessment guides, supplementary notes, learning and teaching packages) for the SS subjects were developed during the last few years to support school leaders, middle managers and teachers in the implementation of the SS curriculum. There is continuous updating of resource materials such as exemplars and resource packages to meet teachers' needs. Since the provision of school-based professional support and resource materials is carried out by EDB and the cost is subsumed under EDB's overall expenditure, a separate breakdown on the staffing and financial implications is not available.

Question:

- (a) In the past 3 years, what were the details of the work in which the Education Bureau (EDB) worked with the Committee on Professional Development of Teachers and Principals in enhancing the professional development of the teaching profession at different career stages and the expenditure incurred;
- (b) For 2017-18, what are the EDB's work plan in respect of the above work and the estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 289)

Reply:

(a) The Committee on Professional Development of Teachers and Principals (COTAP) is tasked with advising the Government on policies and strategies to enhance the competencies and capabilities of the teaching profession at various career stages. In the past 3 years, COTAP has conducted meetings with various stakeholders of the education sector to understand better their views on the professional development needs of teachers and school leaders. Premised on its vision, mission, objectives and strategies, COTAP has drawn up eight areas of focus under an overarching project "T-excel@hk" as the first phase of its work and published its first Progress Report in early 2015. As a way forward to realising the T-excel@hk work plan with a more flexible and innovative approach, COTAP has engaged into a strategic partnership with the Quality Education Fund (QEF) for collaboration within a three-year period commencing 2016/17 school year. Given that EDB has been providing the secretarial and professional support to COTAP with the cost subsumed under the overall expenditure of EDB, we could not identify the expenditure separately. As for the collaboration between COTAP and QEF, projects are at the planning stage and no expenditure of QEF has been incurred so far.

(b) Amongst the eight areas of focus under "T-excel@hk" towards building a vibrant teaching profession of excellence for the betterment of students' achievements, some areas have been accorded priority in the work plan. They include developing professional standards as clear reference for teacher preparation, continuing professional development of teachers and school leadership development. Starting early 2017, the draft professional standards for teachers have been rolled out for pilot and will be followed by consultation later while the draft standards for principals are actively underway. To facilitate interactive exchange and networking within the teaching profession, a platform has been set up to invite both local and non-local experts to share their insights and innovations in pedagogy and school leadership. In parallel, other innovative projects relating to different areas of focus under "T-excel@hk" are being actively planned. Through ongoing professional exchanges with stakeholders, COTAP will continue to solicit views of the sector in order to further develop, prioritise and implement in phases the projects of various focus areas.

Question:

In respect of the kindergartens (KGs) in each District Council district in each of the past 3 school years, (i) the number of enrolment applications received and the total amount of application fees collected by each KG on average, (ii) the name of the KG among them which collected the highest application fee and the amount involved, and (iii) the name of the KG among them which collected the highest total amount of application fees and the amount involved.

Asked by: Hon CHAN Tanya (Member Question No. 290)

Reply:

According to regulation 61(1) of the Education Regulations (Cap. 279A), schools must first obtain the written approval of the Permanent Secretary for Education before collecting any fees, including entrance examination fee (commonly known as application fee). To streamline schools' administrative procedures, the Education Bureau (EDB) has set a ceiling for application fee of kindergartens (KGs) and given blanket approval for KGs to collect application fee within the approved ceiling, with the actual level determined by individual KGs having regard to their own circumstances. KGs that wish to collect application fee exceeding the approved ceiling are required to seek prior approval from EDB. As student admission is a school-based matter, KGs are not required to provide EDB with information on the number of admission applications received and the total amount of application fee collected. In view of the above, EDB is unable to supply the information.

Director of Bureau: Secretary for Education  
Question:

Regarding the applications received by the Education Bureau for the collection of an application fee or registration fee exceeding the ceiling stipulated by the Bureau in the past 3 school years, what are the respective number of applications received, the names of schools, the amounts of application fee or registration fee proposed to be collected, the grounds for making the application, and the application outcome. Please provide the details of each application.

Asked by: Hon CHAN Tanya (Member Question No. 291)

Reply:

The respective number of applications received and approved by the Education Bureau (EDB) in the past three school years (i.e. 2013/14, 2014/15 and 2015/16) for collection of an application fee or registration fee by kindergartens (KGs) which exceeds the approved ceilings is set out at the Appendix. It is not appropriate to disclose application details of individual KGs (including their names, the proposed amount of application fee or registration fee, as well as grounds and outcome of their applications) as they cover data concerning KGs' operation and internal matters. That said, EDB has included information on the permissible amount of application fee and registration fee of individual KGs in the online version of the Profile of Kindergartens and Kindergarten-cum-Child Care Centres for access by parents and the public.

**Number of applications received and approved by EDB for collection of an application fee or registration fee exceeding the approved ceilings in the 2013/14, 2014/15 and 2015/16 school years**

## (1) Application Fee

School Year	Number of Applications	Number of Applications Approved
2013/14	29	18
2014/15	5	5
2015/16	1	0

## (2) Registration Fee

Question:

- (a) Please tabulate the number of non-Chinese speaking (NCS) students who studied in mainstream schools (including kindergartens, primary schools, secondary schools and tertiary institutions) in the past 3 years.
- (b) What were the details of the Education Bureau's support measures for NCS students in the 2016/17 school year and the expenditure and manpower so involved?
- (c) What are the Education Bureau's work programmes on the support measures for NCS students in the 2017/18 school year and the expenditure and manpower so involved?

Asked by: Hon CHAN Tanya (Member Question No. 293)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students from the 2014/15 to 2016/17 school years is tabulated at Annex A.
- (b) & (c) The support measures for NCS students in the 2016/17 and 2017/18 school years and the estimated expenditure are tabulated at Annex B.

**Number of non-Chinese speaking (NCS) students  
from the 2014/15 to 2016/17 school years**

<b>Level</b>	<b>2014/15 school year</b>	<b>2015/16 school year</b>	<b>2016/17 school year</b>
Pre-primary (K1 to K3)	11 933	11 982	12 240
Primary (Primary 1 – 6)	8 697	8 958	9 266
Secondary (Secondary 1 – 6)	8 224	8 782	8 971

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools. Figures do not include special schools.
5. Admissions to post-secondary programmes in tertiary institutions including certificate/diploma courses, higher diploma, sub-degree and undergraduate degree courses, etc. are offered to eligible applicants, irrespective of their race and language spoken at home. However, statistics with breakdown by local and non-local NCS students are not available.

**Educational support measures for non-Chinese speaking (NCS) students

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. Subject to further deliberation by the Standing Committee on Language Education and Research, the estimated expenditure is still being worked out.
3. For the 2-year USP project from the 2015/16 to 2016/17 school years, the actual expenditure of the 2015/16 school year is \$2.25 million and the estimated expenditure of the 2016/17 and 2017/18 school years is \$5.85 million and \$0.9 million respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available. Besides, a funding of about \$10 million has also been earmarked for new USP project(s) to support kindergartens and primary schools admitting NCS students in the transition from kindergartens to primary schools from the 2017/18 to the 2018/19 school years.

Programme: (5) Special Education, (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

(a) Please tabulate the number of non-Chinese speaking (NCS) students with special educational needs (SEN) who studied in mainstream schools (including kindergartens, primary schools, secondary schools and tertiary institutions) in the past 3 years.

(b) What were the details of the Education Bureau's support measures for NCS students with SEN in the 2016/17 school year and the expenditure and manpower so involved?

(c) What are the Education Bureau's work programmes on the support measures for NCS students with SEN in the 2017/18 school year and the expenditure and manpower so involved?

Asked by: Hon CHAN Tanya (Member Question No. 294)

Reply:

(a)

As support services for children with special educational needs (SEN) at pre-primary levels are provided by the Social Welfare Department, the Education Bureau (EDB) does not maintain data on non-Chinese speaking (NCS) students with SEN at kindergarten levels. The number of NCS students with SEN in public sector mainstream primary and secondary schools in the 2014/15, 2015/16 and 2016/17 school years is set out at Appendix 1. We do not maintain such data for post-secondary institutions. Thus, we are unable to provide the requested figures for the institutions.

(b) and (c)

The Government is committed to supporting the integration of NCS students (including those with SEN) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. A breakdown of the estimated expenditure of the major support measures for NCS students, which are also applicable to NCS students with SEN, in the 2016/17 and 2017/18 school years is tabulated at Appendix 2.

EDB has also been providing public sector mainstream schools with additional resources, professional support and teacher training to help them cater for the students with SEN, including NCS students with SEN. The additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, etc. Schools should deploy school resources holistically and flexibly to render appropriate support services to students with SEN based on their needs, such as employing additional teachers, teaching

assistants or hiring professional services. EDB also arranges teacher professional development programmes and school networking for sharing of good practices, and develops teaching resources for use of teachers and parents. In addition, the professional staff of EDB pay regular visits to schools to render professional advice on their support policies and measures, teaching strategies, resource deployment, etc. Professional support is also provided through assessment and consultation services of educational psychologists, speech therapists and audiologists to help schools cater for students with SEN. All NCS students with SEN benefit from the above support and services. For budgetary purpose, the total expenditure on additional support and services on top of the regular subvention provided for public sector mainstream primary and secondary schools in catering for students with SEN in the 2016/17 and 2017/18 school years is \$1,417 million and \$1,469 million respectively.

As the support services are provided to cater for all the students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

**Number of non-Chinese speaking (NCS) students with special educational needs (SEN) in public sector mainstream primary and secondary schools in the 2014/15, 2015/16 and 2016/17 school years**

School Year	Number of NCS Students with SEN	
	Primary Schools	Secondary Schools
2014/15	233	116
2015/16	304	158
2016/17	328	184

## Notes:

1. Figures above denote the position as at September of the respective school years.
2. Figures cover those students whose home language is known to EDB and is NOT Chinese regardless of their ethnicity.
3. Figures do not cover students from Direct Subsidy Scheme schools.

Question:

Regarding the life planning and career guidance services provided by the Education Bureau to special schools and schools for children with intellectual disability, what were the areas of the work, manpower arrangements and expenditures involved in the past 3 years? What are the plans and estimated expenditure for such work in the 2017/18 school year?

Asked by: Hon CHAN Tanya (Member Question No. 296)

Reply:

Starting from the 2014/15 school year, the Education Bureau (EDB) has provided public sector schools (including special schools) operating classes at senior secondary levels with a recurrent Career and Life Planning Grant (CLPG) to strengthen life planning education (LPE) for secondary students. The expenditures involved for special schools in the 2014/15 and 2015/16 school years are \$29.6 million and \$30.8 million respectively. Starting from the 2016/17 school year, schools may turn CLPG into regular teaching posts to strengthen the manpower for the implementation of LPE and related guidance services. The expenditure involved is subsumed under EDB's recurrent expenditure. As 15 special schools have opted to turn CLPG into regular teaching posts, the expenditure for CLPG is reduced to \$23.8 million in the 2016/17 school year. As schools have yet to decide whether to turn CLPG into regular teaching posts for the 2017/18 school year, the estimated expenditure is not available.

Apart from the provision of CLPG, EDB provides training and support to enhance teachers' professional capacity in implementing LPE. The Guide on Life Planning Education and Career Guidance for Secondary Schools has been issued and school visits are also conducted to provide professional advice to schools, including special schools, to strengthen their LPE. Career exploration activities are provided to students, including students with special educational needs, through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. Information on further studies and career opportunities are disseminated on the webpage. To strengthen professional development of teachers and provide career exploration activities on a district basis, we have also set up District Development Networks (DDN) in some districts in the 2016/17 school year and plan to expand DDN to all districts in a few years' time. The expenditure involved is subsumed under EDB's recurrent expenditure.

Question:

Has the Education Bureau provided any support in early identification of non-Chinese speaking students with special educational needs in the past 3 years? If yes, what were the details of the support services provided and expenditure involved? What are the plans and estimated expenditure for the above work in the 2017/18 school year?

Asked by: Hon CHAN Tanya (Member Question No. 297)

Reply:

Non-Chinese speaking (NCS) students are covered by the “Early Identification and Intervention Programme for Primary One Students with Learning Difficulties” implemented in all public sector primary schools. Under the programme, teachers are required to make use of the “Observation Checklist for Teachers” developed by the Education Bureau (EDB) to identify as early as possible Primary One students, including NCS students, with learning difficulties and arrange for early intervention. To assist teachers in using the checklist to identify NCS students in need of attention, EDB has provided them with a guideline which sets out the points to note and factors to consider for identifying NCS students with special educational needs (SEN). Learning difficulties encountered by NCS students at lower primary levels may be language- and culture-related. Hence, with reference to the Response to Intervention model that has been proven effective overseas, we advise schools to provide appropriate intervention for students first and continually review their learning progress after intervention to identify NCS students with learning difficulties. Students whose difficulties are severe or persistent despite intervention will be referred to specialists for assessment.

As the support services are provided to cater for all students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (a) What is the Education Bureau's procedure on registration of kindergartens?
- (b) In the past 3 years, did the Bureau receive any case of kindergarten jumping the gun in admitting students before the completion of registration procedures? If yes, what was the case about and how did the Bureau handle it?

Asked by: Hon CHAN Tanya (Member Question No. 298)

Reply:

(a)

According to the Education Ordinance (Cap. 279), if a proposed school (including kindergarten) is to be operated in premises which are not designed and constructed for the purposes of a school, clearance from the Town Planning Board and the Lands Department should be obtained in respect of the proposed school premises. The applicant for school registration is also required to obtain the safety certificates and notice in respect of the premises issued by the Fire Services Department and the Buildings Department (BD) / Housing Authority. If the proposed school is to be operated in premises designed and constructed as a school, the applicant is required to present the Occupation Permit issued by BD or the Handover Certificate issued by the Education Bureau (EDB). Moreover, the applicant is required to submit other necessary documents and information such as syllabi and timetables for the proposed courses, details of the proposed tuition fees and application form(s) for manager registration. After all the aforesaid documents are received and found in order, EDB will consider issuing a certificate of provisional registration to the school, and the school may then commence operation.

(b)

Upon receipt of an application for registration of a school, EDB will in the first instance issue a reminder letter to the applicant advising him/her that no educational courses shall be conducted in the premises until the school is provisionally registered under the Education Ordinance, Cap. 279. If circumstances warrant, EDB may issue further reminders to the applicant when the application is being processed. In the past three years, there were 10 complaint cases alleging kindergartens of commencing operation before their application for registration had been approved. Inspectors of Schools of EDB conducted investigation visits to the concerned premises to collect evidence on whether any provisions of the Education Ordinance had been contravened. Two of the cases were found established and the operators were given written warning.

Question:

- (a) What were the details, manpower arrangements and expenditure of the work undertaken by the Education Bureau (EDB) in respect of promoting e-learning and e-textbooks in primary and secondary schools in the past 3 years?
- (b) Has the EDB assessed the effectiveness of the aforesaid promotion of e-learning and e-textbooks? If yes, what is the effectiveness? If no, what are the reasons?
- (c) How many schools are currently using e-textbooks?
- (d) What are the details and estimated expenditure of the work to be undertaken by the EDB for the 2017/18 school year in this aspect?

Asked by: Hon CHAN Tanya (Member Question No. 299)

Reply:

- (a) We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. The amounts of CITG for the past three financial years were \$341 million for 2014-15, \$353 million for 2015-16 and \$361 million for 2016-17.

Apart from recurrent grant, we have also launched the following e-learning initiatives over the past three financial years in the promotion of e-learning –

- (i) two phases of the e-Textbook Market Development Scheme (EMADS) launched in 2012 and in 2013 respectively, with a non-recurrent funding of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. The accumulated expenditure up to 2015-16 was around \$30.6 million while the estimated expenditure for 2016-17 is \$5.6 million;

- (ii) the “Support Scheme for e-Learning in Schools” in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools’ Learning Management System and various e-textbooks/e-learning resources platforms. The Scheme is now completed; and
- (iii) the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million, of which around \$68 million was disbursed to some 700 schools under the first two batches of the WiFi-900 project as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; another one-off grant of \$10 million was disbursed to Hong Kong Education City Limited for acquisition of e-learning resources. Apart from the project vote for ITE4, we also disbursed an extra one-off IT grant of \$200,000 on average per school to enhance support on the practice of e-learning as well as an extra recurrent grant of \$70,000 on average per school for subscription of WiFi services to these 700 schools.

Other manpower and administrative costs for promoting e-learning and implementing EMADS have been subsumed under the existing resources of the Education Bureau.

- (b) To gauge the effectiveness of e-learning, we have conducted school visits, surveys, case study research, and etc. under the ITE4. We are pleased to note that schools were positive to implement e-learning which enhanced classroom interactions and students’ motivation to learn. According to the findings from a survey completed in August last year, nearly all schools have deployed various e-learning resources including e-textbooks to promote effective learning and teaching in class. We will continue to collect information on the progress and effectiveness of various e-learning measures and disseminate good practices to the school community for sharing. In addition, an evaluation has been conducted to assess the effectiveness of EMADS and the findings, which will form part of those on the impact on classroom learning and teaching in the context of the promotion of e-learning, are being compiled.
- (c) Figures of schools currently using e-textbooks in the 2016/17 school year are not available since the annual survey for this school year will only be conducted in mid-2017. It is expected that with the increase in teachers’ knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum.
- (d) For 2017-18, the estimated expenditure for implementation of the ITE4 is \$21.5 million for providing one-off grant for the last batch of some 180 schools under the WiFi-900 project for acquisition of mobile computing devices and for other support measures. Besides, we will disburse an extra one-off IT grant of \$200,000 on average per school for the last batch of schools to enhance support on the practice of e-learning. An extra recurrent grant of \$70,000 will continue to be disbursed on average per school for all eligible public sector schools under the WiFi-900 project for subscription of WiFi services. As for EMADS, it is estimated that around \$3.3 million seeding grant will be disbursed to the NPM developers for both Phase One and Phase Two of EMADS in 2017-18.

Question:

(a) How many schools have wireless network installed currently? What is the expenditure involved?

(b) How many schools have not installed wireless network currently? Will the Education Bureau earmark resources to provide assistance to such schools for the installation of the wireless network? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 300)

Reply:

We have been providing all public sector schools with an annual recurrent Composite Information Technology Grant (CITG) at amounts ranging from \$194,238 to \$668,055, depending on the school type and the number of classes. School can use the grant to cover expenditure such as Internet service fee, upgrading and replacement of IT facilities including WiFi equipment, purchase of digital resources materials for learning and teaching (including annual subscription/renewal fees for licences and software), etc. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education, including the installation of WiFi equipment in schools and are not required to report to us on how they have used the grant.

Apart from CITG, we have also launched the following two e-learning initiatives over recent years to enhance WiFi infrastructure in schools.

We launched the WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to the 100 public sector schools under the WiFi-100 project in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices.

We launched the ITE4 in August 2015 with a non-recurrent funding of \$105 million, of which around \$68 million was disbursed to some 700 schools under the first two batches of the WiFi-900 project as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school to these 700 schools for subscription of WiFi services. The last batch of some 180 schools under the WiFi-900 project will likewise receive these one-off and extra recurrent grants for use in 2017/18 school year.

According to information collected from schools, as at February 2017, 757 schools have completed the enhancement of WiFi infrastructure. The remaining some 180 schools under the last batch of the WiFi-900 project will enhance their WiFi infrastructure in 2017/18 school year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Will the Administration consider providing additional grants for primary and secondary schools to employ substitute teachers in 2017/18? If yes, what are the rate of increase and the estimated expenditure involved? If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 276)

Reply:

At present, aided schools are provided with funding to employ supply or temporary teachers to substitute regular teachers on approved leave. Aided schools which have yet to establish incorporated management committees (non-IMC schools) may claim reimbursement from the Education Bureau (EDB) on a case-by-case basis for the appointment of daily-rated supply teachers to substitute regular teachers taking approved leave for 3 to 89 days. For approved leave of 90 days or more, schools may apply to EDB for reimbursement for hiring temporary teachers on monthly term. As regards aided schools with incorporated management committees (IMC schools), they are provided with the Teacher Relief Grant (TRG) for appointing supply teachers in general to substitute regular teachers on approved leave less than 30 days instead of claiming reimbursement on a case-by-case basis. For other approved leave of 30 to 89 days and of 90 days or more, IMC schools may claim reimbursement from EDB for the appointment of daily-rated supply teachers and monthly pay temporary teachers as appropriate like the non-IMC schools.

According to the financial statements submitted by schools, schools in general have surplus in respect of their TRG accounts. We will continue to keep in view the implementation of TRG and review the current arrangement where necessary.

Question:

(a) In 2016-17, what were the resources and work for improving the learning and teaching of the English Language in primary schools by the Education Bureau (EDB)? (b) EDB has indicated that it will continue to improve the learning and teaching of the English Language in primary schools in 2017-18. What are the details of the work and estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 277)

Reply:

(a) and (b)

In the 2016-17 financial year, we have been implementing various measures for improving the learning and teaching of English Language in primary schools. The estimated expenditure in the 2016-17 financial year is \$446.37 million, of which \$33.46 million is from the Language Fund. In the 2017-18 financial year, we will continue to improve the learning and teaching of English Language in primary schools. The estimated expenditure for the initiatives in the 2017-18 financial year is \$472.54 million, of which \$35.10 million is from the Language Fund.

Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials. The grant concerned has been subsumed under the Expanded Operating Expenses Block Grant w.e.f. the 2016/17 school year.

No.	Name of Project	Details
<b>B. School-based support</b>		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
<b>C. Professional development</b>		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
<b>D. Creating a facilitating environment for English learning</b>		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers (LETs) to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. To enhance students' literacy experience, a range of language activities, such as debating, drama, digital storytelling and puppetry, is developed and promoted through the collaboration between NETs, LETs and support officers from EDB. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects	To engage community partners in organising language-related events/competitions in the community.

Question:

(a) Up to 2016-17, how many primary schools in the territory have yet to be provided with the School-based Educational Psychology Service?

(b) What are the details and estimated expenditure of the above-mentioned programme in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 279)

Reply:

(a) and (b)

In the 2016/17 school year, the School-based Educational Psychology Service (SBEPS) has covered all public sector primary and secondary schools as planned. A total of 454 public sector primary schools are provided with the SBEPS. The estimated expenditure for the provision of the SBEPS in the 2017/18 school year is \$153 million.

Question:

(a) Please provide a list of the number of students with special educational needs (SEN) in public sector primary schools by district. (Please tabulate the numbers by district council district.)

(b) Please provide a list of the number of students with SEN in secondary schools by district. (Please tabulate the numbers by district council district.)

Asked by: Hon CHAN Tanya (Member Question No. 280)

Reply:

(a) and (b)

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools in the 2016/17 school year are 21 860 and 21 030 respectively. As the provision of support services for students with SEN does not have relationship with the district in which they live or study, breakdown of the number of students with SEN by district can be misleading. Hence, we have not compiled such figures.

Question:

- (a) How does the Education Bureau evaluate the effectiveness of the “Chinese Language Curriculum Second Language Learning Framework”?
- (b) In respect of facilitating the implementation of the “Chinese Language Curriculum Second Language Learning Framework” for non-Chinese speaking students in schools, what are the work plans and estimated expenditure for 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 281)

Reply:

- (a) & (b) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. Estimated expenditure for the related support measures for the 2017/18 school year is tabulated at Annex.

EDB has consulted teachers and language experts when formulating the “Learning Framework” and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the “Learning Framework” on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school contexts. At the curriculum level, the “Learning Framework” would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

**Educational support measures for non-Chinese speaking (NCS) students  
in the 2017/18 school year**

<b>Support measures</b>	<b>Estimated expenditure in the 2017/18 school year \$ million</b>
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	259.5  Note
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0  Note
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	4.1
Summer Bridging Programme for NCS students in primary schools	2.8
Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	7.5
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education	3.07
Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	

Note:

These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

**Question:**

- (a) How much government funding is set aside in 2017-18 for the expenditure on the Basic Competency Assessment (BCA) in Primary 3 (P3), Primary 6 and Secondary 3 levels?
- (b) Will the Education Bureau (EDB) make the BCA mandatory for all P3 students and how can they apply for exemption?
- (c) Will the EDB assess the BCA's effectiveness? If it will, what is the work schedule? If it won't, what are the reasons?

**Asked by:** Hon CHAN Tanya (Member Question No. 45)

**Reply:**

(a) to (c)

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on SA and TSA and related study under the project for the contract period of 2015-2018 is set out below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)
	SA	TSA and related study under the project	
2015-2018	3*	290	293

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017. The expenditure for STAR has been subsumed under the overall expenditure of the EDB.

The expenditure on Primary 3, Primary 6 and Secondary 3 TSA under the 2015 to 2018 contract is \$96 million, \$92 million and \$102 million respectively.

In response to the community's concerns, the Committee was tasked to conduct a comprehensive review on the arrangement of the TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study was implemented in 2016. Based on the positive feedback and experience collected from the 2016 Tryout Study, the Committee considered that the four new initiatives for enhancement (i.e. improving assessment papers and question design; enhancing school reports; strengthening professional support measures; and including a questionnaire survey on students' learning attitude and motivation) could effectively address public concerns and recommended extending them to schools in the territory. As a part of the review, and recognising the Basic Competencies are the essential knowledge and skills acquired by students at the end of each key stage to learn effectively at the next stage, the EDB announced in January 2017 that the 2017 Research Study would be introduced based on the Committee's recommendations which received wide support from schools, parents and school sponsoring bodies. The Research Study will be extended to all primary schools in the territory to allow more schools to participate and understand the new initiatives, and to collect more comprehensive feedback and richer information on the new initiatives to further review related arrangements with a view to continuing to enhance learning and teaching, and to benefit students. Should schools encounter special circumstances or difficulties, the EDB will look into the matters and provide assistance.

In evaluating the Research Study, we will make reference to the review framework adopted under the 2016 Tryout Study to collect feedback in the following ways:

(i) Quantitative approach

- Questionnaire surveys/opinion surveys: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.

(ii) Qualitative approach

- Focus groups/interviews: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.
- Case studies: Schools are invited to participate in the case studies, which aim to take a more in-depth look at the support measures, the processes and stakes involved, in a bid to understand how well schools have made effective use of various support measures to enhance their assessment literacy, and also examine the effectiveness and factors affecting the implementation of the Tryout Study at schools, and look into the solutions or views and suggestions.

The costs incurred for the above work was subsumed under the overall expenditure of the EDB.

Question:

What is the number of cross-boundary students attending local primary by class level in the 2016/17 school year?

Asked by: Hon CHAN Tanya (Member Question No. 370)

Reply:

The number of cross-boundary students (CBS) attending primary schools in Hong Kong by class level in the 2016/17 school year is as follows:

Class Level	P1	P2	P3	P4	P5	P6	Total
Number of CBS	4 210	3 709	3 460	2 836	2 005	1 238	17 458

Note: Figures are based on the annual survey conducted via schools in September 2016 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What were the respective numbers of government and aided primary schools provided with student guidance officers, student guidance teachers and Student Guidance Service Grant in each of the past 5 school years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2035)

Reply:

Under the Comprehensive Student Guidance Service policy, teachers work in collaboration with student guidance officers (SGO), student guidance teachers (SGT) or student guidance personnel funded by the Student Guidance Service Grant (SGSG) to provide remedial, preventive and developmental guidance services for all students in a holistic and integrated manner. The number of public sector primary schools provided with the SGO, SGT or SGSG for the past 5 school years (i.e. the 2011/12 to the 2015/16 school years) are as follows:

Number of Public Sector Primary Schools Provided with	2011/12 School Year	2012/13 School Year	2013/14 School Year	2014/15 School Year	2015/16 School Year
Student Guidance Officers	21	19	15	13	12

Question:

What were the respective numbers of government and subsidised primary schools for each of the past 5 school years by number of classes?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2036)

Reply:

The respective numbers of government and aided primary schools by the number of operating classes for the past 5 school years are detailed at the Appendix.

## Number of Government and Aided Primary Schools by Number of Operating Classes, 2012/13 to 2016/17 School Years

No. of Operating Classes	No. of Schools									
	2012/13		2013/14		2014/15		2015/16		2016/17	
	Government	Aided	Government	Aided	Government	Aided	Government	Aided	Government	Aided

Question:

What were the respective numbers of different types of cases under the Comprehensive Student Guidance Service in primary schools for the past 5 school years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2037)

Reply:

Based on the annual data collected through an online system from student guidance personnel of public sector primary schools, the respective number of cases under the Comprehensive Student Guidance Service for the past 5 years (i.e. from the 2011/12 to the 2015/16 school years) according to their categories are summarized as follows:

Case Category	School Year				
	2011/12	2012/13	2013/14	2014/15	2015/16
Conduct Problems	1 577	1 499	1 349	1 306	1 254
Emotional/Psychological Problems	2 240	2 464	2 523	2 743	2 945
Family/Environmental Problems	1 987	1 988	1 945	1 976	1 940
Health/Physical Problems	125	127	124	103	92
Learning problems	1 578	1 508	1 394	1 210	1 071
Social/Developmental Problems	468	467	465	460	426
Total	7 975	8 053	7 800	7 798	7 728

Question:

Starting from the 2012/13 school year, the Education Bureau has, in addition to the Student Guidance Service Grant (SGS Grant), provided each public sector primary school with an additional grant according to its number of classes. The additional grant is equivalent to \$15,000 per class per year. In this connection, would the Administration advise this Committee of the following:

1. The total amount of SGS Grant provided per year since the 2012/13 school year;
2. The total amount of additional grant provided per year since the 2012/13 school year;
3. The total amount of unspent grants of the public sector primary schools receiving SGS Grant in each of the school years since 2012/13.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2038)

Reply:

1. and 2. The total amount of Student Guidance Service (SGS) Grant and Top-up Grant for the 2012/13 to 2016/17 school years is tabulated as follows:

	2012/13 School Year (\$ million)	2013/14 School Year (\$ million)	2014/15 School Year (\$ million)	2015/16 School Year (\$ million)	2016/17 School Year (\$ million)
SGS Grant	127.3	139.3	146.3	157.3	168.3
Top-up Grant	56.9	61.1	65.4	68.3	71.4
Total:	184.2	200.4	211.7	225.6	239.6

3. The total amount of unspent SGS Grant (including Top-up Grant) of public sector primary schools for the 2012/13, 2013/14 and 2014/15 school years is \$19.0 million, \$15.4 million and \$17.7 million respectively. Relevant information of the 2015/16 school year is not available as the audited accounts for the school year is not yet due.

Question:

Please provide the work plan for “(to) continue to provide School-based Educational Psychology Service to all public sector primary schools and further enhance the service by progressively improving the ratio of educational psychologist to schools to 1:4 for public sector primary schools with a large number of students with special educational needs”.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6033)

Reply:

In the 2016/17 school year, the School-based Educational Psychology Service (SBEPS) has covered all public sector primary and secondary schools as planned. The Government has further enhanced the SBEPS by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The enhanced provision covers 30 primary and secondary schools in the 2016/17 school year and will cover about 80 primary and secondary schools by the 2017/18 school year. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools and provide comprehensive and regular follow-ups to students as well as intervention services to the schools concerned based on their needs. The Education Bureau will continue to keep in view the service needs of schools as a whole and the provision of EPs in the market. As and when necessary, we will liaise with local universities for meeting the manpower demand in order to continuously enhance the support to schools in catering for students' diverse needs.

Question:

Please provide information on the measures, funds, responsible units and details relating to prevention of student suicide.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6036)

Reply:

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and department, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Question:

Please provide the figures on “student suicides” for the past 5 years in tabular form under the categories of suicide attempts, non-fatal suicide attempts and suicide deaths.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6037)

Reply:

Schools are required to report cases of students suspected of committing suicide to the Education Bureau (EDB). Professional support will be provided for the schools concerned as appropriate. The nature and number of the fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. Over the years, EDB has not captured the information from the Court. Hence, we are unable to provide officially verified figures on student suicides.

Question:

Please provide the reasons for “student suicides” for the past 5 years in graphical form under the categories of suicide attempts, non-fatal suicide attempts and suicide deaths.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6038)

Reply:

Schools are required to report cases of students suspected of committing suicide to the Education Bureau (EDB). Professional support will be provided for the schools concerned as appropriate. The nature and number of the fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. Over the years, EDB has not captured the information from the Court. Hence, we are unable to provide officially verified figures on student suicides.

Suicide is a complicated social problem with the interplay of multiple factors, including mental health issues, psychological concerns, relationship and adjustment problems, as well as academic stress at different levels, involving health system, society, community, relationship as well as individual. No single factor could be sufficient to explain a suicide. Attribution to a single factor may run the risk of missing the interaction among multiple intertwined factors and cannot contribute to in-depth understanding of the problem.

Question:

Please tabulate the names of local non-profit-making kindergartens, their addresses, telephone numbers, the number of places for K1, morning session, afternoon session, whole-day class and their school fees, with a breakdown by 18 districts.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6040)

Reply:

The kindergarten (KG) sector is characterised by a high level of flexibility in operation, diversity and vibrancy. KGs provide different modes of services, and flexibly respond to the changing needs of the society. Hence, the number of places for different levels including Nursery classes (K1) and sessions (that is, morning, afternoon and whole-day sessions) may vary between years according to changing needs of parents. Notwithstanding this, the number of places offered by a KG may be roughly reflected from the total number of permitted accommodation of classrooms in use and student enrolment. In the 2016/17 school year, there are 771 local non-profit-making KGs. Their school names, addresses, telephone numbers, total number of permitted accommodation of classrooms in use, student enrolment and annual school fees have been included in the "Profile of Kindergartens and Kindergarten-cum-child Care Centres" (KG Profile) published by the Education Bureau (EDB) by District Council district. The KG Profile has been uploaded to the EDB website.

Question:

The Bureau supports activities which contribute to the wider involvement in education and development of professionalism. Please tabulate the amount of subsidies, responsible bodies, number of beneficiaries, and details of the activities.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6041)

Reply:

The Education Bureau (EDB) attaches great importance to the development of the teaching profession and provides continuous support to activities that foster the growth and enrichment of teachers. To this end, a series of professional development activities supported by EDB (in collaboration with related organizations, e.g. teachers' associations, education professional bodies and so on if appropriate) including courses, seminars, conferences, workshops, etc., take place each year. These activities provide opportunities for a considerable number of teachers to consolidate and share their teaching experiences. The expenditure for these activities, including manpower cost, is subsumed under the overall expenditure of EDB.

Question:

Please tabulate all estimated expenditures and specific work arrangements of the Native-speaking English Teacher Section of the Education Bureau.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6042)

Reply:

The Native-speaking English Teacher (NET) Section is responsible for supporting and evaluating the implementation of the NET Scheme and attainment of the Scheme goals. The major areas of work in 2017-18 are listed in the table below:

Major Area of Work	Description
A. Curriculum development	Literacy programmes and collaborative research and development projects ("Seed" projects) are developed and implemented in both primary and secondary schools to facilitate the implementation of the English Language Curriculum Guide prepared by the Curriculum Development Council, to promote pedagogical innovations and to foster a culture of collaboration among English language teachers, including NETs.
B. School support services	Onsite professional support is provided for both primary and secondary schools to foster collaboration between the NET and local teachers, to give advice on curriculum development, pedagogy, assessment and NET deployment, and to identify and disseminate good practices.
C. Professional development programmes	Professional development opportunities are offered to English teachers, including NETs, through workshops, seminars, cluster meetings, experience-sharing sessions, etc.
D. Resource development	Print and electronic learning and teaching resources are developed for the various NET Section initiatives including literacy programmes and "Seed" projects.
E. Organisation of competitions for students	Competitions are organised to provide a range of opportunities for students to use English in a creative and collaborative way. These competitions also provide professional development opportunities for participating teachers, including NETs.
F. Ad hoc projects	<ul style="list-style-type: none"> <li>● Development of an e-platform to enhance the accessibility and visibility of the services and resources offered by the NET Section</li> <li>● Evaluation of the NET Section's school support services</li> </ul>

	<ul style="list-style-type: none"> <li>• Evaluation of the Enhanced NET Scheme in Secondary Schools (ENET Scheme)</li> </ul>
--	--

Items A to E above are to be carried out by the Education Bureau (EDB), the cost of which is to be subsumed under the recurrent expenditure of EDB and a separate breakdown of the staffing and financial implications is not available. The estimated expenditures on items under “Ad hoc projects” in 2017-18 are as follows:

Ad hoc projects	Estimated expenditures for 2017-18 (\$ million)
Development of an e-platform	0.15
Evaluation of school support services	0.10
Evaluation of the ENET Scheme	0.35

**CONTROLLING OFFICER'S REPLY****EDB387****(Question Serial No. 5483 )**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please tabulate all estimated expenditures and specific work arrangements of the Special Educational Needs (SEN) Section of the Education Bureau.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6044)

Reply:

The Special Education Needs Section is responsible for planning and developing the adapted curriculum for special schools and supporting them to implement the adapted curriculum through enriching learning and teaching materials for children with intellectual disabilities (ID) under the New Academic Structure (NAS). The major areas of work for 2017-18 are listed in the table below:

Area of work	Descriptions
A. Curriculum development	To plan and develop the adapted curriculum for special schools to implement for students with ID and enrich learning and teaching materials through collaborative research and development projects ("Seed" projects) on curriculum adaptation, development of the Learning Progression Frameworks (LPFs) for core subjects of both basic education and senior secondary education.
B. Professional development programmes (PDPs)	To conduct professional development and training programmes for school heads, curriculum leaders and teachers to implement the adapted curriculum under the NAS for the students with ID.
C. Resource development	To produce learning and teaching materials and Supplementary Guides to the Curriculum and Assessment (C&A) Guides for the different subjects at basic education and senior secondary levels for special schools.
D. Other support measures	To support the schools implementing the adapted senior secondary curriculum for students with ID under the principle of "One Curriculum Framework for All"; to provide adapted Applied Learning courses for students with ID as elective subject(s) in the senior secondary curriculum which complement other senior secondary subjects by offering studies with stronger elements of practical learning linked to broad professional and vocational fields.

Estimated expenditure for the curriculum development, the PDPs, resources development and other support measures in 2017-18 is as follows:

	<b>2017-18</b> (\$ million)
Estimated expenditure	20.0

As a significant part of the above support measures was carried out by professional staff of EDB, the cost is subsumed under the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

Director of Bureau: Secretary for Education

Question:

Please tabulate the items of expenditure and work arrangements of the Special Educational Needs (SEN) Section of the Education Bureau in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6045 )

Reply:

The Special Education Needs Section is responsible for planning and developing the adapted curriculum for special schools and support them to implement the adapted curriculum through enriching learning and teaching materials for children with intellectual disabilities (ID) under the New Academic Structure (NAS). The major areas of work between 2012-13 to 2016-17 are listed in the table below:

Area of work	Descriptions
A. Curriculum development	To plan and develop the adapted curriculum for special schools to implement for students with ID and enrich learning and teaching materials through collaborative research and development projects ("Seed" projects) on curriculum adaptation, development of the Learning Progression Frameworks (LPFs) for core subjects of both basic education and senior secondary education.
B. Professional development programmes (PDPs)	To conduct professional development and training programmes for school heads, curriculum leaders and teachers to implement the adapted curriculum under the NAS for the students with ID.
C. Resource development	To produce learning and teaching materials and Supplementary Guides to the Curriculum and Assessment (C&A) Guides for the different subjects at basic education and senior secondary levels for special schools.
D. Other support measures	To support the schools implementing the adapted senior secondary curriculum for students with ID under the principle of "One Curriculum Framework for All"; to provide adapted Applied Learning courses for students with ID as elective subject(s) in the senior secondary curriculum which complement other senior secondary subjects by offering studies with stronger elements of practical learning linked to broad professional and vocational fields.

Expenditure for the curriculum development, PDPs, resources development and other support measures in the past five years is as follows:

2012-13 (\$ million)	2013-14 (\$ million)	2014-15 (\$ million)	2015-16 (\$ million)	2016-17 (\$ million) (estimate)
21.8	18.2	16.6	17.8	21.4

As a significant part of the above support measures was carried out by professional staff of EDB, the cost is subsumed under the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

Question:

Please tabulate the items of expenditure and specific work arrangements of the Life-wide Learning and Library Section of the Education Bureau.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6046)

Reply:

The Life-wide Learning and Library Section is responsible for: (1) curriculum development and implementation of Life-wide Learning (LWL) to support students' whole-person development; and (2) the promotion of information literacy among teacher-librarians to support the implementation of "Reading across Curriculum" in schools through quality library services. The major areas of work for 2017-18 are listed in the table below.

<b>Area of Work</b>	<b>Descriptions</b>
Curriculum development	To carry out curriculum development in LWL for students' whole-person development, including Other Learning Experiences (OLE) and Student Learning Profile (SLP) at the senior secondary level; to identify and promote good practices of library services in primary and secondary schools.
Professional development programmes (PDPs)	To enhance the capacity of school leaders and teachers in implementing LWL, OLE and SLP; to support teacher-librarians in promoting information literacy and reading.
Resources development and support services	To support schools' implementation of LWL, OLE and SLP; to support LWL activities for students' whole-person development; to maintain the Book Works Reading Site on the EDB website.
Others	To administer and promote the Hong Kong Jockey Club Life-wide Learning Fund, which subsidises the financially needy students to participate in LWL activities organised or recognised by their schools.

Estimated expenditure for the PDPs, resources development and support services in 2017-18 is as follows:

	<b>2017-18</b> (\$ million)
Estimated expenditure	3.2

Please note that some costs, e.g. staffing cost, are not reflected in the above figure, as a significant part of the above support measures, which was carried out by professional staff of EDB, is subsumed under the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

Question:

Please tabulate the items of expenditure and specific work arrangements of the Gifted Education Section of the Education Bureau.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6047)

Reply:

The Gifted Education (GE) Section is responsible for planning, co-ordinating and reviewing the implementation of the curriculum according to the special characteristics of gifted children and the changing contextual demand of the society upon these children. Its major areas of work for 2017-18 are as follows:

Area of work	Descriptions
A. Curriculum development	To develop various guidelines, curriculum documents and tools on gifted education such as information folders and School Self-enhancing Tool for schools' reference; to conduct curriculum development visits and advise on gifted education development; and to facilitate inter-school professional dialogues through the GE School Network Initiative.
B. Professional development programmes	To enhance teachers' capacity in promoting gifted education through organising online courses, seminars, workshops, teacher networks, etc.
C. Resources development	To produce learning and teaching packages, which are mostly the deliverables of pilot partnership programmes with schools, to support schools in catering for the needs of gifted students in classrooms, pull-out programmes and off-school provisions.
D. Support Services	To organise various local competitions and off-school programmes for gifted students, e.g. web-based learning courses, territory-wide competitions in different domains and STEM-related enrichment activities.
E. Sending HK delegates to various overseas student competitions	To collaborate with tertiary institutions and other educational organisations to provide gifted programmes, competition-related training programmes and affective education to prepare gifted students for national and international competitions, which serve as platforms for gifted students to learn and grow with like-ability peers and to widen their horizons.

Estimated expenditure for the professional development programmes, resources development and support measures in 2017-18 is as follows:

	<b>2017-18</b> (\$ million)
Estimated expenditure	8.1

A significant part of the above support measures will be carried out by professional staff of EDB, the cost of which is subsumed under the recurrent expenditure of EDB. Separate breakdown of the staffing and financial implication is thus not available.

**CONTROLLING OFFICER'S REPLY**

**EDB396**

**(Question Serial No. 5531)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

People have reflected that at present, kindergarten students with special educational needs will only be provided with support service after undertaking assessment. While the Pilot Scheme on On-site Pre-school Rehabilitation Services allows operators to allocate up to 10% of their service quotas to cases pending assessment, people consider this far from sufficient. The Education Bureau's policy on integrated education follows the "treat and test" approach and immediate support is provided for every student with special educational needs while assessment is being arranged. Would the Administration advise of the following:

With the implementation of the free kindergarten education scheme next year, most kindergartens will be directly subsidised by government funds and turned into public sector schools. Will the Administration extend the policy on integrated education to kindergartens, including such measures as "treat and test", provision of educational psychologists and social workers, and creation of "SEN coordinator"? If yes, what are the arrangements? If no, what are the reasons.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5040)

Reply:

On the support for kindergarten (KG) students with special needs or at risk of developmental delay, the Government has been providing different services through collaborative efforts of various Government bureaux and departments. The Food and Health Bureau (FHB) and Labour and Welfare Bureau (LWB) are responsible for assessment and rehabilitation services respectively for the students in need of such services. On the part of the Education Bureau (EDB), under the free quality KG education policy, the enhancement of teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) will create space for KG teachers to collaborate among themselves to take care of the diverse needs of students (including those at risk of developmental delay), and to enable better professional collaboration with the inter-disciplinary teams in LWB's pilot scheme on On-site Pre-school Rehabilitation Services, which will be regularised after its conclusion.

In tandem, EDB will continue to work jointly with FHB to strengthen the existing training for KG teachers to facilitate early identification of KG students with developmental problems. Besides, starting from the 2016/17 school year, the Education University of Hong Kong has also offered a new University Grants Committee-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs Programme.

EDB will also devise a teacher professional development framework to enhance the understanding of KG teachers of their students' developmental needs and to empower them to identify and cater for learner

diversity, including those at risk of developmental problems. Under the framework, more structured in-service training programmes will be offered for KG teachers. Moreover, EDB will continue to help promote the use of the resource kit 'Pre-primary Children Development and Behavior Management – Teacher Resource Kit' produced by the Department of Health in collaboration with EDB and the Social Welfare Department, which provides strategies and techniques for interpreting and managing individual children's learning, behavioral, emotional and social skills problems, and helps teachers identify needy children, communicate with parents effectively and refer children for assessment promptly. In addition, EDB will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use by KG teachers and parents to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers.

The above measures could effectively help KGs cater for the needs of students with special needs or at risk of developmental delay. The creation of the post of teacher coordinator for special educational needs in KGs is considered not necessary.

Question:

Which are the primary and secondary schools that admitted underage children of refugees, asylum seekers and torture claimants in the 2015/16 and 2016/17 school years? In which districts are these schools distributed? What is the number of these students and what grades are they studying?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5041)

Reply:

Children who have no legal right to remain in Hong Kong will not be allowed to attend schools in Hong Kong and will be repatriated. For underage children of refugees, asylum seekers and torture claimants liable to removal but holding a form of recognizance issued by the Director of Immigration, consideration may be given on a case-by-case basis to allow them to receive education temporarily. The Education Bureau (EDB) will provide placement assistance as appropriate having regard to their district of residence and learning level. Children concerned may also apply directly to schools for admission. Schools should refer the applications to their respective Regional Education Offices. As the situation of the children of refugees, asylum seekers and torture claimants changes quite frequently from time to time, EDB does not have readily available information regarding the number of these children as well as their distribution by grade or district.

Question:

Please inform this Committee of the number of non-Chinese speaking students and, by ethnicity, the number of ethnic minority (including Indonesian, Filipino, Indian, Pakistani, Nepalese, Japanese, Korean, other Asian, white, black and other ethnic minority) students studying at different grade levels in primary and secondary schools in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 4557)

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students, and the number of NCS ethnic minority students by ethnicity as asked in the question studying at different grade levels in public sector and Direct Subsidy Scheme primary and secondary schools from the 2012/13 to 2016/17 school years are tabulated at Annex A and Annex B respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

**Number of non-Chinese speaking students studying at different grade levels  
in primary and secondary schools from the 2012/13 to 2016/17 school years**

Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the top-up degree programmes registered with the Non-local Courses Registry in the past 5 years, will the Hong Kong Council for Accreditation of Academic and Vocational Qualifications provide this Committee with statistics on the number of registrations, number of people who pursued such programmes, institutions that jointly run such programmes in Hong Kong and professional qualifications awarded for each year.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 4558)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (the Ordinance), courses conducted in Hong Kong leading to the award of non-local higher academic or professional qualifications are required to register or seek exemption from registration.

Completion of professional programmes registered / exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in the relevant legislation or by the respective professional bodies, take examination / assessment for attaining the professional qualifications. The Non-local Courses Registry does not collate information on the award of professional qualifications.

The information of top-up Bachelor degree programmes <sup>Note 1</sup> registered / exempted from registration under the Ordinance from the 2012/13 to 2016/17 academic years is set out below:

	2012/13		2013/14		2014/15		2015/16		2016/17 <sup>Note 2</sup>	
	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes	Registered Programmes	Exempted Programmes
Number of top-up Bachelor degree programmes	96	72	109	87	93	104	94	104	95	95
<b>Institutions jointly running the top-up Bachelor degree programmes</b>										
Number of overseas institutions	32	23	34	25	28	25	28	25	23	28
Number of operators (for Registered programmes) / Number of local institutions of higher education (for Exempted programmes)	26	8	29	8	24	8	24	8	12	8
Number of students enrolled	4 945	7 473	3 739	5 961	4 565	5 985	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes – (a) Bachelor degree programmes (whether bearing “top-up degree” or not in the programme names) with duration not more than 18 months; and (b) sub-degree or equivalent qualification as an entry requirement.

Note 2: Information as at 28 February 2017.

Note 3: Statistics not yet available as the related information will only be provided by operators/ institutions six months after the end of an academic year.

Question:

Please give details of the visits made to relevant authorities in the Mainland as well as meetings and exchanges conducted with these authorities by the Education Bureau in the past year and provide in chronological order the following information for each visit, including (a) purpose and place of visit; (b) titles of Mainland officials met; (c) size of entourage and post titles of accompanying Hong Kong officers; (d) duration of visit in days; and (e) total expenditures involved; as well as (i) travelling expenses (breakdown of air tickets and local transport at the destinations); (ii) accommodation expenses; (iii) meal expenses; (iv) expenses on banquets or entertainment; and (v) expenses on gifts.

Date	(a)	(b)	(c)	(d)	(e)	(i)	(ii)	(iii)	(iv)

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 4559)

Reply:

Information about duty visits to the Mainland made by Secretary for Education in 2016-17 is at the Annex.

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of official entertainment. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure limits on entertainment in the form of official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs to others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts/souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

**CONTROLLING OFFICER'S REPLY****EDB401****(Question Serial No. 5569)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide details of expenses on entertainment and gifts of your bureau and the departments under its purview in the past 2 years using the table below:

Bureau/branch/ department and year	Estimated expenses on entertainment and gifts in the year	Actual expenses on entertainment and gifts in the year	Cap on entertainment expenses (including beverages) per attendee for the year	Cap on gift expenses per guest for the year	Number of receptions held and total number of guests entertained in the year

2. Please provide details of expenses on entertainment and gifts of your bureau and the departments under its purview this year using the table below:

Bureau/ branch/ department	Date of reception (day/month/year)	Departments/ organisations served by guests entertained (group by department/ organisation with number of guests) and post titles of guests	Food expenses incurred in the reception	Beverage and gift expenses incurred in the reception	Venue of reception (department office/restaurant in government facilities/ private restaurant/ others (please specify))

3. Please provide the estimated expenses on entertainment and gifts for the coming year using the table below:

Bureau/ branch/ department	Estimated provision for expenses on entertainment and gifts	Cap on entertainment expenses per guest	Cap on gift expenses per guest

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 4560)

Reply:

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of meals for official purposes. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure on official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips. Education Bureau (EDB), University Grants Committee (UGC) Secretariat and the Working Family and Student Financial Assistance Agency (WFSFAA) follow the same principles and guidelines on official entertainment. In 2015-16 and 2016-17 (as at 28 February 2017), the actual expenses on official entertainment incurred by EDB were \$462,511 and \$325,914 respectively and the estimated expenditure for 2017-18 is \$674,000. The actual expenses on official entertainment incurred by the UGC Secretariat were \$583,771 and \$439,848 in 2015-16 and 2016-17 (as at 28 February 2017) respectively and the estimated expenditure for 2017-18 is \$867,000. The actual expenses on official entertainment incurred by WFSFAA were \$10,580 and \$3,412 in 2015-16 and 2016-17 (as at 28 February 2017) respectively and the estimated expenditure for 2017-18 is \$72,000.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs to others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts or souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

Question:

Please provide the numbers of kindergartens, teachers and students (excluding classes for children aged 2 to 3) by type of kindergartens for the past 5 years.

	Local non-profit-making kindergartens joining the Pre-primary Education Voucher Scheme (excluding former aided child care centres)			
	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day classes and half-day classes	
Number of schools				
Number of full-time teachers				
Number of part-time teachers				
Number of students				
	Local non-profit-making kindergartens not joining the Pre-primary Education Voucher Scheme			
	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day classes and half-day classes	
Number of schools				
Number of full-time teachers				
Number of part-time teachers				

Number of students				
	Local private independent kindergartens			
	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day classes and half-day classes	
Number of schools				
Number of full-time teachers				
Number of part-time teachers				
Number of students				

	Non-local kindergartens			
	Only operating whole-day classes	Only operating half-day classes	Operating both whole-day classes and half-day classes	
Number of schools				
Number of full-time teachers				
Number of part-time teachers				
Number of students				
	Former aided child care centres

Number of students				

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 4573)

Reply:

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs from the 2012/13 to 2016/17 school years are tabulated in Appendix. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salary which is directly related to the working hours. Hence, we are unable to provide the number of full-time teachers and part-time teachers as requested.

The numbers of kindergartens (KGs), teachers and students (excluding classes for children aged 2 to 3) by type of KGs operating whole-day (WD) classes only, operating half-day (HD) classes only and operating both WD and HD classes from the 2012/13 to 2016/17 school years

**Director of Bureau:** Secretary for Education

**Question:**

Please set out kindergarten (KG) teacher salaries in the past 5 years by KG type.

	Local non-profit-making (NPM) KG joining the Pre-primary Education Voucher Scheme (PEVS) (excluding Former Aided Child Care Centre (FAC))			FAC		Local NPM KG not joining PEVS			Local private independent (PI) KG			Non-local KG		
	with whole-day (WD) classes only	with half-day (HD) classes only	with both WD and HD classes	with WD class only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes
Full-time (FT) teachers' average salary														
FT teachers' median salary														
FT teachers' highest salary														
FT teachers' lowest salary														

**Asked by:** Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5018)

**Reply:**

The respective average salary, median salary, highest salary and lowest salary of full-time (FT) teachers in whole-day (WD) kindergartens (KGs) and half-day (HD) KGs under Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs)); FACs; local non-profit-making (NPM) KGs not under PEVS; local private independent (PI) KGs and non-local KGs from the 2012/13 to 2016/17 school years are tabulated below:

## (i) FT KG Teachers in Local NPM KGs under PEVS (excluding FACs)

School Year	KGs with	Monthly salary of FT teachers			
		Average salary	Median salary	Highest salary	Lowest salary
2012/13	WD classes only	\$19,934	\$19,500	\$34,575	\$9,000
	HD classes only	\$18,739	\$17,720	\$49,567	\$7,762
	Both WD and HD classes	\$17,027	\$15,907	\$62,410	\$7,000
2013/14	WD classes only	\$20,656	\$20,500	\$34,575	\$9,814
	HD classes only	\$19,805	\$18,735	\$53,660	\$8,656
	Both WD and HD classes	\$18,045	\$16,855	\$71,695	\$8,320
2014/15	WD classes only	\$21,921	\$22,165	\$35,930	\$11,700
	HD classes only	\$20,448	\$19,675	\$57,045	\$8,000
	Both WD and HD classes	\$18,752	\$17,485	\$70,490	\$8,925
2015/16	WD classes only	\$24,191	\$25,505	\$39,360	\$10,523
	HD classes only	\$21,950	\$20,600	\$59,445	\$8,000
	Both WD and HD classes	\$19,946	\$18,600	\$85,323	\$8,000
2016/17	WD classes only	\$26,283	\$28,040	\$41,200	\$13,600
	HD classes only	\$23,640	\$22,430	\$70,688	\$9,023
	Both WD and HD classes	\$21,253	\$20,000	\$92,531	\$8,465

## (ii) FT KG Teachers in FACs

School Year	KGs with	Monthly salary of FT teachers			
		Average salary	Median salary	Highest salary	Lowest salary
2012/13	WD classes only	\$19,939	\$19,010	\$31,525	\$9,600
	Both WD and HD classes	\$19,098	\$17,835	\$28,380	\$9,883
2013/14	WD classes only	\$20,778	\$20,115	\$32,760	\$8,500
	Both WD and HD classes	\$19,571	\$18,010	\$28,600	\$10,612
2014/15	WD classes only	\$21,336	\$20,905	\$34,315	\$10,400
	Both WD and HD classes	\$19,694	\$18,535	\$29,720	\$12,500
2015/16	WD classes only	\$23,094	\$22,192	\$37,590	\$8,645
	Both WD and HD classes	\$21,298	\$20,305	\$34,100	\$8,570
2016/17	WD classes only	\$24,249	\$22,560	\$41,318	\$10,766
	Both WD and HD classes	\$22,804	\$21,255	\$35,780	\$13,000

## (iii) FT KG Teachers in Local NPM non-PEVS KGs

School Year	KGs with	Monthly salary of FT teachers			
		Average salary	Median salary	Highest salary	Lowest salary
2012/13	WD classes only	\$27,105	\$27,245	\$47,485	\$14,937
	HD classes only	\$21,003	\$20,160	\$65,271	\$8,000
	Both WD and HD classes	\$24,087	\$20,252	\$65,271	\$11,050
2013/14	WD classes only	\$26,476	\$28,315	\$53,474	\$15,683
	HD classes only	\$20,778	\$18,634	\$54,265	\$10,500
	Both WD and HD classes	\$27,215	\$26,985	\$64,784	\$15,131
2014/15	WD classes only	\$25,373	\$28,315	\$44,842	\$15,523
	HD classes only	\$21,605	\$19,675	\$77,953	\$11,975
	Both WD and HD classes	\$27,080	\$26,707	\$67,614	\$15,805
2015/16	WD classes only	\$26,843	\$28,140	\$39,390	\$16,890
	HD classes only	\$23,143	\$21,890	\$66,445	\$11,500
	Both WD and HD classes	\$21,133	\$19,410	\$35,122	\$8,512
2016/17	WD classes only	\$27,864	\$29,455	\$41,971	\$17,200
	HD classes only	\$23,447	\$21,550	\$42,069	\$10,850
	Both WD and HD classes	\$24,692	\$23,344	\$36,717	\$11,600

## (iv) FT KG Teachers in Local PI KGs

School Year	KGs with	Monthly salary of FT teachers			
		Average salary	Median salary	Highest salary	Lowest salary
2012/13	WD classes only	\$17,800	\$15,900	\$27,000	\$9,700
	HD classes only	\$20,800	\$19,300	\$68,500	\$8,900
	Both WD and HD classes	\$18,100	\$16,000	\$68,000	\$8,300
2013/14	WD classes only	\$18,500	\$17,000	\$31,500	\$12,600
	HD classes only	\$21,500	\$20,000	\$58,600	\$9,000
	Both WD and HD classes	\$19,000	\$16,700	\$74,600	\$8,500
2014/15	WD classes only	\$19,444	\$18,100	\$32,760	\$15,410
	HD classes only	\$22,665	\$20,680	\$75,874	\$9,450
	Both WD and HD classes	\$19,670	\$17,010	\$89,094	\$9,000
2015/16	WD classes only	\$21,409	\$19,500	\$35,890	\$16,500
	HD classes only	\$23,941	\$22,280	\$81,237	\$10,500
	Both WD and HD classes	\$21,379	\$18,000	\$90,738	\$9,100
2016/17	WD classes only	\$22,977	\$21,378	\$37,570	\$17,000
	HD classes only	\$25,026	\$23,814	\$85,707	\$8,900
	Both WD and HD classes	\$22,256	\$18,600	\$99,881	\$9,250

## (v) FT KG Teachers in Non-local KGs

School Year	KGs with	Monthly salary of FT teachers			
		Average salary	Median salary	Highest salary	Lowest salary
2012/13	WD classes only	\$41,020	\$35,435	\$78,020	\$14,937
	HD classes only	\$27,243	\$24,875	\$94,356	\$8,000
	Both WD and HD classes	\$26,482	\$23,000	\$75,606	\$8,800
2013/14	WD classes only	\$44,285	\$50,669	\$96,223	\$14,713
	HD classes only	\$28,249	\$25,500	\$98,611	\$10,000
	Both WD and HD classes	\$23,988	\$21,746	\$73,157	\$11,500
2014/15	WD classes only	\$34,424	\$24,544	\$75,512	\$9,000
	HD classes only	\$29,623	\$26,000	\$90,446	\$9,910
	Both WD and HD classes	\$24,482	\$22,000	\$63,311	\$14,940
2015/16	WD classes only	\$46,878	\$43,899	\$89,427	\$12,000
	HD classes only	\$28,059	\$25,000	\$100,914	\$9,250
	Both WD and HD classes	\$25,364	\$23,000	\$81,246	\$12,000
2016/17	WD classes only	\$45,818	\$44,060	\$108,031	\$12,000
	HD classes only	\$29,554	\$26,000	\$103,914	\$8,700
	Both WD and HD classes	\$26,909	\$24,441	\$88,234	\$11,300

Note: Figures of the 2016/17 school year are provisional.

**EDB405**

**(Question Serial No. 5589)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please set out kindergarten (KG) teachers' wastage rate (no longer teaching kindergarten) and job-switch rate (teaching in another KG) in the past 5 years by kindergarten type.

	Local non-profit-making (NPM) KG joining the Pre-primary Education Voucher Scheme (PEVS) (excluding Former Aided Child Care Centre (FAC))			FAC		Local NPM KG not joining PEVS			Local private independent (PI) KG			Non-local KG		
	with whole-day (WD) classes only	with half-day (HD) classes only	with both WD and HD classes	with WD class only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes	with WD classes only	with HD classes only	with both WD and HD classes
Full-time (FT) teachers' wastage rate														
FT teachers' job-switch rate														

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5019)

Reply:

The respective wastage rate (Note 1) and job-switching rate (Note 2) for teachers in local non-profit-making (NPM) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs)), FACs, local NPM KGs not under PEVS, local private independent (PI) KGs and non-local KGs from the 2012/13 to 2016/17 school years are tabulated below. For breaking down the data into KGs with half-day (HD), whole-day (WD) and both HD and WD classes as requested, given the small number of KGs and teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall wastage rate and job-switching rate.

(a) Wastage rate

School Year	Wastage Rate (Note 3)				
	Local NPM PEVS KGs (excluding FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
2012/13	7.8%	6.7%	12.3%	13.3%	19.9%
2013/14	7.4%	6.8%	10.1%	12.6%	17.2%
2014/15	8.8%	7.6%	8.8%	13.9%	15.8%
2015/16	8.0%	7.0%	7.3%	14.4%	18.1%
2016/17 (Note 4)	9.8%	9.6%	10.5%	15.4%	16.0%

(b) Job-switching rate

School Year	Job-switching Rate (Note 3)				
	Local NPM PEVS KGs (excluding FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
2012/13	10.4%	9.9%	13.0%	9.4%	7.1%
2013/14	10.0%	8.3%	8.4%	11.3%	5.3%
2014/15	9.6%	9.2%	11.0%	11.2%	7.4%
2015/16	9.6%	8.6%	8.7%	12.1%	7.4%
2016/17 (Note 4)	8.4%	7.4%	10.5%	10.3%	13.2%

Note:

1. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.
2. "Job-switching rate" refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Job-switching Teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG.
3. The figures cover all KG teachers regardless full-time or not. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salary which is directly related to the working hours.
4. The figures of the 2016/17 school year are provisional.

Question:

Please provide the wastage rate of full-time kindergarten teachers by their length of service in the past 5 years:

Wastage rate of full-time teachers					
Length of service	Local non-profit-making kindergartens participating in the Pre-primary Education Voucher Scheme (PEVS) (except former aided child care centres)	Former aided child care centres	Local non-profit-making kindergartens not participating in the PEVS	Local private independent kindergartens	Non-local kindergartens
0-5 year(s)					
6-10 years					
11-15 years					
Over 15 years					

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5020)

Reply:

The respective wastage rates (Note 1) of teachers by their length of service in local non-profit-making (NPM) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs)) and FACs from the 2012/13 to 2016/17 school years are tabulated below. As regards similar breakdowns for local NPM KGs not under PEVS, local private independent (PI) KGs and non-local KGs, given the small number of these types of KGs and their teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall wastage rate for these types of KGs.

(i) 2012/13 school year:

Length of service	Wastage rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	12.0%	7.5%	12.3%	13.3%	19.9%
6-10 years	8.6%	5.8%			
11-15 years	6.3%	7.2%			
Over 15 years	6.3%	6.2%			

(ii) 2013/14 school year:

Length of service	Wastage rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	10.2%	10.0%	10.1%	12.6%	17.2%
6-10 years	8.9%	3.3%			
11-15 years	7.4%	6.4%			
Over 15 years	5.4%	6.2%			

(iii) 2014/15 school year:

Length of service	Wastage rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.1%	9.8%	8.8%	13.9%	15.8%
6-10 years	10.7%	5.1%			
11-15 years	8.7%	6.7%			
Over 15 years	6.9%	7.1%			

(iv) 2015/16 school year:

Length of service	Wastage rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	10.4%	7.8%	7.3%	14.4%	18.1%
6-10 years	10.3%	6.1%			
11-15 years	6.6%	6.4%			
Over 15 years	6.2%	6.8%			

(v) 2016/17 school year (Note 3):

Length of service	Wastage rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	11.4%	10.8%	10.5%	15.4%	16.0%
6-10 years	12.3%	11.3%			
11-15 years	8.3%	8.3%			
Over 15 years	8.5%	8.5%			

Note:

1. "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.
2. The figures cover all KG teachers regardless full-time or not. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers' information on the basis of full-time and part-time employment except their salary which is directly related to the working hours.
3. The figures of the 2016/17 school year are provisional.

Question:

Please provide the job-switch rate of full-time kindergarten teachers by their length of service in the past 5 years:

Job-switch rate of full-time teachers					
Length of service	Local non-profit-making kindergartens participating in the Pre-primary Education Voucher Scheme (PEVS) (except former aided child care centres)	Former aided child care centres	Local non-profit-making kindergartens not participating in the PEVS	Local private independent kindergartens	Non-local kindergartens
0-5 year(s)					
6-10 years					
11-15 years					
Over 15 years					

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5021)

Reply:

The job-switching rate (Note 1) for teachers by their length of service in local non-profit-making (NPM) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) (excluding former aided child care centres (FACs)) and FACs from the 2012/13 to 2016/17 school years are tabulated below. As regards similar breakdowns for local NPM KGs not under PEVS, local private independent (PI) KGs and non-local KGs, given the small number of these types of KGs and their teachers under individual breakdown items, the percentage will be misleading as it will change greatly even for small changes in the number of teachers. Hence, it is more appropriate to provide the overall job-switching rate for these types of KGs.

(i) 2012/13 school year:

Length of service	Job-switching Rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	16.2%	16.1%	13.0%	9.4%	7.1%
6-10 years	10.5%	10.3%			
11-15 years	10.3%	9.5%			
Over 15 years	7.8%	6.1%			

(ii) 2013/14 school year:

Length of service	Job-switching Rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	17.1%	12.9%	8.4%	11.3%	5.3%
6-10 years	9.3%	6.5%			
11-15 years	9.2%	8.6%			
Over 15 years	6.8%	5.8%			

(iii) 2014/15 school year:

Length of service	Job-switching Rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.2%	13.0%	11.0%	11.2%	7.4%
6-10 years	10.8%	7.6%			
11-15 years	8.8%	9.7%			
Over 15 years	6.2%	6.5%			

(iv) 2015/16 school year:

Length of service	Job-switching Rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	15.5%	12.6%	8.7%	12.1%	7.4%
6-10 years	11.2%	11.5%			
11-15 years	7.9%	5.9%			
Over 15 years	5.5%	5.4%			

(v) 2016/17 school year (Note 3):

Length of service	Job-switching Rate (Note 2)				
	Local NPM KGs under PEVS (except FACs)	FACs	Local NPM KGs not under PEVS	Local PI KGs	Non-local KGs
0-5 year(s)	14.0%	12.6%	10.5%	10.3%	13.2%
6-10 years	6.9%	7.7%			
11-15 years	6.3%	4.6%			
Over 15 years	5.0%	3.6%			

Note:

1. “Job-switching rate” refers to the number of job-switching teachers as a percentage of the total number of teachers in KGs concerned as at mid-September of the preceding school year. “Job-switching Teacher” refers to the teachers who had served in a KG concerned as at mid-September of the preceding school year but left that KG as at mid-September of the school year concerned for serving in another KG.
2. The figures cover all KG teachers regardless full-time or not. In compiling information on KG teachers as reference for planning policies on KG education, our concern is the overall profile and situation in different types of KGs. We do not compile teachers’ information on the basis of full-time and part-time employment except their salary which is directly related to the working hours.
3. The figures of the 2016/17 school year are provisional.

Question:

Please provide the average indoor and outdoor spaces (including all activity areas but not ancillary facilities) per person provided in kindergartens in 2001, 2006, 2011 and 2016, with a breakdown by kindergarten type.

		Local non-profit-making kindergartens (excluding Former Aided Child Care Centre)	Former Aided Child Care Centre	Local private independent kindergartens	Non-local kindergartens	
Average indoor space per person	Average					
	Median					
	Highest					
	Lowest					
Average outdoor space per person	Average					
	Median					
	Highest					
	Lowest					

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5022)

Reply:

The kindergarten (KG) sector is characterised by a high level of diversity, vibrancy and flexibility in operation. KGs are located in a variety of premises, such as self-acquired or self-owned premises, privately leased premises, or public housing estates. While there are requirements in respect of the minimum floor space for each KG student in a classroom and the number of students permitted in each classroom, the overall provision of space and facilities for their students is a school-based arrangement. The Education Bureau has not collected detailed information on the area of their facilities such as indoor and outdoor play areas, and are therefore unable to provide the information as requested.

Director of Bureau: Secretary for Education

Question:

1. Please provide the total number of students with special educational needs (SEN) in the territory by school type and the eight types of SEN for the past 5 years.
2. Please provide the distribution of the numbers of students with SEN by District Council district, as well as their proportions in the total number of students in their respective districts for the past 5 years. What does the Education Bureau (EDB) think of the situation in which the proportions of students with SEN in certain districts are significantly higher and how will it cater to the needs as far as the injection of resources and the formulation of policies are concerned?
3. Please provide the number of students with SEN studying in public sector mainstream primary and secondary schools by grade level and major SEN Types for the past 5 years.
4. Please provide the number of students with SEN studying in public sector mainstream primary and secondary schools by severity (i.e. tiers 1, 2 and 3) and type of SEN for the past 5 school years (calculated from the first date of each school year which usually fell on the first of September).

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3017)

Reply:

(1) to (4)

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade levels and by the eight types of SEN from the 2012/13 to 2016/17 school years is set out at Appendix 1. The number of students with SEN studying in English Schools Foundation schools, other international schools, and private independent schools from the 2012/13 to 2016/17 school years is set out at Appendix 2. As support services for children with SEN at pre-primary levels are provided by the Social Welfare Department, the Education Bureau (EDB) does not maintain data on students with SEN at kindergarten levels.

All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-Tier Intervention Model, taking into account their support needs. To help schools cater for their students with SEN, EDB has been providing public sector schools with additional resources, professional support and teacher training. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. The distribution of public sector mainstream primary schools

and secondary schools eligible for Learning Support Grant, that is calculated according to the number of students with SEN requiring tier-2 or tier-3 support, by range of number of students with SEN requiring tier-2 and tier-3 support from the 2012/13 to 2016/17 school years is set out in Appendix 3.

Based on the information provided by the post-secondary institutions, the number of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes under the University Grants Committee-funded (UGC-funded) and non-UGC-funded institutions from the 2012/13 to 2016/17 academic years is set out at Appendix 4.

As the provision of support services for students with SEN does not have relationship with the district in which they live or study, breakdown of the number of students with SEN by district can be misleading. Hence, we have not compiled such figures.

**Number of students with special educational needs (SEN) studying in  
public sector mainstream primary and secondary schools

2016/17	18	872	601	469	337	220	135	74	58	37	22	28

Note:

- 1 The figures denote the position as at September of the respective school years.
2. The number of students identified to have SEN will increase during the year through early identification and intervention measures.

**Number of students with special educational needs (SEN) in English Schools Foundation (ESF) schools, other international schools, and private independent schools (PIS) from the 2012/13 to 2016/17 School Years**

School Year	ESF		PIS		Other International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
2012/13	141	232	123	184	190	97	454	513
2013/14	139	239	69	137	262	88	470	464
2014/15	136	256	117	175	329	163	582	594
2015/16	230*	435*	178	277	385	175	793	887
2016/17	245	565	172	231	323	179	740	975

Note:

1. The figures denote the position as at September of the respective school years.
2. Statistics cover students with SEN under integrated classes / special classes / special schools in PIS, ESF and other International Schools as reported by the schools concerned in response to the Annual Enrolment Survey. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

\* ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and offer three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF has advised that from 2015/16 onwards they have standardised their practice by requiring all ESF schools to include in their returns to the student enrolment survey not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for 2015/16 as compared with previous years.

**Table 1**

**Distribution of public sector mainstream primary and secondary schools eligible for the Learning Support Grant (LSG)  
by range of number of students with special educational needs (SEN) requiring tier-2 support from the 2012/13 to 2016/17 school years**

Range of students with SEN requiring tier-2 support	No. of schools

**CONTROLLING OFFICER'S REPLY****EDB411****(Question Serial No. 5625)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the numbers of primary and secondary school teachers in the territory who have pursued the Basic, Advanced and Thematic Courses (BAT Courses) on special education and the cumulative number of these teachers for the past 5 school years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3018)

Reply:

The Education Bureau launched a five-year teacher professional development framework on integrated education in the 2007/08 school year, under which structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers in primary and secondary schools to enhance their capacity in catering for students with special educational needs. The number of teachers who attended the BAT Courses from the 2011/12 to 2015/16 school years is as follows:

Course	Teachers	School Year					Total
		2011/12	2012/13	2013/14	2014/15	2015/16	
Basic	Primary	156	136	232	230	229	983
	Secondary	234	373	412	360	418	1 797
Advanced	Primary	174	103	103	83	116	579
	Secondary	237	176	169	101	169	852
Thematic	Primary	610	160	226	167	208	1 371
	Secondary	417	255	338	347	286	1 643

Question:

- (1) Please provide the number of Native-speaking English Teachers (NETs) currently employed by each special school and list the average teacher-to-student ratio of each NET.
- (2) Please provide the total number of NETs currently employed by all the public sector primary and secondary schools in the territory and list the average teacher-to-student ratio of each NET.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3020)

Reply:

(1) and (2)

In the 2016/17 school year, 461 and 403 NETs are engaged in public sector primary schools and secondary schools respectively, including 19 NETs engaged in special schools. NETs serve mainly as resource teachers for the English Language subject and, together with other English teachers, seek to provide an environment conducive to students communicating in English. In addition to undertaking teaching duties, NETs support and collaborate with other English teachers to create a favourable English learning environment and to facilitate the implementation of the school-based curriculum and execution of subject-related tasks. As the provision of NETs is on a school basis and there are great variations in the number of classes and students, as well as in the deployment of NETs among schools, information about the average teacher-to-student ratio of each NET is not available.

Question:

Please state the current average ratio of educational psychologist to public sector primary and secondary schools under the School-based Educational Psychology Service. The Government has proposed to further enhance the School-based Educational Psychology Service from the 2016/17 school year by progressively improving the ratio of educational psychologist to schools to 1:4 for public sector schools with a large number of students with special educational needs. To reach this target, how much time does the Government expect to take?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3021)

Reply:

Under the School-based Educational Psychology Service (SBEPS), one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). The Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. The EDB will continue to keep in view service needs of schools as a whole and the provision of EPs in the market. As and when necessary, we will liaise with local universities for meeting the manpower demand in order to continuously enhance the support to schools in catering for students' diverse needs.

Question:

What were the situations and numbers of students with special educational needs who had used the following support services including physiotherapy, occupational therapy, speech therapy, braille books, audiobooks, other assistive devices (please specify the type of devices) and sign language interpretation service in the special education system and integrated education system respectively for the past 5 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3022)

Reply:

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

On top of regular teaching provisions, special schools are provided with non-teaching staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braille staff according to the specific needs of their students. All students in the special schools could benefit from the above specialist services in accordance with their individual needs.

To help mainstream schools cater for their students with SEN, EDB has been providing them with additional resources on top of the regular subvention for all mainstream schools, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers under different programmes, Top-up Fund for procurement of special furniture/equipment or carrying out minor conversion work for students with disabilities, etc. Schools are required to pool school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN based on their needs, including procurement of assistive devices, employment of additional teachers, teaching assistants or hiring professional services such as speech therapy services. As the context of individual schools differs and school-based support services rendered to students with SEN vary, we do not have detailed statistics about the assistive device and services provided by schools and their utilisation rate.

Director of Bureau: Secretary for Education  
Question:

At the frontline implementation level, is there currently any communication and collaboration mechanism between the Education Bureau and the district offices of the Social Welfare Department to support families of students with special educational needs?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3025)

Reply:

Schools deliver multifarious teaching strategies and counselling services to cater for students' different abilities and aptitude, with a view to helping students, including the students with special educational needs, cope with their learning difficulties as well as solving their behavioral problems, with the concerted effort of teachers and professional staff (including school social workers, student guidance personnel and school-based educational psychologists, etc.) under the Whole School Approach. If students are found to have family problems, the school social workers or student guidance personnel will refer the cases to the casework service units of the Social Welfare Department (SWD) or non-governmental organisations (NGOs) for their follow up actions as appropriate. The social workers of the SWD/NGOs will provide follow-up services for these students and their families, as deemed necessary, while the school social workers and student guidance personnel will co-work with them and act as an informant or mediator to keep in view of the students' condition at school. The social workers of the SWD/NGOs may also liaise with the Education Bureau on matters such as school placement and boarding service where necessary. If the cases are suspected to involve grave family problems such as child abuse, schools should follow the Procedural Guide for Handling Child Abuse Cases of the SWD to consult the Family and Child Protective Services Unit of the SWD for appropriate actions so as to safeguard the safety of the children.

**CONTROLLING OFFICER'S REPLY****EDB416****(Question Serial No. 5630)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give the position of the vacant school premises at present, including the district lands office to which they belong, their locations, areas, availability dates, land status and the current planned use by district.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3027)

Reply:

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Information on these premises is set out in the table below:

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000

**CONTROLLING OFFICER'S REPLY****EDB417****(Question Serial No. 5631)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the total number of non-Chinese students studying in public sector schools in the past 5 years, with a breakdown by type of school and class level.
2. Please provide the number of public sector school leavers who dropped out without completing senior secondary education in the past 5 years, with a breakdown by last grade studied and ethnicity.
3. Please provide by class level the total number of non-Chinese students with special educational needs who studied in public sector schools, and among them, the number of school leavers who dropped out without completing senior secondary education, with a breakdown by last grade studied and ethnicity, in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3028)

Reply:

- (1) The total number of ethnic minority (EM) students in public sector schools by grade and by sector from the 2012/13 to 2016/17 school years is detailed at Appendix 1.
- (2) & (3)

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these cases. The number of non-attendance students at S4 to S6 levels reported by public sector schools between 2012/13 to 2015/16 school years is tabulated below. Information for the 2016/17 school year is not yet available.

School year \ Grade Level	2012/13	2013/14	2014/15	2015/16
S4	1 452	1 370	1 533	1 010
S5	919	837	1 041	645
S6	6	3	8	11

We do not readily have breakdown of the non-attendance students by ethnic group or information in relation to special educational needs (SEN) of these students as schools need not provide such information in their report to EDB.

The number of EM students with SEN who are non-Chinese speaking (NCS) in public sector schools by grade level and by ethnicity from the 2012/13 to 2016/17 school years is set out at the Appendix 2. It is a common practice for special schools to adopt flexible grouping across grade levels and individual education plans to cater for the SEN of the students. Presenting the number of students according to grade levels cannot reflect the actual operation of special schools.

## Number of Ethnic Minority Students in Public Sector Schools by Grade and by Sector from the 2012/13 to 2016/17 School Years

**(Question Serial No. 5632)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Would the Education Bureau please provide, for the past 5 years, the total numbers of Chinese students with special educational needs who studied in a public sector school by class level and the number of them who dropped out of school without completing the senior secondary curriculum by class level when the student dropped out of school?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3029)

Reply:

The number of Chinese students with special educational needs (SEN) in public sector mainstream schools by class level from the 2012/13 to 2016/17 school years is set out at Appendix 1. The number of Chinese students in public sector special schools by primary and secondary section from the 2012/13 to 2016/17 school years is set out at Appendix 2. It is a common practice for special schools to adopt flexible grouping across class levels and individual education plans to cater for the SEN of the students. Presenting the number of students according to class levels cannot reflect the actual operation of special schools. Education Bureau does not capture SEN information of dropout or non-attending students who do not complete the senior secondary curriculum.

Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please provide the timetable for “progressively improving the ratio of educational psychologist to schools to 1:4”, and its related estimates, the services provided by educational psychologists, and the ways schools identify and refer needy students to educational psychologists.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2483)

Reply:

The Government has further enhanced the School-based Educational Psychology Service by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools for an average of 30 days per school year and provide comprehensive and regular follow-up to students as well as intervention services to the schools concerned based on their needs. The estimated expenditure for the enhanced provision for the 2016/17 and the 2017/18 school years is \$4 million and \$11 million respectively.

The Education Bureau has put in place a territory-wide “Early Identification and Intervention Programme for Primary One Students with Learning Difficulties” for all public sector primary schools to identify students in Primary One suspected of having learning difficulties. For students showing severe or persistent difficulties despite the intervention rendered, schools will refer them to EPs or other professionals as appropriate for assessment. Schools can also consult EPs on the educational needs of other students who manifest learning or emotional-behavioural difficulties. EPs will arrange assessment for the students or provide advice for the schools on the support strategies to cater for the students’ needs.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of the list of Chinese language programmes partially or fully funded by the Government currently run for non-Chinese speaking students or school leavers, and for each programme, the amount of the funding, the name of the organization running the programmes, the specific target group of the programme (if any), and whether the programme is pegged at any level of the Qualifications Framework.

How does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? How are the students' progress tracked?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2506)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" in primary and secondary schools and the creation of an inclusive learning environment in schools. Among the various support measures, Chinese language programmes for NCS students, funded by EDB and/or different Funds, are offered in collaboration with tertiary institutions and/or non-governmental organisations as appropriate to complement the support offered by schools. Estimated expenditure for the major Chinese language programmes concerned in the 2016/17 school year is tabulated at [Annex](#).

EDB monitors the programmes through lesson/activity observations, questionnaire surveys and review of the progress and final reports submitted as appropriate. For the Chinese Language Learning Support Centres, the University of Hong Kong would also submit evaluation reports on the learning progress of the students.

**Chinese language programmes for non-Chinese speaking (NCS) students  
offered in collaboration with tertiary institutions and non-governmental organisations  
in the 2016/17 school year**

<b>Programme</b>	<b>Organisation commissioned to organise the programme</b>	<b>Target participants</b>	<b>Estimated expenditure in the 2016/17 school year (\$ million)</b>
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	The University of Hong Kong	NCS students in primary and secondary schools	3.9
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	(a) Hong Kong Christian Service  (b) HKSKH Lady MacLehose Centre	NCS children aged 3 to 9	1.72
Vocational Chinese Language Courses for NCS School Leavers, pegged at Level 1 or 2 of the Qualifications Framework with a view to enhancing the employability of NCS school leavers	(a) Vocational Training Council  (b) School of Continuing and Professional Education, City University of Hong Kong	NCS school leavers	1.37

Note:

In parallel, eligible schools admitting NCS students are provided with additional recurrent funding to support the learning of the Chinese language of NCS students. With the additional funding and schools' deployment of resources, it is not uncommon for schools to offer Chinese language programmes in collaboration with tertiary institutions and/or non-governmental organisations. The relevant expenses are subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The EDB has previously said that “all information related to school choices is available in both Chinese and English on the Bureau’s website,” and that the EDB is “committed to encouraging and supporting NCS students’ integration into the community”. Yet the executive summary on the review of the ‘Guide to Pre-Primary Curriculum’ (2006) in 2016 was only available in Chinese; parents’ talk are published on a very obscure page and the EDB did not promote events to ethnic minority parents when interpretation services have been arranged; even the webpage on “Chinese Language Curriculum Second Language Adapted Learning Framework” is in Chinese only.

Will the Government inform this Council of:

- (a) Whether all official information of the Education Bureau is available in both Chinese and English, our official languages;
- (b) The number of English-language parent briefing sessions conducted on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (c) The number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Kindergarten Admission, Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (d) The list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools’ qualities and videos, particularly those that inform parents and students of their school choices, that are only available in Chinese but not English;
- (e) The list of information disseminated or publications published by the Education Bureau, including its school directories and reports on schools’ qualities, particularly those that inform parents and students of their school choices, that are available in both printed and web versions in Chinese but only available in web versions in English;
- (f) The list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools’ qualities and videos, particularly those that inform parents and students of their school choices, that are available in languages other than Chinese and English, and what languages they are available in;

- (g) If some information about schools and the education system given by the Education Bureau is available in Chinese only, how non-Chinese speaking parents can make an informed school choice for their children and whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice; and
- (h) How will the EDB improve its communication with NCS parents and better promote EDB policies and school information to parents given not all information is equally bilingual?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2509)

Reply:

- (a) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.
- (b)&(c) Notwithstanding that admission to Kindergartens (KGs) is a school-based matter, in 2014, the EDB introduced the Admission Arrangements for Nursery (K1) Classes in KGs (K1 Admission) for all KGs joining the Pre-primary Education Voucher Scheme for improving the KG admission procedure and better utilising the KG places. Starting from June 2014, briefing sessions have been organised for parents to facilitate their understanding of the K1 Admission, including dedicated briefing sessions conducted in English for non-Chinese speaking (NCS) parents. As a starting point, in 2014, one dedicated briefing session for NCS parents was organised in Yau Tsim Mong, and two sessions were organised in 2015 in Wong Tai Sin and Tuen Mun. The respective number of participants was 28 and 53 for 2014 and 2015. In 2016, we organised the briefing sessions in collaboration with the Support Service Centres for Ethnic Minorities funded by the Home Affairs Department with a view to better reaching out to NCS parents. Seven dedicated briefing sessions were organised in Kwai Tsing, Kwun Tong, Tuen Mun, Wan Chai, Wong Tai Sin, Yau Tsim Mong and Yuen Long. The total number of participants in 2016 was 157. Simultaneous interpretation services in major ethnic minority (EM) languages as appropriate to the participants are provided in all the above-mentioned briefing sessions. In addition to directly reaching out to NCS parents through the above-mentioned parent seminars, we also capitalise on non-governmental organisations which have established networks with the NCS communities in disseminating the information relating to K1 admission.

To facilitate participation of NCS students and parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English with simultaneous interpretation services are organised annually in two modes, i.e. briefing sessions open to all NCS parents and briefing sessions for NCS parents in individual kindergartens or primary schools upon their requests. A total of nine sessions on POA which were open to all NCS parents were organised in each of the school years from 2012/13 to 2015/16 in Wan Chai, Kwun Tong and Kowloon City, which are easily accessible to parents. The number of participating parents in the briefing sessions was 248, 333, 316 and 311 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. As regards SSPA, in the light that it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on school choices to Primary 6 students and parents, one briefing session open to all NCS parents was organised in Sham Shui Po in each of the school years from 2012/13 to 2015/16. The number of participating parents was 49, 70, 66 and 73 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. We have not kept a separate record of the briefing sessions organised on request of individual kindergartens or primary schools, which may vary over the years and are therefore unable to provide the related number.

- (d)&(e) All information related to school choices is available in both Chinese and English on the Bureau's website. Relevant information is also published in other language versions where applicable to facilitate the reference by NCS communities.
- (f) EDB is committed to encouraging and supporting NCS students' integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in Chinese and English and there is a designated webpage on the education services for NCS students. We also provide NCS students and their parents with the list of information or publications published in both Chinese and English with translation into major EM languages as tabulated at Annex.
- (g) & (h) As elucidated in (f) above, information about the education system and schools published by EDB is not in Chinese only. EDB has been promoting parent education highlighting that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider schools which can provide more immersed Chinese language learning environment for NCS students. Dedicated briefing sessions with simultaneous interpretation services will continue to be organised for parents of NCS students. In tandem, EDB has been encouraging schools to organise parents' school visits on a school / district basis to enable parents (including parents of NCS students) to get to know more about the schools before making school choices. EDB has, starting from the 2015/16 school year, distributed the English version of the School Profiles to each NCS student to help their parents grasp the basic information of all public sector schools. EDB has encouraged schools to keep on enriching the contents of their English School Profiles and school websites. Besides, EDB has set up a hotline for NCS students and their parents with telephone interpretation arranged through the CHEER Centre funded by the Home Affairs Department.

In addition, starting from the 2014/15 school year, all schools admitting 10 or more NCS students have been provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. In addition to the implementation of the "Chinese Language Curriculum Second Language Learning Framework", schools receiving the funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. The schools concerned have generally deployed about 10% of the funding provided for appointment of EM assistants and/or procurement of translation services to strengthen communication with parents of NCS students and organise multi-cultural activities.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

In the Primary One Allocation process, the Education Bureau asks parents / guardians to indicate on the "Application Form for Admission to Primary One" if the applicant child "Cannot use Chinese as learning medium" (item 7 on the application form). In addition, according to the "Notes on How to Complete the 'Application Form for Admission to Primary One'" published by the Education Bureau in 2015 and 2016, "if parents / guardians claim, on the application form, that the applicant child cannot use Chinese as the learning medium," they may choose from a list of eight schools, listed in Appendix 3 of the document, that traditionally admit more non-Chinese speaking students. Will the Government also inform the Council:

- (a) How many applicants checked the option "Cannot use Chinese as learning medium" on the "Application Form for Admission to Primary One" in the 2011/12, 2012/13, 2013/14, 2014/15, 2015/16, and 2016/17 school year admissions respectively; and
- (b) What percentage of the students who checked the option "Cannot use Chinese as learning medium" entered one of the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" in the 2014/15, 2015/16, and 2016/17 school year admissions respectively.
- (c) Why providing Appendix 3 does not constitute a "labelling effect" on the listed schools and contribute towards the phenomenon of de facto segregation?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2510)

Reply:

- (a) The number of applicants who chose the option "Cannot use Chinese as learning medium" on the application form of Primary One Admission (POA) is 631, 665, 679, 700 and 756 in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 school years respectively.
- (b) The percentage of students who chose the option "Cannot use Chinese as learning medium" and were subsequently admitted by the listed schools is 52.3%, 48% and 46.4% in the 2014/15, 2015/16 and 2016/17 school years respectively.
- (c) The arrangements for part B of the Central Allocation under POA was revised in POA 2004 to enable children who chose the option "Cannot use Chinese as the learning medium" in the application form, like all applicant children, to choose schools in their residing school net so that they may benefit from the immersed Chinese language environment of the "mainstream" schools to

facilitate their early adaptation to the local education system and integration into the community. Having due consideration to the worries and needs of some non-Chinese speaking (NCS) students and parents, starting from POA 2005, EDB has adopted the flexible arrangements under which applicant children who chose the option “Cannot use Chinese as the learning medium” in the application form may choose, in addition to schools in their residing school net, the listed schools which are primary schools traditionally admitting NCS students. Stakeholders generally find that the flexible arrangements strike a balance among different interests and concerns, and agree with it. In tandem, EDB has appealed to parents of NCS students, through further revision to the Notes to Parents of NCS Children, to take into account the aspirations and needs of their children when making school choices and send their children to schools with an immersed Chinese language environment to facilitate their learning of the Chinese language. The Notes have been translated into major ethnic minority languages for easy reference by parents of NCS students.

## (Question Serial No. 5729)

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not Specified

**Programme:** (6) Other Educational Services and Subsidies

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

A systematic data collection and collation mechanism is conducive to informing policy and decision-making. Data disaggregated by race, ethnicity, gender, age, and other variables is important to implementing effective evidence-based governance. In this regard, will the Government please inform the Council of:

- (a) The number of primary and secondary schools (government, aided and DSS) with 1 to 9 non-Chinese speaking (NCS) students in the 2013/14, 2014/15, 2015/16 and 2016/17 school years by district:

District	School year	Number of primary schools with 1 to 9 NCS students	Number of secondary schools with 1 to 9 NCS students
	2013/14		
	2014/15		
	2015/16		
	2016/17		

- (b) The number of primary and secondary schools (government, aided and DSS) in the 2013/14, 2014/15, 2015/16 and 2016/17 school years by district with the following breakdown of NCS students:

District	Percentage of NCS students among all students of the schools/ Number of primary schools / Number of secondary schools											
	Percentage of NCS students among all students of the school	0%	1% to 10%	11% to 20%	21% to 30%	31% to 40%	41% to 50%	51% to 60%	61% to 70%	71% to 80%	81% to 90%	91% to 100%
	Number of primary schools											
	Number of secondary schools											

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2511)

**Reply:**

According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students ranging from "0", "1 to 9", "10 to 25", "26 to 50", "51 to 75", "76 to 90" and "91 or above", and the percentage of NCS students among all students of these schools from the 2013/14 to 2016/17 school years are tabulated at [Annex](#). To avoid unnecessary misconception and possible

labelling on individual schools, we have been adopting a cautious approach and adhering to the established practice of not disclosing information that may indicate the situation of individual schools concerned in respect of issues such as the number or ratio of academically low achievers, students with special educational needs, students from needy families, NCS students, etc. admitted. We are gauging further views from the sector with a view to releasing more information relating to support for NCS students as far as practicable.

**Number of schools with non-Chinese speaking (NCS) students ranging from  
“0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”,  
and the percentage of NCS students among all students of such schools  
from the 2013/14 to 2016/17 school years**

School year	Number of schools / Percentage of NCS students among all students of the schools	Number of NCS students						
		0	1 to 9	10 to 25	26 to 50	51 to 75	76 to 90	91 or above

2014/15	Number of schools	189	193	36	11	3	1	23
	Percentage of NCS students among all students of the schools	0%	0.1%-3.6%	1.1%-4.0%	2.5%-11.5%	4.5%-23.6%	23.8%	13.9%-98.7%
2015/16	Number of schools	175	193	41	12	8	0	25
	Percentage of NCS students among all students of the schools	0%	0.1%-1.9%	1.0%-7.1%	2.6%-9.4%	4.5%-23.4%	-	15.9%-98.9%
2016/17	Number of schools	180	175	48	18	7	1	25
	Percentage of NCS students among all students of the schools	0%	0.1%-2.4%	1.3%-7.4%	2.9%-9.9%	4.5%-26.1%	37.1%	13.0%-99.1%

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. The data cover NCS students in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum. Figures do not include students in special schools.

**(Question Serial No. 5731)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

It has been said that the enrollment rate for Applied Learning Chinese (for non-Chinese speaking students) courses was at first so low that the entry requirement of the courses was lowered to make the number and there have been complaints about the uneven pace of the lessons in Applied Learning Chinese (for NCS students) and that the classes are not helpful.

Will the Government inform the council of:

- (a) How are the students' language ability determined before they join the classes?
- (b) What are the requirements for joining Applied Learning Chinese (for non-Chinese speaking students) courses, and did the current students meet the entry requirement before they were granted a spot on the course?
- (c) What are the Applied Learning Chinese (for non-Chinese speaking students) course teachers' qualifications? Do these teachers have CSL teaching experience or qualifications?
- (d) How does the Government monitor the effectiveness of Applied Learning Chinese courses?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2513)

Reply:

(a) & (b) At the point of entry to Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)), non-Chinese speaking (NCS) students are expected to have achieved most of the learning outcome of the "Chinese Language Curriculum Second Language Learning Framework" at level 4 or above. To this end, schools would assist NCS students in considering applying for ApL(C) according to their language ability, interest and aspirations. Current students admitted to ApL(C) should have basic language competency to enable them to learn Chinese language through different modes of activities in a simulated applied learning context.

(c) For each course, a team of professional members is involved in the course delivery of ApL(C), including the main teaching staff with expertise in Chinese Language and experience in teaching NCS students. Apart from these, there are personnel with related professional and vocational experience to support the delivery.

(d) Similar to other Applied Learning courses, the Education Bureau monitors the effectiveness of ApL(C) through a quality assurance process, involving the relevant Curriculum Development Council committee on curriculum design, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications on delivery, and the Hong Kong Examinations and Assessment Authority on moderation of assessment.

Question:

Please list the numbers of students from families in receipt of the Comprehensive Social Security Assistance (CSSA) receiving the lunch subsidy at schools and their respective percentage by level of education (secondary schools, primary schools, and kindergartens) in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2518)

Reply:

Primary students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector schools (including special schools) or schools under the Direct Subsidy Scheme are eligible for free lunch at schools. For students in receipt of CSSA and receiving full-day education, their meal expenses have already been covered by the CSSA subsidy.

**CONTROLLING OFFICER'S REPLY****EDB426****(Question Serial No. 5737)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please list the total expenditures on providing the subsidy of Free Lunch at Schools to participating schools in the past 5 years by school level (secondary school, primary school and kindergarten).

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2519)

Reply:

The Education Bureau has, starting from the 2014/15 school year, incorporated the pilot scheme of provision of free lunch at schools for needy primary students under the Community Care Fund into the regular assistance programme. Primary students in receipt of full grant assistance under the Student Financial Assistance Schemes studying in whole-day public sector schools (including special schools) or primary schools under the Direct Subsidy Scheme are eligible for free lunch at schools.

The expenditure in the past five school years (i.e. the 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16 school years) is set out below-

School Year	Expenditure (\$ million)
2011/12	132
2012/13	145
2013/14	157
2014/15	163
2015/16	170

Question:

Please provide a breakdown of the distribution of all students with special educational needs (SEN) by grade level (from K1 to F.6) in Hong Kong for the past 5 school years, as well as the total number of students with SEN proceeding to sub-degree programmes, the total number of students with SEN proceeding to UGC-funded degree programmes, the total number of students with SEN proceeding to self-financing degree programmes, the total number of students with SEN proceeding to postgraduate level programmes and the total number of students with SEN proceeding to overseas studies at tertiary institutions. Please list the above information by the 8 types of SEN.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1042)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade levels and by SEN types from the 2012/13 to 2016/17 school years is set out at Appendix 1. At pre-primary levels, services for children with SEN are provided by the Social Welfare Department. The Education Bureau does not have the related data.

Based on the information provided by the post-secondary institutions, the number of students with SEN pursuing full-time locally-accredited sub-degree and undergraduate programmes under the University Grants Committee-funded (UGC-funded) and non-UGC-funded institutions from the 2012/13 to 2016/17 academic years is set out at Appendix 2. We do not have information on the number of students with SEN proceeding to post-secondary programmes overseas.

Question:

- (1) What are the current ratio of school-based educational psychologists of the Education Bureau (excluding hiring of services) to students in receipt of the Learning Support Grant, the average number of cases handled by each school-based educational psychologist, as well as the average, highest and lowest number of school visits? Please give a breakdown by district as well as by primary and secondary school.
- (2) What was the wastage rate of educational psychologists in the past 5 years?
- (3) Please provide the number of cases in which students suspected to have dyslexia have yet to be assessed by educational psychologists. Please list out the respective number by primary and secondary schools, and also by study level.
- (4) Please list out and give an account of the support and adaptation being provided by schools for suspected cases.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1129)

Reply:

(1)

The School-based Educational Psychology Service (SBEPS) adopts a comprehensive and integrated service model that aims at enhancing schools' capacity to cater for students' diverse educational needs. The support rendered to schools by the educational psychologists (EPs) encompasses the school system, teacher support, and student support levels. Specifically, EPs provide assessment and intervention for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases. By enhancing the school support system and teachers' knowledge and skills in catering for students' diverse needs, all students in the participating schools will benefit from the provision of the SBEPS directly or indirectly. Thus, reporting the ratio of EPs to students receiving the Learning Support Grant can be misleading. Likewise, reporting the average number of cases handled by each EP does not reflect comprehensively the actual service provided under the SBEPS and can also be misleading.

Under the SBEPS, one EP serves six to ten public sector schools (including both primary and secondary schools). EPs visit their schools regularly throughout the school year. The number of visit days paid to each school varies, depending on the needs of the schools and their students. We have not compiled a breakdown of the number of school visits by districts.

(2)

The wastage rate of EPs serving schools under the SBEPS in the past five school years (i.e. from 2012/13 to 2016/17) is 4.2%, 2.8%, 2.5%, 6.7% and 0% respectively.

(3) and (4)

The Education Bureau (EDB) has put in place a territory-wide “Early Identification and Intervention Programme for Primary One Students with Learning Difficulties” for all public sector primary schools to identify students in Primary One suspected of having learning difficulties. Schools will arrange timely learning support for those students identified with learning difficulties, with reference to the remedial teaching packages developed by EDB. They will also collaborate with the parents on homework and assessment accommodation, and monitor the progress of the students for adjustment of the intervention measures. For students showing severe or persistent learning difficulties despite the intervention rendered, schools will refer them to EPs or other professionals as appropriate for assessment. In the past four school years (2012/13 to 2015/16), about 80% of the cases referred to EPs were assessed within two months and about 90% within four months. The remaining cases with a longer waiting time for assessment were often due to some specific circumstances. For example, there were cases whose parents requested to defer the assessment and cases in which assessment had to be held up pending the students’ medical treatment.

Question:

Will the Government provide the following information:

1. The number of teachers who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau in the last 5 financial years with a breakdown by kindergarten, primary and secondary school teachers.
2. The number of Chinese and English language teachers currently in schools who attended the 30-hour, 90-hour and 120-hour workshops/training courses on special education held by the Education Bureau, and their percentage shares in the Chinese and English language teachers of the same class level.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1135)

Reply:

(1) and (2)

The Education Bureau launched a five-year teacher professional development framework on integrated education in the 2007/08 school year, under which structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers in primary and secondary schools to enhance their capacity in catering for students with special educational needs (SEN). The number of teachers who attended the BAT Courses from the 2011/12 to 2015/16 school years is set out at the Appendix. Figures for the 2016/17 school year are not yet available.

Since the BAT Courses are intended to equip teachers, regardless of which subject(s) they teach, with the expertise in supporting the students with SEN, we do not have the number of language teachers who have attended the BAT Courses or their percentage share in the population of language teachers.

**Number of teachers attending the Basic, Advanced and Thematic Courses  
from the 2011/12 to 2015/16 school years**

Question:

In the Budget this year, \$960 million has been allocated to subsidise certain self-financing undergraduate programmes. Would the Education Bureau explain why they do not increase the undergraduate and sub-degree intake places directly so that students do not have to take out loans for their education?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1185)

Reply:

All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing first-year first-degree (FYFD) places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of University Grants Committee (UGC)-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. In light of the above, the Government does not see a genuine need to change the number of UGC-funded FYFD places to be offered in the coming years and have maintained it at 15 000 per annum during the 2016/17 to 2018/19 triennium.

As regards publicly-funded sub-degree (SD) programmes, they are currently provided by the Vocational Training Council (VTC) and the UGC-funded universities. As a matter of policy, SD programmes should generally be run on a self-financing basis. SD programmes will continue to be subsidised if (a) they require high start-up and maintenance costs or access to expensive laboratories or equipment; (b) they meet specific manpower needs; or (c) they are regarded as 'endangered species'. In the 2016/17 academic year, 12 728 students (provisional figure) were admitted to publicly-funded SD programmes, representing an increase of 46.6% (or 4 044 students) when compared with the intake level of publicly-funded SD programmes five years ago (i.e. 2011/12 academic year).

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

The current provision of services for students with special educational needs in primary and secondary schools by educational psychologists.

	Secondary school	Primary school
No. of school visits made per month for providing services		
Average no. of counselling cases per month		
Average length of counselling time for each student		
Average number of years of services provided to each student		

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1945)

Reply:

Under the School-based Educational Psychology Service (SBEPS), one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). They visit their schools regularly throughout the school year to provide service at the school system, teacher support and student support levels. Specifically, EPs provide assessment and intervention for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases and thus reporting the average number of cases counselled by the EPs does not reflect comprehensively the actual service provided under the SBEPS. Likewise, the number of visit days paid to each school and the length of counselling time spent on each student vary, depending on the specific needs of the schools and their students. In principle, students will receive the SBEPS on a need basis throughout their years of schooling in public sector primary and secondary schools. We do not have detailed statistics about the school visits by EPs as requested in the table.

Question:

Please provide the information on the complaints received by the Education Bureau from parents of students with special educational needs on primary and secondary schools in the past 5 years.

	Secondary School	Primary School
Total number of complaints		
Number of schools being complained		
Number of completed cases		
Number of cases waiting to be processed		
Average time for waiting processing		
Average case processing time		

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1946)

Reply:

The number of complaints lodged by parents of students with special educational needs received by the Education Bureau (EDB) in the past five years is as follows:

**2012-2013**

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	2	2	3
Number of schools being complained	2	2	3
Number of completed cases	2	2	3

**2013-2014**

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	1	1	4
Number of schools being complained	1	1	4
Number of completed cases	1	1	4

**2014-2015**

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	3	4
Number of schools being complained	0	3	3
Number of completed cases	0	3	4

**2015-2016**

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	6	4
Number of schools being complained	0	6	3
Number of completed cases	0	5	3

**2016-2017** (latest data available)

	Secondary School	Primary School	Others (including Special School)
Total number of complaints	0	4	4
Number of schools being complained	0	4	4
Number of completed cases	0	0	0

Note:

- (i) The statistics above are counted on a case-basis and some cases may involve more than one complainant.
- (ii) Number of completed cases reflects the position as at February 2017.

EDB will handle the complaints received in the first instance. We have no statistics on the number of cases waiting to be processed and the average time for waiting processing. The time spent on handling each complaint case would depend on the nature and complexity of the case. In general, it takes about two to three months to handle a formal complaint case. It may take a longer time to handle some complicated cases.

Question:

In all kinds of schools, what types of complaints are received by the Education Bureau from parents of students with special educational needs?

	Types of Complaints		
	Common Complaints Type 1	Common Complaints Type 2	Common Complaints Type 3
Kindergarten			
Primary School			
Secondary School (Secondary 1 to Secondary 3)			
Secondary School (Secondary 4 to Secondary 6)			
University			

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1947)

Reply:

The common types of complaints received by the Education Bureau (EDB) from parents of students with special educational needs in the past 5 years are listed below:

	Types of Complaints		
	Common Complaints Type 1	Common Complaints Type 2	Common Complaints Type 3
Primary School	Student Support	Learning Support	Poor Staff Performance, Promotion of Students, School Maladministration
Secondary School (Note)	School Maladministration	-	-
Special School	School Maladministration	Student Safety	Poor Staff Performance

Note: There is no breakdown on the statistics of junior and senior secondary level.

EDB recorded only one case from parents of students with special educational needs in kindergartens on discrimination and student support, and no case in universities during the period.

Director of Bureau: Secretary for Education  
Question:

What strategies does the Government have to handle the complaints lodged by parents of students with special educational needs?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1949)

Reply:

Cultivating a culture of good communication and establishing a well-defined complaint handling system are essential elements of good governance and quality services. All along, the Education Bureau (EDB) encourages schools to strengthen the communication and cooperation with parents for mutual understanding of their roles and responsibility in the implementation of integrated education. We require schools to establish a regular communication mechanism to let parents understand the special educational needs (SEN) of their children, participate in the formulation of support plans, review the learning progress and adjust the support measures, etc.

According to the prevailing complaint-handling mechanism, schools are required to establish a school-based mechanism and procedures, through which schools and parents can work together to resolve the problems by means of consultation. With regard to complaints about disability discrimination, if schools and complainants cannot reach a settlement, both parties can refer the case to the respective Regional Education Office for arrangement for a mediation meeting to work out a solution. If the above procedures fail to settle the matter, EDB will set up a Case Study Group (the Group) to seek opinion of outsiders. Members of the Group are appointed by EDB. Except the Chairperson, all members are non-EDB members, including parents, representatives from the education sector and other professionals such as representatives from the medical or legal sector, educational psychologist, and the field of social work. The Group will review the case in an objective, impartial and fair manner, and put forward settlement proposal to EDB.

EDB launched the "Pilot Project on Enhancement of Complaint Management in Schools" (Pilot Project) from the 2012/13 to 2014/15 school year to assist schools to establish or enhance their school-based mechanism and procedures for handling complaints, including complaints related to students with SEN. In view of the positive evaluation results of the Pilot Project, EDB has announced full implementation of the Enhanced School Complaint Management Arrangements in all public sector and Direct Subsidy Scheme schools by 1 September 2017.

Question:

Would the Government inform this Committee of the following:

- (1) What was the number of young people/children who needed to change school due to domestic violence in each year from 2007 to 2012? What was the male-to-female ratio?
- (2) What was their learning progress after they changed school? (For instance, did they need to repeat class or take supplementary classes?)
- (3) Are there any measures taken by schools to support these students? If yes, please provide the information in table form. If no, what are the reasons?
- (4) What amount of resources is needed every year? Please list the information in table form.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1312)

Reply:

(1) to (3) The Education Bureau (EDB) does not have statistics about the school-age children who need to change school due to domestic violence and other information such as the learning progress of individual students. EDB provides placement assistance to school-aged children upon request. If there is information indicating that the school transfer warrants schools' particular attention, EDB will contact the schools concerned for appropriate arrangement to meet the specific needs of the students.

To support students in need, schools currently adopt a Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as induction / adjustment programme, peer support scheme and therapeutic group work, etc. to help students adapt to the new learning environment and integrate into the new school life. Schools will also deliver multifarious teaching strategies and counselling services to cater for students' different abilities and aptitude, with a view to helping students solve their learning difficulties and handling their behavioral problems as appropriate.

Students who have been exposed to domestic violence may suffer from fear, distress, anger, confusion and frustration. School personnel have been advised to be sensitive to the traits manifested by the students affected so as to provide them with immediate and necessary assistance, with reference to the "Procedural Guide for Handling Intimate Partner Violence Cases" and the "Procedural Guide for Handling Child Abuse Cases" issued by the Social Welfare Department (SWD). To enhance front-line teachers' awareness in early identification and support of students affected by domestic violence, EDB has collaborated with SWD to organise an annual "Seminar on Identification and Intervention for the Student Affected by Domestic Violence". For known student cases, we understand that the family social workers of the Integrated Family

Service Centres of the SWD provide follow-up support for these students and their families. Professional staff of the schools (including school social workers, student guidance personnel and school-based educational psychologists) will work in collaboration with them to help these students solve their family problems.

To enhance students' resilience, schools may also join the support programmes organised by EDB, such as the Understanding Adolescent Project for primary schools and the Enhanced Smart Teen Project for Secondary 2 to Secondary 5 students. EDB also encourages schools to make use of teaching resources, such as lesson plans on "Prevention and Helping Students Affected by Domestic Violence" and "Self-protection" provided by EDB in delivering their guidance service as well as to strengthen their parent education programmes and parent-child activities.

(4) EDB has been providing schools with various resources to meet students' adjustment needs in whole person development. It is not possible to apportion the expenditure involved for the students requiring school transfer because of domestic violence.

Question:

1. Please provide the latest number of teachers who have completed the Basic, Advanced and Thematic Courses (BAT Courses) under the teachers' professional development framework on special education and give a breakdown of the number of teachers who have not yet completed the BAT Courses.
2. How does the Administration assess the current effectiveness of the BAT Courses on special education?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1950)

Reply:

(1) and (2)

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year, under which structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers in primary and secondary schools to enhance their capacity in catering for students with special educational needs (SEN).

As at the 2015/16 school year, the number of teachers who have completed Basic, Advanced and Thematic courses is 5 907, 2 314 and 5 376 respectively. It should be noted that apart from the BAT Courses, EDB has also arranged other teacher training programmes such as "Training Course for Teachers on Effective Strategies for Managing Students' Challenging Behaviour: A Psychological Approach", and thematic seminars and workshops organised from time to time. As such, we consider that providing the number of teachers who have not yet completed the BAT Courses does not give a complete picture of the training situation and will be misleading.

We have been monitoring the effectiveness of the BAT Courses through various means, including lesson observation, review meetings with the course providers, analysis of participants' feedback and examination of the evaluation reports by the course providers. A review of the Framework has been conducted, in which the views of school principals and teachers were gauged and the evaluation of the course providers scrutinized. The findings showed that the BAT Courses were effective in enhancing the teachers' knowledge and skills in catering for students with SEN. In view of the positive feedback, we have launched another round of BAT Courses starting from the 2012/13 school year, with appropriate adjustment to the mode and content of the training programmes to better meet the training needs of the teachers. Starting from the 2014/15 school year, we have further strengthened the practicum of the Advanced and Thematic courses with a view to helping teachers apply the knowledge acquired. Taking into account the situation of teachers trained as well as the types and number of students with SEN, in the 2015/16 school year, we have further raised the training targets which have to be achieved by every public sector mainstream school by the end of the 2019/20 school year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. Please give a breakdown of the number of hours of special education training in the pre-service teacher training courses currently offered by tertiary institutions.
2. As special education covers a number of different areas, will the Administration consider resuming the previous two-year special education training for teachers offered by the then Hong Kong Institute of Education?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1951)

Reply:

Higher education institutions in Hong Kong enjoy institutional autonomy in the planning and curriculum development of their programmes. As such, the Government and the University Grants Committee (UGC) do not collect information on the number of hours of special education training in pre-service teacher training programmes offered by the teacher education universities. That said, we understand that modules and electives relevant to special education are currently made available in these programmes.

Besides, at present, The Education University of Hong Kong (EdUHK) offers a UGC-funded part-time top-up Bachelor of Education (Honours) (Special Needs) programme to in-service teachers. During the 2016/17 to 2018/19 triennium, a new UGC-funded part-time top-up Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs programme has also been introduced. Moreover, both EdUHK and The University of Hong Kong offer UGC-funded part-time Postgraduate Diploma in Education programmes with majors in Special Education to in-service teachers.

Starting from the 2007/08 school year, the Education Bureau (EDB) has introduced a teacher professional development framework on integrated education (IE), under which structured training courses pitched at Basic, Advanced and Thematic Courses (BAT Courses) are provided. It is expected that a critical mass of teachers having received related training would be formed in each school and those teachers would lead the continuous professional development of the school and guide their counterparts to implement IE through the Whole School Approach. Apart from the BAT Courses, EDB also arranges other training programmes on specific topics such as "Training Course for Teachers on Effective Strategies for Managing Students' Challenging Behaviour: A Psychological Approach". Besides, EDB regularly organizes various kinds of thematic training activities, including talks, workshops and sharing sessions, to keep teachers abreast of the latest development in IE and to share good practices. In short, schools may arrange teachers to attend different training programmes having regard to the needs of the school and the teachers. Teachers may also choose to attend other relevant in-service training courses offered by local teacher education institutions according to their training needs. As such, we do not have plans to resume the previous two-year special education training for teachers.

Question:

Would the Administration please inform this Committee of the resources allocated by the Government to skills opportunity schools and the unit cost per student in the past 5 years and the next financial year?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1314)

Reply:

All skills opportunity schools had completed mainstreaming in August 2005. No government resources were allocated specifically for skills opportunity schools since then, and hence there is no information on the related unit cost per student.

- End -

**CONTROLLING OFFICER'S REPLY****EDB439****(Question Serial No. 6237)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not specified

**Programme:** (7) Post-secondary, Vocational and Professional Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

Please provide a breakdown of the Vocational Development Programmes and Youth Colleges under the Vocational Training Council (VTC) in the past 5 years by expenditure, enrolment, training hours, completion rate and the industries concerned.

**Asked by:** Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1311)

**Reply:**

The Youth College (YC) of the Vocational Training Council (VTC) provides a variety of vocational and professional education programmes for graduates of Secondary 3 or above including the Diploma of Vocational Education (DVE), Diploma of Foundation Studies (DFS), etc. These programmes help students build a solid foundation for further studies and employment. The training hours vary depending on the type of programmes enrolled. For example, the DVE programmes adopt a curriculum structure made up of credit-based modules with multiple entry and multiple exit points. It allows flexible exit at various intermediate stages with the awards of Certificate of Vocational Education, Certificate of Basic Craft Studies or Certificate of Technician Foundation Studies or continuing on to obtain the final award of DVE. Students who have completed Secondary 3 normally take three to four years to obtain the DVE award. Most YC students who are enrolled in the DVE and DFS programmes would normally attend a full-time course of about 700 to 1 000 training hours per academic year (AY). As the facilities in different campuses are often shared by students of different levels of programmes offered by the VTC, and staff may be deployed to different campuses as and when required, the expenditure for YC alone is not available.

The number and the graduation rate of students attending full-time and part-time vocational and professional education programmes in the eight campuses of the YC in the recent five AYs are as follows –

AY	No. of Students at All Years	Graduation Rate*
2012/13	8 844	65%
2013/14	10 347	76%
2014/15	10 499	78%
2015/16	11 191	75%
2016/17 (provisional)	11 850	Not available yet as students will graduate in August 2017

\* Number of graduating students is taken as a percentage of the number of final year students who have obtained an award

The Vocational Development Programme (VDP) offers courses which target youths aged between 14 and 24. Each course lasts for 300 training hours delivered over a three-month period. VDP is funded by the Employees Retraining Board (ERB) and the Labour and Welfare Bureau (LWB), with expenditures from the 2012-13 to 2016-17 financial years listed as follows –

<b>Financial Year</b>	<b>\$ million</b>
2012-13	25
2013-14	25
2014-15	25
2015-16	21
2016-17 (provisional)	21

The training for participants aged between 15 and 20 is funded under ERB. Starting from the 2017-18 financial year, the training for participants aged above 20 will be funded under ERB instead of LWB.

The number of students and the completion rate of VDP are listed below –

<b>AY</b>	<b>Number of Students</b>	<b>Completion Rate</b>
2012/13	811	71%
2013/14	786	67%
2014/15	631	73%
2015/16	560	74%
2016/17	Staggered intakes over the year; admission is still in progress	

YC's programmes and VDP courses are offered in various disciplines/fields, including beauty care and hairdressing, design, engineering, catering, sports coaching, information technology, etc.

Director of Bureau: Secretary for Education

Question:

1. Please provide the number of reported cases of bullying in school received by the Education Bureau (EDB) and the numbers of students with and without special educational needs respectively in the past 5 years.
2. What are the EDB's policy on handling bullying in school and strategies for reducing the occurrence of bullying?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1933)

Reply:

1. Based on the information retrieved from EDB's annual questionnaire survey on guidance and discipline in public sector primary and secondary schools, the number of students (including students with special educational needs (SEN)) involved in school bullying cases in the past 5 years (i.e. from the 2011/12 to the 2015/16 school years) is as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16
Number of students involved in school bullying cases (students with SEN)	219 (17)	257 (26)	254 (20)	214 (23)	204 (30)

2. EDB will not tolerate any act of bullying in schools. In this connection, circulars and guidelines have been issued requiring all schools to take the matter seriously and implement proactive measures to ensure the safety of students at school. The School Administration Guide sets out guidelines on the handling and prevention of bullying cases for reference to all schools. Schools are advised to adopt the Whole School Approach in formulating and implementing anti-bullying strategies, including clear stance on zero tolerance, proper reporting mechanism and handling procedures, highly transparent monitoring as well as proactive and serious attitude in handling each bullying incident.

The anti-bullying awareness of students and staff is also enhanced through preventive education, training programmes and various guidance and discipline activities. Schools are required to augment the personal development education and life education elements in various domains of their school curriculum to instil in students a sense of respect for others and help them acquire communication, social and conflict-management skills. Starting from the 2011/12 school year, EDB has launched the Harmonious School – Anti-bullying Campaign, under which schools will organize Anti-bullying Day/Week with the provision of teaching/promotional materials, an anti-bullying charter and training for Peace Ambassadors on conflict management and peer mediation skills as well as the Harmonious School Net for inter-school sharing and mass programmes.

To facilitate students with SEN to integrate into their school life, EDB encourages schools to adopt the Whole School Approach to integrated education. Through peer support programmes, circle of friends, learning groups and collaborative teaching etc., students can get to know and accept each other, and all teachers and students will respect individual differences and jointly create a harmonious school environment. Besides, home-school cooperation is very important. Through parent education, parents are encouraged to listen patiently to their children, support them to face problems with a caring attitude, maintain communication with students, and seek help from teachers, guidance personnel and social workers whenever necessary.

Director of Bureau: Secretary for Education

Question:

In respect of the implementation of "New Funding Mode" under the integrated education policy so far, would the Government please list the expenditure details of each year:

1. the comparison among the unit cost of each type of special schools, the unit cost for supporting students with special needs studying in mainstream schools and the unit cost of students other than those with special needs;
2. the percentage share of the expenditure on integrated education in the overall education expenditure; and
3. the percentage share of the expenditure on special education in the overall education expenditure.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1935)

Reply:

(1) to (3)

Under the prevailing education policy, the Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with special educational needs (SEN) may attend mainstream schools. EDB has been providing regular subvention for all mainstream schools to cater for student diversity. All students, including students with SEN, will benefit from support services rendered. In addition, to support mainstream schools in catering for students with SEN, EDB has been providing schools with additional resources, professional support and teacher training. The total expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention from the 2012/13 to 2016/17 school years is set out at Appendix 1. It should be noted that some of the additional resources and support services are provided for individual schools for meeting the specific needs of their students with SEN (e.g. Top-up Fund for procurement of special furniture and equipment). In other words, not all schools and students with SEN are receiving the same support services and the funding involved can vary. Hence, providing the unit cost for students with SEN across all mainstream schools or the percentage share of expenditure on integrated education in the overall expenditure of education is inappropriate and misleading. The unit cost of each subsidised place in aided primary and secondary schools from 2012-13 to 2016-17 is set out at Appendix 2.

The average unit cost of each type of special schools from the 2012/13 to 2016/17 school years and the percentage share of the expenditure on special education in the overall education expenditure from 2012-13 to 2016-17 are set out in Part I and Part II of Appendix 3.

**Expenditure on additional support and services for  
students with SEN in public sector mainstream schools  
from the 2012/13 to 2016/17 school years  
(on top of the regular subvention)**

Question:

Integrated education has been implemented by the Government for over 10 years and many problems have arisen. Will the Government conduct a comprehensive review of the integrated education policy?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1936)

Reply:

The Whole School Approach (WSA) to Integrated Education (IE) currently implemented in Hong Kong is in line with the global trend in the development of IE. The Education Bureau (EDB) has kept the implementation of IE under constant review by monitoring the deployment of resources and implementation of measures through its daily work, sending officers on study tours to other countries and regions to learn from their experience, and collecting feedback from the sector and stakeholders through different channels. EDB set up the Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to strengthen communication and co-operation as well as to tap their views on the implementation of IE.

In the light of our on-going review and having considered the need of the students and views of the different stakeholders, EDB has introduced a number of enhancement measures in the past years, including regularizing the Enhanced Speech Therapy Grant and the resource schools and special schools cum resource centres, introducing the teacher professional development framework on IE, enhancing the funding arrangements of the Learning Support Grant (LSG), extending the School-based Educational Psychology Service to cover all public sector primary and secondary schools. EDB has also progressively improved the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. Moreover, the LSG for public sector mainstream primary and secondary schools will cover students with mental illness starting from the 2017/18 school year.

In addition, starting from the 2015/16 school year, the Community Care Fund has funded a three-year pilot project, under which a cash grant equivalent to the mid-point salary of a Graduate Master/Mistress or an Assistant Primary School Master/Mistress is provided for mainstream schools with relatively more students with SEN and financial needs so that a dedicated teacher can be deployed to co-ordinate matters relating to SEN support.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies and measures, including the support for students with SEN, through

self-evaluation each year, which is validated in External School Review conducted by EDB. EDB also requires schools to submit an annual self-evaluation report on the implementation of WSA to IE at the end of the school year. To further enhance transparency, schools are required to set out in their annual school reports how resources are deployed to provide support services for students with SEN. With a view to supporting schools to better utilize their resources, professional staff of EDB conducts regular school visits to provide consultation and organise training and sharing sessions for schools to facilitate proper deployment of resources for supporting students with SEN.

According to our observations and communication with schools, schools are in support of IE. With accumulated practical experience gained over the years, more and more schools are adopting WSA in providing appropriate support for students with SEN and successful cases have been seen in schools in respect of culture building, policy formulation and implementation. EDB will continue to closely monitor the implementation of IE in schools and introduce improvement measures as and when necessary.

- End -

**CONTROLLING OFFICER'S REPLY**

Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. What are the existing teacher training requirements in respect of supporting for students with special educational needs?
2. How do these requirements compare to those of other developed countries, including Taiwan, Canada, the U.S.A and Britain?
3. What proportion of teachers have received adequate training? Please list the respective data of mainstream schools and special schools.
4. Does the Government have any strategies to provide all teachers with training in supporting students with special needs?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1937)

Reply:

(1) and (2)

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers to enhance their capacity in supporting students with special educational needs (SEN). Taking into account the situation of teachers trained as well as the types and numbers of students with SEN enrolled in mainstream schools, in the 2015/16 school year, the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year are further raised as follows:

- (i) at least 15% to 25% of teachers will have completed the Basic Course;
- (ii) at least six to nine teachers will have completed the Advanced Course; and
- (iii) at least six to nine teachers will have completed the Thematic Courses (with at least one teacher completing the course(s) under each category as far as possible).

Since the 2012/13 school year, we have also provided the Training Course for Special School Teachers on Education of Students with Severe or Multiple Disabilities (TCSST) specifically for special school teachers.

As the education system and policy vary among different countries, it is considered not appropriate to make any direct comparison with other countries in respect of teacher training in supporting students with SEN.

(3) and (4)

As at the end of the 2015/16 school year, the percentage of teachers having received special education training in public sector mainstream primary and secondary schools is 42% and more than 24% respectively. The percentage of secondary school teachers having received special education training is lower than that of their primary counterpart mainly because secondary school teachers have given priority to training programmes related to the implementation of the New Senior Secondary curriculum in previous years. As for special schools, 74% of the teachers have received special education training.

To support schools in arranging teachers to attend the BAT Courses and the TCSST in a systematic manner, regular teachers of government and aided primary, secondary and special schools are granted paid study leave for attending these courses, and supply teachers are provided to the schools concerned. Letters have been sent to mainstream schools annually to inform them of the latest training position of the school to facilitate their planning of teachers to attend the BAT Courses as well as school-based professional development programmes.

It should be noted that apart from the BAT Courses and the TCSST, EDB also provides teachers with different theme-based training activities, including seminars, workshops, sharing sessions to share good practices and update teachers on the current trend and approaches in catering for students with SEN.

Besides, EDB has maintained communication with teacher education universities (TEUs) to request them to include “supporting students with SEN or learner diversity” as a core module in the pre-service education programmes. According to our understanding, the TEUs have already included this module in their pre-service teacher training programmes to enhance prospective teachers’ knowledge in this area. EDB has also incorporated topics on catering for student diversity and spearheading the implementation of integrated education (IE) in the Preparation for Principalship Course for Aspiring Principals and induction programme for newly appointed principals to strengthen the leadership of principals in the implementation of the Whole School Approach to IE.

Question:

Please provide the following information:

The most common services currently provided by schools for students with various special educational needs. (The first 3 most common services)

Type of Schools in Which Students Study	The Most Common Service Provided (Type of Service and Utilisation Rate of Service)	The Second Most Common Service Provided (Type of Service and Utilisation Rate of Service)	The Third Most Common Service Provided (Type of Service and Utilisation Rate of Service)
Kindergarten			
Primary School			
Secondary School (S1 to S3)			
Secondary School (S4 to S5)			
University			

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1940)

Reply:

Support services for children with special educational needs (SEN) at pre-primary levels are provided by the Social Welfare Department. The Education Bureau (EDB) does not maintain data on students with SEN at kindergarten levels.

To support public sector primary and secondary schools to cater for their students with SEN, EDB has been providing schools with additional resources on top of the regular subvention for all mainstream schools. These additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, etc. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN based on their needs, including employment of additional teachers and teaching assistants to provide in-class support or supplemental coaching after class, arrangement of small group learning and pull-out programmes, or hiring professional services (such as speech therapy, other specialist services, training groups on social/communication/executive functioning skills, emotion management, learning strategies, peer-mediated activities, etc). Schools can also apply for the Top-up fund to procure special furniture and equipment or carry out minor conversion works for students with disabilities if necessary. For students with significant emotional and behavioural problems despite provision of support, EDB will consider providing the schools with a time-limited grant to employ additional teaching assistants to help the students establish classroom routine. In addition, the professional staff of

EDB pay regular visits to schools to render professional advice on their support policies and measures, teaching strategies and resource deployment, etc. EDB also provides schools with professional support through assessment and consultation services of educational psychologists, speech therapists and audiologists, teacher training and develops teaching resources for use by teachers and parents, etc. to help schools cater for students with SEN. As the context of individual schools differs and school-based support services vary according to the genuine needs of their students with SEN, we do not have detailed statistics about the services provided by schools and their utilisation rate.

At post-secondary level, individual institutions provide special arrangement and support services according to the needs of students with SEN, including assigning academic advisors, providing tutorial services, special examination and assessment arrangements, arranging for programme applications flexibly, special measures for learning support (e.g. extra tutorials and early dissemination of handouts), appropriate boarding in campus as well as learning and amenity facilities, procuring and providing appropriate equipment (e.g. automatic page turner), providing scholarships and loans, career advisory and support services, etc. Under the principle of institutional autonomy, post-secondary institutions can determine how to deploy their resources to assist students with SEN. Hence we are unable to provide the detailed information as requested.

**CONTROLLING OFFICER'S REPLY**

**EDB447**

**(Question Serial No. 6438)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the post-secondary institutions' support for students with special educational needs, please advise:

1. of the number of interpreters or note-takers provided by various post-secondary institutions in the past 5 years and whether the relevant expenses had to be borne by students themselves;
2. of the amount of financial resources involved in providing support services for students with special educational needs in post-secondary institutions in the past 5 years, with a breakdown by area of spending;
3. whether the Government will consider formulating a package of overarching policies and allocating additional resources to enable post-secondary institutions to enhance their support for students with special educational needs, given the difference and inconsistency in these institutions' current policies to provide support for students with special educational needs.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1943)

Reply:

1. Post-secondary education institutions will make special arrangements and provide support services according to the needs of students with special education needs (SEN). The Government does not maintain records of the number of interpreters or note-takers provided by various post-secondary institutions as well as the related expenses.

2.&3. As far as universities funded by the University Grants Committee (UGC) are concerned, since funding for students with special educational needs is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students. To further support SEN students in the post-secondary sector, the Government has implemented various initiatives in recent years, as detailed below.

(a) To facilitate SEN students to pursue UGC-funded programmes and adapt to campus life, as well as to further promote the inclusive culture, UGC has provided a one-off special grant of \$20 million in total for the eight UGC-funded universities in 2015 to enhance the UGC-funded universities' support for students with SEN, as a means to demonstrate UGC's commitment towards offering equal opportunities to all people, including students with SEN. The grant has been allocated on a pro-rata basis according to the number of students with SEN admitted to individual universities, so that universities may implement additional measures to enhance their support services for students with SEN. The funding is for the eight UGC-funded universities to purchase the necessary aids and equipment to facilitate the study of students with SEN; strengthen training among the academic and administrative staff to enhance their awareness towards students with SEN; and support student bodies to organise events and activities to encourage

integration of students with SEN into campus life. Upon conclusion of the scheme, universities are required to deploy resources from the Block Grant to continue with the provision of such measures.

(b) In 2013, the Government made two separate injections of \$20 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, in recognition of deserving post-secondary students with special educational needs in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive scholarship of \$10,000. The number of EMA and EDS recipients in the 2013/14 to 2015/16 academic years is shown at [Annex](#).

(c) Starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council to enhance the support services for students with SEN.

(d) The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund, to implement a programme from 2015/16 to 2017/18 academic year, for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, by purchasing equipment. Each eligible student is offered an additional academic expenses grant of up to \$8,000 every year depending on the level of assistance assessed in the means test conducted by the Student Finance Office of the Working Family and Student Financial Assistance Agency.

The Government is committed to providing young people, including SEN students, with flexible and diversified study pathways with multiple entry and exit points, which include undergraduate and sub-degree programmes and vocational education programmes. UGC and the Education Bureau will, among others, continue to maintain liaison with UGC-funded and self-financing institutions to follow up on the provision of support by individual institutions for students with SEN and promote the inclusive culture.

Question:

Please provide the number of students with special educational needs identified and referred by using the "Observation Checklist for Teachers" and "The Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students" in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1954)

Reply:

Under the Early Identification and Intervention Programme for Primary One Students with Learning Difficulties (EII Programme), teachers complete the Observation Checklist for Teachers and the Hong Kong Behaviour Checklist of Specific Learning Difficulties in Reading and Writing for Primary School Students to identify Primary One students at risk of learning difficulties and arrange early intervention for them. The progress of these students will be monitored and those students whose difficulties are severe or persistent despite intervention will be referred to specialists for assessment. The number of students identified to have marked difficulties via the EII Programme and referred for diagnostic assessment from the 2011/12 to 2015/16 school years is about 3 300, 3 600, 3 800, 3 800 and 3 800 respectively.

Director of Bureau: Secretary for Education

Question:

1. Please list, by district, the numbers of students with special educational needs participating in the individual education plan (IEP).
2. What categories and levels of students are arranged to participate in the IEP by schools? In what way can the effectiveness be assessed?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2213)

Reply:

(1) to (2)

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

All schools are requested to adopt the Whole School Approach to support these students through the 3-Tier Intervention Model, taking into account their support needs. It should be noted that even for students with the same type of SEN, their need and the degree of support required vary. Under the 3-Tier Intervention Model, students with severe learning difficulties, regardless of their SEN type, are provided with tier-3 support under which schools are required to draw up an individual education plan (IEP) for each student. An IEP includes the learning objectives and strategies which meet the individual needs of students, with achievement criteria stated in an observable and measurable manner. It is formulated after discussion among school personnel, related professionals like the educational psychologist and the parents. During the implementation of the IEP, teachers make observations, communicate with parents and collect data on the progress of the student on an ongoing basis to evaluate the effectiveness of the instructional strategies and classroom practices so that adjustment to the support can be arranged. Schools also review IEP regularly following the schedule set therein with involvement of the parents as appropriate. These help to ensure that appropriate support is provided for the student and the IEP is suitably implemented. As for the other students with SEN, schools are required to keep a Student Support Register to record the support and adaptations offered as well as their performance and progress for regular review and adjustment of the type and level of support required as appropriate. As such, the level of support of students with SEN may require upward or downward adjustment. Hence, the distribution of students under the 3-Tier Intervention Model may change from time to time according to the changing needs of the students. In gist, whether a student with SEN requires an IEP depends solely on his prevailing support needs and is a school-based professional decision. It may not have any relationship with his grade level, category of disabilities and the district in which he lives or studies, hence we are unable to provide the information as requested.

**CONTROLLING OFFICER'S REPLY****EDB450****(Question Serial No. 6451)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the number of students with special educational needs who are Secondary 3 school leavers in the past 5 years, as well as their percentage share among the overall population of Secondary 3 school leavers.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2209)

Reply:

The number of students with special educational needs (SEN) reported to have left school after completing Secondary 3 (S3) from the 2011/12 to 2015/16 school years is tabulated below.

School Year	2011/12	2012/13	2013/14	2014/15	2015/16
Number of S3 school leavers with SEN	170	260	300	320	320

Note: Numbers are rounded to the nearest 10.

The general increase in number of such students reported across the school years may be attributed to a greater number of students identified with SEN as a result of enhanced awareness of SEN among the schools and parents as well as the improvement in the identification tools and mechanisms. According to the information reported by schools, the main reasons for these students leaving the schools include attending full-time or part-time courses run by the Vocational Training Council, joining the Apprenticeship schemes or pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc. Since we have not captured the overall number of S3 school leavers under the computer system which was designed specifically for maintaining information about students with SEN, we are unable to provide the percentage share of S3 school leavers with SEN among the overall population of S3 school leavers.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2230)

Reply:

1. The number of primary and secondary students receiving full grant and half grant under the School Textbook Assistance Scheme, the Comprehensive Social Security Assistance (CSSA) and their respective percentage shares (where applicable) in the total number of primary and secondary students in the 2008/09, 2010/11, 2012/13, 2013/14 and 2014/15 school years are as below:

School Year	School Level	Full grant			Half grant			CSSA (as at the end of December of each respective year)		
		No. of students	Subtotal	%	No. of students	Subtotal	%	No. of students	Subtotal	%
2008/09	Primary	31 636	80 459	10.0%	84 596	213 578	26.5%	42 857	103 844	N.A.#
	Secondary	48 823			128 982			60 987		
2010/11	Primary	31 310	76 428	10.2%	74 096	189 644	25.3%	38 654	93 938	N.A.#
	Secondary	45 118			115 548			55 284		
2012/13*	Primary	64 404	146 513	21.1%	39 810	105 703	15.2%	33 110	77 437	N.A.#
	Secondary	82 109			65 893			44 327		
2013/14	Primary	64 881	138 052	20.6%	38 681	98 918	14.8%	30 464	69 416	N.A.#
	Secondary	73 171			60 237			38 952		
2014/15	Primary	66 494	134 060	20.5%	38 030	91 943	14.0%	29 011	64 184	N.A.#
	Secondary	67 566			53 913			35 173		

\* In the 2011/12 school year, there was a considerable increase in the number of students receiving textbook assistance at the full rate. This was mainly due to the relaxation of the income ceiling for full level of assistance under the means test mechanism of the then Student Financial Assistance Agency (renamed to the Student Finance Office of the Working Family and Student Financial Assistance Agency on 1 March 2015) in the year. The situation continues in the school years from 2012/13 to 2014/15, though because of a drop in the student population at the secondary level, the overall number of students receiving full grant has correspondingly reduced.

# Not applicable as the CSSA data is as at end-December of each year while the student population is based on each school year. The corresponding percentage share cannot be worked out.

2. The number and percentage share of primary and secondary students receiving full grant, half grant, and the CSSA who participated in the School-based After-School Learning and Support Programmes, Community Care Fund (CCF) After-school Care Pilot Scheme and Hong Kong Jockey Club Life-wide Learning Fund in the 2012/13, 2013/14 and 2014/15 school years are listed in the following tables where applicable. As for the Child Development Fund, the Government does not keep relevant data.

School-based After-School Learning and Support Programmes\*

	School Year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2012/13	59 130	91.8%	33 060	N.A.#
	2013/14	64 470	99.4%	31 820	N.A.#
	2014/15	63 190	95.0%	29 640	N.A.#
Secondary	2012/13	80 110	97.6%	44 790	N.A.#
	2013/14	73 070	99.9%	39 900	N.A.#
	2014/15	68 300	99.9%	36 700	N.A.#

\* Eligible students under the School-based After-School Learning and Support Programmes are students from families in receipt of CSSA or receiving full grant under the Student Financial Assistance Schemes (SFAS) studying in public sector schools or schools under the Direct Subsidy Scheme. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant.

# Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the School-based After-School Learning and Support Programmes is based on each school year. The corresponding percentage share cannot be worked out.

CCF After-school Care Pilot Scheme\*

	School Year	CSSA, full grant and half grant+	Percentage share among all CSSA, full grant and half grant students
Primary and Secondary^	2012/13	5 237 <sup>@</sup>	N.A.#
	2013/14	10 167	N.A.#
	2014/15	9 074	N.A.#

\* Participating schools of the CCF After-school Care Pilot Scheme may use not more than 25% of the places of their after-school care services to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA, full grant or half grant.

^ Breakdown on primary and secondary students is not available.

+ Breakdown on CSSA, full grant and half grant students is not available.

@ Eligible students under the CCF After-school Care Pilot Scheme in 2012/13 were students from families in receipt of CSSA or receiving full grant assistance under the SFAS studying in public sector schools or schools under the Direct Subsidy Scheme. The eligibility criteria were expanded in subsequent years to cover half-grant students.

# Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the CCF After-school Care Pilot Scheme is based on each school year. The corresponding percentage share cannot be worked out.

Hong Kong Jockey Club Life-wide Learning Fund\*

	School Year	Full grant	Percentage share among all full grant students	CSSA	Percentage share among all CSSA students
Primary	2012/13	52 352	81.3%	21 233	N.A.#
	2013/14	54 021	83.3%	20 346	N.A.#
	2014/15	54 595	82.1%	19 649	N.A.#
Secondary	2012/13	56 202	68.4%	22 886	N.A.#
	2013/14	54 113	74.0%	21 888	N.A.#
	2014/15	49 205	72.8%	19 610	N.A.#

\* Eligible students under the Hong Kong Jockey Club Life-wide Learning Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools (excluding English School Foundation and international schools). Starting from September 2005, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant.

# Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the Hong Kong Jockey Club Life-wide Learning Fund is based on each school year. The corresponding percentage share cannot be worked out.

Question:

1. Please provide details of the staffing of the various types of special schools and boarding sections (if any), the amounts of salary of different categories of posts and grant for different areas (including maintenance of facilities) of the various types of schools, construction cost, standard school infrastructure, cost per capita in the school section, area of space per boarder and cost per capita in the boarding section.
2. Please provide the numbers of students, new students and their age, and school leavers and their age with regard to schools for children with severe intellectual disability in the past 5 years. Please provide the numbers of new applicants waiting for the various types of services for adults in the past 5 years. Please provide the numbers of school leavers who could receive the various types of services for adults in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2232)

Reply:

(1)

Aided special schools are provided with teaching staff, various types of specialists and non-teaching/non-specialist staff on their staff establishment. The number of staff and their respective salary scales in the 2016/17 school year are set out at Appendix 1 and Appendix 2 respectively. The average unit cost per school place and per boarding place of each type of aided special schools in the 2016/17 school year is set out at Appendix 3.

Currently, all aided special schools are provided with an Expanded Operating Expenses Block Grant (EOEBG) for meeting operating expenses. The EOEBG includes virtually all non-salary recurrent grants, except those which are ad-hoc in nature, currently under review, and paid for very specific purpose on a reimbursement basis. It also includes the Composite Furniture and Equipment Grant for schools to procure furniture and equipment items, to cover the maintenance/repairs fees for these items, etc. The details of EOEBG can be accessed from the website of the Education Bureau:

<http://www.edb.gov.hk/en/sch-admin/fin-management/subsidy-info/ref-e-oebg-cfeg/index.html>

Aided special schools can also apply for capital subventions to carry out major school maintenance/repair works including alterations under the annual major repairs (MR) exercise and emergency repairs (ER) mechanism. The total approved project estimates in 2016-17 is about \$77 million.

There are different types/scales of special schools with different provision of facilities to meet the different needs of their target students. Taking the Capital Works special school projects approved by the Finance Committee of the Legislative Council in February and July 2015, namely "3108ET – Two special schools at

Sung On Street, To Kwa Wan” and “3107ET – A school for social development for girls at Choi Hing Road, Kwun Tong, Kowloon” and “3110ET – A 12-classroom special school for children with mild intellectual disability near Hoi Lai Estate, Sham Shui Po” as examples, the estimated construction unit cost, represented by the building and building services costs, is \$17,988, \$18,931 and \$18,782 per m<sup>2</sup> of Construction Floor Area in September 2014 prices respectively. For the Capital Works special school project approved by Finance Committee of the Legislative Council in June 2016, namely “3109ET - A school for social development for boys in Area 2B, Tuen Mun”, the estimated construction unit cost, represented by the building and building services costs is \$21,770 per m<sup>2</sup> of Construction Floor Area in September 2015 prices.

Apart from essential school facilities in the school section such as classrooms, special rooms (e.g. visual arts room, computer room, design and technology room and home economics room, etc. depending on the subjects offered by the special school), library, student activity centre, multi-purpose area, assembly hall, staff room and other ancillary facilities, including a disabled/fireman’s lift, facilities for the disabled, store rooms, toilets, the facilities provided to different types of special schools would be different. Other facilities such as physiotherapy room(s), occupational therapy room(s), speech therapy room(s) and social worker’s room(s), etc., would be provided as appropriate. The school facilities to be provided to each newly constructed special school are approved by the Property Vetting Committee (PVC) on a project basis as appropriate. PVC is chaired by Assistant Director (Architectural) of Architectural Services Department with members from Government Property Agency, Treasury Branch of the Financial Services and the Treasury Bureau and other members to be co-opted as required.

Similarly, approval would be sought from PVC on a project basis for the boarding section of newly constructed special school, if any. Common facilities such as bedrooms, study area, TV/common room, dining/multi-purpose room, kitchen, laundry room, drying area, warden’s office, houseparents’ and programme workers’ office, nurse duty room/sick bay, sleep-in room(s) for staff on night shift and other ancillary facilities, including stores, toilets, bathrooms, relevant facilities for the disabled, etc., would be provided.

(2)

The number of students, new students and leavers of schools for children with severe intellectual disability (SID) in the past five years is set out in Table I of Appendix 4. The number of students admitted to and waiting for admission for adult services for the past five years is set out in Table II of Appendix 4. According to our record, the age range of new students in the past five school years is from 6 to 17. With the implementation of the New Senior Secondary academic structure in the 2009/10 school year, students of special schools, including schools for children with SID, will leave school after completion of their Secondary Six. Under special circumstances where individual students may need to extend their years of study due to valid reasons, arrangements will be made in accordance with the established mechanism. On the other hand, some students may leave earlier due to various reasons, such as having secured a post-school placement or deceased. The age range of school leavers in the past five school years is from 6 to 24.

**I. Staff Establishment of the School Section in the 2016/17 School Year**

School Type	Number of Teaching Staff <sup>1</sup>	Non-teaching Staff	
		Number of Specialist Staff <sup>2</sup>	Number of Non-specialist Staff <sup>3</sup>
Visual Impairment	37.6	13	29
Hearing Impairment	30.9	5.5	26
Physical Disability	199	149.5	290
Mild Intellectual Disability <sup>4</sup>	519.4	112	240.3
Moderate Intellectual Disability <sup>4</sup>	471.0	98.5	272.2
Severe Intellectual Disability	178.2	113.5	282
School for Social Development	158.8	17	80
Hospital School	60.1	Not Applicable <sup>5</sup>	28

Note:

- 1 Teaching staff excludes head of school and teachers employed with other grants (resource teacher for Supportive Remedial Service, Enhanced Support Service and Resource Support Programme and teacher for Home-bound Teaching Programme in Hospital School), if any.
- 2 Specialist staff includes school social worker, speech therapist, physiotherapist, occupational therapist, occupational therapy assistant, educational psychologist, braille staff and nurse, if any.
- 3 Non-specialist staff includes clerical staff, laboratory technician, workshop attendant, janitor staff, motor/special driver, teacher assistant and artisan, if any.
- 4 The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 5 schools for children with MiID and children with MoID.
- 5 The Hospital School operates classes at 18 hospitals. Specialist services for their students are provided by the respective hospitals.

**II. Staff Establishment of the Boarding Section in the 2016/17 School Year**

School Type	Number of Specialist Staff <sup>1</sup>	Number of Non-specialist Staff <sup>2</sup>
Visual Impairment	37	28.8
Hearing Impairment	3	2
Physical Disability	133	72
Moderate Intellectual Disability	107	67.3
Severe Intellectual Disability	195	122.8

Note:

- 1 Specialist staff includes nurse, warden, assistant warden, houseparent-in-charge, houseparent and programme worker.
- 2 Non-specialist staff includes clerical assistant, janitor staff, cook and watchman.

Question:

(1) Please give a breakdown of the information on primary and secondary students having transferred to other schools in the past 5 years.

	No. of transferred students with SEN	Total no. of students with SEN	No. of transferred students without SEN	Total no. of students without SEN
P1 to P3				
P4 to P6				
S1 to S3				
S4 to S6				

(2) Please list the reasons for students transferring to other schools by category.

(3) What are the Education Bureau's policies on handling students transferring to other schools and the support service for these students?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1921)

Reply:

(1) to (2)

The Education Bureau (EDB) does not collect information on specific reasons for transfer of school of individual students. In general, students may change schools due to different reasons, such as removal, family reasons and adaptation problem. We consider that providing a breakdown of the information on primary and secondary students having transferred to other schools by whether the students are with special educational needs (SEN) or not is inappropriate and can be misleading.

(3)

EDB provides placement assistance to school-aged children in need upon request. If there is information indicating that the school transfer is due to special reasons of the students such as poor adjustment in their original schools, SEN or changes in family status that warrant schools' particular attention, EDB will contact the schools concerned for appropriate arrangement to meet the specific needs of the students. Schools currently adopt the Whole School Approach to provide a variety of remedial, preventive and developmental guidance programmes, such as induction / adjustment programmes, peer support scheme and therapeutic group work, to help students adapt to the new learning environment and integrate into the new school life. Schools also deliver multifarious teaching strategies and counselling services to cater for students' different

abilities and aptitude, with a view to helping students solve their learning difficulties and handling their behaviour problems as appropriate.

For students with SEN who are unable to cope with learning in mainstream schools and in need of transferring to special schools, EDB will, with consent from parents, place them in appropriate special schools according to the assessment results and recommendations of medical specialists / professionals. Special schools, subject to parental consent, may also refer students who are found to be more capable of learning as compared to other students to their educational psychologists for assessment for consideration of transferring to mainstream schools.

Question:

Please use the table below to provide a breakdown of the distribution and data of students with special educational needs in each of the 3 tiers under the 3-Tier Intervention Model by type of disabilities in each of the past 5 years.

	Number of students requiring tier-1 support	Number of students requiring tier-2 support	Number of students requiring tier-3 support
Specific Learning Difficulties			
Intellectual Disability			
Autism Spectrum Disorders			
Attention Deficit/Hyperactivity Disorder			
Physical Disability			
Visual Impairment			
Hearing Impairment			
Speech & Language Impairment			

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1922)

Reply:

The Education Bureau (EDB) encourages schools to adopt the Whole School Approach to supporting students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their need and the tier of support required. Under the Model, appropriate support measures are adopted to cater for the students' diverse needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to "add on" intervention, such as small group learning and pull-out programmes etc., for students with persistent learning difficulties, including those with SEN. Tier-3 support refers to intensive individualised support for students with severe learning difficulties and SEN. To help schools cater for their students with SEN, EDB has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools, professional support and teacher training. Of the additional resources provided for public sector mainstream schools having students with SEN, the Learning Support Grant (LSG) is calculated according to the number of students with SEN requiring tier-2 or tier-3 support. Based on the LSG data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support is set out at Appendix 1.

The number of students with SEN studying in public sector mainstream primary and secondary schools by SEN types for the past five school years (i.e. from 2012/13 to 2016/17) is set out at Appendix 2.

**Table 1**

Question:

Please use the following table to provide the distribution of students with special educational needs in the 3 bands of secondary schools in each of the past 5 years by category of disabilities.

	Band 1 No. of students	Band 2 No. of students	Band 3 No. of students
Specific Learning Difficulties			
Intellectual Disability			
Autism Spectrum Disorders			
Attention Deficit/Hyperactivity Disorder			
Physical Disability			
Visual Impairment			
Hearing Impairment			
Speech & Language Impairment			

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1928)

Reply:

“Banding of a student or secondary school” is a misconception. In brief, the Secondary School Places Allocation (SSPA) System is designed for, among other objectives, allocation of a Secondary One place to each participating student in an orderly manner to reduce undue pressure on students when seeking admission to Secondary One through the SSPA System. The so-called “banding” is merely an intermediary product in the computer-processing of school choice during the Central Allocation (CA) of the SSPA System to differentiate the order of allocation of participating students to a secondary school when the number of students making the choice to the secondary school exceeds the CA quota of the school. To avoid labelling of students and schools, and adverse impact on learning and teaching in schools, there is a consensus in the school sector that any information related to the “banding” of students should not be disclosed. The Education Bureau has been, through various means of parent education, calling for parents’ consideration of the needs, aptitudes and abilities of children when making school choice to reduce unnecessary competition for school places and alleviate undue pressure on students. The number of students with special educational needs (SEN) studying in Secondary One in public sector mainstream secondary schools by SEN type in the past five years (from the 2012/13 to 2016/17 school years) is tabulated at the Annex. However, like other SSPA applicants, we do not have the number of students with SEN by SEN type in secondary schools of different “banding”.

**Number of Secondary One students with SEN studying in public sector mainstream secondary schools by SEN type from the 2012/13 to 2016/17 school years**

<b>School Year</b>	<b>Specific Learning Difficulties</b>	<b>Intellectual Disability</b>	<b>Autism Spectrum Disorders</b>	<b>Attention Deficit/Hyperactivity Disorder</b>	<b>Physical Disability</b>	<b>Visual Impairment</b>	<b>Hearing Impairment</b>	<b>Speech &amp; Language Impairment</b>
2012/13	2 267	149	294	577	33	8	66	73
2013/14	2 297	183	396	710	32	12	60	65
2014/15	2 259	180	435	847	18	3	57	70

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. the percentages (under 5%, 5-10%, 11-20%, 21-30%, above 30%) of Learning Support Grant (LSG) clawed back from schools in the past 5 years;
2. the amount of LSG clawed back and the number of schools concerned in the past 5 years; and
3. the total amount of LSG clawed back.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1929)

Reply:

(1) to (3)

Schools are encouraged to fully utilise, in the respective school year, the Learning Support Grant (LSG) provided every school year to cater for the needs of their students with special educational needs. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. This arrangement was introduced in the 2011-12 financial year<sup>Note 1</sup>.

The number of schools with LSG clawed back at the end of the 2011/12, 2012/13, 2013/14 and 2014/15 school years (aided and caput schools)/ 2011-12, 2012-13, 2013-14 and 2014-15 financial years (government schools) by percentage range in relation to 12 months' provision and the amount of LSG clawed back in the school years/ financial years concerned are tabulated below. The total amount of LSG clawed back in the above period is \$15.74 million. As the amount to be clawed back from aided and caput schools for the 2015/16 school year will be confirmed only after the schools' submission of audited accounts by end of February 2017 and verification by the Education Bureau, we are unable to provide the claw-back information for the 2015/16 school year and beyond. With our stepped-up efforts to monitor the utilization of LSG by schools, the surplus situation of LSG in schools has been improving. Various measures include providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for SEN support, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected.

Claw-back percentage and amount \ No. of schools <sup>Note 2</sup>	2011/12 school year (aided primary schools)/ 2011-12 financial year (government schools)	2012/13 school year (aided & caput schools)/ 2012-13 financial year (government schools)	2013/14 school year (aided & caput schools)/ 2013-14 financial year (government schools)	2014/15 school year (aided & caput schools)/ 2014-15 financial year (government schools)
Under 5%	19	36	25	25
5-10%	5	23	15	15
11-20%	8	23	16	13
21-30%	7	14	8	3
Over 30%	12	40	25	9
LSG claw-back amount (\$ million)	3.96 <sup>Note 3</sup>	5.56 <sup>Note 3</sup>	3.27	2.95

Note 1: This arrangement was first implemented in government schools in the 2011-12 financial year. It came into effect in aided primary schools and aided/caput secondary schools starting from the 2011/12 and 2012/13 school years respectively.

Note 2: The figures denote the position as at March 2017.

Note 3: The LSG claw-back amount in the 2011/12 school year/ 2011-12 financial year included that of aided primary schools and government schools only. Since the claw-back mechanism for aided and caput secondary schools came into effect starting from the 2012/13 school year, both the number of schools having LSG clawed back and the claw-back amount increased in the 2012/13 school year/ 2012-13 financial year.

Question:

1. Regarding the support for students with special educational needs (SEN), what are the criteria for allocation according to disability situation under the current 3-Tier Intervention Model?
2. How to determine students of which tier of support or level of disabilities can participate in the individual education plan (IEP)?
3. What is the number of students participating in the IEP currently and what is their percentage share in the total number of students with SEN?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1930)

Reply:

(1) to (3)

The Education Bureau encourages schools to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their support needs. Under the Model, students with severe learning difficulties, regardless of their SEN type, are provided with tier-3 support and schools are required to draw up an individual education plan (IEP) for each of these students. An IEP is formulated after discussion among school personnel, related professionals like the educational psychologist and the parents. During the implementation of the IEP, teachers make observations, communicate with parents and collect data on the progress of the student on an ongoing basis to evaluate the effectiveness of the instructional strategies and classroom practices so that adjustment to the support can be arranged. Schools also review IEP regularly following the schedule set therein with involvement of the parents as appropriate.

In gist, whether a student with SEN requires an IEP depends solely on the support needs of the student and it is also a school-based professional judgement and decision. As for the other students with SEN, schools are required to keep a Student Support Register to record the support and adaptations offered as well as their performance and progress for regular review and adjustment of the level of support required as appropriate. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Hence, provision of information relating to the details of students with IEP is not meaningful.

Question:

1. Please provide a breakdown of students' average waiting time for the service of educational psychologists in the past 5 years.
2. Please provide figures on the number of educational psychologists and the average caseload per educational psychologist in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1960)

Reply:

(1) to (2)

From the 2012/13 to 2015/16 school years, about 80% of the cases referred to educational psychologists (EPs) were assessed within two months, and about 90% within four months. Figure for the 2016/17 school year is not yet available since data from EPs in the aided sector are collected at the end of the school year. The remaining cases with a longer waiting time for assessment were often due to some specific circumstances. For example, there were cases whose parents requested to defer the assessment and cases in which assessment had to be held up pending the students' medical treatment.

The number of EPs involved in the provision of School-based Educational Psychology Service (SBEPS) from the 2012/13 to 2016/17 school years is 68, 80, 99, 114 and 138 respectively. As the SBEPS adopts a comprehensive and integrated service mode that aims at enhancing schools' capacity to cater for students' diverse educational needs, the services provided by EPs go beyond handling individual student cases. Thus, reporting the average number of assessment cases handled by each EP does not reflect comprehensively the actual service provided under the SBEPS and can be misleading.

Director of Bureau: Secretary for Education

Question:

Please provide the expenditures on catering for the needs of students with special educational needs as well as on the promotional and educational work of integrated education in the past 5 years. How does the Administration evaluate the effectiveness of the related work?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1962)

Reply:

To help mainstream schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources, professional support and teacher training. The expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention for all mainstream schools in the 2011/12, 2012/13, 2013/14, 2014/15 and 2015/16 school years is \$964 million, \$1,009 million, \$1,075 million, \$1,222 million and \$1,310 million respectively. The cost of the promotional and public education work, including the manpower cost for different functions or activities, is subsumed under EDB's existing provision and we are unable to provide the cost separately.

EDB has kept the implementation of integrated education (IE) under constant review by monitoring the deployment of resources and implementation of measures through its daily work and collecting feedback from the sector and stakeholders through different channels. EDB set up the Task Force on IE in Mainstream Schools (IE Task Force) in 2005, comprising representatives from the school sector, other government departments, non-governmental organisations (NGOs) and parent groups. Through regular meetings, EDB briefs members of the IE Task Force on the progress of implementing IE and seeks their views on improvement measures. In addition to this formal communication platform, we also keep in touch and, where necessary, meet with school councils, NGOs and parent groups to tap their views on the implementation of IE, SEN support measures and promotional and public education activities. EDB's professional staff also conduct regular school visits and annual reviews, and organise training and sharing sessions for schools to ensure the proper deployment of resources for supporting students with SEN.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their school policies and measures, including the support for students with SEN, through self-evaluation each year, which is validated through External School Review conducted by EDB. EDB also requires schools to submit an annual self-evaluation report on the implementation of the Whole School Approach to IE at the end of the school year. As revealed in schools' self-evaluation, students with SEN have shown improvements in their social adjustment, learning performances and learning attitudes. Home-school cooperation has also been strengthened. According to our observations and communication with schools, it is noted that more and more schools can adopt the Whole School Approach appropriately in providing support for students with SEN and successful cases have been seen in schools in respect of culture building, policy

formulation and implementation. The promotional and public education activities are also well received. Owing to the increased awareness among parents and teachers, more parents are willing to disclose the SEN details of their children and hence more students with SEN have been assessed for early intervention. EDB will continue to closely monitor the implementation of IE in schools, enhance public awareness and acceptance of students with SEN and promote an inclusive culture in the community.

Question:

Please provide the up-to-the-minute information on the respective numbers of schools that can and cannot meet the requirements on barrier-free access set out by the Buildings Department, as well as a breakdown of the number of barrier-free facilities.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1964)

Reply:

All of the public sector special schools are provided with the required barrier-free access, except two schools for social development because of site constraints and hence the provision is technically infeasible. In the 2016/17 school year, there are a total of 929 ordinary public sector and Direct Subsidy Scheme (DSS) schools in Hong Kong. Among them, 231 schools constructed after 1997 are in compliance with the prevailing requirements promulgated by the Buildings Department on barrier-free access to facilitate access to school buildings and facilities by persons with disabilities. For those built before 1997, subject to technical feasibility, the Education Bureau (EDB) has, through the second and subsequent phases of the School Improvement Programme, installed barrier-free facilities such as lifts, accessible toilets, ramps, etc., in their premises.

When major alteration or improvement works are carried out in schools, EDB will also take the opportunity to install in their premises the barrier-free facilities in need as far as possible and in accordance with the latest requirements on barrier free access and other established criteria. Furthermore, schools may apply to carry out repairs and improvement works on their school facilities according to their needs in the context of the annual major repairs exercise, including the provision of barrier-free facilities. In the process, consideration will be given to technical feasibility, urgency for such facilities as compared with other applications, availability of alternative measures, agreement of the schools concerned and availability of funding. For instance, lift installation at 31 public sector schools have been approved in the past five financial years since 2012-13.

To cater for the special educational needs of students, schools can also apply for the Top-up Fund from EDB to procure special furniture and equipment or carry out minor conversion work such as construction of ramp, conversion of toilet or tailor-made desks and chairs for students with physical disability.

EDB does not keep statistics on the barrier-free facilities of individual schools. However, EDB would, through the above channels, continue to install or improve the barrier-free facilities in school premises to facilitate access to buildings and for use by persons with disabilities as far as possible.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

With the increasing emphasis on the importance of sign language which also signifies the emphasis on and implementation of the Convention on the Rights of Persons with Disabilities by the international community, will the Government advise on whether it will introduce a post-secondary course on sign language interpretation and put it under post-secondary education and the Qualifications Framework to attract more talents to join the profession?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2220)

Reply:

It is the Government's established policy objective to create a barrier-free environment and promote barrier-free communication, thereby facilitating full integration of persons with disabilities into the community. To further promote the use of sign language and social inclusion, the Rehabilitation Advisory Committee (RAC) formed a Working Group on Promoting Sign Language in 2010 to advise the Government on ways to promote sign language. The Working Group comprises members of RAC, persons with hearing impairment, sign language interpreters and representatives from the non-Governmental organisations of the rehabilitation sector and the education sector. Representatives of relevant Government bureaux and departments also attend meetings for discussion as and when required. Apart from launching a series of public education initiatives in promoting the use of sign language, the Working Group is pursuing, in consultation with stakeholders, the issue of enhancing professional training and publishing the information of sign language interpreters to facilitate wider adoption of interpretation service. The Government has included sign language into the domain of the Continuing Education Fund (CEF) and accepts applications from course providers for the registration of sign language courses as CEF courses.

Post-secondary education institutions in Hong Kong enjoy institutional autonomy in planning for their programmes taking into account, among other things, the community needs. Sign language courses provided by these institutions may be recognised under the Qualifications Framework and registered in the Qualifications Register (QR) if they are quality assured by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or the self-accrediting institutions. At present, a number of sign language-related courses are registered in the QR.

**(Question Serial No. 6548)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (350) Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please provide the following figures and their projected figures for the last year and the coming 3 years:

a) How many kindergarten-age children are there in Hong Kong in total? What is the distribution of these children among all districts?

b) How many children are attending kindergartens? What is the distribution of these children among all districts?

c) How many students are eligible to apply for the Kindergarten and Child Care Centre Fee Remission Scheme? How many of these eligible students are receiving allowances?

2. What is the current situation in respect of collection of miscellaneous fees by kindergartens?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2246)

Reply:

1a) Figures on projected school-age population aged 3-5 who are residing in Hong Kong by district from the 2016/17 to 2019/20 school years are detailed at Appendix 1. This age group is generally considered appropriate for kindergarten (KG) education. Since the population projections refer to the projected number of children aged 3-5, irrespective of whether they are enrolled in schools or not, the figures should not be taken as the projected number of students at KG level. Besides, given that students under or over the concerned age group may enrol in KGs and students may study in districts other than their resident district, the actual number of students at district and territory-wide levels may be different from those of the projected school-age population.

b) The number of students in KGs by school districts in the 2016/17 school year is detailed at Appendix 2. It is not plausible to accurately project the overall number of KG students in the coming school years and their geographical distribution as the number of KG students is subject to year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc. Besides, parents may choose a KG suitable for their children with regard to their needs, and admission is at the full discretion of individual KGs.

c) The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy KG students with financial assistance in the form of fee remission, on top of the fee subsidy from the Pre-primary Education Voucher Scheme (PEVS). Fee remission under the KCFRS will be granted to needy families

which can pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency. The number of successful applications of KG students who meet the eligibility criteria under the KCFRS for the 2016/17 school year is set out at Appendix 3. We do not have information on the number of eligible KG students who can receive fee remission under the KCFRS in the coming three school years.

2. As regards the sale of school items such as school uniform and textbook and provision of paid services, KGs are required to comply with the rules and regulations set out by the Education Bureau (EDB). Specifically, KGs are not allowed to generate any profit from the sale of textbooks, and the profit in the sale of other school items and provision of paid services, which should be on a voluntary basis, is limited to a maximum of 15% of the cost. In any case, for non-profit-making KGs, such profits should be ploughed back to the KG for use for education purpose. While EDB does not collect detailed data about the type and amount of miscellaneous charges collected by individual KGs, we have advised KGs to disclose relevant information to parents through various means (e.g. leaflets, school website) to enhance transparency and help parents get a better understanding about the school items sold and paid services provided by the schools. KGs joining PEVS are also required to provide the reference price of major school items in the Profile of Kindergartens and Kindergarten-cum-Child Care Centres produced by EDB for parents' information. Besides, KGs participating in the Free Quality Kindergarten Education Scheme to be implemented as from the 2017/18 school year are required to include explicitly in their notices/circular letters the following statement: "Parents, please note that acquisition of any school items or services is entirely voluntary and parents can select individual items or services required according to their own needs." Relevant check boxes should also be provided for respective school items so that parents can "tick" as appropriate.

Projected School-age Population Aged 3-5 Who are Residing in Hong Kong by District,  
2016/17 – 2019/20 School Years

District	2016/17	2017/18	2018/19	2019/20
Central and Western	8 200	7 500	6 900	6 700
Wan Chai	5 100	4 700	4 400	4 300
Eastern	12 600	11 800	11 000	10 900
Southern	5 500	4 900	4 600	4 600
Yau Tsim Mong	11 200	11 100	10 500	10 300
Sham Shui Po	10 300	9 800	9 400	10 500
Kowloon City	10 300	9 800	9 200	9 300
Wong Tai Sin	7 400	6 800	6 700	6 800
Kwun Tong	13 500	12 600	13 000	12 900
Sai Kung	11 700	11 000	10 500	10 500
Sha Tin	15 900	16 100	15 700	16 500
Tai Po	7 300	7 600	7 600	8 000
North	7 300	7 300	7 300	7 600
Yuen Long	15 800	15 800	15 200	15 800
Tuen Mun	12 200	12 300	12 600	13 000
Tsuen Wan	8 500	8 300	7 600	7 700
Kwai Tsing	10 100	8 800	8 200	8 000
Islands	4 500	4 400	4 200	4 700
All Districts	177 300	170 700	164 400	168 200

- Notes : (1) Figures in the above table are compiled with reference to the 2014-based Population Projections released by the Census and Statistics Department (C&SD) in September 2015 and the “Projections of Population Distribution 2015 – 2024” released by the Planning Department in December 2015.
- (2) School-age population aged 3-5 is considered appropriate for kindergarten education (i.e. Kindergarten 1 to Kindergarten 3).
- (3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 3-5 residing in the districts. The projected figures should not be taken as the projected number of students attending schools in the districts. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under the age of 3 or over the age of 5 may also enrol at kindergarten education. The above figures do not include cross-boundary students.
- (4) The projections of school-age population **residing in Hong Kong** are compiled based on the 2014-based Population Projections released by C&SD in September 2015. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures. Amongst those assumptions, of particular relevance is that related to babies born in Hong Kong to Mainland women. It should be noted that it is difficult to accurately predict the actual numbers of such babies who would settle in Hong Kong and if so, when.
- (5) Figures are rounded to the nearest hundred and may not add up to the respective totals due to rounding.

## Number of students in kindergartens by district in the 2016/17 school year

Districts	Students
Central & Western	6 179
Wan Chai	7 125
Eastern	11 860
Southern	4 648
Yau Tsim Mong	6 499
Sham Shui Po	9 733
Kowloon City	23 054
Wong Tai Sin	7 608
Kwun Tong	12 364

**CONTROLLING OFFICER'S REPLY****EDB465****(Question Serial No. 6552)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (228) Student Financial Assistance

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) How many students are now receiving the Comprehensive Social Security Assistance (CSSA)? Please list out the respective numbers of students who are receiving CSSA in kindergartens, primary schools and secondary schools.

(2) What are the number of students who travel to and from schools by school buses and their distributions by districts? And what are the school bus fares involved?

(3) How much was last year's provision for the School-based After-School Learning and Support Programmes (Programme)? How many schools took part in the Programme and what was their percentage share among all schools in the territory? What was the number of students who benefited from the Programme? What was the composition of students (including the respective numbers of students receiving CSSA, full grants under the School Textbook Assistance Scheme (STAS), half grants under STAS or other students)? How many people were benefited? How many activities were one-off? How many activities were for long-term development? How much cash assistance was provided to each student per year for participating in extracurricular activities? What was the effectiveness of the Programme? What are the estimated amounts of provisions for the next 3 years?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2247)

Reply:

1. The number of students in receipt of the Comprehensive Social Security Assistance (CSSA) with breakdown by level is tabulated below:

School level	As at end-December 2016 (preliminary figures)
Kindergarten	8 381
Primary school	23 705
Secondary school	27 427

2. In the light that schools and parents would arrange school busing for their students / children on their own, the number of students who travel to and from schools by school bus with breakdown by districts and fares is not available.
3. To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the

School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance (SFA) Schemes.

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit more students who are not in receipt of CSSA or full grant of SFA but identified by schools as needy. Besides, eligible participating schools (i.e. having a utilization rate of 80% or above of the provision in the previous year) have been provided with incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision). In the 2016/17 school year, the total funding earmarked for the Programme is about \$240 million, including about \$118 million for the School-based Grant and about \$122 million for the Community-based Project Grant.

For the School-based Grant, 896 schools which constitute about 90% of all the schools in the territory with 217 120 eligible students qualified for the grant have participated in the Programme. Of the afore-mentioned eligible students, about 60 760, 125 460 and 30 900 are in receipt of CSSA, full grant of SFA and others (i.e. participating under the 25% discretionary quota) respectively.

Regarding the Community-based Project Grant, the 510 projects organised by 173 NGOs are targeted at individual eligible students totaling about 103 000. To avoid unnecessary labelling on participating students, NGOs have not asked participating students to identify themselves as CSSA or full-grant SFA recipients. Breakdown of participating students by students in receipt of CSSA or full grant of SFA is therefore not available.

The objectives of various after-school activities organised by participating schools under the Programme are to help increase learning effectiveness (such as homework tutorials and training of learning skills), broaden learning experience outside classroom (such as art and cultural as well as sports activities) and raise understanding of and sense of belonging to the community (such as voluntary services). Seen from this perspective, the activities, some of which may be one-off, are for sustainable development of the students concerned.

The provision of the Programme is complementary in nature. Apart from the Programme, the Government has launched various funding schemes to support schools and NGOs to organise after-school activities including after-school tutorial services to cater for the diverse needs of needy students. Besides, flexible deployment of the grants provided, as encouraged by EDB, has enabled schools to inject more funding into after-school activities for needy students. The amount of cash assistance provided to each student participating in after-school activities is not available.

Assessment of the effectiveness of the Programme is done annually at two levels. In line with the spirit of school-based management, the Incorporated Management Committee / School Management Committee of the school in receipt of the School-based Grant is accountable for proper use of the grant for its intended objectives and for review of the effectiveness of the Programme. To enhance transparency, schools are required to include the Programme in their School Annual Plan and conduct an annual review of the effectiveness of the Programme with the findings included in the School Report. NGOs are required to submit, among others, an evaluation report on the effectiveness of the projects organised to EDB. In addition, EDB collects feedback from stakeholders through surveys and conducts supervisory visits to examine the implementation of the Programme. In general, stakeholders agree that the Programme for the afore-mentioned objectives is effective. As for the implementation of the Programme, upon review of the utilisation of the funding, EDB has enhanced the School-based Grant starting from the 2014/15 school year as mentioned above. For budgetary purpose, EDB will continue to earmark a provision of \$240 million for the Programme for the years ahead.

**(Question Serial No. 6554)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

As stated in Paragraph 188 of the Policy Address, in respect of the implementation of the free kindergarten education policy, the Government will “further improve the teacher-pupil ratio to 1:11 to strengthen support for students with diverse needs” and “strengthen support for needy students, non-Chinese speaking students and students with diverse learning needs”. Please provide details of the measures, resource allocation and expected effectiveness.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2261)

Reply:

With the implementation of the Free Quality Kindergarten (KG) Education Scheme (Scheme) starting from the 2017/18 school year, for KGs joining the Scheme (Scheme-KGs), the requirement in teacher to pupil (TP) ratio will be raised from 1:15 (including the principal) to 1:11 (principal not included) so as to allow teachers more capacity to cater for the diverse needs of students, engage in curriculum development, lesson planning, professional development, communication with parents, etc.. Specific to catering for the diverse needs of students (including those at risk of developmental delay), the enhanced TP ratio will create space for KG teachers to collaborate among themselves, and enable better professional collaboration with the inter-disciplinary teams in Labour and Welfare Bureau (LWB)'s pilot scheme on On-site Pre-school Rehabilitation Services, which will be regularised after its conclusion.

As regards specific measures on strengthening support for needy students, non-Chinese speaking (NCS) students and students with diverse needs, details are set out below -

KG students from needy families

For KG students from needy families, fee remission will continue to be provided under the existing Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS). In addition, KG students who pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency and meet the same eligibility criteria under the KCFRS are eligible for an additional grant to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. The grant rate will be pegged at the level of grant for school-related expenses (i.e. books, stationery, school uniforms, miscellaneous and minor one-off expenses) for pre-primary students under the Comprehensive Social Security Assistance. The estimated expenditure on KCFRS and the additional grant to KG students (including NCS students) for the 2017/18 school year are \$366.4 million and \$158.2 million respectively.

NCS students in KGs

To enable Scheme-KGs to enhance the support to their NCS students, a grant comparable to the salary of one teacher will be provided for Scheme-KGs admitting eight or more NCS students. With the additional resources, Scheme-KGs could provide teachers with more manpower support and professional training to develop effective strategies to help NCS students learn Chinese so as to lay a foundation for their study in local primary schools and to raise teachers' empathy and cultural and religious sensitivity in handling NCS students. They can deploy the additional resources for appointing additional teacher(s) or teaching assistant(s) or acquiring services to enhance communication with the parents of NCS students. The estimated expenditure on the grant for support to NCS students is \$45.4 million in the 2017/18 school year. In tandem, teacher training and school-based support will be enhanced. All KGs, irrespective of the number of NCS students admitted, may apply to join. The estimated expenditure on specific training on support to NCS students is \$1.8 million in the 2017/18 school year. School-based professional support services are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant expenditures have been subsumed under the overall expenditure of EDB. Besides, starting from the 2016/17 school year, the Education University of Hong Kong (EdUHK) has offered a new University Grants Committee (UGC)-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children Programme.

#### KG students with special needs or at risk of developmental delay

On the support for KG students with special needs or at risk of developmental delay, the Government has been providing different services through collaborative efforts of various Government departments. The Food and Health Bureau (FHB) and LWB are responsible for assessment and rehabilitation services respectively for the students in need of such services. On the part of EDB, as mentioned above, the enhancement of TP ratio under the Scheme will create space for KG teachers to collaborate among themselves as well as collaboration with the inter-disciplinary teams in LWB's On-site Pre-school Rehabilitation Services.

In tandem, EDB will continue to work jointly with FHB to strengthen the existing training for KG teachers to facilitate early identification of KG students with developmental problems. Besides, starting from the 2016/17 school year, EdUHK has also offered a new UGC-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs Programme.

EDB will also devise a teacher professional development framework to enhance their understanding of the KG students' developmental needs and to empower them to identify and cater for learner diversity, including those at risk of developmental problems. Under the framework, more structured in-service training programmes will be offered for KG teachers. In addition, EDB will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use by KG teachers and parents to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers. The estimated expenditure on specific training on support to KG teachers in catering students with special needs or at risk of developmental delay is \$2.2 million in the 2017/18 school year. For relevant manpower resources and expenses for other training programmes and activities organised by various sections of EDB for enhancing teachers' professionalism including catering for student diversity, the relevant expenditures have been subsumed under the overall expenditure of EDB.

With various measures to enhance the quality of KG education, KGs' administration as well as management and accountability under an effective governance framework and EDB stepping up monitoring on KGs' compliance with the rules and regulations, it is expected that the new policy of free quality KG education will bring about substantial improvement to KG education, including catering for students' diverse needs in a more effective manner as afore-mentioned.

**(Question Serial No. 6562)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. In the past 5 years, what were the numbers of students in special schools for children with intellectual disabilities and the unit cost per capita (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
2. What were the numbers of new students and their age distribution (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
3. What were the numbers of school leavers and their age distribution (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?
4. What were the numbers of new graduates of special schools waiting for various types of adult services (by day student, 5-day boarding, 7-day boarding, orphan, child whose parents are both non-Hong Kong permanent residents, non-Chinese speaking student, and legitimate child of Hong Kong permanent residents)?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2333)

Reply:

(1) to (4)

The Education Bureau does not keep school-based personal data and information such as residence status of parents, students' parent background, etc., and is therefore not able to provide the related information as requested.

The average unit cost per school place and the average unit cost per boarding place for each type of special schools for children with intellectual disability in the past five school years are set out at Appendix 1.

The number of students, number of non-Chinese speaking students, number of 5-day and 7-day boarders, number of new students with age range by day student, 5-day boarding and 7-day boarding, number of leavers with age range by day student, 5-day boarding and 7-day boarding, and number of graduates waiting for adult services in the past five school years in special schools for children with intellectual disability are set out at Appendix 2.

**Table 1: The Average Unit Cost per School Place for Each Type of Special Schools for Children with Intellectual Disability from the 2011/12 to 2015/16 School Years**

School Type	Average Unit Cost per School Place				
	2011/12	2012/13	2013/14	2014/15	2015/16
Mild Intellectual Disability <sup>Note</sup>	\$122,500	\$140,000	\$145,500	\$171,000	\$171,500
Moderate Intellectual Disability <sup>Note</sup>	\$198,500	\$216,500	\$218,000	\$239,500	\$253,000
Severe Intellectual Disability	\$263,000	\$278,000	\$281,000	\$313,000	\$329,000

Note: The schools for children with mild intellectual disability (MiID) and schools for children with moderate intellectual disability (MoID) include the respective sections of the 7 schools for children with MiID and children with MoID.

**Table 2: The Average Unit Cost per Boarding Place for Each Type of Special Schools for Children with Intellectual Disability from the 2011/12 to 2015/16 School Years**

School Type	Average Unit Cost per Boarding Place				
	2011/12	2012/13	2013/14	2014/15	2015/16
Mild Intellectual Disability <sup>Note 1</sup>	Not Applicable	Not Applicable	Not Applicable	Not Applicable	Not Applicable
Moderate Intellectual Disability <sup>Note 2</sup>	\$177,500	\$190,500	\$198,000	\$233,500	\$243,000
Severe Intellectual Disability	\$226,500	\$242,500	\$255,500	\$294,500	\$306,000

Note:

1. There is no boarding service for schools for children with mild intellectual disability.
2. The schools for children with moderate intellectual disability (MoID) with boarding section include 1 school for children with MiID and children with MoID with boarding section.

**Information on Students of Special Schools for Children with Intellectual Disability (ID schools)

<b>5</b>	<b>Number of Graduates Waiting for Adult Services <sup>Note 5</sup> (No. of NCS)</b>		60 (0)	86 (0)	98 (3)	42 (1)	66 (4)

## Notes:

1. Number of students of item 1-2 is as at September of respective school year.
2. Number of Non-Chinese Speaking Students covers those students whose home language is known to EDB and is NOT Chinese regardless of their ethnicity.
3. The number of New Students is counted as follows:
  - (i) Day place:
    - only first admission to ID school is counted;
    - excluding those students transferred between ID schools.
  - (ii) 5-day and 7-day boarding:
    - students who changed from a 5-day boarding to a 7-day boarding or vice versa are counted as new admission to that type of boarding service.
4. The number of Leavers is counted as follows:
  - (i) Day place:
    - only last attendance at ID school is counted;
    - excluding those students transferred between ID schools.
  - (ii) 5-day and 7-day boarding:
    - students who left from a 5-day boarding to a 7-day boarding or vice versa are counted as leavers of that type of boarding.
5. (i) Students who completed secondary education are counted.  
 (ii) Adult Services include Supported Hostel, Day Activity Centre, Sheltered Workshop cum Hostel, etc.  
 (iii) The information was collected from special schools in July and August of the respective school year. As such, the above figures may not reflect the actual situation of the post-school arrangement of the students who left school.

Question:

How many students in DSS schools have asked for testing accommodations at P3, P6, S3, for TSA?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2345)

Reply:

Students with special educational needs (SEN) are provided with facilitation measures in the Territory-wide System Assessment (TSA) according to their needs as requested by schools, irrespective of the school types. The relevant number of students with SEN is set out in the following table:

	School Year				
	2011/12	2012/13	2013/14	2014/15	2015/16
<b>Primary 3</b>					
No. of students with SEN participated in TSA	4 203	4 285	4 984	4 920	394
<b>Primary 6</b>					
No. of students with SEN participated in TSA	365	3 758	329	3 902	154
<b>Secondary 3</b>					
No. of students with SEN participated in TSA	1 863	2 227	2 385	2 676	2 916

Question:

How many SEN qualified teachers are in DSS schools? How many SEN qualified teachers are also qualified to teach in English?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2346)

Reply:

Teachers of Direct Subsidy Scheme (DSS) schools are provided with relevant training on par with the teachers in the public sector schools and they can enroll on the Basic, Advanced and Thematic Courses to enhance their professional capacity in catering for students with special educational needs. We do not collect training information on teachers in DSS schools and thus are unable to provide the information as required.

Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Government has reported "No. of students with SEN participated in TSA". Why is the number of students with SEN reported taking the TSA is greater than total number of SEN students for that grade? For example, for 2013/14, for Primary 3, 4984 students were reported as SEN students participating in TSA. However, in the chart listing all SEN students, in P3, there were a total of 3697 SEN students (combined 8 diagnosis).

Also, why are the number of students with SEN taking the tests declining? There are only 329 P6 students with SEN taking the TSA and 2385 S3 students with SEN taking the TSA. More importantly, the percentage of SEN students to all students taking the TSA is declining between P3 (approx 10%) to P6 (approx 8%) to S3 (approx 4%). Why are fewer SEN students participating in the TSA as they progress in grade?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2350)

Reply:

In compiling statistics of students with special education needs (SEN) in public sector mainstream primary schools, the Education Bureau (EDB) has counted those who have been assessed by specialists as having any of the following SEN types: specific learning difficulties, intellectual disability, autism spectrum disorders, attention deficit/hyperactivity disorder, physical disability, visual impairment, hearing impairment and speech and language impairment.

In the context of Territory-wide System Assessment (TSA), students with SEN reported taking the assessment refer to those who have been provided with facilitation measures according to their needs as requested by schools, such as allowing students to take assessments separately, extending assessment duration, providing auxiliary facilities and equipment, Braille scripts and enlarged scripts, etc.

Since 2012, Primary 6 TSA is implemented every odd-number years. In even-number years, schools will participate in TSA on a voluntary basis. Hence, there will be fluctuation in number of students taking Primary 6 TSA between years. In addition, as the facilitation measures are based on requests made by schools, relevant figures of students with SEN between different levels should not be used for direct comparison.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of:

1. The number of non-Chinese speaking students currently enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
2. The number of secondary schools with students currently enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
3. The amount of subsidies the Government has granted for students to be enrolled into each of the two Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts respectively;
4. Whether the Government has allocated any funding to the two course providers of the Applied Learning Chinese (for non-Chinese speaking students) courses for the 2014-2016 and 2015-17 cohorts apart from the subsidies of the course fees for the enrolled students (e.g. funding for developing the curriculum); and
5. Which level in the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") a non-Chinese speaking student is expected to have reached before taking each of the two Applied Learning Chinese (for non-Chinese speaking students) courses and which level in the Learning Framework a student is expected to reach after completing each of the two Applied Learning Chinese (for non-Chinese speaking students) courses.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2414)

Reply:

(1) & (2) Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) was first introduced in the 2014/15 school year. The related enrolment figures for the 2015-17 cohort (the first cohort) and the 2016-18 cohort (the second cohort) are as follows:

	2015-17 cohort		2016-18 cohort	
	Number of students enrolled	Number of schools with students enrolled	Number of students enrolled	Number of schools with students enrolled
ApL(C) - Chinese for the Service Industry	125	7	138	17
ApL(C) - Practical Chinese in Hospitality	56	7	40	7
Total	181	14	178	23*

(\*1 school with students enrolled in both courses)

(3) The Government provides the Student Grant (SG) for ApL(C) to fully subsidise schools for offering ApL(C) to students. The SG for ApL(C) expended in the 2014/15 and the 2015/16 school years are as follows:

School Year	SG for ApL(C) (\$ million)**	
	2014/15	2015/16
ApL(C) - Chinese for the Service Industry	1.64	3.31
ApL(C) - Practical Chinese in Hospitality	0.61	1.06
Total	2.25	4.37

(\*\* rounded to two decimal places)

(4) Apart from the subsidies of the course fees for the enrolled students, the Government does not allocate any funding to course providers of ApL(C).

(5) Non-Chinese speaking (NCS) students who aspire to study ApL(C) should have basic language competency to enable them to learn the Chinese language through different modes of activities in a simulated applied learning context. At the point of entry, they are expected to have achieved most of the learning outcome of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) at level 4 or above. Upon completion of courses, NCS students are expected to have achieved the relevant learning outcome of the “Learning Framework” at level 6 or above.

**(Question Serial No. 6579)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Will the Government inform this Council of the list of Chinese language programmes partially or fully funded by the Government currently run for non-Chinese speaking students or school leavers, and for each programme, the amount of the funding, the name of the organization running the programmes, the specific target group of the programme (if any), and whether the programme is pegged at any level of the Qualifications Framework.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2415)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary and secondary schools and the creation of an inclusive learning environment in schools. Among the various support measures, Chinese language programmes for NCS students, funded by EDB and/or different Funds, are offered in collaboration with tertiary institutions and/or non-governmental organisations as appropriate to complement the support offered by schools. Estimated expenditure for the major Chinese language programmes concerned in the 2016/17 school year is tabulated at Annex.

**Chinese language programmes for non-Chinese speaking (NCS) students  
offered in collaboration with tertiary institutions and non-governmental organisations  
in the 2016/17 school year**

<b>Programme</b>	<b>Organisation commissioned to organise the programme</b>	<b>Target participants</b>	<b>Estimated expenditure in the 2016/17 school year (\$ million)</b>
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	The University of Hong Kong	NCS students in primary and secondary schools	3.9
District-based programmes in collaboration with non-governmental organisations since the 2012/13 school year to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc. under the Language Fund	(a) Hong Kong Christian Service  (b) HKSKH Lady MacLehose Centre	NCS children aged 3 to 9	1.72
Vocational Chinese Language Courses for NCS School Leavers, pegged at Level 1 or 2 of the Qualifications Framework with a view to enhancing the employability of NCS school leavers	(a) Vocational Training Council  (b) School of Continuing and Professional Education, City University of Hong Kong	NCS school leavers	1.37

Note:

In parallel, eligible schools admitting NCS students are provided with additional recurrent funding to support the learning of the Chinese language of NCS students. With the additional funding and schools' deployment of resources, it is not uncommon for schools to offer Chinese language programmes in collaboration with tertiary institutions and/or non-governmental organisations. The relevant expenses are subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

Question:

Will the Government inform this Council of:

1. the number of ethnic minority students with special educational needs in each of the grade levels from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by ethnicity; and
2. the number of non-Chinese speaking students with special educational needs in each of the grade levels from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2015/16 disaggregated by ethnicity.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2416)

Reply:

(1) and (2)

At pre-primary levels, support services for children with special educational need (SEN) are provided by the Social Welfare Department. The Education Bureau does not maintain the related data. The number of non-Chinese speaking (NCS) ethnic minority students with SEN and the number of NCS students with SEN disaggregated by grade levels and by ethnicity in public sector mainstream schools and disaggregated by ethnicity in special schools in the 2015/16 school year are set out at Appendix 1 and Appendix 2 respectively. It is a common practice for special schools to adopt flexible grouping across grade levels and individual education plans to cater for the SEN of the students. Presenting the number of students according to grade levels cannot reflect the actual operation of special schools. We do not collect relevant data from Direct Subsidy Scheme schools.

**Number of non-Chinese speaking (NCS) ethnic minority (EM) students with special educational needs (SEN)  
in special schools by ethnicity and number of NCS EM students with SEN in public sector mainstream schools by ethnicity and by grade levels  
in the 2015/16 school year**

**CONTROLLING OFFICER'S REPLY**

**EDB476**

**(Question Serial No. 6589)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) The Education Bureau is allocating funding to primary and secondary schools according to the number of non-Chinese speaking (NCS) students they admit. In this connection, will the Government inform this Council of:
- (1) for the purpose of funding, how the Education Bureau determines whether a student is an NCS student; and
  - (2) whether the Education Bureau determines if a student is an NCS student during the Primary One Allocation and the Secondary School Place Allocation processes respectively; and if so, how
- (b) In the Primary One Allocation process, the Education Bureau asks parents / guardians to indicate on the "Application Form for Admission to Primary One" if the applicant child "Cannot use Chinese as learning medium" (item 7 on the application form). In addition, according to the "Notes on How to Complete the 'Application Form for Admission to Primary One'" published by the Education Bureau in 2015 and 2016, "if parents / guardians claim, on the application form, that the applicant child cannot use Chinese as the learning medium," they may choose from a list of eight schools, listed in Appendix 3 of the document, that traditionally admit more non-Chinese speaking students. Will the Government also inform the Council of:
- (1) how many applicants checked the option "Cannot use Chinese as learning medium" on the "Application Form for Admission to Primary One" in the 2011/12, 2012/13, 2013/14, 2014/15, 2015/16, and 2016/17 school year admissions respectively; and
  - (2) What percentage of the students who checked the option "Cannot use Chinese as learning medium" entered one of the eight schools listed in the Appendix 3 of the "Notes on How to Complete the 'Application Form for Admission to Primary One'" in the 2014/15, 2015/16, and 2016/17 school year admissions respectively.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2419)

Reply:

- (a)(1) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students.
- (a)(2) The Government is committed to encouraging and supporting NCS students' integration into the community, including facilitating their early adaptation to the local education system and mastery

of the Chinese language. The Education Bureau (EDB) ensures equal opportunities in school admission for all eligible children (including NCS children) and NCS children's learning of Chinese on par with their Chinese-speaking counterparts. The same arrangements are applicable to all eligible students, irrespective of whether they are Chinese speaking or non-Chinese speaking, for admission to Primary 1 and Secondary 1 under Primary One Admission (POA) and Secondary School Places Allocation respectively. Taking into account the worries and views of some NCS students and parents, starting from POA 2005, EDB has adopted the flexible arrangements under which applicant children who choose the option "Cannot use Chinese as the learning medium" in the application form of POA may choose, in addition to schools in their residing school net, the primary schools traditionally admitting more NCS students in other school nets at the Central Allocation stage. In tandem, EDB has appealed to parents of NCS students, through further revision to the Notes to Parents of NCS Children, to take into account the aspirations and needs of their children when making school choices and send their children to schools with an immersed Chinese language environment to facilitate their learning of the Chinese language. The Notes have been translated into major ethnic minority languages for easy reference by parents of NCS students.

Apart from keeping on encouraging parents to arrange their NCS children to study in schools with an immersed Chinese language environment as early as possible to facilitate their mastery of the Chinese language, EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" in schools to help NCS students overcome the difficulties of learning Chinese as a second language and the creation of an inclusive learning environment in schools.

- (b)(1) The number of applicants who chose the option "Cannot use Chinese as learning medium" on the application form of POA is 631, 665, 679, 700 and 756 in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 school years respectively.
- (b)(2) The percentage of students who chose the option "Cannot use Chinese as learning medium" and were subsequently admitted by the schools traditionally admitting more NCS students is 52.3%, 48% and 46.4% in the 2014/15, 2015/16 and 2016/17 school years respectively.

**(Question Serial No. 6595)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. Please provide the distribution of the numbers of students with special educational needs (SEN) by District Council district and SEN type in primary and secondary levels, as well as their proportions in the total number of students in their respective districts.
2. What is the analysis by the Education Bureau (EDB) on the situation in which the proportions of students with SEN are significantly higher in certain districts and how will it cater for the needs as far as the injection of resources and the formulation of policies are concerned?
3. On the frontline implementation level, is there any communication and collaboration mechanism between the EDB and the districts offices of the Social Welfare Department to support families of students with SEN?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2422)

Reply:

(1) to (2)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Intensive Remedial Teaching Programme and Integrated Education Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The provision of the above mentioned additional resources and professional support is based on various parameters such as the number of students with SEN, their level of support required, the number of classes or by applications of individual schools when need arises, but irrespective of the districts of schools. As the needs of individual schools have already been taken into account in the provision, breaking down the number of students by districts for comparison of resources is not meaningful and can be misleading.

The number of students with SEN studying in public sector mainstream primary and secondary schools by SEN types in the 2016/17 school year is as follows:

	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment
Primary	8 860	670	5 020	4 350	110	30	300	2 520
Secondary	11 260	910	2 800	5 090	190	80	350	350

(3)

In supporting students with SEN, the EDB and the Social Welfare Department (SWD) have different roles and duties. All along, the EDB has maintained communication and collaboration with the SWD to ensure orderly service delivery within our own professional ambit, including provision of assessment, treatment and referral services for students with SEN, as well as arrangement of rehabilitation services and family support services for them.

Question:

1. Please provide figures of suicide cases among students in primary and secondary schools over the past 5 years.
2. What are the government policies to prevent suicide cases among students?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2435)

Reply:

(1)

Schools are required to report cases of students suspected of committing suicide to the Education Bureau (EDB). Professional support will be provided for the schools concerned as appropriate. The nature and number of the fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. Over the years, EDB has not captured the information from the Court. Hence, we are unable to provide officially verified figures on student suicides.

(2)

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, EDB, in collaboration with relevant bureaux and department, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Question:

Please provide the year-on-year percentage change for SEN students by grade (from P.1 to S.6) and by diagnosis. Please list the statistics in the past 5 years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2344)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade levels and by SEN types for the past 5 school years (i.e. from 2012/13 to 2016/17) is set out at the Appendix. As student population changes over the years, making direct comparison of the percentage change of students with SEN by grade levels in different cohorts is inappropriate. Besides, since the number of students of some SEN types is relatively small, annual fluctuation will easily cause significant variation in percentage terms, providing the year-on-year percentage change of students with SEN by grade levels and by SEN types can therefore be misleading.

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The EDB has stated that they do not know how many are on the waiting list at ESF mainstream learning support and Jockey Cub Sarah Roe School. However, the Government still provides \$28.3million in subvention. And, ESF administrators have stated that they regularly report waiting list numbers to the EDB. Can the EDB clarify this?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2347)

Reply:

The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. As reported at the meeting of the Legislative Council Panel on Education on 9 July 2013, after intensive negotiations, the Board of Directors of ESF formally accepted the agreed arrangement for the phasing out of the government subvention for ESF in June 2013. According to the agreed arrangement, among others, the recurrent subvention for ESF's mainstream primary and secondary schools of \$249.7 million has been maintained for three more years from the 2013/14 to 2015/16 school years. From the 2016/17 school year onwards, the annual recurrent subvention has started to phase out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. The existing annual recurrent subvention of \$28.3 million for students with special educational needs (SEN) in ESF's mainstream schools as well as its special school are excluded from the phasing out arrangement and frozen at the current level pending further review. The subvention of \$28.3 million a year covers part of the administrative expenditure and manpower in the Learning Support Centres set up in ESF mainstream schools, its special school, and other SEN support services. We have been monitoring ESF's use of the subvention by considering the audited accounts, budget and tuition fee revision proposals submitted by the ESF every year. We would seek clarifications or further information from ESF, and ask ESF to explain its financial position if and when necessary.

While we have asked ESF and other private international schools to provide, on a voluntary basis, the aggregate numbers of applicants with SEN placed in their waiting lists under the annual student enrolment survey, we are mindful that the same applicant may be placed in the waiting list of multiple schools at the same time, and students who are admitted to a school may continue to stay on the waiting list of other schools. The number also changes from time to time. We therefore do not have the actual number of applicants waiting for places with SEN support in ESF schools and other private international schools.

**(Question Serial No. 6603)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The EDB has provided "Details of newly developed or expanded international schools (From 2010/11 to 2014/15 school years)", including number of places added in primary and secondary schools. How many SEN supported places have been added? What are the terms of the service agreement with international schools with regards to SEN support promised?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2348)

Reply:

All vacant school premises and greenfield sites for international school development are allocated through an open and competitive school allocation exercise (SAE) in accordance with prevailing practice. Support to students including students with special educational needs (SEN) has all along been a major consideration when assessing applications received under SAE for international school development. Favourable consideration will be given to applications which propose appropriate measures to support students with SEN. Under the Service Agreement entered with the Education Bureau, the successful applicants are required to operate the school according to the school proposal submitted, including the proposed support measures for students with SEN (if any). In the last SAE completed in 2015, all of the five successful applicants have included support measures for students with SEN in their school proposals, such as measures to facilitate identification of SEN of students, as well as different approaches to facilitate learning of students with SEN. Some have also specified that they would set aside manpower/resources to specifically cater for the needs of these students.

The number of students with SEN in ESF schools and other international schools from 2012/13 to 2016/17 school years is at the **Annex**. We understand that most of the international schools do not designate a specific number of places for students with SEN and we do not have readily available information in this respect.

**Number of students with special educational needs (SEN) in English Schools Foundation (ESF) schools and other international schools from the 2012/13 to 2016/17 School Years**

School Year	ESF		Other International		Total	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
2012/13	141	232	190	97	331	329
2013/14	139	239	262	88	401	327
2014/15	136	256	329	163	465	419
2015/16	230*	435*	385	175	615	610
2016/17	245	565	323	179	568	744

\* ESF has its own system in classifying students with SEN according to the level of teaching and learning adjustments required, and offer three broad options, viz. mainstream classes, learning support centres and special school, to cater for the needs of these students. ESF has advised that from 2015/16 onwards they have standardised their practice by requiring all ESF schools to include in their returns to the student enrolment survey not only students with SEN at learning support centres in mainstream schools and the special school, but also some in mainstream classes who require minimum teaching and learning adjustments, which lead to the increase in the number of students with SEN for 2015/16 as compared with previous years.

Notes: (1) Figures refer to the position as at September of the respective years.

(2) The figures are based on the returns of ESF and other international schools to the Annual Enrolment Survey conducted by the Education Bureau. They, however, are not exhaustive as some schools did not respond to the Survey in this respect.

- End -

**CONTROLLING OFFICER'S REPLY****EDB482****(Question Serial No. 6604)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Learning Support Grants are paid to schools based on Tier 2 and Tier 3 level of the SEN student (as well as top up). For the past five years, how much Learning Support Grant was paid for Tier 2 level SEN student and how much for Tier 3 level SEN student (excluding top up)?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2358)

Reply:

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing schools with additional resources including the Learning Support Grant (LSG), professional support and teacher training on top of the regular subvention and encourages schools to adopt the Whole School Approach to support the students with SEN through the 3-Tier Intervention Model, taking into account their support needs.

To further enhance the support for students with SEN, EDB has raised the ceiling of LSG from \$1 million to \$1.5 million per school per annum from the 2013/14 school year. The grant rates of LSG have also been increased by 30% in the 2014/15 school year. From the 2015/16 school year onwards, the grant rates and the ceiling of LSG for each school year will continue to be adjusted annually according to the change in the Composite Consumer Price Index. The expenditure on LSG for the past five years is as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17 (Revised Estimate)
Expenditure on LSG (\$ million)	293.4	330.9	450.1	500.1	539.0

Although LSG is calculated on the basis of the number of students with SEN admitted and the tier of support the students required (with a basic provision for the first one to six student(s) requiring tier-3 support), schools should pool and deploy LSG and other school resources flexibly and holistically for employing additional teachers, teaching assistants, or hiring professional services, etc. to render appropriate support services for students with SEN based on their needs. Hence, providing the information on LSG paid for the students requiring tier-2 and tier-3 support (excluding the basic provision) is not meaningful and can be misleading.

Question:

The Government mentioned in paragraph 194 of the Policy Address that it “will further enhance the School-based Educational Psychology Service by progressively improving the ratio of educational psychologist to school to 1:4 for public sector primary and secondary schools with a large number of students with such needs”. Please give a thorough account of the details of this initiative, related resources distribution and expected outcomes. Please define the criteria for being “with a large number of students with such needs”.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2262)

Reply:

In the 2016/17 school year, the School-based Educational Psychology Service (SBEPS) covers all public sector primary and secondary schools. The Government has further enhanced the SBEPS by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. The Education Bureau (EDB) has accorded priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students requiring individual support, etc.

With the enhanced provision, the schools will be better supported in catering for student diversity. Apart from helping the schools strengthen their preventive and developmental work, EPs will pay more frequent visits throughout the school year and provide comprehensive and regular follow-up to students and intervention services to the schools concerned based on their needs. The estimated expenditure for the enhanced provision for the 2016/17 and 2017/18 school years is \$4 million and \$11 million respectively.

Question:

Will the Government inform this Council of:

- (1) whether all official information of the Education Bureau is available in both Chinese and English, our official languages;
- (2) the number of English-language parent briefing sessions conducted on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (3) the number of dedicated briefing sessions conducted with simultaneous interpretation services for NCS parents on the Primary One Allocation and Secondary School Places Allocation systems; the districts in which they were conducted; and the number of parents who have attended these sessions in 2012/13, 2013/14, 2014/15 and 2015/16 respectively;
- (4) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choices, that are only available in Chinese but not English;
- (5) the list of information disseminated or publications published by the Education Bureau, including its school directories and reports on schools' qualities, particularly those that inform parents and students of their school choices, that are available in both printed and web versions in Chinese but only available in web versions in English;
- (6) the list of information disseminated or publications published by the Education Bureau, including its blogs, webpages, school directories, reports on schools' qualities and videos, particularly those that inform parents and students of their school choices, that are available in languages other than Chinese and English, and what languages they are available in; and
- (7) if some information about schools and the education system given by the Education Bureau is available in Chinese only, how non-Chinese speaking parents can make an informed school choice for their children and whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2418)

Reply:

- (1) In general, official information of the Education Bureau (EDB) published on the Bureau's website would be made available in both Chinese and English for general reference by the public where appropriate.
- (2)&(3) To facilitate participation of non-Chinese speaking (NCS) students and parents in the Primary One Admission (POA) system and the Secondary School Places Allocation (SSPA) system, dedicated briefing sessions in English with simultaneous interpretation services are organised annually in two modes, i.e. briefing sessions open to all NCS parents and briefing sessions for NCS parents in individual kindergartens or primary schools upon their requests. A total of nine sessions on POA which were open to all NCS parents were organised in each of the school years from 2012/13 to 2015/16 in Wan Chai, Kwun Tong and Kowloon City, which are easily accessible to parents. The number of participating parents in the briefing sessions was 248, 333, 316 and 311 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. As regards SSPA, in the light that it is not uncommon for primary schools to offer counselling on admission to Secondary 1 specifically on school choices to Primary 6 students and parents, one briefing session open to all NCS parents was organised in Sham Shui Po in each of the school years from 2012/13 to 2015/16. The number of participating parents was 49, 70, 66 and 73 in the 2012/13, 2013/14, 2014/15 and 2015/16 school years respectively. We have not kept a separate record of the briefing sessions organised on request of individual kindergartens or primary schools, which may vary over the years and are therefore unable to provide the related number.
- (4)&(5) All information related to school choices is available in both Chinese and English on the Bureau's website. Relevant information is also published in other language versions where applicable to facilitate the reference by NCS communities.
- (6) EDB is committed to encouraging and supporting NCS students' integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in Chinese and English and there is a designated webpage on the education services for NCS students. We also provide NCS students and their parents with the list of information or publications published in both Chinese and English with translation into major ethnic minority languages as tabulated at [Annex](#).
- (7) As elucidated in (6) above, information about the education system and schools published by EDB is not in Chinese only. EDB has been promoting parent education highlighting that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider schools which can provide more immersed Chinese language learning environment for NCS students. Dedicated briefing sessions with simultaneous interpretation services will continue to be organised for parents of NCS students. In tandem, EDB has been encouraging schools to organise parents' school visits on a school / district basis to enable parents (including parents of NCS students) to get to know more about the schools before making school choices. EDB has, starting from the 2015/16 school year, distributed the English version of the School Profiles to each NCS student to help their parents grasp the basic information of all public sector schools. EDB has encouraged schools to keep on enriching the contents of their English School Profiles and school websites. Besides, EDB has set up a hotline for NCS students and their parents with telephone interpretation arranged through the CHEER Centre funded by the Home Affairs Department.

**CONTROLLING OFFICER'S REPLY****EDB486****(Question Serial No. 6884)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau is allocating funding to primary and secondary schools according to the number of non-Chinese speaking students they admit. In this connection, will the government:

1. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 non-Chinese speaking students in 2015/16 respectively;

	Number of primary schools admitting such a number of non-Chinese speaking students	Names of these primary schools admitting such a number of non-Chinese speaking students	Number of secondary schools admitting such a number of non-Chinese speaking students	Names of these secondary schools admitting such a number of non-Chinese speaking students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

2. tabulate the number of primary and secondary schools admitting 0, 1 to 9, 10 to 25, 26 to 50, 51 to 75, 76 to 90 and more than 90 ethnic minority students in 2015/16 respectively;

	Number of primary schools admitting such a number of ethnic minority students	Names of these primary schools admitting such a number of ethnic minority students	Number of secondary schools admitting such a number of ethnic minority students	Names of these secondary schools admitting such a number of ethnic minority students
0				
1-9				
10-25				
26-50				
51-75				
76-90				
More than 90				

3. tabulate the number of primary and secondary schools where non-Chinese speaking students account for 0%, 1% to 31%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16;

	Number of primary schools where non-Chinese speaking students account for this percentage of the student population	Names of primary schools where non-Chinese speaking students account for this percentage of the student population	Number of secondary schools where non-Chinese speaking students account for this percentage of the student population	Names of secondary schools where non-Chinese speaking students account for this percentage of the student population
0%				
1% to 31%				
31% to 50%				
51% to 70%				
71% to 90%				
More than 90%				

4. tabulate the number of primary and secondary schools where ethnic minority students account for 0%, 1% to 31%, 31% to 50%, 51% to 70%, 71% to 90% and more than 90% of the student population in 2015/16;

	Number of primary schools where ethnic minority students account for this percentage of the student population	Names of primary schools where ethnic minority students account for this percentage of the student population	Number of secondary schools where ethnic minority students account for this percentage of the student population	Names of secondary schools where ethnic minority students account for this percentage of the student population
0%				
1% to 31%				
31% to 50%				
51% to 70%				
71% to 90%				
More than 90%				

5. if the government refuses to provide the data above, inform the Council of how it and the public can monitor whether there is *de facto* racial segregation in the education system; and
6. given that the Education Bureau said it is committed to facilitating the integration of NCS students and providing education-related information to NCS parents and students, inform the Council how parents can obtain the data above; and if parents have no way to find out which schools have a high proportion of ethnic minority students, whether the Education Bureau can still claim that any high concentration of ethnic minority students in certain schools is a result of parental choice.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2417)

Reply:

- (1) to (4) For planning of education support measures, whether students whose spoken language at home is Chinese, rather than their ethnicity, is our concern. According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students, notably ethnic minority (EM) students, ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”, and the percentage of NCS students among all students of these schools in the 2015/16 school year are tabulated at Annex A. It is the established practice

that we do not disclose the name and situation of individual schools so as to avoid unnecessary misconception and possible labelling on individual schools.

- (5) We note the concern about the percentage of NCS students in individual schools with regard to the provision of an immersed Chinese language environment in schools to facilitate their learning of the Chinese language. After thorough deliberation, stakeholders generally considered it necessary to take into account the worries and views of some NCS students and their parents about school choice as well as concerns of schools. On balancing the views of different stakeholders, the Education Bureau (EDB) revised, in the 2013/14 school year, the mode of support to schools admitting NCS students by abolishing the so-called “designated schools” system. Starting from the 2014/15 school year, EDB has allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools.

Besides, to enable NCS students studying in schools with a relatively high concentration of NCS students to learn together with Chinese-speaking students, we have been actively encouraging the schools concerned to form learning circles for Chinese learning activities (such as buddy reading programmes) in collaboration with schools admitting a larger number of Chinese-speaking students, and/or launch programmes for promoting awareness of cultural diversity (for example, engaging NCS students in community services) with a view to exposing NCS students to more Chinese through learning activities outside school and interaction with their Chinese-speaking peers. In addition to the implementation of the “Learning Framework”, schools receiving the additional funding are also required to make optimal use of the funding to create an inclusive learning environment in schools. The schools concerned have generally deployed about 10% of the additional funding provided for appointment of EM assistants and/or procurement of translation services to strengthen communication with parents of NCS students and organise multi-cultural activities. Regarding individual schools which have admitted more NCS students, some have, in collaboration with the tertiary institution, set up the Chinese Language Learning Support Centre in their schools to strengthen the support to the students concerned. They have also actively engaged their NCS students in community activities with a view to enhancing their interaction with their Chinese-speaking peers and broadening their exposure to Chinese.

- (6) EDB is committed to encouraging and supporting NCS students’ integration into the community, facilitating their adaptation to the local education system and mastery of the Chinese language. All relevant information is published in English and Chinese and there is a designated webpage on the education services for NCS students. The information or publications published with translation into major EM languages provided to NCS students and their parents are tabulated at [Annex B](#). In tandem, EDB has been promoting parent education emphasising that parents (including parents of NCS students) should take into account the aspirations and needs of their children when making school choices, and encouraging parents of NCS students to consider schools which can provide more immersed Chinese language learning environment for the NCS students. EDB has, starting from the 2015/16 school year, distributed the English version of the School Profiles to each NCS student to help their parents grasp the basic information of all public sector schools. EDB will continue to encourage schools to keep on enriching the contents of the English School Profiles and school websites. Besides, dedicated briefing sessions with simultaneous interpretation services will continue to be organised for parents of NCS students. EDB has also been encouraging schools to organise parents’ visits to schools on a school / district basis for parents (including parents of NCS students) to get to know more about the schools before making school choices.

**Number of schools with non-Chinese speaking (NCS) students ranging from “0”, “1 to 9”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above”, and the percentage of NCS students among all students of such schools in the 2015/16 school year**

2015/16 school year	Number of NCS students						
	0	1 to 9	10 to 25	26 to 50	51 to 75	76 to 90	91 or above
<b>Primary schools</b>							
Number of schools	146	217	57	21	6	2	26
Percentage of NCS students among all students of the schools	0%	0.1% - 6.1%	1.1% - 29.2%	3.6% - 31.8%	8.9% - 54.9%	19.8% - 21.5%	17.1% - 98.8%
<b>Secondary schools</b>							
Number of schools	175	193	41	12	8	0	25
Percentage of NCS students among all students of the schools	0%	0.1% - 1.9%	1.0% - 7.1%	2.6% - 9.4%	4.5% - 23.4%	-	15.9% - 98.9%

Notes:

1. Figures refer to the position as at September 2015.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. The data cover NCS students in public sector and Direct Subsidy Scheme (DSS) schools, including 1 DSS secondary school offering non-local curriculum. Figures do not include students in special schools.

**(Question Serial No. 6890)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please set out the numbers of students benefited from the School-based After-school Learning and Support Programmes by grade level.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5091)

Reply:

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

In the 2016/17 school year, for the School-based Grant, 896 schools which constitute about 90% of all the eligible schools in the territory with 217 120 eligible students qualified for the grant participate in the Programme. Regarding the Community-based Project Grant, the 510 projects organised by 173 NGOs are targeted at individual eligible students totaling about 103 000. As schools are given 25% discretionary quota to cover students who are not in receipt of CSSA or SFAS full grant, breakdown on the number of students by grade level is not available.

- (i) The number and percentage of all students and non-Chinese speaking students who got admission in direct subsidy school in the school years 2015/16 and 2016/2017.

Asked by: Hon HUI Chi-fung (Member Question No. 46)

Reply:

- (a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS students participating in the Primary One Admission (POA) 2015 and in POA 2016 for admission to Primary 1 in the 2015/16 and 2016/17 school years is 1 199 and 1 270 respectively. The

corresponding percentage share among the total number of students participating in POA is 2.4% and 2.5% in the respective years.

- (b) The number and percentage of students who were offered a Primary 1 place at the “Discretionary Places” stage are 22 154 and 43.8% respectively for the 2015/16 school year (i.e. POA 2015), and 22 504 and 43.5% respectively for the 2016/17 school year (i.e. POA 2016).
- (c) The number and percentage of NCS students who were offered a Primary 1 place at the “Discretionary Places” stage among the total number of NCS students participating in POA are 752 and 62.7% respectively for the 2015/16 school year (i.e. POA 2015), and 763 and 60.1% respectively for the 2016/17 school year (i.e. POA 2016).
- (d) The number and percentage of all students who were allocated a Primary 1 place at the “Central Allocation” stage are 28 483 and 56.2% respectively for the 2015/16 school year (i.e. POA 2015), and 29 243 and 56.5% respectively for the 2016/17 school year (i.e. POA 2016).
- (e) The number and percentage of NCS students who were allocated a Primary 1 place at the “Central Allocation” stage among the total number of NCS students participating in POA are 447 and 37.3% respectively for the 2015/16 school year (i.e. POA 2015), and 507 and 39.9% respectively for the 2016/17 school year (i.e. POA 2016).
- (f) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) 2015 for admission to Secondary 1 in the 2015/16 school year and in SSPA 2016 for admission to Secondary 1 in the 2016/17 school year is 1 435 and 1 390 respectively. The corresponding percentage share among all Primary 6 NCS students in public sector schools, schools under the Direct Subsidy Scheme (DSS) offering the local curriculum and private schools (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) is 96.6% and 94.5% in the respective years.
- (g) The number and percentage of all Primary 6 students who were allocated a Secondary 1 place at the “Discretionary Places” stage among the total number of students participating in SSPA are 17 727 and 38.0% respectively for the 2015/16 school year (i.e. SSPA 2015), and 17 703 and 38.9% respectively for the 2016/17 school year (i.e. SSPA 2016). The number and percentage of Primary 6 NCS students who were allocated a Secondary 1 place at the “Discretionary Places” stage among the total number of NCS students participating in SSPA are 893 and 62.2% respectively for the 2015/16 school year (i.e. SSPA 2015), and 947 and 68.1% respectively for the 2016/17 school year (i.e. SSPA 2016).
- (h) The number and percentage of all Primary 6 students who were allocated a Secondary 1 place at the “Central Allocation” stage among the total number of students participating in SSPA are 28 932 and 62.0% respectively for the 2015/16 school year (i.e. SSPA 2015), and 27 841 and 61.1% respectively for the 2016/17 school year (i.e. SSPA 2016). The number and percentage of Primary 6 NCS students who were allocated a Secondary 1 place at the “Central Allocation” stage among the total number of NCS students participating in SSPA are 542 and 37.8% respectively for the 2015/16 school year (i.e. SSPA 2015), and 443 and 31.9% respectively for the 2016/17 school year (i.e. SSPA 2016).
- (i) The number of all students who were admitted to DSS schools offering the local curriculum and the corresponding percentage share among all students in public sector (excluding special schools) and

DSS schools offering the local curriculum are 62 098 and 10.1% respectively for the 2015/16 school year, and 61 427 and 10.0% respectively for the 2016/17 school year.

The number of NCS students who were admitted to DSS schools offering the local curriculum and the corresponding percentage share among all NCS students in public sector (excluding special schools) and DSS schools offering the local curriculum are 5 714 and 32.5% respectively for the 2015/16 school year, and 5 633 and 31.1% respectively for the 2016/17 school year.

Number of students receiving subsidy for GCE Chinese A-Level	
Number of students receiving subsidy for GCE Chinese A-Level for the first time	

	2016/17
Expenditure on subsidy for NCS students on GCSE Chinese	
Expenditure on subsidy for NCS students on IGCSE Chinese	
Expenditure on subsidy for NCS students on GCE AS-Level Chinese	
Expenditure on subsidy for NCS students on GCE A-Level Chinese	

Asked by: Hon HUI Chi-fung (Member Question No. 47)

Reply:

Eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education. Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level. Besides, starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy non-Chinese speaking (NCS) students sitting for the GCSE (Chinese) examinations can apply for full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme (EFRS). The EFRS has further been

extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards.

The number of NCS students subsidised to sit for the afore-mentioned examinations in the 2016/17 school year and the estimated expenditure are tabulated below:

<b>Alternative Chinese Examinations</b>	<b>Number of NCS students subsidised in the 2016/17 school year (Number of NCS students subsidised for the first time)</b>	<b>Estimated expenditure in the 2016/17 school year \$ million</b>
GCSE Chinese	1 205 (1 140)	0.99
IGCSE Chinese	96 (90)	0.20
GCE AS-Level Chinese	245 (241)	0.66
GCE A-Level Chinese	201 (192)	0.73
<b>Total</b>	<b>1 747</b>	<b>2.58</b>

Programme: (4) Secondary Education, (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Will the government inform this Committee of :

- (a) the number of non-Chinese speaking students applying for the Applied Learning Chinese course from 2014/15 to 2016/17;
- (b) the number of non-Chinese speaking students applying for the Applied Learning Chinese course from 2014/15 to 2016/17 but not accepted as a result of being unable to meet the minimum language entry requirement;
- (c) the number of schools enrolling non-Chinese speaking students in Applied Learning Chinese course from 2014/15 to 2016/17;
- (d) the number of non-Chinese speaking students taking Applied Learning Chinese courses from 2014/15 to 2016/17 desegregated by course subject matter (i.e. Chinese for the Service Industry or Practical Chinese in Hospitality) and the number of students completing each of the courses desegregated by results;
- (e) the number of teachers instructing Applied Learning Chinese course from 2014/15 to 2016/17 respectively and the number of teachers who received prior training in teaching Chinese as a Second Language;
- (f) the amount of funding spent on running Applied Learning Chinese course from 2014/15 to 2016/17.

Asked by: Hon HUI Chi-fung (Member Question No. 48)

Reply:

(a) The numbers of applications for Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) are 189 and 179 for the 2015-17 and the 2016-18 cohorts respectively. For the 2017-19 cohort, since application from schools for ApL(C) is still in progress, the number of applications in the courses of ApL(C) is not yet finalised.

(b) The number of non-Chinese speaking (NCS) students not accepted as a result of being unable to meet the minimum language entry requirement is not available. The difference between the number of NCS students applying for ApL(C) (189 and 179 for the 2015-17 and the 2016-18 cohorts respectively) and the actual student enrolments (181 and 178 for the 2015-17 and the 2016-18 cohorts respectively) is caused by different reasons (students' interest, language ability, family considerations, etc.) and the difference is not significant.

(c) The numbers of schools with NCS students enrolled in ApL(C) are 14 and 23 for the 2015-17 and the 2016-18 cohorts respectively. For the 2017-19 cohort, since application from schools for ApL(C) is still in progress, the number of schools with NCS students enrolled in the courses of ApL(C) is not yet finalised.

(d) The numbers of NCS students enrolled in ApL(C) are as follows:

Cohort	2015-17	2016-18
ApL(C) - Chinese for the Service Industry	125	138
ApL(C) - Practical Chinese in Hospitality	56	40
Total	181	178

For the 2017-19 cohort, since application from schools for ApL(C) is still in progress, the number of NCS students enrolled in the courses of ApL(C) is not yet finalised.

The results of the first cohort of ApL(C) graduates will be available in mid-July 2017.

(e) For each course, a team of one to three professional members is involved in the course delivery of ApL(C), including the main teaching staff with expertise in Chinese Language and experience in teaching NCS students. Apart from these, there are personnel with related professional and vocational experience to support the delivery.

(f) The amount of Student Grant (SG) for ApL(C) from the 2014/15 to the 2016/17 school years are as follows:

School Year	2014/15	2015/16	2016/17
SG for ApL(C) (\$ million)	2	4	7

- End -

**CONTROLLING OFFICER'S REPLY****EDB492****(Question Serial No. 5224)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Will the government inform this Committee of:

- (a) The number of primary and secondary schools that received 1-9 non-Chinese speaking students, the number of kindergartens that received 1-7 non-Chinese speaking students, and the number of special schools that received 1-5 non-Chinese speaking students, as tabulated below:

<b>Number of schools:</b>	<b>2014/15</b>	<b>2015/16</b>	<b>2016/17</b>
Kindergartens with 1-7 NCS students			
Primary schools with 1-9 NCS students			
Secondary schools with 1-9 NCS students			
Special schools with 1-5 NCS students			

- (b) The list of support and funding provided to the schools above, given that the small number of NCS students in their school does not make them eligible for recurrent funding designated for NCS students.

Asked by: Hon HUI Chi-fung (Member Question No. 49)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of schools with non-Chinese speaking (NCS) students ranging from “1-7” in kindergartens (KGs), “1-9” in public sector and Direct Subsidy Scheme primary and secondary schools and “1-5” in special schools from the 2014/15 to 2016/17 school years are tabulated at Annex A.
- (b) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. As regards schools admitting a handful of NCS students (i.e. 1 to 9 for ordinary schools and 1 to 5 for special schools), their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 per year on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. In tandem, we will continue to encourage these schools to optimise the use of their immersed Chinese language environment and deploy other resources flexibly with holistic planning according to their school-based

circumstances to support their NCS students' mastery of the Chinese language as appropriate. Besides, NCS students in these schools may benefit from other support measures as set out at Annex B.

With the implementation of the Free Quality KG Education Scheme starting from the 2017/18 school year, EDB will enhance the support to NCS students in KGs including, among others, enhancement in teacher training and school-based professional support services. All KGs, irrespective of the number of NCS students admitted (i.e. including those admitting 1 to 7 NCS students), may apply to join to enhance their strategies to help NCS students learn Chinese. The estimated expenditure on specific training on support to NCS students is \$1.8 million in the 2017/18 school year. School-based professional support services are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant expenditures have been subsumed under the overall expenditure of EDB. Besides, starting from the 2016/17 school year, the Education University of Hong Kong has also offered a new University Grants Committee-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children Programme. On the other hand, it is also worth noting that KGs admitting a handful (i.e. from 1 to 7) of NCS students offer an immersed Chinese language environment which is conducive to their learning of Chinese and integration into the local community.

**Number of schools with non-Chinese speaking (NCS) students  
ranging from 1 to 7 in kindergartens, 1 to 9 in public sector and Direct Subsidy Scheme  
primary and secondary schools, and 1 to 5 in special schools from the 2014/15 to 2016/17 school years**

	Number of NCS students	Number of schools		
		2014/15 school year	2015/16 school year	2016/17 school year
Pre-primary	1-7	319	322	314
Primary	1-9	221	217	207
Secondary	1-9	193	193	175
Special	1-5	25	23	26

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
4. Figures for primary and secondary levels cover NCS students studying in public sector and Direct Subsidy Scheme schools.
5. Hospital school is not included in special schools due to the transitional nature of the education service provided.

Question:

Regarding the arrangements of assessing kindergartens joining the Free Quality Kindergarten Education Scheme (KG Scheme) in the coming year, please provide the following information:

1. the criteria adopted by the Education Bureau (EDB) in selecting External Observers to undergo the Quality Review (QR);
2. the number of External Observers; and
3. the estimated expenditure on employment of External Observers?

Asked by: Hon HUI Chi-fung (Member Question No. 80)

Reply:

(1)

The External Observers (ExtOs) will be involved in the Quality Review for the kindergartens joining the Free Quality Kindergarten Education Scheme. The ExtOs have been selected through open recruitment and the requirements of qualifications and experience are as follows:

Qualifications

- (a) A Hong Kong Bachelor's Degree preferably in Early Childhood Education, Psychology, Education or equivalent; and
- (b) A certificate in education from a Hong Kong tertiary educational institution, or equivalent.

Experience

- (c) At least 10 years of working experience in school inspection / teaching / educational administration in the early childhood education sector and/or teaching experience in tertiary institutions in early childhood education; and
- (d) At least 5 years of working experience in managerial and/or supervisory position; and
- (e) Candidates are not currently serving in education sector.

All applicants meeting the above-mentioned criteria were selected for interviews. Their understanding about the current trends of kindergarten education and general attributes such as ability to communicate effectively were considered.

(2) and (3)

There are nine ExtOs and the estimated expenditure on the honorarium in 2017-18 is \$0.2 million.

Director of Bureau: Secretary for Education

Question:

Regarding school-based professional support, the questions are as follows:

1. The number of schools provided with school-based professional support in 2016/17 decreased by 12 schools as compared with 2015/16. What were the reasons? Was it because those schools decided to withdraw? If yes, has the Education Bureau (EDB) studied the reasons so as to make improvements accordingly?
2. Has the EDB considered the sector's opinions on school-based professional support? If yes, please provide the main points of the latest review and details of the improvement made by the EDB; and if no, the reasons.

Asked by: Hon HUI Chi-fung (Member Question No. 81)

Reply:

1. The Education Bureau (EDB) provides schools with diversified school-based support services (SBSS) including on-site professional support provided by support sections of EDB and projects funded by the Education Development Fund. In the past few years, the school sector had a keen demand for the support services. Since the foci/themes of support would be different between years and schools may apply for support services based on their development needs, the number of school applications varies across years. The actual number of schools supported in 2016/17 will be available at the end of the school year.
2. EDB conducts evaluation of the effectiveness of SBSS by means of questionnaire surveys and/or focus interviews. The results of the annual evaluation consistently affirmed that participating schools and teachers were satisfied with the support services and that the support could meet the schools' expectations and needs. Positive impact was found in teachers' professional capacity, school culture and student learning. EDB will continue to review the support services based on the evaluation to ensure that the services best suit the needs of schools.

Question:

Regarding the Administration's Matters Requiring Special Attention in 2017-18, please inform this Committee of:

1. the details of the Administration's plan to continue to improve the learning and teaching of the English Language in primary schools as well as the expenditure and manpower resources involved; and
2. the progress of the work relating to the Administration's provision of the Learning Support Grant for public sector primary schools to cover students with mental illness as well as the expenditure and manpower resources involved; moreover, as we can see that additional students will be covered by the grant, whether the amount of the grant will increase for that reason and whether additional manpower will be employed as a result. Please state the relevant figures and additional expenditure involved.

Asked by: Hon HUI Chi-fung (Member Question No. 82)

Reply:

(1)

In 2017-18, we will continue to implement support measures to improve the teaching and learning of the English Language in primary schools. The estimated expenditure for the initiatives in 2017-18 is \$472.54 million, of which \$35.10 million is from the Language Fund.

Details of the support measures are tabulated as below:

No.	Name of Project	Details^
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials. The grant concerned has been subsumed under the Expanded Operating Expenses Block Grant w.e.f. the 2016/17 school year.

No.	Name of Project	Details^
<b>B. School-based support</b>		
*1.	Task Force on Language Support	<p>To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).</p> <p>51 staff are involved. A breakdown by language and school level is not available as the staff may serve both primary and secondary schools in the same year.</p>
<b>C. Professional development</b>		
*1.	Professional Development Incentive Grant Scheme for language teachers	<p>To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.</p> <p>Two staff are involved.</p>
**2.	Scholarship Scheme to attract talents to become English Language teachers	<p>To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.</p>
3.	Professional development programmes	<p>To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.</p>
4	Resources for teachers	<p>To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.</p>
<b>D. Creating a facilitating environment for English learning</b>		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	<p>NETs collaborate with local English teachers (LETs) to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. To enhance students' literacy experience, a range of language activities, such as debating, drama, digital storytelling and puppetry, is developed and promoted through the collaboration between NETs, LETs and support officers from EDB.</p> <p>In general, an eligible public sector primary school operating six or more classes is provided with a NET.</p>
*2.	English Alliance	<p>To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.</p> <p>Manpower resources are pending for funding approval.</p>

No.	Name of Project	Details^
*3.	Sponsorship Projects	To engage community partners in organising language-related events/competitions in the community.  Manpower resources are pending for funding approval.

^ The number of staff involved for initiatives funded by the Language Fund is set out in the table. As for other initiatives, the work is absorbed from within by the staff establishment of Education Bureau. Hence, no separate breakdown on staff deployment is available.

\* Initiatives funded by Language Fund

\*\* Initiative is funded out of Head 173 Student Financial Assistance Agency

(2)

Students with mental illness (MI) need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers (SSWs) and educational psychologists (EPs) have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support for students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc.. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million. Based on the data provided by the Hospital Authority (HA) on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will benefit from the additional resources.

To support students with MI, the Food and Health Bureau, in collaboration with the Education Bureau (EDB), HA and the Social Welfare Department (SWD), launched a two-year pilot scheme named "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016-17 school year to the 2017-18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant service units of SWD for the provision of support services to students with mental health needs and their carers.

EDB will also conduct professional development programmes, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials to raise their awareness on mental health and help them early detect and support students with mental health needs. Subsidy for supply teachers will be offered to schools as appropriate.

- End -

Director of Bureau: Secretary for Education

Question:Question:

The Government has indicated that the ratio of graduate teacher posts in public sector primary schools and primary section of public sector special schools will be further enhanced to 65% next year. Please advise the following:

1. the details of the work (including the number of graduate teacher posts to be created) , the related expenditure and manpower resources involved to enhance the ratio;
2. the respective number of graduate teachers and non-graduate teachers in public sector primary schools and primary section of public sector special schools, the percentage of these teachers in terms of the total number of teachers in public sector primary schools and the respective number of posts created in the past 3 school years;
3. the expenditure incurred by the creation of graduate teacher posts in primary schools in the past 3 school years.

Asked by: Hon HUI Chi-fung (Member Question No. 83)

Reply:

(1) Pursuant to the increase in the ratio of graduate teacher posts from 50% to 55% and 60% in public sector primary schools in the 2015/16 and 2016/17 school years respectively, the Education Bureau (EDB) will further enhance the ratio to 65% in the 2017/18 school year. It is estimated that an additional full year cost of about \$328 million will be incurred for providing 3 300 additional graduate teacher posts to be offset by the corresponding number of non-graduate teacher posts for public sector primary schools.

(2) & (3)

The number of teachers appointed as graduate teachers and non-graduate teachers in public sector primary schools and special schools (primary section) and their respective percentage for the school years from 2014/15 to 2016/17 are as follows:

**Primary Schools (Government and Aided)**

School Year	Graduate Teachers		Non-graduate Teachers	
	Number of Teachers*	%	Number of Teachers*	%
2014/15	7 550	39.9	11 400	60.1
2015/16	7 960	41.0	11 470	59.0

School Year	Graduate Teachers		Non-graduate Teachers	
	Number of Teachers*	%	Number of Teachers*	%
2016/17 (Estimate)	8 530	42.9	11 360	57.1

\* Numbers are rounded to the nearest 10.

### Special Schools (Primary Section)

School Year	Graduate Teachers		Non-graduate Teachers	
	Number of Teachers*	%	Number of Teachers*	%
2014/15	270	34.2	510	65.8
2015/16	290	35.1	530	64.9
2016/17 (Estimate)	290	34.9	540	65.1

\* Numbers are rounded to the nearest 10.

EDB has set the target of enhancing the ratio of graduate teacher posts in public sector primary schools to 65% by phases in three years starting from the 2015/16 school year. With the implementation of this enhancement measure in the 2015/16 and 2016/17 school years, the cumulative total number of additional graduate teacher posts created is estimated to be around 900 and 1 900 respectively, to be offset by the corresponding number of non-graduate teacher posts. The annual cost incurred is about \$53 million and \$150 million for 2015-16 and 2016-17 respectively.

- End -

<u>Head:</u>	(156) Government Secretariat: Education Bureau
<u>Subhead (No. &amp; title):</u>	(-) Not specified
<u>Programme:</u>	(3) Primary Education, (4) Secondary Education, (5) Special Education
<u>Controlling Officer:</u>	Permanent Secretary for Education (Mrs Marion LAI)
<u>Director of Bureau:</u>	Secretary for Education
<u>Question:</u>	

The Administration indicates that the increase in provision for primary, secondary and special education next year is mainly due to salary increments. In this connection, please provide details of such salary increments over last year, including the rate of increase, and the average salary, median salary, highest salary and lowest salary payable to teachers last year and currently.

Asked by: Hon HUI Chi-fung (Member Question No. 84)

Reply:

The increase in provision under Programmes (3) Primary Education, (4) Secondary Education and (5) Special Education for 2017-18 against 2016-17 are mainly due to salary increments and increased provision for various existing grants to schools including the Salaries Grant. Upon satisfactory completion of a year's service, a teaching staff will be granted salary increment and paid at the next point of the pay scale on his/her incremental date until he/she reaches the maximum point of the pay scale of the relevant rank. The rate of increase of each higher pay point relevant to teaching staff ranges from 2.6% to 5.1%. The current monthly salary for various ranks of teaching staff in aided and government schools as compared with last year are set out in the table below-

	Monthly salary					
	Effective from 1.4.2015			Effective from 1.4.2016		
	Starting point \$	Maximum point \$	Mid-point <sup>#</sup> \$	Starting point \$	Maximum point \$	Mid-point <sup>#</sup> \$
Teaching staff

# The mid-point is calculated by dividing the sum of the salary at the starting point and the maximum point by two and selecting the salary from the relevant pay scale closest to the result.

Taking into account that the salaries of some teachers are partly paid by the Salaries Grant and partly by other funding of schools, and some teachers are on a part-time basis, some are occupying fractional posts and some are on no-pay leave, we consider it misleading to calculate the average salary for the teaching staff.

**CONTROLLING OFFICER'S REPLY****EDB498****(Question Serial No. 5245)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the number of students with disabilities studying in public sector special schools by disability type. How many of them are non-Chinese speaking students?

Asked by: Hon HUI Chi-fung (Member Question No. 85)

Reply:

The number of students and the number of non-Chinese speaking (NCS) students in different types of aided special schools in the 2016/17 school year (as at September 2016) are listed below:

School Type <sup>Note 1</sup>	Number of Students (including NCS Students)	Number of NCS Students <sup>Note 2</sup>
Visual Impairment	123	12
Hearing Impairment	89	18
Physical Disability	883	46
Mild Intellectual Disability <sup>Note 3</sup>	3 103	116
Moderate Intellectual Disability <sup>Note 3</sup>	1 911	127
Severe Intellectual Disability	687	32

Notes:

- (1) Schools for Social Development and the Hospital School are not included due to the transitional nature of the education service provided.
- (2) Figures cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
- (3) Including five schools for children with mild intellectual disability and children with moderate intellectual disability

Question:

121 additional posts will be created in the coming year. In this connection, please inform this Committee of the reasons for creating these new posts and the job nature of these posts, and provide a breakdown of the expenditure involved.

Asked by: Hon HUI Chi-fung (Member Question No. 86)

Reply:

The increase of 121 posts in 2017-18 is the net result of the planned creation of 265 posts and planned deletion of 144 posts.

The breakdown of the above posts by rank and annual salary is as follows -

<u>Rank</u>	<u>Posts to be created</u>	<u>Annual Salary</u> <sup>Note</sup> <u>(\$million)</u>
Assistant Master/Mistress	10	5.93
Certificated Master/Mistress	23	9.41
Headmaster/Headmistress I	3	3.04

Question:

Regarding the Hong Kong Scholarship for “Belt and Road” Students,

1. please provide the number of students who pursued studies in Hong Kong under the scholarship programme, their countries of origin, the institutions they enrolled in, the amount of scholarship distributed, and the expenditure incurred by the Education Bureau for administering the Scholarship last year; and
2. please advise this Committee on the number of students to be awarded the Scholarship in the coming year, their countries of origin and the expenditure involved.

Asked by: Hon HUI Chi-fung (Member Question No. 87)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places.

Under this new scheme, namely, the Hong Kong Scholarship for “Belt and Road” Students (Indonesia), up to ten scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Ten Indonesian students have been awarded the scholarships and they are pursuing undergraduate studies in Hong Kong. Amongst them, three enrolled in City University of Hong Kong, three enrolled in Hong Kong Polytechnic University, two enrolled in Chinese University of Hong Kong, and two enrolled in Hong Kong University of Science and Technology. The expenditure on scholarship in 2016/17 is \$1.2 million and the estimated expenditure for 2017/18 is \$2.4 million. Administration of the scholarship is funded by existing resources of the Education Bureau (EDB). The manpower and related expenditure have been subsumed under the establishment and provision for EDB.

To encourage more outstanding students from countries and regions along the “Belt and Road” to pursue studies in Hong Kong, there will be two “Belt and Road” scholarship schemes funded by private donations for students from Malaysia and Thailand in 2017/18 academic year. Up to ten scholarship offers would be provided under these two new schemes respectively.

**CONTROLLING OFFICER'S REPLY****EDB501****(Question Serial No. 3574)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) In each of the financial years in 2015-16 and 2016-17, what teaching resources and assessment banks on the Basic Law were provided by the Education Bureau (EDB) to schools? Please set out separately the production costs of each of the teaching resources or assessment banks.

(b) According to Para.35 in the Controlling Officers' Report under this Head, the EDB will "continue to develop learning and teaching resource packages and an assessment bank for promoting Basic Law education at senior primary and junior secondary levels". Would the EDB advise this Committee:

(i) in the 2017-18 financial year, the estimated expenditure and staff establishment for the development of the relevant resource packages and assessment bank;

(ii) what specific plan does the EDB have for promoting Basic Law education at senior primary and junior secondary levels.

Asked by: Hon IP Kin-yuen (Member Question No. 52)

Reply:

(a) The Education Bureau (EDB) developed the "Basic Law Audio-visual Learning and Teaching Package" for junior secondary students in April 2015, as well as the e-Book of Understanding the Law, Access to Justice – Basic Law Learning Package (Junior Secondary) (Reprinted with minor amendments in 2015) and DVD of Supplementary Video Clips for the Package for secondary schools in 2015-16. Currently we are developing the "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" for senior primary students to deepen their knowledge of the Basic Law. EDB has been updating the assessment banks continuously and the expenditure on the maintenance of the assessment banks is subsumed under the recurrent expenditure of EDB. The expenditure of the aforementioned learning and teaching (L&T) resources is as follows:

Name of L&T resources	Expenditure <sup>^</sup>
Basic Law Audio-visual Learning and Teaching Package	1.24 million <sup>*</sup>
E-Book of Understanding the Law, Access to Justice – Basic Law Learning Package (Junior Secondary) (Reprinted with minor amendments in 2015) and DVD of Supplementary Video Clips for the Package	1.64 million <sup>*</sup>
Basic Law Audio-visual Learning and Teaching Package (Senior Primary)	1.47 million <sup>+</sup>

<sup>^</sup>Total expenditure of the L&T resources. Payment was made in different financial years (2014-15, 2015-16, 2016-17 and 2017-18).

<sup>\*</sup>Actual expenditure

<sup>+</sup>Estimated expenditure

(b)(i) Expenditure and manpower resources for the Basic Law education (BLE)-related curriculum work and support measures, which includes research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is subsumed under the recurrent expenditure of EDB as an integral part of its day-to-day curriculum development work. Other than expenditure on developing learning and teaching resources, there is no separate breakdown for individual items. The estimated expenditure of EDB for developing learning and teaching resources on BLE in 2017-18 is 1.53 million.

(b)(ii) EDB has attached great importance to promoting BLE through relevant curricula such as General Studies at the primary level and Life and Society at the junior secondary level as well as the “Revised Moral and Civic Education Curriculum Framework” (2008). A wide array of measures has been provided to strengthen the implementation of BLE. Such measures include developing L&T resources, organising seminars for school sponsoring bodies, school leaders and teachers as well as providing training to teachers through professional development programmes and networking activities so as to enhance their understanding of the concepts of the Basic Law, the application in daily life, as well as the pedagogical strategies in using L&T resources from different sources to achieve the learning objectives.

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors to subsidise students to pursue designated self-financing undergraduate programmes in each academic year.

(a) Please use the table below to provide information of the programmes for the 2015/16 and 2016/17 academic years:

Programmes	Institutions	Number of subsidised places	Actual intakes (including subsidised and self-financing places)	Average annual tuition fee (before deduction of subsidy)	Annual subsidy amount

(b) Please use the table below to provide information of the estimated programmes for the 2017/18 academic years:

Programmes	Institutions	Number of subsidised places	Available places (including subsidised and self-financing places)	Average annual tuition fee (before deduction of subsidy)	Annual subsidy amount

Asked by: Hon IP Kin-yuen (Member Question No. 56)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

The list of selected programmes and relevant institutions, number of subsidised places, actual intakes/available places, average annual tuition fee before deduction of subsidy and subsidy amount for each programme for the cohorts admitted/to be admitted in the 2015/16, 2016/17 and 2017/18 academic years are set out at **Annex**.

**CONTROLLING OFFICER'S REPLY****EDB503****(Question Serial No. 3580)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

According to the 2016 Policy Address, the Education Bureau would progressively improve the ratio of educational psychologist to school to 1:4 for public sector ordinary primary and secondary schools with a large number of students with special educational needs from the 2016/17 school year. In this regard, would the Administration advise this Committee of:

- (a) the definition of “schools with a large number of students with special educational needs” and the numbers of public sector ordinary primary and secondary schools which met the above definition in the 2016/17 school year;
- (b) the respective numbers of primary and secondary schools which benefitted from the above policy in the 2016/17 school year; whether the Administration has objective indicators in determining the number of benefitted schools; whether the indicators will be adjusted in the future;
- (c) the respective ratios of educational psychologist to school for public sector ordinary primary and secondary schools in the 2016/17 school year; the number of educational psychologists who provided school-based educational psychology service and the number of cases referred to educational psychologists;
- (d) the total number of students awaiting for educational psychology service, and to list out the number of students who received educational psychology service or assessment and their waiting time for the service in the 2016/17 school year using the table below:

Waiting Time	No. of Students
within 1 month	
1 to 2 months	
2 to 3 months	
3 to 6 months	
more than 6 months	
Total	

Asked by: Hon IP Kin-yuen (Member Question No. 57)

Reply:

(a) to (d)

The Government has further enhanced the School-based Educational Psychology Service (SBEPS) by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools

with a large number of students with special educational needs (SEN) from the 2016/17 school year. In the 2016/17 school year, a total of 30 primary and secondary schools are receiving the enhanced provision. In the 2017/18 school year, the number of schools that will receive the enhanced provision will increase to 80. The Education Bureau (EDB) has accorded priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students requiring individual support, etc. EDB will continue to keep in view the service needs of schools as a whole.

The number of EPs involved in the provision of the SBEPS in the 2016/17 school year is 138. Under the SBEPS, one EP serves six to ten public sector schools (including both primary and secondary schools).

In the past four school years (2012/13 to 2015/16), about 80% of the cases referred to EPs were assessed within two months and about 90% within four months. The remaining cases with a longer waiting time for assessment were often due to some specific circumstances. For example, there were cases whose parents requested to defer the assessment and cases in which assessment had to be held up pending the students' medical treatment. Information for the service in the 2016/17 school year is not yet available since data from EPs in the aided school sector are collected at the end of the school year.

**CONTROLLING OFFICER'S REPLY****EDB504****(Question Serial No. 3582)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please use the table below to provide information on the initiative to turn the Senior Secondary Curriculum Support Grant (SSCSG) and/or the Career and Life Planning Grant (CLPG) into regular teaching posts in 2016/17 school year:

	No. of Schools	No. of Regular Teaching Posts Created
Converting from the SSCSG only		
Converting from the CLPG only		
Converting from both the SSCSG and CLPG		
Total		

Asked by: Hon IP Kin-yuen (Member Question No. 59)

Reply:

Slightly over 230 public sector secondary schools have turned either or both the Senior Secondary Curriculum Support Grant (SSCSG) and Career and Life Planning Grant (CLPG) into about 370 regular teaching posts with effect from the 2016/17 school year. Of them, some 180 schools have turned the SSCSG into a total of about 205 posts and 165 schools have turned the CLPG into a total of 165 posts.

Question:

- (a) Please list the class-to-teacher ratio of the member institutions of the Vocational Training Council (VTC) in the past 5 years (2012/13 to 2016/17 academic years) by institution and programme level. What measures are available to improve the class-to-teacher ratio of the member institutions?
- (b) Has the VTC taken any measures to deal with the decline in secondary student population? Will the job stability of the teaching staff working in the VTC be affected by these measures?

Asked by: Hon IP Kin-yuen (Member Question No. 60)

Reply:

- (a) The member institutions under the Vocational Training Council (VTC) share resources in many aspects, and depending on the operational needs, teaching staff may be deployed to different operation units to best utilize their expertise. The overall student-to-teacher ratios of VTC's member institutions (including the Hong Kong Institute of Vocational Education, Hong Kong Design Institute, Youth College, Hotel and Tourism Institute, Chinese Culinary Institute, International Culinary Institute, Maritime Services Training Institute and Pro-Act Training and Development Centres) for the 2012/13 to 2016/17 academic years are as follows –

<b>Academic Year</b>	<b>Student-to-Teacher Ratio</b>
2012/13	19.9 : 1
2013/14	19.3 : 1

VTC will continue to ensure optimal deployment of resources to provide quality vocational and professional education and training.

- (b) VTC regularly reviews its programme provisions and services, taking into account changing manpower demands of industries, Government policy directions and evolving developments of disciplines. New initiatives are launched from time to time to cater for emerging needs. More recent examples include the Pilot Subsidy Scheme for Students of Professional Part-time Programmes, the Pilot Training and Support Scheme and use of new technology for enhanced learning. These new initiatives and other curriculum enhancements will provide opportunity for deployment of existing staff with expertise matching the requirements of the initiatives concerned.

**CONTROLLING OFFICER'S REPLY**

**EDB506**

**(Question Serial No. 3588)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the data from 2012-13 to 2016-17 on the following items:

- (a) Total expenditure and total recurrent expenditure on education, as well as their percentage shares in the Government's total public expenditure and total recurrent expenditure respectively;
- (b) Please provide a breakdown of the total expenditure on education by recurrent expenditure, non-recurrent and capital account expenditure under General Revenue Account (GRA) as well as capital expenditure under Capital Works Reserve Fund (CWRF) and Loan Fund (LF);
- (c) Please list the following information on pre-primary education, primary education, secondary education, teacher training, adult education, higher education, technical education, vocational education and departmental support;
- (d) The recurrent and non-recurrent expenditures under GRA, their respective percentage shares in GRA as well as in recurrent and non-recurrent expenditures on education;
- (e) The total expenditure (including GRA, CWRF and LF) of the above education areas and its share in the total expenditure on education;
- (f) The expenditure on education (including recurrent expenditure, non-recurrent and capital account expenditure under GRA only) for each of the above education areas and their respective percentage shares in the Gross Domestic Product (GDP);
- (g) The total expenditure on education (including GRA, CWRF and LF) of the above education areas and its percentage share in the GDP; and
- (h) The provision for each of the education areas and their percentage changes in the past 5 years (i.e. 2012-13 to 2016-17).

Asked by: Hon IP Kin-yuen (Member Question No. 61)

Reply:

## (a) Total expenditure and total recurrent expenditure on education

	2012-13	2013-14	2014-15	2015-16	2016-17 Revised Estimate

For adult education, subsidies are provided to students through the Financial Assistance Scheme for Designated Evening Adult Education Courses under Head 173 Working Family and Student Financial Assistance Agency and are included as part of the recurrent expenditure of secondary education.

**Notes**

- Expenditure on vocational and professional education covers provision for the Vocational Training Council and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.
- Expenditure on post-secondary education covers provision for Project Yi Jin, Yi Jin Diploma Programme, various programmes for degree or above and sub-degree education (excluding vocational and professional education) and related student financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.  
The decrease in expenditure in 2013-14 is mainly due to the completion of one-off injections into various funds totaling \$7 billion in 2012-13, viz the Research Endowment Fund (\$5 billion), the HKSAR Government Scholarship Fund (\$1 billion) and the Self-financing Post-secondary Education Fund (\$1 billion). The increase in expenditure in 2015-16 is mainly due to the one-off injection into the Qualification Framework Fund (\$1 billion).
- Others include provision for home-school co-operation activities, school uniformed group activities, bureau support and other non-recurrent expenditure. The increase in expenditure in 2013-14 is mainly due to one-off injection into the Language Fund (\$5 billion). The increase in expenditure in 2016-17 is mainly due to the set-up of the Gifted Education Fund (\$800 million).
- The sums of figures may not add up to total due to rounding.
- Teacher training includes the Training and Development Grant provided to schools, costs of in-service and pre-service teacher training courses, refunds of course fees to teachers and teacher education programmes provided by University Grant Committee-funded universities. The related expenditure has been subsumed in the respective education level.
- GDP is calendar-year-based and may be subject to revision by the Census & Statistics Department.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Military Summer Camp for Hong Kong Youth co-organised by the Education Bureau (EDB), the Hong Kong Garrison of the Chinese People's Liberation Army and the Concerted Efforts Resource Centre, which Policy Programme and Subhead of the EDB does this summer camp fall under? Which of the manpower of the EDB is involved?

Asked by: Hon IP Kin-yuen (Member Question No. 62)

Reply:

The "Military Summer Camp for Hong Kong Youth" aims to provide discipline training and thematic talks so as to develop morality and leadership potential among students, and to foster their endurance, self-discipline, compliance and spirit of unity. In recognition of the educational value of the activity, the Education Bureau (EDB) has agreed to be one of the co-organisers. The manpower for co-organising the Summer Camp is subsumed under the staff establishment of EDB.

(d) The average number of teaching periods for teachers in government, aided and private primary and secondary schools.

Asked by: Hon IP Kin-yuen (Member Question No. 63)

Reply:

(a) The average student-to-teacher ratio and the average teacher-to-class ratio for public sector and private primary and secondary schools as well as special schools, Direct Subsidy Scheme (DSS) schools and international schools (including schools under English Schools Foundation) for the school years from 2014/15 to 2016/17 are tabulated below.

#### Student-to-Teacher Ratio

	2014/15	2015/16	2016/17 (Estimate)
Government Primary Schools	14.5 : 1	14.4 : 1	14.6 : 1
Government Secondary Schools	13.9 : 1	13.4 : 1	13.1 : 1
Aided Primary Schools	14.0 : 1	14.0 : 1	14.2 : 1
Aided Secondary Schools	12.9 : 1	12.3 : 1	11.8 : 1
Private Primary Schools*	15.8 : 1	15.7 : 1	15.6 : 1
Private Secondary Schools*	11.1 : 1	10.9 : 1	11.9 : 1
Caput Secondary Schools	13.1 : 1	13.4 : 1	13.6 : 1
Special Schools	4.6 : 1	4.5 : 1	4.6 : 1
DSS Schools*	11.9 : 1	11.7 : 1	11.5 : 1
International Schools*	11.0 : 1	10.9 : 1	10.8 : 1

### Teacher-to-Class Ratio

	2014/15	2015/16	2016/17 (Estimate)
Government Primary Schools	1.8 : 1	1.8 : 1	1.8 : 1
Government Secondary Schools	2.3 : 1	2.3 : 1	2.3 : 1
Aided Primary Schools	1.9 : 1	1.9 : 1	1.9 : 1
Aided Secondary Schools	2.3 : 1	2.3 : 1	2.4 : 1
Private Primary Schools*	1.9 : 1	1.9 : 1	1.9 : 1
Private Secondary Schools*	1.9 : 1	1.9 : 1	1.7 : 1
Caput Secondary Schools	2.4 : 1	2.3 : 1	2.3 : 1
Special Schools	2.2 : 1	2.2 : 1	2.2 : 1
DSS Schools*	2.5 : 1	2.5 : 1	2.5 : 1
International Schools*	2.1 : 1	2.1 : 1	2.1 : 1

\* The student-to-teacher ratio and the teacher-to-class ratio vary among individual DSS schools, private schools and international schools.

- (b) The posts in the approved teaching establishment of public sector schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number (rounded to the nearest 10) of regular teachers in public sector schools for the school years from 2014/15 to 2016/17 is as follows:

### Regular Teachers

	2014/15	2015/16	2016/17 (Estimate)
Government Primary Schools	1 230	1 190	1 210
Government Secondary Schools	1 440	1 370	1 390
Aided Primary Schools	16 100	16 310	16 540
Aided Secondary Schools	19 050	18 580	18 260
Caput Secondary Schools	100	100	90
Special Schools	1 610	1 620	1 640

The number (rounded to the nearest 10) of regular teachers on defined contract period (DCP) terms in aided schools for the school years from 2014/15 to 2016/17 is as follows:

### Regular Teachers on DCP Terms

	2014/15	2015/16	2016/17 (Estimate)
Aided Primary Schools	450	390	340
Aided Secondary Schools	970	880	820

Please note that schools may employ regular teachers with a DCP only if they have genuine needs and cogent reasons and there are no teachers on DCP terms in government schools and caput schools. Besides, the Education Bureau (EDB) does not have information on teachers on DCP terms in special schools and the number of teaching assistants in schools.

- (c) The figures on the number of teachers within and outside approved teaching establishment in aided and government schools (rounded to the nearest 10) are provided in the following table. For the teachers outside the establishment, we do not keep the information on the type of funding under which they are employed. Besides, there are no teachers on DCP terms in government schools.

		2014/15		2015/16		2016/17 (Estimate)	
		Sub- total	Total	Sub- total	Total	Sub- total	Total
<b>Aided Primary Schools</b>							
Teachers Within Establishment	Regular teachers*	15 650	16 100	15 920	16 310	16 200	16 540
	Regular teachers on DCP terms	450		390		340	
Teachers Outside Establishment		-	1 390	-	1 640	-	1 850
<b>Aided Secondary Schools</b>							
Teachers Within Establishment	Regular teachers*	18 080	19 050	17 700	18 580	17 440	18 260
	Regular teachers on DCP terms	970		880		820	
Teachers Outside Establishment		-	2 420	-	2 550	-	2 500
<b>Government Primary Schools</b>							
Teachers Within Establishment	Regular teachers*	-	1 230	-	1 190	-	1 210
Teachers Outside Establishment		-	230	-	300	-	290
<b>Government Secondary Schools</b>							
Teachers Within Establishment	Regular teachers*	-	1 440	-	1 370	-	1 390
Teachers Outside Establishment		-	250	-	290	-	250

\* Including regular teachers on permanent terms and the Native-speaking English Teachers.

- (d) The average number of teaching periods for teachers in government, aided primary and secondary teachers per cycle for the school years from 2014/15 to 2016/17 is tabulated below. EDB does not have information on the average number of teaching periods for teachers in private primary and secondary schools.

**Average number of teaching periods per cycle per teacher\***

	2014/15	2015/16	2016/17 (Estimate)
Government secondary school teachers	24	24	24
Government primary school teachers	26	26	26
Aided secondary school teachers	25	25	25

	2014/15	2015/16	2016/17 (Estimate)
Aided primary school teachers	26	26	26

\* In computing the figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and length of each teaching period may vary from school to school as well as across school years.

**(Question Serial No. 3591)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) Please give a breakdown of the number of special school students who were able to pursue further studies (in post-secondary institutions, vocational training schools and so on) after completing secondary education by category of special school and District Council district and by type of the institution where they pursued further their studies in the past 5 school years (from the 2012/13 to the 2016/17 school years); and

(2) What were the policies in support of special school students to pursue further studies in the past 5 school years (from the 2012/13 to the 2016/17 school years)? What new policies will be introduced in the future? What is the amount of public expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 64)

Reply:

(1) and (2)

As a general practice, special schools will help their students plan and apply for post-school placement having regard to their interest, capabilities and service needs. The number of students in different types of special schools who have completed secondary education and pursued further studies or vocational training, with breakdown by type of institutions, as collected from schools, from the 2012/13 to 2015/16 school years is at the Appendix. Information for the 2016/17 school year is not available at this stage. Apart from pursuing further studies, special school leavers may also receive vocational rehabilitation service, day-time training service, day care service, etc. As post-school placement for special school students does not have any relationship with the districts where the students study, providing the figures by district is not meaningful.

The Education Bureau (EDB) has been providing resources and support for special schools to help students develop their potential and prepare for further studies or post school training/services. The relatively smaller class size of special schools (ranging from 8 to 15 per class in different types of special schools) facilitates more individualized support to cater for students' diversity. Besides, additional resource teachers and specialists including speech therapist, physiotherapist, occupational therapist, educational psychologist, school nurse, school social worker, etc. are provided for the schools to cater for various needs of the students. With a view to enhancing the quality of learning and teaching in special schools, we have also been enhancing the interface between basic and senior secondary education and strengthening teacher professional development through various projects. A number of measures have been introduced to further enhance the education services provided by special schools for their students since the 2014/15 school year. They include providing additional teacher assistants for schools for children with intellectual disability (ID), physical disability, and visual impairment (VI) cum ID as well as the psychiatric classes of hospital school;

reducing progressively the class size to 12 students per class for the school for children with VI and schools for social development. EDB will continue to implement the above measures in the coming years. Starting from the 2016/17 school year, special schools operating senior secondary levels are allowed to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services.

The actual/estimated expenditure on special education from the 2012-13 to 2017-18 financial years is as follows:

Financial Year	2012-13	2013-14	2014-15	2015-16	2016-17 (revised estimate)	2017-18 (estimate)
Expenditure (\$million)	1,775.3	1,822.5	2,010.8	2,190.0	2,324.1	2,451.6

**Number of students of special schools who have completed secondary education  
and pursued further studies or vocational training  
from the 2012/13 to 2015/16 school years**

**CONTROLLING OFFICER'S REPLY****EDB510****(Question Serial No. 3592)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (1) What were the government's expenditures in the past 5 school years (from the 2012/13 to the 2016/17 school years) and what is the estimated expenditure for the 2017/18 school year on promoting National Education?
- (2) What were the respective numbers of students and teachers of kindergartens, primary and secondary schools and universities to whom the Education Bureau had offered Mainland exchange programmes in the past 5 school years (from the 2012/13 to the 2016/17 school years)? Please provide a breakdown by the number of exchange programmes, number of students and teachers and the public funding involved; and
- (3) In the past 5 school years (from the 2012/13 to the 2016/17 school years) and the 2017/18 school year, what are the staffing provisions of the Moral, Civic and National Education Section, Curriculum Development Institute, Education Bureau? How much public funding is involved?

Asked by: Hon IP Kin-yuen (Member Question No. 65)

Reply:

- (1) Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated into a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Areas/subjects, etc. Apart from offering opportunities for students to join Mainland exchange programmes and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items are subsumed under the recurrent expenditure of the Education Bureau (EDB), expenditure in respect of subsidising Mainland exchange programmes for primary and secondary school teachers and students can be separately identified and that in the past 5 school years (from the 2012/13 to 2016/17 school years) and the 2017/18 school year is as follows:

School Year	Expenditure (\$million) <sup>@</sup>	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2012/13	33.0	1.0
2013/14	37.2	1.3

School Year	Expenditure (\$million) <sup>@</sup>	
	Programmes for primary and secondary school students	Programmes for primary and secondary school teachers
2014/15	52.7	1.1
2015/16 <sup>#</sup>	61.9	1.5
2016/17 <sup>*</sup>	70.0	2.0
2017/18 <sup>++</sup>	114.6	1.9

<sup>@</sup> Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau

<sup>#</sup> Actual figures revised from last year's estimates

<sup>\*</sup> Provisional figures

<sup>++</sup> Estimated figures

- (2) The number of post-secondary, secondary and primary school students who were provided with Mainland exchange programmes in the past 5 school years (from the 2012/13 to the 2016/17 school years) and the expenditure involved are shown below:

School Year	Number of Students (rounded down to the nearest hundred)			Expenditure (\$million) <sup>@</sup>		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2012/13	7 700 <sup>◇</sup>	18 200	10 900	23.2	26.1	6.9
2013/14	5 800 <sup>◇</sup>	22 600	14 400	17.5	29.2	8.0
2014/15	4 000 <sup>◇</sup>	31 700	18 900	12.0	40.1	12.6
2015/16 <sup>#</sup>	3 900 <sup>◇</sup>	35 800	23 400	11.9	46.8	15.1
2016/17 <sup>*</sup>	3 400 <sup>◇</sup>	35 900	26 500	10.4	54.1	15.9

<sup>@</sup> Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau

<sup>#</sup> Actual figures revised from last year's estimates

<sup>\*</sup> Provisional figures

<sup>◇</sup> Estimated number of beneficiaries

The number of post-secondary, kindergarten, primary and secondary school teachers who were provided with teachers' Mainland exchange programmes in the past 5 school years (from the 2012/13 to the 2016/17 school years) and the expenditure involved are shown below:

School Year	Number of post-secondary, kindergarten, primary and secondary school teachers (rounded down to the nearest ten)	Expenditure (\$million) <sup>@</sup>
2012/13	210	1.0
2013/14	270	1.3
2014/15	260	1.1
2015/16 <sup>#</sup>	410	2.1
2016/17 <sup>*</sup>	580	2.6

<sup>@</sup> Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of the Education Bureau

<sup>#</sup> Actual figures revised from last year's estimates

<sup>\*</sup> Provisional figures

No kindergarten students took part in the Mainland exchange programmes in the past 5 school years.

- (3) The Moral, Civic and National Education (MCNE) Section is responsible for the planning and development of values education such as moral and civic education, national education (including Basic Law education), life education, sex education, anti-drug education, as well as environmental education. The establishment of the MCNE Section includes 9 curriculum development officers at various ranks in the 2014/15 school year as well as 10 curriculum development officers at various ranks from the 2012/13 to the 2013/14 school years and from the 2015/16 to the 2017/18 school years. Expenditures for the related curriculum development work of the MCNE Section which include provision of professional development programmes for school heads and teachers, production of learning and teaching resources, provision of learning activities for students, are subsumed under the recurrent expenditure of EDB. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the public funding for the ongoing curriculum development work undertaken by the MCNE Section.

## Notes:

- (1) Figures do not include special schools.
- (2) Figures refer to the position as at September 2016.
- (3) Figures include nursery, lower and upper classes in kindergartens (including kindergarten-cum-child care centres).
- (4) Figures on places do not include vacant classrooms and vacant child care centre portions.
- (5) As planning on pre-primary services is based on number of places instead of number of classes, information on operating classes is not available.

- Notes:
- (1) Figures do not include special schools.
  - (2) Figures refer to the position as at September 2016.
  - (3) Figures include nursery, lower and upper classes in kindergartens (including kindergarten-cum-child care centres).
  - (4) Figures on vacant places do not include vacant classrooms and vacant child care centre portions.
  - (5) Figures on number of vacant places, no matter at grade, district and territory-wide levels, are derived by deducting the number of students from the corresponding number of places. They reflect the net number of vacant places in individual districts/grades after off-setting by students over-enrolled in some schools of the districts concerned.

**Table 1: Number of Primary Schools by District and by Sector, 2016/17 School Year**

- Notes:
- (1) Figures do not include special schools. International schools include English Schools Foundation schools.
  - (2) Figures refer to the position as at September 2016.
  - (3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
  - (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.

- Notes:
- (1) Figures do not include special schools. International schools include English Schools Foundation schools.
  - (2) Figures refer to the position as at September 2016.
  - (3) Figures on number of vacant places, no matter at grade, district and territory-wide levels, are derived by deducting the number of students from the corresponding number of places. They reflect the net number of vacant places in individual districts/grades after off-setting by students over-enrolled in some schools of the districts concerned.

- Notes:
- (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include English Schools Foundation schools.
  - (2) Figures refer to the position as at September 2016.
  - (3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.
  - (4) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned.
  - (5) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from 2012/13 school year.

- Notes:
- (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses. International schools include English Schools Foundation schools.
  - (2) Figures refer to the position as at September 2016.
  - (3) Figures on number of vacant places, no matter at grade, district and territory-wide levels, are derived by deducting the number of students from the corresponding number of places. They reflect the net number of vacant places in individual districts/grades after off-setting by students over-enrolled in some schools of the districts concerned.
  - (4) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidised secondary 7 places under local curriculum starting from 2012/13 school year.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB512**

**(Question Serial No. 3594)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform us of all items with unspent provisions on education (including provisions for schools, student financial assistance, capital works and non-recurrent items, etc.), the amount returned to the Treasury in respect of each item and the percentage of its actual provision over estimated provision from 2012-13 to 2016-17 respectively.

Asked by: Hon IP Kin-yuen (Member Question No. 67)

Reply:

The breakdown of unspent provision on education from 2012-13 to 2016-17 by broad categories is provided in the **Annex**. In accordance with the established mechanism, unspent provision in the estimate automatically lapses after the close of the financial year.

## Education Expenditure in 2012-13 to 2016-17

**CONTROLLING OFFICER'S REPLY****EDB513****(Question Serial No. 3595)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide information about public primary and secondary schools by year from 2012/13 to 2016/17 school years:

(a) what were the numbers of classes and school places reduced due to class reduction and what were the savings involved?

(b) what were the numbers of schools and school places reduced due to school closure and what were the savings involved?

(c) what were the total numbers of classes and school places reduced as well as the total amounts of savings altogether in the above?

Asked by: Hon IP Kin-yuen (Member Question No. 68)

Reply:

The information on the number of classes and school places reduced, the number of schools closed as well as the savings involved in government and aided primary and secondary schools from the 2012/13 to the 2016/17 school years are as follows:

(a) The number of classes and school places reduced due to reduction of classes and the savings involved

School Year	Primary			Secondary			
	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)	
2012/13	No reduction of classes (with a net increase in the number of classes)			Not applicable (Note 2)			
2013/14				328	10 299	Not applicable (Note 3)	
2014/15				289	8 670		
2015/16				269	7 747		
2016/17				233	6 547		

(b) The number of classes and school places reduced due to school closure and the savings involved

School Year	Primary				Secondary			
	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)	No. of Schools Closed	No. of Classes Reduced	Estimated No. of School Places Reduced	Estimated Savings (\$million) (Note 1)
2012/13	1	3	82	4	1	5	164	5
2013/14	1	4	107	5	No school closure			
2014/15	No school closure							
2015/16					2	5	144	11
2016/17					No school closure			

(c) The total number of classes and school places reduced due to reduction of classes or school closure and the total savings involved

School Year	Primary			Secondary		
	Total No. of Classes Reduced	Total No. of Estimated School Places Reduced	Total Estimated Savings (\$million) (Note 1)	Total No. of Classes Reduced	Total No. of Estimated School Places Reduced	Total Estimated Savings (\$million) (Note 1)
2012/13	Not applicable (with a net increase in the number of classes)			Not applicable (Note 2)		
2013/14				328	10 299	Not applicable (Note 3)
2014/15				289	8 670	
2015/16				274	7 891	
2016/17				233	6 547	

Remark: Figures may not add up to the corresponding totals due to rounding.

Notes:

- Savings due to reduction of classes and school closure depend on a number of factors such as the number of operating classes, operation overheads and maintenance cost, etc. Unless a school is closed, there cannot be proportionate reduction in the overheads due to class reduction. In the case of school closure, the actual savings vary significantly between schools and have to be worked out on a school-by-school basis. The figures quoted represent a very crude assessment.
- In the “double cohort” year of 2011/12, there was an increase in the number of classes and expenditure in the public sector secondary schools due to the co-existence of the Secondary 6 and Secondary 7 students under the new and old academic structures respectively. With the phasing out of Secondary 7 classes in the 2012/13 school year, the total number of classes reduced. As such, it is misleading to compare the number of classes and school places reduced in the 2012/13 school year to the figures in the previous years and to estimate the consequential savings.
- The reduction of classes from the 2013/14 to 2016/17 school years is mainly due to the planned changes of class structure, especially for the schools joining the Voluntary Optimisation of Class Structure Scheme (the Scheme). Since the additional expenditure for the provision of the enhanced measures under the Scheme and the targeted relief measures for the public sector secondary schools is subsumed under the overall expenditure of EDB, the total estimated savings arising from the reduction of classes are not available.

**(Question Serial No. 3596)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Please provide the following information:

(a) Please give a breakdown of the number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more classes at Secondary 1 to Secondary 5 levels by the 18 school districts in the 4 school years from 2013/14 to 2016/17.

(b) Please give a breakdown of the total number of schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 classes in the 4 school years from 2013/14 to 2016/17.

(c) Since the implementation of the Voluntary Optimisation of Class Structure Scheme in the 2011/12 school year, how many schools have joined the Scheme? How many modes of class reduction are there (e.g. some schools reduce classes every other year)? What is the breakdown of the number of participating schools by mode of class reduction? What were the respective numbers of classes reduced for all class levels in secondary schools each year in the school years from 2013/14 to 2016/17? How many school places of Secondary 1 and/or class levels were reduced?

(d) The Government has implemented the Voluntary Optimisation of Class Structure Scheme to allow schools to freeze their teaching establishment for not more than 8 years. What were the increase in the number of teachers who had remained in the schools as a result of the freeze of teaching establishment and the cumulative total number of these teachers in the school years from 2012/13 to 2016/17?

(e) Please give a breakdown of the number of public secondary schools which operate Secondary 1 classes with a standard class size of 32, 33 or 34 or other class sizes (e.g. operating 3 classes totalling 51 students or operating 2 classes totalling 26 students) by the 18 school districts in the 2016/17 school year.

Asked by: Hon IP Kin-yuen (Member Question No. 69)

Reply:

(a) The number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 to Secondary 5 classes in the 18 school districts in the school years from 2013/14 to 2016/17 is set out at Appendices 1, 2, 3 and 4 respectively.

(b) The total number of aided and government secondary schools with 1, 2, 3, 4, 5, 6 and 7 or more Secondary 1 classes in the 4 school years from 2013/14 to 2016/17 are as follows:

School Year	Number of Schools with 1 Class	Number of Schools with 2 Classes	Number of Schools with 3 Classes	Number of Schools with 4 Classes	Number of Schools with 5 Classes	Number of Schools with 6 Classes	Number of Schools with 7 or more Classes
2013/14	1	7	47	296	30	4	1
2014/15	1	14	51	279	36	4	1
2015/16	1	18	52	281	29	4	1
2016/17	1	27	48	271	34	4	1

(c) As of the 2016/17 school year, there is a total of 220 schools in the Voluntary Optimisation of Class Structure Scheme (the Scheme). The number excludes 1 school which has joined the Direct Subsidy Scheme in the 2013/14 school year and is thus considered having left the Scheme.

There are generally 2 modes of class reduction in terms of the planned class structure a school would attain ultimately. Among the 220 schools joining the Scheme, 212 will attain a symmetrical class structure (i.e. same number of classes across Secondary 1 to Secondary 6 levels) and 8 will attain a cyclic symmetrical class structure (i.e. same number of classes at every other class level as a result of class reduction in every other school year).

The number of Secondary 1 classes reduced and estimated number of school places reduced under the Scheme in the 2013/14, 2014/15, 2015/16 and 2016/17 school years are as follows:

School Year	Number of Secondary 1 Classes Reduced	Estimated Number of Secondary 1 School Places Reduced <sup>Note</sup>
2013/14	217	6 814
2014/15	211	6 330
2015/16	218	6 278
2016/17	212	5 957

**Note:** The estimated number of Secondary 1 school places reduced is calculated by multiplying the number of classes reduced by the average class size of secondary schools. The average class sizes of secondary schools in the 2013/14, 2014/15, 2015/16 and 2016/17 school years are 31.4, 30, 28.8 and 28.1 respectively.

While the approved number of Secondary 1 classes after reduction will be carried forward to upper class levels, the Scheme does not require schools to reduce classes voluntarily in other class levels in the same school year. Thus, under the Scheme, the number of classes and school places reduced in class levels other than Secondary 1 is nil.

(d) Schools joining the Scheme are given a maximum quota of 6 teaching posts during the six-year transitional period. After the six-year transitional period, the teaching post quota will be withdrawn gradually over 3 years until the end of the Scheme. However, there is no such arrangement in the Scheme to allow schools to freeze their teaching staff establishment as depicted in the question asked. Hence, we are unable to provide the information related to the freezing of teaching staff establishment.

(e) The distribution of aided and government secondary schools by various average class size in the 18 school districts in the 2016/17 school year is set out at Appendix 5.

**CONTROLLING OFFICER'S REPLY**

**EDB515**

**(Question Serial No. 3612)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. For each of the school years between 2013/14 and 2015/16, how many days of sick leave (including sick leave due to work injuries) were taken by officers under the employment of the Education Bureau and teachers in government and aided primary and secondary schools in total? What was the subtotal of each category within the year? What was the average number of sick leave days taken?
2. For cases in which sick leave/sick leave due to work injuries was claimed, what were the minimum, average and maximum number of days claimed? What was the total expenditure on emoluments involved?

Asked by: Hon IP Kin-yuen (Member Question No. 74)

Reply:

1. The number of sick leave days and number of sick leave days related to injury on duty taken by all civil servants in the Bureau were 22 214 and 2 959 in 2013/14 school year, 24 120 and 2 439 in 2014/15 and 28 801 and 2 419 in 2015/16 respectively. For the above figures, the number of sick leave days and number of sick leave days related to injury on duty taken by teaching staff specifically in the three mentioned school years respectively were 11 414 and 2 546, 12 294 and 2 024 and 14 552 and 1 932. In view that not all staff have taken sick leave during the school years concerned and the duration of each sick leave varies, it would be misleading to compute the average, highest or lowest number of sick leave days taken on the basis of the total number of sick leave days taken. The Bureau does not have information on the sick leave taken by teachers in aided schools.
2. The Bureau does not have information on the salary expenditure in respect of the sick leave taken by Government or aided school teachers.

Question:

At present, how many funds and scholarship schemes are available under the various authorities (such as the Education Bureau, the Student Financial Assistance Agency and the University Grants Committee) administered by the Secretary for Education? Please give a breakdown of these funds and scholarship schemes by the year of establishment, aim and assessor as well as the balance, income, expenditure and number of beneficiaries in each of the past 5 years (from 2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 87)

Reply:

Information on the scholarship schemes and funds under the purview of the Education Bureau and scholarship schemes with secretariat support from the Working Family and Student Financial Assistance Agency (WFSFAA) and the Research Grants Council under the aegis of the University Grants Committee are provided in the following tables. In addition to the scholarship funds listed below, WFSFAA also provided advice to a number of private and/or statutory scholarship funds like the Sir Robert Black Trust Fund and the Grantham Scholarships Fund.

**Scholarships under the Purview of the Education Bureau and Scholarships with Secretarial Support from the Working Family and Student Financial Assistance Agency and the Research Grants Council**

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School / Academic Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Education Scholarships Fund	1956	A total of 181 scholarships have been established under the Fund, with the aim of giving due recognition to meritorious students from primary to tertiary levels.  (Note : Distribution of new awards have been suspended for majority of the scholarship schemes in 2012/13, 2014/15, 2015/16 and 2016/17 because the surplus of the Fund has been insufficient to cover the disbursement of another round of new awards. Most awards distributed in those four years were renewal awards.)	Distributed according to the terms and conditions set by individual donors. Most recipients are nominated by schools and institutions, while the rest are based on the results of the best performers at public examinations. The nominations / recommendations are then endorsed by the Education Scholarships Fund Committee.	2012/13 <sup>1</sup>	0.66	0.08	0.09	93
				2013/14 <sup>1</sup>	0.49	0.08	0.25	490
				2014/15 <sup>1</sup>	0.50	0.08	0.07	87
				2015/16 <sup>1</sup>	0.51	0.07	0.06	69
				2016/17 <sup>1,2</sup>	0.52	0.07	0.06	61

<sup>1</sup> The balance excludes capital of \$5.83 million which cannot be used for disbursement of awards.

<sup>2</sup> Estimates for 2016/17.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School / Academic Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
HKSAR Government Scholarship Fund	2008	To attract outstanding local and non-local students to pursue publicly-funded higher education in Hong Kong and to stay in Hong Kong after graduation;  To recognise the achievements of outstanding local and non-local students, with a view to attracting them to stay in Hong Kong after graduation; and  To promote the further development of Hong Kong as a regional education hub and enhance Hong Kong's competitiveness in the long run.	Participating institutions <sup>3</sup> according to the stipulated selection criteria of the Fund and Steering Committee of the Fund	2012/13 <sup>4</sup>	2,313	62	74	2 837
				2013/14	2,432	214	95	4 075
				2014/15	2,262	(68)	102	4 546
				2015/16	2,282	124	104	4 762
				2016/17 <sup>5</sup>	2,217	40	105	4 800 <sup>6</sup>

<sup>3</sup> Participating institutions of the HKSAR Government Scholarship Fund are the eight University Grants Committee-funded universities (i.e. City University of Hong Kong, Hong Kong Baptist University, Lingnan University, the Chinese University of Hong Kong, the Education University of Hong Kong, the Hong Kong Polytechnic University, the Hong Kong University of Science and Technology, and the University of Hong Kong), the Hong Kong Academy for Performing Arts, and the Vocational Training Council.

<sup>4</sup> Including an injection of \$20 million in 2012/13.

<sup>5</sup> Estimates for 2016/17. Given market volatility, no gain or loss on disposal or revaluation of investments in securities has been included in the estimated income and fund balance.

<sup>6</sup> The above figure covers the recipients of the HKSAR Government Scholarship Scheme, Targeted Scholarship Scheme and Endeavour Merit Award and estimated figures for Talent Development Scholarship (TDS) and Reaching Out Award (ROA) which are still under processing by institutions for 2016/17.

Name of Scholarship/ Fund	Year of Establishment	Aims	Assessors	School / Academic Year	Balance (\$ million)	Income (\$ million)	Expenditure (\$ million)	Number of beneficiaries
Hong Kong PhD Fellowship Scheme	2009	To attract the best and brightest students in the world to pursue PhD programmes in the University Grants Committee-funded universities in Hong Kong.	Applications are made to the Research Grants Council. Individual University Grants Committee-funded universities may conduct interviews with applicants where necessary. Two Selection Panels of the Scheme are formed by the Research. Grants Council, and shortlisted applications, subject to their areas of studies, will be reviewed by one of the two Selection Panels with experts in the relevant broad areas.	2012/13 <sup>7</sup>	-	96.8	96.8	387 <sup>8</sup>
				2013/14 <sup>7</sup>	-	105.5	105.5	422 <sup>8</sup>
				2014/15 <sup>7</sup>	-	129.8	129.8	519 <sup>8</sup>

Question:

Please provide the number of students enrolled in year one of the following programmes in the past 5 years (2012/13 to 2016/17):

- (1) University Grants Committee-funded degree programmes;
- (2) Government-funded sub-degree programmes;
- (3) Self-financing degree programmes; and
- (4) Self-financing sub-degree programmes.

Asked by: Hon IP Kin-yuen (Member Question No. 91)

Reply:

The number of intakes of University Grants Committee (UGC)-funded sub-degree and first-year-first-degree programmes from the 2012/13 to 2016/17 academic years is set out at **Annex A**. The number of intakes of full-time locally-accredited non-UGC-funded sub-degree and first-year-first-degree programmes from the 2012/13 to 2016/17 academic years is set out at **Annex B**.

**Intakes of UGC-funded Sub-degree and First-Year-First-Degree Programmes  
from the 2012/13 to 2016/17 Academic Years**

(Headcount)

<b>Academic Year</b>	<b>Sub-degree</b>	<b>First-year-first-degree</b>
2012/13	2 651	33 073
2013/14	2 224	17 089
2014/15	2 078	17 309
2015/16	2 056	17 410
2016/17 (provisional)	1 947	17 826

**Note:**

To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of students under the old and new academic structures in the 2012/13 academic year.

**Intakes of Full-time Locally-accredited Non-UGC-funded  
Sub-degree and First-Year-First-Degree Programmes  
from the 2012/13 to 2016/17 Academic Years**

(Headcount)

<b>Academic Year</b>	<b>Vocational Training Council's Subvented Sub-degree</b>	<b>Self-financing Sub-degree</b>	<b>Non-UGC-funded First-year-first-degree</b>
2012/13	7 363	30 099	7 101
2013/14	8 897	21 359	6 291
2014/15	10 449	19 758	7 361
2015/16	10 755	19 655	6 854
2016/17 (provisional)	10 800	19 429	6 335

**Note:**

To tie in with the implementation of the new academic structure, non-UGC-funded post-secondary institutions admitted two cohorts of students under the old and new academic structures in the 2012/13 academic year. Figures include those for Study Subsidy Scheme for Designated Professions/Sectors with effect from the 2015/16 academic year.

Director of Bureau: Secretary for Education

Question:

1. What were the actual expenditures of the Committee on Self-financing Post-secondary Education, the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee in the past 5 years (2012-13 to 2016-17) and what were the estimates for 2016/17?
2. How many programmes were assessed by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications, the Quality Assurance Council and the Joint Quality Review Committee respectively in the past 5 years (2012/13 to 2016/17)? How many programmes were found not up to the standard?

Asked by: Hon IP Kin-yuen (Member Question No. 92)

Reply:

- (a) The Committee on Self-financing Post-secondary Education (CSPE) is established to advise the Government on the development of the self-financing post-secondary education sector. The Education Bureau (EDB) provides secretariat support to CSPE and the secretariat posts are part of EDB's establishment. The service of these posts to CSPE is part and parcel of the officers' duties for the relevant subject areas. The related expenditure of the secretariat posts could not be identified separately as they are absorbed by the existing resources of EDB.

The Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) is established under the HKCAAVQ Ordinance (Cap. 1150) to provide accreditation and assessment services for academic and vocational qualifications. It is responsible for the quality assurance of all operators and programmes except the University Grants Committee (UGC)-funded universities with self-accrediting status. HKCAAVQ is a self-financed body and does not receive recurrent subvention from the Government.

Being a statutory body, HKCAAVQ's annual report is tabled at the Legislative Council every year in accordance with the HKCAAVQ Ordinance. The actual expenditures of HKCAAVQ in the past five years from 2012-13 to 2016-17 and the estimated expenditure for 2017-18 are as follows –

2012-13	2013-14	2014-15	2015-16	2016-17 (As at end February 2017)	2017-18 (Estimate)
(\$ million)					
65.7	72.2	79.8	89.4	81.2	91.2

The Quality Assurance Council (QAC), established under the aegis of UGC, aims to assure that the quality of educational experience in programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

The actual expenditures of QAC in the past five years from the 2012-13 to 2016-17 and the estimated expenditure for 2017-18 are as follows –

2012-13	2013-14	2014-15	2015-16	2016-17 (As at end February 2017)	2017-18 (Estimate)
(\$ million)					
0.7	0.4	0.8	1.4	0.99	2.2

The expenditure of QAC mainly includes expenses for air passage, accommodation, as well as per-diem allowance of QAC members and auditors who are not based in Hong Kong. The higher actual/estimated expenditures in 2015-16, 2016-17 and 2017-18 are mainly due to the audit activities conducted for the second round of QAC quality audits in 2015 and 2016 as well as the audit activities for the sub-degree operations of UGC-funded universities which will commence in 2017. The increase in non-local Audit Panel members for quality audits on sub-degree operations as compared with the second round of quality audits has also resulted in a rise in the estimated expenditure for 2017-18. QAC members and auditors who are not based in Hong Kong receive honoraria for their participation in the QAC/audit activities. The rates of honoraria, which are reviewed according to the rates of civil service salary adjustments, ranged from \$77,350 to \$93,100 for QAC members annually and \$42,050 to \$51,450 for QAC auditors over the period from 2012-13 to 2016-17.

Since 2016, UGC has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of UGC-funded universities, with the involvement of QAC as the audit operator. In this connection, the former Joint Quality Review Committee (JQRC), which was established by the Heads of Universities Committee to provide peer review of the quality assurance processes of self-financing sub-degree programmes offered by UGC-funded universities, has ceased operation in 2016. The Government did not provide any funding to JQRC and has no information about their annual expenditure.

- (b) HKCAAVQ is empowered under the HKCAAVQ Ordinance to conduct accreditation for academic and vocational programmes. In the past five years from 2012-13 to 2016-17, the number of programmes accredited/re-accredited, as well as those not approved by HKCAAVQ are as follows –

Number of Programmes	Financial Year				
	2012-13	2013-14	2014-15	2015-16	2016-17 (As at end February 2017)
<b>Accredited/ Re-accredited</b> <sup>Note</sup>	184	218	536	293	228
<b>Not approved</b> <sup>Note</sup>	2	4	0	2	0

HKCAAVQ spares no effort in making operators aware of the accreditation requirements in order to facilitate self-evaluation of their readiness to undergo accreditation. Operators are alerted early in the accreditation process should they be unable to demonstrate sufficient evidence to meet the required accreditation standards. Operators would have chosen not to proceed with the accreditation exercise if the chance of successful accreditation is considered slim. Therefore, the number of unsuccessful accreditation exercise is small.

Note: Figures include accredited and re-accredited local and non-local programmes but do not include programmes covered by Programme Area Accreditation (PAA). PAA allows providers to develop and operate learning programmes within an approved scope of programme area(s) at specified

Qualifications Framework Level(s) for an approved period of time, and have the qualifications of its learning programmes entered into the Qualifications Register (QR) without going through learning programme accreditation or re-accreditation by HKCAAVQ.

On the other hand, the former JQRC endorsed self-financing sub-degree programmes of UGC-funded universities for the purpose of registration on QR. It should be noted that both JQRC and QAC did/do not accredit individual programmes of UGC-funded universities as these universities already have self-accrediting status. As the former JQRC has ceased operation in 2016, only the number of self-financing sub-degree programmes endorsed/re-endorsed from 2012-13 to 2014-15, as well as those not endorsed/re-endorsed for registration on QR are available and they are as follows –

Number of Programmes	Financial Year				
	2012-13	2013-14	2014-15	2015-16	2016-17
<b>Endorsed / Re-endorsed</b>	416	114	400	Not available	Not available
<b>Not Endorsed / Not Re-endorsed</b>	26	6	21	Not available	Not available

- End -

Question:

(1) Government has introduced a number of measures to boost the standard of the sector. Please provide the amount of public funds used by each of the following in the past 5 years (2012/13 to 2016/17):

- (a) Land Grant Scheme;
- (b) Start-up Loan Scheme;
- (c) Quality Enhancement Grant Scheme;
- (d) Self-financing Post-secondary Education Fund;
- (e) Qualifications Framework Support Schemes and Qualifications Framework Fund;
- (f) Matching Grant Scheme;
- (g) Research Endowment Fund; and
- (h) means-tested and non-means tested assistance for post-secondary students of the self-financing sector.

(2) Please set out in detail the number of applications received, the approval granted, the amount of loans awarded and the repayment dates under the Start-up Loan Scheme in the past 5 years (2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 93)

Reply:

- 1(a) Under the Land Grant Scheme, land sites and vacant Government premises are allocated at nominal premium and leased at nominal rent respectively to non-profit-making institutions for operation of full-time and/or part-time locally-accredited self-financing post-secondary programmes. From the 2012/13 to 2016/17 academic year, three land sites and three vacant Government premises were allocated.
- 1(b) Under the Start-up Loan Scheme (SLS), interest-free loans are provided for non-profit-making self-financing post-secondary institutions to develop new college premises and/or re-provision existing premises operating in sub-optimal environment. The loan disbursement from the 2012/13 to 2016/17 academic year is as follows -

<b>Academic Year</b>	<b>Amount of Loans disbursed under SLS (\$ million)</b>
2012/13	94.0
2013/14	1,259.8
2014/15	902.7
2015/16	295.3
2016/17 (Estimate)	203
<b>Total</b>	<b>2,754.8</b>

- 1(c) The Quality Enhancement Grant Scheme (QEGS) was implemented from the 2008/09 to 2010/11 academic year to support projects dedicated to enhancing the quality of teaching and learning of self-financing post-secondary programmes. 65 projects, involving a total grant of \$99.4 million, were completed by the 2014/15 academic year. Having regard to the success of the QEGS, the Quality Enhancement Support Scheme (QESS) under the Self-financing Post-secondary Education Fund (SPEF) was launched in November 2012 to continue supporting the enhancement of quality of teaching and learning.
- 1(d) SPEF has been set up since the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector and further enhance Hong Kong's status as a regional education hub. SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes under the Self-financing Post-secondary Scholarship Scheme (SPSS) as well as supports quality enhancement projects by institutions under QESS.

The amount of scholarships and awards given out under SPSS and grants approved under QESS from the 2012/13 to 2016/17 academic years are set out as follows –

<b>Academic Year</b>	<b>Amount of Scholarships and Awards Given out under SPSS (\$ million)</b>	<b>Amount of Grants Approved under QESS (\$ million)</b>
2012/13	56.0	73.7
2013/14	67.3	22.9
2014/15	71.7	41.6
2015/16	76.8	47.6
2016/17 (Estimate)	79.9	Note

Note: The 2016/17 round of application is under processing.

- 1(e) The Qualifications Framework (QF) Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of QF. Since it takes time for the QF Fund to generate and accumulate sufficient investment income to meet the funding requirements, the balance of the approved commitment for QF Support Schemes (QFSS) will continue to be used for meeting the cash flow requirements of the various initiatives under the QF Fund for the time being. The amount of subsidies disbursed under the approved commitment of QFSS from 2012-13 to 2016-17 is as follows -

<b>Financial Year</b>	<b>Amount of subsidies disbursed under QFSS (\$ million)</b>
2012-13	28.5
2013-14	15.2
2014-15	22.5
2015-16	40.0
2016-17 (as at end February 2017)	43.4
<b>Total</b>	<b>149.6</b>

- 1(f) The Government launched six rounds of Matching Grant Scheme (the Scheme) from 2003 to 2014 (the first five rounds covered the period from July 2003 to March 2011, and the sixth round from August 2012 to July 2014) in order to help the higher education sector diversify its funding sources. Starting from the fourth round, self-financing degree-awarding institutions had been included in the Scheme. The Scheme was further extended to cover all statutory post-secondary institutions and approved post-secondary colleges in the sixth round, which ended in July 2014, for the benefit of students of both publicly-funded and self-financing locally-accredited programmes at sub-degree level

or above in these institutions. From the 2012/13 to 2016/17 academic year (under the sixth round of the Scheme), a total of \$385 million of grants was allocated to self-financing operations of publicly-funded institutions, statutory post-secondary institutions and approved post-secondary colleges under the Scheme.

- 1(g) Under the Research Endowment Fund, the competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The funding awarded from the 2014/15 to 2016/17 academic year is as follows –

Academic Year	Amount Awarded (\$ million)
2014/15	103.0
2015/16	86.3
2016/17 <sup>Note 1</sup>	82.9
Total <sup>Note 2</sup>	<b>272.3</b>

Note 1: Position as at end February 2017.

Note 2: Figures may not add up to the total due to rounding.

- 1(h) The Financial Assistance Scheme for Post-secondary Students (FASP) provides means-tested grant and/or loan to eligible full-time students pursuing locally-accredited, self-financing post-secondary education programmes at sub-degree or degree level. The Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) provides non-means-tested loan to students pursuing programmes covered under FASP. The amount of assistance disbursed under the two schemes from the 2012/13 to 2016/17 academic year is as follows –

	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
<b>FASP</b>					
Amount of grant disbursed (\$ million)	1,226	1,187	1,106	1,106	791
Amount of loan disbursed (\$ million)	267	231	200	180	105

<b>Total (\$ million)#</b>	<b><u>2,082</u></b>	<b><u>2,069</u></b>	<b><u>2,015</u></b>	<b><u>2,078</u></b>	<b><u>1,529</u></b>

\* As at 31 January 2017

# Figures may not add up to the corresponding total due to rounding.

2. From the 2012/13 to 2016/17 academic year, a total of 21 start-up loan applications were received under SLS. Among them, 16 applications were not processed further as the institutions concerned did not successfully apply under the Land Grant Scheme for the land sites or vacant Government premises on which the construction or renovation projects needed to be financed; or some of them were withdrawn by the institutions concerned or found ineligible after submission. At last, four applications were approved with a total loan amount of \$1,082.5 million and one application is still under processing. The details of the four approved loans are set out below –

Academic Year	Successful Applicant	Loan Amount (\$ million)	Date of Final Loan Repayment <sup>Note</sup>
2012/13	Hong Kong Arts Centre (for Hong Kong Art School)	2.5	January 2024
	Hang Seng School of Commerce	800	September 2026

<b>Academic Year</b>	<b>Successful Applicant</b>	<b>Loan Amount (\$ million)</b>	<b>Date of Final Loan Repayment<sup>Note</sup></b>
	(for Hang Seng Management College)		
2013/14	HKCT Group Limited (for Hong Kong College of Technology and HKCT Institute of Higher Education)	30	October 2025
2014/15	Chu Hai College of Higher Education	250	Subject to date of final drawdown
<b>Total</b>		<b>1,082.5</b>	

Note: Loans granted under SLS should be repaid by equal instalments over 10 years from the date of the final drawdown, save for cases where approval has been granted for extending the loan repayment period from 10 years to 20 years, subject to the payment of interest at the no-gain-no-loss rate after the interest-free period of the first 10 years.

**CONTROLLING OFFICER'S REPLY****EDB520****(Question Serial No. 3633)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

The Government launched the Study Subsidy Scheme for Designated Professions/Sectors since 2015/16 academic year to subsidise around 1 000 students per cohort to pursue designated self-financing undergraduate programmes. Please provide information of the programmes using the table below.

Programme names	Course providers	Total number of intakes (irrespective of whether they are receiving subsidy or not)		Number of subsidised places		Annual tuition fee		Tuition fee rise % (over last academic year)	
		2015/16 academic year	2016/17 academic year	2015/16 academic year	2016/17 academic year	2015/16 academic year	2016/17 academic year	2015/16 academic year	2016/17 academic year

Asked by: Hon IP Kin-yuen (Member Question No. 94)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

The list of selected programmes and relevant institutions, number of subsidised places, actual intakes, average annual tuition fee (before deduction of subsidy) and the change in the average annual tuition fee for each programme for the cohorts admitted in the 2015/16 and 2016/17 academic years are set out at Annex.

**CONTROLLING OFFICER'S REPLY****EDB521****(Question Serial No. 3635)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not specified

**Programme:** (7) Post-secondary, Vocational and Professional Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

(1) From the 2012/13 to 2016-17 school years, how many non-local programmes were registered or exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance? How many institutions and countries are involved?

(2) From the 2012/13 to 2016-17 school years, how many non-local programmes that were previously registered or exempted from registration under the Non-local Higher and Professional Education (Regulation) Ordinance became disqualified? How many institutions and countries are involved?

(3) From the 2012/13 to 2016-17 school years, how many complaints were received by the Education Bureau in respect of the Non-local Higher and Professional Education (Regulation) Ordinance? How many of them were substantiated? What follow-up actions were taken?

**Asked by:** Hon IP Kin-yuen (Member Question No. 96)

**Reply:**

(1) The numbers of non-local registered courses and exempted courses, and non-local institutions and countries/regions concerned from 2012/13 to 2016/17 academic years are set out below:

	Academic Year									
	2012/13		2013/14		2014/15		2015/16		2016/17 <sup>Note 1</sup>	
	Registered Course	Exempted Course	Registered Course	Exempted Course						
<b>Number of Registered/ Exempted Courses (as at 31 August)</b>	461	693	466	722	450	727	444	701	438 <sup>Note 1</sup>	665 <sup>Note 1</sup>
<b>Number of Non-local Institutions</b>	126	67	127	71	115	70	111	72	112	64
<b>Number of Countries/ Regions</b>	12	7	12	7	11	7	12	6	12	6

Note 1: Information up to 28 February 2017.

(2) The numbers of non-local courses having registration/exemption cancelled, and non-local institutions and countries/regions concerned from 2012/13 to 2016/17 academic years are set out below:

	Academic Year									
	2012/13		2013/14		2014/15		2015/16		2016/17 <sup>Note1</sup>	
	Registered Course	Exempted Course	Registered Course	Exempted Course						
<b>Number of Courses Cancelled</b> <small>Note2</small>	53	60	36	17	65	38	53	58	30	43
<b>Number of Non-local Institutions</b>	33	25	24	7	32	14	30	19	15	16
<b>Number of Countries/Regions</b>	4	5	6	2	7	3	5	3	4	4

Note 1: Information up to 28 February 2017.

Note 2: The request for cancellation of all the courses was initiated by the operators or non-local institutions, except one case which was initiated by EDB in 2016/17 when the non-local institution no longer met the registration criterion of being a recognised institution.

(3) The number of complaints received concerning the Non-local Higher and Professional Education (Regulation) Ordinance, Cap. 493 (the Ordinance) and the results of investigation and follow up actions are listed below:

	Academic Year									
	2012/13		2013/14		2014/15		2015/16		2016/17 <sup>Note1</sup>	
<b>Number of complaints received</b>	5		4		4		4		0	
<b>Results and Follow-up actions</b>	Number of cases	Results and Action <small>Note2</small>	Number of cases	Results and Action <small>Note2</small>						
	2	A	1	A	2	A	1	C		
	1	C	1	B	1	B	2	F		
	2	D	1	C	1	F	1	G		
			1	E						

Note 1: Information up to 28 February 2017.

Note 2: Explanations to the classifications are as follows:

- A: The complaints were found substantiated and the operators concerned were issued with reminders to follow the necessary requirements.
- B: The complaints were found not substantiated.
- C: The complainants withdrew the complaints or could not be contacted for necessary information.
- D: The complaints were found substantiated and the operators concerned were issued with warnings that prosecution might be initiated without any notice if further violation of the Ordinance was found.
- E: The complaint was found substantiated and prosecution was made.
- F: The complaints were referred to enforcement department for actions.
- G: The complaint concerned a case that happened almost 10 years ago. Since the prosecution time limit as stated under the Ordinance had expired, no action could be taken.

- End -

Question:

1. Please provide a breakdown by department and programme the intakes and actual intakes of funded degree and sub-degree programmes offered by the University Grants Committee (UGC)-funded institutions in the past 5 years (i.e. 2012/13 to 2016/17 academic years).
2. Please provide a breakdown by department and programme the intakes and actual intakes of self-financing degree and sub-degree programmes offered by the self-financing operations of UGC-funded institutions in the past 5 years (i.e. 2012/13 to 2016/17 academic years).
3. Please provide a breakdown by department and programme the intakes and actual intakes of self-financing degree and sub-degree programmes offered by self-financing institutions (under non-UGC-funded institutions) in the past 5 years (i.e. 2012/13 to 2016/17 academic years).

Asked by: Hon IP Kin-yuen (Member Question No. 97)

Reply:

1  
The approved student number targets and student enrolment of the University Grants Committee (UGC)-funded sub-degree and undergraduate programmes by university and broad academic programme category (APC) for the 2012/13 to 2016/17 academic years are at **Annex A and B**. There is no breakdown by department or programme.

2 & 3

The number of estimated intakes and actual intakes of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes from the 2012/13 to 2016/17 academic years offered by the self-financing operations of UGC-funded institutions is set out at **Annex C** and those offered by non-UGC-funded institutions is set out at **Annex D**. We do not have breakdown by department or programme.

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

2. '-' denotes nil.

3. Abbreviations:

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. <sup>&</sup>To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic years.
3. '-' denotes nil.
4. Abbreviations:

CityU	City University of Hong Kong

**Notes:**

[1] Includes sub-degree programmes provided under the old academic structure.

[2] Figures include subsidised places under the "Study Subsidy Scheme for Designated Professions/Sectors".

[3] The estimated intakes for full-time and part-time sub-degree programmes under the Hong Kong Art School in the 2012/13 academic year was 85. In view of the demand for full-time sub-degree places, there were no student intakes for part-time programmes.

"-" Denotes no relevant programmes were offered.

The figures are based on institutions' estimates for planning purpose and do not necessarily mean the maximum approved intakes.

**Actual Intakes of Full-time Locally-accredited Self-financing Sub-degree, First-year-first-degree and Top-up Degree Programmes Offered by Non-UGC-Institutions by Institution from the 2012/13 to 2016/17 Academic Years**

**CONTROLLING OFFICER'S REPLY****EDB523****(Question Serial No. 3639)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

- (a) the measures implemented for New Senior Secondary Applied Learning and the details of the provisions involved in the 5 school years from 2012/13 to 2016/17;
- (b) the number of schools offering New Senior Secondary Applied Learning courses, the number of courses offered, the student applications by level, the total number of students taking Applied Learning courses and the amount of subsidy provided by the Government from 2012/13 to 2016/17;
- (c) a breakdown of the number of schools offering Applied Learning courses and the student applications for each of the 18 course clusters under the 7 areas of studies from 2012/13 to 2016/17; and
- (d) the measures implemented for Other Learning Experiences under the New Senior Secondary academic structure and the details of the provisions involved in the 5 school years from 2012/13 to 2016/17.

Asked by: Hon IP Kin-yuen (Member Question No. 100)

Reply:

(a) The Senior Secondary Applied Learning (ApL) has been implemented since the 2010/11 school year. The Education Bureau supports schools through providing an implementation handbook and prospectus, briefing sessions and professional development programmes, organising course exhibitions and making arrangements for taster programmes with a view to enabling students to have informed choices when choosing ApL. An E-system has also been developed to facilitate the application process and implementation in schools. In addition, the Government provides the Diversity Learning Grant and the Student Grant for Applied Learning Chinese (for non-Chinese speaking students) (ApL(C)) to support secondary schools in offering ApL and ApL(C) courses respectively. As stated in the 2016 Policy Address, the Government has accepted all the recommendations of the Task Force on Promotion of Vocational Education. To this end, full subsidy has been provided for students to take ApL courses effective from the 2016/17 school year. The amount of Diversity Learning Grant and the amount of Student Grant for ApL(C) from the 2012/13 to 2016/17 school year are as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17
Diversity Learning Grant (\$ million)	49	51	50	48	64
Student Grant for ApL(C) (\$ million)	NA	NA	2	4	7

(b) Each cohort of ApL courses lasts for 2 years and ApL(C) courses lasts for 3 years. From the 2012/13 to 2016/17 school year, 6 cohorts of ApL courses (2011-13, 2012-14, 2013-15, 2014-16, 2015-17 and 2016-18 cohorts) have been offered to students. The number of schools offering Senior Secondary ApL courses, the number of courses offered, the number of student applications, the total number of students taking ApL courses and the amount of subsidy provided by the Government are as follows:

Cohort	2011-13	2012-14	2013-15	2014-16	2015-17	2016-18
No. of schools offering Senior Secondary ApL courses	298	318	315	316	327	339
No. of courses offered	35	35	37	36	40	36
No. of student applications (Note: in general, student can only apply to start at S4 (for ApL(C)) and S5 (for ApL), application by level is thus not applicable.)	10 139	10 254	8 649	8 086	7 320	8 609
No. of students taking ApL courses	6 061	5 782	5 047	4 791	4 506	4 992

The amount of subsidy (Diversity Learning Grant and Student Grant for ApL(C)) provided by the Government from the 2012/13 to 2016/17 school year is as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17
Diversity Learning Grant (\$ million)	49	51	50	48	64
Student Grant for ApL(C)) (\$ million)	NA	NA	2	4	7

(c) The breakdown of the number of schools offering ApL courses and the student applications for each of the course clusters under 6 areas of studies and ApL(C) from the 2012/13 to 2016/17 school year are as follows:

Number of schools offering ApL courses:

Area of studies	Course Clusters	2011-13 Cohort	2012-14 Cohort	2013-15 Cohort	2014-16 Cohort	2015-17 Cohort	2016-18 Cohort

(d) Other Learning Experiences (OLE) have been implemented since the 2009/10 school year as an integral part of the new senior secondary (NSS) curriculum. Under the new recommendations for fine-tuning the NSS curriculum and assessment made in April 2013, schools could flexibly deploy 10% to 15% of the total curriculum time inside and outside normal school hours to OLE activities, which help students develop positive values and key generic skills to promote whole-person development. Schools have deployed existing resources (e.g. operation funds) to implement their school-based OLE.

While most OLE activities are available for free, e.g. career talks and sports days, schools are advised to consider the affordability of fee-incurring programmes to students with lower socio-economic backgrounds. To help financially needy students to participate in some OLE activities, schools are making good use of existing resources (e.g. Operating Expenses Block Grant) and schemes (e.g. Hong Kong Jockey Club Life-wide Learning Fund, School-based After-school Learning and Support Programmes) to ensure that all students have equal access to these programmes and activities.

Preparatory work to ensure a smooth launching of OLE had commenced prior to its actual implementation in the 2009/10 school year. The Education Bureau has supported schools to implement OLE through facilitating the sharing of good practices among teachers, developing electronic tools for the Student Learning Profile, making arrangements for career-related and community service projects for students, and organising professional development programmes for teachers. The expenditure in the 5 school years from 2012/13 to 2016/17 is summarised below:

Expenditure for 2012/13 (\$ million)	Expenditure for 2013/14 (\$ million)	Expenditure for 2014/15 (\$ million)	Expenditure for 2015/16 (\$ million)	Expenditure for 2016/17 (\$ million)
0.73	0.37	0.02	0.29	0.26

**EDB524**

**(Question Serial No. 3640)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

In regard to the support received by students and respective training programmes attended by teachers for integrated education (IE), please provide information for the past 5 years (2012/13 to 2016/17 school years):

- (a) the number of students with special educational needs (SEN) in mainstream primary and secondary schools by stage, grade level, SEN type, and tier of support;
- (b) the respective percentage share of students with SEN studying in mainstream schools in the total number of students with SEN and their percentage share in the total expenditure involved by SEN type and tier of support; and
- (c) the annual number of primary and secondary school teachers who have completed the basic, advanced and thematic (BAT) courses and the details of expenditure by course type.

Asked by: Hon IP Kin-yuen (Member Question No. 101)

Reply:

(a) and (b)

All schools are requested to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their support needs. To help schools cater for their students with SEN, the Education Bureau (EDB) has been providing public sector schools with additional resources, professional support and teacher training.

The number of students with SEN studying in public sector mainstream primary and secondary schools by grade levels and by SEN types for the past 5 years (2012/13 to 2016/17 school years) is set out at Appendix 1. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Based on the Learning Support Grant (LSG) data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support from the 2012/13 to 2016/17 school years is set out at Appendix 2.

The percentage share of students with SEN in the total number of students with SEN by SEN types in the same period is tabulated at Appendix 3.

The expenditure on additional support and services provided for students with SEN in mainstream schools on top of the regular subvention for all mainstream schools from the 2012/13 to 2016/17 school years is as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17 (Revised Estimate)
Expenditure (\$ million)	1,009	1,075	1,222	1,310	1,417

It should be noted that schools are required to deploy their resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Besides, some expenditure items are on services for students with SEN irrespective of the types of SEN or tiers of support (e.g. teacher training and psychological support services). Hence, we are not able to provide the breakdown of the expenditure by different types of SEN or tiers of support of the students.

(c)

EDB launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream school teachers having completed the BAT Courses from the 2012/13 to 2016/17 school years is as follows:

Course	2012/13 (Actual)		2013/14 (Actual)		2014/15 (Actual)		2015/16 (Actual)		2016/17 (Provisional)	
	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	120	339	215	356	215	295	221	364	255	445

**(Question Serial No. 3641)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information:

1. The recurrent public expenditure and total public expenditure on education and their respective percentage shares in the Gross Domestic Product (GDP).
2. The recurrent expenditure and total expenditure on kindergarten education and their respective percentage shares in the GDP.
3. The recurrent expenditure and total expenditure of the various types of primary schools and their respective percentage shares in the GDP? And what are the respective school fees of the Direct Subsidy Scheme (DSS) schools and international schools?
4. The recurrent expenditure and total expenditure of the various types of secondary schools and their respective percentage shares in the GDP? And what are the respective school fees of the Direct Subsidy Scheme (DSS) schools and international schools?
5. With regard to sub-degree places, what is the expenditure of subsidised places paid by public money and what are the bursaries offered by the Student Financial Assistance Scheme? What are the tuition fees paid by students for subsidised sub-degree places and self-financing sub-degree places respectively?
6. As for university education, what are the respective expenditures of subsidised degree places, taught postgraduate courses and research postgraduate courses paid by public money? What are the respective bursaries offered by the Student Financial Assistance Scheme? What are the tuition fees paid by students for subsidised degree places and for self-financing degree places respectively?

Asked by: Hon IP Kin-yuen (Member Question No. 102)

Reply:

1 The information required for expenditure on education is as follows -

	2017-18 Estimate	
	\$ million	as % of GDP
Recurrent public expenditure on education	78,627	3.0
Total public expenditure on education	87,516	3.4

2 The information required for pre-primary education is as follows -

	2017-18 Estimate	
	\$ million	as % of GDP
Recurrent expenditure	5,964	0.23
Total expenditure	5,965	0.23

3 & 4 The information required for primary and secondary education is as follows -

Expenditure

	2017-18 Estimate	
	\$ million	as % of GDP
<b>Primary education</b>		
Recurrent expenditure	17,668	0.68
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government primary schools	1,209	
--- Aided primary schools	14,654	
--- English Schools Foundation Junior Schools	92	
--- Primary schools under the Direct Subsidy Scheme	878	
Total expenditure	19,017	0.73

	2017-18 Estimate	
	\$ million	as % of GDP
<b>Secondary education</b>		
Recurrent expenditure	26,162	1.01
-- Out of the above recurrent expenditure, funding allocated to various types of schools includes:-		
--- Government secondary schools	1,592	
--- Aided secondary schools	20,353	
--- Caput schools	95	
--- English Schools Foundation Secondary Schools	172	
--- Secondary schools under the Direct Subsidy Scheme	3,110	
Total expenditure	27,415	1.05

Recurrent expenditure on education for the respective education levels covers recurrent provision to schools as well as student financial assistance to students under various schemes administered by the Working Family and Student Financial Assistance Agency.

Total expenditure on education for the respective education levels comprises recurrent expenditure, non-recurrent and capital expenditure under General Revenue Account, capital expenditure under Capital Works Reserve Fund (CWRF) (mainly for capital works projects) and Loan Fund. Total expenditure by school type for primary and secondary education is not available as some projects under CWRF cannot be classified by types of schools, such as feasibility study and site investigation for vacant school premises.

#### School fees for international schools and schools under DSS

For international schools, their school fees in the 2016/17 school year range from \$5,800 to \$192,410 at primary level and from \$48,000 to \$218,200 at secondary level. For schools under DSS, their school fees in the 2016/17 school year are appended in the table below.

Amount of school fee	Primary 1 to 6* (No. of schools)	Secondary 1 to 3* (No. of schools)	Secondary 4 to 6* (No. of schools)
\$0 – \$5,000	0	15	10
\$5,001 – \$10,000	1	6	12
\$10,001 – \$20,000	9	9	10
\$20,001 – \$30,000	5	8	9
\$30,001 – \$50,000	4	13	15
\$50,001 – \$80,000	2	4	3
\$80,001 – \$98,000	0	0	2

\* For schools that are charging different school fees for different class levels, the highest school fee within the range of class level is used for classification purpose.

5 & 6 The information required for sub-degree and degree places is as follows –

Expenditure

	2017-18 Estimate
	\$ million
Funding allocated to University Grants Committee-funded universities	18,513
Financial assistance to students pursuing sub-degree / degree / post-graduate programmes <sup>φ</sup>	
-- Tertiary Student Finance Scheme – Publicly-funded Programmes	
--- sub-degree programmes	241
--- degree programmes	697
--- post-graduate programmes	7
-- Financial Assistance Scheme for Post-secondary Students	
--- sub-degree programmes	442
--- degree programmes	542
Funding allocation for the Study Subsidy Scheme for Designated Professions/ Sectors	203

*φ The financial provision represents projected grants to students in the 2016/17 academic year.*

Funding for University Grants Committee (UGC)-funded programmes is subsumed under the block grant to universities without precise requirements as to how it should be spent. Universities are given the autonomy to allocate funds internally to programmes at different levels (e.g. sub-degree, undergraduate, taught postgraduate and research postgraduate) as they see fit. UGC is therefore unable to identify and attribute the actual expenditure on specific levels of studies.

In addition, the Vocational Training Council (VTC) offers a wide range of vocational and professional education and training programmes some of which lead to qualifications at sub-degree and above level. Funding for the publicly-funded programmes offered by VTC is subsumed in the annual subvention to VTC and the breakdown of funding by level is not available. In 2017-18, the estimated recurrent subvention to VTC in respect of vocational and professional education is \$2,312 million.

In order to nurture talent to meet Hong Kong’s social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from SSSDP each academic year.

Apart from the above, in order to further encourage continuing education, since the 2016/17 academic year the Government has launched a pilot scheme to provide tuition fee subsidy for three cohorts of students admitted to designated professional part-time programmes (including sub-degree and above programmes) offered by VTC, covering programmes in the disciplines of construction, engineering and technology. The scheme will benefit around 5 600 students in total for three cohorts with an estimated non-recurrent expenditure of \$200 million, including the administrative cost for VTC to implement the scheme.

## Tuition fees

### *UGC-funded programmes and publicly-funded programmes in VTC*

The tuition fee for local students of the UGC-funded sub-degree programmes offered by the City University of Hong Kong and the Hong Kong Polytechnic University is set at \$31,575 per year, while that of the Education University of Hong Kong is \$15,040 per year. The tuition fee for local students of the UGC-funded undergraduate, taught postgraduate and research postgraduate programmes is \$42,100 per year. The indicative tuition fees remain unchanged for the 2017/18 academic year. As regards VTC, the tuition fee for publicly-funded sub-degree programmes for the 2017/18 academic year ranges from \$30,800 to \$31,570 per year.

### *SSSDP programmes*

The average annual tuition fees of subsidised places under SSSDP programmes range from \$20,000 to \$59,030 (after deducting the subsidy) for the 2017/18 academic year.

### *Self-financing programmes*

The average annual tuition fees of full-time locally-accredited self-financing sub-degree and undergraduate programmes for the 2016/17 academic year are appended in the table below. Tuition fee information for the 2017/18 academic year is not yet available.

**CONTROLLING OFFICER'S REPLY****EDB526****(Question Serial No. 3642)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide:

- (1) a breakdown of the expenditures in the original estimate for 2016-17, the revised estimate for 2016-17 and the estimate for 2017-18, together with the reasons for the changes;
- (2) the details on the school-based professional support services for kindergartens, primary and secondary schools;
- (3) the details on the assessment tools for School Self Evaluation and the conduct of External School Reviews;
- (4) the details on the assistance in various education reform initiatives; and
- (5) the details on the pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work.

Asked by: Hon IP Kin-yuen (Member Question No. 103)Reply:

Re (1). The expenditures grouped under Programme (8) Policy and Support are operational expenses for formulation of policies and provision of support to the education sector. The estimates for 2016-17 and 2017-18 are:

	2016-17 Original Estimate	2016-17 Revised Estimate	2017-18 Estimate
	\$ million	\$ million	\$ million
Operational expenses for formulation of policies and provision of support to the education sector	1,983.4	1,855.3 (-6.5%)	1,984.4 (+7.0%)

The revised estimate for 2016-17 under Programme (8) Policy and Support is \$128.1 million or 6.5% lower than the original estimate. This is mainly due to the lower than budgeted requirement for operational expenditure and non-recurrent expenditure for various support schemes.

Provision for 2017-18 is \$129.1 million or 7% higher than the revised estimate of 2016-17. This is mainly due to increase in operational expenditure and the higher cash flow requirement for non-recurrent items.

Re (2) to (5). The administrative expenses involved in the education services / initiatives listed in (2) to (5) are absorbed in the overall operational expenses of Education Bureau (EDB) and cannot be separately identified. The following sets out the details together with the specific funding for implementing the education services / initiatives concerned:

Education services / initiatives	Resources implication
<p><u>School-based professional support services (SBSS) for kindergartens, primary, secondary and special schools</u></p> <p>EDB provides schools with a wide range of SBSS in areas such as catering for learner diversity, supporting non-Chinese speaking students to learn Chinese language, supporting students with special educational needs, facilitating self-directed learning and promotion of Science, Technology, Engineering and Mathematics (STEM) education. The SBSS may, depending on the needs and circumstances of participating schools, take various forms, including on-site professional support services provided by the school-based support sections of EDB and projects funded by the Education Development Fund (EDF) such as University-School Support Programmes, Professional Development Schools Scheme, School Support Partners (Seconded Teacher) Scheme as well as inter-school collaboration and professional sharing. Schools are invited to apply for the SBSS around April each year according to their needs.</p>	<p>For the school-based support services funded by EDF, a total of \$131.11 million has been earmarked under the Fund for the programmes held / to be held in the 2016/17 school year.</p>
<p><u>Assessment tools for School Self Evaluation (SSE) and the conducting of External School Reviews (ESR)</u></p> <p>To facilitate schools' continuous development and improvement through SSE, EDB provides a range of self-evaluation tools (e.g. Performance Indicators, Key Performance Measures and a set of stakeholder questionnaires, etc.), and conducts ESR to validate SSE and provide schools with suggestions for improvement.</p>	

Education services / initiatives	Resources implication
<p><u>Assistance in various education reform initiatives</u></p> <p><i>Implementation of new academic structure</i></p> <p>As a crucial part of the education reform that commenced in 2000, the New Academic Structure (NAS) has been implemented in senior secondary (SS) education since September 2009 to provide a broad and balanced curriculum with diversified choices and pathways to cater for students' different interests, abilities and needs. Upon completion of the first SS curriculum and assessment cycle under the NAS in 2012, EDB, the Curriculum Development Council and the Hong Kong Examinations and Assessment Authority jointly conducted the NAS Review with a view to addressing schools' concerns in the implementation process as well as responding to the changes over time in our society and around the world. With the completion of the NAS Review and the announcement of the last batch of recommendations in June 2015, future curriculum renewal will follow the natural development cycle of each subject or curricular area in a regular and continual manner. EDB will continue to support schools through, for example, providing training to build the professional capacity of teachers, fostering professional exchanges and sharing of good practices, development of quality learning and teaching resource materials, and disbursement of various SS grants, in providing quality secondary education for the benefit of students.</p> <p>The NAS has also been implemented in the post-secondary education sector since the 2012/13 academic year. Post-secondary institutions have made necessary curriculum and assessment changes which aim to facilitate students' balanced development and develop among them a broad knowledge base, sound language and generic skills, as well as a propensity for life-long learning. The four-year undergraduate programmes, which comprise the core, major and elective courses with an emphasis on general education and exposure to both academic and non-academic skills and knowledge, will provide smoother articulation for further studies or work in Hong Kong. The international recognition given to the NAS also facilitates students' articulation to other major education systems in the world.</p> <p><i>School places allocation</i></p> <p>As part of the Education Reform initiatives, the arrangements under the Primary 1 and Secondary 1 places allocation systems have been revised starting from 2000, including the abolition of the Academic Aptitude Test. The revised arrangements continue in the 2016/17 and 2017/18 school years.</p>	<p>In 2005, the Finance Committee approved a non-recurrent commitment of \$2,447.2 million for implementing the measures to support the development of the new academic structure in both secondary school and UGC sectors. The project has already been completed in 2013-14 and the total spending of the project is \$2,436.8 million.</p> <p>The total provision for disbursement of various recurrent SS grants under Programme (4) Secondary Education and Programme (5) Special Education is about \$266.7 million in 2017-18.</p>

Education services / initiatives	Resources implication
<p><u>Pilot project in some public sector schools for strengthening schools' internal management and reducing teachers' administrative work</u></p> <p>The Pilot Project on Strengthening Schools' Administration Management (Pilot Project) aims at supporting schools to strengthen their school administration management, as well as streamline procedures, thereby enhancing efficiency and unleashing teachers' capacity. Each participating school is provided with professional support and a grant of \$0.45 million for trying out appropriate measures to enhance school administration.</p> <p>A total of 132 public sector schools (including government and aided schools) have participated in the Pilot Project since its launch in the 2011/12 school year. In the light of the successful experience and good foundation of the Pilot Project, a one-off Strengthening School Administration Management (SAM) Grant at \$0.25 million has been provided in 2016 for public sector and Direct Subsidy Scheme schools which had not participated in the Pilot Project before to enable them to initiate improvement measures for enhancing the effectiveness of school administration management and unleashing teachers' capacity. We will continue to enhance the Web-based School Administration and Management System to further strengthen our support to all schools.</p>	<p>A total of \$59.4 million and \$214.25 million have been provided for conducting the Pilot Project and for the provision of SAM Grant respectively under Programme (3) Primary Education, Programme (4) Secondary Education and Programme (5) Special Education in the relevant financial years for conducting the Pilot Project.</p>

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant for primary schools, please provide the following information:

- (a) the staff establishment of guidance teachers in primary schools and their ratio to students, the number of primary schools in receipt of the said grant and their percentage share among all primary schools in the territory from the 2013/14 to 2016/17 school years;
- (b) the respective numbers of social workers, student guidance officers and teachers employed by primary schools with the said grant from the 2013/14 to 2016/17 school years, broken down by the name of schools in each of the 18 districts within the territory;
- (c) the total expenditure on the Student Guidance Service Grant from the 2013/14 to 2016/17 school years and the estimates for the 2017/18 school year; and
- (d) given that the high annual wastage of guidance teachers has affected the continuity of guidance, whether the Administration has any plan to improve, take forward or review the abovementioned service; if yes, the total estimated expenditure.

Asked by: Hon IP Kin-yuen (Member Question No. 104)

Reply:

(a) and (b) Since the 2006/07 school year, the manning ratio of student guidance officer/teacher has been improved to one for each public sector primary school with 18 or more classes. For public sector primary schools with 5 to 17 classes, they are provided with 0.5 student guidance officer/teacher. Primary schools opting for the Student Guidance Service (SGS) Grant may, based on their own needs, procure student guidance service from non-governmental organisations or recruit full-time or part-time student guidance personnel who can be registered social workers, registered teachers with experience in guidance and/or teaching or other professionals with equivalent qualifications and experience. To further enhance student guidance service, a top-up SGS Grant has been provided to all public sector primary schools starting from the 2012/13 school year. Therefore, the concepts of "staff establishment" and teacher-student ratio are not appropriate due to the flexibility given to schools in deciding their own modality of service delivery as well as the specific types of professional expertise that they wish to procure.

In the 2013/14, 2014/15, 2015/16 and 2016/17 school years, 309 (68%), 312 (69%), 317 (70%) and 323 (71%) public sector primary schools are provided with the SGS Grant respectively to employ student guidance personnel or procure student guidance service. Under school-based management, schools are entrusted with

the responsibility, and thus held accountable for effective use of the SGS Grant for its intended purposes. Schools need not report to the Education Bureau (EDB) the details of student guidance personnel employed through the SGS Grant. Hence, we do not have the data required.

(c) The total expenditure on the SGS Grant, including the top-up grant, for the 2013/14, 2014/15 and 2015/16 school years is \$200.4 million, \$211.7 million and \$225.6 million respectively, and is estimated to be about \$239.6 million and \$254.0 million for the 2016/17 and 2017/18 school years respectively.

(d) According to the information provided from school with the provision of SGS Grant, a majority of the student guidance personnel have continued their service in the same school for three years or more. It is thus clear that there is continuity of guidance service in schools. Furthermore, all primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimising the impact arising from turnover of individual staff members.

EDB has been gauging feedback from schools through school visits and other established channels for service improvement. The feedback thus gauged suggests that, overall, the existing mode of funding is able to meet the diversified needs of primary schools and is well received by schools and school sponsoring bodies. Hence, as of now, EDB has no plan to change the existing funding mode which recognises the diverse needs of different schools and allows schools to have flexibility in resource deployment to meet their identified needs in a specific manner. Nonetheless, EDB will continuously keep in view of schools' need for guidance services and review the resource provision from time to time with consideration to such factors as policy prioritisation and government's affordability.

Question:

- (a) Please provide the number of non-Chinese speaking (NCS) students by grade and the student unit cost in kindergartens, primary schools, secondary schools and tertiary institutions from the 2014/15 to 2016/17 school years in Hong Kong.
- (b) Please provide the number and names of designated schools receiving intensive support by the Education Bureau to cater for the needs of NCS students, the number of these students by grade, the amount of provision received, the student unit cost and their percentage share in the total number of NCS students in Hong Kong from the 2014/15 to 2016/17 school years.
- (c) Please provide the number of NCS students by grade and the student unit cost in non-designated schools, as well as their percentage share in the total number of NCS students in Hong Kong from the 2014/15 to 2016/17 school years.
- (d) Please provide details of measures by and funding from the Education Bureau for educational support to NCS students from the 2014/15 to 2016/17 school years.
- (e) Please compare the various types of educational support and relevant funding provided by the Administration for NCS students between designated schools and non-designated schools in the 2014/15 to 2016/17 school year.
- (f) Will the Administration review the effectiveness of the education for NCS students? Will it consider further increasing the number of designated schools?

Asked by: Hon IP Kin-yuen (Member Question No. 105)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students by level and by grade from the 2014/15 to 2016/17 school years is tabulated at Annex A.
- (b) Starting from the 2006/07 school year, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experience with other schools have been provided with special grant which has been turned into additional recurrent funding ranging from \$300,000 to \$600,000 since the 2008/09 school year as well as professional support to develop school-based support programmes specifically arranged for NCS students to further help their NCS students in learning and integration.

Through the sharing of these schools with other schools admitting NCS students via the school support network that EDB has formed, all NCS students will benefit. This mode of support is generally known as the so-called “designated schools” system. To remove the misconception arising from the “designated school” label which is in fact a misnomer and to raise schools’ awareness to support NCS students’ learning of the Chinese language, the funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or more NCS students have been provided with additional recurrent funding ranging from \$300,000 to \$600,000 per year, depending on the number of NCS students admitted, to enhance the support for learning of the Chinese language of NCS students. Starting from the 2014/15 school year, the funding support has been enhanced to facilitate schools’ implementation of the “Chinese Language Curriculum Second Language Learning Framework” and the creation of an inclusive learning environment in schools. All schools admitting 10 or more NCS students have been provided with an additional recurrent funding ranging from \$800,000 to \$1,500,000 per year, depending on the number of NCS students admitted.

A total of 173, 197 and 216 schools are provided with additional recurrent funding in the 2014/15, 2015/16 and 2016/17 school years respectively to enhance the support for learning of the Chinese language of NCS students. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers, etc., it is the established practice that we do not disclose the name and situation of each of individual schools particularly when the additional funding support is applicable to all public sector schools meeting the threshold so as to avoid unnecessary misconception and possible labelling on individual schools that we intend to remove by abolition of the so-called “designated schools” system from the 2013/14 school year. As reference, the number of NCS students by grade in schools provided with the additional recurrent funding from the 2014/15 to 2016/17 school years is tabulated at [Annex B](#). The percentage of NCS students in these schools among all NCS students in public sector and Direct Subsidy Scheme (DSS) schools excluding special schools in Hong Kong in the 2014/15, 2015/16 and 2016/17 school years is 92.5%, 92.7% and 93.3% respectively.

- (c) As mentioned in (b) above, the so-called “designated schools” system has been abolished since the 2013/14 school year. According to the information collected through the Student Enrolment Survey, the number of NCS students by grade in schools other than those provided with additional recurrent funding as mentioned in (b) above from the 2014/15 to 2016/17 school years is tabulated at [Annex C](#). The percentage share of NCS students in these schools among all NCS students in public sector and DSS schools excluding special schools in Hong Kong in the 2014/15, 2015/16 and 2016/17 school years is 7.5%, 7.3% and 6.7% respectively.
- (d) The educational support measures for NCS students from the 2014/15 to 2016/17 school years and the expenditure are tabulated at [Annex D](#).
- (e) As mentioned in (b) above, the so-called “designated schools” system has been abolished since the 2013/14 school year.
- (f) EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

**Number of non-Chinese speaking (NCS) students

Notes:

- These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
- For the 2-year USP project from the 2015/16 to 2016/17 school years, the actual expenditure of the 2015/16 school year is \$2.25 million and the estimated expenditure of the 2016/17 and 2017/18 school years is \$5.85 million and \$0.9 million respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

Question:

Please give a breakdown, by school category, school district and school sponsoring body, of the number of schools which have established an incorporated management committee (IMC), the percentage of aided IMC schools among all aided schools, and the amount of grant provided by the Administration for setting up IMCs in aided schools from the 2014/15 to 2016/17 school years

Asked by: Hon IP Kin-yuen (Member Question No. 106)

Reply:

As at 1 March 2017, 825 aided schools of 228 school sponsoring bodies (SSBs) have set up their incorporated management committees (IMCs). The percentage of aided IMC schools among all aided schools in the 2014/15, 2015/16 and 2016/17 school years (as at 1 March 2017) is 98.0%, 98.3% and 98.3% respectively. The number of aided IMC schools by district and category in the 2014/15, 2015/16 and 2016/17 school years is at Appendix.

The actual expenditure in 2014-15, 2015-16 and the revised estimated expenditure in 2016-17 for supporting schools to set up their IMCs are \$34.5 million, \$33.1 million and \$25 million respectively.

**Number of Aided Schools with an Incorporated Management Committee (IMC) by District and Category**

**CONTROLLING OFFICER'S REPLY****EDB530****(Question Serial No. 3646)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the student-to-teacher ratios, please provide the following information:

(a) From the 2012/13 to 2016/17 school years and in the estimate of the 2017/18 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided primary schools and the expenditure involved?

(b) From the 2012/13 to 2016/17 school years and in the estimate of the 2017/18 school year, what are the reasons for the changes in the student-to-teacher ratios in government and aided secondary schools and the expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 107)

Reply:

(a) The student-to-teacher ratios of public sector primary schools from the 2012/13 to 2016/17 school years as well as the projection of the 2017/18 school year are as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)	2017/18 (Projected)
Student-to-teacher ratio	14.4 : 1	14.2 : 1	14.0 : 1	14.1 : 1	14.2 : 1	14.4 : 1

In general, the student-to-teacher ratios over the years in public sector primary schools have been enhanced due to the implementation of Small Class Teaching (SCT) and the provision of various grants under various initiatives such as the Learning Support Grant which provide flexibility for schools to employ additional teachers. As the Education Bureau (EDB) does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

(b) The student-to-teacher ratios of public sector secondary schools from the 2012/13 to 2016/17 school years as well as the projection of the 2017/18 school year are as follows:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)	2017/18 (Projected)
Student-to-teacher ratio	14.5 : 1	13.8 : 1	13.0 : 1	12.3 : 1	11.9 : 1	11.6 : 1

The improvement of the student-to-teacher ratios is mainly due to the introduction of a series of relief measures to tackle the decline in secondary school student population, including the reduction in the number of students allocated to each S1 class, the implementation of Voluntary Optimisation of Class Structure Scheme and the extension of retention period of surplus teachers, all of which help retain serving teachers. Moreover, the provision of specific grants for the new senior secondary curriculum, and other grants provided under such initiatives as the Learning Support Grant, the Career and Life Planning Grant, etc., also enable schools to employ additional teachers. As EDB does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

**CONTROLLING OFFICER'S REPLY****EDB531****(Question Serial No. 3647)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) What were the details of and the expenditure incurred by the Education Bureau on various initiatives to implement the Qualification Framework (QF) from 2012/13 to 2016/17?

(b) What QF initiatives does the Administration have for 2017/18? What are the specific details and estimated expenditure?

Asked by: Hon IP Kin-yuen (Member Question No. 108)

Reply:

- (a) The expenditures for the implementation of the Qualifications Framework (QF), including operating expenditure of the QF Secretariat; subsidies and funding disbursed under the approved commitment of the QF Support Schemes (QFSS) (Note 1) for the various support schemes for QF, QF-related studies/projects and public education; as well as expenditure to support Industry Training Advisory Committees (ITACs) to implement initiatives as announced in the 2013-14 Budget (Note 2), from 2012-13 to 2016-17 are as follows –

Financial Year	Expenditure (\$ million)
2012-13	52.4
2013-14	46
2014-15	55.1
2015-16	73.9
2016-17 (as at end February 2017)	74.8

Note 1: The QF Fund was established on 1 September 2014 to provide a steady source of income to support the sustainable development and implementation of QF. Since it takes time for the QF Fund to generate and accumulate sufficient investment income to meet the funding requirements, the balance of the approved commitment for QFSS will continue to be used for meeting the cash flow requirements of the various initiatives under the QF Fund for the time being.

Note 2: The initiatives announced in the 2013-14 Budget include introducing the QF Award Scheme for Learning Experiences for outstanding practitioners to engage in learning activities in different places around the world, designing Specification of Competency Standards-based Training Packages that meet the needs of the industries, and stepping up promotion and publicity of QF for its wider acceptance among all sectors.

- (b) For 2017-18, we estimate that the expenditure for the implementation of QF will be about \$78 million. The major QF initiatives in 2017-18 include (i) two pilot projects on the development of vocational qualifications pathways by two ITACs (Banking and Property Management); (ii) phase II of an exploratory study on possible alignment of professional qualifications under QF; (iii) a project with the New Zealand Qualifications Authority on referencing between the Hong Kong QF and the New Zealand QF; (iv) a project on review of Generic Level Descriptors (GLD) and development of practical tools for adoption of GLD under the Hong Kong QF; (v) a pilot project on extending the Recognition of Prior Learning to cover non-formal and informal learning for the Elderly Care Service industry; and (vi) tracking surveys for the impact of implementation and perception of Hong Kong QF, etc.

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

For Diversity Learning Grant, the subsidy rate for Other Languages is \$3,900 per student, while the subsidy rate for Other Programmes is \$7,000 per student and an annual incentive funding of \$800 per senior secondary class will be provided for schools with a utilisation rate of 80% or above. In this connection, please advise this Committee of the following:

- (a) What were the annual expenditure of the above grant and the number of schools and students benefited in the past 5 years (2012/13 to 2016/17)?
- (b) How many schools are provided with incentive funding in the 2016/17 school year?

Asked by: Hon IP Kin-yuen (Member Question No. 109)

Reply:

- (a) The subsidy rate of Diversity Learning Grant (DLG) for Other Languages has been increased from \$3,500 to \$3,900 per senior secondary student per annum since the 2016/17 school year. The basic subsidy rate of DLG for Other Programmes is \$7,000 per senior secondary class and the incentive funding of \$800 per senior secondary class has been provided to schools with a utilisation rate of the grant of 80% or above based on the schools' annual accounts of the most recent year, with effect from the 2016/17 school year. From the 2012/13 to 2016/17 school years, the annual expenditure, number of schools/students/classes benefited from DLG for Other Languages and Other Programmes are as follows:

## i. Diversity Learning Grant for Other Languages

	2012/13	2013/14	2014/15	2015/16	2016/17 (provisional)
Expenditure (\$ million)	4.5	4.7	4.7	5.3	6.0
No. of Schools benefited	54	60	65	81	81
No. of Students benefited	1 297	1 333	1 356	1 515	1 536

ii. Diversity Learning Grant for Other Programmes

	2012/13	2013/14	2014/15	2015/16	2016/17 (provisional)
Expenditure (\$ million)	31.6	33.0	32.8	32.5	33.0
No. of Schools benefited	381	398	404	406	412
No. of Classes benefited	4 514	4 712	4 688	4 639	4 595

(b) In the 2016/17 school year, the number of secondary schools receiving the incentive funding is 97.

- End -

**CONTROLLING OFFICER'S REPLY****EDB533****(Question Serial No. 3649)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not Specified

**Programme:** (3) Primary Education, (4) Secondary Education, (5) Special Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools, please advise of the following:

1. The respective number, percentage and wastage rate of teachers appointed as graduate teachers and certificated masters/mistresses in public sector schools from the 2012/13 to 2016/17 school years; and in respect of the latter, the number, percentage and wastage rate of those with a recognised degree; and
2. Whether the Administration will review the policy concerned and set aside an amount in its budget to enable all teachers with a recognised degree to be appointed as graduate teachers so that they will no longer be exploited in terms of their salary and benefit.

**Asked by:** Hon IP Kin-yuen (Member Question No. 110)

**Reply:**

1. The number and percentage of teachers appointed as graduate teachers and non-graduate teachers and their respective wastage rate in public sector schools for the school years from 2012/13 to 2016/17 are as follows:

**Primary Schools (Government and Aided)**

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2012/13	7 150	39.9	2.9	10 770	60.1	6.2
2013/14	7 330	40.0	3.4	10 990	60.0	5.6
2014/15	7 550	39.9	3.0	11 400	60.1	5.2
2015/16	7 960	41.0	3.2	11 470	59.0	5.4
2016/17 (Estimate)	8 530	42.9	2.4	11 360	57.1	5.4

**Secondary Schools (Government, Aided and Caput)**

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2012/13	18 820	78.2	7.0	5 240	21.8	12.6
2013/14	18 510	78.8	4.2	4 990	21.2	7.9
2014/15	18 300	78.6	4.3	4 970	21.4	6.9
2015/16	17 960	78.5	4.2	4 930	21.5	7.8

School Year	Graduate Teachers			Non-graduate Teachers		
	No. of teachers*	%	Wastage rate (%)^	No. of teachers*	%	Wastage rate (%)^
2016/17 (Estimate)	17 690	78.6	4.0	4 800	21.4	7.0

Regarding the non-graduate teachers, the number of teachers who have degree qualifications (degree holders), their percentage share among all non-graduate teachers and their respective wastage rate in public sector schools for the school years from 2012/13 to 2016/17 are as follows:

#### Primary Schools (Government and Aided)

School Year	Non-graduate Teachers		
	No. of degree holders*	%	Wastage rate (%)^
2012/13	9 760	90.7	5.4
2013/14	10 100	91.9	4.8
2014/15	10 600	93.0	4.6
2015/16	10 770	93.9	4.9
2016/17 (Estimate)	10 730	94.4	5.1

#### Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers		
	No. of degree holders*	%	Wastage rate (%)^
2012/13	4 760	91.0	12.6
2013/14	4 560	91.4	7.9
2014/15	4 580	92.2	6.6
2015/16	4 590	93.1	7.5
2016/17 (Estimate)	4 490	93.6	6.9

\* Numbers are rounded to the nearest 10.

^ “Wastage Rate” refers to the number of drop-out teachers as a percentage of the total number of teachers as at mid-September of the preceding school year; and “drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

2. We shall continue to keep in view all relevant factors, including the financial implications, prioritization of resources deployment and schools’ progress in filling graduate teacher posts etc., and review the ratios of graduate teacher posts when necessary. Graduate and non-graduate teacher posts belong to two different streams under the teaching grade structure of public sector schools. Schools should assign duties according to the rank and specialties of individual teachers instead of the academic qualifications they possess.

- End -

## CONTROLLING OFFICER'S REPLY

EDB534

## (Question Serial No. 3650)

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (700) General non-recurrent

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the actual expenditure for 2015-16, the approved estimate for 2016-17, the revised estimate for 2016-17 and the estimate for 2017-18 under Subhead 700, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 111)

Reply:

The breakdown of expenditure by item under Subhead 700 General non-recurrent is provided below:

Item	Approved Commitment	Expenditure for the Year			
		2015-16 Actual	2016-17 Approved Estimate	2016-17 Revised Estimate	2017-18 Estimate
	\$ million	\$ million	\$ million	\$ million	\$ million
(A) <u>One-off injections to funds</u>					
- Gifted Education Fund	800.0	-	-	800.0	-
- Qualifications Framework Fund	1,000.0	1,000.0	-	-	-
Sub-total		1,000.0	-	800.0	-
(B) <u>Projects/schemes that are completed</u>					
- Pilot Mainland Experience Scheme for Post-secondary Students	100.0	7.6	20.3	20.3	-
- After-school Learning Support Partnership Pilot Scheme	110.0	16.0	0.9	0.4	-
- One-off start-up grant for kindergartens joining the Free Quality Kindergarten Education Scheme	220.0	-	-	220.0	-
- Promotion of e-Learning in the school sector	128.0	0.1	-	-	-
- Grant to the Hong Kong Examinations and Assessment Authority for temporary accommodation of a centralised onscreen marking centre on Hong Kong Island	57.2	8.0	4.0	3.7	-

Item	Approved Commitment	Expenditure for the Year			
		2015-16 Actual	2016-17 Approved Estimate	2016-17 Revised Estimate	2017-18 Estimate
	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>
- Support to the 57th International Mathematical Olympiad 2016	3.0	0.4	1.0	1.2	-
- Applied Learning (ApL) Extension Programme for Workplace Experience	5.1	2.4	2.4	2.7	-
- Promotion of Science, Technology, Engineering and Mathematics (STEM) Education in Primary and Secondary Schools	2.2	1.0	-	-	-
Sub-total		35.5	28.6	248.3	-
<b>(C) Ongoing/new projects/schemes</b>					
- Pilot Subsidy Scheme for Students of Professional Part-time Programmes	200.0	-	-	7.3	35.1
- Seventh Matching Grant Scheme for the self-financing post-secondary education sector	500.0	-	-	-	300.0
- Grant to the Vocational Training Council for implementing the Pilot Training and Support Scheme	288.0	6.6	35.5	43.8	66.0
- Mainland University Study Subsidy Scheme	105.3	5.9	9.7	9.7	9.7
- Study Subsidy Scheme for Designated Professions/Sectors	960.0	61.3	133.0	125.8	202.5
- Scholarship Scheme for Studying Outside Hong Kong	348.0	20.6	65.0	38.0	63.8
- Yi Jin Diploma	1,000.0	98.4	95.0	85.0	85.0
- E-Textbook Market Development Scheme	50.0	3.8	7.8	5.6	3.3
- Implementation of the Fourth Strategy on Information Technology in Education	105.0	50.6	30.0	28.4	21.5
- Pilot on providing career-related experiences for students with specific learning difficulties and non-Chinese speaking students in secondary schools	16.6	1.9	6.0	5.4	8.4
- Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland	200.0	-	56.5	49.4	148.6
- One-off grant for the promotion of Chinese history and culture	125.0	-	-	-	119.3
- International Civic and Citizenship Education Study 2016	7.0	0.9	0.6	0.6	1.4
- Supporting Schools to Adopt E-textbooks	50.0	2.4	0.1	0.2	0.1
- Qualifications Framework Support Schemes	208.0	40.0	37.5	37.5	26.7
- One-off Grant to Secondary Schools for Promotion of STEM Education	102.6	-	-	90.6	6.2
Sub-total		292.4	476.7	527.3	1,097.6
<b>Total</b>		<b>1,327.9</b>	<b>505.3</b>	<b>1,575.6</b>	<b>1,097.6</b>

The expenditure under Subhead 700 General non-recurrent may vary significantly year by year due to the following reasons –

- (a) Expenditure items under Subhead 700 General non-recurrent are controlled by both the approved commitment of the item and the current year provision approved for the subhead. The approved commitment of an expenditure item represents the total cost of the project / scheme, which may straddle several years. The actual expenditure of individual project / scheme may vary from year to year depending on its own implementation schedule.
- (b) The sums involved in some projects / schemes are significant, particularly those one-off injections into various funds e.g. Gifted Education Fund. The completion of these projects / schemes would cause significant fluctuations in the expenditure under this subhead year by year.

- End -

**CONTROLLING OFFICER'S REPLY****EDB535****(Question Serial No. 3651)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (871) Vocational Training Council

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the actual expenditure for 2015-16, the approved estimate for 2016-17, the revised estimate for 2016-17 and the estimate for 2017-18 under Subhead 871, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 112)

Reply:

The breakdown of Subhead 871 required is given below –

	<b>Approved commitment \$'000</b>	<b>Actual expenditure 2015-16 \$'000</b>	<b>Approved estimate 2016-17 \$'000</b>	<b>Revised estimate 2016-17 \$'000</b>	<b>Estimate 2017-18 \$'000</b>
1. Enhancement of information technology infrastructure and services	67,218	21,408	10,199	10,199	15,356
2. Provision of augmented reality/virtual reality-assisted training facilities and equipment	4,500	2,250	1,570	1,570	408
3. Enhancement of e-Learning platform and ancillary support services	9,834	1,580	1,415	1,415	3,105
	<b>81,552</b>	<b>25,238</b>	<b>13,184</b>	<b>13,184</b>	<b>18,869</b>

The estimated total expenditure of the above projects in 2017-18 increases as compared with the revised estimate in 2016-17 because of the increase in cash flow requirement in 2017-18.

Question:

Regarding the subventions under Subhead 000 for:

- Code of Aid for primary schools
- Code of Aid for secondary schools
- Code of Aid for special schools
- Direct Subsidy Scheme
- English Schools Foundation junior schools
- English Schools Foundation secondary schools
- Refund of rent, rates and government rent to kindergartens, kindergarten-cum-child care centres, private schools, educational institutes and study rooms
- Miscellaneous educational services
- Vocational Training Council

please give a breakdown of the actual expenditure for 2015-16, the approved estimate for 2016-17, the revised estimate for 2016-17 and the estimate for 2017-18, together with the reasons for the changes in expenditures.

Asked by: Hon IP Kin-yuen (Member Question No. 114)

Reply:

The provision for various types of subventions under Subhead 000 Operational expenses for 2015-16, 2016-17 and 2017-18 are provided in the table below:

Subventions under Subhead 000 Operational expenses	2015-16 Actual	2016-17 Original Estimate	2016-17 Revised Estimate	2017-18 Estimate
	\$ million	\$ million	\$ million	\$ million
Code of Aid for primary schools	13,254.1	13,882.2	14,142.6	14,654.1
Code of Aid for secondary schools	19,751.2	19,792.4	20,272.6	20,353.3
Code of Aid for special schools	2,146.0	2,241.9	2,247.8	2,362.0
Direct Subsidy Scheme (DSS)	3,661.4	3,800.7	3,821.0	3,988.8
English Schools Foundation (ESF) junior schools	118.6	109.0	109.0	92.1
ESF secondary schools	171.1	171.6	171.6	172.0
Refund of rent, rates and government rent to private schools, educational institutes and study rooms	361.4	407.1	420.5	232.8
Miscellaneous educational services	281.6	319.1	286.7	341.9
Vocational Training Council (VTC)	2,238.4	2,238.3	2,359.7	2,312.0

The major reasons for the changes over years for respective subventions are as follows:

- (a) Code of Aid for primary schools, secondary schools and special schools: The increase in 2016-17 over 2015-16 is mainly due to increased provision arising from 2016 pay adjustment and the increase in the graduate teacher ratio in primary schools. The increase in 2017-18 over 2016-17 is mainly due to further increase in the graduate teacher ratio in primary schools and increased provisions for various existing grants to schools.
- (b) DSS: The increase in 2016-17 over 2015-16 is mainly due to increase in DSS unit subsidy rates largely as a result of 2016 pay adjustment and the progressive increase in the graduate teacher ratio in primary schools. The increase in 2017-18 over 2016-17 is mainly due to the projected increase in student enrolment and DSS unit subsidy rate.
- (c) ESF junior schools and ESF secondary schools: The financial provision includes subventions to nine ESF junior schools, five ESF secondary schools and one ESF special school. Pursuant to the outcome of the subvention review, the recurrent subventions to ESF's mainstream primary and secondary schools are frozen at the level as at the 2012/13 school year for three years from the 2013/14 school year until the 2015/16 school year and will be phased out in 13 years starting from the 2016/17 school year.
- (d) Refund of rent, rates and government rent to private schools, educational institutes and study rooms: The increase over the years is mainly due to increase in the rental / rateable values. The decrease in 2017-18 against 2016-17 is mainly because the funding earmarked for kindergartens now under the Pre-primary Education Voucher Scheme but joining the Free Quality Kindergarten Education Scheme from August / September 2017 are grouped under a newly created subvention subhead, namely Free Quality Kindergarten Education Scheme.
- (e) Miscellaneous educational services: The financial provision mainly includes subventions to education related organisations and government subsidy to non-governmental organisations for running school

programmes. The increase over the years is mainly due to increased provision for school programmes. The increase in 2017-18 over 2016-17 is mainly due to provision for The Hong Kong Academy for Gifted Education and increased provision for school programmes.

- (f) VTC: The increase in 2016-17 over 2015-16 is mainly due to increased provision arising from 2016 pay adjustment and the payment of special subventions for organising vocational and professional education and training (VPET) conference and skills competition.

- End -

**(Question Serial No. 3654)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (-) Not specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

(1) Regarding duty visits outside Hong Kong made by the Secretary for Education, Under Secretary for Education, Political Assistant to Secretary for Education and Permanent Secretary for Education in their official capacities, please provide the dates, reasons for visits, size of entourage, related expenditure and details in the 5 financial years from 2012-13 to 2016-17, as well as the estimate in this regard for the 2017-18 financial year.

(2) Regarding meetings held between officials of the Education Bureau of Hong Kong and those of the Ministry of Education of China, please provide the number and place of visits, as well as the expenditure incurred in the 5 financial years from 2012-13 to 2016-17.

Asked by: Hon IP Kin-yuen (Member Question No. 116)

Reply:

(1) Information about duty visits outside Hong Kong made by Secretary for Education and Political Assistant to Secretary for Education, Under Secretary for Education as well as the Permanent Secretary for Education from 2012-13 to 2016-17 is at Annexes A to C respectively. In 2017-18, duty visits will be conducted based on operational needs and prior approval is needed before related expenses are incurred. In making an application for duty visit, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. The duty visit expenditure will be governed by relevant regulations and guidelines and charged to the relevant votes to ensure effective control and use of public money.

(2) The Education Bureau maintains necessary working relationship with the officials of the Ministry of Education with a view to ensuring mutual understanding and effective exchanges. We do not keep a separate account to capture expenditure on meetings with them.

**Table 2**

DSS Primary Schools					
School Year	Average of Subsidy per Student <sup>Note 1</sup>	Average of Subsidy per DSS School <sup>Note 2</sup>	Median of Subsidy per DSS School <sup>Note 2</sup>	Average of School Fee Charged <sup>Note 2</sup>	Median of School Fee Charged <sup>Note 2</sup>
2012/13	43,445 or 40,332	29,004,524	30,510,000	23,189	21,000
2013/14	46,672 or 43,750	31,397,619	32,427,000	23,512	21,000
2014/15	50,073 or 47,117	34,705,524	35,250,000	24,198	22,400
2015/16	52,132 or 49,654	38,208,885	39,434,690	25,073	23,900
2016/17	54,053 or 51,762	-- Note 3	-- Note 3	25,710	23,900

Note 1: The figures show the DSS unit subsidy for each eligible student at the commencement of the respective school years. The higher rate would be applied to schools with an age of 16 years or above while the lower rate to those with an age below 16 years.

Note 2: The amount of subsidy is calculated on a financial year basis. DSS schools admit students on a territory-wide basis and the amount of government subsidy provided for a DSS school is based on school age and student enrolment which is bounded by the enrolment ceiling, and calculated in terms of the average unit cost of an aided school place irrespective of the district of the school. Similarly, the school fee charged by a DSS school would depend on individual school's needs in delivering education services to students with no direct relation to the location of the school.

Note 3: Since the 2016-17 financial year has not yet been concluded, the amount of subsidy provided to each DSS school is not yet available.

2015/16 <sup>Note 1</sup>	--	--	--	--	--
2016/17 <sup>Note 1</sup>	--	--	--	--	--

Note 1: Relevant information for the 2015/16 and 2016/17 school years is not available as the audited accounts for these two school years are not yet due.

Note 2: The financial reserve refers to the schools' operating reserve which may vary among individual schools and includes the net book value of additional school buildings and constructions within the school premises. DSS schools have varied backgrounds and characteristics irrespective of the district. Figures on a territory-wide basis provide an overall financial situation of the schools.

Note 3: DSS schools are only required to provide information on the total expenditure of fee remission and scholarship in their annual audited accounts. They are not required to provide a separate breakdown for fee remission, scholarship and the number of student beneficiaries.

Asked by: Hon IP Kin-yuen (Member Question No. 117)

Reply:

- a) According to the Secondary 6 Students' Pathway Survey conducted by the Education Bureau (EDB), the number and percentage distribution of secondary 6 graduates who were pursuing full-time study of Bachelor's Degree Programmes by school sector of the graduates (including government, aided, DSS and local private schools) in the past 5 school years (from the 2012/13 to 2016/17 school years) are tabulated at Appendix. Relevant information for ESF and international schools is not available as the survey did not cover these schools.
- b) EDB does not have the statistics on the number and percentage of students of government, aided, DSS, ESF, private and international schools who are living in public rental housing estates and receiving Comprehensive Social Security Assistance.

**Number and Percentage Distribution of Secondary 6 (S6) Graduates<sup>(1)</sup> who were Pursuing Full-time Study of Bachelor's Degree Programmes<sup>(2)</sup> from the 2012/13 to 2016/17 School Years**

School Year <sup>(4)</sup>	Government		Aided <sup>(3)</sup>		Others <sup>(3)</sup>		All	
	Number	Percentage	Number	Percentage	Number	Percentage	Number	Percentage
2012/13	1 765	45.1	15 522	34.2	2 814	44.9	20 101	36.2
2013/14	1 794	47.7	15 942	36.6	2 942	47.2	20 678	38.7
2014/15	1 770	48.4	16 234	38.7	2 828	47.2	20 832	40.4
2015/16	1 550	46.6	15 516	39.9	2 922	49.5	19 988	41.6
2016/17 <sup>(5)</sup>	--	--	--	--	--	--	--	--

- Notes:
- (1) Since some graduates in the responded schools did not provide any information and the activity status of all S6 graduates of non-responded schools was not available, caution should be taken in interpreting the figures as the activity status of those non-responded graduates was likely to be totally different from that of the responded graduates.
  - (2) Figures for "Bachelor's degree programmes" include students attending Bachelor's degree programmes offered by providers of the publicly-funded programmes, providers of self-financing programmes and other overseas institutions.
  - (3) Schools classified under "Others" include DSS and local private schools while data of Caput schools are included under aided schools.
  - (4) Distribution of figures by districts is not available.
  - (5) Figures of the 2016/17 school year are not yet available.

- End -

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

How many complaint cases about insufficient consultation by aided schools in applying to join the Direct Subsidy Scheme (DSS) in the past 5 school years (2012/13 to 2016/17 school years) were received by the Administration? How many complaint cases about the lack of transparency of the financial status of DSS schools were received? Will the Government continue to subsidise DSS schools in the long run or let DSS schools turn into private independent schools? What are the manpower and expenditure involved in implementing the policy each year?

Asked by: Hon IP Kin-yuen (Member Question No. 117)

Reply:

In the past 5 school years (from the 2012/13 to 2016/17 school years), EDB has received 1 complaint about the lack of transparency of the financial status of DSS schools and 22 complaints about insufficient consultation by aided schools in applying to join the DSS.

The DSS was introduced in 1991 pursuant to the recommendations of the Education Commission Report No. 3. The objectives of introducing the DSS are to inject diversity to our school system and give parents more choices. As the DSS sector has added much desired diversity to our school system, the Government has no plan to turn DSS schools into private independent schools at this stage.

Regarding the manpower and expenditure involved in the implementation of the DSS policy, since the work related to the administration and operation of the DSS cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to segregate the manpower and expenditure allocated for implementing the DSS policy.

Question:

With regard to supporting schools to enhance life planning and career guidance services, please provide the following information:

- (a) What other measures have been implemented by the Administration to help schools take forward life planning work in the past year apart from disbursing grants? What are the details and expenditure involved?
- (b) Following last year's announcement to allow schools to turn the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) into regular teaching posts, what support will be provided by the Administration to enhance career guidance services and teacher training?
- (c) As at 2016/17, how many schools have turned the SSCSG and CLPG into regular teaching posts?

Asked by: Hon IP Kin-yuen (Member Question No. 118)

Reply:

(a) & (b) The Education Bureau (EDB) has continued to provide a range of measures to strengthen the implementation of life planning education (LPE) at schools. Apart from the provision of the Career and Life Planning Grant (CLPG), EDB provides training and support to enhance teachers' professional capacity in implementing LPE, such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes and promoting professional exchanges among schools and teachers. School visits are also conducted to provide professional advice to schools to strengthen their LPE. In addition, career exploration activities are provided to students through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. Information on further studies and career opportunities are disseminated on the webpage. In view of the positive feedback on work experience programmes, a large-scale "Work Experience Movement (WEM)" has been launched in the 2016/17 school year. As at February 2017, more than 200 enterprises / organisations have joined the movement, offering some 1 100 places of work experience activities for our secondary students. To strengthen professional development of teachers and provide career exploration activities on a district basis, EDB has also set up District Development Networks (DDN) in the 2016/17 school year. It is expected that DDN will be extended to all other districts in a few years' time. The expenditure involved is subsumed under EDB's recurrent expenditure.

With effect from the 2016/17 school year, schools are allowed to turn the Senior Secondary Curriculum Support Grant (SSCSG) and CLPG into regular teaching posts. This measure can facilitate the consolidation of school-based experience and provide more stable teacher manpower for schools in implementing LPE. To facilitate schools' smooth transition and gainful deployment of the new teaching

post, schools which have converted CLPG into regular teaching posts in the 2016/17 or 2017/18 school year are provided with the Transitional Career and Life Planning Grant, at the amount of \$100,000.

(c) In the 2016/17 school year, slightly more than 230 public sector secondary schools have turned either or both of SSCSG and CLPG into regular teaching posts.

Question:

(a) Please list the measures and financial provision on improving the learning and teaching of the English Language in secondary and primary schools respectively by the Administration in the past 5 years (2012/13 to 2016/17) and 2017/18; and

(b) What are the details of expenditure on the Native-speaking English Teacher (NET) Scheme in primary schools and the Enhanced NET Scheme in secondary schools by the Administration in the past 5 years (2012/13 to 2016/17) and 2017/18?

Asked by: Hon IP Kin-yuen (Member Question No. 122)

Reply:

(a) Throughout the years, we have been implementing various support measures for improving the learning and teaching of English Language in secondary and primary schools. The provision for the purpose totalled \$740.31 million (of which \$37.0 million is from Language Fund) in 2012-13 financial year, \$761.48 million (of which \$34.47 million is from Language Fund) in 2013-14 financial year, \$792.11 million (of which \$35.64 million is from Language Fund) in 2014-15 financial year, \$845.08 million (of which \$33.27 million is from Language Fund) in 2015-16 financial year, and \$877.45 million (of which \$33.86 million is from Language Fund) in 2016-17 financial year.

In 2017-18 financial year, we will continue to improve the teaching and learning of English Language in primary and secondary schools. The estimated expenditure in 2017-18 is \$907.61 million, of which \$35.1 million is from Language Fund. Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Scheme for Secondary Schools (EES)	To strengthen the teaching and learning of English of secondary schools through strategic planning with a holistic school-based plan on capacity building of English teachers with a view to enhancing students' English proficiency.
*2.	Refined English Enhancement Scheme for Secondary Schools	To support schools to build on the foundation of EES to adjust and/or refocus relevant items of their plans as appropriate to put in place their school-based fine-tuned Medium of Instruction arrangements.

No.	Name of Project	Details
*3.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
4.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials.
<b>B. School-based support</b>		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
<b>C. Professional development</b>		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4.	Resources for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
<b>D. Creating a facilitating environment for English learning</b>		
1.	The Native-speaking English Teacher (NET) Scheme for Primary Schools (PNET Scheme)	NETs collaborate with local English teachers (LETs) to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. To enhance students' literacy experience, a range of language activities, such as debating, drama, digital storytelling and puppetry, is developed and promoted through the collaboration between NETs, LETs and support officers from EDB. In general, an eligible public sector primary school operating six or more classes is provided with a NET.

No.	Name of Project	Details
2.	The Enhanced Native-speaking English Teacher (NET) Scheme in Secondary Schools (ENET Scheme)	NETs work with local English teachers to enrich the English language learning environment in schools and to enhance the learning and teaching of English with linguistically and culturally authentic materials and resources. In general, an eligible public sector secondary school is provided with a NET.
*3.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*4.	Sponsorship Project	To engage community partners to organize language-related events/competitions in the community.

\* Initiatives funded by Language Fund

\*\* The initiative is funded out of Head 173 Student Financial Assistance Agency

- (b) Details of the expenditure over the past 5 years (2012-13 to 2016-17 financial years) and the estimated expenditure for the 2017-18 financial year of the PNET Scheme and the ENET Scheme are tabulated as below:

	Expenditure (\$Million)					
	12-13	13-14	14-15	15-16	16-17 #	17-18 (estimated)
PNET Scheme	328.5	336.3	357.0	376.4	335.8	426.0
Enhanced NET Scheme in Secondary Schools	357.9	350.6	371.2	381.6	339.2	433.9

**CONTROLLING OFFICER'S REPLY****EDB545****(Question Serial No. 3664)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau states that it will provide professional support, where appropriate, to schools for national education. In this connection, please list the professional development programmes and Mainland exchange activities to provide professional support to principals and teachers for national education in the past 5 years (2012/13 to 2016/17) and the year ahead (2017/18), including the names of the programmes, programme locations, the Mainland or overseas government departments and organisations involved, the details of programme, as well as the expenditures involved.

Asked by: Hon IP Kin-yuen (Member Question No. 123)

Reply:

Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated into a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources, provision of Mainland exchange opportunities to complement student's learning in relevant Key Learning Areas/subjects as well as, where appropriate, provision of professional support to schools etc. With staffing and expenditure for most of these items being subsumed under the recurrent expenditure of the Education Bureau (EDB), we are not able to provide a separate breakdown of the professional support to schools in the past 5 school years (2012/13 to 2016/17) and the school year ahead (2017/18).

Besides, EDB provided various Mainland exchange activities for principals and teachers, such as the "National Day Delegation from the Educational Sector of Hong Kong" (香港教育界國慶訪京暨專業交流團) with the aim to widening their horizons and deepening their understanding of the development in different aspects of the Mainland. These programmes cover different provinces and cities in the Mainland.

Expenditure on Mainland exchange activities for principals and teachers in the past 5 years (2012/13 to 2016/17) and the year ahead (2017/18) is as follows:

School year	Expenditure (\$ million) <sup>@</sup>
2012/13	1.0
2013/14	1.3
2014/15	1.1
2015/16 <sup>#</sup>	1.5
2016/17 <sup>*</sup>	2.0
2017/18 <sup>++</sup>	1.9

- @ Staffing resources in the provision of these activities are absorbed by the recurrent expenditure of the Education Bureau
- # Actual figures revised from last year's estimates
- \* Provisional figures
- ++ Estimated figures

**CONTROLLING OFFICER'S REPLY****EDB546****(Question Serial No. 3665)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

1. Please specify the various funds (such as the Quality Education Fund) set up by the government that have funded programmes relating to national education during the school years from 2012/13 to 2016/17 and the amount of annual funding;
2. Please set out the details of the national education activities that were coordinated or organised by the Education Bureau (EDB) or organised by non-government organisations commissioned by the EDB during the school years from 2012/13 to 2016/17; and
3. Please provide a list of the non-government organisations commissioned by the government to organise Mainland exchange programmes during the school years from 2012/13 to 2016/17, as well as the number of exchange programmes organised by each of the organisations and the respective funding involved.

Asked by: Hon IP Kin-yuen (Member Question No. 124)

Reply:

1. "National Education" was one of the QEF priority themes from April 2008 to March 2013. Starting from April 2013, projects relating to national education have been included into the priority theme of "Values Education". Expenditure on "National Education" from the 2012/13 to 2016/17 school years is as follows:

School Year	Expenditure (\$million)
2012/13	3.1
2013/14	2.5
2014/15	4.9
2015/16 <sup>#</sup>	0.9
2016/17 <sup>*</sup>	0

<sup>#</sup> Actual figure revised from last year's estimates

<sup>\*</sup> Provisional figure

2. Curriculum elements of moral, civic and national education, under the over-arching notion of values education, are incorporated into a number of Key Learning Areas/subjects, relevant learning activities in and outside schools at primary and secondary levels, research and development, professional development programmes for school heads and teachers, production of relevant learning and teaching resources as well as provision of Mainland exchange opportunities to complement students' learning in relevant Key Learning Areas/subjects, etc. Apart from offering opportunities for students to join

Mainland exchange programmes and arranging professional exchange programmes for teachers, the professional support measures include providing expert advice and collaborating with schools in related curriculum planning and implementation of values education. While staffing and expenditure for most of these items are subsumed under the recurrent expenditure of the Education Bureau (EDB), expenditure in respect of subsidising Mainland exchange programmes for primary and secondary school teachers and students can be separately identified and that from the 2012/13 to 2016/17 school years is as follows:

School Year	Expenditure (\$million) <sup>@</sup>	
	Programmes for students	Programmes for teachers
2012/13	33.0	1.0
2013/14	37.2	1.3
2014/15	52.7	1.1
2015/16 <sup>#</sup>	61.9	1.5
2016/17 <sup>*</sup>	70.0	2.0

<sup>@</sup> Staffing resources in the provision of Mainland exchange programmes are subsumed under the recurrent expenditure of EDB

<sup>#</sup> Actual figures revised from last year's estimates

<sup>\*</sup> Provisional figures

3. The EDB-commissioned Mainland exchange programmes are conducted through the prescribed procurement procedures. The non-government organisations (NGOs) involved and the number of programmes they provided are as follows:

School Year	NGOs* involved	No. of programmes provided
2012/13	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	1
2013/14	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	1
	Wofoo Social Enterprises Limited (和富社會企業有限公司)	1
2014/15	Hong Kong Federation of Education Workers Education Organisation Limited (香港教育工作者聯會教育機構有限公司)	2
	Wofoo Social Enterprises Limited (和富社會企業有限公司)	1
	Chinese Language Education Research Association Limited (中國語文教育研究學會有限公司)	1
2015/16	Wofoo Social Enterprise Limited (和富社會企業有限公司)	2
	Chinese Language Education Research Association Limited (中國語文教育研究學會有限公司)	1
2016/17	Wofoo Social Enterprise Limited (和富社會企業有限公司)	1
	Chinese Language Education Research Association Limited (中國語文教育研究學會有限公司)	1

The contract periods of the NGOs concerned do not fully coincide with the school year and their contract amount cannot be apportioned to the respective school years concerned. Besides, the amount of expenditure for the commissioned programmes depends on the actual number of students who participate in these programmes on a voluntary basis. A breakdown of the funding involved is not available.

\* The list of NGOs refers to those which have been granted tax exemption under Section 88 of the Inland Revenue Ordinance.

**Programme:** (-) Not specified

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

(a) Please provide separate figures on the financial surplus/deficit arising from local and non-local examinations handled by the Hong Kong Examinations and Assessment Authority in the past 5 years (2012/13 to 2016/17).

(b) Please provide separate information on the salaries and positions of the 10 highest-paid officers in the Hong Kong Examinations and Assessment Authority in the past 5 years (2012/13 to 2016/17).

**Asked by:** Hon IP Kin-yuen (Member Question No. 125)

**Reply:**

(a) The financial surplus/deficit of Hong Kong Diploma of Secondary Education (HKDSE) Examination, Hong Kong Advanced Level Examination (HKALE) and other examination services conducted by the Hong Kong Examinations and Assessment Authority (HKEAA) in the past 5 years (2012/13 to 2016/17) are listed below:

<b>Year</b>	<b>HKDSE \$ m Surplus / (Deficit)</b>	<b>HKALE \$ m Surplus / (Deficit)</b>	<b>Other Examination Services \$ m Surplus / (Deficit)</b>
2012/13	12.2	(6.3)	54.9
2013/14	(25.6)	-	33.0
2014/15	(44.2)	-	38.1
2015/16	(57.0)	-	37.3
2016/17 (Forecast)	(71.7)	-	42.2

**Notes:**

- HKEAA's financial year runs from 1 September to 31 August.
- All examinations mentioned above are conducted locally. "Other Examination Services" include examinations administered by International and Professional Examinations (IPE), of which some are provided by overseas examination boards but many are offered by local professional bodies.

- (b) The number of key management personnel (Directors and above) who are entitled to receive remuneration and the bands of remuneration they fell into as reported in HKEAA's audited accounts are listed below:

<b>Bands of remuneration</b>	<b>2012/13</b>	<b>2013/14</b>	<b>2014/15</b>	<b>2015/16</b>
Less than \$500,000	-	-	-	-
\$500,001 to \$1,000,000	-	-	-	-
\$1,000,001 to \$1,500,000	-	-	-	-
\$1,500,001 to \$2,000,000	2	-	-	-
\$2,000,001 to \$2,500,000	2	4	3	3
\$2,500,001 to \$3,000,000	1	1	1	-
\$3,000,001 to \$3,500,000	-	-	-	1

Notes:

1. HKEAA's financial year runs from 1 September to 31 August.
2. The year 2016/17 of HKEAA closes on 31 August 2017 and thus the information for 2016/17 is not yet available.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

According to the 2016 Policy Address, the Education Bureau will progressively improve the ratio of educational psychologist to school to 1:4 for public sector ordinary primary and secondary schools with a large number of students with special educational needs from the 2016/17 school year. In this regard, will the Administration please inform this Committee of:

(a) whether the Administration has assessed the number of primary and secondary schools to be benefitted from the above policy in the 2017/18 school year; whether the Administration has objective indicators in determining the number of benefitted schools; whether the indicators will be adjusted in the future?

(b) the ways to increase the manpower of the educational psychologists in view of the current inadequacy of the Educational Psychology Service; and what is the timetable for achieving the above-mentioned ratio of educational psychologist to school?

Asked by: Hon IP Kin-yuen (Member Question No. 126)

Reply:

(a) to (b)

The Government has further enhanced the School-based Educational Psychology Service (SBEPS) by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs (SEN) from the 2016/17 school year. In the 2016/17 school year, a total of 30 primary and secondary schools are receiving the enhanced provision. In the 2017/18 school year, the number of schools that will receive the enhanced provision will increase to 80. The Education Bureau (EDB) has accorded priority to schools with reference to various factors such as the number of students with SEN, its proportion to the student population of the school, the number of students requiring individual support, etc.

EDB will continue to keep in view the service needs of schools as a whole and the provision of EPs in the market. As and when necessary, we will liaise with local universities for meeting the manpower demand, in order to continuously enhance the support to schools in catering for students' diverse needs.

Question:

Starting from the 2015/16 school year, the Community Care Fund has funded a three-year pilot project to provide cash grant for ordinary schools with relatively more students with special educational needs and financial needs. In this connection, please advise this Committee of the following:

- (a) How many secondary and primary schools in Hong Kong have respectively joined the pilot project? What is the respective amount of funding involved?
- (b) Will the Government consider further extending the pilot project to cover all secondary and primary schools in Hong Kong and regularising the pilot project?

Asked by: Hon IP Kin-yuen (Member Question No. 127)

Reply:

A total of 124 public sector mainstream schools, including 59 primary schools and 65 secondary schools, have participated in the three-year Pilot Project on Special Educational Needs Coordinators (the pilot project) funded by the Community Care Fund starting from the 2015/16 school year. A cash grant equivalent to the respective mid-point salary of Assistant Primary School Masters/Mistresses and Graduate Masters/Mistresses is provided to each participating primary and secondary school yearly during the pilot period. The total funding provision for the pilot project is about \$219 million, which covers the cash grant for schools as well as expenses for professional training for special educational needs coordinators (SENCOs) and evaluation of the pilot project. We are unable to provide a breakdown of the funding provision by primary and secondary schools as some costs, such as the training cost, are for both primary and secondary schools as a whole.

As mentioned above, the Education Bureau (EDB) has commissioned an experienced overseas consultant to evaluate the effectiveness of the pilot project and gain more understanding about the implementation of the pilot project in schools at different levels as well as making feasible recommendations on the way forward. EDB will consider the way forward for the provision of SENCOs in the public sector mainstream primary and secondary schools with reference to the recommendations of the overseas consultant.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please give a breakdown of the course titles, course providers, course fees, number of places and applications received, unit cost as well as amount of subsidies of each place for all the fully-subsidised, partly-subsidised, and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and serving kindergarten teachers in the school years from 2012/13 to 2016/17.

Asked by: Hon IP Kin-yuen (Member Question No. 129)

Reply:

The course titles, course providers, course fees and enrolments in different subsidised and non-subsidised teacher training courses (including certificate, degree and Postgraduate Diploma in Education (PGDE) programmes) offered to pre-service and serving kindergarten teachers in the school years from 2012/13 to 2016/17 are tabulated below:

(A) Certificate in Early Childhood Education (C(ECE)) Training Programme

Pre-service C(ECE)						
Course provider	Financing Mode	No. of intake (Tuition fee per course in brackets)				
		2012/13 school year	2013/14 school year	2014/15 school year	2015/16 school year	2016/17 school year
HKIVE	VTC-funded	327 (\$54,300 - \$71,500)	487 (\$60,500)	481 (\$63,140)	488 (\$63,140)	542 (\$63,140)

**CONTROLLING OFFICER'S REPLY****EDB552****(Question Serial No. 3671)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please set out the number and type (whole-day kindergarten, half-day kindergarten, whole-day and half-day kindergarten, and long whole-day kindergarten) of kindergartens in the 2016/17 school year by student intake as follows:

1. 90 or below
2. 91 to 180
3. 181 to 270
4. Above

Asked by: Hon IP Kin-yuen (Member Question No. 130)

Reply:

The number of kindergartens (KGs) operating whole-day (WD) classes only, KGs operating half-day (HD) classes only and KGs operating both WD and HD classes by student enrolment in the 2016/17 school year is tabulated as follows:

Student enrolment	Number of KGs operating WD classes only	Number of KGs operating HD classes only	Number of KGs operating both WD and HD classes
90 or below	122	108	82
91 to 180	121	49	140
181 to 270	4	47	141
Above 270	0	118	82

Among the above KGs with WD classes, the number of Former Aided Child Care Centres (FACs) (Note) by student enrolment in the 2016/17 school year is tabulated as follows:

Student enrolment	Number of FACs
90 or below	127
91 to 180	117
181 to 270	2
Above 270	0

Note: Long WD services refer to FACs operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.

More than 90%	

- (e) The number of ethnic minority kindergarteners who are non-Chinese speaking from school year 2014/15 to 2016/17;
- (f) The breakdown of non-Chinese speaking kindergarteners by ethnicity from school year 2014/15 to 2016/17

Asked by: Hon IP Kin-yuen (Member Question No. 131)

Reply:

At present, all kindergartens (KGs) in Hong Kong are privately run and the KG sector, which is made up of local and non-local KGs, flexibly copes with parents' diverse demands and various needs of children. According to the information collected through the annual Student Enrolment Survey, the number of KGs with non-Chinese speaking (NCS) students and ethnic minority (EM) students, ranging from "0", "1 to 7", "8 to 25", "26 to 50", "51 to 75", "76 to 90" and "more than 90", and the percentage of NCS students and EM students among all students of these KGs from the 2014/15 to 2016/17 school years are tabulated at Appendices 1 and 2 respectively. For planning of education support, we collect information on the number of NCS students and EM students. Their respective numbers from the 2014/15 to 2016/17 school year are tabulated at Appendix 3. For breakdown of the figures by ethnicity, we compile the information on the basis of the EM students, instead of NCS students. The number of EM students by ethnicity from the 2014/15 to 2016/17 school years is tabulated at Appendix 4. The two sets of data on NCS and EM students are not comparable since definition of NCS students is based on the language spoken at home instead of ethnicity of the students.

**Number of kindergartens with non-Chinese speaking (NCS) students ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “more than 90”, and the percentage of NCS students among all students of the kindergartens from the 2014/15 to 2016/17 School Years**

School year		Number of NCS students						
		0	1 to 7	8 to 25	26 to 50	51 to 75	76 to 90	more than 90
2014/15	Number of kindergartens	421	319	124	47	25	8	34
	Percentage of NCS students among all students of the kindergartens	-	0.1%-62.5%	0.9%-100.0%	4.3%-100.0%	15.5%-100.0%	29.1%-100.0%	17.0%-100.0%
2015/16	Number of kindergartens	440	322	127	45	24	7	35
	Percentage of NCS students among all students of the kindergartens	-	0.1%-70.0%	0.8%-100.0%	3.3%-100.0%	16.9%-100.0%	26.5%-100.0%	10.4%-100.0%
2016/17	Number of kindergartens	435	314	149	48	26	7	35
	Percentage of NCS students among all students of the kindergartens	-	0.1%-75.0%	0.7%-100.0%	6.9%-100.0%	17.3%-100.0%	29.2%-100.0%	12.2%-100.0%

Notes:

1. Figures refer to the position as at mid-September of the respective years.
2. Figures include students studying in kindergarten-cum-child care centres.
3. The above data cover those students whose ethnicity is Chinese but who are NCS based on the spoken language at home.
4. The above data cover both local and non-local kindergartens.

**Number of kindergartens with ethnic minority (EM) students ranging from “0”, “1 to 7”, “8 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “more than 90”, and the percentage of EM students among all students of the kindergartens from the 2014/15 to 2016/17 School Years**

Programme: (2) Pre-primary Education, (6) Other Educational Services and Subsidies, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Would the government inform this Council of:

(a) the list of non-governmental organisations or academic institutions that receive funding from the Education Bureau to provide support programmes to all students from kindergartens to secondary schools academically in 2015/16 and 2016/17, and the details of each batch of the funding including the amount, period covered and target groups;

(b) The number of students attending each of these support programmes in 2015/16 and 2016/17;

(c) The number of non-Chinese speaking students attending each of these support programmes in 2015/16 and 2016/17;

(d) The list of non-governmental organisations or academic institutions that receive funding from the Education Bureau to specifically provide support programmes to non-Chinese students' learning of Chinese Language and other subjects in 2015/16 and 2016/17 and the details of each batch of the funding including the amount, period covered and target groups; and

(e) The number of non-Chinese speaking students attending each of these support programmes referred to in (d) in 2015/16 and 2016/17.

(f) How does the EDB monitor the effectiveness of these programmes? Does the EDB have a list of indicators to evaluate the programmes? How are the students' progress tracked?

Asked by: Hon IP Kin-yuen (Member Question No. 132)

Reply:

(a), (b) and (c)

Apart from core education at schools, the Education Bureau (EDB) provides various support programmes to students such as Induction Programmes for newly-arrived children and young people, educational support programmes for non-Chinese speaking (NCS) students, School-based After-school Learning and Support Programmes for needy students, Life Education Activity Programme to enhance students' awareness of health issues, Summer Career-related Experience Scheme to provide opportunities for students to experience the actual working environment, recreational programmes such as the Hong Kong Schools Dance Festival and Outdoor Education Camp Scheme, etc. The funding for organising / running these programmes may channel through recurrent subvention to educational bodies, subsidies to organisers on application basis or

fees to service providers commissioned through competitive procurement / tendering process. As such, we do not have ready information on all the non-governmental organisations (NGOs) / academic institutions that receive funding from EDB for providing support programmes, as well as the related information on programme details, amount involved, period covered, target groups, number of students attended in the 2015/16 and 2016/17 school years.

(d), (e) and (f)

The NGOs / academic institutions that receive funding from EDB in the 2015/16 and 2016/17 school years to provide programmes specifically for supporting NCS students' learning of Chinese with details including the target participants and estimated amount of funding are set out in the table below. Evaluation and monitoring of the programmes is conducted by various means such as observations, meetings with service providers, reports submitted by service providers etc. and EDB will continue to review the programmes to ensure that they best suit the needs of participants.

NGOs / academic institutions	Target participants	Expenditure (\$ million, round up to nearest one decimal)	
		2015/16 (Actual)	2016/17 (Estimate)
The University of Hong Kong  to offer remedial programmes after school hours and during holidays at the Chinese Language Learning Support Centres for those NCS students who have a late start in learning the Chinese language	NCS students in primary and secondary schools	3.7	3.9
(i) The Hong Kong Christian Service  (ii) The HKSKH Lady MacLehose Centre  to organise district-based programmes to motivate NCS children to learn Chinese through fun activities such as games and creative art, etc.	NCS children aged 3 to 9	1.6  0.7  (funded by the Language Fund)	1.1  0.6  (funded by the Language Fund)
Caritas - Hong Kong  to organise "Pilot Project on Providing Career-related Experience for NCS students in Secondary Schools"	NCS students of senior secondary levels	1.9	2.4
(i) The University of Hong Kong (for kindergartens and primary schools)  (ii) The PolyU Technology & Consultancy Company Limited and Department of Chinese and Bilingual Studies of the Hong Kong Polytechnic University (for primary schools only)  to organise school-level University-School Support Programme for kindergartens, and primary schools in respect of the learning and teaching of Chinese for NCS students	Kindergartens and primary schools admitting NCS students which have applied for this support programme	7.0  1.5  (funded by the Education Development Fund)	11.5  1.5  (funded by the Education Development Fund)

Notes:

In parallel, eligible schools admitting NCS students are provided with additional recurrent funding to support the learning of the Chinese language of NCS students. With the additional funding and schools' deployment of resources, it was not uncommon for schools to offer Chinese language programmes in collaboration with NGOs and/or academic institutions. The relevant expenses were subsumed under the overall expenditure of the schools and a breakdown of expenditure in this regard is not available.

Director of Bureau: Secretary for Education

Question:

Will the government inform this Council of:

- (a) The number of non-Chinese speaking students who have participated in Primary One Admission (POA) System in each of the school years from 2013/14 to 2016/17 and their percentage among all non-Chinese speaking students in K.3 in those school years;
- (b) The number of non-Chinese speaking students who got admitted by a primary school in the "Discretionary Places Admission" stage in each of the school years from 2013/14 to 2016/17;
- (c) The percentage of students in (b) admitted by the 8 primary schools in Appendix 3 of the "Application Form for Admission to Primary One"
- (d) The number of non-Chinese speaking students who got admitted by a primary school in the "Central Allocation" stage in each of the school years from 2013/14 to 2016/17;
- (e) The percentage of students in (d) admitted by the 8 primary schools in Appendix 3 of the "Application Form for Admission to Primary One"

(a), (b) and (c): NCS students who:	2014/15	2015/16	2016/17
1. Studied in K3			
2. Participated in POA			
3. Gained admission through Discretionary Places Admission stage			
4. Students in (3) who were admitted to the 8 schools on Appendix 3			
5. Gained admission through Central Allocation stage			
6. Students in (5) who were admitted to the 8 schools on Appendix 3			

- (f) The number of non-Chinese speaking students who have participated in Secondary School Places Allocation System in each of the school years from 2013/14 to 2016/17 and their percentage among all non-Chinese speaking students in P.6 in those school years;
- (g) The number of non-Chinese speaking students who got admitted by a secondary school in the "Discretionary Places Admission" stage in each of the school years from 2013/14 to 2016/17;
- (h) The number of non-Chinese speaking students who got admitted by a secondary school in the "Central Allocation" stage in each of the school years from 2014/15 to 2016/17;

(d), (e) and (f):	2014/15	2015/16	2016/17

NCS students who:			
Studied in P6			
Participated in SSPA			
Gained admission through Discretionary Places Admission stage			
Gained admission through Central Allocation stage			

- (i) The numbers of non-Chinese speaking students admitted into Primary 1 and Secondary 1 of Direct Subsidies Scheme (DSS) schools each of the years from 2013/14 to 2016/17 respectively and their respective percentages among all non-Chinese speaking Primary 1 students and all non-Chinese speaking Secondary 1 students in public schools in each of those school years.

Asked by: Hon IP Kin-yuen (Member Question No. 135)

Reply:

- (a) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS children studying in kindergartens (including kindergarten-cum-child care centres) at Kindergarten 3 level is 3 173, 3 196, 3 075 and 3 075 in the 2013/14, 2014/15, 2015/16 and 2016/17 school years respectively. The number of NCS students participating in the Primary One Admission (POA) 2014 (for admission in the 2014/15 school year), POA 2015 (for admission in the 2015/16 school year) and POA 2016 (for admission in the 2016/17 school year) is 1 202, 1 199 and 1 270 respectively. POA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.

According to the eligibility requirements, a child is not required to study at Kindergarten 3 for participation in the POA. Besides, the number of NCS children studying at Kindergarten 3 has included local and non-local kindergartens. As such, the corresponding percentage share of NCS children participating in the POA cannot be worked out.

- (b) The number of NCS students who were admitted through the “Discretionary Places” stage in POA 2014 (for admission in the 2014/15 school year), POA 2015 (for admission in the 2015/16 school year) and POA 2016 (for admission in the 2016/17 school year) is 728, 752 and 763 respectively. POA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (c) The percentage of NCS students who were admitted through the “Discretionary Places” stage to the eight schools traditionally admitting more NCS students in POA 2014 (for admission in the 2014/15 school year), POA 2015 (for admission in the 2015/16 school year) and POA 2016 (for admission in the 2016/17 school year) is 32.0%, 31.1% and 29.5% respectively. POA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (d) The number of NCS students who were allocated a Primary 1 place at the “Central Allocation” stage in POA 2014 (for admission in the 2014/15 school year), POA 2015 (for admission in the 2015/16 school year) and POA 2016 (for admission in the 2016/17 school year) is 474, 447 and 507 respectively. POA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (e) The percentage of NCS students who were allocated a Primary 1 place at the “Central Allocation” stage to the eight schools traditionally admitting more NCS students in POA 2014 (for admission in the 2014/15 school year), POA 2015 (for admission in the 2015/16 school year) and POA 2016 (for admission in the 2016/17 school year) is 27.8%, 28.0% and 28.0% respectively. POA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (f) The number of Primary 6 NCS students participating in the Secondary School Places Allocation (SSPA) 2014 (for admission in the 2014/15 school year), SSPA 2015 (for admission in the 2015/16 school year) and SSPA 2016 (for admission in the 2016/17 school year) is 1 398, 1 435 and 1 390 respectively. The corresponding percentage share among all Primary 6 NCS students in public sector

schools, schools under the Direct Subsidy Scheme (DSS) and private schools (excluding special schools, the English Schools Foundation schools, other international schools and Private Independent Schools) is 95.6%, 96.6% and 94.5% in the respective years. SSPA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.

- (g) The number of Primary 6 NCS students who were allocated a Secondary 1 place at the “Discretionary Places” stage in SSPA 2014 (for admission in the 2014/15 school year), SSPA 2015 (for admission in the 2015/16 school year) and SSPA 2016 (for admission in the 2016/17 school year) is 874, 893 and 947 respectively. SSPA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (h) The number of Primary 6 NCS students who were allocated a Secondary 1 place at the “Central Allocation” stage in SSPA 2015 (for admission in the 2015/16 school year) and SSPA 2016 (for admission in the 2016/17 school year) is 542 and 443 respectively. SSPA 2017 has not yet completed and relevant figures for the 2017/18 school year are not available.
- (i) The number of NCS students who were admitted to Primary 1 in DSS schools in the 2013/14, 2014/15, 2015/16 and 2016/17 school years is 195, 188, 192 and 177 respectively. The corresponding percentage share among all Primary 1 NCS students in public sector (excluding special schools) and DSS schools is 13.5%, 11.9%, 12.1% and 11.2% in the 2013/14, 2014/15, 2015/16 and 2016/17 school years respectively.

As for Secondary 1, the number of NCS students who were admitted to DSS schools in the 2013/14, 2014/15, 2015/16 and 2016/17 school years is 773, 768, 767 and 790 respectively. The corresponding percentage share among all Secondary 1 NCS students in public sector (excluding special schools) and DSS schools is 53.8%, 47.6%, 44.3% and 47.9% in the 2013/14, 2014/15, 2015/16 and 2016/17 school years respectively.

Question:

Will the government inform this Council of:

- (a) Details of funding (excluding that spent by schools under the implementation of the “Chinese Language Curriculum Second Language Learning Framework”) designated for the education of parents of non-Chinese speaking students, including the amount of each batch of funding, the names of any non-governmental organizations receiving the funding, the period covered by each batch of funding, the target group of each batch of funding;
- (b) The number of education-related events, talks, sessions or forums which are designated for the parents of non-Chinese speaking students funded by the government in each of the years from 2014/15 to 2016/17;
- (c) The number of non-Chinese speaking parents attending each of the events mentioned in (b);
- (d) The number of education-related events, talks, sessions or forums which are designated for the parents of non-Chinese speaking students organized by the EDB in each of the years from 2014/15 to 2016/17;
- (e) The number of non-Chinese speaking parents attending each of the events mentioned in (d);
- (f) The number of education-related events, talks, sessions or forums for all parents conducted in Chinese only, the number of these events conducted in both Chinese and English and the number of these events conducted in languages other than Chinese and English in each of the years from 2014/15 to 2016/17;
- (g) The number of non-Chinese speaking parents attending each of the types of event mentioned in (f);
- (h) The number of enquiries and complaints from non-Chinese speaking students and parents received by each regional education office of the Education Bureau in each of the schools years from 2014/15 to 2016/17 and the number of these complaints substantiated and the number of these complaints unsubstantiated in each of these years.

Asked by: Hon IP Kin-yuen (Member Question No. 136)

Reply:

- (a) to (g) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools.

In this connection, in the 2014/15, 2015/16 and 2016/17 school years, a total of 173, 197 and 216 schools are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students respectively. The school plans and reports submitted show that, in addition to implementation of the “Learning Framework”, schools will flexibly deploy the additional funding to organise briefings and seminars for parents of NCS students. On the other hand, diversified modes of education-related programmes including seminars, briefing sessions, workshops, etc. for parents of NCS students are also offered by EDB and/or in collaboration with tertiary institutions and/or non-governmental organisations as appropriate. For instance, briefing sessions dedicated for parents of NCS students on, among others, student financial assistance schemes, quality kindergarten education, admission arrangements for K1 classes in kindergartens, admission to Primary 1 and Secondary 1 in public sector schools, educational support for NCS students, etc. are organised from time to time. Interpretation services of major ethnic minority languages are provided where necessary. The objectives of these programmes are to help parents of NCS students and/or their children better understand our school system, major education policies and related support services; encourage parents of NCS students to send their children to schools with an immersed Chinese language environment; and facilitate parents of NCS students to make informed school choices. Besides, starting from 2013, the Summer Bridging Programme for NCS students has been refined to allow parents of NCS students to accompany their children to attend with a view to enhancing their exposure to, and use of, Chinese and support for their children in learning the Chinese language. About 360, 240 and 190 parents of NCS students participated in the programme in 2014, 2015 and 2016 respectively. In tandem, the Chinese Language Learning Support Centres also organise workshops for parents of NCS students with a view to strengthening collaboration with them in the support for NCS students’ learning of Chinese. About 160 parents of NCS students have participated in the parent workshops since the 2014/15 school years. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or programmes concerned, hence a breakdown of expenditure by item is not available. Given the diversified modes of the briefings, seminars and workshops offered for parents of NCS students, involving different parties including schools, tertiary institutions, and non-governmental organisations, related statistics on participation of parents of NCS students are not available.

- (h) From the 2014/15 to 2016/17 school years, EDB has not received any complaints regarding NCS students’ learning of the Chinese language or education-related programmes, seminars or workshops for parents of NCS students. As regards enquiries, as EDB does not keep particular record on the enquirers’ ethnicity or spoken language at home, statistics on enquiries from NCS students or their parents are not available.

Asked by: Hon IP Kin-yuen (Member Question No. 137)

Reply:

(a) to (g)

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. Schools are required to report to the Education Bureau (EDB) on the 7th day of students' continuous absence, irrespective of their class levels. EDB would provide support services to identified non-attendance cases with a view to bringing students back to school at the earliest opportunity and does not further classify these

cases. The number of non-attendance students at S1 to S6 levels reported in the 2015/16 school year is tabulated below. Information for the 2016/2017 school year is not yet available.

Grade level \ School year	2015/16
S1	700
S2	595
S3	1 095
S4	1 153
S5	758
S6	11

We do not readily have breakdown of the non-attendance cases by language and ethnic group as schools need not provide such information in their report to EDB.

EDB is committed to assisting all non-Chinese speaking (NCS) students in adapting to the local education system. Towards this end, we have provided various support services to school administrators, teachers and parents to cater for their learning and adaption needs. Where necessary, support for individual cases would be provided by teachers, student guidance personnel or school social workers.

(h)

Generally speaking, EDB subvents full-time Diploma of Vocational Education programmes operated by the Vocational Training Council (VTC) for Secondary 3-5 school leavers, including NCS students. Also, VTC provides different pre-employment programmes dedicated to NCS students for obtaining a formal qualification for the purpose of employment and further study. NCS students can also apply for other non-dedicated pre-employment programmes. NCS students of VTC's pre-employment programmes enjoy various support services to help them better cope with study and adapt to campus life. These services include academic and learning support, such as student orientations, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme and various student activities for promoting a culture of inclusion and integration with the community as well as advisory support for articulation and career development. Separate breakdown of resources deployed to support services for NCS students is not available.

- End -

**CONTROLLING OFFICER'S REPLY****EDB558****(Question Serial No. 4840)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (7) Post-secondary, Vocational and Professional Education, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

1. What support measures are currently provided by the Education Bureau for students with special educational needs (SEN), including hearing impairment, visual impairment and physical disability, etc., in post-secondary institutions to meet their learning needs?
2. Please provide in tabular form the following information on students with SEN in all University Grants Committee-funded institutions and in all member institutions of the Vocational Training Council from the 2012/13 to 2016/17 academic years.

Institution	Number of students with SEN	Type of learning difficulties	Average amount of money each student received under the support measures

Asked by: Hon IP Kin-yuen (Member Question No. 138)Reply:

1. To further support SEN students in the post-secondary sector, the Government has implemented various initiatives in recent years, as detailed below.

(a) To facilitate SEN students to pursue University Grants Committee (UGC)-funded programmes and adapt to campus life, as well as to further promote the inclusive culture, UGC has provided a one-off special grant of \$20 million in total for the eight UGC-funded universities in 2015 to enhance the UGC-funded universities' support for students with SEN, as a means to demonstrate UGC's commitment towards offering equal opportunities to all people, including students with SEN. The grant has been allocated on a pro-rata basis according to the number of students with SEN admitted to individual universities, so that universities may implement additional measures to enhance their support services for students with SEN. The funding is for the eight UGC-funded universities to purchase the necessary aids and equipment to facilitate the study of students with SEN; strengthen training among the academic and administrative staff to enhance their awareness towards students with SEN; and support student bodies to organise events and activities to encourage integration of students with SEN into campus life. Upon conclusion of the scheme, universities are required to deploy resources from the Block Grant to continue with the provision of such measures.

(b) In 2013, the Government made two separate injections of \$20 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, in recognition of deserving post-secondary students with special educational needs in their pursuit of excellence in academic and other

areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive scholarship of \$10,000. The number of EMA and EDS recipients in the 2013/14 to 2015/16 academic years is shown at **Annex A**.

(c) Starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council (VTC) to enhance the support services for students with SEN.

(d) The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund, to implement a programme from 2015/16 to 2017/18 academic year, for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, by purchasing equipment. Each eligible student is offered an additional academic expenses grant of up to \$8,000 every year depending on the level of assistance assessed in the means test conducted by the Student Finance Office of the Working Family and Student Financial Assistance Agency.

The Government is committed to providing young people, including SEN students, with flexible and diversified study pathways with multiple entry and exit points, which include undergraduate and sub-degree programmes and vocational education programmes. UGC and the Education Bureau will, among others, continue to maintain liaison with UGC-funded and self-financing institutions to follow up on the provision of support by individual institutions for students with SEN and promote the inclusive culture.

2. The number of students with SEN studying full-time UGC-funded sub-degree and undergraduate programmes, by university and type of disability from the 2012/13 to 2016/17 academic years is at **Annex B**. The number of students with SEN studying in all member institutions of the VTC from the 2012/13 to 2016/17 academic years is at **Annex C**. Since funding for students with special educational needs is subsumed under the Block Grant and recurrent subvention provided for individual UGC-funded universities and VTC respectively, we are not able to provide the actual amount of expenditure on support services for such students.

**CONTROLLING OFFICER'S REPLY**

**EDB559**

**(Question Serial No. 4841)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the allocation under various scholarship schemes administered by the Government in the past 5 academic years:

(a) please provide the respective number of scholarships allocated to funded and self-financing post-secondary institutions, the expenditure involved and rate of change; and

(b) please provide by place of origin the respective number of local and non-local applications, number of scholarships awarded, success rate among applicants and total amount of scholarships awarded.

Asked by: Hon IP Kin-yuen (Member Question No. 139)

Reply:

(a) and (b)

The HKSAR Government Scholarship Fund (GSF) was established in 2008 as an endowment fund to generate investment income to support various government scholarship schemes for outstanding students. Each academic year, scholarships under GSF are allocated to ten institutions offering full-time publicly-funded programmes at degree or above and sub-degree levels, including the eight University Grants Committee (UGC)-funded universities, the Hong Kong Academy for Performing Arts and the Vocational Training Council. The allocation of scholarships by institution and place of origin under GSF in the past 5 academic years are set out at **Annex A**.

The Hong Kong PhD Fellowship Scheme (the Scheme), established in 2009, is open to local as well as non-local students who wish to pursue their PhD programmes in the UGC-funded universities. The Fellowship provides each awardee with a monthly stipend of HK\$20,000 and a conference and research-related travel allowance of HK\$10,000 per year for up to three years. The allocations by university and place of origin under the Scheme in the past 5 academic years are set out at **Annex B**.

The Self-financing Post-secondary Education Fund (SPEF) has been set up since the 2011/12 academic year as an endowment fund to support the quality and healthy development of the self-financing sector. The Self-financing Post-secondary Scholarship Scheme (SPSS) under SPEF provides scholarships for outstanding students of full-time locally-accredited self-financing sub-degree and undergraduate programmes. The allocation of scholarships under SPSS by institution and place of origin in the past five academic years are set out at **Annex C**.

Note 1: The Talent Development Scholarship (TDS) and Reaching Out Award (ROA) were established in 2012/13 academic year to benefit students not only with outstanding academic performance, but also achievements and talents in other non-academic fields.

Note 2: The Endeavour Merit Award (EMA) was set up in 2013/14 academic year to give recognition to deserving students with special educational needs.

Note 3: Information on the TDS and ROA under the HKSAR Government Scholarship Fund is not available yet. Therefore, the rate of change is not provided as we are not comparing like with like.

**CONTROLLING OFFICER'S REPLY****EDB560****(Question Serial No. 4842)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please provide the number of senior management staff, the expenditure on salary and benefits in this regard and the percentage it accounts for the total expenditure on salary and benefits in the past 3 academic years; and
- (b) Please provide a breakdown of the number of teaching staff and other staff on contract and substantive appointment and the percentage share in the total number of staff by terms of employment.

Asked by: Hon IP Kin-yuen (Member Question No. 140)

Reply:

- (a) The information required for staff at the top three tiers in the Vocational Training Council (VTC) is as follows -

Financial year	Number of Staff	Staff expenses (\$ million)	% to total staff expenses
2014-15	14	38	1%
2015-16	14	41	1%
2016-17 (Estimate)	14	43	1%

- (b) In the 2016/17 academic year, the provisional number of teaching staff and administrative and supporting staff and their percentages (as compared to the total number of staff) under the New Remuneration Package, Old Remuneration Package and Short-Term Contract are as follows -

Staff Type	Number of staff employed under			Total number of staff
	Old Remuneration Package	New Remuneration Package	Short-term Contract	
Teaching	706 (11.9%)	1 666 (28.1%)	483 (8.2%)	5 921
Administrative and supporting	1 069 (18.1%)	1 626 (27.5%)	371 (6.3%)	

- End -

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

- (a) The Administration plans to support more needy Hong Kong students who are pursuing undergraduate studies in those Mainland higher education institutions participating in the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions. What are the details?
- (b) Please list the number of recipients of the subsidy, names of the institutions they studied at and total amount of subsidy involved in the past.
- (c) What are the estimated increases in the number of recipients of the subsidy and in expenditure?

Asked by: Hon IP Kin-yuen (Member Question No. 145)

Reply:

(a) The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

(b) For the 2014/15 academic year, 263 applicants were eligible to receive the subsidy. For the 2015/16 and 2016/17 (28 February 2017) academic years, including both newly approved applications and successful renewals, subsidy was provided to 479 students and 2 144 students respectively. Breakdowns of the recipients by institutions in the 2014/15, 2015/16 and 2016/17 academic years are set out at Annex.

The total amount of subsidy granted under the MUSSS in the 2014/15 and 2015/16 academic years was about \$3.1 million and \$5.9 million respectively, and that for the 2016/17 academic year is estimated to be about \$27 million.

(c) Regarding 2017/18 academic year, the number of subsidy recipients and the expenditure would depend on the number of newly approved applications and successful renewals. Sufficient provision has been reserved for the purpose.

**CONTROLLING OFFICER'S REPLY**

**EDB562**

**(Question Serial No. 4848)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (950) Hong Kong Examinations and Assessment Authority  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the Hong Kong Diploma of Secondary Education Examination conducted by the Hong Kong Examinations and Assessment Authority in 2013-14, 2014-15 and 2015-16, please give a breakdown of the following:

(a) the number of appeal applications received (please list separately the appeals for rechecking scores and appeals for remarking scripts) by subject, the number of cases with result upgraded after review, the expenditure involved and the amount of fees refunded; and

(b) the number of appeal review applications received by category, the number of cases with different results after review by category, the expenditure involved and the total amount of fees refunded.

Asked by: Hon IP Kin-yuen (Member Question No. 146)

Reply:

Hong Kong Examinations and Assessment Authority (HKEAA) is a statutory body established under the HKEAA Ordinance which operates on a self-financing basis. Regarding the Hong Kong Diploma of Secondary Education (HKDSE) Examination conducted in 2014 to 2016, HKEAA has provided the following information -

(a) The number of appeal applications by subject, the number of cases with results upgraded after review, the expenditure involved and the fees refunded to applicants are at Appendix 1.

(b) The number of appeal review applications by category, the number of cases with different results after review, the expenditure involved and the fees refunded to applicants are at Appendix 2.

**CONTROLLING OFFICER'S REPLY**

**EDB563**

**(Question Serial No. 4850)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

(a) At present, the EDB is responsible for the enforcement of the Non-local Higher and Professional Education (Regulation) Ordinance. Please provide the number of staff in the establishment that is responsible for the enforcement of the Ordinance in 2015-16, 2016-17 and 2017-18 financial years (or the number of staff as in the revised estimates and estimates).

(b) Earlier on, there were allegations that some courses registered according to the Ordinance had administrative confusion, to the extent of falsifying documents to assist their students in obtaining bachelor's degrees awarded by overseas institutions through improper means. What measures will the Bureau take next year to prevent the recurrence of similar incidents?

Asked by: Hon IP Kin-yuen (Member Question No. 148)

Reply:

(a) In accordance with the Non-local Higher and Professional Education (Regulation) Ordinance (the Ordinance), all courses conducted in Hong Kong leading to the award of non-local higher academic qualifications or non-local professional qualifications (hereafter referred to collectively as "non-local courses") must be registered or exempted from registration. A Principal Assistant Secretary for Education of the Education Bureau (EDB) has been appointed as the Registrar of Non-local Higher and Professional Education Courses, who is assisted by the Non-local Courses Registry (the Registry) for enforcement of the Ordinance. From 2015-16 to 2017-18, the staff establishment of the Registry mainly includes one Senior Executive Officer (SExO) and four Executive Officers.

(b) EDB is very concerned about the quality of non-local courses and the way of running the courses by operators. Subsequent to a review conducted by the EDB on the existing monitoring and regulatory arrangements under the Ordinance, the Registry has already taken measures to enhance the existing regulatory arrangements over the operation of non-local courses. A new condition for registration has been imposed on courses registered since 31 October 2016 requiring operators concerned to maintain documents relating to the non-local courses (such as student's application forms, offer letters, credit exemption documents and payment records) for a specified period for the Registrar's examination when warranted. The arrangement of referring minor contraventions to law enforcement agencies for follow-up action has been tightened, and templates for periodic report have been prepared and put into use to comprehensively record and closely follow up cases of possible contraventions. Arrangements have also been made to publicise to students and parents, through various channels (such as website, seminar, circular, poster, and TV and radio Announcement of Public Interest), the regulatory regime of non-local courses in Hong Kong, the way in which consumers could protect themselves when considering enrolling in non-local courses, and that some non-local courses are locally accredited by the Hong Kong Council for Accreditation of Academic

and Vocational Qualifications. The Registry has also encouraged operators to apply for local accreditation under the Hong Kong Qualifications Framework to enhance the quality assurance of their non-local courses.

The Registry has posted on the EDB's website on 10 March 2017 the revised annual return form to require operators to provide more information on the non-local courses for Annual Returns with reporting period ending on or after 1 June 2017, which would facilitate the Registry to better monitor the operation of the courses.

The Registry is planning to conduct regular inspection starting from the third quarter of 2017. Preparatory work including training for staff and the drawing up of an inspection manual is underway.

**CONTROLLING OFFICER'S REPLY****EDB564****(Question Serial No. 4855)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the staffing provision for special schools, please provide the following information:

(a) the number of students, class size and number of social workers of each special school, tabulated using the table below;

School (name omitted)	Type of special school	Number of students	Class size	Number of social workers within the establishment
School 1				
School 2				
School 3				

(b) the current expenditure and the estimated expenditure for the coming year, respectively, on social workers in special schools; and

(c) the number of special schools that were allocated a curriculum leader post in the past 5 years (2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 153)

Reply:

(a)

Among the 60 aided special schools, the hospital school is not staffed with school social workers (SSW) as the specialist service is provided by the hospitals concerned. Besides, there is one special school undergoing mainstreaming with special arrangements for its teaching and non-teaching staff. In the 2016/17 school year, the Education Bureau (EDB) has provided the remaining 58 special schools with 116 SSWs. Each school is provided with at least one SSW on their establishment. For provision of resources for supporting students with diverse needs, it is our established practice that we do not disclose the situation of individual schools so as to avoid misconception and possible labelling on individual schools. The number of SSW by types of special schools is set out below:

Type of Special School	Class Size	Number of SSW in School
School for Children with Visual Impairment <sup>(Note 1)</sup>	10/12/15 <sup>(Note 1, 2)</sup>	1
School for Children with Hearing Impairment	10	1.5
School for Children with Physical Disability	10	1 to 3.5
School for Social Development	12/15 <sup>(Note 2)</sup>	1 to 4

School for Children with Mild Intellectual Disability	15	2 to 4
School for Children with Mild and Moderate Intellectual Disability	10/15 <sup>(Note 3)</sup>	3 to 5
School for Children with Moderate Intellectual Disability	10	1 to 2
School for Children with Severe Intellectual Disability	8	1

Note:

1. The schools for children with visual impairment include one school for children with visual impairment (VI school) and one school for children with visual impairment cum intellectual disability. The class size is 12 or 15 for the former and 10 for the latter.
2. The class size of the VI school and the schools for social development (SSDs) has been reduced from 15 to 12 students per class progressively by grade level starting from Primary One (SSDs do not operate classes at Primary One level, reduction of class size will start from Primary Two) and Secondary One concurrently from the 2014/15 school year. The improvement will be fully implemented in the respective types of special schools by the 2019/20 school year.
3. The class size of the respective sections of the school for children with mild and moderate intellectual disability is 10 and 15 respectively.

(b)

In the 2016/17 school year, the estimated expenditure on SSW in special schools is \$64 million. As the calculation of the SSW establishment is based on the actual number of school places in the approved classes for each school, we are unable to provide the estimated expenditure for the 2017/18 school year at this stage.

(c)

The numbers of special schools provided with a post of Primary School Curriculum Leader on their establishment in the past five school years are tabulated below:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17
Number of Schools	24	25	26	27	27

Question:

Concerning student suicides, would the Administration please inform this Committee of:

- (a) the figures on suicides committed by local primary students over the past 10 years;
- (b) the numbers of primary students who committed suicide at school over the past 10 years; and
- (c) whether there are measures in place to prevent student suicide? If yes, what are the details and the staffing and resources involved; what measures were implemented over the past 10 years and how effective were they?

Asked by: Hon KWOK Ka-ki (Member Question No. 99)

Reply:

- (a) and (b)

Schools are required to report cases of students suspected of committing suicide to the Education Bureau (EDB). Professional support will be provided for the schools concerned as appropriate. The nature and number of the fatal suicide cases will be confirmed after the legal proceedings of the Coroner's Court. Over the years, EDB has not captured the information from the Court. Hence, we are unable to provide officially verified figures on student suicides.

- (c)

EDB has always attached great importance to enhancing students' competency to cope with adversity, and is committed to nurturing students' positive attitude towards life. Since 2001, moral and civic education aiming to cultivate students' positive values and attitudes has been promoted as one of the Four Key Tasks for the curriculum reform in schools. To facilitate the implementation of life education at schools, EDB has provided schools with diversified and practical learning materials. EDB has also been organising related professional development programmes for teachers such as "Programme on Planning Life Education for Secondary Schools" and "Programme on Planning Life Education for Primary Schools" commissioned to the universities to share with schools on the direction and strategies of implementation, as well as the good practices. Moreover, life education and recent related social issues are discussed and shared in the teacher network and Learning Circle so as to enhance teachers' knowledge of life education and their pedagogical skills.

In parallel with the curriculum, we have actively organised diversified development programmes, such as the "Understanding Adolescent Project" for primary school students featuring adventures, teamwork and problem-solving training, the "Enhanced Smart Teen Project" in collaboration with disciplinary forces and

uniform groups for secondary school students, the “Pupil Ambassador Scheme on Positive Living”, etc. to enhance students’ resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. In recent years, EDB has also introduced a number of student guidance projects based on positive psychology concepts to help students develop a positive self-image and learn how to respect and cherish life. Moreover, we have been promoting a caring and harmonious school culture, strengthening the relationship between teachers and students and enhancing peer support so that students can enjoy their learning and school life.

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, EDB, in collaboration with relevant bureaux and department, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely “Universal”, “Selective” and “Indicated”. Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students’ knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

**CONTROLLING OFFICER'S REPLY****EDB570****(Question Serial No. 4607)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the primary education funding designated to increase the manpower resources of teaching staff to lower the student-to-teacher ratio over the past 3 years.

Asked by: Hon KWOK Ka-ki (Member Question No. 108)

Reply:

The student-to-teacher ratios of public sector primary schools from the 2014/15 to 2016/17 school years are as follows:

School Year	2014/15	2015/16	2016/17 (Estimate)
Student-to-teacher ratio	14.0 : 1	14.1 : 1	14.2 : 1

In general, the improvement of the student-to-teacher ratios in public sector primary schools over the years is mainly due to the implementation of Small Class Teaching. Besides, to cater for students with special educational needs, the Education Bureau (EDB) has been providing public sector mainstream primary schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant, and additional teachers and funding under the Intensive Remedial Teaching Programme and Integrated Education Programme. These grants, together with funding under various initiatives, provide the funding and flexibility for schools to employ additional teachers.

As EDB does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

Question:

In view of the projected increase in the number of primary school students in 2017/18, will the student-to-teacher ratio improve as a result of the increased provision for increasing teaching manpower for primary education?

Asked by: Hon KWOK Ka-ki (Member Question No. 109)

Reply:

Under the existing policy and practices, public sector primary schools are provided with teaching staff resources through (i) regular teacher establishment computed according to the number of classes approved and the teacher-to-class ratio; (ii) additional regular teachers provided under various initiatives; and (iii) cash grants with deployment flexibility for meeting specific policy objectives. Changes in the student-to-teacher ratio hinges on a host of factors such as changes in the student population, the actual number of approved classes, additional cash grants provided for specific initiatives and their deployment by individual schools for appointment of teachers, as well as the implementation of new initiatives which will bring about increase in teaching posts. It is projected that the number of primary school students will increase in the 2017/18 school year and we will provide schools with the required resources according to the current practices.

**CONTROLLING OFFICER'S REPLY****EDB572****(Question Serial No. 4609)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (3) Primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the funding allocated to primary education, over the past 3 years, for conducting life and death education and studies at schools as well as for organising more "Happy Kids" activities to help students relieve stress and cope with difficulties in their lives.

Asked by: Hon KWOK Ka-ki (Member Question No. 110)

Reply:

The Education Bureau (EDB) has always attached great importance to strengthening students' ability to cope with adversity and enhancing their respect for life. Since 2001, moral and civic education (MCE) aiming to cultivate students' positive values and attitudes has been promoted as one of the Four Key Tasks for the curriculum reform in schools. In consideration of schools' vision and students' learning needs, schools could implement MCE through providing various learning opportunities, such as school assemblies, life education periods, class teacher periods and life-wide learning activities to foster students' whole-person development. Moreover, the content of life education, such as "understand life", "cherish life", "respect life" and "explore life", has already been incorporated into different learning themes under the school curriculum. For example, topic on "respect and value life" has been included in General Studies at the primary level.

Life education aims at helping students develop positive values and attitudes and enhance their resilience. To facilitate the implementation of life education at schools, EDB has been developing online resources and provided schools with diversified and practical learning materials, including "Life Event Exemplars" based on students' daily life experiences. In the recent years, EDB has been organising professional development programmes and learning communities for teachers, with a view to helping schools formulate their school-based life education curriculum as needed and facilitating teachers' acquisition of teaching strategies and skills necessary for effective implementation of life education. Expenditures for the related curriculum development work, which includes promotion of life education in schools, the provision of professional development programmes for school heads and teachers, production of learning and teaching resources, provision of learning activities for students and collaboration with other government departments and bodies, are subsumed under the recurrent expenditures of relevant EDB sections. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the expenditure on life education in primary schools in the past 3 years.

Moreover, EDB has been providing financial support to schools and Parent-Teacher Associations (PTAs) annually for organising school-based home-school co-operation and parent education activities, including activities for nurturing students' positive values and healthy life style. In addition, a one-off special Home-School Co-operation Grant of \$5000 was disbursed in 2016 to all public schools and schools under

Direct Subsidy Scheme to subsidise their PTAs in organising parent talks or activities which will facilitate parents to support the healthy mental development of children or activities for enhancing communication with children. As schools or PTAs may use the grants provided to organise different activities not restricted to those for relieving students' stress, a breakdown of expenditure in this regard is not available.

Apart from the above provisions, EDB has jointly launched the Joyful@School Campaign with the Department of Health in the 2016/17 school year with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown of the secondary education funding designated to increase the manpower resources of teaching staff to lower the student-to-teacher ratio over the past 3 years.

Asked by: Hon KWOK Ka-ki (Member Question No. 114)

Reply:

The student-to-teacher ratios of public sector secondary schools from the 2014/15 to 2016/17 school years are as follows:

School Year	2014/15	2015/16	2016/17 (Estimate)
Student-to-teacher ratio	13.0 : 1	12.3 : 1	11.9 : 1

The improvement of the student-to-teacher ratios is mainly due to the introduction of a series of relief measures to tackle the decline in secondary school student population, including the reduction in the number of students allocated to each S1 class, the implementation of Voluntary Optimisation of Class Structure Scheme and the extension of retention period of surplus teachers, all of which help retain serving teachers. Moreover, the provision of specific grants for the new senior secondary curriculum, and other grants provided under initiatives such as the Career and Life Planning Grant, etc., also enable schools to employ additional teachers.

Besides, to help schools cater for students with special educational needs, the Education Bureau (EDB) has been providing public sector mainstream secondary schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant, additional teachers and funding under the Integrated Education Programme and additional teachers to cater for academic low achievers.

As EDB does not capture the school-based information on the deployment of such grants in employing additional teachers, we are unable to provide the expenditure involved for bringing about such improvements.

Question:

Regarding the promotion of whole-person development among secondary students in paragraph 19, will additional resources allocated for secondary education be used to develop a curriculum on Hong Kong history (the centennial history covering the 1967 Riot, the 1989 Democracy Movement and the Defence of Hong Kong) in line with the Education Bureau's advocating of whole-person education and civic education, so as to enable students to have more comprehensive understanding and knowledge of Hong Kong and support the core subject of Liberal Studies under the senior secondary curriculum?

Asked by: Hon KWOK Ka-ki (Member Question No. 115)

Reply:

The Education Bureau (EDB) attaches much importance to history education. The existing Chinese History and History subject curricula have already covered Hong Kong's development for enhancing students' understanding of the major trends of development of Hong Kong from prehistoric times to the end of 20<sup>th</sup> century. In alignment with curriculum objectives and students' needs, teachers could teach relevant local happenings in an objective, factual, fair and unbiased manner, and organise activities, such as project competitions, and visits to museums and local heritage sites, to enrich students' understanding of Hong Kong's development, and the relationship between the Mainland and Hong Kong.

The learning of Hong Kong's development is only one part of students' education. EDB consistently promotes students' whole-person development and civic education through various strategies and measures, including conducting curriculum development and review, developing teachers' professional development programmes and learning and resources, and organising student activities, etc. so as to provide a holistic learning experience for students.

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Will the Education Bureau consider deploying relevant resources to provide opportunities for students and teachers to go to other places in the East Asia region to get to know the authentic Chinese culture?

Asked by: Hon Kwok Ka-ki (Member Question No. 121)

Reply:

To promote Chinese history and culture education, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools). In accordance with their school context and development needs, schools may flexibly deploy the one-off grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources; supporting teachers to participate in interflow activities on learning and teaching in the Mainland; and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices.

For schools that would like to organise visits to other East Asian regions for learning Chinese culture, they may consider applying for the Quality Education Fund to organise learning and professional development activities for their teachers and students. The funding ceiling on the cost/fee of the trip to Asia (including the Mainland China and Middle East) per student is currently \$6,500, and the actual subsidy for each student may vary depending on their socio-economic background.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

With regard to supporting schools to cater for students with special educational needs (SEN), would the Administration advise of the following:

- a. whether expenditures and manpower were earmarked in the past 3 years and in the 2017-18 Estimates for supporting schools to cater for students with learning difficulties; if yes, of the respective amounts; if no, what are the details?
- b. what were the numbers of funding applications in the past 3 years? How funding were used by the successful applicants? Please set out the school projects implemented with such funding.
- c. whether measures are in place to monitor the use of funding by schools; if yes, of the details of the relevant measures as well as the manpower involved.
- d. whether measures are in place to assess the effectiveness of schools' use of funding; if yes, of the assessment measures and assessment results.
- e. whether there were any assessments in the past 3 years regarding the "basic courses" of special education training and the actual needs of students with SEN, as well as the expenditure involved in providing such training to serving teachers
- f. whether there were any assessments in the past 3 years regarding the "advanced courses" of special education training and the actual needs of students with SEN, as well as the expenditure involved in providing such training to serving teachers
- g. whether there were any assessments in the past 3 years regarding the "thematic courses" of special education training and the actual needs of students with SEN, as well as the expenditure involved in providing such training to serving teachers

Asked by: Hon KWOK Ka-ki (Member Question No. 302)

Reply:

(a) to (d)

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools, including the Learning Support Grant (LSG). The amount of the LSG is calculated on the basis of the number of students with SEN and the tier of support the students require. There is no need for

schools to make applications for LSG. To further enhance the support for students with SEN in public sector mainstream schools, EDB has increased the grant rates of the LSG by 30% in the 2014/15 school year. The grant rates and its ceiling are adjusted annually according to the change in the Composite Consumer Price Index starting from the 2015/16 school year. In the 2016/17 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,725 and \$27,450 respectively and the basic provision per school per annum for the first one to six students requiring tier-3 support has also been raised to \$164,700. The ceiling of LSG is \$1,583,616 per school per annum. Other additional resources include Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, additional teachers to cater for low academic achievers, etc. Schools are required to deploy their resources holistically and flexibly to provide appropriate support services for students with SEN based on their needs, such as employing additional teachers, teaching assistants or hiring professional services (such as speech therapy services), etc. Since the context of individual schools differs, and school-based support services vary according to the genuine needs of their students with SEN, the use of grant by each public sector school on hiring different types of staff or professional services differs.

Apart from the additional resources mentioned above, EDB also provides schools with professional support and teacher training to help them cater for their students with SEN. The total expenditure for supporting public sector mainstream primary and secondary schools in catering for students with SEN for the 2014/15 and 2015/16 school years was \$1,222 million and \$1,310 million respectively, whereas the estimated expenditure for the 2016/17 and 2017/18 school years is \$1,417 million and \$1,469 million respectively.

When using Government subventions for employing staff and purchases, including hiring of services, all public sector schools are required to adopt a sound control system, maintain proper records and conduct periodic inspections. Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation each year, similar to other school policies and measures. EDB also requires schools to submit a self-evaluation report on the implementation of the Whole School Approach to Integrated Education at the end of each school year. To further enhance transparency, schools are required to set out how resources are deployed to provide support services for students with SEN and upload such information into their school websites. Besides, EDB's professional staff conduct regular school visits and organise training and sharing sessions for schools to ensure proper deployment of resources for supporting students with SEN. In short, the effective use of resources by schools to support students with SEN is under on-going review under an established accountability and monitoring mechanism.

(e) to (g)

EDB launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are provided for serving teachers to enhance their capacity in supporting students with SEN. We have been reviewing the contents of the BAT Courses and the training targets having regard to the latest development in special education and the training position of schools as and when appropriate. For example, in consideration of the international trend of supporting students according to their needs, we re-categorised the elective modules of the Advanced Course and the Thematic Courses according to the educational needs of students with SEN instead of the SEN types since the 2012/13 school year. To facilitate teachers' application of the knowledge gained acquired from the training courses, we have further enhanced the practical elements of the Advanced and Thematic Courses in the 2014/15 school year. Moreover, taking into account the situation of teachers trained in public sector mainstream schools as well as the types and numbers of students with SEN enrolled in mainstream schools, in the 2015/16 school year, we have raised the training targets for each of the public sector mainstream schools to be achieved by the end of the 2019/20 school year as follows:

- (i) at least 15% to 25% of teachers will have completed the Basic Course;
- (ii) at least six to nine teachers will have completed the Advanced Course; and
- (iii) at least six to nine teachers will have completed the Thematic Courses (with at least one teacher completing the course(s) under each category as far as possible).

The expenditure on the BAT Courses from the 2014/15 to 2016/17 school years is as follows:

Course	Expenditure (\$ million)		
	2014/15 (Actual)	2015/16 (Actual)	2016/17 (Revised Estimate)
Basic	7.3	8.3	10.0
Advanced	7.8	12.6	14.3
Thematic	24.4	24.2	25.0
Total	39.5	45.1	49.3

We will continue to monitor the progress of teacher training in catering for students with SEN in mainstreaming schools and regularly review the BAT Courses to ensure that appropriate training are provided for teachers.

Question:

Will the Administration please inform us of the numbers of students with various types of learning difficulties in the past 3 years? Please give a breakdown of the numbers of students by age group and type of learning difficulties as well as the percentage share of such figures in the population of the respective age groups.

Asked by: Hon KWOK Ka-ki (Member Question No. 304)

Reply:

The Education Bureau maintains data of students with special educational needs (SEN) by grade levels and their SEN types. We do not keep the student data by age groups. The number of students with SEN in public sector mainstream schools by grade levels and by SEN types from the 2013/14 to 2015/16 school years is tabulated at the Appendix. We are unable to provide the percentage share of students with SEN in the population of the respective age groups.

**CONTROLLING OFFICER'S REPLY****EDB587****(Question Serial No. 4777)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

With regard to teacher training, will the Administration please advise on:

(a) the respective numbers of primary and secondary school teachers who had completed the basic course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?

(b) the respective numbers of primary and secondary school teachers who had completed the advanced course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?

(c) the respective numbers of primary and secondary school teachers who had completed a thematic course on special education in the past 3 years? What were their respective percentage shares in the total numbers of primary and secondary school teachers in Hong Kong?

Asked by: Hon KWOK Ka-ki (Member Question No. 305)

Reply:

(a) to (c)

The Education Bureau is committed to enhancing the professional capacity of teachers in catering for students with special educational needs. We launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are conducted for serving teachers.

The number of public sector mainstream school teachers having completed the BAT Courses from 2013/14 to 2015/16 is as follows:

Course	2013/14		2014/15		2015/16	
	Primary	Secondary	Primary	Secondary	Primary	Secondary
Basic	215	356	215	295	221	364
Advanced	92	141	74	86	109	147
Thematic	200	281	152	316	201	250

As the same teacher may attend one or more of the BAT Courses, providing the percentage share of teachers having attended the BAT Courses in the total numbers of primary and secondary teachers is considered inappropriate and misleading.

**CONTROLLING OFFICER'S REPLY****EDB588****(Question Serial No. 4778)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the respective number of students receiving the assistance of special education in pre-primary institutions, primary schools, secondary schools, special schools and post-secondary institutions, as well as the expenditures involved.

Asked by: Hon KWOK Ka-ki (Member Question No. 306)

Reply:

Under the prevailing education policy, the Education Bureau (EDB) will, subject to the assessment and recommendations of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with special educational needs (SEN) may attend mainstream schools. EDB has been providing regular subvention for all mainstream and special schools from which all students, including students with SEN, will benefit.

In addition, to support mainstream schools in catering for students with SEN, EDB has been providing schools with additional resources, professional support and teacher training. The revised estimate of expenditure on additional support and services provided for students with SEN in public sector mainstream primary and secondary schools on top of the regular subvention in the 2016/17 school year is \$1,417 million. For special schools, the revised estimate of expenditure for the 2016-17 financial year is \$2,324 million.

The number of students with SEN studying in public sector mainstream primary schools, secondary schools and special schools in the 2016/17 school year is set out in the table below:

	Primary School	Secondary School	Special School
Number of Students	21 860	21 030	7 680

At pre-primary levels, services for children with SEN are provided by the Social Welfare Department. The Education Bureau does not have the related data.

As far as universities funded by the University Grants Committee are concerned, since funding for students with SEN is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students.

In 2013, the Government made two separate injections of \$20 million each, bringing the total to \$40 million, into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, in

recognition of deserving post-secondary students with SEN in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive scholarship of \$10,000.

The number of EMA and EDS recipients in the 2013/14 to 2015/16 academic years is shown in the table below:

Academic Year	2013/14	2014/15	2015/16
Number of Recipients of Endeavour Merit Award	50	74	97
Number of Recipients of Endeavour Scholarship	50	75	98

Separately, starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council to enhance the support services for students with SEN.

Question:

Has the Administration implemented small-class teaching in pre-primary institutions, kindergartens, and primary and secondary schools to specifically cater for the need of students with learning disabilities? What are the teacher-student ratios in these classes?

Asked by: Hon KWOK Ka-ki (Member Question No. 307)

Reply:

To help schools cater for their students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector primary and secondary schools with additional resources on top of the regular subvention for all mainstream schools, professional support and teacher training. The additional resources include Learning Support Grant, Enhanced Speech Therapy Grant, and additional teachers under different schemes, etc. Schools are required to pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN based on their needs, including employing additional teachers and teaching assistants to arrange small class/group learning, among other support services (such as in-class support, supplemental coaching after class, pull-out programmes, etc) or hiring professional services (such as speech therapy, other specialist services, training groups on social/communication/executive functioning skills, emotion management, learning strategies, peer-mediated activities, etc). In other words, schools will deploy corresponding teaching strategies based on the support needs of students with SEN, including but not limited to small class teaching. EDB does not collect such school-based information, hence is unable to provide the information as requested.

As support services for children with SEN at pre-primary levels are provided by the Social Welfare Department, EDB does not have the requested information at pre-primary/kindergarten levels.

**CONTROLLING OFFICER'S REPLY**

**EDB590**

**(Question Serial No. 4780)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following non-teaching staff-to-student ratios in pre-primary institutions, primary schools, secondary schools and tertiary institutions:

1. Ratio of social workers to students with special educational needs;
2. Ratio of educational psychologists to students with special educational needs;
3. Ratio of social workers to normal students; and
4. Ratio of educational psychologists to normal students.

Asked by: Hon KWOK Ka-ki (Member Question No. 308)

Reply:

Under the principle of school-based management and institutional autonomy, kindergartens, primary and secondary schools as well as tertiary institutions could employ non-teaching staff including social workers and educational psychologists (EP) to meet their operational needs. The Education Bureau (EDB) does not collect school-based information of non-teaching staff, and hence is unable to provide the information as requested.

It should be noted that to support public sector primary and secondary schools to cater for their students with special educational needs (SEN), EDB has been providing them with additional resources on top of the regular subvention for all mainstream schools, professional support and teacher training. Among the various professional support, EDB has provided all public sector primary and secondary schools with School-based Educational Psychology Service (SBEPS) under which one EP serves six to ten schools. EDB has further enhanced SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with SEN from the 2016/17 school year. The SBEPS adopts a comprehensive and integrated service mode that aims at enhancing schools' capacity to cater for students' diverse educational needs, and all students in the respective schools will benefit from the provision of SBEPS.

Besides, EDB implements the Comprehensive Student Guidance Service in all primary schools. Since the 2006/07 school year, the manning ratio of student guidance officer/teacher has been improved to one for each public sector primary school with 18 or more classes. For public sector primary schools with 5 to 17 classes, they are provided with 0.5 student guidance officer/teacher. Primary schools opting for the Student Guidance Service (SGS) Grant may, based on their own needs, procure student guidance service from non-governmental

organisations or recruit full-time or part-time student guidance personnel who can be registered social workers, registered teachers with experience in guidance and/or teaching or other professionals with equivalent qualifications and experience. To further enhance student guidance service, a top-up SGS Grant has been provided to all public sector primary schools starting from the 2012/13 school year. For secondary schools, school social work service is provided by the Social Welfare Department through non-governmental organisations.

Question:

What assistance has been provided by the Administration to students with special educational needs taking public examinations and applying for universities? Please provide a detailed breakdown of the expenditure involved.

Asked by: Hon KWOK Ka-ki (Member Question No. 310)

Reply:

The Hong Kong Examinations and Assessment Authority (HKEAA) has provided special examination arrangements to students with special educational needs (SEN) taking public examinations. The number of students with SEN applying for special examination arrangements in the Hong Kong Diploma of Secondary Education (HKDSE) Examination in the past five years from the 2012/13 to 2016/17 school years, listed by categories of SEN and special examination arrangements is at **Annex**

The expenditure incurred by the HKEAA on the provision of special examination arrangements for Hong Kong Advanced Level Examination (HKALE) and HKDSE Examination in the past five years is as follows -

School Year	Expenditure (\$ million)
2012/13	3.4
2013/14	7.2
2014/15	10.7
2015/16	12.1
2016/17	15.2*

Note: HKEAA's financial year runs from 1 September to 31 August.

\* Figure projected based on the resources required in handling the increase in number of candidates with SEN and the complexity for special examination arrangements, and with reference to the actual expenditure from September 2016 to January 2017.

The Joint University Programmes Admissions System (JUPAS) is the main platform for students sitting for the HKDSE (and previously the HKALE) to apply for admission to undergraduate programmes funded by University Grants Committee (UGC). Applicants with a disability who wish to apply via JUPAS may submit information in relation to their disabilities for consideration by the 9 JUPAS participating-universities and the institutions under the Study Subsidy Scheme for Designated Professions / Sectors (SSSDP). Such arrangements are intended to enable such applicants to find out as early as possible the special assistance and facilities the 9 JUPAS participating-universities and the SSSDP institutions could provide to them on their admissions. The arrangements also help the 9 JUPAS participating-universities and the SSSDP institutions

identify those applicants with a disability so that they could provide help and advice at an early stage and give appropriate consideration to the applicants concerned.

According to the JUPAS Office, such applicants will receive special consideration given by the 9 JUPAS participating-institutions and / or the SSSDP institutions and may receive offers in the Special Round, prior to the Main Round exercise. However, they are not required to respond to the offers, if any, at the Special Round as their applications will continue to be considered in the Main Round exercise to see if even "better" offers could be made to them. If "better" offers are given to applicants with disabilities in the Main Round, the offers given as a result of special considerations in the Special Round will be withdrawn. The final decision on admission will be announced together with the JUPAS Main Round offer results.

Since funding for students with SEN is included in the Block Grant provided for individual UGC-funded universities, we are not able to provide the breakdown of actual expenditure involved in the work relevant to JUPAS mentioned above.

**Numbers of Students Applying for Special Examination Arrangements in the HKDSE from 2012/13 to 2016/17**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding students with special educational needs admitted to tertiary institutions, please give a breakdown of the assistance provided by the 8 publicly-funded institutions and other non-publicly funded institutions and the expenditures involved.

Asked by: Hon KWOK Ka-ki (Member Question No. 315)

Reply:

As far as universities funded by the University Grants Committee (UGC) are concerned, since funding for students with special educational needs is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students. To further support SEN students in the post-secondary sector, the Government has implemented various initiatives in recent years, as detailed below.

(a) To facilitate SEN students to pursue UGC-funded programmes and adapt to campus life, as well as to further promote the inclusive culture, UGC has provided a one-off special grant of \$20 million in total for the eight UGC-funded universities in 2015 to enhance the UGC-funded universities' support for students with SEN, as a means to demonstrate UGC's commitment towards offering equal opportunities to all people, including students with SEN. The grant has been allocated on a pro-rata basis according to the number of students with SEN admitted to individual universities, so that universities may implement additional measures to enhance their support services for students with SEN. The funding is for the eight UGC-funded universities to purchase the necessary aids and equipment to facilitate the study of students with SEN; strengthen training among the academic and administrative staff to enhance their awareness towards students with SEN; and support student bodies to organise events and activities to encourage integration of students with SEN into campus life. Upon conclusion of the scheme, universities are required to deploy resources from the Block Grant to continue with the provision of such measures.

(b) In 2013, the Government made two separate injections of \$20 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and the Endeavour Scholarship (EDS) respectively, in recognition of deserving post-secondary students with special educational needs in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA or EDS will receive scholarship of \$10,000. The number of EMA and EDS recipients in the 2013/14 to 2015/16 academic years is shown at Annex.

(c) Starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council to enhance the support services for students with SEN.

(d) The Commission on Poverty has approved the allocation of \$12.5 million from the Community Care Fund, to implement a programme from 2015/16 to 2017/18 academic year, for enhancing the academic expenses grant for post-secondary students with SEN and financial needs in order to better facilitate their learning, for example, by purchasing equipment. Each eligible student is offered an additional academic expenses grant of up to \$8,000 every year depending on the level of assistance assessed in the means test conducted by the Student Finance Office of the Working Family and Student Financial Assistance Agency.

In view of the diverse needs of post-secondary students with SEN, the Government will continue to encourage information sharing among the institutions and related non-government organisations, so as to better support the students and promote the inclusive culture.

Director of Bureau: Secretary for Education

Question:

Regarding the policy of integrated education, please advise this Committee of the following:

(a) In 2015/16, there were 22 900 and 19 400 teachers serving in mainstream secondary and primary schools respectively. Please provide information on the changes in the number of teachers serving in government and aided secondary and primary schools, and the changes in the number of serving teachers who had received training of the following courses in the past 5 years:

- i. 30-hour basic course;
- ii. 90-hour advanced course;
- iii. 90-hour to 120-hour thematic course.

(b) Please tabulate the data on expenditure involved for providing each of the above training courses by the Administration and its breakdown in the past 5 years.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 29)

Reply:

(a)

The number of public sector mainstream primary and secondary school teachers from the 2011/12 to 2015/16 school years is as follows:

School Year	2011/12	2012/13	2013/14	2014/15	2015/16
No. of primary school teachers	17 900	17 900	18 300	18 900	19 400
No. of secondary school teachers	25 700	24 100	23 500	23 300	22 900

The Education Bureau (EDB) launched a five-year teacher professional development framework on integrated education (the Framework) in the 2007/08 school year. Under the Framework, structured training courses pitched at Basic, Advanced and Thematic levels (BAT Courses) are conducted for serving teachers. The number of public sector mainstream primary and secondary school teachers having completed the BAT Courses from the 2011/12 to 2015/16 school years is as follows:

Course	2011/12		2012/13		2013/14		2014/15		2015/16	
	Primary	Secondary								
Basic	147	211	120	339	215	356	215	295	221	364
Advanced	160	213	89	152	92	141	74	86	109	147
Thematic	592	386	144	222	200	281	152	316	201	250

(b)

The actual expenditure on the BAT Courses from the 2011/12 to 2015/16 school years is as follows:

Course	Actual Expenditure (\$ million)				
	2011/12	2012/13	2013/14	2014/15	2015/16
Basic	4.3	6.3	7.9	7.3	8.3
Advanced	14.6	11.0	10.7	7.8	12.6
Thematic	25.1	18.4	24.5	24.4	24.2
<b>TOTAL</b>	<b>44.0</b>	<b>35.7</b>	<b>43.1</b>	<b>39.5</b>	<b>45.1</b>

- End -

**CONTROLLING OFFICER'S REPLY****EDB595****(Question Serial No. 6695)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

At present, the Education Bureau provides the Learning Support Grant (LSG) for mainstream primary and secondary schools to help teacher support students with special educational needs (SEN). Would the Government advise this Committee of the following:

(a) Please use the table below to provide the number of primary and secondary schools being allocated with the LSG in the 2014/15 school year.

Provision of Learning Support Grant (\$)	No. of Primary Schools	No. of Secondary Schools
0-156,000		
156,001-416,000		
416,001-676,000		
676,001-936,000		
936,001-1,196,000		
1,196,001-1,456,000		
Above 1,456,000		

(b) Please tabulate the amount of LSG clawed back from mainstream primary and secondary schools and the number of schools concerned in the above school year.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 34)

Reply:

(a)

The number of mainstream public sector primary and secondary schools eligible for Learning Support Grant (LSG) by the required range of provision in the 2014/15 school year is tabulated below:

Provision of Learning Support Grant (\$)	Number of Primary schools	Number of Secondary schools
0-156,000	5	56
156,001-416,000	109	120
416,001-676,000	33	63
676,001-936,000	56	59
936,001-1,196,000	52	36
1,196,001-1,456,000	38	29
Above 1,456,000	11	20

(b)

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. Based on the audited information as at March 2017, the amount of LSG clawed back and the number of schools concerned at the end of the 2014/15 school year (aided and caput schools)/2014-15 financial year (government schools) are tabulated below:

	Primary Schools	Secondary Schools
LSG claw-back amount (\$ million)	1.0	2.0
Number of schools with LSG clawed back	17	48

- End -

**CONTROLLING OFFICER'S REPLY****EDB596****(Question Serial No. 6794)**

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the wastage of teachers in mainstream primary and secondary schools, please provide the following information:

- (a) What are the respective numbers of Certificated Masters/Mistresses (CMs) and Graduate Masters/Mistresses (GMs) within the establishment and on contracts in mainstream primary and secondary schools in each of the past 5 years?
- (b) How many primary and secondary teachers who left their jobs because they have issues with the size of the school's teaching establishment or the grants it provided? If such statistics do exist, please set out in a table the detailed breakdown of the numbers; if not, what are the reasons?
- (c) What are the respective numbers of permitted teachers and registered teachers in primary and secondary schools? Please provide the cumulative figures in each of the past 5 years.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 102)

Reply:

- (a) The posts in the approved teaching establishment of public sector schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number of regular teachers and contract teachers (i.e. those employed using cash grants from the government or schools' own funding) appointed as graduate teachers and non-graduate teachers in public sector primary and secondary schools for the school years from 2012/13 to 2016/17 are as follows:

**Primary Schools (Government and Aided)**

School Year	Regular Teachers		Contract Teachers	
	Number of Graduate Teachers*	Number of Non-graduate Teachers*	Number of Graduate Teachers*	Number of Non-graduate Teachers*
2012/13	7 110	8 780	30	1 510
2013/14	7 330	9 580	0	1 170
2014/15	7 550	9 780	0	1 360
2015/16	7 950	9 540	0	1 600
2016/17 (Estimate)	8 510	9 240	10	1 790

\* Numbers are rounded to the nearest 10.

### Secondary Schools (Government, Aided and Caput)

School Year	Regular Teachers		Contract Teachers	
	Number of Graduate Teachers*	Number of Non-graduate Teachers*	Number of Graduate Teachers*	Number of Non-graduate Teachers*
2012/13	17 010	3 420	1 060	1 430
2013/14	17 350	3 510	820	1 270
2014/15	17 200	3 380	820	1 380
2015/16	16 840	3 200	840	1 540
2016/17 (Estimate)	16 680	3 060	760	1 570

\* Numbers are rounded to the nearest 10.

- (b) The Education Bureau (EDB) does not collect information on the number of teachers who left their jobs due to the size of the school's teaching establishment or the grants it provided.
- (c) As some permitted teachers may opt to register as registered teachers upon attaining teacher training qualifications, the number of permitted teachers and registered teachers may change throughout the year. Hence, EDB has not compiled the related statistics in the past years. In the 2016/17 school year, the estimated numbers of registered teachers and permitted teachers in public sector primary and secondary schools are set out in the table below.

Primary Schools (Government and Aided)		Secondary Schools (Government, Aided and Caput)	
Number of Registered Teachers	Number of Permitted Teachers	Number of Registered Teachers	Number of Permitted Teachers
19 210	560	21 070	1 140

Notes:

1. Numbers are rounded to the nearest 10.
2. The figures have not included those whose teachers' registration applications are being processed by EDB.
3. Not every government schools teachers have been reflected in the statistics above. As government schools are exempt from the Education Ordinance, it is not mandatory for government school teachers to undergo teacher registration (government school teachers appointed on civil service terms are subject to the control of the relevant Civil Service Regulations and other rules and regulations promulgated by the Civil Service Bureau).

Question:

What are the numbers of non-Chinese speaking students and the numbers of ethnic minorities studying at different grade levels in primary schools in the 2016/17 school year?

Asked by: Hon LAU Siu-lai (Member Question No. 1028)

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of NCS ethnic minority students studying at different grade levels in public sector and Direct Subsidy Scheme primary schools in the 2016/17 school year are tabulated at Annex A and Annex B respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

**Number of non-Chinese speaking students studying at different grade levels  
in primary schools in the 2016/17 school year**

<b>Grade</b>	<b>P1</b>	<b>P2</b>	<b>P3</b>	<b>P4</b>	<b>P5</b>	<b>P6</b>

Question:

What are the number of non-Chinese speaking students and the number of ethnic minorities studying at different class levels in kindergartens in the 2016/17 school year?

Asked by: Hon LAU Siu-lai (Member Question No. 1030)

Reply:

At present, all kindergartens (KGs) in Hong Kong are privately run and the KG sector, which is made up of local and non-local KGs, flexibly copes with parents' diverse demands and various needs of children. According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and the number of ethnic minority students studying in KGs in the 2016/17 school year are tabulated at Appendix 1 and Appendix 2 respectively. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

Question:

What is the number of cross-boundary students attending local primary schools by class level in the 2016/17 school year?

Asked by: Hon LAU Siu-lai (Member Question No. 1031)

Reply:

The number of cross-boundary students (CBS) attending primary schools in Hong Kong by class level in the 2016/17 school year is as follows:

Class Level	P1	P2	P3	P4	P5	P6	Total
Number of CBS	4 210	3 709	3 460	2 836	2 005	1 238	17 458

Note: Figures are based on the annual survey conducted via schools in September 2016 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

- End -

**CONTROLLING OFFICER'S REPLY****EDB606****(Question Serial No. 4018)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What are the total numbers of students in each class level of pre-primary education, primary schools and secondary schools in this school year?

Asked by: Hon LAU Siu-lai (Member Question No. 1037)

Reply:

The number of students in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by grade in the 2016/17 school year is given below:

Level	Grade	Student
Kindergarten (including kindergarten-cum-child care centre)	K1	57 355
	K2	65 769
	K3	60 908
	<b>K1-K3</b>	<b>184 032</b>
Primary	P1	61 861
	P2	59 896
	P3	60 735
	P4	59 292
	P5	55 240
	P6	51 984
	<b>P1-P6</b>	<b>349 008</b>
Secondary	S1	54 479
	S2	54 424
	S3	56 052
	S4	57 637
	S5	58 274
	S6	55 023
	S7	2 263
	<b>S1-S7</b>	<b>338 152</b>

- Notes :
- (1) Figures do not include special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses.
  - (2) Figures refer to the position as at September of the respective year.
  - (3) Upon implementation of the New Senior Secondary Academic Structure, there are no subsidized secondary 7 places under local curriculum starting from the 2012/13 school year.

- End -

Question:

Please provide a breakdown of the estimated intakes and actual intakes, as well as the tuition fees and percentage increase, of self-financing undergraduate and sub-degree programmes respectively in the past 5 years by institution and programme.

Asked by: Hon LAU Siu-lai (Member Question No. 3013)

Reply:

Based on the information provided by relevant institutions, the estimated intakes, actual intakes and the average annual tuition fees by institution of the full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes from the 2012/13 to 2016/17 academic years are set out at Annex.

**Notes:**

[1] Includes sub-degree programmes provided under the old academic structure.

[2] Figures include those for the Study Subsidy Scheme for Designated Professions/Sectors.

[3] The estimated intakes for full-time and part-time sub-degree programmes under the Hong Kong Art School in the 2012/13 academic year was 85. In view of the demand for full-time sub-degree places, there were no student intakes for part-time programmes.

“-” Denotes no relevant programmes were offered.

The figures are based on institutions' estimates for planning purpose and do not necessarily mean the maximum approved intakes.

**CONTROLLING OFFICER'S REPLY**

**EDB608**

**(Question Serial No. 4037)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is stated in paragraph 164 of the speech that “regularising the Study Subsidy Scheme for Designated Professions/Sectors from the 2018/19 academic year and increasing the number of subsidised places to about 3 000 per cohort, involving about \$850 million per year” will be one of the initiatives. Please provide, by institution and programme, the number of subsidised places for full-time locally-accredited self-financing undergraduate programmes; the number of first-year, second-year and third-year students in receipt of subsidy; the tuition fee per programme; the level of subsidy per year; the percentage of subsidy in terms of total tuition fee; and the total amount of subsidy in the 2015/16, 2016/17 and 2017/18 academic years.

Please also advise of the criteria for identifying designated professions/sectors as targets of subsidy and the justifications for including new professions/sectors (if any).

Asked by: Hon LAU Siu-lai (Member Question No. 3014)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

In consultation with policy bureaux, we identified six industries with keen manpower demand that are supported by SSSDP in its pilot run, namely healthcare, architecture and engineering, testing and certifications, creative industries, logistics, and tourism and hospitality. Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

The unit subsidy is administered by a two-tier arrangement in which a subsidy of up to \$40,000 per year is provided to programmes which are not laboratory-based while a higher subsidy of up to \$70,000 per year is provided to programmes which are laboratory-based. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to six years) and will be disbursed to the relevant institutions based on the actual enrolment of eligible students subject to the quota for the designated programmes. Students with

financial need may apply for student financial assistance in respect of the actual amount of tuition fees payable (i.e. tuition fees after deducting unit subsidy). Details are set out at [Annex](#).

**CONTROLLING OFFICER'S REPLY****EDB609****(Question Serial No. 4051)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the development of the publicly-funded tertiary education in the past 5 years, please advise this Committee of the following:

- a) the number of publicly-funded degree places in each of the past 5 years;
- b) the number of publicly-funded sub-degree places;
- c) the participation rate represented as the proportion of publicly-funded degree places to the population of the relevant cohort;
- d) the participation rate represented as the proportion of publicly-funded sub-degree places to the population of the relevant cohort;
- e) the unit cost of publicly-funded degree places; and
- f) the unit cost of publicly-funded sub-degree places.

Asked by: Hon LAU Siu-lai (Member Question No. 3052)

Reply:

(a) to (d)

The requested information is set out at Annex.

(e) to (f)

The average student unit costs of University Grants Committee (UGC)-funded undergraduate and sub-degree places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, for the 2011/12 to 2015/16 academic years are set out below:

Study level	Average student unit cost (\$'000) <sup>Note 1</sup>				
	2011/12	2012/13	2013/14	2014/15	2015/16 <sup>Note 2</sup>
Undergraduate place	233	203	209	222	237
Sub-degree place	147	137	139	156	172

## Notes:

1. The bulk of the student unit cost of a sub-degree place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year for degree programmes, \$15,040 per student per year for sub-degree programmes offered by The Education University of Hong Kong, and \$31,575 per student per year for sub-degree programmes offered by the other UGC-funded universities).
2. Provisional figures.

**Intakes of publicly-funded undergraduate and sub-degree programmes and the respective participation rates of the relevant cohorts, 2012/13 to 2016/17 academic years**

Academic year	Publicly-funded undergraduate intake places <sup>1</sup>		Publicly-funded sub-degree intake places <sup>3</sup>	
	Number / actual intakes	Participation rate of the relevant cohort <sup>2</sup>	Actual intakes	Participation rate of the relevant cohort <sup>2</sup>
2012/13 <sup>4</sup>	32 814	N/A	9 903	N/A
2013/14	18 153	22.6%	11 047	13.7%
2014/15	19 165	24.0%	12 480	15.7%
2015/16	20 377	26.5%	12 791	16.6%
2016/17 <sup>5,6</sup>	20 811	28.4%	12 728	17.4%

**Notes:**

1. Including first-year first-degree (FYFD) and senior year undergraduate intake places offered by the University Grants Committee (UGC)-funded universities, the Hong Kong Academy for Performing Arts and under the Study Subsidy Scheme for Designated Professions/Sectors starting from the 2015/16 academic year.
2. Relevant cohort refers to the average mid-year resident population between the ages of 18 to 20. As from the 2016/17 academic year, the age cohort for senior year entry and top-up degree programmes is expanded from the ages of 18 to 20 to that of 18 to 22 in order to better reflect the age profile of the students entering such programmes.
3. Including the actual intakes of publicly-funded sub-degree programmes offered by UGC-funded universities and the Vocational Training Council.
4. The 2012/13 academic year was a double cohort year. Publicly-funded FYFD places offered in the year were doubled to cater for two cohorts of senior secondary students graduating in the same year. Undergraduate and sub-degree participation rates are undefined for the year.
5. Figures for the 2016/17 academic year are provisional.
6. As from the 2016/17 academic year, the intakes of all sub-degree and undergraduate programmes refer to actual intakes of local students. Hence, the intake figures before the 2016/17 academic years are not strictly comparable with those for the 2016/17 academic year.

**(Question Serial No. 6389)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Vocational Training Council has implemented the Pilot Training and Support Scheme (Pilot Scheme) since the 2014/15 academic year. Would the Administration advise this Committee of the following:

1. the respective number of students participating in the Pilot Scheme in 2014-15 and 2016-17, with a breakdown by the type of industries joining the Pilot Scheme;
2. the respective list of business establishments participating in the Pilot Scheme in 2014-15 and 2016-17;
3. the respective expenditure of the Pilot Scheme in 2014-15 and 2016-17; and
4. the expected number of participants of the Pilot Scheme in 2017-18, as estimated by the Administration?

Asked by: Hon LAU Siu-lai (Member Question No. 3165)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme was in general well received by the participating employers and students. Therefore, the Government has decided to extend the Pilot Scheme for two more cohorts of students admitted in the 2016/17 and 2017/18 AYs, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million.

As at 28 February 2017, the electrical and mechanical (E&M) trades of the construction industry, printing, watch & clock, automobile, testing & certification and medical centre operation trades have joined the Pilot Scheme. About 2 400 trainees have benefitted. Further breakdown by academic year and industry is as follows –

	Number of New Beneficiaries		
	2014/15 AY	2015/16 AY	2016/17 AY (as at 28 February 2017)
E&M and Construction	285	887	969
Testing and Certification	-	21	14
Medical Centre Operation	-	-	12
Watch & Clock	-	12	10
Printing	-	7	7
Automotive	-	81	113
<b>Subtotal</b>	<b>285</b>	<b>1 008</b>	<b>1 125</b>
<b>Total</b>	<b>2 418</b>		

Trade associations and industry partners will liaise and consolidate the requirements of individual companies in respective industries in order to facilitate the implementation of the Pilot Scheme. These associations include The Hong Kong Printers Association, The Federation of Hong Kong Watch Traders and Industries, The Hong Kong Federation of Electrical & Mechanical Contractors Ltd, Service Managers Association (for Automobile) and Association of Construction Materials Laboratories. As at February 2017, there are around 150 companies participating in the Pilot Scheme.

The commitment of the Pilot Scheme covers the allowance to be provided to students only, and VTC will provide administrative support for the Pilot Scheme using existing manpower resources. Up to the 2016-17 financial year, the expenditure of the Pilot Scheme is about \$60.9 million in total. The estimated expenditure in the 2017-18 financial year is about \$66 million. It is estimated that around 1 000 students will participate in the Pilot Scheme in the 2017/18 AY.

**(Question Serial No. 6464)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Starting from the 2014/15 school year, the Education Bureau provides public sector schools and Direct Subsidy Scheme secondary schools operating classes at senior secondary levels with a recurrent cash grant for implementing life planning education. In this connection, would the Government please inform this Committee,

1. of the respective numbers of schools which have used the grant on employment of additional staff, organisation of life planning activities, and enhancement of school-based career guidance services in 2014-15 and 2017-18;
2. of the content of such life planning activities organised by schools in 2014-15 and 2017-18;
3. of the respective numbers of schools, among those using the grant on employment of staff, which have employed additional teachers, social workers and other professionals in 2014-15 and 2017-18;
4. of the details of the work plans, including objectives and strategies, and effectiveness evaluation mechanisms that the schools have developed for the organisation of life planning activities in 2014-15 and 2017-18; and
5. whether EDB inspectors have prepared reports or minutes of meeting recording the advice they gave to the schools on the implementation of life planning education; if so, of the details; if not, the reasons for that.

Asked by: Hon LAU Siu-lai (Member Question No. 3166)

Reply:

(1) & (3) The Career and Life Planning Grant (CLPG) should primarily be used for its major purpose of empowering and enhancing the capacity of the teaching team, though schools may use the remainder of the grant to enrich relevant school-based services for students by providing career-related learning beyond the classroom. Based on our information, a predominant majority of the schools (over 90%) used CLPG in acquiring additional manpower, such as additional teachers and teaching assistants. Most of the schools used the remaining balance of the grant, which is usually less than 20%, to hire school-based career-related services for students, procuring relevant teaching materials and financing students to attend related programmes or activities.

(2) & (4) In line with the spirit of school-based management, the Incorporated Management Committee (IMC) / School Management Committee (SMC) of the school is accountable for proper use of cash grant for its intended objectives. Schools are required to formulate a work plan with clear objectives and strategies for life planning education and related career guidance service, and to build up a monitoring / evaluation

mechanism for continuous development. To enhance transparency, the work plan and details on the use of the CLPG should be endorsed by IMC / SMC and uploaded onto the school's homepage by December each year. As life planning activities are school-based which have to be aligned with the specific needs of the students and the diverse school circumstances, a wide range of activities and programmes have been arranged in schools, including but not limited to those raising students' self-understanding and supporting their goal setting, development of positive work attitude and values, understanding different careers and the world of work.

(5) EDB officers would also engage in professional discourse with the school guidance teams and render on-site advice on improvements to the work plans and deployment of resources during the school visits. Advice specific to each school is recorded in our internal records.

\* Explanatory Note 1:

Under the established mechanism, the Government will reserve sites for school development when planning large-scale residential developments in accordance with the guidelines set out in the Hong Kong Planning Standards and Guidelines (HKPSG) with a view to catering for the population intake of the district and relevant public housing development, satisfying the community's need for education services and supporting related policy measures (including re-provisioning of existing schools, local demand for school places and the diversified development of the education system, etc.). As at March 2017, there are a total of 18 reserved school sites for primary and secondary school use in the territory with concrete School Building Programmes

and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 18 reserved school sites by districts with their planned use is set out in the Table below. Among them, funding approval for projects on three reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2014-15 LegCo Session with the school building works already underway; projects on two reserved school sites were approved in the LegCo Session in 2015-16 with the school building works commenced in 2016; while a project on another reserved school site would be submitted for funding approval from FC in the 2016-17 LegCo Session. For the remaining sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

Table: Reserved Sites for Primary and Secondary School Use by District

No.	District	Planned use	Number of classrooms	Remark
1	Kowloon City	Secondary School	30	(i)
2	Kowloon City	Secondary School	30	(iii)
3	Kowloon City	Primary School	24	(iv)
4	Kwun Tong	Secondary School	30	(iii)
5	Kwun Tong	Primary School	30	(i)
6	Kwun Tong	Primary School	30	(iii)
7	Eastern	Primary School	24	(i)
8	Eastern	Primary School	24	(i)
9	North	Primary School	36	(i)
10	North	Primary School	30	(iii)
11	North	Primary School	30	(iii)
12	Sham Shui Po	Primary School	30	(ii)
13	Sham Shui Po	Primary School	30	(iii)
14	Sai Kung	Primary School	30	(iv)
15	Sai Kung	Secondary School	30	(iv)
16	Sai Kung	Secondary School	30	(iii)
17	Sha Tin	Primary School	30	(iii)
18	Tsuen Wan	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from the Finance Committee of the Legislative Council for the school building project.
- (ii) Funding approval would be sought from the Finance Committee of the Legislative Council in the 2016-17 Legislative Council Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

\* Explanatory Note 2:

Under the prevailing mechanism, according to the Hong Kong Planning Standards and Guidelines (HKPSG), the need for setting up kindergartens (KGs) is taken into account in housing estates and large-scale private development projects where space is allocated for such uses. The current standard for provision of KG places is 730 half-day (HD) and 250 whole-day (WD) places for every 1 000 children in the age group of 3 to under 6. In actual operation, given the specific feature of a high degree of flexibility and diversity of the KG sector, KGs are generally able to take into account the practical needs and promptly respond to parents' demand. Since KGs are located in different types of premises, for example, in self-acquired or self-owned premises, public housing estates or privately leased premises, etc., the mode of centralised planning for primary and secondary schools is not applicable to KGs. Under the free quality kindergarten education policy, as a long-term strategy, adequate space would be earmarked for KG use in new public housing estates

with new demand, and available KG space identified for relocation of existing KGs that require substantial improvement to their physical accommodation. We will also explore the feasibility of increasing Government-owned KG premises in accordance with the established mechanisms for site search and/or premises allocation as appropriate. The feasibility of co-location of KGs and primary schools will also be explored. On the other hand, we will review the aforesaid planning standard. As a long-term goal, we will review and revise the planning standard as necessary to 500 HD and 500 WD places for every 1 000 children in the age group of 3 to under 6 to increase WD places to meet the increasing demand.

(v)	Curriculum Development Officer	93 104	CS Non-CS	165.21
(w)	Project Officer	See Note 4	NCSC	See Note 4

Notes

- 1 PA denotes politically-appointed officials; CS denotes civil service posts; NCSC denotes non-civil service contract positions and Non-CS denotes non-civil service posts.
- 2 Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries of the civil service posts.
- 3 This figure excludes the Executive Officer/Secretary for Education's Office post (i.e. post/rank (f)).
- 4 These personnel may be engaged from time to time to meet changing operational requirements and ad hoc service demands. It is not possible to make a projection of the number to be engaged in 2017-18.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 General Expenses of the Civil Service and there is no provision for individual officers under Head 156. As regards the non-civil service Curriculum Development Officers posts, the estimates for expenditure for housing benefits of the incumbents in 2017-18 under Head 156 are \$11.0 million. There is no provision for housing allowances for the Secretary for Education, Under Secretary for Education, Political Assistant and the other non-civil service contract staff.

In 2017-18, officials of Education Bureau will conduct duty visits and consume official meals based on operational needs and prior approval is needed before incurring any related expenses. In making an application for duty visit or official entertainment, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. There is no provision for expenses for duty visits and entertainment for individual officers.

**CONTROLLING OFFICER'S REPLY****EDB614****(Question Serial No. 5102)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In the 2016/17 school year, how many cross-boundary students (CBS) were allocated P1 school places through the dedicated school net of the Central Allocation? How many were admitted to P1 through the Discretionary Places Admission? Please list by district.

Asked by: Hon LEUNG Kwok-hung (Member Question No. 2038)

Reply:

The Primary One Admission (POA) System is divided into two stages, namely the Discretionary Places Admission stage and the Central Allocation stage. In brief, at the Discretionary Places Admission stage, parents including parents of cross-boundary students (CBS) may apply to any public sector primary schools. School places in the Central Allocation stage are allocated to students who have not been offered a Discretionary Place by schools and based primarily on parents' prioritised choices. In the case of over-subscribed schools at the Central Allocation stage, applicant children residing in school nets under the POA System will be allocated a Primary 1 (P1) place in any school having available places in the school net to which they belong, though the schools allocated may not have been chosen by the parents. Likewise, CBS will be allocated a school place in the schools having available places and specified in the respective Choice of Schools List for the Central Allocation of the POA cycle. The Choice of Schools List for the Central Allocation (For Applicant Children Residing in the Mainland) consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS. The number of P1 places included in the Choice of Schools List for the Central Allocation (For Applicant Children Residing in the Mainland) of POA 2016 for admission to P1 in the 2016/17 school year by school net is tabulated at [Annex A](#).

In POA 2016 (for admission to P1 in the 2016/17 school year), a total of 4 454 CBS were allocated a P1 place including 1 577 at the Discretionary Places Admission stage and 2 877 at the Central Allocation stage.

Every eligible applicant child will be allocated a public sector P1 place under the POA System. Apart from the afore-mentioned arrangement under the POA, due to various factors (including the number of newly arrived children from the Mainland, parental choices, etc.), there are uncertainties about the actual demand for P1 places and the situation in different districts or school nets in each allocation cycle may vary. The eventual number of places for the Central Allocation is subject to adjustment based on the actual demand for school places from January/February (school choice making) to May (computer-processing for the Central Allocation) every year. Based on the annual surveys conducted via schools, the number of CBS studying in public sector schools at P1 level in the 2016/17 school year with breakdown by district is at [Annex B](#).

**Primary One Places in Choice of Schools List for Central Allocation  
for Cross-boundary Students in Primary One Admission (POA) 2016 by School Net  
(For Admission to Primary One in the 2016/17 School Year)**

POA School Net	P1 Places
43	200
64	75
65	100
66	400
70	537
71	130
72	587

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (-) Not specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding outsourcing of service in your department, please inform this Committee of the following in respect of the past 3 years:

1. the total number of outsourced service staff employed by your department and the percentage of outsourced service staff against the total number of staff with the same types of duties in your department;
2. the total expenditure on staff of your department; the total amount paid to outsourced service providers; and the percentage of amount paid to outsourced service providers against the total expenditure on staff of your department; and
3. the nature of your department's outsourced services and the duration of the relevant contracts.

In addition, according to the Government's guidelines for tendering of outsourced services revised last year, if the procured service relies heavily on the deployment of non-skilled workers, and a marking scheme for assessing the tenders is adopted, the procuring department, when assessing the tenders, should include in the assessment criteria the evaluation of tenderers' proposed wage rates and working hours for non-skilled workers. In this regard, please inform this Committee of the following:

4. the current number of outsourced service contracts involving a large number of non-skilled workers awarded by your department since implementation of the guidelines;
5. the departments which have adjusted their assessment criteria in respect of wage rates and working hours for the outsourced service contracts involving a large number of non-skilled workers in the light of the new guidelines since their implementation; how your department has made adjustment; and if no relevant information is available, the reasons for it;
6. whether there have been any rises in the average wage rates for workers in the contracts of outsourced services that rely heavily on deployment of non-skilled workers since the implementation of the guidelines; if yes, the number of contracts with rises in wage rates; if no relevant information is available, the reasons for it;
7. your department's measures to evaluate the effectiveness of the new tendering guidelines;
8. whether your department is required to adopt the existing mechanism of two-envelope assessment of the technical and price aspects when evaluating tenders for contracts of outsourced service; if no, the number of contracts awarded without adopting the existing mechanism of two-envelope assessment of the technical and price aspects in the past 3 years;

9. the annual numbers of cases of government service contractors breaching the service contracts, the Employment Ordinance or the Occupational Safety and Health Ordinance as revealed by the inspections conducted by your department, and the annual numbers of complaints lodged by the outsourced service staff;
10. the details of follow-up actions on the aforementioned non-compliance and complaint cases; and
11. the number and details of cases involving contractors being punished for non-compliance or sustained complaints.

Asked by: Hon LEUNG Yiu-chung (Member Question No. 157)

Reply:

(1)-(3) Details of services outsourced through tendering in Education Bureau (EDB) are as follows –

- (i) Major services outsourced by EDB include education and training, building and property management (including cleansing and security) and information technology, etc. Duration of the contracts depends on the operational need. Since the number of staff to be employed by the contractors is not specified in most of our outsourced service contracts, we do not keep information on the total number of outsourced service staff employed under outsourced service contracts and the percentage of outsourced service staff against the total number of EDB staff with the same types of duties.
- (ii) In the past 3 financial years, the average total staff costs was around \$4,029 million each year and the average amount of service payment made to outsourced service providers was around \$152 million which accounted for about 4% of the total staff costs.

(4)-(11) Details concerning EDB's service contracts outsourced through tendering that rely heavily on deployment of non-skilled workers are as follows –

- (i) For tenders which adopt a marking scheme for assessment, EDB follows the two-envelope approach in evaluating separately the technical and price aspects of tenders and has included in the marking scheme assessment criteria on proposed wage rates and working hours for non-skilled workers. EDB has awarded 2 such service contracts in 2016-17 and the average wage rates of non-skilled workers in these contracts are higher than that in the previous contract.
- (ii) In 2016-17, there is no outsourced service contract involving contractors' breach of the Employment Ordinance, Occupational Safety and Health Ordinance or related conditions of contract which entail issue of default notices or demerit points. We also did not receive any complaint from outsourced service staff on contractors' breach of the above ordinances.

Question:

Regarding the implementation of Learning Support Grant (LSG), please advise of:

- (a) the number of students requiring tier-2 and tier-3 support, the amount of subsidy per student and the total expenditure in the 2016/17 school year;
- (b) the number of schools with the grant clawed back by the Education Bureau and the amount involved in the school years of 2014/15, 2015/16 and 2016/17;
- (c) further to the above question, whether the Administration has looked into the reasons for schools not utilising the grant effectively and provided recommendations for improvement; if yes, of the details.

Asked by: Hon MA Fung-kwok (Member Question No. 30)

Reply:

(a) to (c)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector primary and secondary schools with additional resources on top of the regular subvention for all mainstream schools, including the Learning Support Grant (LSG). In the 2016/17 school year, the grant per year per student requiring tier-2 and tier-3 support has been increased to \$13,725 and \$27,450 respectively and the basic provision per school per annum for the first one to six students requiring tier-3 support has also been raised to \$164,700. The revised estimate on LSG is \$539 million in the 2016/17 school year. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Based on the Learning Support Grant (LSG) data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support in the 2016/17 school year is set out at Appendices 1 and 2 respectively.

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. To our understanding, individual schools had underspending leading to claw back at the end of a specific year due to some unexpected difficulties, e.g. time required for employment of additional staff longer than expected, early termination of contract by additional staff, difficulties in hiring of appropriate professional services, etc.

Based on the audited information as at March 2017, there are 65 schools with LSG clawed back at the end of the 2014/15 school year (aided and caput schools)/ 2014-15 financial year (government schools) and the amount of LSG clawed back is \$2.95 million. As the amount to be clawed back from aided and caput schools for the 2015/16 school year will be confirmed only after the schools' submission of audited accounts by end of February 2017 and verification by EDB, we are unable to provide the amount for the 2015/16 school year and beyond.

Under the School Development and Accountability Framework, schools are required to assess the effectiveness of their support for students with SEN through self-evaluation each year, similar to other school policies and measures. EDB also requires schools to submit a self-evaluation report on the implementation of the Whole School Approach to Integrated Education to EDB at the end of each school year. To further enhance transparency, schools are required to set out how resources are deployed to provide support services for students with SEN and upload such information onto their school websites. Furthermore, with our stepped-up efforts to monitor the utilisation of LSG by schools through providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for SEN support, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected, the surplus situation of LSG in schools has been improving.

**(Question Serial No. 4872)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding cross-boundary students, would the Education Bureau advise of the following:

- a. The number of cross-boundary students in the 2016/17 school year (by kindergarten student, primary school student and secondary school student);
- b. The number of cross-boundary students applying for the central allocation in the 2016/17 school year;
- c. The number of school places in the school nets exclusively for cross-boundary students in the 2016/17 school year (by school net);
- d. The number of schools operating classes for Hong Kong students under the Scheme of Classes for Hong Kong Students jointly implemented by Hong Kong and Shenzhen as well as the school fees and enrolments in the 2016/17 school year.

Asked by: Hon MA Fung-kwok (Member Question No. 31)

Reply:

- (a) The number of cross-boundary students (CBS) by school level in the 2016/17 school year is tabulated at Annex A.
- (b) 2877 CBS participated in the Central Allocation stage of the Primary One Admission (POA) 2016 for admission to Primary 1 (P1) in the 2016/17 school year.
- (c) To alleviate the impact of increasing CBS on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

The number of P1 places exclusively for CBS for the Central Allocation of POA 2016 for admission to P1 in the 2016/17 school year by school net is tabulated at Annex B.

- (d) Under the "Co-operation Agreement on Operating Classes for Hong Kong Students in Shenzhen Schools" signed between the Education Bureau and the Shenzhen Municipal Education Bureau, the Shenzhen Municipal Education Bureau has been implementing the Scheme of Classes for Hong Kong Students (the Scheme) in minban schools in Shenzhen. In the 2016/17 school year, 11 minban schools are offering Hong Kong curriculum classes to some 3 800 Hong Kong students residing in Shenzhen under the Scheme. Based on information available, the tuition fees range roughly between RMB12,000 to RMB41,600 per year.

**Number of Cross-boundary Students (CBS) by School Level in the 2016/17 School Year**

<b>School Level</b>	<b>Number of CBS</b>
Kindergarten (including kindergarten-cum-child care centre)	7 846
Primary school	17 458
Secondary school	3 355

Note:

Figures are based on the annual survey conducted via schools in September 2016 on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

**Primary One Places in Choice of Schools List for Central Allocation  
for Cross-boundary Students in Primary One Admission (POA) 2016 by School Net  
(For Admission to Primary One in the 2016/17 School Year)**

POA School Net	P1 Places

**(Question Serial No. 4883)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (-) Not Specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Will the Education Bureau (EDB) advise of the following:

1. please provide the names, locations and vacancy period of existing vacant school premises (with a breakdown by district);
2. which of these vacant school premises are managed by the Government (please provide names and locations) and which government department(s) is/are responsible for managing them?
3. please provide the number, names, locations, vacancy period and the original school sponsoring bodies of vacant school premises which have not yet been returned to the EDB (with a breakdown by district);
4. further to (3) above, for the school premises which have not yet been returned , what procedures will the EDB take to recover the land as soon as possible?
5. what was the expenditure involved in managing all vacant school premises in the territory in the 2015/16 school year?
6. what is the estimated expenditure for managing all vacant school premises in the territory in the 2016/17 school year?
7. as at the 2015/16 school year, how many vacant school premises were earmarked for further school use or other educational use and how is the progress? If they have not yet come into operation, what are the reasons?
8. please report the follow-up actions on the recommendations on disposal of vacant school premises in the Director of Audit's Report and the Public Accounts Committee's relevant report presented to the Legislative Council on 17 February 2016.

Asked by: Hon MA Fung-kwok (Member Question No. 81)

Reply:

(1)-(4) and (7) It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Among the aforementioned VSP, 14 are located on government land (including land allocated to the Hong Kong Housing Authority) while the physical possession of the other six has yet to be delivered to the Government. Of these six VSP, the concerned school sponsoring body (SSB) of two of them is initiating the site surrender process in accordance with the service agreement for reprovisioning of the schools concerned; the proposed uses of two VSP have EDB's in-principle support and the SSBs are actively taking follow up actions; and EDB is following up with the relevant government departments on requiring the SSB to surrender the remaining two VSP. EDB and LandsD have reached a consensus on the mechanism and procedures for handling VSP and strengthened communication and coordination in accordance with the mechanism with a view to putting VSP into gainful use as soon as possible. Details of the mechanism for handling VSP on government land and private land as agreed between EDB and LandsD are appended in the relevant workflow in Appendices 32, 33 and 34 of the Public Accounts Committee Report No. 65 tabled at LegCo on 17 February 2016. Information on the aforesaid 20 premises is set out in the table below:

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000
2	Wanchai	2007/08	6 500
3	Eastern	2011/12	600# [Partly vacant]
4	Southern	2012/13	6 000
5	Kwun Tong	2011/12	2 900
6	Kowloon City	2013/14	3 200
7	Wong Tai Sin	2016/17	2 400
8	Wong Tai Sin	2016/17	3 700
9	Wong Tai Sin	2016/17	(Total)
10	Sham Shui Po	2013/14	3 700
11	Sham Shui Po	2010/11	2 200
12	Sha Tin	2015/16	3 900
13	Sha Tin	2011/12	5 800#
14	Sha Tin	2010/11	3 900#
15	Sha Tin	2010/11	2 600# [Partly vacant]
16	Tai Po	2006/07	5 200#
17	Tai Po	1999/00	2 400
18	Tsuen Wan	2010/11	3 600#
19	Tuen Mun	2010/11	5 300#
20	Islands	2006/07	5 800

*Note 1:* "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

*Note 2:* The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB's purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required for in view of the uncertainty involved. In addition, EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment or decanting use by schools undergoing in-situ redevelopment or extension works, etc. It is therefore not practicable to impose any fixed target on the length of the vacancy period of a VSP or the number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau (HAB), Home Affairs Department (HAD), LandsD, PlanD and Social Welfare Department (SWD)) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(5) and (6) EDB is responsible for the management of VSP located on sites allocated to EDB, including those that PlanD has been informed of under the central clearing house mechanism but that LandsD has requested EDB to continue the management until the next users have been identified and taken over the land. In 2015-16, the actual expenditure incurred by EDB for the management of VSP was \$1.221 million, while the estimated expenditure to be incurred in 2016-17 is \$1.450 million. The expenditures mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

(8) In light of the recommendations of the Report No. 65 of the Director of Audit released on 27 October 2015 and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB has undertaken a series of measures to improve the handling and disposal of VSP. Firstly, EDB has improved and updated its VSP database from the VSP handling perspective, with a view to adopting appropriate follow-up actions for VSP in a more focused manner. In addition, EDB has conducted a stocktaking exercise which sought to reconcile the records in the VSP database and the school registration database and has identified 108 addresses for LandsD's advice, including the land status and compliance with the related land leases, tenancy agreements or land licenses. Based on LandsD's recent findings, EDB is reviewing whether there is a need to include any of them in the new VSP database and handle them accordingly in accordance with the established procedures. EDB also promulgated the "Procedural Manual on Identification, Screening, Allocation and Management of Vacant School Premises" (the Procedural Manual) in June 2016, setting out clearly the policy objectives and detailed procedures with regard to the handling of VSP within EDB. The Procedural Manual has been disseminated to all sections of EDB which may be involved in the handling of VSP. A briefing session has also been held to enhance EDB officers' understanding of the detailed arrangements set out in the Procedural Manual. EDB would arrange re-circulation of the Procedural Manual on an annual basis and arrange briefing sessions as appropriate.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including HAB, HAD, LandsD, PlanD and SWD) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

- End -

Question:

Please give a breakdown, by age group (under 30, 30-40, 41-50 and 51-60), of the wastage rates and numbers of primary and secondary teachers in government, aided, private and Direct Subsidy Scheme schools in 2016/17.

Asked by: Hon MA Fung-kwok (Member Question No. 84)

Reply:

The number of primary and secondary school teachers and the wastage rate in government, aided, caput (secondary only), private and Direct Subsidy Scheme (DSS) schools by age group for the 2016/17 school year are as follows.

**Primary Schools (Government, Aided, Private and DSS)**

2016/17 (Estimate)	Government		Aided		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate^ (%)						
< 30	130	9.2	3 190	5.8	390	13.4	370	6.7
30 – 40	320	7.6	6 880	2.9	780	7.7	610	5.3
41 – 50	760	1.5	5 580	2.0	460	3.9	210	1.9
51 – 60	290	9.9	2 710	9.0	170	9.1	70	12.2

## Secondary Schools (Government, Aided, Caput, Private and DSS)

2016/17 (Estimate)	Government		Aided		Caput		Private		DSS	
Age Group	No. of Teachers*	Wastage Rate <sup>^</sup> (%)								
< 30	140	15.0	2 300	8.5	10	14.3	70	15.5	870	8.2
30 – 40	380	7.1	7 290	3.2	30	3.2	250	15.1	1 950	5.7
41 – 50	680	1.5	7 010	2.0	30	2.7	100	18.0	780	4.2
51 – 60	420	12.0	4 140	8.3	20	3.8	60	13.5	440	10.7

\* Numbers are rounded to the nearest 10.

<sup>^</sup> “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers concerned as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

Question:

1. Please advise the numbers and proportions of local, mainland, Taiwan and overseas students who studied in international schools, including the English Schools Foundation, with a breakdown by primary and secondary schools and special education, as well as the numbers and proportions of students of the top 5 countries or regions in 2016/17;
2. The Government commissioned a consultant to update the demand for international school places at primary and secondary levels in Hong Kong in October 2014. According to the result of the study, is the current supply of international schools in Hong Kong considered sufficient?

Asked by: Hon MA Fung-kwok (Member Question No. 85)

Reply:

- (1) The number of local and non-local students in international primary, secondary and special schools and the breakdown of the non-local students by top five nationalities in the 2016/17 school year are tabulated at the **Appendix**.
- (2) The Education Bureau (EDB) commissioned a new round of the Study on the Provision of International School places in Hong Kong ("the Study") in October 2014 to update the latest provision of international school places at primary and secondary levels in Hong Kong based on the situation of the 2015/16 school year, and to project the demand and supply of international school places in the seven school years starting from 2016/17. The Study was completed in February 2017.

According to the consultant's projections, there will be no shortfall in international school places at primary and secondary levels in the coming seven school years starting from 2016/17, except a small shortfall of about 150 international school places at primary level in the 2016/17 school year.

**Number of Local and Non-local Students (Chinese or Others) Enrolled in International Primary,  
Secondary and Special Schools in 2016/17 School Year  
(based on the student enrolment survey conducted in September 2016)**

**Primary Schools**

	Students	%
Local	4 556	21.6%
Non-local Chinese	811	3.8%
Non-local Others	15 726	74.6%
<b>Total</b>	<b>21 093</b>	<b>100.0%</b>

**Secondary Schools**

	Students	%
Local	3 157	18.9%
Non-local Chinese	768	4.6%
Non-local Others	12 739	76.4%
<b>Total</b>	<b>16 664</b>	<b>100.0%</b>

**Special School**

	Students	%
Local	13	18.6%
Non-local Chinese	0	0.0%
Non-local Others	57	81.4%
<b>Total</b>	<b>70</b>	<b>100.0%</b>

## Notes:

- (1) Local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport.
- (2) Non-local Chinese students refer to students who hold Chinese nationality (e.g. Mainlanders, Macaoese and Taiwanese) and hold passport other than the HKSAR Passport or the British National (Overseas) Passport. There is no further breakdown on the number of students with Chinese nationality.
- (3) Figures of primary and secondary schools include students studying in English Schools Foundation (ESF) schools and other international schools but not the special school operated by ESF.
- (4) Figures of special school refer to the special school operated by ESF.
- (5) Figures refer to position as at September 2016.
- (6) Percentages may not add up to total due to rounding.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the statement “continue to take measures to encourage the UGC-funded universities to strengthen their pursuits of the initiatives of internationalisation and engagement with the Mainland” under Matters Requiring Special Attention in 2017-18, would the Administration advise on the following:

- (1) the numbers of Hong Kong students attending higher education institutions in the Mainland and those who have returned to Hong Kong to work or pursue further study (postgraduate programmes) upon graduation in the past year;
- (2) the number of applications for assessment of academic qualifications obtained in the Mainland that the Hong Kong Council for Accreditation of Academic and Vocational Qualifications received in the past year; and among such applications, the percentages of cases in which the qualifications concerned were formally recognised and those which were not;
- (3) the latest progress in mutual recognition and articulation of professional qualifications such as medical practitioners, Chinese medicine practitioners, dentists, pharmacists, rehabilitation therapists, nurses, specialists, architects, accountants and social workers.

Asked by: Hon MA Fung-kwok (Member Question No. 87)

Reply:

1. The Government does not maintain records of the number of Hong Kong students pursuing studies in the Mainland and those who have returned to Hong Kong to work or pursue further study upon graduation. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying in Mainland post-secondary institutions and research institutes was 15 320 as at December 2016.
2. In 2016-17 (as at 28 February 2017), the number of qualifications assessments made by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications in response to applications submitted by holders of Mainland qualifications is 792, in which 99.6% of the qualifications concerned were assessed as comparable to the level of their counterparts in Hong Kong.
3. Hong Kong and the Mainland are committed to enhancing mutual recognition of professional qualifications and the access of Hong Kong professional services to the Mainland market under the framework of the Mainland and Hong Kong Closer Economic Partnership Arrangement (CEPA). The Government also encourages professional bodies of both sides to pursue mutual recognition of professional

qualifications and to foster exchanges among professional and technical talents. In respect of the professions mentioned, the latest development is summarised below:

#### Medical and Health Sector

At present, there is no mutual recognition for Medical and Health Sector between Hong Kong and Mainland. Specialist doctors (including medical practitioners, Chinese medicine practitioners and dentists) who are Hong Kong permanent residents with Chinese citizenship are allowed to apply for and obtain the Mainland's "medical practitioner's qualification certificates" through accreditation. On the other hand, eligible registered medical practitioners, Chinese medicine practitioners, dentists and pharmacists may sit the Mainland's qualification examination. Furthermore, twelve types of statutory healthcare professionals (namely medical practitioners, Chinese medicine practitioners, dentists, pharmacists, nurses, midwives, medical laboratory technologies, occupational therapists, optometrists, radiographers, physiotherapists and chiropractors) who are registered to practise in Hong Kong are allowed to provide short-term services in the Mainland without the need to sit the examinations in the Mainland. Under the Agreement on Trade in Services signed under the framework of CEPA, Hong Kong permanent residents are allowed to apply for registration as practising pharmacists in accordance with the relevant Mainland's regulations.

#### Architects / Construction Sector

For Construction Sector, Estate Surveyors, Architects, Structural Engineers, Planners, Quantity Surveyors and Building Surveyors have reached mutual recognition agreements under CEPA.

#### Accountant

Under the framework of CEPA, qualified members of the Hong Kong Institute of Certified Public Accountants enjoy exemption from certain examination papers when they apply for Mainland's certified public accountant uniform examination.

#### Social Worker

The Social Workers Registration Board, being the registration authority of social workers in Hong Kong, does not have any plan and has not received any formal request for developing mutual recognition of professional qualifications.

Question:

The Mainland University Study Subsidy Scheme (MUSSS) has been implemented with effect from the 2014/15 academic year to support needy students pursuing studies under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. Would the Education Bureau advise of the following:

- a. the number of students passing the means test in the 2016/17 academic year (with a breakdown by full rate subsidy and half rate subsidy);
- b. the total expenditure on the MUSSS in the 2016/17 academic year;
- c. the number of students pursuing studies in the Mainland through the MUSSS in the 2016/17 academic year.

Asked by: Hon MA Fung-kwok (Member Question No. 92)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2016/17 academic year, as at 28 February 2017, 1 686 new applicants passed the means test, with 1 162 receiving the full-rate subsidy and 524 receiving the half-rate subsidy. Including both newly approved applications and successful renewals, subsidy was provided to 2 144 students in total, with 1 459 receiving the full-rate subsidy and 685 receiving the half-rate subsidy. The estimated total expenditure for the 2016/17 academic year is about \$29 million. Apart from the five civil service posts (namely, one Executive Officer I, two Clerical Officers and two Assistant Clerical Officers) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA.

**(Question Serial No. 6921)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (1) Director of Bureau's Office  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Would the Bureau please provide the establishment dates and injection amounts of the following funds, including their balances, amount of government injections and total expenditures in 2013-14, 2014-15, 2015-16 and 2016-17? Please also provide the above information in respect of those funds, if any, that are not included in the list but under the purview of the Bureau.

1. Early Retirement Ex-gratia Payment Fund for Aided Secondary School Teachers
2. Education Development Fund
3. HKSAR Government Scholarship Fund
4. Language Fund
5. Quality Education Fund
6. Self-financing Post-secondary Education Fund
7. Research Endowment Fund
8. Qualifications Framework Fund

Asked by: Hon MA Fung-kwok (Member Question No. 96)

Reply:

Currently, there are eight government funds under the purview of the Education Bureau. They are –

1. Education Development Fund
2. HKSAR Government Scholarship Fund
3. Language Fund
4. Quality Education Fund
5. Self-financing Post-secondary Education Fund
6. Research Endowment Fund
7. Qualifications Framework Fund
8. Gifted Education Fund

Details of the eight funds are provided at the **Annex**. For the Early Retirement Ex-gratia Payment Fund for Aided Secondary School Teachers, this was closed in the 2012/13 school year.

## Funds under the purview of the Education Bureau

Name of Fund	Year of Establishment	School Year	Balance at year end (\$ million)	Government Injection (\$ million)	Expenditure (\$ million)
Education Development Fund	2004 (Total injection: \$1,100 million)	2013/14	510	-	94
		2014/15	412	-	104
		2015/16	325	-	91
		2016/17 <sup>(1)</sup>	282	-	44
HKSAR Government Scholarship Fund	2008 (Total injection: \$2,270 million)	2013/14	2,432	-	95
		2014/15	2,262	-	102
		2015/16	2,282	-	104
		2016/17 <sup>(2)</sup>	2,217	-	105
Language Fund	1994 (Total injection: \$8,000 million)	2013/14	5,932	5,000	19
		2014/15	6,135	-	57
		2015/16	6,280	-	77
		2016/17 <sup>(1)</sup>	6,329	-	28
Quality Education Fund	1998 (Total injection: \$5,000 million)	2013/14	8,259	-	122

		2015/16	8,403	-	140
		2016/17 <sup>(2)</sup>	8,403	-	145
Self-financing Post-secondary Education Fund	2011 (Total injection: \$3,520 million)	2013/14	3,701	-	103
		2014/15	3,509	-	111
		2015/16	3,578	-	109
		2016/17 <sup>(2)</sup>	3,503	-	145
Research Endowment Fund	2009 (Total injection: \$23,000 million)	2013/14	26,131	-	864
		2014/15	26,360	-	1,018
		2015/16	26,811	-	588
		2016/17 <sup>(3)</sup>	NA	-	NA
Qualifications Framework Fund	2014 (Total injection: \$1,000 million)	2014/15 <sup>(4)</sup>	-	-	-
		2015/16 <sup>(4)</sup>	1,016	1,000	-
		2016/17 <sup>(1) (4)</sup>	1,029	-	-
Gifted Education Fund	2016 (Total injection: \$800 million)	2016/17 <sup>(5)</sup>	800	800	-

## Notes

- (1) Provisional figures as at 31 January 2017.
- (2) Estimates for 2016/17.
- (3) Information not yet available.
- (4) A seed capital of \$1,000 million was injected into the Qualifications Framework (QF) Fund and placed with the Exchange Fund for investment in March 2016. As it takes time for the QF Fund to accumulate sufficient income to meet the funding requirements of various initiatives under the QF, we will first exhaust the funding available under the existing non-recurrent item of Qualifications Framework Support Scheme under Head 156 Education Bureau. Hence no expenditure is charged against the QF Fund.
- (5) A seed capital of \$800 million was injected into the Gifted Education Fund and placed with the Exchange Fund for investment in March 2017.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Government's efforts to enhance equipment and support for IT education, please advise of the following:

- (a) the expenditures of updating and providing additional IT equipment (including both hardware and software) for government and aided primary and secondary schools in the past 3 years (please tabulate figures by type of equipment);
- (b) the implementation status of WiFi 900 and the estimated expenditure and work plan for 2017-18; and
- (c) the number and percentage of government and aided primary and secondary schools with WiFi installations (please provide figures in a table);

Asked by: Hon MOK Charles Peter (Member Question No. 57)

Reply:

- (a) We provide a recurrent Composite Information Technology Grant (CITG) to all public sector schools every year to meet the diversified needs of schools on e-learning. The amounts of CITG for the past three financial years were \$341 million for 2014-15, \$353 million for 2015-16 and \$361 million for 2016-17. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education. We therefore do not have any information pertaining to the expenditures of schools on IT equipment.
- (b) & (c) According to information collected from schools, as at February 2017, 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project launched in early 2014 and 657 schools under the first two batches of the WiFi-900 project of the Fourth Strategy on Information Technology in Education (ITE4) launched in August 2015 have completed the enhancement of WiFi infrastructure. The breakdown on these 757 schools by school type is as follows –

School type	Number and percentage of schools with enhanced WiFi infrastructure	Total number of schools
Government primary	20 (59%)	34
Government secondary	17 (55%)	31
Aided primary	355 (80%)	443
Aided secondary	318 (75%)	423
Aided special	47 (78%)	60
<b>Total</b>	<b>757 (76%)</b>	<b>991</b>

Note: Aided schools also include local schools under the Direct Subsidy Scheme and Caput Schools.

There is no ready information on the figure on schools which have enhanced their WiFi infrastructure using their own funds.

For 2017-18, the estimated expenditure for implementation of the ITE4 is \$21.5 million for providing one-off grant for the last batch of some 180 schools under the WiFi-900 project for acquisition of mobile computing devices and for other support measures. Besides, we will disburse an extra one-off IT grant of \$200,000 on average per school for the last batch of schools to enhance support on the practice of e-learning. An extra recurrent grant of \$70,000 will continue to be disbursed on average per school for all eligible public sector schools under the WiFi-900 project for subscription of WiFi services.

**EDB626**

**(Question Serial No. 5117)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the Government expenditure on implementing e-textbooks, would the Administration advise this Committee:

(a) given the revised estimated expenditure for the E-textbook Market Development Scheme (EMADS) for 2016-17 is \$5.635 million, what are the work items and details of expenditure involved?

(b) as mentioned by the Administration last year that an evaluation was underway to assess the effectiveness of the EMADS, what are the results?

(c) whether it plans to launch Phase 3 of the EMADS; if yes, of the details; if no, of the reasons.

(d) given the revised estimated expenditure for supporting schools to adopt e-textbooks for 2016-17 is only \$226,000, which is far lower than \$3.263 million last year, what are the reasons for that and what are the work items in 2016-17?

(e) what were the percentages of public sector and aided primary and secondary schools adopting e-textbooks in the past 3 years? Please tabulate the figures by year.

Asked by: Hon MOK Charles Peter (Member Question No. 58)

Reply:

(a) We launched two phases of the e-Textbook Market Development Scheme (EMADS) in 2012 and in 2013 respectively, with a commitment of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. The revised estimate of \$5.635 million for 2016-17 is part of the approved seeding grant of \$39.5 million.

- (b) An evaluation has been conducted to assess the effectiveness of EMADS and the findings, which will form part of those on the impact on classroom learning and teaching in the context of the promotion of e-learning, are being compiled.
- (c) At present, e-textbook review is open to all subjects and the submission of e-textbooks for review has become a regular practice with three submission periods per year. We do not have any plan for launching another round of EMADS.
- (d) We launched the “Support Scheme for e-Learning in Schools” or WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to 100 public sector schools in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices. Another one-off grant of \$10 million was disbursed to the Hong Kong Education City Limited, also in early 2014, for development of an online integration platform for linking up schools’ Learning Management System and various e-textbooks/e-learning resources platforms. The remaining \$5 million was used from early 2014 up to 2015-16 on other support measures such as provision of programme management services for schools.

The WiFi-100 project is a pilot scheme for enhancement of WiFi infrastructure in schools under a subscription mode. The successful experience of the WiFi-100 project had laid the foundation for the launch of the WiFi-900 project by phases from 2015/16 school year under the Fourth Strategy on Information Technology in Education. Since the WiFi-100 project has already been superseded by the WiFi-900 project, the estimated expenditure of \$226,000 for 2016-17 only represents the outstanding balance from the one-off grant provided to schools under the WiFi-100 project which could be used up to the end of 2016/17 school year.

- (e) Since the 2015/16 school year, EDB has started launching annual survey to ask schools to provide information about their adoption of e-textbooks, including those developed under EMADS and from other publishers\*. According to the findings from the EDB annual survey, 74.7% of primary schools and 10% of secondary schools have chosen to use e-textbooks from both EMADS and non-EMADS suppliers in the 2015/16 school year. Figures of schools currently using e-textbooks in the 2016/17 school year are yet to be available.

\* Information on the adoption of EMADS e-textbooks was obtained from EMADS suppliers in the past.

Question:

Regarding the Government expenditure on teacher training in respect of information technology in education, would the Government inform the Committee of the following:

(a) the expenditures involved and work items on teacher training in respect of information technology in education in the past 3 years;

(b) please provide information on the number of places of professional development programmes for serving computer/information and communication technology teachers, the number of participants and the percentage among the total number of teaching staff in each of the past 3 years;

(c) how the Government developed the contents of the programmes mentioned in (b); whether the industry sector and the academic sector has been consulted; if yes, of the details; if no, of the reasons;

(d) whether the Government has reviewed the effectiveness of the programmes mentioned in (b); if yes, of the details, if no, of the reasons;

(e) in response to the reply to item (c), if the Government commissioned consultants or companies to provide or design the programmes, please provide information regarding the details of the consultant/company, expenditure involved, reasons for selecting the consultant/company, evaluation in this regard in the past 3 year;

(f) the plans of the Government to review teacher training in respect of information technology in education and the estimated expenditure in 2017-18.

Asked by: Hon MOK Charles Peter (Member Question No. 59)

Reply:

(a) & (f)

We have been conducting on-going Professional Development Programmes (PDPs) to better equip school leaders and teachers with the necessary knowledge and skills on the latest practice of e-learning, covering a wide range of topics under five categories: (i) e-leadership series for school leaders; (ii) technological series for middle managers; (iii) pedagogical series for teachers; (iv) subject-related series for teachers; and (v) e-safety series for education professionals and parents. During the period from 2014/15 to 2016/17 school years, as at February 2017, a total of about 1 200 PDPs have been conducted with 35 000 participants. In addition, we have set up "Centre of Excellence" (CoE) schools to provide training and on-site support services for the sharing of good practices on IT in education with other schools. We have been evaluating our PDPs constantly in the light of latest development on e-learning as well as feedbacks from participants and trainers for continuous refinement.

The expenditures involved for the organisation of PDPs and the setting up of CoE schools, as well as evaluation of our PDPs, have been subsumed under EDB's own resources.

(b)

During the period from the 2014/15 to 2016/17 school years (up to February 2017), the numbers of places and participants (head count) are set out as follows:

<b>School year</b>	<b>Number of places</b>	<b>Number of participants (head count)</b>
2014/15	2 104	798
2015/16	1 920	1 040
2016/17 (up to February 2017)	1 050	311

As only the head count of participants is kept, the ratio between the total number of computer/ICT teachers and those who have participated in the training cannot be calculated.

(c) to (e)

PDPs are designed based on the annual school survey findings as well as the views gathered from participants and related committees (with members from schools, tertiary institutions as well as the Hong Kong Examinations and Assessment Authority). PDPs are constantly evaluated through participant questionnaires and class observations. We did not commission any consultancy company/organisation on offering or designing PDPs in the last 3 years.

Programme: (6) Other Educational Services and Subsidies, (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau provided a one-off grant of \$10 million to the Hong Kong Education City Limited (HKECL) in early 2014 for the development of an online integration platform for linking up schools' learning management systems and various e-textbooks/e-learning resource platforms. In this regard, will the EDB inform this Committee of the following:

- (a) What are the number of schools joining the platform and the number of students benefiting from it (by school type)?
- (b) In last year's reply, the EDB pointed out that HKECL has been conducting regular surveys to gauge user feedbacks for continuous refinement to the services of the platform. Please provide the details of the surveys.
- (c) What are the details and progress of the work relating to the support of more industry standards in digital publishing, exchange of learning data, and the large-scale implementation of e-learning? What are the staffing, timetable, expenditure and estimated expenditure involved?

Asked by: Hon MOK Charles Peter (Member Question No. 64)

Reply:

As at early-March 2017, 32 438 students from 324 primary schools and 11 211 students from 109 secondary schools have been using the services of the online integration platform which more than doubled the figures last year in terms of number of beneficiaries. According to the latest survey conducted in 2016, students were generally satisfied with the services of the platform with an average score of 7.3 out of 10.

The platform supports multiple industry standards in digital publishing and an interface for the exchange of learning data has been developed and demonstrated to the industry. As of August 2016, 40 publishers, non-governmental organisations and other education content providers participated in delivering contents through this platform. Relevant manpower and other expenditures are absorbed within the operating costs of HKECL.

**CONTROLLING OFFICER'S REPLY****EDB629****(Question Serial No. 5130)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

In respect of the public relations expenditure of government departments, please inform this Committee of the following:

(1) the total expenditure of the Education Bureau (EDB) for publishing advertisements, sponsored content or advertorials in newspapers registered under the Registration of Local Newspapers Ordinance in the past year as well as the relevant details:

Date of publish (Day/Month/Year)	Status (one-off/ ongoing/done) (as at 28 February 2017)	Government or public organisation (including policy bureau/ department/ public organisation/ government advisory body)	Name and purpose of advertisement	Name of media organisation and newspaper	Frequency (as at 28 February 2017)	Expenditure (as at 28 February 2017)

(2) the expenditure of the EDB for sponsoring local free-to-air television stations, paid television stations and radio stations to provide information and produce programmes or materials in the past year as well as the relevant details:

Date of broadcast (Day/Month/Year)	Status (one-off/ ongoing/ done) (as at 28 February 2017)	Government or public organisation (including policy bureau/ department/ public organisation/ government advisory body)	Name and purpose of advertisement	Media organisation	Frequency (as at 28 February 2017)	Expenditure (as at 28 February 2017)

(3) the media organisations which published or broadcast advertisements/sponsored content of the EDB in the past year, as well as the frequency and the total expenditure involved (in descending order of amount spent):

Name of media organisation	Frequency	Total expenditure (\$)

(4) the websites/network platforms on which the EDB published online advertisements/sponsored content in the past year, as well as the frequency, the duration (days) and the total expenditure involved (tabulated in descending order of amount spent):

Website/ network platform	Content of advertisement	Frequency	Duration (days)	Hit rate, frequency of exposure and number of viewers	Total expenditure (\$)

Asked by: Hon MOK Charles Peter (Member Question No. 77)

Reply:

(1) For 2016-17 (up to 28 February, 2017), the total expenditure on placing advertisements on advertorials in newspapers registered under the Registration of Local Newspapers Ordinance is about \$1.43 million. These advertisements and advertorials are mainly to inform parents, students, the education sector and the community at large about initiatives and events of interest to them, such as education expo, kindergarten admission arrangements and scholarship schemes. Details are set out as follows:

<b>Name of Campaigns</b>	<b>Published Time (Month / Year)</b>	<b>Advertisements/ Advertorials/ Sponsored Content</b>	<b>Expenditure (\$ million)</b>
Information Expo on Multiple Pathways 2016	May 2016	Advertisements	0.09
Quality Kindergarten Education	May 2016	Advertisements	0.04
Admission arrangements for Nursery Classes in Kindergartens for the 2017/18 school year	June and August 2016	Advertisements	0.48

**(Question Serial No. 5147)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (-) Not specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the records management work of the Education Bureau and the departments under its purview in the past year:

(1) Please provide information on the number and rank of officers designated to perform records management work. If there is no officer designated for such work, please provide information on the number of officers and the hours of work involved in records management duties, and the records management duties they have to undertake;

(2) Please list in the table below information on programme and administrative records which have been closed pending transfer to the Government Records Service (GRS) for appraisal;

Category of records	Years covered by the records	Number and linear metres of records	Number of years of retention of the records as appraised by the GRS	Are they confidential documents	For records that have not been transferred, what is/are the reason(s)

(3) Please list in the table below information on programme and administrative records which have been transferred to the GRS for retention;

Category of records	Years covered by the records	Number and linear metres of records	Number of years of retention of the records as appraised by the GRS	Are they confidential documents	For records that have not been transferred, what is/are the reason(s)

(4) Please list in the table below information on records which have been approved for destruction by the GRS.

Category of records	Years covered by the records	Number and linear metres of records	Number of years of retention of the records as appraised by the GRS	Are they confidential documents	For records that have not been transferred, what is/are the reason(s)

Asked by: Hon MOK Charles Peter (Member Question No. 94)

Reply:

The required information regarding records management work of the Education Bureau and the departments under its purview, i.e. the Working Family and Student Financial Assistance Agency and University Grants Committee Secretariat, in 2016 are set out in Annexes A to C respectively.

**Information regarding records management work of Education Bureau**

1. Information on officers performing records management work in 2016 is as follows:

In line with the service-wide records management requirements, a Departmental Records Manager (DRM) at senior professional officer level, assisted by 15 Assistant Departmental Records Managers (ADRM) at professional officer level, had been designated to establish and implement a comprehensive departmental records management programme for the Bureau. A directorate officer had also been designated to oversee the subject.

During 2016, around 454 staff members involving managerial, executive, clerical and secretarial officers in various divisions of the Bureau were engaged in records management duties and among them, 10 clerical and secretarial staff members were fully deployed on such duties. Records management duties performed by these officers include overseeing and monitoring records management activities in accordance with the departmental records management programme, reviewing records and arranging destruction of records, maintaining proper file storage, managing and maintaining an accurate file inventory, opening and closing of files, etc. There is no available information on the actual number of hours spent by such staff on records management.

2. Information on programme and administrative records which have been closed pending transfer to the Government Records Service (GRS) for appraisal in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1998 - 2016	1 750 records and 77.50 linear metres	3 years to 55 years	65 records are confidential documents	Pending expiry of the retention period as specified in GRS' approved disposal schedules
Administrative records	1986 - 2016	589 records and 47.98 linear metres	2 years to 7 years	10 records are confidential documents	Pending expiry of the retention period as specified in General Administrative Records Disposal Schedules issued by GRS

3. Information on programme and administrative records which have been transferred to the GRS for retention in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1970 - 2006	306 records and 10.97 linear metres	3 years to 13 years	1 record is confidential document	Not applicable
Administrative records	1986 - 2009	61 records and 3 linear metres	3 years	8 records are confidential documents	Not applicable

4. Information on records which have been approved for destruction by the GRS in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1946 - 2016	30 213 records and 279.68 linear metres	1 month to 14 years	4 records are confidential documents	Not applicable
Administrative records	1953 - 2016	2 456 records and 110.86 linear metres	3 months to 7 years	14 records are confidential documents	Not applicable

**Information regarding records management work of  
the Working Family and Student Financial Assistance Agency (WFSFAA)**

1. Information on officers performing records management work in 2016 is as follows:

In line with the service-wide records management requirements, 2 Departmental Records Managers (DRMs) at senior professional officer level, assisted by a Deputy Departmental Records Manager (DDRM) and 2 Assistant Departmental Records Managers (ADRM) at professional officer level, had been designated to establish and implement a comprehensive departmental records management programme for WFSFAA. 2 directorate officers had also been designated to oversee the subject.

During 2016, around 205 staff members involving managerial, executive, clerical and secretarial officers in WFSFAA were engaged in records management duties. Records management duties performed by these officers include overseeing and monitoring records management activities in accordance with the departmental records management programme, reviewing records and arranging destruction of records, maintaining proper file storage, managing and maintaining an accurate file inventory, opening and closing of files, etc. There is no available information on the actual number of hours spent by such staff on records management.

2. Information on programme and administrative records which have been closed pending transfer to the Government Records Service (GRS) for appraisal in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	-	Nil	-	-	-
Administrative records	-	Nil	-	-	-

3. Information on programme and administrative records which have been transferred to the GRS for retention in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	-	Nil	-	-	-
Administrative records	-	Nil	-	-	-

4. Information on records which have been approved for destruction by the GRS in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1974 - 2013	267 998 records and 1 585.23 linear metres	2 years to 25 years	No	Not applicable
Administrative records	1990 - 2014	2 111 records and 84.80 linear metres	1 year to 7 years	No	Not applicable

**Information regarding records management work of  
University Grants Committee Secretariat**

1. Information on officers performing records management work in 2016 is as follows:

In line with the service-wide records management requirements, a Departmental Records Manager (DRM) at professional officer level, assisted by an Assistant Departmental Records Manager (ADRM) at officer level, had been designated to establish and implement a comprehensive departmental records management programme for the Secretariat. A directorate officer had also been designated to oversee the subject.

During 2016, around 20 staff members involving managerial, executive, clerical and secretarial officers in the Secretariat were engaged in records management duties. Records management duties performed by these officers include overseeing and monitoring records management activities in accordance with the departmental records management programme, reviewing records and arranging destruction of records, maintaining proper file storage, managing and maintaining an accurate file inventory, opening and closing of files, etc. There is no available information on the actual number of hours spent by such staff on records management.

2. Information on programme and administrative records which have been closed pending transfer to the Government Records Service (GRS) for appraisal in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1985 - 2016	230 records and 11.50 linear metres	10 years to 25 years	54 records are confidential documents	Pending expiry of the retention period as specified in GRS' approved disposal schedules
Administrative records	2012 - 2016	64 records and 3.20 linear metres	1 year to 7 years	No	Pending expiry of the retention period as specified in General Administrative Records Disposal Schedules issued by GRS

3. Information on programme and administrative records which have been transferred to the GRS for retention in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1984 - 2003	7 records and 0.35 linear metres	5 years to 15 years	No	Not applicable
Administrative records	1993 - 1999	4 records and 0.20 linear metres	3 years	No	Not applicable

4. Information on records which have been approved for destruction by the GRS in 2016 is as follows:

<b>Category of records</b>	<b>Years covered by the records</b>	<b>Number and linear metres of records</b>	<b>Number of years of retention of the records as appraised by the GRS</b>	<b>Are they confidential documents</b>	<b>For records that have not been transferred, what is/are the reason(s)</b>
Programme records	1991	1 record and 0.05 linear metres	15 years	No	Not applicable
Administrative records	1993 - 2007	25 records and 1.25 linear metres	3 years to 7 years	No	Not applicable

**CONTROLLING OFFICER'S REPLY****EDB632****(Question Serial No. 6719)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) Please provide, in table form, the number of requests for information under the Code on Access to Information received by the Education Bureau and its subvented organisations in 2016-17 as well as the relevant details:

Bureau/ Department/ Organisation	Number of requests received	Information involved (items)	Number of requests being handled	Number of requests in which all information was provided	Number of requests in which some information was provided	Average number of days taken to handle the requests (working days)

(2) the 3 pieces of information most frequently requested by the public and the number of such requests;

(3) the 5 requests for information which took the longest time to handle, the number of days taken to handle such requests and the reasons; and

(4) the content of the requests refused, the reasons for the refusal and the number of requests for reviews lodged by the public.

Asked by: Hon MOK Charles Peter (Member Question No. 137)

Reply:

During the period from January to September 2016, the Education Bureau received 60 requests for information made under the Code on Access to Information (the Code). The information requested varied from case to case without duplication. As at 30 September 2016, there were 5 cases under processing.

Among the cases completed during the above period, 44 requests were met in full, 2 requests were met in part, 6 requests were refused and 1 request was withdrawn. For the remaining 2 requests, we do not possess the requested information. Requests were refused because the information asked for involved internal discussion and advice (paragraph 2.10 of the Code) (1 case); third party information (paragraph 2.14 of the Code) (4 cases); and premature requests (paragraph 2.17 of the Code) (1 case). The 5 cases which took the longest processing time were all completed within 51 days<sup>Note</sup> from the date of receipt of the requests. Reasons for lengthy processing included the need to seek legal advice (2 cases); consult a third party involved (1 case); collect and verify voluminous information (1 case); and await for a planned announcement (1 case).

During the said period, the Bureau received 1 request for internal review of the case handled.

Note

In accordance with the requirements of the Code, if it is not possible for a department to respond to a request within 21 days, an explanation should be given, and any deferral should not normally exceed 51 days from date of receipt of the request.

Question:

- (1) Please provide a breakdown of the number of vacant school premises (VSPs) that are not earmarked for educational use by District Council district, address, and the number of years (i.e. less than 1 year, 1-3 years, and 3 years or more) for which the VSP has been left vacant. What were the expenditure involved in the management and maintenance of VSPs in each of the past 3 years (i.e. 2014-15, 2015-16 and 2016-17)?
- (2) Please provide a breakdown of the number of VSPs that are earmarked for educational use by District Council district, address, and the number of years (i.e. less than 1 year, 1-3 years, and 3 years or more) for which the VSP has been left vacant. What were the expenditure involved in the management and maintenance of VSPs in each of the past 3 years?
- (3) Please provide the respective numbers of applications from social welfare organisations for renting idle government premises which have been received, approved and rejected in each of the past five years, as well as the reasons for rejecting some of the applications.

Asked by: Hon SHIU Ka-chun (Member Question No. 212)

Reply:

(2) It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Information on these premises is set out in the table below:

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)

20	Islands	2006/07	5 800

*Note 1:* "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

*Note 2:* The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB is responsible for the management of VSP located on sites allocated to EDB, including those that PlanD has been informed of under the central clearing house mechanism but that LandsD has requested EDB to continue the management until the next users have been identified and taken over the land. In 2014-15 and 2015-16, the actual expenditures incurred by EDB for the management of VSP were \$0.957 million and \$1.221 million respectively, while the estimated expenditure to be incurred in 2016-17 is \$1.45 million. The expenditures mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

(1) and (3) As for VSP no longer required by EDB for school or other educational uses, EDB will inform PlanD and other relevant departments (such as LandsD and HD) in accordance with the above-mentioned central clearing house mechanism. PlanD will consider suitable alternative long-term uses (such as government, institution or community, residential and other uses) for the VSP sites concerned. Upon confirmation on the long-term uses of the VSP sites concerned through the central clearing house mechanism, PlanD will inform the relevant departments (such as LandsD and HD) of the recommendations for their follow up as appropriate. According to the information provided by DEVB, as at end-January 2017, PlanD has reviewed the long-term uses of 173 VSP and confirmed their long-term uses under the central clearing house mechanism. EDB does not have information on the current situation, uses and expenditures incurred by the respective departments on management of VSP returned by EDB under the central clearing house mechanism.

Director of Bureau: Secretary for Education

Question:

It was mentioned in the Government's Budget that the number of subsidised places will be increased from about 1 000 per cohort to about 3 000 per cohort in the coming year, involving about \$850 million. Please provide a comprehensive list of the detailed use of the above subsidy. How many places and how much of the subsidy are related to undergraduate and sub-degree programmes in social work?

Asked by: Hon SHIU Ka-chun (Member Question No. 176)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

In consultation with policy bureaux, we identified six industries with keen manpower demand that are supported by SSSDP in its pilot run, namely healthcare, architecture and engineering, testing and certifications, creative industries, logistics, and tourism and hospitality. Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

The earmarked fund of \$850 million will be solely for disbursement of subsidy to students. The Education Bureau will announce details of the relevant institutions, selected programmes and the respective number of subsidised places for the cohort to be admitted in the 2018/19 academic year later this year after consulting policy bureaux.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following information in tabulated form:

- (1) the expenditure and staffing for online/social media publicity and its percentage share among the total expenditure of the Education Bureau in 2016-17, set out by category of publicity channels;
- (2) the ways Education Bureau assesses the effectiveness of the above-mentioned measures, and whether the money is well spent; and
- (3) the Education Bureau's estimated expenditure and staffing for the above-mentioned measures in 2017-18.

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 54)

Reply:

- (1) During the 2016-17 financial year, the total expenditure of the Education Bureau (EDB) on publicity on online and social media is \$1.63 million, representing about 0.002 per cent of the revised estimated recurrent expenditure. The manpower involved is subsumed under the overall establishment of EDB and could not be separately accounted for. Details of the expenditure by publicity channels are set out as follows:

<b>Name of Campaigns</b>	<b>Online/ Social media</b>	<b>Expenditure (\$ million)</b>
Study Subsidy Scheme for Designated Professions / Sectors	Advertisements on online and social media	0.30
Electronic Advance Application System for Post-secondary Programmes	Advertisements on online media	0.16
Information Expo on Multiple Pathways 2016	Advertisements on online and social media	0.08
Vocational and Professional Education and Training	Advertisements on online and social media	0.43
Hong Kong Scholarship for Excellence Scheme	Advertisements on online and social media	0.19
Hong Kong as a Regional Education Hub	Advertisements on online media	0.20
Mainland Higher Education Expo 2016	Advertisements on online and social media	0.07

Admission Arrangements for Nursery (K1) Classes in Kindergartens for the 2017/18 School Year	Advertisements on online media	0.04
Application for 2017/18 School Year Registration Certificate for Nursery (K1) Classes in Kindergartens	Advertisements on online media	0.04
Territory-wide System Assessment	Advertisements on online and social media	0.08
Designated Webpage for HKDSE Exam Result Release	Advertisements on online and social media	0.04
<b>Total: (\$ million)</b>		<b>1.63</b>

- (2) In assessing the effectiveness of the publicity on online and social media, EDB will consider factors such as the hit rates of webpages, number of programme participants or service users, and relevant press reports and commentaries. The assessment will be used for reference for mapping out publicity and promotional strategies in future.
- (3) EDB has adopted a multi-pronged approach in promoting its policy initiatives and events of interest to the public, with the use of online and social media being one of the facets. The public relations strategy of each initiative and event of interest to the public will be drawn up having regard to the nature of the campaign, target audience and effectiveness of the publicity means. As the publicity expenditure is subsumed under individual operating accounts, and the public relations strategies of individual initiatives have yet to be mapped out, the estimated expenditure for the use of online and social media in 2016/17 is not available at the moment. The staffing requirement is absorbed by existing manpower resources of the EDB and could not be separately accounted for.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau provides funding for the Vocational Training Council to implement Industrial Attachment Programme. What is the estimated number of students benefited from the Programme? How many organisations have joined the Programme?

Are there any attachment places reserved for ethnic minority students? If yes, how many attachment places have been reserved? What industries are covered by the attachments? If no, what are the reasons?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 54)

Reply:

Recurrent funding of about \$18 million has been allocated to the Vocational Training Council (VTC) starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma (HD) programmes and certain Diploma of Vocational Education programmes. Some 9 000 students in VTC will benefit every year. Every year, about 2 500 companies and organisations had offered industrial attachment places to VTC students. Breakdown by industry is not available.

To strengthen students' readiness for the workplace and to facilitate a smooth transition from study to work, industrial attachment has been included as a mandatory component in the curricula of all HD programmes. All HD students, including ethnic minorities (EM) students, are required to complete the component of industrial attachment before graduation. EM and other local students receive the same support services in respect of industrial attachment, such as sourcing of industrial attachment opportunities, pre- and post-industrial attachment briefing and coaching during the industrial attachment period.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

It is reported that the year before last, among the 36 self-financing post-secondary institutions, the number of students admitted by 8 of them was less than half of that expected. The Hong Kong Community College of the Hong Kong Polytechnic University recorded a loss of \$68 million while the Centennial College of the Hong Kong University encountered financial difficulties. With the sharp decrease in the number of secondary school graduates and the declining birth rate, the bubble of sub-degree programmes will burst sooner or later.

In light of the signs above, has the Education Bureau worked with other institutions to explore strategies to avert the formation of such a bubble? If yes, what are the details? If no, what are the reasons?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 56)

Reply:

Through the development of the publicly-funded and self-financing sectors, about 45% of our young people in the relevant age cohort now have access to degree-level education in Hong Kong. Including sub-degree education, over 70% of them now have access to post-secondary education locally. Looking ahead, we envisage that the number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. At present, there are sufficient publicly-funded and self-financing post-secondary places at sub-degree level or above for all Secondary 6 students who meet the minimum entrance requirements for admission.

The Education Bureau has been communicating with self-financing post-secondary institutions on various occasions the strategies and issues relating to the consolidation on both the quality and quantity of their programmes in view of the declining student population in the coming years. The institutions have also been reminded to remain prudent in launching new programmes and to take into consideration the availability of similar programmes and the demand for programmes to be offered.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. It is mentioned in Matters Requiring Special Attention in 2017–18 that support will be provided to schools “to help them take forward education reform initiatives, and to cater for learner diversity”. What are the details of the above-mentioned education reform initiatives? What are the expenditure and manpower involved?
2. Despite continuous changes in the education system, students are still facing an ever-increasing study pressure. Nevertheless, most of the children of the former and current Chief Executives, Chief Secretaries and senior officials studied/study abroad with only very few exceptions. Also, there is an increasing number of students attending tutorial schools, making them more important than traditional education. It is just like “putting the cart before the horse” and the education system is full of problems.
3. Would the EDB draw on the experience of international schools and consider putting its expenditure in developing the internationalisation of education? If yes, what are the details? If no, what are the reasons?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 58)

Reply:

(1) & (2)

The Education Bureau (EDB) has been providing schools with a broad range of support services to help them take forward education reform initiatives, and to cater for learner diversity. Diversified school-based support services (SBSS) based on the needs and circumstances of participating schools are provided to build up schools' capacity to take forward education reform initiatives through on-site support and professional sharing among learning communities. In the 2017/18 school year, the support foci will continue to include catering for learner diversity (including the learning needs of non-Chinese speaking (NCS) students and students with special educational needs) and to promote new curriculum initiatives, such as self-directed learning and Science, Technology Engineering and Mathematics (STEM) education, etc. that would develop the diverse potentials of students.

To enhance support for learning and teaching in schools, additional grants and resources are provided to schools so as to cater for learner diversity. For example, the Diversity Learning Grant (DLG) is provided at the senior secondary level to offer a diversified curriculum to students. Schools may use the grant to provide Other Languages as students' elective subjects and Other Programmes (including network programmes for New Senior Secondary (NSS) subjects and education programmes for gifted students). As for the support to NCS students, EDB will continue to allocate about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” in primary

and secondary schools and the creation of an inclusive learning environment by providing an annual provision ranging from \$0.8 million to \$1.5 million for schools admitting 10 or more NCS students. Besides, additional teaching staff and resources are provided for schools for supporting academic low achievers and Whole School Approach to Integrated Education. In tandem, the Learning Support Grant at a maximum amount of \$1.58 million is provided to the schools for supporting students with special educational needs. For gifted education, teachers' capacity in promoting gifted education will be enhanced through organising online courses, seminars, workshops, teacher networks, etc. Learning and teaching packages are produced to support schools in catering for the needs of gifted students in classrooms, pull-out programmes and off-school provisions.

Additional grants are also provided to schools, where appropriate, to support the implementation of new curriculum initiatives such as promoting STEM education and Chinese History and traditional Chinese culture in public sector and Direct Subsidy Scheme (DSS) schools.

Since the commencement of the education reform in 2000, the Curriculum Development Council and the Hong Kong Examinations and Assessment Authority have been working in collaboration to continuously review the school curriculum and related assessment with a view to addressing schools' concerns in the implementation process as well as responding to the changes over time in our society and around the world. The New Academic Structure (NAS) has been implemented in senior secondary education since September 2009 to provide a broad and balanced curriculum with diversified choices (e.g. a wide range of Applied Learning (ApL) courses and adapted ApL courses for special schools) and pathways to cater for students' different interests, abilities and needs. EDB fully recognises the importance of equipping teachers for effective delivery of the above curriculum changes and education initiatives. Thus, other than disbursement of various grants, EDB has been supporting schools through providing a vast number of training programmes on different topics to build the professional capacity of teachers, fostering professional exchanges and sharing of good practices, development of quality learning and teaching resource materials, etc.

With the implementation of the Free Quality Kindergarten (KG) Education Scheme (Scheme) starting from the 2017/18 school year, support for NCS students and students with diverse needs in KGs will be strengthened. To enable KGs participating in the Scheme to enhance the support to their NCS students, a grant comparable to the salary of one teacher will be provided for KGs admitting eight or more NCS students. Under the Scheme, teacher to pupil ratio will be enhanced from 1:15 (including the principal) to 1:11 (principal not included) with a view to creating space for KG teachers to take care of the diverse needs of students. EDB will also devise a teacher professional development framework to enhance their understanding of the KG students' developmental needs and to empower them to identify and cater for learner diversity, including those at risk of developmental problems. Under the framework, more structured in-service training programmes will be offered for KG teachers. In addition, EDB will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use by KG teachers and parents to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers.

Since the implementation of the above measures cuts across various divisions and the relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including the Education Development Fund, a breakdown of expenditure and manpower involved in this regard is not available.

(3)

Government, aided and DSS schools are publicly funded and should accord priority to catering for the learning needs of local children. Government and aided schools should operate local curriculum, whereas DSS schools, with more flexibility in curriculum design, should offer principally a curriculum targeted at local students. Currently, some DSS secondary schools are approved to offer non-local curriculum at the secondary 5 and 6 levels with a view to providing students with additional curriculum choices.

**CONTROLLING OFFICER'S REPLY****EDB639****(Question Serial No. 3970)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (-) Not specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Would the Administration advise this Committee of the following:

- Over the past 3 years, how many post-secondary, secondary and primary students received subsidies respectively to join the Mainland and overseas exchange programmes?
- What are the estimated expenditures for this year on subsidising post-secondary, secondary and primary students respectively to join the Mainland and overseas exchange programmes?

Asked by: Hon YEUNG Alvin (Member Question No. 36)

Reply:

- The number of post-secondary, secondary and primary school students who had received subsidies to join the Mainland exchange programmes over the past three years (2014-15, 2015-16 and 2016-17) are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)		
	Post-secondary Students	Secondary Students	Primary Students
2014-15	4 500	26 600	17 400
2015-16 <sup>#</sup>	4 000	33 000	22 200
2016-17 <sup>+</sup>	3 500	36 400	21 500

<sup>#</sup> Actual figures revised from last year's estimates

<sup>+</sup> Provisional figures

In addition, the Government launched the Scheme for Subsidy on Exchange for Post-secondary Students (SSE) in January 2015 to provide local students enrolling in full-time locally accredited sub-degree or undergraduate programmes with means-tested grant so as to encourage their participation in exchange programmes outside Hong Kong. In the first subsidised period covering January 2015 to August 2016, 31 institutions participated in the SSE. A total of \$27 million was granted to 2 138 students to participate in exchange activities in destinations such as the United States of America, Korea, the United Kingdom, Taiwan, Canada, Japan, Australia, Germany and the Netherlands.

2. The estimated expenditure on post-secondary, secondary and primary school students to join the Mainland exchange programmes in 2017-18 is shown below:

Financial Year	Estimated expenditure (\$million)		
	Post-secondary Students	Secondary Students	Primary Students
2017-18	10.2	78.5	32.0

While the expenditure of SSE for the second subsidised period covering September 2016 to August 2017 will only be available later this year, we expect there would be an increase in expenditure. The Education Bureau had conducted a review on the effectiveness of the SSE in early 2016 and had extended its scope to cover exchange activities of shorter duration starting from July 2016. Besides, the ceiling of subsidy per student has been raised from HK\$15,000 to HK\$60,000 to support needy students participating in exchange activities held at farther destinations and of longer duration. Further, in order to capitalise on the new opportunities created by the “Belt and Road” initiatives, the Scheme for Subsidy on Exchange to “Belt and Road” Regions for Post-secondary Students, was introduced in July 2016 to encourage and support local students in need to go on exchanges in the “Belt and Road” regions. Each eligible student can apply for subsidies under the scheme twice capped at HK\$53,000 in total.

Director of Bureau: Secretary for Education

Question:

For the past 3 years, what is the number of primary and secondary students whose home-to-school walking distance exceeded 10 minutes? What is the number of primary and secondary students who attended schools in districts other than the one they lived in? What is the distribution of students by district of residence? What is the distribution of students by district of school location? What is the distribution of students by both district of residence and district of school location?

Asked by: Hon YIU Chung-yim (Member Question No. 53)

Reply:

The Student Travel Subsidy Scheme under the Student Financial Assistance Schemes provides travel subsidy to eligible needy students receiving formal primary and secondary education or attending a full-time day course up to first degree level in an acceptable institution, residing beyond 10 minutes' walking distance from school and travelling to school by public transport. Apart from this Scheme, EDB does not collect any information relating to students' home-to-school walking distance.

For the 2016/17 school year, there are about 1080 primary and secondary schools (including local, English Schools Foundation and other private international ordinary day schools). Parents are free to choose any schools taking into account the aspiration and needs of their children and schools normally do not consider applicant students' residence. The number of primary and secondary students based on the location of the schools by district from the 2014/15 to 2016/17 school years is tabulated at Annex. We do not have readily available information about the number of primary and secondary students who attend schools in districts other than the one they live in.

**CONTROLLING OFFICER'S REPLY****EDB641****(Question Serial No. 5832)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (-) Not Specified

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

How many school premises (including rural schools) that have remained vacant for more than 1 year does the Government have? In which districts are these schools distributed?

Asked by: Hon YIU Chung-yim (Member Question No. 64)

Reply:

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Information on these premises is set out in the table below:

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000
2	Wanchai	2007/08	6 500
3	Eastern	2011/12	600# [Partly vacant]

17	Tai Po	1999/00	2 400
18	Tsuen Wan	2010/11	3 600#
19	Tuen Mun	2010/11	5 300#
20	Islands	2006/07	5 800

*Note 1:* “School year in which the school ceased operation” refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

*Note 2:* The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB’s purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required for in view of the uncertainty involved. In addition, EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment or decanting use by schools undergoing in-situ redevelopment or extension works, etc. It is therefore not practicable to impose any fixed target on the length of the vacancy period of a VSP or the number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau (HAB), Home Affairs Department (HAD), LandsD, PlanD and Social Welfare Department (SWD)) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

According to the Education Bureau, an additional grant will be provided for children of needy families to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. What are the details and estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 11)

Reply:

Applicants who pass the income test of the Student Finance Office of the Working Family and Student Financial Assistance Agency and meet the eligibility criteria under the Kindergarten and Child Care Centre Fee Remission Scheme are eligible for an additional grant to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. The grant rate will be pegged at the level of grant for school-related expenses for kindergarten students under the Comprehensive Social Security Assistance. The estimated expenditure for the additional grant in the 2017/18 school year is \$158.2 million.

Question:

The Working Family and Student Financial Assistance Agency indicates that it will “continue to process applications for means-tested fee remission under Kindergarten and Child Care Centre Fee Remission Scheme at 75th percentile of the school fees of kindergartens under the Free Quality Kindergarten Education Scheme and to provide an additional grant for children of needy families to defray school-related expenses incurred from the students’ kindergarten education starting from the 2017/18 school year.” What are the details, manpower arrangement and estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 172)

Reply:

The Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS) provides needy families with financial assistance in the form of fee remission for the children to receive pre-primary education. Fee remission under the KCFRS will be granted to applicants who pass the income test of the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency and meet the eligibility criteria under the KCFRS. In the 2017/18 school year, the SFO will continue to process applications for fee remission under the KCFRS at 75<sup>th</sup> percentile of the school fees of the kindergartens under the Free Quality Kindergarten Education Scheme. In addition, families of the kindergarten students which pass the income test and meet the eligibility criteria under the KCFRS are eligible for an additional grant to defray school-related expenses incurred from the students’ kindergarten education starting from the 2017/18 school year. The estimated expenditure for the KCFRS and the additional grant in the 2017/18 school year are \$366.4 million and \$158.2 million respectively. Processing of the applications for the KCFRS and the additional grant will be performed by existing staff who handle the financial assistance schemes for pre-primary students and as at 31 January 2017, 62 staff were involved.

Question:

It is stated that the Working Family and Student Financial Assistance Agency will “continue to provide efficient and quality services to students under various student financial assistance schemes” in 2017-18. What are the details and the estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 173)

Reply:

The Government is committed to ensuring that no students will be denied access to education because of a lack of means, and that continuous learning should be supported. Premised on this, the Government will continue to provide efficient and quality services to students under various student financial assistance schemes. In 2016/17 (as at 31 January 2017), the Student Finance Office of the Working Family and Student Financial Assistance Agency had disbursed a total amount of around \$5,107.3 million to eligible students at all levels of study under various financial assistance schemes in meeting their education expenses, such as tuition and examination fees, textbooks and travel expenses, Internet access charges and other academic and school-related expenses. In 2017/18, the estimated amount of assistance to be disbursed is around \$6,371.4 million. Details are set out below -

<b>Financial Assistance Scheme</b>	<b>2016/17 school year (\$ million) (as at 31 January 2017)</b>	<b>2017/18 school year (\$ million)</b>
Tertiary Student Finance Scheme - Publicly-funded Programmes (Grant)	871.4	944.7
Financial Assistance Scheme for Post-secondary Students (Grant)	790.8	983.8
Kindergarten and Child Care Centre Fee Remission Scheme	321.9	366.4
Grant for School-related Expenses for Kindergarten Students	- <sup>#</sup>	158.2
Examination Fee Remission Scheme	33.3 <sup>*</sup>	34.7
Subsidy Scheme for Internet Access Charges	147.6	166.0
School Textbook Assistance Scheme	795.8	830.6
Student Travel Subsidy Scheme	386.9	458.1
Diploma Yi Jin	74.4 <sup>Ω</sup>	74.1 <sup>@</sup>
Financial Assistance Scheme for Designated Evening Adult Education Courses	3.9 <sup>Ω</sup>	4.0 <sup>@</sup>
Continuing Education Fund (CEF) <sup>^</sup>	128.7	159.5
Means-tested loan for tertiary students pursuing publicly-funded programmes	176.9	211.2
Non-means-tested loan scheme	1,270.7	1,835.2
Means-tested loan for post-secondary students	105.0	144.9
<b>Total</b>	<b>5,107.3</b>	<b>6,371.4</b>

<sup>#</sup> The Grant will be provided to eligible applicants with effect from 2017/18 school year.

<sup>\*</sup> This figure is based on the application details verified with the Hong Kong Examinations and Assessment Authority in early March 2017.

<sup>^</sup> The CEF is open to applications throughout the year. The figures shown here relate to funds disbursed during financial rather than school year. The Fund is under the purview of the Labour and Welfare Bureau.

<sup>Ω</sup> The figures refer to the tuition fee reimbursement for the 2015/16 school year disbursed in 2016-17. A small number of reimbursement applications in 2015/16 are still under processing.

<sup>@</sup> The figures refer to the estimated tuition fee reimbursement for the 2016/17 school year which will be disbursed in 2017-18.

Question:

- a) What were the student loan default statistics of the past three years?
- b) What action did the Student Finance Office take to recover the student loans in default in 2016-17? What were the details and the expenditure?
- c) What are the details, estimated expenditure and manpower arrangements of the Student Finance Office to recover the student loans in default in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 174)

Reply:

- a) Cases with two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as default cases. The amounts in default in the 2014/15 to 2016/17 academic years (as at 31 January 2017)\*, are as follows –

Amount in default (\$ million)	Academic Year		
	2014/15	2015/16	2016/17 <sup>^</sup>
(A) Tertiary Student Finance Scheme – Publicly-funded Programmes	29.48	26.48	25.49
(B) Financial Assistance Scheme for Post-secondary Students	17.88	16.98	16.72
(C) Non-means-tested Loan Scheme for Full-time Tertiary Students	18.57	17.27	16.53
(D) Non-means-tested Loan Scheme for Post-secondary Students	53.57	51.79	49.94
(E) Extended Non-means-tested Loan Scheme	83.35	79.01	77.25
<b>Total</b>	<b>202.85</b>	<b>191.53</b>	<b>185.93</b>

\* The amount in default is the total amount of arrears in the defaulted student loan accounts carried forward from previous academic years and arisen as at the end of the respective academic years.

<sup>^</sup> As at 31 January 2017

- b) On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service (SMS) or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the Department of Justice (DoJ) or filing claims to the Small Claims Tribunal (SCT) directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

In the 2016/17 academic year, the estimated expenditure involved in recovering defaulted student loans is \$32.6 million which is mainly for salaries provision for staff involved in the work.

- c) In the 2017/18 academic year, apart from continuing the concerted efforts to recover the outstanding student loans from the defaulters and their indemnifiers in an expeditious manner (include strengthening collaboration with the DoJ), we will continue to implement enhanced measures to prevent loan borrowers from becoming defaulters through sending them SMS earlier to remind them to repay on time and settle the arrears (if any), and appeal to them to approach us for assistance if they have genuine financial difficulties. In addition, we will continue strengthening promotion and education of prudent financial and credit management and responsible borrowing to students on all fronts through the Student Finance Office's website, enhancing collaboration with tertiary education institutions and related organisations (such as the Investor Education Centre), and disseminating more publicity materials pertinent to financial education to loan applicants and loan repayers at different junctures. The above measures should help student loan borrowers better manage their personal finance and encourage them to seek our assistance at an earlier stage when they have difficulty in repaying the student loans.

The estimated expenditure involved in recovering defaulted student loans in the 2017/18 academic year is \$35 million. It is mainly for salaries provision for 108 staff (including civil servants and non-civil service contract staff of both the Student Finance Office and the DoJ) involved in the work.

Question:

According to the Working Family and Student Financial Assistance Agency, during 2017-18, it will continue to develop the Integrated Student Financial Assistance System to support the administration of all student financial assistance schemes as well as scholarships and merit award schemes, with a view to improving the operational efficiency and effectiveness of the Agency in the administration and delivery of these schemes. What are the work plan, estimated expenditure and manpower in this regard?

Asked by: Hon CHAN Tanya (Member Question No. 176)

Reply:

The Student Finance Office of the Agency will continue to develop the Integrated Student Financial Assistance System (ISFAST) in 2017-18. The system development work is being implemented by phases. The first phase of the ISFAST covering assistance schemes at pre-primary, primary and secondary levels has been rolled out since March 2016 and the system development work for the second phase covering assistance schemes at post-secondary level is underway. The development of the ISFAST is funded under Capital Works Reserve Fund Head 710. The estimated expenditure for the implementation of the ISFAST for 2016-17 and 2017-18 are \$7.2 million and \$3.8 million respectively. The system development is performed by an in-house development team which consists of Analyst/Programmer grade staff, non-civil service contract staff and staff engaged under T-contracts (refers to the engagement of information technology contract staff services under term contracts centrally administered by the Office of the Government Chief Information Officer). As at 31 January 2017, there were 54 staff members in the development team.

#### (E) ENLS @

The number of students receiving loans in respect of each of the five categories of eligible courses/course providers under the ENLS in the 2012/13 to 2016/17 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status ++	3 887	3 644	3 215	3 077	2 276
Category 2 – Courses under Diploma Yi Jin	1 110	925	872	870	887
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	4	1	1	0
Category 4 – Training or development courses provided or funded by local statutory bodies	8	5	2	7	2
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 707	2 707	2 638	2 405	1 675
<b>Total</b>	<b>7 713</b>	<b>7 285</b>	<b>6 728</b>	<b>6 360</b>	<b>4 840</b>

\* As at 31 January 2017

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the number of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

<sup>++</sup> The Government completed a review of the Non-means-tested Loan Schemes in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories. The figures under Category 1 include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

(ii) The number of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2012/13 to 2016/17 academic years are as follows –

**(A) TSFS**

As for the ENLS, we do not maintain information on the study level of programmes because it covers a wide range of post-secondary/continuing and professional education courses.

(iii) We do not have a separate breakdown of the administrative cost involved in the processing of loan applications by individual institution or study level of programmes.

Question:

1. Please provide in a table the expenditure involved in recovering student loans in arrears by the Agency, the number of defaulters, average debt age and amount in arrears in the past five years.
2. (i) What are the number of defaulters that the Agency is still recovering student loans from them, their average debt age and average amount in arrears as at the end of 2016; (ii) In 2017-18, what is the estimated expenditure involved in recovering student loans in arrears by the Agency?

Asked by: Hon CHAN Tanya (Member Question No. 567)

Reply:

1&2(i). Cases with two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as default cases. The total expenditure involved in recovering student loans, the number of default cases and average amount in default in the 2012/13 to 2016/17 academic years (as at 31 January 2017) are as follows –

	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
Total expenditure involved in recovering student loan§ (\$ million)	22.0	24.3	27.6	28.8	32.6 <sup>@</sup>
No. of default cases#					
(i) in which the Student Finance Office (SFO) of the Agency had initiated recovery action against the defaulters and the indemnifiers concerned	7 017	4 089	2 491	2 713	2 753
(ii) in which legal recovery action had been initiated <sup>^</sup>	8 644	9 847	9 889	9 482	9 171
Total	15 661	13 936	12 380	12 195	11 924
Amount in default~ (\$ million)	253.29	224.08	202.85	191.53	185.93
Average amount in default (\$)	16,173	16,079	16,385	15,706	15,593

\* As at 31 January 2017

§ Mainly for salaries provision for staff (including civil servants and non-civil service contract (NCSC) staff of the SFO and the Department of Justice (DoJ)) involved in the work

@ Estimated expenditure for the whole 2016/17 academic year

# The number of default cases in the 2012/13 to 2016/17 academic years is the number as at the end of the academic years concerned (i.e. 31 July 2013, 31 July 2014, 31 July 2015 and 31 July 2016) and 31 January 2017 respectively. The number represents the number of loan borrowers who have started repayment in the previous academic years and the academic year concerned but are still in default on that date.

<sup>^</sup> The figures include those referred to the DoJ and filed directly to the Small Claims Tribunal (SCT), loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement (IVA) or deferment / write-off applications were under processing.

~ The amount in default is the total amount of arrears in the defaulted student loan accounts carried forward from previous academic years and arisen as at the end of the respective academic years.

We do not maintain information on the average debt age of default cases. Information on the number of default cases by debt age<sup>+</sup> in the 2012/13 to 2016/17 academic years (as at 31 January 2017) is set out as follows –

	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
No. of default cases by debt age <sup>+</sup>					
(i) Within 1 year	4 992	3 989	2 491	2 713	2 753
(ii) 1 year or above	2 025	100	0	0	0
Total	7 017	4 089	2 491	2 713	2 753

\* As at 31 January 2017

<sup>+</sup> The figures exclude default cases in which legal recovery action had been initiated, including those referred to the DoJ and filed directly to the SCT, loan borrowers had been declared bankrupt / applied for IVA or deferment applications / write-off applications were under processing by the SFO.

2(ii). In the 2017/18 academic year, the estimated expenditure involved in recovering defaulted student loans is \$35 million. It is mainly for salaries provision for staff (including civil servants and NCSC staff of both the SFO and the DoJ) involved in the work.

Question:

1. Please set out the numbers and percentages of applicants from families in receipt of the Comprehensive Social Security Assistance (CSSA) under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP) in the past five years.
2. Please set out the situation of applications for financial assistance under the TSFS and FASP from students of families in receipt of the CSSA and the assistance items involved in the past five years.
3. Please set out the numbers of successful applicants of the TSFS and FASP from families in receipt of the CSSA who were granted the hostel subsidy for needy undergraduates provided by the Community Care Fund since 2014, and the amount of funding involved.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2362)

Reply:

- 1 & 2. All applicants from families in receipt of the CSSA are eligible for financial assistance in the form of full grant and loan under the respective schemes. In the 2012/13 to 2016/17 academic years, the numbers and percentages of successful applicants from families in receipt of the CSSA under the TSFS and FASP, and the numbers of these applicants disbursed with grant and loan are as follows –

	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
<b>TSFS</b>					
(a) Number of successful applicants	30 184	28 701	26 802	25 172	21 494
(b) Number of successful applicants from families in receipt of CSSA (%)	6 029 (20.0%)	5 167 (18.0%)	5 163 (19.3%)	4 772 (19.0%)	4 404 (20.5%)
(c) Number of applicants in (b) disbursed with grant	6 029	5 167	5 163	4 772	4 404
(d) Number of applicants in (b) disbursed with loan	2 130	1 737	1 562	1 368	1 064
<b>FASP</b>					
(a) Number of successful applicants	28 383	26 657	23 002	22 106	17 790
(b) Number of successful applicants from families in receipt of CSSA (%)	6 958 (24.5%)	6 079 (22.8%)	5 000 (21.7%)	4 643 (21.0%)	4 284 (24.1%)
(c) Number of applicants in (b) disbursed with grant	6 958	6 079	5 000	4 643	4 284
(d) Number of applicants in (b) disbursed with loan	2 462	1 923	1 576	1 300	947

\* As at 31 January 2017

3. In the 2014/15 to 2016/17 academic years, the number of CSSA applicants under the TSFS and FASP who received the hostel subsidy funded by the CCF are as follows –

	2014/15	2015/16	2016/17 <sup>®</sup>
<b>TSFS</b>			
Number of CSSA applicants disbursed with hostel subsidy	1 001	1 015	793
Amount of hostel subsidy disbursed to CSSA applicants (\$ million)	7.10	7.54	3.43
<b>FASP</b>			
Number of CSSA applicants disbursed with hostel subsidy	25	77	58
Amount of hostel subsidy disbursed to CSSA applicants (\$ million)	0.17	0.49	0.25

<sup>®</sup> The figures show the number of CSSA applicants disbursed with the hostel subsidy for the first term of 2016/17. The subsidy for the second term will be disbursed around July 2017.

**CONTROLLING OFFICER'S REPLY****EDB666****(Question Serial No. 7065)**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please set out the respective numbers of families in receipt of full grant, half grant and 3/4 grant under various student financial assistance schemes.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5082)

Reply:

The information on the respective numbers of families in receipt of full grant, 3/4 grant (if applicable) and half grant under various student financial assistance schemes by education level in the 2016/17 school year (as at 31 January 2017) is as follows –

Financial assistance schemes by education level	Number of families* in receipt of financial assistance <sup>+</sup>		
	full grant (100%)	3/4 grant (75%)	half grant (50%)
Pre-primary level	21 310	3 037	12 485
Primary and secondary level	100 132	Not applicable	60 474
Post-secondary level <sup>^</sup>	24 342	2 350	3 815

\* For families with more than one child applying for financial assistance under various schemes at different education levels, they are counted in the respective schemes simultaneously.

<sup>+</sup> There are five levels of assistance under the financial assistance schemes at post-secondary level. Apart from the above, 2 651 and 1 845 families are eligible for assistance at 25% and 15% respectively after the income test.

<sup>^</sup> The figures show the number of families with post-secondary students eligible for assistance at different assistance levels after the income test. The financial assistance receivable may be subject to discounting, if any, in accordance with the result of the asset test.

**CONTROLLING OFFICER'S REPLY****EDB668****(Question Serial No. 7135)****Head:** (173) Working Family and Student Financial Assistance Agency**Subhead (No. & title):** (228) Student financial assistance**Programme:** (1) Student Assistance Scheme**Controlling Officer:** Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)**Director of Bureau:** Secretary for Education**Question:**

Please set out the amounts of financial assistance granted under various student financial assistance schemes (i.e. fee remission, school textbook assistance, travel subsidy and subsidy for internet access charges schemes) by grant level (i.e. full grant, half grant and 3/4 grant) from 2006-07 to 2016-17.

**Asked by:** Hon CHEUNG Chiu-hung, Fernando (Member Question No. 5078)**Reply:**

In the school years from 2012/13 to 2016/17 (as at 31 January 2017), the amounts of assistance granted under the Kindergarten and Child Care Centre Fee Remission Scheme, School Textbook Assistance Scheme, Student Travel Subsidy Scheme and Subsidy Scheme for Internet Access Charges by level of assistance (100%, 75%, if applicable, and 50%) are set out below –

**Kindergarten and Child Care Centre Fee Remission Scheme**

The annual fee remission ceilings# for kindergarten students attending half-day (HD) and whole-day (WD) classes are set out below –

Level of assistance	School year									
	2012/13		2013/14		2014/15		2015/16		2016/17	
	HD	WD	HD	WD	HD	WD	HD	WD	HD	WD
100%	\$3,500	\$16,000	\$3,790	\$16,990	\$6,490	\$20,490	\$6,790	\$22,190	\$8,170	\$25,370
75%	\$2,625	\$12,000	\$2,843	\$12,743	\$4,868	\$15,368	\$5,093	\$16,643	\$6,128	\$19,028
50%	\$1,750	\$8,000	\$1,895	\$8,495	\$3,245	\$10,245	\$3,395	\$11,095	\$4,085	\$12,685

# Actual fee remission will be 100%, 75% or 50% of the difference between – (a) the actual fee charged by the kindergartens or the fee remission ceiling, whichever is the less; and (b) the voucher value dedicated towards fee subsidy under the Pre-primary Education Voucher Scheme.

For children receiving whole-day child care service, the monthly fee remission ceilings<sup>&</sup> per child by age group are set out below –

Age group	School year				
	2012/13	2013/14	2014/15	2015/16	2016/17
Aged 0-2	\$5,213	\$5,810	\$6,111	\$6,541	\$6,985
Aged 2-3	\$3,617	\$4,031	\$4,633	\$4,996	\$5,426

<sup>&</sup> Actual monthly fee remission will be 100%, 75% and 50% of the actual fee charged by the child care centres or the fee remission ceiling, whichever is the less.

#### School Textbook Assistance Scheme

Class level/level of assistance	School year									
	2012/13		2013/14		2014/15		2015/16		2016/17	
	100%	50%	100%	50%	100%	50%	100%	50%	100%	50%
Primary 1 to 6	\$3,274	\$1,637	\$3,494	\$1,747	\$4,528	\$2,264	\$4,798	\$2,399	\$4,790	\$2,395
Secondary 1 to 3	\$3,444	\$1,722	\$3,872	\$1,936	\$4,822	\$2,411	\$4,922	\$2,461	\$5,174	\$2,587
Secondary 4 / Senior Secondary 1	\$3,740	\$1,870	\$4,194	\$2,097	\$5,046	\$2,523	\$5,200	\$2,600	\$5,636	\$2,818
Secondary 5 / Senior Secondary 2	\$3,396	\$1,698	\$3,642	\$1,821	\$4,632	\$2,316	\$4,730	\$2,365	\$5,036	\$2,518
Secondary 6 / Senior Secondary 3	\$1,980	\$990	\$2,050	\$1,025	\$3,138	\$1,569	\$3,098	\$1,549	\$3,274	\$1,637

#### Student Travel Subsidy Scheme

The Scheme provides travel subsidy to needy students to meet the expenses for home-school travels. The amount of travel subsidy is calculated on the basis of the average fare on public transport between the student's residence and the location of his/her school during the school term. The subsidy disbursed varies among students subject to the average fare calculated.

#### Subsidy Scheme for Internet Access Charges (Family-based)

Level of assistance	School year				
	2012/13	2013/14	2014/15	2015/16	2016/17
100%	\$1,300	\$1,300	\$1,300	\$1,300	\$1,400
50%	\$650	\$650	\$650	\$650	\$700

- End -

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance  
(700) General non-recurrent  
Item 508 Continuing Education Fund

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide in the table below information on the following student financial assistance schemes in the past 5 years (2012/13 to 2016/17) –

	Number of applications	Number of beneficiaries	Average amount of assistance disbursed (\$)	Median amount of assistance disbursed (\$)	Total amount of assistance disbursed (\$ million)
Kindergarten and Child Care Centre Fee Remission Scheme					
Pre-primary Education Voucher Scheme					
Examination Fee Remission Scheme					
Subsidy Scheme for Internet Access Charges					
School Textbook Assistance Scheme					
Student Travel Subsidy Scheme					
Community Care Fund – Enhancement of the Flat-rate Grant under the School Textbook Assistance Scheme					
Community Care Fund – Enhanced Travel Subsidy for Needy Special School Students					

Financial Assistance Scheme for Designated Evening Adult Education Courses					
Tuition fee reimbursement under the Diploma Yi Jin					
Student Travel Subsidy for Tertiary or Post-secondary Students					
Continuing Education Fund					

2. How will the Government enhance or improve its measures on financial assistance for the present and future? What is the amount involved?

Asked by: Hon IP Kin-yuen (Member Question No. 77)

Reply:

1. The requested information for the above student financial assistance schemes for the past five years (i.e. 2012/13 to 2016/17 school years) is set out in the Appendix.
2. The Government is committed to ensuring that no students will be denied access to education because of a lack of means, and that continuous learning should be supported. Premised on this, the Government reviews the student financial assistance schemes from time to time to assess their effectiveness, and to ascertain whether the schemes can achieve the objectives they are set up for. Where areas for improvement are identified, enhancement measures will be put in place promptly so that students in need will be provided with the necessary assistance. Specifically, the Government will provide an additional grant for needy families with kindergarten children to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. The estimated expenditure for the additional grant in the 2017/18 school year is \$158.2 million.

## Appendix

Head: (173) Working Family and Student Financial Assistance Agency

(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance

(102) Non-means-tested loan scheme

(202) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency

(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please provide the following information for the 2012/13 to 2016/17 academic years by institution:

- (a) the median household incomes of students receiving financial assistance under the Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP); and
- (b) the average loan amount and repayment period of successful applicants under the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLFST), the Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) and the Extended Non-means-tested Loan Scheme (ENLS).

Asked by: Hon IP Kin-yuen (Member Question No. 143)

Reply:

- (a) The Student Finance Office of the Working Family and Student Financial Assistance Agency adopts a standard income test mechanism to assess the eligibility and level of financial assistance of the TSFS and FASP applicants on the basis of their gross annual household incomes and family size. The level of assistance after the income test is subject to discounting having regard to the net asset value of the applicant's family. The income limits of various family sizes eligible for full level assistance and the minimum level of assistance (15%) from 2012/13 to 2016/17 are as follows -

Family size	2012/13		2013/14		2014/15		2015/16		2016/17	
	Annual upper income limit for full assistance \$	Annual upper income limit for 15% assistance \$	Annual upper income limit for full assistance \$	Annual upper income limit for 15% assistance \$	Annual upper income limit for full assistance \$	Annual upper income limit for 15% assistance \$	Annual upper income limit for full assistance \$	Annual upper income limit for 15% assistance \$	Annual upper income limit for full assistance \$	Annual upper income limit for 15% assistance \$
1	62,806	121,444	65,068	125,816	68,386	132,232	72,216	139,636	75,104	145,222
2	94,209	182,166	97,602	188,724	102,579	198,348	108,324	209,454	112,656	217,833
3	152,064	242,888	157,540	251,632	165,576	264,464	174,848	279,272	181,840	290,444
4	174,875	303,610	181,170	314,540	190,410	330,580	201,075	349,090	209,120	363,055
5	188,418	364,332	195,204	377,448	205,158	396,696	216,648	418,908	225,312	435,666
6	219,821	425,054	227,738	440,356	239,351	462,812	252,756	488,726	262,864	508,277

Since the 2011/12 academic year, the Government has relaxed the income ceiling for full level of assistance and the percentage of students receiving full level of assistance has increased up to around 60%. The annual median household incomes of students receiving assistance under TSFS and FASP for the respective family size therefore fall within the household income limit for the full level of assistance.

- (b) The standard repayment period for loans under the NLSFT, NLSPS and ENLS is 15 years upon completion or cessation of the study of loan borrowers. The information on the average loan disbursed to student loan borrowers in different institutions under the NLSFT, NLSPS and ENLS in the 2012/13 to 2016/17 academic years is as follows –

\* As at 31 January 2017

<sup>@</sup> The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the average loan disbursed to students in respect of each category of eligible courses/course providers under the ENLS is provided.

++ The Government completed a review of the Non-means-tested Loan Schemes in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories. The figures under Category 1 include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (000) Operational expenses

Programme: (1) Student Assistance Scheme  
(2) Low-income Working Family Allowance

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Does your department provide sign language interpretation services? If yes, what are the manpower and expenditure involved? If no, what are the reasons?

Asked by: Hon LEUNG Yiu-chung (Member Question No. 212)

Reply:

When offering assistance to families and individuals in need, we are mindful of the need to ensure that no one will be deprived of their access to the assistance because of the limitations they are facing. To this end, we stand ready to provide sign language interpretation services to hearing impaired people if the need arises. For the financial years from 2014-15 to 2016-17 (as at 31 January 2017), we did not receive any request on providing sign language interpretation and therefore did not incur expenditure or engage manpower to provide sign language interpretation services.

(2) Low-income Working Family Allowance

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding outsourcing of service in your department, please inform this Committee of the following in respect of the past 3 years:

1. the total number of outsourced service staff of your department and the percentage of outsourced service staff against the total number of staff with the same types of duties in your department;
2. the total expenditure on staff of your department; the total amount paid to outsourced service providers; and the percentage of amount paid to outsourced service providers against the total expenditure on staff of your department; and
3. the nature of your department's outsourced services and the duration of the relevant contracts.

In addition, according to the Government's guidelines for tendering of outsourced services revised last year, if the procured service relies heavily on the deployment of non-skilled workers, and a marking scheme for assessing the tenders is adopted, the procuring department, when assessing the tenders, should include in the assessment criteria the evaluation of tenderers' proposed wage rates and working hours for non-skilled workers. In this regard, please inform this Committee of the following:

4. the current number of outsourced service contracts involving a large number of non-skilled workers awarded by your department since implementation of the guidelines;
5. the departments which have adjusted their assessment criteria in respect of wage rates and working hours for the outsourced service contracts involving a large number of non-skilled workers in the light of the new guidelines since their implementation; how your department has made adjustment; and if no relevant information is available, the reasons for it;
6. whether there have been any rises in the average wage rates for workers in the contracts of outsourced services that rely heavily on deployment of non-skilled workers since the implementation of the guidelines; if yes, the number of contracts with rises in wage rates; if no relevant information is available, the reasons for it;
7. your department's measures to evaluate the effectiveness of the new tendering guidelines;
8. whether your department is required to adopt the existing mechanism of two-envelope assessment of the technical and price aspects when evaluating tenders for contracts of outsourced service; if no, the number of contracts awarded without adopting the existing mechanism of two-envelope assessment of the technical and price aspects in the past 3 years;

9. the annual numbers of cases of government service contractors breaching the service contracts, the Employment Ordinance or the Occupational Safety and Health Ordinance as revealed by the inspections conducted by your department, and the annual numbers of complaints lodged by the outsourced service staff;
10. the details of follow-up actions on the aforementioned non-compliance and complaint cases; and
11. the number and details of cases involving contractors being punished for non-compliance or sustained complaints.

Asked by: Hon LEUNG Yiu-chung (Member Question No. 132)

Reply:

- 1-3. Details of service outsourced through tendering in the Working Family and Student Financial Assistance Agency (WFSFAA) is as follows –
- (i) The service outsourced by WFSFAA is on data preparation. The contract period is around 15 months. Since the number of staff to be employed by the contractor is not specified in our outsourced service contract, we do not have information on the total number of outsourced service staff employed under outsourced service contract and the percentage of outsourced service staff against the total number of WFSFAA staff with the same types of duties.
  - (ii) In the past three financial years, the average total staff costs was around \$392 million each year and the average amount of service payment made to outsourced service provider was around \$1.17 million which accounted for about 0.3% of the total staff costs.
- 4-11. Since the implementation of the updated Government guidelines for tendering of outsourced services in May 2016, the WFSFAA has not conducted any tendering exercises in relation to outsourced services that rely heavily on the deployment of non-skilled workers.

(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Nowadays it is common to see university students graduating with huge debts due to their studies. Only a small number of students are eligible for grants and loans. What specific measures has the Government taken to provide tuition fee subsidy apart from grants and loans?

Asked by: Hon SHIU Ka-chun (Member Question No. 174)

Reply:

The Government's policy on student finance is to ensure that no student is denied access to education due to lack of means. The Government currently provides means-tested financial assistance under the Tertiary Student Finance Scheme - Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP) for eligible students pursuing full-time publicly-funded programmes and full-time locally-accredited self-financing programmes respectively. Needy students who pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency are eligible for tuition fee grant, academic expenses grant and low-interest living expenses loan. Apart from the grant and loan provided to needy post-secondary students under the two means-tested schemes, the Government also provides non-means-tested loans to students who do not wish or fail to go through the means test to cover their tuition fees under the Non-means-tested Loan Scheme for Full-time Tertiary Students (NLSFT) and Non-means-tested Loan Scheme for Post-secondary Students (NLSPS). Besides, the Government also introduced the Extended Non-means-tested Loan Scheme (ENLS) to provide loans for eligible students pursuing specific post-secondary / continuing and professional education courses to meet their tuition fees. In the 2015/16 academic year, the Government disbursed about \$4.1 billion under the five financial assistance schemes, benefitting over 73 000 students.

The Government reviews the student financial assistance schemes from time to time so as to ensure that students are provided with appropriate support. To alleviate the financial burden of student loan borrowers, the Government has lowered the interest rate of the living expenses loan under TSFS and FASP from 2.5% to 1% per annum since the 2012/13 academic year. The standard repayment period has also been extended from five years to 15 years. For the three non-means-tested loan schemes, the current interest rate is 1.282% per annum. Similar to the means-tested loan schemes, the standard repayment period has been extended from ten years to 15 years since the 2012/13 academic year.

(102) Non-means-tested loan scheme

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency

(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

The Government encourages adults to pursue continuous studies, but adults are usually ineligible for grants and loans and hence under heavy financial burdens. What are the specific measures put in place by the Government to provide fee subsidy for them?

Asked by: Hon SHIU Ka-chun (Member Question No. 179)

Reply:

To provide more opportunities for continuing education of secondary school leavers and adult learners with a view to upgrading their knowledge and skills, the Government initially introduced in 2000/01 school year the Project Springboard, which has been developed and become the existing Diploma Yi Jin (DYJ). Eligible DYJ students, including adult learners, are provided with financial assistance in the form of tuition fee reimbursement at 30% for each essential subject which they have satisfactorily completed with an overall pass and a 80% or above attendance rate for the subject. Those who meet the criteria and pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency will be reimbursed 50% or 100% of the tuition fees they paid for each essential subject according to the level of assistance assessed. The Government also introduced in 2005/06 the Financial Assistance Scheme for Designated Evening Adult Education Courses (FAEAEC). Eligible students pursuing designated evening secondary education courses will be reimbursed 30% of the tuition fees under the FAEAEC if they meet the required attendance rate of 80% or above. Similar to the eligible DYJ students, they will be reimbursed 50% or 100% of the tuition fees if they pass the means test.

Apart from the above, the Government introduced the Extended Non-means-tested Loan Scheme (ENLS) in the 1998/99 academic year to provide adults with loans to pursue continuing and professional education so as to upgrade themselves and increase their competitiveness in the job market. Under the ENLS, loans can be provided for eligible students pursuing specific post-secondary / continuing and professional education courses to meet their tuition fees. The current interest rate is 1.282% per annum and the standard repayment period is 15 years.

Eligible Hong Kong residents aged 18 to 65 may also apply for subsidies for pursuing qualified continuing education courses under the Continuing Education Fund (CEF), which is under the purview of the Labour

and Welfare Bureau. Every eligible applicant who has opened a CEF account and completed CEF courses may apply for reimbursement of 80% of the course fees, subject to a ceiling of \$10,000.

**CONTROLLING OFFICER'S REPLY****EDB675****(Question Serial No. 5347)**Head: (173) Working Family and Student Financial Assistance AgencySubhead (No. & title): (228) Student financial assistanceProgramme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)Director of Bureau: Secretary for EducationQuestion:

What are the total expenditure on providing travel subsidy to students, the number of students who received the subsidy, the average amount of subsidy per student and the number of rejected cases in which the applicants met the requirement on travel distance but failed the means test in the past 3 years? What are the estimated expenditure, projected number of beneficiaries and amount of subsidy per student in the 2017-18 Estimates?

Asked by: Hon YIU Chung-yim (Member Question No. 52)Reply:

In the school years from 2014/15 to 2016/17 (as at 31 January 2017), the number of beneficiaries, the total and average amount of subsidy disbursed under the Student Travel Subsidy Scheme (STSS) are set out below –

	School year		
	2014/15	2015/16	2016/17 (as at 31 January 2017)
Number of beneficiaries	195 282	187 566	170 423
Total amount of subsidy disbursed (\$ million)	476.3	475.5	386.9
Average amount of subsidy disbursed (\$)	2,439	2,535	2,270

In the 2017/18 school year, the estimated number of beneficiaries, the total and average amount of subsidy to be disbursed under the STSS are set out below –

Estimated total amount of subsidy to be disbursed (\$ million)	Estimated number of beneficiaries	Estimated average amount of subsidy to be disbursed (\$)
458.1	177 357	2,583

We do not have information on the number of unsuccessful applicants who have met the distance requirement for home-school travels but failed the means test.

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

**A. Regarding internationalisation and non-local students:**

- (1) What are the respective proportions of mainland and overseas students pursuing degree programmes (including publicly-funded and non-publicly-funded taught programmes) in Hong Kong?
- (2) Further to the above, what are the respective numbers and proportions of mainland and overseas students pursuing publicly-funded taught programmes?
- (3) Further to the above, what are the respective numbers and proportions of mainland and overseas students subsidised by the Government to pursue publicly-funded taught programmes? What are the respective amounts of subsidies?
- (4) Further to the above, how many of the mainland and overseas students subsidised by the Government have further studied or worked in Hong Kong after completing the programmes and what are their respective proportions?

**B.** It is mentioned that out of the time-limited funding of \$140 million, \$17.5 million has been earmarked for competitive allocation among universities under the new consolidated funding scheme of teaching and learning. What are the details?

Asked by: Hon CHAN Tanya (Member Question No. 216)

Reply:

(A)(1)-(3)

The numbers and percentages of non-local students admitted to University Grants Committee (UGC)-funded and non-UGC-funded taught programmes in 2015/16 are given below.

(Headcount)

Type of taught programmes	Students from the Mainland of China	Other Non-local Students	Total
UGC-funded	6 779 (69.2%)	3 020 (30.8%)	9 799 (100%)
Non-UGC-funded*	14 392 (90.7%)	1 476 (9.3%)	15 868 (100%)

Type of taught programmes	Students from the Mainland of China	Other Non-local Students	Total
Total	21 171 (82.5%)	4 496 (17.5%)	25 667 (100%)

Note: \* Includes students enrolled in full-time locally-accredited sub-degree and undergraduate programmes as well as full-time and part-time locally-accredited taught postgraduate programmes.

Funding provided by the UGC to universities is made in the form of a block grant on the basis of approved student places allocated to the universities. It is not possible to attribute specific amount of funding to non-local students.

It is noteworthy that starting from 2016/17 academic year, all new non-local students in sub-degree (SD), undergraduate (Ug) and taught postgraduate (TPg) programmes should be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to the 20% of the approved UGC-funded student number targets for these programmes, by study level. Over-enrollment is allowed on the condition that no extra resources will be provided by the UGC. All non-local students of SD, Ug and TPg programmes are required to pay tuition fee at a level that is at least sufficient to recover all additional direct costs. In other words, no additional resources are involved in over-enrollment of any students.

A(4)

Currently, non-local graduates who have obtained an undergraduate or higher qualification in a full-time and locally-accredited local programme in Hong Kong may apply to stay/return and work in Hong Kong under the "Immigration Arrangements for Non-local Graduates" (IANG). The number and percentage of applications approved by the Immigration Department under the IANG in the past 3 years is as follow:

	Number of applications approved		
	2014-15	2015-16	2016-17 (as at February 2017)
Mainland students	9 709 (93.5%)	9 578 (92.8%)	8 448 (92.6%)
Other non-local students	672 (6.5%)	746 (7.2%)	678 (7.4%)
Total	10 381 (100%)	10 324 (100%)	9 126 (100%)

(B)

Out of the time-limited funding under the Funding Scheme for Teaching and Learning Related Proposals in the 2016-19 Triennium (\$140 million), \$17.5 million has been earmarked for competitive allocation to incentivise universities to further develop in different strategic areas, including enhancing their efforts in internationalisation and engagement with the Mainland thus benefitting the learning experience of students. Assessment of the proposals is underway.

Director of Bureau: Secretary for Education

Question:

- (a) In 2016-17, how did the University Grants Committee (UGC) follow up the results of the Research Assessment Exercise 2014? What was the expenditure involved?
- (b) In 2017-18, what are the details of the plan for the UGC to follow up the aforesaid matter? What is the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 154)

Reply:

- (a) To stay competitive in the globalised higher education sector, the University Grants Committee (UGC) continuously seeks to motivate and reward excellent research of the universities. To this end, after consulting the sector, the UGC implemented the Research Assessment Exercise (RAE) 2014, which assessed the research quality of the UGC-funded universities using international benchmarks and sharpened measures, in order to encourage world-class research and drive excellence. Results of the RAE 2014 provide guidance for the universities' future developments in respect of pursuing research excellence and reveal the areas of strength in their research. For the 2016/17 to 2018/19 triennium, the results of the exercise have been used to form the basis for distribution of part of the Research Portion of the Block Grant. In 2016-17, the follow-up work on the RAE 2014 was undertaken by the existing staff of the UGC Secretariat and the expenditure was subsumed in the overall expenditure of the UGC.
- (b) The UGC, with the support of universities, is considering conducting another RAE with the inclusion of research impact as one of the elements of assessment. Subject to the UGC's deliberations, it is planned to consult relevant stakeholders on the framework and parameters in mid-2017. In 2017-18, planning and preparatory work for the next RAE will proceed and the estimated expenditure is around \$4 million, including provisions for a time-limited team of non-civil service executive and supporting staff for undertaking the work, meeting expenses and consultancy services.

Question:

- (a) In 2016-17, what were the details of the quality audits on sub-degree operations of the UGC-funded universities conducted via the Quality Assurance Council (QAC)? What was the expenditure involved?
- (b) In 2017-18, what are the details of the quality audits on sub-degree operations of the UGC-funded universities conducted via QAC? What is the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 155)

Reply:

(a) and (b)

In 2016, the University Grants Committee (UGC) has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities, with the involvement of the Quality Assurance Council as the audit operator. The sub-degree audit cycle has commenced in end 2016 with the promulgation of the Audit Manual. The first audit visit is planned to be conducted in end 2017.

The revised estimated expenditure for preparing the Audit Manual for the sub-degree audit cycle in the 2016-17 financial year is around \$0.41 million. The estimated expenditures of audit activities on the sub-degree operations in the 2017-18 financial year are around \$1.66 million. The expenditures cover mainly (i) expenses for the audit meetings; and (ii) honoraria for auditors.

Question:

- (a) In 2016-17, what initiatives has the University Grants Committee (UGC) taken to enhance the teaching quality of the UGC-funded universities? What are the details and the expenditure involved?
- (b) Regarding the above initiatives, what are the details of the work plans and the estimates of expenditure in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 156)

Reply:

(a) and (b)

The University Grants Committee (UGC) attaches great importance to quality teaching and learning. In the 2016-19 triennium, over 75 percent of the Block Grant is purported for teaching.

In the 2016-19 triennium, UGC implements the following teaching and learning initiatives –

- (i) a total of \$512.8 million (around \$170.9 million per annum) as Teaching Development and Language Enhancement Grant is allocated to UGC-funded universities to enhance teaching quality and language proficiency of students;
- (ii) up to \$1.5 million (i.e. three awards each of \$0.5 million) for the annual UGC Teaching Award to honour those who excel in teaching in the UGC sector; and
- (iii) a time-limited funding of \$140 million earmarked for competitive allocation in teaching and learning projects to incentivise universities in exploring and developing further in the sector-wide strategic areas of teaching and learning, language enhancement and internationalisation.

Question:

The University Grants Committee (UGC) will “take measures to encourage the UGC-funded universities to strengthen their pursuits of the initiatives of internationalisation and engagement with the Mainland”. What is the work and expenditure for this purpose in 2016-17? In 2017-18, what are the details of the relevant work plans and the estimates of expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 157)

Reply:

The UGC recognises that internationalisation may come in many forms, including international strategies, curriculum development, international networks, non-local student recruitment and integration, and international faculty, etc. Therefore the UGC has all along been encouraging, and will continue to encourage, universities to internationalise in ways that fit their own institutional context. Funding would continue to be provided to universities in the 2016-19 triennium to continue their efforts, including setting up of the Hong Kong Pavilion in international education conferences to enable the universities to explore new markets and attract more non-local students from different regions as well as to promote the UGC sector as a united front.

Out of the time-limited funding under the Funding Scheme for Teaching and Learning Related Proposals in the 2016-19 Triennium (\$140 million), \$17.5 million has been earmarked for competitive allocation to incentivise universities to further develop in different strategic areas, including enhancing their efforts in internationalisation and engagement with the Mainland thus benefitting the learning experience of students. Assessment of the proposals is underway.

The above work will be absorbed by the existing staff of the UGC Secretariat.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The University Grants Committee (UGC) has indicated that it will “implement the competitive allocation of research funding as agreed with the UGC-funded universities and the local self-financing degree-awarding institutions, conduct the Review of the Research Grants Council and plan for another Research Assessment Exercise in consultation with the UGC-funded universities”. What are the details of the plan, estimated expenditure and manpower arrangement for the above work?

Asked by: Hon CHAN Tanya (Member Question No. 158)

Reply:

The University Grants Committee (UGC) attaches great importance to supporting the research work conducted by the higher education sector. To promote research excellence, since the 2012/13 academic year, the UGC has been gradually allocating the Research Portion of the Block Grant to its funded universities on a more competitive basis according to their success in obtaining peer-reviewed Research Grants Council (RGC) Earmarked Research Grants. Over a period of nine years (starting from the 2012/13 academic year), about 50% of the prevailing Research Portion will be allocated in this manner. The fund is disbursed to the universities as part of the Block Grant as infrastructure funding to enable universities to provide both the staffing and facilities (e.g. accommodation and equipment) necessary to carry out research, and to fund a certain level of research. On top of the Research Portion, the UGC provides funding under the Block Grant to support the provision of research postgraduate (RPg) places. An increasing number of UGC-funded RPg places has been allocated on a competitive basis starting from the 2012/13 academic year, and 50% of such places have been competitively allocated by 2016/17. The work related to the competitive allocation of part of Research Portion and RPg places is undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC.

The RGC administers various competitive research funding schemes for the UGC-funded universities and the local self-financing degree-awarding institutions mainly in four categories, namely individual research schemes, collaborative research schemes, joint research schemes with the Mainland and overseas regions, and fellowship schemes. The RGC operates through Committees / Panels comprising local and / or non-local experts. Peer review mechanism is adopted and assessment is mainly based on the academic quality / merit of the proposals. The administrative work related to the competitive allocation of research funding under various competitive research funding schemes is undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC.

To facilitate the RGC in formulating a strategic plan for enhancing its strengths and contribution to the local research community, a review has commenced and will be conducted in two phases. Phase I of the review covers macro issues such as the portfolio balance of the RGC funding schemes, the RGC and assessment panels / committees' structure and good practice in overseas funding agencies and is now in full swing. A

Task Force has been set up under the Research Group of the UGC to oversee the implementation work. An external consultant was commissioned to assist the Task Force in the review. The findings and recommendations of the Phase I Review are expected to be available in mid-2017. The Phase II Review will be conducted after the Phase I Review and micro issues such as the quality of assessment and monitoring processes, means of communication among members of the panels/committees, timeline of funding schemes and arrangement guarding against conflict of interests in the assessment process will be examined. The cost of the external consultant of the Phase I Review is about \$1.2 million.

The UGC, with the support of universities, is considering conducting another Research Assessment Exercise (RAE) with the inclusion of research impact as one of the elements of assessment. Subject to the UGC's deliberations, it is planned that relevant stakeholders will be consulted on the framework and parameters in mid-2017. In 2017-18, planning and preparatory work for the next RAE will proceed and the estimated expenditure is around \$4 million, including provisions for a time-limited team of non-civil service executive and supporting staff for undertaking the work, meeting expenses and consultancy services.

Question:

The University Grants Committee indicates that it will “engage and stimulate universities to move forward and share good practices on knowledge transfer”. What are the details, estimated expenditure and manpower arrangement of the work in this regard?

Asked by: Hon CHAN Tanya (Member Question No. 159)

Reply:

In the 2016-19 triennium, a sum of \$62.5 million is available per year for allocation to the University Grants Committee (UGC)-funded universities to further strengthen and broaden their knowledge transfer (KT) endeavours. UGC recognises and encourages that UGC-funded universities have different strategies and activities in KT which is commensurate with their own role, mission and areas of strengths. Universities are required to submit annual reports on the use and outcomes of the KT funding to the UGC. The reports with information on successful case studies and good practices in KT are uploaded to the UGC website for public information.

Further to the announcement in the 2017 Policy Address, the UGC has recently requested all universities to refine their knowledge and technology transfer plans and to strengthen the role of their knowledge transfer offices in co-ordinating and commercialising research outputs. The UGC will keep in view the universities' response in this regard.

The above work is absorbed by the policy section of the UGC Secretariat. The section is headed by a Deputy Secretary-General, UGC who is assisted by three non-directorate staff.

The University Grants Committee indicates that it will “follow up the recommendations in the Governance Report, in particular the establishment of a written accountability framework and the launch of sector-wide briefing sessions in consultation with the universities, and closely monitor the progress of implementation of other recommendations which would be steered by the universities”. What are the details, estimated expenditure and manpower arrangement of the work plan?

Asked by: Hon CHAN Tanya (Member Question No. 161)

Reply:

With the “Governance in UGC-funded Higher Education Institutions in Hong Kong” report (the Governance Report) endorsed by the Government and released in March 2016, the UGC has been following up the recommendations of the Governance Report through a task force, in particular the establishment of a written accountability framework and the launch of sector-wide briefing sessions in consultation with the universities, and to closely monitor the progress of implementation of other recommendations which would be steered by the universities. The task force is now in the process of developing the written accountability framework. Meanwhile, two sector-wide briefing sessions were held in January 2017 to help council members of UGC-funded universities better understand the sector-wide matters of the higher education sector and the role of UGC for the proper discharge of their duties.

The above work is absorbed by the policy section of the UGC Secretariat. The section is headed by a Deputy Secretary-General, UGC who is assisted by –three non-directorate staff.

Question:

It is learnt that the University Grants Committee (UGC) will initiate the academic development planning process for the 2016/17 to 2018/19 triennium. What are the work plan, manpower arrangement and annual estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 162)

Reply:

The University Grants Committee (UGC) conducts academic planning and recurrent grants assessment with its funded universities on a triennial basis. To ensure the precious publicly-funded student places are put to their best use for the benefit of the community, we need to have a mechanism to encourage universities to review periodically their institutional strategy and academic priorities, as well as to advance universities' international competitiveness in line with the role of individual universities and the higher education sector as a whole. To this end, the UGC has conducted and completed the academic development planning process for the 2016/17 to 2018/19 triennium within the broad parameters set by the Government.

The UGC evaluated the Academic Development Proposals (ADPs) submitted by universities for the 2016/17 to 2018/19 triennium against four broad assessment criteria, namely "Strategy, Mission and Vision", "Teaching & Learning", "Academic Programme Design", and "Addressing the Needs of Society in General". The evaluation was carried out in a fair, interactive and transparent manner. The UGC submitted its funding recommendations at a total cost of \$53,557.1 million for the new triennium to the Government in September 2015 and the Chief Executive in Council approved the recommendations in January 2016. The Panel on Education of the Legislative Council was consulted on the funding recommendations in February 2016.

The work related to the academic development planning exercise for the 2016/17 to 2018/19 triennium was mainly undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC. In addition, a consultant was engaged to assist in formulating the detailed procedure/parameters of the exercise and in the scrutiny of institutions' ADPs at an expenditure of \$419,294.

Question:

Will the University Grants Committee conduct any sampling survey with employers of the first cohort of university graduates under the New Academic Structure (NAS) to assess its effectiveness and impacts on students? If yes, what are the plan, manpower arrangement and expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 163)

Reply:

We understand that higher education institutions conduct graduate employment surveys on the employment situations of first-degree graduates on an annual basis. Besides, the Education Bureau (EDB) has been conducting surveys on opinions of employers on major aspects of performance of post-secondary programmes graduates from time to time with the aim of keeping track of employers' views on the quality of graduates over time. Institutions and EDB will continue to engage in these surveys in future, in order to keep track of the employment situations and employers' views on the performance of graduates both before and after the implementation of the New Academic Structure.

Question:

In the 2016-17 financial year, the University Grants Committee earmarked around \$970,000 for drafting the Audit Manual. What were the details of the work?

Asked by: Hon CHAN Tanya (Member Question No. 164)

Reply:

In 2016, the University Grants Committee (UGC) has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities, with the involvement of the Quality Assurance Council as the audit operator. A consulting firm was engaged in preparing the Audit Manual which is intended to guide the universities and Audit Panels, and covers all stages of the audit process from preparation for audit to follow-up of Audit Reports. The revised estimated expenditure for preparing the Audit Manual in the 2016-17 financial year is around \$0.41 million. The sub-degree audit cycle has commenced in end 2016 with the promulgation of the Audit Manual. The first audit visit is planned to be conducted in end 2017.

Director of Bureau: Secretary for Education  
Question:

In 2016-17, what were the work conducted and the expenditure incurred by the Quality Assurance Council on the quality assurance for the 8 funded institutions? In 2017-18, what are the work details and estimated expenditure in this regard?

Asked by: Hon CHAN Tanya (Member Question No. 165)

Reply:

The Quality Assurance Council (QAC), established under the aegis of the University Grants Committee (UGC), aims to assure that the quality of the educational experience in all programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level.

QAC has conducted its second audit cycle in 2015 and 2016. Two universities were audited in the 2014-15 financial year; four in the 2015-16 financial year; and another two in the 2016-17 financial year. As at end February 2017, seven audit reports in the second audit cycle (*i.e.* The Hong Kong University of Science and Technology, The Chinese University of Hong Kong, Hong Kong Baptist University, The University of Hong Kong, Lingnan University, City University of Hong Kong and The Hong Kong Polytechnic University) have been published.

In 2016, UGC has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities, with the involvement of QAC as the audit operator. The sub-degree audit cycle has commenced in end 2016 with the promulgation of the Audit Manual. The first audit visit is planned to be conducted in end 2017.

The revised estimated expenditures of audit activities in the 2016-17 financial year are around \$2.04 million and the estimated expenditures in the 2017-18 financial year are around \$2.51 million. The expenditures cover mainly (i) fee for consultancy services to assist in conducting the audits; (ii) expenses for the audit meetings; and (iii) honoraria for auditors. Besides, the revised estimated expenditure for preparing the Audit Manual for the sub-degree audit cycle in the 2016-17 financial year is around \$0.41 million.

Director of Bureau: Secretary for Education

Question:

- (a) In 2016-17, what were the work conducted and the expenditure incurred by the University Grants Committee and the Education Bureau in overseeing the sub-degree operations of the funded institutions?
- (b) In 2017-18, what are the work plan and estimated expenditure for overseeing the sub-degree operations of the funded institutions?

Asked by: Hon CHAN Tanya (Member Question No. 166)

Reply:

(a) and (b)

In 2016, the University Grants Committee (UGC) has assumed the role of the overseeing body of the external quality audits on the sub-degree operations of the UGC-funded universities, with the involvement of the Quality Assurance Council as the audit operator. The sub-degree audit cycle has commenced in end 2016 with the promulgation of the Audit Manual. The first audit visit is planned to be conducted in end 2017.

The revised estimated expenditure for preparing the Audit Manual for the sub-degree audit cycle in the 2016-17 financial year is around \$0.41 million. The estimated expenditures of audit activities on the sub-degree operations in the 2017-18 financial year are around \$1.66 million. The expenditures cover mainly (i) expenses for the audit meetings; and (ii) honoraria for auditors.

Director of Bureau: Secretary for Education

Question:

- a) In 2016-17, did the Government conduct any review on the tuition fees charged by universities? If so, what were the details and results of the review? What was the expenditure involved?
- b) In 2017-18, will the Government conduct any review on the tuition fees charged by universities? If so, what are the specific plans, schedules and related expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 167)

Reply:

The recurrent grant to the University Grants Committee (UGC)-funded universities is a deficiency subvention calculated by deducting an assumed income from tuition fees and other sources from the estimated gross funding requirement of the UGC-funded universities. The assumed tuition fee income is based on the indicative tuition fee level determined by the Chief Executive in Council.

There is no plan to increase the indicative tuition fee level at present and we will maintain the indicative tuition fee at the current level during the 2016/17 to 2018/19 triennium, i.e. \$42,100 per student per year for UGC-funded programmes at degree level. This has formed the basis for calculating the recurrent grants for the UGC-funded universities in the 2016/17 to 2018/19 triennium. Having said that, the tuition fee level has remained at the same level for nearly two decades. Hence, the Government has invited the UGC to conduct a study on the practices in respect of tuition fee policy in other jurisdictions and propose options to the Government for consideration with due regard to the situation in Hong Kong. This is to enable the Government to lead an informed and rational discussion on the way forward.

The above-mentioned study commenced in February 2016. It was completed in late September 2016 and the final report has been submitted to the Education Bureau. The Bureau is now carefully studying the findings of the report and will decide the way forward for the 2019/20 academic year and beyond in due course.

The work related to the study on the tuition fee policy in other jurisdictions is mainly undertaken by the existing staff of the UGC Secretariat and the expenditure is subsumed in the overall expenditure of the UGC. In addition, a consultant was engaged to assist in the preparation of the consultancy report at an expenditure of USD39,620 (or HKD 0.3 million).

Question:

What are the respective numbers of recipients under the Hong Kong PhD Fellowship Scheme and the Areas of Excellence Scheme in the past 2 years? What are the respective total amounts of scholarship awarded? What are the respective anticipated numbers of recipients under these two schemes in 2017-18?

Asked by: Hon CHAN Tanya (Member Question No. 169)

Reply:

The Hong Kong PhD Fellowship Scheme (HKPFS) provides an annual stipend of HK\$240,000 and a conference and research-related travel allowance of HK\$10,000 per year up to three years for all awardees. For the 2015/16 and 2016/17 academic years, there were 216 and 231 awardees respectively under the HKPFS. For the 2017/18 academic year, 231 research postgraduate places funded by the University Grants Committee (UGC) are reserved for the HKPFS.

The Areas of Excellence (AoE) Scheme was launched in 1998 to build upon Hong Kong's existing research strengths and develop them into areas of excellence. Applicants for the AoE Scheme are academics working in the UGC-funded universities. Applications under the AoE Scheme were called for every two to four years. Starting from the 2016/17 (Seventh Round) exercise, we target to call for applications biennially. So far, seven rounds of exercises have been implemented and a total of 21 projects (including eight completed projects) have been funded.

Director of Bureau: Secretary for Education

Question:

Please provide the following information on research projects funded by the University Grants Committee in the past 3 years:

- (1) titles;
- (2) amounts of funding for each research project;
- (3) titles of research projects in collaboration with Mainland post-secondary institutions;
- (4) number, titles and amount of funding of research projects with Hong Kong as the subject of research; and
- (5) completion date of the research/expected completion date of the research.

Asked by: Hon CHAN Tanya (Member Question No. 170)

Reply:

(1) & (2) There were 1 302, 1 252 and 1 277 approved research projects\* under various funding schemes administered by the Research Grants Council (RGC) in the 2014/15, 2015/16 and 2016/17 academic years. Details of these projects including the titles, participating institutions, subject discipline and amount awarded are available at the University Grants Committee's (UGC's) website (<http://www.ugc.edu.hk/eng/rgc/result/result.htm>). In view of the large number of projects involved, members are invited to visit the website for the details of the projects.

\* Position up to 28 February 2017.

(3) & (5) The RGC runs one Joint Research Scheme with a Mainland organisation, namely the National Natural Science Foundation of China. This scheme provides funding support for collaboration projects between local and Mainland academics. Projects funded under the scheme in the 2014/15, 2015/16 and 2016/17 academic years with anticipated project completion dates are listed at **Annex A**.

(4) & (5) The RGC supports different types of research. All applications for research funding are professionally assessed by the local and non-local experts of the RGC based on the academic quality of research proposals. Amongst the research funding schemes administered by the RGC, only the Theme-based Research Scheme (TRS) requires the applicants to focus their research on matters related to Hong Kong. Given the large number of projects funded each year and the

complex nature of the research projects, the RGC does not maintain a comprehensive list of projects with Hong Kong as the subject of research.

As regards the TRS, it was established in 2010 and is supported by investment income from \$4 billion of the Research Endowment Fund to focus academic research efforts of the UGC-funded universities on large-scale projects under themes of strategic importance to the long-term development of Hong Kong. The list of projects funded under the TRS in the 2014/15, 2015/16 and 2016/17 academic years with anticipated project completion dates is at **Annex B**.

Director of Bureau: Secretary for Education  
Question:

Please provide the following information on university hostel places:

- (a) the numbers of students waiting for hostel places in the past 3 years broken down by institution;
- (b) the numbers of hostel places provided in the past 3 years;
- (c) the numbers of additional hostel places to be provided in the coming 3 years with details and the expenditure involved.

Asked by: Hon CHAN Tanya (Member Question No. 189)

Reply:

Under the Government's prevailing hostel policy, subject to the availability of land and resources, the provision of publicly-funded student hostels in the University Grants Committee (UGC)-funded universities is calculated in accordance with the following criteria<sup>1</sup>: all undergraduate students should be given the opportunity to stay in student hostel for at least one year of their courses; and all research postgraduates, non-local students as well as undergraduate students whose daily travelling time exceeds four hours, should be provided with student hostel places.

The actual allocation of student hostel places to individual students is a matter within institutional autonomy. The UGC-funded universities allocate publicly-funded, privately-funded and temporary hostel places to their local and non-local students enrolled in the UGC-funded and non-UGC-funded programmes as well as exchange students according to their own sets of criteria and procedures. UGC does not collect information from the universities regarding the number of students put on waiting lists for hostel places.

For indicative purpose, the supply of and additional requirements for publicly-funded hostel places, with breakdown by university, in the last three academic years are given in the table below.

---

<sup>1</sup> The criteria are applicable to all UGC-funded universities, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Education University of Hong Kong (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the institution having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

University	Supply (S) and additional requirement (AR) for publicly-funded hostel places					
	2014/15		2015/16		2016/17	
	S	AR	S	AR	S	AR
City University of Hong Kong	3 485	1 898	3 485	2 011	3 485	2 218
Hong Kong Baptist University	1 710	881	1 711	1 128	1 711	1 158
Lingnan University	1 300	-	1 300	-	1 300	-
The Chinese University of Hong Kong	6 182	1 271	6 182	1 304	6 182	1 579
The Education University of Hong Kong	2 003	-	2 003	-	2 003	-
The Hong Kong Polytechnic University	4 654	1 250	4 654	1 406	4 654	1 790
The Hong Kong University of Science and Technology	4 101	1 159	4 141	953	4 141	1 337
The University of Hong Kong	5 725	1 891	5 728	1 858	5 730	2 121
<b>Total</b>	<b>29 160</b>	<b>8 350</b>	<b>29 204</b>	<b>8 660</b>	<b>29 206</b>	<b>10 203</b>

Regarding the number of additional publicly-funded hostel places in the coming three years, one hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by the institution) was approved by the Legislative Council in mid-2015. This project is currently under construction for completion in mid-2018. Upon its completion, it will provide 676 publicly-funded hostel places to The Chinese University of Hong Kong.

## (Question Serial No. 4252)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the UGC-funded programmes, please inform this Committee of the following in respect of the past 3 academic years:

1. the approved student number targets and the student numbers of the UGC-funded sub-degree programmes by institution and broad academic programme category;
2. the average student unit costs for UGC-funded sub-degree programmes per annum;
3. the approved student number targets and the student numbers of UGC-funded first-year-first-degree places by institution and broad academic programme category.

Asked by: Hon CHAN Tanya (Member Question No. 190)

Reply:

The approved student number targets and student enrolment of University Grants Committee (UGC)-funded sub-degree programmes and first-year first-degree (FYFD) programmes, with breakdowns by university and broad academic programme category from the 2014/15 to 2016/17 academic years are at **Annexes A and B** respectively.

The average student unit costs of UGC-funded sub-degree programmes, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, for the 2013/14 to 2015/16 academic years are set out below. The average student unit cost for the 2016/17 academic year is not yet available.

	<b>Average student unit costs of UGC-funded sub-degree places</b>
<b>2013/14</b>	\$139,000
<b>2014/15</b>	\$156,000
<b>2015/16 (provisional)</b>	\$172,000

## Note :

Student unit costs are affected by a variety of factors such as prevailing costs for different programmes and disciplines, student enrolment numbers, stages of development of individual universities, etc.

Director of Bureau: Secretary for Education  
Question:

With regard to the project of Tseung Kwan O Joint Student Hostel, will the University Grants Committee please advise us of its current progress? How many students have moved in?

Asked by: Hon CHAN Tanya (Member Question No. 191)

Reply:

According to Hong Kong University of Science and Technology (HKUST), the student hostel project in Tseung Kwan O<sup>1</sup> was completed in August 2016. As at March 2017, some 380 students have moved into the hostel.

---

<sup>1</sup> This was originally a joint project providing a total of 520 hostel places, with a split of 370 places for HKUST and 150 places for Hong Kong Baptist University (HKBU). Subsequently, HKBU decided to transfer its 150 places to a new hostel and academic building project at a new site at Renfrew Road, Kowloon Tong near its main campus. The proposed transfer was agreed by the two universities in April 2015 and as a result, the student hostel in Tseung Kwan O is now solely owned by HKUST.

Please list the total provision of grants to University Grants Committee-funded universities, the percentage share in the overall provision for education and the percentage share in our gross domestic product in the respective year over the past 3 years.

Asked by: Hon CHAN Tanya (Member Question No. 192)Reply:

The required information is tabulated below:

Financial year	Total grants <sup>1</sup> to University Grants Committee (UGC)-funded universities <sup>2</sup> (\$million)	Total expenditure on education <sup>2</sup> (\$million)	Total grants to UGC-funded universities as a percentage of total expenditure on education	Gross Domestic Product (GDP) <sup>3</sup> (\$million)	Total grants to UGC-funded universities as a percentage of GDP
	[a]	[b]	[a / b]	[c]	[a / c]
2014-15	15,743	73,724	21.4%	2,260,005	0.7%
2015-16	17,088	78,965	21.6%	2,398,408	0.7%
2016-17	18,114	82,601	21.9%	2,489,109	0.7%

## Notes:

1. Included recurrent grants and matching grants under the Sixth Matching Grant Scheme allocated to UGC-funded universities.
2. The total grants to UGC-funded universities and total expenditure on education for 2016-17 are revised estimate figures.
3. The figures are calendar-year-based at current market prices, and the GDP figures for 2015-16 and 2016-17 are subject to revision by the Census & Statistics Department.

Question:

Please give a breakdown of the respective numbers of publicly-funded, privately-funded and temporary hostel places provided by tertiary institutions in Hong Kong, and the ratios of allocation of such places between local and non-local students in the 2016/17 academic year by institution.

Asked by: Hon CHAN Tanya (Member Question No. 193)

Reply:

The number of hostel places available in the University Grants Committee (UGC)-funded universities and the ratio of hostel places allocated to local and non-local students at the beginning of the 2016/17 academic year as advised by the UGC-funded universities are at the Annex.

(A) Hostel places available for allocation to students in UGC-funded universities

University	2016/17 academic year			
	Publicly-funded	Privately-funded	Temporary	Total
City University of Hong Kong	3 440	208	0	3 648
Hong Kong Baptist University	1 629	250	216	2 095
Lingnan University	1 164	1 170	107	2 441

**CONTROLLING OFFICER'S REPLY****EDB699****(Question Serial No. 4285)**

**Head:** (190) University Grants Committee

**Subhead (No. & title):** (-) Not Specified

**Programme:** University Grants Committee

**Controlling Officer:** Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

**Director of Bureau:** Secretary for Education

**Question:**

Please set out the amount of funding, details and approving criteria of the new competitive research funds for the local self-financing degree sector in the past 3 years.

**Asked by:** Hon CHAN Tanya (Member Question No. 195)

**Reply:**

The competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The schemes include the Faculty Development Scheme (FDS), the Institutional Development Scheme (IDS), and the Inter-Institutional Development Scheme (IIDS). The FDS aims at developing the research capacity of individual academics in the local self-financing degree-awarding institutions so that they can transfer their research experiences and new knowledge into teaching and learning. The IDS aims at building up the research capacity of the local self-financing degree-awarding institutions in their strategic areas. The IIDS aims at enhancing academics' research capability in the local self-financing degree-awarding institutions and keeping them abreast of new developments and challenging research topics in relevant fields. The research funding provision is competitive and non-recurrent in nature.

Peer-review mechanism is adopted and assessment is mainly based on the academic quality / merit of the proposals. The funding awarded from the 2014/15 to 2016/17 academic years is as follows –

<b>Academic Year</b>	<b>Amount Awarded (\$ million)</b>
2014/15	103.0
2015/16	86.3
2016/17 <sup>(Note 1)</sup>	82.9
<b>Total</b> <sup>(Note 2)</sup>	<b>272.3</b>

<sup>Note 1</sup> Position up to 28 February 2017.

<sup>Note 2</sup> Figures may not add up due to rounding

Question:

What are the numbers of intake of students with special educational needs (SEN) and intake of students with disabilities in post-secondary institutions, as well as the expenditure arising from the support for those students in the past 3 years? Please give a breakdown by institution and by type of students.

Asked by: Hon CHAN Tanya (Member Question No. 197)

Reply:

The number of students with special educational needs (SEN) studying full-time University Grants Committee (UGC)-funded sub-degree and undergraduate programmes by university and type of disability, from the 2014/15 to 2016/17 academic years is at Annex. Funding for students with SEN is subsumed under the block grant allocated to the UGC-funded universities, and hence the UGC is unable to attribute the exact amount provided in supporting these students.

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please provide the increase / decrease in the number of senior staff, the expenditure on their salaries and the percentage of such expenditure in the overall expenditure in each of the funded universities in the past 3 years.

Asked by: Hon CHAN Tanya (Member Question No. 198)

Reply:

As provided by University Grants Committee (UGC)-funded universities, the changes in the number of senior staff of the universities from the 2013/14 to 2015/16 academic years are at Annex.

As regards expenditure on salaries of senior staff, since the deregulation of the salary scales of UGC-funded universities in 2003, the UGC has not sought to control for funding purposes actual expenditure on salaries in the universities. The information requested is thus not available.

**Number of Senior Staff in UGC-funded Universities by University,  
2013/14 to 2015/16 Academic Years**

<b>University</b>	<b>2013/14</b>	<b>2014/15</b>	<b>2015/16</b>

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the funding expenditure of the University Grants Committee (UGC) on research in the past 3 years, please provide the number of research projects terminated prematurely, the funds involved and the reasons.

Asked by: Hon CHAN Tanya (Member Question No. 199)

Reply:

The number of research projects in University Grants Committee (UGC)-funded universities monitored by the UGC and Research Grants Council (RGC) and terminated in the past three academic years (2014/15 to 2016/17) and the funds involved are as follows:

<b>Academic Year</b>	<b>No. of terminated projects</b>	<b>Funds involved (\$ million)</b>	<b>Funds returned to UGC/ RGC (\$ million)</b>
2014/15	19	9.3	0.7
2015/16	28	15.5	4.1
2016/17 <sup>(Note 1)</sup>	22	9.3	3.6

Note 1 Position up to 28 February 2017.

The reasons for terminating the 69 projects in the past three academic years are as follows:

<b>Reason</b>	<b>Number</b>
Departure of the Principal Investigators from UGC-funded universities	53
Principal Investigators retired	8
Principal Investigators passed away	3
Failure to submit progress reports by Principal Investigators	2
Withdrawal from research project by Principal Investigators	2
Principal Investigator involved in a substantiated misconduct case and disqualified	1

Question:

For the past 3 years:

1. please list out by institution and academic programme the full time and part time places of the taught postgraduate programmes run by UGC-funded institutions; the places and student intakes of subsidised programmes; the student intakes and tuition fees of self-financing programmes; and the respective numbers and proportions of local students, mainland students and other non-local students; and
2. please list out by institution and academic programme the full time and part time places of the research postgraduate programmes run by UGC-funded institutions; the places and student intakes of master and doctorate programmes; the student intakes and tuition fees of self-financing programmes; and the respective numbers and proportions of local students, mainland students and other non-local students.

Asked by: Hon CHAN Tanya (Member Question No. 200)

Reply:

1. The numbers of student intakes of the University Grants Committee (UGC)-funded taught postgraduate (TPg) programmes by university, mode of study, broad academic programme category (APC) and place of origin from the 2014/15 to 2016/17 academic years are at **Annex A**.

Regarding the self-financing sector, according to the information provided by the institutions, the number of actual intakes and student enrolment (with breakdown by place of origin) of locally-accredited self-financing TPg programmes provided by the institutions concerned for the 2014/15 to 2015/16 academic years is at **Annex B**. Information on the total tuition fees for the 2014/15 to 2015/16 academic years is at **Annex C**.

2. Admission to research postgraduate (RPg) programmes is conducted by universities throughout the year. The student enrolment of the UGC-funded RPg programmes by university, broad APC and place of origin from the 2014/15 to 2016/17 academic years is at **Annex D**. Breakdown figures by level of award (PhD /MPhil degrees) are not available.

Regarding the self-financing sector, according to the information provided by the institutions, the student enrolment of locally-accredited self-financing RPg programmes provided by the institutions concerned for the 2014/15 to 2015/16 academic years is at **Annex E**. Information on the total tuition fees is at **Annex F**. Breakdown figures by level of award and place of origin are not available.

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. '@' denotes 'magnitude less than 0.5'.
4. '-' denotes nil.

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Figures include only students funded by UGC within normal study periods.
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. Also, if RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students. As such, figures may not add up to the corresponding totals.
4. '@' denotes 'magnitude less than 0.5.
5. '-' denotes nil.
6. # Provisional figures

	Other non-local students	0 (0.0%)	0 (0.0%)	0 (0.0%)	0 (0.0%)	27 (6.6%)	27 (5.7%)
	Total	47 (100.0%)	3 (100.0%)	3 (100.0%)	8 (100.0%)	409 (100.0%)	470 (100.0%)

## Notes:

1. Figures include both full-time and part-time programmes.
2. Figures for the 2016/17 academic year are not yet available.

**Total Tuition Fees of Self-financing Research Postgraduate Programmes Offered by  
UGC-funded Universities by University and Broad Academic Programme Category,  
2014/15 to 2016/17 Academic Years**

University	Broad Academic Programme Category	Total Tuition Fee (\$)		
		2014/15	2015/16	2016/17
HKBU	Arts & Humanities	144,000 - 252,600	144,000 - 252,600	144,400 - 252,600
	Business & Management			
	Sciences			
	Social Sciences			
HKUST	Engineering & Technology	160,000	-	-
HKU	Arts & Humanities	151,500 - 227,250	84,200 - 227,250	84,200 - 283,500
	Business & Management			
	Education			
	Engineering & Technology			
	Medicine, Dentistry & Health			
	Sciences			
	Social Sciences			

## Notes:

1. Research postgraduate programmes include MPhil and PhD programmes. The tuition fees above are based on normal programme duration.
2. Total tuition fees refer to total tuition fee for the entire programme.
3. '-' denotes no relevant programmes were offered.
4. The RPg students in CUHK and EdUHK as mentioned in [Annex E](#) are recurrent students and the relevant programmes are no longer offered for new admission, hence the tuition fee information is not provided here.

Director of Bureau: Secretary for Education  
Question:

Regarding Senior Year Articulation Opportunities, please inform this Committee of the following:

1. How will the increased intake of 1 000 senior year undergraduate places be allocated among institutions? Under the respective mechanism, how can equal opportunity in admission be ensured for holders of an associate degree?
2. What were the student intakes of subsidised associate degree programmes offered by various self-financing institutions in the past 3 academic years, broken down by institution, faculty, and department?
3. How to ensure that graduates of associate degree programmes will be able to articulate to undergraduate programmes offered by the institutions concerned?
4. For those departments of institutions which have not admitted associate degree graduates, is there a requirement that subsidised top-up degree programmes must be offered when the funding is granted? If not, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 142)

Reply:

1, 3 and 4

In the 2014 Policy Address, the Government announced that from the 2015/16 academic year and the following triennium, the intake of senior year undergraduate places in University Grants Committee (UGC)-funded universities would progressively increase by a total of 1 000 places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. As a modest start in the 2015/16 academic year (which was a roll-over year), the number was increased by 265 to 4 265.

During the academic planning cycle for the 2016/17-2018/19 triennium, the UGC continued to allocate the UGC-funded senior year undergraduate intake places on a competitive basis, taking into account a number of factors, including the bids submitted by the universities, the roles of universities, universities' experience in admitting sub-degree graduates and efforts in promoting the articulation pathways for graduates from both the publicly-funded and self-financing sectors, etc. The UGC assessed its funded universities' bids on the basis of the following criteria which were agreed by the universities –

- (a) the extent to which the university has engaged with Credit Accumulation and Transfer System (CATS) in a manner which facilitates credit recognition and transfer;

- (b) the extent to which there is effective liaison with other post-secondary providers (including those outside the UGC sector) to facilitate articulation arrangements; and
- (c) the extent to which articulation opportunities are provided across the full range of the university's first degree programmes.

Once senior year places are allocated to UGC-funded universities, they enjoy a lot of latitude in determining the distribution of senior year intake places across different disciplines, having regard to the distribution of sub-degree graduates (in both publicly-funded and self-financing sectors) across various disciplines, students' interests, community needs and their own development goals. In the 2016/17 academic year, senior year undergraduate places are available in all broad academic programme categories, i.e. Medicine, Dentistry and Health; Sciences; Engineering and Technology; Business and Management; Social Sciences; Arts and Humanities; and Education.

Besides, under the principles of fairness and merit-based selection, admission to UGC-funded programmes is a matter of institutional autonomy. That said, it is noted that UGC-funded universities have been utilising more and more of their senior year places for the admission of students graduating from other non-affiliated institutions / community colleges. In 2012/13, 1 118 (44.6%) of 2 504 intakes of UGC-funded senior year programmes were graduates from other non-affiliated institutions / community colleges. In 2016/17, the figure has increased to 2 682 (59.6%) out of 4 503 intakes.

2

In the past three years, self-financing institutions have not offered any subsidised associate degree programmes.

Director of Bureau: Secretary for Education

Question:

Regarding the "Work of the Research Grants Council", \$3 billion will be earmarked for providing new competitive research funds for the local self-financing degree sector. Please advise on the following matters, if any, in the past 3 years:

1. Regarding the research funds for the self-financing degree sector, which institutions could secure the funds, and what was the amount of funding for the research projects involved? Please provide a breakdown by institution, project title, amount of funding and academic year.
2. Are there any mechanisms to ensure that funds are allocated in a fair manner? If yes, what are the details?
3. Are there any mechanisms and measures to assist teaching staff of institutions in the self-financing degree sector in applying for the research funds and increasing the success rate of their applications?
4. Are there any mechanisms to encourage self-financing institutions to actively engaged in proposing research projects?
5. Are there any mechanisms to ensure that the teaching staff awarded with research funding will properly complete their research projects?

Asked by: Hon CHAN Tanya (Member Question No. 145)

Reply:

1. The Research Grants Council (RGC) launched the three new research funding schemes for the local self-financing degree (SF) sector, namely the Faculty Development Scheme, the Institutional Development Scheme and the Inter-Institutional Development Scheme in December 2013. There were 66, 60 and 66 approved research projects under the three funding schemes in the 2014/15, 2015/16 and 2016/17 academic years respectively. Details of these projects including the titles, participating institutions and amount awarded are available at the University Grants Committee (UGC)'s website (<http://www.ugc.edu.hk/eng/rgc/result/result.htm>). In view of the large number of projects involved, Members are invited to visit the website for the details of these projects.
2. Similar to the funding schemes administered by the RGC for the UGC-funded universities, research proposals of the three funding schemes of the SF sector are subject to a rigorous peer review process supported by the RGC's international network of 18,000 external reviewers and assessed by the Assessment Panel based on the academic quality / merit of the research proposals. To ensure fairness and impartiality of the assessment process, panel members who have perceived conflict of interests

with the applicants do not participate in the assessment of the relevant proposals.

3. With a view to encouraging the academics of the SF sector to submit applications and increase the success rate, the RGC organized a workshop every year to explain to them the detailed operation of the three funding schemes, including the ambit of the funding, the operation framework and the assessment process, etc. Successful applicants of the previous funding exercises were also invited to share their experience in their preparation of successfully funded proposals and to provide tips to the potential applicants. In addition, the Chairman of the Assessment Panel also briefed the participants on the assessment criteria, the common problems found in the applications that should be avoided, etc. in order to increase their chance of success.
4. Among the three funding schemes, the Inter-institutional Development Scheme aims at keeping the academics of the SF sector abreast of new developments and challenging research topics in the field and enhancing their research capability. The scheme supports the academics in organizing workshops or short courses so as to enable the participants to conduct focused study and intensive scholarly exchange under the guidance of visiting scholars and experts. These programmes could inspire the academics of the SF sector to conduct new challenging research topics or new initiatives for future research.
5. To ensure that the funded project is proceeding on schedule and that any problems identified are followed up by the Principal Investigator, each project is monitored by at least one Assessment Panel member. The Assessment Panel member assigned to the project reviews the progress report(s) and, where necessary, provides his / her comments to the Principal Investigator for reference and follow-up action. From 2015/16 onwards, project funds of 97% of RGC's research projects are disbursed by instalment. The rest are short-term research projects that last for 12 months or less. The Principal Investigator concerned should demonstrate satisfactory progress before he / she may obtain further funding from the RGC. He / She may also be required to present the progress and achievements during on-site visits.

Question:

Senior Year Articulation Opportunities: from the 2015/16 academic year and in the triennium that follows, the intake of senior year undergraduate places in UGC-funded universities will progressively increase by a total of 1 000 places so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year.

1. What is the mechanism to be used to allocate these 1 000 places among institutions?
2. What is the time of setting up the mechanism? How to develop the criteria for its establishment?
3. In developing the criteria, have different stakeholders of institutions been consulted?
4. If consultation was conducted, when and where did it take place? What stakeholders were consulted?
5. If no consultation has been conducted or consultation is deemed unnecessary, what are the reasons?
6. Is the mechanism subject to periodical reviews so as to meet the actual situation?
7. Are the contents of these consultations and reviews available to the public?

Asked by: Hon CHAN Tanya (Member Question No. 146)

Reply:

In the 2014 Policy Address, the Government announced that from the 2015/16 academic year and the following triennium, the intake of senior year undergraduate places in University Grants Committee (UGC)-funded universities would progressively increase by a total of 1 000 places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. As a modest start in the 2015/16 academic year (which was a roll-over year), the number was increased by 265 to 4 265.

During the academic planning cycle for the 2016/17-2018/19 triennium, the UGC continued to allocate the UGC-funded senior year undergraduate intake places on a competitive basis, taking into account a number of factors, including the bids submitted by the universities, the roles of universities, universities' experience in admitting sub-degree graduates and efforts in promoting the articulation pathways for graduates from both the publicly-funded and self-financing sectors, etc. The UGC assessed UGC-funded universities' bids on the basis of the following criteria which were agreed by the universities –

- (a) the extent to which the university has engaged with Credit Accumulation and Transfer System (CATS) in a manner which facilitates credit recognition and transfer;
- (b) the extent to which there is effective liaison with other post-secondary providers (including those outside the UGC sector) to facilitate articulation arrangements; and
- (c) the extent to which articulation opportunities are provided across the full range of the university's first degree programmes.

As regards the 2019/20 to 2021/22 triennium, planning will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded senior year intake places to be offered in the next triennium as well as the method of allocation of these places to individual universities, in consultation with the universities as necessary.

Question:

Regarding the "Hong Kong PhD Fellowship Scheme" mentioned under the "Work of the RGC", please advise this Committee of the following:

1. The numbers of students who were awarded the fellowship in the past 3 years. Please tabulate the numbers by local students, Mainland students, and other non-local students.
2. Was there any mechanism to ensure a fairer treatment for local students in the application for the scheme?
3. Is there any mechanism to attract local students to apply for the scheme and increase their chance of being awarded the fellowship?
4. Will the Government consider putting in place a system based on quota or proportion, or even dividing the scheme into local student and non-local student streams? Or will it establish a dedicated scholarship scheme for Mainland students?
5. Will the Government consider establishing a dedicated scholarship scheme for non-taught postgraduate students of Hong Kong so as to provide a pathway for local postgraduate students who aspire to a career in research work? If yes, what are the reasons? If no, what are the policy considerations?

Asked by: Hon CHAN Tanya (Member Question No. 565)

Reply:

1. The number of local, Mainland and other non-local students awarded with the Hong Kong PhD Fellowship Scheme (HKPFS) from the 2014/15 to 2016/17 academic years is tabulated below:

Academic year	Number of awardees under the HKPFS			
	Local	Mainland	Other non-local	Total
2014/15	13	131	79	223
2015/16	14	133	69	216
2016/17	15	120	96	231

2. to 5. Research is crucial to the development of higher education and enhancing the competitiveness of an economy. The HKPFS aims at attracting the best and brightest students both in Hong Kong and around the world, and welcomes applications from local and non-local students who wish to pursue their research-based PhD programmes in the UGC-funded universities. The HKPFS awardees are selected on a merit basis, taking into account the applicants' academic results and research capability,

regardless of their place of origin. The HKPFS awardees so admitted play an important role in the higher education sector. Apart from participating directly in a large number of research activities, they are also engaged in the teaching activities of universities (as teaching assistants, laboratory administrators, etc.) and serve as a bridge between undergraduates and the teaching staff, thereby making contributions to teaching and the passing on of knowledge in universities.

Setting upper limits on the number of non-local students to be enrolled in publicly-funded HKPFS will pose hindrance to the pursuit of academic excellence by the local higher education sector and lead to a loss of high quality research talents and projects to other places. It is also contradictory to common international practice.

Over the past years, the Government and universities have organized symposiums, seminars, talks, and promotion activities such as through RoadShow to attract local talents to apply for postgraduate programmes and the HKPFS in Hong Kong. This notwithstanding, the decision of local graduates on whether and where to pursue postgraduate studies, especially research postgraduate (RPg) programmes, is a personal choice affected by such factors as prevailing employment opportunities in the market, students' career orientation and prospect in the teaching/research fields. Furthermore, among local students who choose to pursue RPg studies, many would do so abroad, so that they can conduct research under a different culture and environment.

Since the launch of the HKPFS in 2009, about 6% to 9% of the applications by local students are awarded with the fellowship, whilst only about 3% to 5% of applications by non-local students are awarded with it. This indicates that the chance for local students to be awarded with the fellowship is about double of that for non-local students.

In light of the above, there is no plan to set up dedicated streams within the HKPFS for local and non-local applicants respectively. There is no plan either to set up another scholarship / fellowship specifically for local applicants of UGC-funded research postgraduate programmes.

Question:

Regarding the cost allocation guidelines and an updated version of accounting and disclosure practices mentioned under the Institutional and Financial Governance of Universities, please advise this Committee of the following:

1. Why do the accounting and disclosure practices help enhance the governance of institutions?
2. What are the progress and timetable for the implementation of the practices?
3. How to make use of the guidelines and practices to enhance the performance of teachers in institutions in a value-for-money manner?
4. How to measure the respective performances of teachers and administrative staff?
5. Are the same guidelines and practices applicable to every institution? Is it possible for an institution to fine tune the guidelines and practices having regard to its own development at different stages and characteristics?

Asked by: Hon CHAN Tanya (Member Question No. 147)

Reply:

Parts 1, 2 & 5

In 2015, the University Grants Committee (UGC) promulgated a new set of guidelines and practices, namely the Cost Allocation Guidelines (the Guidelines) and the Statement of Recommended Practice for the UGC-funded Institutions (the SORP). The Guidelines aim at improving the cost allocation practices adopted in universities and ensuring that there is no cross-subsidisation of UGC resources to non-UGC-funded activities. The cost allocation practices and methods set out in the Guidelines are principle-based rather than rule-based. Practically speaking, the guidelines are not intended to cover the full range of cost allocation treatments for the multifarious nature of institutional activities. Universities should make their own judgment on the cost allocation treatments of specific activities based on principles set out in the Guidelines when such activities are not specifically listed in the documents and where necessary, consult professional advice.

The SORP aims to, among others, set out recommendations on best practices regarding the form and contents of the universities' annual report. Two requirements are added in the updated version of SORP to improve financial reporting - the provision of a report from the Council or senior management of a university which includes information about the strategy, institutional governance and operations of the university and segment reporting of UGC-funded and non-UGC-funded activities in universities' financial reports.

SORP requirements (except for segment reporting which would be put into effect in the financial statements for 2016/17) have been reflected in universities' financial reports in 2015/16 and universities are required to incorporate the Guidelines' requirements in their financial statements for 2018/19. The UGC, with the assistance of an external consultant, has been and will continue to oversee the universities' progress in carrying out necessary enhancements to incorporate the new requirements in their accounting operations and systems through requesting progress reports; and providing professional advice on the implementation tasks as appropriate.

Parts 3 & 4

As mentioned above, the purpose of the new set of cost allocation guidelines and the SORP is to improve the cost allocation practices (between UGC-funded and non-UGC-funded activities) and enhance financial reporting at the university level. They are not concerned with the performance of individual staff of the universities. In line with the principle of institutional autonomy, universities have their own established mechanisms in assessing the performance of the staff.

Question:

Regarding the "Governance in UGC-funded Higher Education Institutions in Hong Kong" Report (the Report) mentioned under "Institutional and Financial Governance of Universities", please advise this Committee of:

1. whether any measures are in place to ensure that the institutions will not interfere with the academic freedom of their teaching staff when maintaining the governance of the institutions;
2. whether there is any measure to restore the teaching staff's confidence in UGC's upholding of academic freedom;
3. how to deal with the issue of the Chief Executive (CE) acting as the Chancellor of the universities; and
4. whether any measures are in place to reduce the number of members appointed by the CE to the management committees of these institutions, or even abolish such appointment arrangement; if yes, of the measures involved; if no, the reasons for that.

Asked by: Hon CHAN Tanya (Member Question No. 148)

Reply:

Parts 1 and 2

The eight University Grants Committee (UGC)-funded universities are autonomous bodies established pursuant to their respective ordinances and each has established a council to serve as the governing body. Their ordinances and statutes set out their objectives, functions and governance structure and provide the universities with the power and freedom to carry out their objectives and functions.

The UGC contributes to the protection of institutional autonomy and academic freedom through its role as an intermediary between the Government and the UGC-funded universities. The UGC Notes on Procedures (NoP) clearly state that universities enjoy academic freedom and institutional autonomy in the development of curricula and academic standards, selection of staff and students, initiation and conduct of research, internal allocation of resources, etc, and are accountable in these matters. Universities have their internal mechanisms and guidelines for handling academic matters under the principle of upholding academic freedom. Also, under the existing mechanism, academic staff can make use of various channels to voice their views or concerns, including staff membership of councils, senates and relevant committees of the universities.

#### Part 3 and 4

According to the respective ordinances governing the eight UGC-funded universities, the Chief Executive is the Chancellor, the purpose of which is to maintain the linkages between the Government and the universities and to demonstrate the Government's support to the higher education sector. Relevant provisions in the ordinances and statutes of the universities specify the powers and duties of the Chancellor in order to meet the needs of the universities. The Chief Executive has the statutory power and responsibility to carry out the duties specified in relevant provisions in the ordinances.

The governing ordinances and statutes of the eight UGC-funded universities provide for a certain number of Council members who are appointed by the Chief Executive / Chancellor. All along, Council appointments are made on a merit basis, taking into consideration the operation of universities concerned and the needs of higher education development of Hong Kong, with a view to appointing suitable candidates in accordance with the respective ordinances of the universities.

Question:

Regarding "Internationalisation and Non-local Students", please advise this Committee of the following:

1. Apart from funding support, what measures are in place to assist the institutions in their work of promoting true internationalisation?
2. Has the Government reviewed the proportion of Mainland students among non-local students?
3. Has the Government considered collecting tuition fees from non-local students at a rate higher than that for local students, or increasing tuition fees for non-local students having regard to the different costs incurred by various departments of each institution to recover part of the costs?
4. What were the respective numbers of non-local students (excluding Mainland students) and Mainland students of each funded institution in the past 5 financial years? Please tabulate the numbers by institution and faculty.

Asked by: Hon CHAN Tanya (Member Question No. 149)

Reply:

(1) and (2)

The University Grants Committee (UGC) recognises that internationalisation may come in many forms, including international strategies, curriculum development, international networks, non-local student recruitment and integration, and international faculty, etc. Therefore the UGC has all along been encouraging, and will continue to encourage, universities to internationalise in ways that fit their own institutional context. Funding would continue to be provided to universities in the 2016-19 triennium to continue their efforts to attract more diversified sources of non-local students, including setting up of the Hong Kong Pavilion in international education conferences to enable the universities to explore new markets and attract more non-local students from different regions as well as to promote the UGC sector as a united front.

(3)

Under existing policy, UGC-funded universities should charge non-local students of UGC-funded sub-degree (SD), undergraduate (Ug) and taught postgraduate (TPg) programmes tuition fees at levels at least sufficient to recover all additional direct costs, and that the tuition fees should in no circumstances be lower than the fees applicable to local students (i.e. \$42,100 per annum for degree programmes). In 2016/17, the tuition fees payable by non-local students of UGC-funded undergraduate programmes range from \$110,000 to \$146,000 per annum. On the conditions that all non-local students of UGC-funded SD,

Ug and TPg programmes are admitted through over-enrolment and the tuition fees payable by them are at least sufficient to recover all additional direct costs, UGC-funded universities enjoy the autonomy in setting the tuition fee levels as they see fit, having regard to their own circumstances and the costs of different programmes across different disciplines.

As regards RPg students, it should be reckoned that, as a matter of fact, they play an important role in the higher education sector. Not only do they participate directly in a large number of research activities, but they also take part in the teaching activities of institutions (such as acting as teaching assistants, laboratory administrators, etc.) as well as serve as a bridge between the undergraduates and the teaching staff, thereby contributing to the teaching and learning as well as knowledge transfer in institutions.

Given the above, and with a view to boosting the research capability in Hong Kong through attracting high quality talents from around the world, UGC-funded universities currently admit RPg students on a merit basis and charge them a uniform tuition fee of \$42,100 per student per year<sup>1</sup>, taking into account the students' academic results and research capability, regardless of their place of origin. This practice helps ensure that the best candidates irrespective of place of origin are engaged to boost the level of research and contribute to the teaching and learning as well as knowledge transfer work in institutions, thereby safeguarding the effectiveness of public spending.

(4)

The number of non-local students of UGC-funded programmes by university, level of study and place of origin from the 2012/13 to 2016/17 academic years is set out below. The breakdown of non-local students by faculty is not readily available.

---

<sup>1</sup> That said, paragraph 3.11 of the UGC Notes on Procedure provide that, subject to prior notification to the UGC and in case institutions choose to over-enrol RPg students beyond the 40% cap, the additional full direct costs incurred (defined as all direct marginal costs incurred arising from the over-enrolment, including studentships, and additional costs for student supervision, cost of space provided *etc*) should be met from non-UGC/RGC funds, including higher tuition fees payable by the over-enrolled students.

**Number of Non-local Students of UGC-funded Programmes by University, Level of Study and Place of Origin, 2012/13 to 2016/17 Academic Years**

Notes :

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within normal study periods.
3. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. <sup>^</sup> The number of RPg students are in decimal places which are all rounded to the nearest whole numbers in this table. This is because if the RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.
5. ‘-’ denotes nil.

Question:

Regarding "Openness and Transparency of UGC Activities", please advise this Committee of the following:

1. What administrative measures are in place to assess the overall performance of each committee under the UGC?
2. What were the numbers of exchange activities held between the UGC and the staff of various institutions (excluding the management) in the past 3 years? Please set out in a table the nature of each exchange activity, the names of the institutions concerned, the numbers of activities and the numbers of attendees.
3. Has the UGC met with the staff unions of each institution on a regular basis? If it has, please set out in a table the names of the institutions and the staff unions concerned as well as the numbers of attendees in the past 3 years. If not, what are the reasons?
4. Has the UGC conducted regular exchanges with the part-time teachers of the institutions? If it has, please set out the names of the institutions meeting up with the UGC, the dates and venues of such meetings as well as the numbers of attendees in the past 3 years. If not, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 400)

Reply:

1. The University Grants Committee (UGC) is an independent and non-statutory body which advises the Government on the funding and strategic development of higher education in Hong Kong. In this role, the UGC works with institutions, the Government and the community to promote excellence in the higher education sector, with a view to establishing Hong Kong as the education hub of the region and to nurturing high quality people to promote the economic, cultural and social development of Hong Kong. The UGC normally meets three times a year in Hong Kong and each UGC main meeting lasts for about one week. The UGC has under its aegis two semi-autonomous bodies: the Research Grants Council (RGC) is responsible for advising the needs of higher education institutions in academic research, and considering applications for research grants from academic staff and for the award of fellowships; and the Quality Assurance Council is responsible for advising on quality assurance matters in the higher education sector, including specifically the conduct of quality audits of the UGC-funded universities.

The UGC maintains a website on its policy, publications, relevant statistics, etc. To enhance stakeholder communication and transparency, the UGC also publishes Annual Reports to give a fuller description of the major work undertaken by the UGC and its committees during the report periods. The Annual Report is a bilingual public document distributed widely in the academic

sector and is available on the UGC's website. Moreover, from time to time, the UGC submits reports to the Government on matters referred to it for advice.

- 2 to 4: The UGC normally makes a visit to one of the UGC-funded universities on two or three occasions each year for half a day to foster a better understanding between the UGC and the universities, and to enhance the UGC's direct communications with different stakeholders in the universities. During the visits, the UGC holds discussions and has exchanges with senior management, faculty staff, students, etc. The visits paid by the UGC to universities from January 2014 to January 2017 are as follows –

<b>Date</b>	<b>UGC-funded universities</b>
January 2014	The Hong Kong University of Science and Technology
May 2014	Hong Kong Baptist University
September 2014	City University of Hong Kong
May 2015	The Hong Kong Polytechnic University
September 2015	The Chinese University of Hong Kong
January 2016	The Education University of Hong Kong
April 2016	Lingnan University
September 2016	Hong Kong Baptist University
January 2017	The University of Hong Kong

In order to discharge its responsibilities, the UGC, through its sub-committees and task forces, meets university members on a regular basis. Additionally, the UGC Chairman and Secretary-General of the UGC Secretariat meet Presidents and Council Chairmen of the universities several times a year.

The RGC and its assessment committees/panels arrange a one-day visit to a UGC-funded university each year to facilitate exchange between universities and the RGC. During the visit, the delegation will meet the university's management and academic staff. Small group meetings with junior faculty members and research postgraduate students will also be arranged. The visits paid by the RGC to universities from January 2014 to January 2017 are as follows –

<b>Date</b>	<b>UGC-funded universities</b>
June 2014	The Education University of Hong Kong
June 2015	City University of Hong Kong
June 2016	The University of Hong Kong

In addition, the RGC conducts town hall meetings for the academics on a need basis to explain the roles of the UGC and RGC in providing research support, the peer review mechanism and selection process. Senior academics are invited to share their experience in writing proposals with potential applicants. Two town hall meetings were conducted in June 2014 and December 2015 respectively on collaborative research and individual research.

Question:

Regarding institutional and financial governance of universities, please advise this Committee of the following:

1. the numbers of staff employed on tenure or substantiated terms in various funded institutions for the past 5 financial years by institution, rank and year (as shown in Table 1);
2. the numbers of staff employed on full-time contract terms (over 12 months) in various funded institutions for the past 5 financial years by institution, rank and year (as shown in Table 1);
3. the numbers of staff employed on temporary contract terms (less than 12 months) in various funded institutions for the past 5 financial years by institution, rank and year (as shown in Table 1);
4. the numbers of staff employed on part-time contract terms in various funded institutions for the past 5 financial years by institution, rank and year (as shown in Table 1);
5. the total numbers of staff employed, irrespective of whether they are employed on tenure or substantiated terms, full-time contract terms (over 12 months), temporary contract terms (less than 12 months) or part-time contract terms, in various funded institutions for the past 5 financial years by institution, rank and year (as shown in Table 1); and
6. further to parts (2) to (5) above, the ways to ensure that contract staff have the chance to be promoted to tenured positions.

Asked by: Hon CHAN Tanya (Member Question No. 399)

Reply:

The number of staff on contract and substantive appointment from the 2011/12 to 2015/16 academic years as provided by the University Grants Committee (UGC)-funded universities is at Annex. The breakdown by the rank of staff is not readily available.

6. The eight UGC-funded universities are autonomous bodies established pursuant to their respective ordinances and each has established a council to serve as the governing body. Their ordinances and statutes set out their objectives, functions and governance structure and provide the universities with the power and freedom to carry out their objectives and functions.

The UGC Notes on Procedures clearly state that universities enjoy institutional autonomy in the development of curricula and academic standards, selection of staff and students, initiation and conduct of researches, internal allocation of resources, etc, and are accountable in these matters. Universities have their internal mechanisms and guidelines for handling staff management and promotion matters.

Question:

It is mentioned under "Senior Year Articulation Opportunities" that the number of publicly-funded senior year undergraduate places are being progressively increased from 3 974 (or 1 987 intake places) in the 2011/12 academic year to 9 925 (or 5 000 intake places) in the 2018/19 academic year. Please advise this Committee of the following:

1. What mechanism will be adopted for allocating places to the institutions?
2. When was the mechanism established? How were the criteria under the mechanism set?
3. Have different stakeholders of various institutions been consulted in the setting of criteria?
4. Have the public or various institutions been consulted? If yes, when were they consulted? Where were the consultations conducted? Which stakeholders were consulted?
5. If no consultations were conducted, why are consultations not necessary?
6. Is the mechanism regularly reviewed in the light of the actual circumstances?
7. Are the details of consultation and review accessible to the public for maintaining transparency and openness?

Asked by: Hon CHAN Tanya (Member Question No. 566)

Reply:

In the 2014 Policy Address, the Government announced that from the 2015/16 academic year and the following triennium, the intake of senior year undergraduate places in University Grants Committee (UGC)-funded universities would progressively increase by a total of 1 000 places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. As a modest start in the 2015/16 academic year (which was a roll-over year), the number was increased by 265 to 4 265.

During the academic planning cycle for the 2016/17-2018/19 triennium, the UGC continued to allocate the UGC-funded senior year undergraduate intake places on a competitive basis, taking into account a number of factors, including the bids submitted by the universities, the roles of universities, universities' experience in admitting sub-degree graduates and efforts in promoting the articulation pathways for graduates from both the publicly-funded and self-financing sectors, etc. The UGC assessed UGC-funded universities' bids on the basis of the following criteria which were agreed by the universities –

- (a) the extent to which the university has engaged with Credit Accumulation and Transfer System (CATS) in a manner which facilitates credit recognition and transfer;
- (b) the extent to which there is effective liaison with other post-secondary providers (including those outside the UGC sector) to facilitate articulation arrangements; and
- (c) the extent to which articulation opportunities are provided across the full range of the university's first degree programmes.

As regards the 2019/20 to 2021/22 triennium, planning will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded senior year intake places to be offered in the next triennium as well as the method of allocation of these places to individual universities, in consultation with the universities as necessary.

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

It is mentioned under “Importance of Teaching” that “recognising the importance of teaching excellence in the UGC-funded universities, over 75 per cent of the total Block Grant is for teaching. The academic development planning process for the 2016/17 to 2018/19 triennium has given a strong focus on teaching quality.”

1. Please provide information on the use of the 75% of Block Grant in teaching by the University Grants Committee (UGC)-funded universities in the past 3 years, including but not limited to the proportion of grant used by each university; how the grant was allocated internally among different faculties by the university; and the expenditure items, including salaries of teaching and research staff in various ranks, purchase of teaching aids, etc.
2. It is mentioned that the focus is on teaching quality. What measures and mechanism are in place to ensure that the grant will be put to good use by the 8 universities?
3. Some elementary and frontline teaching staff of the universities, including lecturers and tutors, have a heavy teaching load but are not well remunerated. They are paid a comparatively low salary without any job security. Moreover, they are not appointed on pensionable and permanent terms. What mechanism has been established with the grant to improve their promotion prospects?

Asked by: Hon CHAN Tanya (Member Question No. 87)

Reply:

Parts 1 and 3 –

It is noteworthy that “75 per cent of the total Block Grant is for teaching” only refers to the basis for determining the block grant allocation to the University Grants Committee (UGC)-funded universities. Once allocations are approved, universities have a high degree of freedom and responsibility for determining the best use of the resources vested in them. Under institutional autonomy, universities have their own established mechanisms in determining the remuneration packages of their staff, and are accountable for their decisions in this regard. The UGC generally does not micro-manage or intervene in these matters.

Part 2 –

The eight UGC-funded universities are independent statutory bodies, each with its own ordinance and governing council. Each university has its own objectives, functions and governance structure in accordance with its own governing ordinance and statutes. In addition, the governing council is the

supreme governing body over all institutional matters, having powers to do things that are necessary and conducive to the objects of the university.

That notwithstanding, in view of the significant funding the universities receive in the form of Government subvention and private contributions, as well as the importance of higher education to the development of the society, universities should ensure that their funding is put to appropriate use and serves the best interests of the community and students. While safeguarding academic freedom and institutional autonomy, universities should endeavor to maintain transparency and accountability in their operations.

As required by the UGC Notes on Procedures (NoP), the universities, in addition to the annual audit of the financial statements, universities are required to engage independent external auditors to provide an assurance as to whether the university has accounted for the income and expenditure in respect of the funds received from the UGC in accordance with the relevant provisions of the NoP and the grant allocation letters issued by the UGC. Moreover, to provide further assurance of the proper use and application of public funds as represented in the audited financial statements and the annual return, Heads of Universities (HoUs) are requested to provide a Certificate of Accountability to the UGC annually, after the close of each financial year, to confirm that public funds allocated via the UGC and matched donations under the Matching Grant Schemes had been spent in accordance with the NoP, allocation letter and other guidelines and approved Government policies, including the guidelines on no cross-subsidisation.

Question:

It is mentioned under "Importance of Teaching" that in the 2015/16 and 2016/17 academic years, the University Grants Committee (UGC) continues to support universities in the area of teaching and learning through supporting individual and collaborative projects on teaching and learning, facilitating the establishment of communities of practice by universities, and supporting professional development activities. In the 2016/17 to 2018/19 triennium, time-limited funding of \$140 million has been earmarked for competitive allocation in teaching and learning projects.

1. Please provide information on the funding in the past 3 years, including the numbers of project fund applications from institutions each year, the numbers of projects for which applications were approved, and the success rates?
2. It is mentioned that universities can carry out individual projects on teaching and learning. In the past 3 years, how many projects of the 8 institutions were funded by the UGC? Please also provide (1) the names of the projects; (2) the names of the researchers and their respective academic units or departments; (3) the amounts of funding granted to the projects; (4) the status of the projects, e.g. not yet completed, underway, completed or information unavailable.
3. Has any review been conducted to evaluate whether teaching and learning effectiveness has been enhanced with the project funds? If not, is there any timetable for conducting such a review?

Asked by: Hon CHAN Tanya (Member Question No. 88)

Reply:

(1), (2) and (3):

In the 2012-15 triennium, the University Grants Committee (UGC) introduced the "Funding Scheme for Teaching and Learning Related Proposals in the 2012-15 Triennium" (the Funding Scheme) with a view to motivating and better enabling institutions to accelerate the adoption of necessary pedagogical changes and innovations so as to meet the learning needs of the new generation of students and enhance students' learning experience. A total of 54 proposals were received from the eight UGC-funded institutions, among which 23 of the proposals (representing 43%) were approved. Details of the approved projects are at Annex. All of the approved projects commenced in the 2012-15 triennium but, as shown at the Annex, some of the projects are still ongoing until end 2018. A review of the Funding Scheme will be conducted upon completion of all approved projects.

Director of Bureau: Secretary for Education

Question:

Regarding the functions of the University Grants Committee (UGC) Secretariat, please advise on the following:

1. Has the Secretariat maintained reports on value for money audits for its staff in areas such as working hours per week, leave arrangement and gratuity arrangement (if any) of each staff member. If yes, please set out the details?
2. How to measure and assess the performance of the Secretary-General? For example, is the Secretary-General required to provide weekly report on working hours arrangement, use of benefits and leave arrangement? If yes, what are the measurement standards for his performance and bonus (if any)?
3. Are there any accounting principles and guidelines for the compliance of the Secretary-General to enhance the governance and performance of the Secretariat?
4. Will independent persons be invited to set up a committee to review and assess the governance and performance of the Secretariat, and to put forward improvement proposals?

Asked by: Hon CHAN Tanya (Member Question No. 563)

Reply:

1. Civil servants working in the UGC Secretariat are subject to the prevailing government rules and regulations governing their conditions of service applicable to their respective terms of appointment. As regards non-civil service contract (NCSC) staff working in the UGC Secretariat, their terms and conditions of service are subject to the provisions in their respective employment contracts and the prevailing government guidelines governing the employment of NCSC staff. All staff, civil servants or NCSC staff, will have their performance assessed through regular staff appraisal reports.
2. The person occupying the post of Secretary-General of the UGC Secretariat from time to time will have his/her performance assessed through regular staff appraisal reports. There are service-wide guidelines governing performance management in the civil service.
3. As the Controlling Officer of Head: (190) University Grants Committee, Secretary-General of the UGC Secretariat is responsible for discharging the responsibilities of a controlling officer as specified in the Public Finance Ordinance and ensuring the proper use of funds in the UGC Secretariat in compliance with the prevailing government financial and accounting rules and regulations.

4. The UGC Secretariat is subject to audit by the Audit Commission (Audit), and has been and will continue to be fully cooperative with the Audit. In fact, the Audit recently conducted a value for money audit review on the UGC Secretariat and published the Audit Report No. 67 on 23 November 2016, containing, among others, a chapter on the funding of universities by UGC. The Public Accounts Committee (PAC) of the Legislative Council (LegCo) held public hearings on the said chapter and published the PAC Report No. 67 on 15 February 2017. The Government and the UGC generally accept the views and recommendations made by the Audit and the PAC on the funding of universities by UGC. The UGC Secretariat has been taking follow-up actions as appropriate in collaboration with relevant Government bureaux/departments, and is working on a comprehensive response to the PAC for inclusion in the Government Minute, which will be tabled at the LegCo meeting in May 2017.

Question:

Regarding funding in the 2016/17 to 2018/19 triennium, provision of \$13,380 million and \$17,819 million is earmarked by the University Grants Committee (UGC) to meet the funding requirements of the UGC-funded universities. Please provide information on the following:

1. What is the established methodology for determining the level of recurrent grants?
2. Are there any revisions between the funding criteria of the previous triennium and the established methodology? If yes, what are the revisions of the criteria?
3. Why is there a difference of almost \$4 billion in the funding for the 2016/17 to 2018/19 triennium?

Asked by: Hon CHAN Tanya (Member Question No. 141)

Reply:

Parts 1, 2 and 3.

The University Grants Committee (UGC) follows a triennial planning cycle for the recurrent grant allocation exercise to the UGC-funded universities. Funding for the 2016/17 to 2018/19 triennium covers provision for the 2016/17, 2017/18 and 2018/19 academic years (each starting from 1 July to 30 June of next year). For the purpose of estimates of expenditure, provision of \$13,388.0 million is earmarked in the 2016-17 financial year to meet the funding requirements of individual universities over the first nine months of 2016/17 academic year (i.e. from 1 July 2016 to 31 March 2017); and \$17,817.9 million is earmarked in 2017-18 for the last three months of 2016/17 academic year (i.e. from 1 April 2017 to 30 June 2017) and first nine months of 2017/18 academic year (i.e. 1 July 2017 to 31 March 2018). This explains for the difference in provision of \$4,429.9 million in 2016-17 and 2017-18.

The recurrent funding for the UGC-funded sector is calculated based primarily on the student number targets and the student unit funding rates as weighed by the relative cost of different levels of study, with any necessary adjustments such as price and pay adjustments. This established mechanism was adopted in the 2012/13 to 2014/15 triennium and 2015/16 roll-over year; as well as the 2016/17 to 2018/19 triennium so as to assure allocation of stable recurrent funding to universities.

**(Question Serial No. 6771)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the "Importance of Teaching", the University Grants Committee (UGC) mentioned that a "funding of \$140 million has been earmarked". Please advise on the following:

1. The provision is time-limited funding. What is the principle behind that? Where does the competitiveness come from? How long is the time limit?
2. Regarding the "teaching and learning projects", how to make preparation for the allocation of resources, and what criteria are adopted? How to incentivise institutions so as to facilitate development in the areas of teaching and learning?

Asked by: Hon CHAN Tanya (Member Question No. 143)

Reply:

(1) and (2):

In the 2016-19 triennium, the University Grants Committee (UGC) has earmarked a time-limited funding of \$140 million for competitive allocation in teaching and learning projects to incentivise universities in exploring and developing further in the sector-wide strategic areas of teaching and learning, language enhancement and internationalisation under the Funding Scheme for Teaching and Learning Related Proposals in the 2016-19 Triennium (the Funding Scheme). The principles of the Funding Scheme are as follows –

- (a) to fund initiatives that provide impact and take forward strategic goals of UGC;
- (b) to provide flexibility for institutional-specific initiatives;
- (c) to encourage deep collaboration and enhance efficiency; and
- (d) to encourage and reward excellence through competitive allocation.

Funding will be allocated in the academic year of 2016/17, while the project period could be up to three years.

By the deadline of 30 December 2016, we have received a total of 89 proposals from UGC-funded universities. Assessment of the proposals by the Assessment Panel, of which the composition is as follows, is underway –

- (a) A Chairperson (a member of UGC);
- (b) Two Members of UGC/Quality Assurance Council; and
- (c) Two External Reviewers drawn from a pool of six to ten.

The following selection criteria are applied in considering the proposals under the Funding Scheme –

- (a) **Relevance:** to what extent the proposed project encourages the adoption of necessary pedagogical changes and innovations, enhances student learning experience, enhances internationalisation and/or engagement with Mainland China or enhances students' language abilities;
- (b) **Design:** to what extent the project is designed with clear project objectives, specific activities and intended learning outcomes, and includes feasible budgets and timelines;
- (c) **Collaboration:** whether the proposed project in itself involves inter-institutional collaboration and/or to what extent it contributes to more effective inter-institutional collaboration in terms of its impact;
- (d) **Influence:** whether there is an outreach strategy to share outcomes of the proposed project in UGC/higher education sector, and how well the strategy is formulated;
- (e) **Sustainability and capacity building:** whether there is any plan to sustain and scale up the initiative in the future and how well the proposed plan is formulated; and
- (f) **Monitoring and evaluation:** whether a suitable mechanism has been put in place and how well it operates to monitor and evaluate the effectiveness and outcome of the proposed project.

Director of Bureau: Secretary for Education  
Question:

Regarding "Research Funding and Research Assessment Exercise", please advise:

1. It is stated that the University Grants Committee (UGC) will continue to pursue with the 8 UGC-funded universities various ways to make the allocation of research funding more competitive. What is the existing method?
2. How many projects have been granted funding in each of the institutions over the past 3 financial years? Please provide a breakdown by institution, project title, amount of funding approved and project period.
3. As far as a more competitive allocation of funding is concerned, how many options are being considered? Please provide the details. If no, what are the reasons?

Asked by: Hon CHAN Tanya (Member Question No. 144)

Reply:

- 1 & 3. To promote research excellence, since the 2012/13 academic year, the University Grants Committee (UGC) has been gradually allocating the Research Portion of the Block Grant to its funded universities on a more competitive basis according to their success in obtaining peer-reviewed Research Grants Council (RGC) Earmarked Research Grants (ERG). Over a period of nine years (starting from the 2012/13 academic year), about 50% of the prevailing Research Portion will be allocated in this manner. The fund is disbursed to the universities as part of the Block Grant as infrastructure funding to enable universities to provide both the staffing and facilities (e.g. accommodation and equipment) necessary to carry out research, and to fund a certain level of research. On top of the Research Portion, the UGC provides funding under the Block Grant to support the provision of research postgraduate (RPg) places. An increasing number of UGC-funded RPg places has been allocated on a competitive basis starting from the 2012/13 academic year, and 50% of such places have been competitively allocated by 2016/17.

The UGC conducted a comprehensive review of the competitive allocation mechanism of the Research Portion in 2015. The UGC concluded that the prevailing funding methodology for the Research Portion informed by the results of the Research Assessment Exercise (RAE) and the universities' success in the RGC ERG was effective in achieving the intended objectives of the mechanism. As for the allocation of RPg places, the UGC considered it appropriate to allocate 50% of the places on a competitive basis and 50% of the places on a historical basis, which could strike a balance in terms of fostering competition as well as maintaining sustainability and stability of research resources. Therefore, the UGC concluded that the prevailing funding and allocation methodology for the Research Portion and the RPg places should be continued in the 2016/17 to 2018/19 triennium.

The UGC is mindful of the need to continue to build up our research capability in order to stay competitive in the globalised higher education sector, and to encourage universities to continue pursuing research excellence and conduct research of local relevance with high economic and social benefits. Part of the Research Portion and RPg places are allocated with regard to universities' performance in the RAE. To this end, the UGC, with the support of universities, is considering conducting another RAE with the inclusion of research impact as one of the elements of assessment.

2. There were 1 236, 1 192 and 1 211 research projects\* under various competitive funding schemes administered by the RGC awarded to the UGC-funded universities in the past three academic years (2014/15 to 2016/17). Breakdowns of the amount of funding awarded and the number of approved projects by university are provided below. It is noteworthy that competitive research funding secured in an academic year does not need to be fully spent within the same academic year.

\* Position up to 28 February 2017.

University	2014/15		2015/16		2016/17 (Note 1)	
	Amount of funding (\$ million)	No. of approved projects	Amount of funding (\$ million)	No. of approved projects	Amount of funding (\$ million)	No. of approved projects

Asked by: Hon CHAN Tanya (Member Question No. 97)

Reply:

- 1-5. The number of research staff employed on substantive appointment, full-time contract terms, temporary contract terms, part-time contract terms in the eight University Grants Committee(UGC)-funded universities in the past five years are set out at Annex. The breakdown by the rank of staff is not readily available.
6. The eight UGC-funded universities are autonomous bodies established pursuant to their respective ordinances and each has established a council to serve as the governing body. Their ordinances and statutes set out their objectives, functions and governance structure and provide the universities with the power and freedom to carry out their objectives and functions.

The UGC Notes on Procedures clearly state that universities enjoy institutional autonomy in the development of curricula and academic standards, selection of staff and students, initiation and conduct of researches, internal allocation of resources, etc, and are accountable in these matters. Universities have their internal mechanisms and guidelines for handling staff management and promotion matters.

## (Question Serial No. 5325)

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please list out the number of places and amounts of funding in each of the past five school years and the coming school year for full-time and part-time, publicly-funded and self-financing degree and sub-degree social work programmes in various post-secondary colleges:

post-secondary colleges	full-time/ part-time	publicly-funded/ self-financing	Degree / sub-degree	Number of places					
				2012-13	2013-14	2014-15	2015-16	2016-17	2017-18

post-secondary colleges	full-time/ part-time	publicly-funded/ self-financing	Degree / sub-Degree	Amounts of funding					
				2012-13	2013-14	2014-15	2015-16	2016-17	2017-18

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 1030)

Reply:

The approved numbers of the University Grants Committee (UGC)-funded places of the sub-degree and undergraduate social work programmes from the 2012/13 to 2017/18 academic years are at **Annex A**. The bulk of recurrent grants to the universities are in the form of a block grant based on the approved student numbers allocated to universities. As funding for the said programmes is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes. The average student unit cost for a particular level is derived based on the actual cost incurred on UGC-funded expenditure items as reported by universities. Based on the information as reported by the universities, the average student unit costs per annum at sub-degree and undergraduate levels for the 2012/13 to 2015/16 academic years were \$149,000 and \$218,000 respectively, the bulk of which is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$15,040, \$31,575 and \$42,100 for UGC-funded sub-degree programmes offered by the Education University of Hong Kong, UGC-funded sub-degree programmes offered by other universities and full-time UGC-funded undergraduate programmes respectively). The average student unit cost for the 2016/17 academic year and beyond is not yet available.

The number of estimated intakes of full-time locally-accredited self-financing undergraduate (including top-up degree) and sub-degree social work programmes from the 2012/13 to 2017/18 academic years are set out at **Annex B**.

**Approved Number of Sub-degree and Undergraduate Places of the UGC-funded  
Social Work Programme by University, 2012/13 to 2017/18**

*full-time equivalent*

University	UGC-funded Undergraduate / Sub-degree	Number of Approved Intake Places

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

In recent years, many services of universities, such as security and cleaning services, are outsourced. Has the University Grants Committee set criteria for institutions, such as requiring them to invite a public tender when the value of service exceeds a certain amount? What stakeholders need to be included in the tender board?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 6064)

Reply:

The eight University Grants Committee (UGC)-funded universities are independent statutory bodies which enjoy a high degree of autonomy in academic and administrative matters. Each university has established mechanisms and internal guidelines governing institutional affairs including procurement and tender procedures etc. In line with the principle of institutional autonomy, the UGC generally does not micro-manage or intervene in these matters.

**CONTROLLING OFFICER'S REPLY****EDB725****(Question Serial No. 5723)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

It is mentioned that “sub-degree graduates will be able to articulate to subsidised degree programmes”. Please provide information on the categories of such programmes like science, engineering, social sciences and arts. What are the criteria for University Grants Committee (UGC) to determine the numbers of subsidised places allocated to the respective subsidised degree programmes each year?

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2501)

Reply:

In the 2014 Policy Address, the Government announced that from the 2015/16 academic year and the following triennium, the intake of senior year undergraduate places in University Grants Committee (UGC)-funded universities would progressively increase by a total of 1 000 places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. As a modest start in the 2015/16 academic year (which was a roll-over year), the number was increased by 265 to 4 265.

During the academic planning cycle for the 2016/17-2018/19 triennium, the UGC continued to allocate the UGC-funded senior year undergraduate intake places on a competitive basis, taking into account a number of factors, including the bids submitted by the universities, the roles of universities, universities' experience in admitting sub-degree graduates and efforts in promoting the articulation pathways for graduates from both the publicly-funded and self-financing sectors, etc. The UGC assessed UGC-funded universities' bids on the basis of the following criteria which were agreed by the universities –

- (a) the extent to which the university has engaged with Credit Accumulation and Transfer System (CATS) in a manner which facilitates credit recognition and transfer;
- (b) the extent to which there is effective liaison with other post-secondary providers (including those outside the UGC sector) to facilitate articulation arrangements; and
- (c) the extent to which articulation opportunities are provided across the full range of the university's first degree programmes.

UGC-funded universities enjoy a lot of latitude in determining the distribution of senior year intake places across different disciplines, having regard to the distribution of sub-degree graduates (in both publicly-funded and self-financing sectors) across various disciplines, students' interests, community needs and their own development goals. In the 2016/17 academic year, senior year undergraduate places are available in all broad academic programme categories (APCs), i.e. Medicine, Dentistry and Health; Sciences; Engineering and Technology; Business and Management; Social Sciences; Arts and Humanities; and Education.

As regards the 2019/20 to 2021/22 triennium, planning will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded senior year intake places to be offered in the next triennium as well as the method of allocation of these places to individual universities, in consultation with the universities as necessary.

The HKPFS aims at attracting the best and brightest students to pursue their research-based PhD programmes in Hong Kong's UGC-funded universities, irrespective of their country of origin, prior work experience, ethnic background and age. In this connection, information on the age on admission for the first year of study of the HKPFS awardees is not available.

**CONTROLLING OFFICER'S REPLY****EDB727****(Question Serial No. 5725)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Please advise on the respective amounts of funding for “Knowledge Transfer” allocated to each institution by the University Grants Committee (UGC), the criteria adopted for such funding and the kinds of activities held by each institution.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2503)

Reply:

In the 2016-19 triennium, knowledge transfer (KT) funding of \$62.5 million per year is available for allocation to the UGC-funded universities to further strengthen and broaden their KT endeavours. The funding allocation to each university is based on a metrics-based formula which takes into account (i) the teaching element of the UGC block grant in the funding year, and (ii) the sum of the research element of the UGC block grant in the funding year and the total funding received from the Research Grants Council in the preceding funding year, with the latter carrying a weight of four. The KT funding allocation to the UGC-funded universities for the 2016/17 academic year is set out below –

University	KT Funding (\$million)
City University of Hong Kong	8.72
Hong Kong Baptist University	3.75
Lingnan University	1.22
The Chinese University of Hong Kong	13.49
The Education University of Hong Kong	2.55
The Hong Kong Polytechnic University	9.30
The Hong Kong University of Science and Technology	8.72
The University of Hong Kong	14.75
Total	62.50

Note: Figures may not add up to the total due to rounding.

Universities have different strategies and activities in KT which is commensurate with their role, mission and areas of strengths. They conduct a wide range of KT activities, for example engaging in consultancy, researches, spin out companies and licensing. They have also engaged in continuing professional development directed at business and social enterprises. Universities have also employed a variety of other mechanisms to particularly cater for KT in arts, humanities and social sciences, including the setting up of websites for dissemination of knowledge, organisation of seminars, workshops, conferences, exhibitions and other public events.

Director of Bureau: Secretary for Education

Question:

1. Please set out the numbers of students with special educational needs (SEN) pursuing tertiary programmes (sub-degree and diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary students for the past 5 financial years.
2. Please set out the numbers of SEN students graduated from tertiary programmes (sub-degree and diploma) and degree programmes, and their respective percentages out of the total numbers of SEN students and tertiary graduates for the past 5 financial years.
3. Please set out the numbers of SEN students pursuing tertiary programmes outside Hong Kong for the past 5 financial years.

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 2215)

Reply:

1. The number of full-time students with special educational needs (SEN) enrolled in University Grants Committee (UGC)-funded sub-degree and undergraduate programmes and the respective percentages to the total student enrolment from the 2012/13 to 2016/17 academic years are at Annex A.
2. The number of full-time students with SEN enrolled in the final year of UGC-funded sub-degree and undergraduate programmes and the respective percentages to the final year student enrolment from the 2012/13 to 2016/17 academic years are at Annex B. We do not have figures on graduates of UGC-funded programmes with SEN.
3. We do not have figures on students with SEN pursuing tertiary education outside Hong Kong in the past five years.

**(Question Serial No. 3578)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

- (a) Regarding the self-financing programmes offered by various funded universities, would the Controlling Officer provide the following information:
- (1) the respective numbers of various types of self-financing programmes (i.e. sub-degree, undergraduate, taught postgraduate and research postgraduate programmes) offered by the departments of each funded university in each of the past 5 academic years, as well as (i) the student intakes, (ii) the tuition fee income, (iii) the numbers of full-time and part-time teaching and non-teaching staff members employed, and (iv) payroll expenses for such staff members, of such programmes respectively; and
  - (2) the amounts of surpluses/deficits arising from self-financing programmes offered by the departments of each funded university in each of the past 5 academic years.
- (b) Regarding the taking over of the Centennial College (the College) under the University of Hong Kong (HKU) by the HKU School of Professional and Continuing Education (HKUSPACE) last year, would the Controlling Officer advise of:
- (1) the respective numbers of students of all the programmes offered by the College from the 2013/14 to 2016/17 academic years by year of study; and
  - (2) whether the Government was aware of the College's difficulties in operation before the takeover was announced; if yes, when did the situation come to its attention?

Asked by: Hon IP Kin-yuen (Member Question No. 55)

Reply:

- (a) (1) The number of full-time locally-accredited self-financing sub-degree and undergraduate degree programmes (including top-up degree programmes) offered by University Grants Committee (UGC)-funded universities and their actual intakes for the 2012/13 to 2016/17 academic years are set out at Annexes A and B. The number of locally-accredited self-financing taught postgraduate and research postgraduate programmes and their actual intakes by UGC-funded universities for the 2012/13 to 2016/17 academic years are set out at Annexes C and D.

According to the information provided by UGC-funded universities, the tuition fee income, information on the number of full-time and part-time teaching and non-teaching staff members employed, and payroll expenses for such staff members of self-financing programmes for the

2012/13 to 2015/16 academic years are set out at Annexes E and F. Information for the 2016/17 academic year is not available.

(2) According to the information provided by UGC-funded universities, the surplus / deficit from self-financing programmes for the 2012/13 to 2015/16 academic years is at Annex G. Information for the 2016/17 academic year is not available.

(b) Self-financing post-secondary institutions have institutional autonomy in administration and will take into account a host of factors, such as mission and vision, demand for programmes and long-term development, etc., when making management and operation arrangements. The Education Bureau has constant communication with institutions to understand their latest development and to exchange views on issues of mutual interest.

According to the information provided by Centennial College, its total number of students enrolled from the 2013/14 to 2016/17 academic year (AY) is set out in the table below –

	2013/14 AY	2014/15 AY	2015/16 AY	2016/17 AY (provisional figure as at 31 October 2016)
Total number of students enrolled	471	609	622	371

**Notes:**

- (1) The financial information set out in this annex covers both the self-financing programmes offered within the university proper and those provided by other self-financing operations.
- (2) Staff number is reported in full-time (FT) equivalent unless otherwise stated.
- (3) According to CityU, the number of staff of Community College is reported up to 2014/15 year as the College was transferred out from CityU on 1 July 2015.
- (4) HKBU reported the number of part-time staff on a headcount basis.
- (5) CUHK reported the number of full-time staff and part-time staff on a headcount basis.
- (6) PolyU reported the number of FT staff in full-time equivalent and part-time staff on a headcount basis.
- (7) According to HKU, information on staff number, both academic and non-academic, is not readily available.

**CONTROLLING OFFICER'S REPLY**

**EDB730**

**(Question Serial No. 3616)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

1. Please provide, by university, year of study and programme, the following information for the past 5 years (2012/13) to (2016/17):
  - a. the number of places, student intake and tuition fees of the funded associate degree and higher diploma programmes offered by University Grants Committee (UGC)-funded universities;
  - b. the number of places, student intake and tuition fees of the self-financing associate degree and higher diploma programmes offered by UGC-funded universities;
  - c. the expenditure required for and revenue generated from the funded associate degree and higher diploma programmes offered by UGC-funded universities; and
  - d. the expenditure required for and revenue generated from the self-financing associate degree and higher diploma programmes offered by UGC-funded universities.
2. Please list, by university, the overall surplus, donations received, total amount of funds and liabilities of the respective UGC-funded universities for the past 5 years (2012/13 to 2016/17).
3. Please list, by university, the overall surplus, donations received, total amount of funds and liabilities of the self-financing departments of the respective UGC-funded universities for the past 5 years (2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 78)

Reply:

- 1a. The approved intake places, approved student number targets and student enrolment of the University Grants Committee (UGC)-funded sub-degree programmes by university and broad academic programme category from the 2012/13 to 2016/17 academic years are at **Annex A**. The tuition fees for the programmes are \$15,040 per student per annum for the Education University of Hong Kong and \$31,575 per student per annum for other UGC-funded universities.
- b. According to the information provided by the universities, the number of intake places, actual intakes and tuition fees of full-time locally-accredited self-financing sub-degree programmes provided by the UGC-funded universities from the 2012/13 to 2016/17 academic years by university and broad academic programme category are at **Annex B**.
- c. The bulk of recurrent grants to the universities are in the form of a block grant based on the approved student numbers allocated to universities. As funding for the sub-degree programmes is subsumed under the block grants, the UGC is unable to attribute the actual subvention on specific academic programmes. It is noteworthy that based on the information as reported by the universities, the

average student unit costs per annum of a UGC-funded sub-degree place for the 2012/13 to 2015/16 academic years was \$151,000, the bulk of which is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$15,040 per student per annum for the Education University of Hong Kong and \$31,575 per student per annum for other UGC-funded universities). The average student unit cost for the 2016/17 academic year and beyond is not yet available. We do not have information on income generated by the UGC-funded sub-degree programmes.

- d. We do not have information on the expenditure involved and income generated by the self-financing associate degree and higher diploma programmes by UGC-funded universities.
2. Based on the annual financial reports of the eight UGC-funded universities, the surpluses / deficits, donations received, total funds and liabilities of each university for the 2012/13 to 2015/16 academic years are at **Annex C**. Information for the 2016/17 academic year is not yet available.
3. Based on the information provided by universities, the surpluses / deficits of self-financed programmes for the 2012/13 to 2015/16 academic years are at **Annex D**. Information for the 2016/17 academic year is not yet available. We do not have the information on donations received, total funds and liabilities of the self-financing departments of UGC-funded universities for the 2012/13 to 2016/17 academic years.

**Approved Intake Places, Approved Student Number Targets and Student Enrolment of UGC-funded  
Sub-degree Programmes by University and Broad Academic Programme Category,  
2012/13 to 2016/17**

**Notes:**

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

2. '-' denotes nil.

**CONTROLLING OFFICER'S REPLY**

**EDB731**

**(Question Serial No. 3617)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please provide the following information in respect of the First-Year-First-Degree programmes offered by University Grants Committee (UGC)-funded institutions for the past 5 years (2012/13 to 2016/17):

- (1) the numbers of approved places and student intake;
- (2) a breakdown, by programme and academic qualification, of the numbers of students applied for enrolment and admitted through the Joint University Programmes Admissions System (JUPAS) and non-JUPAS routes, as well as their respective percentages against the total;
- (3) a breakdown, by programme, of the numbers of local, Mainland and other non-local students, as well as their respective percentages against the total;
- (4) a breakdown, by programme and year of study, of the numbers of students enrolled in undergraduate programmes, as well as the numbers of students attending part-time and full-time programmes; and
- (5) a breakdown, by programme, of the annual average unit costs of UGC-funded undergraduate programmes.

Asked by: Hon IP Kin-yuen (Member Question No. 79)

Reply:

- (1) & (3) The approved student number targets, and the number and percentage of local and non-local students admitted to the University Grants Committee (UGC)-funded first-year first-degree (FYFD) places by university, broad academic programme category (APC) and place of origin for the 2015/16 and 2016/17 academic years are at **Annex A**. Details covering the 2012/13 to 2014/15 academic years were set out in our reply (EDB589) to a question (Serial No. 4110) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 in 2015. Given the length of the reply, the details covering the 2012/13 to 2014/15 academic years are not repeated herein.
- (2) The number of candidates sitting for the Hong Kong Advanced Level (HKAL) and Hong Kong Diploma of Secondary Education (HKDSE) examinations and meeting the general entrance requirements of the UGC-funded FYFD programmes under JUPAS and the number of applications to these programmes under non-JUPAS for 2012/13 to 2016/17 academic years are at **Annex B**. There is no breakdown by APC and academic qualification for the said candidates and applications. The number and percentage of local students admitted to the UGC-funded FYFD places by university, broad APC and admission route for the 2015/16 and 2016/17

academic years are at **Annex C**. Details covering the 2012/13 to 2014/15 academic years were set out in our reply (EDB589) to a question (Serial No. 4110) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 in 2015. Given the length of the reply, the details covering the 2012/13 to 2014/15 academic years are not repeated herein.

- (4) The student enrolment of the UGC-funded undergraduate programmes by university, broad APC and mode of study for the 2015/16 and 2016/17 academic years are at **Annex D**. Details covering the 2012/13 to 2014/15 academic years were set out in our reply (EDB589) to a question (Serial No. 4110) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 in 2015. Given the length of the reply, the details covering the 2012/13 to 2014/15 academic years are not repeated herein.
- (5) As funding for publicly-funded undergraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes. Based on the information as reported by the universities, the average student unit costs per annum of a publicly-funded undergraduate place, by broad APC, for the 2012/13 to 2015/16 academic years are tabulated below, the bulk of which was subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year). Information for the 2016/17 academic year is not yet available. As regards non-local students in the undergraduate programmes, who are primarily admitted through over-enrolment beyond approved student numbers, they are required to pay tuition fee at a level that is at least sufficient to cover the direct additional cost.

Broad APCs	Average Student Unit Cost (\$)			
	2012/13	2013/14	2014/15	2015/16 (provisional)
A. Medicine & Dentistry	485,000	442,000	501,000	542,000
B. Engineering & Laboratory Based Studies	225,000	236,000	252,000	272,000
C. Others	175,000	182,000	190,000	199,000
Overall	203,000	209,000	222,000	237,000

Note :

Student unit costs are affected by a variety of factors such as prevailing costs for different programmes and disciplines, student enrolment numbers, stages of development of individual universities, etc.

**Approved Student Number Targets and Number of Local and Non-local Students Admitted to UGC-funded First-Year First-Degree Places  
by University, Broad Academic Programme Category and Place of Origin, 2015/16 and 2016/17**

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. Overall enrolment of non-local students at undergraduate level is subject to a maximum of 20% of the approved student number targets at the aggregate level. They are primarily admitted by over-enrolment outside the approved numbers.
4. Figures in brackets denote the ratio to approved student number targets. Percentages may not add up to the corresponding totals owing to rounding.
5. '-' denotes nil.
6. '@' denotes magnitude less than 0.5.

7. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong

## Notes:

1. Provided by the Hong Kong Examinations and Assessment Authority. Figures in ( ) refer to private candidates. In addition to the general entrance requirements, individual universities may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only.
2. As a percentage of the number of candidates sitting for the HKAL/HKDSE examinations in the relevant year. Figures in ( ) refer to the percentage of the private candidates sitting for the HKAL/HKDSE examinations in the relevant year.
3. Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded universities through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursue further studies in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead, etc.
4. Local students applying via the non-JUPAS route include those applicants holding qualifications other than HKAL/HKDSE examinations, e.g. degree graduates pursuing a second degree, sub-degree graduates and students, secondary students holding international qualifications such as International Baccalaureate (IB) and the General Certificate of Education (GCE), etc.
5. Provided by the eight UGC-funded universities. Each individual local student can only submit one application to each university to apply for several programmes (except for EdUHK which requires applicants to submit multiple applications if they wish to apply for several programmes). However, one applicant may apply to more than one university, and hence the UGC is unable to attribute the actual number of applicants applying to the UGC-funded programme via non-JUPAS.
6. For the 2012/13 academic year, some universities have included the number of local applicants applying for 3-year and/or 4-year programmes in both figures as breakdown by cohort was not available.
7. Provisional figures.

**Number of Local Students Admitted to UGC-funded First-year-First-degree Places  
by University, Broad Academic Programme Category and Admission Route, 2015/16 to 2016/17**

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided, regardless of whether that qualification has been completed or not.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate Degree, Higher Diploma, etc..

5. 'Others' include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
6. '-' denotes nil.
7. '@' denotes magnitude less than 0.5.
8. '\*' denotes less than 0.05%.
9. Figures in brackets denote percentage share to respective totals. Percentages may not add up to the corresponding totals owing to rounding.
10. Abbreviations:

**CONTROLLING OFFICER'S REPLY**

**EDB732**

**(Question Serial No. 3618)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the provision and requirement of student hostel places in various institutions in the past 5 years (from the 2012/13 to 2016/17 academic years), please provide the following information:

- (a) the requirement, shortfall and unit cost of publicly-funded hostel places of each University Grants Committee (UGC)-funded institution;
- (b) the criteria for working out the number of hostel places, including the length of accommodation offered for various categories of students according to their place of origin, level of study, and funding mode of programmes; and
- (c) the capital works projects of UGC-funded institutions involving student hostel places, the project amounts, completion dates and expected number of hostel places to be provided.

Asked by: Hon IP Kin-yuen (Member Question No. 80)

Reply:

- (a) The requirements for publicly-funded hostel places and additional requirements for publicly-funded hostel places above the level of supply, with breakdown by University Grants Committee (UGC)-funded university, for the five academic years (2012/13 to 2016/17) are tabulated at the **Annex**.

The unit cost of a student hostel place depends mainly on the prevailing construction cost in the market and the site conditions. It varies from time to time. For indicative purpose, the estimated cost of a publicly-funded hostel project submitted to the Finance Committee of the Legislative Council in July 2015, taking into account all associated facilities, was about \$788,000 per hostel place in September 2014 prices (or about \$867,500 per hostel place in September 2016 prices). Under the prevailing hostel policy, the Government will fund up to 75% of the capital cost of the approved level of publicly-funded student hostel provision, with the remainder to be met by the respective universities using their own sources of private funding.

- (b) Under the prevailing hostel policy, subject to the availability of land and resources, the UGC-funded universities are provided with publicly-funded student hostels calculated in accordance with the following criteria<sup>1</sup>:

<sup>1</sup> The criteria are applicable to all UGC-funded universities, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Education University of Hong Kong (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the institution having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

- (i) all undergraduate students should be given the opportunity to stay in student hostels for at least one year of their courses;
- (ii) all research postgraduate students should be granted student hostel places;
- (iii) all non-local students should be granted student hostel places; and
- (iv) all undergraduate students whose daily travelling time exceed four hours should be provided with student hostel places throughout their courses.

The UGC-funded universities allocate their publicly-funded and privately-funded hostel places to their students according to their own established criteria and procedures, taking into account, among other things, the actual number and individual merits of applications received.

- (c) Between September 2012 and March 2017, a total of four hostel projects providing some 4 500 hostel places have been completed. Details on these four completed hostel projects are listed below.

<b>Project Code</b>	<b>Project Title (University)</b>	<b>No. of Hostel Places Provided</b>	<b>Approved Project Estimate<sup>2</sup> (\$ million)</b>	<b>Actual Completion Date</b>
8053EG	1 800-place student residences at Lung Wah Street, Kennedy Town (The University of Hong Kong)	1 800	643.6	Sep 2012
8013EL	701-place student residences (The Hong Kong University of Science and Technology)	701	201.3	Nov 2012
8053EF	1 500-place student hostel (The Chinese University of Hong Kong)	1 500	466.4	Feb 2013
8015EL	Tseung Kwan O Joint Student Hostel (The Hong Kong University of Science and Technology) <sup>3</sup>	520	198.3	Aug 2016

Another publicly-funded hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by the institution) was approved by the Legislative Council in mid-2015. This project is currently under construction for completion in mid-2018. Upon its completion, it will provide 676 publicly-funded hostel places to The Chinese University of Hong Kong.

The UGC and the Government continue to work closely with universities to meet the additional requirements for publicly-funded hostel places.

<sup>2</sup> Excluding 25% contribution by the institution.

<sup>3</sup> The Tseung Kwan O Joint Student Hostel was originally a joint project providing a total of 520 hostel places, with a split of 370 places for HKUST and 150 places for Hong Kong Baptist University (HKBU). Subsequently, HKBU decided to transfer its 150 places from the Tseung Kwan O Joint Student Hostel to a new hostel and academic building project at a new site at Renfrew Road, Kowloon Tong near its main campus. The proposed transfer was agreed by the two universities in April 2015 and as a result, the student hostel in Tseung Kwan O is now solely owned by HKUST.

(A) Requirements for publicly-funded hostel places by UGC-funded universities under prevailing hostel policy

Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

In respect of the senior year undergraduate programmes offered by the University Grants Committee (UGC)-funded institutions, please provide the following information:

- (1) the number of publicly-funded senior year undergraduate places and their distribution by discipline; and the number of self-financing senior year undergraduate places, their distribution by discipline and the tuition fees in the past 5 years (2012/13 to 2016/17 academic years);
- (2) the number of publicly-funded senior year undergraduate places offered by each institution in the past 5 years; and for students admitted to top-up degree programmes, please list, by institution, the previous institutions from which these students completed their sub-degree programmes; and
- (3) given that the number of publicly-funded senior year undergraduate places will be gradually increased to 5 000 in the 2018/19 academic year, please list the number of places to be increased in each year and their distribution by discipline.

Asked by: Hon IP Kin-yuen (Member Question No. 81)

Reply:

- (1) The approved number of senior year undergraduate intake places allocated to the University Grants Committee (UGC)-funded universities by programme from the 2012/13 to 2016/17 academic years is at **Annex A**. The number of estimated intakes and the average annual tuition fees of full-time locally-accredited self-financing top-up degree programmes offered by UGC-funded universities from the 2012/13 to 2016/17 academic years are at **Annex B**.
- (2) The number of UGC-funded senior year undergraduate intake places allocated to the UGC-funded universities from the 2012/13 to 2016/17 academic years is at **Annex A**. The actual intakes of the UGC-funded senior year undergraduate programmes by the types of institutions where the admitted students previously studied from which the highest qualification was achieved before entering the senior year programme from the 2012/13 to 2016/17 academic years are at **Annex C**.
- (3) In the 2014 Policy Address, the Government announced that from the 2015/16 academic year and the following triennium, the intake of senior year undergraduate places in University Grants Committee (UGC)-funded universities would progressively increase by a total of 1 000 places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. The approved number of senior year undergraduate intake places allocated to the UGC-funded universities by programme for the 2015/16 to 2018/19 academic years is at **Annex D**.

Notes:

1. '-' denotes nil.
2. # The Government has given in-principle agreement to provide funding for the third year of the senior year nursing programmes for 2014/15 and onwards.
3. \* Refers to antepenultimate year for the senior year nursing programmes.
4. ^ The Broad Discipline of Computing comprises three awards. It aims to give students the flexibility to decide on the final award in their first year of study. Students admitted to the Broad Discipline will complete a common Year 1 curriculum. They will select any one of the three Honours degree awards (i.e. BSc(Hons) in Computing, BSc(Hons) in Enterprise Information Systems, BSc(Hons) in Information Technology) and start to study the corresponding content as early as in semester one of Year 2 or as late as in semester two of Year 2.

Notes:

1. '-' denotes nil.
2. # The Government has given in-principle agreement to provide funding for the third year of the senior year nursing programmes for 2014/15 and onwards.
3. \* Refers to antepenultimate year for the senior year nursing programmes.
4. ^ The Broad Discipline of Computing comprises three awards. It aims to give students the flexibility to decide on the final award in their first year of study. Students admitted to the Broad Discipline will complete a common Year 1 curriculum. They will select any one of the three Honours degree awards (i.e. BSc(Hons) in Computing, BSc(Hons) in Enterprise Information Systems, BSc(Hons) in Information Technology) and start to study the corresponding content as early as in semester one of Year 2 or as late as in semester two of Year 2.

**CONTROLLING OFFICER'S REPLY**

**EDB734**

**(Question Serial No. 3620)**

Head: (190) University Grants Committee  
Subhead (No. and title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please provide information on the expenditure of the University Grants Committee on postgraduate programmes and postgraduate students for the past 5 years (from 2012/13 to 2016/17):

1. Please provide a breakdown, by institution and course, of the number of full-time and part-time places of taught postgraduate programmes offered by funded institutions; the places and intakes of funded programmes; the intakes and tuition fees of self-financing programmes; and the respective numbers and ratios of local, Mainland and non-local students;
2. Please provide a breakdown, by institution and course, of the number of full-time and part-time places of research postgraduate programmes offered by funded institutions; the number of places and intakes in master's degree and doctorate programmes; the intakes and tuition fees of self-financing programmes; and the respective numbers and ratios of local, Mainland and other non-local students; and
3. The number of awardees of the Hong Kong PhD Fellowship Scheme, the nationalities of the awardees and the amount of award involved.

Asked by: Hon IP Kin-yuen (Member Question No. 82)

Reply:

1. The numbers of student intakes of the University Grants Committee (UGC)-funded taught postgraduate (TPg) programmes by university, mode of study, broad Academic Programme Category (APC) and place of origin from the 2012/13 to 2016/17 academic years are at **Annex A**.

Regarding the self-financing sector, according to the information provided by the institutions, the number of actual intakes and student enrolment (with breakdown by place of origin) of locally-accredited self-financing TPg programmes provided by the institutions concerned for the 2012/13 to 2015/16 academic years is at **Annex B**. Information on the total tuition fees for the 2012/13 to 2016/17 academic years is at **Annex C**.

2. Admission to research postgraduate (RPg) programmes is conducted by universities throughout the year. The student enrolment of the UGC-funded RPg programmes by university, broad APC and place of origin from the 2012/13 to 2016/17 academic years is at **Annex D**. Breakdown figures by level of award (PhD /MPhil degrees) are not available.

Regarding the self-financing sector, according to the information provided by the institutions, the student enrolment of locally-accredited self-financing RPg programmes provided by the institutions concerned for the 2012/13 to 2015/16 academic years is at **Annex E**. Information on the total tuition fees is at **Annex F**. Breakdown figures by level of award and place of origin are not available.

3. The Hong Kong PhD Fellowship Scheme, established in 2009, is open to local as well as non-local students who wish to pursue their PhD programmes in the UGC-funded universities. The Fellowship provides each awardee with a monthly stipend of HK\$20,000 and a conference and research-related travel allowance of HK\$10,000 per year for up to three years. The number of students awarded the Fellowship from the 2012/13 to 2016/17 academic years is tabulated below:

<b>Academic Year</b>	<b>No. of Awardees</b>
2012/13	165
2013/14	185
2014/15	223
2015/16	216
2016/17	231

The breakdown of the awardees by place of origin from the 2012/13 to 2016/17 academic years is tabulated at **Annex G**.

**First-year Student Intakes of UGC-funded Taught Postgraduate Programmes by University, Mode of Study, Broad Academic Programme Category and Place of Origin, 2012/13 to 2016/17**

Notes:

1. The student numbers are in decimal places which are all rounded to the nearest whole numbers. Hence, figures may not add up to the corresponding totals due to rounding. Some UGC-funded programmes are mapped to more than one Academic Programme Category (APC), the student enrolment of these programmes are counted across the APCs concerned on a pro rata basis.
2. The place of origin of non-local students is determined having regard to their nationality.
3. '@' denotes 'magnitude less than 0.5'.
4. '-' denotes nil.
5. # Provisional figures.

Notes:

1. The student numbers are in decimal places which are all rounded to the nearest whole numbers. Hence, figures may not add up to the corresponding totals due to rounding. Some UGC-funded programmes are mapped to more than one Academic Programme Category (APC), the student enrolment of these programmes are counted across the APCs concerned on a pro rata basis. In addition, if the RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis.
2. The place of origin of non-local students is determined having regard to their nationality.
3. RPg figures include only students funded by UGC within normal study periods.
4. '@' denotes 'magnitude less than 0.5.
5. '-' denotes nil.
6. # Provisional figures.

**(Question Serial No. 3621)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

The University Grants Committee (UGC) usually conducts academic planning with its funded institutions on a triennial basis.

1. Please provide details of the outcomes of the competitive allocation mechanism in previous 3 exercises, including:
  - (a) the number of approved places in each UGC-funded institutions;
  - (b) the number of places reserved by each institutions for reallocation, a list of courses which originally offered these places, and the percentage of that number in the total number of places offered by the institution;
  - (c) the resulting number of places after reallocation, and a list of courses cancelled and created;
  - (d) the gains/losses in funding as a result of reallocation.
2. Will the UGC continue to implement the competitive allocation mechanism in the next triennium? If yes, please list:
  - (a) the number of places to be set aside by each institution and the percentage it accounts for;
  - (b) the procedures and timetable for implementation;
  - (c) other details.

Asked by: Hon IP Kin-yuen (Member Question No. 83)

Reply:

The University Grants Committee (UGC) usually conducts academic planning and recurrent grants assessment with its funded universities on a triennial basis. To ensure that precious publicly funded student places are put to their best use for the benefit of the community, we need to establish a mechanism for re-distribution of places from time to time in order to encourage universities to review periodically their institutional strategies and academic priorities and advance universities' international competitiveness in accordance with the roles of individual universities and the higher education sector as a whole. To this end, we have adopted the Competitive Allocation Mechanism (CAM) since the 2009/10 to 2011/12 triennium to distribute a small number of first-year first-degree (FYFD) places with due regard to universities' performance. During the process, FYFD places in disciplines under manpower planning (such as medicine, health sciences and

education) are not included in the mechanism. Under the CAM, the UGC conducts the assessment according to agreed criteria, and centrally processes and re-distributes the places among universities to reflect their comparative merits. For the 2016/17 to 2018/19 triennium, a total of 730 FYFD places (representing 4.9% of the total 15 000 FYFD places) are distributed under the CAM, while the remaining bulk (representing 95.1% of all FYFD places) are unaffected.

The UGC evaluated the Academic Development Proposals (ADPs) submitted by universities for the 2016/17 to 2018/19 triennium against four broad assessment criteria, namely “Strategy, Mission and Vision”, “Teaching & Learning”, “Academic Programme Design”, and “Addressing the Needs of Society in General”. The evaluation was carried out in a fair, interactive and transparent manner.

Details on the competitive allocation for the 2016/17 to 2018/19 triennium are set out at Annex. However, a breakdown by programme is not available. The universities take into account the overall student number targets as allocated by the UGC (including those FYFD places for distribution under the CAM and the remaining places), their respective strategic objectives, as well as the needs of society when designing their academic portfolio. Therefore, we are unable to differentiate the number of FYFD intake places allocated under the CAM to individual programmes by the universities from the overall student number target. Details on the competitive allocation for the 2012/13 to 2014/15 triennium were set out in our reply (EDB275) to a question (Serial No. 3012) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2014-15.

The CAM involved setting aside a small number of FYFD places to a central pool, which would eventually be re-distributed to the eight UGC-funded universities based on assessment of the ADPs against the agreed criteria. As such, there would not be any impact on the total amount of funding to the UGC-funded sector after the redistribution of FYFD places.

As regards the academic development planning beyond the 2016/17 to 2018/19 triennium, the UGC will work out the details in consultation with the universities.

## Approved FYFDs allocated to the eight UGC-funded universities, for each year in the 2016/17 to 2018/19 triennium

	CityU	HKBU	LU	CUHK	EdUHK	PolyU	HKUST	HKU	Total
(a) Overall distribution of FYFD places for 2015/16	2 095	1 223	553	3 247	621	2 337	1 901	3 023	15 000
(b) Non-manpower-planned places for 2015/16	2 035	1 103	553	2 656	120	1 713	1 901	2 395	12 476
(c) Number of places set aside under the CAM [i.e. 6% of (b)] <sup>Note 1</sup>	122	66	22 (4%)	159	0	103	114	144	730
(d) Number of places earned back as a result of distribution under the CAM <sup>Note 2</sup>	122	14	0	209	-39 <sup>Note 3</sup>	108	164	152	730
(e) Overall distribution of FYFD places (for each year in the 2016–19 triennium) (including both non-manpower and manpower places) (% change between 2015/16 and 2016/17 [i.e. $\frac{(e) - (a)}{(a)} \times 100\%$ ])	2 095 (0%)	1 171 (-4.3%)	531 (-4.0%)	3 297 (+1.5%)	582 (-6.3%)	2 342 (+0.2%)	1 951 (+2.6%)	3 031 (+0.3%)	15 000 (0%)

## Abbreviations:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong	PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology	HKU	The University of Hong Kong

<sup>Note 1</sup> Each university was required to set aside 6% of their non-manpower-planned places for competitive allocation, except for LU and EdUHK. LU was required to set aside 4% of its FYFD places because of its “small size”. EdUHK did not need to set aside any places for competitive allocation, since most of its programmes were either subject to the Government’s manpower planning requirement or “protected” areas – in June 2009, the Executive Council approved the provision of 120 additional FYFD places to EdUHK to provide non-teacher-education programmes starting from 2010/11 onwards to pave way for its development into a multi-disciplinary institution.

<sup>Note 2</sup> Including 85 places allocated to meet additional manpower requirements and other changes in manpower-planned places.

<sup>Note 3</sup> The 39 places reduced are the result of the decrease in requirement for teacher education places at primary level as per Government’s advice. These places were redistributed to meet the requirements of other manpower-planned disciplines.

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the funding expenditure of the University Grants Committee (UGC) on research, please provide the following for the past 5 years (2012/13 to 2016/17):

- (1) the amount of Government provisions for various funded institutions to carry out researches with breakdown by institution and department; and the amount of research funding secured by various institutions through the competitive allocation mechanism implemented by UGC/ Research Grants Council;
- (2) the number of research projects terminated prematurely, the funds involved and the reasons;
- (3) the staff establishment, minimum salary point, mode of employment and wastage of research assistants and senior research assistants of various funded institutions;
- (4) the annual financial expenditure, administrative expenses and balance of the Research Endowment Fund; and
- (5) the amount of research grants open to self-financing institutions for competition with breakdown by institution and department; and the amount received by each institution.

Asked by: Hon IP Kin-yuen (Member Question No. 84)

Reply:

- (1) According to information provided by the University Grants Committee (UGC)-funded universities, the amount of funding received from the Government utilized for research purposes in the past four academic years (2012/13 to 2015/16) is listed at Annex A. Information in respect of the 2016/17 academic year is not yet available as such information will only be reported by universities after the completion of the 2016/17 academic year. We do not have ready information from the universities on the number of projects funded from various Government sources and the breakdown of provisions by academic department of universities.

The amount of funding secured through UGC/Research Grants Council (RGC) competitive research funding schemes in the past five academic years (2012/13 to 2016/17), with breakdown by university and broad subject category, is listed at Annex B. It is noteworthy that competitive research funding secured in an academic year does not need to be fully spent within the same academic year.

- (2) The total number of research projects in UGC-funded universities monitored by the UGC and RGC, as well as the number of research projects terminated and reasons for termination in the past five academic years (2012/13 to 2016/17) are tabulated at **Annex C**.
- (3) The staff establishment, minimum salary point, mode of employment and turnover rate of research assistants and senior research assistants of UGC-funded universities, with breakdown by university in the past five academic years (2012/13 to 2016/17), are set out at **Annex D**.
- (4) The annual research grants, administrative expenses and balance of the Research Endowment Fund for 2012/13 to 2015/16 are tabulated at **Annex E**. Information for 2016/17 is not yet available.
- (5) The competitive research funding schemes for the local self-financing degree sector were launched in December 2013. The amount of funding secured through the competitive research funding schemes for the local self-financing degree sector from 2014/15 to 2016/17 academic years, with breakdown by local self-financing degree-awarding institution and broad subject category, is listed at **Annex F**.

Legend:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

Note 1 In calculating the turnover rate, universities have excluded staff leaving upon completion of contract.

Note 2 Short-term contracts mean contracts which are of one year or less.

Note 3 CUHK and HKUST have not employed any Senior Research Assistants in the past five academic years. Hence the turnover rate and minimum monthly pay in respect of Senior Research Assistant are not applicable to these two universities.

**The annual research grants, administrative expenses and balance  
of the Research Endowment Fund  
(2012/13 to 2015/16)**

	For the year ended			
	31 August 2013 (\$ million)	31 August 2014 (\$ million)	31 August 2015 (\$ million)	31 August 2016 (\$ million)
Research grants	662	864	1,018	588
Administrative expenses	1	0	0	0
Fund balance	25,959	26,131	26,360	26,811

Note 1 The accounting period for the Research Endowment Fund runs from 1 September to 31 August of the following year.

Note 2 Information for 2016/17 is not yet available.

**Funding Received by Local Self-financing Degree-awarding Institutions  
Through UGC / RGC Competitive Research Funding Schemes  
(2014/15 to 2016/17)**

**Breakdown by Institution**

Institution	2014/15 (\$ million)	2015/16 (\$ million)	2016/17 (\$ million) (Note 1)
Caritas Institute of Higher Education	11.1	13.7	5.0
Centennial College	15.8	6.8	0.8
Chu Hai College of Higher Education	18.6	0.5	8.8
Hang Seng Management College	12.3	20.0	19.8
Hong Kong Shue Yan University	16.9	2.8	8.4
The Open University of Hong Kong	12.9	17.1	8.1
Tung Wah College	15.4	2.0	3.9
HKCT Institute of Higher Education (Note 2)	-	2.5	-
School of Continuing Education, Hong Kong Baptist University (Note 2)	-	6.8	0.8
School of Professional Education and Executive Development, The Hong Kong Polytechnic University (Note 2)	-	1.2	2.4
Technological and Higher Education Institute of Hong Kong (Note 2)	-	12.9	23.5
Gratia Christian College (Note 3)	-	-	1.5
<b>Total</b> (Note 4)	<b>103.0</b>	<b>86.3</b>	<b>82.9</b>

Note 1 Position up to 28 February 2017.

Note 2 Institutions were eligible for the funding schemes starting from the 2015/16 academic year.

Note 3 Institution was eligible for the funding schemes starting from the 2016/17 academic year.

Note 4 Figures may not add up due to rounding.

**Breakdown by Broad Subject Category**

Broad Subject Category	2014/15 (\$ million)	2015/16 (\$ million)	016/17 (\$ million) (Note 5)
Biology and Medicine	2.2	7.0	10.5
Business	6.5	5.6	11.6
Engineering	9.3	7.4	9.0
Humanities and Social Sciences	14.7	11.3	7.5
Physical Sciences	2.4	2.3	4.2
Institutional Development Scheme (IDS) (Note 6)	68.0	52.8	40.1
<b>Total</b> (Note 7)	<b>103.0</b>	<b>86.3</b>	<b>82.9</b>

Note 5 Position up to 28 February 2017.

Note 6 IDS project is for the whole institution to develop its research capacity and the project cannot be categorized by subject.

Note 7 Figures may not add up due to rounding.

**CONTROLLING OFFICER'S REPLY**

**EDB737**

**(Question Serial No. 3623)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education

Question:

Regarding the expenditure on salaries and the recruitment of staff of the University Grants Committee (UGC)-funded universities, please provide the figures of the following for the past 5 years (2012/13-2016/17) and the estimated figures for the 2017/18 academic year:

1. a breakdown, by terms of employment, of the numbers, proportions and percentage changes of the teaching and non-teaching staff on temporary contract, term contract, long-term employment contract and substantive appointment in the 8 UGC-funded universities;
2. the increase / decrease in the number of senior staff, the expenditure on their salaries and the percentage of such expenditure in the overall expenditure in each of the funded universities; and
3. the amount of expenditure on salaries and benefits of each university which are funded by public money and income other than public funds respectively.

Asked by: Hon IP Kin-yuen (Member Question No. 85)

Reply:

1. The total numbers and respective percentages of staff on contract and substantive appointment from the 2012/13 to 2016/17 academic years as provided by the University Grants Committee (UGC)-funded universities are at **Annex A**. The breakdown between academic and administrative / support staff is not readily available. The corresponding percentages of staff changes for each of the UGC-funded universities from the 2012/13 to 2016/17 academic years are at **Annex B**. Estimate for the 2017/18 academic year is not available.
2. The changes in the number of senior staff of UGC-funded universities as provided by the universities from the 2012/13 to 2016/17 academic years are at **Annex C**. Estimate for the 2017/18 academic year is not available.

As regards expenditure on salaries of senior staff, since the deregulation of the salary scales of UGC-funded universities in 2003, the UGC has not sought to control for funding purposes actual expenditure on salaries in the universities. The information requested is thus not available.

3. The bulk of the Government subvention to the eight UGC-funded universities is in the form of a block grant which provides for a one-line allocation of resources for a funding period (usually a triennium). Expenditure of universities (including expenditure on salaries and benefits) is not solely covered by Government funding. Universities have other sources of income including tuition fees and other fees,

interest and investment income, donations and endowments, auxiliary services and other incomes. Apportionment of expenditure on salaries and benefits by funding source is not available.

However, as an indication and according to the annual financial reports of eight UGC-funded universities, the expenditure on salaries and benefits and the income for the 2012/13 to 2015/16 academic years are set out at Annex D. Information for the 2016/17 academic year is not available and there is no estimate made for the 2017/18 academic year.

**(Question Serial No. 3624)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education

Question:

Regarding the admission of students with special educational needs (SEN), students with disabilities and non-Chinese speaking students by University Grants Committee (UGC)-funded and self-financing institutions, please provide the following information for the past 5 years (from 2012/13 to 2016/17):

- (a) the number of intakes of SEN students and students with disabilities in these institutions, as well as the expenditure involved in supporting these students, with a breakdown by institution and type of students;
- (b) the number of student hostels in these institutions provided with barrier-free facilities (in terms of hostel places) and the expenditure involved in constructing barrier-free facilities in each institution over the past 5 years; and
- (c) the number of local non-Chinese speaking students admitted to these institutions, with a breakdown by institution and Chinese language qualification held by these students.

Asked by: Hon IP Kin-yuen (Member Question No. 86)

Reply:

- (a) The number of students with special educational needs (SEN) studying full-time University Grants Committee (UGC)-funded sub-degree and undergraduate programmes, by university and type of disability from the 2012/13 and 2016/17 academic years is at **Annex A**. Funding for students with SEN is subsumed under the block grant allocated to the UGC-funded universities, and hence the UGC is unable to attribute the exact amount provided in supporting these students.
- (b) Some 32 100 student hostel places in the UGC-funded universities are provided with barrier-free facilities, such as ramps, special toilets, braille on lift buttons and guided paths. As most of these facilities were provided during construction of hostel buildings, there is no separate breakdown on the expenditure incurred for the installation of the barrier-free facilities.
- (c) The number of local non-Chinese speaking (NCS) students admitted to the UGC-funded full-time sub-degree and undergraduate programmes from the 2012/13 to 2016/17 academic years is set out at **Annex B**. There is no information on the Chinese language qualification of the NCS students.

**(Question Serial No. 3626)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please provide the following for the past 5 years (2012/13 to 2016/17):

- (a) the names of the top 10 funded undergraduate programmes, offered by each UGC-funded university, which admitted the most local applicants who hold non-local public examination results or academic qualifications (in terms of number and percentage respectively); the number of local applicants who hold non-local public examination results or academic qualifications admitted to each of such programmes, as well as their percentage and median admission score; and the number of JUPAS applicants admitted to each of such programmes and their median admission score; and
- (b) whether it knows the names of the top 10 undergraduate programmes, offered by each UGC-funded university, which admitted the most non-local students (in terms of number and percentage respectively) in the past 5 years; the number of applicants of this type admitted to each of such programmes, as well as their percentage and median admission score; and the number of JUPAS applicants admitted to each of such programmes and their median admission score.

Asked by: Hon IP Kin-yuen (Member Question No. 88)

Reply:

Student admission is within the autonomy of the University Grants Committee (UGC)-funded universities. Following the principles of fairness and merit-based selection, each university administers its own admission policy and criteria for different undergraduate programmes to assess applications submitted through the Joint University Programmes Admissions System (JUPAS) and non-JUPAS routes.

According to the UGC-funded universities, undergraduate admission is conducted on the basis of a rigorous and holistic assessment of applicants in a variety of aspects, including their academic qualifications and results, interview performance, personal attributes, non-academic achievements, interests and experiences, as well as programme preferences, etc. Universities have accumulated a wealth of experience in assessing the relative merits of local applicants with different academic qualifications. They have also been continuously monitoring the relative post-admission performance of students admitted with different academic qualifications to ensure that equivalent admission threshold is applied to candidates holding different academic qualifications. We understand that universities do not apply any formula to convert and compare different academic and non-academic qualifications.

Besides, having regard to institutional autonomy in student admission, neither the Government nor the UGC would require universities to specify a particular ratio of local students admitted through the JUPAS and non-JUPAS routes. That said, we understand that individual universities have taken the initiative to lay down guidelines which set a ceiling for admission of local students through the non-JUPAS route.

JUPAS candidates continue to be the major source of local students for UGC-funded undergraduate programmes over the years. It is noteworthy that the majority of the local students admitted through non-JUPAS route in the past years were admitted on the basis of local sub-degree qualifications or other local qualifications. It must also be stressed that both local students applying through the JUPAS and non-JUPAS routes deserve equal opportunities to be considered on the basis of fair competition for articulation to UGC-funded programmes.

The requested details regarding the top 10 UGC-funded first-year-first-degree (FYFD) programmes of each UGC-funded university with the highest ratio of local students with overseas qualifications to the total number of students admitted in the 2015/16 and 2016/17 academic years are at **Annex A**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the largest number of local students with overseas qualifications in the 2015/16 and 2016/17 academic years are at **Annex B**. The same details covering the 2012/13 to 2014/15 academic years were set out in our reply (EDB597) to a question (Serial No. 4454) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 in 2015. Given the length of the reply, the details covering the 2012/13 to 2014/15 academic years are not repeated herein.

Non-local students, including those originating from the Mainland and overseas, are admitted to the UGC-funded undergraduate programmes up to a level not exceeding 20% of the approved UGC-funded student number. Starting from 2016/17 academic year, since all new undergraduate non-local students are admitted by over-enrolment on top of the approved student number, they will not compete directly with local students.

Non-local students need to apply for admission to UGC-funded programmes through the non-JUPAS route. According to the universities, applications for admission submitted by non-local candidates are held distinct and handled separately from local applications. Similar to local applications, non-local applications are considered by the universities in accordance with the principles of fairness and merit-based selection. Each university administers its own admission policy and criteria to identify the most-deserving among the non-local candidates.

The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the highest ratio of non-local students to the total number of students admitted in the 2015/16 and 2016/17 academic years are at **Annex C**. The requested details regarding the top 10 UGC-funded FYFD programmes of each UGC-funded university with the largest number of non-local students in the 2015/16 and 2016/17 academic years are at **Annex D**. The same details covering the 2012/13 to 2014/15 academic years were set out in our reply (EDB597) to a question (Serial No. 4454) raised at the special meetings of the Finance Committee to examine the Estimates of Expenditure 2015-16 in 2015. Given the length of the reply, the details covering the 2012/13 to 2014/15 academic years are not repeated herein.

All four annexes are prepared based on information provided by the universities.

Notes:

- They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- Include major overseas qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor’s degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, ‘unclassified’=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

Notes:

1. They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
2. Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
3. Include major overseas qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on the final award during the study period.

8	BBA - Accounting	32	1	2	12	13	60	1.7%	16.8	-	-

Notes:

- They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- Include major overseas qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.

5. "Others" include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
"- " denotes the students concerned are not HKDSE qualification holders. " \*\*" denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
"- " denotes the students concerned are not GCE qualification holders. " \*\*" denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. "- " denotes the students concerned are not IB qualification holders.  
" \*\*" denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
8. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
9. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.
10. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on the final award during the study period.

**UGC-Funded First-Year-First-Degree Programmes with the Largest Number of Local Students with Overseas Qualifications,  
2015/16 and 2016/17 Academic Years**

Notes:

- They cover primarily major admission qualifications in which standardised grading schemes are adopted. As such, scores are not collected for sub-degree qualifications awarded by individual universities, though they are also major admission qualifications held by student intakes.
- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided.
- Include major overseas qualifications, such as the International Baccalaureate (IB), and the General Certificate of Education (GCE) Advanced Level Examination.
- Include sub-degree qualifications, such as Associate degree, Higher diploma, etc.
- “Others” include qualifications not elsewhere classified, e.g. students who have either completed a full or a part of a bachelor’s degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.

6. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
 5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
 “-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
7. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
 A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.

2. The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40

AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20

“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a student on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.
- The Hong Kong Diploma of Secondary Education (HKDSE) score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 A-Level subject plus 1 A-Level subject or 2 AS-Level subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.
7. The Hong Kong University of Science and Technology introduced School-based admission and so part of the figures are presented at School level.

**UGC-funded First-Year-First-Degree Programmes with the Highest Ratio of Non-local Students to Total Number of Students Admitted,

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:

5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0

“-” denotes the students concerned are not HKDSE qualification holders. “\*\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.

3. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:

A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40

AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20

“-” denotes the students concerned are not GCE qualification holders. “\*\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.

4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders. “\*\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.
7. Under the new academic structure, universities adopt broad-based admission and have introduced general education in junior years of undergraduate programmes. Broad-based admission aims to give students the flexibility to decide on the final award during the study period.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.
- The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
- This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
- The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.
- Different provinces / cities have different First Admission Line cut-off points and have different maximum points for Science Stream Students and Arts Stream Students. In this regard, the average of JEE scores does not reflect the quality of non-local student. The University accepted all JEE students who have passed the First Admission line in their provinces/cities.

Notes:

- Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided. Major ones cover primarily those qualifications in which standardised grading schemes are adopted.

2. The HKDSE score is the sum of scores for 4 core subjects (i.e. Chinese Language, English Language, Mathematics, and Liberal Studies) where the score for each subject is calculated as follows:  
5\*\*=7, 5\*=6, 5=5, 4=4, 3=3, 2=2, 1=1, 'unclassified'=0  
“-” denotes the students concerned are not HKDSE qualification holders. “\*” denotes the number of students obtaining HKDSE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
3. With reference to the Universities and Colleges Admission Service (UCAS) of the UK, GCE score is the sum of the scores for 1 AL subject plus 1 AL subject or 2 AS subjects with the best results. The subjects for calculation do not necessarily include those specified in the departmental entrance requirement, and the highest score should be taken. The score for each subject is allocated as follows:  
A-Level : A\* – 140; A – 120; B – 100; C – 80; D – 60; E – 40  
AS-Level : A – 60; B – 50; C – 40; D – 30; E – 20  
“-” denotes the students concerned are not GCE qualification holders. “\*” denotes the number of students obtaining GCE qualification is so small (below 3) that we are unable to disclose the scores to protect the privacy of the students concerned.
4. This refers to the IB Diploma point score where the highest total available for a Diploma Programme student is 45 points. “-” denotes the students concerned are not IB qualification holders.  
“\*” denotes the number of students obtaining IB qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
5. National Joint College Entrance Examination (JEE) of Mainland China. Marks are calculated based on the average scores above the Key University Cut-off Scores given that different provinces in the Mainland have different JEE total scores. “-” denotes the students concerned are not JEE qualification holders. “\*” denotes the number of students obtaining JEE qualification is so small (below 3) that we are unable to disclose the scores so as to protect the privacy of the students concerned.
6. The programme names, including the format thereof, are as provided by the UGC-funded universities concerned.

**CONTROLLING OFFICER'S REPLY**

**EDB740**

**(Question Serial No. 3627)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please provide, by institution and programme, the following information for the past 5 years (2012/13 to 2016/17):

- (1) the number of enrolment applications and the place of origin for funded taught postgraduate programmes and self-financing taught postgraduate programmes offered by each University Grants Committee (UGC)-funded institution;
- (2) the number of student intake and the place of origin for funded taught postgraduate programmes and self-financing taught postgraduate programmes offered by each UGC-funded institution;
- (3) the number of enrolment applications and the place of origin for funded research postgraduate programmes and self-financing research postgraduate programmes offered by each UGC-funded institution; and
- (4) the number of student intake and the place of origin for funded research postgraduate programmes and self-financing research postgraduate programmes offered by each UGC-funded institution.

Asked by: Hon IP Kin-yuen (Member Question No. 89)

Reply:

- (1) Information on the number of applications and place of origin of applicants of University Grants Committee (UGC)-funded and self-financing taught postgraduate (TPg) programmes is not available.
- (2) Student intakes of UGC-funded TPg programmes by university and place of origin from the 2012/13 to 2016/17 academic years are at **Annex A**. Student intakes of self-financing TPg programmes offered by UGC-funded universities, by university and place of origin, from the 2012/13 to 2015/16 academic years are at **Annex B**. Figures for the 2016/17 academic year are not yet available.
- (3) & (4) The number of applications and student intakes of UGC-funded research postgraduate (RPg) programmes by university and place of origin from the 2012/13 to 2016/17 academic years are at **Annex C**.

Information on the number of applications of self-financing RPg programmes is not available. Student intakes of self-financing RPg programmes offered by UGC-funded universities, by university and place of origin, from the 2012/13 to 2015/16 academic years are at **Annex D**. Figures for the 2016/17 academic year are not yet available.

Notes:

- Number of applications of research postgraduate (RPg) programmes refers to the number one year prior to the corresponding academic year.
- Each applicant can concurrently submit multiple applications to different universities, and hence the number of applicants is actually smaller than the number of applications. UGC-funded universities, however, do not have information on the number of applicants. Based on empirical data, UGC-funded universities assessed that, on average, each local applicant would submit two applications for admission. The number of applications submitted by non-local applicants considerably varies, and hence UGC-funded universities are unable to estimate the number of non-local applicants on the basis of the number of non-local applications received.
- The place of origin of non-local students is determined having regard to their nationality.
- The numbers of RPg students are in decimal places which are all rounded to integers in this table. If the RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis. Hence, figures may not add up to the corresponding totals due to rounding.
- 'N.A.' denotes figures not available.

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within normal study periods.
3. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
4. <sup>^</sup> Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of RPg students.
5. '-' denotes nil.

**CONTROLLING OFFICER'S REPLY****EDB742****(Question Serial No. 3638)**

**Head:** (190) University Grants Committee

**Subhead (No. & title):** (-) Not Specified

**Programme:** University Grants Committee

**Controlling Officer:** Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

**Director of Bureau:** Secretary for Education

**Question:**

1. Please set out the respective amounts of Government funding to University Grants Committee (UGC)-funded universities and their percentages against the total income of the universities in the past 5 years (2012/13 to 2016/17):

Sources of income	Universities (\$m) (as a % of total income)								UGC sector
	CityU	HKBU	LU	CUHK	EUHK	PolyU	HKUST	HKU	
Recurrent funding from UGC									
Funding from Research Grant Council (RGC)									
Funding from other Government agencies (please specify)									
Sub-total									
Tuition and other fees									
Interest and investment income									
Donations and benefactions									
Income from subsidiaries									
Other incomes (please specify)									
Total income									

2. Please provide a list of local and overseas subsidiaries established or currently owned by UGC-funded universities.

**Asked by:** Hon IP Kin-yuen (Member Question No. 99)

**Reply:**

1. Total income by source of the eight University Grants Committee (UGC)-funded universities for the 2012/13 to 2015/16 academic years, based on universities' annual financial reports, is provided at **Annex A**. Information for the 2016/17 academic year is not available.
2. A list of subsidiaries / principal subsidiaries of UGC-funded universities as disclosed in their 2015/16 consolidated annual financial reports are provided at **Annex B**.

## Total income by source of the University Grants Committee (UGC)-funded universities for the 2012/13 to 2015/16 academic years

Source: Financial reports of UGC-funded universities.

Figures may not add up due to rounding.

**Abbreviations:**

CityU - City University of Hong Kong  
HKBU - Hong Kong Baptist University  
LU - Lingnan University  
CUHK - The Chinese University of Hong Kong  
EdUHK - The Education University of Hong Kong  
PolyU - The Hong Kong Polytechnic University  
HKUST - Hong Kong University of Science & Technology  
HKU - University of Hong Kong

**Notes:**

(1) Subventions from UGC mainly comprise block grants, Earmarked Research Grants administered by the Research Grants Council, other earmarked grants and matching grants

(2) Subventions from Government Agencies include mainly subventions from Government bureaux and departments, such as the Food and Health Bureau, Innovation and Technology Commission and Environmental Protection Department, etc.

Please provide information on the Hong Kong PhD Fellowship Scheme from the 2012/13 to 2016/17 academic years in the table below:

Academic year	Place of origin of applicants	Number of applicants	Number of successful applicants
2012/13			
2013/14			
2014/15			
2015/16			
2016/17			

Asked by: Hon IP Kin-yuen (Member Question No. 141)

Reply:

The breakdown of the applicants and awardees by place of origin for the Hong Kong PhD Fellowship Scheme from the 2012/13 to 2016/17 academic years are set out below:

Country / Region	2012/13		2013/14		2014/15		2015/16		2016/17

**CONTROLLING OFFICER'S REPLY****EDB744****(Question Serial No. 7124)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Regarding the University Grants Committee's injections of research funds, please provide the amount of the following in the past 5 years (2012/13 to 2016/17):

- (1) The investment income of the Research Endowment Fund each year.

Asked by: Hon IP Kin-yuen (Member Question No. 84)

Reply:

- (1) The annual investment income of the Research Endowment Fund (REF) for 2012/13 to 2015/16 (Note 1) are tabulated below. Information for 2016/17 is not yet available.

For the year ended 31 August	Investment income of the REF (\$ million)
2013	1,304
2014	1,036
2015	1,248
2016	1,038

<sup>Note 1</sup> The accounting period for REF runs from 1 September to 31 August of the following year.

- End -

**CONTROLLING OFFICER'S REPLY****EDB745****(Question Serial No. 5248)**

**Head:** (190) University Grants Committee

**Subhead (No. & title):** (-) Not Specified

**Programme:** University Grants Committee

**Controlling Officer:** Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

**Director of Bureau:** Secretary for Education

**Question:**

Given that the actual number of students taking sub-degree programmes funded by the University Grants Committee (UGC) in 2015/16 academic year was 4 072, please advise on:

- (a) The numbers of students and average unit costs for the UGC-funded sub-degree programmes in each of the past 5 years (i.e. from 2011/12 academic year to 2015/16 academic year) and the total amount of funding. Please sort by year-levels and tabulate by courses and institutions.
- (b) The number of non-local students among the 4 072 students. Please list out by institutions, levels of study, places of origin and mode of study.

**Asked by:** Hon KWOK Wing-hang, Dennis (Member Question No. 94)

**Reply:**

- (a) The bulk of the funding is allocated to universities in the form of block grant based on the approved student numbers allocated to universities. The average student unit costs of University Grants Committee (UGC)-funded sub-degree places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, and the total subventions for the 2011/12 to 2015/16 academic years are set out below:

	2011/12	2012/13	2013/14	2014/15	2015/16
Average student unit cost (\$'000) <sup>Note 2</sup>	147	137	139	156	172 <sup>Note 1</sup>
Total subvention for the UGC-funded universities (\$ billion)	11.8	14.2	15.2	16.2	17.9

As funding for publicly-funded sub-degree places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

## Notes:

- Provisional figure.
- The bulk of the student unit cost of a sub-degree place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$15,040 per student per year for the Education University of Hong Kong and \$31,575 per student per year for other UGC-funded universities).

- (b) Almost all students who were enrolled in UGC-funded sub-degree programmes in the 2015/16 academic year were local students. Of the 4 072 students, only one was non-local student from the mainland of China studying full-time sub-degree programme in the Hong Kong Polytechnic University.

- End -

**CONTROLLING OFFICER'S REPLY****EDB746****(Question Serial No. 5253)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The actual number of students who pursued a degree programme funded by the University Grants Committee (UGC) in the 2015/16 academic year was 81 732. Would the Government inform this Committee of:

- the number of students who pursued a degree programme funded by the UGC, the average unit cost of UGC-funded degree places and the total amount of subventions involved in the past 5 years (i.e. from 2011/12 to 2015/16 academic years), with a breakdown by year of study, area of study and faculty in table form.
- the number of non-local students among the 81 732 students with a breakdown by institution, level of study, place of origin and mode of study; and
- the number of non-local students who pursued a non-UGC funded degree programme with a breakdown by institution, level of study, place of origin and mode of study?

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 95)

Reply:

- The bulk of the funding is allocated to universities in the form of block grant based on the approved student numbers allocated to universities. The average student unit costs of University Grants Committee (UGC)-funded undergraduate places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, and the total subventions for the 2011/12 to 2015/16 academic years are set out below:

	2011/12	2012/13	2013/14	2014/15	2015/16
Average student unit cost (\$'000) <sup>Note 2</sup>	233	203	209	222	237 <sup>Note 1</sup>
Total subvention for the UGC-funded universities (\$ billion)	11.8	14.2	15.2	16.2	17.9

As funding for publicly-funded undergraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

## Notes:

- Provisional figure.
- The bulk of the student unit cost of an undergraduate place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year).

- (b) Among the 81 732 students pursuing the UGC-funded undergraduate programmes in the 2015/16 academic year, 9 647 were non-local students. The distribution of these non-local students by university, mode of study and place of origin and is set out at **Annex A**.
- (c) The number of non-local students who pursued a non-UGC-funded degree programme by institution, place of origin and mode of study for the 2015/16 academic year is set out at **Annex B**.

**Number of Non-local Students of UGC-funded Undergraduate Programmes  
by University, Mode of Study and Place of Origin, 2015/16 Academic Year**

(full-time equivalent)

**Director of Bureau:** Secretary for Education

**Question:**

The actual number of students who pursued a taught postgraduate (TPg) programme funded by the University Grants Committee (UGC) in the 2015/16 academic year was 2 271. Would the Government inform this Committee of:

- the number of students, average unit cost of UGC-funded TPg places and the total amount of subventions involved in the past 5 years, i.e. from 2011/12 to 2015/16 academic years, by grade level, area of study and faculty in table form; and
- the number of non-local students among the 2 271 students with a breakdown by institution, level of study, place of origin and mode of study.

**Asked by:** Hon KWOK Wing-hang, Dennis (Member Question No. 96)

**Reply:**

- The bulk of the funding is allocated to universities in the form of block grant based on the approved student numbers allocated to universities. The average student unit costs of University Grants Committee (UGC)-funded taught postgraduate places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, and the total subventions for the 2011/12 to 2015/16 academic years are set out below:

	2011/12	2012/13	2013/14	2014/15	2015/16
Average student unit cost (\$'000) <sup>Note 2</sup>	204	193	202	215	230 <sup>Note 1</sup>
Total subvention for the UGC-funded universities (\$ billion)	11.8	14.2	15.2	16.2	17.9

As funding for publicly-funded taught postgraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

**Notes:**

- Provisional figure.
- The bulk of the student unit cost of a taught postgraduate place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year).

- (b) Among the 2 271 students pursuing the UGC-funded taught postgraduate programmes in the 2015/16 academic year, 74 were non-local students. The distribution of these non-local students by university, mode of study and place of origin is set out below:

(full-time equivalent)

University	Mode of Study	Place of Origin			Total
		The Mainland of China	Other parts of Asia	The rest of the world	
City University of Hong Kong	Full-time	-	4	3	7
Hong Kong Baptist University	Part-time	1	-	-	1
The Chinese University of Hong Kong	Full-time	4	-	-	4
The Education University of Hong Kong	Full-time	6	1	-	7
The University of Hong Kong	Full-time	41	9	6	56
<b>All Universities</b>	<b>Full-time</b>	<b>51</b>	<b>14</b>	<b>9</b>	<b>74</b>

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. '-' denotes nil.

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

The actual number of students who pursued a research postgraduate (RPg) programme funded by the University Grants Committee (UGC) in the 2015/16 academic year was 7 359. Would the Government inform this Committee of:

- (a) the number of students, average unit cost of UGC-funded RPg places and the total amount of subventions involved in the past 5 years, i.e. from 2011/12 to 2015/16 academic years, by grade level, area of study and faculty in table form; and
- (b) the number of non-local students among the 7 359 students with a breakdown by institution, level of study, place of origin and mode of study.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 97)

Reply:

- (a) The bulk of the funding is allocated to universities in the form of block grant based on the approved student numbers allocated to universities. The average student unit costs of University Grants Committee (UGC)-funded research postgraduate places, which are derived based on the actual costs incurred on UGC-funded expenditure items and reported by universities, and the total subventions for the 2011/12 to 2015/16 academic years are set out below:

	2011/12	2012/13	2013/14	2014/15	2015/16
Average student unit cost (\$'000) <sup>Note 2</sup>	516	469	475	511	548 <sup>Note 1</sup>
Total subvention for the UGC-funded universities (\$ billion)	11.8	14.2	15.2	16.2	17.9

As funding for publicly-funded research postgraduate places is subsumed under the block grants, the UGC is unable to identify and attribute the actual expenditure on specific programmes.

## Notes:

1. Provisional figure.
2. The bulk of the student unit cost of a research postgraduate place is subsidised by Government subvention with the remainder funded by income from tuition fee (i.e. \$42,100 per student per year).

- (b) Among the 7 359 students pursuing the UGC-funded research postgraduate programmes in the 2015/16 academic year, 5 925 were non-local students. The distribution of 5 925 non-local students by university, mode of study and place of origin is set out below.

(full-time equivalent)

University	Mode of Study	Place of Origin			
		The Mainland of China	Other parts of Asia	The rest of the world	Total
City University of Hong Kong	Full-time	575	74	88	737
Hong Kong Baptist University	Full-time	166	13	25	204
Lingnan University	Full-time	34	5	15	54
The Chinese University of Hong Kong	Full-time	1 428	41	39	1 508
The Education University of Hong Kong	Full-time	21	4	2	27
The Hong Kong Polytechnic University	Full-time	479	54	47	580
The Hong Kong University of Science and Technology	Full-time	1 038	121	57	1 215
The University of Hong Kong	Full-time	1 370	112	118	1 600
<b>All Universities</b>	<b>Total</b>	5 110	424	391	5 925

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Figures include only students funded by UGC within their normal study periods.
3. There was no non-local student enrolled to part-time UGC-funded research postgraduate programme in the year.
4. Figures may not add up to the corresponding totals because if research postgraduate students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of non-local students.

- End -

**CONTROLLING OFFICER'S REPLY****EDB749****(Question Serial No. 6128)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Will the Government provide this Committee with the following information:

The respective numbers of local, Mainland and overseas students studying self-financed and University Grants Committee (UGC)-funded postgraduate programmes in the past 5 years;

The amount of financial assistance provided by the Government through various scholarships in the past 5 years; and

The respective numbers of local, Mainland and overseas postgraduate students receiving scholarships in the past 5 years?

Asked by: Hon LEUNG Kenneth (Member Question No. 1.13)

Reply:

According to figures provided by universities, the number of students enrolled in self-financing and University Grants Committee (UGC)-funded postgraduate programmes from the 2012/13 to 2016/17 academic years, with a breakdown by place of origin<sup>1</sup> is as follows.

(Headcount)

Academic year	Number of students pursuing postgraduate programmes <sup>2</sup>					
	Self-financing			UGC-funded <sup>3</sup>		
	Local	Mainland	Other places	Local	Mainland	Other places
2012/13	25 604	10 029	1 327	5 279	4 648	613
2013/14	25 162	12 523	1 166	4 873	4 853	715
2014/15	24 644	13 001	1 158	4 817	4 978	798
2015/16	24 247	12 272	1 093	4 788	5 164	839
2016/17 <sup>4</sup>	N.A. <sup>5</sup>			4 668	5 184	927

## Notes :

1. The place of origin of non-local students is determined having regard to their nationality.
2. Figures include taught and research postgraduate programmes.
3. Figures include students within normal study periods.
4. Figures in respect of UGC-funded postgraduate programmes for the 2016/17 academic year are provisional.
5. N.A. denotes figures not available.

Under two publicly-funded scholarship schemes, namely the HKSAR Government Scholarship Fund and the Scholarship for Prospective English Teachers, postgraduate students are eligible alongside students of other study levels. In addition, the Hong Kong PhD Fellowship Scheme launched by the Research Grants Council of the UGC welcomes applications from those students who are seeking admission as new full-time PhD students in UGC-funded universities, irrespective of their country of origin. The total amounts disbursed under these three scholarship/fellowship schemes in the past five academic years are as follows:

Name of Scholarships/Fellowships	Disbursement by academic year (\$ million)				
	2012/13	2013/14	2014/15	2015/16	2016/17
HKSAR Government Scholarship Fund	71.7	89.4	96.1	97.8	100.2
Scholarship for Prospective English Teachers (established in 2010/11) (figures refer to amount of disbursement to postgraduate students only)	0.55	0.65	0.25	0.6	0.5
Hong Kong PhD Fellowship Scheme	96.8	105.5	129.8	137.8	152.5

A breakdown of the scholarship recipients pursuing UGC-funded postgraduate programmes under the above three schemes is as follows:

(a) HKSAR Government Scholarship Fund

Academic year	Number of recipients pursuing UGC-funded postgraduate programmes under the HKSAR Government Scholarship Fund					
	Local	Amount (\$ million)	Mainland	Amount (\$ million)	Other places	Amount (\$ million)
2012/13	46	0.61	28	0.28	7	0.14
2013/14	70	1.28	66	0.74	11	0.25
2014/15	55	1.03	64	0.71	9	0.09
2015/16	90	1.50	73	0.87	8	0.08
2016/17 <sup>^</sup>	19	0.67	1	0.08	1	0.08

<sup>^</sup> Information on the Talent Development Scholarship and Reaching Out Award under the HKSAR Government Scholarship Fund are not available yet.

(b) Scholarship for Prospective English Teachers

Academic year	Number of recipients pursuing UGC-funded postgraduate programmes under the Scholarship for Prospective English Teachers (since establishment in 2010/11)					
	Local	Amount (\$ million)	Mainland	Amount (\$ million)	Other places	Amount (\$ million)
2012/13	11	0.55	0	0	0	0
2013/14	13	0.65	0	0	0	0
2014/15	5	0.25	0	0	0	0
2015/16	12	0.6	0	0	0	0
2016/17	10	0.5	0	0	0	0

(c) Hong Kong PhD Fellowship Scheme

The Scheme provides an annual stipend of HK\$240,000 and a conference and research-related travel allowance of HK\$10,000 per year up to three years for all awardees, irrespective of place of origin.

Academic year	Number of (new) recipients under the Hong Kong PhD Fellowship Scheme				
	Local	Mainland	Other places	Total new recipients	Total recipients
2012/13	16	92	57	165	387*
2013/14	14	103	68	185	422*
2014/15	13	131	79	223	519*
2015/16	14	133	69	216	551*
2016/17	15	120	96	231	610*

\* Including new awardees and awardees from previous year(s) who continue to benefit from the Scheme.

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the Government provision for universities funded by the University Grants Committee (UGC):

1. Please list, by university, the total amount of funds.
2. Quite a number of tertiary institutions around the world have withdrawn their investments from heavily polluting and fossil fuel industries with a view to mitigating climate change and improving public health. Has the Government assessed the financial position of UGC-funded universities and introduced similar regulatory measures governing the investment policy of these universities? If yes, what are the details? If no, will the Government consider drawing up guidelines on the investment policy for the universities?

Asked by: Hon LEUNG Kenneth (Member Question No. 3.17)

Reply:

1. Based on the annual financial reports of the eight University Grants Committee (UGC)-funded universities, information on the total funds of each university for the 2015/16 academic year is at Annex.
2. The eight UGC-funded universities are independent statutory bodies which enjoy a high degree of autonomy in academic and administrative matters. Each university has established mechanisms and internal guidelines governing institutional affairs including the investment of funds etc. It is for universities to decide their investment strategies having regard to the provisions in their ordinance. In line with the principle of institutional autonomy, the UGC generally does not micro-manage or intervene in these matters.

Question:

Does your department provide sign language interpretation services? If yes, what are the manpower and expenditure involved? If no, what are the reasons?

Asked by: Hon LEUNG Yiu-chung (Member Question No. 219)

Reply:

The University Grants Committee Secretariat has so far not come across requests for sign language interpretation services. Provision of the said services is subject to review from time to time based on operational needs.

Question:

Will the Education Bureau/ University Grants Committee advise on the breakdown of the respective numbers of publicly-funded, privately-funded and temporary hostel places provided by tertiary institutions in Hong Kong, and the ratios of allocation of such places between local and non-local students in the 2016-17 academic year by institution?

Asked by: Hon MA Fung-kwok (Member Question No. 91)

Reply:

The number of hostel places available in the University Grants Committee (UGC)-funded universities and the ratio of hostel places allocated to local and non-local students at the beginning of the 2016/17 academic year as advised by the UGC-funded universities are at the Annex.

(A) Hostel places available for allocation to students in UGC-funded universities

University	2016/17 academic year			
	Publicly-funded	Privately-funded	Temporary	Total
City University of Hong Kong	3 440	208	0	3 648
Hong Kong Baptist University	1 629	250	216	2 095
Lingnan University	1 164	1 170	107	2 441
The Chinese University of Hong Kong	5 534	2 593	488	8 615
The Education University of Hong Kong	2 000	0	186	2 186
The Hong Kong Polytechnic University	4 484	0	161	4 645
The Hong Kong University of Science and Technology	3 812	792	604	5 208

Question:

The number of funded first-year first-degree places now maintains at 15 000 per annum, while the number of secondary 6 students meeting the minimum admission requirements of undergraduate programmes in 2016 is 22 000. In this connection, please advise on:

1. whether the number of funded undergraduate places will be increased in the new financial year. If yes, what are the details? If no, what are the reasons?
2. the reasons for not adjusting the tuition fees of universities over the years;
3. whether an adjustment to the tuition fees will be considered. If yes, what are the details and the reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 64)

Reply:

1.

All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing first-year-first-degree (FYFD) places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of University Grants Committee (UGC)-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. In light of the above, the Government does not see a genuine need to change the number of UGC-funded FYFD places to be offered in the coming years and have maintained it at 15 000 per annum during the 2016/17 to 2018/19 triennium.

Planning for the 2019/20 to 2021/22 triennium will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded FYFD places to be offered in the next triennium.

2. & 3.

The recurrent grant to the UGC-funded universities is a deficiency subvention calculated by deducting an assumed income from tuition fees and other sources from the estimated gross funding requirement of the UGC-funded universities. The assumed tuition fee income is based on the indicative tuition fee level determined by the Chief Executive in Council.

There is no plan to increase the indicative tuition fee level at present and we will maintain the indicative tuition fee at the current level during the 2016/17 to 2018/19 triennium, i.e. \$42,100 per student per year for UGC-funded programmes at degree level. This has formed the basis for calculating the recurrent grants for the UGC-funded universities in the 2016/17 to 2018/19 triennium. Having said that, the tuition fee level has remained at the same level for nearly two decades. Hence, the Government has invited the UGC to conduct a study on the practices in respect of tuition fee policy in other jurisdictions and propose options to the Government for consideration with due regard to the situation in Hong Kong. This is to enable the Government to lead an informed and rational discussion on the way forward.

The above-mentioned study commenced in February 2016. It was completed in late September 2016 and the final report has been submitted to the Education Bureau. The Bureau is now carefully studying the findings of the report and will decide the way forward for the 2019/20 academic year and beyond in due course.

Question:

The UGC is working with the Government and the institutions to have more hostel places as quickly as practicable. In this connection, please advise the following information:

- (a) the number of students who were on the waiting list for hostel places in last 2 year, broken down by institutions and places of origin of students;
- (b) the number of supply of hostel places in the next 3 years; what are the details of these additional hostel places as well as construction expenditure involved;
- (c) to what extent the additional hostel places created in the coming 3 years is able to cater the residential needs of local and non-local students and promote internalization of universities?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 76)

Reply:

- (a) Under the Government's prevailing hostel policy, subject to the availability of land and resources, the provision of publicly-funded student hostels in the University Grants Committee (UGC)-funded universities is calculated in accordance with the following criteria<sup>1</sup>: all undergraduate students should be given the opportunity to stay in student hostel for at least one year of their courses; and all research postgraduates, non-local students as well as undergraduate students whose daily travelling time exceeds four hours, should be provided with student hostel places.

The actual allocation of student hostel places to individual students is a matter within institutional autonomy. The UGC-funded universities allocate publicly-funded, privately-funded and temporary hostel places to their local and non-local students enrolled in the UGC-funded and non-UGC-funded programmes as well as exchange students according to their own sets of criteria and procedures. UGC does not collect information from the universities regarding the number of students put on waiting lists for hostel places.

---

<sup>1</sup> The criteria are applicable to all UGC-funded universities, except for Lingnan University (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population having regard to its remote location in Tuen Mun and its aspiration to develop itself into a relatively small, fully residential liberal arts institution) and the Education University of Hong Kong (which has been provided with publicly-funded hostel places for 50% of its full-time degree student population projected at the time of establishment of the institution having regard to the potential benefits that hostel life would bring to the quality of pre-service teacher education).

- (b) Regarding the number of additional publicly-funded hostel places in the coming three years, one hostel project, namely 8055EF “Student hostels on northern campus” with an approved project estimate of \$465.5 million (excluding 25% contribution by the institution) was approved by the Legislative Council in mid-2015. This project is currently under construction for completion in mid-2018. Upon its completion, it will provide 676 additional publicly-funded hostel places to The Chinese University of Hong Kong.
- (c) Both the UGC and the universities consider that the provision of hostel places for both local and non-local students according to the established policy is a key factor in promoting internationalization. Despite the keen competition for funding, the UGC has been working very hard to pursue funding for capital projects for hostels as well as academic facilities, and will continue the endeavor. Moreover, internationalization might come in many forms including international strategies, curriculum development, international networks, non-local student recruitment and integration, international staff, etc. The provision of hostel places is not the only determining factor when non-local students consider their study destinations.

Question:

Students are charged high tuition fees by universities each semester/academic year. Has the Government taken any measures to monitor the tertiary institutions to see if their money is put to good use? Are there any records?

Asked by: Hon SHIU Ka-chun (Member Question No. 175)

Reply:

The eight University Grants Committee (UGC)-funded universities are independent statutory bodies, each with its own ordinance and governing council. Each university has its own objectives, functions and governance structure in accordance with its own governing ordinance and statutes. In addition, the governing council is the supreme governing body over all institutional matters, having powers to do things that are necessary and conducive to the objects of the university.

That notwithstanding, in view of the significant funding the universities receive in the form of Government subvention and private contributions, as well as the importance of higher education to the development of the society, universities should ensure that their funding is put to appropriate use and serves the best interests of the community and students. While safeguarding academic freedom and institutional autonomy, universities should endeavor to maintain transparency and accountability in their operations.

As required by the UGC Notes on Procedures (NoP), the universities, in addition to the annual audit of the financial statements, universities are required to engage independent external auditors to provide an assurance as to whether the university has accounted for the income and expenditure in respect of the funds received from the UGC in accordance with the relevant provisions of the NoP and the grant allocation letters issued by the UGC. Moreover, to provide further assurance of the proper use and application of public funds as represented in the audited financial statements and the annual return, Heads of Universities (HoUs) are requested to provide a Certificate of Accountability to the UGC annually, after the close of each financial year, to confirm that public funds allocated via the UGC and matched donations under the Matching Grant Schemes had been spent in accordance with the NoP, allocation letter and other guidelines and approved Government policies, including the guidelines on no cross-subsidisation.

Question:

What were the numbers of students undertaking master's, bachelor's and associate degree programmes in social work in various tertiary institutions in the past 5 years? How many of them did join the profession and actually become social workers? What is the percentage of such students? Is there any shortage of social workers or shortfall in the supply?

Asked by: Hon SHIU Ka-chun (Member Question No. 177)

Reply:

The number of graduates of University Grants Committee (UGC)-funded sub-degree and undergraduate programmes related to social work by university for 2011/12 to 2015/16 academic years is given at Annex A. No UGC-funded postgraduate programmes leading to professional recognition, related to social work were offered by these universities during the period.

According to the Social Work Manpower Requirements System administered by the Social Welfare Department, the number of graduates of all local social work programmes (including UGC-funded programmes) from 2010 to 2014 and those who have ever joined the social work profession by year of graduation and type of graduates is given at Annex B.

The UGC Secretariat does not maintain information about the manpower situations of individual industries and professions (including social work). Instead, when we conduct academic planning for the UGC-funded universities, the Education Bureau will solicit views from relevant bureaux/departments regarding the manpower trends in professions/industries under their respective purview. The general manpower remarks so obtained will be provided to the UGC-funded universities to facilitate them to consider their academic programme offerings.

Question:

Regarding placements arranged by the departments of social work of various tertiary institutions, what were the average amount of subsidy granted to a student in a blocked/concurrent placement and the percentage increase in the past 5 years?

Asked by: Hon SHIU Ka-chun (Member Question No. 178)

Reply:

The average amount of subsidy granted to a student in a blocked/concurrent placement and the change in percentage over the past five academic years are tabled below.

	<b>2012/13</b>	<b>2013/14</b>	<b>2014/15</b>	<b>2015/16</b>	<b>2016/17</b>
Average: (HK\$)	12,061	12,225 (+1.36%)	12,493 (+2.19%)	12,915 (+3.38%)	Not yet available

Notes:

1. The table above only reflects returns from four University Grants Committee-funded universities that have readily available information on the subsidy amount.
2. The universities include different elements in calculating the amount of subsidy granted to students. One of them includes supervision fee for individual students and travelling allowance provided to each student in the calculation. One of them indicates that the amount of subsidy per placement includes the funding for social work fieldwork supervision and subsidy on non-local placement, but excludes the costs for employing full-time teaching staff to co-ordinate the fieldwork for the Undergraduate Programme. One university includes only local travelling allowance and overseas subsidy in the amount of subsidy provided to the students. One university does not indicate the coverage of the figures.

Director of Bureau: Secretary for Education

Question:

Many students and media reports have reflected that tertiary institutions offering sub-degree programmes are becoming business-oriented and the quality of these programmes varies greatly. With the industrialisation of local education, most of the sub-degree graduates are unable to articulate to top-up degree programmes and they can only earn a low monthly income. Sub-degree programmes have gradually become "chicken ribs" which have little value.

In 2017-18, apart from undertaking quality audits on the sub-degree operations of the UGC-funded universities, will the Quality Assurance Council oversee and conduct audits on self-financing sub-degree programmes offered by community colleges in respect of the quality of programmes, their tuition fees and quality of staff? If yes, what are the details? If no, what are the reasons?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 55)

Reply:

The Quality Assurance Council (QAC), established under the aegis of the University Grants Committee (UGC), aims to assure that the quality of the educational experience in all programmes at the levels of sub-degree, first degree and above (however funded) offered in UGC-funded universities is sustained and improved, and is at an internationally competitive level. The work of QAC only involves UGC-funded universities.

On the other hand, sub-degree programmes offered by non-self-accrediting post-secondary institutions are subject to quality assurance by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications to ensure that the academic standards and quality, as well as teaching quality etc. meet the required standards.

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Under Matters Requiring Special Attention in 2017-18, it is mentioned that the Government will encourage the UGC-funded universities to strengthen their pursuits of the initiatives of internationalisation.

Besides teaching quality, university reputation and image are equally important. It was reported that many university professors receiving several millions of dollars annually in remuneration only published their works in newspapers.

In the past, the media exposed quite a few cases of university professors being suspected of plagiarism, such as Lingnan University Professor Herdip Singh who was suspected of plagiarising dissertation in the year before last, and corruption and dereliction of duties (such as Lam Shiu-kum, former Dean of Faculty of Medicine of the University of Hong Kong). Corruption problems are lurking in local higher education.

Regarding the University Grants Committee's expenditure in the current year, will the integrity of university education staff be included under the expenditure on the institutional governance of universities? Or will discussion be held with the ICAC on countermeasures to prevent corruption in local higher education in order to promote the internationalisation of the universities? If yes, what are the details? If not, what are the reasons?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 57)

Reply:

The eight University Grants Committee (UGC)-funded universities are autonomous bodies established pursuant to their respective ordinances and each has established a council to serve as the governing body. Their ordinances and statutes set out their objectives, functions and governance structure and provide the universities with the power and freedom to carry out their objectives and functions.

The UGC Notes on Procedures clearly state that universities enjoy institutional autonomy in the development of curricula and academic standards, selection of staff and students, initiation and conduct of researches, internal allocation of resources, etc, and are accountable in these matters. Universities have their internal mechanisms and guidelines for handling staff management and integrity matters. We understand that Universities have sought corruption prevention advice of Independent Commission Against Corruption for enhancing institutional governance and internal control as and when necessary. Besides, the Research Grants Council under the UGC attaches great importance to research integrity. As far as RGC-funded research projects are concerned, any research improprieties found will be dealt with fairly and seriously by the RGC under the established mechanism.

Question:

One of the major tasks of the University Grants Committee (UGC) is to monitor the financial activities of the UGC-funded universities. In this regard, will the Government inform this Committee of:

The ranks and monthly salary scales of professorial staff (Professors, Associate Professors and Assistant Professors), senior lecturers, lecturers and teaching fellows in the UGC-funded universities (namely the City University of Hong Kong, the Hong Kong Baptist University, Lingnan University, The Chinese University of Hong Kong, The Education University of Hong Kong, The Hong Kong Polytechnic University, The Hong Kong University of Science and Technology and the University of Hong Kong).

Asked by: Hon YEUNG Alvin (Member Question No. 40)

Reply:

In line with the principle of institutional autonomy, universities have their own established mechanisms in determining the remuneration packages of their staff, and are accountable for their decisions in this regard. Since the deregulation of the salary scales of the University Grants Committee (UGC)-funded institutions in 2003, the UGC has not sought to control for funding purposes actual expenditure on salaries in the universities. The information requested is thus not available. That notwithstanding, for financial reporting purpose, universities are required to disclose in their financial statements statistics on the number of staff whose total annual equivalent remuneration exceeds \$1.8 million in that reporting year, irrespective of the funding sources.

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
2. ^To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
3. '-' denotes 'nil'.
4. '0' denotes magnitude of less than 0.5.

Abbreviations for university:

CityU	City University of Hong Kong

**CONTROLLING OFFICER'S REPLY**

**EDB762**

**(Question Serial No. 3973)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please list by academic programme category (Medicine, Dentistry, Biological Sciences, Natural Sciences, Mathematical Sciences, Computer Science and Information Technology, Engineering and Technology, Architecture and Town Planning, Business and Management Studies, Social Sciences, Law, Mass Communication & Documentation, Languages & Related Studies, Humanities, Arts, Design & Performing Arts, and Education) the numbers of local, Mainland and other non-Local students admitted to First-Year-First-Degree programmes offered by various University Grants Committee (UGC)-funded institutions and UGC-funded full-time undergraduate programmes for articulation from sub-degree/higher diploma programmes for the past 3 years.

Asked by: Hon YEUNG Alvin (Member Question No. 48)

Reply:

The numbers of local students, and non-local students from the Mainland of China and from the rest of the world admitted to University Grants Committee (UGC)-funded First-Year-First-Degree programmes and senior year places of full time undergraduate programmes of UGC-funded universities by university and academic programme category for 2014/15 to 2016/17 academic years are set out at **Annex A** and **Annex B** respectively.

**Number of Students Admitted to UGC-funded First-year-First-degree Programmes  
by University, Place of Origin and Academic Programme Category, 2014/15 to 2016/17 Academic Years**

(Headcount)

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. '-' denotes nil.
4. '0' denotes magnitude of less than 0.5.

Abbreviations for university:

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.

2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
- 3 .‘-’ denotes nil.
4. ‘0’ denotes magnitude of less than 0.5.

**CONTROLLING OFFICER'S REPLY**

**EDB763**

**(Question Serial No. 3974)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please list by academic programme category (Medicine, Dentistry, Biological Sciences, Natural Sciences, Mathematical Sciences, Computer Science and Information Technology, Engineering and Technology, Architecture and Town Planning, Business and Management Studies, Social Sciences, Law, Mass Communication & Documentation, Languages & Related Studies, Humanities, Arts, Design & Performing Arts, and Education) the numbers of local students admitted to full-time First-Year-First-Degree programmes offered by various University Grants Committee (UGC)-funded institutions through the Joint University Programmes Admission System (JUPAS) and non-JUPAS routes (such as International Baccalaureate (IB) programmes or other overseas public examinations) for the past 3 years.

Asked by: Hon YEUNG Alvin (Member Question No. 50)

Reply:

The number of local students admitted to the University Grants Committee (UGC)-funded First-Year-First-Degree (FYFD) places by university, academic programme category (APC) and admission route for 2014/15 to 2016/17 academic years is set out below.

**Number of Students Admitted to UGC-funded First-Year-First-Degree Programmes  
by University, Academic Programme Category and Admission Route, 2014/15 to 2016/17 Academic Years**

Notes:

1. Admission qualification refers to the highest relevant academic qualification possessed by a new intake on the basis of which his/her admission is decided, regardless of whether that qualification has been completed or not.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. Include major overseas qualifications, such as the International Baccalaureate (IB), the General Certificate of Education (GCE) Advanced Level Examination.
4. Include sub-degree qualifications, such as Associate Degree, Higher Diploma, etc.
5. 'Others' include qualifications not elsewhere classified, e.g. students who have either completed or completed part of a bachelor's degree programme in local or overseas institutions, or situations where students are admitted with multiple qualifications being major considerations.
6. '-' denotes nil.
7. '0' denotes magnitude less than 0.5.
8. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

**CONTROLLING OFFICER'S REPLY**

**EDB764**

**(Question Serial No. 3975)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please list by academic programme category (Medicine, Dentistry, Biological Sciences, Natural Sciences, Mathematical Sciences, Computer Science and Information Technology, Engineering and Technology, Architecture and Town Planning, Business and Management Studies, Social Sciences, Law, Mass Communication & Documentation, Languages & Related Studies, Humanities, Arts, Design & Performing Arts, and Education):

1. the numbers of local, Mainland and non-Local students admitted to postgraduate programmes (PhD and MPhil degrees) offered by various University Grants Committee (UGC)-funded institutions for the past 3 years.
2. the numbers of local, Mainland and non-Local students awarded the Hong Kong PhD Fellowship in various UGC-funded institutions for the past 3 years.

Asked by: Hon YEUNG Alvin (Member Question No. 52)

Reply:

1. The numbers of local students, and non-local students from the Mainland of China and from the rest of the world admitted to University Grants Committee (UGC)-funded research postgraduate programmes of UGC-funded universities by university and academic programme category for 2014/15 to 2016/17 academic years are set out at **Annex A**.
2. The breakdown of the Hong Kong PhD Fellowship Scheme awardees by UGC-funded university, broad academic programme category and place of origin from the 2014/15 to 2016/17 academic years is tabulated at **Annex B**.

**Number of Local and Non-Local students of UGC-funded Research Postgraduate Programmes  
by University, Level of Study, Place of Origin and Academic Programme Category, 2014/15 to 2016/17**

(headcount)

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Research postgraduate (RPg) figures include only students funded by UGC within their normal study periods.
3. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. Also, if RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of students. As such, figures may not add up to the corresponding totals.
4. '-' denotes nil.
5. '0' denotes magnitude of less than 0.5.

Abbreviations for university:

CityU	City University of Hong Kong	HKBU	Hong Kong Baptist University
LU	Lingnan University	CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong	PolyU	The Hong Kong Polytechnic University
