**(Question Serial No. 2884)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

It is stated under this Programme that the Education Bureau will continue to oversee and improve the implementation of the Basic Competency Assessment. Would the Administration advise this Committee of the following:

(1) What are the staff establishment, estimated annual expenditure on emoluments and operational expenses involved in overseeing and improving the implementation of the Basic Competency Assessment under this Programme in 2017-18?

(2) In its reply 2016, the Administration informed this Committee that the contract sum on TSA under the 2015-2018 contract was \$296 million and the average expenditure per year was \$74 million. Is the expenditure relating to the Basic Competency Assessment Research Study 2017 covered by this contract? If yes, what is the 2017-18 expenditure for the Basic Competency Assessment Research Study 2017 under this contract?

(3) If the 2017-18 expenditure for the Basic Competency Assessment Research Study 2017 is not covered by the 2015-2018 contract for TSA, what are the operational expenses relating to the Basic Competency Assessment Research Study 2017 in the current year?

(4) It is learnt that the Deputy Secretary for Education (5) is responsible for reviewing TSA. What is the annual expenditure on emoluments for this post in 2017-18?

(5) Regarding the net increase of 36 posts in 2017-18, what are the post titles, responsibilities and annual expenditure on emoluments?

Asked by: Hon CHAN Chi-chuen (Member Question No. 39)

Reply:

(1) The manpower and the relevant staff costs in relation to the Basic Competency Assessment project are subsumed under the overall expenditure of the Education Bureau (EDB).

(2) & (3)

The EDB has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study

(Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA and related study under the project for the contract period of 2015-2018 is set out below:

<b>Contract period</b>	<b>Expenditure on TSA and related study under the project (\$ million)</b>	<b>Average expenditure per year (\$ million)</b>
2015-2018	290	73

(4) The annual salary for Deputy Secretary for Education (5) (DS(Ed)5) is \$2.39 million. <sup>Notes 1 and 2</sup>

(5) The increase of 36 posts under Programme 8 in 2017-18 is the net result of the planned creation of 48 posts and planned deletion of 12 posts. The breakdown of the above posts by rank and annual salary is as follows-

<b><u>Rank</u></b>	<b><u>Posts to be created</u></b>	<b><u>Annual Salary</u> <sup>Note 1</sup> <u>(\$million)</u></b>
Senior Education Officer (Administration)	1	1.36
Education Officer (Administration)	1	0.97
Assistant Education Officer (Administration)	12	7.46
Senior Inspector	1	1.10
Inspector (Graduate)	3	2.66
Assistant Inspector (Graduate)	1	0.65
Structural Engineer	1	0.97
Senior Clerk of Works	1	0.85
Systems Manager	1	0.97
Analyst/Programmer I	2	1.43
Analyst/Programmer II	2	0.94
Executive Officer I	3	2.14
Executive Officer II	2	0.94
Treasury Accountant	1	0.93
Accounting Officer II	2	0.90
Supplies Supervisor II	1	0.26
Senior Clerical Officer	1	0.54
Clerical Officer	3	1.23

Assistant Clerical Officer	8	2.04
Workman II	1	0.16
<b>Sub-total (A):</b>	<b>48</b>	

<u>Rank</u>	<u>Posts to be deleted</u>	<u>Annual Salary</u> <sup>Note 1</sup> <u>(\$million)</u>
Senior Education Officer (Administration)	-1	1.36
Assistant Education Officer (Administration)	-1	0.62
Senior Inspector	-1	1.10
Assistant Inspector (Graduate)	-6	3.90
Executive Officer I	-1	0.71
Treasury Accountant	-1	0.93
Accounting Officer I	-1	0.71
<b>Sub-total (B):</b>	<b>-12</b>	
<b>Net Total [(A)+(B)]:</b>	<b>36</b>	

The 36 net additional posts are mainly for strengthening the professional and administrative support to various services; and for replacing long-term non-civil service contract positions.

Note 1: Notional Annual Mid-point Salary (NAMS) is used for calculating the salaries of the civil service posts.

Note 2: The review of the Territory-wide System Assessment only accounts for a very small part of DS(Ed)5's duties.

**(Question Serial No. 3211)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Under this programme, it is stated that the Education Bureau will continue to implement initiatives to enhance the development of Hong Kong as a regional education hub, including the Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. Would the Administration please inform this Committee of the following:

- (1) In 2017-18, what are the staffing, estimated annual expenditure on emoluments and operational expenses for implementing measures relating to the Hong Kong Scholarship for Belt and Road Students?
- (2) In 2017-18, what are the staffing, estimated annual expenditure on emoluments and operational expenses for enhancing the development of Hong Kong as a regional education hub?
- (3) What are the operational expenses, staffing, estimated annual expenditure on emoluments for this programme in 2017-18?

Asked by: Hon CHAN Chi-chuen (Member Question No. 51)

Reply:

In recent years, we have been taking steps to enhance the development of Hong Kong as a regional education hub. Attractive policies have been put in place, including doubling the non-local student quotas, establishing the HKSAR Government Scholarship Fund, relaxation of immigration and employment restrictions for non-local students, etc.

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places. Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. The scholarship to be granted in 2017-18 will amount to at most \$2.4 million, and it will be funded by the investment income generated from the Scholarship Fund.

For 2017-18, the financial provision for the operational expenses for Programme 7 (Post-secondary, Vocational and Professional Education) covers subventions and other charges. No personal emoluments will be charged to this Programme. The manpower and related expenditure for implementing the initiatives to facilitate the development of Hong Kong as a regional education hub will be subsumed under the establishment and provision for the Education Bureau.

**(Question Serial No. 0347)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Government plans to provide the one-off grants of \$150,000 and \$100,000 each to secondary and primary schools and to special schools respectively in 2017/18 school year for the promotion of understanding of the Chinese history and culture. In this connection, would the Government advise this Committee of:

- a) How are schools going to use the grant after receiving it? Is there any guidelines available from the Bureau? For instance, how many relevant programmes do schools need to deliver every year?
- b) How is the government going to measure the effectiveness of the grant?
- c) Does Chinese history and culture cover Hong Kong history? Among the programmes organised by schools, is there any requirement on the balance of activity relating to Chinese history and Hong Kong history?

Asked by: Hon CHAN Kin-por (Member Question No. 2)

Reply:

After the passage of the Appropriation Bill 2017, the Education Bureau (EDB) would issue to schools some guidelines on the use of the one-off grant for the promotion of Chinese history and culture (hereafter the grant) in the form of a Circular Memorandum. In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources, supporting teachers to participate in interflow activities on learning and teaching in the Mainland and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. Schools could decide the frequency of events as they deem appropriate.

Schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in its audited accounts to be submitted to EDB annually. EDB will also collect schools' feedback, in particular on students' participation and interest, to gauge the effectiveness of the grant through various channels, including focus groups meetings and curriculum development visits.

The past development of Hong Kong is a part of Chinese history and culture education for facilitating students' understanding of Hong Kong and the close relationship between Hong Kong and the Mainland. Schools may flexibly deploy the grant to organise activities that are related to Chinese history and Hong Kong's past development, and decide on the proportion of activities as they deem appropriate.

**(Question Serial No. 0493)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

It is indicated under Programme (2) that the Government will allocate more resources to implement the Free Quality Kindergarten Education Scheme (KG Scheme), under which most of the half-day kindergarten places will be free-of-charge. In this connection, would the Government advise this Committee of the following:

- (a) Is there any plan to further extend the coverage of the KG Scheme so that whole-day and long whole-day kindergarten places are also free-of-charge or parents will pay school fees which are at a low level? If no, what are the reasons?
- (b) Given the rent or salary costs, some kindergartens have no alternative but to lay off teaching staff or merely recruit newly inducted teachers to bring down the costs for the purpose of offering free education. Has the Government rendered support to address the specific needs of individual kindergartens?
- (c) As the turnover rate of kindergarten teachers keeps increasing, is there any timetable to adopt a pay scale for kindergarten teachers? Are there any measures to lower the turnover rate before the effectuation of the pay scale?

Asked by: Hon CHAN Kin-por (Member Question No. 1)

Reply:

(a)

The kindergarten (KG) sector is characterised by a high level of flexibility, diversity and vibrancy. In light of the existing diverse operating modes of KGs and different development targets of individual school sponsoring bodies, it does not represent prudent use of public money for the Government to commit totally free KG education for every student or to subsidise every facet of the present and future KG education. Existing evidence from researches and studies precludes drawing conclusions that whole-day (WD) programmes are more favourable to young children than half-day (HD) programmes. Studies show that family education plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG service for all children from three to six years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it

to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy, under the free quality KG education policy to be implemented starting from the 2017/18 school year, we will provide, on a co-payment basis with parents, an additional provision of 30% and 60% for eligible KGs offering WD and long WD services respectively. As the Government has provided additional subsidy, school fees will be at a low level. Needy families may be granted fee remission (at three subsidy levels of 100%, 75% or 50%). In view of the foregoing, we do not have plans to further increase government subsidy for WD and long WD KG places at this stage.

(b)

Starting from the 2017/18 school year, the Education Bureau (EDB) will provide direct subsidy for KGs joining the Free Quality KG Education Scheme (Scheme). Funding will be provided basically on a per student basis in the form of a basic unit subsidy. In addition, school-specific grants including, among others, rental subsidy and tide-over grant, etc. will be provided to cater for the special circumstances of individual KGs or students. In principle, government subsidy would be sufficient for KGs to provide quality HD services. Notwithstanding this, individual KGs may have to charge schools fees, which are estimated to be at low level, for their HD programmes, to defray expenses on rent that are not fully covered by rental subsidy. To increase the number of KGs that will not have to charge school fees to defray rental expenses, EDB will explore feasible measures to provide more Government-owned quality KG premises. As a long-term strategy, adequate space would be earmarked for KG use in new public housing estates with new demand, and we will explore the feasibility of increasing Government-owned KG premises in accordance with the established mechanisms for site search and/or premises allocation as appropriate. We will also explore the feasibility of co-location of KGs and primary schools.

As regards teachers' salaries, the basic HD unit subsidy covers expenses on salaries for teaching and supporting staff (calculated at the maximum point of the salary ranges for principals and clerks, and mid-point of the recommended salary ranges for other teaching and supporting staff) and other operating costs. Hence, in principle, it would be sufficient for KGs to defray expenditure on teachers' salary. For KGs which have a large number of long-serving teachers who are receiving higher salaries, they may apply for a one-off time-limited tide-over grant for two years starting from the 2017/18 school year. EDB will review the utilisation of funding in the 2018/19 school year and take follow-up actions as appropriate to ensure smooth migration of KGs to the new policy as well as achievement of the objectives of free quality KG education policy.

(c)

The wastage rates (Note 1) of teachers in local non-profit-making KGs in each of the past three school years (i.e. 2014/15, 2015/16 and 2016/17 (Note 2)) were generally steady at 8.5%, 7.7% and 9.8% respectively. According to the information provided by KGs, common reasons for the KG teachers leaving the sector include marriage, child caring, taking up employment outside the profession, retirement, further studies, illness and migration, etc.

For retaining and attracting quality teachers and maintaining a stable teaching force for providing quality KG education, a career ladder and competitive remuneration for teachers are conducive factors. Under the Scheme, a three-level teaching staff structure with principal, senior teachers and class teachers is considered appropriate for a KG. For some KGs, a vice-principal may be needed to assist the principal in overseeing the school administration, curriculum development and operation matters. On teachers' salary, EDB provides a salary range for each teaching position for KGs to remunerate their teachers within the range. Taking the salary of basic rank teachers as an example, in the 2017/18 school year, the salary will range between \$20,770 and \$36,930, which is a significant increase over the median salary (about \$20,000) of teachers under the Pre-primary Education Voucher Scheme in the 2015/16 school year. We expect that KG teachers' salary will be further raised under the Scheme.

As regards a mandatory salary scale for KG teachers, salary-related practices under the funding mode of aided schools could not be applied to KGs in isolation. In the aided sector, the funding mode is tied with several inter-connected components, such as EDB's annual approval for the number of operating classes which in turn determines the staff establishment, and is subject to a basket of control measures under the

Government's prudent and balanced planning of school places operated through school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating HD and WD classes to meet the needs of parents.

As compared to a mandatory salary scale in which teacher salary is determined solely in accordance with seniority, it is appropriate and fit to provide KGs with salary ranges which could ensure competitiveness while at the same time allow flexibility for the KG management to decide on their staff remuneration, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed, etc. In light of the above, we have no plans to provide a mandatory salary scale for KG teachers at this stage. We will continue to listen to views of various stakeholders.

Note 1: "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note 2: The figures of the 2016/17 school year are provisional.

**CONTROLLING OFFICER'S REPLY**

**EDB005**

**(Question Serial No. 0494)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding vocational and professional education under Programme (7), there has been a downward trend in the number of full-time vocational and professional education student places offered by the Vocational Training Council (VTC). In this connection, please inform this Committee of the following:

- (a) The reasons for the decline in the number of places offered by the VTC.
- (b) The top ten most popular VTC courses in the past year.
- (c) The employment rate among full-time graduates who are economically active generally reaches 80%. What are the three sectors with the highest employment rates and their respective percentages? What are the three sectors with the lowest employment rates and their respective percentages?
- (d) Will the VTC further extend the Pilot Training and Support Scheme to attract young people to join different sectors?

Asked by: Hon CHAN Kin-por (Member Question No. 3)

Reply:

(a) The Vocational Training Council (VTC) has adjusted downward the number of full-time vocational and professional education student places in light of the decline of the senior secondary student population.

(b) The 10 most popular full-time subvented programmes, being listed as the first choice of applicants, offered by VTC in the 2016/17 academic year are as follows (in alphabetical order):

- Higher Diploma in Aircraft Maintenance Engineering
- Higher Diploma in Building Services Engineering
- Higher Diploma in Child Care and Education
- Higher Diploma in Civil Engineering
- Higher Diploma in Culinary Arts
- Higher Diploma in Electrical Engineering
- Higher Diploma in Hotel and Catering Management
- Higher Diploma in Product, Interior and Exhibition Design (Subject Group)
- Higher Diploma in Sports Coaching
- Higher Diploma in Tourism and MICE

(c) The disciplines with the highest and the lowest employment rate of economically active full-time 2015 graduates of VTC are as follows –

Academic Discipline of Graduates*	Employment Rate (of economically active graduates)
<u>With the highest employment rates</u> - Childcare, Elderly and Community Services - Engineering - Business Administration	90% - 96%
<u>With the lowest employment rates</u> - Hotel, Service & Tourism Studies - Information Technology - Design	84% - 89%

\* Covering both subvented and self-financing programmes

(d) The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, VTC has implemented the Pilot Scheme starting from the 2014/15 academic year, which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme in general was well received by the participating employers and students. Therefore, the Government extended the Pilot Scheme for two more cohorts of students to be admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million. The Pilot Scheme may be further extended in case there are unexpended funds after implementing for four cohorts.

The Government and VTC will review the operation of the Pilot Scheme having regard to relevant data such as the percentage of trainees who successfully completed the apprenticeship training, the percentage of trainees who subsequently joined the relevant trades as apprentices and the retention rate of participants in the relevant industries in order to determine the way forward after the pilot run.

Regarding the Government's initiative to subsidise students to participate in Mainland exchange programmes, please provide the following information:

a) Over the past 5 years, what are the respective numbers of post-secondary, secondary and primary school students who have received subsidies to join Mainland exchange programmes? Please also advise on the amount of subsidies provided, the Mainland cities visited, the dates and content of exchange programmes, as well as the total expenditure involved.

b) In 2017/18, what are the estimated respective numbers of post-secondary, secondary and primary school students to be subsidised by the Government to join Mainland exchange programmes? What are the details and the estimated expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 51)Reply:

a) The Education Bureau provides subsidies for students to join Mainland exchange programmes which cover different provinces and cities in the Mainland with varying duration throughout the school years. The programmes consist of different learning elements/themes that enable participants to gain first-hand experience of our country's development in aspects of history, culture, economics, career education, science and technology etc. from multiple perspectives.

The number of post-secondary, secondary and primary school students who had received subsidies to join Mainland exchange programmes over the past five years (2012-13, 2013-14, 2014-15, 2015-16 and 2016-17) and the expenditure involved are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)			Expenditure (\$million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2012-13	5 900	12 800	7 400	17.8	27.8	4.5
2013-14	7 100	26 200	16 700	21.4	30.6	10.6
2014-15	4 500	26 600	17 400	13.8	34.6	11.3
2015-16 <sup>#</sup>	4 000	33 000	22 200	12.3	43.4	14.8
2016-17 <sup>+</sup>	3 500	36 400	21 500	10.6	44.8	14.0

# Actual figures revised from last year's estimates

+ Provisional figures

b) The estimated number of places to be offered for post-secondary, secondary and primary students to be subsidised to join Mainland exchange programmes in 2017-18 and the estimated expenditure are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)			Estimated expenditure (\$million)		
	Post-secondary Students	Secondary Students	Primary Students	Post-secondary Students	Secondary Students	Primary Students
2017-18	3 300	60 700	41 800	10.2	78.5	32.0

- End -

**CONTROLLING OFFICER'S REPLY****EDB007****(Question Serial No. 0103)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) What were the pay and allowances for the Secretary for Education, the Under Secretary and the Political Assistant respectively for each year from 1 July 2012 onwards? What were the respective numbers of paid leave days to which they were entitled and the respective numbers of paid leave days they took for each year?
- b) Please list respectively the dates of leave of the Secretary for Education, the Under Secretary and the Political Assistant in 2016-17.

Asked by: Hon CHAN Tanya (Member Question No. 53)

Reply:

The salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education from 1 July 2012 onwards is as follows –

	<u>Salary (\$million)</u>				
	<b>2012-13</b>	<b>2013-14</b>	<b>2014-15</b>	<b>2015-16</b>	<b>2016-17</b>
	<i>(from 1 July 2012 to 31 March 2013)</i>				
Secretary for Education	2.54	3.38	3.42	3.58	3.58
Under Secretary for Education	0.89*	2.20	2.22	2.33	2.33
Political Assistant to Secretary for Education	0.48*	1.18	1.20	1.25	1.25

\* The respective posts were vacant from 1 July 2012 to 4 November 2012.

Since assuming the positions in 2012, the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education were entitled to paid vacation leave of 22 working days per year of service or such proportion of it on a pro rata basis. They all took their vacation leave within their entitlement.

Question:

- a) What are the details of the idle sites which have currently been planned for educational purposes, including their locations, areas, the numbers of years for which they have been left idle, their planned uses and latest situations?
- b) What are the details of the existing vacant school premises, including their addresses, the numbers of classrooms and facilities available therein, their areas, original uses, the number of years for which they have been left vacant, their planned uses and latest situations?
- c) Has the Government drawn up specific work plans and timetables in respect of the planned uses of all sites for educational purposes and vacant school premises? If it has, what are the details? If not, will the Government draw up such plans and timetables shortly? If it will draw up such plans, what are the details? If not, what are the reasons for that?
- d) Had the Government and other bureau asked the Education Bureau (EDB) to rezone idle sites planned for educational purposes to other uses in the past three years? If they had, please set out in table form the locations, areas, expected uses and development plans of such sites.
- e) Does the EDB have plans to strive for rezoning more idle sites earmarked for educational purposes in 2017/18? If it has, what are the details? If not, what are the reasons for that?
- f) Regarding the disposal of vacant school premises by the EDB as stated in the Report No.65 of the Director of Audit in 2015, what improvement works have the EBD undergone? What are the details and the expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 54)

Reply:

(a) & (c) As at March 2017, there are a total of 24 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 24 reserved school sites by districts with their location, site area and planned use is set out in Table (1). Among them, funding approval for projects on six reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2014-15 LegCo Session with the school building works already underway; projects on three reserved school sites were approved in the LegCo Session in 2015-16 with the school building works commenced in 2016; while projects on another two

reserved school sites would be submitted for funding approval from FC in the 2016-17 LegCo Session. For the remaining 13 sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

Table (1) – Reserved School Sites by District

No.	District	Location	Site Area (rounded to the nearest hundred m <sup>2</sup> )	Planned use	Number of classrooms	Remark
1	Kowloon City	To Kwa Wan	8 000	Two Special Schools	12 each	(i)
2	Kowloon City	Kai Tak Development	7 500	Secondary School	30	(i)
3	Kowloon City	To Kwa Wan	7 700	Secondary School	30	(iii)
4	Kowloon City	Ho Man Tin	7 800	Primary School	24	(iv)
5	Kowloon City	Kowloon Tong	7 700	Two Special Schools	12 and 24 respectively	(iii)
6	Kwun Tong	Jordan Valley	6 900	Special School	18	(i)
7	Kwun Tong	Anderson Road	7 500	Secondary School	30	(iii)
8	Kwun Tong	Anderson Road	6 500	Primary School	30	(i)
9	Kwun Tong	Anderson Road	7 200	Primary School	30	(iii)
10	Eastern	North Point	12 300	Primary School	24	(i)
11	Eastern	North Point	(Total)	Primary School	24	(i)

22	Islands	Tung Chung	5 800	Special School	18	(ii)
23	Sha Tin	Shui Chuen O	8 700	Primary School	30	(iii)
24	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from FC of LegCo for the school building project.
- (ii) Funding approval would be sought from FC of LegCo in the 2016-17 LegCo Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

(b) & (c) It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size,

location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Information on these premises is set out in Table (2) below.

Table (2) – 18 VSP and two partial VSP under EDB's purview (position as at end-February 2017)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000
2	Wanchai	2007/08	6 500
3	Eastern	2011/12	600# [Partly vacant]
4	Southern	2012/13	6 000
5	Kwun Tong	2011/12	2 900
6	Kowloon City	2013/14	3 200
7	Wong Tai Sin	2016/17	2 400
8	Wong Tai Sin	2016/17	3 700
9	Wong Tai Sin	2016/17	(Total)
10	Sham Shui Po	2013/14	3 700
11	Sham Shui Po	2010/11	2 200
12	Sha Tin	2015/16	3 900
13	Sha Tin	2011/12	5 800#
14	Sha Tin	2010/11	3 900#
15	Sha Tin	2010/11	2 600# [Partly vacant]
16	Tai Po	2006/07	5 200#
17	Tai Po	1999/00	2 400
18	Tsuen Wan	2010/11	3 600#
19	Tuen Mun	2010/11	5 300#
20	Islands	2006/07	5 800

*Note 1:* "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

*Note 2:* The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the Hong Kong Housing Authority/ Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB's purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required for in view of the uncertainty

involved. In addition, EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment or decanting use by schools undergoing in-situ redevelopment or extension works, etc. It is therefore not practicable to impose any fixed target on the length of the vacancy period of a VSP or the number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau (HAB), Home Affairs Department (HAD), LandsD, PlanD and Social Welfare Department (SWD)) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

(d) & (e) Under the established mechanism, PlanD will reserve sites for school development when preparing town plans and planning large-scale residential developments having regard to the planned population intake and on the basis of the needs for community services in accordance with the guidelines set out in the Hong Kong Planning Standards and Guidelines. In the process, EDB will be consulted on whether school sites should be reserved. As far as long-term planning in primary and secondary education is concerned, EDB will make reference to the school-age population projections, which are compiled based on the population projections updated regularly by the Census and Statistics Department<sup>Note 1</sup>, and take into account the actual number of existing students at various levels and the estimated number of cross-boundary students<sup>Note 2</sup> as well as the latest demographic changes, including the number of newly-arrived children from the Mainland, in estimating the future demand for school places and relevant resources. We will consider if there is a long-term need to identify reserved school sites to meet the projected demand<sup>Note 3</sup> and relevant educational initiatives, and liaise with PlanD accordingly when such need arises. When planning the School Building Programme for reserved school sites, EDB will consider the latest projections, the prevailing educational initiatives, other factors that may affect the demand for school places in certain districts and different options to increase the supply of places (e.g. utilising vacant classrooms in existing schools) in particular districts. We will also consider the projected demand for school places in the district in the medium and the longer term, the technical feasibility of developing the site and the likelihood of acquiring alternative school sites in the district, etc., before we decide to retain or release a particular reserved school site so as to facilitate better utilisation of valuable land resources. For example, the ex-reserved primary school site at Area 40, Fanling has been released to PlanD for alternative use in 2014. PlanD has already identified a replacement site for school development for meeting future educational needs.

As regards the publicly-funded post-secondary education sector, the Government and the University Grants Committee (UGC) are committed to supporting the development of publicly-funded teaching facilities and student hostels by UGC-funded institutions in accordance with the established policies and calculation criteria. To ensure optimal use of limited land resources, the Government and UGC encourage UGC-funded institutions to identify suitable sites within campus or consider the conversion or expansion of existing campus structures so as to make the best use of campus land. Where necessary, we will also identify suitable government land outside the campus for UGC-funded institutions to meet their development needs under the prevailing policies and calculation criteria.

As for the self-financing post-secondary education sector, the Government has been actively identifying suitable sites and vacant government premises (including VSP) to facilitate the operation of quality self-financing locally-accredited post-secondary programmes by non-profit-making institutions. Subject to the demand of the self-financing post-secondary education sector, the Government will identify suitable sites/premises for campus development of institutions.

*Note 1* : The latest set of population projections (i.e. 2014-based Population Projections) was released in September 2015, which had adopted the latest assumptions on fertility of local women, time and rate of return of over 180 000 babies born to Mainland women in Hong Kong whose fathers are non-permanent residents of Hong Kong (i.e. Type II babies) during 2006 to 2012, and children admitted under One-way Permits. It is worth noting that the actual number of Type II babies who would settle in Hong Kong and if so, when, is subject to high uncertainty and that should they settle and live in Hong Kong, it is more difficult to predict their demand for school places in individual districts.

*Note 2* : Cross-boundary students (CBS) are not counted as part of Hong Kong resident population. Their numbers and choice of the boundary control points through which they would access Hong Kong are subject to significant year-on-year changes depending on family factors, distribution of their place of residence, and adjustment of related policies, etc. Therefore, it is not plausible to accurately project the overall number of CBS and their geographical distribution.

*Note 3* : If it is established that there is a need for more public sector school places in individual district, we will, as a general rule, first consider providing additional classrooms within the existing school premises and recycling suitable vacant school premises for school use. We will implement school building projects to increase the supply when the above measures are unable to meet the expected and sustainable demand. Flexible measures such as converting other rooms into classrooms, borrowing school places from other school nets etc. will be adopted if the demand is believed to be temporary in nature.

(f) In light of the recommendations of the Report No. 65 of the Director of Audit released on 27 October 2015 and the related report of the Public Accounts Committee tabled at LegCo on 17 February 2016, EDB has undertaken a series of measures to improve the handling and disposal of VSP. Firstly, EDB has improved and updated its VSP database from the VSP handling perspective, with a view to adopting appropriate follow-up actions for VSP in a more focused manner. In addition, EDB has conducted a stocktaking exercise which sought to reconcile the records in the VSP database and the school registration database and has identified 108 addresses for LandsD's advice, including the land status and compliance with the related land leases, tenancy agreements or land licenses. Based on LandsD's recent findings, EDB is reviewing whether there is a need to include any of them in the new VSP database and handle them accordingly in accordance with the established procedures. EDB also promulgated the "Procedural Manual on Identification, Screening, Allocation and Management of Vacant School Premises" (the Procedural Manual) in June 2016, setting out clearly the policy objectives and detailed procedures with regard to the handling of VSP within EDB. The Procedural Manual has been disseminated to all sections of EDB which may be involved in the handling of VSP. A briefing session has also been held to enhance EDB officers' understanding of the detailed arrangements set out in the Procedural Manual. EDB would arrange re-circulation of the Procedural Manual on an annual basis and arrange briefing sessions as appropriate.

We will continue to circulate the list of VSP within EDB, on a half-yearly basis, for new/updated proposals on educational uses and/or short-term uses (where appropriate). EDB will also continue to circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including HAB, HAD, LandsD, PlanD and SWD) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

The relevant manpower expenses in carrying out the above improvement measures will be subsumed under the recurrent expenditure of EDB. We do not have a separate breakdown on expenditure in this regard.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Please give details of the visits made to relevant authorities in the Mainland and exchange activities conducted with these authorities by the Secretary for Education and the Under Secretary for Education in the past year and provide in chronological order the following information for each visit:

- (a) purpose and place of visit;
- (b) post titles of Mainland officials met;
- (c) size of entourage and post titles of accompanying officers;
- (d) duration of visit in days;
- (e) travelling expenses;
- (f) accommodation expenses;
- (g) meal expenses;
- (h) expenses on banquets or entertainment;
- (i) expenses on gifts;
- (j) total expenditure;
- (k) whether the visit had been made public prior to departure; if no, the reason(s) for not announcing;
- (l) whether any notes of meeting were taken; and
- (m) the agreement reached.

Asked by: Hon CHAN Tanya (Member Question No. 56)

Reply:

Information about duty visits to the Mainland made by Secretary for Education (SED) and Under Secretary for Education (US(Ed)) in 2016-17 is at Annexes A and B respectively.

Through duty visits to and exchanges with the Mainland, SED and US(Ed) have enhanced education co-operation and strengthened the ties between the places visited and Hong Kong, thereby providing more and wider opportunities for progression and development for Hong Kong students. Generally speaking, meetings during the visits are recorded as appropriate, having regard to the different circumstances and factors such as nature of the meeting and subject matter, consensus reached by both sides, development of the subject matter, etc. We will decide whether and how the trips and the agreements concluded should be made public in the light of the circumstances and needs.

As a general rule, all politically appointed officials and civil servants should observe the same principles in the provision of official entertainment. They are required to exercise prudent judgement and economy in order to avoid any public perception of extravagance and act in accordance with the relevant regulations and administrative guidelines. According to the existing guidelines, the expenditure limits on entertainment in

the form of official meals should not exceed \$450 per person for lunch or \$600 per person for dinner, inclusive of all expenses incurred on food and beverages consumed on the occasion, service charges and tips.

In line with the Government's green policy, public officers should as far as possible refrain from bestowing gifts/souvenirs to others during the conduct of official activities. According to the existing guidelines, where bestowal of gifts/souvenirs is necessary or unavoidable due to operational, protocol or other reasons, the gift/souvenir items should not be lavish or extravagant and the number should be kept to a minimum. Also, the exchange of gifts/souvenirs should only be made from organisation to organisation. As we do not specifically maintain separate accounts for the expenses on the procurement of gifts and souvenirs, relevant statistics are not available.

Question:

- (1) What were the respective numbers of school-age ethnic minority (EM) students including Indonesian, Filipino, Indian, Pakistani, Nepalese, Thai and other Asian in secondary schools, primary schools and kindergartens from the 2014/15 to 2016/17 school years?
- (2) What were the respective numbers of EM students with junior secondary education level and their respective percentages among school-age EM students from the 2014/15 to 2016/17 school years?
- (3) What were the respective numbers of EM students with senior secondary education level and their respective percentages among school-age EM students from the 2014/15 to 2016/17 school years?
- (4) What were the respective numbers of EM students who completed programmes offered by the University Grants Committee-funded institutions and their respective percentages among school-age EM students from the 2014/15 to 2016/17 school years?
- (5) What measures will be implemented by the Administration to help EM students in their studies and increase their chances to pursue studies in tertiary institutions?

Asked by: Hon CHAN Tanya (Member Question No. 60)

Reply:

- (1) In general, children in the age groups of 3-5, 6-11 and 12-17 are considered to be "school-age" children for kindergartens, primary and secondary schools respectively. Based on the data collected by the Census and Statistics Department in the 2011 Population Census, which is the latest Census information available at the moment, the number of ethnic minority children by ethnicity as asked in these three "school-age" groups is tabulated at Annex A. Given that the population census is conducted every 10 years with a by-census in the middle of the intercensal period, relevant data on a school-year basis are not available.
- (2)&(3) For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The number of NCS students studying at junior secondary and senior secondary levels in public sector and Direct Subsidy Scheme schools from the 2014/15 to 2016/17 school years is tabulated at Annex B. We do not have readily available information about the number of NCS students in private, English Schools Foundation schools and other international schools, and hence the total number of ethnic minority

students studying at secondary levels and respective percentage among school-age ethnic minority students are not available.

- (4) According to the University Grants Committee (UGC), they do not collect statistics on ethnic minority or NCS students who have completed the programmes offered by the UGC-funded universities. However, UGC has collected the number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) admitted to the UGC-funded undergraduate programmes. The total number of local NCS students admitted was 226, 220 and 265 (provisional) in the 2014/15, 2015/16 and 2016/17 academic years respectively.
- (5) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students to facilitate their effective learning of the Chinese language and the creation of an inclusive learning environment in schools. Specifically, the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) with supporting learning and teaching materials has been implemented in primary and secondary schools since the 2014/15 school year to help NCS students learn Chinese as a second language with a view to bridging over to mainstream Chinese Language classes. Besides, Applied Learning Chinese (for NCS students) courses pegged at the Qualifications Framework Levels 1 to 3 have been provided starting from the 2014/15 school year for NCS students with different aspirations at senior secondary levels to articulate under the multiple pathways. To facilitate implementation of the “Learning Framework”, schools admitting 10 or more NCS students are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students to adopt diversified intensive learning and teaching modes as appropriate such as pull-out teaching, split-class / group learning, after-school consolidation, etc. with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. Other complementary measures including progressively advanced professional development programmes for teachers and enhanced school-based professional support services with diversified modes will continue.

Developed from the perspective of second language learners, the “Learning Framework” provides teachers with a systematic set of learning targets, learning objectives and expected learning outcome arranged in “small” steps at different learning stages according to individual learners’ needs. NCS students are expected to make steady progress with a view to bridging over to mainstream Chinese Language classes. When the enhanced education support for NCS students mentioned above takes root and sustains, it is expected that more NCS students would pursue studies in tertiary institutions.

**Number of ethnic minority children  
in the age groups of 3 to 5, 6 to 11 and 12 to 17 in 2011**

Age group	Number of ethnicity minority children							Total
	Indonesian	Filipino	Indian	Pakistani	Nepalese	Thai	Other Asian	
3 – 5	18	458	852	1 165	588	18	760	3 859
6 – 11	24	1 092	2 294	3 060	1 340	144	1 462	9 416
12 – 17	97	1 242	1 532	1 738	924	168	1 224	6 925
<b>3 – 17</b>	<b>139</b>	<b>2 792</b>	<b>4 678</b>	<b>5 963</b>	<b>2 852</b>	<b>330</b>	<b>3 446</b>	<b>20 200</b>

Note:

The above figures cover only ethnic minority children of ethnicity as asked in the age groups of 3 to 17, based on the data collected by the Census and Statistics Department in the 2011 Population Census.

**Number of non-Chinese speaking students  
studying at junior secondary and senior secondary levels  
from the 2014/15 to 2016/17 school years**

Level	2014/15 school year	2015/16 school year	2016/17 school year
Junior Secondary (Secondary 1 – 3)	4 530	4 734	4 804
Senior Secondary (Secondary 4 – 6)	3 694	4 048	4 167

Notes:

1. Figures refer to the position as at September of the respective school years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures cover students studying in public sector and Direct Subsidy Scheme secondary schools. Figures do not include special schools.

Director of Bureau: Secretary for Education

Question:

Regarding the improvement of the teaching and learning environment of public sector schools, please provide the following information:

1. Please list the numbers of primary and secondary schools that were operated in school premises considered as sub-standard according to the prevailing standards in each of the past 3 years.
2. Please list the numbers of schools which applied for the School Improvement Programme, reprovisioning programme, redevelopment programme and minor improvement projects in each of the past 3 years. What were the staffing and expenditures involved in each of the above programmes?
3. Please list, by district council district, the numbers of schools that had yet to receive approval for the above programmes in the past 1 year and give the reasons.
4. In the 2017/18, what will be the Government's measures to facilitate the improvement of school premises of public sector schools? What is the estimated expenditure?

Asked by: Hon CHAN Tanya (Member Question No. 61)

Reply:

1. At present, there are about 850 ordinary public sector primary and secondary school premises built in different periods in accordance with the standards at the time of construction, which cover various facilities and have been changing over the years. Nevertheless, existing school premises in operation are required to comply with prevailing statutory requirements. As at February 2017, over 200 of them were built according to prevailing standards.

Among the schools built in different periods, cuboidal shaped school premises were constructed between mid-1960s and 1980 at public housing estates for primary school use. These school premises are often referred to as "matchbox-style school premises" and considered as "sub-standard" school premises as compared with the newly built school premises and prevailing standards. At present, 28 public sector primary schools are operating in such premises and two of them have been allocated with new school premises for reprovisioning.

2. and 3. Over the years, the Education Bureau (EDB) has put in place various measures to enhance the facilities of school premises according to the needs of the schools, so as to improve their teaching and learning environment. These measures mainly include the School Improvement Programme (SIP)

implemented between 1994 and 2006, reprovisioning programme, redevelopment programme and minor improvement projects.

SIP, one of the recommendations of the Education Commission in its Report No. 5, was introduced in 1994 to progressively upgrade the teaching and learning environment of schools so as to provide additional space and facilities for teaching, out-of-class activities and supporting services for both teachers and students. Phase One to Three of SIP focused on upgrading the schools' facilities for teaching, learning and administrative needs. Phase Four and the Final Phase aimed to upgrade the schools' facilities to the prevailing standards where technically feasible. The scope of improvement works for individual schools under SIP varied according to the schools' vision and mission, characteristics, the facilities in place and site conditions. About 700 ordinary public sector schools built according to the planning standards when the schools were constructed have their school facilities enhanced through one of the five phases of SIP.

For reprovisioning of existing schools to new school premises built on reserved school sites or vacant school premises (VSP) which are suitable for this purpose, allocation is generally done through open and competitive bidding under the School Allocation Exercises (SAE). All eligible school sponsoring bodies in the territory can apply for reprovisioning of existing schools under their sponsorship when SAE for reprovisioning purpose are launched from time to time. In the past three financial years, three sites were allocated for reprovisioning purpose and applications from 19 schools were received; while one VSP was allocated for extension purpose and one application was received.

For in-situ redevelopment projects, interested schools would indicate their intention for redevelopment to EDB which would assess whether it is worth supporting based on a set of eligibility criteria including the technical feasibility in light of the site constraint, quality of education provided, sustainability of the school under consideration, availability of suitable decanting premises, readiness of the school, etc. We also need to take into account the available manpower and foreseeable school building commitments within EDB, as well as the likely capacity constraints of the construction sector as gauged from past experience when deciding on the number of projects to be supported. We are now working on seven in-situ redevelopment projects with funding secured for three of them. We will consider taking up additional projects having regard to the progress of the school projects in hand as well as the redevelopment projects committed so far, funding availability under the Public Works Programme in recent years and the demand from schools for redevelopment.

As for minor improvement works, EDB applies for block allocations under the Capital Works Reserve Fund (CWRP) to implement such works so as to improve the facilities of schools in need. In the past three financial years, a total of 26 new minor improvement works projects were approved, involving a total estimated expenditure of about \$286 million.

The relevant manpower expenses in processing the application of the above improvement measures were subsumed under the recurrent expenditure of EDB. We do not have a separate breakdown on expenditure in this regard.

4. In light of the discussion and consensus reached by EDB, the Legislative Council Panel on Education (the Panel) and the sector at the tripartite meetings held in 2016, the Chief Executive announced in his Policy Address on 18 January 2017 the initiative to improve the facilities of the 26 "matchbox-style school premises" (Note 1) with regard to the unique design features of such premises. We have briefed Members of the Panel at its meeting of 13 February 2017 on the related arrangement, including five proposed improvement measures in relation to the common problems arising from the unique design features of these school premises, as well as exploration of potential scope for campus expansion and technically feasible means for better utilising the existing space. The Government will allocate additional resources to take forward the aforementioned improvement scheme. Given that the conditions and needs of these 26 primary school premises vary, the corresponding scope and in turn costs and duration of the works for individual schools would also differ. EDB and our consultants are scheduling meetings with individual schools for in-depth discussions regarding the details of the improvement arrangements, including the works items to cover, priority of such works items and the works programme, in order to finalise the particulars of the works project for individual schools as soon as possible and to commence the improvement works concerned during the 2017 summer break. The total amount of funding required and the cash flow will only be available at a later stage.

In addition, EDB will continue to implement various measures such as reprovisioning and redevelopment programmes to enhance the facilities of the public-sector schools. School premises maintenance works will also be carried out to improve the facilities of these schools through the established mechanism of major repairs and emergency repairs, and about \$1,186 million, representing an increase of about 9% when compared to 2016-17, has been earmarked in 2017-18 for the purpose.

*Note 1:* Of the 28 public-sector primary schools operating in matchbox-style school premises, two of them have been allocated with new school premises for reprovisioning and hence are not covered in the improvement scheme.

**CONTROLLING OFFICER'S REPLY****EDB013****(Question Serial No. 0210)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- a) From 1 July 2012 onwards, what were the dates of Legislative Council meetings the Secretary for Education (SED) and the Under Secretary for Education (US(Ed)) had attended each year and the durations of their attendance (Please provide the attendance data of the two political appointees respectively)?
- b) From 1 July 2012 onwards, what were the details of the meetings of the Legislative Council's Panel on Education, Bills Committee and sub-committees that the SED and the US(Ed) had attended respectively each year, including the dates of meetings, the respective committees, the agenda items and the number of hours of attendance?
- c) From 1 July 2012 onwards, what were the respective numbers of Legislative Council meetings, committee meetings, sub-committee meetings and other meetings that the US(Ed) had attended on behalf of the SED each year due to his duty visits outside Hong Kong, absence on leave or other reasons?
- d) Is there a mechanism in the Education Bureau for determining whether it should be the SED or the US(Ed) to attend a Legislative Council meeting? If yes, what are the details?

Asked by: Hon CHAN Tanya (Member Question No. 52)

Reply:

- (a)-(b) The numbers of Legislative Council (LegCo) meetings, committee meetings and sub-committee meetings the Secretary for Education (SED) and the Under Secretary to Education (US(Ed)) had attended since 1 July 2012 are tabulated as follows:

	<b>LegCo Year 2011-2012</b>	<b>LegCo Year 2012-2013</b>	<b>LegCo Year 2013-2014</b>	<b>LegCo Year 2014-2015</b>	<b>LegCo Year 2015-2016</b>	<b>LegCo Year 2016-2017 (up to 14 March 2017)</b>
LegCo meetings	0	32	28	30	23	9
Committee / Panel Meetings	1	29	26	23	29	18
Sub-committee meetings	0	9	10	13	4	2

- (c) Since his assuming the office on 5 November 2012, US(Ed) had attended a total of 10 LegCo meetings and 3 committee meetings in the capacity of Acting SED during the LegCo year 2012-2013 to 2016-2017 (up to 14 March 2017).
- (d) SED and US(Ed) attend LegCo meetings on the basis of operational needs and in accordance with relevant internal government circulars.

**(Question Serial No. 1151)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (3) Primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

What are the policy objectives of the Basic Competency Assessment Research Study implemented in all primary schools in Hong Kong? What are the estimated manpower and expenditures for its implementation this year? What specific indicators will be used to evaluate the effectiveness of the Study?

Asked by: Hon CHENG Chung-tai (Member Question No. 3)

Reply:

In response to the community's concern, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of the Territory-wide System Assessment (TSA). Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. Based on the positive feedback and experience collected from the 2016 Tryout Study, the Committee considered that the four new initiatives for enhancement (i.e. improving assessment papers and question design; enhancing school reports; strengthening professional support measures; and including a questionnaire survey on students' learning attitude and motivation) could effectively address public concerns and recommended extending them to schools in the territory. As a part of the review, and recognising the Basic Competencies are the essential knowledge and skills acquired by students at the end of each key stage to learn effectively at the next stage, the EDB announced in January 2017 that the 2017 Primary 3 Basic Competency Assessment Research Study (Research Study) would be introduced based on the Committee's recommendations which received wide support from schools, parents and school sponsoring bodies. The Research Study will be extended to all primary schools in the territory to allow more schools to participate and understand the new initiatives, and to collect more comprehensive feedback and richer information on the new initiatives to further review related arrangements with a view to continuing to enhance learning and teaching, and to benefit students.

In evaluating the Research Study, we will make reference to the review framework adopted under the 2016 Tryout Study to collect feedback in the following ways:

(i) Quantitative approach

- Questionnaire surveys/opinion surveys: The targets include principals, curriculum leaders, teachers, and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.

(ii) Qualitative approach

- Focus groups/interviews: The targets include principals, curriculum leaders, teachers, and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.
- Case studies: Schools are invited to participate in the case studies, which aim to take a more in-depth look at the support measures, the processes and stakes involved, in a bid to understand how well schools have made effective use of various support measures to enhance their assessment literacy, and also examine the effectiveness and factors affecting the implementation of the Tryout Study at schools, and look into the solutions or views and suggestions.

The manpower and relevant staff costs in relation to the Research Study are subsumed under the overall expenditure of the EDB.

**(Question Serial No. 1152 )**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational Expenses  
Programme: (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau plans to provide a one-off grant at \$150,000 each to all public sector and Direct Subsidy Scheme (DSS) secondary schools and public sector special schools for the promotion of understanding of Chinese history and culture. How many schools are expected to benefit from it? How will the EDB monitor the use of the grant by the schools? What measures will be taken to ensure that the students, parents and public are informed of the use of the \$150,000 grant?

Asked by: Hon CHENG Chung-tai (Member Question No.4)

Reply:

To promote Chinese history and culture, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools), totalling about \$125 million, to help teachers enhance the teaching of General Studies in primary schools as well as Chinese Language, Chinese History and Chinese Literature in primary and secondary schools, so as to enable students to admire and inherit the spirit of excellence and the civilisation of the Chinese people.

After the passage of the Appropriation Bill 2017, EDB would disburse the grant to schools. Schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in its audited accounts to be submitted to EDB annually.

In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Schools are expected to report the evaluation results of the activities covered by the grant to their Incorporated Management Committee/School Management Committee for endorsement. In general, schools would upload such information onto their school websites and have it included in their annual reports which are accessible by the public.

Director of Bureau: Secretary for Education

Question:

The E-Textbook Market Development Scheme has been implemented for several years. Please specifically advise of the achievements to date and the targets expected to be met this year.

Asked by: Hon CHENG Chung-tai (Member Question No. 5)

Reply:

We launched two phases of the e-Textbook Market Development Scheme (EMADS) in 2012 and in 2013 respectively, with a commitment of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks.

Development of e-textbooks under both phases of EMADS is now completed. Since the launch of the Recommended e-Textbook List (eRTL) in 2014, all 34 sets of e-textbooks developed under EMADS that have undergone the quality assurance mechanism have been included on the eRTL for school use, covering primary education subjects of Chinese Language, English Language, Mathematics, Putonghua, General Studies and Physical Education; and junior secondary education subjects of Chinese Language, English Language, Mathematics, Geography, History, Computer Education and Life and Society. At the same time, EMADS has pioneered in setting up a new e-textbook market and a quality assurance mechanism. While accepting e-textbooks for different subjects for review by phases since late 2014, 12 sets of e-textbooks developed by publishers in the market have gone through the quality assurance mechanism and have been included on the eRTL for school use, making a total of 46 sets of e-textbooks on the eRTL at present. In addition, an evaluation has been conducted to assess the effectiveness of EMADS and the findings, which will form part of those on the impact on classroom learning and teaching in the context of the promotion of e-learning, are being compiled.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

In this year estimates of expenditure, the Education Bureau has not mentioned any specific measures to prevent students from committing suicide. Apart from relying on the School-based Educational Psychology Service and educational psychologists, what support measures will be given to schools and teachers? What specific policies does the EDB have to alleviate the pressure on teachers brought about by administrative duties and learning pressure of students?

Asked by: Hon CHENG Chung-tai (Member Question No. 30)

Reply:

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and departments, has put forward various measures to enhance support for schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a

multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

Since the 2011/12 school year, the Pilot Project on Strengthening Schools' Administration Management (Pilot Project) has been implemented to help schools strengthen their school administration management as well as streamline procedures. In the light of the successful experience and good foundation of the Pilot Project, a one-off Strengthening School Administration Management Grant at \$0.25 million has been provided in 2016 for public sector and Direct Subsidy Scheme schools which had not participated in the Pilot Project before, with a view to facilitating schools to review their daily operation and establish a more effective administration management mechanism, thereby enhancing efficiency and unleashing teachers' capacity. We will also continue to enhance the Web-based School Administration and Management System to further strengthen our support to all schools.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Bureau plans to further increase the ratio of graduate teacher posts to 65% in the 2017/18 school year. What are the implementation details of the plan? Will it include increasing the regular funding for schools so that they have sufficient financial resources to recruit graduate teachers and reduce their reliance on teaching assistants?

Asked by: Hon CHENG Chung-tai (Member Question No. 31)

Reply:

Pursuant to the increase in the ratio of graduate teacher posts from 50% to 55% and 60% in public sector primary schools in the 2015/16 and 2016/17 school years respectively, the Education Bureau (EDB) will further enhance the ratio to 65% in the 2017/18 school year. In line with the existing arrangements, public sector primary schools will fill the additional graduate teacher posts by regrading qualified serving non-graduate teachers in accordance with their school-based selection criteria and mechanism and with reference to EDB's guidelines. Under this enhancement measure, the additional full year cost is estimated to be \$328 million.

Question:

Regarding the Bureau's plan to extend the Learning Support Grant for public sector primary schools to cover students with mental illness starting from the 2017/18 school year, what is the estimated expenditure involved? How many students are expected to benefit from the plan?

Asked by: Hon CHENG Chung-tai (Member Question No. 32)

Reply:

Students with mental illness (MI) need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers and educational psychologists have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support for students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million. Based on the data provided by the Hospital Authority on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will benefit from the additional resources.

Question:

The Education Bureau (EDB) will provide more Mainland exchange opportunities for primary and secondary students. What is the estimated amount of funding? How will the EDB ensure that students have the right to refuse to participate in the exchange programmes arranged by schools and that their daily learning would not be affected by the exchange arrangements?

Asked by: Hon CHENG Chung-tai (Member Question No. 33)

Reply:

The estimated expenditure of providing more Mainland exchange opportunities for primary and secondary students in 2017-18 is \$110.5 million. Students' participation in Mainland exchange programmes is on a voluntary basis. This is stipulated in all relevant EDB circular memoranda issued to schools. Mainland exchange programmes provide students with life wide learning experiences and incorporate different learning elements to consolidate students' daily classroom learning. All along, schools make the best use of various resources to provide students with diversified learning activities based on the different needs of students to extend and enrich their learning beyond the classroom for their whole-person development.

Question:

The Bureau plans to promote Basic Law education at senior primary and junior secondary levels. Apart from protecting schools' teaching autonomy, how will the Bureau step up its monitoring efforts to prevent schools from teaching biased information and relying on a single source of learning materials?

Asked by: Hon CHENG Chung-tai (Member Question No. 34)

Reply:

The Education Bureau (EDB) has attached great importance to promoting Basic Law education (BLE) through relevant curricula such as General Studies at the primary level and Life and Society at the junior secondary level as well as the "Revised Moral and Civic Education Curriculum Framework" (2008). A wide array of measures has been provided to strengthen the implementation of BLE. Such measures include developing learning and teaching (L&T) resources, organising seminars for school sponsoring bodies, school leaders and teachers as well as providing training to teachers through professional development programmes and networking activities so as to enhance their understanding of the concepts of the Basic Law, the application in daily life, as well as the pedagogical strategies in using L&T resources from different sources to achieve the learning objectives.

Schools could pool together different L&T resources and organise activities according to their school context and student needs. EDB would maintain close communication with schools to gauge their self-evaluation and collect feedback on the use of resource materials for further enhancing the support measures and disseminating schools' good practice.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The paid non-local study leave scheme for serving secondary school teachers will run for 3 years. How much is the estimated expenditure this year? How many teachers does the Bureau anticipate to participate in the scheme? What are the specific indicators to be adopted by the Bureau to evaluate the effectiveness of the scheme?

Asked by: Hon CHENG Chung-tai (Member Question No. 35)

Reply:

An annual budget of \$9.3 million, totalling \$28 million for three years, has been earmarked for the paid non-local study leave scheme. Funding will be provided to the schools concerned for the employment of supply teacher(s) covering the whole period of study leave. Air tickets and course fees for participating teachers will also be funded by the Government.

Customised programmes for the first batch of some 50 teachers will be implemented in the 2017/18 school year. The 3-year scheme is expected to benefit some 150 teachers.

The objective of the scheme is to broaden teachers' perspectives and enrich their experience through their professional development, thus helping bring positive impact to learning and teaching. Learning outcomes of participants should be shared within their schools or a larger professional community through sharing/ learning journals/ study reports, etc. Exemplars of any school-based initiative/ action research developed and implemented can be further disseminated through seminars/ professional learning communities.

A review will be conducted in due course to evaluate the overall effectiveness of the pilot scheme. Specifically, the effectiveness of the pilot scheme will be evaluated by collecting the views and feedback of participating teachers on the quality of the customised programmes and principals of schools involved on the impact on participating teachers' professional capacity. Delivery of services will also be monitored through lesson observation and quality assurance meetings with the service providers and participants.

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What concrete plans does the Education Bureau have for strengthening control and monitoring of kindergartens in this year? With regard to school fees, amount of homework and teaching content, what will be done by the Bureau to strengthen the involvement of students and parents other than giving non-binding instructions unilaterally?

Asked by: Hon CHENG Chung-tai (Member Question No. 28)

Reply:

With the implementation of the Free Quality Kindergarten (KG) Education Scheme (Scheme) starting from the 2017/18 school year, Government monitoring on KGs joining the Scheme (Scheme-KGs) will be stepped up to further ensure the quality of services. KGs joining the Scheme will be subject to the Quality Assurance Framework. The existing framework which comprises School Self-evaluation (SSE) and Quality Review (QR), will be enhanced. We will refine the Performance Indicators (PIs) which form the basis of SSE and QR to tie in with the Scheme. KGs joining the Scheme (Scheme-KGs) are required to meet the prescribed standards by passing the QR. While the Education Bureau (EDB) will continue to organise training activities to familiarise KGs with the Quality Assurance Framework and good practices of learning and teaching, we will involve an external independent member in the QR team as an external observer to enhance transparency. Besides, EDB will continue to make the QR reports available on the websites for public information. In addition to QR, EDB will conduct more frequent Focus Inspection (FI), which is another form of quality assurance measure in fostering KGs' continuous improvement in learning and teaching and in addressing areas of concerns. If deemed necessary, EDB will provide professional support to the KGs whose performance is not satisfactory. Besides, to further promote the sustainable development of KGs, EDB will identify good practices during QR and FI for dissemination.

On monitoring, if the QR team finds malpractices, including those related to homework arrangements and teaching content in the learning and teaching process, EDB will request the KG concerned to stop the malpractices immediately. The QR team will provide oral feedback to the principal and teachers of the KG on recommendations for improvement at the end of QR, followed by a written QR report which will be uploaded on the EDB website for public information. The "Profile of Kindergartens and Kindergarten-cum-Child Care Centres" published by EDB will include a hyperlink to the QR report of the respective KGs to facilitate parents' easy access. Scheme-KGs failing to meet the prescribed standards in QR may submit an improvement plan and apply for Follow-up QR. For those failing to meet the prescribed standards in Follow-up QR, EDB will contemplate termination of their status as a Scheme-KG and cease the provision of government subsidy. Also, the enhancement of parents' understanding of KG education is important. EDB will organise related briefing sessions, produce pamphlets and a series of parent education video clips. These measures would help solicit parents' co-operation and concerted efforts in providing quality learning experiences to young children.

For monitoring on school fees, under the Scheme, Government subsidy should be sufficient for KGs to provide quality half-day (HD) services. Notwithstanding this, individual KGs may have to charge schools fees, which are estimated to be at low level, for their HD programmes, mainly to defray expenses on rent that are not fully covered by rental subsidy. School fees for whole-day services will be at a low level. According to the initial rough estimates submitted by kindergartens approved to join the Free Quality Kindergarten Education Scheme (Scheme-KGs) as at February 2017, about 80% of the Scheme-KGs will provide free half-day KG places in the 2017/18 school year. For whole-day places, under the co-payment basis between the Government and parents, school fees will be at a low level, with about 50% of the Scheme-KGs initially estimated to charge school fees at \$1,000 or below per month. The list of Scheme-KGs together with their rough initial estimates on the range of school fees has been uploaded to the EDB website. EDB will further rigorously vet the fee proposals upon these KGs' submission of detailed information. Only those necessary expenditures with strong justifications and supporting information would be considered by EDB on a case-by-case basis.

Besides, a more stringent mechanism is put in place in monitoring KGs in conducting trading operation. Specifically, KGs participating in the Scheme-KGs are required to include explicitly in their notices/circular letters the following statement: "Parents, please note that acquisition of any school items or services is entirely voluntary and parents can select individual items or services required according to their own needs." Relevant check boxes should also be provided for respective school items so that parents can "tick" as appropriate. In line with the current practice, all profit generated from trading operation must be ploughed back into KGs for use in school operation and provision of KG education services. Furthermore, to enhance transparency and help parents get a better understanding about the school items sold and paid services provided by the schools, Scheme-KGs are required to disclose the relevant information (including the fees charged and the list of items and services in the preceding school year) to parents on their school website. The "Profile of Kindergartens and Kindergarten-cum-Child Care Centres" published by EDB will list out the common items and services and other relevant information for parents' easy reference.

On the other hand, EDB will promote parent education to enhance their understanding on the development needs of their children. EDB will also encourage KGs to set up Parent-Teacher Associations, and promote parents' involvement in the learning of their children. While KGs may make use of the resources provided under the Scheme to enhance communication with parents concerning the learning of their children and organise relevant school-based seminars for parents, EDB will organise thematic seminars for parents. Besides, the booklet "Helping Your Children of Kindergarten Age" with major themes on "How to help Your Children Grow Up Happily", "What is a Good KG", "Develop Children's Potential through Comprehensive and Pleasurable Learning Experiences", etc. will be published and distributed to parents through KGs upon their children's entrance to Nursery (K1) classes. Parents may contact teachers to understand more about their children's progress and seek help from teachers should there be any problem associated with the learning of their children.

Would the Administration advise this Committee on the 2017-18 estimate for the following new item, funding for which will be sought in the context of the Appropriation Bill 2017?

Head	Account	Subhead (Code)	Subhead	Item (Code)	Ambit
156	Operating Account	700	General non-recurrent	805	Seventh Matching Grant Scheme for the self-financing post-secondary education sector

Asked by: Hon CHEUNG Chiu-hung, Fernando (Member Question No. 3009)

Reply:

Following the announcement in the 2017 Policy Address, the Government will launch the seventh Matching Grant Scheme (MGS) for application by eligible local self-financing degree-awarding institutions (i.e. the Open University of Hong Kong, the Technological and Higher Education Institute under the Vocational Training Council and all approved post-secondary colleges registered under the Post Secondary Colleges Ordinance (Cap. 320)), with a view to further enhancing the education quality of the self-financing post-secondary education sector by helping such institutions tap more funding sources and fostering a philanthropic culture. The duration of the seventh MGS will be two years, commencing from August 2017 tentatively. A total of \$500 million has been earmarked for the seventh MGS for matching purpose. The estimated expenditure for 2017-18 is \$300 million and that for 2018-19 and 2019-20 is \$200 million in total.

Question:

The Administration plans to progressively improve the ratio of educational psychologist to school to 1:4 for some public sector primary schools. In this connection, please advise this Committee the current ratio of educational psychologist to school in all public sector primary schools. And what is the number of public sector primary schools which need to increase the ratio to 1:4?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 9)

Reply:

Under the School-based Educational Psychology Service (SBEPS), one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). The Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. The EDB will continue to keep in view the service needs of schools as a whole.

Programme: (-) Not specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

It is mentioned in the Budget Speech that the Government will earmark \$700 million for the Education Bureau to strengthen its efforts in promoting vocational and professional education and training (VPET), facilitating the training and professional development of principals and teachers. Please advise this Committee on the details of the funding arrangement, and the numbers of students, principals and teachers stand to benefit from it.

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 10)

Reply:

As announced in the 2017-18 Budget speech of the Financial Secretary, a provision of \$700 million will be deployed for the Education Bureau (EDB) to strengthen its efforts in promoting vocational and professional education and training (VPET), facilitating the training and professional development of principals and teachers, and enhancing support for local post-secondary students, including those pursuing self-financing post-secondary programmes. EDB will propose specific recommendations on the initiatives in due course.

On promotion of VPET, we are considering possible initiatives such as the provision of funding for post-secondary institutions to arrange VPET taster programmes for secondary school students.

On facilitating the professional development of principals and teachers at kindergarten, primary and secondary levels, EDB is considering various initiatives to attract talent to join the profession and to encourage high-performing teachers to pursue higher degrees or continuous professional development. New modes of training will be explored to further enhance the professional development of serving teachers. Resources may be deployed to schools for promoting a professional development culture supported by action researches and building up learning communities through various means. The provision is expected to benefit teachers and principals of kindergarten, primary, secondary and special schools.

As for enhancing support for local post-secondary students, we shall consider making additional injection into the Government Scholarship Fund (GSF) and Self-financing Post-secondary Education Fund (SPEF), taking into account the Director of Audit's recommendation in Chapter 7 of his Report No. 67 that EDB should review periodically the amounts of scholarships/awards under the Self-financing Post-secondary Scholarship Scheme (SPSS) of SPEF to maintain the attractiveness of the scholarships/awards.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Budget proposes to increase the allocation for regular school repairs by 9% to \$1.2 billion. Please inform this Committee of the detailed funding arrangements and the number of schools that stand to benefit from this measure.

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 11)

Reply:

For the 2017-18 financial year, the Government has planned to allocate an amount of around \$1.2 billion as non-recurrent subsidy for carrying out school premises maintenance and repair works under the annual Major Repairs (MR) exercise (applicable to aided schools, as well as schools under the Direct Subsidy Scheme (DSS) for works items costing over \$2 million) and Emergency Repairs (ER) mechanism (applicable to aided schools only). Through the existing MR and ER mechanism, the consultants and contractors appointed by the Education Bureau (EDB) assist schools in handling relatively larger scale or more complicated repair works (i.e. repair works with estimated project costs over \$3,000 for primary and special schools or over \$8,000 for secondary schools).

Under the current MR mechanism, EDB invites annual applications for major repair works from all the some 900 aided and DSS schools in April/May. When prioritising the MR applications received from schools, priority will be accorded to items required under law or deemed essential from the repair angle, such as essential items related to safety, health and hygiene, legal requirements, etc.. Taking into account factors including schools' needs and resources, we will issue notification letters to schools on the application result. Based on the past experience, most, if not all, of the aided schools will submit MR applications and have some of the items approved each year. Separately, aided schools, about 840 in total, are also entitled to submit application for non-recurrent grant to carry out emergency repair works under the ER mechanism whenever such need arises throughout the year.

Director of Bureau: Secretary for Education  
Question:

Please advise this Committee of the justifications for increasing the self-financing undergraduate places to 3 000. And would the Government consider further increasing the places?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 12)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

The Education Bureau conducted review of SSSDP by gauging views from the students admitted under SSSDP in the 2015/16 and 2016/17 academic years; the participating institutions; other self-financing post-secondary education institutions; the Committee on Self-financing Post-secondary Education; the industry sector as well as policy bureaux. All stakeholders were generally supportive of continuing the scheme and increasing the number of subsidised places. As announced in the 2017 Policy Address, SSSDP will be regularised starting from the 2018/19 academic year, with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year. We have no plan at this stage to further increase the number of subsidised places under SSSDP.

Question:

The Government will introduce a paid non-local study leave scheme on a pilot basis for serving secondary school teachers. What are the details of the scheme, such as the maximum level of grant per teacher and the list of places of study and institutions? In what ways can the scheme effectively enhance the quality of teaching?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 15)

Reply:

Under the pilot scheme, teachers will be granted full-pay study leave in order to take part in customised non-local professional development programmes lasting about one to three months. High-performing education systems overseas such as Finland, Australia, etc. will be considered as target locations for these customised programmes, which will include specific courses and/or on-site experiential learning attachment programmes, followed by a reflection period of two to three weeks for participants to consolidate their learning and draw up a school-based initiative/ an action research plan to apply what they have learnt in their own schools.

An annual budget of \$9.3 million, totalling \$28 million for three years, has been earmarked. Funding will be provided to the schools concerned for the employment of supply teacher(s) covering the whole period of study leave. Air tickets and course fees for participating teachers will also be funded by the Government. Customised programmes for the first batch of some 50 teachers will be implemented in the 2017/18 school year. The 3-year scheme is expected to benefit some 150 teachers. Detailed operating parameters such as location and duration of customised programmes, procedures of application, etc. are being drawn up and will be announced in due course.

The objective of the scheme is to broaden teachers' perspectives and enrich their experience through their professional development, thus helping bring positive impact to learning and teaching. Learning outcomes of participants should be shared within their schools or a larger professional community through sharing/ learning journals/ study reports, etc. Exemplars of any school-based initiative/ action research developed and implemented can be further disseminated through seminars/ professional learning communities. A review will be conducted in due course to evaluate the effectiveness of the pilot scheme.

Director of Bureau: Secretary for Education

Question:

The Administration stated that it would continue to provide more Mainland exchange opportunities for primary and secondary school students. Please advise on the total numbers of primary and secondary students participated in Mainland exchange activities in the past 3 years and their percentage share among the total numbers of students, and provide a breakdown of the partner provinces and cities. Will the Administration allocate more resources for additional Mainland exchange programmes next year to enhance local students' and teachers' understanding about our nation?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 16)

Reply:

The Education Bureau (EDB) provides subsidies for students to join Mainland exchange programmes, which cover different provinces and cities in the Mainland with varying duration throughout the school years. Students' participation in the programmes is on a voluntary basis. EDB does not collect information about individual students' participation in Mainland exchange activities and we do not have the percentage of students who have or have not participated.

The number of secondary and primary school students who had received subsidies to join Mainland exchange programmes over the past three years (2014-15, 2015-16 and 2016-17) are shown below:

Financial Year	Number of students (rounded down to the nearest hundred)	
	Secondary Students	Primary Students
2014-15	26 600	17 400
2015-16 <sup>#</sup>	33 000	22 200
2016-17 <sup>+</sup>	36 400	21 500

<sup>#</sup> Actual figures revised from last year's estimates

<sup>+</sup> Provisional figures

In 2017-18, an estimated amount of \$110.5 million will be allocated for providing more Mainland exchange opportunities to students and EDB will continue to organise professional study tours for teachers. With an increase in Mainland exchange programmes for students, the proportion of teachers' participation as learning facilitators will also increase.

Question:

The Government plans to provide a one-off grant to primary and secondary schools for the promotion of understanding of Chinese history and culture. Please advise of the amount of resources allocated for the promotion of understanding of Chinese history and culture at primary and secondary schools in the past 2 years, and set out the details of each expenditure item as well as the effectiveness.

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 17)

Reply:

The Education Bureau (EDB) promotes Chinese history and culture in primary and secondary schools through curriculum development and implementation of relevant Key Learning Areas/subjects, including Chinese History, Chinese Language, Chinese Literature, Visual Art, etc., as well as provision of support measures, including professional development programmes for teachers, teaching and learning resources, diversified student learning activities and exchange programmes. As expenditure for the above measures is subsumed under the recurrent expenditure of EDB as an integral part of its day-to-day curriculum development work, there is no separate breakdown of the expenditure involved. After the completion of each programme/activity, feedback of participants will be collected through various channels, such as questionnaires, school visits and focus group meetings. Based on the information collected to date, a majority of the participants reflected that the objectives of programmes/activities have been met.

Question:

Non-Chinese speaking (NCS) students have difficulties in adapting to the Chinese Language curriculum for local students, which hinders their future participation in education and employment. In this connection, will the Administration inform us of the latest arrangement of the “Chinese Language Curriculum Second Language Learning Framework”? Will the Administration facilitate schools’ implementation of the plan by increasing the resources and manpower? If yes, what are the details? If no, what are the reasons?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 19)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. The expenditure for the related support measures from the 2014/15 to 2016/17 school years is tabulated at Annex. Besides, EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

**Educational support measures for non-Chinese speaking (NCS) students  
from the 2014/15 to 2016/17 school years**

<b>Support measures</b>	<b>Actual expenditure in the 2014/15 school year \$ million</b>	<b>Actual expenditure in the 2015/16 school year \$ million</b>	<b>Estimated expenditure in the 2016/17 school year \$ million</b>
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	197.8  Note	224.0  Note	244.9  Note

Subhead (No. & title): (-) Not Specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the number of non-Chinese speaking (NCS) students and its percentage share in the total number of students by pre-primary education, primary education and secondary education for the 2015/16 school year.

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 20)

Reply:

According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and its percentage share among all students by level in the 2015/16 school year are tabulated below:

Level	No. of NCS students (Notes 1 and 2)	Total no. of students (Note 5)	Percentage of NCS students among all students
Pre-primary (K1 to K3) (Note 3)	11 982	185 398	6.5%
Primary (Primary 1 - 6) (Note 4)	8 958	288 126	3.1%
Secondary (Secondary 1 - 6) (Note 4)	8 782	329 757	2.7%

Notes:

1. Figures refer to the position as at September of 2015.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools only. Figures do not include special schools.
5. The total number of students includes also those students who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Programme 4: The indicators of secondary education indicate that there were 22 500 teachers in public sector secondary schools in 2016-17. Among the teachers, how many of them are regular graduate master/mistress (GM) teachers, contract GM teachers and contract certificated master/mistress (CM) teachers? Please provide the related figures for the past 3 years by the mentioned classification.

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 24)

Reply:

The posts in the approved teaching establishment of public sector schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number of regular teachers appointed as graduate teachers, and the number of contract teachers (i.e. those employed using cash grants from the government or schools' own funding) appointed as graduate teachers and non-graduate teachers in public sector secondary schools for the school years from 2014/15 to 2016/17 are as follows:

**Secondary Schools (Government, Aided and Caput)**

School Year	Regular Teachers	Contract Teachers	
	Number of Graduate Teachers*	Number of Graduate Teachers*	Number of Non-graduate Teachers*
2014/15	17 200	820	1 380
2015/16	16 840	840	1 540
2016/17 (Estimate)	16 680	760	1 570

\* Numbers are rounded to the nearest 10.

Director of Bureau: Secretary for Education  
Question:

The Administration plans to provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school for the promotion of understanding of Chinese history and culture. What are the details of the plan and what requirements will the Administration impose on schools on the use of the grant to achieve the objectives?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 25)

Reply:

To promote Chinese history and culture education, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools), to help teachers enhance the teaching of General Studies in primary schools, Chinese Literature in secondary schools as well as Chinese Language and Chinese history in both primary and secondary schools, so as to enable students to admire and inherit the spirit of excellence and the civilisation of the Chinese people.

In accordance with their school context and development needs, schools may flexibly deploy the one-off grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources; supporting teachers to participate in interflow activities on learning and teaching in the Mainland; and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. Schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in its audited accounts to be submitted to EDB annually. After the passage of the Appropriation Bill 2017, EDB would issue to schools some guidelines on the use of the grant in the form of a Circular Memorandum.

Question:

Regarding the recent spate of student suicides caused by homework or study pressure, does the Administration have any special measures or allocation in 2017-18 to tackle the problem in order to prevent student suicides from taking place?

Asked by: Hon CHEUNG Kwok-kwan (Member Question No. 26)

Reply:

Suicide is a complicated social problem with the interplay of multiple factors, including mental health issues, psychological concerns, relationship and adjustment problems, as well as academic stress. With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and department, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s)

and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Question:

How many kindergartens participating in the Pre-primary Education Voucher Scheme (PEVS) have not joined the Free Quality Kindergarten Education Scheme (KG Scheme)? How many students are enrolled in these kindergartens? What are the reasons for not joining the KG Scheme?

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No. 27)

Reply:

There are 7 kindergartens participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year that have not applied for joining the Free Quality Kindergarten Education Scheme (KG Scheme) in the 2017/18 school year. A total of 2 641 students are enrolled in these kindergartens in the 2016/17 school year. The eligible students admitted before the 2017/18 school year and remaining in the eligible classes under PEVS (i.e. eligible lower kindergarten (K2) and upper kindergarten (K3) classes in the 2017/18 and K3 classes in the 2018/19 school year) in these 7 kindergartens will continue to receive the voucher subsidy under PEVS until they leave the kindergartens concerned. In deciding whether to join the KG Scheme, these kindergartens have their school-based considerations with regard to their overall direction in school development.

Question:

Regarding international schools, please provide the following information:

1. Please tabulate the respective numbers and percentages of local and non-local students in various international schools.
2. Please tabulate the respective total numbers of students studying in international primary and secondary schools, as well as the respective numbers and percentages of local and non-local students in such schools in each of the past 3 years (i.e. the 2014/15, 2015/16 and 2016/17 school years).
3. Please tabulate the highest, lowest and median tuition fees charged by international schools in the current school year.

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No. 28)

Reply:

In the context of international schools (including the English Schools Foundation schools and other private international schools), local students refer to those who are Hong Kong permanent residents (with the right of abode in the Hong Kong Special Administrative Region) and do not have any passport other than the HKSAR Passport or the British National (Overseas) Passport. Based on the student enrolment survey conducted in September 2016, the proportion of local students in international schools in the 2016/17 school year is about 20% and that of non-local students is about 80%. The numbers and percentages of local and non-local students of individual schools are set out at Annex 1.

The total number of students in international schools from the 2014/15 to 2016/17 school years with breakdown by levels and by the proportion of local and non-local students as appropriate are set out at Annex 2.

The highest, lowest and median tuition fees charged by international schools in the 2016/17 school year are set out in Annex 3.

Director of Bureau: Secretary for Education

Question:

Please provide a breakdown by 18 districts of the respective numbers of international school places, students enrolled and vacancies at primary and secondary levels. Generally speaking, in the 2016/17 school year, as compared with the previous year, what are the additional numbers of school places at primary and secondary levels respectively, as well as the additional numbers of school places of which the medium of instruction is English or other languages and school places for students with special educational needs respectively? Also, please provide the additional numbers of international school places at primary and secondary levels expected to be available in each district and each year in the next 3 years.

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No.29)

Reply:

International school places are assessed on a territory-wide basis. A breakdown of the number of international school places (including the English Schools Foundation (ESF) schools and other private international schools), students enrolled and vacancies by the districts in which the international schools are located in the 2016/17 school year are set out at the Annex for illustration purpose. Compared to the 2015/16 school year, there is an increase of about 510 primary places and 590 secondary places among the international schools.

We expect that the provision of additional international school places through the past School Allocation Exercises, in particular the two recent ones completed in 2013 and 2015 respectively, and planned expansion projects of individual schools will gradually materialise in the coming few years. Based on the latest projection provided by relevant schools where applicable, compared to the 2016/17 school year, it is projected that around 4 340 additional places will be available between 2017/18 and 2019/20 school years. It is however worth noting that future provision of additional places among individual schools especially the new ones will be affected by a number of factors such as applications received each year, teacher recruitment, and renovation and construction works involved in school development.

Most international schools adopt English as the medium of instruction. Places in these schools in the 2016/17 school year have been increased by 490 at primary level and around 600 at secondary level when compared to the 2015/16 school year. On the other hand, a few schools adopt other languages including French, German, Korean and Japanese. Compared with the 2015/16 school year, places in these schools have slightly increased by 20 places at primary level but slightly decreased by 10 places at secondary level.

Places provided for students with special education needs (SEN) may vary between years depending on the number of students with such needs. According to information collected through the annual Student Enrolment Survey, in the 2016/17 school year, there are around 570 primary students and 740 secondary students with SEN studying in international schools (including the special school operated by ESF). The corresponding numbers for the 2015/16 school year are around 620 and 610 respectively.

Director of Bureau: Secretary for Education  
Question:

What were the respective percentages of teachers holding a certificate in early childhood education or above in non-profit-making kindergartens and private independent kindergartens in each of the past 3 school years (i.e. 2014/15, 2015/16 and 2016/17 school years) and their respective wastage rates?

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No. 30)

Reply:

The percentage of kindergarten teachers holding Certificate in Early Childhood Education (C(ECE)) or above in non-profit-making kindergartens in each of the past three school years (i.e. 2014/15, 2015/16 and 2016/17 (Note 1)) were 92.6%, 93.5% and 94.7% respectively. The wastage rates (Note 2) of kindergarten teachers holding C(ECE) or above in these kindergartens in the same period were 6.9%, 7.0% and 8.8% respectively.

For private independent kindergartens, the percentage of kindergarten teachers holding C(ECE) or above in each of the past three school years (i.e. 2014/15, 2015/16 and 2016/17 (Note 1)) were 75.2%, 74.0% and 78.1% respectively. The wastage rates (Note 2) of kindergarten teachers holding C(ECE) or above in these kindergartens in the same period were 9.7%, 11.0% and 11.4% respectively.

Note 1: The figures of the 2016/17 school year are provisional.

Note 2: "Wastage rate" refers to the number of drop-out teachers as a percentage of the total number of teachers in local kindergartens as at mid-September of the preceding school year. "Drop-out teacher" refers to the teachers who had served in a local kindergarten as at mid-September of the preceding school year but no longer served in any kindergarten as at mid-September of the school year concerned.

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors, please tabulate the number of students in receipt of the subsidy in the 2016/17 academic year and the projected number in the 2018/19 academic year by course types.

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No. 37)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the number of actual intakes and the annual subsidy amount per student for each programme for the cohorts admitted in the 2015/16 and 2016/17 academic years are set out at Annex. The Education Bureau will announce the details of the relevant institutions, selected programmes and the respective number of subsidised places for the cohort to be admitted in the 2018/19 academic year later this year after consulting policy bureaux.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Government has allocated \$288 million to the Vocational Training Council to launch a pilot scheme which integrates structured apprenticeship training programmes with on-the-job training since the 2014/15 academic year. The scheme aims to attract and retain talent for industries with keen demand for labour, and will benefit four cohorts of 4 000 trainees in total. In this connection, please provide relevant details, including the progress and targets of the scheme, as well as the number of beneficiaries for each cohort by industry.

Asked by: Hon CHEUNG Yu-yan, Tommy (Member Question No. 43)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme was in general well received by the participating employers and students. Therefore, the Government has decided to extend the Pilot Scheme for two more cohorts of students admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million.

The Pilot Scheme aims to cover industries meeting the following criteria –

- (a) the industry is facing labour shortage and/or ageing problems, and it has difficulties in hiring and retaining young people;
- (b) the relevant trades covered under the industry are very specialized and with a high level of technology contents; and
- (c) the industry is committed to provide allowance or subsidy to trainees and to offer a certain salary level to trainees who have completed the apprenticeship training and are willing to join relevant industries.

As at 28 February 2017, the electrical and mechanical (E&M) trades of the construction industry, printing, watch & clock, automobile, testing & certification and medical centre operations trades have joined the Pilot Scheme. About 2 400 trainees have benefitted from the Pilot Scheme. Further breakdown by academic year and industry is as follows –

	<b>Number of New Beneficiaries</b>		
	<b>2014/15 AY</b>	<b>2015/16 AY</b>	<b>2016/17 AY (as at 28 February 2017)</b>
E&M and Construction	285	887	969
Testing and Certification	-	21	14
Medical Centre Operation	-	-	12
Watch & Clock	-	12	10
Printing	-	7	7
Automotive	-	81	113
<b>Subtotal</b>	<b>285</b>	<b>1 008</b>	<b>1 125</b>
<b>Total</b>	<b>2 418</b>

Question:

Schools are allowed to turn the Career and Life Planning Grant (CLPG) into regular teaching posts to enhance the implementation of the senior secondary curriculum, and strengthen life planning education and related guidance services. In this connection, please advise of the following:

In the past year, how many schools did turn the CLPG into regular teaching posts? What was the number of teaching posts involved? What was the amount involved?

Asked by: Hon CHIANG Lai-wan (Member Question No.1)

Reply:

Starting from the 2016/17 school year, schools may turn the Career and Life Planning Grant (CLPG) into regular teaching posts to strengthen the manpower for the implementation of life planning education and related guidance services. In the 2016/17 school year, 165 schools have turned the CLPG into a total of 165 regular teaching posts. As the expenditure is subsumed under the Education Bureau's recurrent expenditure, the amount involved is not available.

Director of Bureau: Secretary for Education

Question:

The Government has decided to regularise the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) from the 2018/19 academic year to subsidise students to undertake designated self-financing undergraduate programmes. The number of subsidised places will increase from about 1 000 per cohort to 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year, involving an expenditure of about \$850 million per year.

What are these designated programmes and how many are there? What is the actual number of students subsidised under the SSSDP over the years?

Asked by: Hon CHIANG Lai-wan (Member Question No. 3)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

The unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to five years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16, 2016/17 and 2017/18 academic years, and the number of actual intakes in the 2015/16 and 2016/17 academic year are set out at **Annex**. The Education Bureau will announce the details of the relevant institutions, selected programmes and the respective number of subsidised places for the cohort to be admitted in the 2018/19 academic year later this year after consulting policy bureaux.

**(Question Serial No. 0232)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Government has allocated \$288 million to the Vocational Training Council (VTC) to launch a pilot scheme which integrates structured apprenticeship training programmes with on-the-job training since the 2014/15 academic year. The scheme aims to attract and retain talent for industries with keen demand for labour, and will benefit four cohorts of 4 000 trainees in total.

In this connection, please advise this Committee of the industries involved, the number of industries involved, and the actual number of trainees participating in the scheme.

Asked by: Hon CHIANG Lai-wan (Member Question No. 2)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme was in general well received by the participating employers and students. Therefore, the Government has decided to extend the Pilot Scheme for two more cohorts of students admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million.

The Pilot Scheme aims to cover industries meeting the following criteria –

- (a) the industry is facing labour shortage and/or ageing problems, and it has difficulties in hiring and retaining young people;
- (b) the relevant trades covered under the industry are very specialized and with a high level of technology contents; and
- (c) the industry is committed to provide allowance or subsidy to trainees and to offer a certain salary level to trainees who have completed the apprenticeship training and are willing to join relevant industries.

As at 28 February 2017, the electrical and mechanical (E&M) trades of the construction industry, printing, watch & clock, automobile, testing & certification and medical centre operations trades have joined the Pilot

Scheme. About 2 400 trainees have benefitted from the Pilot Scheme. Further breakdown by academic year and industry is as follow –

	<b>Number of New Beneficiaries</b>		
	<b>2014/15 AY</b>	<b>2015/16 AY</b>	<b>2016/17 AY (as at 28 February 2017)</b>

**CONTROLLING OFFICER'S REPLY****EDB049****(Question Serial No. 1144)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (7) Post-secondary, Vocational and Professional EducationControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

- (1) Please provide the number of non-Chinese speaking (NCS) students and its percentage share in the total number of students by pre-primary education, primary education and secondary education for the 2016/17 school year;
- (2) As NCS students have difficulties in adapting to the Chinese Language curriculum for local students, their Chinese proficiency is far behind the local students. This will surely hinder their future academic progression and employment. In this connection, would the Administration consider allocating more resources for enhancing the implementation of the "Chinese Language Curriculum Second Language Learning Framework" so as to facilitate NCS students' adaptation to the local Chinese language curriculum?

Asked by: Hon CHOW Ho-ding, Holden (Member Question No. 19)Reply:

- (1) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students and its percentage share among all students by level in the 2016/17 school year are tabulated below:

Level	No. of NCS students (Notes 1 and 2)	Total no. of students (Note 5)	Percentage of NCS students among all students
Pre-primary (K1 to K3) (Note 3)	12 240	184 032	6.7%
Primary (Primary 1 - 6) (Note 4)	9 266	297 808	3.1%
Secondary (Secondary 1 - 6) (Note 4)	8 971	314 965	2.8%

Notes:

1. Figures refer to the position as at September of 2016.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.

4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools only. Figures do not include special schools.
  5. The total number of students includes also those students who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.
- (2) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. The expenditure for the related support measures from the 2014/15 to 2016/17 school years is tabulated at Annex. Besides, EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please advise this Committee of:

1. the respective numbers of ethnic minority students and non-Chinese speaking (NCS) students in kindergartens, primary schools and secondary schools in Hong Kong from this school year to the past 5 school years.
2. the educational support programmes and the amount of allocation for facilitating ethnic minority students and NCS students to learn Chinese language from this school year to the past 5 school years.

Asked by: Hon CHOW Ho-ding, Holden (Member Question No. 27)

Reply:

1. According to the information collected through the annual Student Enrolment Survey, the number of ethnic minority students studying in kindergartens and the number of non-Chinese speaking (NCS) ethnic minority students studying in public sector and Direct Subsidy Scheme primary and secondary schools in the past 5 years (i.e. from the 2012/13 to 2016/17 school years) is tabulated at Annex A. The number of NCS students studying in kindergartens, public sector and Direct Subsidy Scheme primary and secondary schools from the 2012/13 to 2016/17 school years is tabulated at Annex B. The two sets of data are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.
2. The support measures for NCS students (notably ethnic minority students) from the 2012/13 to 2016/17 school years and the expenditure are tabulated at Annex C.

**Number of ethnic minority students studying in kindergartens and  
number of non-Chinese speaking ethnic minority students  
studying in primary and secondary schools  
from the 2012/13 to 2016/17 school years**

<b>Level</b>	<b>2012/13 school year</b>	<b>2013/14 school year</b>	<b>2014/15 school year</b>	<b>2015/16 school year</b>	<b>2016/17 school year</b>
Pre-primary (K1 to K3)	10 361	10 670	10 368	10 481	10 708
Primary (Primary 1 – 6)	7 429	7 761	8 088	8 338	8 694
Secondary (Secondary 1 – 6)	6 328	6 953	7 512	7 998	8 134

Notes:

1. Figures refer to the position as at September of the respective school years.
2. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
3. Figures for pre-primary level cover ethnic minority students regardless of their spoken language.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools. Figures do not include special schools.
5. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures for primary and secondary schools have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

**Number of non-Chinese speaking students  
from the 2012/13 to 2016/17 school years**

<b>Level</b>	<b>2012/13 school year</b>	<b>2013/14 school year</b>	<b>2014/15 school year</b>	<b>2015/16 school year</b>	<b>2016/17 school year</b>
Pre-primary (K1 to K3)	12 324	12 029	11 933	11 982	12 240
Primary (Primary 1 – 6)	7 945	8 290	8 697	8 958	9 266
Secondary (Secondary 1 – 6)	6 919	7 576	8 224	8 782	8 971

Notes:

1. Figures refer to the position as at September of the respective school years.

**(Question Serial No. 2294)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (1) Please tabulate the average tuition fees of full-time locally-accredited self-financing sub-degree programmes by year, institution and programme in the past 5 academic years; and
- (2) Please tabulate the average tuition fees of full-time locally-accredited self-financing degree programmes by year, institution and programme in the past 5 academic years.

Asked by: Hon CHU Hoi-dick (Member Question No. 35)

Reply:

The average annual tuition fees of full-time locally-accredited self-financing sub-degree and undergraduate (including first-year-first-degree and top-up degree) programmes from the 2012/13 to 2016/17 academic years is set out at Annex.

**Average Annual Tuition Fees of Full-time Locally-accredited Self-financing Sub-degree, First-year-first-degree and Top-up Degree Programmes by Institution from the 2012/13 to 2016/17 Academic Years**

**(Question Serial No. 2296)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding self-financing postgraduate programmes offered by University Grants Committee (UGC)-funded institutions, would the Government please,

- (1) tabulate the number of student intake and average tuition fees of self-financing taught postgraduate programmes offered by UGC-funded institutions by year, institution and programme in the past 5 academic years; and
- (2) tabulate the number of student intake and average tuition fees of self-financing research postgraduate programmes offered by UGC-funded institutions by year, institution and programme in the past 5 academic years.

Asked by: Hon CHU Hoi-dick (Member Question No. 36)

Reply:

According to the information provided by the University Grants Committee-funded institutions, the number of actual intakes and total tuition fee of their locally-accredited self-financing taught postgraduate and research postgraduate programmes provided in the 2012/13 to 2016/17 academic years are set out at Annex A and B respectively.

**(Question Serial No. 2298)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding self-financing postgraduate programmes offered by University Grants Committee (UGC)-funded institutions, would the Government please,

- (1) tabulate the respective numbers and ratios of non-local and local students of self-financing taught postgraduate programmes offered by UGC-funded institutions by year, institution, level of study and place of origin in the past 5 academic years; and
- (2) tabulate the respective numbers and ratios of non-local and local students of self-financing research postgraduate programmes offered by UGC-funded institutions by year, institution, level of study and place of origin in the past 5 academic years;

Asked by: Hon CHU Hoi-dick (Member Question No. 38)

Reply:

According to the information provided by the University Grants Committee-funded institutions, the student enrolment (with breakdown by place of origin) of their locally-accredited self-financing postgraduate programmes provided in the 2011/12 to 2015/16 academic years is set out at Annex A (for taught postgraduate programmes) and B (for research postgraduate programmes) respectively.

**Student Enrolment in Locally-accredited Self-financing Taught Postgraduate Programmes Offered by UGC-funded Institutions by Place of Origin from the 2011/12 to the 2015/16 Academic Years**

Question:

Regarding the Mainland University Study Subsidy Scheme (MUSSS), would the Government advise this Committee:

- (1) the number of students benefited from the MUSSS in the past 5 academic years; and
- (2) the total number of students pursued further studies under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions in the past 5 academic years.

Asked by: Hon CHU Hoi-dick (Member Question No. 42)

Reply:

- (1) The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2014/15 academic year, 263 applicants were eligible to receive the subsidy. For the 2015/16 and 2016/17 (as at 28 February 2017) academic years, including both newly approved applications and successful renewals, subsidy was provided to 479 students and 2 144 students respectively.

- (2) The number of students admitted to Mainland institutions under the Admission Scheme in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 academic years was 976, 1 188, 1 535, 1 444 and 1 391 respectively.

Question:

Regarding the work to continue to implement the Pilot Training and Support Scheme (Pilot Scheme) as stated under the Matters Requiring Special Attention in 2017-18, would the Government advise this Committee of the following:

1. What is the number of participants in the Pilot Scheme in 2016-17? What training courses are taken by the participants in general?
2. Has the Government made any publicity efforts of any nature and type for the Pilot Scheme? If yes, what are the details? If no, what are the reasons?
3. What are the estimated expenditure and staffing arrangement for 2017-18?

Asked by: Hon HO Kai-ming (Member Question No. 20)

Reply:

The Pilot Training and Support Scheme (Pilot Scheme) aims to attract and retain talent for specific industries with a keen demand for labour, by integrating structured apprenticeship training programmes and clear career progression pathways. With the funding approval of the Legislative Council Finance Committee in July 2014, the Vocational Training Council (VTC) has implemented the Pilot Scheme starting from the 2014/15 academic year (AY), which targets to benefit 2 000 students with an original commitment of \$144 million.

In the 2016 Policy Address, the Chief Executive announced that the Government accepted all the recommendations of the Task Force on Promotion of Vocational Education. Among others, the Task Force recommended to extend the Pilot Scheme to benefit more students pending a review. According to a review conducted by VTC in 2015, the Pilot Scheme was in general well received by the participating employers and students. Therefore, the Government has decided to extend the Pilot Scheme for two more cohorts of students admitted in the 2016/17 and 2017/18 academic years, benefitting 2 000 more students with an additional estimated non-recurrent expenditure of \$144 million.

As at 28 February 2017, the electrical and mechanical (E&M) trades of the construction industry, printing, watch & clock, automobile, testing & certification and medical centre operations trades have joined the Pilot Scheme. About 2 400 trainees have benefitted from the Pilot Scheme. Further breakdown by academic year and industry is as follow –

	<b>Number of New Beneficiaries (as at 28 February 2017)</b>		
	<b>2014/15 AY</b>	<b>2015/16 AY</b>	<b>2016/17 AY</b>
E&M and Construction	285	887	969
Testing and Certification	-	21	14
Medical Centre Operation	-	-	12
Watch & Clock	-	12	10
Printing	-	7	7
Automotive	-	81	113
<b>Subtotal</b>	<b>285</b>	<b>1 008</b>	<b>1 125</b>
<b>Total</b>	<b>2 418</b>		

VTC has launched a multi-faceted publicity campaign since the commencement of the Pilot Scheme, in order to enhance the awareness and understanding of the Pilot Scheme among students, teachers, parents and industries. A variety of promotion activities, including multimedia advertising, school talks, exhibition booths, media interviews and promotions to trade associations and industry partners, has been carried out.

In the 2017-18 financial year, the estimated expenditure of the Pilot Scheme is about \$66 million. The estimated expenditure only covers the allowance to be provided to students, and VTC will provide administrative support for the Pilot Scheme using existing manpower resources.

- End -

**CONTROLLING OFFICER'S REPLY****EDB057****(Question Serial No. 1027)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Government has allocated funds to the Vocational Training Council to implement the Pilot Subsidy Scheme for Students of Professional Part-time Programmes. In this connection, please advise this Committee on the following information:

1. What is the number of beneficiaries in the 2016/17 academic year?
2. What are the estimated expenditure of the Scheme in 2017-2018 and the estimated number of student beneficiaries?
3. Currently, the Scheme only covers programmes in the disciplines of construction, engineering and technology. Would the Administration include programmes of other disciplines with a view to increasing student enrollment? If yes, what new disciplines will be included?

Asked by: Hon HO Kai-ming (Member Question No. 9)

Reply:

In order to further encourage continuing education, we have implemented the Pilot Subsidy Scheme for Students of Professional Part-time Programmes (Pilot Scheme) starting from the 2016/17 academic year to provide tuition fee subsidy for working adults admitted to designated professional part-time programmes offered by the Vocational Training Council (VTC) covering programmes in the disciplines of construction, engineering and technology. The Pilot Scheme targets to encourage working adults to pursue higher qualifications which help enhance their upward mobility. The estimated number of beneficiaries of the 2016/17 to 2018/19 cohorts is as follows –

	<b>2016/17 cohort</b>	<b>2017/18 cohort</b>	<b>2018/19 cohort</b>
Estimated number of beneficiaries	1 700	1 900	2 000

The Pilot Scheme will incur a total non-recurrent expenditure of \$200 million for three cohorts of students, including both tuition fee subsidy and VTC's administrative cost for implementing the Pilot Scheme. The estimated expenditure from the 2016-17 to 2021-22 financial years is as follows –

	<b>2016-17 \$ million</b>	<b>2017-18 \$ million</b>	<b>2018-19 \$ million</b>	<b>2019-20 \$ million</b>	<b>2020-21 \$ million</b>	<b>2021-22 \$ million</b>	<b>Total \$ million</b>
(a) Tuition fee subsidy	6.3	33.1	55.7	60.2	27.6	6.1	<b>189.0</b>
(b) Administrative cost	1.0	2.0	2.0	2.0	2.0	1.0	<b>10.0</b>
<b>Total</b>	<b>7.3</b>	<b>35.1</b>	<b>57.7</b>	<b>62.2</b>	<b>29.6</b>	<b>7.1</b>	<b>199.0</b>

The construction, engineering and technology trades are highly specialised and have a comparatively high skill requirement which renders recruitment and retention of employees difficult. A review on the effectiveness of the Pilot Scheme will be conducted in due course having regard to the number of applications, completion rate as well as feedback from relevant parties. We will also review the scope of programmes to be covered by the Pilot Scheme as appropriate.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the wastage rate of kindergarten teachers, please inform this Committee of:

1. the basis of estimation for the estimated wastage rate of 10.2% in the 2017/18 school year;
2. with a high wastage rate reaching 10%, whether the Administration has allocated funding to the study of any measure to reduce the wastage rate of kindergarten teachers, such as a study on the feasibility of establishing a master pay scale for kindergarten teachers and expanding the staff establishment; and
3. if yes, the details of the specific measures and the estimated expenditure; if no, the reason for that.

Asked by: Hon HO Kai-ming (Member Question No. 10)

Reply:

(1)

"Wastage rate" refers to the number of drop-out teachers (i.e. teachers who had served in a local kindergarten (KG) as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned) as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. The projected wastage rate for 2017/18 is estimated by making reference to the provisional wastage figures and the number of teachers of the 2016/17 school year, which were compiled based on the results of the 2016 Survey on KG Teachers / Child Care Staff.

(2) and (3)

Under the Free Quality KG Education Scheme (Scheme) to be implemented starting from the 2017/18 school year, manpower resources for KGs will be enhanced with the requirement in teacher to pupil ratio raised from 1:15 (including the principal) to 1:11 (principal not included) so as to allow teachers more capacity to cater for the diverse needs of students, engage in curriculum development, lesson planning, professional development, communication with parents, etc..

As regards teacher wastage, according to the information provided by KGs, common reasons for the KG teachers leaving the sector include marriage, child caring, taking up employment outside the profession, retirement, further studies, illness and migration, etc.. For retaining and attracting quality teachers and maintaining a stable teaching force for providing quality KG education, a career ladder and competitive remuneration for teachers are conducive factors. Under the Scheme, a three-level teaching staff structure with principal, senior teachers and class teachers is considered appropriate for a KG. For some KGs, a vice-principal may be needed to assist the principal in overseeing the school administration, curriculum

development and operation matters. On teachers' salary, EDB provides a salary range for each teaching position for KGs to remunerate their teachers within the range. Taking the salary of basic rank teachers as an example, in the 2017/18 school year, the salary will range between \$20,770 and \$36,930, which is a significant increase over the median salary (about \$20,000) of teachers under the Pre-primary Education Voucher Scheme in the 2015/16 school year. We expect that KG teachers' salary will be further raised under the Scheme.

As regards a mandatory salary scale for KG teachers, salary-related practices under the funding mode of aided schools could not be applied to KGs in isolation. In the aided sector, the funding mode is tied with several inter-connected components, such as EDB's annual approval for the number of operating classes which in turn determines the staff establishment, and is subject to a basket of control measures under the Government's prudent and balanced planning of school places operated through school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating HD and WD classes to meet the needs of parents.

As compared to a mandatory salary scale in which teacher salary is determined solely in accordance with seniority, it is appropriate and fit to provide KGs with salary ranges which could ensure competitiveness while at the same time allow flexibility for the KG management to decide on their staff remuneration, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed, etc. In light of the above, we have no plans to provide a mandatory salary scale for KG teachers at this stage. We will continue to listen to views of various stakeholders.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

As mentioned under the Matters Requiring Special Attention in 2017-2018, the Administration will continue to provide School-based Educational Psychology Service to all public sector primary and secondary schools. In this connection, please advise this Committee of:

1. the staffing arrangement and estimates regarding the employment of educational psychologists;
2. the basis of calculation for the ratio of educational psychologist to school at 1:4; and
3. as a serious student suicide problem currently exists, the measures the Administration has to enhance the educational psychology service.

Asked by: Hon HO Kai Ming (Member Question No. 13)

Reply:

(1) to (3)

The School-based Educational Psychology Service (SBEPS) covers all public sector primary and secondary schools, with one educational psychologist (EP) serving six to ten public sector schools (including both primary and secondary schools) and visiting each school for an average of 20 days per school year. Since the 2016/17 school year, the Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools for an average of 30 days per school year and provide comprehensive and regular follow-up to students as well as intervention services to the schools concerned based on their needs.

The number of EPs involved in the provision of SBEPS in the 2016/17 and 2017/18 school years is 138 and 144 respectively. The revised estimate in the provision of SBEPS for public sector schools in the 2016/17 school year is \$146 million. The estimated expenditure in the 2017/18 school year is \$153 million.

The Education Bureau will continue to keep in view service needs of schools and the provision of EPs in the market. As and when necessary, we will liaise with local universities for meeting the manpower demand, in order to continuously enhance the support to schools in catering for students' diverse needs.

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, EDB in collaboration with relevant bureaux and departments has put forward various measures to enhance support for schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students

aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department (SWD) launched a two-year pilot scheme "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Government will continue to implement a series of measures aiming at facilitating the sustainable development of schools and maintaining the stability and strengths of the teaching force. In this regard, please advise this Committee of:

1. whether the Bureau has included other staff of schools, such as laboratory technicians, into consideration other than maintaining the strengths of the teaching force?
2. the manpower arrangement of laboratory technicians in government and aided secondary schools as well as the estimated expenditure for employing laboratory technicians in 2017-2018?

Asked by: Hon HO Kai-ming (Member Question No. 15)

Reply:

1. The Education Bureau (EDB) has introduced a host of measures to facilitate the sustainable development of schools. In the case of school laboratory technicians, EDB will, in accordance with the EDB) Circular No. 12/2016 "Arrangements for the Provision of Laboratory Technicians from the 2017/18 School Year Onwards" issued on 28 November 2016, allow schools to have ample time to plan for the manpower deployment and arrangement through a three-year transitional period (i.e. from the 2017/18 school year to the 2019/20 school year) in dealing with the issue of surplus laboratory technicians.
2. The provision of laboratory technicians to government and aided secondary schools from the 2017/18 school year onwards will be based on the updated calculation of practical periods taking into account the number of approved classes and senior secondary science subject groups. For the 2017/18 school year, schools will be requested to submit the above-mentioned data to EDB through the annual exercise related to schools' applications for grants for operating classes and appointment of staff (including Laboratory Technician) in April 2017. Hence, the manpower arrangement of laboratory technicians in the 2017/18 school year and the estimated expenditure are not readily available now.

Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (1) Please tabulate the total number of ethnic minority (EM) students, including Indonesian, Filipino, Indian, Pakistani, Nepalese, and other Asians currently studying in kindergartens, primary schools and secondary schools in Hong Kong.
- (2) What were the numbers of EM students who completed subsidised programmes offered by the Universities and self-financing degree programmes in Hong Kong over the past 5 years?
- (3) What are the Government policies to help EM students to increase their chances to pursue studies in tertiary institutions?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 20)

Reply:

- (1) According to the information collected through the annual Student Enrolment Survey, the number of ethnic minority students studying in kindergartens and the number of non-Chinese speaking (NCS) ethnic minority students studying in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools in the 2016/17 school year is tabulated at [Annex](#).
- (2) Admission to post-secondary programmes (including sub-degree and undergraduate programmes offered by UGC-funded universities and self-financing institutions) is offered to eligible applicants, irrespective of their race and language spoken at home. According to the University Grants Committee (UGC), they do not collect statistics on ethnic minority or NCS students who have completed the programmes offered by the UGC-funded universities. However, UGC has collected the number of local NCS students (i.e. students whose ethnicity and/or spoken language at home is not Chinese) admitted to the UGC-funded undergraduate programmes. The total number of local NCS students admitted was 249, 227, 226, 220 and 265 (provisional) in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 academic years respectively. As for the self-financing sector, statistics with breakdown by NCS students are not available.
- (3) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students to facilitate their effective learning of the Chinese language and the creation of an inclusive learning environment in schools. Specifically, the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") with supporting learning and teaching materials has been implemented in primary and secondary schools since the 2014/15 school year to help NCS students learn Chinese as a second language with a view to bridging over to mainstream Chinese Language classes. Besides, Applied Learning Chinese (for NCS students) courses pegged at the Qualifications Framework Levels 1 to 3 have been provided starting

from the 2014/15 school year for NCS students with different aspirations at senior secondary levels to articulate under the multiple pathways. To facilitate implementation of the “Learning Framework”, schools admitting 10 or more NCS students are provided with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students to adopt diversified intensive learning and teaching modes as appropriate such as pull-out teaching, split-class / group learning, after-school consolidation, etc. with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. Other complementary measures include progressively advanced professional development programmes for teachers and enhanced school-based professional support services with diversified modes.

Developed from the perspective of second language learners, the “Learning Framework” provides teachers with a systematic set of learning targets, learning objectives and expected learning outcome arranged in “small” steps at different learning stages according to individual learners’ needs. NCS students are expected to make steady progress with a view to bridging over to mainstream Chinese Language classes. When the enhanced education support for NCS students mentioned above takes root and sustains, it is expected that more NCS students would pursue studies in tertiary institutions.

**Number of ethnic minority students by ethnicity studying in kindergartens and  
number of non-Chinese speaking ethnic minority students by ethnicity  
studying in primary and secondary schools  
in the 2016/17 school year**

	<b>Pre-primary (K1 – K3)</b>	<b>Primary (Primary 1 – 6)</b>	<b>Secondary (Secondary 1 – 6)</b>
<b>Indonesian</b>	103	128	72
<b>Filipino</b>	584	1 309	1 508
<b>Indian</b>	1 242	970	1 201
<b>Pakistani</b>	1 515	3 121	2 890
<b>Nepalese</b>	978	1 671	1 364
<b>Japanese</b>	738	113	59
<b>Thai</b>	107	161	134
<b>Korean</b>	310	53	55
<b>Other Asian</b>	338	227	213
<b>White</b>	3 251	567	217
<b>Others</b>	1 542	374	421
<b>Total</b>	10 708	8 694	8 134

Notes:

1. Figures refer to the position as at September 2016.
2. Figures for pre-primary level cover students studying in kindergarten-cum-child care centres.
3. Figures for pre-primary level cover ethnic minority students regardless of their spoken language.
4. Figures for primary and secondary levels cover students studying in public sector and Direct Subsidy Scheme schools. Figures do not include special schools.
5. For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking students. Figures for primary and secondary schools have excluded those students whose ethnicity is not Chinese but with Chinese as the spoken language at home.

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. Subject to further deliberation by the Standing Committee on Language Education and Research, the estimated expenditure is still being worked out.
3. For the 2-year USP project from the 2015/16 to 2016/17 school years, the actual expenditure of the 2015/16 school year is \$2.25 million and the estimated expenditure of the 2016/17 and 2017/18 school years is \$5.85 million and \$0.9 million respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available. Besides, a funding of about \$10 million has also been earmarked for new USP project(s) to support kindergartens and primary schools admitting NCS students in the transition from kindergartens to primary schools from the 2017/18 to the 2018/19 school years.

Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Chief Executive states in the Policy Address that “The Hong Kong Scholarship for Excellence Scheme will continue to support up to 100 outstanding local students in their pursuit of studies in world renowned universities outside Hong Kong in the 2017/18 academic year. While there is no restriction on the disciplines of study, priority will be given to programmes conducive to boosting Hong Kong’s long-term competitiveness, in particular disciplines related to innovation and technology.” Would the Government please advise this Committee of:

1. the funding requirements/conditions of the Hong Kong Scholarship for Excellence Scheme;
2. the total Government funding used for the scheme last year;
3. the total number of applicants of the scholarship scheme; and
4. the Government’s estimate for the scheme in this financial year?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 22)

Reply:

1. The Hong Kong Scholarship for Excellence Scheme (HKSES), launched on 25 November 2014, aims to support local students to pursue studies in world renowned universities outside Hong Kong with a view to grooming a top cadre of talents with global vision, international network and world-class education, thereby contributing to enhancing Hong Kong’s competitiveness as Asia’s World City in a globalised knowledge economy. The scheme also seeks to support those students who have excellent academic achievement but lack the financial means to study in top-notch universities outside Hong Kong.

To be eligible for the HKSES, applicants are required to meet the following two criteria –

- (i) have right of abode or right to land, or have entered Hong Kong on One-way Permits; and
- (ii) have resided in Hong Kong continuously for three complete years immediately prior to the commencement of the academic programme outside Hong Kong.

Selection of awardees under the HKSES is merit-based, targeting the best and most outstanding Hong Kong students who are admitted to world renowned universities or programmes. All awardees will receive a non-means-tested scholarship to cover their tuition fees, subject to a ceiling of HK\$250,000 per student per annum, whichever is lower. Financially needy students may also apply for the means-tested bursary, subject to a ceiling of HK\$200,000 per student per annum. Awardees would be required to complete the specific study programme and undertake to return to Hong Kong upon graduation to work for at least two years or a period equivalent to the duration of receiving the scholarship, whichever is longer.

2. The expenditure for the HKSES for the 2016-17 financial year, including both the actual expenditure and the committed expenditure, is around \$38 million.
  
3. For the first, second and third cohorts (i.e. 2015/16, 2016/17 and 2017/18 cohorts) of the HKSES, 658, 681 and 856 applications were received respectively.
  
4. With reference to the expenditure in the first two cohorts, the estimated expenditure for the 2017-18 financial year will be \$63.8 million. We are currently conducting preliminary screening and shortlisting on the applications for the third cohort and the results will be announced in August 2017.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau intends to resume the Territory-wide System Assessment (TSA) and rebrand it as Basic Competency Assessment Research Study (BCA). In this connection, would the Administration please advise this Committee on the following:

1. How will the Administration better promote BCA, which has come under fierce public criticism, with a view to changing the public's negative perception of it?
2. Please set out in detail the expenditure involved in implementing BCA.
3. Is there a plan to conduct a comprehensive review of BCA after resuming the assessment so as to avoid a renewed uproar among the parents over BCA? If yes, what are the details? If no, what are the reasons?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 23)

Reply:

1. and 2.

The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on TSA and related study under the project for the contract period of 2015-2018 is set out below:

<b>Contract period</b>	<b>Expenditure on TSA and related study under the project (\$ million)</b>	<b>Average expenditure per year (\$ million)</b>
2015-2018	290	73

The Research Study, based on the positive feedback and experience collected from the 2016 Tryout Study, extends the four new initiatives for enhancement under the 2016 Tryout Study (including improving assessment papers and question design; enhancing school reports; strengthening professional support measures; and including a questionnaire survey on students' learning attitude and motivation) to all primary schools in the territory, to allow more schools to participate and understand the new initiatives, and to collect more comprehensive feedback and richer information on the new initiatives to further review related arrangements with a view to continuing to enhance learning and teaching, and to benefit students.

In order to allow more stakeholders to understand the four new initiatives and the feedback received on the 2016 Tryout Study, videos on the implementation of the 2016 Tryout Study and stakeholders' feedback have been produced and uploaded to EDB's website, and have been arranged to broadcast on social media and viewing platform of public transportation for public's viewing. In addition, seminars have been conducted in the 18 districts to introduce the concept and implementation of "assessment for learning" to school managers, principals, teachers and parent representatives. A resource kit providing materials on BCA, TSA and related studies (including presentation materials, video clips and leaflets) has also been designed for schools' use.

3. As mentioned above, the Research Study is a study with expanded scope to allow more schools to participate and collect more comprehensive feedback so as to continue to review and enhance the arrangements for TSA. In evaluating the Research Study, we will make reference to the review framework adopted under the 2016 Tryout Study to collect feedback in the following ways:

(i) Quantitative approach

- Questionnaire surveys/opinion surveys: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.

(ii) Qualitative approach

- Focus groups/interviews: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.
- Case studies: Schools are invited to participate in the case studies, which aim to take a more in-depth look at the support measures, the processes and stakes involved, in a bid to understand how well schools have made effective use of various support measures to enhance their assessment literacy, and also examine the effectiveness and factors affecting the implementation of the Tryout Study at schools, and look into the solutions or views and suggestions.

Question:

There are many “top-up degree” courses registered with the Non-local Courses Registry that are not recognised. Many young people found out that these courses are not recognised by the Education Bureau only after they signed up. In this connection, would the Government please inform this Committee,

1. whether it has compiled statistics on the number of these unrecognised courses? If so, of the number of “top-up degree” courses that have not been registered with the Registry in the past 3 financial years, and the number of students enrolled on them; and
2. of the statistics of “top-up degree” courses registered with the Non-local Courses Registry in the past 3 financial years, including the number of such courses, the number of students enrolled on them, their local partner institutions, and the professional qualifications being offered.

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 24)

Reply:

According to the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (the Ordinance), courses conducted in Hong Kong leading to the award of non-local higher academic or professional qualifications are required to register or seek exemption from registration.

The registration/exemption from registration of a course is an assurance that the institution offering the course is a recognised body in the home country, and effective measures are in place to ensure the standard of the course offered locally is comparable to that of the home course and is recognised as such by the institution, the academic community and the relevant accreditation authority in the home country (if any). Registration/exemption from registration of a course under the Ordinance, however, does not on its own confer any particular standing to the course or comparability to a local degree programme. The recognition of any qualification for employment purposes is a matter within the discretion of individual employers and educational institutions.

Operators of non-local courses registered/exempted under the Ordinance could seek local accreditation by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) under the Hong Kong Qualifications Framework (QF). The accreditation conducted by HKCAAVQ benchmarks the non-local courses against Hong Kong's education system and locally accredited non-local courses enjoy similar status to other locally-accredited programmes, and the qualifications can be placed on the Qualifications Register and recognised under the QF.

Completion of professional programmes registered / exempted from registration under the Ordinance will not automatically lead to the attainment of professional qualifications. Students will need to, subject to the requirements set out in the relevant legislation or by the respective professional bodies, take examination / assessment for attaining the professional qualifications. The Non-local Courses Registry (the Registry) does not collate information on the award of professional qualifications.

The information of top-up Bachelor degree programmes <sup>Note 1</sup> registered / exempted from registration under the Ordinance from the 2014/15 to 2016/17 academic years is set out below:

	2014/15		2015/16		2016/17 <sup>Note 2</sup>	
	Registered Programmes (locally accredited)	Exempted Programmes (locally accredited)	Registered Programmes (locally accredited)	Exempted Programmes (locally accredited)	Registered Programmes (locally accredited)	Exempted Programmes (locally accredited)
Number of top-up Bachelor degree programmes	93 (33)	104 (23)	94 (35)	104 (32)	95 (40)	95 (39)
Institutions jointly running the top-up Bachelor degree programmes						
Number of overseas institutions	28	25	28	25	23	28
Number of operators (for Registered programmes) / Number of local institutions of higher education (for Exempted programmes)	24	8	24	8	12	8
Number of students enrolled	4 565	5 985	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>	N.A. <sup>Note 3</sup>

Note 1: For the purpose of this reply, programmes meeting the following criteria are regarded as top-up degree programmes – (a) Bachelor degree programmes (whether bearing “top-up degree” or not in the programme names) with duration not more than 18 months; and (b) sub-degree or equivalent qualification as an entry requirement

Note 2: Information as at 28 February 2017

Note 3: Statistics not yet available as the related information will only be provided by operators/ institutions six months after the end of an academic year

The Education Bureau (EDB) is very concerned about the quality of non-local courses and the way of running the courses by operators. Subsequent to a review conducted by the EDB on the existing monitoring and regulatory arrangements under the Ordinance, the Registry has already taken measures to enhance the existing regulatory arrangements over the operation of non-local courses –

- (a) a new condition for registration has been imposed on courses registered since 31 October 2016 requiring operators concerned to maintain documents relating to the non-local courses (such as student’s application forms, offer letters, credit exemption documents and payment records) for a specified period for the Registrar’s examination when warranted;

- (b) the arrangement of referring minor contraventions to law enforcement agencies for follow-up action has been tightened, and templates for periodic report have been prepared and put into use to comprehensively record and closely follow up cases of possible contraventions;
- (c) arrangements have been made to publicise to students and parents, through various channels (such as website, seminar, circular, poster, and TV and radio Announcement of Public Interest), the regulatory regime of non-local courses in Hong Kong, the way in which consumers could protect themselves when considering enrolling in non-local courses, and that some non-local courses are locally accredited by the HKCAAVQ;
- (d) the Registry has encouraged operators to apply for local accreditation under the QF to enhance the quality assurance of their non-local courses;
- (e) the Registry has posted on the EDB's website on 10 March 2017 the revised annual return form to require operators to provide more information on the non-local courses for Annual Returns with reporting period ending on or after 1 June 2017, which would facilitate the Registry to better monitor the operation of the courses; and
- (f) the Registry is planning to conduct regular inspection starting from the third quarter of 2017. Preparatory work including training for staff and the drawing up of an inspection manual is underway.

**(Question Serial No. 2295)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Many primary and secondary school teachers have now openly indicated that they have to work long hours. This, coupled with the immense pressure arising from school work, can cause breakdown anytime if teachers are unable to pour out their emotions timely. Some psychiatrists have pointed out that teaching is a high-risk profession and teachers are among the top two categories of professionals that come for consultation. There are also cases in which teachers suffer from obsessive compulsive disorder and hence depression because of the failure to cope with immense pressure. In this connection, would the Government advise this Committee of the following:

1. Are there and will there be government policies to provide emotional support for primary and secondary school teachers?
2. Does the Government have any new measures to attract more talent to the teaching profession of primary and secondary schools?
3. How many graduate teacher posts in primary and secondary schools were created in each of the past two financial years?
4. In what ways have these newly created posts effectively enhanced the quality of teaching and learning?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 25)

Reply:

1. The Education Bureau attaches great importance to the well-being of teachers and has been providing them with appropriate support. To help teachers cope with stress at work or personal emotional problems, we have set up the Teachers' Helpline to provide telephone counselling and support services. Stress management courses and various wellness programmes have also been organised for teachers. In addition, the Hong Kong Teachers' Centre has been organising different types of programmes, including physical and mental health courses and interest classes, to help teachers relieve stress.
2. Over the years, we have improved the provision of teaching staff resources on a need basis and implemented a number of measures to raise the status and professional standards of teachers in recognition of demand on quality education which may also help attract talent to the teaching profession. Besides, a scholarship scheme has been set up since the 2010/11 school year to attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued. In parallel, the

Committee on Professional Development of Teachers and Principals, which is tasked with advising the Government on policies and strategies to enhance the competencies and capabilities of the teaching profession at various career stages, has been engaging in extensive dialogue with various stakeholders to discuss and collect views on ways to enhance the status and professional development of teachers including attracting talent in the teaching profession. Commencing 2016/17 school year, COTAP has engaged into a strategic partnership with the Quality Education Fund for collaboration within a three-year period. Under the collaboration, innovative projects including those for attracting talent in the teaching profession will be planned.

3. With the increase in the ratio of graduate teacher posts from 50% to 55% and 60% in public sector primary schools in the 2015/16 and 2016/17 school years respectively, the cumulative total number of additional graduate teacher posts created is estimated to be around 900 and 1 900 respectively in the 2015/16 and 2016/17 school years, to be offset by the corresponding number of non-graduate teacher posts. To enhance the implementation of the senior secondary curriculum, and strengthen life planning education and related guidance services, schools may turn the Senior Secondary Curriculum Support Grant as well as the Career and Life Planning Grant into regular teaching posts from the 2016/17 school year onward. In the 2016/17 school year, about 370 regular graduate teacher posts are created from this measure.
4. Teachers filling the additional graduate teacher posts are required to assist in promoting initiatives in their schools for continuous improvement. It is also expected that the enhanced ratio of graduate teacher posts will attract more talent to join the teaching force of primary education and add further impetus to the pursuit of excellence.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the provision of further education opportunities for people with disabilities who have completed junior and senior secondary education in special schools, would the Government please inform this Committee,

1. of the percentage of such students who proceed to further studies in the past three years;
2. of the names of all special schools in the territory that operates junior secondary classes and the number of students enrolled in these classes;
3. whether it plans to operate senior secondary classes in special schools; and
4. whether the Administration has allocated resources at present to cater for the special needs of people with disabilities receiving education at senior secondary level or above; if so, of the annual amount of resources allocated and the details of the allocation; if not, the reasons for that?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 26)

Reply:

(1) to (3)

There are 60 aided special schools in the 2016/17 school year. The school list can be accessed via the following link:

<http://www.edb.gov.hk/attachment/en/edu-system/special/overview/factsheet/special-edu/spsche16-17.pdf>

Upon the implementation of the New Senior Secondary (NSS) academic structure in the 2009/10 school year, all aided special schools operate junior and senior secondary classes except for a school for social development which operates primary classes only and a school for children with visual impairment whose students will attend mainstream schools for senior secondary schooling after completing Secondary Three. In the 2016/17 school year, the number of students enrolled in the secondary classes of the aided special schools is about 4 260. As it is a common practice for special schools to adopt flexible groupings across class levels and individual education plans to cater for the special educational needs of the students, presenting the number of students by class levels is therefore not reflecting the actual practice in special schools.

As a general practice, special schools will help their students plan and apply for post-school placement having regard to their interest, capabilities and service needs. Students with intellectual disability may receive vocational training or vocational rehabilitation service, day-time training service, day care service

after graduation. By types of disability, the percentage of Secondary Six students with normal intelligence studying ordinary curriculum in schools for children with physical disability and schools for children with hearing impairment pursuing further studies in the 2013/14, 2014/15 and 2015/16 school years is 50%, 32% and 44% respectively. Students in schools for social development and the Hospital School are not included in the calculation due to the transitional nature of the education programmes these schools provide.

(4)

All special schools implementing the NSS curriculum are provided with the basic staffing ratios of 1.9 or 2.0 teachers per senior secondary class, depending on the types of children served. On top of the basic provision, additional teaching and supporting staff such as resource teachers for autistic children, native-speaking English teacher, teacher assisting in speech therapy and teacher assistants are also provided as appropriate to cater for the diverse needs of the students. Starting from the 2016/17 school year, special schools operating senior secondary levels are allowed to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services. Apart from regular teaching provisions, special schools are provided with specialist staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braille staff according to the specific needs of their students. All students in the special schools could benefit from the above specialist services in accordance with their individual needs. The revised estimate expenditure on special education in the 2016-17 financial year is \$2,324.1 million. Since special schools are required to deploy their resources flexibly and holistically to provide support for their students, having regard to their individual needs, not according to their class levels, hence, we are not able to provide the breakdown of the expenditure solely under the senior secondary levels.

For post-secondary education, as far as universities funded by the University Grants Committee (UGC) are concerned, since funding for students with special educational needs (SEN) is included in the Block Grant provided for individual universities, we are not able to provide the actual amount of expenditure on support services for such students.

In 2013, the government made two separate injections of \$20 million each, bringing a total of \$40 million into the HKSAR Government Scholarship Fund and the Self-financing Post-secondary Education Fund to establish the Endeavour Merit Award (EMA) and Endeavour Scholarship (EDS) respectively in recognition to deserving post-secondary students with SEN in their pursuit of excellence in academic and other areas. Each undergraduate or sub-degree recipient of EMA and EDS will receive scholarship of \$10,000. Separately, starting from the 2013-14 financial year, a recurrent funding of \$12 million has been allocated to the Vocational Training Council to enhance the support services for students with SEN. The number of EMA and EDS recipients for the 2013/14, 2014/15 and 2015/16 school year is listed below:

	2013/14	2014/15	2015/16
No. of recipients of EMA	50	74	97
No. of recipients of EDS	50	75	98

Question:

The Government launched the E-Textbook Market Development Scheme (EMADS) in 2013. In this connection, would the Government advise this Committee of the following?

1. Regarding the promotion of the EMADS, please give a detailed breakdown of its expenditures and account of its effectiveness of the past 2 financial years.
2. While promoting the development of e-textbook markets, what are the Administration's long-term plans to promote e-learning and mitigate the difficulties encountered by students and teachers in using e-textbooks in lessons?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 27)

Reply:

1. We launched two phases of the e-Textbook Market Development Scheme (EMADS) in 2012 and in 2013 respectively, with a commitment of \$50 million to facilitate and encourage the participation of potential and aspiring e-textbook developers to develop a diverse range of e-textbooks in line with our local curricula; as well as to try-out a quality vetting and quality assurance mechanism for e-textbooks through the field-testing of e-textbooks in partner schools with a view to drawing up progressively a full-fledged Recommended Textbook List for e-textbooks. The total amount of seeding grant approved for the 18 applications from six non-profit making (NPM) organisations under Phase One and Phase Two of EMADS is around \$39.5 million. The accumulated expenditure up to 2015-16 was around \$30.6 million while the estimated expenditure for 2016-17 is \$5.6 million. In addition, an evaluation has been conducted to assess the effectiveness of EMADS and the findings, which will form part of those on the impact on classroom learning and teaching in the context of the promotion of e-learning, are being compiled.
2. The Fourth Strategy on Information Technology in Education aims to unleash the learning power of our students to learn to learn and to excel through realizing the potential of IT in enhancing interactive learning and teaching experiences. The actions being implemented, including the provision of funding for schools to upgrade their WiFi infrastructure, enhancing the supply of quality e-learning resources, developing students' information literacy and building up professional leadership and capacity of education professionals, will facilitate the readiness of schools to implement e-learning. Under the principle of school-based management, it is at the discretion of individual schools to determine their own pace of e-learning having regard to their school circumstances and development needs.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

1. As we will soon be celebrating the 20th anniversary of Hong Kong's return to the Motherland, will additional resources and funding be provided under "Programme (4) Secondary Education" in 2017-18 for secondary schools to organise student exchange and study trips to the Mainland?
2. Has the Education Bureau had any programmes to engage students in supporting our country's Belt and Road Initiative?

Asked by: Hon HO Kwan-yiu, Junius (Member Question No. 39)

Reply:

1. The Education Bureau (EDB) has been providing schools with different kinds of resources and funding under various initiatives such as the students' Mainland exchange subvention schemes and the Quality Education Fund (QEF) for which schools are encouraged to apply to organise school-based Mainland exchange activities (including learning activities related to the 20th anniversary of Hong Kong's return to the Motherland) in accordance with their own context and students' learning needs. Besides, secondary schools may also use the one-off grant for the Promotion of Chinese History and Culture to secondary schools to be disbursed in 2017-18 after the passage of the Appropriation Bill 2017 to organise meaningful activities for students, such as competitions between schools in Hong Kong and the Mainland.
2. To dovetail with the ongoing curriculum renewal, EDB incorporates contents about the countries and regions along the "Belt and Road" (B&R) in relevant Key Learning Areas/subject curricula such as Arts, Chinese History, History, Geography, Liberal Studies, and student activities to enable students to understand and enquire about the history, religion, culture and current situations, languages etc. of these countries/regions, the vision and action plans for promoting the B&R initiative, and its importance to the future development of Hong Kong as well as the opportunities created. In this regard, EDB has been providing opportunities for students to join Mainland exchange programmes along the Silk Road (such as Xian, Dunhuang, Fujian, Guangdong and Guangxi) and will further increase the student quota to 5 600 in the 2016/17 school year. Schools are also encouraged to organise school-based activities, such as seminars, project learning competitions, study trips to cities along the "Silk Road" of the Mainland and other countries as well as forming sister schools with their counterparts in different countries along the B&R for students to explore and reflect on how they can contribute to and benefit from the B&R initiative. Besides, the B&R initiative is covered in the contents under the Priority Themes 2016/17 of the QEF to provide more support to the strategies above to enhance student learning on the B&R initiative. The funding ceiling on the cost/fee of study trips (outside Hong Kong) per student has been raised. The B&R initiative will continue to be covered in the contents under the Priority Themes 2017/18 of the QEF.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Questions on matters relating to the School-based Educational Psychology Service are as follows,

1. Has the Bureau met its target stated last year that the School-based Educational Psychology Service would cover all public sector primary and secondary schools by the 2016/17 school year? If no, how many public sector primary and secondary schools are provided with the School-based Educational Psychology Service currently? What is the percentage share of these schools among all public sector primary and secondary schools in Hong Kong? What is the reason for the delay in meeting the target?
2. What is the ratio of educational psychologist to school on average? Has the Administration considered further improving the ratio?
3. What are the details of the work in providing all public sector primary and secondary schools with the School-based Educational Psychology Service in the coming year, and the estimated expenditure and manpower resources involved?

Asked by: Hon HUI Chi-fung (Member Question No. 1)

Reply:

(1) to (3)

In the 2016/17 school year, the School-based Educational Psychology Service (SBEPS) has covered all public sector primary and secondary schools as planned. A total of 454 public sector primary schools and 391<sup>Note</sup> public sector secondary schools are provided with the SBEPS.

Under the SBEPS, one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). They pay regular visits to schools to provide service at the school system, teacher support and student support levels. The Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The enhanced provision covers 30 primary and secondary school in the 2016/17 school year and will cover about 80 primary and secondary schools by the 2017/18 school year. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools and provide comprehensive and regular follow-up to students as well as intervention services to the schools concerned based on their needs. The number of EPs involved in the provision of SBEPS in the 2016/17 and the 2017/18 school years is 138 and 144 respectively. The revised estimated expenditure and estimated expenditure for the provision of SBEPS in the 2016/17 and 2017/18 school years is \$146 million and \$153 million respectively.

The Education Bureau will continue to keep in view the service needs of schools and the provision of EP in the market. As and when necessary, we will liaise with the local universities for meeting the manpower demand in order to continuously enhance the support to schools in catering for students' diverse needs.

Note: The number of secondary schools includes one school under transition to a Direct Subsidy Scheme school and excludes three schools which only provide courses for students from other schools.

**(Question Serial No. 2592)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

As mentioned in the Policy Address, the Administration will provide a one-off grant at \$100,000 each to all public sector and Direct Subsidy Scheme (DSS) primary schools and \$150,000 each to all public sector and DSS secondary schools for the promotion of understanding of Chinese history and culture. In this connection, please inform this Committee of:

1. the respective total expenditure incurred by the two types of one-off grant; and
2. whether the Administration has provided relevant guidance on the purpose of the grant; if yes, please provide the details; if no, please indicate whether it has planned to do so.

Asked by: Hon HUI Chi-fung (Member Question No.2)

Reply:

The Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools) for the promotion of Chinese history and culture education. The estimated total expenditure incurred is \$125 million.

After the passage of the Appropriation Bill 2017, EDB would issue to schools some guidelines on the use of the one-off grant in the form of a Circular Memorandum. In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Notwithstanding the flexibility allowed for school-based decision-making, schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in their audited accounts to be submitted to EDB annually.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Concerning various grants/subsidies given to schools, there are the following questions:

1. What measures are put in place by the Administration to ensure that unspent grants/subsidies will be returned to the Education Bureau?
2. In the past 3 years, how many schools failed to return their unspent grants/subsidies to the Education Bureau on schedule? Please list the number of schools involved, the grant/subsidy item and amount as well as the amount yet to be recovered at present by school type (kindergarten, primary school, secondary school and university). With regard to the grants/subsidies yet to be recovered, what follow-up actions are being taken by the Bureau to recover them?

Asked by: Hon HUI Chi-fung (Member Question No. 3)

Reply:

Re 1. and 2.

Aided schools, schools under Direct Subsidy Scheme and kindergartens joining the Pre-primary Education Voucher Scheme are required to submit to the Education Bureau (EDB) annually their audited accounts which should report, among other financial information, the income and expenditure together with the unspent amount of each individual grant received from EDB. Auditors of schools, who should be certified public accountants (practising) as defined in the Professional Accountants Ordinance, are required to certify in their Auditors' Reports that schools have used the government grants in accordance with the rules and ambits as promulgated in the relevant letters, circulars and guidelines issued by EDB, and the balances of individual grant accounts are correct in all material respects. In general, EDB will review all audited accounts received and arrange claw back of surpluses of individual grants in excess of their respective reserve ceilings from schools each year, by offsetting the amounts to be clawed back against future subvention payments or by issuing demand notes to schools. At present, there is no outstanding unspent grant yet to recover from schools.

As far as the University Grants Committee (UGC) sector is concerned, recurrent grants to each UGC-funded university basically comprise a block grant and earmarked grants for specific purposes (ERG). To encourage longer-term planning and prudent financial management and to encourage UGC-funded universities to save up for future and new developmental needs, UGC-funded universities are allowed to carry unspent funds up to 20% of their respective total block grants in the funding period to the next as general reserve. For ERG, any unspent fund after the close of financial year or the approved funding period has to be refunded to UGC unless carry-over of the unspent fund to the next financial year or funding period is approved by UGC. The UGC is not aware of any unspent funds that have not been duly returned to the UGC.

Question:

Regarding life planning education, please reply to the following questions:

1. In the past 3 school years, what are the expenditures on providing grants for the implementation of life planning education and the number of schools benefited? If there is a change in the number of schools benefited between 2016/17 and last year, what are the reasons?
2. The number of schools benefited in 2015/16 has decreased as compared with the number in 2014/15. What are the reasons?
3. Schools have been allowed to turn the Career and Life Planning Grant into regular teaching posts since the previous school year. Does the Education Bureau know how many schools have indeed turned the grant into regular teaching posts? How many teachers have benefited from it?
4. Please set out in detail the work done for the implementation of life planning education, as well as the expenditure and manpower involved.
5. Have the Administration evaluated the effectiveness of life planning education? Please provide the details, including the evaluation method or consultation period, targets and the feedbacks of related parties.

Asked by: Hon HUI Chi-fung (Member Question No. 4)

Reply:

(1) & (2) From the 2014/15 school year, Career and Life Planning Grant (CLPG) is disbursed to all public sector schools operating classes at senior secondary levels. There are 509 eligible schools in the 2014/15 school year. Subsequently, due to the closure of two schools at the end of the 2014/15 school year, the number of eligible schools has reduced to 507 in the 2015/16 and the 2016/17 school years. The expenditures for the provision of the CLPG for the 2014/15, 2015/16 and 2016/17 school years are \$264.6 million, \$273.8 million and \$195.0 million respectively.

(3) In the 2016/17 school year, 165 schools have turned CLPG into a total of 165 additional regular teaching posts. As the expenditure is subsumed under the Education Bureau (EDB)'s recurrent expenditure, the amount involved is not available.

(4) Apart from the provision of CLPG, EDB provides training and support to enhance teachers' professional capacity in implementing life planning education (LPE), such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes and promoting professional exchanges among schools and teachers. The Guide on Life Planning Education and Career

Guidance for Secondary Schools has been issued and school visits are also conducted to provide professional advice to schools to strengthen their LPE. Career exploration activities are provided to students through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. Information on further studies and career opportunities are disseminated on the webpage. Starting from the 2016/17 school year, EDB has set up District Development Networks to strengthen professional development of teachers and provide career exploration activities on a district basis. The expenditure involved is subsumed under EDB's recurrent expenditure.

(5) Since its implementation in the 2014/15 school year, EDB has been keeping track of the development of LPE and career guidance services at schools through questionnaire surveys and advisory school visits. It was noted that schools in general have utilised CLPG properly in acquiring additional manpower or hiring appropriate career-related services to strengthen LPE services for students; attached greater importance to LPE by setting it as one of their major concerns in their School Development Plans; adopted assessment instruments to help students identify their interests and potentials; and increased the provision of career exploration activities for students. A majority of senior secondary students remarked that they were offered with various learning activities and support services in relation to LPE which facilitated them in devising their academic / career development plans according to their interests, abilities and orientations.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

To promote national education, the Bureau has offered opportunities for students to join Mainland exchange programmes and arranged professional exchange programmes for teachers. In this connection, please advise this Committee on:

1. the respective purposes, destinations, dates, numbers of participants, co-organisers and expenditures of such exchange programmes in the last year;
2. the details of Mainland exchange programmes to be arranged in the coming year, with a breakdown by their destination, date, number of participants, co-organiser(s), expected number of participants, and the expenditure involved.

Asked by: Hon HUI Chi-fung (Member Question No. 6)

Reply:

1. EDB provides subsidies for students to join Mainland exchange programmes which consist of different learning elements/themes that enable participants to gain first-hand experience of our country's development in aspects of history, culture, economy, career education, science and technology etc. from multiple perspectives. In 2016-17, about 57 900\* students participated in the Mainland exchange programmes with an expenditure of \$58.8 million\*. Teachers participated as learning facilitators according to the "1 teacher : 10 students ratio". Apart from this, EDB also provided various professional exchange programmes for teachers, such as the "National Day Delegation from the Educational Sector of Hong Kong" (香港教育界國慶訪京暨專業交流團) with the aim to widening their horizons and deepening their understanding of the development in different aspects of the Mainland so as to enhance professional competence. In 2016-17, about 450\* teacher participants joined such programmes with an expenditure of \$1.9 million\*. The above Mainland exchange programmes for students and teachers commissioned by EDB (including a few programmes co-organised with the Ministry of Education and Mainland departments) or organised by schools receiving subsidies under the Mainland exchange programme subvention schemes cover different provinces and cities in the Mainland with varying durations throughout the school year.

EDB has implemented the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the "Pilot Scheme") with effect from the 2015/16 school year, through which participating schools are provided with a fixed grant of \$120,000 per school per annum for organising exchange activities with their Mainland sister school counterparts. About 450 local schools have been approved to join the Pilot Scheme in 2015/16 and 2016/17 school year. We understand that participating schools have been organising various exchange activities at the student, teacher and school management levels based on their individual development needs with EDB's financial support. Given the sizable number of schools having

joined the Pilot Scheme, it is estimated that the number of students and teachers who had joined or will join in exchange programmes with the Mainland at the school level would be in thousands.

2. In 2017-18, an estimated amount of \$110.5 million will be allocated for providing more Mainland exchange programmes for students. To dovetail with the latest curriculum development, the learning elements/themes of the programmes will be enriched and more provinces and cities in the Mainland will be visited during the school year. EDB will also continue to organise professional exchange programmes for teachers with an estimated amount of \$1.4 million. All along, EDB will seek co-operation with other organisations where necessary to deliver programmes with quality and to the needs of students and teachers. EDB will continue to encourage participating schools of the Pilot Scheme to make good use of the funding support to organise exchange activities with their Mainland counterparts to benefit students and teachers as needed.

Question:

Regarding the Mainland University Study Subsidy Scheme (MUSSS), please advise:

1. the respective numbers of students subsidised, the names of the Mainland schools enrolled and their situated cities, and the involved expenditures in the past 3 academic years;
2. the respective numbers of students in receipt of full-rate subsidy and half-rate subsidy in the past 3 academic years;
3. the details of measures, related expenditure and staffing of the enhancement of MUSSS.

Asked by: Hon HUI Chi-fung (Member Question No. 8)

Reply:

The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2014/15 academic year, 152 applicants and 111 applicants were eligible to receive the full-rate subsidy and half-rate subsidy respectively. For the 2015/16 academic year, including both newly approved applications and successful renewals, subsidy was provided to 479 students in total, with 304 receiving the full-rate subsidy and 175 receiving the half-rate subsidy. For the 2016/17 academic year, as at 28 February 2017, including both newly approved applications and successful renewals, subsidy was provided to 2 144 students in total, with 1 459 receiving the full-rate subsidy and 685 receiving the half-rate subsidy.

Breakdowns of the eligible applicants receiving the full-rate and half-rate subsidy by institutions (with locations) in the 2014/15, 2015/16 and 2016/17 academic years are set out in the Annexes 1, 2 & 3 respectively.

The total expenditure for implementing MUSSS in the 2014/15 and 2015/16 academic years was about \$4 million and \$6.5 million respectively. As for 2016/17 academic year, the estimated total expenditure is about \$29 million. Apart from the five civil service posts (namely, one Executive Officer I, two Clerical

Officers and two Assistant Clerical Officers) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

## Mainland University Study Subsidy Scheme

Breakdown of the Eligible Applicants by Institutions  
for the 2014/15 Academic Year

Director of Bureau: Secretary for Education  
Question:

Regarding the pilot scheme for local public sector and Direct Subsidy Scheme (DSS) schools to form sister schools with their counterparts in the Mainland (Pilot Scheme), please advise the Committee of:

1. The details about the schools that have formed sister schools with their counterparts in the Mainland, including the names of local and Mainland schools and their situated Mainland cities;
2. The average number of exchange activities between local schools and their counterparts in the Mainland in each year;
3. The details of the exchange activities;
4. How to define whether the Pilot Scheme is successful or not so as to decide whether it should be continued to carry out?

Asked by: Hon HUI Chi-fung (Member Question No. 9)

Reply:

1. to 3. Schools participating in the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the "Pilot Scheme") have been organising various exchange activities at the student, teacher and school management levels based on their individual development needs, and in such areas as school development and planning, pedagogical studies and cultural interflows through school visits, student activities, seminars and experience-sharing, etc. It is up to individual schools to decide the target groups, frequency as well as mode of exchange activities with the financial support of the grant. As the number of exchange activities varies from school to school, EDB does not have readily available information on the number of exchange activities conducted. It is a prevailing practice that we do not disclose the name and situation of each participating school in the Pilot Scheme to avoid possible labelling and unnecessary pressure on individual schools.

4. The Education Bureau will commission an independent consultant to conduct an overall review of effectiveness of the Pilot Scheme in the 2017/18 school year. The scope, methodology and evaluation criteria, etc. of the review will be worked out.

Question:

Regarding the Basic Competency Assessment, please provide the following information:

1. The annual expenditures on the Territory-wide System Assessment and the Student Assessment.
2. The reasons and expenditures for upgrading the Student Assessment to the Student Assessment Repository (STAR).

Asked by: Hon HUI Chi-fung (Member Question No. 10)

Reply:

1. The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on SA and TSA and related study under the project in the last two contract periods is set out below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)	Average expenditure per year (\$ million)
	SA	TSA and related study under the project		
2011-2014	99	220	319	80
2015-2018	3*	290	293	73

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017.

2. SA is an online assessment item bank, capable of assessing through a computer system the performance of participating students, and generating instant assessment reports for teachers' reference. To provide additional features to promote assessment for learning and facilitate teachers' use of assessment information in enhancing students' learning, and to enable the platform to be compatible with different devices including tablets, notebooks and desktops, SA has been upgraded to STAR since January 2017. Teachers can make use of this platform to create assessment tasks for individual students or classes, and receive student performance reports. The expenditure for STAR has been subsumed under the overall expenditure of the EDB.

**CONTROLLING OFFICER'S REPLY**

**EDB079**

**(Question Serial No. 2629)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

In the past 2 school years, the percentage of teachers in special schools with special education training qualification remained at 74%. What measures does the Bureau have to increase the percentage of teachers with such qualification? Please provide details and the expenditures involved.

Asked by: Hon HUI Chi-fung (Member Question No. 13)

Reply:

To enhance the professional capacity of teachers in catering for students with diverse needs, the Education Bureau (EDB) has been providing serving teachers in both mainstream schools and special schools with structured training courses on supporting students with special educational needs (SEN) pitched at the Basic, Advanced and Thematic levels (BAT Courses) since the 2007/08 school year. Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers (TCSST) specifically for serving special school teachers. To support special schools in arranging teachers to attend the TCSST and the BAT Courses, their regular teachers are granted paid study leave for attending the Courses and grants for employing supply teachers are provided for the schools accordingly. The estimated expenditure for TCSST for the 2017/18 school year is about \$5.1 million. As for the BAT Courses, we are not able to calculate the share of special school teachers in the estimated expenditure for the 2017/18 school year.

In addition, EDB organises different theme-based training activities including seminars, workshops and sharing sessions to share good practices and update teachers on the current trend and approach in catering for students with SEN. The related expenditure is subsumed within the overall provision of EDB. To better prepare and equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included a module on special education or catering for students with SEN in their pre-service teacher training courses. We will continue to encourage special schools to arrange teachers for attending the TCSST and BAT Courses and keep in view the training needs of special school teachers to organise appropriate courses for enhancement of their professional competence.

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding teaching Putonghua in schools, please provide the following information in respect of the academic years from 2013/14 to 2017/18:

- (a) A list, complete with durations and details, of all the measures or programmes introduced to support primary and secondary students in learning Putonghua. Please also advise on the expenditure incurred for each measure or programme, and the total expenditure of all the support measures;
- (b) The numbers of aided primary and secondary schools teaching Putonghua as a separate subject, and their respective percentages in the total numbers of aided primary and secondary schools in the territory;
- (c) The numbers of aided primary and secondary schools using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), and their respective percentages in the total numbers of aided primary and secondary schools in the territory; and
- (d) Has the Bureau drawn up any plan to pursue the "long-term vision" of PMIC? If there is a long-term plan, what is the expenditure involved? Will the Bureau give up on the "long-term vision" as a policy direction if there is no such plan? If it will not give up on the vision, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 1)

Reply:

- (a) Between 2013/14 and 2017/18 school years, the Language Fund has been providing a diversified and fun-filled environment for primary and secondary school students to learn Putonghua outside the classroom so as to further enhance their Putonghua proficiency:

School Year	Project Name	Content	Expenditure/ Allocation (\$million)
2013/14	Promotion of Putonghua in 2013/14 School Year	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising carnival and public speaking competition.	1.20

2014/15	Promotion of Putonghua in 2014/15 School Year	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competition, radio drama competition and drama performances.	3.21*
2015/16	Promotion of Putonghua in 2015/16 and 2016/17 School Years	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competitions, radio story-telling competition and drama performances.	3.85*
2016/17	Promotion of Putonghua in 2015/16 and 2016/17 School Years	To create a more conducive language environment and to provide the opportunities of using Putonghua through organising public speaking competitions, radio story-telling competition and drama performances.	4.86^
2017/18#	—	—	—

\* Expenditure as at 31 January 2017

^ Allocation of Fund

# Subject to further deliberation by the Standing Committee on Language Education and Research, the details are still being worked out.

(b)&(c) In respect of teaching Putonghua as a separate subject and/or using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), primary and secondary schools may make decision having regard to their own circumstances. As the number of schools may vary every year, we do not possess the exact figures.

(d) Biliteracy and trilingualism has always been the advantage of Hong Kong. In pursuance of professional autonomy and academic freedom, it has all along been a school-based decision of the primary and secondary schools in Hong Kong on whether to adopt PMIC having regard to the abilities of their teachers and students, as well as their school environment and support. EDB has never made a mandatory requirement for schools to adopt PMIC. PMIC is being implemented smoothly at schools' discretion. Schools may consider if Putonghua should be adopted as the MOI for teaching the Chinese Language Subject and the pace of implementation having regard to their own circumstances, such as readiness of teachers, ability of students, language environment of schools, curriculum planning as well as availability of learning and teaching resources/support. EDB respects the professional decision of schools, and there is no need to abolish PMIC as the long-term vision. EDB will also continue to provide schools with appropriate assistance and professional, on-site support for teaching the Chinese Language Subject irrespective of whether the schools' MOI is Putonghua or Cantonese.

**CONTROLLING OFFICER'S REPLY****EDB081****(Question Serial No. 0241)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) For the 2016/17 school year, please provide the numbers of aided primary and secondary schools which have employed teachers for a defined contract period (DCP) to fill permanent teaching posts within their approved teaching establishment, and the numbers of such contract teachers. Please set out the figures for each of the 18 school districts in the form of annex (as illustrated below):

## Aided Secondary Schools (Annex 1)

EDB school district	Number of aided secondary schools in the district	Employment of teachers on DCP terms to fill permanent teaching posts within the approved teaching establishment (aided secondary schools)	
		Number of schools	Number of contract teachers
School district			
Total			
Total balance for all districts:			

## Aided Primary Schools (Annex 2)

EDB school district	Number of aided primary schools in the district	Employment of teachers on DCP terms to fill permanent teaching posts within the approved teaching establishment (aided primary schools)	
		Number of schools	Number of contract teachers
School district			
Total			
Total balance for all districts:			

(b) Regarding the teachers employed on DCP terms to fill permanent teaching posts within the approved teaching establishment in the 2016/17 school year, what are their average length and the longest length of service in the same post in a school?

(c) Please provide a breakdown of the numbers of teachers employed on DCP terms to fill permanent teaching posts within the approved teaching establishment in primary and secondary schools and their increase/decrease in each of the school years from the 2013/14 to 2017/18 school years respectively; and

(d) Make a comparison of the changes in the numbers of regular teachers on contract terms in primary and secondary schools between the 2015/16 and 2016/17 school years in the form of the following annexes:

Secondary Schools (Annex 3)

Changes between the 2015/16 and 2016/17 school years		Number of schools	Number of regular teachers on contract terms in the 2015/16 school year	Number of regular teachers on contract terms in the 2016/17 school year
Number of regular teachers on DCP terms	Increase			
	Remain unchanged			
	Decrease			

Primary Schools (Annex 4)

Changes between the 2015/16 and 2016/17 school years		Number of schools	Number of regular teachers on contract terms in the 2015/16 school year	Number of regular teachers on contract terms in the 2016/17 school year
Number of regular teachers on DCP terms	Increase			
	Remain unchanged			
	Decrease			

Asked by: Hon IP Kin-yuen (Member Question No. 2)

Reply:

The posts in the approved teaching establishment of aided schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. Schools may employ regular teachers with a defined contract period (DCP) only if they have genuine needs and cogent reasons. The reply to the four parts of the question is as follows:

- The number of regular teachers on DCP terms to fill regular posts in aided secondary and primary schools in the 2016/17 school year are at Annexes 1 and 2 respectively.
- Among the 1 162 regular teachers on DCP terms in the 2016/17 school year, the average length of service as regular teachers on DCP terms in their existing schools is 2.3 years (up to the end of the 2016/17 school year), and the longest service being 9 years.
- Statistics on the number of regular teachers on DCP terms from 2012/13 to 2016/17 school years are as follows:

	Number of regular teachers on DCP terms (Compared with previous school year)				
	2012/13	2013/14	2014/15	2015/16	2016/17
Aided Secondary Schools	1 374	1 101 (-273)	965 (-136)	878 (-87)	819 (-59)
Aided Primary Schools	564	566 (+2)	446 (-120)	388 (-58)	343 (-45)

- Comparison on the numbers of regular teachers on DCP terms in aided secondary and primary schools of the 2015/16 and 2016/17 school years are at Annexes 3 and 4 respectively.

**(Question Serial No. 0242)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding graduate teachers and certificated masters/mistresses employed by public sector schools:

(a) In the 2017/18 school year, the ratio of graduate teacher posts in public sector primary schools will be further enhanced to 65%. Does the Bureau know how many schools have already increased the ratio of graduate teacher posts to 65%? If there are no such statistics, what are the reasons?

(b) What is the respective number, median age, average age, percentage and wastage rate of teachers appointed as graduate teachers and certificated masters/mistresses in public sector schools from the 2012/13 to 2016/17 school years? In respect of the latter, the number, median age, average age, percentage and wastage rate of those with a recognised degree?

(c) Has the Bureau devised long-term plans to solve the problem of differences in salaries and remuneration between graduate teachers in primary schools and graduate teachers in secondary schools? If yes, what are the details and expenditures involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 3)

Reply:

- (a) Pursuant to the enhancement of the ratio of graduate teacher posts in public sector primary schools from 50% to 55% and 60% in the 2015/16 and 2016/17 school years respectively, the Education Bureau (EDB) will further enhance the ratio to 65% in the 2017/18 school year. The ratio of 65% graduate teacher posts will take effect from the 2017/18 school year onwards. We do not have the information on schools' plans for filling these additional graduate teacher posts at this stage.
- (b) The number and percentage of teachers appointed as graduate teachers and non-graduate teachers and the respective median age, mean age and wastage rate of these teachers in public sector schools for the school years from 2012/13 to 2016/17 are as follows:

**Primary Schools (Government and Aided)**

School Year	Graduate Teachers					Non-graduate Teachers				
	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>
2012/13	7 150	39.9	41	42	2.9	10 770	60.1	36	38	6.2
2013/14	7 330	40.0	42	42	3.4	10 990	60.0	37	38	5.6
2014/15	7 550	39.9	42	43	3.0	11 400	60.1	37	38	5.2
2015/16	7 960	41.0	42	43	3.2	11 470	59.0	37	37	5.4
2016/17 (Estimate)	8 530	42.9	43	43	2.4	11 360	57.1	37	37	5.4

**Secondary Schools (Government, Aided and Caput)**

School Year	Graduate Teachers					Non-graduate Teachers				
	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>	No. of teachers *	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>
2012/13	18 820	78.2	41	41	7.0	5 240	21.8	32	35	12.6
2013/14	18 510	78.8	42	41	4.2	4 990	21.2	33	36	7.9
2014/15	18 300	78.6	42	42	4.3	4 970	21.4	33	36	6.9
2015/16	17 960	78.5	43	43	4.2	4 930	21.5	33	36	7.8
2016/17 (Estimate)	17 690	78.6	43	43	4.0	4 800	21.4	34	36	7.0

Regarding the non-graduate teachers, the number and percentage of teachers who have degree qualifications (degree holders) and the respective wastage rate of these teachers in public sector schools for the school years from 2012/13 to 2016/17 are as follows:

**Primary Schools (Government and Aided)**

School Year	Non-graduate Teachers				
	No. of degree holders*	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>
2012/13	9 760	90.7	36	37	5.4
2013/14	10 100	91.9	36	37	4.8
2014/15	10 600	93.0	36	37	4.6
2015/16	10 770	93.9	36	37	4.9
2016/17 (Estimate)	10 730	94.4	36	37	5.1

## Secondary Schools (Government, Aided and Caput)

School Year	Non-graduate Teachers				
	No. of degree holders*	%	Median Age	Mean Age	Wastage rate (%) <sup>^</sup>
2012/13	4 760	91.0	31	34	12.6
2013/14	4 560	91.4	32	35	7.9
2014/15	4 580	92.2	32	35	6.6
2015/16	4 590	93.1	32	35	7.5
2016/17 (Estimate)	4 490	93.6	33	35	6.9

\* Numbers are rounded to the nearest 10.

<sup>^</sup> “Wastage Rate” refers to the number of drop-out teachers as a percentage of the total number of teachers as at mid-September of the preceding school year; and “drop-out teacher” refers to the teachers who had served in a school as at mid-September of the preceding school year but no longer served in any of the schools (irrespective of whether primary or secondary schools) as at mid-September of the school year concerned.

- (c) The Government is committed to enhancing the quality of education in Hong Kong. Over the years, we have improved the provision of teaching staff resources on a need basis and implemented a number of measures to raise the status and professional standards of teachers in recognition of the challenges of school administration and demand on quality education. EDB understands the concern of the school sector on the issue of salaries and remuneration of graduate teachers in primary schools and will consider this seriously in our deliberation in light of a host of relevant factors. As the subject is complex and involving a wide scope of issues, we will communicate closely with the school sector to consider the way forward.

**(Question Serial No. 0243)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding small class teaching (SCT) and the arrangement for the increase of the number of allocated Primary 1 (P1) students per class:

(a) Please give a breakdown, for each of the 18 districts in Hong Kong from the 2013/14 school year to the 2017/18 school year:

(1) of the number of primary schools implementing SCT with a class size of 25, their percentage share in the total number of primary schools in the respective districts, and the number of P1 places and students in the respective districts;

(2) of the number which have implemented SCT but needed to increase the number of allocated P1 students per class, their respective class size upon such allocation, their percentage share in the total number of primary schools in the respective districts, as well as their numbers of students involved;

(3) of the number of schools which have not implemented SCT in each district and their percentage share in the total number of primary schools in the respective districts;

(b) What were the numbers of schools implementing SCT and subsequently were requested to increase the number of allocated P1 students per class from the 2014/15 school year to 2016/17 school year? What were the additional expenditure involved and its breakdown? And what are the estimated number, additional expenditure involved and its breakdown for the 2017/18 school year?

(c) For those with additional P1 classes, how many schools and classes have made use of the existing vacant classrooms, how many of them have converted special rooms/activity rooms, how many of them have carried out works for additional of classrooms for such purpose?

(d) What is the total amount of Additional Supplementary Learning Grant (ASLG) disbursed since its implementation in response to the increase of the number of allocated P1 students per class? Will the EDB review the computation of the ASLG such as calculating the amount of funding based on each additional student allocated? If there is no plan to conduct a review, what are the reasons?

(e) Please provide the numbers of school-age children attending P1 classes from the 2017/18 school year to 2021/2022 school year;

(f) Does the EDB plan to implement measures similar to the "targeted relief measures" carried out in secondary schools in response to the fluctuation of the number of school-age children attending primary schools? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons? and

(g) Does the Administration plan to strengthen the support for SCT in primary schools and implement SCT at the junior secondary stage when the number of school-age students attending secondary and primary schools decline? If yes, what are the timetable and estimated expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 4)

Reply:

(a)(1) & (3) The number of public sector primary schools by district with breakdown of schools implementing small class teaching (SCT) (i.e. allocated 25 students per Primary One (P1) class) and those maintaining 30 students per P1 class from the 2013/14 to 2016/17 school years, as well as the total number of P1 places and students in the respective school years, are tabulated at Annex A. The number of public sector primary schools including those implementing SCT and those maintaining 30 students per P1 class in the 2017/18 school year will be the same as those in the 2016/17 school year, while the total number of P1 places and students are not available at this stage.

(a)(2) According to the latest information available, the school-age population aged 6 is projected to continue to increase temporarily in the coming year and reach the peak in 2018 before it decreases to a stable level. The school-age population aged 6 is generally considered appropriate for admission to P1. The demand for public sector P1 places is projected to increase correspondingly in this transitional period.

The projected transient increasing demand for P1 places in the run up to 2018 is mainly due to babies born to Mainland women in Hong Kong whose spouses are not Hong Kong permanent residents, i.e. Type II babies, before the implementation of the “zero delivery quota” policy in 2013. Nonetheless, any deviations in the assumptions (such as the actual numbers of Type II babies to settle in Hong Kong for settlement and the timing) from the eventual situation may render the projected figures different from the actual turnout figures. For those Type II babies that do not return to Hong Kong for settlement, some of them will attend school in Hong Kong every day as cross-boundary students (CBS). Among CBS are also children of Hong Kong residents living in Shenzhen and it is difficult to accurately predict the number of CBS seeking admission to P1. Besides, due to various factors, in particular parental choice, there are uncertainties about the actual demand for school places in districts/school nets under the Primary One Admission (POA) System. These year-on-year changes are therefore not fully foreseeable.

To alleviate the impact of increasing CBS on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the POA. In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child’s POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

In parallel, EDB and the school sector have reached a consensus that construction of new schools to meet the transient increase in demand should be avoided as far as possible in light of the scarcity of land resources. Instead, flexible arrangements including, among others, temporarily allocating more students to each P1 class should be adopted to increase the supply of P1 places during the transitional period.

The number of schools implementing small class teaching in the districts which have been allocated more students per P1 class under the POA to meet the projected transient increase in demand from the 2013/14 to 2016/17 school years, their percentage share in the total number of primary schools in the districts as well as the number of students involved are tabulated at Annex B. The relevant estimated figures for the 2017/18 school year have also been tabulated at Annex B.

- (b) & (d) Various factors as elucidated in (a)(2) above have accounted for the need for temporary allocation of more P1 students per class in schools including schools implementing SCT in individual districts / school nets concerned in light of the demand for P1 places at the Central Allocation stage. Please refer to Annex B for the number of schools implementing SCT which were allocated temporarily more students per P1 class to meet the projected transient increase in demand with breakdown by district, and the increase in the number of places in the 2013/14, 2014/15, 2015/16 and 2016/17 school years as well as the relevant estimated figures for the 2017/18 school year.

Under the prevailing arrangements, when schools implementing SCT are required to temporarily increase the number of students to 30 per P1 class for the Central Allocation, eligible schools will be provided with a time-limited additional Assistant Primary School Master/Mistress (APSM) post for the cohort of students concerned for a period of six years (i.e. for the cohort to complete the six-year primary education in the school). This is in accordance with the provision of additional APSM posts by phases to schools maintaining 30 students per class upon the implementation of SCT progressively starting from P1 in public sector schools since the 2009/10 school year. In the case when the actual number of students allocated to each P1 class of a school (including schools implementing SCT) exceeds 30, EDB will provide the schools concerned with an additional funding for each additional student above 30 in each P1 class for the cohort of students concerned for a period of six years.

On top of the above-mentioned enhanced support, EDB has, starting from the 2015/16 school year, provided eligible schools implementing SCT with the Additional Supplementary Learning Grant (ASLG) when they are temporarily allocated more students per P1 class up to a total of 30 students per class for the cohort of students concerned for a period of six years. The estimated expenditure with breakdown in the 2014/15, 2015/16, 2016/17 and 2017/18 school years is tabulated at Annex C. There is no plan to review or revise the eligibility criteria of the Grant.

- (c) Referring to the districts / school nets with temporary allocation of more students per P1 class from the 2013/14 to 2016/17 school years, 4, 2 and 4 schools have changed the use of their other rooms for operation of a total of 4, 2 and 4 additional P1 classes in the 2013/14, 2015/16 and 2016/17 school years respectively. No special/activity rooms were involved. In the 2014/15 school year, no schools in question changed the use of other rooms or special rooms for operation of additional P1 classes. For the 2017/18 school year, 17 schools have applied for conversion for / construction of 24 temporary classrooms and complementary facilities as appropriate for operating additional P1 classes subject to the actual demand in the Central Allocation.
- (e) The projected school-age population aged 6 who are residing in Hong Kong from the 2017/18 to 2021/22 school years is tabulated at Annex D.
- (f) As the change in the projected P1 student population in the coming years is different from the transient decline in Secondary One student population in recent years, the relief measures implemented for the public sector secondary schools may not be applicable to the primary schools. EDB will continue to liaise with the school sector and to keep in view the situation to formulate appropriate strategies.
- (g) Conceptually speaking, SCT is more a teaching strategy involving teaching setting or grouping driven by pedagogical considerations. The size of grouping should not be fixed

across-the-board, but adjusted according to the learning objectives and students' needs. International studies have suggested that SCT is more effective when students are of younger age and its effectiveness tends to wane as students age. The current policy of implementing SCT progressively in public sector primary schools, where circumstances permit, will remain unchanged. In considering whether to implement SCT in secondary schools, we must take into account the existing conditions of secondary schools, the teaching and learning environment as well as provision of support to secondary schools, overseas experience and resource implications and assess whether it is feasible and sustainable for secondary schools, as in primary schools, to reduce their class size across-the-board, particularly when the secondary student population is projected to rebound in the 2017/18 school year. Besides, with the adoption of subject grouping at senior secondary levels, the actual number of students in each teaching class / group is rather small. As the number of Secondary One students is expected to rebound starting from the 2017/18 school year, reducing the class size across-the-board will definitely increase the pressure on land use by schools. We have no plan to implement SCT in secondary schools having regard to the afore-mentioned considerations.

**Annex A**

District [school-netting under Primary One Admission System]	2013/14 school year					2014/15 school year					2015/16 school year					2016/17 school year

**Notes:**

- Figures refer to schools participating in Primary One Admission (POA) 2013, 2014, 2015, 2016 and 2017.
- The situation of the 2017/18 school year is an estimated one which was worked out based on the number of POA applicants as at mid-February 2017. The total number of additional P1 places involved is estimated to be 195 in the North District (school nets 80 and 81 only), 472 in Yuen Long (school nets 73 and 74 only), 528 in Tai Po, 320 in Shatin (school net 91 only), 177 in Tuen Mun (school net 71 only), 328 in Sham Shui Po, 180 in Tsuen Wan and 168 in Kowloon City (school net 35 only).
- Under the POA System, Yuen Long comprises School Nets 72, 73 and 74. The temporary arrangement of allocating more students per P1 class was/would be adopted in School Nets 73 and 74 only in the 2014/15, 2015/16, 2016/17 and 2017/18 school years. The schools in School Net 72 are therefore not included in the above table.
- Under the POA System, the North District comprises School Nets 80, 81 and 83. The temporary arrangement of allocating more students per P1 class was adopted in School Nets 80, 81 and 83 in the 2013/14 school year, and was/would be adopted in School Nets 80 and 81 only in the 2016/17 and 2017/18 school year. The schools in School Net 83 are therefore not included under the 2016/17 and 2017/18 school years in the above table.
- Under the POA System, Shatin comprises School Nets 88, 89 and 91. The temporary arrangement of allocating more students per P1 class would be adopted in School Net 91 only in the 2017/18 school year. The schools in School Nets 88 and 89 are therefore not included in the above table.
- Under the POA System, Tuen Mun comprises School Nets 70 and 71. The temporary arrangement of allocating more students per P1 class would be adopted in School Net 71 only in the 2017/18 school year. The schools in School Net 70 are therefore not included in the above table.
- Under the POA System, Kowloon City comprises School Nets 34, 35 and 41. The temporary arrangement of allocating more students per P1 class would be adopted in School Net 35 only in the 2017/18 school year. The schools in School Nets 34 and 41 are therefore not included in the above table.

**Estimated additional expenditure for schools implementing small class teaching  
with temporary increase of number of students allocated per P1 class  
from the 2014/15 to 2017/18 school years**

Breakdown of additional expenditure	2014/15 school year (Note 1)	2015/16 school year (Note 1)	2016/17 school year (Note 1)	2017/18 school year (Note 1 &2)
Provision of time-limited additional APSM posts for the cohort of students concerned for a period of six years (Note 3)	\$ 31.1 million	\$ 32.1 million	\$ 44.1 million	\$ 62.6 million (estimated)
Provision of additional funding for each additional student above 30 in each P1 class for the cohort of students concerned for a period of six years	\$ 6.7 million	\$ 6.7 million	\$ 13.1 million	\$ 41.3 million (estimated)
Provision of Additional Supplementary Learning Grant for the cohort of students concerned for a period of six years	Not applicable	\$ 7.5 million	\$ 19.0 million	\$ 42.1 million (estimated)
Total:	\$ 37.8 million	\$ 46.3 million	\$ 76.2 million	\$ 146.0 million (estimated)

Notes:

1. The number of schools implementing SCT temporarily allocated with more students per P1 class to meet the projected transient increase in demand for the 2014/15, 2015/16 and 2016/17 school years and the estimated number of schools for the 2017/18 school year are at [Annex B](#).
2. The situation of the 2017/18 school year is an estimated one which was worked out based on the number of POA applicants as at mid-February 2017.
3. The additional cost for provision of the time-limited additional APSM posts was worked out based on the mid-point salary of the prevailing APSM post.

**Projected School-age Population Aged 6 Who are Residing in Hong Kong,  
2017/18 – 2021/22 School Years**

2017/18	2018/19	2019/20	2020/21	2021/22
66 200	67 900	56 000	55 800	59 400

- Notes :
- (1) Figures in the above table are compiled with reference to the 2014-based Population Projections released by the Census and Statistics Department (C&SD) in September 2015.
  - (2) School-age population aged 6 is considered appropriate for primary education (i.e. Primary 1).
  - (3) Figures refer to the projected number of local children (i.e. Hong Kong usual residents) aged 6 residing in Hong Kong. The projected figures should not be taken as the projected number of students attending schools in Hong Kong. The latter would be affected by the prevailing distribution of school places, demand for school places and parental choices. Students under or over the age of 6 may also enrol at primary education (i.e. Primary 1). The above figures do not include cross-boundary students.
  - (4) The projections of school-age population **residing in Hong Kong** are compiled based on the 2014-based Population Projections released by C&SD in September 2015. The projections have taken into account a number of factors and assumptions. Any deviations in the assumptions from the eventual situation may render the projected figures different from the actual turnout figures. Amongst those assumptions, of particular relevance is that related to babies born in Hong Kong to Mainland women. It should be noted that it is difficult to accurately predict the actual number of such babies who would settle in Hong Kong and if so, when.
  - (5) Figures are rounded to the nearest hundred.

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Student Guidance Service Grant, please provide the following information:

- (a) the total expenditure on the Student Guidance Service Grant and the estimated expenditure for the 2017/18 school year;
- (b) please tabulate the number of primary schools applied for the Student Guidance Service Grant and their percentage share among all primary schools in the territory from the 2013/14 to 2016/17 school years; and
- (c) given that the high annual wastage of guidance teachers has affected the continuity of guidance, but the need for the guidance services from primary schools has been increasing day after day, whether the EDB has any plan to improve, review and expand the abovementioned service? If yes, what is the total estimated expenditure? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 5)

Reply:

- (a) The total expenditure on the Student Guidance Service (SGS) Grant, including the top-up grant, is estimated to be about \$239.6 million and \$254.0 million for the 2016/17 and 2017/18 school years respectively.
- (b) The number of public sector primary schools provided with the SGS Grant and their percentage share for the 2013/14 to 2016/17 school years are as follows:

School Year	2013/14	2014/15	2015/16	2016/17
Number of Public Sector Primary Schools Provided with SGS Grant (%)	309 (68%)	312 (69%)	317 (70%)	323 (71%)

- (c) According to the information provided from schools with the provision of SGS Grant, a majority of the student guidance personnel have continued their service in the same school for three years or more. It is thus clear that there is continuity of guidance service in schools. Furthermore, all primary schools have been required to provide a school-based, holistic and integrated guidance service under the Comprehensive Student Guidance Service implemented since the 2002/03 school year. Currently, teachers are working in collaboration with student guidance personnel and professionals to provide remedial, preventive and developmental guidance services for all students. This Whole School Approach helps the establishment of a robust student guidance system for sustainable service, while minimizing the impact arising from turnover of individual staff members.

The Education Bureau (EDB) has been gauging feedback from schools through school visits and other established channels for service improvement. The feedback thus gauged suggests that, overall, the existing mode of funding is able to meet the diversified needs of primary schools and is well received by schools and school sponsoring bodies. Hence, as of now, EDB has no plan to change the existing funding mode which recognizes the diverse needs of different schools and allows schools to have flexibility in resource deployment to meet their identified needs in a specific manner. Nonetheless, EDB will continuously keep in view of schools' need for guidance services and review the resource provision from time to time with consideration to such factors as policy prioritization and government's affordability.

**Director of Bureau:** Secretary for Education

**Question:**

Regarding school assessment programmes, including Student Assessment (SA), online Student Assessment Repository (STAR), Territory-wide System Assessment (TSA), 2016 Tryout Study (Primary 3), Primary 3 Basic Competency Assessment Research Study (BCA), and Pre-Secondary One Hong Kong Attainment Test (Pre S1), please provide the following information:

- (a) The contract periods of the above programmes from 2000 to present, with a breakdown by item of expenditure and average expenditure per year;
- (b) The numbers of primary and secondary schools adopted SA (or the new STAR platform) from school year 2000 to present, their percentage share in the respective school types, and the total number of students logged in SA by school type;
- (c) Please use Table 1 to provide the respective numbers of Primary 3, Primary 6 and Secondary 3 students participated in TSA, the number of students with special educational needs (SEN) and their percentage share, the number of non-Chinese speaking (NCS) students participated in the Chinese assessment and their percentage share, and the expenditure incurred to support the above students;

Table 1

		School Years				
		2011/12	2012/13	2013/14	2014/15	2015/16
Primary 3						
Total number of students participated in TSA						
	Students with SEN (percentage share %)					
	NCS students participated in the Chinese assessment (percentage share %)					
	Expenditure involved					
Primary 6						
Total number of students participated in TSA						
	Students with SEN (percentage share %)					
	NCS students participated in the Chinese assessment (percentage share %)					

	Expenditure involved					
Secondary 3						
Total number of students participated in TSA						
	Students with SEN (percentage share %)					
	NCS students participated in the Chinese assessment (percentage share %)					
	Expenditure involved					

(d) The total number of schools participated in the 2016 Tryout Study (Primary 3), their percentage share in all primary schools in the territory, and the expenditure involved;

(e) The number of public primary and secondary schools that have been provided feedback by the Bureau on the learning and teaching of Chinese Language, English Language and Mathematics as a result of their participation in the TSA, and the expenditure involved;

(f) The dates of meetings and the attendance rates of members at each meeting since the establishment of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy and its working groups;

(g) As it is pointed out in Report No.63 of the Director of Audit that the justification for the continued use of single tender for the SA and TSA may diminish with time. If similar basic competency assessment exercises are continue to be held in the future, will the Bureau consider engaging tertiary institutions instead of the Hong Kong Examinations and Assessment Authority to implement the assessment programmes? If yes, what are the plans and the expenditure involved? If no, how will the Bureau respond to the Audit's recommendation?

(h) For years, primary school stakeholders have recommended merging TSA with Pre S1. Will the Bureau set up a committee to review Pre S1? If yes, what are the plans and the expenditure involved? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 6)

Reply:

(a) The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on SA and TSA and related study under the project in the last two contract periods is set out below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)	Average expenditure per year (\$ million)
	SA	TSA and related study under the project		
2011-2014	99	220	319	80
2015-2018	3*	290	293	73

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017. The expenditure for STAR has been subsumed under the overall expenditure of the EDB.

(b) The number of primary and secondary schools which participated in SA/STAR, their percentage share in the respective school types and the number of login records in SA/STAR from 2012/13 to 2016/17 school years are listed in the following tables:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17	
					SA (Sep – Dec 2016)	STAR* (Jan – Feb 2017)
No. of primary schools using SA	208	222	167	105	27	125
Percentage of primary schools using SA	40%	46%	32%	20%	5%	25%
No. of login records by primary school students	455 292	392 600	398 661	242 894	31 116	20 586

School Year	2012/13	2013/14	2014/15	2015/16	2016/17	
					SA (Sep – Dec 2016)	STAR* (Jan – Feb 2017)
No. of secondary schools using SA	92	137	67	44	12	39
Percentage of secondary schools using SA	20%	34%	15%	10%	3%	9%
No. of login records by secondary school students	75 845	101 866	78 258	74 635	7 599	3 573

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017.

(c) The numbers of primary and secondary students participated in TSA, the number of students with special educational needs (SEN) and their percentage share and the number of non-Chinese speaking (NCS) students participated in the Chinese assessment and their percentage share are listed in the table below:

	School Year				
	2011/12	2012/13	2013/14	2014/15	2015/16
<b>Primary 3</b>					
Total number of students participated in TSA	47 094	46 343	47 776	50 448	5 156
Students with SEN* (percentage share %)	8.9%	9.2%	10.4%	9.8%	7.6%
NCS* students participated in the Chinese assessment (percentage share %)	2.0%	2.0%	2.1%	2.8%	4.5%
Expenditure involved#	\$86,000	\$88,000	\$78,000	\$53,000	\$11,000
<b>Primary 6</b>					
Total number of students participated in TSA	5 694	52 510	4 012	47 317	1 952
Students with SEN* (percentage share %)	6.4%	7.2 %	8.2%	8.2%	7.9%
NCS* students participated in the Chinese assessment (percentage share %)	1.4%	1.6%	2.3%	2.8%	4.9%
Expenditure involved#	\$7,000	\$78,000	\$5,000	\$44,000	\$4,000
<b>Secondary 3</b>					
Total number of students participated in TSA	71 006	65 344	59 725	59 776	55 278
Students with SEN* (percentage share %)	2.6%	3.4%	4.0%	4.5%	5.3%
NCS* students participated in the Chinese assessment (percentage share %)	0.5%	0.6%	0.7%	2.3%	2.4%
Expenditure involved#	\$37,000	\$45,000	\$37,000	\$34,000	\$75,000
Total expenditure for three levels	\$130,000	\$211,000	\$120,000	\$131,000	\$90,000

\* These students with SEN and NCS students were all provided with facilitation measures according to their needs as requested by schools.

# Breakdown of expenditure is a pro rata calculation according to the number of students.

(d) Fifty-six primary schools participated in the 2016 Tryout Study (Primary 3), which are of different school types (i.e. government, aided, Direct Subsidy Scheme and private). Their percentage share in all primary schools in the territory is 11%, 68%,14% and 7% respectively. The cost incurred was subsumed under the overall expenditure of the EDB.

(e) Curriculum, learning, teaching and assessment are intertwined. The EDB does not provide support services merely due to school's participation in TSA.

(f) The details for the meetings of the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (Committee) as well as the Working Group on Administration and Reporting and the Working Group on Papers and Question Design are as follows:

	<b>Meeting dates</b>	<b>Attendance rate (%)</b>
The Committee	10 Dec 2015	81%
	23 Dec 2015	71%
	18 Jan 2016	81%
	4 Feb 2016	76%
	2 Jun 2016	76%
	27 Sep 2016	86%
	22 Nov 2016	76%
	7 Dec 2016	83%
	28 Feb 2017	81%
Working Group on Administration and Reporting	5 Jan 2016	100%
	21 Jan 2016	82%
	9 Mar 2016	82%
	29 Apr 2016	82%
	6 Sep 2016	94%
	25 Oct 2016	76%
Working Group on Papers and Question Design	23 Dec 2015	81%
	6 Jan 2016	79%
	25 Jan 2016	83%
	25 Feb 2016	69%
	16 May 2016	67%
	12 Sep 2016	100%
	17 Nov 2016	71%

(g) BCA comprises two components, namely the TSA and SA, which are complementary to one another to achieve the best impact. When the project was at an early stage of development, engaging one single institution to implement both the TSA and SA was considered necessary in ensuring consistency in defining and assessing the basic competencies of different subjects.

In the light of the development over the years, the EDB invited other institutions through open quotations to participate in designing and setting items for SA in 2011. In enriching and expanding the SA assessment bank, two tertiary institutions have been involved in the development of assessment tasks on Chinese Reading and English Reading and Writing through open invitation for quotations in 2015. Following up Audit Commission's recommendation on the single tender approach for implementing the SA programme, we have conducted an open quotation exercise for the provision of service on converting SA items to web-based format in October 2015. Open quotation approach has been adopted in procuring similar services in the financial year of 2016-17.

(h) In weighing the proposed merger of the Primary 6 TSA and Pre S1 Hong Kong Attainment Test (Pre S1 HKAT), we have to take into consideration the objectives, essence, contents and operation of the two assessments. First, unlike the TSA which provides information on students' attainment of Basic Competencies in the three subjects of Chinese Language, English Language and Mathematics, the Pre S1 HKAT only provides information on the relative strengths and weaknesses of students in these three subjects to facilitate secondary schools to plan in advance the learning and teaching of their Secondary 1 students. A large number of Primary 6 students participate in the Secondary School Places Allocation (SSPA) System each year. While stakeholders in general consider overreliance on academic performance at the stage of basic education (including having a high-stakes examination) for the purpose of admission to secondary schools and hence possible distortion of the primary school curriculum should be avoided, they appreciate that a mechanism is required to differentiate the performance of Primary 6 students to determine the order of allocation when the number of students choosing a school exceeds the Secondary 1 places of the school. Having balanced the views of various stakeholders, we have adopted the Pre S1 HKAT which seeks to differentiate students' performance in schools. Besides, the Pre S1 HKAT is conducted in a secure manner

to scale the internal assessment results of the following cohort of Primary 6 students progressing to Secondary1 with a view to minimising incentive for drilling.

When the Working Group on Review of Primary 6 Assessment Arrangements explored the feasibility of different modes of operation for the TSA from 2010 to 2011, it pointed out that if the different objectives of the TSA and Pre S1 HKAT were to be attained, the assessment upon the proposed merger, as compared with the existing Pre S1 HKAT, would have a much larger quantity of assessment items with more complicated contents. In addition, more rigorous pre-tests and careful calibrations, etc. would be required, which would involve a longer period. As such, the proposed merger would fail to alleviate the pressure arising from the TSA of some primary students. Worse still, it might affect the stability of the SSPA System.

Question:

Please give a breakdown, for each of the 18 districts in Hong Kong from the 2014/15 to 2016/17 school years, of the numbers of Primary 1 to Primary 6 classes in government schools, aided schools, Direct Subsidy Scheme schools, private schools, English Schools Foundation schools and international schools.

Asked by: Hon IP Kin-yuen (Member Question No. 7)

Reply:

The numbers of operating classes in primary schools by district, by grade and by sector from the 2014/15 to 2016/17 school years are detailed at Appendix 1.

**Table 1(a): Number of Operating Classes in Primary Schools by District, by Grade and by Sector, 2014/15 School Year**

District	Grade	Government	Aided	Direct Subsidy Scheme	Private	International	All Sectors
Central & Western	P1	4	46	0	16	7	73
	P2	4	47	0	16	7	74

- Notes:
- (1) Figures do not include special schools. International schools include English Schools Foundation schools.
  - (2) Figures refer to the position as at September 2014.
  - (3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.

Notes: (1) Figures do not include special schools. International schools include English Schools Foundation schools.

(2) Figures refer to the position as at September 2016.

(3) Figures on operating classes in a very small number of schools (other than the public sector) involve a small number of combined classes, i.e. classes operated in the same classroom comprising students of different grades. When counting the total number of classes in a school, combined class is treated as one class. When counting the number of classes broken down by grade, combined class is split into different classes in proportion to the number of students from different grades and the number is rounded to the nearest integer. Accordingly, figures on operating classes for individual grades may not add up to the total number of classes in schools.

Question:

Regarding the Non-profit-making Kindergartens Rent Reimbursement Scheme, please provide the following information from 2012/13 to 2016/17 school years:

- (a) the number of applications for the Non-profit-making Kindergarten Rent Reimbursement Scheme every year, the number of applications approved and the respective percentage share among local kindergartens and kindergartens subsidised by the Pre-primary Education Voucher Scheme;
- (b) the respective numbers of kindergartens that have received full and 50% reimbursement of rent under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the respective total amounts;
- (c) the highest, lowest, median and average rent subsidies received by kindergartens under the Non-profit-making Kindergarten Rent Reimbursement Scheme, and the highest, lowest, average and median rent subsidies received by the kindergartens granted with 50% reimbursement of the rent; and
- (d) the estimated expenditure of the Non-profit-making Kindergartens Rent Reimbursement Scheme in the 2017/18 school year, given the imminent launch of the Free Quality Kindergarten Education Scheme.

Asked by: Hon IP Kin-yuen (Member Question No. 8)

Reply:

Regarding the Rent Reimbursement Scheme for Non-profit-making Kindergartens (RRS), the information requested in seriatim is as follows:

- (a) The number of applications and approval granted to non-profit-making (NPM) kindergartens (KGs) for rent reimbursement and their respective percentage share among local KGs and KGs under the Pre-primary Education Voucher Scheme (PEVS) from the 2012/13 to 2016/17 school years are tabulated below:

School year	2012/13	2013/14	2014/15	2015/16	2016/17*
No. of local KGs	861	869	874	872	876
No. of KGs joining PEVS	735	724	724	732	745
No. of applications	7	8	7	5	1#
Percentage share among local KGs	0.8%	0.9%	0.8%	0.6%	0.1%
Percentage share among KGs joining PEVS	1.0%	1.1%	1.0%	0.7%	0.1%
No. of approval granted	0	2	3	3	0
Percentage share among local KGs	Not applicable	0.2%	0.3%	0.3%	Not applicable
Percentage share among KGs joining PEVS	Not applicable	0.3%	0.4%	0.4%	Not applicable

\* Position as of February 2017.

# The application is still under processing.

- (b) The respective number of KGs that have received full and 50% reimbursement of rent under RRS; and the respective total amount of subsidy disbursed to these KGs in 2012-13, 2013-14, 2014-15 and 2015-16 are tabulated below. The information for 2016-17 is not yet available.

Financial Year	No. of KGs in receipt of rent reimbursement		Total amount of rent reimbursed	
	Full	50%	Full	50%
2012-13	377	3	\$163,011,828	\$638,600
2013-14	379	3	\$172,929,994	\$511,350
2014-15	381	3	\$185,472,576	\$702,517
2015-16	385	3	\$200,392,505	\$616,038

- (c) The respective highest, lowest, median and average rent subsidy provided to KGs in receipt of full and 50% reimbursement of rent in 2012-13, 2013-14, 2014-15 and 2015-16 are tabulated below. The information for 2016-17 is not yet available.

Financial Year	Rent Reimbursement							
	Highest Rent		Lowest Rent		Median Rent		Average Rent	
	Full	50%	Full	50%	Full	50%	Full	50%
2012-13	\$4,176,000	\$340,000	\$37,476	\$121,600	\$368,100	\$177,000	\$432,392	\$212,867
2013-14	\$4,190,000	\$245,000	\$37,476	\$89,350	\$387,732	\$177,000	\$456,280	\$170,450
2014-15	\$4,200,000	\$310,250	\$37,476	\$121,457	\$412,000	\$270,810	\$486,805	\$234,172
2015-16	\$4,606,000	\$261,750	\$37,476	\$144,720	\$432,000	\$209,568	\$520,500	\$205,346

- (d) The estimated expenditure on rental subsidy for NPM KGs in 2017-18 is \$314 million.

- End -

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

For 2013/14 to 2016/17 school years, please tabulate the following information:

- (a) the numbers of qualified in-service kindergarten teachers, and the numbers of principals and teachers among them;
- (b) the respective number of teachers in whole-day kindergartens, half-day kindergartens and kindergartens with both half-day and whole-day classes;
- (c) the respective numbers of teachers in kindergartens under and not under the subsidy of the Pre-primary Education Voucher Scheme (PEVS);
- (d) the numbers and percentages of kindergarten teachers holding a Certificate in Early Childhood Education (C(ECE)), the numbers and percentages of kindergarten teachers pursuing a C(ECE) programme;
- (e) the numbers and percentages of kindergarten principals holding a Bachelor Degree in Early Childhood Education (BEd(ECE)), the numbers and percentages of principals pursuing a BEd(ECE) programme; please give a breakdown of the total numbers by PEVS kindergartens and non-PEVS kindergartens;
- (f) the respective numbers of kindergarten teachers holding a Master Degree in Early Childhood Education (Med(ECE)) or pursuing a Med(ECE) programme;
- (g) the respective numbers of teachers holding a C(ECE), BEd(ECE) or a Med(ECE) in each year, and their annual rates of increase;
- (h) the respective numbers and percentages of wastage of whole-day and half-day kindergarten teachers, the age distribution and length of service of these teachers, as well as the numbers and percentages of them holding a Certificate/Diploma, Bachelor Degree or a Master Degree in Early Childhood Education; and
- (i) if the above data is not available, what are the reasons? Is there any plan to collect such data?

Asked by: Hon IP Kin-yuen (Member Question No. 9)

Reply:

- (a) The respective number of qualified kindergarten (KG) teachers serving in local KGs, and the number of principals and teachers among them from the 2013/14 to 2016/17 school years is tabulated below:

School year	Number of principals (a)	Number of qualified KG teachers (b)	Total number of qualified KG teachers (a)+(b)
2013/14	872	10 179	11 051
2014/15	868	10 727	11 595
2015/16	873	11 095	11 968
2016/17	881	11 445	12 326

- (b) The respective number of qualified KG teachers serving in local whole-day (WD) KGs, half-day (HD) KGs and KGs with both HD and WD classes from the 2013/14 to 2016/17 school years is tabulated below:

School year	Number of qualified KG teachers		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2013/14	2 165	3 031	5 855
2014/15	2 290	3 319	5 986
2015/16	2 396	3 598	5 974
2016/17	2 506	3 743	6 077

- (c) The respective number of qualified teachers serving in local KGs under and not under the subsidy of the Pre-primary Education Voucher Scheme (PEVS) from the 2013/14 to 2016/17 school years is tabulated below:

School Year	Number of qualified KG teachers	
	PEVS KGs	Non-PEVS KGs
2013/14	9 105	1 946
2014/15	9 546	2 049
2015/16	9 970	1 998
2016/17	10 417	1 909

- (d) The respective number and percentage of serving KG teachers holding a Certificate in Early Childhood Education (C(ECE)) qualification in local KGs from the 2013/14 to 2016/17 school years is tabulated below:

School Year	Number of serving KG teachers (%) holding C(ECE) in local KGs
2013/14	10 171 (87.6%)
2014/15	10 923 (90.4%)
2015/16	11 377 (91.2%)
2016/17	11 819 (92.7%)

The number and percentage of serving KG teachers pursuing C(ECE) programmes in local KGs from the 2013/14 to 2016/17 school years is tabulated below:

School Year	Number of serving KG teachers (%) pursuing C(ECE)
2013/14	1 072 (9.2%)
2014/15	988 (8.2%)
2015/16	643 (5.2%)
2016/17	583 (4.6%)

- (e) The respective number and percentage of serving KG principals holding a Bachelor Degree in Early Childhood Education (BEd(ECE)); and the respective number and percentage of principals pursuing a BEd(ECE) in local KGs under and not under PEVS from the 2013/14 to 2016/17 school years are tabulated below:

School Year	Number of serving KG principals (%) holding BEd(ECE)			Number of serving KG principals (%) pursuing BEd(ECE)			Grand Total (%)
	PEVS KGs	Non-PEVS KGs	Total	PEVS KGs	Non-PEVS KGs	Total	
2013/14	592 (81.1%)	92 (61.3%)	684 (77.7%)	14 (1.9%)	6 (4.0%)	20 (2.3%)	704 (80.0%)
2014/15	611 (84.2%)	88 (60.3%)	699 (80.2%)	7 (1.0%)	9 (6.2%)	16 (1.8%)	715 (82.0%)
2015/16	628 (85.3%)	90 (65.2%)	718 (82.2%)	7 (1.0%)	1 (0.7%)	8 (0.9%)	726 (83.1%)
2016/17	642 (85.9%)	86 (64.2%)	728 (82.6%)	4 (0.5%)	1 (0.7%)	5 (0.6%)	733 (83.2%)

- (f) Information on the number of serving KG teachers holding a Master Degree in Early Childhood Education (MEd(ECE)) or pursuing a MEd(ECE) programme is not available. The Education Bureau (EDB) conducts annual questionnaire survey to collect information on the type of teacher training in ECE held by KG teachers in KGs in September of each school year. The information on MEd(ECE) has not been collected.
- (g) The respective number and annual rate of increase of serving KG teachers holding C(ECE) and BEd(ECE) in local KGs from the 2013/14 to 2016/17 school years is tabulated below. The information on MEd(ECE) has not been collected.

School Year	Number of serving KG teachers (annual rate of increase* in the specified period)	
	Holding C(ECE)	Holding BEd(ECE)
2013/14	6 311 (1.6%)	3 860 (21.2%)
2014/15	6 543 (3.7%)	4 380 (13.5%)
2015/16	6 430 (-1.7%)	4 947 (12.9%)
2016/17	6 339 (-1.4%)	5 480 (10.8%)

\* The annual rate of increase refers to the increase in the number of KG teachers holding C(ECE)/BEd(ECE) or equivalent as compared with the number of such teachers in the previous school year.

- (h) The respective number and percentage of wastage<sup>#</sup> in local WD KGs, HD KGs and KGs with both HD and WD classes; the age distribution and average years of service of these teachers; as well as the number and percentage of them holding C(ECE) and BEd(ECE) from the 2013/14 to 2016/17 school years are tabulated below. The information on MEd(ECE) has not been collected.
- (i) Number and percentage of wastage in local WD KGs, HD KGs and KGs with both HD and WD classes

School year	Number of wastage (%) in local KGs		
	KGs operating WD classes only	KGs operating HD classes only	KGs operating both HD and WD classes
2013/14	136 (6.5%)	263 (8.2%)	491 (8.5%)
2014/15	161 (7.3%)	280 (8.6%)	627 (10.2%)
2015/16	157 (6.8%)	328 (9.2%)	554 (8.9%)
2016/17	232 (9.6%)	416 (10.8%)	663 (10.7%)

(ii) Age distribution of drop-out teachers in local KGs

2013/14 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	306	313	161	91	19	890

2014/15 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	359	330	204	146	29	1 068

2015/16 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	388	298	179	140	34	1 039

2016/17 school year						
Age group	Below 30	30 – 39	40 – 49	50 – 59	60 or above	Total
No. of wastage	480	362	250	170	49	1 311

(iii) Average years of service of drop-out teachers in local KGs

School year	Average years of service
2013/14	11.3
2014/15	12.0
2015/16	11.0
2016/17	11.6

(iv) Number and percentage of drop-out teachers holding C(ECE) and BEd(ECE) in local KGs

School year	Holding C(ECE)	Holding BEd(ECE)
2013/14	407 (45.7%)	183 (20.6%)
2014/15	464 (43.4%)	225 (21.1%)
2015/16	508 (48.9%)	251 (24.2%)
2016/17	599 (45.7%)	368 (28.1%)

# “Wastage rate” refers to the number of drop-out teachers as a percentage of the total number of teachers in local KGs as at mid-September of the preceding school year. “Drop-out teacher” refers to the teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

- (i) EDB conducts an annual questionnaire survey to collect information, among others, on the type of teacher training qualification in ECE held by KG teachers in September of each school year. The data requested at (a) to (h) is provided above. As holding a MEd(ECE) or equivalent qualification is currently not a policy requirement for the appointment of KG principals/teachers, this information has not been collected, and there is no plan to collect such information at this stage.

Note: Figures for the 2016/17 school year are provisional.

- End -

**(Question Serial No. 0249)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the 2015/16 and 2016/17 school years, please provide the following information:

(a) the respective numbers of teachers in whole-day kindergartens under the subsidy of the Pre-primary Education Voucher Scheme (PEVS) whose salary is \$17,685 (i.e. salary point 7) or above and whose salary is below \$17,685, and the percentage share of these teachers in the total number of teachers in whole-day kindergartens;

(b) the respective average salaries, median salaries, highest salaries and lowest salaries for teachers in whole-day and half-day kindergartens under the subsidy of the PEVS;

(c) the respective numbers of principals of whole-day kindergartens under the subsidy of the PEVS whose salary is \$26,700 (i.e. salary point 14) or above and whose salary is below \$26,700, and the percentage share of these principals in the total number of principals of whole-day kindergartens as well as the respective average salaries, median salaries, highest salaries and lowest salaries for principals of whole-day and half-day kindergartens under the subsidy of the PEVS;

(d) if information on the principals has not been collected, whether the Bureau will collect information regarding item (c) at the same time when conducting annual questionnaire survey on the monthly salary of full-time regular kindergarten teachers in September of each school year, and the considering factors when deciding whether to collect the information or not;

(e) the respective average salaries, median salaries, highest salaries and lowest salaries for teachers and principals of local private independent kindergartens as well as whole-day and half-day kindergartens; and

(f) from the 2013/14 to 2016/17 school years, the median salary and its rate of increase for teachers in whole-day kindergartens under the subsidy of the PEVS in each year.

Asked by: Hon IP Kin-yuen (Member Question No. 10)

Reply:

- (a) The respective number and percentage of teachers in whole-day (WD) kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) whose salary is \$17,685 or above and those below \$17,685 in the 2015/16 and 2016/17 school years are tabulated below:

2015/16 school year

Monthly salary level	No. of teachers in WD KGs under PEVS	Percentage (%) share of the total no. of teachers in WD KGs
\$17,685 or above	1 714	83.7%
Below \$17,685	335	16.3%
Total	2 049	100%

2016/17 school year

Monthly salary level	No. of teachers in WD KGs under PEVS	Percentage (%) share of the total no. of teachers in WD KGs
\$17,685 or above	2 046	95.1%
Below \$17,685	106	4.9%
Total	2 152	100%

- (b) The respective average salary, median salary, highest salary and lowest salary of teachers in WD KGs and half-day (HD) KGs under PEVS in the 2015/16 and 2016/17 school years are tabulated below:

2015/16 school year

	Salary of teachers in KGs under PEVS		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$21,950	\$23,139	\$19,992
Median salary	\$20,600	\$22,490	\$18,705
Highest salary	\$59,445	\$39,360	\$85,323
Lowest salary	\$8,000	\$8,645	\$8,000

2016/17 school year

	Salary of teachers in KGs under PEVS		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$23,640	\$24,324	\$21,314
Median salary	\$22,430	\$22,900	\$20,060
Highest salary	\$70,688	\$41,318	\$92,531
Lowest salary	\$9,023	\$10,766	\$8,465

- (c) & (d)

- (i) The respective number and percentage of principals serving in WD KGs under PEVS whose salary is \$26,700 or above and those below \$26,700 in the 2015/16 and 2016/17 school years are tabulated below:

2015/16 school year

Monthly salary level	No. of principals in WD KGs under PEVS	Percentage (%) share of the total no. of principals in WD KGs
\$26,700 or above	225	98.7%
Below \$26,700	3	1.3%
Total	228	100%

2016/17 school year

Lowest salary	\$21,263	\$28,040	\$11,600

- (e) (i) The respective average salary, median salary, highest salary and lowest salary for teachers in local private independent (PI) WD KGs and HD KGs in the 2015/16 and 2016/17 school years are tabulated below:

2015/16 school year

	Salary of teachers in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$23,941	\$21,409	\$21,379
Median salary	\$22,280	\$19,500	\$18,000
Highest salary	\$81,237	\$35,890	\$90,738
Lowest salary	\$10,500	\$16,500	\$9,100

2016/17 school year

	Salary of teachers in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$25,026	\$22,977	\$22,256
Median salary	\$23,814	\$21,378	\$18,600
Highest salary	\$85,707	\$37,570	\$99,881
Lowest salary	\$8,900	\$17,000	\$9,250

- (ii) The average salary, median salary, highest salary and lowest salary for principals in local PI WD KGs and HD KGs in the 2015/16 and 2016/17 school years are tabulated below:

2015/16 school year

	Salary of principals in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$46,292	\$38,295	\$38,882
Median salary	\$42,500	\$38,295	\$32,000
Highest salary	\$75,000	\$40,700	\$74,000
Lowest salary	\$27,300	\$35,890	\$18,800

2016/17 school year

	Salary of principals in local PI KGs		
	KGs with HD classes only	KGs with WD classes only	KGs with both HD and WD classes
Average salary	\$44,401	\$41,275	\$38,396
Median salary	\$38,000	\$41,275	\$33,500
Highest salary	\$71,207	\$43,200	\$67,870
Lowest salary	\$23,750	\$39,350	\$18,800

- (f) The median salary and its rate of increase for full-time regular KG teachers serving in WD KGs under PEVS from the 2013/14 to 2016/17 school years are as follows:

School Year	2013/14	2014/15	2015/16	2016/17
Median salary	\$20,115	\$20,905	\$22,490	\$22,900
Year-on-year % change	5.8%	3.9%	7.6%	1.8%

Note: Information provided in the reply is based on an annual questionnaire survey on the monthly salary of full-time regular KG teachers conducted by EDB in September of the respective school years. The figures for the 2016/17 school year are provisional.

**CONTROLLING OFFICER'S REPLY**

**EDB090**

**(Question Serial No. 0250)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please provide the following information for the 2012/13 to 2016/17 school years:

- (a) the amount of Government subsidies under the Pre-primary Education Voucher Scheme (PEVS) and all the expenditures on pre-primary education (e.g. fee remission, training and rent subsidies);
- (b) the number of whole-day kindergartens under the subsidy of PEVS, the number of school places provided and the number of these kindergartens providing Extended Hours Service (please list by school district and provide the total numbers);
- (c) the number of half-day kindergartens under the subsidy of PEVS and the number of school places provided (please list by school district and provide the total numbers); and
- (d) the number of kindergartens providing both whole-day and half-day services under the subsidy of PEVS and the number of school places provided (please list by school district and provide the total numbers).

Asked by: Hon IP Kin-yuen (Member Question No. 11)

Reply:

- (a) The breakdown of expenditure on pre-primary education, including Pre-primary Education Voucher Scheme (PEVS), from 2012-13 to 2016-17 is tabulated at Appendix 1.
- (b) The number of whole-day (WD) kindergartens (KGs) under the PEVS, the number of school places provided and the number of these KGs providing Extended Hours Service by District Council district and the respective total number from the 2012/13 to 2016/17 school years is tabulated at Appendix 2.
- (c) The number of half-day (HD) KGs under the PEVS and the number of school places provided by District Council district and the respective total number from the 2012/13 to 2016/17 school years is tabulated at Appendix 3.
- (d) The number of KGs providing both WD and HD service under the PEVS and the number of school places provided by District Council district and the respective total number from the 2012/13 to 2016/17 school years is tabulated at Appendix 4.

## Expenditure on pre-primary education from 2012-13 to 2016-17

	2012-13	2013-14	2014-15	2015-16	2016-17
	(\$ million)				
	(Actual)	(Actual)	(Actual)	(Actual)	(Revised Estimate)
Pre-primary Education Voucher Scheme (PEVS)*	2,128.1	2,428.6	2,535.7	2,957.2	3,193.8
Kindergarten and Child Care Centre Fee Remission Scheme	395.3	465.8	539.9	529.0	580.5
Refund of rent, rates and government rent	202.5	218.8	238.0	256.3	275.2
Child Care Centre Subsidy Scheme	14.6	15.2	15.9	15.6	15.4
Principal and teacher training#	7.3	1.0	3.7	1.5	1.0

\* Including Teacher Development Subsidy provided under the PEVS up to the 2011/12 school year, and the one-off school development grant for PEVS KGs in the 2013/14 school year.

# Including the payments for the commissioned “Three-Year-In-service Certificate in Early Childhood Education Course” (In-service ECE Course) for the 2009 intakes (as applicable) and course fee reimbursement to principals and teachers of kindergartens and kindergarten-cum-child care centres not under the PEVS for approved course(s) in early childhood education. There was a drop in the actual expenditure for 2013-14 as the commissioned In-service ECE Course was completed by phases and only payment for the last intake of the course (i.e. 2009 Intake) was required for 2012-13 and no payment was required for 2013-14. The expenditure for 2014-15 increased because we offered course fee reimbursement for KG principals and teachers serving in PEVS KGs who pursued relevant approved courses in the 2012/13 and/or 2013/14 school year and successfully completed the course by the end of the 2013/14 school year with a view to further supporting their professional upgrading. The expenditure for 2016-17 slightly decreased because a project on thematic workshops for the 2015/16 school year has been completed. For other training programmes organised by various Sections of the Education Bureau (EDB), the relevant manpower resources and expenditure have been subsumed under the overall expenditure of EDB.

**CONTROLLING OFFICER'S REPLY**

**EDB091**

**(Question Serial No. 0251)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please provide the following information for the 2013/14 to 2016/17 school years:

- (a) The respective number of whole-day and half-day kindergarten students under the subsidy of the Pre-primary Education Voucher Scheme (PEVS), the respective number and percentage of whole-day and half-day kindergarten students who are issued with education vouchers but still have to pay school fees in excess of the voucher value as well as the average extra amount of school fees paid;
- (b) The respective number and percentage of half-day kindergarten students under the subsidy of the PEVS who have to pay extra amount of school fees of below \$100, \$100 to below \$400, \$400 to below \$700, \$700 to below \$1,000, \$1,000 to below \$1,300, \$1,300 to below \$1,600 and \$1,600 or above;
- (c) The respective number and percentage of whole-day kindergarten students under the subsidy of the PEVS who have to pay extra amount of school fees of below \$500, \$500 to below \$1,000, \$1,000 to below \$2,000, \$2,000 to below \$3,000, \$3,000 to below \$4,000 and \$4,000 or above; and
- (d) The expenditures on the subsidy allocated to the PEVS and any other expenditures on pre-primary education (including Kindergarten and Child Care Centre Fee Remission Scheme, principal and teacher training, and rent, rates and government rent subsidies, etc.) in table form.

Asked by: Hon IP Kin-yuen (Member Question No. 12)

Reply:

(a), (b) and (c)

The information requested in (a) to (c) is tabulated at Appendix 1. On top of the non-means-tested fee subsidy under the Pre-primary Education Voucher Scheme, fee remission is provided for parents in need under the Kindergartens and Child Care Centre Fee Remission Scheme (KCFRS) for their children to receive kindergarten education. The level of fee remission is 100%, 75% or 50% of the difference between the voucher subsidy and the actual fee or the fee remission ceiling (i.e. \$31,400 for a half-day place and \$48,600 for a whole-day place for the 2016/17 school year), whichever is lower.

(d)

The breakdown of expenditure on pre-primary education from 2013-14 to 2016-17 is tabulated at Appendix 2.

(a) The number of whole day (WD) and half day (HD) kindergarten students under the Pre-primary Education Voucher Scheme (PEVS)

	2013/14 school year		2014/15 school year		2015/16 school year		2016/17 School year (Provisional)	
	HD	WD	HD	WD	HD	WD	HD	WD
(i) Number of students under PEVS	89 204	42 516	90 427	42 873	95 548	43 652	94 896	44 842
(ii) Number of students paying school fee on top of the voucher subsidy	78 454	42 456	77 979	42 841	80 462	43 583	81 907	44 809
(iii) Percentage (%) of (ii) over (i)	87.9%	99.9%	86.2%	99.9%	84.2%	99.8%	86.3%	99.9%
(iv) Average amount of school fee on top of the voucher subsidy	\$4,923	\$17,081	\$4,743	\$17,604	\$4,875	\$18,683	\$5,650	\$21,449

(b) The number of half-day kindergarten students under the PEVS

\$4,000 or above	42 424	99.92	42 490	99.18	43 150	99.00	44 520	99.36

The breakdown of expenditure on pre-primary education from 2013-14 to 2016-17 are as follows:

	2013-14	2014-15	2015-16	2016-17
	(\$ million)	(\$ million)	(\$ million)	(\$ million)
	(Actual)	(Actual)	(Actual)	(Revised Estimate)
Pre-primary Education Voucher Scheme (PEVS)*	2,428.6	2,535.7	2,957.2	3,193.8
Kindergarten and Child Care Centre Fee Remission Scheme	465.8	539.9	529.0	580.5
Refund of rent, rates and government rent	218.8	238.0	256.3	275.2
Child Care Centre Subsidy Scheme	15.2	15.9	15.6	15.4
Principal and teacher training#	1.0	3.7	1.5	1.0

\* Including the one-off school development grant for PEVS KGs in the 2013/14 school year.

# The expenditure for 2014-15 increased because we offered course fee reimbursement for KG principals and teachers serving in PEVS KGs who pursued relevant approved courses in the 2012/13 and/or 2013/14 school year and successfully completed the course by the end of the 2013/14 school year with a view to further supporting their professional upgrading.

**(Question Serial No. 0252)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please provide the following information for the 2012/13 to 2016/17 school years:

- (a) The total number of school-age children attending kindergartens (KGs) and the percentage;
- (b) A breakdown for each of the 18 districts in Hong Kong of the number of K1 students attending KGs in the respective district in each school year;
- (c) The number of local non-profit-making (NPM) KGs, local private independent (PI) KGs and non-local/international KGs as well as the breakdown of the number of teachers and students in these KGs and their total number;
- (d) The number of local NPM KGs and the number of teachers and students in these KGs. Also, please provide figures by the following categories: NPM KGs joining the Pre-primary Education Voucher Scheme (PEVS) and NPM KGs not joining the PEVS;
- (e) The number of local PI KGs not joining the PEVS and the number of teachers and students in these KGs;
- (f) The increase/decrease in the number of NPM KGs converted from PI KGs in each year, such change in percentage and the actual accumulated number;
- (g) The number of kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the number of KG-cum-CCCs joining the PEVS, and the number of teachers and students involved;
- (h) The number of KGs/nursery schools with whole-day classes and the number of teachers and students involved; the number of KGs/nursery schools with whole-day classes receiving subsidies under the PEVS, the number of teachers and students involved, and their percentage share among the kindergarten students receiving subsidies under the PEVS;
- (i) The respective numbers and percentages of whole-day and half-day kindergarten students receiving subsidies under the PEVS;
- (j) The number of KGs withdrawn from the PEVS from the 2013/14 to 2016/17 school years, and their increase/decrease in percentage when compared with the previous year; and
- (k) Has the Education Bureau (EDB) collected rental-related information of all types of KGs, such as the types of school premises, whether the school premises are privately owned or rental properties and the rental of school premises. If no, how does EDB do planning for issues relating to kindergarten premises and the estimated expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 13)

Reply:

For the 2012/13 to 2016/17 school years,

- (a) the respective total number of children attending kindergartens (KGs) and the gross enrolment ratios of participation in kindergarten education are tabulated at Appendix 1;
- (b) the respective number of K1 students attending KGs by District Council district are tabulated at Appendix 2;
- (c) the respective number of local non-profit-making (NPM) KGs, local private independent (PI) KGs, non-local KGs, and the number of teachers and students in these KGs and the respective total number are tabulated at Appendix 3;
- (d) the respective number of local NPM KGs joining the Pre-primary Education Voucher Scheme (PEVS) and NPM KGs not joining PEVS and the number of teachers and students in these KGs are tabulated at Appendix 4. There was no conversion of PI KGs in the NPM operation for the purpose of admission to the PEVS during the period;
- (e) the respective number of local PI KGs not joining PEVS, and the number of teachers and students in these KGs are tabulated at Appendix 5;
- (f) the respective increase/decrease in the number of PI KGs converted to NPM KGs for joining PEVS, such change in percentage and the actual accumulated number are tabulated at Appendix 6;
- (g) the respective number of local kindergarten-cum-child care centres (KG-cum-CCCs) in the territory, the number of KG-cum-CCCs joining PEVS, and the number of teachers and students in these KG-cum-CCCs are tabulated at Appendix 7;
- (h) the respective number of local KGs/KG-cum-CCCs with whole-day (WD) classes, and the number of their teachers and students, number of KGs/KG-cum-CCCs with WD classes joining PEVS, and the number of their teachers and students, and their percentages among the KG students under the subsidy of PEVS are tabulated at Appendix 8;
- (i) the respective number and percentages of WD and HD KG students under the subsidy of PEVS are tabulated at Appendix 9; and
- (j) the number of KGs withdrawn from the PEVS from the 2013/14 to 2016/17 school years, and their increase/decrease in percentage when compared with the previous year are tabulated at Appendix 10.
- (k) Rental related information is captured through various sources including the KG fee revision exercise, the Rent Reimbursement Scheme and the EDB-administered school allocation or nomination mechanism. KGs in housing estates operated in premises allocated under the school allocation or nomination mechanisms which are paying rental at concessionary rate as assessed by the Hong Kong Housing Authority and stipulated in the tenancy agreements are provided with rental subsidy. Besides, KGs which are former aided child care centres under Social Welfare Department are also provided with rental subsidy. For other KGs, rental subsidy is considered on individual merits with reference to a number of factors such as proven demand for KG places in the district concerned, operating standard of the KG, its NPM status, school fees level, etc. The estimated expenditure on rental subsidy in 2017-18 is \$314 million.

Total number of children attending kindergartens (KGs) and  
Gross enrolment ratios (GER) of participation in kindergarten education  
from the 2012/13 to 2016/17 school years

School Year	2012/13	2013/14	2014/15	2015/16 (Revised)	2016/17 (Provisional)
Total number of children attending KGs (Note 1)	166 400	171 497	178 119	187 155	185 799
GER (%) (Note 2)	101.9	100.4	99.2	98.7%	101.8%

Note 1: Position as at September of the school year.

Note 2: GER is defined as total enrolment in KGs (including KGs, kindergarten-cum-child care centres and Special Child Care Centres), regardless of age, expressed as a percentage of the school-age-population corresponding to the same level of education in a given school year. Hence, the percentage can exceed 100%. The school-age population for the KG level refers to children of 3-5 years old. GER for 2012/13 to 2014/15 and GER for 2015/16 to 2016/17 have been compiled using the population estimates which have incorporated the benchmarking data available from the 2011 and 2016 Population Census respectively.

Question:

Please provide the following information for the 2012/13 to 2016/17 school years:

- (a) the respective average school fees, median school fees, highest school fees and lowest school fees charged by whole-day and half-day kindergartens under the subsidy of the Pre-primary Education Voucher Scheme (PEVS);
- (b) the respective average school fees, median school fees, highest school fees and lowest school fees charged by private independent whole-day and half-day kindergartens;
- (c) the respective average school fees, median school fees, highest school fees and lowest school fees charged by non-profit-making whole-day and half-day kindergartens not joining the PEVS;
- (d) the respective number of whole-day and half-day kindergartens under the PEVS that have obtained the approval to increase their school fees, and the greatest, smallest and average rate of increase; and
- (e) under the kindergarten fee remission scheme, the total expenditures, the respective number of whole-day and half-day kindergarten students applying for fee remission, the respective number and percentage of successful applicants for fee remission, as well as the respective number and percentage of students granted a level of remission at 50%, 75% and 100% in each of the school years from 2012/13 to 2016/17.

Asked by: Hon IP Kin-yuen (Member Question No. 14)

Reply:

For the 2012/13 to 2016/17 school years,

- (a) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for whole-day (WD) and half-day (HD) classes charged by kindergartens (KGs) under the Pre-primary Education Voucher Scheme (PEVS) are tabulated at Appendix 1;
- (b) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for WD and HD classes charged by local private independent KGs are tabulated at Appendix 2;
- (c) the respective weighted average school fees, median school fees, highest school fees and lowest school fees for WD and HD classes charged by non-profit-making (NPM) KGs not under the PEVS are tabulated at Appendix 3;

- (d) the respective number of NPM WD and HD KGs under the PEVS that have been approved to increase their school fees, and the highest, lowest and rates of increase of the weighted average school fees are tabulated at Appendix 4; and
- (e) the respective amount of fee remission disbursed under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS), number of applications from parents with children attending KGs for fee remission under the KCFRS, number and percentage of approved applications and number and percentage of students granted with a level of assistance at 50%, 75% and 100% of the school fee or the fee remission ceiling are tabulated at Appendix 5.

Weighted average school fee,  
median school fee, highest school fee and lowest school fee  
for whole-day (WD) and half-day (HD) classes charged by  
kindergartens under the Pre-primary Education Voucher Scheme  
from the 2012/13 to 2016/17 school years

School Year		2012/13	2013/14	2014/15	2015/16	2016/17

Number of non-profit making (NPM)  
whole-day (WD) and half-day (HD) kindergartens (KGs)  
under the Pre-primary Education Voucher Scheme (PEVS) with fee increase,  
and the highest, lowest and rate of increase of weighted average school fee  
from the 2012/13 to 2016/17 school years

2012/13 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	436	382
The highest rate of increase	34.9%	26.0%
The lowest rate of increase	0.03%	0.40%
The rate of increase of the weighted average fee	4.1%	4.1%

2013/14 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	468	383
The highest rate of increase	27.1%	64.5%
The lowest rate of increase	0.66%	0.55%
The rate of increase of the weighted average fee	5.2%	4.9%

2014/15 school year (Note 2)	WD	HD
Number of NPM KGs under the PEVS with school fees increased	548	433
The highest rate of increase	102.8%	82.7%
The lowest rate of increase	0.01%	0.16%
The rate of increase of the weighted average fee	9.0%	10.8%

2015/16 school year (Note 2)	WD	HD
Number of NPM KGs under the PEVS with school fees increased	551	429
The highest rate of increase	40.2%	61.6%
The lowest rate of increase	0.28%	0.30%
The rate of increase of the weighted average fee	9.3%	11.0%

2016/17 school year	WD	HD
Number of NPM KGs under the PEVS with school fees increased	453	314
The highest rate of increase	35.0%	45.6%
The lowest rate of increase	0.00%	0.02%
The rate of increase of the weighted average fee	8.5%	6.1%

Note:

1. KGs with both HD and WD classes will be counted in both columns for HD and WD.
2. As a one-off short-term measure recommended by the Committee on Free KG Education to address the imminent needs of KGs, the voucher subsidy was increased by \$2,500 per year in the 2014/15 and 2015/16 school years. The increase in voucher subsidy provided more room for the KGs to increase their school fees to meet the increasing operating cost. At the same time, the increased amount of voucher subsidy would offset the increase in school fees so that parents' financial burden regarding KG education could be alleviated. Hence, the number of KGs under the PEVS with school fees increased and the rates of increase in the 2014/15 and 2015/16 school years are higher than those in previous years.

Amount of fee remission disbursed  
under the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS),  
number of applications from parents with children attending KGs for fee remission under the KCFRS,  
number and percentage of approved applications and

**(Question Serial No. 0254)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the forthcoming Free Quality Kindergarten Education Scheme, please advise of the following:

- (a) According to the estimation of the Government, the above scheme will involve an additional recurrent expenditure of \$6.7 billion per year. Please specify the purpose of this \$6.7 billion, including the items to be covered, with a breakdown of expenditure.
- (b) According to the Hong Kong Planning Standards and Guidelines, the provision of whole-day/long whole-day kindergarten places shall be revised from the current ratio of 30% to 50%. What are the specific measures, implementation timetable and additional expenditure involved?
- (c) What will be the expenditure for enhancing kindergartens' support for students with diverse learning needs? Is there any plan to create the post of teacher coordinator for special educational needs or increase manpower in each needy kindergarten? If yes, what are the implementation timetable and estimated expenditure? If no, what are the reasons?
- (d) Does the Education Bureau have any plan to set a mandatory salary scale for kindergarten teachers? If yes, what are the implementation timetable and estimated expenditure? If no, what are the reasons?
- (e) For the two-year tide-over grant applicable to long-serving teachers, will the Education Bureau make plans for the arrangement after two years at the earliest possible time? If yes, what are the implementation timetable and estimated expenditure? If no, what are the reasons?
- (f) To create a career ladder for kindergarten teachers and build an all-graduate teaching force, are there plans to set aside dedicated funds to support training of kindergarten teachers and is there any timetable to upgrade their qualification to degree level across the board? If yes, what are the details and estimated expenditure? If no, what are the reasons?
- (g) Under the said scheme, since parents still have to pay tuition fees to about 20% of the half-day kindergartens and whole-day/long whole-day kindergartens, will the Education Bureau consider extending the scheme to cover all types of kindergartens so that kindergarten education is genuinely free? If yes, what is the timetable for review? If there is no plan for extension, will the Education Bureau consider deleting the word "Free" from the name of the scheme to avoid misunderstanding among the public?

Asked by: Hon IP Kin-yuen (Member Question No. 15)

Reply:

(a)

With the implementation of the Free Quality Kindergarten Education Scheme (Scheme), the Government's recurrent expenditure in pre-primary education under the new policy will be around \$6.7 billion in the 2017/18 school year which will be fully reflected in the financial year 2018-19. The estimated expenditure on pre-primary education in the financial year 2017-18 is around \$6 billion, including -

- (i) \$4,149 million being direct subsidies to kindergartens (KGs) with breakdown as follows -

	2017-18 (Estimate) (\$ million)
Basic unit subsidies under the Scheme (Note)	3,589
Premises-related subsidies, including rental subsidies, reimbursement of rates and government rent and premises maintenance grant	383
Other school-specific grants, including tide-over grant (ToG), grant for a cook and grant for support to non-Chinese speaking (NCS) students under the Scheme (Note)	177
Total	4,149

Note: It reflects the estimated expenditure for the first 8 months of the Scheme in the 2017/18 school year, i.e. from August 2017 to March 2018.

- (ii) \$1,116 million being expenditure for Pre-primary Education Voucher Scheme; and
- (iii) \$699 million being fee assistance and additional grant for school-related expenses to KG students, Child Care Center Subsidy Scheme, and other expenses.

(b)

According to the Hong Kong Planning Standards and Guidelines (HKPSG), the need for setting up KGs is taken into account in housing estates and large-scale private development projects where space is allocated for such uses. The current standard for provision of KG places is 730 half-day (HD) and 250 whole-day (WD) places for every 1 000 children in the age group of 3 to under 6. To meet the increasing demand and to support working parents, we are to revise it progressively to 500 HD and 500 WD places as a long-term goal to increase the supply of WD places. We have kick started liaison with the Planning Department in the review. We would have to assess and decide how the planning standard can be implemented in a progressive manner taking into account a basket of factors including the competitive use of space for different services, demand of different types of KG services, etc. Tentatively, we expect to complete the assessment in mid-2017. Subject to the progress of the work and liaison with various government departments, we target to complete the first phase of review in 2018. The aforesaid revision to HKPSG may increase the number and size of KGs to be built and space to be allocated in different locations, and we are unable to estimate the additional expenditure to be incurred.

(c)

With the implementation of the Scheme, to enable KGs participating in the Scheme (Scheme-KGs) to enhance the support to their NCS students, a grant comparable to the salary of one teacher will be provided for Scheme-KGs admitting eight or more NCS students. With the additional resources, Scheme-KGs could provide teachers with more manpower support and professional training to develop effective strategies to help NCS students learn Chinese so as to lay a foundation for their study in local primary schools and to raise teachers' empathy and cultural and religious sensitivity in handling NCS students. These Scheme-KGs can deploy the additional resources for appointing additional teacher(s) or teaching assistant(s) or acquiring services to enhance communication with the parents of NCS students. The estimated expenditure on the grant for support to NCS students is \$30 million in 2017-18 (Note). In tandem, teacher training and school-based support will be enhanced. All KGs, irrespective of the number of NCS students admitted, may apply to join. The estimated expenditure on specific training on support to NCS students is \$1.2 million in 2017-18 (Note). School-based professional support services are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant expenditures have been subsumed under the overall expenditure of EDB. Besides, starting from the 2016/17 school year, the Education University of Hong Kong (EdUHK) has also offered a new University Grants Committee (UGC)-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children Programme.

On the support for KG students with special needs or at risk of developmental delay, the Government has been providing different services through collaborative efforts of various Government departments. The

Food and Health Bureau (FHB) and Labour and Welfare Bureau (LWB) are responsible for assessment and rehabilitation services respectively for the students in need of such services. On the part of EDB, under the free quality KG education policy, the enhancement of teacher to pupil ratio from 1:15 (including the principal) to 1:11 (principal not included) will create space for KG teachers to collaborate among themselves to take care of the diverse needs of students (including those at risk of developmental delay), and to enable better professional collaboration with the inter-disciplinary teams in LWB's pilot scheme on On-site Pre-school Rehabilitation Services, which will be regularised after its conclusion.

In tandem, EDB will continue to work jointly with FHB to strengthen the existing training for KG teachers to facilitate early identification of KG students with developmental problems. Besides, starting from the 2016/17 school year, EdUHK has also offered a new UGC-funded course, namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and Special Needs Programme.

EDB will also devise a teacher professional development framework to enhance their understanding of the KG students' developmental needs and to empower them to identify and cater for learner diversity, including those at risk of developmental problems. Under the framework, more structured in-service training programmes will be offered for KG teachers. In addition, EDB will set up a dedicated team of educational psychologists and professional staff to develop appropriate intervention models and teaching resource packages for use by KG teachers and parents to cater for the students at risk of developmental delay and deliver relevant professional training for KG teachers. The estimated expenditure on specific training on support to KG teachers in catering students with special needs or at risk of developmental delay is \$2.2 million in 2017-18 (Note). For relevant manpower resources and expenses for other training programmes and activities organised by various sections of EDB for enhancing teachers' professionalism including catering for student diversity, the relevant expenditures have been subsumed under the overall expenditure of EDB.

The above measures could effectively help KGs cater for the needs of students with special needs or at risk of developmental delay. The creation of the post of teacher coordinator for special educational needs in KGs is therefore considered not necessary.

Note: The estimated expenditure reflects the estimated expenditure for the first 8 months of the Scheme in the 2017/18 school year, i.e. from August 2017 to March 2018.

(d)

On the issue of salary scale for KG teachers, EDB considers that salary-related practices under the funding mode of aided schools could not be applied to KGs in isolation. In the aided sector, the funding mode is tied with several inter-connected components, such as EDB's annual approval for the number of operating classes which in turn determines the staff establishment, and is subject to a basket of control measures under the Government's prudent and balanced planning of school places operated through school place allocation systems. If the aided school funding mode is adopted in the KG sector, it may result in packing of classes and teacher redundancy in KGs in times of enrolment drop. Besides, KGs would become less flexible in operating HD and WD classes to meet the needs of parents.

Under the Scheme, EDB provides a salary range for each teaching position for KGs to remunerate their teachers within the range. As compared to a mandatory salary scale in which teacher salary is determined solely in accordance with seniority, it is appropriate and fit to provide KGs with salary ranges which could ensure competitiveness while at the same time allow flexibility for the KG management to decide on their staff remuneration, taking into account their qualifications, teaching experience, performance, additional duties, training received and special skills possessed, etc.. In light of the above, we have no plans to provide a mandatory salary scale for KG teachers at this stage. We will continue to listen to views of various stakeholders.

(e)

Under the Scheme, a one-off ToG will be provided for eligible KGs for two years starting from the 2017/18 school year. The ToG aims to provide additional financial support for eligible KGs, which have a large number of long-serving teachers who are receiving higher salaries, in defraying their expenses on staff salary

in the early period of implementation of the free quality KG education policy. During the period covered by the ToG, KGs should formulate their school-specific financial and staffing policy as well as management systems/practices for migration to the new policy. EDB will review the utilisation of funding in the 2018/19 school year and take follow-up actions as appropriate to ensure smooth migration of KGs to the new policy as well as achievement of the objectives of free quality KG education policy.

(f)

The professional capability of KG teachers and effective leadership of KG principals are crucial to the provision of high-quality KG education. Under the Scheme, EDB will enhance teacher training. The estimated expenditure on principals' and teachers' professional development will increase from \$1 million in 2016-17 to \$5 million in 2017-18. Besides, we will develop a continuous professional development (CPD) policy and formulate, as appropriate, a teacher competencies framework and a principal competencies framework which will set forth the skills and knowledge specifically suggested for KG teachers and principals to ultimately promote the well-being of young children. Corresponding teacher training programmes will then be organized to tie in with the implementation of the above-mentioned policy and frameworks. As a long term goal, the qualification requirement of KG teachers should be raised to degree level. In this connection, we are mindful that various teacher education institutions are currently offering Government-subsidised Certificate in Early Childhood Education [C(ECE)] programmes, the graduates of which are proven to be able to discharge their KG teaching duties effectively, and that provision of more teacher training places to achieve the goal of having an all graduate KG teaching force would require long-term planning. We will keep in view the long-term goal of having an all-graduate KG teaching force after the implementation of the new KG education policy.

(g)

The KG sector is characterised by a high level of flexibility, diversity and vibrancy. In light of the existing diverse operating modes of KGs and different development targets of individual school sponsoring bodies, it does not represent prudent use of public money for the Government to commit totally free KG education for every student or to subsidise every facet of the present and future KG education. Under the Scheme, in principle, Government subsidy should be sufficient for KGs to provide quality HD services. Notwithstanding this, individual KGs may have to charge schools fees, which are estimated to be at low level, for their HD programmes, mainly to defray expenses on rent that are not fully covered by rental subsidy. To increase the number of KGs that will not have to charge school fees to defray rental expenses, EDB will explore feasible measures to provide more Government-owned quality KG premises. As a long-term strategy, adequate space would be earmarked for KG use in new public housing estates with new demand, and we will explore the feasibility of increasing Government-owned KG premises in accordance with the established mechanisms for site search and/or premises allocation as appropriate. We will also explore the feasibility of co-location of KGs and primary schools.

As for WD and long WD (LWD) KGs, existing evidence from researches and studies precludes drawing conclusions that WD programmes are more favourable to young children than HD programmes. Studies show that family education plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG service for all children from three to six years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy, under the free quality KG education policy to be implemented starting from the 2017/18 school year, we will provide, on a co-payment basis with parents, an additional provision of 30% and 60% for eligible KGs offering WD and LWD services respectively. As the Government has provided additional subsidy, school fees will be at a low level. Needy families may be granted fee remission (at three subsidy levels of 100%, 75% or 50%). In view of the

foregoing, we do not have plans to further increase government subsidy for WD and LWD KG places at this stage.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

With regard to the provision of additional resources for implementing integrated education in mainstream schools, please provide, by district, the following information in the past 5 years (from the 2012/13 to 2016/17 school years):

(a) the number of primary and secondary schools receiving the Learning Support Grant by using the table below:

Provision for Learning Support Grant (\$)	Primary Schools					Secondary Schools				
	2012/13	2013/14	2014/15	2015/16	2016/17	2012/13	2013/14	2014/15	2015/16	2016/17
0 – 110,000										
110,001 – 400,000										
400,001 – 600,000										
600,001 – 800,000										
800,001 – 1,000,000										
1,000,001 or above										

(b) the number of primary and secondary schools using the School-based Educational Psychology Service;

(c) the total annual provision for the Enhanced Speech Therapy Grant;

(d) the respective number of primary and secondary schools receiving the basic grant and top-up grant under the Enhanced Speech Therapy Grant;

(e) the number of primary and secondary schools joining the Intensive Remedial Teaching Programme in Primary Schools and the Integrated Education Programme, the number of students benefiting from the programmes, the number of additional teachers, teaching assistants and learning support assistants hired, and the average unit cost per place;

(f) the number of secondary schools provided with additional teachers to support low academic achievers, and the number of additional teachers hired;

(g) a breakdown by district of the number of primary and secondary schools provided with the Intensive Support Grant for hardcore cases of students with special educational needs, and the total annual provision; and

(h) the total provision for the Top-up Fund for procurement of special furniture and equipment at primary and secondary schools, and the number of primary and secondary schools benefiting from the provision.

Asked by: Hon IP Kin-yuen (Member Question No. 16)

Reply:

(a) to (h)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The provision of the above mentioned additional resources and professional support is based on various parameters such as the number of students with SEN, their level of support required, the number of classes or by applications of individual schools when need arises, but irrespective of the districts of schools. Hence, we are unable to breakdown the provision by district. The number of mainstream public sector primary and secondary schools eligible for LSG by the required range of provision from the 2012/13 to 2016/17 school years is set out at Appendix 1.

The requested statistics on School-based Educational Psychology Service, ESTG, IRTP, IE Programme and additional teachers for supporting low academic achievers from the 2012/13 to 2016/17 school years are set out at Appendix 2.

As for Intensive Support Grant for hardcore cases and Top-up Fund for procurement of special furniture and equipment mentioned above, they are provided for individual schools on an application basis to meet the specific needs of individual students with SEN. In other words, not all schools and students with SEN are receiving the same resource provisions and the funding involved can vary among schools and across years. Hence, providing the total expenditure and number of schools receiving these additional resources separately is not meaningful and can be misleading.

**Distribution of public sector primary and secondary schools according to the specific range of Learning Support Grant (LSG) allocated from the 2012/13 to 2016/17 school years**

Provision of Learning Support Grant (\$)	Number of primary schools					Number of secondary schools				
	2012/13	2013/14	2014/15	2015/16	2016/17	2012/13	2013/14	2014/15	2015/16	2016/17
0 – 110,000	6	4	2	2	2	78	58	43	30	27

600,001 – 800,000	73	58	41	31	29	42	56	46	42	41
800,001 – 1,000,000	41	48	42	38	30	37	26	38	35	28
1,000,001 or above	Not Applicable	19	87	109	125	Not Applicable	23	76	101	119

Note: To enhance the support for schools having admitted larger number of students with SEN, EDB has raised the ceiling of the LSG from \$1 million to \$1.5 million per school per annum with effect from the 2013/14 school year and increased the grant rates by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the grant rates and ceiling of the LSG for each school are adjusted annually according to the change in the Composite Consumer Price Index.

**Table 1**

**Number of public sector primary and secondary schools receiving School-based Educational Psychology Service from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Primary schools	271	297	341	401	454
Secondary schools	259	282	308	333	391

**Table 2**

**Total expenditure of Enhanced Speech Therapy Grant (ESTG) and number of primary schools provided with Basic Grant and Top-up Grant from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of schools	452	452	452	451	454
Total provision (\$ million)	48.1	51.5	54.4	57.4	59.8

Note: ESTG is provided to government and aided primary schools that have students with speech and language impairment (SLI) enrolled. Schools will be provided with Basic Grant and Top-up Grant according to the number of approved classes and the number of moderate or severe cases respectively each year. Most schools are provided with the Top-up Grant, except for a few that do not have moderate or severe cases. Secondary schools could utilize the LSG to support their students with SLI.

**Table 3**

**A. Number of primary schools and additional teachers of the Intensive Remedial Teaching Programme (IRTP) from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of primary schools	253	251	250	243	242
Number of additional teachers	410	403	398	388	383

**B. Number of schools, additional teachers and learning support assistants of the Integrated Education (IE) Programme from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of primary schools	27	27	27	25	25
Number of additional teachers in primary schools	23	23	23	21	21
Number of learning support assistants in primary schools	21	21	23	21	20
Number of secondary schools	15	11	9	8	8
Number of additional teachers in secondary schools	14	10	9	8	8
Number of learning support assistants in secondary schools	11	10	9	8	8

Note:

1. Since the introduction of the New Funding Mode (NFM) in the 2003/04 school year, schools operating IRTP and IE Programme have been encouraged to switch to NFM to enjoy greater flexibility in the use of resources in supporting students with SEN.
2. The number of students under the IRTP and IE Programme is only for calculation of additional manpower to be provided to the schools concerned. In actual practice, irrespective of the funding mode adopted, under the Whole School Approach to integrated education, schools should deploy the additional manpower to render appropriate support for students in need. Hence, students with SEN both within and outside the IRTP and IE Programme should benefit from such additional resources. As such, providing the number of students under the Programmes and the unit cost for these Programmes is not meaningful and can be misleading.

**Table 4**

**Number of public sector secondary schools provided with additional teachers for supporting low academic achievers and number of additional teachers provided from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of schools provided with additional teachers to support low academic achievers	258	252	256	257	262
Number of additional teachers provided	620	592	577	564	555

**CONTROLLING OFFICER'S REPLY****EDB096****(Question Serial No. 0256)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (5) Special Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information by types of special schools:

- (a) the number of classes at each level, number of students, the student unit cost, the class-to-teacher ratio and teacher-to-student ratio for the past 5 years (2012/13 to 2016/17 school years) and the coming year (2017/18 school year);
- (b) the establishment and details of all supporting staff (such as speech therapists) of the past 5 years (2012/13 to 2016/17 school years) and the coming year (2017/18 school year); and
- (c) the situations in which schools could not recruit supporting staff (such as speech therapist) owing to recruitment difficulties or other reasons in the past 5 years (2012/13 to 2016/17 school years).

Asked by: Hon IP Kin-yuen (Member Question No. 17)

Reply:

(a)  
The number of classes, number of students, average unit cost per school place, class-to-teacher ratio and teacher-to-student ratio of each type of special schools from the 2012/13 to 2016/17 school years are set out at Appendix 1. The estimated number of classes and students in different types of special schools in the 2017/18 school year are tabulated below. As the calculation of the class-to-teacher ratio and teacher-to-student ratio is based on the actual number of classes and students and the calculation of the unit cost per school place is based on the actual operating cost of the school, we are unable to provide these figures for different types of special schools for the 2017/18 school year at this stage.

School Type	2017/18 School Year	
	Estimated Number of Classes	Estimated Number of Students
Visual Impairment	15	120
Hearing Impairment	12	80
Physical Disability	102	900
Mild Intellectual Disability	225	3 140
Moderate Intellectual Disability	217	2 000
Severe Intellectual Disability	97	690
School for Social Development	86	550
Hospital School	33	310

It is a common practice for special schools to adopt flexible groupings across grade levels and individualized education programmes to cater for the special educational needs of the students. Presenting the numbers of classes by level is therefore not reflecting the actual operation in special schools.

(b)

Special schools are provided with non-teaching specialist staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braillists according to the needs of their students. The specialist staff establishment of different types of special schools from the 2012/13 to 2016/17 school years are set out at Appendix 2. As the calculation of the specialist staff establishment is based on the actual number of classes being operated, we are unable to provide these figures for the 2017/18 school year at this stage.

(c)

To address the potential recruitment difficulties, special schools may encash different numbers of vacant posts of speech therapist, physiotherapist, occupational therapist and school nurse to employ qualified temporary staff or hire speech therapy/occupational therapy/physiotherapy/nursing services to meet the needs of their students. In other words, special schools have the flexibility to employ these specialist staff on the establishment or make use of the cash grant to hire specialist service. As such, providing details of schools which could not recruit supporting staff under the establishment may be misleading.

**CONTROLLING OFFICER'S REPLY****EDB097****(Question Serial No. 0258)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the vocational education and training provided by the Vocational Training Council (VTC) in the past 5 years (i.e. the 2012/13 to 2016/17 academic years), please provide the following information:

- (a) a breakdown of the target students, number of intake and total number of students in the member institutions of VTC by categories of qualifications awarded by each member institution;
- (b) the ratio of subvented to non-subvented programmes, and their tuition fees for the various levels of programmes offered by the member institutions of VTC;
- (c) a breakdown, by programme, of the numbers of places, student intake as well as the total number of students under the apprenticeship scheme and other vocational training schemes; and
- (d) a breakdown, by institution and programme, of the numbers of graduates from subvented and non-subvented higher diploma programmes of the VTC who progressed to subvented top-up programmes, and their percentage shares in the total numbers of graduates.

Asked by: Hon IP Kin-yuen (Member Question No. 18)

Reply:

- (a) The Vocational Training Council (VTC) through its member institutions offers a wide range of full-time and part-time vocational and professional education programmes from post-secondary 3 up to degree levels. The target students, number of new intake and total number of students of VTC's vocational and professional education programmes from the 2012/13 to 2016/17 academic years (AY) are as follows –

Award Level (Note 1)	Target Students (Note 2) (for 2016/17)	Mode of study	2012/13 AY		2013/14 AY		2014/15 AY		2015/16 AY		2016/17 AY (Provisional)	
			New Intake	Total	New Intake	Total						
Degree and Top-up Degree	Secondary 6 leavers and Higher Diploma holders	Full-Time	2 060	2 445	2 367	3 037	3 265	4 306	3 370	4 858	3 800	5 850
		Part-Time	681	1 391	766	1 607	1 207	2 135	1 139	2 091	1 350	2 550

Notes:

- The above table includes publicly-funded and self-financing programmes offered by VTC's member institutions. There are other part-time programmes funded under Head 141 Government Secretariat: Labour and Welfare Bureau.
- The target students reflect the position as at the 2015/16 AY under the new academic structure. Under the old academic structure, some of the programmes target at Secondary 5 or Secondary 7 leavers.

- (b) The ratio of subvented to self-financed student places for the full-time programmes above is around 65% to 35%. The tuition fee levels of full-time programmes for the 2012/13 to 2016/17 AY are as follows –

		Average Fee Level per Annum				
		2012/13 AY	2013/14 AY	2014/15 AY	2015/16 AY	2016/17 AY (Provisional)
<b>(a)</b>	<b>Subvented</b>

- (d) The number of Higher Diploma (HD) graduates pursuing further studies in subvented degree programmes, and the percentage to the total number of graduates from the 2012/13 to 2014/15 AY are as follows –

Discipline	2012/13 AY		2013/14 AY		2014/15 AY	
	Subvented HD	Self-financed HD	Subvented HD	Self-financed HD	Subvented HD	Self-financed HD
Applied Science	35 (5%)	- -	77 (7%)	- -	121 (14%)	0 (0%)
Business Administration	1 (1%)	22 (1%)	1 (1%)	61 (2%)	4 (4%)	85 (4%)
Child Education and Community Services	1 (0.2%)	- -	2 (0.4%)	2 (4%)	2 (0.3%)	4 (9%)
Design	36 (3%)	10 (5%)	88 (5%)	26 (13%)	111 (7%)	6 (2%)
Engineering	136 (6%)	- -	202 (7%)	- -	221 (10%)	- -
Hotel, Service and Tourism Studies	11 (2%)	- -	13 (1%)	- -	6 (1%)	3 (1%)
Information Technology	79 (10%)	10 (2%)	118 (12%)	17 (4%)	110 (11%)	7 (5%)
Overall	299 (5%)	42 (1%)	501 (6%)	106 (2%)	575 (8%)	105 (3%)

Note: Figures in ( ) refer to the percentage of graduates pursuing further studies in subvented degree programmes to the

total number of graduates.

The statistics of the 2015/16 AY will only be available in April 2017. Also, as the 2016/17 AY will only end in August 2017, the information about the graduates is not yet available.

**CONTROLLING OFFICER'S REPLY****EDB098****(Question Serial No. 0259)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not Specified

**Programme:** (7) Post-secondary, Vocational and Professional Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

Regarding the staffing and relevant expenses of the Vocational Training Council (VTC), please advise on the following in the past 5 years (from 2012/13 to 2016/17):

1. the annual expenditure of the VTC on staff emoluments and benefits; the amount and proportion of such expenditure funded by government recurrent subvention; and whether the VTC has deployed resources other than government subvention (such as donations) for staff employment, and if so, please provide an annual breakdown of the number and rank of the staff involved and the related expenditure on emoluments;

2. the annual salaries of the 5 highest paid staff;

3. staff employment of various departments under the 3 systems of the VTC, including:

(a) the numbers of teaching staff and staff from other grades employed under the 3 systems, and the percentages of staff under each system;

(b) amongst staff on temporary/short-term contracts, the respective numbers of teaching staff and staff from other grades with a contract duration of less than 1 year, continuously employed for 2 or more years, and more than 6 years but yet to be offered long term employment; and the greatest number of times of contract renewal and the longest duration of such employment;

(c) the number of staff on temporary/short-term contracts converted to fixed-term contracts each year, and the number of teaching staff amongst them; and

(d) the number of teaching staff on new fixed-term contracts promoted or converted to long term contracts each year since 2015, and the number of teaching staff amongst them.

**Asked by:** Hon IP Kin-yuen (Member Question No. 19)

**Reply:**

1. The full-time staffing expenses for subvented programmes incurred by the Vocational Training Council (VTC) from 2012-13 to 2016-17 are as follows –

Financial year	Staff expenses for subvented programmes (\$ million)	Government recurrent subvention towards staff expenses*	
		(\$ million)	%
2012-13	2,135	1,748	82
2013-14	2,289	1,807	79

Financial year	Staff expenses for subvented programmes (\$ million)	Government recurrent subvention towards staff expenses*	
		(\$ million)	%
2014-15	2,448	1,880	77
2015-16	2,601	1,964	76
2016-17 (Estimate)	2,750	2,065	75

\* Apart from Government subvention, the staff expenses for subvented programmes are also met by income generated by VTC (mainly tuition fees and training charges).

In addition to its recurrent subvented activities, VTC operates programmes that are self-financed or financed by specific funds from other organisations. VTC staff may be deployed to work on both subvented and self-financing programmes and activities as appropriate to meet operational requirements, and staff costs are charged to relevant accounts. Therefore, breakdown of number and rank of staff funded by resources other than Government subvention is not available. The total number of VTC staff and related expenditure from 2012-13 to 2016-17 are as follows –

Financial year	Number of teaching staff	Number of administrative and supporting staff	Total number of staff	Total staff expenses (\$ million)	Staff expenses for non-subvented activities (\$ million)
2012-13	2 675	2 810	5 485	2,702	567
2013-14	2 738	2 937	5 675	2,892	603
2014-15	2 805	2 960	5 765	3,048	600
2015-16	2 892	2 991	5 883	3,196	595
2016-17 (Provisional)	2 855	3 066	5 921	3,399	649

2. The annual salaries of the five highest paid staff in the 2016/17 academic year are as follows –

	Annual salary (\$ million)
1 <sup>st</sup> highest	2.95
2 <sup>nd</sup> highest	2.76
3 <sup>rd</sup> highest	2.39
4 <sup>th</sup> highest	2.37
5 <sup>th</sup> highest	2.32

3. Information about staff employed under various packages for the past five years is as follows –

(a) Numbers of teaching staff and administrative and supporting staff and their percentages (as compared to the total number of staff) under the New Remuneration Package, Old Remuneration Package and Short-Term Contract –

Academic Year	Staff Type	Number of staff employed under			Total number of staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract	
2012/13	Teaching	979 (17.9%)	1 333 (24.3%)	363 (6.6%)	5 485
	Administrative and supporting	1 329 (24.2%)	1 094 (19.9%)	387 (7.1%)	
2013/14	Teaching	914 (16.1%)	1 428 (25.2%)	396 (7.0%)	5 675

Academic Year	Staff Type	Number of staff employed under			Total number of staff
		Old Remuneration Package	New Remuneration Package	Short-term Contract	
	Administrative and supporting	1 290 (22.7%)	1 254 (22.1%)	393 (6.9%)	
2014/15	Teaching	803 (13.9%)	1 542 (26.7%)	460 (8.0%)	5 765
	Administrative and supporting	1 173 (20.3%)	1 353 (23.5%)	434 (7.5%)	
2015/16	Teaching	757 (12.9%)	1 626 (27.6%)	509 (8.6%)	5 883
	Administrative and supporting	1 118 (19.0%)	1 498 (25.5%)	375 (6.4%)	
2016/17 (Provisional)	Teaching	706 (11.9%)	1 666 (28.1%)	483 (8.2%)	5 921
	Administrative and supporting	1 069 (18.1%)	1 626 (27.5%)	371 (6.3%)	

(b) Numbers of staff on Short-term Contract of which the contract duration is less than one year from the 2012/13 to 2016/17 academic years –

Academic year	Staff Type	Short-term contract for less than one year
2012/13	Teaching	122
	Administrative and supporting	138
2013/14	Teaching	168
	Administrative and supporting	158
2014/15	Teaching	143
	Administrative and supporting	166
2015/16	Teaching	126
	Administrative and supporting	135
2016/17 (Provisional)	Teaching	117
	Administrative and supporting	113

Numbers of staff on Fixed-term contract who have been continuously employed for two to six years and numbers of staff employed for more than six years from the 2012/13 to 2016/17 academic years –

Academic year	Number of fixed-term contract staff who have served for		Longest serving fixed-term contract staff	
	Two years to six years	More than six years	Years of service	Number of contract renewal
2012/13	930	156	16	9
2013/14	1 045	453	17	9
2014/15	1 114	508	18	10
2015/16	1 086	602	19	11
2016/17 (Provisional)	1 218	629	20	12

(c) There is no regular exercise for converting staff on Short-term contracts to Fixed-term contracts. For serving staff on Short-term contract, opportunities of appointment on Fixed-term contract through recruitment exercises are available throughout the year.

(d) Numbers of staff employed under the New Remuneration Package who were transferred from

Fixed-term contracts to Open-ended contracts since 2015 –

Year	Number of staff employed under New Remuneration Package who were transferred from Fixed-term contracts to Open-ended contracts		
	Teaching	Administrative and supporting	Total
2015	18	21	39
2016	21	21	42

Note: The number of staff reported above included staff with contracts due to expire during the period from May of the respective year to April of the following year.

- End -

**CONTROLLING OFFICER'S REPLY****EDB099****(Question Serial No. 0264)**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not specifiedProgramme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies, (8) Policy and SupportControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

(a) Using the table below, please provide a breakdown of the total numbers of students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(b) Using the table below, please provide a breakdown of the numbers of cross-boundary students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(c) Using the table below, please provide a breakdown of the numbers of cross-boundary students diagnosed as having special educational needs (SEN) in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(d) Using the table below, please provide a breakdown of the numbers of students who are new arrivals (with less than 7 years' residence in Hong Kong) in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(e) Using the table below, please provide a breakdown of the numbers of students from ethnic minorities in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(f) Using the table below, please provide a breakdown of the numbers of disabled students in kindergartens, primary and secondary schools by 18 districts for the past 5 school years (2012/13 to 2016/17 school years):

District	Government	Aided	Direct Subsidy Scheme	English Schools Foundation	Private	International	Total

(g) In the past 5 school years (2012/13 to 2016/17 school years), how did the Administration assist the student groups mentioned in item (b) to item (f)? What were the related policies? What new plans will be coming? How much public funding is involved?

Asked by: Hon IP Kin-yuen (Member Question No. 20)

Reply:

- (a) The total number of students in kindergartens, primary and secondary schools by district and by sector from the 2012/13 to 2016/17 school years are detailed at Appendix 1.
- (b) The number of cross-boundary students attending kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and by sector from the 2012/13 to 2016/17 school years is provided at Appendices 2(a), 2(b) and 2(c) respectively.
- (c) The Education Bureau (EDB) does not collect statistics on the cross-boundary students with special educational needs (SEN).

- (d) The number of newly admitted pupils from the Mainland in primary and secondary schools by district and by sector from the 2012/13 to 2016/17 school years are tabulated at Appendix 3. Please note that EDB does not collect information on the newly admitted pupils from the Mainland in kindergartens.
- (e) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students in kindergartens, public sector and Direct Subsidy Scheme primary and secondary schools by district from the 2012/13 to 2016/17 school years are tabulated at Appendix 4.
- (f) Support services for children with SEN at pre-primary levels are provided by the Social Welfare Department. EDB does not maintain data on students with SEN at kindergarten levels. The total number of students with SEN studying in public sector primary and secondary schools, English Schools Foundation (ESF) schools, other private international schools, and private independent schools (PIS) from the 2012/13 to 2016/17 school years are set out at Appendix 5.
- (g) *Newly-Arrived Children and Cross-boundary Students (CBS)*  
 EDB provides newly-arrived children with the choice of attending the six-month full-time “Initiation Programme” operated by local schools, or the “Induction Programme” run by non-governmental organisations alongside the various school-based programmes organised by their respective schools. We also provide schools with the “School-based Support Scheme Grant”. These Programmes / Grant primarily aim at helping them integrate into the local community and overcome their learning difficulties. Expenditure for the Initiation Programme, the Induction Programme and the School-based Support Scheme Grant for newly-arrived children from the 2012/13 to 2016/17 school years is tabulated at Appendix 6. By virtue of their right of abode in Hong Kong, CBS enjoy the same education services as our local students. If CBS are newly-arrived children, they also enjoy the education services mentioned above.

#### *Non-Chinese Speaking Students*

EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools, provision of the Applied Learning Chinese (for NCS students) courses and the creation of an inclusive learning environment in schools. The support measures for NCS students from the 2012/13 to 2016/17 school years and the expenditure are tabulated at Appendix 7. Besides, EDB has been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) based on the research framework drawn up in light of the advice of research and language experts, and will refine them as appropriate.

#### *Students with SEN*

To support schools in catering for students with SEN, EDB has been providing public sector primary and secondary schools with additional resources on top of the regular subvention for all mainstream schools, professional support as well as teacher training. Starting from the 2016/17 school year, the School-based Educational Psychology Service has covered all public sector primary and secondary schools. The service will be further enhanced by progressively improving the ratio of educational psychologist to school to 1:4 for public sector schools with a large number of students with SEN. Schools should pool together school resources and deploy them holistically and flexibly to render appropriate support services to students with SEN. The estimated expenditure on additional support and services for students with SEN in mainstream schools in the 2017/18 school year is about \$1,469 million.

At present, recurrent subvention is provided to students with SEN in ESF’s mainstream schools and special schools. In the 2012/13 to 2016/17 school years, the annual recurrent subvention for this purpose amounts to \$28.3 million.

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.

(3) All kindergartens (including kindergarten-cum-child care centres) are private schools.

Notes: (1) Figures refer to the position as at September of the respective school years.

(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.

**CONTROLLING OFFICER'S REPLY**

**EDB100**

**(Question Serial No. 0274)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (6) Other Educational Services and Subsidies

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (a) Please set out the details and expenditure of the Education Bureau's work plans for promoting the Basic Law education at primary and secondary schools in the past 5 years (2011/12 to 2015/16 school years) and for the coming year.
- (b) What is the progress of the development of learning and teaching resource packages and the assessment bank? What is the expenditure involved? Has the Administration evaluated the effectiveness of such work? If yes, what are the details?
- (c) Please provide details on the development of learning and teaching resource packages and the assessment bank. Who are the people responsible for the drafting work? If external parties are invited to handle or advise on the drafting work, what was the decision-making process that led to their appointments? What mechanism and criteria were used? How would the Administration ensure that the resource packages and assessment bank are free of biased and one-sided views and contents so that they will not be rejected by teachers on the grounds of violating their professional principles?

Asked by: Hon IP Kin-yuen (Member Question No. 21)

Reply:

(a) The Education Bureau (EDB) has continuously enriched and updated the content of the Basic Law learning packages in order to keep abreast of the latest state of curriculum development. The Chinese and English versions of the learning packages for junior secondary and senior primary students, developed during 2011-12, were distributed to schools in stages from January 2012 to January 2013. During the same period, web-based resources supporting the learning of the Basic Law were also made available for school use. To keep pace with the development of e-learning, an e-book version of the learning packages for junior secondary was also developed in February 2014. A Pack on "Effective Use of 'Let's Learn the Basic Law' Learning Package", which is a collection of schools' good practices, was developed and distributed to all primary schools in 2015. EDB developed the "Basic Law Audio-visual Learning and Teaching Package" for junior secondary students in April 2015. Currently we are developing the "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" for senior primary students to deepen their knowledge of the Basic Law. Apart from the above, since 2015, EDB has been organising the Basic Law Inter-school Competition. The 3rd Basic Law cum Celebration of the 20th Anniversary of Establishment of the Hong Kong Special Administrative Region (HKSAR) Territory-wide Inter-school Competition will be held in May 2017 to arouse students' interests in studying the Basic Law.

To facilitate teachers in their assessment of students' understanding of the Basic Law, 2 databases of questions for assessment in schools had been provided for primary and secondary school teachers respectively by June

2012. Students could assess their own understanding of the Basic Law online through responding to questions or engaging in online games available from December 2012.

To enhance teachers' understanding of the concepts and essence of the Basic Law as well as strategies for using the learning packages and web-based resources in their school-based learning and teaching practices, EDB has organised, from time to time, professional development programmes during the past 5 years.

Expenditure for the related curriculum work and support measures, which includes research and development, provision of learning activities for students and professional programmes for school heads and teachers, etc. is subsumed under the recurrent expenditure of EDB as an integral part of day-to-day curriculum development work. Other than expenditure on developing learning and teaching resources, there is no separate breakdown for individual items. The expenditure of EDB for developing learning and teaching resources on Basic Law education from 2012-13 to 2017-18 is as follows:

2012-13 <sup>@</sup>	2013-14 <sup>@</sup>	2014-15 <sup>@</sup>	2015-16 <sup>@#</sup>	2016-17 <sup>@*</sup>	2017-18 <sup>@++</sup>
\$0.8 million	\$0.65 million	\$2.07 million	\$3.65 million	\$1.71 million	\$1.53 million

<sup>@</sup> Manpower resources in the provision are subsumed under the recurrent expenditure of EDB

<sup>#</sup> Actual figures revised from last year's estimates

<sup>\*</sup> Provisional figures

<sup>++</sup> Estimated figures

(b) EDB conducted trial teaching of the revamped and updated e-book version of the junior secondary learning package and reprinted its teacher version with minor amendments in 2015. Meanwhile, EDB developed a "Basic Law Audio-visual Learning and Teaching Package" for junior secondary students in April 2015 and we are currently developing its self-learning version for secondary school students. Besides, we are also developing a "Basic Law Audio-visual Learning and Teaching Package (Senior Primary)" to deepen students' understanding of the Basic Law in junior secondary and senior primary levels. The estimated expenditure for developing learning and teaching resources for Basic Law education for secondary schools and primary schools in 2016-17 is \$1.48 million and \$0.23 million respectively. EDB will also continue to enrich and update the assessment bank. On an on-going basis, EDB collects feedback and evaluates the effectiveness of its work through various channels to further enrich and refine the above resource materials.

(c) The learning packages and databases of questions for assessment were developed in-house. Throughout the development process, legal and professional advice was sought from numerous well-known legal experts, scholars on constitutional law, professional officers and teachers from various schools to ensure content accuracy, objectivity and classroom usability.

- End -

**CONTROLLING OFFICER'S REPLY****EDB101****(Question Serial No. 0275)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (1) Director of Bureau's Office, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) Using the table below, please provide information on cross-boundary projects or programmes in which the Education Bureau of Hong Kong collaborated/will collaborate with the Mainland departments or involved/will involve in the past 5 years (from the 2012/13 to 2016/17 school years) and the coming year (2017/18), as well as the manpower and expenditures involved:

Project/ Programme	Details and objectives	Mainland departments/ organisations involved	Progress	Has the project/ programme been publicised?	Other HKSAR government departments and/or commissioned services involved and/or names of organisations sponsored	Details of the legislation and policies involved in the project/ programme	Manpower and expenditures involved

(b) Please set out the numbers, details, objectives and expenditures of the meetings between the Education Bureau and the Liaison Office of the Central People's Government in the Hong Kong Special Administrative Region/Mainland officials in the past 5 years (2012/13 to 2016/17);

(c) Please set out the numbers, details, objectives, numbers of participants and expenditures of the duty visits and study trips made by the Education Bureau officials to the Mainland in the past 5 years (2012/13 to 2016/17); and

(d) Please set out the numbers, details, objectives, numbers of participants and expenditures of the overseas duty visits and study trips (except those to the Mainland) made by the Education Bureau officials in the past 5 years (2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 22)

Reply:

Part (a)

By cross-boundary projects or programmes which the Education Bureau (EDB) collaborated with Mainland department(s), we refer to those projects/programmes with direct involvement of both EDB and Mainland department(s). The manpower and expenditures involved in these projects in the past five years (2012-13 to 2016-17) and the coming year (2017-18) are at Annex A and Annex B respectively.

Part (b)

EDB maintains necessary working relationship with the mainland government authorities and the offices set up by the Central People's Government in the Hong Kong Special Administrative Region, with a view to ensuring mutual understanding and effective exchanges. We do not keep a separate account to capture expenditure.

Parts (c) and (d)

The details and expenditure on duty visits outside Hong Kong incurred by EDB officials are as below:

Financial Year	Mainland			Overseas		
	No. of Visits	No. of Officials	Expenditure (\$'000)	No. of Visits	No. of Officials	Expenditure (\$'000)
2012-13	80	267	1,509	34	82	3,402
2013-14	61	198	1,350	37	108	3,759
2014-15	91	216	941	40	111	3,157
2015-16	116	307	1,542	32	91	1,893
2016-17	149	378	2,115	33	85	2,386

The major objectives of the duty visits to the Mainland or overseas were to promote the education initiatives of Hong Kong, share experience on education reforms, explore co-operation on other educational fronts and attend international conferences on education issues.

- (c) the details of and the expenditure incurred by the Education Bureau (EDB) on the development of the Support Network (Education services for NCS students);
- (d) the number of NCS students pursuing the remedial programmes offered by the Chinese Language Learning Support Centres and the number of such centres in various districts;
- (e) the number of schools joining the Language Support Services, the number of NCS students benefited from such services and the expenditure involved;
- (f) the number of schools joining the School-based Curriculum Development Support Services for primary schools, the number of NCS students benefited from such services and the expenditure involved;
- (g) the number of students participating in the Induction Programme, Initiation Programme and 4-week Summer Bridging Programme, the number of schools offering such programmes and the total provision involved;
- (h) details of the Pilot Scheme on Workplace Chinese Language, and the annual number of NCS students participating in the scheme as well as the total provision involved since its introduction in July 2012;
- (i) the implementation details of activities co-organised by the EDB and non-governmental organisations and targeted at NCS students, including programme names, co-organisers and the number of participants;
- (j) the number of NCS students sitting for the Chinese examinations under the General Certificate of Secondary Education (GCSE), International General Certificate of Secondary Education (IGCSE) and General Certificate of Education (GCE) and the number of students who were granted full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme; and
- (k) the expenditure and staff establishment involved in implementing the Chinese Language Curriculum Second Language Learning Framework designed for NCS students, and the numbers of primary and secondary teachers, ethnic minority teachers and teaching assistants who received the relevant training.

Asked by: Hon IP Kin-yuen (Member Question No. 23)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) ethnic minority students by ethnicity as asked in the question studying at different grade levels in public sector and Direct Subsidy Scheme (DSS) primary and secondary schools, and special schools from the 2012/13 to 2016/17 school years is tabulated at [Annex A](#), [Annex B](#) and [Annex C](#) respectively. The number of ethnic minority students studying at different grade levels in kindergartens from the 2012/13 to 2016/17 school years is tabulated at [Annex D](#).
- (b) The number of schools with NCS students ranging from “less than 10”, “10 to 30”, “31 to 50” and “51 or above” in kindergartens, public sector and DSS primary and secondary schools, and special schools from the 2012/13 to 2016/17 school years is tabulated at [Annex E](#).
- (c) From the 2006/07 to 2012/13 school years, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experiences with other schools were provided with additional funding and professional support services to develop school-based support programmes specifically arranged for NCS students to further help their NCS students in learning and integration. The funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or above NCS students are provided with additional recurrent funding to enhance the support for learning of Chinese Language of NCS students. Starting from the 2014/15 school year,

the funding support has been enhanced to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and creation of an inclusive learning environment in schools. Through the sharing of these schools with other schools admitting NCS students via the school support network that EDB has formed, all NCS students will benefit. The development of the support network is undertaken by different sections of EDB and deployment of staff may be adjusted having regard to the needs and circumstances. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure by item is not available.

- (d) The number of NCS students participating in the after-school support programmes offered by the Chinese Language Learning Support Centres and number of venues from the 2012/13 to 2016/17 school years are tabulated below:

School year	No. of participating NCS students	No. of venues
2012/13	503	16
2013/14	523	19
2014/15	970	24
2015/16	974	22
2016/17 (Note)	1 057	22

Note: Figures as at January 2017.

- (e) The number of schools admitting NCS students provided with the Language Learning Support Services from the 2012/13 to 2016/17 school years is as follows:

School year	No. of participating schools	No. of participating NCS students
2012/13	21	5 100
2013/14	25	6 200
2014/15 (Note)	17	1 400
2015/16 (Note)	26	2 240
2016/17 (Note)	27	1 940

Note:

From the 2014/15 school year, EDB has enhanced the school-based professional support services for schools admitting NCS students through diversified modes. In addition to the professional support services provided under Language Learning Support Services, schools admitting NCS students are also supported through the Professional Development Schools Scheme, the University-School Support Programmes (USP), School Support Partners (Seconded Teacher) Scheme, etc. funded by the Education Development Fund. In the 2014/15, 2015/16 and 2016/17 school years, a total of 79, 97 and 93 schools admitting NCS students are receiving the professional support services respectively, benefitting about 9 410, 8 150 and 9 390 NCS students in the respective school years. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure is not available.

- (f) One of the objectives of the school-based curriculum development support services is to support schools to address learner diversity from the curriculum perspective. The services are school-based and contextualised in the needs of schools to benefit all students including but not limited to NCS students in the participating schools. From the 2012/13 to 2016/17 school years, about 160 primary schools received school-based support services each year. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and a breakdown of expenditure is not available.
- (g) The number of schools / non-governmental organisations (NGOs) participating in the full-time Initiation Programme, Induction Programme and Summer Bridging Programme for NCS students, the

number of participating NCS students and the expenditure from the 2012/13 to 2016/17 school years are tabulated below:

#### Initiation Programme

School year	No. of participating schools	No. of participating NCS students	Expenditure (\$ million)
2012/13	3	159	5.06
2013/14	3	124	5.34
2014/15	3	159	5.73
2015/16	3	167	5.42
2016/17 (estimated)	3	158	6.26

#### Induction Programme

School year	No. of participating NGOs	No. of participating NCS students	Expenditure (\$)
2012/13	1	17	18,600
2013/14	0	0	0
2014/15	0	0	0
2015/16	1	10	21,000
2016/17 (estimated)	1	11	22,000

#### Summer Bridging Programme

School year	No. of participating schools	No. of participating NCS students	Expenditure (\$ million)
2012/13	31	1 700	2.0
2013/14 (Note)	38	1 730	2.5
2014/15 (Note)	40	1 750	2.8
2015/16 (Note)	33	1 650	2.6
2016/17 (Note)	33	1 590	2.6

#### Note:

Starting from 2013, the Summer Bridging Programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children. About 250, 360, 240 and 190 NCS parents participated in 2013, 2014, 2015 and 2016 respectively.

- (h) The Pilot Scheme on Workplace Chinese Language Programme for NCS Students was implemented from the 2011/12 to 2014/15 school years, prior to the implementation of the Applied Learning Chinese (for NCS students) courses starting from the 2014/15 school year, with a view to enhancing NCS students' competitiveness in the workplace. 12 courses pegged with Qualifications Framework Levels 1 to 3 were provided by phases. In the 2012/13, 2013/14 and 2014/15 school years, about 100, 60 and 70 NCS students participated in the programmes respectively. The total expenditure for this project was about \$0.78 million from the 2012/13 to 2014/15 school years.
- (i) Since the 2012/13 school year, in collaboration with NGOs, district-based programmes have been organised for NCS students aged 3 to 9 in localities with a greater concentration of NCS children with a view to motivating them to learn Chinese through fun activities such as games and creative arts, etc.. The NGOs which organised the programmes and numbers of participating NCS students are tabulated below:

School year	Organisers of district-based programmes	Programme names	No. of participating NCS students
2012/13	(a) Hong Kong Christian Service (b) HKSKH Lady MacLehose Centre (c) Yang Memorial Methodist Social Service (d) Yuen Long Town Hall Management Committee Limited	Pilot Project on Supporting NCS Children in Learning Chinese	900

- (j) Eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination have been subsidised since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education. Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level. Besides, starting from the 2011/12 school year, apart from the examination fee subsidy, eligible needy NCS students sitting for the GCSE (Chinese) examinations can apply for full or half fee remission of the subsidised examination fee under the Examination Fee Remission Scheme (EFRS). The EFRS has further been extended to eligible needy NCS students taking the IGCSE, GCE AS-Level and GCE A-Level (Chinese) examinations from the 2012/13 school year onwards. The number of NCS students subsidised and granted full or half fee remission of the subsidised examination fee under the EFRS from the 2012/13 to 2016/17 school years are tabulated below:

School year	No. of NCS students subsidised	No. of NCS students granted full fee remission	No. of NCS students granted half fee remission
2012/13	1 119	125	88
2013/14	1 222	128	95
2014/15	1 471	143	121
2015/16	1 536	140	114
2016/17	1 747	Not yet available	Not yet available

- (k) EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up education support for NCS students in learning the Chinese Language through, among others, facilitating schools' implementation of the "Learning Framework". Related measures are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including USP projects for primary and secondary schools funded under the Education Development Fund. A total of 87 seminars and workshops have been arranged since June 2014 to enable every primary and secondary school admitting NCS students to have the professional development opportunities for their teachers to understand the "Learning Framework" as well as to use the assessment tools and planning tools effectively. In addition, to enhance pedagogical effectiveness in supporting NCS students' learning of the Chinese language, how to teach

Chinese from a second language learners' perspective has been embedded in different professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown. The manpower resources and expenses for providing the training programmes are mainly subsumed under the overall expenditure of EDB.

Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the attendance of public examinations and other territory-wide examinations by students with special educational needs (SEN), please provide the information of the past 5 years (2012/13 to 2016/17 school years):

- (a) among the students with SEN who have attended the Hong Kong Diploma of Secondary Education (HKDSE) Examination, the number of students applied for special examination arrangements, by category of SEN and category of special arrangements;
- (b) the number of dropped out Secondary 4 and Secondary 5 students with SEN, and the number of students with SEN who have studied Secondary 6 but eventually did not enrol in the HKDSE or have enrolled in the HKDSE but were absent from the examination, by category of SEN and category of special arrangements;
- (c) the Hong Kong Examinations and Assessment Authority's expenditure on making special examination arrangements for candidates in public examinations;
- (d) details of various special examination arrangements currently available from mainstream schools for students with SEN sitting for the Pre-Secondary One Hong Kong Attainment Test and Territory-wide System Assessment, as well as the Education Bureau's expenditure on providing such special examination arrangements in the past 5 years.

Asked by: Hon IP Kin-yuen (Member Question No. 24)

Reply:

- (a) The number of students with SEN applying for special examination arrangements in the HKDSE Examination in the past five years from the 2012/13 to 2016/17 school years, listed by categories of SEN and special examination arrangements is at **Appendix**.
- (b) For the 2012/13 to 2015/16 school years, about 330, 400, 410 and 470 students with SEN were reported to have left school after completing Secondary 4 (S4) or Secondary 5 (S5) respectively. According to the information reported by schools, the main reasons for these students leaving the schools include attending full-time or part-time courses run by the Vocational Training Council, joining the Apprenticeship schemes or pre-employment vocational training, continuing their studies in local private schools or pursuing overseas study, etc. With the implementation of the new senior secondary curriculum and the diversified articulation to different pathways for lifelong learning, all students, including those with different types of SEN, will consider a variety of factors such as one's own academic/ vocational/ career/ life aspirations, interests, aptitude and educational needs to make an informed choice of their exit pathway. Providing a breakdown of S4 and S5 students who left school by their types of SEN and special arrangements is not meaningful and can be misleading.

We do not have the information on the number of Secondary 6 students with SEN who did not enroll in the HKDSE Examination. The number of SEN absentees, listed by categories of SEN, is only available since the 2015 HKDSE and is set out as follows –

Year of Examination	Examination	Physical Disabilities	Visual Disabilities	Aural Disabilities	Oral Disabilities	Specific Learning Disabilities	Other Disabilities	Total
2015	HKDSE	0	0	0	1	0	2	3
2016	HKDSE	1	0	2	2	8	16	29

- (c) The expenditure incurred by the Hong Kong Examinations and Assessment Authority (HKEAA) on the provision of special examination arrangements for Hong Kong Advanced Level Examination (HKALE) and HKDSE Examination in the past five years is as follows -

School Year	Expenditure (\$ million)
2012/13	3.4
2013/14	7.2
2014/15	10.7
2015/16	12.1
2016/17	15.2*

Note: HKEAA's financial year runs from 1 September to 31 August.

\* Figure projected based on the resources required in handling the increase in number of candidates with SEN and the complexity for special examination arrangements, and with reference to September 2016 to January 2017 actual expenditure.

- (d) For the Pre-Secondary One Hong Kong Attainment Test, the Education Bureau (EDB) has been facilitating primary schools to indicate the needs of their students with special educational needs as well as their recommendations of the support to be required in a prescribed form for Primary 6 parents/students to be delivered to the secondary schools to which each student is allocated a school place so that the secondary schools will provide the special arrangements accordingly. The special arrangements required mainly include extending the time of the test, exemption of the listening test and special seating arrangements. Secondary schools may request EDB's assistance, if necessary, such as provision of enlarged question and answer booklets. EDB incurred a total cost of about \$460,000 for this purpose in the past five years from the 2012/13 to 2016/17 school years.

For Territory-wide System Assessment (TSA), schools may select special arrangements for SEN students according to their needs. The special arrangements for Oral, Chinese audio-visual (CAV) and Written assessments are as follows –

- (i) Oral and CAV assessments

CAV assessments for primary schools and Oral assessments are conducted on a sampling basis. Under normal circumstances, SEN students would not be included in the Student Sample List. However, depending on individual needs, schools may request in writing to put any SEN students in the pool for random selection. In that case, no special arrangements will be provided to those students concerned.

(ii) Written assessments

Schools may make reference to their own special arrangements for SEN students in recent internal examinations and adopt them in the TSA where appropriate. In addition, the Hong Kong Examinations and Assessment Authority would provide some major adjustment arrangements such as allowing students to take assessments separately, extending assessment duration, providing auxiliary facilities and equipment (e.g. typewriter or magnifier for students with Visual Impairment), Braille scripts, enlarged scripts, single-paged printing of question papers, coloured question papers (e.g. ivory, green) as well as A3 question-answer booklets, allowing students to use screen readers and other answering methods (e.g. typing the answers through the use of computers) and other ways to present the questions such as reading aloud the questions for students with Severe Reading Difficulties sitting for Listening and Writing papers.

The expenditure on the provision of special examination arrangements for the TSA in the past five years is as follows –

School Year	Expenditure (\$ million)
2012/13	0.21
2013/14	0.12
2014/15	0.13
2015/16	0.09
2016/17	0.15*

Note: HKEAA's financial year runs from 1 September to 31 August.

Question:

In respect of self-financing post-secondary institutions admitting students with special educational needs (SEN), students with disabilities and non-Chinese speaking students, please provide the following information for the past 5 years (i.e. 2012/13 to 2016/17 academic years):

- (a) the numbers of intake of students with SEN and intake of students with disabilities in these institutions, as well as the expenditure arising from the support for those students, with a breakdown by institution and by type of students;
- (b) the number of student hostels in these institutions provided with barrier-free facilities (in terms of hostel places); and
- (c) the numbers of local non-Chinese speaking students admitted to these institutions, with a breakdown by institution and by Chinese qualifications held by these students.

Asked by: Hon IP Kin-yuen (Member Question No. 25)

Reply:

- (a) According to the information provided by institutions, the number of students with special educational needs (SEN) pursuing full-time locally-accredited sub-degree and undergraduate programmes from the 2012/13 to 2016/17 academic years by type is at **Annex A**. As the information was collected for policy analysis purpose and some institutions have expressed concerns about the use of data, we consider it inappropriate to list the number of SEN students by individual institutions. We do not have information on the expenditure arising from the support of SEN students by institution.
- (b) We do not have information on the number of hostel places specifically with barrier-free facilities, yet we understand from the self-financing post-secondary institutions providing student hostels that their student hostels have barrier-free facilities installed in general.
- (c) According to the statistics provided by institutions, the number of enrolment of non-Chinese speaking students pursuing full-time locally-accredited sub-degree and undergraduate programmes from the 2012/13 to 2016/17 academic years by institution are at **Annex B**. We do not have statistics confining to local non-Chinese speaking students or by Chinese qualifications of the students.

**Numbers of Students with SEN <sup>(Note 1)</sup> Pursuing Full-time Locally-accredited Self-financing  
Sub-degree and Undergraduate Programmes by Type  
from the 2012/13 to 2016/17 Academic Years**

Type of SEN	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17

**CONTROLLING OFFICER'S REPLY****EDB105****(Question Serial No. 0281)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not specified

**Programme:** (7) Post-secondary, Vocational and Professional Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

Please provide a breakdown by member institution and by type of students of the numbers of students with special educational needs, students with disabilities and local non-Chinese speaking students admitted to the member institutions of the Vocational Training Council in the past 5 years (2012/13 to 2016/17 academic years), as well as the details of support measures for these students and the expenditure involved.

**Asked by:** Hon IP Kin-yuen (Member Question No. 26)

**Reply:**

The numbers of students with special educational needs (SEN) (including students with disabilities) and local non-Chinese speaking (NCS) students from the 2012/13 to 2016/17 academic years (AY) studying in the member institutions of the Vocational Training Council (VTC) are set out below –

<b>Type of Student / Institution</b>	<b>2012/13 AY</b>	<b>2013/14 AY</b>	<b>2014/15 AY</b>	<b>2015/16 AY</b>	<b>2016/17 AY (provisional)</b>
<b>Number of Students with SEN</b> <sup>(Note 1)</sup>	<b>577</b>	<b>657</b>	<b>955</b>	<b>1 087</b>	<b>1 318</b>
<i>Technological and Higher Education Institute of Hong Kong</i>	0	0	3	5	18
<i>School for Higher and Professional Education</i>	17	11	17	9	12
<i>Hong Kong Institute of Vocational Education / Hong Kong Design Institute</i>	244	268	421	487	572
<i>Youth College</i>	304	352	478	561	639
<i>Hotel and Tourism Institute / Chinese Culinary Institute / International Culinary Institute</i>	12	26	36	25	77
<b>Number of NCS Students</b> <sup>(Notes 1 &amp; 2)</sup>	<b>757</b>	<b>1 018</b>	<b>1 145</b>	<b>1 048</b>	<b>937</b>
<i>Technological and Higher Education Institute of Hong Kong</i>	0	7	13	23	36
<i>Hong Kong Institute of Vocational Education / Hong Kong Design Institute</i>	293	544	700	624	580
<i>Youth College</i>	146	168	180	181	160
<i>Hotel and Tourism Institute / Chinese Culinary Institute / International Culinary Institute</i>	318	299	252	220	161

**Note:**

- The number of students includes students in publicly-funded and self-financing programmes offered by VTC.
- In the 2012/13 AY, the number of local NCS students refers to those studying in dedicated programmes only because VTC did not keep separate figures for NCS students studying in other programmes not

dedicated to NCS students. Starting from the 2013/14 AY, figures of NCS students studying in other non-dedicated programmes are also included.

Since 2013-14, an additional recurrent funding of \$12 million has been allocated to VTC each year to enhance services for students with SEN. These services include provision of equipment and technical learning aids, special in-class arrangements, consultation and assessment services by clinical psychologist, assessment and support services by educational psychologist, enhanced support for teaching and learning, and career advisory services.

NCS students of VTC's pre-employment programmes enjoy various support services to help them better cope with study and adapt to campus life. These services include academic and learning support, such as student orientations, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme and various student activities for promoting a culture of inclusion and integration with the community as well as advisory support for articulation and career development. Separate breakdown of resources deployed to support services for NCS students is not available.

- End -

There is no direct government funding to the adult education providers. Students taking courses under the Financial Assistance Scheme for Designated Evening Adult Education Courses and meeting the eligibility criteria can receive partial or full tuition fee reimbursement under the financial assistance schemes administered by the Working Family and Student Financial Assistance Agency.

## Notes

1. The financial provision covers government subsidy to non-profit-making kindergartens and kindergarten-cum-child care centres under the Child Care Centre Subsidy Scheme, the Pre-primary Education Voucher Scheme (PEVS) as well as the new Free Quality Kindergarten Education Scheme (KG Scheme) which will be implemented with effect from the 2017/18 school year. For 2016-17 and before, unit cost is not applicable as substantial part of the financial provision is provided to parents for paying school fees under the PEVS, and not funding allocated to the kindergartens, etc. For 2017-18, unit cost is not applicable as the full year effect of new KG scheme is yet to be reflected.
2. The unit cost for government primary and secondary schools includes expenditure chargeable to Head 156 Government Secretariat: Education Bureau and staff on-costs such as pensions, housing benefits, etc.
3. The financial provision for the Vocational Training Council (VTC) covers the vocational and professional education courses offered by the Hong Kong Institute of Vocational Education, Hong Kong Design Institute, Youth College and other training institutes of VTC. The unit costs are calculated on an academic year and a full-time-equivalent basis.
4. Subventions to individual universities under Head 190 University Grants Committee are as follows –

	<b>2013-14 Actual</b>	<b>2014-15 Actual</b>	<b>2015-16 Actual</b>	<b>2016-17 Revised Estimate</b>	<b>2017-18 Estimate</b>
	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>	<b>\$ million</b>
City University of Hong Kong	1,757	1,939	2,215	2,362	2,363
Hong Kong Baptist University	897	992	1,101	1,164	1,166
Lingnan University	363	379	413	426	417
The Chinese University of Hong Kong	3,551	3,752	4,023	4,177	4,141
The Education University of Hong Kong	655	701	741	836	855
The Hong Kong Polytechnic University	2,380	2,536	2,739	2,955	2,994
The Hong Kong University of Science and Technology	1,865	1,989	2,112	2,263	2,284
The University of Hong Kong	3,522	3,695	4,121	4,302	4,293
Total*	14,989	15,983	17,465	18,485	18,513

\*Figures may not add up to the total due to rounding.

The non-recurrent funding under the Matching Grant Scheme is not included. The unit cost figures are calculated on an academic year and a full-time-equivalent basis.

The unit cost for 2017/18 estimate is calculated based on the approved student number targets and does not assume any over-enrolment, whereas the unit cost for the years 2013/14 to 2016/17 is calculated based on the actual student number with over-enrolment, hence higher unit cost in 2017/18. In practice, universities do over-enroll, in particular to take in non-local students who are on top of the approved student number targets.

- End -

**CONTROLLING OFFICER'S REPLY****EDB107****(Question Serial No. 0283 )**Head: (156) Government Secretariat: Education BureauSubhead (No. & title): (-) Not SpecifiedProgramme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education, (5) Special Education, (6) Other Educational Services and Subsidies, (7) Post-secondary, Vocational and Professional EducationControlling Officer: Permanent Secretary for Education (Mrs Marion LAI)Director of Bureau: Secretary for EducationQuestion:

Please provide a breakdown of the following information in such areas as higher education, secondary education, primary education, pre-primary education, special education and vocational education for 2015-16 to 2017-18:

- (a) the items of one-off provisions for education under the General Revenue Account and the amount involved; and
- (b) all the items of non-recurrent grants/capital subventions for education under the General Revenue Account and the amount of provision involved.

Asked by: Hon IP Kin-yuen (Member Question No. 30)Reply:

- (a) There is no injection to education funds under the General Revenue Account (GRA) in 2017-18 and the injections in 2015-16 and 2016-17 are:

	Particulars	Education Level	Amount involved \$ million
2015-16	Injection for setting up the Qualifications Framework Fund	Post-secondary, Vocational and Professional Education	1,000
2016-17	Injection for setting up the Gifted Education Fund	No designated education level	800

- (b) The non-recurrent grants/capital subventions items under GRA with significant cashflow in the years concerned and by education level are:

Question:

- (1) Please provide the respective numbers of Hong Kong students pursuing undergraduate, taught postgraduate and research postgraduate programmes in Mainland universities in each of the past 5 years (2012/13 to 2016/17 academic years), broken down by institution.
- (2) Please provide the list of Mainland institutions participating in the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) in each of the past 5 years (2012/13 to 2016/17 academic years).
- (3) Please provide the respective numbers of Hong Kong student applicants and those finally admitted under the Admission Scheme in each of the past 5 years (2012/13 to 2016/17 academic years), broken down by institution.
- (4) Please provide the first quartile, median and lower quartile of the Hong Kong Diploma of Secondary Education (HKDSE) examination results of student applicants under the Admission Scheme in each of the past 5 years (2012/13 to 2016/17 academic years).
- (5) Please provide the first quartile, median and lower quartile of the HKDSE examination results of students admitted under the Admission Scheme in each of the past 5 years (2012/13 to 2016/17 academic years).
- (6) How many civil servants in the Education Bureau were involved in handling matters relating to the Admission Scheme in each of the past 5 years (2012/13 to 2016/17 academic years)? What are the details of the staffing establishment? What is the amount of public funds involved?

Asked by: Hon IP Kin-yuen (Member Question No. 31)

Reply:

- (1) Regarding the number of Hong Kong students pursuing studies in the Mainland, we do not maintain such records. Nevertheless, according to the information provided by the Ministry of Education of the People's Republic of China, the number of Hong Kong students studying undergraduate and postgraduate programs in Mainland higher education institutions was 15 175 as at December 2016.
- (2) The Ministry of Education has implemented the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme) since the 2012/13 academic year. The number of Mainland higher education institutions participating in the Admission Scheme was 63, 70, 75, 78 and 84 in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 academic years respectively, list of which can be downloaded from the website of the Education Bureau at [www.edb.gov.hk/expo2011](http://www.edb.gov.hk/expo2011),

[www.edb.gov.hk/expo12](http://www.edb.gov.hk/expo12), [www.edb.gov.hk/expo13](http://www.edb.gov.hk/expo13), [www.edb.gov.hk/expo14](http://www.edb.gov.hk/expo14) and [www.edb.gov.hk/expo15](http://www.edb.gov.hk/expo15).

- (3) The number of students enrolling in the Admission Scheme in the 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17 academic years was 4 248, 2 284, 3 249, 2 988 and 2 689 respectively whereas the number of students admitted under the scheme was 976, 1 188, 1 535, 1 444 and 1 391 respectively. As regards the number of students admitted by individual Mainland higher education institutions participating in the Admission Scheme, the relevant information provided by the institutions for the 2013/14, 2014/15, 2015/16 and 2016/17 academic years was set out in the "Handbook on the Scheme for the Admission of Hong Kong Students to Mainland Higher Education Institutions" for the 2014/15, 2015/16, 2016/17 and 2017/18 academic years, which can be downloaded from the website of the Education Bureau at [www.edb.gov.hk/expo13](http://www.edb.gov.hk/expo13), [www.edb.gov.hk/expo14](http://www.edb.gov.hk/expo14), [www.edb.gov.hk/expo15](http://www.edb.gov.hk/expo15) and [www.edb.gov.hk/expo16](http://www.edb.gov.hk/expo16) respectively.
- (4) & (5) As regards the Hong Kong Diploma of Secondary Education examination results attained by those students who had applied or were admitted under the Admission Scheme over the years, we do not maintain such records.
- (6) The manpower and related expenditure for implementing the Admission Scheme have been subsumed under the establishment and provision for the Education Bureau. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

Question:

The Education Bureau introduced the Mainland University Study Subsidy Scheme (MUSSS) in August 2014 to provide assistance for needy Hong Kong students to pursue undergraduate programmes in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions. In this connection, please advise of the following:

- (1) the number of applications made under the MUSSS and the number of students receiving full grants and half grants in the past 3 years (2014/15 to 2016/17 academic years) by institution, as well as the institutions and programmes involved.
- (2) the number of students under the subsidy of MUSSS who dropped out in the past 3 years (2014/15 to 2016/17 academic years) by institution.
- (3) the number of civil servants in the Education Bureau handling matters relating to the MUSSS. What are the details of the staffing establishment? What is the amount of public funds involved?

Asked by: Hon IP Kin-yuen (Member Question No. 32)

Reply:

1. The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2014/15 academic year, 448 applications were received, with 152 applicants eligible to receive the full-rate subsidy and 111 applicants to receive the half-rate subsidy. For the 2015/16 academic year, 336 new applications were received, with 161 applicants eligible to receive the full-rate subsidy and 75 applicants to receive the half-rate subsidy. Including both newly approved applications and successful renewals, subsidy was provided to 479 students in total, with 304 receiving the full-rate subsidy and 175 receiving the half-rate subsidy. For the 2016/17 academic year, as at 28 February 2017, 1 963 new applications were received, with 1 162 applicants eligible to receive the full-rate subsidy and 524 applicants to receive the half-rate subsidy. Including both newly approved applications and successful renewals,

subsidy was provided to 2 144 students in total, with 1 459 receiving the full-rate subsidy and 685 receiving the half-rate subsidy.

Breakdowns of the applicants and those receiving the full-rate and half-rate subsidy by institutions in the 2014/15, 2015/16 and 2016/17 academic years are set out in the Annexes 1, 2 & 3 respectively. Breakdown of the applicants by discipline is set out in the Annex 4.

2. Five cases of attrition among the students in receipt of the subsidy under the MUSSS have been reported so far.

3. Apart from the five civil service posts (namely, one Executive Officer I, two Clerical Officers and two Assistant Clerical Officers) created to cope with the additional workload arising from the implementation of the MUSSS, the Education Bureau (EDB) and Working Family and Student Financial Assistance Agency (WFSFAA) have been handling the work with their existing resources. The manpower and related expenditure involved have been subsumed under the establishment and provision for EDB and WFSFAA. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the annual Mainland Higher Education Expo jointly organised in a row by the Education Bureau of Hong Kong and the Ministry of Education of the Mainland, please:

- (1) provide the information on the respective dates, venues, themes and turnouts of the Mainland Higher Education Expos held in the past 5 years (from the 2012/13 to 2016/17 academic years);
- (2) advise whether the expenses for the Mainland Higher Education Expos jointly organised by the Education Bureau of Hong Kong and the Ministry of Education of the Mainland are shared equally and of the sum of public money drawn from the coffer of the Hong Kong SAR Government to cover the expenses of the Mainland Higher Education Expos in each of the past 5 years (from the 2012/13 to 2016/17 academic years); and
- (3) advise of the number of civil servants from the Education Bureau that were involved in dealing with the Mainland Higher Education Expos in the past 5 years (from the 2012/13 to 2016/17 academic years) and provide information on their ranks and the amount of public funds involved.

Asked by: Hon IP Kin-yuen (Member Question No. 33)

Reply:

- (1) To help local secondary schools, students and parents understand better the details of and arrangements for the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme), the Education Bureau (EDB) and Ministry of Education (MoE) jointly organised the Mainland Higher Education Expos in Hong Kong annually since 2011 to inform teachers, students and parents of the particulars of the Admission Scheme and latest development on further studies in the Mainland. Information about the past five Mainland Higher Education Expos is as follows:

Date	Venue	Theme	Approximate number of visitors
3 & 4 December 2012	KITEC <sup>^</sup>	Details and arrangements of the Admission Scheme and the latest development on further studies in the Mainland.	7 000
23 & 24 November 2013	KITEC <sup>^</sup>		7 500
1 & 2 November 2014	KITEC <sup>^</sup>		9 000
7 & 8 November 2015	KITEC <sup>^</sup>		12 000
17 & 18 December 2016	HKCEC <sup>*</sup>		10 000

<sup>^</sup> Kowloonbay International Trade & Exhibition Centre (KITEC)

<sup>\*</sup> Hong Kong Convention and Exhibition Centre (HKCEC)

(2) EDB is responsible for all the costs incurred for organising the Mainland Higher Education Expos. The actual expenditure involved in the organisation of the annual Expos over the past five years is as follows:

Financial Year	Actual Expenditure (\$ million)
2012-13	2.43
2013-14	2.48
2014-15	2.54
2015-16	3.23
2016-17	3.58

At the Expos, Mainland institutions participating in the Admission Scheme set up exhibition booths and held talks to disseminate information on their institutions and disciplines, admission requirements, number of student places, tuition fees, etc. There were also thematic sharing sessions for representatives of the institutions to brief teachers, students and parents on the characteristics of individual specialised programmes and employment prospects of graduates. MoE would support representatives of the Mainland institutions to come to Hong Kong to participate in the Expos at its cost.

(3) The manpower and related expenditure for organising the Mainland Higher Education Expos have been subsumed under the establishment and provision for EDB. The ranks of civil servants responsible for the relevant work range from assistant clerical officer to directorate officer.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB111**

**(Question Serial No. 0296)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (1) Please give a breakdown of the total number of courses, estimated intakes, actual intakes, unit cost as well as the tuition fees of the undergraduate, senior year top-up degree, sub-degree and higher diploma programmes offered by self-financing post-secondary institutions by institution and year of study over the past 5 years (i.e. 2012/13 to 2016/17 academic years) ;
- (2) Please give a breakdown of the total number of courses, estimated intakes, actual intakes, unit cost as well as the tuition fees of the taught postgraduate and research postgraduate programmes offered by self-financing post-secondary institutions by institution and year of study over the past 5 years (i.e. 2012/13 to 2016/17 academic years); and
- (3) Over the past 5 years (i.e. 2012/13 to 2016/17 academic years), how many civil servants of the Education Bureau were involved in handling matters relating to self-financing post-secondary institutions? What was the staff establishment? How much public funding was involved?

Asked by: Hon IP Kin-yuen (Member Question No. 34)

Reply:

(1) and (2)

The number of full-time locally-accredited self-financing sub-degree, first-year-first-degree and top-up degree programmes, their estimated intakes, actual intakes and the average annual tuition fees by institution from the 2012/13 to 2016/17 academic years are set out at **Annexes A to D**. The number of locally-accredited self-financing taught postgraduate and research postgraduate programmes, actual intakes and the average annual tuition fees by institution from the 2012/13 to 2016/17 academic years are set out at **Annexes E and F**. We do not have information on the estimated intakes of post-graduate programmes and the unit costs.

(3)

While the Further and Higher Education Branch of the Education Bureau is responsible for, among others, the policy matters of the self-financing post-secondary education sector, the staff of this Branch also oversees many other subject areas. Therefore, we are unable to provide the staff establishment and related expenditure for handling matters related to the self-financing post-secondary institutions alone.

**Notes:**

[1] Provisional figures as at late October 2016. The final actual intakes may vary.

[2] Includes sub-degree programmes provided under the old academic structure.

[3] Figures include those for Study Subsidy Scheme for Designated Professions/Sectors with effect from the 2015/16 academic year.

[4] Hong Kong Adventist College ceased to accept intake with effect from the 2013/14 academic year.

[5] Pui Ching Academy eventually decided not to offer any programmes in the 2012/13 and 2014/15 academic years. As a result, there were no student intakes in these two academic years.

“-” Indicates that no relevant programmes were offered by the institutions.

@ Figures are not provided by the institution.

**CONTROLLING OFFICER'S REPLY****EDB112****(Question Serial No. 0297)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(1) Please provide the number and percentage of schools equipped with wireless internet (WiFi) facilities in the past 5 school years (2012/13 to 2016/17 school years) by district and by category (secondary, primary and special schools); and

(2) In the past 5 school years (2012/13 to 2016/17 school years), how many schools were subsidised by the Government to install WiFi facilities? How much public expenditure was involved in it? Please set out in detail.

Asked by: Hon IP Kin-yuen (Member Question No. 35)

Reply:

(1) According to information collected from schools, as at February 2017, 100 schools under the "Support Scheme for e-Learning in Schools" or WiFi-100 project launched in early 2014 and 657 schools under the first two batches of the WiFi-900 project of the Fourth Strategy on Information Technology in Education (ITE4) launched in August 2015 have completed the enhancement of WiFi infrastructure. The breakdown on these 757 schools by school type is as follows –

School type	Number and percentage of schools with enhanced WiFi infrastructure	Total number of schools
Government primary	20 (59%)	34
Government secondary	17 (55%)	31
Aided primary	355 (80%)	443
Aided secondary	318 (75%)	423
Aided special	47 (78%)	60
<b>Total</b>	<b>757 (76%)</b>	<b>991</b>

Note: Aided schools also include local schools under the Direct Subsidy Scheme and Caput Schools.

There is no ready information on further breakdown of these 757 schools by districts, or the figure on schools which have enhanced their WiFi infrastructure using their own funds.

(2) We have been providing all public sector schools with an annual recurrent Composite Information Technology Grant (CITG) at amounts ranging from \$194,238 to \$668,055, depending on the school type and the number of classes. Schools can use the grant to cover expenditure such as Internet service fee, upgrading and replacement of IT facilities including WiFi equipment, purchase of digital resources materials for learning and teaching (including annual subscription/renewal fees for licences and software), etc. The amounts of CITG over the past five financial years are shown in the table below. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education, including the installation of WiFi equipment in schools and are not required to report to us on how they have used the grant.

	<b>Amount of CITG</b>
2012-13	\$335 million
2013-14	\$328 million
2014-15	\$341 million
2015-16	\$353 million
2016-17	\$361 million

Apart from CITG, we have also launched the following two e-learning initiatives over recent years to enhance WiFi infrastructure in schools.

We launched the WiFi-100 project in early 2014 with a commitment of \$50 million under which around \$35 million one-off grant was provided to the 100 public sector schools under the WiFi-100 project in early 2014 for enhancement of their IT infrastructure so as to set up the necessary WiFi environment in their school premises for use of e-textbooks in class and to acquire sufficient mobile computing devices.

In addition, we launched the ITE4 in August 2015 with a non-recurrent funding of \$105 million, of which around \$68 million was disbursed to some 700 schools under the first two batches of the WiFi-900 project as one-off grant for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment. We also disbursed an extra recurrent grant of \$70,000 on average per school to these 700 schools for subscription of WiFi services.

(e) a breakdown by 18 districts and by class level of the numbers of students with one of the parents being non-Hong Kong permanent resident and both parents being non-Hong Kong permanent residents who resided in Hong Kong in the past 5 school years (2012/13 to 2016/17 school years); and

(f) in view of the increasing number of cross-boundary students or newly-arrived students from the Mainland, whether the Administration increased the numbers of classes and teachers in schools from 2012/13 to 2016/17 school years. If yes, please list the number of classes and teachers increased and their respective class levels as well as the number of the schools involved and their respective districts. What is the amount of money involved?

Asked by: Hon IP Kin-yuen (Member Question No. 36)

Reply:

(a) The Education Bureau (EDB) does not collect information on the residency status of the parents of cross-boundary students (CBS). Hence, we are unable to provide the requested information.

(b) Under the Pre-primary Education Voucher Scheme, every child, aged 2 years 8 months or above, as at end August prior to the commencing of the new school year, with right of abode, right to land or valid permission to remain without any condition of stay in Hong Kong, may apply for the Certificate of Eligibility. Children meeting the above criteria will be issued with the Certificate of Eligibility by the Student Finance Office of the Working Family and Student Financial Assistance Agency. We do not collect the figures of children issued with Certificate of Eligibility by the category of CBS and hence are unable to provide the information as requested.

(c) The survey for collecting CBS figures does not cover information on residency status of the parents or the special educational needs of CBS. We are therefore unable to provide the requested information.

(d) The number of CBS is subject to significant year-on-year changes depending on family factors, distribution of their places of residence and adjustment of related policies, etc. In addition, kindergarten education has all along been provided by the private sector. Parents may choose a kindergarten suitable for their children with regard to their needs, and admission is at the full discretion of individual kindergartens which may have different admission practices and procedures. It is therefore not plausible to accurately project the overall number of CBS and their geographical distribution in the coming 5 school years.

(e) EDB does not collect information on the residency status of the parents of students and hence is unable to provide the number of students with breakdown by their parents' residency status.

(f) Eligible students, irrespective of whether they are CBS or newly-arrived students from the Mainland, may receive education in public sector schools if they so wish. The year-on-year changes in the total number of operating classes and the number of teachers are due to various factors such as the changes in school-age population by level and by district, parental choices, etc. It is not possible to segregate the impact of CBS and newly-arrived students from the Mainland from other concurrent developments. We are therefore not able to provide the number of additional classes and teachers arising solely from the increase of CBS and newly-arrived students from the Mainland.

- Notes:
- (1) Figures refer to the position as at September of the respective school years.
  - (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
  - (3) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.
  - (4) Local/cross-boundary school coach services are intended for CBS attending kindergartens and primary schools only. These coaches are allowed to carry eligible CBS from kindergartens and primary schools at the same time.

- Notes:
- (1) Figures refer to the position as at September of the respective school years.
  - (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
  - (3) Upon implementation of the New Senior Secondary Academic Structure, there is no Secondary 7 class under local curriculum starting from the 2012/13 school year.

- Notes: (1) Figures refer to the position as at September of the respective school years.  
(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.

(b) According to Police records, for the period from 1 January to 1 March 2017, there was one reported case of accident at LMCSL CP, involving minor injury of one CBS (kindergarten grade). In 2016, there were four reported cases of accident at LMCSL CP, each involving minor injury of one CBS (three at kindergarten grade and one at primary grade). Besides, there were two reported cases of accident at LW CP, each involving minor injury of one CBS (one at kindergarten grade and one at primary grade) and one reported case of accident at SZB CP involving minor injury of one CBS at primary grade. In 2015, there was one reported case of accident at LMCSL CP involving minor injury of one CBS (kindergarten grade). In 2014, there were two reported cases of accident at LMCSL CP, each involving minor injury of one CBS (kindergarten grade) as well as one reported case of accident at SZB CP involving minor injury of three CBS (kindergarten grade). For years before 2014, figures and breakdown are not readily available.

(c) The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to Lo Wu Station Road and the LMCSL CP to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the LMC,

MKT, STK and SZB CPs; implementation of simplified clearance services at the LMCSL, LW and SZB CPs and on-board clearance services at MKT, STK and LMC CPs. The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary supporting measures to cater for their needs and ensure their safety.

(3) To address the increasing numbers of CBS in recent years, what is now being done or will be done by the government to enhance or improve schools' supporting facilities? What is the amount of expenditure involved?

Asked by: Hon IP Kin-yuen (Member Question No. 38)

Reply:

(1) To alleviate the impact of increasing cross-boundary students (CBS) on the demand and supply situation of public sector primary school places in individual districts, notably the North District, the Education Bureau (EDB) has, starting from the 2014/15 school year, implemented the revised arrangements for the Central Allocation under the Primary One Admission (POA). In brief, parents of applicant children residing in the Mainland are not required to choose any school net as the applicant child's POA School Net for participation in Part B of the Central Allocation stage. Instead, they are provided with a separate Choice of Schools List for the Central Allocation which consists of all schools in the 8 School Nets close to the boundary control points (i.e. Tuen Mun : 70 (Tuen Mun West), 71 (Tuen Mun East); Yuen long : 72 (Tin Shui Wai), 74 (Yuen Long East); the North District : 80 (Sheung Shui), 81 (Fanling), 83 (Sha Tau Kok); Tai Po : 84) and individual schools in other districts having CBS and are ready and willing to support CBS.

The lists of schools included in the Choice of Schools List for Central Allocation (for Applicant Children Residing in the Mainland) of POA 2014, POA 2015 and POA 2016 (for admission to P1 in the 2014/15, 2015/16 and 2016/17 school years) are at Annexes A, B and C respectively. The numbers of Primary One places provided in the list were 3 177, 2 612 and 2 790 respectively; and the total numbers of CBS allocated with a P1 place (i.e. the finalised number of applicant CBS) under the Central Allocation of POA 2014, POA 2015 and POA 2016 were 2 671, 2 714 and 2 877 respectively.

The numbers of CBS attending P1 in public sector schools in the 2014/15, 2015/16 and 2016/17 school years were 3 696, 3 869 and 4 188 respectively. Figures are based on the annual surveys conducted via schools in September of the respective school years on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.

(2) The number of CBS attending kindergartens (including kindergarten-cum-child care centres), primary schools and secondary schools in Hong Kong and the number of school places in the respective districts from the 2012/13 to 2016/17 school years as requested are tabulated below.

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
- (3) Upon implementation of the New Senior Secondary Academic Structure, there is no Secondary 7 class under local curriculum starting from the 2012/13 school year.

**Table 3b (Cont'd)**

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
- (3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary primary schools are included and special schools are excluded.

**Table 3c (Cont'd)**

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
- (3) Figures on school places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary secondary day schools are included, and special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses are excluded.
- (4) Upon implementation of the New Senior Secondary Academic Structure, there are no Secondary 7 places under local curriculum starting from the 2012/13 school year.

**Table 3d**

Number of CBS and school places in kindergartens (including kindergarten-cum-child care centres), primary and secondary schools by district and by school level from the 2012/13 to 2016/17 school years

**Table 3d (Cont'd)**

Notes:

- (1) Figures refer to the position as at September of the respective school years.
- (2) Figures on CBS are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary. The survey of the 2012/13 school year covered the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing and Tung Chung districts. The survey was extended to Wong Tai Sin district in the 2014/15 school year.
- (3) Figures on school places in kindergartens (including kindergarten-cum-child care centres) do not include special schools. Vacant classrooms and vacant child care centre portions are excluded.
- (4) Figures on school places in primary schools and secondary schools refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by schools concerned. Ordinary primary and secondary day schools are included, and special schools and secondary day courses operated by private schools offering tutorial, vocational and adult education courses are excluded.

(3) Alteration and conversion works have been / are being conducted in nine primary schools in the North District and four primary schools in Yuen Long with a view to providing additional classrooms and other facilities for improving the physical condition of the schools concerned. Renovation works to a vacant school premises in Yuen Long has been carried out for setting up a time-limited aided primary school with a maximum provision of 30 classrooms. The total project estimate for these improvement works is \$242 million. At the same time, the construction of a 36-classroom primary school in Fanling Area 36 for reprovisioning an existing primary school in the North District has commenced in June 2015 with the project cost at \$417.2 million.

家長在填寫「選擇學校表格」時，可於甲部填寫香港任何一所官立或資助小學；而在乙部則必須填寫《統一派位選校名單（居於內地申請兒童）》內的學校。

When filling in Part A of the "Choice of Schools Form", parents may select any government or aided primary schools in Hong Kong. Parents should make their choices strictly from the "Choice of Schools List for Central Allocation (for applicant children residing in the Mainland)" when filling in Part B.

**備註 Remarks**

\*\* 學校預留的統一派位學額，會因應實際需求而調整。另一方面，學校最終開辦小一班級的數目須根據既定準則而定。

The number of P1 places for Central Allocation is provisional and is subject to adjustment based on the actual demand. Besides, the number of P1 classes to be operated by a school in the end is determined according to the established criteria.

S 學校基本每班派位名額為 25 人。須注意，小班教學是一種教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。The number of school places for allocation of the school is basically 25 students per class. It is worth noting that, conceptually speaking, small class teaching is a kind of teaching setting or grouping driven by teaching considerations and schools implementing small class teaching may have different size of grouping and different number of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部分可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

家長在填寫「選擇學校表格」時，可於甲部填寫香港任何一所官立或資助小學；而在乙部則必須填寫《統一派位選校名單 (居於內地申請兒童)》內的學校。  
When filling in Part A of the "Choice of Schools Form", parents may select any government or aided primary schools in Hong Kong. Parents should make their choices strictly from the "Choice of Schools List for Central Allocation (for applicant children residing in the Mainland)" when filling in Part B.

**備註 Remarks**

- \*\* 學校預留的統一派位學額，會因應實際需求而調整。另一方面，學校最終開辦小一班級的數目須根據既定準則而定。  
The number of P1 places for Central Allocation is provisional and is subject to adjustment based on the actual demand. Besides, the number of P1 classes to be operated by a school in the end is determined according to the established criteria.
- S 學校基本每班派位名額為 25 人。須注意，小班教學是一種教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。  
The number of school places for allocation of the school is basically 25 students per class. It is worth noting that, conceptually speaking, small class teaching is a kind of teaching setting or grouping driven by teaching considerations and schools implementing small class teaching may have different size of grouping and different number of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.
- P 該校具備有部分可供肢體殘廢學生使用的設施，有關詳情請直接向學校查詢。  
The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.
- G 中國語文科是所有公營學校包括該校的核心科目，必須修讀。該校在其他科目/部分科目，或在部分班級/班別採用英語授課，以便非華語學生適應校園生活及學習。請直接向學校查詢詳情及參閱「小一入學申請表」填表須知的註三。  
Chinese Language which is a core subject in public sector schools including the school should be studied by all students. The school adopts English as the medium of instruction for all/some other subjects or in all/some levels/classes to facilitate non-Chinese speaking students to adapt to school life and to learn. For details, please contact the school direct and refer to Note 3 of the Notes on How to Complete the 'Application Form for Admission to Primary One'.

家長在填寫「選擇學校表格」時，可於甲部填寫香港任何官立或資助小學；而在乙部則必須填寫《統一派位選校名單 (居於內地申請兒童)》內的學校。

When filling in Part A of the "Choice of Schools Form", parents may select any government or aided primary schools in Hong Kong. Parents should make their choices strictly from the "Choice of Schools List for Central Allocation (For Applicant Children Residing in the Mainland)" when filling in Part B.

**備註 Remarks**

\*\* 此欄顯示按各學校的暫定開辦小一班級數目，計算自行分配學位階段後的剩餘學額；該數目屬暫定性質，會因應統一派位階段的實際需求而調整。另一方面，學校最終開辦小一班級的數目亦須根據既定準則視乎實際需要而定。

This column shows the remaining P1 places of each school after the Discretionary Places Admission stage, which is basically calculated according to the provisional number of P1 classes of the school. The figure is provisional in nature and is subject to adjustment based on the actual demand at the Central Allocation stage. Besides, the actual number of P1 classes approved for a school is determined according to the established criteria taking into account the actual demand.

S 學校實施小班教學，基本每班派位名額為 25 人。若在統一派位階段有實際的需要，學校每班或需加派學生。小班教學著眼教學策略，涉及教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。

The school practises small class teaching with the number of school places for allocation being basically 25 students per class. Subject to the actual need at the Central Allocation stage, the school may be allocated more students per P1 class. Small class teaching is more concerned with the teaching and learning strategy and involves teaching setting or grouping driven by teaching considerations. Schools implementing small class teaching may have different sizes of grouping and different numbers of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部份可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

Subject to the actual need at the Central Allocation stage, the school may be allocated more students per P1 class. Small class teaching is more concerned with the teaching and learning strategy and involves teaching setting or grouping driven by teaching considerations. Schools implementing small class teaching may have different sizes of grouping and different numbers of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部分可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

家長在填寫「選擇學校表格」時，可於甲部填寫香港任何官立或資助小學；而在乙部則必須填寫《統一派位選校名單 (居於內地申請兒童)》內的學校。

When filling in Part A of the "Choice of Schools Form", parents may select any government or aided primary schools in Hong Kong. Parents should make their choices strictly from the "Choice of Schools List for Central Allocation (For Applicant Children Residing in the Mainland)" when filling in Part B.

**備註 Remarks**

\*\* 此欄顯示按各學校的暫定開辦小一班級數目，計算自行分配學位階段後的剩餘學額；該數目屬暫定性質，會因應統一派位階段的實際需求而調整。另一方面，學校最終開辦小一班級的數目亦須根據既定準則視乎實際需要而定。

This column shows the remaining P1 places of each school after the Discretionary Places Admission stage, which is basically calculated according to the provisional number of P1 classes of the school. The figure is provisional in nature and is subject to adjustment based on the actual demand at the Central Allocation stage. Besides, the actual number of P1 classes approved for a school is determined according to the established criteria taking into account the actual demand.

S 學校實施小班教學，基本每班派位名額為 25 人。若在統一派位階段有實際的需要，學校每班或需加派學生。小班教學著眼教學策略，涉及教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。

The school practises small class teaching with the number of school places for allocation being basically 25 students per class. Subject to the actual need at the Central Allocation stage, the school may be allocated more students per P1 class. Small class teaching is more concerned with the teaching and learning strategy and involves teaching setting or grouping driven by teaching considerations. Schools implementing small class teaching may have different sizes of grouping and different numbers of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部分可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

The figure is provisional in nature and is subject to adjustment based on the actual demand at the Central Allocation stage. Besides, the actual number of P1 classes approved for a school is determined according to the established criteria taking into account the actual demand.

S 學校實施小班教學，基本每班派位名額為 25 人。若在統一派位階段有實際的需要，學校每班或需加派學生。小班教學著眼教學策略，涉及教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。

The school practises small class teaching with the number of school places for allocation being basically 25 students per class. Subject to the actual need at the Central Allocation stage, the school may be allocated more students per P1 class. Small class teaching is more concerned with the teaching and learning strategy and involves teaching setting or grouping driven by teaching considerations. Schools implementing small class teaching may have different sizes of grouping and different numbers of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部分可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

U9 該校與順德聯誼總會翁祐中學採用「一條龍」辦學模式。

The school and Shun Tak Fraternal Assn Yung Yau College adopt the 'through-train' mode.

U10 該校與金巴崙長老會耀道中學採用「一條龍」辦學模式。

The school and Cumberland Presbyterian Church Yao Dao Secondary School adopt the 'through-train' mode.

N 學校會由 2015/16 至 2023/24 學年作有時限營運；獲派學生可完成六年小學課程。詳情請直接向學校查詢。

The school operates on a time-limited basis from the 2015/16 school year to the 2023/24 school year during which students allocated may complete the 6-year primary education. For details, please contact the school direct.

This column shows the remaining P1 places of each school after the Discretionary Places Admission stage, which is basically calculated according to the provisional number of P1 classes of the school. The figure is provisional in nature and is subject to adjustment based on the actual demand at the Central Allocation stage. Besides, the actual number of P1 classes approved for a school is determined according to the established criteria taking into account the actual demand.

S 學校實施小班教學，基本每班派位名額為 25 人。若在統一派位階段有實際的需要，學校每班或需加派學生。小班教學著眼教學策略，涉及教學帶動的分組法，學校實施小班教學會按學習目標和學生需要訂定教學組的大小和數目；每班派位人數不應也不須和教學組的大小劃上等號。

The school practises small class teaching with the number of school places for allocation being basically 25 students per class. Subject to the actual need at the Central Allocation stage, the school may be allocated more students per P1 class. Small class teaching is more concerned with the teaching and learning strategy and involves teaching setting or grouping driven by teaching considerations. Schools implementing small class teaching may have different sizes of grouping and different numbers of groups subject to the learning objectives and students' needs. The number of students allocated per class should not and need not be taken as equivalent to the grouping.

P 該校具備有部分可供肢體傷殘學生使用的設施，有關詳情請直接向學校查詢。

The school is equipped with some facilities for the children with physical disability. For details, please contact the school direct.

U11 該校與港九街坊婦女會孫方中書院採用「一條龍」辦學模式。

The school and HK & Kowloon Kaifong Women's Association Sun Fong Chung College adopt the 'through-train' mode.

**(Question Serial No. 0303)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (-) Not specified  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

To implement the Government's resource-saving policy, all policy bureaux must cut their operating expenditure by 1% each year in 2016-17 and 2017-18. Please give a detailed breakdown of the resource-saving items, the expenditure involved and the number of affected stakeholders by year.

Asked by: Hon IP Kin-yuen (Member Question No. 41)

Reply:

In the face of an ageing population, shrinking labour supply and slowing economic growth, the Government needs to contain the growth of government expenditure to ensure fiscal sustainability. The envelope savings programme is a fiscal planning tool aimed at achieving more efficient use of public resources through greater efforts in re-engineering and re-prioritization such that the savings can be re-deployed to the implementation of new or enhanced services.

To achieve the savings required, the Education Bureau (EDB) has conducted reviews and made necessary adjustments with an aim to enhancing effectiveness in the use of available resources. Through the adjustments, EDB will deliver the savings without compromising the quality of education.

Notwithstanding the savings programme, the recurrent education expenditure for 2017-18 is estimated to increase by \$3.1 billion or 4.1% over 2016-17 revised estimates taking into account the additional resources required for gradual implementation of initiatives introduced in past years and the new initiatives to be launched in 2017-18, particularly the implementation of the Free Quality Kindergarten Education Scheme.

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the status and future planning and use of the vacant school premises, please use the table below to provide the following information:

(a) the details of the vacant kindergartens, primary schools, and secondary schools by school district, including school name, detail school address, site area of school premises, year in which the school ceased operation, government department managing the school premises at present, the vacant school premises have been reused or reallocated for educational use, the expected time of their return to the Planning Department or other government departments;

District	School name	Detail school address	Site area of school premises (m <sup>2</sup> )	Year in which the school ceased operation/ became vacant	Government department managing the school premises at present	Year in which the school premises have been reused/reallocated for educational use	Date on and the department to which the school premises was returned

(b) the expenditure involved in managing the vacant school premises each year in the 2013/14 to 2015/16 school years;

(c) the number of vacant school premises the Education Bureau (EDB) returned to other government departments in the 2013/14 to 2015/16 school years; and

(d) a breakdown of the vacant school premises and new development land available for school application in future by school district.

Asked by: Hon IP Kin-yuen (Member Question No. 42)

Reply:

(a) and (d): At present, all kindergartens (KG) in Hong Kong are privately run. KG generally operate in premises identified in the private market on their own, premises owned by their school sponsors or in estate KG premises. The Education Bureau (EDB) does not compile statistics on vacant KG premises. According to the Hong Kong Housing Authority (HKHA)'s records, there are currently four vacant estate KG premises in public housing estates under HKHA. According to the established arrangement, at the request of HKHA, EDB will assess whether a School Allocation Exercise (SAE) for nominating operators for estate KG premises is necessary having regard to the result of the latest demand and supply analysis of

KG places in the vicinities of the estate KG premises concerned as well as other related factors. Should the assessment not justify the SAE, EDB would inform HKHA for their consideration of whether to put the estate KG premises to other alternative use. HKHA may also arrange open rental tender of KG premises at market rent from time to time. In respect of the aforesaid four vacant estate KG premises, two have been included in the Second School Allocation Exercise 2016 of which the result will be announced soon.

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. When there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises, and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use.

While EDB is allowed to retain VSP for school uses, for premises which are proposed to be used for educational uses other than school uses, EDB needs to put forward its proposed use with justification to the Planning Department (PlanD) for assessment and may need to compete with other government departments on use of such VSP. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Information on these premises is set out in Table (1) below.

Table (1) – 18 VSP and two partial VSP under EDB's purview (position as at end-February 2017)

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000
2	Wanchai	2007/08	6 500
3	Eastern	2011/12	600# [Partly vacant]
4	Southern	2012/13	6 000
5	Kwun Tong	2011/12	2 900
6	Kowloon City	2013/14	3 200
7	Wong Tai Sin	2016/17	2 400
8	Wong Tai Sin	2016/17	3 700
9	Wong Tai Sin	2016/17	(Total)
10	Sham Shui Po	2013/14	3 700
11	Sham Shui Po	2010/11	2 200
12	Sha Tin	2015/16	3 900
13	Sha Tin	2011/12	5 800#
14	Sha Tin	2010/11	3 900#
15	Sha Tin	2010/11	2 600# [Partly vacant]
16	Tai Po	2006/07	5 200#
17	Tai Po	1999/00	2 400
18	Tsuen Wan	2010/11	3 600#
19	Tuen Mun	2010/11	5 300#
20	Islands	2006/07	5 800

Note 1: "School year in which the school ceased operation" refers to the year the school premises was ceased to be used by the original school on site. Some of these school premises have been put to temporary use afterwards.

*Note 2:* The site area of school premises is only a rough estimate based on records available to EDB and the figures are for reference only. Information on area of those school premises standing on public housing estates of the HKHA / Housing Society refers to internal floor area of the premises and is marked with (#) in the table above.

EDB would take into account a basket of factors and periodically assess the possible educational use of the VSP under EDB's purview. There is a need to earmark/retain some VSP to cater for the anticipated future demand for school places and to allow flexible arrangements required for in view of the uncertainty involved. In addition, EDB needs VSP to flexibly address various and changing needs, including re-provisioning of existing schools to improve their learning and teaching environment or decanting use by schools undergoing in-situ redevelopment or extension works, etc. It is therefore not practicable to impose any fixed target on the length of the vacancy period of a VSP or the number of VSPs to be retained. Nevertheless, with the policy objective of putting VSP into gainful use in mind, EDB strives to facilitate the utilisation of VSP in an expeditious manner as far as practicable. In this regard, we circulate the list of VSP within EDB on a half-yearly basis to invite new and/or updated proposals on educational uses and/or short-term uses (where appropriate). We also circulate, on a half-yearly basis, a list of VSP earmarked for educational use but suitable for short-term use to relevant bureaux/departments (including the Home Affairs Bureau (HAB), Home Affairs Department (HAD), LandsD, PlanD and Social Welfare Department (SWD)) with a view to identifying short-term use pending the deployment of such premises for the earmarked use so that the land resources can be gainfully used.

In respect of new school sites, as at March 2017, there are a total of 24 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 24 reserved school sites by districts with their location, site area and planned use is set out in Table (2). Among them, funding approval for projects on six reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2014-15 LegCo Session with the school building works already underway; projects on three reserved school sites were approved in the LegCo Session in 2015-16 with the school building works commenced in 2016; while projects on another two reserved school sites would be submitted for funding approval from FC in the 2016-17 LegCo Session. For the remaining 13 sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

Table (2) – Reserved School Sites by District

No.	District	Location	Site Area (rounded to the nearest hundred m <sup>2</sup> )	Planned use	Number of classrooms	Allocation status	Remark
1	Kowloon City	To Kwa Wan	8 000	Two Special Schools	12 each	Allocated	(i)
2	Kowloon City	Kai Tak Development	7 500	Secondary School	30	Allocated	(i)

17	Sham Shui Po	Cheung Sha Wan	6 200	Primary School	30	Unallocated	(iii)
18	Sai Kung	Tseung Kwan O	6 200	Primary School	30	Allocated	(iv)
19	Sai Kung	Tseung Kwan O	7 000	Secondary School	30	Allocated	(iv)
20	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	Unallocated	(iii)
21	Tuen Mun	Tuen Mun West	7 100	Special School	16	Allocated	(i)
22	Islands	Tung Chung	5 800	Special School	18	Allocated	(ii)
23	Sha Tin	Shui Chuen O	8 700	Primary School	30	Unallocated	(iii)
24	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	Unallocated	(iv)

Remarks:

- (i) Funding approval has been obtained from FC of LegCo for the school building project.
- (ii) Funding approval would be sought from FC of LegCo in the 2016-17 LegCo Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

According to EDB's prevailing school allocation mechanism, once a vacant/to-be-vacated premises or a reserved school site is confirmed to be required for allocation for school use, EDB will normally invite application from all eligible organisations in the territory through SAE and make relevant announcement on its website. SAE is generally conducted on a competitive basis amongst the school sponsoring bodies. When assessing the applications, quality of education is the prime consideration of the School Allocation Committee (SAC) comprising official and non-official members. Other factors, including operation track record and condition of existing school premises (where applicable), the school proposal, etc., will also be considered.

(b) EDB is responsible for the management of VSP located on sites allocated to EDB, including those that PlanD has been informed of under the central clearing house mechanism but that LandsD has requested EDB to continue the management until the next users have been identified and taken over the land. In 2013-14,

2014-15 and 2015-16, the expenditures incurred by EDB for the management of VSP were \$0.727 million, \$0.957 million and \$1.221 million respectively. The expenditures mainly include security patrol and inspections, pest control, removal of litter, as well as cleansing and weeding.

(c) As for VSP no longer required by EDB for school or other educational uses, EDB will inform PlanD and other relevant departments (such as LandsD and HD) in accordance with the central clearing house mechanism. PlanD will consider suitable alternative long-term uses (such as government, institution or community, residential and other uses) for the concerned VSP sites. Upon confirmation on the long-term uses of the concerned VSP sites through the central clearing house mechanism, PlanD will inform the relevant departments (such as LandsD and HD) of the recommendations for their follow up as appropriate. In the 2013/14 to 2015/16 school years, EDB had informed PlanD and other relevant departments of 11 VSP in accordance with the above-mentioned central clearing house mechanism.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education, (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

It is pledged in the Budget that the Government will increase the allocation for regular school repairs by 9 per cent to \$1.2 billion in the coming year. Recognising their special designs, the Government will also earmark sufficient resources for retrofitting 26 “matchbox-style school premises”. In this connection, please provide the following specific information:

- (a) What are the expenditure details of the \$1.2 billion and their distribution in expenditure items?
- (b) Compared to the new school year, what are the involved respective numbers of primary and secondary schools, staffing of the Education Bureau and the increase of expenditure in each of the school years from the 2013/14 to 2016/17 school years?
- (c) It is recommended in the Budget to carry out improvement works for the 26 “matchbox-style” schools. Please list the details of the work items, the specific work items required by specific schools concerned, the timetables of the works, as well as the involved work expenditure and total expenditure of each school respectively.

Asked by: Hon IP Kin-yuen (Member Question No.43)

Reply:

(a) and (b) Over the years, the Education Bureau (EDB) has implemented various measures to enhance school facilities and improve teaching and learning environment, having regard to the circumstances and needs of individual schools. For the 2017-18 financial year, the Government plans to allocate around \$1.2 billion as non-recurrent subsidy for carrying out improvement works for school premises under the annual major repairs exercise (Note 1) and emergency repairs mechanism. The related actual/estimated expenditure from the 2013-14 to 2017-18 financial years is set out below –

	2013-14 (actual expenditure)	2014-15 (actual expenditure)	2015-16 (actual expenditure)	2016-17 (estimated expenditure)	2017-18 (estimated expenditure)
Expenditure (\$ million)	848.8	941.0	971.5	1,086.8	1,185.8
Percentage Increase		+10.9%	+3.2%	+11.9%	+9.1%

The number of schools with applications approved under the annual major repairs exercise and the emergency repairs mechanism remain steady at around 900 in past few years and there has been no increase in

terms of staffing arising from the increased funding allocation.

*Note 1:* The annual major repairs exercise is applicable to aided schools as well as schools under the Direct Subsidy Scheme (for items costing more than \$2 million).

(c) In light of the discussion and consensus reached by EDB, the Legislative Council Panel on Education (the Panel) and the sector at the tripartite meetings held in 2016, the Chief Executive announced in his Policy Address on 18 January 2017 the initiative to improve the facilities of 26 “matchbox-style school premises” with regard to the unique design features of such premises. We have briefed Members of the Panel at its meeting of 13 February 2017 on the related arrangement, including five proposed improvement measures in relation to the common problems arising from the unique design features of these school premises, as well as exploration of potential scope for campus expansion and technically feasible means for better utilising the existing space.

The Government will allocate additional resources to take forward the aforementioned improvement scheme. Given that the conditions and needs of the 26 primary school premises vary, the corresponding scope and in turn costs and duration of the works for individual schools would also differ. EDB and our consultants are scheduling meetings with individual schools for in-depth discussions regarding the details of the improvement arrangements, including the works items to cover, priority of such works items and the works programme, in order to finalise the particulars of the works project for individual schools as soon as possible and to commence the improvement works concerned during the 2017 summer break. The total amount of funding required and the cash flow will only be available at a later stage.

Question:

Please give a breakdown of the existing programmes in connection with after-school learning and support provided for students and the funding from the 2012/13 to 2016/17 school years by school year and district, including:

- (a) the number of students receiving the Comprehensive Social Security Assistance (CSSA), full grant or half grant and their respective percentage shares in the total number of students in the respective school years;
- (b) a breakdown of the content of the various support programmes, number of participating schools, number of students receiving CSSA, full grants or half grants and their related percentage shares by school year;
- (c) the number of service hours provided by the various programmes.

Asked by: Hon IP Kin-yuen (Member Question No. 45)

Reply:

Public sector schools are provided with various types of subsidies (e.g. the block grant) and other resources annually. Schools may deploy flexibly the subsidies and resources in accordance with the underlying principles of school-based management to support students' learning and provide after-school activities for students to facilitate their whole-person development.

To support needy students to participate in after-school activities with a view to facilitating their whole-person and all-round development, the Education Bureau (EDB) has implemented the School-based After-school Learning and Support Programmes (Programme) since the 2005/06 school year. Currently, schools and non-governmental organisations (NGOs) are provided with the School-based Grant and Community-based Project Grant respectively to organise after-school activities for eligible students, i.e. Primary 1 to Secondary 6 students in receipt of Comprehensive Social Security Assistance (CSSA) or full grant under the Student Financial Assistance Schemes (SFAS).

To enhance the opportunity of needy students to participate in after-school activities, EDB has, starting from the 2014/15 school year, among other arrangements, increased the discretionary quota for participating schools under the Programme from 10% to 25% to benefit students who are not in receipt of CSSA or full grant of SFAS but identified by schools as needy (including students receiving half grant of SFAS, new arrivals, single parent households, etc). Besides, eligible participating schools (i.e. having a utilization rate

of 80% or above of the provision in the previous year) have been provided with incentive funding under the School-based Grant (which is calculated at an annual rate of \$600 per eligible student vis-à-vis \$400 in other schools and includes an additional 25% of the provision following the increase in the discretionary quota mentioned above). The annual provision of the Programme has been increased to about \$240 million since then.

Besides, the Hong Kong Jockey Club Charities Trust (Trust) and EDB have jointly set up the Hong Kong Jockey Club Life-wide Learning Fund (Fund) since 2002 to subsidise the financially needy students to participate in life-wide learning activities organised or recognised by schools for whole-person development. Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools.

To increase the opportunities for needy students to participate in life-wide learning activities, starting from the 2005/06 school year, EDB has relaxed the discretionary quota for “other needy students” from 10% to 100% so that the participating schools would have full flexibility to benefit needy students who are not CSSA or SFAS full grant recipients but meet the schools’ established “financially needy” criteria (e.g. students receiving half grant under SFAS, new arrivals, single parent households, etc.). Up to the 2015/16 school year, the Trust has donated in total more than \$720 million.

The number of students receiving the CSSA, full grant or half grant and their respective percentage shares in the total number of students by district from the 2012/13 to 2016/17 school years are at [Annexes A to E](#) respectively.

The provision and number of participating schools/NGOs and students of the above programmes and their related percentage shares by district from the 2012/13 to 2016/17 school years are at [Annexes F to J](#) respectively.

Given that the School-based Grant under the Programme is intended to complement block grant and other resources allocated to the schools and in line with the spirit of school-based management, schools can deploy the resources of other grants to provide after-school programmes appropriate to the needs of their students. The activities organized by schools and NGOs are not identical given the diverse needs of students as gauged by their schools and/or the NGOs concerned. However, to enhance transparency, schools are required to include the Programme in their School Annual Plan and conduct an annual review of the effectiveness of the Programme with the findings included in the School Report. Statistics on the service hours under the Programme are not available.

The Fund subsidises eligible students’ cost of participating in various life-wide learning activities organised or recognised by schools according to their students’ needs. Statistics on the service hours of the activities in question are not available.

- The number of students is rounded to the nearest ten.
- Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit needy students (e.g. receiving half grant, new arrivals, single parent households etc) who do not receive CSSA or full grant. Breakdown on the number of participating students receiving SFAS half grant is not available.
- Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant. Breakdown on the number of participating students receiving SFAS half grant is not available.
- For the 2012/13 school year, the total number of NGOs is 167. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.
- Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the above programmes is based on each school year. The corresponding percentage share cannot be worked out.

- The figures are subject to change as a few schools have not yet returned their 2015/16 Annual Activity Reports.
- The number of students is rounded to the nearest ten.
- Eligible students under the Programme are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2014/15 school year, the discretionary quota of all participating schools in receipt of the School-based Grant has been increased from 10% to 25% to benefit needy students (e.g. receiving half grant, new arrivals, single parent households etc) who do not receive CSSA or full grant. Breakdown on the number of participating students receiving SFAS half grant is not available.
- Eligible students under the Fund are students from families in receipt of CSSA or receiving full grant under the SFAS studying in primary and secondary schools. Starting from the 2005/06 school year, the discretionary quota of all participating schools has been increased from 10% to 100% to benefit needy students (e.g. new arrivals, single parent households etc) who do not receive CSSA or full grant. Breakdown on the number of participating students receiving SFAS half grant is not available.
- For the 2015/16 school year, the total number of NGOs is 175. Since an NGO may organise after-school activities in different districts, the total number of NGOs by district may not tally with the total number under the Programme.
- Not applicable as the CSSA data is as at end-December each year while the funding to eligible students under the above programmes is based on each school year. The corresponding percentage share cannot be worked out.

**CONTROLLING OFFICER'S REPLY**

**EDB120**

**(Question Serial No. 0311)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

- (a) Please list the number of students under the scope of eight types of special educational needs from 2012/13 school year to 2016/17 school year by district and education level.
- (b) Please list the number of subsidised primary and secondary schools, the number of students, their percentage shares in the total number of primary and secondary students as well as the expenditure on supporting students requiring tier-2 and tier-3 support by the existing funding mode, including Intensive Remedial Teaching Programme classes, mixed mode and new funding mode in each year from 2012/13 school year to 2016/17 school year.
- (c) Please list the number of participating schools, the number of students as well as the number and percentage share of students under the scope of eight types of special educational needs and students requiring tier-2 and tier-3 support since the implementation of the Pilot Project on Special Educational Needs Coordinators (SENCO) funded by the Community Care Fund (CCF).
- (d) When will the review on the pilot project begin and complete? If the review has completed, what are its findings? Will the pilot project be turned into a recurrent project?
- (e) Will the pilot project be extended to kindergartens? If yes, what are the details and timetables? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 46)

Reply:

(a)

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by SEN types from the 2012/13 to 2016/17 school years is set out at Appendix 1. As the provision of support services for students with SEN does not have relationship with the district in which they live or study, breakdown of the number of students with SEN by district can be misleading. Hence, we have not compiled such figures.

(b)

To help schools cater for students with SEN, the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant (LSG), Enhanced Speech Therapy Grant, additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and Integrated Education

Programme, additional teachers to cater for academic low achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. The number of public sector mainstream primary and secondary schools with the provision of the LSG, IRTP and mixed mode from the 2012/13 to 2016/17 school years is set out at Appendix 2. The level of support of students with SEN may require upward or downward adjustment from time to time according to the performance of the students and the distribution of students under the 3-Tier Intervention Model may change accordingly. Based on the LSG data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support from the 2012/13 to 2016/17 school years is set out at Appendix 3 and Appendix 4 respectively. The expenditure on additional support and services provided for students with SEN in public sector mainstream schools on top of the regular subvention from the 2012/13 to 2016/17 school years is set out at Appendix 5. In actual practice, irrespective of the funding mode adopted, under the Whole School Approach to integrated education, schools should deploy the additional resources to render appropriate support for students in need. Hence, all students with SEN would benefit from such additional resources.

(c)

Starting from the 2015/16 school year, the Community Care Fund has funded a three-year Pilot Project on Special Educational Needs Coordinators (the pilot project), under which a cash grant equivalent to the mid-point salary of a Graduate Master/Mistress or an Assistant Primary School Master/Mistress is provided for mainstream schools with relatively more students with SEN and financial needs so that a dedicated teacher can be deployed to co-ordinate matters relating to SEN support. A total of 124 schools (65 secondary schools and 59 primary schools) participated in the pilot project, benefitting 10 220 students with SEN in the 2016/17 school year. Special Educational Needs Coordinators (SENCOs) assume a leading role in coordinating the formulation, implementation and review of SEN support measures in schools to enhance the effectiveness of integrated education for the benefit of all students with SEN. Leading the student support team, SENCOs' duties encompass the school system, teacher support, working with parents and student support areas. Specifically, the work of SENCOs includes promoting early identification and early intervention, devising teaching adaptations and special examination and assessment arrangements for students with SEN, enhancing home-school co-operation, consultation and professional development for teachers, etc. By leading, planning and implementing various initiatives in catering for students' diverse needs, all students with SEN in the participating schools benefit from the pilot project. Thus, providing a breakdown of students with SEN in schools participated in the pilot project by their SEN types and by the tier of support they are receiving is not meaningful and can be misleading.

(d) and (e)

EDB has commissioned an experienced overseas consultant to evaluate the effectiveness of the pilot project and gain more understanding about the implementation of the pilot project in schools at different levels as well as making feasible recommendations on the way forward. EDB will consider the way forward for the provision of SENCOs in the public sector mainstream primary and secondary schools with reference to the recommendations of the overseas consultant. Kindergarten children with special needs may apply for Social Welfare Department's pre-school rehabilitation services, including Early Education and Training Centre, Special Child Care Centre and Integrated Programme in Kindergarten-cum-Child Care Centre, and benefit from the pilot scheme on On-site Pre-school Rehabilitation Services. EDB will devise a teacher professional development framework to enhance kindergarten teachers' understanding of the children's learning, social and behavioural needs and to empower them to identify and cater for learner diversities, including children at risk of developmental delay. We do not have plan to extend the pilot project to kindergartens.

**Number of Students with Special Educational Needs (SEN) Studying in  
Public Sector Mainstream Primary and Secondary Schools by SEN Types  
from the 2012/13 to 2016/17 School Years**

School Year	School Level	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment

**CONTROLLING OFFICER'S REPLY****EDB121****(Question Serial No. 0314)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not Specified

**Programme:** (3) Primary Education, (4) Secondary Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

With regard to the provision of additional resources for implementing integrated education in mainstream schools, please provide the following information in the past 5 years (from the 2012/13 to 2016/17 school years):

(a) the number of primary and secondary schools receiving the Learning Support Grant (LSG) by using the table below:

Provision for LSG (\$)	Primary Schools					Secondary Schools				
	12/13 school year	13/14 school year	14/15 school year	15/16 school year	16/17 school year	12/13 school year	13/14 school year	14/15 school year	15/16 school year	16/17 school year
0-110,000										
110,001-200,000										
200,001-400,000										
400,001-600,000										
600,001-800,000										
800,001-1,000,000										
1,000,001 or above										

(b) the number of primary and secondary schools with LSG clawed back in the 2015/16 and 2016/17 school years by using the table below:

Claw-back percentage (%)	2015/16					Total
	Under 5%	5 - 10%	11 - 20%	21 - 30%	Over 30%	
Primary schools						
Secondary schools						

2016/17						
Claw-back percentage (%)	Under 5%	5 - 10%	11 - 20%	21 - 30%	Over 30%	Total
Primary schools						
Secondary schools						

- (c) the number of primary and secondary schools using the School-based Educational Psychology Service;
- (d) the total annual provision for the Enhanced Speech Therapy Grant, and the number of primary and secondary schools receiving the basic grant and top-up grant;
- (e) the number of primary and secondary schools joining the Intensive Remedial Teaching Programme in Primary Schools and the Integrated Education Programme, the number of students benefiting from the programmes, the number of additional teachers, teaching assistants and learning support assistants hired, and the average unit cost per place;
- (f) the number of secondary schools provided with additional teachers to support low academic achievers, and the number of additional teachers hired;
- (g) a breakdown, by district, of the number of primary and secondary schools provided with the Intensive Support Grant for hardcore cases of students with special educational needs, and the total annual provision; and
- (h) the total provision for the Top-up Fund, and the number of primary and secondary schools benefiting from the provision.

Asked by: Hon IP Kin-yuen (Member Question No. 47)

Reply:

(a) to (h)

To help schools cater for students with special educational needs (SEN), the Education Bureau (EDB) has been providing public sector schools with additional resources on top of the regular subvention for all mainstream schools. The additional resources include the Learning Support Grant (LSG), Enhanced Speech Therapy Grant (ESTG), additional teachers and funding under the Intensive Remedial Teaching Programme (IRTP) and Integrated Education (IE) Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, Intensive Support Grant for hardcore cases, etc. Professional support is also provided for schools on an ongoing basis through assessment and consultation services of educational psychologists, speech therapists and audiologists.

The number of mainstream public sector primary and secondary schools eligible for LSG by the required range of provision from the 2012/13 to 2016/17 school years is set out at Appendix 1.

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. As the amount of LSG to be clawed back from aided and caput schools for the 2015/16 school year will be confirmed only after the schools' submission of audited accounts by end of February 2017 and verification by EDB, we are unable to provide the amount for the 2015/16 school year and beyond.

The requested statistics on School-based Educational Psychology Service, ESTG, IRTP, IE Programme and additional teachers for supporting low academic achievers from the 2012/13 to 2016/17 school years are set out at Appendix 2.

As for Intensive Support Grant for hardcore cases and Top-up Fund for procurement of special furniture and equipment mentioned above, they are provided for individual schools on an application basis to meet the specific needs of individual students with SEN. In other words, not all schools and students with SEN are receiving the same resource provisions and the funding involved can vary among schools and across years. Hence, providing the total expenditure and number of schools receiving these additional resources separately is not meaningful and can be misleading.

**Distribution of public sector primary and secondary schools according to the specific range of Learning Support Grant (LSG) allocated from the 2012/13 to 2016/17 school years**

Provision of Learning Support Grant (\$)	Number of primary schools					Number of secondary schools				
	2012/13	2013/14	2014/15	2015/16	2016/17	2012/13	2013/14	2014/15	2015/16	2016/17
0 – 110,000	6	4	2	2	2	78	58	43	30	27
110,001 – 200,000	15	8	4	3	0	68	68	23	19	12
200,001 – 400,000	112	115	105	102	103	91	93	97	91	90
400,001 – 600,000	54	49	23	25	25	63	58	60	64	65
600,001 – 800,000	73	58	41	31	29	42	56	46	42	41
800,001 – 1,000,000	41	48	42	38	30	37	26	38	35	28
1,000,001 or above	Not Applicable	19	87	109	125	Not Applicable	23	76	101	119

Note: To enhance the support for schools having admitted larger number of students with SEN, EDB has raised the ceiling of the LSG from \$1 million to \$1.5 million per school per annum with effect from the 2013/14 school year and increased the grant rates by 30% in the 2014/15 school year. Starting from the 2015/16 school year, the grant rates and ceiling of the LSG for each school are adjusted annually according to the change in the Composite Consumer Price Index.

**Table 1**

**Number of public sector primary and secondary schools receiving School-based Educational Psychology Service from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Primary schools	271	297	341	401	454
Secondary schools	259	282	308	333	391

**Table 2**

**Total expenditure of Enhanced Speech Therapy Grant (ESTG) and number of primary schools provided with Basic Grant and Top-up Grant from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of schools	452	452	452	451	454
Total provision (\$ million)	48.1	51.5	54.4	57.4	59.8

Note: ESTG is provided to government and aided primary schools that have students with speech and language impairment (SLI) enrolled. Schools will be provided with Basic Grant and Top-up Grant according to the number of approved classes and the number of moderate or severe cases respectively each year. Most schools are provided with the Top-up Grant, except for a few that do not have moderate or severe cases. Secondary schools could utilize the LSG to support their students with SLI.

**Table 3**

**A. Number of primary schools and additional teachers of the Intensive Remedial Teaching Programme (IRTP) from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of primary schools	253	251	250	243	242
Number of additional teachers	410	403	398	388	383

**B. Number of schools, additional teachers and learning support assistants of the Integrated Education (IE) Programme from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of primary schools	27	27	27	25	25
Number of additional teachers in primary schools	23	23	23	21	21
Number of learning support assistants in primary schools	21	21	23	21	20
Number of secondary schools	15	11	9	8	8
Number of additional teachers in secondary schools	14	10	9	8	8
Number of learning support assistants in secondary schools	11	10	9	8	8

Note:

1. Since the introduction of the New Funding Mode (NFM) in the 2003/04 school year, schools operating IRTP and IE Programme have been encouraged to switch to NFM to enjoy greater flexibility in the use of resources in supporting students with SEN.
2. The number of students under the IRTP and IE Programme is only for calculation of additional manpower to be provided to the schools concerned. In actual practice, irrespective of the funding mode adopted, under the Whole School Approach to integrated education, schools should deploy the additional manpower to render appropriate support for students in need. Hence, students with SEN both within and outside the IRTP and IE Programme should benefit from such additional resources. As such, providing the number of students under the Programmes and the unit cost for these Programmes is not meaningful and can be misleading.

**Table 4**

**Number of public sector secondary schools provided with additional teachers for supporting low academic achievers and number of additional teachers provided from the 2012/13 to 2016/17 school years**

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of schools provided with additional teachers to support low academic achievers	258	252	256	257	262
Number of additional teachers provided	620	592	577	564	555

- End -

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

- (1) Please set out the items under the insurance the Education Bureau obtained for primary and secondary schools and the expenditure involved as well as the respective numbers of schools, teachers and students covered, claim applications and successful claims from the 2012/13 to 2016/17 school years.
- (2) Of the above claim applications and successful claims, please set out the cases involving professional liability and deaths respectively.
- (3) As free kindergarten education will be implemented in the coming school year, is there any provision reserved for early childhood education institutions to obtain necessary insurance? If yes, what are the details? If no, what are the reasons?

Asked by: Hon IP Kin-yuen (Member Question No. 48)

Reply:

(1) & (2)

The Education Bureau (EDB) has taken out the Block Insurance Policy (BIP), which comprises three parts, namely the public liability insurance, the employees' compensation insurance and the group personal accident insurance, for aided primary and secondary schools. Professional liability insurance is not under the coverage of BIP. All staff in aided primary and secondary schools, both teaching and non-teaching, whose salaries are subvented by EDB, as well as students, are insured under the BIP. Each period of insurance covers two school years and the expenditures on the insurance premium for the BIP for the 2011/12 to 2012/13, 2013/14 to 2014/15 and 2015/16 to 2016/17 school years are \$101.7 million, \$145.2 million and \$146.1 million respectively. To protect the interests of the claimants, schools are required to report all accidents, irrespective of whether they are liable, to the BIP insurer. Hence, the number of reported cases should not be taken as the number of claims. We do not have the statistics on the number of claims. From the 2012/13 to 2016/17 school years, the total number of reported cases and indemnified cases for all types of insurance under the BIP are 10 100 and 4 600 respectively. Among them, there are 9 cases involving deaths.

(3) Under the free quality kindergarten (KG) education policy, EDB will provide direct subsidy for KGs joining the Free Quality KG Education Scheme. Funding will be provided basically on a per student basis in the form of a basic unit subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. Insurance premium is one of the expenditure items chargeable to the "other operating costs" portion of the basic unit subsidy.

Question:

Please provide the following information of each of the past 5 school years and the coming year (estimated expenditure) by school district and age of school premises (under 10 years, 11-20 years, 21-30 years, 31-40 years, 41-50 years, 51-60 years and over 60 years):

- (a) expenditure/provision for carrying out urgent repair and annual maintenance works in primary and secondary schools in each school year;
- (b) expenditure/provision for carrying out alteration works in primary and secondary schools;
- (c) expenditure for slope inspection and maintenance;
- (d) schools in each district that are not yet provided with such fixed and standard teaching facilities as library, computer room, gymnasium, medical room, music room, basketball court and lift under the existing policy; what concrete plans the Administration has to help schools cover such inadequacies in teaching facilities and what will be the funding involved;
- (e) with the implementation of 5 phases of School Improvement Programme on the recommendation of Education Commission Report No. 5, the number of schools, scope of works and funding involved in each year and each phase; the number of schools that have never been included in these 5 phases of School Improvement Programme; the name of these schools and the age of their school premises;
- (f) whether any assessment has been conducted to estimate the number of schools and amount of funding that will be involved if a new stage of School Improvement Programme is to be rolled out for schools in Hong Kong; if yes, the details and timetable; if no, the reasons;
- (g) with the suspension of School Improvement Programme in 2006, the name of schools in each district that have since received funding for redevelopment, expansion and reprovisioning in each school year; the age of their original school premises and the area such premises occupied; the area that the school premises occupy after redevelopment, expansion and reprovisioning; the respective cost of works involved;
- (h) the redevelopment, expansion and reprovisioning projects confirmed and the cost of works involved for the coming school year and beyond;
- (i) the cost sharing principle for furniture between the Education Bureau and school operators under the existing policy for redevelopment; the school furniture expenses absorbed by the Education Bureau between the 2013/14 and 2016/17 school years and the name of schools involved;
- (j) the name of schools in each district that have not yet installed lifts since the enforcement of the Disability Discrimination Ordinance and the reasons for not installing; the name of schools that will have lifts installed and the funding for such installation works;
- (k) according to the existing policy and planning standards, the number of parking spaces that different types of schools are entitled to and the calculation criteria; the maximum, average and minimum number of parking spaces among schools;
- (l) in the form of a list, the name of schools that have been selected for building and window inspection in each school year since the implementation of the Mandatory Building and Window Inspection Schemes in 2012; the age of the school premises involved; the district in which these schools are situated; the cost of works for each of these schools; the funding earmarked for carrying out such projects in the next school year; and the number of schools that will be involved.

Asked by: Hon IP Kin-yuen (Member Question No. 44)

Reply:

(a) & (b) The Education Bureau (EDB) provides recurrent funding to aided schools and schools under the Direct Subsidy Scheme (DSS) for school maintenance/repair works. EDB also invites application for capital subventions to carry out major school maintenance/repair works including alterations under the annual major repairs (MR) exercise (Note 1) and emergency repairs (ER) mechanism. The actual expenditure in 2012-13 to 2015-16 and the estimated expenditure for 2016-17 and 2017-18 are as follows:

*Note 1:* The annual MR exercise is applicable to aided schools as well as DSS schools (for items costing more than \$2 million).

Financial Year	MR	ER	Total
	Expenditure (\$ million)		
2012-13	700.2	139.4	839.6
2013-14	708.2	140.6	848.8
2014-15	804.7	136.3	941.0
2015-16	788.8	182.7	971.5
2016-17 (estimated)	874.3	212.5	1,086.8
2017-18 (estimated)	(Note 1)	(Note 2)	1,185.8

*Note 1:* 2017-18 MR applications are being processed. No breakdown on estimated expenditure can be provided for the time being.

*Note 2:* Schools may submit ER applications throughout 2017-18. No breakdown on the estimated expenditure can be provided for the time being.

(c) Insofar as maintenance of slopes under the responsibility of a school is concerned, aided schools may apply for capital subventions from EDB to appoint consultants/contractors to carry out engineer inspection for maintenance and subsequent repair works, while DSS schools may apply for capital subventions to carry out repair works costing over \$2 million. For aided and DSS schools who have received Dangerous Hillside Orders from the Buildings Department, they may also apply for capital subventions from EDB to carry out the investigation and necessary repair works required. The actual amount of subsidies provided to schools for the conduct of inspections and works related to slope maintenance from 2012-13 to 2015-16 and the estimated expenditure in 2016-17 are set out below:

Financial Year	Expenditure (\$ million)
2012-13	3.0
2013-14	4.1
2014-15	3.3
2015-16	6.1
2016-17 (estimated)	8.9

The estimated funding required in 2017-18 for the purpose would depend on the number of applications and the scope of works to be submitted by schools on a need basis.

(d), (e) & (f) Over the years, EDB has implemented various measures to enhance school facilities. Among these measures, the School Improvement Programme (SIP) was implemented between 1994 to 2006 in five phases, under which about 700 ordinary public-sector primary and secondary schools built according to the planning standards when the schools were constructed have their school facilities enhanced. Phases One to Three focused on upgrading the schools' facilities for teaching, learning and administrative needs. Phase Four and the Final Phase aimed to upgrade the school facilities to the prevailing standards where technically feasible. Apart from SIP, EDB has also put in place other measures to enhance school facilities

and improve teaching and learning environment. Examples include addition or conversion of classrooms and special rooms, installation of barrier-free facilities, repair and replacement of facilities, etc. Based on EDB's information, a majority of public sector schools have already been equipped with major facilities, such as assembly halls, libraries, computer rooms or language rooms, ball courts or covered playgrounds. Meanwhile, under school-based management, schools may initiate changes to the intended use of some school facilities to meet students' needs and suit the overall school development. If no structural change of the building is entailed, such alterations made could be handled by the schools themselves without having to apply through or report to EDB. We are therefore not able to provide a breakdown of the relevant school facilities.

(g) & (h) In the past five financial years, there were a total of 17 approved capital works projects for the purposes of reprovisioning, redevelopment or extension of public sector primary and secondary schools, involving a total estimated project costs of about \$4,200 million. Details of these 17 projects are set out as follows:

No.	District	Project	Purpose	Age of the Original School Premises (year)	Site Area of the Original School Premises (m <sup>2</sup> )
1	Central and Western	Redevelopment of a secondary school	Redevelopment	>30	>3 000
2	Central and Western	Extension to a primary school	Extension	>30	<3 000
3	Hong Kong East	Two new 24-classroom primary schools	Reprovisioning	>30	<3 000
4	Islands	Extension to a primary school	Extension	>30	>3 000
5	Kowloon City	Redevelopment of a secondary school	Redevelopment	>30	>3 000
6	Kowloon City	A new 30-classroom primary school	Reprovisioning	>30	<3 000
7	Kowloon City	A new 30-classroom primary school	Reprovisioning	>30	<3 000
8	Kowloon City	A new 30-classroom secondary school	Reprovisioning	>30	<3 000
9	Kwun Tong	A new 30-classroom primary school	Reprovisioning	>30	<3 000
10	North	A new 36-classroom primary school	Reprovisioning	>30	<3 000
11	North	Extension to a primary school	Extension	>30	>3 000
12	North	Extension to a primary school	Extension	>30	>3 000
13	North	Extension to a primary school	Extension	>30	>3 000

No.	District	Project	Purpose	Age of the Original School Premises (year)	Site Area of the Original School Premises (m <sup>2</sup> )
14	Shatin	Extension to a secondary school	Extension	>30	>3 000
15	Wan Chai	Redevelopment of a primary school	Redevelopment	>30	>3 000
16	Yuen Long	Extension to a primary school	Extension	>30	>3 000
17	Yuen Long	Extension to a primary school	Extension	>30	3 000

In the 2016-17 legislative session, EDB has planned to seek funding approval from the Finance Committee of the Legislative Council for a school building project for reprovisioning purpose in Sham Shui Po.

(i) For redevelopment projects, EDB will provide the schools concerned with subsidy for the purchase of furniture and equipment (F&E) items in the new school premises to meet the required standard. The maximum amount of subsidy may be adjusted by deducting the total amount of serviceable F&E items in the existing schools. From the 2013/14 to the 2016/17 school years, the total amount of F&E subsidy granted for a completed redevelopment project was about \$5.2 million.

(j) In line with the Government's policy on improving access and facilities for persons with disabilities, schools may apply for provision of lifts through the annual MR mechanism. In view of the complexity and the cost of works involved, EDB would only be able to entertain a small number of requests each year and priority will be given to justifiable cases. In the process, consideration will be given to schools' needs (e.g. the number of students with special needs), funding available and technical feasibility, etc. Unsuccessful but justifiable cases will be re-considered together with other newly received requests in the subsequent funding allocation exercises. In other words, schools are not required to submit fresh applications again in the subsequent MR exercises. Once approval has been given for the lift installation, Term Consultants (TC) entrusted by EDB will liaise with schools concerned for projects delivering details, including the preparation of documents for seeking approvals from relevant authorities and the schedule of handing over work site for works commencement, etc. Progress of the installation will vary according to factors such as scale and complexity of work, land status of the school premises and other factors that may affect the progress of seeking approvals from relevant authorities. In the past five financial years, a total of 31 aided schools have been approved for lift installation with a total estimated project cost at around \$291 million.

(k) According to the Hong Kong Planning Standards and Guidelines, the parking and loading/unloading requirements standards for ordinary primary and secondary schools are as follows:

School type	Parking Requirements Standards	Loading/unloading Requirements Standards
Primary Schools	1 car parking space for every 4 to 6 classrooms	<ul style="list-style-type: none"> <li>- 1 lay-by for taxis and private cars for every:               <ul style="list-style-type: none"> <li>(i) 2 to 3 classrooms in primary schools;</li> <li>(ii) 3 to 5 classrooms in secondary schools.</li> </ul> </li> <li>- For school buses, there should be a minimum of 3 lay-bys within the school boundary for primary schools and up to 3 lay-bys for secondary schools.#</li> </ul>
Secondary Schools	1 car parking space for every 3 to 4 classrooms	

(Note: # For all schools within public housing estates, the requirement for bus lay-bys should be examined on an individual basis taking account of the catchment area and the expected traffic conditions on roads within the estate.)

(1) Under the Mandatory Building Inspection Scheme (MBIS) and the Mandatory Window Inspection Scheme (MWIS), schools may be selected for issuance of statutory notices (SN) by the Buildings Department (BD) or by the Independent Checking Unit of Transport and Housing Bureau (ICU) (for schools locating in housing estates and managed by the Housing Department). EDB does not have information on the number of SN served on schools.

When being served with SN, schools have the responsibility to arrange for inspection and repair works (if required) according to the requirements set out by BD or ICU under MBIS and MWIS. Under the current mechanism, aided schools, when being served with SN, may apply for the MBIS/MWIS Subsidy to appoint registered professionals to carry out inspection and repair works (if required according to the inspection report). Since the provision of this subsidy in February 2014, we have approved a total of 90 applications (as at February 2017) at a total project estimate of \$19.4 million. Schools under DSS may apply for capital subventions to carry out the repair works vide their annual MR applications if the estimated cost exceeds \$2 million. The provision of subsidy is granted to schools on a reimbursement basis. The amount to be expended in 2017-18 for these projects would depend on the number and work scope of the applications to be submitted by schools on a need basis.

**CONTROLLING OFFICER'S REPLY**

**EDB124**

**(Question Serial No. 0485)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

At present, aided primary, secondary and special schools are allowed to retain fund balance up to twelve months' provision of their recurrent subvention under Operating Expenses Block Grant (OEBG) for non-Incorporated Management Committee schools or Expanded Operating Expenses Block Grant (EOEBG) for Incorporated Management Committee schools, while government primary and secondary schools are allowed to retain fund balance up to twelve months' provision of their recurrent funding under Expanded Subject and Curriculum Block Grant (ESCBG). Please provide the following information:

(a) Please list the cumulative amount of reserve in OEBG/EOEBG/ESCBG and the number of months of the recurrent subvention of the school that the said amount represents for the five school years from 2012/13 to 2016/17 in the tables below;

(A) Aided and government secondary schools

Amount of reserve	2012/13 school year		2013/14 school year		2014/15 school year		2015/16 school year		2016/17 school year	
	In terms of the number of months of the recurrent subvention of the school	Number of secondary schools	In terms of the number of months of the recurrent subvention of the school	Number of secondary schools	In terms of the number of months of the recurrent subvention of the school	Number of secondary schools	In terms of the number of months of the recurrent subvention of the school	Number of secondary schools	In terms of the number of months of the recurrent subvention of the school	Number of secondary schools
\$0 to below \$500,000	less than 6 months

\$4 million or above										

(b) Please list the highest, lowest, average and median amount of grants (including recurrent grants/time-limited grants/one-off grants, etc.) provided by the Government to public primary and secondary schools as well as the highest, lowest, average and median amount of unspent grants in the five school years from 2012/13 to 2016/17.

Asked by: Hon IP Kin-yuen (Member Question No. 115)

Reply:

(a)

A breakdown of the cumulative balances of Operating Expenses Block Grant (OEBG) / Expanded Operating Expenses Block Grant (EOEBG) / Expanded Subject and Curriculum Block Grant (ESCBG) for aided and government schools, and these balances in terms of number of months of schools' provision of recurrent subvention / funding by ranges at the end of 2012/13, 2013/14 and 2014/15 school years is provided at the attached Annex 1. The information of aided schools is based on the annual audited accounts already submitted by the aided schools to EDB. Information for 2015/16 and 2016/17 school years are not yet available.

(b)

The highest, lowest, average and median amount of the major grants provided by the Government to aided and government schools during the financial years from 2012-13 to 2016-17, together with the highest, lowest, average and median amount of unspent grants from 2012-13 to 2014-15 are provided at the attached Annex 2. Information on the unspent amount of grants for 2015-16 and 2016-17 are not available as the aided schools have yet to submit their annual audited accounts.

**Information on OEBG / EOEBG / ESCBG cumulative balances

### Notes

- Some government grants are not received by most of the aided and government schools, or are received by a few schools only. To present a more realistic picture of the unspent balance of grants kept by individual schools, this Annex shows information on those grants that were received by the majority of aided and government schools (i.e. more than 50% of the aided and government secondary schools, the aided and government primary schools, or the aided special schools as appropriate) from the Government.

2. Information on government grants disbursed to aided and government schools and the respective unspent amount of government schools are provided on a financial year basis, while the respective unspent amount of aided schools is provided on a school year basis.
3. Information on the unspent amount of government grants for aided schools for the years 2015-16 and 2016-17 are not available as the schools have yet to submit their annual audited accounts.
4. Amount unspent is calculated after taking into account the amount brought forward from the previous school/financial year and after deduction of the excessive surplus amount to be refunded to the Government.
5. Information on government grants disbursed to aided and government schools for the financial year 2016-17 is the position up to 28.2.2017.

**(Question Serial No. 3190)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

- (1) In respect of each school year from 2012/13 to 2015/16, what were Education Bureau (EDB)'s expenditures on the maintenance and replacement costs as well as the provisions for electricity charges of schools' air-conditioning systems?
- (2) Whether the EDB has assessed the respective expenditures, of each of the school year, on the maintenance, procurement, replacement and electricity charges of the air-conditioning systems of public sector schools across the territory; if yes, what are the details; if no, what is the reason for that?
- (3) Will the EDB consider including air-conditioning systems as standard facilities? If yes, what are the implementation timetables and expenditures to be involved? If no, what is the reason for that?
- (4) Under the prevailing policy, the EDB will provide Noise Abatement Grant and install air-conditioning systems for schools exposed to fixed noise source. For schools facing changes in the surrounding area, will the EDB provide a re-assessment mechanism to allow these affected schools to re-apply for the Noise Abatement Grant? If it will, what are the eligibility criteria and application procedures? How many schools have received re-assessment? What are the results and have they received any grants? If it won't, what is the reason for that? Will the EDB consider setting up a re-assessment mechanism so that schools affected by noise can also receive reasonable support?

Asked by: Hon IP Kin-yuen (Member Question No. 49)

Reply:

(1) & (2) Air-conditioning systems are not considered as standard teaching facilities under the prevailing policy. The Government will normally install insulated windows and air-conditioning systems for classrooms and special rooms exposed to traffic noise or fixed noise source as noise mitigation measures in accordance with the noise standards stipulated in the Hong Kong Planning Standards and Guidelines. Some special rooms, such as computer-assisted learning rooms, language rooms and libraries, are fitted with air-conditioning systems because of the equipment or devices contained therein and the functions of such rooms require so. Schools may, on a need basis, submit applications for maintenance or replacement of air-conditioning systems installed under the abovementioned policies through the established mechanism of major repairs and emergency repairs. Since the expenses incurred have already been included in the overall project cost and the total expenditure on maintenance, we do not have breakdown figures in this regard.

As mentioned above, we will install air-conditioning systems for some of the special rooms in schools due to the equipment or devices therein and the functions of the special rooms, etc. Schools may deploy the "Expanded Operating Expenses Block Grant" to pay for the electricity fees incurred by the relevant air-conditioning systems, fees relating to routine maintenance arranged by the schools themselves, etc. The

Education Bureau (EDB) will also provide "Noise Abatement Grant" (NAG) to schools with air-conditioning systems installed as noise mitigation measures. NAG is calculated based on the number of affected classrooms and special rooms, and is for paying for the recurrent expenses incurred by the relevant air-conditioning systems, including electricity fees, fees relating to routine maintenance arranged by the schools themselves, etc. In the 2016/17 school year, the annual amount of NAG for aided secondary and whole-day primary schools is \$8,993 per classroom and \$22,810 per special room. The amount of grants will be adjusted according to each year's Composite Consumer Price Index.

(3) Under the above arrangements, air-conditioning systems are provided to schools and facilities most in need. Providing air-conditioning systems in all classrooms and special rooms of all public sector schools across the board will unavoidably involve huge amount of public resources, including fees for purchasing and installing the systems, as well as the long-term recurrent expenses relating to maintenance and electricity charges. When reviewing the priority of use of public resources, we need to consider the relevant implications with caution. We will continue to review the existing policy from time to time, and where resources permit, assist schools in upgrading their facilities to provide a better learning environment for students.

(4) The then Education Department launched the Noise Abatement Programme (NAP) in 1986 to provide air-conditioning and other noise abatement measures for classrooms and special rooms exposed to excessive traffic noise level at 65dB(A) or above. NAP, comprised of four stages and covered over 500 existing public sector schools, was completed in 2007. As for new schools, under the prevailing practice, consultant will conduct assessment on environmental issues including traffic noise impact at the design stage of a new school building programme. The traffic noise impact assessment results would determine the required noise abatement measures (NAMs), if any. For rooms exceeding the acceptable noise level, NAMs, such as provision of solid boundary fence wall, air-conditioning system and suitable window types, etc. will be provided. Possible noise impacts arising from new roads will be dealt with under the related environment protection legislation or planning mechanism while noise sources controlled under the Noise Control Ordinance will be dealt with through enforcement of the Ordinance.

## (Question Serial No. 3191)

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not specified

**Programme:** (8) Policy and Support

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

(a) Please set out the number of application, the number of registration approved, the number of exemption from registration approved, the number of application for non-local accreditation, the number of non-local courses that have been locally accredited, and the number of cancellation of registration regarding non-local institutions and non-local courses each year by academic year from 2012/13 to 2016/17.

(b) What were the number of investigation visits the Non-local Courses Registry conduct and the number of times the annual return were transferred to Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) every year? How many non-compliant cases or cases where inconsistency with information stated in the annual return were found? What were the details and the penalty involved?

Asked by: Hon IP Kin-yuen (Member Question No. 50)

## Reply:

(a) The numbers of applications for registration/exemption from registration, applications approved under the Non-local Higher and Professional Education (Regulation) Ordinance (Cap. 493) (the Ordinance), non-local courses which have applied for local accreditation and applications approved, and courses having registration/exemption cancelled from 2012/13 to 2016/17 academic years are set out below:

	Academic Year									
	2012/13		2013/14		2014/15		2015/16		2016/17 <sup>Note1</sup>	
	For Registration	For Exemption	For Registration	For Exemption	For Registration	For Exemption	For Registration	For Exemption	For Registration	For Exemption
<b>New Application Received</b>	45	90	44	52	62	40	52	23	32	10
<b>Application approved</b> <sup>Note2</sup>	63	92	41	46	49	43	47	32	24	7
	Registered Course	Exempted Course	Registered Course	Exempted Course	Registered Course	Exempted Course	Registered Course	Exempted Course	Registered Course	Exempted Course
<b>Applied for Local Accreditation</b>	19	10	15	23	13	10	29	12	10	0
<b>Locally Accredited</b>	19	10	14 <sup>Note3</sup>	23	13	10	29	12	6 <sup>Note4</sup>	0
<b>Course Cancelled</b> <sup>Note5</sup>	53	60	36	17	65	38	53	58	30	43

Note 1: Information up to 28 February 2017.

Note 2: The number of approved applications may include applications submitted in the previous academic year.

Note 3: An accreditation status was not granted to a programme that did not fulfill the pre-conditions.

Note 4: Four of the programmes were approved with pre-conditions. Given the pre-conditions have not yet been fulfilled, these four programmes have not yet been granted an accreditation status.

Note 5: The request for cancellation of all the courses was initiated by the operators or non-local institutions, except one case which was initiated by EDB in 2016/17 when the non-local institution no longer met the registration criterion of being a recognised institution.

Under the Ordinance, the Non-local Courses Registry (the Registry) only registers non-local courses, but not operators or non-local institutions, hence there are neither figures on registration/de-registration of operators nor non-local institutions under the Ordinance.

(b) Except for cases pending cancellation, all annual returns received by the Non-local Course Registry in respect of the registered courses would be forwarded to the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) for assessment. The number of annual returns received from 2012/13 to 2016/17 academic years is set out below:

	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17 <sup>Note 1</sup>
Number of Annual Returns received	374	380	397	385	199

Note 1: Information up to 28 February 2017.

One inspection was conducted in 2015/16 academic year under section 24 of the Ordinance. With a view to enhancing monitoring of the operation of non-local courses, the Education Bureau is planning to conduct regular inspection. Preparatory work including training for staff and the drawing up of an inspection manual is underway. The plan is to conduct regular inspection starting from the third quarter of 2017.

Upon receipt of the annual returns, the Registry would conduct preliminary checking before forwarding them to HKCAAVQ for assessment. From time to time, the Registry will ask for clarification regarding the information provided in the annual returns. There have been no cases of serious problem found in the annual returns, except that one suspected case has been referred to the Police for investigation and the result of which is still pending. As one of the measures to enhance monitoring and facilitate investigation if needed, operators would be requested to adopt the revised annual return form to provide more information to the Registry for Annual Returns with reporting period ending on or after 1 June 2017. The revised annual return form has been promulgated on the website of the Registry on 10 March 2017 so that the operators could get prepared for the new requirement.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

What are the average number of teaching periods and teaching time for teachers in government, aided and Direct Subsidy Scheme primary and secondary schools from the 2014/15 to 2016/17 school years? Please use the table below to provide information, with a breakdown by type of school.

No. of days in each cycle	Average no. of teaching periods per cycle per teacher	Average teaching time per cycle per teacher (minute)
5		
6		
7		
8		
9		
10		

Asked by: Hon IP Kin-yuen (Member Question No. 51)

Reply:

The average number of teaching periods for teachers in government, aided and Direct Subsidy Scheme primary and secondary schools per cycle for the school years from 2014/15 to 2016/17 is tabulated below.

**Average number of teaching periods per cycle per teacher\***

	2014/15	2015/16	2016/17 (Estimate)
Government secondary school teachers	24	24	24
Government primary school teachers	26	26	26
Aided secondary school teachers	25	25	25
Aided primary school teachers	26	26	26
Direct Subsidy Scheme secondary school teachers	23	23	23
Direct Subsidy Scheme primary school teachers	23	22	22

\* In computing the figures, principals and teachers without teaching periods are excluded. The number of school days per cycle (ranging from 5 to 10 days) and length of each teaching period may vary from

school to school as well as across school years. EDB does not have the breakdown of average number of teaching periods per cycle per teacher by type of school and average teaching time per cycle per teacher by number of days in each cycle.

**(Question Serial No. 1097)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Concerning the measures mentioned in paragraph 8 under “Matters Requiring Special Attention in 2017-18”, would the Education Bureau advise this Committee of the following:

- (1) The specific measures and estimated expenditures of three items mentioned, i.e. “enhancements in quality assurance framework”, “governance and monitoring” and “improving accommodation and facilities”.
- (2) The estimated number of needy families subsidised by the Kindergarten and Child Care Centre Fee Remission Scheme and the estimated expenditure involved.
- (3) The specific measures of conducting Quality Review for kindergartens joining the Free Quality Kindergarten Education Scheme and the estimated expenditure involved.

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 4)

Reply:

(1)  
The existing Quality Assurance Framework for kindergartens (KGs) comprises School Self-evaluation (SSE) and Quality Review (QR). Under the Free Quality Kindergarten Education Scheme (Scheme) to be implemented starting from the 2017/18 school year, the Education Bureau (EDB) will enhance the existing Quality Assurance Framework to further ensure the quality of KG education. We will refine the Performance Indicators (PIs) which form the basis of SSE and QR to tie in with the Scheme. While EDB will continue to organise training activities to familiarise KGs with the Quality Assurance Framework and good practices of learning and teaching, we will involve an external independent member in the QR team as an external observer to enhance transparency. Besides, EDB will continue to make the QR reports available on the websites for public information. In addition to QR, EDB will conduct more frequent Focus Inspection (FI), which is another form of quality assurance measure in fostering KGs' continuous improvement in learning and teaching and in addressing areas of concerns. If deemed necessary, EDB will provide professional support to the KGs whose performance is not satisfactory. Besides, to further promote the sustainable development of KGs, EDB will identify good practices during QR and FI for dissemination. We will provide external independent members for QR with honoraria, and the relevant expenditure is estimated to be about \$0.2 million in 2017-18. All other assessment related tasks involved in the QR and FI are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of such expenditure is therefore not available.

In tandem, KGs participating in the Scheme (Scheme-KGs) will be required to enhance their administration, management and accountability under an effective governance framework with transparency, and well-defined roles and responsibilities of school personnel. In the medium and long-term, each

Scheme-KG should have a Management Committee comprising representatives from different KG stakeholders such as school sponsoring body (SSB), the principal, and other stakeholders as appropriate.

Besides, EDB will step up monitoring. For instance, a more stringent mechanism is put in place in monitoring KGs in conducting trading operation. Specifically, KGs participating in the Scheme-KGs are required to include explicitly in their notices/circular letters the following statement: "Parents, please note that acquisition of any school items or services is entirely voluntary and parents can select individual items or services required according to their own needs." Relevant check boxes should also be provided for respective school items so that parents can "tick" as appropriate. In line with the current practice, all profit generated from trading operation must be ploughed back into KGs for use in school operation and provision of KG education services. Furthermore, to enhance transparency and help parents get a better understanding about the school items sold and paid services provided by the schools, Scheme-KGs are required to disclose the relevant information (including the fees charged and the list of items and services in the preceding school year) to parents on their school website. The "Profile of Kindergartens and Kindergarten-cum-Child Care Centres" published by EDB will list out the common items and services and other relevant information for parents' easy reference. All the monitoring work is performed by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of expenditure for monitoring of KG is therefore not available.

On enhancing the physical accommodation and facilities of KGs, to provide a more conducive environment for children's learning and development, we consider that the indoor floor area for each student might be increased by 20%, and the enhancement requirements would apply to new Government-owned KG premises such as those in public housing estates if feasible. EDB will, in consultation with relevant bureaux and departments, review the requirements of KG premises in the Operation Manual for Pre-primary Institutions to consider whether to revise the recommended schedule of accommodation by increasing the indoor floor area for each student by 20% having regard to its practicability and the financial implications. Besides, starting from the 2017/18 school year, Scheme-KGs may better maintain their school premises and facilities by deploying the maintenance grant (Note 1) and/or relevant portion of the basic unit subsidy (Note 2) as appropriate. The estimated expenditure on the maintenance grant in 2017-18 is \$15 million. For the deployment of the basic unit subsidy, as it is a school-based matter and there may be wide variation among different KGs, we are unable to estimate the expenditure on internal renovation.

Notes:

1. Scheme-KGs operating in self-owned school premises or premises owned by their SSBs with the KGs paying no rent or nominal rent will be eligible for a premises maintenance grant to alleviate the financial burden arising from major repair. For KGs operating in leased premises, no subsidy is considered necessary as major repair should be the responsibility of the owner rather than the KG tenants.
2. For internal renovation that does not fall under the owners' responsibility, Scheme-KGs may charge the expenditure to the basic unit subsidy for the provision of half-day service and the additional subsidy for whole-day and long whole-day services which have incorporated such expenditure as part of the operating cost in calculating the subsidy rates.

(2)

The estimated number of applications and funds disbursed under the Kindergarten and Child Care Centre Fee Remission Scheme for the 2017/18 school year are 33 963 and \$366 million respectively.

(3)

To conduct QR, review teams from EDB will take the KGs' areas of concern as the starting point and make reference to the recommendations made in the previous QR. The PIs are used as the basis to make professional judgment on the overall school performance. During the QR visit, the review teams will conduct lesson observations; study children's work; interview principals, teachers, parents and children; and review school documents so as to examine how the KGs achieve sustainable development through the self-evaluation process. The review teams will provide oral feedback to the principals and teachers of the KGs at the end of the QR visit. We will provide external independent members for QR with honoraria, and the relevant expenditure is estimated to be about \$0.2 million in 2017-18. All other assessment related tasks involved in the QRs are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of such expenditure is therefore not available.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB129**

**(Question Serial No. 1461)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the measures mentioned in paragraph 47, please advise this Committee of:

- (1) a list of government, subvented and Direct Subsidy Scheme schools in Hong Kong having formed sister schools with their counterparts in the Mainland and the expenditure involved in the 2016/17 financial year, and the specific measures of and estimated expenditure on further promoting professional exchange between sister schools in the two places in the 2017/18 financial year;
- (2) actual figures of the supply and demand of international school places at pre-primary, primary and secondary levels in the 2016/17 financial year, and the estimated figures of international school places at pre-primary, primary and secondary levels in the 2017/18 financial year; and
- (3) the specific progress of the implementation of the Fourth Strategy on Information Technology in Education.

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 6)

Reply:

- (1) The estimated expenditure for the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the "Pilot Scheme"), which includes the provision of a fixed grant and commissioning professional support services to schools in 2016-17, is about \$49 million and the estimated expenditure in 2017-18 is about \$149 million. To further strengthen professional interflows among schools of the two places, we will continue to provide participating schools with financial and professional support, including a fixed grant of \$120,000 per school per annum, organising exchange activities and sharing sessions, offering advice on exchange activities, collecting and disseminating good practices, etc. under the Pilot Scheme. Since the implementation of the Pilot Scheme, the number of sister schools has increased by about 230 and the total number of Hong Kong schools that have sister school(s) in the Mainland is over 570. It is a prevailing practice that we do not disclose the name of each participating school in the Pilot Scheme to avoid possible labelling and unnecessary pressure on individual schools.
- (2) According to the findings of the student enrolment survey for the 2016/17 school year, as at September 2016, there were 51 international schools in Hong Kong (excluding the special school under the English Schools Foundation), offering some 22 900 primary school places and about 19 300 secondary school places<sup>Notes(1)(2)</sup>. A total of some 21 100 primary school students and 16 700 secondary school students have enrolled in these schools. Based on the latest information provided by these schools, a total of some 23 800 primary school places and 19 600 secondary school places are expected to be provided in the 2017/18 school year<sup>Notes(1)(2)</sup>. As for the demand side, according to the findings of the consultancy study on the provision of international school places in primary and secondary levels in Hong Kong released in

February 2017, based on the position of the 2015/16 school year, the projected demand in the 2017/18 school year for international primary school places will be around 23 500 and that for the secondary level will be around 17 800 <sup>Note(1)</sup>.

(3) The Fourth Strategy on Information Technology in Education has been fully implemented since its launch in the 2015/16 school year. We have made good progress in all measures. We have established WiFi campus for about 80% of some 1 000 public sector schools in Hong Kong while most of the remaining schools are scheduled to complete the relevant works by the end of this year. Other measures such as setting up of Centre of Excellence schools for sharing good practices in e-learning, reviewing of school curriculum, building up professional leadership and capacity of school heads and teachers, enhancing the supply of e-learning resources have also been successfully rolled out.

Notes:

(1) Figures on primary schools include those of reception classes operated by the same school sponsoring bodies within the same premises as the primary schools concerned.

(2) Figures on places refer to the number of students that can be accommodated in operating classes (excluding vacant classrooms) in accordance with the planned class sizes as adopted by the schools concerned.

Question:

Regarding the measures mentioned in paragraphs 15 and 22, would the Bureau please advise this Committee of:

- (1) the expenditures or estimated expenditures of the School-based Educational Psychology Service provided by the Bureau to schools in 2016-17 and 2017-18 financial years, and the number of students benefited;
- (2) the expenditures or estimated expenditures of the Bureau to support schools in implementing the "Chinese Language Curriculum Second Language Learning Framework" in 2016-17 and 2017-18 financial years, and the number of ethnic minority students benefited; and
- (3) the additional expenditures incurred by the new measure of covering students with mental illness under the Learning Support Grant for public sector primary schools, and the number of students expected to be benefited?

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 5)

Reply:

(1)

From the 2016/17 school year, all public sector primary and secondary schools are provided with the School-based Educational Psychology Service (SBEPS). The revised estimate in the provision of SBEPS for public sector schools in the 2016/17 school year is \$146 million. The estimated expenditure in the 2017/18 school year is \$153 million.

The SBEPS adopts a comprehensive and integrated service model that aims at enhancing schools' capacity to cater for students' diverse educational needs. The support rendered to schools by the educational psychologists (EPs) encompasses school system, teacher support, and student support levels. Specifically, EPs provide assessment and intervention for students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs. In other words, the services provided by EPs under the SBEPS go beyond handling individual student cases. By enhancing the school support system and teachers' knowledge and skills in catering for students' diverse needs, all students in the participating schools will benefit from the provision of SBEPS directly or indirectly. Thus, reporting the number of students benefiting from the service does not reflect comprehensively the actual service provided under SBEPS and can be misleading.

(2)

For the planning of education support measures, students whose spoken language at home is not Chinese are broadly categorised as non-Chinese speaking (NCS) students. The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. The “Learning Framework” is applicable to all public sector primary and secondary schools and Direct Subsidy Scheme schools offering the local curriculum which admit NCS students. In the 2016/17 school year, there are about 18 200 NCS students (9 200 at primary level and 9 000 at secondary level). Enrolment information for the 2017/18 school year is not yet available. The estimated expenditure for the related support measures for the 2016/17 and 2017/18 school years is tabulated at Annex.

(3)

Starting from the 2017/18 school year, the Learning Support Grant (LSG) that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness (MI) so that schools can have additional resources to support students with such needs. Based on the data provided by the Hospital Authority on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will be benefited from the additional resources. The estimated expenditure of LSG for students with MI in 2017-18 financial year is about \$30 million.

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

As a party to the United Nations Convention on the Rights of the Child, Hong Kong is obliged to protect children's rights in accordance with the Convention. Child health issues include mental health problems, substance abuse and chronic diseases. As children are our society's most valuable asset, early investment in their healthy development will be highly beneficial to the society.

In this connection, would the Government please inform this Committee whether it will allocate manpower and funding dedicated to training more suitable professionals such as speech therapists to identify children with special education needs at an early stage and provide support for them as well as their parents and teachers; if so, of the details; if not, the reasons for that?

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 21)

Reply:

The Government has established effective systems for early identification and assessment for children with developmental disorders with a view to providing them with appropriate support. For children from birth to 5 years of age, the Maternal and Child Health Centres (MCHCs) of the Department of Health (DH) provides a range of health promotion and disease prevention services through an integrated child health and development programme which include immunisation services, growth and developmental surveillance, and health education for parents. Children suspected to have developmental problem will be referred to the Child Assessment Service (CAS) for further assessment. CAS provides comprehensive assessments, diagnosis, formulates rehabilitation plan, provides interim child and family support, public health education activities, as well as reviews evaluation to children under 12 years of age who are suspected to have developmental problems. After assessment, follow-up plans will be formulated according to the individual needs of children. Children will be referred to other appropriate service providers identified for training and education support. While children await rehabilitation services, CAS will provide interim support to their parents, such as seminars, workshops and practical training etc., with a view to enhancing the parents' understanding of their children and community resources so that the parents could provide home-based training to facilitate the development and growth of the children.

The DH, Hospital Authority (HA), Social Welfare Department (SWD) and Education Bureau (EDB) also jointly implement the Comprehensive Child Development Service (CCDS), which aims to identify and meet the varied health and social needs of children and those of their families (including pre-school children with developmental delay) and provide the needed service to them early. Through inter-sectoral collaboration among MCHCs of DH, Obstetrics Clinics under HA, Integrated Family Service Centres / Integrated Services Centres of SWD and subvented Non-governmental Organisations (NGOs), pre-primary institutions and other service units, children and families in need are referred to appropriate service units for appropriate health and / or social service support. Pre-primary institution teachers can also refer children in need to the MCHC of the district for assessment and appropriate treatment. Under CCDS, a referral and reply system has been developed and implemented in all pre-primary institutions since 2008. In addition, a

“Pre-primary Children Development and Behaviour Management - Teacher Resource Kit” was prepared by the DH in collaboration with the SWD and EDB to enable kindergarten teachers to have a better understanding about the CCDS operation and referral system, and enhance their knowledge in common pre-school developmental and behavioural problems to facilitate early identification and referral of children in need for assessment and treatment.

Through giving subventions to NGOs, the Government provides subvented pre-school rehabilitation services for children with special needs from birth to six years old, including Early Education and Training Centres, Special Child Care Centres (SCCCs) and Integrated Programme in Kindergarten-cum-Child Care Centres. As at the end of December 2016, there are a total of 6 903 subvented pre-school rehabilitation service places. Recognizing the importance of early intervention for children in need of rehabilitation services, the SWD was granted an allocation from the Lotteries Fund for implementing a two-year Pilot Scheme on On-site Pre-school Rehabilitation Services (Pilot Scheme) in phases since November 2015 to provide on-site rehabilitation services for children with special needs studying in ordinary kindergartens (KGs) and kindergarten-cum-child care centres (KG-cum-CCCs). 16 NGOs with experiences in implementing subvented pre-school rehabilitation services coordinate inter-disciplinary teams to provide over 2 900 rehabilitation training places for children with special needs studying in over 480 KGs and KG-cum-CCCs. Apart from providing services for children with special needs, the inter-disciplinary teams also provide teachers / child care workers and parents with professional support. The Government has earmarked an annual recurrent expenditure of \$460 million to convert the scheme into a regular government subsidy programme after its conclusion. The programme will provide 7 000 places in phases with the ultimate aim of reducing the waiting time.

At the same time, children waitlisted for subvented preschool rehabilitation services can apply for a means-tested “Training Subsidy for Children on the Waiting List of Subvented Pre-school Rehabilitation Services” (Training Subsidy Programme) of the SWD to acquire self-financing preschool rehabilitation services provided by NGOs, and about 1 500 children benefit from the Training Subsidy Programme every year. To support children with special needs and their parents, the Government will waive the service fees of SCCC and provide a non-means-tested training subsidy for children on the waiting list of these centres. The estimated expenditure for the above new initiatives will be around \$118 million and is under the ambit of the SWD.

The SWD and the welfare sector as well as the academic sector have maintained close collaboration so as to increase the manpower of allied health professionals. The Hong Kong Polytechnic University has launched a two-year entry level Master in Physiotherapy programme and a two-year entry level Master in Occupational Therapy programme respectively since January 2012. To encourage graduates of these two programmes to join the welfare sector, the SWD has implemented a Training Sponsorship Scheme to provide funding support for non-governmental organisations to offer full tuition fee sponsorship to students whom they recruited. Students obtaining the sponsorship have to work for the non-governmental organisations concerned for not less than 2 years after graduation. The 59 students of the first cohort and 56 students of the second cohort graduated in January 2014 and January 2016 respectively, and have joined the job market. The Hong Kong Polytechnic University has implemented the third cohort of the Master in Physiotherapy programme and Master in Occupational Therapy programme in January 2017. A total of 68 students have joined the third round of the Training Sponsorship Scheme of SWD. The sponsored students will have to work for the concerned non-governmental organisations for not less than 3 years after graduation.

Regarding the training of speech therapists (STs), the University of Hong Kong offers a University Grants Committee funded degree programme, the Bachelor of Science in Speech and Hearing Sciences. The number of student intake each year for the past three school years was 48. The supply of STs is stable and is adequate to cater for the demand in the market. The Government will continue to monitor the supply and demand of STs.

To further strengthen kindergarten teachers’ understanding of the pre-primary children’s learning, social and behavioural needs as well as knowledge and skills to identify and support children with developmental needs, EDB will devise a structured professional development framework pitched at basic and advanced levels for serving teachers. Subsidy for supply teachers will be offered to kindergartens as appropriate.

Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Regarding the estimated expenditure of pre-primary education, would the Government advise this Committee of the following:

1. whether the Administration has set aside additional resources to provide subsidy for the pre-primary education of ethnic minority students in 2017-18; if yes, the purpose and amount;
2. whether the Administration has set up any learning needs fund for the application of ethnic minority families to help ethnic minority students meet their learning expenses; if yes, the estimated funding; if no, the reasons;
3. whether the Administration has considered injecting resources to strengthen the education of ethnic minority parents so that these parents are able to help their ethnic minority children grasp basic language knowledge; if yes, the approach; if no, the reasons?

Asked by: Hon KWOK Wai-keung (Member Question No. 9)

Reply:

(1)

With the implementation of the Free Quality Kindergarten Education Scheme (Scheme) starting from the 2017/18 school year, to enable kindergartens (KGs) participating in the Scheme (Scheme-KGs) to enhance the support to their non-Chinese speaking (NCS) students, a grant comparable to the salary of one teacher will be provided for Scheme-KGs admitting eight or more NCS students. With the additional resources, Scheme-KGs could provide teachers with more manpower support and professional training to develop effective strategies to help NCS students learn Chinese so as to lay a foundation for their study in local primary schools and to raise teachers' empathy and cultural and religious sensitivity in handling NCS students. These Scheme-KGs can deploy the additional resources for appointing additional teacher(s) or teaching assistant(s) or acquiring services to enhance communication with the parents of NCS students. The estimated expenditure on the grant for support to NCS students is \$45.4 million in the 2017/18 school year. In tandem, teacher training and school-based support will be enhanced. All KGs, irrespective of the number of NCS students admitted, may apply to join. The estimated expenditure on specific training on support to NCS students is \$1.8 million in the 2017/18 school year. School-based professional support services are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant expenditures have been subsumed under the overall expenditure of EDB. Besides, starting from the 2016/17 school year, the Education University of Hong Kong has also offered a new University Grants Committee (UGC)-funded course,

namely the Bachelor of Education (Honours) (Early Childhood Education) in Leadership and NCS Children Programme.

(2)

For KG students (including NCS students) from needy families, fee remission will continue to be provided under the existing Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS). In addition, KG students (including NCS students) who pass the means test of the Student Finance Office of the Working Family and Student Financial Assistance Agency and meet the same eligibility criteria under the KCFRS are eligible for an additional grant to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. The grant rate will be pegged at the level of grant for school-related expenses (i.e. books, stationery, school uniforms, miscellaneous and minor one-off expenses) for pre-primary students under the Comprehensive Social Security Assistance. The estimated expenditure on KCFRS and the additional grant to KG students (including NCS students) for the 2017/18 school year are \$366.4 million and \$158.2 million respectively.

(3)

For Scheme-KGs provided with the additional grant to support NCS students as mentioned at (1) above, they are expected to deploy the grant for, among others, enhancing communication with NCS parents, for example, by hiring translation services, employment of ethnic minority (EM) teaching assistants, procurement of services from non-governmental organisations (NGOs) which have experience in serving the EM communities, etc. Key information on KG education such as the booklet "Helping Your Children of Kindergarten Age", leaflets and related information relating to admission to Nursery classes, etc, has been translated into major EM languages. Besides, we will continue to collaborate with NGOs with networks with the NCS communities in organising parent seminars and capitalise on their networks in reaching out to NCS parents. As set out in (1) above, the estimated expenditure on the additional grant for support to NCS students is \$45.4 million in the 2017/18 school year. Other measures are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs and circumstances. The relevant expenditures have been subsumed under the overall expenditure of EDB.

Director of Bureau: Secretary for Education  
Question:

Regarding the implementation of the “Chinese Language Curriculum Second Language Learning Framework”, would the Government advise this Committee of:

1. the estimated expenditure and breakdown of the expenditure for the implementation of the Framework for 2017-18;
2. whether there are measures to enhance the quality of learning and teaching for 2017-18. If yes, what are the estimated expenditure and manpower arrangement?
3. whether there were any data and views which could reflect the effectiveness of the Framework in the past 3 years?

Asked by: Hon KWOK Wai-keung (Member Question No. 11)

Reply:

- (1) & (2) To facilitate schools' implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools, The Education Bureau (EDB) has, starting from the 2014/15 school year, provided all schools admitting 10 or more non-Chinese speaking (NCS) students with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. The recipient schools would adopt diversified intensive learning and teaching modes in the form of pull-out teaching, split-class / group learning, after-school consolidation programmes, etc., with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, these schools may have an additional funding of \$50,000 on a need basis to offer after-school Chinese language support programmes to consolidate what their NCS students have learnt in classes. The estimated expenditure on the enhanced funding support for the 2017/18 school year is \$259.5 million.

To help schools implement the “Learning Framework”, EDB has provided continual support to schools, such as developing learning and teaching materials and providing diversified and progressively advanced teacher professional development programmes. School-based professional

support services have also been provided to enhance the professional capability of Chinese Language teachers in teaching Chinese as a second language, as well as facilitating experience sharing among schools through the development of professional learning communities. The relevant manpower resources and expenses of the above measures are subsumed under the overall expenditure of EDB and/or different funds including the Education Development Fund. Separate breakdown of the expenses incurred is thus not available. Besides, EDB launched in 2014 the “Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language)” under the Language Fund to encourage continual professional development of serving Chinese Language teachers and enhance their professional capability in teaching the Chinese language to NCS students. An estimated expenditure of about \$1.97 million will be incurred for the reimbursement of grant to 68 teachers who have been approved for earmarking of the grant and have completed/will complete the recognised programmes under the Scheme in 2016-17 and thereafter.

- (3) The support measures would be reviewed on an on-going basis in light of all relevant considerations, including the findings under the research framework drawn up in light of advice from research and language experts. As regards the “Learning Framework”, EDB has consulted teachers and language experts when formulating it and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the “Learning Framework”, especially the supporting materials, on an on-going basis and refine them in due course after consolidating different views and collecting learning and teaching experience in different school contexts. At the curriculum level, the “Learning Framework” would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. The review and evaluation will look into the learning objectives, appropriateness of curriculum planning, instructional materials, and teaching strategies adopted, proficiency enhancement and learning motivation of NCS students, as well as other contributing factors for effective learning.

**(Question Serial No. 3192)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Induction Programme and Initiation Programme are organised by the Government for newly-arrived children and young people. In this connection, would the Government advise this Committee of:

1. the estimated funding and manpower arrangement for the relevant programmes for 2017-18;
2. the percentage share of beneficiaries among the total number of non-ethnic Chinese children and young people for the past 3 years;
3. whether there were any data indicating the effectiveness of the Induction Programme and Initiation Programme for the past 3 years;
4. whether there are any follow-up support services upon completion of the Induction Programme and Initiation Programme by individuals; If yes, what is the nature of the services and number of persons who received the follow-up services for the past 3 years? If no, what are the reasons?

Asked by: Hon KWOK Wai-keung (Member Question No. 12)

Reply:

1. The estimated expenditure for the Induction Programme and Initiation Programme in 2017-18 is about \$2.6 million and \$29.5 million respectively. The relevant manpower resources and expenses are subsumed in the overall estimated expenditure of the Education Bureau (EDB) and a breakdown of expenditure by item is not available.
2. Under the prevailing policy, EDB has been all along encouraging early integration of non-Chinese speaking (NCS) students into mainstream schools. In tandem with this approach, the Induction Programme and Initiation Programme are provided for newly-arrived children and young people to help them better integrate into local education system. Students may attend the full-time Initiation Programme before their admission to local mainstream schools or attend the 60-hour Induction Programme after they have entered the mainstream schools if they so wish. In the 2014/15 and 2015/16 school years, almost all NCS children and young people at primary and secondary level entered mainstream schools without joining the two programmes. Among the newly arrived NCS children and young people, about one third of them chose to enter the two programmes. Information for the 2016/17 school year is not yet available.
3. On completion of the Induction Programme and Initiation Programme, the non-governmental organisations or schools concerned are required to submit to EDB evaluation reports covering student performance and achievement, survey results reflecting the opinions of parents and students on various aspects such as teaching and learning, etc. Based on the evaluation reports submitted as well as the visits

conducted by EDB, the overall performance of the two programmes will be assessed. The two programmes are in general effectively operated and able to meet the needs of students.

4. Newly-arrived children and young people can choose to attend the Initiation Programme prior to admission to mainstream schools. Placement assistance to mainstream schools is provided to all those in need after completing the programme. About 500 and 440 students received the placement assistance in the 2014/15 and 2015/16 school years respectively. The figure for the 2016/17 school year is not yet available. For newly-arrived children and young people who have attended the Induction Programme, the schools they entered are provided with the School-based Support Scheme Grant. Schools may use the grant flexibly to provide school-based support services for them, such as providing supplementary lessons on the Chinese/English subject and other subjects, and organising guidance programmes. As the grant is provided for all newly arrived children and young people who have directly entered the mainstream schools, we do not have the breakdown of those who have joined the Induction Programme.

- End -

**CONTROLLING OFFICER'S REPLY****EDB135****(Question Serial No. 1331)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not Specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Currently, the Education Bureau is providing all mainstream primary and secondary schools with a Learning Support Grant (LSG) to assist teachers in catering for students with special educational needs (SEN). In this connection, would the Government advise this Committee:

a) the number of mainstream primary and secondary schools in receipt of the LSG in the 2015/16 school year in the following table format:

Provision of Learning Support Grant (\$)	Number of primary schools	Number of secondary schools
0 – 160,836		
160,837 – 428,896		
428,897 – 696,956		
696,957 – 965,016		
965,017 – 1,233,076		
1,233,077 or above		

b) the amount of LSG clawed back and the number of mainstream primary and secondary schools concerned in the above-mentioned school year in tabulated format.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 33)

Reply:

(a)

The number of mainstream public sector primary and secondary schools eligible for Learning Support Grant (LSG) by the required range of provision in the 2015/16 school year is tabulated below:

Provision of Learning Support Grant (\$)	Number of primary schools	Number of secondary schools
0 – 160,836	3	43
160,837 – 428,896	109	118
428,897 – 696,956	38	71
696,957 – 965,016	47	45
965,017 – 1,233,076	51	45
1,233,077 or above	62	60

(b)

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. As the amount of LSG to be clawed back from aided and caput schools for the 2015/16 school year will be confirmed only after the schools' submission of audited accounts by end of February 2017 and verification by the Education Bureau, we are unable to provide the claw-back information for the 2015/16 school year.

a) the number of mainstream primary and secondary schools in receipt of the LSG in the 2013/14 school year in the following table format:

Provision of Learning Support Grant (\$)	Number of primary schools	Number of secondary schools
0-120,000		
120,001-320,000		
320,001-520,000		
520,001-720,000		
720,001-920,000		
920,001-1,120,000		
1,120,001-1,320,000		
Above 1,320,000		

b) the amount of LSG clawed back and the number of mainstream primary and secondary schools concerned in the above-mentioned school year in tabulated format.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 35)

Reply:

a)

The number of mainstream public sector primary and secondary schools eligible for Learning Support Grant (LSG) by the required range of provision in the 2013/14 school year is tabulated below:

Provision of Learning Support Grant (\$)	Number of primary schools	Number of secondary schools
0-120,000	5	64
120,001-320,000	35	127
320,001-520,000	113	69
520,001-720,000	57	48
720,001-920,000	61	39
920,001-1,120,000	20	22
1,120,001-1,320,000	9	7
above 1,320,000	1	6

b)

Schools are encouraged to fully utilize, in the respective school year, the LSG provided every year to cater for the needs of their students with special educational needs (SEN). For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. Based on the audited information as at March 2017, the amount of LSG clawed back and the number of schools concerned at the end of the 2013/14 school year (aided and caput schools) / 2013-14 financial year (government schools) are tabulated below:

	Primary Schools	Secondary Schools
LSG claw-back amount (\$ million)	1.3	2.0
Number of schools with LSG clawed back	33	56

- End -

Question:

Currently, the Learning Support Grant (LSG) is provided to all mainstream primary and secondary schools by the Education Bureau, calculated with reference to the 3-tier intervention model, i.e. the degree of support that students need. The LSG will cover students with mental illness starting from the 2017/18 school year. Please inform this Committee of the following in detail:

- a) the definition of students with mental illness (please set out the detailed categories);
- b) the amount of grant to be provided for these students;
- c) the purpose of the grant;
- d) the estimated numbers of beneficiaries in primary and secondary schools, tabulated by mental illness and class level; and
- e) other details and information, and the details of the procedures for schools to apply for the grant.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 37)

Reply:

(a) to (e)

Mental Illness (MI) covers a range of mental and behavioural disorders. Each with different symptoms and its presenting problems can have different manifestations and cover various aspects such as mental state, thinking, social interaction, emotion and behavior. According to the information provided by the Hospital Authority (HA), the most common types of MI for children and adolescents include anxiety disorders, mood disorders and psychosis. The diagnosis of MI is made by psychiatrists.

Students with MI need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers and educational psychologists (EPs) have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support for students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for

counselling and emotional support, etc. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million. Based on the data provided by HA on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will benefit from the additional resources.

To support students with MI, the Food and Health Bureau, in collaboration with EDB, HA and the Social Welfare Department, launched a two-year pilot scheme named “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

(a)

The Government adopts a dual-track mode in providing education services to students with special educational needs (SEN). The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and the consent of the parents, refer students with more severe or multiple disabilities to special schools for intensive support services. Other students with relatively mild SEN who are able to cope with the mainstream curriculum and may benefit from attending mainstream schools will be placed in mainstream schools.

To support schools to cater for their students with SEN, EDB has been providing public sector schools with additional resources, professional support and teacher training. The estimated additional expenditures on support and services provided for public sector mainstream schools in catering for students with SEN in the 2016/17 school year is \$1,417 million. The funding for expenditure on additional support to students with diverse educational needs has been included in the average unit cost of an aided school place which is used for the calculation of the Direct Subsidy Scheme (DSS) subsidy for schools under the DSS. It should be noted that schools are required to deploy the resources flexibly and holistically to provide support for their students with SEN, having regard to their individual needs, not according to their type of SEN. Hence, we are unable to provide the average cost of students with different types of SEN in mainstream schools.

(b)

The number of students with SEN studying in public sector mainstream secondary schools by SEN type in the 2014/15 to 2016/17 school years is as follows:

School Year	Specific Learning Difficulties	Intellectual Disability	Autism Spectrum Disorders	Attention Deficit/Hyperactivity Disorder	Physical Disability	Visual Impairment	Hearing Impairment	Speech & Language Impairment	Total
2014/15	10 520	910	1 990	3 640	220	90	380	240	17 990
2015/16	11 020	930	2 380	4 350	190	80	390	300	19 640
2016/17	11 260	910	2 800	5 090	190	80	350	350	21 030

Since EDB does not maintain data from DSS Schools, we are unable to provide the required figures.

(c) and (d)

All schools are requested to adopt the Whole School Approach to support students with SEN through the 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to “add on” intervention, such as small group learning and pull-out programmes, etc., for students with persistent learning difficulties. Tier-3 support refers to intensive individualised support for students with severe learning difficulties under which schools are required to draw up an individual education plan (IEP) for each of these students. Irrespective of the tier of support required by the students with SEN and whether the students may require an IEP, schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward, and the need for providing an IEP may change, from time to time according to the performance and prevailing support needs of the students. The distribution of public sector mainstream secondary schools eligible for the Learning Support Grant (LSG), that is calculated according to the number of students with SEN requiring tier-2 or tier-3 support, by range of number of students with SEN requiring tier-2 and tier-3 support is set out in the Appendix.

**Table 1**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

It is stated in this year's Policy Address that the Government will continue to develop a support model applicable to senior secondary students with average to high functioning autism in the coming school year. In "Matters Requiring Special Attention" in this year's budget, it is stated that the model is premised on a support model developed for junior secondary school students with autism so that the model to be developed will be evidence-based with strategies and related teaching and learning resources. Please use a table to provide the details, a breakdown on the expenditures, results and expected effectiveness of the following:

- a) the support model developed for junior secondary school students with autism; and
- b) the evidence-based model to be developed with strategies and related teaching and learning resources.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 75)

Reply:

a)

With a view to developing a school support model for early intervention of junior primary students with autism spectrum disorders (ASD), the Education Bureau (EDB) launched a three-year pilot project on the enhancement of support services for students with ASD from the 2011/12 school year in 30 primary schools. The expenditure incurred was \$15.9 million.

Premised on the experience and results of the tryout, the project was extended to cover an additional 30 primary and 22 secondary schools to inquire into a support model appropriate for senior primary and junior secondary students with ASD in the 2014/15 school year for 3 more years. The model comprises arrangement of ASD-friendly strategies in the whole class level at tier-1, ASD-specific supplemental coaching after class in tier-2, and individual education plan (IEP) at tier-3. Each participating school is provided with additional funding during the tryout for employment of a teaching assistant to support teachers in deploying the developed strategies in classroom setting. The estimated non-recurrent expenditure over the three-year extension is \$56.3 million.

Systematic evaluation has been conducted by the EDB to assess the efficacy of the support model. Findings showed that there is an increase of teachers' engagement in deploying more effective ASD specific strategies in class whilst parents have demonstrated growth in their knowledge and skills in supporting their children. Significant improvements were also observed in the target students' learning, social and self-regulation behaviours.

b)

Building on the empirically-validated support model for primary and junior secondary students with ASD, more evidence-based instructional strategies and resources appropriate for high functioning students with ASD attending senior secondary forms would be developed and tested out in the 22 secondary schools from the 2017/18 to 2018/19 school years. As regards primary schools, since 28 out of the 60 schools currently participating in the project would have solid experience in supporting students with ASD by the end of the 2016/17 school year and could sustain this support model on their own, we would focus our support to the remaining 32 primary schools for two more years to enrich their intervention strategies. Again, each school would be provided with additional funding to employ a teaching assistant to support the implementation of the enhanced measures. The effective practices consolidated from these schools would be compiled into an operation manual at the end of the project for the reference of other schools. The estimated expenditure for the two-year project is \$31.8 million.

Question:

In respect of the measures to support non-Chinese speaking (NCS) students, would the Government please provide, in tabular form, the statistics of the following items in the past 5 years:

- (a) By grade and ethnicity, the numbers of NCS students admitted to mainstream primary and secondary schools in each of the 18 districts;
- (b) By grade and ethnicity, the numbers of NCS students with special educational needs (SEN) studying at mainstream primary and secondary schools;
- (c) By grade and type of SEN, the numbers of NCS students with SEN studying at mainstream primary and secondary schools;
- (d) The numbers of mainstream primary and secondary schools which have admitted NCS students;
- (e) The provisions and support measures for the schools concerned, as well as the details and amounts involved.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 76)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students in mainstream primary and secondary schools by district and by grade from the 2012/13 to 2016/17 school years is tabulated at Annex A. Given that as many as 17 ethnicity codes have been collected in the Student Enrolment Survey and the figures of NCS students at Annex A have already included all students whose spoken language at home is not Chinese, we have not tabulated the number of students for each ethnicity.
- (b) The number of NCS ethnic minority students with special educational needs (SEN) in public sector mainstream primary and secondary schools by grade and by ethnicity from the 2012/13 to 2016/17 school years is tabulated at Annex B.
- (c) The number of NCS students with SEN in public sector mainstream primary and secondary schools by grade and by major types of SEN from the 2012/13 to 2016/17 school years is tabulated at Annex C.
- (d) The number of public sector and Direct Subsidy Scheme mainstream primary and secondary schools with NCS students from the 2012/13 to 2016/17 school years is tabulated at Annex D.

- (e) The Government is committed to supporting the integration of NCS students (including those with SEN) into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. The support measures for NCS students, which are also applicable to NCS students with SEN, and the expenditure from the 2012/13 to 2016/17 school years are tabulated at Annex E.

EDB has also been providing public sector mainstream schools with additional resources, professional support and teacher training to help them cater for the students with SEN, including NCS students with SEN. The additional resources include the Learning Support Grant, Enhanced Speech Therapy Grant, additional teachers and funding under the Integrated Education Programme and Intensive Remedial Teaching Programme, additional teachers to cater for low academic achievers, Top-up Fund for procurement of special furniture and equipment, etc.. Schools should deploy school resources holistically and flexibly to render appropriate support services to students with SEN based on their needs, such as employing additional teachers, teaching assistants or hiring professional services. EDB also arranges teacher professional development programmes and school networking for sharing of good practices, and develops teaching resources for use of teachers and parents. In addition, the professional staff of EDB pays regular visits to schools to render professional advice on their support policies and measures, teaching strategies, resource deployment, etc.. Professional support is also provided through assessment and consultation services of educational psychologists, speech therapists and audiologists to help schools cater for students with SEN. All NCS students with SEN benefit from the above support and services. For budgetary purpose, the total expenditure on additional support and services on top of the regular subvention provided for public sector mainstream primary and secondary schools in catering for students with SEN from the 2012/13 to 2016/17 school years is tabulated below:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17
Expenditure (\$ million)	1,009	1,075	1,222	1,310	1,417 (Revised Estimate)

As the support services are provided to cater for all the students with SEN, we are not able to apportion the expenditure specifically on NCS students with SEN.

**Number of non-Chinese speaking students in primary and secondary schools  
by district and by grade in the 2012/13 school year**

Notes:

1. Figures refer to the position as at September of the respective years.
2. The above data cover those students whose ethnicity is Chinese but who are non-Chinese speaking based on the spoken language at home.
3. The data include NCS students in public sector and Direct Subsidy Scheme (DSS) schools. Figures do not include students in special schools.

**Number of non-Chinese speaking (NCS) ethnic minority students

Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau will improve the School-based Educational Psychology Service for all mainstream primary and secondary schools by progressively improving the ratio of educational psychologist to school to 1:4 from the 2016/17 school year. Please advise this Committee of the expenditure involved on the related measures such as:

- a) the number of additional educational psychologists employed, average expenditure on each psychologist and the total expenditure;
- b) the additional training items and their expenditure;
- c) the breakdown of the numbers of primary and secondary schools with different ratios of educational psychologist to school currently by 18 districts;
- d) administrative expenditure;
- e) others.

Asked by: Hon KWOK Wing-hang, Dennis (Member Question No. 87)

Reply:

(a) to (e)

The Government has further enhanced the School-based Educational Psychology Service (SBEPS) by progressively improving the ratio of educational psychologist (EP) to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The enhanced provision covers 30 primary and secondary schools in the 2016/17 school year and will cover about 80 primary and secondary schools by the 2017/18 school year. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools and provide comprehensive and regular follow-up to students as well as intervention services to the schools concerned based on their needs.

The enhanced provision involves an additional 10 EP posts of which the existing salary scale is from \$65,740 to \$99,205 per month. The estimated expenditure for the enhanced provision for the 2016/17 and 2017/18 school years is \$4 million and \$11 million respectively.

We have not compiled a breakdown of the number of primary and secondary schools with different ratios of EP to schools by 18 districts and hence are not able to provide the information.

Question:

It was mentioned in the 2015 Policy Address that the “community colleges of University Grants Committee-funded institutions have experienced rapid growth and some have accumulated large surpluses. We will ask the institutions to critically review their financial position and consider ways to use their surpluses to benefit their students, such as lowering tuition fees and offering scholarships or bursaries for underprivileged students.” In this connection, please provide the total amount of tuition fees remission and the total amount of scholarships or bursaries offered to underprivileged students by these colleges in the past 3 years.

Asked by: Hon KWONG Chun-yu (Member Question No. 36)

Reply:

To follow up on the 2015 Policy Address, the Education Bureau (EDB) has issued letters to the relevant University Grants Committee-funded universities to request their review of the financial position of their self-financing community colleges or other similar self-financing arms (i.e. self-financing arms or affiliates offering sub-degree programmes) as well as the use of their surpluses (if any) for the benefits of students.

According to the latest information provided by the universities, the surplus/deficit from self-financing programmes (including programmes offered within the university proper and those provided by other self-financing operations) for the 2013/14 to 2015/16 academic years is set out at Annex. EDB does not possess information concerning the total amounts of students' tuition fees reduced or waived or scholarships or bursaries offered for underprivileged students by these universities or their self-financing arms in the past three years. Nonetheless, it is worth noting that the institutions concerned are all non-profit-making organisations. According to the institutions, the financial surpluses, if any, need to be (or will be) used for improving campus facilities, developing new school premises, repaying loans under the Government's Start-up Loan Scheme, enhancing teaching and learning (including the provision of support for students with different financial needs in various aspects, e.g. e-learning, internship/student exchange programmes), and/or offering scholarships or bursaries. At the same time, the institutions also point out that they need to keep sufficient reserves to maintain their operation in view of volatilities and uncertainties that may arise each year, and given the decline in the number of secondary school leavers in the coming few years.

**Surplus/Deficit from self-financing programmes offered by UGC-funded universities<sup>Note</sup>**

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Would the Government please provide:

A) Information on the existing Direct Subsidy Scheme (DSS) primary and secondary schools:

Name of school	District	Number of places in each level	School fee of each level	Amount of subsidy received	Amount of fee remission and scholarship (number of students granted full or partial remission)

B) List of primary and secondary schools planning to apply to join DSS;

C) Details of the Administration's staffing provision for handling DSS primary and secondary schools, including rank, number and salary point. How does the Administration conduct inspections to ensure that DSS schools comply with the Administration's guidelines? Please provide the number of non-compliance cases which had been inspected and followed up in the past year.

Asked by: Hon LAM Kin-fung, Jeffrey (Member Question No. 16)

Reply:

A) Information on existing Direct Subsidy Scheme (DSS) primary and secondary schools:

*Number of places in each level*

Since DSS schools may admit students on a territory-wide basis, instead of providing the number of places in each level per school, we set out the total number of places in each level of all DSS schools in the 2016/17 school year below:

DSS primary schools	P1	P2	P3	P4	P5	P6	Total
Number of places	2 740	2 727	2 748	2 748	2 538	2 624	16 125

DSS secondary schools	S1	S2	S3	S4	S5	S6	Total
Number of places	8 766	8 892	9 190	9 824	10 009	9 925	56 606

### School fees of each level

Information on the current school fees charged by DSS primary and secondary schools is tabulated at **Appendix**.

### Amount of subsidy received

The recurrent subsidy payable to individual DSS schools is calculated in accordance with the DSS unit subsidy rate (i.e. the average unit cost of an aided school place) and the number of student intakes based on the September and March headcounts. The actual amount of subsidy payable to each of the DSS schools in the 2016/17 school year is subject to the outcome of the March headcount to be completed.

### Amount of fee remission and scholarship

DSS schools are only required to disclose in their annual audited accounts the amount set aside as reserve for fee remission and scholarship schemes, as well as the related total expenditures. With reference to the 2014/15 audited accounts, all DSS schools have set aside the required amount of school fee income as reserve for fee remission and scholarship schemes. The total amount of fee remission and scholarship provision of all DSS schools is over \$202 million in that school year. On the other hand, DSS schools are not required to disclose the number of students benefitted. As such, we have no information on the number of students granted full or partial remission in the schools.

- B) Aided schools which plan to join DSS should submit their applications to the Education Bureau (EDB) by the end of February in the year prior to the planned year of admission to DSS the latest. As at 1 March 2017, we have not received any new application for joining the DSS.
- C) While DSS schools are required to submit their annual audited accounts for inspection, EDB would conduct Comprehensive Review, External School Review, audit inspections, etc. to DSS schools as appropriate, as well as investigate complaints to ensure their compliance with the Administration's guidelines. Since the above monitoring work related to the administration and inspection of the DSS schools cuts across various divisions and the amount of resources may also fluctuate from time to time in tandem with policy and other priority considerations, we are unable to provide a breakdown of the staffing provision for handling the DSS schools. Currently, non-compliance cases found are followed up by respective divisions and this Bureau does not have available data or statistics on the overall situation.

## School Fees of DSS Schools for the 2016/17 School Year

**(Question Serial No. 2509)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The estimated expenditure for special education in 2017-18 is \$2,451.60 million, which is 6.2% higher than the 2016-17 original estimate. Will the Administration please list the items with allocation of the increased estimate and give a breakdown of expenditure by item?

Asked by: Hon LAM Kin-fung, Jeffrey (Member Question No. 37)

Reply:

The provision for 2017-18 under Programme (5) Special Education is \$142.1 million or 6.2% higher than the original estimate for 2016-17. This is mainly due to increased provision for salaries grant arising from the 2016 pay adjustment and increased provision for various existing grants to schools.

**CONTROLLING OFFICER'S REPLY****EDB148****(Question Serial No. 0951)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational expenses

Programme: (1) Director of Bureau's Office

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please list separately the Education Bureau's actual expenditure on salaries payable to the Secretary for Education, Under Secretary for Education and Political Assistant to Secretary for Education since 2012-13, together with the revised estimates for 2016-17 and estimated expenditure for 2017-18.

Asked by: Hon LAU Ip-keung, Kenneth (Member Question No. 44)

Reply:

The salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education from 1 July 2012 onwards is as follows –

	<u>Salary (\$million)</u>				
	<b>2012-13</b>	<b>2013-14</b>	<b>2014-15</b>	<b>2015-16</b>	<b>2016-17</b>
	<i>(from 1 July 2012 to 31 March 2013)</i>				
Secretary for Education	2.54	3.38	3.42	3.58	3.58
Under Secretary for Education	0.89*	2.20	2.22	2.33	2.33
Political Assistant to Secretary for Education	0.48*	1.18	1.20	1.25	1.25

\* The respective posts were vacant from 1 July 2012 to 4 November 2012.

For budgetary purposes, the estimates for the salary expenditure for the Secretary for Education, the Under Secretary for Education and the Political Assistant to Secretary for Education in 2017-18 are \$3.58 million, \$2.33 million and \$1.25 million respectively.

**CONTROLLING OFFICER'S REPLY****EDB149****(Question Serial No. 0954)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education, (4) Secondary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Apart from public sector schools, subsidised primary and secondary school places are offered in Direct Subsidy Scheme (DSS) schools and English Schools Foundation (ESF) schools, both of which receive recurrent subsidies from the Government. In this connection, would the Administration please inform this Committee:

- 1) of the current state of DSS schools receiving a government subsidy with all the details, including school names, tuition fees, the number of subsidised places in each school in the past 5 years, the amount of subsidy disbursed to each school in each of the past 5 years, and the estimated expenditure in this regard for the coming year, set out in a table;
- 2) of the amount of subsidy disbursed to ESF primary and secondary schools as well as details of ESF projects subvented by the Government in each of the past 5 years, the estimated expenditure in this regard for the coming year, and the current tuition fees of respective schools; and
- 3) whether the Administration has reviewed the financial position of individual ESF schools, since the recurrent subsidies for ESF have started to phase out in 13 years from the 2016/17 school year onwards; whether a reduction in subsidies will exert pressure on their operations; and whether it will be necessary to provide additional support to these schools to tide them over; if so, of the details.

Asked by: Hon LAU Ip-keung, Kenneth (Member Question No. 45)

Reply:

(1) Information on the names and tuition fees of the Direct Subsidy Scheme (DSS) schools in the 2016/17 school year is tabulated at the Annex.

The Government does not provide subsidy to DSS schools based on the number of places. A block grant of recurrent subvention is provided to individual DSS schools on the basis of the average unit cost of an aided school place of the respective level and the number of student intakes which is bounded by the enrolment ceiling. As DSS schools admit students on a territory-wide basis, instead of providing information on each school, the total number of places in all DSS schools in the past 5 years is set out below:

School Year	2012/13	2013/14	2014/15	2015/16	2016/17
<b>Total Number of Places</b>	73 217	74 020	73 737	73 202	72 731

The total amount of recurrent subvention disbursed to DSS schools in the past 5 years and the estimated amount for the 2017/18 school year is tabulated below:

<b>Financial Year</b>	<b>Recurrent subvention (\$ million)</b>
2012-13	2,921
2013-14	3,119
2014-15	3,383
2015-16	3,661
2016-17 (Revised Estimate)	3,821
2017-18 (Estimate)	3,989

(2) & (3) The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. As reported at the meeting of the Legislative Council Panel on Education on 9 July 2013, after intensive negotiations, the Board of Directors of ESF formally accepted the agreed arrangement for the phasing out of the government subvention for ESF in June 2013. According to the agreed arrangement, among others, the recurrent subvention for ESF's mainstream primary and secondary schools of \$249.7 million has been maintained for three more years from the 2013/14 to 2015/16 school years. From the 2016/17 school year onwards, the annual recurrent subvention has started to phase out within 13 years at an average amount of \$19.2 million per year until the 2028/29 school year. The existing annual recurrent subvention of \$28.3 million for students with special educational needs (SEN) in ESF's mainstream schools as well as its special school are excluded from the phasing out arrangement and frozen at the current level pending further review.

While noting the unavoidable impact of the phasing-out of the government subvention on future tuition fees, ESF has undertaken to work out future tuition fees by taking into account all relevant factors, including ESF fees vis-à-vis other international schools, market situation, inflation, efficiency savings, if any and so on when agreeing with the terms for the phasing-out arrangement. We have also appealed to ESF to explore other sources of income and feasible saving measures to keep the fee level as low as possible and at the same time absorb part of the reduced subvention. In processing ESF's annual fee revision application, we will take into consideration, among other factors, ESF's financial position including the audited accounts. We will continue to work closely with ESF to exchange views on issues of concerns, in particular ESF's longer term development plan which would have a bearing on the financial planning.

The amount of recurrent subvention for ESF's mainstream primary and secondary schools in the past 5 years and the coming year is set out as follows:

<b>School Year</b>	<b>Recurrent Subvention (\$ million)</b>
2012/13	249.7
2013/14	249.7
2014/15	249.7
2015/16	249.7
2016/17	232.7
2017/18	215.8

As regards the tuition fees, ESF charges the same level of fees for primary schools and secondary schools under its operation. The approved fees per annum for the 2016/17 school year are set out below:

Year 1	\$100,700
Year 2 - Year 6	\$83,500
Year 7 - Year 11	\$115,700
Year 12 - Year 13	\$121,500

Director of Bureau: Secretary for Education

Question:

Regarding the recent spate of student suicides, would the Administration please advise this Committee of :

- (1) the respective yearly expenditures on the School-based Educational Psychology Service for public sector primary and secondary schools in the past 5 years and the content of the service;
- (2) the estimated expenditure on the School-based Educational Psychology Service in the coming year and whether there is an increase/decrease as compared with the previous year; the reasons for any decrease and the content of the service;
- (3) the number of educational psychologists or school social workers in public sector primary and secondary schools, the manpower ratios and ways to optimise their services;
- (4) whether the Administration will review the existing education system to see if it creates too much pressure on students and the possible ways to prevent recurrence of student suicides;
- (5) the latest progress on the Government's plan to progressively improve the ratio of educational psychologist to school to 1:4 for public sector primary and secondary schools with a large number of students with special educational needs.

Asked by: Hon LAU Ip-keung, Kenneth (Member Question No. 46)

Reply:

(1) to (3) and (5)

The expenditure incurred for the provision of the School-based Educational Psychology Service (SBEPS) for public sector primary and secondary schools from the 2012/13 to 2016/17 school years is tabulated below:

School Year	2012/13 (actual)	2013/14 (actual)	2014/15 (actual)	2015/16 (actual)	2016/17 (revised estimate)
Expenditure (\$ million)	56	72	85	103	146

Under the SBEPS, one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). They visit schools regularly to provide service at the school system, teacher support and student support levels. Specifically, EPs provide assessment and intervention for

students, training for parents, consultation and professional development for teachers, as well as professional advice on the school policies and practices for supporting students with diverse educational needs.

The SBEPS has covered all public sector primary and secondary schools from the 2016/17 school year. The Government has further enhanced SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. With the enhanced provision of SBEPS, the schools will be better supported in catering for student diversity. Apart from helping the schools strengthen their preventive and developmental work, EPs pay regular and more frequent visits throughout the school year and provide comprehensive and regular follow-up to students and intervention services to the schools concerned based on the specific needs of the schools and their students. By the 2017/18 school year, the enhanced provision will cover about 80 primary and secondary schools. There are 138 EPs involved in the provision of SBEPS to public sector primary and secondary schools in the 2016/17 school year.

The estimated expenditure for the provision of SBEPS in the 2017/18 school year is \$153 million. The increase in estimated expenditure for the 2017/18 school year is mainly due to the enhanced provision for more schools.

(4)

The Education Bureau (EDB) works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Question:

In 2016-17, how many schools in Hong Kong have turned the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts? How many teaching posts are involved? Take government secondary schools as an example, please list how much resources was left in each school for life planning education activities and related counselling service after turning the grants into teaching posts?

Asked by: Hon LAU Kwok-fan (Member Question No.15)

Reply:

In the 2016/17 school year, slightly more than 230 public sector secondary schools have turned either or both the Senior Secondary Curriculum Support Grant and Career and Life Planning Grant (CLPG) into regular teaching posts, providing some 370 additional regular teaching posts. This measure can facilitate the consolidation of school-based experience and provide more stable teacher manpower for schools in implementing life planning education (LPE). To facilitate schools' smooth transition and gainful deployment of the new teaching post, schools which have converted CLPG into regular teaching posts in the 2016/17 or 2017/18 school year are provided with the Transitional Career and Life Planning Grant, at the amount of \$100,000. In line with school-based management, schools can flexibly deploy different grants within the appropriate ambit at the same time together with the surpluses of the Expanded Operating Expenses Block Grant / Operating Expenses Block Grant to support the provision of necessary services for meeting students' needs. Besides, schools can also make use of community resources such as various funding schemes launched by the Government / charity funds for enhancement of LPE.

**CONTROLLING OFFICER'S REPLY****EDB152****(Question Serial No. 3040)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

“Apart from public sector schools, subsidised primary school places are offered in Direct Subsidy Scheme (DSS) schools and English Schools Foundation (ESF) schools, both of which receive recurrent subsidies from the Government. The recurrent subsidies for ESF have started to phase out in 13 years from the 2016/17 school year onwards.” In this connection, please provide the respective numbers of subsidised primary school places offered DSS and ESF in the past 5 years, as well as the amount of recurrent subsidies provided by the Government

Asked by: Hon LAU Kwok-fan (Member Question No. 16)

Reply:

The Government does not provide subsidy to the Direct Subsidy Scheme (DSS) schools based on the number of places. A block grant of recurrent subvention is provided to individual DSS schools on the basis of the average unit cost of an aided school place of the respective level and the number of student intakes which is bounded by the enrolment ceiling. Information on the total number of places and the amount of recurrent subvention disbursed to DSS primary schools in the past 5 years are tabulated below:

<b>School Year</b>	<b>Total Number of Places</b>	<b>Recurrent Subvention (\$ million)<sup>Note 1</sup></b>
2012/13	15 438	609
2013/14	15 598	659
2014/15	15 909	729
2015/16	15 862	802
2016/17	16 125	844 (Revised Estimate)

*Note 1:* The provision of the recurrent subvention is calculated on a financial year basis.

The review of the subvention arrangement for the English Schools Foundation (ESF) was completed in mid-2013. Following the discussion by the Legislative Council Panel on Education in July 2013, the annual recurrent subvention for ESF schools (excluding those relating to the support for students with special educational needs) has started to phase out within 13 years at an average amount of \$19.2 million per year from the 2016/17 school year onwards.

The amount of recurrent subvention for ESF's mainstream primary schools and the number of places offered by these schools in the past 5 years is set out as follows:

<b>School Year</b>	<b>No of Places Offered</b>	<b>Recurrent Subvention (\$ million)</b>
2012/13	6 120	101.7
2013/14	6 120	101.7
2014/15	6 120	101.7
2015/16	6 120	101.7
2016/17 #	6 120	84.8

# With the phasing-out of the recurrent subvention from the 2016/17 school year, part of the places offered by the ESF mainstream primary schools are not covered by the subvention.

Question:

Please provide a breakdown of the numbers of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools between the 2013/14 and 2016/17 school years by their grade level and major SEN type.

Asked by: Hon LAU Kwok-fan (Member Question No. 17)

Reply:

The number of students with special educational needs (SEN) studying in public sector mainstream primary and secondary schools by grade levels and by major SEN types from the 2013/14 to 2016/17 school years is set out at the Appendix. With increased awareness of SEN among the schools and parents as well as the improvement in the identification tools and mechanisms, the number of students with SEN has increased over the years.

Reply:

The wastage rates\* of teachers in government, aided, private and Direct Subsidy Scheme schools for the school years from 2012/13 to 2016/17 are as follows:

**Primary Schools**

Financial Type	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)
Government	4.2%	4.5%	4.4%	4.9%	5.6%
Aided	5.0%	4.7%	4.3%	4.5%	4.1%
Private	9.2%	6.4%	8.1%	6.8%	8.3%
Direct Subsidy Scheme	8.4%	6.6%	6.4%	8.7%	5.5%

**Secondary Schools**

Financial Type	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)
Government	10.2%	6.9%	5.4%	7.8%	6.9%
Aided	8.1%	4.8%	4.8%	4.7%	4.4%
Private	28.4%	17.0%	14.8%	12.4%	16.4%
Direct Subsidy Scheme	11.5%	7.0%	6.1%	6.8%	6.8%

\* Wastage rate refers to the percentage of teachers of the previous school year who did not serve in schools in the 12-month period prior to mid-September of the respective school years.

The wastage rates of teachers<sup>#</sup> by their major subject taught (grouped by Key Learning Areas) for the school years from 2012/13 to 2016/17 are as follows:

### Primary Schools

Key Learning Areas	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)
Chinese Language Education	4.0%	3.5%	3.1%	4.0%	3.7%
English Language Education	5.6%	5.3%	4.9%	5.2%	4.5%
Mathematics Education	4.0%	3.4%	3.1%	3.2%	3.3%
Science Education <sup>^</sup>	6.3%	6.6%	5.9%	5.8%	4.0%
Technology Education <sup>^</sup>	5.9%	2.2%	0.0%	3.3%	1.6%
Personal, Social and Humanities Education <sup>^</sup>	12.8%	12.9%	9.6%	6.4%	10.3%
Arts Education	4.7%	3.6%	4.5%	5.0%	4.4%
Physical Education	2.4%	3.3%	4.5%	3.2%	4.3%

<sup>^</sup> The Primary General Studies curriculum embodies core elements of learning in the Key Learning Areas of Science Education, Technology Education and Personal, Social and Humanities Education.

### Secondary Schools

Key Learning Areas	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)
Chinese Language Education	8.4%	4.0%	4.2%	4.0%	4.7%
English Language Education	10.2%	7.6%	7.4%	6.9%	6.3%
Mathematics Education	8.5%	4.2%	4.2%	4.5%	3.9%
Science Education	8.1%	3.6%	3.9%	5.0%	4.1%
Technology Education	5.9%	3.9%	3.2%	3.4%	3.5%
Personal, Social and Humanities Education (Except Liberal Studies)	8.5%	4.8%	4.7%	5.0%	5.0%
Arts Education	5.2%	5.3%	4.4%	4.3%	5.6%
Physical Education	5.0%	3.4%	3.2%	3.0%	2.9%

The wastage rates of teachers<sup>#</sup> with “Liberal Studies” as the major subject taught, which are not classified under any Key Learning Areas above, for the school years from 2012/13 to 2016/17 are as follows:

Subject	2012/13	2013/14	2014/15	2015/16	2016/17 (Estimate)
Liberal Studies	9.2%	4.5%	4.5%	5.2%	3.7%

<sup>#</sup> Since many private school teachers did not provide to the Education Bureau the information about their subjects taught, private school teachers’ information was not included when the wastage rates by Key Learning Areas was computed.

Question:

The paragraph regarding school educational psychology service stated that the ratio of educational psychologist to school will be progressively improved to 1:4 for public sector primary and secondary schools with a large number of students with special educational needs. According to the information provided by the Education Bureau last year, under the School-based Educational Psychology Service (SBEPS), each educational psychologist serves 6 to 10 public sector schools, including both primary and secondary schools.

Will the Government provide the following information:

- (a) the breakdown of the numbers of primary and secondary schools by ratio of educational psychologist to school from 1:4 to 1:10 from 2014-2018 ;
- (b) the numbers of psychologists responsible for providing SBEPS and their unit costs in 2016-17 and 2017-18;
- (c) the revised estimate or estimate for the provision of SBEPS for the 2016-17 and 2017-18 financial years, and the reasons for the increase or decrease in the estimate.

## Secondary School

	No. of Schools			
	2014-15	2015-16	2016-17	2017-18 (estimated)
Ratio of educational psychologist to school is 1:4				
Ratio of educational psychologist to school is 1:5				
Ratio of educational psychologist to school is 1:6				
Ratio of educational psychologist to school is 1:7				
Ratio of				

educational psychologist to school is 1:8				
Ratio of educational psychologist to school is 1:9				
Ratio of educational psychologist to school is 1:10				

Primary School

	No. of Schools			
	2014-15	2015-16	2016-17	2017-18 (estimated)
Ratio of educational psychologist to school is 1:4				
Ratio of educational psychologist to school is 1:5				
Ratio of educational psychologist to school is 1:6				
Ratio of educational psychologist to school is 1:7				
Ratio of educational psychologist to school is 1:8				
Ratio of educational psychologist to school is 1:9				
Ratio of educational psychologist to school is 1:10				

Asked by: Hon LAU Siu-lai (Member Question No. 3055)

Reply:

(a)

Under the School-based Educational Psychology Service (SBEPS), one Educational Psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools). The Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. The enhanced provision covers 30 primary and secondary schools in the 2016/17 school year and will cover

about 80 primary and secondary schools by the 2017/18 school year. We have not compiled a breakdown of the number of primary and secondary schools with different ratios of EP to schools, and hence are not able to provide the information.

(b) and (c)

The number of EPs providing SBEPs in the 2016/17 and 2017/18 school years is 138 and 144 respectively. The existing salary scale of an EP is \$65,740 to \$99,205 per month. The estimated expenditure for the provision of SBEPs for the 2016/17 and 2017/18 school years is \$146 million and \$153 million respectively. The increase in estimated expenditure for the 2017/18 school year is mainly due to the enhanced provision for more schools.

Question:

Regarding the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the Pilot Scheme), please provide the following information:

- (a) the number of participating schools by categories of government, aided, private and Direct Subsidy Scheme (DSS) primary and secondary schools;
- (b) the amount of funding for each school and the total expenditure of the Pilot Scheme in 2016-17;
- (c) the details of the professional support under the Pilot Scheme provided by the Government; and
- (d) whether there are any unsuccessful school applications, the number of them (if there are any) and the reasons.

Finance Type	Number of participating secondary schools	Number of participating primary schools
Government		
Aided		
Private		
DSS		

Asked by: Hon LAU Siu-lai (Member Question No. 3056)

Reply:

(a)&(b) The number of schools participating in the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (Pilot Scheme) is tabulated below according to their finance type:

Finance type	Number of participating secondary school*	Number of participating primary schools*	Number of participating special schools*
Public Sector (Government, Aided and Caput)	190	200	20
Direct Subsidy Scheme	30	10	not applicable

\* rounded to the nearest 10

The three-year Pilot Scheme involves a non-recurrent commitment of \$200 million for the allocation of a fixed grant of \$120,000 per school per annum to participating schools and commissioning of professional

support services. The estimate expenditure for the 2016-17 financial year is about \$49 million up to early March 2017.

(c) Under the Pilot Scheme, we have provided participating schools with professional support, including organising exchange activities and sharing sessions, offering advice on exchange activities, collecting and disseminating good practices, etc.

(d) As at end of February 2017, we have received around 470 applications for joining the Pilot Scheme in the 2015/16 or 2016/17 school year. While some 450 schools have been approved to join the Pilot Scheme, remaining applications are still under processing and there is no rejected case so far.

Programme: (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide the following information on government-aided primary and secondary schools in the past 5 years:

- The number of regular teachers and the ratio between regular teachers and contract teachers.
- The amount of recurrent funding provided by the Education Bureau for recruiting regular teachers.
- The number of school-based psychologists and school-based social workers.
- The amount of recurrent funding provided by the Education Bureau for recruiting school-based psychologists and school-based social workers.

Asked by: Hon LAW Kwun-chung, Nathan (Member Question No. 31)

Reply:

- The posts in the approved teaching establishment of aided schools are regular posts, and teachers filling these posts (except temporary or supply teachers) are regular teachers. The number of regular teachers and ratio of regular teachers to contract teachers (i.e. those employed using cash grants from the government or schools' private funding) in aided primary and secondary schools for the school years from 2012/13 to 2016/17 are as follows:

**Aided Primary Schools**

School Year	Number of Regular Teachers*	Ratio of Regular Teachers to Contract Teachers
2012/13	14 630	9.9 : 1
2013/14	15 660	14.2 : 1
2014/15	16 100	12.7 : 1
2015/16	16 310	10.8 : 1
2016/17 (Estimate)	16 540	9.8 : 1

## Aided Secondary Schools

School Year	Number of Regular Teachers*	Ratio of Regular Teachers to Contract Teachers
2012/13	18 750	7.9 : 1
2013/14	19 310	9.6 : 1
2014/15	19 050	9.0 : 1
2015/16	18 580	8.2 : 1
2016/17 (Estimate)	18 260	8.1 : 1

\* Numbers are rounded to the nearest 10 which include regular teachers with defined contract period.

- (b) Under the existing policy and practices, the number of regular teachers in public sector schools is calculated according to the number of classes approved and the corresponding teacher-to-class ratios, and additional regular teaching posts provided under various initiatives. As teachers are remunerated according to their qualifications, years of service, etc., the amount of Government subsidy on teachers' salaries varies among schools.
- (c) The number of educational psychologists involved in the provision of School-based Educational Psychology Service (SBEPS) from the 2012/13 to 2016/17 school years is 68, 80, 99, 114 and 138 respectively. School social worker service is provided by the Social Welfare Department (SWD) through non-governmental organisations for secondary schools only. According to SWD, the number of school social worker from the 2012-13 to 2016-17 financial years is as follows:

Financial Year	2012-13	2013-14	2014-15	2015-16	2016-17 (revised estimate)
No. of school social workers*	570	570	560	560	560

\* Numbers are rounded to the nearest 10.

- (d) The expenditure or estimated expenditure for the provision of SBEPS from the 2012/13 to 2016/17 school years is tabulated below:

School Year	2012/13 (actual)	2013/14 (actual)	2014/15 (actual)	2015/16 (actual)	2016/17 (revised estimate)
Expenditure (\$ million)	56	72	85	103	146

The full-year recurrent funding allocation of school social work service provided by SWD from the 2012-13 to 2016-17 financial years is tabulated below:

Financial Year	2012-13	2013-14	2014-15	2015-16	2016-17 (revised estimate)
Funding allocation (\$ million)	299	312	339	350	367

- End -

Question:

Please set out the number of candidates entered and result distribution of all subjects under Category B Applied Learning Subjects offered by the Hong Kong Examinations and Assessment Authority (HKEAA) over the past 5 years.

Asked by: Hon LAW Kwun-chung, Nathan (Member Question No. 32)

Reply:

Applied Learning (ApL) subjects are elective subjects which are offered by course providers (CPs) and approved by the Education Bureau. The assessments are undertaken by CPs, and the HKEAA is responsible for monitoring the process and the moderation of final assessment results to ensure the consistency of assessment standards.

There are variations in the list of subjects offered each year, with new subjects being added and some subjects discontinued over the years. The ApL subjects taken by candidates in the Hong Kong Diploma of Secondary Education (HKDSE) Examination from 2012 to 2016, the number of candidates entering each subject (i.e. those who took the course), as well as the number of candidates fulfilling the attendance requirement and their results are set out at **Appendix**.

**Number of Candidates and Result Distribution in Applied Learning Subjects  
in the HKDSE from 2012 to 2016**

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Please provide a breakdown of the number of students with special educational needs studying in public sector primary and secondary schools in the past 5 years by degree of severity (i.e. Tier 1, 2 and 3).

Asked by: Hon LAW Kwun-chung, Nathan (Member Question No. 33)

Reply:

All schools are requested to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to “add on” intervention, such as small group learning and pull-out programmes, etc., for students with persistent learning difficulties. Tier-3 support refers to intensive individualised support for students with severe learning difficulties under which schools are required to draw up an individual education plan (IEP) for each of these students. Irrespective of the tier of support required by the students with SEN and whether the students may require an IEP, schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward, and the need for providing an IEP may change, from time to time according to the performance and prevailing support needs of the students. Of the additional resources provided for public sector schools having students with SEN, the Learning Support Grant (LSG) is calculated according to the number of students with SEN requiring tier-2 or tier-3 support. Based on the LSG data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support from the 2012/13 to 2016/17 school years is set out in Appendix 1 and Appendix 2 respectively.

Director of Bureau: Secretary for Education

Question:

Please provide, from the 2015/16 school year, the number of eligible schools, the number of participating schools and the amount of funding for each school under the Pilot Project on Special Educational Needs Coordinators (Pilot Project on SENCOs).

Asked by: Hon LAW Kwun-chung, Nathan (Member Question No. 34)

Reply:

Funded by the Community Care Fund (CCF), the Education Bureau has launched a three-year pilot project on Special Educational Needs Coordinators (the pilot project) in the 2015/16 school year, under which a cash grant is provided for public sector mainstream secondary and primary schools with relatively more students with special educational needs (SEN) and financial needs so that the schools could strengthen the teaching team and arrange a designated teacher as the SEN coordinator. Public sector mainstream schools participating in the pilot project should meet the following eligibility criteria:

- (i) the number of students with financial needs should account for at least 55% of the total number of students of the school in the 2014/15 school year; and
- (ii) the school has admitted at least 50 students with SEN requiring Tier-2 or Tier-3 support under the 3-Tier Intervention Model in the school year concerned.

Among 140 public sector mainstream schools meeting the said criteria, 124 opted to participate in the pilot project. A cash grant equivalent to the respective mid-point salary of Assistant Primary School Masters/Mistresses and Graduate Masters/Mistresses is provided to each participating primary and secondary school yearly during the pilot period. In the 2016/17 school year, each participating primary and secondary school is provided with a cash grant of \$494,400 and \$566,880 respectively.

**CONTROLLING OFFICER'S REPLY****EDB161****(Question Serial No. 0727)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (8) Policy and Support

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Please provide details of the existing vacant school premises returned to the Government, including their addresses, floor areas, the types of the education institutions which the original users belong to, the numbers of classrooms and facilities therein, the number of years for which they have been left vacant, their latest situations and the final uses of the premises concerned or the sites where the premises were located.

Asked by: Hon LAW Kwun-chung, Nathan (Member Question No. 6)

Reply:

It has all along been EDB's policy objective to put vacant school premises (VSP) into gainful use. To achieve this objective, when there is a vacant or to-be-vacated school premises, EDB will consider factors including the size, location, physical conditions etc. of the relevant premises and the educational needs and relevant policy initiatives with a view to assessing the VSP's suitability for educational use or whether the premises is needed to be re-allocated for school or other educational use. Once EDB confirms that the VSP are no longer required by EDB for school or other educational uses, EDB would inform PlanD and other relevant departments (such as the Lands Department (LandsD) and the Housing Department (HD)) for PlanD's consideration of suitable alternative long-term uses in accordance with the central clearing house mechanism.

The Director of Audit's Report No. 65 was released on 27 October 2015 and the related report of the Public Accounts Committee (PAC) was tabled at the Legislative Council on 17 February 2016. As per the recommendations of the Audit Commission and PAC, EDB has improved and updated its VSP database from the VSP handling perspective, with a view to adopting appropriate follow-up actions for VSP in a more focused manner. As at end-February 2017, there are 18 VSP and two partial VSP under EDB's purview which are earmarked/retained for school or other educational uses (including those not yet been confirmed as being no longer required by EDB). Among the aforementioned VSP, 14 are located on government land (including eight under the auspices of the Hong Kong Housing Authority) while the physical possession of the other six has yet to be delivered to the Government. Of these six VSP, the school sponsoring body (SSB) of two of them is initiating the site surrender process in accordance with the service agreement for reprovisioning of the schools concerned; the proposed uses of the other two have already had EDB's in-principle support and the SSBs are taking active follow up actions; and EDB is following up with the relevant government departments on requiring the SSB of the remaining two to surrender the VSP. Information of these premises is provided in the following table.

**Table – 18 VSP and two partial VSP under EDB’s purview (position as at end-February 2017)**

No.	District	School year in which the school ceased operation (Note 1)	Site area of school premises (rounded to the nearest hundred m <sup>2</sup> ) (Note 2)
1	Wanchai	2006/07	2 000
2	Wanchai	2007/08	6 500
3	Eastern	2011/12	600# [Partly vacant]
4	Southern	2012/13	6 000
5	Kwun Tong	2011/12	2 900
6	Kowloon City	2013/14	3 200
7	Wong Tai Sin	2016/17	2 400
8	Wong Tai Sin	2016/17	3 700
9	Wong Tai Sin	2016/17	(Total)

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

How many sites are reserved for school use (including primary, secondary and special school uses) in each of the District Council district? What are the location, site area, planned use, student capacity, present situation (e.g. whether there is a concrete school building programme or technical feasibility study is being carried out) and development timeframe of each site?

**Asked by:** Hon LEE Wai-king, Starry (Member Question No. 14)

**Reply:**

As at March 2017, there are a total of 24 reserved school sites (including primary, secondary and special school use) in the territory with concrete School Building Programmes and the timeframe of the development would be subject to, among others, views of the District Councils, progress of technical works and funding approval. Project planning and preparation work for these school building projects, such as site investigation and school design, are being carried out in accordance with the prevailing procedure. A breakdown of the 24 reserved school sites by districts with their location, site area and planned use is set out in the Table below. Among them, funding approval for projects on six reserved school sites was obtained from the Finance Committee (FC) of the Legislative Council (LegCo) in the 2014-15 LegCo Session with the school building works already underway; projects on three reserved school sites were approved in the LegCo Session in 2015-16 with the school building works commenced in 2016; while projects on another two reserved school sites would be submitted for funding approval from FC in the 2016-17 LegCo Session. For the remaining 13 sites, four fall within or site availability is affected by a private development project while the rest are either being deployed for temporary use or with detailed design being undertaken for school building.

**Reserved School Sites by District**

No.	District	Location	Site Area (rounded to the nearest hundred m <sup>2</sup> )	Planned use	Number of classrooms	Remark

20	Sai Kung	Tseung Kwan O	7 400	Secondary School	30	(iii)
21	Tuen Mun	Tuen Mun West	7 100	Special School	16	(i)
22	Islands	Tung Chung	5 800	Special School	18	(ii)
23	Sha Tin	Shui Chuen O	8 700	Primary School	30	(iii)
24	Tsuen Wan	Tsuen Wan West	5 800	Primary School	30	(iv)

Remarks:

- (i) Funding approval has been obtained from the Finance Committee of the Legislative Council for the school building project.
- (ii) Funding approval would be sought from the Finance Committee of the Legislative Council in the 2016-17 Legislative Council Session for the school building project.
- (iii) The site is either being deployed for temporary use or with detailed design being undertaken for the school building project thereon.
- (iv) The site falls within a private development project and is not regarded as Government land or the site availability is affected by a private development project.

When planning the School Building Programme for reserved school sites, EDB will consider the latest school-age population projections, the prevailing educational initiatives, other factors that may affect the demand for school places in certain districts and different options to increase the supply of places (e.g. utilizing vacant classrooms in existing schools) in particular districts.

Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

At the Panel on Education meeting in April 2016, the Education Bureau proposed to enhance the Mainland University Study Subsidy Scheme (MUSSS) in the 2016/17 academic year so as to cover the bulk of needy Hong Kong students who were/will be admitted to undergraduate studies in the Mainland through channels other than the Admission Scheme. According to the Bureau, significant increases in the number of target recipients and hence the number of applications to be received under the enhanced MUSSS were anticipated.

- (1) Please provide the information on the number of applications received regarding the above enhanced MUSSS and how it compares with the numbers in the past 3 years, the number of applications rejected and the reasons for rejection;
- (2) the Mainland universities and programmes the applicants applied for; and
- (3) the amount of provision earmarked for the enhanced MUSSS in 2016/17 and 2017/18.

Asked by: Hon LEE Wai-king, Starry (Member Question No. 13)

Reply:

(1) The Mainland University Study Subsidy Scheme (MUSSS) was launched on 31 July 2014 to support needy Hong Kong students who will pursue undergraduate studies in the Mainland under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions (Admission Scheme). Students having passed a means test will receive either a full-rate subsidy of \$15,000 or a half-rate subsidy of \$7,500 per student per year, depending on their needs. To better support Hong Kong students in pursuing undergraduate studies in the Mainland and ensure that no students will be deprived of post-secondary education opportunity due to a lack of means, starting from the 2016/17 academic year, the MUSSS has been expanded to support needy Hong Kong students pursuing undergraduate studies in designated Mainland institutions, irrespective of the channels of their admission to these institutions.

For the 2016/17 academic year, as at 28 February 2017, 1 963 new applications were received, with 1 686 applicants eligible to receive the subsidy under the MUSSS. Including both newly approved applications and successful renewals, subsidy was provided to 2 144 students. 107 applications are still being processed.

In comparison, for the 2014/15 academic year, 448 applications were received, with 263 applicants eligible to receive the subsidy. For the 2015/16 academic year, 336 new applications were received, with 236 applicants eligible to receive the subsidy. Including both newly approved applications and successful renewals, subsidy was provided to 479 students.

There were 185, 100, 170 applications assessed as ineligible respectively in the 2014/15, 2015/16 and 2016/17 (as at 28 February 2017) academic years as they failed to fully satisfy the eligibility criteria of MUSSS as set out in the Annex 1.

(2) Breakdowns of the applicants by Mainland higher institutions and by discipline in the 2016/17 academic year are set out in the Annex 2.

(3) Sufficient provision has been reserved for MUSSS in 2016/17 and 2017/18. Expenditure for 2016/17 is estimated as \$29 million. As for 2017/18, the expenditure is subject to the number of applications and renewals.

**Mainland University Study Subsidy Scheme****Eligibility Criteria for the 2014/15, 2015/16 and 2016/17 Academic Years**

<b>2014/15 and 2015/16 Academic Years</b>	<b>2016/17 Academic Year</b>
(i) being holders of valid Hong Kong Permanent Identity Card or Hong Kong Identity Card;	(i) having right of abode or right to land in, or have entered Hong Kong on One-way Permits;
(ii) being holders of valid Mainland Travel Permit for Hong Kong and Macau Residents;	(ii) receiving and having completed senior secondary education in Hong Kong, including those studying local and non-local curricula in Hong Kong;
(iii) being candidates sitting for the HKDSE Examination in the same year as his/her enrolment under the Scheme for Admission of Hong Kong Students to Mainland Higher Education Institutions; and	(iii) pursuing undergraduate studies in designated Mainland institution; and
(iv) passing the means test.	(iv) passing the means test.

Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Education Bureau (EDB) issued a circular memorandum no. 57/2016 in April 2016 to invite schools to participate in the Pilot Scheme. Through the Pilot Scheme, financial support is provided annually to each public sector and Direct Subsidy Scheme (DSS) school having formed sister school with its counterpart(s) in the Mainland to provide support for facilitating the multi-faceted development of sister school activities. What is the progress of the Scheme?

Asked by: Hon LEE Wai-king, Starry (Member Question No. 15)

Reply:

The Education Bureau has implemented a three-year Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (Pilot Scheme) with effect from the 2015/16 school year through which a fixed grant of \$120,000 per annum and professional support are provided to local public sector and Direct Subsidy Scheme schools (including special schools) that have formed sister schools with their counterparts in the Mainland. Schools show good response to the Pilot Scheme. As at end of February 2017, some 450 school applications were approved and the schools concerned were allocated the fixed grant. These schools have already made use of the fixed grant to meet the expenses of sister school exchange activities in accordance with the objectives of the Pilot Scheme. Since the implementation of the Pilot Scheme, the total number of sister schools in Hong Kong has increased to over 570 which is close to our target of 600.

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Starting from the 2017/18 school year, the Education Bureau will implement a new kindergarten scheme to provide direct subsidy to eligible local non-profit-making kindergartens. In this connection, what is the estimated expenditure on kindergarten teachers' salary, promotion of teachers' professionalism, school rentals, rates and government rents respectively?

Asked by: Hon LEE Wai-king, Starry (Member Question No. 16)

Reply:

Under the free quality kindergarten (KG) education policy, the Education Bureau will provide direct subsidy to KGs joining the Free Quality KG Education Scheme (Scheme). Funding will be provided basically on a per student basis in the form of a basic subsidy. The basic unit subsidy covers teaching staff salary, supporting staff salary and other operating costs. 60% of the basic unit subsidy must be used on teaching staff salaries and related expenses (such as mandatory provident fund, long service payment, etc.). KGs may deploy any portion of the remaining 40% for teaching staff salaries and related expenses, but not vice versa. In addition, eligible KGs which have a large number of long-serving teachers who are receiving higher salaries may apply for a one-off time-limited tide-over grant (ToG) for two years starting from the 2017/18 school year.

With the implementation of the Scheme, the Government's recurrent expenditure in pre-primary education under the new policy will be around \$6.7 billion in the 2017/18 school year which will be fully reflected in the financial year 2018-19. For 2017-18, the estimated expenditure for teaching staff salaries and related expenses, professional development of teachers and principals, rental subsidy, reimbursement of rates and government rent is as follows:

		2017-18
		Estimated Expenditure (\$ million)
(i)	Teaching staff salaries and related expenses under the Scheme (Note 1)	2,248
(ii)	Professional development of teachers and principals (Note 2)	5
(iii)	Rental subsidy	314
(iv)	Reimbursement of rates and government rent	54

*Note 1: It includes 60% of the basic unit subsidy and the ToG but excluding 40% of the basic unit subsidy which may be deployed for teaching staff salaries and related expenses. Besides, it reflects the estimated expenditure for the first 8 months of the Scheme in the 2017/18 school year, i.e. from August 2017 to March 2018.*

*Note 2: It excludes the relevant manpower resources and expenses for the training programmes and activities organised by various sections of the EDB for enhancing teachers' professionalism. The relevant expenditures have been subsumed under the overall expenditure of EDB.*

Director of Bureau: Secretary for Education

Question:

The Committee on Prevention of Student Suicides published its final report on November 2016. The Education Bureau accepted the recommendations in the report and is in the process of formulating a number of practicable measures and follow-up actions according to the four key areas, including Promotion of Students' Mental Well-being and Health, Strengthening Support for Schools and Teachers, Reviewing Relevant Domains in the Education System, and Enhancement of Family Life and Parent Education. What are the details of the funds reserved for implementing the above recommendations?

Asked by: Hon LEE Wai-king, Starry (Member Question No. 38)

Reply:

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and departments, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. Moreover, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department, launched a two-year pilot scheme named "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot

scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Director of Bureau: Secretary for Education  
Question:

Please provide in the form of a table the number of children that still have to pay tuition fee and the amount of tuition fee they need to pay additionally following the implementation of free kindergarten education in 2017/18.

Asked by: Hon LEE Wai-king, Starry (Member Question No. 40)

Reply:

According to the initial rough estimates submitted by kindergartens approved to join the Free Quality Kindergarten Education Scheme (Scheme-KGs) as at February 2017, about 80% of the Scheme-KGs will provide free half-day KG places in the 2017/18 school year. For whole-day places, under the co-payment basis between the Government and parents, school fees will be at a low level, with about 50% of the Scheme-KGs initially estimated to charge school fees at \$1,000 or below per month. The list of Scheme-KGs together with their rough initial estimates on the range of school fees has been uploaded to website of the Education Bureau (EDB). The above-mentioned rough initial estimates are subject to change as rigorous vetting of these initial estimates will be conducted by EDB upon these KGs' submission of detailed information on their fee proposals. As regards the number of students who need to pay school fees and the amount of their school fees in the 2017/18 school year, they will be affected by various factors like distribution of various modes of services, parental choices on the modes of services and types of KGs, and the school fees eventually approved by the EDB, etc.. Relevant information is not available at this stage.

Question:

Please provide the numbers of half-day, whole-day and long whole-day kindergartens as well as the numbers of their students and teachers by District Council district. Please also give figures on teacher wastage of half-day, whole-day and long whole-day kindergartens and set out their length of service, academic qualifications and salaries in the past 3 years.

Asked by: Hon LEE Wai-king, Starry (Member Question No. 39)

Reply:

The respective number of serving teachers and students in local half-day (HD) kindergartens (KGs), WD KGs, and KGs with both HD and WD classes by District Council district in the 2016/17 school year (Note 1) are tabulated below:

## (i) KGs with HD classes only

District	No. of KGs	No. of students	No. of teachers
Central & Western	21	3 698	284
Wan Chai	20	5 109	371
Eastern	25	3 897	271
Southern	22	1 948	190
Sham Shui Po	13	3 144	208
Yau Tsim Mong	13	2 664	173
Kowloon City	49	16 014	901
Wong Tai Sin	7	2 252	135
Kwun Tong	17	3 743	237
Tsuen Wan	18	4 188	273
Tuen Mun	7	2 480	133
Yuen Long	18	5 755	303
North	15	4 752	269
Tai Po	9	1 330	90
Sha Tin	24	6 068	350
Sai Kung	17	2 942	175
Islands	13	1 167	83
Kwai Tsing	14	3 615	216

## (ii) KGs with WD classes only

District	No. of KGs	No. of students	No. of teachers
Central & Western	10	804	92
Wan Chai	8	870	109
Eastern	15	1 165	138
Southern	8	712	77
Sham Shui Po	14	1 551	172
Yau Tsim Mong	15	1 493	161

Sha Tin	20	1 897	201
Sai Kung	11	960	119
Islands	4	427	45
Kwai Tsing	16	1 469	157

## (iii) KGs with both HD and WD classes

District	No. of KGs	No. of students	No. of teachers
Central & Western	12	1 677	138
Wan Chai	5	1 146	105
Eastern	43	6 798	549
Southern	12	1 988	159
Sham Shui Po	22	5 038	379
Yau Tsim Mong	10	2 342	190
Kowloon City	29	5 056	435
Wong Tai Sin	25	3 874	325
Kwun Tong	32	6 238	475
Tsuen Wan	14	2 032	175
Tuen Mun	41	9 146	715
Yuen Long	39	9 751	659
North	23	6 490	407
Tai Po	20	4 568	348
Sha Tin	34	6 748	530
Sai Kung	32	5 253	445
Islands	20	2 318	198
Kwai Tsing	32	5 479	433

Among KGs with WD classes at (ii) and (iii) above, the number of serving teachers and students in former aided child care centres (FACs) (Note 2) in the 2016/17 school year (Note 1) is tabulated below:

District	No. of FACs	No. of students	No. of teachers
Central & Western	9	785	87
Wan Chai	6	511	70
Eastern	17	1 298	154
Southern	8	697	76
Sham Shui Po	13	1 419	159
Yau Tsim Mong	14	1 385	150
Kowloon City	15	1 479	157
Wong Tai Sin	17	1 567	178
Kwun Tong	24	2 285	270
Tsuen Wan	10	1 087	110
Tuen Mun	19	1 608	182
Yuen Long	18	1 812	196
North	10	941	108
Tai Po	9	865	100
Sha Tin	20	1 881	203
Sai Kung	13	1 085	136
Islands	5	355	41
Kwai Tsing	19	1 716	184

The respective number of wastage; and their average years of service, average salary and academic qualifications in local WD KGs, HD KGs and KGs with both HD and WD classes in the 2014/15, 2015/16 and 2016/17 school years are tabulated below:

2014/15 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3)	161	280	627
Average years of service	12.1	11.6	12.1
Average salary per month	\$19,864	\$19,186	\$16,771
Number of teachers with Certificate in Early Childhood Education or above	143	167	421

2015/16 school year

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3)	157	328	554
Average years of service	12.1	10.7	10.8
Average salary per month	\$19,744	\$20,075	\$17,476
Number of teachers with Certificate in Early Childhood Education or above	145	240	427

2016/17 school year (Note 1)

	Teachers in local KGs		
	KGs with WD classes only	KGs with HD classes only	KGs with both HD and WD classes
Number of wastage (Note 3)	232	416	663
Average years of service	11.7	11.8	11.5
Average salary per month	\$21,605	\$21,181	\$19,102
Number of teachers with Certificate in Early Childhood Education or above	212	279	538

Among the above KGs with WD classes, the respective number of wastage; and their average years of service, average salary and academic qualifications in FACs (Note 1) in the 2014/15, 2015/16 and 2016/17 school years are tabulated below:

Teachers in FACs (Note 2)			
School year	2014/15	2015/16 7	2016/17 (Note 1)
Number of wastage (Note 3)	169	162	232
Average years of service	12.1	12.4	11.6
Average salary per month	\$19,591	\$19,551	\$21,459
Number of teachers with Certificate in Early Childhood Education or above	152	152	216

Note:

1. The figures of the 2016/17 school year are provisional.
2. Long WD KG services refer to FACs operated under the Social Welfare Department before harmonisation. They usually operate longer service hours.
3. "Wastage" refers to the number of drop-out teachers who had served in local KGs/FACs as at mid-September of the preceding school year but no longer served in any KGs as at mid-September of the school year concerned.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Please inform this Committee of the following:

- (1) Please provide a breakdown of the numbers of assistant teachers and teaching assistants in government primary and secondary schools, aided primary and secondary schools and special schools in the past 5 years. (Please explain in case no such data can be provided.)
- (2) What are the respective proportions of teachers within establishment, teachers outside establishment, assistant teachers and teaching assistants in government primary and secondary schools, aided primary and secondary schools and special schools of this year? (Please explain in case no such data can be provided.)
- (3) What is the estimated expenditure by the Administration this year regarding the above-mentioned assistant teachers and teaching assistants of government primary and secondary schools, aided primary and secondary schools and special schools? (Please explain in case no such data can be provided.)
- (4) What are the average and median salaries of the above-mentioned assistant teachers and teaching assistants in the past 5 years? (Please explain in case no such data can be provided.)
- (5) Many assistant teachers and teaching assistants indicated that they have to teach several classes and act as class teachers, which is no different from the duties of the teachers within establishment, but they receive only half of the salaries of teachers within establishment, if not lower. How will the Administration address the problem that assistant teachers and teaching assistants have to bear extra workload at deprived wages for a prolonged period of time?
- (6) While there is a serious shortage of teacher posts in Hong Kong, education institutions continue to admit a large number of students to their Postgraduate Diploma in Education programmes. Consequently, many graduates are forced to work as teaching assistants at low salaries. Will the Government consider increasing the financial provisions for education to create additional teacher posts and implement small class teaching? Otherwise, what are the other solutions to address the problem?

Asked by: Hon LEUNG Kwok-hung (Member Question No. 18)

Reply:

- (1) The Education Bureau (EDB) has been providing schools with different kinds of grants under various initiatives which allow the flexibility for schools to employ additional teaching staff. As we do not capture the school-based information on the deployment of such grants and the employment of various types of additional teaching staff, we are unable to provide the information on the number of assistant teachers and teaching assistants in schools.

(2), (3) & (4)

The percentage of teachers within and outside the establishment in government primary and secondary schools, aided primary and secondary schools and special schools for the 2016/17 school year is tabulated below.

Type of Schools	Percentage of Teachers (Estimate)	
	Within Establishment	Outside Establishment
Government Primary Schools	80.6%	19.4%
Government Secondary Schools	85.0%	15.0%
Aided Primary Schools	89.9%	10.1%
Aided Secondary Schools	88.0%	12.0%
Special Schools	97.2%	2.8%

Note:

While schools are required to create accounts on e-Services Portal for all monthly-paid teachers irrespective of source of funding and to report information of other staff with teaching load, schools in their school-based circumstances may use different post titles when employing staff using their own funds. Hence, we are unable to provide a breakdown of percentage, estimated expenditure, average and median salaries in respect of various post titles such as assistant teachers and teaching assistants.

- (5) EDB has all along encouraged schools to provide a stable working environment for staff and enhance their commitment to delivering quality education. Schools are always reminded to adopt the practices of good employers in the employment of staff, both teaching and non-teaching. While some schools may devise different post titles when using their own funds to employ staff, we have advised schools that they should appoint contract teachers instead of ancillary staff to take up teaching duties. At present, the resources which schools can use for employment of staff are mostly recurrent in nature. Therefore, schools should be able to offer reasonable remuneration for their staff, establish a well-defined mechanism of pay adjustment and adjust their pay appropriately, having regard to the nature of their duties as a teacher, an assistant teacher or a teaching assistant, the level of respective responsibility and the economic environment in the society. Schools should also maintain good communication with their staff on employment matters to uphold their morale.
- (6) When planning the allocation of teacher education places, EDB will take into account the trend of student population in the coming years with a view to balancing and stabilizing the supply and demand of teachers in primary and secondary schools. In recent years, the total number of graduates of full-time Bachelor of Education and Post-graduate Diploma in Education programmes was around 1 000 per year. Based on past experience, there are about 2 000 primary and secondary school teachers leaving the profession each year due to retirement and other personal reasons. The teaching vacancies arising from such natural turnover should provide the vacancies to absorb new teachers.

The financial and manpower resources for schools have been increased in recent years through various initiatives, such as the implementation of small class teaching in public sector primary schools, the improvement of the teacher-to-class ratio for the senior secondary levels and the provision of various grants to meet specific policy objectives. We will continue to keep in view the situation and will provide the resources based on the needs of policy initiatives and priority in resource utilization.

Director of Bureau: Secretary for Education

Question:

The Education Bureau (EDB) has implemented the new curriculum in Hong Kong, however, serious problems have appeared particularly in the implementation of the Liberal Studies curriculum and Chinese History curriculum. Students have spent much time on learning Liberal Studies due to the insufficient support and demanding questions. On the contrary, the subject of Chinese History is at risk of “dying out”. In this regard, will EDB inform this committee of:

1. the amount of resources has been injected to study the Liberal Studies curriculum and the Chinese History curriculum respectively?
2. whether EDB has allocated resources to collect views from students and teachers, whether EDB will reconsider reviewing the Liberal Studies “textbooks”, prepare an appropriate curriculum for students to avoid the presence of biased political questions?
3. whether EDB will allocate more resources on the issue-based education of Liberal Studies and teacher training?

Asked by: Hon LEUNG Mei-fun, Priscilla (Member Question No. 17)

Reply:

1. The study on the curricula of Liberal Studies and Chinese History is an integral part of the new senior secondary curriculum and assessment review, which is a continual process of renewal and refinement. It is carried out by the Education Bureau (EDB) in collaboration with the Curriculum Development Council (CDC), the Hong Kong Examinations and Assessment Authority (HKEAA) and the related subject committees. The cost of the study was subsumed under EDB’s overall expenditure as part of its day-to-day curriculum development work.
2. Since the 2009/10 school year, EDB has been collecting feedback on the implementation of the Liberal Studies curriculum through curriculum development visits, school-based support services, school networks, school surveys, external school reviews and focus inspections on Liberal Studies. In addition, since the first Liberal Studies public examination in 2012, views from students and teachers have been collected by EDB to keep abreast of the situation in the frontline. EDB has also been conducting surveys on the first-year students admitted to programmes of universities/tertiary institutions with the Hong Kong Diploma of Secondary Education (HKDSE) qualification since 2012. In general, most students agreed that their knowledge base, ability to think from multi-dimensional perspectives, awareness towards society and ability to think critically had been strengthened through the Liberal Studies curriculum.

Consistent with the need for multiple information sources and perspectives in the study of Liberal Studies, EDB launched the Web-based Resource Platform for Liberal Studies ([ls.edb.hkedcity.net](http://ls.edb.hkedcity.net)) in the 2009/10 school year to make available a wide range of resources for teachers' reference and use. In 2013, the "*Curriculum and Assessment Resource Package*" was provided to explain the breadth and depth of the curriculum as well as the requirements of the public examination. In addition, EDB published the *Liberal Studies Curriculum Resources Booklet Series* in the past two years and would have these updated and enriched annually in order to cater for students' diverse learning needs and to facilitate the teaching of Liberal Studies. The above measures are seen to be effective in reducing teachers' and students' reliance on the Liberal Studies "textbooks" which are not reviewed by EDB. Taking into account the utilisation of Liberal Studies "textbooks" in general, EDB will engage different stakeholder groups in assessing the necessity and cost-effectiveness of reviewing textbooks for Liberal Studies.

3. Regarding teacher training, EDB will continue to organise professional development programmes for teachers in the ensuing years so as to enhance their professional capacity for the teaching of Liberal Studies, including the use of an issue-based approach. In addition, district-based school networks and theme-based learning communities have been set up for the sharing of good practices in Liberal Studies among schools. These measures will be carried out by EDB in-house and subsumed under EDB's overall expenditure. We would continue to review the need for providing additional resources to Liberal Studies, including teacher training.

Question:

The news on student suicides broke out one after another. Following this year's Lunar New Year school holiday, there are already two cases of student suicide. In line with the recommendation of the Committee on Prevention of Student Suicides on enhancing support for students with mental health needs, the Education Bureau will provide an additional grant of about \$ 35 million. In this regard, would the Administration please advise this Committee of the following:

- (1) Has the Bureau set an extra recurrent expenditure or increased its spending on specific research for prevention of student suicides?
- (2) Could the Bureau please tell us the average amount of support grant for each school? Is that enough for schools to provide one-on-one counselling or training for teachers to prevent student suicides? Does the Bureau have resources to support students and teachers at school and the School Crisis Management Team?
- (3) Concerning student suicides, will there be other resources for studying the relationships among students, families, friends, schoolwork and schools as well as enhancing students' life education to prevent further worsening of the case?

Asked by: Hon LEUNG Mei-fun, Priscilla (Member Question No. 16)

Reply:

(1) to (3)

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and departments, has put forward various measures to enhance support for schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop

screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness (MI) so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB has always attached great importance to enhancing students' competency to cope with adversity, and is committed to nurturing students' positive attitude towards life. Since 2001, moral and civic education aiming to cultivate students' positive values and attitudes has been promoted as one of the Four Key Tasks for the curriculum reform in schools. To facilitate the implementation of life education at schools, EDB has provided schools with diversified and practical learning materials. EDB has also been organising related professional development programmes for teachers such as "Programme on Planning Life Education for Secondary Schools" and "Programme on Planning Life Education for Primary Schools" commissioned to the universities to share with schools on the direction and strategies of implementation, as well as the good practices. Moreover, life education and recent related social issues are discussed and shared in the teacher network and Learning Circle so as to enhance teachers' knowledge of life education and their pedagogical skills.

In parallel with the curriculum, we have actively organised diversified development programmes, such as the "Understanding Adolescent Project" for primary school students featuring adventures, teamwork and problem-solving training, the "Enhanced Smart Teen Project" in collaboration with disciplinary forces and uniform groups for secondary school students, the "Pupil Ambassador Scheme on Positive Living", etc. to enhance students' resilience, and cultivate their sense of dignity, self-discipline, responsibility and courage to make changes and take on challenges. In recent years, EDB has also introduced a number of student guidance projects based on positive psychology concepts to help students develop a positive self-image and learn how to respect and cherish life. Moreover, we have been promoting a caring and harmonious school culture, strengthening the relationship between teachers and students and enhancing peer support so that students can enjoy their learning and school life.

In addition, the Committee on Home-School Cooperation (CHSC) takes an active role in promoting the "Happy Kids Charter" for schools and parents. The CHSC's work foci in the 2016/17 school year include enhancing parents' efficacy in nurturing their children, assisting them in early identifying their children's emotional problems and fostering positive thinking in their children. EDB also actively encourages the Federations of Parent-Teacher Associations of different districts and schools' parent-teacher associations to organise activities based on the content of the Charter to enhance students' mental health and well-being.

**(Question Serial No. 1136)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Territory-wide System Assessment of Primary 3 (P3 TSA) has been criticised for causing the drilling culture in the school sector. Many parents are pressing for cancellation of the P3 TSA. After a year of review, the Education Bureau introduced a revamped test of Basic Competency Assessment Research Study (BCA). Many parents doubt whether the BCA is only a repackaging of the same exam-drilling substance. They even threaten to boycott the test. In this connection, would the Government advise this Committee:

1. Regarding P3 TSA or BCA, how much resources have the Administration used on the relevant studies? How about the effectiveness? Please set out the details.
2. Have the Administration allocated any resources to study whether P3 TSA or BCA is necessary, and whether students' competency can be assessed by other methods?
3. Is there any connection between schools' TSA scores and schools' resources? What are the school resources allocation criteria adopted by the Administration?

Asked by: Hon LEUNG Mei-fun, Priscilla (Member Question No. 15)

Reply:

1. The Education Bureau (EDB) has commissioned the Hong Kong Examinations and Assessment Authority (HKEAA) to administer the Basic Competency Assessment project, including Student Assessment (SA) and Territory-wide System Assessment (TSA). In response to the community's concerns, the Coordinating Committee on Basic Competency Assessment and Assessment Literacy (the Committee) was tasked to conduct a comprehensive review on the arrangement of TSA. Taking into account the recommendations of the Committee, the 2016 Tryout Study (Primary 3) (2016 Tryout Study) was implemented in 2016. In 2017, with a view to expanding the scope of study, the Basic Competency Assessment Research Study (Research Study) is being implemented. The initiatives have been carried out under the Basic Competency Assessment project. The payment to the HKEAA is settled annually in compliance with the terms of the contract and service items (including item setting, printing and administration fees on administering schools' participation in the assessment). The expenditure on SA and TSA and related study under the project for the contract period of 2015-2018 is set out below:

Contract period	Expenditure (\$ million)		Total Expenditure (\$ million)	Average expenditure per year (\$ million)
	SA	TSA and related study under the project		
2015-2018	3*	290	293	73

\* SA has been upgraded to Student Assessment Repository (STAR) platform since January 2017. The expenditure for STAR has been subsumed under the overall expenditure of the EDB.

In evaluating the Research Study, we will make reference to the review framework adopted under the 2016 Tryout Study to collect feedback in the following ways:

(i) Quantitative approach

- Questionnaire surveys/opinion surveys: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.

(ii) Qualitative approach

- Focus groups/interviews: The targets include principals, curriculum leaders, teachers and parents. The main purpose is to collect stakeholders' views and suggestions on assessment items, reports, various support measures and stakes involved.
- Case studies: Schools are invited to participate in the case studies, which aim to take a more in-depth look at the support measures, the processes and stakes involved, in a bid to understand how well schools have made effective use of various support measures to enhance their assessment literacy, and also examine the effectiveness and factors affecting the implementation of the Research Study at schools, and look into the solutions or views and suggestions.

The expenditure for the above tasks will be subsumed under the overall expenditure of the EDB.

2. TSA is a low-stakes assessment. TSA does not provide assessment results of individual students, and hence cannot be used to assess the competency of individual students. TSA serves the function of promoting "assessment for learning" through the use of assessment data for provision of feedback to inform learning and teaching. The feedback includes information at the territory-wide and school levels. At the territory-wide level, the use of TSA data can facilitate the EDB to identify priorities and directions for implementing measures to support learning. At the school level, the use of related information can enhance the school-based curriculum and teaching practices for more effective student learning.

As part of the comprehensive review on TSA, the Committee examined various administrative arrangements and reporting formats (e.g. conducting TSA in alternate years or on a sampling basis, providing territory-wide reports or parent reports only). The Committee submitted a review report in February 2016 which reaffirmed the intent and value of the establishment of TSA and recognised the functional use of TSA data to provide feedback to learning and teaching, and considered that modifications to administrative arrangement of TSA are unable to effectively address the various concerns in the community. The Committee will take into account the experience and feedback obtained from the Research Study to continue to review and enhance the arrangements for assessing student competency.

3. There is no connection between TSA scores and school resources. The EDB provides different resources for schools which are allocated taking into account a list of criteria and factors.

**(Question Serial No. 1153)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Education Bureau is updating the Secondary Education Curriculum Guide (SECG). The final consultation document stated that junior secondary students are required to spend a total of 39 hours studying Basic Law in Life and Society and Chinese History subjects, and together with elective subjects History and Geography, the teaching of Basic Law shall take up more than 50 hours. In this connection, would the Administration advise this Committee of:

- (1) the resources allocated to the teaching of Basic Law?
- (2) whether the Administration has the resources to consult experts in Basic Law to redesign the course contents or put forward a detailed curriculum framework?

Asked by: Hon LEUNG Mei-fun, Priscilla (Member Question No. 18)

Reply:

1. Basic Law education is an integral part of various relevant subjects in the Personal, Social and Humanities Education Key Learning Area and also an essential part of values education in the moral and civic education curriculum framework. All secondary schools have been implementing Basic Law education according to the relevant curriculum/subject guides and their own school context. The estimated expenditure for developing learning and teaching resources for Basic Law education for secondary schools in 2016-17 is \$1.48 million.
2. Curriculum development and renewal is an ongoing process. Throughout the development process, the Education Bureau (EDB) has consulted various stakeholders, such as legal experts, academics on constitutional law, teachers and principals, over the content and design of Basic Law education. Expenditure for the related curriculum work and support measures, such as try-out study and professional development programmes for teachers, is subsumed under the recurrent expenditure of EDB as an integral part of its day-to-day curriculum development work.

Question:

Concerning the support for candidates who are deaf and partially deaf, please advise this Committee of the following:

1. What measures are adopted to assist candidates who are deaf and partially deaf in taking public examinations? What are the manpower and expenditure involved?
2. Is there any plan to allow deaf candidates to take public examinations in non-language subjects by sign language? If no, what are the reasons?

Asked by: Hon LEUNG Yiu-chung (Member Question No. 60)

Reply:

- (1) The Hong Kong Examinations and Assessment Authority (HKEAA) can make special examination arrangements (SEAs) for candidates with hearing impairment (HI), including prolonged and/or additional pauses in the listening components of language subjects (this arrangement is also applicable to candidates with special needs who are granted extra time allowance), sitting examinations in special centres, etc. Those having more severe level of HI may be exempted from the listening components and speaking examinations of language subjects and the school-based assessment of English Language, as appropriate. Besides, candidates from schools for the HI may be given an extra time allowance of 10 minutes for each session of written examinations and be accommodated in special centres. A non-subject teacher from the school(s) of the HI candidates who is familiar with sign language will be invited to assume the invigilation work in the special centre and render appropriate assistance to the candidates.

We do not have the information on the manpower and expenses for supporting HI candidates as we do not keep track of such information by individual types of special educational needs. The number of HI candidates and the SEAs provided for them in the HKDSE from 2013 to 2017 is at **Appendix**.

- (2) The HKEAA has set up the Committee on Special Needs Candidates (CSNC) comprising representatives from the Education Bureau (EDB), special schools, secondary schools, tertiary institutions, Committee on Home-School Co-operation, and experts in the fields on educational psychology and occupational therapy. A working group under the CSNC has also been established since 2014 to review the SEAs for HI candidates and to ensure that the arrangements are fair to all candidates. The working group comprises representatives from the EDB, special school, tertiary institution and parent associations. The EDB and HKEAA have all along been working together closely with various stakeholders to review and enhance the SEAs, including the types, target groups, criteria and special arrangements. Regarding the suggestion on allowing deaf candidates to use sign language to answer questions in non-language subjects, the HKEAA, in consultation with the working group, could explore the fairness of the arrangement and its feasibility in public examinations with input from professionals and other related parties.

**Number of HI Candidates and the SEAs Provided in the HKDSE from 2013 to 2017**

**(Question Serial No. 0553)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Concerning the support for students who are deaf and hearing impaired, please advise this Committee of the following:

1. In respect of Lutheran School for the Deaf, what were the amount of funding and the number of student admitted in each of the past 3 years?
2. How many deaf and hearing impaired students were admitted to mainstream government and aided primary schools in each of the past 3 years? How many primary schools provide the sign language interpretation service for deaf and hearing impaired students?
3. How many deaf and hearing impaired students were admitted to mainstream government and aided secondary schools in each of the past 3 years? How many secondary schools provide the sign language interpretation service for deaf and hearing impaired students?
4. How many deaf and hearing impaired students were admitted to tertiary institutions in each of the past 3 years? How many tertiary institutions provide the sign language interpretation service for deaf and hearing impaired students?
5. What measures are taken to support deaf and hearing impaired students admitted to mainstream primary and secondary schools? What is the expenditure involved?
6. Is there any financial support for schools to provide the sign language interpretation service for students who are deaf and hearing impaired? If so, what are the details of the financial support? If no, what are the reasons? Will the Government make it compulsory for schools to provide the sign language interpretation service for needy students who are deaf and hearing impaired?

Asked by: Hon LEUNG Yiu-chung (Member Question No. 59)

Reply:

(1)

The Education Bureau (EDB) will, subject to the assessment and recommendation of specialists and consent of the parents, refer students with severe or profound hearing impairment (HI) or those who cannot construct knowledge because of inadequate speech ability to schools for children with hearing impairment (HI schools). The annual expenditures and the number of students enrolled in HI schools (including Lutheran School for the Deaf) in the past three years are set out in Table 1 and Table 2 of the Appendix.

(2), (3) and (6)

Students with HI who can benefit from studying in mainstream schools will admit to mainstream primary and secondary schools. The number of students with HI enrolled in public sector primary and secondary schools in the past three school years is set out in Table 3 of the Appendix. Schools should pool and deploy school-based resources, such as the Learning Support Grant, flexibly to cater for the specific needs of their students with SEN, including sign language support for students with HI as required. EDB has all along

been encouraging teachers to adopt the most appropriate mode to teach and to communicate with students with HI having regard to their abilities and needs. Teachers will use oral language with the support of visual strategies, contextual cues, body language, written text, gestures and sign language support when teaching and communicating with students with HI. We do not have information on the number of schools providing sign language interpretation services for students with HI.

(4)

The number of students with HI studying in full-time locally-accredited sub-degree and undergraduate programme in the past three school years is set out at Table 4 of the Appendix. We do not maintain record of the number of post-secondary institutions which provide sign language translation services to students with HI.

(5)

To help public sector mainstream schools cater for students with special educational needs (SEN) (including those with HI), on top of regular subvention, the EDB has been providing schools with additional resources, professional support and teacher training. Schools should pool and deploy these school-based resources flexibly to cater for the specific needs of their students with SEN (including those with HI). The EDB would also refer students with HI in need of additional support to the Enhanced Support Service for Students with HI Attending Ordinary Schools (ESS). To enhance the professional capacity of teachers in catering for students with diverse needs, including students with HI, EDB has been providing serving teachers with relevant and structured training courses since the 2007/08 school year on supporting students with SEN pitched at Basic, Advanced and Thematic levels. Starting from the 2012/13 school year, the elective modules of the Advanced and Thematic Courses have included a module on sensory, communication and physical needs covering the knowledge and skills necessary for taking care of students with HI. The annual expenditure on additional support and services for supporting students with SEN (including ESS) in the past three school years are set out in Table 5 of the Appendix.

**Table 1****Annual Expenditure on HI Schools (including Lutheran School for the Deaf)**

Financial Year	2014-15	2015-16	2016-17 (As at 28 February 2017)
Expenditure (\$ million)	26.5	28.2	25.5

**Table 2****Number of Students enrolled in HI Schools (including Lutheran School for the Deaf)**

School Year	2014/15	2015/16	2016/17
Primary	18	20	25
Secondary	84	67	64

**Table 3****Number of students with HI enrolled in Mainstream Public Sector Primary and Secondary Schools**

School Year	2014/15	2015/16	2016/17
Primary	270	280	300
Secondary	380	390	350

*Note:*

*Students with HI refer to those with HI as their major SEN type*

**Table 4****Number of Students with HI Studying Full-time Locally-accredited Sub-degree and Undergraduate Programme**

Question:

In respect of special education, the Government plans to implement the adapted curriculum in schools for children with intellectual disability and enrich learning and teaching materials for implementing the New Academic Structure. In this regard, will the Government allocate new financial resources to support the above measures? If yes, what are the estimated expenditures involved for those two measures? What is the estimated expenditure on providing training for the relevant teachers?

Asked by: Hon LIAO Cheung-kong, Martin (Member Question No. 35)

Reply:

The implementation of the adapted curriculum in schools for children with intellectual disability (ID) has already taken place since the implementation of New Academic Structure in the 2009/10 school year. Expenditure for the related curriculum and resources development work is subsumed under the recurrent expenditure of EDB. In the 2017/18 school year, the total expenditure on implementing the adapted curriculum in schools for children with ID and on enriching learning and teaching materials for implementing the New Academic Structure is \$20.6 million, which also includes \$4.0 million for professional development and training programmes for the relevant teachers.

Question:

Under Matters Requiring Special Attention in 2017-18, it is stated that the Government will continue to provide Hong Kong Scholarship for Belt and Road Students with a view to attracting outstanding students from the Belt and Road regions to pursue undergraduate study in Hong Kong. What are the estimated recurrent and non-recurrent expenditures on the work in this respect for the next 3 financial years? In which regions does the Government expect to step up its promotional efforts? Please provide the estimated expenditure on publicity and the estimated number of students enrolled for each region.

Asked by: Hon LIAO Cheung-kong, Martin (Member Question No. 34)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places.

Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum. Thus, the scholarship to be granted in 2017-18, 2018-19 and 2019-20 will amount to at most \$2.4 million, \$3.6 million and \$4.8 million respectively, and it will be funded by the investment income generated from the Scholarship Fund. Administration of the scholarship will be funded by existing resources of the Education Bureau (EDB). The manpower and related expenditure will be subsumed under the establishment and provision for EDB.

To encourage more outstanding students from countries and regions along the "Belt and Road" to pursue studies in Hong Kong, there will be two "Belt and Road" scholarship schemes funded by private donations for students from Malaysia and Thailand in 2017/18 academic year. Up to ten scholarship offers would be provided under these two new schemes respectively. On publicity, we have enlisted the assistance of the Education Authorities in Malaysia and Thailand to promote the scholarship schemes.

Question:

In view of increasing social concern on special education, would the Government advise this Committee:

1. given that there are 7 800 students but only 1 750 teachers in special schools, is there any need to increase special education posts? If yes, what is the expected number of additional manpower? If no, what are the reasons?
2. what policies are in place to attract more teachers to work in the special education sector?
3. given that currently only 74% of special school teachers have received training and qualifications in special education, will the Government provide additional allowances to encourage more teachers to receive relevant training? If yes, what is the estimated expenditure?

Asked by: Hon LUK Chung-hung (Member Question No. 38)

Reply:

(1) and (2)

The provision of resources to special schools is based on various parameters, including the number of operating classes, types of special educational needs, their level of support required or by applications of individual schools when need arises, etc. Upon the implementation of the New Senior Secondary academic structure from the 2009/10 school year, the basic staffing ratios for special schools is revised to 1.7 teachers per primary and junior secondary class and 1.9 or 2.0 teachers per senior secondary class, depending on the types of children served. The class size of special schools is relatively smaller (ranges from 8 to 15 per class in different types of special schools) which allow teachers more capacity to cater for the diverse needs of students, engage in school-based curriculum development, conduct lesson preparation, attend professional development programmes, communicate with parents, etc.

On top of the basic provision, additional teachers such as resource teachers for children with visual impairment, resource teachers for autistic children, primary school curriculum leader and native-speaking English teacher are also provided as appropriate. Besides, teaching professions such as mobility instructors, low-vision training teachers, teacher assisting in speech therapy are also provided for the schools to cater for various needs of the students. To enhance the quality of primary school education as well as the promotion prospect of primary school teachers, a new deputy head rank in the public sector primary schools (including special schools with a primary section) has been created in the 2008/09 school year. With a view to attracting more talent to join the teaching profession and enhancing the overall quality of education, the ratio of graduate teacher posts will be increased to 65% in the 2017/18 school year and has been increased to 85% in the 2009/10 school year for public sector primary and secondary schools (including special schools with

the corresponding section) respectively. Apart from teaching provisions, special schools are provided with non-teaching staff, including social workers, school nurses, educational psychologists, speech therapists, physiotherapists, occupational therapists, occupational therapist assistants and braille staff according to the specific needs of their students so that a cross-disciplinary collaboration approach among different professionals could be carried out. In general, sufficient teaching professions and supporting staff are provided for the special schools. We will continue keeping in view the support needs of special schools to ensure the provision of quality education for the students.

(3)

To enhance the professional capacity of teachers in catering for students with diverse needs, the Education Bureau (EDB) has been providing serving teachers in both mainstream schools and special schools with structured training courses on supporting students with special educational needs (SEN) pitched at the Basic, Advanced and Thematic levels (BAT Courses) since the 2007/08 school year. Starting from the 2012/13 school year, we have been organising the Training Course for Special School Teachers (TCSST) specifically for serving special school teachers. To support special schools in arranging teachers to attend the TCSST and the BAT Courses, their regular teachers are granted paid study leave for attending the Courses and grants for employing supply teachers are provided for the schools accordingly. The estimated expenditure for TCSST for the 2017/18 school year is about \$5.1 million. As for the BAT Courses, we are not able to calculate the share of special school teachers in the estimated expenditure for the 2017/18 school year.

In addition, EDB organises different theme-based training activities including seminars, workshops and sharing sessions to share good practices and update teachers on the current trend and approach in catering for students with SEN. The related expenditure is subsumed within the overall provision of EDB. To better prepare and equip prospective teachers with the knowledge and skills in catering for students with SEN, local teacher education universities have also included a module on special education or catering for students with SEN in their pre-service teacher training courses. We will continue to encourage special schools to arrange teachers for attending the TCSST and BAT Courses and keep in view the training needs of special school teachers to organise appropriate courses for enhancement of their professional competence.

**(Question Serial No. 1721)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

According to Matters Requiring Special Attention in 2017–18, the Bureau will continue to implement the Fourth Strategy on Information Technology in Education. Major initiatives include the phased provision of wireless network services and other supporting facilities for all public sector schools. In this connection, please advise this Committee:

- (a) How is the progress of the phased provision of wireless network services and other supporting facilities for all public sector schools? What is the expected completion date of it?
- (b) How many e-textbooks are available for school use at present? What are the relevant subjects? How many of them are published under the E-Textbook Market Development Scheme?
- (c) In 2016/17 and 2017/18 school years, how many schools have used e-textbooks for teaching each year? What is the percentage out of the total number of schools in Hong Kong? How is the effectiveness?
- (d) What actions will the Administration take to encourage various companies and organisations to develop more e-textbooks?
- (e) During the implementation of e-learning, how can the Administration make sure that schools are well-prepared in respect of both hardware and software? Will the Administration consider taking actions to set a format standard for e-textbooks so that schools and publishers have a standard to follow when using or developing e-textbooks?
- (f) Have the Administration reviewed the current situation of e-textbooks publication and assessed the effectiveness of schools' implementation of e-learning? Will the Administration consider setting up designated funding for schools' development of e-learning?
- (g) Will the Administration consider a full implementation of e-learning in the long run as well as formulating policies for the long-term promotion of e-learning, with a clear timetable and targets for improving schools' hardware and software supporting facilities, enhancing teachers' professionalism in e-learning, adjusting teaching concepts and learning modes, and developing electronic teaching materials, so that all stakeholders, including schools, teachers, students, parents and publishers, will have a clearer direction for the development of e-learning?

Asked by: Hon MA Fung-kwok (Member Question No. 57)

Reply:

- (a) Under the Fourth Strategy on Information Technology in Education (ITE4), we have established WiFi campus for about 80% of some 1 000 public sector schools in Hong Kong while most of the remaining schools are scheduled to complete the relevant works by the end of this year.
- (b) There are currently 46 sets of e-textbooks on the Recommended e-Textbook List (eRTL) for school use, covering primary education subjects of Chinese Language, English Language, Mathematics, Putonghua, General Studies and Physical Education; and junior secondary education subjects of Chinese Language, English Language, Mathematics, Geography, History, Computer Education and Life and Society. Among the 46 sets of e-textbooks, 34 sets were developed under the e-Textbook Market Development Scheme (EMADS).
- (c) Figures of schools using e-textbooks in the 2016/17 and 2017/18 school years are not available since the annual survey for the 2016/17 school year will only be conducted in mid 2017 and after which the survey for the 2017/18 school year will be conducted in mid 2018. It is expected that with the increase in teachers' knowledge in e-learning and the use of e-resources and improvement in the IT infrastructure in schools, more schools will adopt e-textbooks in the delivery of their curriculum. In addition, an evaluation has been conducted to assess the effectiveness of EMADS and the findings, which will form part of those on the impact on classroom learning and teaching in the context of the promotion of e-learning, are being compiled.
- (d) To encourage the development of e-textbooks, we have been accepting by phases e-textbooks for different subjects for review since late 2014. At present, e-textbook review is open to all subjects and the submission of e-textbooks for review has become a regular practice with three submission periods per year. e-Textbooks that have undergone the quality assurance mechanism will be included on the eRTL together with the e-textbooks developed under EMADS for selection by schools.

(e) to (g)

All e-textbooks on the eRTL have undergone the quality assurance mechanism and the quality assurance mechanism has also been reviewed with reference to the experience gained from the EMADS and the rapid development of technology and market needs. The Education Bureau will continue inviting e-textbook developers, publishers, professionals and educators in IT in education, school principals and frontline teachers to discuss and share their views on the standard requirements to be adopted for future e-textbooks submitted for review. Regular meetings with e-textbook developers and publishers are arranged to discuss the development of e-textbooks. In addition, we also conduct school visits and meetings with teachers to have better understanding of the adoption of e-textbooks in schools.

Furthermore, the ITE4 aims to unleash the learning power of our students to learn to learn and to excel through realizing the potential of IT in enhancing interactive learning and teaching experiences. The actions being implemented, including the provision of funding for schools to upgrade their WiFi infrastructure, enhancing the supply of quality e-learning resources, developing students' information literacy and building up professional leadership and capacity of education professionals, will facilitate the readiness of schools to implement e-learning. According to findings from a survey completed in August last year, schools in general acknowledged that e-learning has strengthened the learning motivation and self-directed learning ability of students.

We have been providing all public sector schools with an annual recurrent Composite Information Technology Grant at amounts ranging from \$194,238 to \$668,055, depending on the school type and the number of classes. This is already a dedicated fund to meet the diversified needs of schools on e-learning. Besides, we have disbursed an extra one-off Information Technology grant at an average amount of \$200,000 per school in January 2017 which is another dedicated fund to enhance support to schools in the practice of e-learning. Under the principle of school-based management, schools can flexibly deploy their resources as appropriate to meet their operational needs for IT in education.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

It is announced in the Policy Address that the Education Bureau and the Home Affairs Bureau will encourage public sector schools to further open up their facilities and review the promotion of sports development in schools. In this connection, please advise this Committee of the following:

(a) What concrete measures will the Administration implement to encourage public sector schools to further open up their facilities? What will be the expenditure involved?

(b) Will the Administration consider providing additional resources for schools that open up their facilities to cover the additional expenses incurred by the engagement of extra manpower during the opening up of school premises and the expenses on maintenance and repair of facilities, electricity, etc. If yes, what are the details? What is the estimated expenditure? If no, what are the reasons?

(c) Will the Administration consider providing subsidy for schools that open up their facilities to enable these schools to upgrade their security installations? If yes, what are the details? What is the estimated expenditure? If no, what are the reasons?

(d) Will the Administration consider stipulating an exemption clause and providing guaranteed insurance coverage for schools that open up their facilities, so that these schools do not need to bear the risk of additional insurance during the opening up of facilities. If yes, what are the details? What is the estimated expenditure? If no, what are the reasons?

Asked by: Hon MA Fung-kwok (Member Question No. 73)

Reply:

(a) to (c)

It has been the Government's policy to encourage schools to open up their facilities to outside organisations as a means to foster collaboration between schools and the community. We understand that some schools and parent groups have concerns about the additional costs, extra manpower and legal liability to be incurred in further opening up the school facilities. The Education Bureau (EDB) has, in collaboration with the Home Affairs Bureau (HAB), drawn up a scheme through which support and incentives would be provided to further encourage schools to open up their facilities to the sports associations for organising sports activities. HAB will identify suitable sports associations with interest in hiring school facilities. Besides, financial subsidy to schools to partly cover schools' additional expenses will be jointly provided by HAB and EDB. EDB will consult the school sector on the implementations details in due course and schools will be invited to participate in the scheme on a voluntary basis.

(d) The current Block Insurance Policy (BIP) covers the public liability of aided schools and caput schools as the occupier and/or landlord and/or property owner. As the legal liability of outside organisations for accidents caused by their negligence when holding activities fall outside the scope of the BIP, the outside organisations are required to arrange separate and adequate insurance protection coverage for the activities on their own.

Question:

The Scheme for Subsidy on Exchange for Post-secondary Students (SSE) was launched in January 2015 to subsidise the participation of needy local post-secondary students in experience learning and exchange activities outside Hong Kong. Regarding the Scheme, please provide the following information:

- (1) the eligibility criteria the SSE used for funding the exchange programmes;
- (2) in the past 2 academic years or funding periods, the number of participating institutions, the number of applications received, the number of students receiving the subsidy, the number of activities approved, the amount of grant approved (by institution); and
- (3) further to the above question, based on the number of students receiving the subsidy, please list the top 10 destinations of exchange activity and the amount of grant.

Asked by: Hon MA Fung-kwok (Member Question No. 1)

Reply:

- (1) To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau has introduced a Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015.

To be considered as eligible exchange activities under the SSE, the exchange activity must last for at least two weeks and must be an outbound activity comprising substantive teaching and learning elements organised and/or endorsed by the participating institution. The participating institutions will process individual applications according to the operating guide issued by the Education Bureau.

- (2) In the first subsidised period covering January 2015 to August 2016, 31 institutions participated in the SSE. \$27 million was granted in subsidies to 2 138 students. Breakdowns of the number of application, students who received the subsidy and the amount of grant approved under the scheme by different participating institutions in the first subsidised period are set out in the **Annex**.

- (3) The top 10 destinations of exchange activity, ranked by the number of visiting students under SSE, are the United States of America, Korea, Mainland China, the United Kingdom, Taiwan, Canada, Japan, Australia, Germany and the Netherlands. The subsidy amount varies according to the destination and duration of the exchange activity, and subject to discount by his/her level of student finance approved by SFO. According to the participating institutions, 75% of students received subsidies of \$7,500 to \$15,000 to participate in exchange activities in the first subsidised period.

Director of Bureau: Secretary for Education

Question:

The Education Bureau indicates under “Matters Requiring Special Attention in 2017-18” that it will continue to provide financial and professional support on a pilot basis to local public sector and Direct Subsidy Scheme schools having formed sister school with their counterparts in the Mainland. Under the pilot scheme, upon vetting and approval of its application, a successful applicant school will be provided with an annual grant of \$120,000 within the three-year implementation period starting from the 2015/16 school year. In this connection, please advise this Committee of the following:

1. in the form of a list, the names of primary and secondary schools in receipt of grant in the 2015/16 school year and the names of their Mainland counterparts; the professional support rendered; the number of school personnel and students that have participated and their percentage in terms of the total;
2. the criteria and indicators adopted by the Administration to ascertain and assess the impact of sister school partnership with the Mainland on local teaching quality, such as the teaching abilities of teaching staff and communication abilities of students;
3. whether the Administration has considered setting up a central survey system for teaching staff and students of subsidised schools to provide feedback anonymously; if no, the reasons.

Asked by: Hon MA Fung-kwok (Member Question No. 2)

Reply:

1. The Education Bureau (EDB) has implemented the Pilot Scheme on Promoting Interflows between Sister Schools in Hong Kong and the Mainland (the “Pilot Scheme”) to provide financial and professional support to local public sector and Direct Subsidy Scheme primary and secondary schools (including special schools) that have formed sister schools with their counterparts in the Mainland to support the multifaceted development of sister school activities. In the 2015/16 school year, some 300 schools have been approved to join the Pilot Scheme and a fixed grant of \$120,000 has been provided to each school to support the development of Hong Kong-Mainland sister schools. Participating schools have been organising various exchange activities at the student, teacher and school management levels based on their individual development needs. It is up to individual schools to decide the target groups as well as mode of exchange activities with the financial support of the grant. As the number of teachers and students that have participated in relevant exchange activities varies from school to school, EDB does not have readily available information on the number of students and teachers involved. Apart from the fixed grant, we have been providing participating schools with professional support, including organising exchange activities and sharing sessions, offering advice on exchange activities, collecting and disseminating good practices, etc. It is a prevailing practice that we do not disclose the name of each participating school in the Pilot Scheme to avoid possible labelling and unnecessary pressure on individual schools.

2. The objective of the Pilot Scheme is to provide financial and professional support to schools to facilitate the multi-faceted development of sister school activities which help students and teachers to have a better understanding about education system in the Mainland, facilitate cultural interflows, expand schools' network, enhance teachers' professionalism and broaden students' horizons. It is therefore not feasible for EDB to devise criteria to assess the impact of sister school partnership on the quality of teaching and communication abilities of students. EDB will commission an independent consultant to conduct an overall review of effectiveness of the Pilot Scheme in the 2017/18 school year. The scope, methodology, evaluation criteria, etc. of the review will be worked out.

3. Over the years, EDB has collected views from schools in Hong Kong that have sister schools in the Mainland through different means, such as anonymous surveys, sharing sessions and seminars conducted from time to time as well as day-to-day contacts. EDB will continue with the existing practice of collecting feedback from participating schools and will defer to individual schools to decide how to tap views from teachers and students who have participated in the exchange activities organised by schools.

Question:

In respect of the Career and Life Planning Grant provided for secondary schools, please give the following information:

1. The expenditures involved and the numbers of school applicants in the 2015/16 and 2016/17 school years.
2. Further to item 1 above, the number of schools that applied to turn the Grant into the recruitment of a full-time regular teacher in the 2016/17 school year.
3. Apart from the Grant, whether the Education Bureau has implemented other schemes or measures to assist schools in providing support for career and life planning.

Asked by: Hon MA Fung-kwok (Member Question No. 3)

Reply:

(1) & (2) The Education Bureau (EDB) provided the Career and Life Planning Grant (CLPG) to 507 and 342 schools in the 2015/16 and 2016/17 school years. The expenditures involved are \$273.8 million and \$195 million respectively. In the 2016/17 school year, a total of 165 schools have converted the CLPG into regular teaching posts.

(3) Apart from the provision of CLPG, EDB provides training and support to enhance teachers' professional capacity in implementing life planning education (LPE), such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes and promoting professional exchanges among schools and teachers. The Guide on Life Planning Education and Career Guidance for Secondary Schools has been issued and school visits are also conducted to provide professional advice to schools to strengthen their LPE. Career exploration activities are provided to students through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. Information on further studies and career opportunities are disseminated on the webpage. Starting from the 2016/17 school year, EDB has set up District Development Networks to strengthen professional development of teachers and provide career exploration activities on a district basis.

Director of Bureau: Secretary for Education

Question:

Under the matters requiring special attention in 2017-18, it is pointed out that the Government will provide the Learning Support Grant for public sector secondary schools to cover students with mental illness starting from the 2017/18 school year. In this connection, please reply to the following questions:

1. What is the change of the involved expenditure?
2. Apart from expanding the coverage of the above-mentioned grant, what are the other supports provided by the Education Bureau to students with mental health needs?
3. What were the numbers of students with special educational needs (including mental health needs) in the past 5 school years?

Asked by: Hon MA Fung-kwok (Member Question No. 5)

Reply:

(1) and (2)

Students with mental illness (MI) need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers and educational psychologists (EPs) have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support to students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million.

To support students with MI, the Food and Health Bureau, in collaboration with the Education Bureau (EDB), Hospital Authority (HA) and the Social Welfare Department, launched a two-year pilot scheme named "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

To enhance the professional capacity of teachers in catering for students with diverse needs, including students with MI, EDB has been providing serving teachers with relevant and structured training courses since the 2007/08 school year on supporting students with special educational needs (SEN) pitched at Basic, Advanced and Thematic levels. Starting from the 2012/13 school year, the elective modules of the Advanced and Thematic Courses have included a module on behavioural, emotional and social development needs covering the knowledge and skills necessary for taking care of students with mental health needs. In the 2017/18 school year, EDB will launch another structured teacher professional development programme pitched at Elementary and In-depth levels on mental health promotion and supporting students with mental health needs.

(3)

The number of students with SEN studying in public sector mainstream secondary schools from the 2012/13 to 2016/17 school years is set out in the table below:

	2012/13	2013/14	2014/15	2015/16	2016/17
Number of students with SEN <sup>Note</sup>	14 580	16 440	17 990	19 640	21 030

Note: The figures on MI will be captured as from the 2017/18 school year. Based on the data provided by HA on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will benefit from the additional resources.

Director of Bureau: Secretary for Education

Question:

- A. How many financial resources will the government allocate to promote the learning of the non-Chinese speaking (NCS) students in different educational institutions?
- B. The number of NCS students who graduated from S6 and the number of NCS students who sat for the Diploma of Secondary Education Examination from 2012 to 2016 academic years.
- C. The number of local NCS students enrolled for the programmes of undergraduate, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma and Vocational Training Council Certificate from 2012 to 2016 academic years respectively.
- D. The average amount of tuition fees paid by each NCS graduate for completing the programmes of undergraduate, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma and Vocational Training Council Certificate from 2012 to 2016 academic years respectively.
- E. The average annual salary of NCS graduates from the programmes of undergraduate, higher diploma, associate degree, diploma of foundation studies, Vocational Training Council Diploma of Vocation Education, Vocational Training Council Diploma and Vocational Training Council Certificate from 2012 to 2016 academic years respectively.

Asked by: Hon MAK Mei-kuen, Alice (Member Question No. 27)

Reply:

- A. As far as post-secondary institutions are concerned, since funding for support services provided to non-Chinese speaking (NCS) students is included in the Block Grant or recurrent subvention, if any, provided for individual institution, we are not able to provide the actual amount of expenditure on support services for such students.
- B. The numbers of Secondary 6 NCS students attending public sector and Direct Subsidy Scheme (DSS) schools offering local curriculum and sitting for the Hong Kong Diploma of Secondary Education (HKDSE) Examination from the 2011/12 to 2015/16 academic years (AY) are as follows -

<b>Number of NCS Students</b>	<b>2011/12 AY</b>	<b>2012/13 AY</b>	<b>2013/14 AY</b>	<b>2014/15 AY</b>	<b>2015/16 AY</b>
Attending public sector and DSS schools	571	649	829	930	1 150
Sitting for the HKDSE Examination	510	568	731	830	1 046

- C. According to the statistics provided by institutions, the number of NCS students enrolled in full-time programmes at different levels from the 2012/13 to 2016/17 AY is as follows –

<b>Type of Programme</b>	<b>2012/13 AY</b>	<b>2013/14 AY</b>	<b>2014/15 AY</b>	<b>2015/16 AY</b>	<b>2016/17 AY (provisional)</b>
Undergraduate	382	512	677	684	807
Sub-degree	266	320	444	553	721
Diploma of Foundation Studies/Foundation Diploma	Not Available	74	155	151	162
Diploma/Certificate of Vocational Education		51	61	86	86

- D. The range of tuition fees for publicly-funded programmes applies across the board for all local students regardless of whether one is a NCS student. The range of tuition fees of publicly-funded full-time programmes in the 2016/17 AY is as follows –

<b>Type of Programme</b>	<b>Range of Annual Tuition Fees 2016/17 AY</b>
Undergraduate	\$42,100
Sub-degree	\$15,040 – \$31,575
Diploma of Foundation Studies/ Foundation Diploma	\$20,500
Diploma/Certificate of Vocational Education	Free – \$20,500*

\* No tuition fee is charged for Secondary 3 to 5 school leavers enrolling in the Diploma of Vocational Education programme if they have yet to enjoy the entire 12-year free education.

Financial assistance schemes are available for all students in need to ensure that no students would be deprived of the opportunity to study due to lack of means. Specific information on NCS students is not available.

- E. Information pertaining to this part is not available.

- End -

**CONTROLLING OFFICER'S REPLY**

**(Question Serial No. 1175)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Government will continue to implement the Professional Enhancement Grant Scheme with the Language Fund. In this connection, would the Government advise this Committee:

1. How many Chinese Language teachers have applied for the grant in previous years (e.g. 2016-17)?
2. What is the total amount of grants approved in previous years (e.g. 2016-17)?
3. What is the percentage of teachers who have received the grant and then become Chinese language teachers of the Chinese Language Curriculum Second Language Learning Framework?

Asked by: Hon MAK Mei-kuen, Alice (Member Question No. 8)

Reply:

With a view to encouraging serving Chinese Language teachers at primary and secondary levels to take courses that aim to enhance their pedagogical knowledge and skills in teaching Chinese to non-Chinese speaking (NCS) students, the Education Bureau (EDB) launches a Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language), funded under the Language Fund, starting from the 2014/15 school year on a pilot basis for 3 years up to the 2016/17 school year. Of the 71 applications received so far, 68 applications have been approved for earmarking of grant under the Scheme. The provision of grant comprises two tiers, including a basic subsidy and an extra subsidy. A basic level of subsidy will be offered at 30% of the tuition fee of a programme of study recognised under the Scheme, subject to maximum of \$30,000 per teacher, upon successful completion of programme of study. There is no undertaking requirement. In order to encourage more Chinese Language teachers currently teaching Chinese to NCS students to apply for the grant and continue to teach in schools offering local school curriculum upon successful completion of programme of study, an extra 30% of the tuition fee, subject to an additional maximum of \$30,000 per teacher, will be offered to those teachers who continue to teach NCS students Chinese in schools offering local school curriculum for a total of three years within five years upon successful completion of programme of study. An estimated expenditure of about \$1.97 million will be incurred for the reimbursement of grant to 68 teachers who have been approved for earmarking of the grant and have completed/will complete the recognised programmes under the Scheme in 2016-17 and thereafter.

Given that schools make different arrangements on teaching NCS students to learn Chinese language with a view to catering for these students' needs, the number of teachers teaching NCS students Chinese language may vary from school to school and even for the same school, from year to year. Hence, we do not possess data in this regard.

- End -

**CONTROLLING OFFICER'S REPLY****EDB188****(Question Serial No. 1446)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau will implement a new kindergarten scheme with effect from the 2017/18 school year to provide direct subsidy for eligible local non-profit-making kindergartens. In this regard, I have the following questions:

1. What is the Government's estimated provision for implementing the Free Quality Kindergarten Education Scheme in 2017-18?
2. To what extent does the scheme seek to increase the teacher-pupil ratio in kindergartens?
3. Has the Government considered implementing the free kindergarten policy across the board (covering all kindergartens offering half-day, whole-day or long whole-day services)? If yes, when will this be done?
4. What will be the total expenditure for implementing the free kindergarten scheme across the board?

Asked by: Hon MAK Mei-kuen, Alice (Member Question No. 6)

Reply:

(1)

With the implementation of the Free Quality Kindergarten Education Scheme (Scheme), the Government's recurrent expenditure in pre-primary education under the new policy will be around \$6.7 billion in the 2017/18 school year which will be fully reflected in the financial year 2018-19. The estimated expenditure on pre-primary education in the financial year 2017-18 is around \$6 billion, including –

- (i) \$4,149 million being direct subsidies to kindergartens (KGs) with breakdown as follows -

	2017-18 (Estimate) (\$ million)
Basic unit subsidies under the Scheme (Note)	3,589
Premises-related subsidies, including rental subsidies, reimbursement of rates and government rent and premises maintenance grant	383
Other school-specific grants, including tide-over grant, grant for a cook and grant for support to non-Chinese speaking students under the Scheme (Note)	177
<b>Total</b>	<b>4,149</b>

Note: It reflects the estimated expenditure for the first 8 months of the Scheme in the 2017/18 school year, i.e. from August 2017 to March 2018.

- (ii) \$1,116 million being expenditure for Pre-primary Education Voucher Scheme; and
- (iii) \$699 million being fee assistance and additional grant for school-related expenses to KG students, Child Care Center Subsidy Scheme, and other expenses.

(2)

Under the Scheme, the requirement in teacher to pupil ratio will be raised from the current 1:15 (including the principal) to 1:11 (principal not included) so as to allow teachers more capacity to cater for the diverse needs of students, engage in curriculum development, lesson planning, professional development, communication with parents, etc..

(3) and (4)

The KG sector is characterised by a high level of flexibility, diversity and vibrancy. In light of the existing diverse operating modes of KGs and different development targets of individual school sponsoring bodies, it does not represent prudent use of public money for the Government to commit totally free KG education for every student or to subsidise every facet of the present and future KG education. Under the Scheme, in principle, Government subsidy should be sufficient for KGs to provide quality half-day (HD) services. Notwithstanding this, individual KGs may have to charge schools fees, which are estimated to be at low level, for their HD programmes, mainly to defray expenses on rent that are not fully covered by rental subsidy. To increase the number of KGs that will not have to charge school fees to defray rental expenses, the Education Bureau will explore feasible measures to provide more Government-owned quality KG premises. As a long-term strategy, adequate space would be earmarked for KG use in new public housing estates with new demand, and we will explore the feasibility of increasing Government-owned KG premises in accordance with the established mechanisms for site search and/or premises allocation as appropriate. We will also explore the feasibility of co-location of KGs and primary schools.

As for whole-day (WD) and long whole-day (LWD) KGs, existing evidence from researches and studies precludes drawing conclusions that WD programmes are more favourable to young children than HD programmes. Studies show that family education plays a crucial and complementary role in shaping young children. A HD programme can achieve the requirements of the curriculum and would allow relatively more family time for young children to play and interact with their family in a less-structured and more relaxing setting to nurture their bonding and sense of security. Although many countries offer WD services for parents as an option, it is not a common practice internationally to provide free WD KG service for all children from three to six years of age.

Having considered the developmental needs of children and overseas practices, we are of the view that the basic tenet of the new policy is that the Government's subsidy to each eligible KG would be sufficient for it to provide quality HD services according to the standards prescribed by the Government. Notwithstanding that, to unleash the potential of the local labour force under the population policy, under the free quality KG education policy to be implemented starting from the 2017/18 school year, we will provide, on a co-payment basis with parents, an additional provision of 30% and 60% for eligible KGs offering WD and LWD services respectively. As the Government has provided additional subsidy, school fees will be at a low level. Needy families may be granted fee remission (at three subsidy levels of 100%, 75% or 50%). In view of the foregoing, we do not have plans to further increase government subsidy for WD and LWD KG places at this stage.

Question:

The Government will provide an additional grant for schools for children with severe intellectual disability, schools for children with physical disability and schools for children with visual impairment-cum-intellectual disability. In this connection, please advise this Committee on the following:

1. What is the estimated provision for this additional grant in 2017-18?
2. How many schools and students stand to benefit from this grant in 2017-18?
3. What are the arrangements and funding requirements for employing nurses and related staff?

Asked by: Hon MAK Mei-kuen, Alice (Member Question No. 10)

Reply:

(1) and (3)

To strengthen the support for the 24-hour ventilator-dependent students, an additional grant will be provided to schools for children with severe intellectual disability (SID schools), schools for children with physical disability (PD schools) and the school for children with visual impairment cum intellectual disability (VI cum ID school) for employing additional nurses and related staff. The expenditure arising from the additional grant for the 2017/18 school year is estimated to be \$7.0 million.

(2)

The ten SID schools, seven PD schools and the VI cum ID school are eligible for the additional grant. In the 2016/17 school year, about 30 24-hour ventilator-dependent students are studying in these schools. The number of schools and students that could benefit from the additional grant in the 2017/18 school year depends on the actual enrolment of 24-hour ventilator-dependent students in the respective schools.

Question:

Regarding the latest development of using Putonghua to teach the Chinese Language subject at primary and secondary schools, would the Administration advise this Committee on the following:

- (1) whether the Administration has considered making it compulsory for schools to use Putonghua to teach the Chinese Language subject in future and the reasons.
- (2) please provide details of the expenditure for funding the Mainland-Hong Kong Teachers Exchange and Collaboration Programme (Programme) in the past 3 years, as well as the estimated expenditure for the 2017-18 financial year.
- (3) please provide a list of schools on the Mainland and primary and secondary schools and kindergartens in Hong Kong participating in the Programme, and set out the number of teachers participating in the Programme by school in Hong Kong.
- (4) the Administration has indicated that continued support will be provided in the second and third years of the Programme for schools to use Putonghua to teach the Chinese Language subject in light of their own circumstances. What are the details of the work and expenditure involved?
- (5) the number of schools in Hong Kong participated in or organised and the number of Hong Kong students participated in exchange programmes in Mainland China over the past 3 years.

Asked by: Hon MO Claudia (Member Question No. 12)

Reply:

- (1) Biliteracy and trilingualism has always been very important to Hong Kong. Embracing professional autonomy, it has all along been a school-based decision of the primary and secondary schools in Hong Kong on whether to adopt Putonghua as the medium of instruction for teaching the Chinese Language subject (PMIC) having regard to the abilities of their teachers and students, as well as their school environment and support. EDB has never made it a mandatory requirement for schools to adopt PMIC. PMIC is being implemented smoothly at schools' discretion. Schools may consider if Putonghua should be adopted as the MOI for teaching the Chinese Language subject and the pace of implementation having regard to their own circumstances, such as readiness of teachers, ability of students, language environment of schools, curriculum planning as well as availability of learning and teaching resources/support. EDB respects the professional decision of schools. EDB will also continue to provide schools with appropriate assistance and professional, on-site support for teaching the Chinese Language subject irrespective of whether the schools' MOI is Putonghua or Cantonese.

- (2)-(4) Funded by the Education Development Fund, the primary aim of the Mainland-Hong Kong Teachers Exchange and Collaboration Programme is to foster professional exchange between Mainland and local teachers through on-site professional development and exchange activities in Hong Kong. The scope of support covers the Key Learning Areas of Chinese Language Education and Mathematics Education as well as kindergarten education. All schools can apply for the Programme according to their contextualised needs.
- (5) No exchange activities between the Mainland and Hong Kong were arranged for primary and secondary schools particularly for the purpose of adopting PMIC over the past 3 years.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

As mentioned in the consultation paper on the Chinese Language education curriculum for primary and secondary schools, students should be able to read simplified Chinese characters after learning the traditional Chinese characters. In this connection, would the Administration please advise on the following:

- (a) Has the Administration held internal discussions or commissioned academic research to explore the feasibility of formally incorporating the learning of simplified Chinese characters into the primary and secondary school curricula? If yes, what are the details?
- (b) Has a study been conducted to compare the differences in the effectiveness of learning Chinese using traditional characters and simplified characters among local students? If yes, what are the findings?
- (c) Has provision been earmarked for teaching simplified Chinese characters in local primary and secondary schools in the 2017-18 financial year? If yes, what are the details of the work and expenditure involved?

Asked by: Hon MO Claudia (Member Question No. 18)

Reply:

(a) & (b)

The Chinese Language Key Learning Area Curriculum Guide (thereafter the Guide) recommended by the Curriculum Development Council was issued in 2002 after consolidating views from different stakeholders, including school sector, academics and professionals. As promulgated in the Guide, students' ability to recognise simplified Chinese characters could be developed in the course of extensive reading activities after the students have developed a solid foundation in reading and writing traditional Chinese characters. The Education Bureau (EDB) has not mandated for primary and secondary school students to learn and use simplified Chinese characters in Chinese language lessons. Nor has it commissioned any related research studies.

(c) On an ongoing basis, EDB will continue to provide support to the learning and teaching of Chinese Language (including the recognition of simplified Chinese characters) in primary and secondary schools. Expenditure for the related support measures, which includes provision of learning and teaching resource materials and professional development programmes for teachers, etc. is subsumed under the recurrent expenditure of EDB as an integral part of its day-to-day curriculum development work. There is no separate breakdown for individual items.

Question:

Will the government inform this Council of:

- a. the number of primary schools using Chinese as the primary medium of instruction, the number of students studying in these primary schools, the number of non-Chinese speaking students studying in these primary schools and the number of ethnic minority student studying in these primary schools;
- b. the number of primary schools using English as the primary medium of instruction, the number of students studying in these primary schools, the number of non-Chinese speaking students studying in these primary schools and the number of ethnic minority student studying in these primary schools;
- c. the number of primary schools which received additional funding to use English as the primary medium of instruction and the related allocated funding;
- d. the number of primary schools which received additional funding to use Putonghua as the medium of instruction in Chinese language classes and the related allocated funding;
- e. of the primary schools referenced in (a), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these primary schools;
- f. of the primary schools referenced in (b), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these primary schools;
- g. the number of secondary schools using Chinese as the primary medium of instruction, the number of students studying in these secondary schools, the number of non-Chinese speaking students studying in these secondary schools and the number of ethnic minority student studying in these secondary schools;
- h. the number of secondary schools using English as the primary medium of instruction, the number of students studying in these secondary schools, the number of non-Chinese speaking students studying in these secondary schools and the number of ethnic minority student studying in these secondary schools;
- i. the number of secondary schools which received additional funding to use English as the primary medium of instruction and the related allocated funding;

j. the number of secondary schools which received additional funding to use Putonghua as the medium of instruction in Chinese language classes and the related allocated funding;

k. of the secondary schools referenced in (g), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these secondary schools; and

l. of the secondary schools referenced in (h), the number of schools that use Putonghua as the medium of instruction in Chinese language classes, and the number of non-Chinese speaking students studying in these secondary schools.

In the past years, the EDB's response has been that it advocates the use of "mother tongue", meaning Chinese, as the principal medium of instruction in primary education; and there is no longer bifurcation of public sector secondary schools into Chinese-medium and English-medium schools since 2010/2011.

Seeing that the effectiveness of the "Chinese Language Curriculum Second Language Learning Framework" remains to be proven and there is a lack of support in NCS students' learning in other subjects, the MOI of individual subjects is of crucial interest to NCS students and their parents when they are trying to select a school. The added challenge of PMIC to NCS students' Chinese learning necessitates a review of the MOI situation at schools.

Will the EDB conduct a survey/research on the MOI situation of individual subjects at public primary and secondary schools?

Asked by: Hon MO Claudia (Member Question No. 27)

Reply:

On primary school education, the Government advocates the use of the mother tongue (i.e. Chinese, in the context of Hong Kong) as the principal medium of instruction (MOI) since students learn most effectively through the mother tongue. Irrespective of the school-based MOI arrangements adopted, schools should endeavour to nurture talents proficient in both Chinese and English. We will continue to strengthen language learning and teaching in primary schools to help students build a solid foundation for a smooth transition to secondary education.

As regards secondary school education, starting from the 2010/11 school year, there is no longer bifurcation of public sector secondary schools into Chinese-medium and English-medium schools based on the teaching medium adopted at the junior secondary levels of Secondary 1 to Secondary 3. To ensure students' learning effectiveness, the choice and number of subjects taught in English may vary between classes within individual schools as well as among schools under the prescribed criteria. Besides, schools may also choose to conduct extended learning activities in English, which include, among others, the use of the English medium for not more than two non-language subjects. With the adoption of subject grouping at senior secondary levels in public sector schools, schools have the discretion to decide on the number of students in each teaching group including the teaching medium having regard to students' needs, aspiration and capabilities to facilitate students' articulation to multiple pathways.

Separately, it is worth noting that we are committed to encouraging and supporting non-Chinese speaking (NCS) students' integration into the community, facilitating their early adaptation to the local education system and mastery of the Chinese language. The earlier they are exposed to the learning of Chinese, the better. To step up the support for NCS students' effective learning of the Chinese language with a view to facilitating their integration into the community, EDB has implemented the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools starting from the 2014/15 school year with the provision of about \$200 million annually for schools to implement the "Learning Framework" and other complementary support measures for the creation of an inclusive learning environment in schools. Applied Learning Chinese (for NCS Students) courses pegged at the Qualifications Framework Levels 1 to 3 have also been provided at senior secondary levels starting from the 2014/15 school year to provide NCS students with an additional channel to acquire an alternative Chinese qualification for further studies and career pursuits. EDB has, based on the research framework drawn up

in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

Given the afore-mentioned diversified school-based arrangements, the number of students including NCS and ethnic minority (EM) students studying in public sector primary and secondary schools with breakdown by different teaching medium is not available. The total number of students studying in primary and secondary schools with breakdown by the number of NCS and EM students in the 2016/17 school year, according to the information collected through the annual Student Enrolment Survey, is tabulated below for reference:

Level	Total number of students (Notes 1 and 2)	Number of NCS students (Notes 2 and 3)	Number of NCS EM students (Notes 2 and 4)
Primary (Primary 1 - 6) (Note 5)	297 808	9 266	8 694
Secondary (Secondary 1 - 6) (Note 5)	314 965	8 971	8 134

Notes:

1. The total number of students includes also those who have not indicated any information on their spoken language at home in the annual Student Enrolment Survey.
2. Figures refer to the position as at September of 2016.
3. Figures on NCS students cover those whose ethnicity is Chinese but who are NCS based on the spoken language at home.
4. Figures on NCS EM students have excluded those whose ethnicity is not Chinese but with Chinese as the spoken language at home.
5. Figures cover students studying in public sector and Direct Subsidy Scheme primary and secondary schools. Figures do not include special schools.

As a point of reference, the Primary and Secondary School Profiles offer information provided by schools which includes the MOI situation of an individual primary or secondary school. EDB also conducts annual survey with primary and secondary schools (excluding ESF and international schools) to collect information on schools’ class and subject details including MOI.

In respect of using Putonghua as the medium of instruction for teaching the Chinese Language Subject (PMIC), primary and secondary schools may make decision having regard to their own circumstances. As the number of schools may vary every year, we do not possess the exact figures.

Irrespective of schools’ MOI arrangements and whether they choose to adopt PMIC, EDB has been organising diversified professional development programmes to ensure that language teachers are provided with adequate training opportunities to enhance their professional capability in teaching the relevant languages for the benefits of students’ language learning.

P3 English language			
P3 Mathematics			
P6 Chinese language			
P6 English language			
P6 Mathematics			
S3 Chinese language			
S3 English language			
S3 Mathematics			

b. The total numbers of students who have taken the P.3, P.6 and S.3 Territory-wide System Assessment (TSA) in 2015/16, and their percentage share of the total number of students in that grade level, as tabulated in the table below;

TSA test taken in 2015/16	Number of students	Total number of students in the grade level	Percentage of students in the grade level who have taken this TSA test
P3 Chinese language			
P3 English language			
P3 Mathematics			
P6 Chinese language			
P6 English language			
P6 Mathematics			
S3 Chinese language			
S3 English language			
S3 Mathematics			

among the students referred to in (a) and (b), the number of students attaining Basic Competency in the P.3, P.6 and the S.3 TSA respectively.

Asked by: Hon MO Claudia (Member Question No.19)

Reply:

a.

	<b>Column A</b>	<b>Column B</b>	<b>(Column A/Column B)</b>
TSA test taken in 2015/16	Number of NCS students*	Total number of NCS students #	Percentage of NCS students* in the grade level who have taken this TSA test
P3 <sup>^</sup> Chinese language	231	1 914	12.1%
P3 <sup>^</sup> English language	231	1 914	12.1%
P3 <sup>^</sup> Mathematics	231	1 914	12.1%
P6 <sup>△</sup> Chinese language	96	1 471	6.53%
P6 <sup>△</sup> English language	96	1 471	6.53%
P6 <sup>△</sup> Mathematics	96	1 471	6.53%
S3 Chinese language	1 321	1 458	90.6%
S3 English language	1 321	1 458	90.6%
S3 Mathematics	1 321	1 458	90.6%

\* These non-Chinese speaking (NCS) students were those provided with facilitation measures according to their needs as requested by schools in the context of the Territory-wide System Assessment (TSA).

<sup>^</sup> The 2016 Primary 3 TSA was conducted as part of the 2016 Tryout Study. The data are from some 50 participating schools.

<sup>△</sup> The Primary 6 TSA was suspended in 2012 and 2014. Since 2015, the Primary 6 TSA has been implemented in odd-numbered years. School participation has been on a voluntary basis in even-numbered years. Since participation in this assessment was on a voluntary basis and not all P.6 students were involved, the number of students participated in TSA is small.

# NCS students cover those students who are non-Chinese speaking based on the spoken language at home. The figures of number of NCS students refer to the position as at mid-September 2015. They include government, aided, Direct Subsidy Scheme and local private schools but excluding Private Independent Schools. They do not include international schools and special schools.

According to our established practice, we will not disclose the attainment rate of individual groups of students to avoid labeling and piece-meal misinterpretation of the results. The information generated, though may not be fully representative in light of the relatively low participation, served as reference for the review of NCS students' learning of the Chinese language by the Education Bureau (EDB) and the schools concerned in the manner as aforementioned. In fact, NCS students' learning of the Chinese language cannot simply be based on their attainment rates of Basic Competency under TSA. With the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") from the 2014/15 school year, schools are provided with assessment tools in conjunction with the "Learning Framework" to enable them to conduct ongoing and systematic internal assessment of their NCS students at different learning stages according to individual learners' needs so as to keep track of their learning progress. EDB will, based on the research framework drawn up in light of advice from research and language experts, continue to collect and analyse data to evaluate the effectiveness of support measures for NCS students and refine them as appropriate.

b.

	<b>Column A</b>	<b>Column B</b>	<b>(Column A/Column B)</b>
TSA test taken in 2015/16	Number of students*	Total number of students in the grade level#	Percentage of students in the grade level who have taken this TSA test

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The Education Bureau has been using Chinese Language Assessment Tools to determine NCS students' Chinese Language level. They are ranked as achieving High, Medium or Low performance in four different stages namely the Entry Stage, Key Stage I (Primary 1-3), Key Stage II (Primary 4-6) and Key Stage III (Secondary 1-3). Each stage of these assessment tools provides "exemplars on listening, speaking, character recognition/ reading and character writing/ writing, alongside audio recordings and scripts, reference answers and marking schemes etc. to facilitate teachers' use" (EDB website).

Will the government inform this council of:

What is the amount of funding used to assess NCS students' Chinese ability, the frequency of the assessments and the institutions providing these assessments?

Please state the levels of competence in Chinese that NCS students have attained since the implementation of the "Chinese Language Curriculum Second Language Learning Framework" by tabulating their performance under different learning stages according to different language abilities reading, writing, listening and speaking for the years 2014/15 and 2015/16?

	2014/15	2015/16
No. of Secondary 1-3 NCS students reached Key Stage III		
No. of Primary 4-6 NCS students reached Key Stage II		
No. of Primary 1-3 NCS students reached Key Stage I		
No. of NCS students reached Entry Stage

Reply:

The Education Bureau (EDB) has stepped up the support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools and the creation of an inclusive learning environment in schools. Schools have been provided with practical tools and steps, and second language learning reference materials, including the "Chinese Language Assessment Tools" ("Assessment Tools"). The assessment tasks under the "Assessment Tools" cover the entry stage, Key Stage 1 (Primary 1-3), Key Stage 2 (Primary 4-6), Key Stage 3 (Secondary 1-3) and Key Stage 4 (Secondary 4-6). The tasks in each stage are designed in conjunction with the expected learning outcomes

across different levels of the “Learning Framework” so as to help teachers in teaching and providing assessment feedback to NCS students. Aligned with curriculum planning, teaching progression and students’ learning needs, teachers may adopt a school-based approach in adopting the “Assessment Tools” to assess NCS students’ learning progress over time, make timely feedback on learning in a formative manner and set progressive learning targets for their NCS students. For example, teachers may use part or all of the questions in the exemplars and make adaptation to the questions as appropriate according to their students’ needs, and administer the assessment at the mode and time as schools consider appropriate. Hence, frequency of the assessments arranged by schools is not available.

To facilitate schools’ implementation of the “Learning Framework” and the creation of an inclusive learning environment in schools, starting from the 2014/15 school year, all schools admitting 10 or more NCS students have been provided with an enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. These schools are required to, based on the results of the “Assessment Tools” in conjunction with the “Learning Framework”, adopt diversified intensive learning and teaching modes as appropriate to help the NCS students learn Chinese effectively and make steady progress with a view to bridging over to mainstream Chinese Language classes.

In tandem, EDB has also commissioned a tertiary institution to conduct analysis on NCS students’ overall learning performance in Chinese reading and writing annually starting from the 2014/15 school year by making reference to the results by using the “Assessment Tools”. According to the sampling methodology adopted, the marked scripts on each of reading (or character recognition) and writing (or character writing), broadly categorised as high, medium and low in terms of performance by individual schools based on school-based criteria, are collected from all schools provided with the enhanced funding so that the findings would cover NCS students’ learning at different grade levels and Chinese proficiency as far as practicable.

The findings in the 2014/15 and 2015/16 school years show that the overall performance in reading and writing of NCS students studying at the same grade level varied considerably as their duration of and pace in learning Chinese were different. On writing, the performance of NCS students with relatively higher ability was comparable with that of their Chinese-speaking counterparts of the corresponding grade level, while their performance in reading slightly lagged behind. The findings, in brief, show that NCS students (in particular those currently studying at junior primary levels) are generally able to learn Chinese more effectively and are expected to be able to bridge over to mainstream Chinese classes in due course. Nevertheless, NCS students’ learning of the Chinese language cannot simply be based on the results of the “Assessment Tools”. In fact, all students, including NCS students, may experience ups and downs in their learning journey in primary and secondary schools. Individual NCS students’ learning progress in Chinese may vary due to various factors. Teachers need to continue to monitor NCS students’ learning progress even though they have been identified as suitable for studying in mainstream Chinese Language classes. Necessary support and counselling for NCS students’ articulation to multiple pathways should be given in a timely manner to cater for their diversified learning needs and changes in learning progress, if any. When the enhanced education support for NCS students mentioned above takes root and sustains, it is expected that NCS students (specifically those who have started learning the Chinese Language at kindergarten level) would improve their Chinese progressively.

The relevant manpower resources and expenses for assessing NCS students’ overall learning performance in Chinese under the “Assessment Tools” are subsumed under the overall expenditure of EDB and the enhanced funding provided to schools, hence a breakdown of expenditure in this regard is not available.

Question:

In the 2017 Policy Address, the Chief Executive announced that “the Government will invite the Standing Committee on Language Education and Research (SCOLAR) to consider making use of the Language Fund to provide Chinese and English enhancement programmes for kindergarten teachers, including training on skills in teaching Chinese to non-Chinese speaking students.”

Will the government inform this council how will the Government implement “training on skills in teaching Chinese to non-Chinese speaking students” and what will be the size of the funding allocated for this purpose and what will the timeline for implementing this policy?

Asked by: Hon MO Claudia (Member Question No. 38)

Reply:

In response to the proposal in the 2017 Policy Address, SCOLAR has recommended an allocation of \$42 million from the Language Fund to finance enhancement programmes on Chinese and English literacy and pedagogy for kindergarten teachers to enhance their professional preparation, continuing development and language competencies in order to dovetail with the launch of the updated Kindergarten Education Curriculum Guide. For the Chinese programmes, the focus would be on enhancing kindergarten teachers' understanding of the Chinese Language system and the distinctive features of the language; building up teachers' capacity in designing and delivering quality teaching activities for developing young children's interest and positive attitudes towards learning Chinese as well as children's awareness of the language for better learning in primary schooling; and equipping teachers with pedagogical knowledge and skills to cater for learner diversity, including teaching Chinese to non-Chinese speaking children who learn Chinese as a second language. The enhancement programmes are planned to be offered from 2017/18 to 2019/20 for three school years. Post-secondary and/or tertiary institutions which offer early childhood education programmes would be commissioned to offer the said enhancement programmes.

Director of Bureau: Secretary for Education

Question:

Since the school year 2014/15, education support measures for non-Chinese speaking (NCS) students include training programmes for Chinese Language teachers teaching NCS students; some of these training programmes are contracted to be conducted by institutions such as the Education University of Hong Kong

Will the government inform this council of the actual expenditures for these subvented training programmes, the frequency and the enrolment of these programmes from the 2014/15 to 2016/17 school year?

Asked by: Hon MO Claudia (Member Question No. 39)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools. To enhance Chinese Language teachers’ professional capability in teaching Chinese as a second language to NCS students, a total of 87 seminars and workshops have been organised since June 2014 to enable every primary and secondary school admitting NCS students to have the professional development opportunities for their teachers to understand the “Learning Framework” as well as to use the assessment tools and curriculum planning tools effectively.

In tandem, EDB has launched the “Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language)” funded under the Language Fund, starting from the 2014/15 school year on a pilot basis, with a view to encouraging serving Chinese Language teachers to pursue relevant courses including those at Master-degree level to enhance their pedagogical knowledge and skills in teaching Chinese to NCS students. So far, applications from 30 and 37 serving Chinese Language teachers teaching at primary and secondary levels have respectively been approved under the Scheme. Besides, the 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students”, conducted by the Education University of Hong Kong among other programmes / courses, for Chinese Language teachers teaching NCS students in primary and secondary schools will continue. From the 2014/15 to 2015/16 school years, a total of about 30 teachers enrolled in the course. The programme for the 2016/17 school year is still open for application, and hence the number of teachers enrolled is not available. In addition, to enhance pedagogical effectiveness in supporting NCS students’ learning of the Chinese language, how to teach Chinese from a second language learners’ perspective has been embedded in various professional development programmes for teachers as appropriate. We have not kept a separate record of which training programmes have incorporated such elements and are therefore unable to give the number of teachers who have attended the programmes or its breakdown.

Besides, EDB has also stepped up the school-based professional support services to individual schools including support to enhance teachers' professional capability in teaching NCS students through diversified modes including on-site support provided by EDB professional support teams and support rendered through the University-School Support Programmes (USP), Professional Development Schools Scheme and School Support Partners (Seconded Teacher) Scheme financed by the Education Development Fund since the 2014/15 school year. From the 2014/15 to 2016/17 school years, 79, 97 and 93 schools admitting NCS students are receiving the professional support services respectively.

The aforementioned is provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including USP projects for primary and secondary schools funded under the Education Development Fund.

Director of Bureau: Secretary for Education

Question:

The Education Bureau had spent HK\$184,000 to formulate an evaluation research framework to evaluate the effectiveness of support measures on the learning of Chinese of NCS students. The “data collection and associated research work under the research framework has started from the end of the 2014/15 school year, when initial data on the performance of NCS students and feedback on the impact of various support measures are available.” EDB mentioned that it would share with stakeholders the findings, including the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement where appropriate.

Will the Government share with this council the initial data on the performance of NCS students and feedback on the impact of various support measures as well as the overall performance of NCS students in Chinese Language, feedback of schools on the support services and recommendations for improvement?

Asked by: Hon MO Claudia (Member Question No. 40)

Reply:

Based on the advice of research and language experts, the Education Bureau (EDB) has drawn up the research framework to evaluate the effectiveness of various support measures for non-Chinese speaking (NCS) students to ensure the quality of the support measures and refine individual measures where appropriate. EDB has been collecting a range of data for the evaluation study, such as NCS students' performance in the Territory-wide System Assessment (TSA) and results of questionnaire survey on TSA; evaluation data for the effectiveness of School-based Professional Support Services by means of questionnaires and focus group interviews. The initial findings of the 2014/15 and 2015/16 school years are being collated and analysed quantitatively and qualitatively for trend analysis. The consolidated findings would be reported to the Legislative Council once completed.

**(Question Serial No. 2675)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau allocates funding to schools admitting 10 or more non-Chinese speaking (NCS) students ranging from \$800,000 to \$1,500,000 per year to implement the “Chinese Language Curriculum Second Language Learning Framework”. Schools can adopt different modes like pull-out teaching, split-class/group learning, after-school consolidation, increasing Chinese Language lesson time, cross-curricular learning, allocating more teachers or teaching assistants to a class, etc. Schools with less than 10 students may apply for an additional funding of \$50,000 to offer after-school support programmes in Chinese learning.

In this connection, will the government inform this Council of

1. Number of schools and additional funding received according to the funding model:

School year	Number of NCS Students	Total funding provided (primary schools)	Total number of primary schools	Total funding provided (secondary schools)	Total number of secondary schools
2014/15	Less than 10				
	10-25				
	26-50				
	51-75				
	76-90				
	91 or more				
2015/16	Less than 10				
	10-25				
	26-50				
	51-75				
	76-90				
	91 or more				
2016/17	Less than 10				
	10-25				
	26-50				
	51-75				
	76-90				
	91 or more				

2. How different schools use the funding by tabulating the amount of funding used by schools in 2014/15, 2015/16, and 2016/17:

<b>Funding use</b>	<b>Actual expenditures</b>	<b>Number of primary schools</b>	<b>Number of secondary schools</b>
Hiring Chinese Language teachers whose main duty is teaching Chinese language to NCS students			
Hiring Chinese Language teachers whose main duty is general teaching			
Hiring Chinese Language teachers whose main duty is developing school-based curricula/teaching resources			
Hiring teaching assistants whose main duty is providing in-class support to NCS students and supporting teachers' teaching in Chinese Language lessons			
Hiring teaching assistants whose main duty is assisting teachers in designing teaching activities and creating teaching resources(including e-learning resources)			
Hiring teaching assistants whose main duty is after-school support			
Hiring teaching assistants whose main duty is supporting NCS students during recess or after school			
Hiring teaching assistants whose main duty is assisting teachers in recruiting teaching assistants who are mainly responsible for the liaison with the parents of NCS students			
Hiring ethnic minority assistants whose main duty is communicating with the parents of NCS students, translating school notices, assisting in explaining school policies and administrative arrangements, etc.			
Hiring ethnic minority assistants whose main duty is collaborating with teachers in Chinese Language lessons			
Hiring ethnic minority assistants whose main duty is helping teachers organise inclusion activities			
Purchasing teaching resources			
Procuring professional services			
Major initiatives to create an inclusive learning environment			
Others			

3. Tabulate the various types of support programmes for non-Chinese speaking students and the respective numbers of schools using the funding in each of these ways in 2016/17.

<b>Mode</b>	<b>Number of primary schools adopting such a mode</b>	<b>Number of secondary schools adopting such a mode</b>	<b>Total amount of funding spent by all schools on such a mode</b>
Pull-out teaching			
Split-class/ group learning			
After-school consolidation			

Increasing Chinese Language lesson time			
Cross-curricular learning			
Allocating more teachers or teaching assistants to a class			
Others (please specify)			
<b>Total number of schools implementing the Learning Framework</b>			

Asked by: Hon MO Claudia (Member Question No. 35)

Reply:

- (1) The Education Bureau has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools. To facilitate the implementation of the “Learning Framework”, EDB has, starting from the 2014/15 school year, provided all public sector and Direct Subsidy Scheme schools offering the local curriculum and admitting 10 or more NCS students with the enhanced funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted to adopt diversified intensive learning and teaching modes as appropriate with a view to helping NCS students bridge over to mainstream Chinese Language classes as early as possible. As regards schools admitting a handful (i.e. 1 to 9) of NCS students, their NCS students can benefit from the immersed Chinese language environment of the school as well as the “Learning Framework”. From the 2014/15 school year, they may apply for an additional funding of \$50,000 on a need basis to offer after-school support programmes in learning Chinese to consolidate what their NCS students have learnt in classes. The number of schools provided with the aforementioned funding with breakdown by number of NCS students ranging from “less than 10”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above” and the expenditure from the 2014/15 to 2016/17 school years are tabulated at Annex A.
  
- (2) Usage of the aforementioned funding for appointment of additional teachers, appointment of teaching assistants, appointment of ethnic minority (EM) assistants, purchase of learning and teaching resources, procurement of professional services (including after-school extended Chinese language learning activities) and organising activities to promote an inclusive environment in schools are tabulated at Annex B. Based on the school reports of the 2014/15 and 2015/16 school years and the school plans of the 2016/17 school year submitted by the schools concerned, the schools have adopted a holistic approach in resource planning and deployment of staff to support NCS students’ effective learning of the Chinese language. To quote appointment of teachers as an example, the additional teachers have been/ are appointed by the schools concerned to teach Chinese language to NCS students (in class and after school as appropriate), to spare the experienced teachers as appropriate to adapt the school-based Chinese Language curriculum and/or learning and teaching materials to cater for the needs of their NCS students, etc.. Teaching assistants, similarly, have been/ are generally employed to support Chinese Language teachers and NCS students during lessons and after school as appropriate, and to assist teachers in adaptation of and preparation for learning and teaching materials. Some have also been assigned to liaise with parents of NCS students to strengthen home-school cooperation. EM assistants have been/ are normally employed to help strengthen communication with parents of NCS students, such as translating and/or explaining school letters / notices to help parents of NCS students understand more the school policies and administrative arrangements, providing support to individual NCS students as appropriate in class, and organising activities for the creation of an inclusive learning environment in schools. Further breakdown of the usage of the funding by specific duties of the additional teachers, teaching assistants and EM assistants as requested is not available.

- (3) In the 2016/17 school year, a total of 216 schools (including 118 primary schools and 98 secondary schools) admitting 10 or more NCS students are provided with the enhanced funding. According to the school plans submitted, these schools will make reference to the learning progress of their NCS students at different learning stages based on the “Learning Framework” and adjust the learning targets and teaching strategies, including adoption of different intensive learning and teaching modes like pull-out learning, split-class/group learning, after-school consolidation, etc., as appropriate. The intensive learning and teaching modes adopted by schools provided with enhanced funding mentioned in (1) above in the 2016/17 school year are tabulated at Annex C. As explained in (2) above, the schools have adopted a holistic approach in resource planning and deployment of staff. In addition, deployment of staff for implementation of different intensive learning and teaching modes may be adjusted having regard to the changing circumstances and needs of their NCS students in learning the Chinese language. Breakdown of expenditure by each mode is therefore not available.

**Number of schools provided with the additional funding  
with non-Chinese speaking (NCS) students ranging from  
“less than 10”, “10 to 25”, “26 to 50”, “51 to 75”, “76 to 90” and “91 or above” and the expenditure  
from the 2014/15 to 2016/17 school years**

School year	Number of NCS Students	Expenditure (primary schools) (\$ million)	Total number of primary schools	Expenditure (secondary schools) (\$ million)	Total number of secondary schools
2014/15	Less than 10	1.25	25	1.65	33
	10 – 25	39.20	49	28.80	36
	26 – 50	17.10	18	10.45	11
	51 – 75	6.60	6	4.40	4
	76 – 90	3.75	3	1.25	1
	91 or above	36.00	24	31.50	21
2015/16	Less than 10	1.70	34	2.45	49
	10 – 25	45.60	57	32.80	41
	26 – 50	19.95	21	12.35	13
	51 – 75	6.60	6	7.70	7
	76 – 90	2.50	2	0.00	0
	91 or above	39.00	26	36.00	24
2016/17	Less than 10	4.45	89	4.30	86
	10 – 25	48.80	61	38.40	48
	26 – 50	19.95	21	18.05	19
	51 – 75	7.70	7	6.60	6
	76 – 90	5.00	4	1.25	1
	91 or above	37.50	25	36.00	24

Notes:

1. Figures cover NCS students in public sector and Direct Subsidy Scheme schools offering the local curriculum. Figures do not include special schools.
2. Figures for the 2016/17 school year (including the number of schools and expenditure) are provisional.

**Usage of funding by schools provided with additional funding  
from the 2014/15 to 2016/17 school years**

Use of Funding	2014/15 school year			2015/16 school year			2016/17 school year		
	Expenditure (\$ million)	No. of primary schools	No. of secondary schools	Expenditure (\$ million)	No. of primary schools	No. of secondary schools	Estimated expenditure (\$ million)	Estimated no. of primary schools	Estimated no. of secondary schools
Appointment of additional teachers	99.53	102	76	127.46	114	96	151.11	115	94
Appointment of additional teaching assistants	31.15	86	65	35.51	90	74	39.01	89	64
Appointment of ethnic minority assistants	6.98	19	17	9.20	24	21	12.35	26	26
Purchase of learning and teaching resources	4.25	63	59	4.07	74	78	5.76	75	76
Procurement of professional services	5.58	59	41	6.78	73	57	6.75	58	46
Organising activities to promote an inclusive environment in schools	1.62	35	36	1.66	40	42	4.36	55	61

**Notes:**

1. Schools may use funding for more than one category.
2. Figures cover public sector and Direct Subsidy Scheme schools offering the local curriculum. Figures do not include special schools.
3. Figures for the 2016/17 school year (including the number of schools and expenditure) are provisional.

**The intensive learning and teaching modes adopted by schools provided with the additional funding  
in the 2016/17 school year**

<b>Intensive learning and teaching modes</b>	<b>Number of primary schools adopting such mode</b>	<b>Number of secondary schools adopting such mode</b>
Pull-out learning	81	76
Split-class/group learning	30	36
Increasing Chinese Language lesson time	39	28
Learning Chinese across the curriculum	19	20
Co-teaching with 2 or more teachers/ teaching assistants to provide in-class support	70	34
After-school consolidation	199	164

Notes:

1. Schools may adopt more than one learning and teaching mode.
2. Figures cover public sector and Direct Subsidy Scheme schools offering the local curriculum. Figures do not include special schools.
3. For the mode of after-school consolidation, the figures include 89 primary schools and 86 secondary schools admitting a handful (i.e. 1 to 9) of NCS students with additional funding for after-school consolidation. Figures on the number of schools concerned are provisional.

Question:

Regarding the Study Subsidy Scheme for Designated Professions/Sectors, would the Administration advise this Committee:

(a) the number of applicants and relevant disciplines each year since the implementation of the Scheme. Please tabulate the figures by year.

(b) the expenditures on subsidising each of the 17 designated programmes. Please tabulate the figures by year and programme category.

(c) whether it has assessed the inclusion of information technology-related disciplines into the Scheme; if yes, of the details; if no, of the reasons.

(d) whether it has assessed the estimated expenditure for including information technology-related disciplines into the Scheme; if yes, of the details; if no, of the reasons.

Asked by: Hon MOK Charles Peter (Member Question No. 21)

Reply:

(a)  
Subsidised places under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) are allocated mainly through the Joint University Programmes Admissions System (JUPAS) in order to ensure eligible students are selected through a merit-based system. The number of students applying for SSSDP programmes via JUPAS for the cohorts admitted in the 2015/16 and 2016/17 academic years are set out at **Annex A**.

(b)  
Details of the relevant institutions, selected programmes and actual/estimated expenditure on subsidy for students under SSSDP in the 2015/16 and 2016/17 academic years are set out at **Annex B**.

(c) & (d)  
In consultation with policy bureaux, a total of six disciplines, namely health care, construction industry, testing and certification, creative industry, logistics, and tourism and hospitality were identified as key disciplines with keen manpower demand under the pilot run of SSSDP for the 2015/16 to 2017/18 cohorts. The Education Bureau will announce details of SSSDP including the selected programmes and the respective number of subsidised places for the 2018/19 cohort later this year after consulting policy bureaux.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the enhancement of IT education, please inform this Committee:

- (a) What were the work items and expenditures involved for the implementation of the Fourth Strategy on Information Technology in Education in 2016-17?
- (b) What are the Government's targets, timetable and estimated expenditures for the implementation of the Fourth Strategy on Information Technology in Education in 2017-18?
- (c) How much resources will the Education Bureau set aside in 2017-18 for updating and enhancing STEM curricula, learning activities and related teacher training? What are the content, timetable, manpower requirement, expenditures and other resources involved in the measures?
- (d) What are the work items and timetable for the implementation of the Report on Promotion of STEM Education – Unleashing Potential in Innovation?
- (e) What are the IT-related subjects in junior and senior secondary curricula and the number of students taking each subject?
- (f) Is there any STEM-related learning activities jointly organised with tertiary institutions, professional bodies or other related organisations in 2016-17? If yes, what are the related expenditures, work items, targets and timetable? What are the related collaborative projects in 2017-18?

Asked by: Hon MOK Charles Peter (Member Question No. 23)

Reply:

(a) & (b)

We launched the Fourth Strategy on Information Technology in Education (ITE4) in August 2015 with a non-recurrent funding of \$105 million. The estimated expenditure for 2016-17 is about \$28.3 million, including (i) around \$27.6 million disbursed as one-off grant to the second batch of some 300 schools under the WiFi-900 project for acquisition of mobile computing devices to facilitate the use of e-textbooks or other e-learning resources in class under a WiFi school environment; and (ii) around \$0.7 million used for other support measures, including the promotion of e-safety. Apart from the project vote for ITE4, we also disbursed an extra one-off IT grant of \$200,000 on average per school to enhance support on the practice of e-learning as well as an extra recurrent grant of \$70,000 on average per school for subscription of WiFi services, both to the first two batches of some 700 schools under the WiFi-900 project.

For 2017-18, the estimated expenditure for implementation of the ITE4 is \$21.5 million for providing

one-off grant for the last batch of some 180 schools under the WiFi-900 project for acquisition of mobile computing devices and for other support measures. Besides, we will disburse an extra one-off IT grant of \$200,000 on average per school for the last batch of schools to enhance support on the practice of e-learning. An extra recurrent grant of \$70,000 will continue to be disbursed on average per school for all eligible public schools under the WiFi-900 project for subscription of WiFi services.

(c) & (d)

Since 2015, EDB has been taking steps to implement the recommendations set out in the Report on Promotion of STEM education – Unleashing Potential in Innovation released in December 2016. The recommendations include renewing the curricula of the Science, Technology and Mathematics Education Key Learning Areas (KLAs), enriching learning activities for students, providing resources support to schools, enhancing professional development of teachers, strengthening partnerships with community key stakeholders, and conducting review and disseminating good practices.

The renewed curricula of the Science, Technology and Mathematics Education KLAs will be released in mid-2017. For professional development programmes on STEM education, on top of cross-KLA and KLA-based seminars/workshops, symposia will continue to be organised for school leaders and teachers. 4 Professional Development Schools have been set up in the 2016/17 school year to establish communities of practice and disseminate good practices. Besides, learning and teaching resources are being developed and student learning activities enriched as ongoing support measures. Where appropriate, we have involved community key stakeholders such as professional bodies, tertiary institutions and other government departments in the above measures for which the cost will be subsumed under EDB’s overall expenditure and separate breakdown is not available.

Subsequent to the disbursement of a one-off grant of \$100,000 to each public sector primary school to support school-based activities/projects on STEM education in the 2015/2016 school year, a similar grant of \$200,000 is planned to be disbursed to each public sector secondary school in the 2016/17 school year. The total expenditures to be incurred for primary and secondary schools are about \$55.5 million and \$102.6 million respectively.

(e) The subjects related to information technology (IT) and student enrolment at the junior and senior secondary levels in the 2015/16 school year are set out as follows:

Level	Junior Secondary	Senior Secondary
Subject(s) / Key Learning Area	Computer Literacy / Enriched Technology Education Key Learning Area curriculum	Information and Communication Technology
Number of Students in the 2015/16 School Year	About 159 000	20 621

It is noteworthy that, at the junior secondary level, all secondary schools have been recommended to implement the enriched Technology Education Key Learning Area curriculum from Secondary 1 starting from the 2014/15 school year. The core and extension learning elements under the “Information and Communication Technology” knowledge context will replace the Computer Literacy syllabus.

(f) Major STEM-related learning activities jointly organised with tertiary institutions, professional bodies or other related organisations in 2016-17 and 2017-18 are as follows:

- **InnoTech Expo 2016** (from 24 Sep 2016 to 1 Oct 2016).
- **Inter-school Cross-curricular Project Competition on Climate Change** (from Oct 2016 to May 2017).
- **WorldSkills Hong Kong Competition and Carnival 2017 – Showcase on Secondary Students’ Skills** (from 16 to 17 Jun 2017).

The expenditures for the above STEM-related learning activities will be subsumed under EDB’s overall expenditure and separate breakdown is not available.

**(Question Serial No. 1951)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (4) Secondary Education, (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Would the Government advise this Committee of the following:

- (1) The number of hours of computer programming lessons at senior secondary levels and the number of students involved in 2016-17.
- (2) The percentage of computer programming teachers who have the background of information technology education.
- (3) Professional development programmes have been organised for serving computer/information and communication technology teachers. Please provide details of the programmes related to computer programming and the number of participants over the years.
- (4) Are there any measures to subsidise or enhance the computer programming lessons at senior secondary levels in public sector and aided schools? If yes, please provide information on the expenditure and specific work in the past 3 years.
- (5) On teaching of programming as mentioned in the Report on Promotion of STEM Education - Unleashing Potential in Innovation, please provide information on the work, timetable, manpower and estimated expenditure involved.

Asked by: Hon MOK Charles Peter (Member Question No. 25)

Reply:

- (1) The senior secondary curriculum has an elective subject entitled Information and Communication Technology (ICT) which has programming elements. The number of hours allocated to the compulsory part and elective part of ICT are 24 and 75 hours respectively. The number of students who studied this subject in the 2015/16 school year was 20 621.
- (2) All teachers in local primary and secondary schools, regardless of being subject-trained or not, are required to meet the basic academic qualification requirements before they can be registered to teach in schools. Given the varied availability of subject expertise in schools, individual school management is always in the best position to recruit and/or flexibly deploy suitable teachers to provide the best learning opportunities for students in various subjects, including computer/ICT. Thus, the percentage of computer programming teachers who have the background of information technology education is not available. However, professional development programmes (PDPs) for serving computer/ICT teachers have been organised continuously to enhance the quality of learning and teaching of computer/ICT in schools.

- (3) The professional development programmes organised for serving computer / information and communication technology teachers aim to enhance participants' pedagogical knowledge in the development of students' programming skills. The number of participants in these three years are set out as follows:

School year	Number of participants
2014/15	495
2015/16	654
2016/17 (Estimated)	1 040

- (4) The curriculum content of the elective subject ICT was revised in 2015 to enhance the teaching of computer programming. PDPs have been organised to equip teachers to teach the updated contents. In addition, learning and teaching resources have been developed. The expenditure on and manpower for curriculum development, resource materials development and PDPs were subsumed under the recurrent expenditures of EDB. Separate estimate was not available.
- (5) Since the release of the Report on Promotion of STEM Education - Unleashing Potential in Innovation in December 2016, EDB has been working on the enhancement of coding education in primary schools to further develop students' computational thinking. EDB has also been engaging professional/ community organisations in the enhancement of programming education in secondary schools to strengthen students' ability to integrate and apply knowledge and skills. PDPs for the 2017/18 school year are being planned, and learning and teaching resources are being developed as ongoing support measures. The expenditure on and manpower for curriculum development, resource materials development and PDPs are subsumed under the recurrent expenditures of EDB. Separate estimate is not available.

**CONTROLLING OFFICER'S REPLY**

**EDB204**

**(Question Serial No. 2993)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

As stated in the Estimates, “(the VTC) will continue the industry attachment programme for students, with funding support from the Bureau, so as to enhance their employability and prepare them for a smooth transition from study to work.”

(1) What was the total amount of Government funding for the programme last year? What was the total number of students participated in the attachment programme (by industries)?

(2) What is the expenditure earmarked for the programme this year? What is the estimated number of students participated in the programme?

Asked by: Hon OR Chong-shing, Wilson (Member Question No. 32)

Reply:

With the Government's one-off funding support of \$43 million in 2012-13, the Vocational Training Council (VTC) had launched a two-year pilot programme to support industrial attachments for student intakes to subvented Higher Diploma programmes in the 2012/13 and 2013/14 academic years. The programme aims at enhancing the employability of students and preparing them for a smooth transition from study to work. About 6 400 and 10 000 students had completed the industrial attachments in the 2012/13 and 2013/14 academic years respectively.

The pilot programme indicates that industrial attachments help bridge classroom/workshop instruction and actual workplace requirements and thus greatly enhance students' employment-readiness. Given the encouraging results, recurrent funding of about \$18 million has been allocated to VTC starting from the 2014/15 academic year to provide industrial attachment opportunities for students mainly studying subvented Higher Diploma programmes and certain Diploma of Vocational Education programmes. About 9 000 students in VTC will benefit every year. Breakdown of number of students participated in the industrial attachment programme by sector of the companies/organisations is not available.

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (2) Pre-primary Education, (3) Primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the facilities at land-based boundary control points for cross-boundary students:

1. Please use the table below to illustrate the daily usage of various land-based boundary control points by cross-boundary students and school buses in the past 3 years.

Control Point	Year	No. of Cross-boundary Students	No. of Cross-boundary School Buses
	2016/17		
	2015/16		
	2014/15		
	2016/17		
	2015/16		
	2014/15		

2. To address the increasing number of cross-boundary students using control points daily in recent years, what is being done and will be done by the Government to upgrade or improve the related facilities? What are the respective provisions involved?

Asked by: Hon OR Chong-shing, Wilson (Member Question No. 33)

Reply:

1. The number of cross-boundary students (CBS) at all school levels and local / cross-boundary school coaches using various land-based boundary control points from the 2014/15 to 2016/17 school years is provided in the following table:

Control Point (CP)	School Year	No. of Cross-boundary Students	No. of Local / Cross-boundary School Coaches Carrying Cross-boundary Students
Shenzhen Bay Control Point (SZB CP)	2016/17	7 783	124
	2015/16	7 800	130
	2014/15	6 737	116

Control Point (CP)	School Year	No. of Cross-boundary Students	No. of Local / Cross-boundary School Coaches Carrying Cross-boundary Students
Lok Ma Chau Control Point (LMC CP)	2016/17	1 665	37
	2015/16	1 573	23
	2014/15	1 062	19
Man Kam To Control Point (MKT CP)	2016/17	2 338	42
	2015/16	1 826	40
	2014/15	1 397	26
Sha Tau Kok Control Point (STK CP)	2016/17	1 304	16
	2015/16	1 374	12
	2014/15	1 288	9
Lok Ma Chau Spur Line Control Point (LMCSL CP)	2016/17	9 693	47
	2015/16	9 752	47
	2014/15	9 021	46
Lo Wu Control Point (LW CP)	2016/17	5 876	36
	2015/16	5 781	34
	2014/15	5 485	34

- Notes: (1) Figures refer to the position as at September of the respective school years.  
(2) Figures are based on the annual surveys conducted via schools on the number of students travelling daily across the boundary in the North, Tai Po, Yuen Long, Tuen Mun, Sha Tin, Tsuen Wan, Kwai Tsing, Tung Chung and Wong Tai Sin districts.  
(3) Local school coaches at LMCSL and LW CPs are local vehicles which do not cross any CP. They are permitted to operate multiple trips to carry CBS from Hong Kong side of the respective CPs to other parts of Hong Kong. The cross-boundary school coaches at SZB, LMC, MKT and STK CPs are cross-boundary vehicles which cross the respective CPs.

2. The Government has put in place various facilitating measures to enhance transportation and clearance services for CBS using the above land-based boundary control points. These measures include facilitating local school buses to gain access to Lo Wu Station Road and the LMCSL CP to take CBS to and from their schools; granting special quotas for cross-boundary school coaches for carriage of CBS through the LMC, MKT, STK and SZB CPs; implementation of simplified clearance services at the LMCSL, LW and SZB CPs and on-board clearance services at MKT, STK and LMC CPs.

The Government will continue to monitor closely the transportation and clearance needs of CBS, and will provide necessary supporting measures to cater for their needs and ensure their safety.

- End -

**CONTROLLING OFFICER'S REPLY****EDB206****(Question Serial No. 0504)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

(a) The Vocational Training Council (VTC) has estimated that the number of full-time vocational and professional education student places for 2016/17 and 2017/18 academic years are 42 800 and 40 500 respectively, which are lower than the actual enrollment of 48 786 in the 2015/16 academic year. The numbers are trending down. Which programmes are now offering fewer places and what are the reasons for that?

(b) In the past 5 academic years, how many Secondary 6 school leavers have enrolled on the VTC's full-time vocational and professional education programmes? How many Secondary 6 school leavers are expected to enroll on these programmes in the next 5 academic years? Please set out the figures by academic year.

Asked by: Hon POON Siu-ping (Member Question No. 39)

Reply:

(a) In light of the decline of the senior secondary student population, the Vocational Training Council (VTC) has adjusted downward the number of planned student places of programmes at the Higher Diploma, Diploma and Certificate levels for Secondary 3 to Secondary 6 school leavers.

(b) The total numbers of student intake of full-time subvented and self-financing programmes for Secondary 6 school leavers for the 2012/13 to 2016/17 academic years (AY) are as follows –

	2012/13 AY	2013/14 AY	2014/15 AY	2015/16 AY	2016/17 AY (provisional)
Total Number of Student Intake	16 134	21 657	23 242	23 309	21 600

According to VTC, the planned number of student intake of full-time subvented and self-financing programmes for Secondary 6 school leavers in the 2017/18 AY is 18 500. VTC will continue to adjust as appropriate the number of planned places in the coming five years.

- End -

**CONTROLLING OFFICER'S REPLY****EDB207****(Question Serial No. 0654)**

**Head:** (156) Government Secretariat: Education Bureau

**Subhead (No. & title):** (-) Not specified

**Programme:** (7) Post-secondary, Vocational and Professional Education

**Controlling Officer:** Permanent Secretary for Education (Mrs Marion LAI)

**Director of Bureau:** Secretary for Education

**Question:**

What are the respective numbers and percentages of staff employed by the Vocational Training Council under 3 different terms of employment, namely the Old Remuneration Package (ORP), New Remuneration Package (NRP) and Short-term Contract (TERM), in the past 3 years? What are the respective numbers of short-term contract staff who have been employed for less than 5 years, 5 to 10 years and over 10 years? To cope with the long-term development of vocational education, there is a need to enhance overall staff morale. What measures will the VTC adopt to gradually transfer short-term contract staff to permanent terms?

**Asked by:** Hon POON Siu-ping (Member Question No. 13)

**Reply:**

Information about staff employed under various packages in Vocational Training Council (VTC) for the past three years is as follows –

<b>Academic Year</b>	<b>Old Remuneration Package</b>	<b>New Remuneration Package</b>	<b>Short-term Contract</b>	<b>Total number of staff</b>
2014/15	1 976 (34.3%)	2 895 (50.2%)	894 (15.5%)	5 765
2015/16	1 875 (31.9%)	3 124 (53.1%)	884 (15.0%)	5 883
2016/17 (Provisional)	1 775 (30.0%)	3 292 (55.6%)	854 (14.4%)	5 921

Note: Figures in brackets represent the ratios as compared to the total number of staff.

Numbers of staff employed under Short-Term Contract by years of service for the past three years are given below –

<b>Academic Year</b>	<b>Number of staff employed under Short-term Contract</b>			<b>Total</b>
	<b>Less than 5 years</b>	<b>5-10 years</b>	<b>More than 10 years</b>	
2014/15	874	19	1	894
2015/16	838	45	1	884
2016/17 (Provisional)	797	57	0	854

For serving staff on Short-term contract, opportunities of appointment on Fixed-term contract through recruitment exercises are available throughout the year. Whenever such opportunity arises, interested staff members may apply.

**CONTROLLING OFFICER'S REPLY**

**EDB208**

**(Question Serial No. 2196)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education, (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The main duties and responsibilities of the Office of the Government Chief Information Officer (OGCIO) include nurturing information technology (IT) talents. In order to find out the effectiveness of the relevant measures and whether resources have been used appropriately, please provide the following information in tabular form:

1. The current measures and progress related to the implementation of computer programming education in primary and secondary schools. Please also list the financial resources and manpower involved.
2. At present, in all primary and secondary students in Hong Kong, what are the respective numbers of teachers teaching Information and Communication Technology related subjects, the teacher-to-student ratios and the amount of public funding involved?
3. At present, which subjects are IT-related in the curricular of the junior and senior secondary levels and how many students are enrolling in the respective subjects?
4. At present, which disciplines are IT-related in the degree programmes offered by the universities and how many students are enrolling in and graduated from the respective disciplines? and

How many financial resources and manpower were involved in promoting IT education in universities and secondary schools last year?

Asked by: Hon QUAT Elizabeth (Member Question No. 42)

Reply:

1. Computer lessons are offered in most primary and secondary schools. Schools are encouraged to adopt a whole-school approach to integrating programming into the relevant subject curricula. Modules of Computer Awareness Programme (CAP) for primary schools, including basic programming, have been developed by the Education Bureau (EDB) to enable primary students to grasp the basic programming skills and computer knowledge. The modules were updated in 2015 and could be used flexibly in relevant curricula or according to the school contexts. EDB is working on the enhancement of coding education in primary schools to further develop students' computational thinking. EDB will continue to organise practical workshops to train up teachers, explore resources and set up school networks as support measures. In addition, EDB has strengthened our collaboration with various institutions/community organisations to foster synergy on different initiatives for the promotion of programming/coding education.

Schools teach programming-related content at the secondary level through implementing the Technology Education Key Learning Area (TEKLA) curriculum. The TEKLA provides an open and

flexible framework for schools to develop their school-based technology education curriculum building on their strengths and students' needs. The learning elements of the TEKLA curriculum at the junior secondary level were enriched in August 2013 to help students lay a broad and balanced foundation for technology education at higher levels. Information and Communication Technology (ICT) is offered as an elective subject at the senior secondary level for students who are talented or interested in pursuing further study on Programming. EDB is working on the enhancement of programming education in secondary schools to strengthen students' ability to integrate and apply knowledge and skills. EDB will continue to organise professional development programmes for teachers in the ensuing years so as to enhance their professional capacity and to set up communities of practice within and across schools for the ultimate to benefits of student learning.

The expenditure on and manpower for curriculum development, resource materials development and professional development programmes are subsumed under the recurrent expenditures of EDB. Separate estimate is not available.

2. All teachers in local primary and secondary schools, regardless of being subject-trained or not, are required to meet basic academic qualification requirements before they can be registered to teach in schools. Given the varied availability of subject expertise in schools, individual school management is always in the best position to recruit and/or flexibly deploy suitable teachers to provide the best learning opportunities for students in various subjects, including computer/ICT. Thus, the teacher-to-student ratio as well as the amount of public funding for individual subject are not available.
3. The subject related to information technology (IT) and student enrolment at the junior and senior secondary levels in the 2015/16 school year are set out as follows:

<b>Level</b>	<b>Junior Secondary</b>	<b>Senior Secondary</b>
Subject(s) / Key Learning Area	Computer Literacy / enriched Technology Education Key Learning Area curriculum	Information and Communication Technology
Number of Students 2015/16 School Year	About 159 000	20 621

It is noteworthy that, at the junior secondary level, all secondary schools have been recommended to implement the enriched Technology Education Key Learning Area curriculum from Secondary 1 starting from the 2014/15 school year. The core and extension learning elements under the "Information and Communication Technology" knowledge context will replace the Computer Literacy syllabus.

4. As regards the UGC-funded sector, it should be reckoned that the bulk of recurrent grants to the institutions are in the form of a block grant, and hence the UGC is unable to attribute the actual subvention/expenditure on specific academic programmes and activities, e.g. promotion of IT education. According to the information provided by the institutions, the average student unit cost per annum of a UGC-funded undergraduate place for the 2015/16 academic year was \$237,000, the bulk of which is subsidised by Government subvention, with the remainder funded by income from tuition fee (i.e. \$42,100 per year). Student enrolment and number of graduates in full-time University Grants Committee (UGC)-funded undergraduate programmes and locally-accredited self-financing undergraduate programmes (including top-up degree) related to IT in the 2015/16 academic year is set out at Annex. Regarding the self-financing post-secondary education sector, we do not have readily available information about the financial resources and manpower involved in the promotion of IT education and operation of IT-related programmes.

In addition, with a view to better harnessing IT as a tool to enhance learning and teaching effectiveness in secondary schools, we promote e-learning in the school sector. In 2016-17, the Composite Information Technology Grant (CITG), amounting to \$361 million, was allocated to public sector schools to meet the diversified needs of schools on e-learning. Besides, professional development programmes, learning and teaching resources, and student activities have been developed and organised to support IT education in various areas/curricula in schools. The expenditure on and manpower for these items are subsumed under the recurrent expenditures of EDB.

**Student Enrolment and Number of Graduates of Full-time University Grants Committee-funded Undergraduate Programmes Related to Information Technology, 2015/16**

(Headcount)

Academic Year	Student Enrolment	No. of Graduates
2015/16	3 226	809

Notes:

1. Programmes related to information technology are determined having regard to the academic programme categories (APCs) of the programmes as reported by the UGC-funded institutions.
2. Since some UGC-funded programmes are mapped to more than one APC, the figures of student enrolment and graduates of these programmes are counted on a pro rata basis under the relevant APC. Thus the student numbers could be in decimal figures. In this case, the relevant figures are rounded to the nearest whole number.

**Student Enrolment and Number of Graduates of Full-time Locally-accredited Self-financing Undergraduate Programmes in “Computer Science and Information Technology”, 2015/16**

(Headcount)

Academic Year	Student Enrolment	No. of Graduates

**(Question Serial No. 2221)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

How will the Government enhance the School-based Educational Psychology Service (SBEPS) in public sector primary schools? What is the current ratio of educational psychologist to school in public sector primary school? How many hours do they station in schools per week? Apart from providing educational psychologists, is there any other support provided to schools to prevent students from committing suicide?

Asked by: Hon QUAT Elizabeth (Member Question No. 24)

Reply:

Under the School-based Educational Psychology Service (SBEPS), one educational psychologist (EP) serves six to ten public sector schools (including both primary and secondary schools) and visits each school for an average of 20 days per school year. The Government has further enhanced the SBEPS by progressively improving the ratio of EP to school to 1:4 for public sector schools with a large number of students with special educational needs from the 2016/17 school year. Apart from helping the schools strengthen their preventive and developmental work, EPs pay more frequent visits to these schools for an average of 30 days per school year and provide comprehensive and regular follow-up to students as well as intervention services to the schools concerned based on their needs.

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and departments, has put forward various measures to enhance support to schools to take care of students in need, which are directed at three levels, namely "Universal", "Selective" and "Indicated". Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students' knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate

services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. Moreover, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme named “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers. EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. Through various support services at different levels, the Government will continue to enhance students’ mental well-being and health and cultivate a positive, supportive and caring learning environment, thereby building a multi-layered safety net for the students.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (3) Primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Government plans to provide the one-off grant of \$100,000 to each public sector and Direct Subsidy Scheme primary school for the promotion of understanding of the Chinese history and culture. Do schools have discretion in deciding the use of the grant? What indicator(s) does the Government have to assess whether the grant can achieve its purposes?

Asked by: Hon QUAT Elizabeth (Member Question No.25)

Reply:

To promote Chinese history and culture, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools). After the passage of the Appropriation Bill 2017, EDB would issue to schools some guidelines on the use of the one-off grant in the form of a Circular Memorandum. In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Notwithstanding the flexibility allowed for school-based decision-making, schools are required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in their audited accounts to be submitted to EDB annually.

It is expected that the grant could facilitate schools in their planning and organising of more programmes/activities for the promotion of Chinese history and culture education. EDB will closely monitor the usage situation of the grant and examine schools' self-evaluation of the programmes/activities organized to gauge the effectiveness of the grant through various channels, including focus group meetings and curriculum development visits.

Question:

In addition to allowing schools to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts, what other measures and support are provided by the Government to help schools strengthen life planning education? What is the expenditure involved?

Asked by: Hon QUAT Elizabeth (Member Question No. 27)

Reply:

Apart from the provision of the Career and Life Planning Grant (CLPG), the Education Bureau (EDB) provides training and support to enhance teachers' professional capacity in implementing life planning education (LPE), such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes and promoting professional exchanges among schools and teachers. The Guide on Life Planning Education and Career Guidance for Secondary Schools has been issued and school visits are also conducted to provide professional advice to schools to facilitate their planning of life planning activities. In addition, career exploration activities are provided to students through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. In view of the positive feedback on work experience programmes, a large-scale "Work Experience Movement" has been launched in the 2016/17 school year. As at February 2017, more than 200 enterprises / organisations have joined the movement, offering some 1 100 places of work experience activities for our secondary students. EDB will set up District Development Networks (DDN) to strengthen professional development of teachers and provide career exploration activities on a district basis. It is expected that the DDNs will be extended to all other districts in the next three school years. The expenditure involved is subsumed under EDB's recurrent expenditure.

Question:

In addition to allowing schools to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts, what other measures and support are provided by the Government to help special schools strengthen life planning education? Is there any other support to further facilitate life planning education for students with special needs?

Asked by: Hon QUAT Elizabeth (Member Question No. 28)

Reply:

Apart from the provision of the Career and Life Planning Grant (CLPG), the Education Bureau (EDB) provides training and support to enhance special school teachers' professional capacity in implementing life planning education (LPE). The Guide on Life Planning Education and Career Guidance for Secondary Schools has been issued and school visits are also conducted to provide professional advice to special schools to strengthen their LPE. Career exploration activities are provided to students in special schools through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace.

Besides, to enhance the readiness of students with specific learning difficulties for work and further studies, EDB has also commissioned a non-governmental organisation, on a pilot basis, to organise work experience programmes for these students over a three-year period as from the 2015/16 school year.

Question:

Will the Government allocate resources to promote STEM education in primary and secondary schools? If yes, what is the expenditure involved and what specific measures will be taken? If no, what are the reasons for that?

Asked by: Hon QUAT Elizabeth (Member Question No. 29)

Reply:

A one-off grant of \$100,000 was disbursed to each of the public sector primary schools in the 2015/16 school year to support schools to kick start and/or enhance their school-based initiatives on promoting STEM education. We plan to disburse a one-off grant of similar nature of \$200,000 to each public sector secondary school in the 2016/17 school year. The total expenditures incurred for primary and secondary schools are about \$55.5 million and \$102.6 million respectively. Besides, the Education Bureau (EDB) will continue to strengthen the professional capacity of school leaders and teachers of both primary and secondary schools through organising various professional development programmes on STEM education. Since the professional development programmes are carried out by EDB and the cost is subsumed under EDB's overall expenditure, a separate breakdown of the expenses incurred is not available.

Director of Bureau: Secretary for Education

Question:

According to paragraph 166 of the Budget Speech, the Government will provide sufficient resources for retrofitting 26 “matchbox-style school premises”. In this connection, will the Government advise:

- (a) how many resources will be specifically set aside for retrofitting 26 “matchbox-style school premises”;
- (b) how long will the service year of these school premises be extended after the retrofitting works;
- (c) given that the site areas of “matchbox-style school premises” highly restrict the potential for redevelopment, whether the Government plans to reprovision these schools to vacant school sites in the medium and long run; if yes, of the details and schedule; if no, of that reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 41)

Reply:

(a) In light of the discussion and consensus reached by the Education Bureau (EDB), the Legislative Council Panel on Education (the Panel) and the sector at the tripartite meetings held in 2016, the Chief Executive announced in his Policy Address on 18 January 2017 the initiative to improve the facilities of 26 “matchbox-style school premises” (Note 1) with regard to the unique design features of such premises. We have briefed Members of the Panel at its meeting of 13 February 2017 on the related arrangement, including five proposed improvement measures in relation to the common problems arising from the unique design features of these school premises, as well as exploration of potential scope for campus expansion and technically feasible means for better utilising the existing space.

The Government will allocate additional resources to take forward the aforementioned improvement scheme. Given that the conditions and needs of the 26 primary school premises vary, the corresponding scope and in turn costs and duration of the works for individual schools would also differ. EDB and our consultants are scheduling meetings with individual schools for in-depth discussions regarding the details of the improvement arrangements, including the works items to cover, priority of such works items and the works programme, in order to finalise the particulars of the works project for individual schools as soon as possible and to commence the improvement works concerned during the 2017 summer break. The total amount of funding required and the cash flow will only be available at a later stage.

*Note 1:* The so-called “matchbox-style school premises” refer to those cuboidal shaped premises constructed between mid-1960s and 1980 at public housing estates for primary school use. There are currently 28 public-sector primary schools operating in these premises and two of them have been allocated with new school premises for reprovisioning.

(b) The main purpose of the aforementioned improvement programme for “matchbox-style school premises” is to address the main problems arising from the typical architectural design of these premises, such as the internal corridor design between classrooms, use of hollow blocks for internal partition of classrooms and rainwater ingress through the grille walls at staircase landings, and to identify, from technical perspective, potential scope for campus expansion and other flexible use of space within existing school premises. In other words, the works aim to improve the learning and teaching environment of the schools instead of extending the service year of the school premises, which in turn depends on a range of factors, including appropriate repairs and maintenance of the premises. In this regard, the average annual total project estimates of the approved major repair works carried out for aided schools by consultants and contractors employed by EDB amounted to some \$850 million in the past seven years.

(c) Given that the site area of the majority of “matchbox-style school premises” is small, the potential and feasibility for a full-scaled in-situ redevelopment is rather limited. To fully address the issues of insufficient space and facilities in the long run as compared with the prevailing planning standards, these schools need to be reprovisioned or expanded to suitable vacant school premises (VSP) or school sites. We have reviewed the VSP and reserved school sites under EDB and shortlisted those which could potentially be allocated for the purpose of reprovisioning or physical extension of existing schools through the School Allocation Exercise in 2017. While suitable new sites or VSP available for such purpose are limited in number and are not found in all the districts where “matchbox-style school premises” are situated, EDB will expedite the relevant allocation process through the existing school allocation mechanism. Schools may take into account their school-based considerations and consider if they would like to apply for the sites/premises concerned.

Director of Bureau: Secretary for Education

Question:

Regarding the teacher training in supporting the non-Chinese speaking students, whether the training for teachers in catering NCS students will be strengthened in next year, particularly the training of cultural sensitivity; If yes, of the details as well as the resources involved; if no, of that reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 47)

Reply:

The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools. To enhance Chinese Language teachers’ professional capability in teaching Chinese to NCS students (which involves enhancing the pedagogical effectiveness in teaching Chinese from a second language learners’ perspective and raising the awareness of cultural sensitivity), elements of cultural sensitivity are embedded in various professional development programmes for teachers. A total of 87 seminars and workshops have been organised since June 2014 to enable every primary and secondary school admitting NCS students to have the professional development opportunities for their teachers to understand the “Learning Framework” as well as to use the assessment tools and curriculum planning tools effectively.

In tandem, EDB has launched the “Professional Enhancement Grant Scheme for Chinese Teachers (Teaching Chinese as a Second Language)” funded under the Language Fund, starting from the 2014/15 school year on a pilot basis, with a view to encouraging serving Chinese Language teachers to pursue relevant courses including those at Master-degree level to enhance their pedagogical knowledge and skills in teaching Chinese to NCS students. Besides, the 5-week programme “Certificate in Professional Development Programme on the Teaching of Chinese Language for NCS Students” for Chinese Language teachers teaching NCS students in primary and secondary schools will continue.

In addition, EDB has stepped up the school-based professional support services to individual schools including support to enhance teachers’ professional capability in teaching NCS students through diversified modes including on-site support provided by EDB professional support teams and support rendered through the University-School Support Programmes (USP), Professional Development Schools Scheme and School Support Partners (Seconded Teacher) Scheme financed by the Education Development Fund since the 2014/15 school year.

EDB has been collecting feedback from teachers about the effectiveness of the professional development programmes. Findings of the post-course evaluation surveys showed that teachers were satisfied with the

seminars and workshops and considered that the knowledge gained could facilitate their adaptation of school-based curriculum with reference to the “Learning Framework” and Chinese Language Assessment Tools, as well as mastery of relevant learning and teaching strategies to enhance the learning and teaching effectiveness. Besides, EDB has, based on teachers’ feedback, strengthened the sharing of school-based experience and good practices to meet the needs of teachers in practical classroom teaching. EDB will continue to organise diversified and progressively advanced professional development programmes to ensure that all teachers teaching NCS students are provided with adequate training opportunities to enhance their professional capability in teaching Chinese as a second language including cultural sensitivity.

Separately, EDB has issued guidelines and will continue to organise annual sharing sessions, in collaboration with the Equal Opportunities Commission, to remind all educational establishments of their responsibilities to make their best endeavours in supporting the teaching and learning of all their students irrespective of race, in accommodating ethnic diversity in schools and in respecting cultural and religious differences.

The aforementioned is provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including USP projects for primary and secondary schools funded under the Education Development Fund.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB217**

**(Question Serial No. 0061)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational expenses  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Education Bureau has put in place the “Chinese Language Curriculum Second Language Learning Framework” (Learning Framework) in primary, secondary and special schools since 2014/15 school year with a view to facilitating non-Chinese speaking (NCS) students to bridge over to mainstream Chinese Language classes. In this connection, will the Government advise the following information:

- (a) the areas of work that the resources shall be used for in the 2017/18 school year as well as the amounts; and
- (b) how many resources had been spent to provide tailor-made support for NCS students, such as independent Chinese immersion classes, adapted textbooks and a school-based Chinese curriculum since 2014/15 school year; if no resources were spent in the above area, whether it knows the reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 48)

Reply:

- (a) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) and the creation of an inclusive learning environment in schools. Estimated expenditure for the related support measures for the 2017/18 school year is tabulated at Annex.
- (b) To facilitate schools’ implementation of the “Learning Framework” and the creation of an inclusive learning environment in schools, EDB has, starting from the 2014/15 school year, provided all schools admitting 10 or more NCS students with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. A total of 173 schools (including 100 primary schools and 73 secondary schools), 197 schools (including 112 primary schools and 85 secondary schools) and 216 schools (including 118 primary schools and 98 secondary schools) are provided with the additional funding to support their NCS students in the 2014/15, 2015/16 and 2016/17 school years respectively. The schools concerned generally adopt a holistic approach in resource planning and deployment of staff for implementation of different intensive learning and teaching modes which may be adjusted having regard to the changing needs and circumstances of their NCS students in learning the Chinese language. Based on the school plans/reports of the above-mentioned schools, of the intensive learning and teaching modes, pull-out teaching and split-class / group learning tailor-made for NCS students are commonly adopted, which are de facto independent Chinese immersion classes for NCS students. Among them, 102, 121 and 157 schools adopted pull-out teaching and 53, 71 and 66 schools adopted split-class / group learning in the 2014/15, 2015/16 and 2016/17 school years respectively. Schools may adopt more than one learning and teaching mode. A breakdown of expenditure by individual modes is therefore not available.

As for learning and teaching materials, before the start of the 2014/15 school year, EDB has provided schools with practical tools and steps by phases to help them master the use of the “Learning Framework” and reference materials in learning and teaching second language. The reference materials, including a series of Chinese as a Second Language Learning Packages covering the primary and secondary curricula, have been delivered to schools and students in the form of textbooks. Other complementary resources such as the Chinese Language Assessment Tools in conjunction with the “Learning Framework” and teaching reference materials have been uploaded onto the EDB webpage and will be updated where necessary. The expenditure for the development of the “Learning Framework” and the supporting learning and teaching materials is about \$3 million per year starting from the 2014/15 school year.

EDB has stepped up school-based professional support services through diversified modes, including on-site support provided by EDB professional support teams and support rendered through the University-School Support Programmes (USP), Professional Development Schools Scheme and School Support Partners (Seconded Teacher) Scheme, etc.. One of the foci of the support services is to support schools in adapting the school-based curriculum and learning and teaching materials to cater for the different needs of their NCS students with a view to enhancing the learning and teaching effectiveness. These services are provided by different sections of the EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including USP projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

**Educational support measures for non-Chinese speaking (NCS) students  
in the 2017/18 school year**

<b>Support measures</b>	<b>Estimated expenditure in the 2017/18 school year \$ million</b>
Enhanced funding support and enhanced school-based professional support have been provided to facilitate schools' implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") and support of NCS students in learning Chinese language as well as creation of an inclusive environment in schools. Eligible schools may also apply for funding to provide after-school support for NCS students' learning of the Chinese language.	259.5  Note
Development of the "Learning Framework" and the supporting learning and teaching materials for implementation starting from the 2014/15 school year	3.0  Note
Training programmes for Chinese Language teachers teaching NCS students	The programmes are subsumed under the overall professional development programme of EDB and a breakdown of expenditure by item is not available.
Chinese Language Learning Support Centres to offer remedial programmes after school hours and during holidays for those NCS students who have a late start in the learning of the Chinese Language, to develop teaching resources, and to organise workshops for experience sharing with teachers and workshops for NCS parents with a view to strengthening collaboration with NCS parents in the support for NCS students' learning of Chinese	4.1
Summer Bridging Programme for NCS students in primary schools  Starting from 2013, the programme has been refined to allow NCS parents to accompany their children with a view to enhancing their exposure to, and use of, Chinese and support for their children.	2.8
Student grant for Applied Learning Chinese (for NCS students) starting from the 2014/15 school year	7.5
Subsidising eligible school candidates sitting for the General Certificate of Secondary Education (GCSE) (Chinese) Examination since 2010 to the effect that the fee level of the examination payable by the subsidised school candidates is on par with the Chinese Language paper in the Hong Kong Certificate of Education Examination or Hong Kong Diploma of Secondary Education  Starting from 2013, the examination subsidy coverage has been expanded to include other non-local Chinese examinations such as the International General Certificate of Secondary Education (IGCSE), the General Certificate of Education (GCE) Advanced Subsidiary (AS)-Level and the GCE Advanced (A)-Level.	3.07

Note:

These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

Question:

Regarding the implementation of the “Chinese Language Curriculum Second Language Learning Framework”, please advise the following information:

- (a) what are the indicators that are used to measure the effectiveness of the Learning Framework given the Learning Framework has launched since 2014/15 school year;
- (b) whether it had already conducted a review on it; if yes, of the details; if no, of that reasons;
- (c) whether it had received the feedbacks from NCS students and their parents? If yes, of the details; if no, of that reasons; and
- (d) the numbers of NCS students who were admitted to University Grants Committee-funded undergraduate programmes in last year, with a breakdown of the local universities and programmes?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 49)

Reply:

- (a) & (b) The Education Bureau (EDB) has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for non-Chinese speaking (NCS) students (i.e. students whose spoken language at home is not Chinese) in learning the Chinese language through, among others, the implementation of the “Chinese Language Curriculum Second Language Learning Framework” (“Learning Framework”) in primary and secondary schools and the creation of an inclusive learning environment in schools. EDB has consulted teachers and language experts when formulating the “Learning Framework” and will continue to collect views from various stakeholders about its effectiveness and that of the supporting materials. We will be reviewing the “Learning Framework” on an on-going basis and refine it in due course after consolidating different views and collecting learning and teaching experience in different school contexts. At the curriculum level, the “Learning Framework” would be reviewed, as appropriate, at an interval of 3 years, when a cycle of learning at each Key Stage (e.g. Primary 1 - 3, Primary 4 - 6, Secondary 1 - 3) has been completed. Besides, EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate. We will look into the learning objectives, curriculum planning, instructional materials and teaching strategies adopted by the schools, and the proficiency enhancement and learning motivation of the NCS students, as well as other contributing factors for effective learning.

- (c) As an integral part of the evaluation process, EDB would engage widely stakeholders including school teachers, students, parents, non-governmental organisations and the ethnic minority communities through various channels such as focus group discussions and interviews on a continuous basis.
  
- (d) Admissions to undergraduate programmes, including those offered by University Grants Committee (UGC)-funded universities and self-financing institutions, are offered to eligible applicants, irrespective of their race and language spoken at home. According to their records, the number of local NCS students (i.e. local students whose ethnicity and/or spoken language at home are not Chinese) admitted to the UGC-funded full-time undergraduate programmes, with breakdowns by university and broad academic programme category in the 2016/17 academic year is tabulated at Annex.

Question:

The Learning Support Grant ("The LSG") is established to help students with special educational needs ("SEN") integrate in ordinary schools, allowing them to receive education alongside with their peers and develop their potential. In this connection, will the Administration advise:

- (a) the respective numbers of SEN students in primary and secondary schools benefited from the LSG in last 3 years, as well as the spending amount, broken down by 3-Tier Intervention Model and the ways that the primary and secondary schools spent; and
- (b) the respective amount of unused balance in primary and secondary schools in last 3 years; whether it understood the reasons of having the unused balance? If yes, of the details; if no, of that reasons; and
- (c) how many resources had been spent in carrying out the preventive services and programmes under the Whole School Approach in last 3 years?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 50)

Reply:

(a) to (c)

All schools are requested to adopt the Whole School Approach to support students with special educational needs (SEN) through the 3-Tier Intervention Model, taking into account their support needs. Tier-1 support refers to helping students with mild or transient learning difficulties through the use of basic resources and quality teaching in regular classrooms. Tier-2 support refers to "add on" intervention, such as small group learning and pull-out programmes, etc., for students with persistent learning difficulties. Tier-3 support refers to intensive individualised support for students with severe learning difficulties under which schools are required to draw up an individual education plan (IEP) for each of these students. Irrespective of the tier of support required by the students with SEN and whether the students may require an IEP, schools are required to record the support and adaptations offered to the students as well as their progress for regular review to facilitate adjustment, where appropriate, of the level of support required. As such, the level of support of students with SEN may be adjusted upward or downward, and the need for providing an IEP may change, from time to time according to the performance and prevailing support needs of the students. Of the additional resources provided for public sector schools having students with SEN, the Learning Support Grant (LSG) is calculated according to the number of students with SEN requiring tier-2 or tier-3 support. Based on the LSG data, the distribution of public sector mainstream primary and secondary schools eligible for LSG by range of number of students with SEN requiring tier-2 and tier-3 support is set out in Appendix 1 and Appendix 2 respectively.

Schools should pool and deploy LSG and other school resources flexibly and holistically for employing additional teachers, teaching assistants or hiring professional services, etc. to render appropriate support services for all students with SEN based on their needs. The distribution of public sector mainstream primary and secondary schools by range of LSG allocated from the 2014/15 to 2016/17 school years is set out in Appendix 3.

Conceptually speaking, support services and programmes could be classified as preventive, remedial and developmental in nature, but such a classification is often not clear-cut in real practice. Depending on the needs of the students with SEN, the support services or programmes provided are often multi-functional and interrelated. Thus, it is not feasible to provide information on the resources spent in carrying out preventive services and programmes specifically.

Schools are encouraged to fully utilise, in the respective school year, the LSG provided every year to cater for the needs of their students with SEN. For schools which have accumulated a surplus in excess of 30% of the 12 months' provision of LSG at the end of the respective school year (for aided and caput schools) or financial year (for government schools), the excess surplus will be clawed back. To our understanding, individual schools had underspending leading to claw back at the end of a specific year due to some unexpected difficulties, e.g. time required for employment of additional staff longer than expected, early termination of contract by additional staff, difficulties in hiring of appropriate professional services, etc.

Based on the audited information as at March 2017, the amount of LSG clawed back at the end of the 2013/14 school year (aided and caput schools) and 2013-14 financial year (government schools), and 2014/15 school year (aided and caput schools) and 2014-15 financial year (government schools) was \$3.3 million and \$2.9 million respectively. As the amount to be clawed back from aided and caput schools for the 2015/16 school year will be confirmed only after the schools' submission of audited accounts by end of February 2017 and verification by EDB, we are unable to provide the amount for the 2015/16 school year and beyond. With our stepped-up efforts to monitor the utilisation of LSG by schools through providing schools with guidelines on the deployment of LSG and claw-back mechanism, conducting regular school visits to advise on the deployment of resources for SEN support, organising experience sharing activities among schools, and issuing reminders to individual schools concerned for making improvement should undesirable situation be detected, the surplus situation of LSG in schools has started to improve in the 2014/15 school year/ 2014-15 financial year.

Question:

The Government will provide Learning Support Grant for public sector primary and secondary schools to cover students with mental illness starting from the 2017/18 school year. In this connection, will the Government advise:

- (a) How many resources will be set aside in supporting students with mental illness? how many students are expected to be covered;
- (b) Will the teaching staffs be required to pursue the training courses in catering the students with mental illness; if yes, of the details and resource involved; and
- (c) How will the Government provide professional support and promote cross sector collaboration in helping the students with mental illness?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 51)

Reply:

(a) to (c)

Students with mental illness (MI) need support pertaining to their emotional and mental health needs which are generally transient in nature. Treatment to them by medical professionals such as psychiatrists and psychiatric nurses is of prime importance. Schools play a complementary role in providing concerted support with particular reference to the students' needs as advised by medical professionals. School professionals, including guidance personnel/teachers, school social workers and educational psychologists (EPs) have been providing support and guidance services for students with MI, including the arrangement of multidisciplinary case conferences with medical professionals when necessary. To enhance the support for students with MI, from the 2017/18 school year onwards, students concerned will be provided with Learning Support Grant (LSG) under which schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure on the provision of LSG for students with MI in the 2017-18 financial year is about \$30 million. Based on the data provided by the Hospital Authority (HA) on the patients aged 17 or below with related MI, it is estimated that about 2 000 students will benefit from the additional resources.

To support students with MI, the Food and Health Bureau, in collaboration with the Education Bureau (EDB), HA and the Social Welfare Department, launched a two-year pilot scheme named "Student Mental Health Support Scheme" based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based EPs, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

To enhance the professional capacity of teachers in catering for students with diverse needs, including students with MI, EDB has been providing serving teachers with relevant and structured training courses since the 2007/08 school year on supporting students with special educational needs pitched at Basic, Advanced and Thematic levels. Starting from the 2012/13 school year, the elective modules of the Advanced and Thematic Courses have included a module on behavioural, emotional and social development needs covering the knowledge and skills necessary for taking care of students with mental health needs. In the 2017/18 school year, EDB will launch another structured teacher professional development programme pitched at Elementary and In-depth levels on mental health promotion and supporting students with mental health needs.

Programme: (2) Pre-primary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Bureau will implement the new kindergarten (KG) Scheme with effect from the 2017/18 school year. In this connection, will the Administration advise:

- (a) the number of KG students will be benefited from the new KG Scheme, with a breakdown by half-day, whole-day and long whole-day services;
- (b) how many local non-profit-making KGs do not join the new KG Scheme; whether the Government knows the reasons; if yes, of the details; if no, of that reasons; how many of them will remain in Pre-primary Education Voucher Scheme?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 52)

Reply:

(a)

The estimated number of students under the Free Quality Kindergarten Education Scheme in the 2017/18 school year is 141 000. As the number of students enrolled in half-day, whole-day and long whole-day classes will be affected by various factors like distribution of various modes of services, parental choices on the modes of services and types of kindergartens, etc., we are unable to estimate the respective numbers of students at this stage.

(b)

As at end-November 2016, a total of 24 local non-profit-making kindergartens have not applied for joining the Free Quality Kindergarten Education Scheme (KG Scheme) in the 2017/18 school year, and 7 of them are participating in the Pre-primary Education Voucher Scheme (PEVS) in the 2016/17 school year. The eligible students admitted before the 2017/18 school year and remaining in the eligible classes under PEVS (i.e. eligible lower kindergarten (K2) and upper kindergarten (K3) classes in the 2017/18 and K3 classes in the 2018/19 school year) in these 7 kindergartens will continue to receive the voucher subsidy under PEVS until they leave the kindergartens concerned. In deciding whether to join the KG Scheme, these kindergartens have their school-based considerations with regard to their overall direction in school development.

- End -

**CONTROLLING OFFICER'S REPLY****EDB222****(Question Serial No. 0075)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (000) Operational Expenses

Programme: (2) Pre-primary Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

The new kindergarten (KG) Scheme will be in effect from the 2017/18 school year. In this regard, will the Government advise the following information:

- (a) of the number of kindergarten teachers and teacher assistants leaving their jobs as well as the average salary of kindergarten teachers and teacher assistants between 2014/15 and 2017/18 school years with a breakdown by different types and subsidized modes of kindergarten;
- (b) of the amount of operating expenditure of kindergartens between 2014/15 and 2017/18 school years with a breakdown by different types and subsidized modes of kindergarten;
- (c) given that some kindergartens participating in the PEVS were found to charge significant miscellaneous fees, whether the Government had measures to strengthen the monitoring mechanism, if yes, of the details, as well as manpower and resources involved; if no, of that reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 53)

Reply:

- (a) The Education Bureau (EDB) conducts annual questionnaire survey to collect information on kindergarten (KG) teachers in local KGs at mid-September of each school year. Since the questionnaire survey for the 2017/18 school year will only be conducted at mid-September 2017, only the figures from the 2014/15 to 2016/17 school years are available at this stage. The information on teaching assistants has not been collected.

From the 2014/15 to 2016/17 school years, the respective numbers of drop-out KG teachers in non-profit-making (NPM) KGs joining Pre-primary Education Voucher Scheme (PEVS), local NPM KGs not joining PEVS and local private independent (PI) KGs are tabulated below.

School Year	No. of drop-out KG teachers (Note 1)		
	Local NPM KGs		Local PI KGs
	Joining PEVS	Not Joining PEVS	
2014/15	799	61	208
2015/16	760	54	225
2016/17 (Note 2)	999	79	233

From the 2014/15 to 2016/17 school years, the respective average salaries of KG teachers in local NPM KGs joining PEVS, local NPM KGs not joining PEVS and local PI KGs are tabulated below.

School Year	Average salary of KG teachers		
	Local NPM KGs		Local PI KGs
	Joining PEVS	Not Joining PEVS	
2014/15	\$19,733	\$22,522	\$21,304
2015/16	\$21,176	\$23,269	\$22,738
2016/17 (Note 2)	\$22,574	\$24,065	\$23,821

Note 1: “Drop-out teachers” refers to the teachers who had served in a local KG as at mid-September of the preceding school year but no longer served in any KG as at mid-September of the school year concerned.

Note 2: The figures of the 2016/17 school year are provisional.

- (b) The types and subsidised modes of KGs can be broadly categorised as those joining PEVS and those not joining PEVS. All KGs under the PEVS are required to submit to the EDB their audited accounts, in which the operating expenses are shown, for scrutiny on a regular basis. Since the audited accounts for the 2015/16, 2016/17 and 2017/18 school years will only be submitted to EDB by early 2017, early 2018 and early 2019 respectively, only the figures for the 2014/15 school year are available at this stage.

The operating expenditure of the KGs under PEVS in the 2014/15 school year is \$4,666 million. Figures for KGs not under PEVS are not available.

- (c) To ensure PEVS KGs' compliance with the requirements in conducting trading operation, EDB has issued circular and guidelines to define clearly what constitute trading operations. We also requested KGs to report in their audited accounts in a separate "statement of profit/loss from trading activities", showing the income, expenses and profit margins of individual trading activities. KGs' awareness in this aspect has been raised such that they are able to classify their income from trading operations and report it properly in their audited accounts. This way, we can more easily identify cases where KGs make excessive profits (i.e. any profit for textbooks and/or profit exceeding 15% for school items other than textbooks) and follow up with the KGs concerned to rectify the irregularities in good time.

With the implementation of the Free Quality Kindergarten Education Scheme (“Scheme”), in addition to the above mentioned requirements, more stringent mechanism will be put in place in monitoring KGs approved to join the Scheme (Scheme-KGs) in conducting trading operation. Specifically, Scheme-KGs are required to include explicitly in their notices/circular letters the following statement: “Parents, please note that acquisition of any school items or services is entirely voluntary and parents can select individual items or services required according to their own needs.” Relevant check boxes should also be provided for respective school items so that parents can ‘tick’ as appropriate. In line with the current practice, all profit generated from trading operation must be ploughed back into KGs for use in school operation and provision of KG education services. Furthermore, to enhance transparency and help parents get a better understanding about the school items sold and paid services provided by the schools, Scheme-KGs are required to disclose the relevant information (including the fees charged and the list of items and services in the preceding school year) to parents on their school website. The “Profile of Kindergartens and Kindergarten-cum-Child Care Centres” published by EDB will list out the common items and services and other relevant information for parents’ easy reference.

The manpower and resources required for implementation of the strengthened measures will be absorbed within the overall provision of EDB.

- End -

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (000) Operational Expenses  
Programme: (3) Primary Education, (4) Secondary Education, (5) Special Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Bureau will provide a one-off grant to all public sector and Direct Subsidy schools for the promotion of understanding of Chinese history and culture. Whether the Government will provide guidelines to the schools in using the grant; if yes, of the details; if no, of that reasons; whether the one-off grant is able to achieve the objective of promoting the understanding of Chinese history and culture; if yes, of the details; if no, will the Government consider incorporating the one-off grant into Government's regular programme, if it found effective?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No. 54 )

Reply:

After the passage of the Appropriation Bill 2017, the Education Bureau would issue to schools some guidelines on the use of the one-off grant for the promotion of Chinese history and culture in the form of a Circular Memorandum.

In accordance with their school context and development needs, schools may flexibly deploy the grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources, supporting teachers to participate in interflow activities on learning and teaching in the Mainland and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. These measures are expected to help schools achieve the objective of promoting the understanding of Chinese history and culture.

**CONTROLLING OFFICER'S REPLY**

**EDB224**

**(Question Serial No. 0077)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

The Bureau allows the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant to be turned into regular teaching posts. In the connection, will the Government advise:

- (a) whether the teachers responsible for implementing life planning education are required to attain specified qualification; if yes, of the details;
- (b) how many teachers are employed by using the grants in last school year; how did the schools deploy the grant resource if they did not employ additional teachers in implementing the life planning education; and
- (c) whether it had mechanism to evaluate the effectiveness of the grants; if yes, of the details; if no, of that reasons?

Asked by: Hon SHEK Lai-him, Abraham (Member Question No.55)

Reply:

(a) The Education Bureau (EDB) provides training and support to enhance teachers' professional capacity in implementing life planning education (LPE). At present, almost all the schools (95%) have at least one teacher trained in LPE. Among them a majority (85%) has two trained teachers to co-ordinate life planning services for students.

(b) Schools may use the Senior Secondary Curriculum Support Grant (SSCSG) and the Career and Life Planning Grant (CLPG) flexibly for recruiting teachers or teaching assistants, and buying services, etc., to facilitate the implementation of the senior secondary curriculum and LPE. Besides, schools can flexibly deploy different grants within the appropriate ambit at the same time for employment of staff. Hence, we cannot provide the number of teachers employed under the two grants.

Based on the information collected from our surveys and school visits, it is noted that a predominant majority of schools (over 90%) used CLPG in acquiring additional manpower, such as additional teachers and teaching assistants. Most of the schools used the remaining balance of the grant, which is usually less than 20%, to hire school-based career-related services for students, procuring relevant teaching materials and financing students to attend related programmes or activities.

(c) Under the spirit of school-based management, schools are responsible for ensuring the effective use of the grants. They are required to keep a separate ledger account for each of the SSCSG and CLPG to record all the incomes and expenditures chargeable to the grants and submit annual audited accounts to EDB. They are also required to report details on their use in the school report. For CLPG, schools have to formulate work plans as well. Relevant information should be endorsed by schools' Incorporated Management Committee (IMC) / School Management Committee (SMC) and uploaded onto their homepage. EDB has also been keeping track of the development of LPE at schools through questionnaire surveys and advisory

school visits since its implementation in the 2014/15 school year. Based on our findings, CLPG has been properly utilised by schools to strengthen LPE services to students.

Director of Bureau: Secretary for Education

Question:

Regarding improving the quality of kindergarten education, would the Government advise this Committee:

- (a) what is the Government's plan to improve the quality of free kindergarten education so as to ensure that students will have joyful learning and balance development?
- (b) if some kindergartens do not follow the Kindergarten Education Curriculum Guide or their performance is not satisfactory in quality review, what follow-up actions will the Government take to ensure the kindergartens make improvements;
- (c) have the Government ever suspended a kindergarten from the Pre-primary Education Voucher Scheme (PEVS) on the ground that its quality is not satisfactory? If yes, please provide the details.
- (d) is there any plans to increase manpower and resources for the purpose of enhancing kindergartens' quality control and review mechanism; if yes, of the details; if no, of the reasons.

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 21)

Reply:

(a)  
Starting from the 2017/18 school year, the Government will implement the Free Quality Kindergarten (KG) Education Scheme (Scheme). Under the Scheme, the quality of KG education will be enhanced in various aspects including among others, raising the requirement in the teacher-pupil ratio from the current 1:15 (including the principal) to 1:11 (the principal excluded) so as to allow teachers more capacity to cater for the diverse needs of students, engage in curriculum development, lesson planning, professional development and communication with parents. Besides, the curriculum guide will be reviewed and Quality Assurance Framework will be refined.

In this connection, the curriculum guide has been reviewed with the "Kindergarten Education Curriculum Guide" (KGECEG) announced in February 2017. To promote pleasurable learning and balanced development of the students, the key emphases of the KGECEG include, among others, designing a school-based curriculum with reference to children's growth and development characteristics, adopting learning through play and free exploration in play as major learning activities to inculcate a love to learn among children, better catering for children's diversity as well as providing an ideal and inclusive learning environment. It is explicitly stated that children at Nursery classes must not be assigned writing exercises.

Pursuant to the launch of the curriculum, the Education Bureau (EDB) will organise briefing sessions for stakeholders of KGs, primary schools, school sponsoring bodies and tertiary institutions to deepen their

understanding of the KGECG. A series of professional development programmes will also be arranged for KG teachers to enhance their pedagogical skills. To enhance parents' understanding of KG education, EDB will also organise related briefing sessions, produce pamphlets and a series of parent education video clips.

On the other hand, KGs may also make use of the resources provided under the Scheme to enhance communication with parents concerning the learning of their children. Besides, EDB will publish the booklet "Helping Your Children of Kindergarten Age" with major themes on "How to help Your Children Grow Up Happily", "What is a Good KG", "Develop Children's Potential through Comprehensive and Pleasurable Learning Experiences", etc.. It will be distributed to parents through KGs upon their children's entrance to Nursery (K1) classes. Parents may contact teachers to understand more about their children's progress and seek help from teachers should there be any problem associated with the learning of their children.

(b)

KGs joining the Scheme are required to offer a curriculum in accordance with the KGECG. They are also subject to the Quality Assurance Framework. The existing Quality Assurance Framework for KGs comprises School Self-evaluation (SSE) and Quality Review (QR). Under the Scheme, the EDB will enhance the existing Quality Assurance Framework to further ensure the quality of KG education. We will refine the Performance Indicators (PIs) which form the basis of SSE and QR to tie in with the Scheme. KGs joining the Scheme (Scheme-KGs) are required to meet the prescribed standards by passing the QR. If the QR team finds malpractices, including those related to curriculum design and implementation under the Learning and Teaching Domain, EDB will request the KG concerned to stop the malpractices immediately. The QR team will provide oral feedback to the principal and teachers of the KG on recommendations for improvement at the end of QR, followed by a written QR report which will be uploaded on the EDB website for public information. The "Profile of Kindergartens and Kindergarten-cum-Child Care Centres" published by EDB will include a hyperlink to the QR report of the respective KGs to facilitate parents' easy access. Scheme-KGs failing to meet the prescribed standards in QR may submit an improvement plan and apply for Follow-up QR. For those failing to meet the prescribed standards in Follow-up QR, EDB will contemplate termination of their status as a Scheme-KG and cease the provision of government subsidy.

(c)

One KG was suspended from joining the PEVS because of its failure to meet the prescribed standards in QR.

(d)

Under the Scheme, EDB will enhance the existing Quality Assurance Framework to further ensure the quality of KG education. We will refine the Performance Indicators (PIs) which form the basis of SSE and QR to tie in with the Scheme. While EDB will continue to organise training activities to familiarise KGs with the Quality Assurance Framework and good practices of learning and teaching, we will involve an external independent member in the QR team as an external observer to enhance transparency. Besides, EDB will continue to make the QR reports available on the websites for public information. In addition to QR, EDB will conduct more frequent Focus Inspection (FI), which is another form of quality assurance measure in fostering KGs' continuous improvement in learning and teaching and in addressing areas of concerns. If deemed necessary, EDB will provide professional support to the KGs whose performance is not satisfactory. Besides, to further promote the sustainable development of KGs, EDB will identify good practices during QR and FI for dissemination. We will provide external independent members for QR with honoraria, and the relevant expenditure is estimated to be about \$0.2 million in 2017-18. All other assessment related tasks involved in the QR and FI are conducted by EDB officers and the relevant expenditure is subsumed in the overall expenditure of EDB. A breakdown of such expenditure is therefore not available.

Question:

It is mentioned in paragraph 148 of the Budget Speech that the Government will “regularise the Study Subsidy Scheme for Designated Professions/Sectors from the 2018/19 academic year to subsidise students to undertake designated self-financing undergraduate programmes. The number of subsidised places will increase from about 1 000 per cohort to 3 000.” In this connection, would the Government please advise this Committee,

- (a) of the institutions running these self-financing undergraduate programmes, the disciplines covered and programmes provided by them, the number of subsidised places offered and actual enrollment, the amount of annual subsidy per student, and the tuition fees payable after deducting the subsidy in the past 2 academic years;
- (b) of the mechanism to assess the effectiveness of the Scheme, and the reasons for regularising it; and
- (c) whether there is a plan to increase the number of publicly-funded undergraduate places; if so, of the details and the expenditure involved; if not, the reasons for that.

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 22)

Reply:

(a)

In order to nurture talent to meet Hong Kong’s social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the number of actual intakes, the annual subsidy amount per student, and the average tuition fee net of subsidy for each programme for the cohorts admitted in the 2015/16 and 2016/17 academic years are set out at **Annex**.

(b)

The Education Bureau conducted review of SSSDP by gauging views from the students admitted under SSSDP in the 2015/16 and 2016/17 academic years; the participating institutions; other self-financing

post-secondary education institutions; the Committee on Self-financing Post-secondary Education; the industry sector as well as policy bureaux. All stakeholders were generally supportive of continuing the scheme. As announced in the 2017 Policy Address, SSSDP will be regularised starting from the 2018/19 academic year, with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

(c)

The Government is committed to supporting the development of the publicly-funded and self-financing sectors, so as to provide young people with quality and diversified study pathways with multiple entry and exit points.

As far as the University Grants Committee (UGC)-funded sector is concerned, there has been a significant increase in the number of student places in recent years. During the 2012/13 to 2014/15 triennium, the Government has increased the number of UGC-funded first-year first-degree (FYFD) places and senior year undergraduate intake places to 15 000 and 4 000 per annum respectively. In the 2015/16 roll-over year and the 2016/17 to 2018/19 triennium, the Government is further increasing the number of UGC-funded senior year undergraduate intake places by another 1 000 per annum, so that 5 000 meritorious sub-degree graduates will have access to the last two years of a publicly-funded undergraduate education by the 2018/19 academic year. The combined additional recurrent expenditure arising from the above-mentioned initiatives amounts to \$1.736 billion per annum (calculated at the time of implementation).

Planning for the 2019/20 to 2021/22 triennium will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded FYFD and senior year undergraduate intake places to be offered in the next triennium.

**CONTROLLING OFFICER'S REPLY**

**EDB227**

**(Question Serial No. 2125)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

In respect of “continu(ing) to allow schools to turn the Senior Secondary Curriculum Support Grant and the Career and Life Planning Grant into regular teaching posts to enhance the implementation of the senior secondary curriculum and strengthen life planning education and related guidance services”, please advise this Committee of:

(a) the expected difference of the enhanced life planning education and related guidance services of this year from last year's. Please indicate which initiatives are new and whether any existing initiatives will be cancelled; if yes, please specify the reason.

(b) regarding life planning at the senior secondary level, the estimated increase in manpower and the positions to be filled. Please set out the expenditure on life planning education of each secondary school, including the expenditure on manpower and teaching resources, and the measures to assess the effectiveness of the implementation of life planning at the senior secondary level in 2016-17.

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 44)

Reply:

(a) In the 2016/17 school year, the Education Bureau (EDB) continues to provide a range of measures to strengthen the implementation of life planning education (LPE) at schools. Apart from the provision of the Career and Life Planning Grant (CLPG), which is equivalent to the mid-point salary of a graduate teaching post (about \$0.57 million in the 2016/17 school year), EDB provides training and support to enhance teachers' professional capacity in implementing LPE, such as increasing the number of structured teacher training places, organising seminars / workshops on specific themes and promoting professional exchanges among schools and teachers. School visits are also conducted to provide professional advice to schools to strengthen their LPE. Career exploration activities are provided to students through the Business-School Partnership Programme to enable students to acquire an early sense of the workplace. Information on further studies and career opportunities are disseminated on the webpage. In view of the positive feedback on work experience programmes, a large-scale “Work Experience Movement (WEM)” has been launched in the 2016/17 school year. As at February 2017, more than 200 enterprises / organisations have joined the movement, offering some 1 100 places of work experience activities for our secondary students. To strengthen professional development of teachers and provide career exploration activities on a district basis, we have also set up District Development Networks (DDN) in some districts in the 2016/17 school year and plan to expand DDNs to all districts in a few years' time.

(b) From the 2014/15 school year, CLPG is disbursed to all public sector schools operating classes at senior secondary levels. In line with school-based management, schools are responsible for ensuring the effective use of the grant. Schools are required to formulate work plans on using CLPG and report details on its use in the school report. Relevant information should be endorsed by schools' Incorporated Management Committee (IMC) / School Management Committee (SMC) and uploaded onto their homepage. Besides, schools can flexibly deploy different grants within the appropriate ambit at the same time together with the surpluses of the Expanded Operating Expenses Block Grant / Operating Expenses Block Grant to support the provision of necessary services for meeting students' needs. Starting from the 2016/17 school year, schools may turn CLPG into regular teaching posts to strengthen the manpower for the implementation of LPE and related guidance services. To facilitate schools' smooth transition and gainful deployment of the new teaching post, schools which have converted CLPG into regular teaching posts in the 2016/17 or 2017/18 school year are provided with the Transitional Career and Life Planning Grant, at the amount of \$100,000. A total of 165 schools have converted CLPG into regular teaching posts in the 2016/17 school year.

EDB has also been keeping track of the development of LPE at schools through questionnaire surveys and advisory school visits since its implementation in the 2014/15 school year. Based on the information collected from our surveys and school visits, it is noted that CLPG has been properly utilised by schools to strengthen LPE services to students. A predominant majority of schools (over 90%) used CLPG in acquiring additional manpower such as additional teachers and teaching assistants. Most of the schools used the remaining balance of the grant, which is usually less than 20%, to hire school-based career-related services for students, procuring relevant teaching materials and financing students to attend related programmes or activities. Consultancy service will be hired to conduct a comprehensive review on LPE in 2017.

**CONTROLLING OFFICER'S REPLY**

**EDB228**

**(Question Serial No. 2128)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

Some academics kept track of the data of the Hong Kong Examinations and Assessment Authority on the Territory-wide System Assessment (TSA), and discovered that the percentage of every cohort of students who failed to attain the TSA standards at Primary 3 but managed to do so at Primary 6 kept decreasing over the past 12 years. Meanwhile, the percentage of students who failed to attain the standards at both Primary 3 and Primary 6 has not noticeably improved over the years. They consider that the above data reflect the failure of TSA to provide feedback to teaching and learning. In this connection, would the Government advise this Committee of the following:

- (a) How the effectiveness of the Government's use of TSA data in formulating policies and allocating resources can be assessed?
- (b) How the effectiveness of schools' use of TSA data in providing feedback to teaching and learning can be assessed?
- (c) Is there any plan to convert TSA into an anonymous assessment in order to reduce drilling pressure on students?

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 23)

Reply:

(a) and (b)

Territory-wide System Assessment (TSA) has been effective in providing information at the system and school levels for the following purposes:

System Level

At the system level, TSA data helps the Government review education policies, provide resources and set directions of support measures and professional training, etc. Details are as follows:

### *Facilitating the review of education policies*

TSA data reflects the overall performance of Hong Kong students and its trends of changes in the subjects of Chinese Language, English Language and Mathematics. The Education Bureau (EDB) takes into account students' overall performance in TSA and different Basic Competencies in formulating the directions and priorities of education policies.

Through TSA data, EDB gauged the ability of lower and upper primary students in comprehending and summarising the main ideas of a passage. Therefore, EDB encourages schools to enhance the strategies for teaching of reading, and has set "reading to learn" as one of the four key tasks of the curriculum reform. For strengthening "reading to learn", a series of online resources have also been developed for primary and secondary schools' reference.

### *Setting directions and priorities of professional training*

EDB analyses TSA data to better understand the learning progress and teaching needs of Hong Kong students in the three subjects of Chinese Language, English Language and Mathematics, with a view to determining directions and priorities for professional training.

With the aim of improving language education at the pre-primary, primary and secondary levels, EDB has, by making reference to TSA data, sought an injection into the Language Fund to strengthen support for teachers and students at pre-primary and primary levels<sup>1</sup>.

### *Providing learning and teaching resources*

In the light of the learning difficulties reflected by students' performance in TSA, EDB conducts case studies and collects views of teachers through focus group meetings. The Web-based Learning and Teaching Support (WLTS), an online learning and teaching platform, was developed in 2003 to provide learning and teaching resource packages for teachers' use or reference. Relevant resources, including teaching plans, suggested learning activities, presentations on teaching practices, worksheets and assessment tasks, etc., enable teachers to help students acquire Basic Competencies in an effective manner. At present, there are more than 730 sets of learning and teaching resources for Primary 1 to Secondary 3 levels, covering nearly 70% of Basic Competencies for the three learning stages. It is expected that resource packages covering all Basic Competencies will be available by 2019 for teachers' reference and use.

### *Planning school-based support services*

Curriculum, learning and teaching, and assessment are interrelated. EDB has been providing school-based support services to schools. Support officers would make use of the assessment data provided by schools, including student assignments, test and examination results and performance in TSA to understand the learning progress of students, and collaborate with schools' teaching staff to plan the curriculum, design appropriate teaching strategies and use various assessment methods through lesson preparation meetings and the Evaluation-Planning-Implementation-Evaluation (EPIE) process, in order to provide effective feedback for students. In the 2014/15 school year, about 360 primary schools in the territory were provided with the school-based support services, among which about 280 primary schools were provided with support services in relation to the subjects of Chinese Language, English Language and Mathematics. Schools can consider their school-based development needs in applying for individual support services.

---

<sup>1</sup> Support measures for teachers include:

- (i) sponsoring local serving teachers of the English Language subject at primary schools to attend overseas immersion courses lasting four to eight weeks or more;
- (ii) sponsoring primary school teachers to attend intensive courses focused on specific aspects of the learning and teaching of the language subjects, such as grammar/phonics in context; and
- (iii) providing professional development programmes for teachers of pre-primary school teachers.

### *Reviewing the curriculum*

TSA data is a source of reference for curriculum review. Take the Basic Competency of ‘using “gram” (g) or “kilogram” (kg) as the unit to measure or compare the weight of objects and using “hour” and “minute”, “minute” and “second” or “second” to measure the time used in activities’ in Mathematics as an example. Taking into account the average TSA performance of students in this aspect as well as the views of frontline teachers collected in focus group interviews on reasons for students not being able to grasp the content, EDB and the Curriculum Development Council Committee on Mathematics Education propose an adjustment in the sequence of related topics when reviewing the Mathematics curriculum at primary levels, suggesting that students could be exposed to this topic after accumulating more related learning experience. The related recommendation has been included in the latest proposed revisions to the Mathematics Education Key Learning Area Curriculum Guide (Primary 1 – Secondary 6). Subject to the approval of the Curriculum Development Council, the Guide is expected to be published in 2017.

### *Using related data for further analysis*

The Hong Kong Examinations and Assessment Authority (HKEAA) reports on the research findings of the cohort study for the same group of students in the annual TSA report. HKEAA also conducts further analysis on areas of unsatisfactory performance by students, with a view to formulating and providing adequate support.

### School Level

At the school level, TSA school reports are provided. On top of the overall students’ attainment rates of a school in Chinese Language, English Language and Mathematics (starting from 2014, individual primary schools are no longer provided with the attainment rates), the school reports provide item analysis and other supplementary data, including the percentage of students who have answered each item correctly and the performance of students in questions related to the respective Basic Competency.

Related information helps teachers identify the strengths and weaknesses of students in an overall manner and formulate plans to improve the effectiveness of learning and teaching with reference to the assessment data and their schools’ development needs. After analysing students’ performance in TSA, schools will generally follow up through various measures, such as adjusting the teaching content, improving the design of assignments/assessments, arranging after-school remedial programmes to cater for learner diversity, etc. Related follow up measures addressing the competencies of students participating in TSA can be implemented after students are promoted to another level, and can address the learning needs of students of different classes with a view to building a solid foundation for the students’ grasp of Basic Competencies in the three subjects of Chinese Language, English Language and Mathematics.

According to the cohort studies conducted by HKEAA, the percentage of students achieving Basic Competency in Chinese Language, English Language and Mathematics at Primary 3 respectively is on a continuous upward trend. Details are shown at Annex. This reflects that TSA data is serving the function of providing school level feedback at lower primary levels, facilitating schools in enhancing teaching strategies, curriculum planning and teaching activities from Primary 1 to Primary 3 that brings about a continuous increase in number of students who attain Basic Competency at Primary 3 level.

(c) TSA does not provide information which identifies students and individual students’ performance in both school and system level reports. Hence, TSA is a low-stakes assessment and provides no incentive for drilling of students.

# Due to Human Swine Influenza causing the suspension of primary schools, the Territory-wide System Assessment was cancelled and no data has been provided.

^ The P.6 Territory-wide System Assessment was suspended in 2012 and 2014. Since 2015, the P.6 Territory-wide System Assessment has been implemented in odd-numbered years. School participation has been on a voluntary basis in even-numbered years. Since participation in this assessment was on a voluntary basis and not all P.6 students were involved, no territory-wide data is provided in this report.

Δ The 2016 P.3 Territory-wide System Assessment was conducted as part of the Tryout Study. The Basic Competency attainment rates of the Chinese Language, English Language and Mathematics subjects were calculated using the data from some 50 participating schools.

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (8) Policy and Support  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education

Question:

In face of the rising trend of student suicides, does the Government have any plans to increase resources and manpower to provide support for schools and students? Are there any plans to review and improve the education system comprehensively to achieve the education targets of “breaking down barriers and creating room for all” as suggested in the “Reform Proposals for the Education System in Hong Kong” in 2000 so as to “enable students to enjoy learning, enhance their effectiveness in communication, develop their independent, critical and creative thinking, as well as a sense of commitment to society”.

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 24)

Reply:

With the recommendations of the Committee on Prevention of Student Suicides, starting from the 2016/17 school year, the Education Bureau (EDB), in collaboration with relevant bureaux and department, has put forward various measures to enhance support for schools to take care of students in need, which are directed at three levels, namely “Universal”, “Selective” and “Indicated”. Universal prevention strategies are designed to reach all students aiming to strengthen protective factors. Selective prevention strategies target vulnerable students. Indicated prevention strategies target students with suicidal risk.

At the Universal level, the Joyful@School Campaign has been launched in schools jointly by the Department of Health and EDB with an aim to enhancing students’ knowledge and understanding about mental health and their competency in coping with environmental changes. Schools can submit applications to the Quality Education Fund through the simplified application mechanism for funding not exceeding \$150,000 to implement related activities under the Campaign.

At the Selective level, EDB will conduct professional development programmes for teachers, which include elementary training for teachers at large and in-depth training for designated teachers, as well as develop screening tools and materials, to raise their awareness on mental health and help them early detect and support students with mental health needs including those with suicidal risks. Subsidy for supply teachers will be offered to schools as appropriate.

At the Indicated level, as announced in the 2017 Policy Address, starting from the 2017/18 school year, the Learning Support Grant that EDB provides for public sector mainstream primary and secondary schools will cover students with mental illness so that schools will have additional resources to provide appropriate services, such as arranging for counselling and emotional support, etc. The estimated expenditure in the 2017-18 financial year is about \$30 million. In addition, the Food and Health Bureau, in collaboration with EDB, the Hospital Authority (HA) and the Social Welfare Department launched a two-year pilot scheme “Student Mental Health Support Scheme” based on a medical-educational-social collaboration model in 17 schools by two phases from the 2016/17 school year to the 2017/18 school year. Under the pilot scheme, a

multi-disciplinary team is formed in each school comprising a psychiatric nurse of HA, designated teacher(s) and a school social worker as the core members to work closely with the psychiatric teams of HA, the school-based educational psychologists, relevant teachers and social workers from relevant social service units for the provision of support services to students with mental health needs and their carers.

EDB works alongside the Curriculum Development Council in reviewing on an ongoing basis the primary and secondary curricula to explore ways of catering better for learner diversity and creating more space for students to achieve their whole-person development. Schools are also advised to regulate the amount of homework given to students each day so as to ensure that they would have enough time to rest, play and develop their own interests.

Moreover, EDB has been reviewing the relevant domains of the education system with a view to supporting and addressing the developmental and diverse needs of students. EDB continues to encourage and support schools in implementing the suggestions made in the review of the New Academic Structure, so as to support the diverse learning needs of schools and students. Measures include: increasing the flexibility in deploying lesson time, trimming, enhancing or updating curriculum contents and assessment arrangements, clarifying the breadth and depth of subject curricula; implementing School-based Assessment in fewer subjects and improving its implementation to reduce student and teacher workload, arranging accreditation of more Applied Learning courses under the Qualifications Framework and increasing opportunities for Industrial Attachment, and encouraging students interested in vocational training or joining the workforce to study two Applied Learning courses, etc.

As announced in the 2017 Policy Address, there will be various measures to provide multiple pathways and further study opportunities for young people so that they can develop according to their capacities and interests. The measures include launching a vocational English programme with the support from the Language Fund for senior secondary students who aspire to pursue vocational and professional education and training or who are prepared to work, with a view to enhancing their English proficiency and enabling them to obtain relevant qualifications from recognised courses for further studies and employment. The Government decides to regularise the Study Subsidy Scheme for Designated Professions/Sectors after the pilot run, making it a recurrent initiative from the 2018/19 academic year onwards and the number of subsidised degree places would be increased. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year.

Question:

Regarding the improvement of the learning and teaching of the English Language in primary schools, would the Administration advise this Committee of the following:

- (a) What were the measures and expenditures for improving the learning and teaching of the English Language in primary schools in the past 3 years?
- (b) How many measures were implemented in the past 3 years to enhance the oral and written proficiency in the English Language? What were the details and the expenditures involved?
- (c) Will there be an increase in expenditure for enhancing the oral and written proficiency of primary school students? If yes, what are the details? If no, what are the reasons?

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 57)

Reply:

(a) & (b)

In the past three years, we have been implementing various measures for improving the learning and teaching of English Language in primary schools, including oral and written proficiency in English. The expenditure for the purpose totalled \$396.04 million (of which \$29.4 million is from Language Fund) in 2014-15 financial year and \$411.45 million (of which \$25.47 million is from Language Fund) in 2015-16 financial year. In the 2016-17 financial year, the provision for the measures totalled \$446.37 million (of which \$33.46 million is from Language Fund). Details of the support measures are tabulated as below:

No.	Name of Project	Details
A. Grants to schools		
*1.	English Enhancement Grant Scheme for Primary Schools	To facilitate schools to adopt school-based measures to strengthen and enhance the learning and teaching of English.
2.	English Extensive Reading Scheme	To provide grants for schools to procure English reading materials, including library books, journals and multi-media reading materials. The grant has been subsumed under the Expanded Operating Expenses Block Grant w.e.f. the 2016/17 school year.

No.	Name of Project	Details
<b>B. School-based support</b>		
*1.	Task Force on Language Support	To provide school-based support to schools to help them implement the curriculum reform through enhancing their professional knowledge and improving their teaching skills. The Task Force provides a wide range of language support services for both primary and secondary schools in the areas of English and Chinese Language (and Putonghua).
<b>C. Professional development</b>		
*1.	Professional Development Incentive Grant Scheme for language teachers	To encourage serving language teachers who joined the profession before the 2004/05 school year to upgrade their professional qualifications in English Language.
**2.	Scholarship Scheme to attract talents to become English Language teachers	To attract persons proficient in English to pursue relevant Bachelor degree programmes and/or teacher training programmes in local higher education institutions which will qualify them to become English Language teachers. Awardees of the Scholarship have to undertake to teach in primary or secondary day schools in Hong Kong for one year or three years upon graduation, depending on the type of programmes pursued.
3.	Professional development programmes	To conduct a range of professional development programmes, including self-run and commissioned ones, to help schools implement the English Language curriculum more effectively.
4	Resource packages for teachers	To enhance teachers' professional knowledge and skills and to provide suggestions on specific areas of learning and teaching.
<b>D. Creating a facilitating environment for English learning</b>		
1.	The Native-speaking English Teacher (NET) Scheme in Primary Schools (PNET Scheme)	NETs collaborate with local English teachers to provide a rich and authentic language environment for students in public sector primary schools to learn and use English. To enhance students' literacy experience, a range of language activities, such as debating, drama, digital storytelling and puppetry, is developed and promoted through the collaboration between NETs, local English teachers and support officers from EDB. In general, an eligible public sector primary school operating six or more classes is provided with a NET.
*2.	English Alliance	To raise interest of the school community in the learning and use of English through a series of fun and enjoyable reading activities.
*3.	Sponsorship Projects	To engage community partners in organising language-related events/competitions in the community.

\* Initiatives funded by Language Fund

\*\* Initiative is funded out of Head 173 Student Financial Assistance Agency

- (c) The existing English Language curriculum framework allows space and flexibility for schools to provide a variety of activities to enhance students' learning motivation and develop the integrative use of the four language skills of listening, speaking, reading and writing. In the coming years, the Education Bureau will continue to provide adequate resources within its recurrent expenditure for the implementation of various support measures to enhance learning and teaching effectiveness and students' English ability. The resources are allocated for conducting in-service professional development programmes, developing learning and teaching resources, strengthening the English environment in schools, providing on-site school-based support services and implementing the Native-speaking English Teacher (NET) Scheme.

**CONTROLLING OFFICER'S REPLY**

**EDB231**

**(Question Serial No. 2137 )**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (4) Secondary Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Government plans to provide a one-off grant at \$150,000 each to all public sector and Direct Subsidy Scheme schools for the promotion of understanding of Chinese history and culture. What are the proposed usage, monitoring mechanism and expected effectiveness of the grant? Has the Government considered regularising the grant?

Asked by: Hon TIEN Puk-sun, Michael (Member Question No.60)

Reply:

To promote Chinese history and culture, the Education Bureau (EDB) will provide a one-off grant of \$100,000 and \$150,000 respectively to each public sector and Direct Subsidy Scheme (DSS) primary and secondary school (including special schools), totalling about \$125 million, to help teachers enhance the teaching of General Studies in primary schools as well as Chinese Language, Chinese History and Chinese Literature in primary and secondary schools, so as to enable students to admire and inherit the spirit of excellence and the civilisation of the Chinese people.

In accordance with their school context and development needs, schools may flexibly deploy the one-off grant to support teachers to improve their teaching, and develop school-based activities that are related to Chinese history and culture education. Measures could include producing high quality electronic or other relevant learning and teaching resources; supporting teachers to participate in interflow activities on learning and teaching in the Mainland; and organising joint school activities or competitions between local schools or between schools in Hong Kong and the Mainland to promote interchange and dissemination of good practices. After the passage of the Appropriation Bill 2017, EDB would issue to schools some guidelines on the use of the one-off grant in the form of a Circular Memorandum.

In line with the principle of school-based management, schools would report the details of the programmes/activities covered by the one-off grant, including the nature of the activities, the amount of fund used, students' participation rate, and the evaluation results, to their Incorporated Management Committee/School Management Committee for endorsement. Schools are also required to comply with the guidelines promulgated by EDB when using the grant, and have to set out the income and expenditure in its audited accounts to be submitted to EDB annually. It is expected that the grant could facilitate schools in their planning and organising of more programmes/activities for the promotion of Chinese history and culture education. The one-off grant is for schools' use until the end of 2019/2020 school year. On an on-going basis, EDB will collect schools' feedback on the grant through various channels, including focus group meetings and curriculum development visits to gauge the effectiveness of the grant. The Government will also study how schools utilise the grant before examining whether there is any need to incorporate it into the regular programme.

Director of Bureau: Secretary for Education  
Question:

It is mentioned in paragraph 166 of the Budget Speech that the Government will increase the allocation for regular school repairs by nine per cent to \$1.2 billion. Recognising their special designs, it will also earmark sufficient resources for retrofitting 26 “matchbox-style school premises”. In this connection, would the Government please advise this Committee of the following:

- (a) The exact location of each “matchbox-style school premise”, as well as the districts where they are located and the age of these premises;
- (b) Please set out in a table the details of the repair works for each “matchbox-style school premise” and the expenditure involved;
- (c) Does the Government plan to give priority to schools with “matchbox-style school premises” when allocating vacant school premises? If yes, what are the details? If no, what are the reasons?

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 45)

Reply:

(a) The so-called “matchbox-style school premises” refer to those cuboidal shaped premises constructed between mid-1960s and 1980 at public housing estates for primary school use. At present, there are 28 public sector primary schools operating in such premises and two of them have been allocated with new school premises for reprovisioning.

In response to the request made by the Legislative Council Panel on Education (the Panel) in March 2016, we have consulted the 28 schools concerned on whether they would agree to our releasing their school information to the Panel. Of the 28 schools concerned, 26 schools have sent in their replies. 23 of them have no objection to the release of their school information to the Panel while three schools do not agree so. The information related to the 23 schools which have given their consent is set out in the Annex. Among the remaining five schools, two are located in Kwun Tong, two in Tsuen Wan and one in Kwai Tsing, and all these school premises were built 41-50 years ago.

(b) In light of the discussion and consensus reached by EDB, the Panel and the sector at the tripartite meetings held in 2016, the Chief Executive announced in his Policy Address on 18 January 2017 the initiative to improve the facilities of 26 “matchbox-style school premises” with regard to the unique design features of such premises. We have briefed Members of the Panel at its meeting of 13 February 2017 on the related arrangement, including five proposed improvement measures in relation to the common problems arising from the unique design features of these school premises, as well as exploration of potential scope for campus

expansion and technically feasible means for better utilising the existing space.

The Government will allocate additional resources to take forward the aforementioned improvement scheme. Given that the conditions and needs of the 26 primary school premises vary, the corresponding scope and in turn costs and duration of the works for individual schools would also differ. EDB and our consultants are scheduling meetings with individual schools for in-depth discussions regarding the details of the improvement arrangements, including the works items to cover, priority of such works items and the works programme, in order to finalise the particulars of the works project for individual schools as soon as possible and to commence the improvement works concerned during the 2017 summer break. The total amount of funding required and the cash flow will only be available at a later stage.

(c) For reprovisioning of existing schools to new school premises built on reserved school sites or vacant school premises (VSP) which are suitable for this purpose, allocation is generally done through open and competitive bidding under the School Allocation Exercises (SAE). EDB launches SAE from time to time and all eligible school sponsoring bodies in the territory may submit applications for reprovisioning existing schools under their sponsorship. The applications will be assessed by the School Allocation Committee (the Committee), which comprises both official and non-official members. While quality of education is the prime consideration, the Committee will also take into account factors such as the operation track record of the school sponsoring body, the school plan after relocation, etc. Condition of the existing school premises is one of the major factors of consideration for reprovisioning cases.

We have reviewed the VSP and reserved school sites under EDB and shortlisted those which could potentially be allocated for the purpose of reprovisioning or physical extension of existing schools through SAE in 2017. While suitable new sites or VSP available for such purpose are limited in number and are not found in all the districts where “matchbox-style school premises” are situated, EDB will expedite the relevant allocation process through the existing school allocation mechanism. Schools may take into account their school-based considerations and consider if they would like to apply for the sites/premises concerned.

Question:

- (a) Please provide the number of non-Chinese speaking (NCS) students by grade in kindergartens, primary schools, secondary schools and tertiary institutions from the 2014/15 to 2016/17 school years in Hong Kong.
- (b) Please provide the number and names of designated schools receiving intensive support by the Education Bureau (EDB) to cater for the needs of NCS students, the number of these students by grade, the amount of provision received, the student unit cost and their percentage share in the total number of NCS students in Hong Kong, as well as details on the allocation of education resources from the 2014/15 to 2016/17 school years.
- (c) Please provide the number of NCS students by grade and the student unit cost in non-designated schools, as well as their percentage share in the total number of NCS students in Hong Kong from the 2014/15 to 2016/17 school years.
- (d) Please provide details of measures by and funding from EDB for educational support for NCS students and the funding for the respective schools from the 2014/15 to 2016/17 school years.
- (e) Please compare the various types of educational support and relevant funding provided by the Administration for NCS students between designated schools and non-designated schools from the 2014/15 to 2016/17 school years.
- (f) Will the Administration review the effectiveness of the education for NCS students? Will it consider further increasing the number of designated schools?

Asked by: Hon TIEN Puk-sun, Michael (Member Question No. 46)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of non-Chinese speaking (NCS) students by level and by grade from the 2014/15 to 2016/17 school years is tabulated at Annex A.
- (b) Starting from the 2006/07 school year, schools admitting a critical mass of NCS students, having experience in taking care of NCS students, ready to partner with the Education Bureau (EDB) to develop school-based support measures and share experience with other schools have been provided with special grant which has been turned into additional recurrent funding ranging from \$300,000 to \$600,000 since the 2008/09 school year as well as professional support to develop school-based support programmes

specifically arranged for NCS students to further help their NCS students in learning and integration. Through the sharing of these schools with other schools admitting NCS students via the school support network that EDB has formed, all NCS students will benefit. This mode of support is generally known as the so-called “designated schools” system. To remove the misconception arising from the “designated school” label which is in fact a misnomer and to raise schools’ awareness to support NCS students’ learning of the Chinese language, the funding arrangement has been revised with effect from the 2013/14 school year under which all schools admitting 10 or more NCS students have been provided with additional recurrent funding ranging from \$300,000 to \$600,000 per year, depending on the number of NCS students admitted, to enhance the support for learning of the Chinese language of NCS students. Starting from the 2014/15 school year, the funding support has been enhanced to facilitate schools’ implementation of the “Chinese Language Curriculum Second Language Learning Framework” and the creation of an inclusive learning environment in schools. All schools admitting 10 or more NCS students have been provided with an additional recurrent funding ranging from \$800,000 to \$1,500,000 per year, depending on the number of NCS students admitted.

A total of 173, 197 and 216 schools are provided with additional recurrent funding in the 2014/15, 2015/16 and 2016/17 school years respectively to enhance the support for learning of the Chinese language of NCS students. Similar to the provision of additional resources to support students with different needs such as students with special educational needs, academically low achievers, etc., it is the established practice that we do not disclose the name and situation of each of individual schools particularly when the additional funding support is applicable to all public sector schools meeting the threshold so as to avoid unnecessary misconception and possible labelling on individual schools that we intend to remove by abolition of the so-called “designated schools” system from the 2013/14 school year. As reference, the number of NCS students by grade in schools provided with the additional recurrent funding from the 2014/15 to 2016/17 school years is tabulated at [Annex B](#). The percentage of NCS students in these schools among all NCS students in public sector and Direct Subsidy Scheme (DSS) schools excluding special schools in Hong Kong in the 2014/15, 2015/16 and 2016/17 school years is 92.5%, 92.7% and 93.3% respectively.

- (c) As mentioned in (b) above, the so-called “designated schools” system has been abolished since the 2013/14 school year. According to the information collected through the Student Enrolment Survey, the number of NCS students by grade in schools other than those provided with additional recurrent funding as mentioned in (b) above from the 2014/15 to 2016/17 school years is tabulated at [Annex C](#). The percentage share of NCS students in these schools among all NCS students in public sector and DSS schools excluding special schools in Hong Kong in the 2014/15, 2015/16 and 2016/17 school years is 7.5%, 7.3% and 6.7% respectively.
- (d) The educational support measures for NCS students, including the additional recurrent funding for schools admitting NCS students, from the 2014/15 to 2016/17 school years and the expenditure are tabulated at [Annex D](#).
- (e) As mentioned in (b) above, the so-called “designated schools” system has been abolished since the 2013/14 school year.
- (f) EDB has, based on the research framework drawn up in light of the advice of research and language experts, been collecting and analysing data to evaluate the effectiveness of the support measures for NCS students (including the “Learning Framework”) and will refine them as appropriate.

Notes:

1. These measures are provided by different sections of the Education Bureau (EDB) and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including University-School Support Programme (USP) projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.
2. For the 2-year USP project from the 2015/16 to 2016/17 school years, the actual expenditure of the 2015/16 school year is \$2.25 million and the estimated expenditure of the 2016/17 and 2017/18 school years is \$5.85 million and \$0.9 million respectively. As this USP project is provided for both kindergartens and primary schools, a breakdown of expenditure for kindergartens and primary schools is not available.

**CONTROLLING OFFICER'S REPLY**

**EDB234**

**(Question Serial No. 1710)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not Specified  
Programme: (6) Other Educational Services and Subsidies  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Regarding the educational support for non-Chinese speaking students, please provide:

- (a) the number of students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2016/17;
- (b) the number of ethnic minority students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2016/17 disaggregated by ethnicity;
- (c) the number of non-Chinese speaking students in each of the grade level from K1 to S6 in public schools (including Direct Subsidy Scheme Schools) in the school year 2016/17 disaggregated by their home language;
- (d) the number of students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2016/17;
- (e) the number of ethnic minority students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2016/17 disaggregated by ethnicity; and
- (f) the number of non-Chinese speaking students in each of the UGC-funded institutions and self-financing post-secondary institutions in the school year 2016/17 disaggregated by their home language.

Asked by: Hon TO Kun-sun, James (Member Question No. 57)

Reply:

- (a) According to the information collected through the annual Student Enrolment Survey, the number of students by level and by grade studying in kindergartens, public sector and Direct Subsidy Scheme (DSS) primary and secondary schools in the 2016/17 school year is tabulated at Annex A.
- (b) & (c) The number of ethnic minority students studying at different grade levels in kindergartens and the number of non-Chinese speaking (NCS) ethnic minority students studying at different grade levels in public sector and DSS primary and secondary schools in the 2016/17 school year are tabulated at Annex B. The number of NCS students by level and by grade studying in kindergartens, public sector and DSS primary and secondary schools in the 2016/17 school year is tabulated at Annex C. The data provided in Annex B and Annex C are not comparable since definition of NCS students is based on the language spoken at home instead of the ethnicity of the students.

- (d) As regards the University Grants Committee (UGC)-funded sector, the number of local students enrolled in full-time post-secondary programmes is 75 708 (provisional) in the 2016/17 academic year. A breakdown by level of study (i.e. sub-degree and undergraduate) and by university is at Annex D. In tandem, a total of 74 751 students (provisional) are enrolled in full-time locally-accredited self-financing post-secondary programmes in the 2016/17 academic year. A breakdown by level of study and by institution is at Annex E.
- (e) & (f) Admission to post-secondary programmes (including sub-degree and undergraduate programmes offered by UGC-funded universities and self-financing institutions) is offered to eligible applicants, irrespective of their race and language spoken at home. The total number of local NCS students (i.e. students whose ethnicity and / or spoken language at home is not Chinese) admitted to the UGC-funded full-time post-secondary programmes is 295 (provisional) in the 2016/17 academic year. However, statistics with breakdown by NCS students are not available for the self-financing sector.

**CONTROLLING OFFICER'S REPLY****EDB235****(Question Serial No. 1713)**

Head: (156) Government Secretariat: Education Bureau

Subhead (No. & title): (-) Not specified

Programme: (7) Post-secondary, Vocational and Professional Education

Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)

Director of Bureau: Secretary for Education

Question:

Regarding the Vocational Training education, please provide: -

(a) the number of ethnic minority students and the percentage of resources used by ethnic minority students in each institutions of the Vocational Training Council in the school year 2015/16 and 2016/17 disaggregated by ethnicity;

(b) the number of ethnic minority students enrolled in each programme (both dedicated and non-dedicated to NCS students) in the Vocational Training Council in the school year 2015/16 and 2016/17 disaggregated by ethnicity.

Asked by: Hon TO Kun-sun, James (Member Question No. 58)

Reply:

In the 2015/16 academic year (AY), there were a total of 1 048 non-Chinese speaking (NCS) students enrolled in programmes (both dedicated and non-dedicated to NCS students) of the Vocational Training Council (VTC). As the applicants are not required to provide information about their ethnicity for programmes of short duration, a breakdown of all NCS students disaggregated by ethnicity in each institution and in each programme is not available. Based on the available information, a breakdown of the NCS students by major ethnicity group is given below:-

<b>Ethnicity</b>	<b>No. of Students (Note 2)</b>
Pakistani	113
Nepalese	97
Filipino	76
Indian	45
Thai	12
Mixed and Others (Note 1)	70

Note 1: Others include White, Indonesian, Korean, Japanese, Vietnamese, Sri Lankan, etc.

Note 2: Include only the NCS students who are requested to provide information of their ethnicity in the respective programmes.

It is estimated that there will be about 940 NCS students studying in VTC in the 2016/17 AY as student admission is still going on due to staggered intake of some programmes.

The numbers of local NCS students from the 2012/13 to 2016/17 AY by type of programmes are set out below –

Type of Programme	2012/13 AY	2013/14 AY	2014/15 AY	2015/16 AY	2016/17AY (Provisional)
Degree	Breakdown by type of programme is not available	7	13	23	36
Higher Diploma		89	124	153	178
Diploma of Foundation Studies/Foundation Diploma		74	155	151	162
Diploma/Certificate of Vocational Education		51	61	86	86

NCS students of VTC's pre-employment programmes enjoy various support services to help them better cope with study and adapt to campus life. These services include academic and learning support, such as student orientations, additional tutorial classes, counseling and coaching, peer support through the peer mentorship scheme and various student activities for promoting a culture of inclusion and integration with the community as well as advisory support for articulation and career development. Separate breakdown of resources deployed to support services for NCS students is not available.

**CONTROLLING OFFICER'S REPLY**

**EDB236**

**(Question Serial No. 2485)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The expenditure under the Education Bureau Programme "Post-secondary, Vocational and Professional Education" in the 2017-18 financial year has shown an increase of \$489.8 million from the year before. What share of the additional expenditure will be used to subsidise needy associate degree and bachelor's degree students to participate in exchange programmes?

Comparing with the 2016-17 financial year, what is the increase in expenditure for subsidising needy students to participate in exchange programmes? What mechanism has the Government put in place to ensure the quality of these exchange programmes? Has the Government reviewed the effectiveness of the subsidy programme?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 26)

Reply:

To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau (EDB) has introduced a Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015. The SSE aims to provide local students enrolling in full-time locally accredited sub-degree or undergraduate programmes with means-tested grant so as to encourage their participation in exchange programmes outside Hong Kong.

EDB had conducted a review on the effectiveness of the SSE in early 2016 and had extended its scope to cover exchange activities of shorter duration starting from July 2016. Besides, the ceiling of subsidy per student has been raised from HK\$15,000 to HK\$60,000 to support needy students participating in exchange activities held at farther destinations and of longer duration. Further, in order to capitalise on the new opportunities created by the "Belt and Road" initiatives, further to SSE, the Scheme for Subsidy on Exchange to "Belt and Road" Regions for Post-secondary Students (SSEBR), was introduced in July 2016 to encourage and support local students in need to go on exchanges in the "Belt and Road" regions. Each eligible student can apply for subsidies under the scheme twice capped at HK\$53,000 in total.

In the first subsidised period covering January 2015 to August 2016, around HK\$27 million was granted in subsidies to about 2 138 students. The amount of subsidies depends on the number of needy students going on exchange and their destinations. With the enhancements mentioned above, we envisage that the expenditure will increase and more needy students will be benefited in the second subsidised period covering September 2016 to August 2017.

To ensure the quality of these exchange programmes, participating institutions are required to comply with the requirements as set out in the Operating Guides of the SSE and SSEBR. Institutions should submit

annual reports on the operation of SSE and SSEBR to EDB for each subsidised period. Auditors of the institutions are also required to cover in their annual assurance reports to EDB as to whether the terms and conditions for the use of funding under SSE and SSEBR as set out in the Operating Guides have been duly complied with by the institutions. EDB is entitled to withdraw the funding, withhold payment and require the institutions to immediately return the allocated funding partially or in full at its discretion, in the event that there is a failure to comply with any of the requirements stipulated in the Operating Guides.

Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

Under the policy on post-secondary, vocational and professional education, the Education Bureau will provide subsidy for needy post-secondary students studying in full-time undergraduate and sub-degree programmes to participate in exchange programmes. What criteria are adopted to define “needy” students?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 25)

Reply:

To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau has introduced a Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015. In order to capitalise on the new opportunities created by the “Belt and Road” initiatives, further to SSE, the Scheme for Subsidy on Exchange to “Belt and Road” Regions for Post-secondary Students (SSEBR) was introduced in July 2016 to encourage and support local students in need to go on exchanges in the “Belt and Road” regions.

The target recipients of the SSE and SSEBR are students enrolled in full-time locally-accredited sub-degree or undergraduate programmes of participating institutions, who are in receipt of means-tested student financial assistance from Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency or whose families are in receipt of the Comprehensive Social Security Assistance. Eligible students can receive subsidy for participating in an exchange activity. The subsidy amount varies according to the destination and duration of the exchange activity and to be discounted by his/her level of student finance approved by SFO throughout his/her study at the same level.

Question:

How many needy post-secondary students studying in undergraduate or sub-degree programmes were subsidised by the Government to participate in overseas exchange programmes in each of the past 3 financial years?

Would the Government set out, in tabular form, the number of students participating in exchange programmes by tertiary institution?

What is the amount of subsidy involved?

What is the rate of increase of the expenditure and what are the reasons?

Which countries and places are covered by the exchange programmes?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 27)

Reply:

To ensure that no post-secondary students will be denied access to exchange activities due to a lack of financial means, the Education Bureau has introduced a Scheme for Subsidy on Exchange for Post-secondary Students (SSE) since January 2015. The SSE aims to provide local students enrolling in full-time locally accredited sub-degree or undergraduate programmes with means-tested grants so as to encourage their participation in exchange programmes outside Hong Kong.

In the first subsidised period covering January 2015 to August 2016, 31 institutions participated in the SSE. With a ceiling of subsidy per student set at \$15,000 in the first subsidised period, a total of \$27 million was granted to 2 138 students. The exchange activities must last for at least two weeks and must be an outbound activity comprising substantive teaching and learning elements. EDB does not impose restriction on the destinations of exchange. Breakdowns of the number of students received the subsidy under the scheme by institutions in the first subsidised period are set out in the Annex.

The Education Bureau conducted a review on the effectiveness of the SSE in early 2016 and had extended its scope to cover exchange activities of shorter duration starting from July 2016. Besides, the ceiling of subsidy per student has been raised from HK\$15,000 to HK\$60,000 to support needy students participating in exchange activities held at farther destinations and of longer duration. Further, in order to capitalise on the new opportunities created by the "Belt and Road" initiatives, the Scheme for Subsidy on Exchange to "Belt and Road" Regions for Post-secondary Students, was introduced in July 2016 to encourage and support local students in need to go on exchanges in the "Belt and Road" regions. Each eligible student can apply for subsidies under the scheme twice capped at HK\$53,000 in total.

While the expenditure of SSE for the second subsidised period covering September 2016 to August 2017 will only be available later this year, we expect there would be an increase in expenditure as a result of the above review

Question:

In the 2016-17 financial year, the Government launched the Hong Kong Scholarship for Belt and Road Students Scheme with a view to encouraging outstanding international students to pursue studies in Hong Kong.

- (1) What was the number of applications since the launch of the scholarship scheme?
- (2) What were the number of successful applications and the programmes enrolled?
- (3) What was the expenditure involved?
- (4) What is the financial status of the scholarship scheme?
- (5) On what criteria does the Government award scholarships to students from countries and regions along Belt and Road to pursue studies in Hong Kong?
- (6) Has the Government assessed the estimated number of applications for the coming financial year?
- (7) Has the Government reviewed the effectiveness of the scheme? If yes, what are the details?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 28)

Reply:

Starting from the 2012/13 academic year, the Government set up a Targeted Scholarship Scheme (TSS) under the HKSAR Government Scholarship Fund (Scholarship Fund) to offer up to 10 scholarships per year to students from the targeted regions (i.e. ASEAN countries, India and Korea) to encourage them to pursue studies in Hong Kong. In December 2015, the Government announced the provision of 10 additional offers for students from Indonesia under the existing TSS starting from the 2016/17 academic year so as to attract outstanding students from Indonesia to pursue undergraduate studies in Hong Kong and facilitate academic exchanges and connection of the two places.

Under this new scheme, namely, the Hong Kong Scholarship for "Belt and Road" Students (Indonesia), which forms part of the existing TSS, up to 10 scholarships will be offered to Indonesian students to cover their tuition fees, subject to a ceiling of \$120,000 per student per annum.

The selection process of the Hong Kong Scholarship for "Belt and Road" Students (Indonesia) requires nominations from institutions. For the first cohort, a total of 23 nominations were received from five institutions. Taking into account the recommendations from the Indonesian Government, the Steering

Committee of the Scholarship Fund endorsed awarding scholarships to ten Indonesian students. Amongst the ten Indonesian awardees, four studied business, four engineering and two science. The scholarship granted in the 2016-17 financial year was \$1.2 million, and it was funded by the investment income generated from the Scholarship Fund. The balance of the Scholarship Fund as at 31 August 2016 is \$2,282 million. We expect a similar number of nominations from institutions for the 2017/18 academic year.

The Hong Kong Scholarship for “Belt and Road” Students was only introduced in 2015. We have put this scheme under constant review. While we still need to wait for a few more years for a comprehensive review of the effectiveness of the scheme, judging from the experience we have gained from TSS, encouraging more “Belt and Road” students to come to Hong Kong to pursue university study will help promote internationalisation of our institutions. A multi-cultural learning environment, with students coming from other countries/regions, will help enhance cultural exchanges, broaden the horizons of the local students and help ensure that our graduates are globally competitive. In the long run, it will also help establish a platform for educational, cultural and youth exchanges between Hong Kong and the “Belt and Road” regions and bring benefits to Hong Kong.

**(Question Serial No. 2519)**

Head: (156) Government Secretariat: Education Bureau  
Subhead (No. & title): (-) Not specified  
Programme: (7) Post-secondary, Vocational and Professional Education  
Controlling Officer: Permanent Secretary for Education (Mrs Marion LAI)  
Director of Bureau: Secretary for Education  
Question:

The Government has decided to regularise the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) from the 2018/19 academic year and the number of subsidised places will increase from 1 000 per cohort to 3 000.

What criteria does the Administration adopt to select the disciplines to be covered by the above SSSDP?

What disciplines and programmes are covered by the SSSDP?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 31)

Reply:

In order to nurture talent to meet Hong Kong's social and economic needs, the Government has launched the Study Subsidy Scheme for Designated Professions/ Sectors (SSSDP) on a pilot basis from the 2015/16 academic year to subsidise about 1 000 students per cohort to pursue designated full-time locally-accredited self-financing undergraduate programmes in selected disciplines. As announced in the 2017 Policy Address, SSSDP will be regularised from the 2018/19 academic year with an increased number of subsidised places from about 1 000 per cohort to about 3 000. Current students of the designated programmes will also receive the subsidy from the 2018/19 academic year. It is expected that about 13 000 students will benefit from the scheme each academic year.

Selected programmes for SSSDP should be full-time locally-accredited self-financing undergraduate programmes, and should help nurture the necessary talents in support of specific industries with keen manpower demand in Hong Kong. The choice of programmes and the number of subsidised places for each selected programme for each cohort are determined in consultation with policy bureaux.

Details of the relevant institutions, selected programmes and the respective number of subsidised places, the annual subsidy amount per student for each programme for the cohorts admitted/to be admitted in the 2015/16, 2016/17 and 2017/18 academic years, and the number of actual intakes in the 2015/16 and 2016/17 academic years are set out at Annex. The Education Bureau will announce the details of the relevant institutions, selected programmes and the respective number of subsidised places for the cohort to be admitted in the 2018/19 academic year later this year after consulting policy bureaux.

Question:

The Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) will be regularised from the 2018/19 school year and the number of subsidised places will be increased from 1 000 to 3 000.

Has the Government considered tuition fee increase when granting the amount of subsidy annually? What are the five disciplines with the highest tuition fee among the subsidised programmes? What criteria should SSSDP subsidy recipients meet? Are there any asset criteria?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 32)

Reply:

Under the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP), the unit subsidy for students is administered under a two-tier arrangement in which a subsidy of up to \$40,000 a year is provided to students enrolling in programmes which are not laboratory-based while a higher subsidy of up to \$70,000 a year is provided to students enrolling in more costly laboratory-based programmes. Bestowal of subsidy is not subject to means test. The actual amount of tuition fee payable is net of the unit subsidy. The subsidy is tenable for the normal duration of the programme concerned (i.e. four to five years) and will be disbursed to the relevant institutions according to the actual enrolment of eligible students subject to the quota for the selected programmes. Students with financial difficulty may still apply for student financial assistance in respect of the actual amount of tuition fee payable. The average annual tuition fee net of subsidy for each and every programme under SSSDP in the 2015/16, 2016/17 and 2017/18 academic years is set out at **Annex**.

Institutions may adjust the tuition fees of programmes selected for SSSDP if the level of adjustment is within the annual inflation rate. Any increase in the tuition fee beyond the inflation rate requires the prior approval of the Education Bureau, which will only approve cases that are fully justified with necessary enhancement in teaching and learning.

Subsidised places at Year 1 under SSSDP are allocated mainly through the Joint University Programmes Admissions System (JUPAS) to ensure eligible students (i.e. current Secondary 6 graduates who have taken the Hong Kong Diploma for Secondary Education Examination) are selected through a merit-based system. Should there be any unfilled places after all admission rounds of JUPAS, the relevant institutions are allowed to admit local students via direct admission for no more than 10% of the total subsidised places under each selected programme.

Question:

The Government has decided to regularise the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) from the 2018/19 academic year and the number of subsidised places will increase from 1 000 to 3 000.

How does the Government monitor and ensure the quality of the above programmes? Will periodic review of the programmes be conducted? If yes, what are the results? If the review indicated that the programmes are not up to standard, will the subsidy be suspended?

Also, are there any statistics on the pathway, employment rate and further education of graduates of the above programmes?

Asked by: Hon TSE Wai-chun, Paul (Member Question No. 33)

Reply:

Selected programmes for the Study Subsidy Scheme for Designated Professions/Sectors (SSSDP) should be full-time locally-accredited self-financing undergraduate programmes. All selected programmes should have obtained accreditation from the Hong Kong Council for Accreditation of Academic and Vocational Qualifications (HKCAAVQ) or in the case of the Open University of Hong Kong, internal accreditation under its self-accrediting power. All HKCAAVQ-accredited programmes are subject to regular programme re-accreditation by HKCAAVQ to determine whether the accreditation status could be maintained. Participating institutions are required to operate the selected programmes with due diligence and to provide consistent and quality undergraduate programmes under the scheme which shall meet, among others, the requirements of accreditation, quality assurance and the objectives of the scheme. The Government may terminate the subsidy arrangement to a selected programme with prior notice in writing to the relevant institution, if the institution fails to operate the programme or execute the scheme with due diligence.

Participating institutions are also required to conduct survey of the graduates who have completed the designated programmes and benefitted under the scheme, and provide the Government with relevant information (i.e. whether the graduates pursue further studies, or whether they are in full-time or part-time employment and if yes, the industry in which they are employed) within nine months after their completion of the programmes under the scheme. Most students of the first cohort under SSSDP (i.e. admitted in the 2015/16 academic year) will graduate at the end of the 2018/19 academic year.

Director of Bureau: Secretary for Education

Question:

In the past 3 years, what are the average expenditure incurred and manpower deployed by each aided primary and secondary school with the resources provided by the Bureau for the purpose of promoting children's rights among students, teaching staff and parents? What are the estimated expenditure and manpower required for this task in 2017-18? Are schools provided with indicators or guidelines that they can follow to protect children's rights? If yes, what are the details? If no, what are the reasons?

Asked by: Hon YIU Chung-yim (Member Question No. 29)

Reply:

The Education Bureau (EDB) is committed to nurturing students' whole-person development. A holistic school curriculum comprising knowledge, skills, values and attitudes is adopted to foster students' respect for people (adult or children), including their rights. Related learning elements are incorporated into different Key Learning Areas/subjects of the school curriculum in primary and secondary schools, such as General Studies at the primary level, Life and Society at the junior secondary level, and Liberal Studies at the senior secondary level. Expenditures for the related curriculum development work, the provision of professional development programmes for school heads and teachers, production of learning and teaching resources, provision of learning activities for students and collaboration with other government departments and bodies, are subsumed under the recurrent expenditures of EDB. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the expenditures incurred in the past 3 years.

Moreover, protection of the welfare and safety of children is of paramount concern. In order to create a caring school environment and safeguard the interests of students, clear guidelines on discipline, student behaviour, handling of bullying incidents and suspected child abuse cases, etc. are provided in the School Administration Guide as well as the relevant circulars. School personnel are advised to be sensitive to the emotion and behaviour symptoms of students so as to early identify students concerned and provide immediate intervention.

It is the Government's policy to provide 12-year free primary and secondary education in public sector schools of which universal basic education for children aged between 6 and 15 is compulsory. To uphold the right of children to receive education, schools are required to report to the Education Bureau on the 7th day of students' continuous absence, irrespective of their class levels. Non-attendance cases would be identified for follow up with a view to bringing students back to school at the earliest opportunity.

Question:

In the past 3 years, what are the average expenditure incurred and manpower deployed, as well as categories of projects launched by each aided primary and secondary school with the resources provided by the Bureau for the purpose of preventing discrimination on the ground of disability and promoting equal opportunities, including but not limited to organising education programmes for students and teaching staff, upgrading campus facilities, providing support services, etc.? What are the estimated expenditure and manpower required for this task in 2017-18? Are schools provided with indicators or guidelines that they can follow to protect the rights of persons with disabilities? If yes, what are the details? If no, what are the reasons?

Asked by: Hon YIU Chung-yim (Member Question No. 30)

Reply:

The Education Bureau (EDB) is committed to fostering students' whole-person development. A holistic school curriculum comprising knowledge, skills, values and attitudes is adopted in the promotion of equality. Learning elements related to the prevention of discrimination on the ground of disability and promotion of equal opportunities are incorporated into different Key Learning Areas/subjects of the school curriculum in primary and secondary schools, such as General Studies at the primary level, Life and Society at the junior secondary level, and Liberal Studies at the senior secondary level. Expenditures for the related curriculum development work, which includes promotion of equality in schools, the provision of professional development programmes for school heads and teachers, production of learning and teaching resources, provision of learning activities for students and collaboration with other government departments and bodies, are subsumed under the recurrent expenditures of EDB. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the expenditures incurred in the past 3 years.

Regarding campus facilities, schools constructed after 1997 are in compliance with the prevailing requirements promulgated by the Buildings Department on barrier free access to facilitate access to school buildings and facilities by persons with disabilities. Insofar as improvements to existing school premises, including improving barrier-free access facilities, such as ramps, accessible toilets, lifts, etc., are concerned, schools may submit applications under the annual major repairs exercise in light of their operational needs. In processing the applications, consideration will be given to technical feasibility, urgency for such facilities, alternative measures to solve the inaccessibility problem, and availability of funding, etc. The expenses incurred for the installation of barrier-free access facilities have already been included in the overall expenditure of individual projects, and we do not have ready information on further breakdown.

To help schools cater for students with SEN, EDB has been providing public sector mainstream primary and secondary schools with additional resources on top of the regular subvention, professional support and teacher training. EDB has also been organising different activities to promote inclusive culture and equal

opportunity as well as enhance public awareness and acceptance of students with SEN. A breakdown of the manpower required for the tasks is not available as these are subsumed in the overall manpower of EDB. The total expenditure on additional support and services provided for public sector primary and secondary mainstream schools in catering for students with SEN in the 2014/15 and 2015/16 school years was \$1,222 million and \$1,310 million respectively. For budgetary purpose, the total estimated expenditure on additional support and services in the 2016/17 and 2017/18 school years is \$1,417 million and \$1,469 million respectively.

In accordance with the Disability Discrimination Ordinance (DDO), it is unlawful for educational establishments to discriminate against a person with a disability. Educational establishments cannot refuse admitting students on grounds of their disabilities. Accordingly, all educational establishments have to provide equal opportunities to eligible students, including those with special educational needs (SEN), and have the obligation to make reasonable accommodations for the students. In accordance with the DDO, the Equal Opportunities Commission issued the Code of Practice on Education in 2001 to provide educational establishments, including schools, with practical guidance in developing policies that prevent and eliminate disability discrimination. To facilitate schools to cater for the needs of students with SEN, the Education Bureau (EDB) has also prepared the “Operation Guide on the Whole School Approach to Integrated Education”, which provides guiding principles and practicable strategies for mainstream schools.

Moreover, EDB will not tolerate bullying and discrimination in schools in any form (including verbal, physical and cyber bullying) on any grounds (including physical build, ability, religion, race and sexual orientation). In order to create a caring school environment and safeguard the interests of students (including persons with disabilities), clear guidelines on discipline, student behaviour, handling of bullying and discrimination in school, etc. are provided in the School Administration Guide as well as the relevant circulars.

Director of Bureau: Secretary for Education

Question:

In the past 3 years, what are the average expenditure incurred and manpower deployed, as well as categories of projects launched by each aided primary and secondary school with the resources provided by the Bureau for the purpose of preventing discrimination on the ground of race and promoting equal opportunities, including but not limited to organising education programmes for students and teaching staff, upgrading campus facilities, providing support services, etc.? What are the estimated expenditure and manpower required for this task in 2017-18? Are schools provided with indicators or guidelines that they can follow to protect the rights of persons of different races? If yes, what are the details? If no, what are the reasons?

Asked by: Hon YIU Chung-yim (Member Question No. 31)

Reply:

The Education Bureau (EDB) is committed to encouraging and supporting the integration of non-Chinese speaking (NCS) students, notably ethnic minority students, into the community, including facilitating their early adaptation to the local education system and mastery of the Chinese language. To ensure that all NCS students will have equal opportunities as their Chinese-speaking peers to learn Chinese, EDB has, starting from the 2014/15 school year, allocated about \$200 million per year to step up the education support for NCS students in learning the Chinese language through, among others, implementation of the "Chinese Language Curriculum Second Language Learning Framework" ("Learning Framework") in primary and secondary schools, provision of the Applied Learning Chinese (for NCS students) courses for Secondary 4-6 leading to the Hong Kong Diploma of Education and the creation of an inclusive learning environment in schools. Developed from the perspective of second language learners, the "Learning Framework" helps NCS students overcome their difficulties in learning Chinese as a second language, facilitating their bridging over to mainstream Chinese Language classes.

In this connection, all schools admitting 10 or more NCS students are provided with an additional funding ranging from \$800,000 to \$1,500,000 per year depending on the number of NCS students admitted. A total of 173 schools (including 100 primary schools and 73 secondary schools), 197 schools (including 112 primary schools and 85 secondary schools) and 216 schools (including 118 primary schools and 98 secondary schools) are provided with the additional funding to support their NCS students in the 2014/15, 2015/16 and 2016/17 school years respectively. Based on the annual school plans/reports submitted by the schools concerned, schools have generally deployed about 10% of the funding to strengthen communication with parents of NCS students and organise multi-cultural activities, etc.

Support measures for NCS students are provided by different sections of EDB and deployment of staff may be adjusted having regard to the needs of individual schools. The relevant manpower resources and expenses are subsumed under the overall expenditure of EDB and/or different Funds including

University-School Support Programme projects for primary and secondary schools funded under the Education Development Fund and a breakdown of expenditure by item is not available.

Apart from the above provisions, a holistic school curriculum comprising knowledge, skills, values and attitudes is adopted in the promotion of equality. Learning elements related to the prevention of discrimination on the ground of race and promotion of equal opportunities are incorporated into different Key Learning Areas/subjects of the school curriculum in primary and secondary schools, such as General Studies at the primary level, Life and Society at the junior secondary level, and Liberal Studies at the senior secondary level. Similar to the support measures for NCS students provided by EDB, expenditures for the related curriculum development work, which includes promotion of equality in schools, the provision of professional development programmes for school heads and teachers, production of learning and teaching resources, provision of learning activities for students and collaboration with other government departments and bodies, are subsumed under the recurrent expenditures of EDB. Such work is an integral part of our curriculum development work, hence we are unable to provide a separate breakdown on the expenditures incurred in the past 3 years.

Moreover, EDB will not tolerate bullying and discrimination in schools in any form (including verbal, physical and cyber bullying) on any grounds (including physical build, ability, religion, race and sexual orientation). In order to create a caring school environment and safeguard the interests of students (including persons of different races), clear guidelines on discipline, student behaviour, handling of bullying and discrimination in school, etc. are provided in the School Administration Guide as well as the relevant circulars.

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

The Bureau has decided to provide an additional grant for children of needy families, starting from the 2017/18 school year. What are the asset and income thresholds of the grant? How many families does the Bureau expect to benefit from the grant?

Asked by: Hon CHENG Chung-tai (Member Question No. 29)

Reply:

The Student Finance Office of the Working Family and Student Financial Assistance Agency adopts a standard income test mechanism which operates on an "Adjusted Family Income" (AFI) formula as follows –

$$\text{AFI} = \frac{\text{Gross annual income of the family}}{\text{Number of household members} + 1^{\text{Note 1}}}$$

Note 1: For single-parent families of 2 or 3 members, the "plus 1" factor in the divisor of the AFI formula will be increased to "plus 2".

The AFI calculated is then referenced against a Ready Reckoner to assess the eligibility of the applicants for student financial assistance and if eligible, the level of assistance receivable. Applications for financial assistance for pre-primary students are not subject to asset test. Applicants who pass the income test and meet the eligibility criteria under the Kindergarten and Child Care Centre Fee Remission Scheme are eligible for an additional grant to defray school-related expenses incurred from the students' kindergarten education starting from the 2017/18 school year. It is anticipated that around 50 000 kindergarten students will benefit from the additional grant in the 2017/18 school year.

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

(a) Please provide in the table below information on the following student financial assistance schemes in the past five years (2012/13 to 2016/17) -

	No. of applications	No. of applications approved	No. of students offered grants	No. of students receiving full grants	Average grant level	No. of students offered loans	Average loan amount	Total amount of government expenditure involved
TSFS								
FASP								
NLSFT								
NLSPS								
ENLS								

TSFS - Tertiary Student Finance Scheme - Publicly-funded programmes  
FASP - Financial Assistance Scheme for Post-secondary Students  
NLSFT - Non-means-tested Loan Scheme for Full-time Tertiary Students  
NLSPS - Non-means-tested Loan Scheme for Post-secondary Students  
ENLS - Extended Non-means-tested Loan Scheme

- (b) Please provide the respective number of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS by institution and programme (publicly-funded degree, sub-degree and self-financing degree); the loan amount disbursed (highest, lowest, average and median); the length of repayment period; the district of residence and type of housing (public/Home Ownership Scheme/private); as well as sex and age profile of such borrowers in the past five years (2012/13 to 2016/17).
- (c) Please provide the respective number of students receiving grants and the respective number of students receiving full grants under the TSFS and FASP by institution, department and year of study in the past five years (2012/13 to 2016/17).
- (d) Please provide the respective number of students receiving loans and the average loan amounts under the NLSFT, NLSPS and ENLS by institution, department and year of study in the past five years (2012/13 to 2016/17).
- (e) Please provide the average loan amount, median loan amount, average monthly repayment amount, median monthly repayment amount and default rate amongst tertiary students who obtained loans from the Student Finance Office in the past five years (2012/13 to 2016/17).

**(E) ENLS @**

The number of students receiving loans in respect of each of the five categories of eligible courses/course providers under the ENLS in the 2012/13 to 2016/17 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status <sup>++</sup>	3 887	3 644	3 215	3 077	2 276
Category 2 – Courses under Diploma Yi Jin	1 110	925	872	870	887
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	4	1	1	0
Category 4 – Training or development courses provided or funded by local statutory bodies	8	5	2	7	2
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 707	2 707	2 638	2 405	1 675
<b>Total</b>	<b>7 713<sup>##</sup></b>	<b>7 285<sup>##</sup></b>	<b>6 728<sup>##</sup></b>	<b>6 360<sup>##</sup></b>	<b>4 840<sup>##</sup></b>

\* As at 31 January 2017

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the number of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

<sup>++</sup> The Government completed a review of the Non-means-tested Loan Schemes in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories. The figures under Category 1 include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

<sup>##</sup> Some students received loans for courses in different categories in the same academic year and therefore the total number of students receiving loan by category is larger than the figure in (a) above.

(ii) The number of student loan borrowers by different study level of the programmes covered under the TSFS, FASP, NLSFT and NLSPS in the 2012/13 to 2016/17 academic years are as follows –

**(A) TSFS**

Level of Study	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*

Highest	42,100	43,940	51,310	51,310	52,570
<b>(D) NLSPS</b> (loans are to cover tuition fees)					
Lowest	1,460	1,190	510	1,810	695
Average	50,973	53,587	57,289	59,528	52,116
Median	49,500	50,400	52,560	55,000	52,500
Highest	247,731	341,064	261,911	267,143	272,723
<b>(E) ENLS</b> (loans are to cover tuition fees)					
Lowest	2,100	3,000	1,500	3,000	2,570
Average	47,091	49,936	53,254	54,904	45,721
Median	36,250	38,800	41,400	42,800	45,000
Highest	300,000	312,300	325,700	340,000	350,200

\* As at 31 January 2017

\*\* Under the TSFS and FASP, some applicants, e.g. disabled applicants, might be offered loans at an amount higher than the maximum loan amount of an academic year on a discretionary basis.

Prior to the implementation of the measure to extend the standard repayment period to 15 years commencing from the 2012/13 academic year, student loan borrowers under the TSFS and FASP were required to repay their loans by 20 quarterly instalments in five years while those under the NLSFT, NLSPS and ENLS were required to repay their loans by 40 quarterly instalments in ten years upon completion or cessation of their studies. Most of the student loan borrowers repaid their loans according to the standard repayment period, though some might settle their loans earlier on their own accord.

We do not have information on the distribution of student loan borrowers by district of residence, type of housing, sex and age profile.

- (c) The number of students receiving grant and the number of students receiving full grant under the TSFS and FASP in different institutions in the 2012/13 to 2016/17 academic years are set out below. We do not have readily available information on the breakdown of the beneficiaries by department and year of study.

\* As at 31 January 2017

- (d) The number of students receiving loans in different institutions as well as the average loan amount disbursed under the NLSFT, NLSPS and ENLS in the 2012/13 to 2016/17 academic years are provided in (a) and (b) above. We do not maintain statistical breakdown on the distribution of student loan borrowers by department and year of study.
- (e) The information on the average loan amount and the median loan amount of student loan borrowers who obtained loans under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2012/13 to 2016/17 academic years is provided in (b)(iii) above. As regards the information on their average and median monthly repayment amounts, we do not keep track of the students based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times. Based on the information of student loan borrowers who graduated and commenced loan repayment in the 2012/13 to 2015/16 academic years, the average loan amount, the median loan amount, the average monthly repayment amount and the median monthly repayment amount are as follows –

Loan/ Repayment Amount (\$)	Academic Year			
	2012/13	2013/14	2014/15	2015/16
<b>(A) TSFS</b>				
Average loan amount ^^	55,507	60,139	59,644	59,698
Median loan amount ^^	44,920	50,340	48,710	42,520
Average monthly loan repayment amount	332~	360~	357~	357~
Median monthly loan repayment amount	269~	301~	292~	254~

Loan/ Repayment Amount (\$)	Academic Year			
	2012/13	2013/14	2014/15	2015/16
<b>(B) FASP</b>				
Average loan amount ^^	52,478	53,449	55,559	54,625
Median loan amount ^^	40,000	39,650	40,960	42,000
Average monthly loan repayment amount	314~	320~	333~	327~
Median monthly loan repayment amount	240~	237~	245~	251~
<b>(C) NLSFT</b>				
Average loan amount ^^	72,877	73,315	71,033	75,326
Median loan amount ^^	64,100	65,075	60,500	63,150
Average monthly loan repayment amount	466~	470~	448~	475~
Median monthly loan repayment amount	410~	417~	381~	398~
<b>(D) NLSPS</b>				
Average loan amount ^^	103,249	96,805	89,425	103,757
Median loan amount ^^	87,000	84,600	85,867	91,350
Average monthly loan repayment amount	661~	621~	564~	654~
Median monthly loan repayment amount	557~	542~	541~	576~
<b>(E) ENLS</b>				
Average loan amount ^^	58,675	66,883	64,520	67,538
Median loan amount ^^	49,200	57,000	49,000	51,000
Average monthly loan repayment amount	366~	418~	400~	419~
Median monthly loan repayment amount	307~	357~	304~	316~

^^ The average loan amount and the median loan amount are calculated based on the total amount of loans disbursed to the student loan borrowers upon their commencement of repayment in a particular academic year. The figures are therefore different from the figures in (a) and (b) above which are calculated based on the amount of loans disbursed in a particular academic year.

~ Based on a 15-year repayment period. For the TSFS and FASP, the interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.282% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2016/17 academic year is not yet available.

We do not maintain information on the default rate<sup>§</sup> of student loan borrowers based on when they obtained loans. The default rate of student loan borrowers under the TSFS, FASP, NLSFT, NLSPS and ENLS in the 2012/13 to 2016/17 academic years is as follows –

Scheme	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
<b>TSFS</b>	6.04%	5.69%	5.13%	5.02%	5.56%
<b>FASP</b>	6.29%	5.59%	5.33%	5.18%	6.76%
<b>NLSFT</b>	7.03%	5.79%	4.80%	4.53%	3.89%
<b>NLSPS</b>	10.48%	8.84%	7.54%	6.96%	6.19%
<b>ENLS</b>	12.52%	10.99%	9.59%	9.68%	9.44%
<b>Overall</b>	<b>9.55%</b>	<b>8.32%</b>	<b>7.26%</b>	<b>7.07%</b>	<b>7.03%</b>

\* As at 31 January 2017

§ Student loan borrowers who fail to repay two or more consecutive quarterly instalments / six or more consecutive monthly instalments for one or more loan repayment account(s) are considered as defaulters. The default rate is the percentage of the number of default cases in relation to the number of loan repayment accounts as at the end of the academic year concerned, unless otherwise specified.

^ The number of default cases in the 2012/13 to 2016/17 academic years is the number as at the end of the academic years concerned (i.e. 31 July 2013, 31 July 2014, 31 July 2015 and 31 July 2016) and 31 January 2017 respectively. The number represents the number of loan borrowers who should have started repayment in the previous academic years and the academic year concerned but are still in default on the date.

- End -

**CONTROLLING OFFICER'S REPLY**

**EDB251**

**(Question Serial No. 0302)**

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (228) Student financial assistance

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

1. Please provide, in the table below, information on the titles of all publicly-funded scholarships, the average and median values of award of each scholarship, as well as the numbers of local and non-local students awarded scholarships in the past five years (2012/13 to 2016/17).

Table 1

Title of scholarship	Median value of award	Average value of award	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved

2. Please provide, in the table below, information on non-local students granted publicly-funded scholarships in the past five years (2012/13 to 2016/17), such as nationality/place of origin, average value of award, median value of award and the amount of government expenditure involved.

Table 2a

Title of scholarship	Number of non-local students granted publicly-funded scholarships								
	Mainland China (%)	Taiwan (%)	USA (%)	UK (%)	Japan (%)	South Korea (%)	France (%)	Canada (%)	Others (please specify)

Table 2b

Place of origin of non-local students granted publicly-funded scholarships	Total number of students (%)	Number of scholarships	Average value of award	Median value of award	Total amount of government expenditure involved
Mainland China					
Taiwan					
USA					
UK					
Japan					
South Korea					
France					
Canada					
Others (please specify)					

3. Please provide detailed information on the titles of all publicly-funded university scholarships, as well as the numbers, with percentage, of local students and non-local students granted scholarships by institution, department and year of study in the past five years (2012/13 to 2016/17).

Asked by: Hon IP Kin-yuen (Member Question No. 40)

Reply:

1. Regarding the publicly-funded scholarships that are administered by the Student Finance Office (SFO) of the Working Family and Student Financial Assistance Agency in the past five school years from 2012/13 to 2016/17, the information required is set out in Table 1 below –

Table 1

Title of scholarship	School Year	Median value of award	Average value of award	Number of local students awarded scholarships (%)	Number of non-local students awarded scholarships (%)	Total amount of government expenditure involved (\$ million)
Scholarship for Prospective English Teachers <sup>a</sup>	2012/13	\$50,000	\$50,962	151 <sup>b</sup> (96.8%)	5 (3.2%)	7.95
	2013/14		\$50,686	171 <sup>b</sup> (97.7%)	4 (2.3%)	8.87
	2014/15		\$50,343	173 <sup>b</sup> (98.9%)	2 (1.1%)	8.81
	2015/16		\$50,326	182 <sup>b</sup> (98.9%)	2 (1.1%)	9.26
	2016/17*		\$50,330	180 <sup>b</sup> (98.9%)	2 (1.1%)	9.16

\* As at 31 January 2017

Remarks

<sup>a</sup> The scholarship was established in 2010/11 as one of a series of measures to enhance the professionalism of English teachers in Hong Kong. The aim of the scholarship is to attract persons proficient in English to pursue relevant local bachelor degree programmes and / or teacher training programmes which will qualify them to become English teachers on graduation.

<sup>b</sup> The figure includes renewal awards for students pursuing bachelor degree programmes at Year 2 or above and / or teacher training programmes.

2. Tables 2a and 2b below list the information on non-local students awarded publicly-funded scholarships in the past five school years from 2012/13 to 2016/17 –

Table 2a

Title of scholarship	School Year	Number of non-local students awarded the publicly-funded scholarships

**CONTROLLING OFFICER'S REPLY**

**EDB252**

**(Question Serial No. 1583)**

Head: (173) Working Family and Student Financial Assistance Agency  
(254) Loans to Students

Subhead (No. & title): (228) Student financial assistance  
(101) Means-tested loan for tertiary students pursuing publicly-funded programmes  
(103) Means-tested loan for post-secondary students  
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes  
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding various means-tested financial assistance or loan schemes mentioned, please advise this Committee of the following:

- (1) Whether the Agency has conducted regular random check of the income records of approved applicants to see if the income limits have been exceeded after successful applications for the assistance or loan. If yes, what are Agency's policy on such check, the frequency of check, the number of cases covered and its percentage out of all applications? If no, what are the reasons?
- (2) What is the number of default cases and its percentage out of all loan applicants in the financial year of 2016/17, as well as the specific measures taken by the Agency to recover the arrears?

Asked by: Hon IP LAU Suk-ye, Regina (Member Question No. 15)

Reply:

(1) The Student Finance Office (SFO) under the Working Family and Student Financial Assistance Agency would conduct detailed checking of all applications (100%) for student finance including checking the information on family income and asset (where appropriate) provided by applicants. In addition, monthly counter-checking on about 12% of the vetted applications for the means-tested financial assistance schemes for post-secondary students will be conducted to ascertain the completeness and accuracy of the information provided in the applications before financial assistance is disbursed to successful applicants. Furthermore, around 5 to 10% of the successful applications will be randomly selected each year for authentication or detailed checking towards the end of the application cycle. Recovery action will be conducted for any overpaid assistance and cases with serious omission will be referred to the Police for follow-up actions.

- (2) We do not maintain information on the percentage of the number of default cases in terms of the number of applications received. The number of default cases<sup>§</sup> and the default rate in terms of the number of loan repayment accounts under the Tertiary Student Finance Scheme – Publicly-funded Programmes (TSFS) and the Financial Assistance Scheme for Post-secondary Students (FASP) in the 2016/17 academic year (as at 31 January 2017) are as follows –

	<b>2016/17 Academic Year*</b>
<b>(A) TSFS</b>	
No. of default cases#	
(i) No. of default cases in which the SFO of the Agency would initiate recovery action against the defaulters and the indemnifiers concerned	236
(ii) No. of default cases in which legal recovery action had been initiated <sup>^</sup>	962
Sub-total	<u>1 198</u>
No. of loan repayment accounts	21 530
Default rate in terms of loan repayment accounts	5.56%
<b>(B) FASP</b>	
No. of default cases#	
(i) No. of default cases in which the SFO would initiate recovery action against the defaulters and the indemnifiers concerned	634
(ii) No. of default cases in which legal recovery action had been initiated <sup>^</sup>	973
Sub-total	<u>1 607</u>
No. of loan repayment accounts	23 776
Default rate in terms of loan repayment accounts	6.76%

\* As at 31 January 2017

§ Cases with two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as default cases. The default rate is the percentage of the number of default cases in relation to the number of loan repayment accounts as at the end of the academic year concerned.

# The number of default cases in the 2016/17 academic year is the number as at 31 January 2017. The number represents the number of loan borrowers who have started repayment in the previous academic years and the academic year concerned but are still in default on that date.

<sup>^</sup> The figures include those referred to the Department of Justice (DoJ) and filed directly to the Small Claims Tribunal (SCT), loan borrowers had been declared bankrupt / applied for Individual Voluntary Arrangement or deferment / write-off applications were under processing.

On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the DoJ or filing claims to the SCT directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

- End -

Programme: (1) Student Assistance SchemeControlling Officer: Head, Working Family and Student Financial Assistance Agency

(Mr Esmond LEE)

Director of Bureau: Secretary for EducationQuestion:

The Financial Assistance Scheme for Post-secondary Students (FASP) provides means-tested grants and/or loans to eligible full-time students pursuing locally-accredited, self-financing sub-degree or degree programmes. The Non-means-tested Loan Scheme for Post-secondary Students (NLSPS) provides non-means-tested loans to students pursuing programmes covered under FASP.

- (a) Please set out in the following table the amounts of assistance disbursed under the two schemes from the 2011/12 to 2016/17 academic years:

	Academic Year					
	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17
<b>FASP</b>						
Total amount of assistance disbursed (\$ million)						
<b>NLSPS</b>						
Total amount of loan disbursed (\$ million)						

- (b) Please set out in the following table the total numbers of students receiving financial assistance under FASP and the respective numbers of students receiving different levels of financial assistance from the 2011/12 to 2016/17 academic years:

Academic Year	Total number of students receiving financial assistance under FASP	Level of financial assistance received (student number)					
		Below 15%	15%	25%	50%	75%	100%
2011/12							
2012/13							
2013/14							
2014/15							
2015/16							
2016/17							

Asked by: Hon LAU Kwok-fan (Member Question No. 18)

Reply:

- (a) The total amount of grant and loan disbursed under the FASP and the NLSPS in the 2011/12 to 2016/17 academic years are set out as follows:

	Academic Year					
	2011/12	2012/13	2013/14	2014/15	2015/16	2016/17*
<b>(A) FASP</b>						
Total amount of grant and loan disbursed (\$ million)	1,228.47	1,492.37	1,418.15	1,306.52	1,286.20	895.81
<b>(B) NLSPS</b>						
Total amount of loan disbursed (\$ million)	554.53	589.86	650.55	708.04	792.14	632.95

\* As at 31 January 2017

(b) The number of students receiving grant under the FASP and respective number of students with different levels of grant after the income test are set out as follows:

		Academic Year					
		2011/12	2012/13	2013/14	2014/15	2015/16	2016/17*
Number of students receiving different levels of grant after income test <sup>^</sup>	100%	15 491	18 215	17 224	15 099	14 753	12 465

Head: (173) Working Family and Student Financial Assistance Agency

Subhead (No. & title): (000) Operational expenses

Programme: (1) Student Assistance Scheme  
(2) Low-income Working Family Allowance

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Please give a breakdown of the estimate for the number of officers, annual pay, housing allowances, expenses for duty visits and entertainment expenses for the following posts of the Working Family and Student Financial Assistance Agency (WFSFAA) in the coming year:

- Head, WFSFAA
- Deputy Controller
- Assistant Controller
- Senior Executive Officer
- Principal Executive Officer
- Chief Executive Officer
- Executive Officer
- Senior Clerical Officer
- Senior Systems Manager
- Systems Manager
- Analyst/Programmer I
- Analyst/Programmer II
- Treasury Accountant
- Accounting Officer
- Project Manager
- Systems Analyst

Asked by: Hon LEUNG Kwok-hung (Member Question No. 42)

Reply:

The estimated number of officers and the annual pay in the coming year for the posts listed in the question are tabulated below –

Post/Rank	Number#	Annual Salary^ (\$ million)
Head, WFSFAA	1	2.39
Deputy Controller	5	6.82
Assistant Controller	12	11.65
Senior Executive Officer	9	8.74
Principal Executive Officer	2	3.47
Chief Executive Officer	5	6.82
Executive Officer (including Executive Officer I and II)	133	77.01
Senior Clerical Officer	108	58.48
Senior Systems Manager	2	2.73
Systems Manager	3	2.91
Analyst/Programmer I	6	4.28
Analyst/Programmer II	10	4.72
Treasury Accountant	2	1.86
Accounting Officer (including Accounting Officer I and II)	3	1.61
Project Manager	*	N/A
Systems Analyst	*	N/A

# It refers to the projected establishment of civil servants in 2017-18 as at 31.3.2018.

^ Notional Annual Mid-point Salary is used for calculating the salaries of the civil service posts.

\* We may engage these non-civil service contract (NCSC) staff in a year to meet changing operational and service needs. We are therefore unable to project the number in the 2017-18 financial year before it begins.

Provision for housing allowances for the civil service as a whole is centrally provided for under Head 46 General expenses of the civil service and there is no provision for individual officers under Head 173. There is no provision for housing allowances for NCSC staff.

For duty visits, we do not have plans to arrange any overseas visit or visit to the Mainland in 2017-18 and have therefore not earmarked any provision in the 2017-18 Estimates for the purpose. There is no provision for expenses for duty visits for individual officers.

For official entertainment, officials of the WFSFAA will consume official meals based on operational needs and prior approval is needed before incurring any related expenses. In making an application for official entertainment, relevant officials are required to provide all necessary information insofar as is practicable with a view to ensuring that the expenditure is fully justified and appropriate for the official purpose in question. There is no provision for expenses for entertainment for individual officers.

Head: (173) Working Family and Student Financial Assistance Agency  
(254) Loans to Students

Subhead (No. & title): (000) Operational expenses  
(201) Means-tested loan for tertiary students pursuing publicly-funded programmes  
(202) Non-means-tested loan scheme  
(203) Means-tested loan for post-secondary students

Programme: (1) Student Assistance Scheme

Controlling Officer: Head, Working Family and Student Financial Assistance Agency  
(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

It is stated under Matters Requiring Special Attention in 2017-18 that the Government will continue the concerted efforts to recover student loans in arrears. In this regard, would the Government please advise this Committee of the following –

1. Does the Student Finance Office (SFO) have any concrete figures showing the approximate amount of loans in arrears in the past 3 years?
2. What actions will be taken by the SFO to recover the outstanding loans?
3. What are the expenditure and manpower required?

Asked by: Hon LUK Chung-hung (Member Question No. 16)

Reply:

1. Cases with two or more consecutive overdue quarterly instalments / six or more consecutive overdue monthly instalments are regarded as default cases. The amounts in default in the 2014/15 to 2016/17 academic years (as at 31 January 2017)\*, are as follows –

Amount in default (\$ million)	Academic Year		
	2014/15	2015/16	2016/17 <sup>^</sup>
(A) Tertiary Student Finance Scheme – Publicly-funded Programmes	29.48	26.48	25.49
(B) Financial Assistance Scheme for Post-secondary Students	17.88	16.98	16.72
(C) Non-means-tested Loan Scheme for Full-time Tertiary Students	18.57	17.27	16.53
(D) Non-means-tested Loan Scheme for Post-secondary Students	53.57	51.79	49.94
(E) Extended Non-means-tested Loan Scheme	83.35	79.01	77.25
<b>Total</b>	<b>202.85</b>	<b>191.53</b>	<b>185.93</b>

\* The amount in default is the total amount of arrears in the defaulted student loan accounts carried forward from previous academic years and arisen as at the end of the respective academic years.

<sup>^</sup> As at 31 January 2017

- On recovery of defaulted student loans, we issue reminders to the loan borrowers concerned and their indemnifiers requesting them to settle the overdue loan instalments by a specified date. Defaulters are advised to approach us for assistance, such as restructuring their loans or applying for deferment of loan repayment, if they have genuine difficulties in repaying their loans. In addition, we send short messaging service or make phone calls to the defaulted loan borrowers and their indemnifiers who fail to respond to the reminders, urging them to settle the arrears and providing appropriate assistance to them. If no payment or response is received, we will proceed to take loan recovery action against the loan borrowers and their indemnifiers through legal means by referring the cases to the Department of Justice (DoJ) or filing claims to the Small Claims Tribunal (SCT) directly.

In considering the recovery action to be taken in the default cases, we review the amount of arrears, the total outstanding amount, the age of debt and the repayment history of the individual default cases. Claims of default cases which are less complicated (e.g. with one loan account) and with a total outstanding amount not more than \$50,000 are filed to the SCT directly. More complicated default cases or with a total outstanding amount over \$50,000 are forwarded to the DoJ for action.

- In the 2017/18 academic year, the estimated expenditure involved in recovering defaulted student loans is \$35 million. It is mainly for salaries provision for 108 staff (including civil servants and non-civil service contract staff of both the SFO and the DoJ) involved in the work.

(Mr Esmond LEE)

Director of Bureau: Secretary for Education

Question:

Regarding the Kindergarten and Child Care Centre Fee Remission Scheme (KCFRS), will the Government advise this Committee of:

1. the respective percentage of successful applications for fee remission and the One-off Grant for School-related Expenses for Kindergarten Students (one-off grant) out of the total number of applications received as it is noted that the estimated total number of applications under the Scheme and the one-off grant in the past year was over 33 000 and 50 000 respectively; and the reasons for unsuccessful application;
2. the average amount of school fees disbursed for each successful KCFRS application in the past year;
3. the maximum amount of grant for each successful one-off grant applicant in the past year.

Asked by: Hon MAK Mei-kuen, Alice (Member Question No. 9)

Reply:

1. As of 31 January 2017, the total number of applications for KCFRS from kindergarten (KG) students is about 47 000, of which about 38 000 cases (84% of the processed cases) have been approved while 1 600 cases are under processing. The grant for school-related expenses for KG students will be introduced as part of the new Free Quality KG education policy in the 2017/18 school year. To provide timely support for needy families, the Community Care Fund provides a one-off grant for school-related expenses to eligible KG students in the 2016/17 school year. As of 31 January 2017, about 38 000 KG students are provided with the one-off grant. Applicants who failed to provide complete supporting documents or pass the income test would not be granted with the fee remission and one-off grant.
2. Fee remission under the KCFRS is disbursed on a monthly basis. In the 2015/16 school year, the average amount of fee remission disbursed to each eligible student under KCFRS is around \$13,500. In the first six months of 2016/17 (up to 31 January 2017), the average amount of fee remission disbursed to each eligible student is around \$8,100.
3. The one-off grant is disbursed to eligible KG students via CCF in the 2016/17 school year. The full-grant rate for the one-off grant for each successful KG student is \$3,770.

### (C) Extended Non-means-tested Loan Scheme (ENLS) @

The number of students receiving loans in respect of each of the five categories of eligible courses/course providers under the ENLS in the 2012/13 to 2016/17 academic years are as follows –

Category of Eligible Courses	Academic Year				
	2012/13	2013/14	2014/15	2015/16	2016/17*
Category 1 – Courses accredited by the Hong Kong Council for Accreditation of Academic and Vocational Qualifications or accredited by institutions by virtue of their self-accreditation status or Programme Area Accreditation status <sup>++</sup>	3 887	3 644	3 215	3 077	2 276
Category 2 – Courses under Diploma Yi Jin	1 110	925	872	870	887
Category 3 – Courses covered by the Financial Assistance Scheme for Designated Evening Adult Education Courses	1	4	1	1	0
Category 4 – Training or development courses provided or funded by local statutory bodies	8	5	2	7	2
Category 5 – Registered courses and exempted courses under the Non-local Higher and Professional Education (Regulation) Ordinance (Chapter 493)	2 707	2 707	2 638	2 405	1 675
<b>Total</b>	<b>7 713</b>	<b>7 285</b>	<b>6 728</b>	<b>6 360</b>	<b>4 840</b>

\* As at 31 January 2017

@ The ENLS covers a wide range of post-secondary/continuing and professional education courses. We do not maintain statistical breakdown on institution basis. The information on the number of students receiving loans in respect of each category of eligible courses/course providers under the ENLS is provided.

<sup>++</sup> The Government completed a review of the NLS in 2012 and implemented a package of measures to improve the operation of the schemes, including revision of the course eligibility criteria of the ENLS. From the 2012/13 academic year, the number of category of eligible courses under the ENLS has been revised from nine to five categories. The figures under Category 1 include students pursuing certain non-accredited courses. As a transition, courses previously included in the approved list before the revision of course eligibility criteria implemented in the 2012/13 academic year are granted with the provisional qualified status if accreditation is being sought. Students pursuing these courses are eligible for loans under the ENLS. Also, a grandfathering arrangement is put in place to enable existing students of courses previously included in the approved list to obtain loans under the ENLS to complete the study programme in case the courses pursued fail to obtain the accreditation.

- (c) As regards the information on the average monthly repayment amount of student loan borrowers, we do not keep track of the students based on the academic year of their obtaining loans as students may complete their studies and hence commence loan repayment at different times. Based on the information of student loan borrowers who graduated and commenced loan repayment in the 2012/13 to 2015/16 academic years, the average monthly repayment amount are as follows –

Average monthly loan repayment amount (\$)	Academic Year			
	2012/13	2013/14	2014/15	2015/16
(A) TSFS	332	360	357	357
(B) FASP	314	320	333	327
(C) NLSFT	466	470	448	475
(D) NLSPS	661	621	564	654
(E) ENLS	366	418	400	419

<sup>Note</sup> The figures are worked out based on a 15-year repayment period. For the TSFS and FASP, the interest rate is 1% per annum. For the NLSFT, NLSPS and ENLS, the prevailing interest rate is 1.282% per annum.

Information on loan repayment of student loan borrowers who commenced loan repayment in the 2016/17 academic year is not yet available.

- End -

## CONTROLLING OFFICER'S REPLY

EDB258

**(Question Serial No. 0113)**

Head: (190) University Grants Committee

Subhead (No. & title): (-) Not Specified

Programme: University Grants Committee

Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)

Director of Bureau: Secretary for Education

Question:

Under the existing policy, institutions funded by the University Grants Committee (UGC) may set aside up to 4% within the UGC-funded places and up to 16% outside the UGC-funded places for admission of non-local students to their UGC-funded sub-degree, undergraduate and taught postgraduate programmes (the 4%-in-16%-out policy). Starting from the 2016/17 academic year, UGC will change the 4%-in-16%-out policy to a 20%-out policy, so that all the UGC-funded places at institutions will be utilised for admission of local students.

- (a) Since the implementation of the 4%-in-16%-out policy, what are the respective numbers of non-local students admitted by various UGC-funded institutions to UGC-funded first-year-first-degree (FYFD) programmes in each of the years? Please list out the numbers with the relevant (1) years, (2) names of the funded institutions, (3) programmes and (4) numbers of local students admitted to the programmes.
- (b) Regarding the implementation of the 20%-out policy by UGC, what are the timetable, the progress and the expenditures involved? Will the policy be implemented by phases?
- (c) Will consideration be given to increasing the number of UGC-funded FYFD places after the implementation of the 20%-out policy by UGC? If so, what are the details and the expenditures involved?

Asked by: Hon CHAN Tanya (Member Question No. 57)

Reply:

(a) and (b)

The "4%-in-16%-out" policy was implemented from the 2008/09 to the 2015/16 academic years. Starting from the 2016/17 academic year, this policy has been replaced by the "20%-out" policy, under which all new non-local students in sub-degree, undergraduate and taught postgraduate programmes funded by the University Grants Committee (UGC) should be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to the 20% of the approved UGC-funded student number targets for these programmes, by study level. The additional work involved is absorbed by the existing staff of the UGC Secretariat.

The numbers of local and non-local students admitted to UGC-funded first-year first-degree (FYFD) programmes by university and broad academic programme category from the 2012/13 to 2016/17 academic years are at Annex.

- (c) All along, the Government has been striving to provide secondary school leavers with flexible and

diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing first-year-first-degree (FYFD) places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of UGC-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. In light of the above, the Government does not see a genuine need to change the number of UGC-funded FYFD places to be offered in the coming years and have maintained it at 15 000 per annum during the 2016/17 to 2018/19 triennium.

**Number of Local and Non-local Students Admitted to UGC-funded First-year First-degree Programmes by University and Broad Academic Programme Category, 2012/13 to 2016/17 Academic Years**

<b>All Universities (Total)</b>			<b>15 044</b>	<b>2 782</b>	<b>17 826</b>

Notes:

1. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures. In the above table, the relevant figures are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.

2. '-' denotes nil.

3. # Provisional figures.

4. '@' denotes a number less than 0.5.

5. Abbreviations:

CityU	City University of Hong Kong
HKBU	Hong Kong Baptist University
LU	Lingnan University
CUHK	The Chinese University of Hong Kong
EdUHK	The Education University of Hong Kong
PolyU	The Hong Kong Polytechnic University
HKUST	The Hong Kong University of Science and Technology
HKU	The University of Hong Kong

**(Question Serial No. 0115)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education

Question:

- 1) Please provide the respective numbers of candidates sitting the Hong Kong Advanced Level (HKAL) and the Hong Kong Diploma of Secondary Education (HKDSE) examinations (figures since 2012 only) and the relevant figures in each of the past 5 years, i.e. 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17.
  - Approved student number target of University Grants Committee (UGC)-funded first-year first-degree (FYFD) programmes
  - a) Joint University Programmes Admissions System (JUPAS):
    - No. of candidates sitting the HKAL/HKDSE examinations
    - No. of candidates meeting the general entrance requirements of UGC-funded FYFD programmes
    - No. of candidates meeting the general entrance requirements but were not admitted to UGC-funded FYFD programmes through JUPAS
  - b) Non-JUPAS:
    - No. of applications for UGC-funded FYFD programmes from local students
    - No. of local students admitted
- 2) What are the respective numbers of private candidates sitting the HKAL and HKDSE examinations in each of the past 5 years, i.e. 2012/13, 2013/14, 2014/15, 2015/16 and 2016/17?

Asked by: Hon CHAN Tanya (Member Question No. 58)

Reply:

The number of candidates sitting for the Hong Kong Advanced Level (HKAL) and Hong Kong Diploma of Secondary Education (HKDSE) examinations, the approved student number targets of the University Grants Committee (UGC)-funded first-year first-degree (FYFD) places, the number and percentage of candidates having met the general entrance requirements but were not admitted to UGC-funded FYFD places through the Joint University Programmes Admission System (JUPAS), the number of local students admitted through the non-JUPAS route, and the numbers of private candidates sitting the HKALE and HKDSE Examination in the past five years from the 2012/13 to 2016/17 academic years are set out at the Annex.

Student admission is within the autonomy of the universities. Each university has its own merit-based admission policy in assessing the applications of local students through the JUPAS and non-JUPAS routes. In addition to the general entrance requirements, individual universities may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Hence, students meeting the general entrance requirements may not necessarily meet all requirements for admission to individual undergraduate programmes. Furthermore, students meeting all the general entrance requirements might not be admitted to the UGC-funded FYFD places through JUPAS due to a variety of reasons. For instance, students may choose to pursue studies in self-financing undergraduate programmes in Hong Kong or further their studies outside Hong Kong (including the Mainland and elsewhere). For the 2016/17 academic year, in addition to the UGC-funded places, the Hong Kong Academy for Performing Arts offered 170 publicly-funded undergraduate intake places. The self-financing sector also offered some 9 260 intake places in full-time locally-accredited self-financing undergraduate programmes in the 2016/17 academic year. According to the 2016 Secondary 6 Students' Pathway Survey conducted by the Education Bureau in October to December 2016, about 9% of the Secondary 6 graduates who responded to the survey (or some 4 900 graduates out of a total of some 54 100 graduates of the 2015/16 school year who responded) have chosen to pursue further studies outside Hong Kong.

All along, the Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing FYFD places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of UGC-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year.

**Admission of local students to UGC-funded first-year first-degree (FYFD) places through JUPAS and non-JUPAS routes from the 2012/13 to 2016/17 academic years**

Year	Approved student number target of University Grants Committee (UGC)-funded first-year first-degree (FYFD) places	Joint University Programmes Admissions System (JUPAS)					Non-JUPAS

2016/17	15 000	66 874 (9 975)	24 557 (824)	36.7% (8.3%)	12 084	18.1%	40 021	2 573 <sup>(7)</sup>

## Notes:

- (1) Provided by the Hong Kong Examinations and Assessment Authority. Figures in ( ) refer to private candidates. In addition to the general entrance requirements, individual universities may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only.
- (2) As a percentage of the number of candidates sitting for the HKAL/HKDSE examinations in the relevant year. Figures in ( ) refer to the percentage of the private candidates sitting for the HKAL/HKDSE examinations in the relevant year.
- (3) Figures include students who did not participate in JUPAS on their own accord; those who were given FYFD places by the UGC-funded universities through JUPAS but subsequently declined the offer for various reasons (for instance they opted for locally-accredited self-financing undergraduate programmes or pursue further studies in overseas or Mainland universities); those who were not given a UGC-funded FYFD offer but received a UGC-funded sub-degree place via JUPAS instead, etc.
- (4) Local students applying via the non-JUPAS route include those applicants holding qualifications other than HKAL/HKDSE examinations, e.g. degree graduates pursuing a second degree, sub-degree graduates and students, secondary students holding international qualifications such as International Baccalaureate (IB) and the General Certificate of Education (GCE), etc.
- (5) Provided by the eight UGC-funded universities. Each individual local student can only submit one application to each university to apply for several programmes (except for EdUHK which requires applicants to submit multiple applications if they wish to apply for several programmes). However, one applicant may apply to more than one university, and hence the UGC is unable to attribute the actual number of applicants applying to the UGC-funded programme via non-JUPAS.
- (6) For the 2012/13 academic year, some universities have included the number of local applicants applying for 3-year and/or 4-year programmes in both figures as breakdown by cohort was not available.
- (7) Provisional figures.

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Regarding the operation of the University Grants Committee (UGC), please inform this Committee of:

- a) the meeting attendance rates of respective members of the UGC and its sub-committees in the past 5 years;
- b) the meeting attendance rates of respective members of the Research Grants Council (RGC) and its sub-committees in the past 5 years;
- c) the meeting attendance rates of respective members of the Quality Assurance Council (QAC) and its audit panels in the past 5 years; and
- d) the follow-up actions and changes in system to be made by the UGC in 2017/18 in response to the issues and recommendations regarding the UGC as raised in Report No. 67 of the Director of Audit. What will be the expenditure involved?

Asked by: Hon CHAN Tanya (Member Question No. 59)

Reply:

- a) The attendance rates of current members of the University Grants Committee (UGC) at the meetings of the UGC, its sub-committees and groups from 1 January 2012 to 31 December 2016 are at **Annex A**.
- b) The attendance rates of current members of the Research Grants Council (RGC) at the meetings of the RGC, its committees and panels from 1 January 2012 to 31 December 2016 are at Annex B.
- c) The attendance rates of current members of the Quality Assurance Council (QAC) at the meetings of the QAC from 1 January 2012 to 31 December 2016 are at Annex C. QAC members are not members of the QAC quality audit panels.

Furthermore, to ensure openness and transparency, the attendance record of UGC, RGC and QAC members is posted on the UGC's website and updated on a regular basis.

- d) The UGC broadly accepts the recommendations put forward in the Audit Report and the PAC Report on funding of universities by UGC. Indeed, the UGC Secretariat had provided responses to each of the Audit's recommendations in the Audit Report and has been taking appropriate follow-up actions for continuous improvement in the various areas of the work of the UGC. The Secretariat also noted PAC's particular concerns on the areas of management of conflict of interest and internationalization of universities. On management of conflict of interest, the UGC Secretariat has reviewed the system for

the management of Register of Interests forms submitted by members; and have set up a central database on the submission of Register of Interests forms. A bring-up mechanism has also been put in place to closely monitor the progress of submission from members. On internationalisation of UGC-funded universities, the UGC has all along been encouraging, and will continue to encourage, universities to internationalise in ways that fit their own institutional context. The UGC Secretariat has been working on a comprehensive response to the PAC for inclusion in the Government Minute which will be tabled at the LegCo meeting in May 2017.

The Secretariat will deploy in-house resources to oversee the necessary follow-up work; and the related expenditure will be subsumed under the existing provision of the UGC.

**CONTROLLING OFFICER'S REPLY**

**EDB261**

**(Question Serial No. 2286)**

Head: (190) University Grants Committee  
Subhead (No. & title): (-) Not Specified  
Programme: University Grants Committee  
Controlling Officer: Secretary-General, University Grants Committee (Dr. Richard T ARMOUR)  
Director of Bureau: Secretary for Education  
Question:

Please advise this Committee of the following:

- (1) the reasons for the sharp decrease in the estimated number of the first-year-first-degree (FYFD) places by 2 826, or around 15.9%, compared with last year as stated under the Programme;
- (2) the ratio of FYFD places funded by the University Grants Committee (UGC) to the number of secondary school graduates in the respective years for the past 5 years (set out in table form by year);
- (3) the number and percentage of candidates of the Hong Kong Diploma of Secondary Education Examination or the Hong Kong Advanced Level Examination meeting the minimum requirements for university admission for the past 5 years (set out in table form by year);
- (4) further to parts (2) and (3) above, the reasons that the number of candidates meeting the minimum admission requirements is far more than candidates admitted to UGC-funded FYFD programmes each year, and the criteria for setting this ratio;
- (5) further to part (4) above, whether the UGC has reviewed the factors contributing to this ratio in the past 3 years; if yes, the relevant findings and conclusion;
- (6) whether the UGC will consider increasing this ratio so that more students meeting the minimum admission requirements can have access to UGC-funded undergraduate programmes in the future; if no, the reasons for that.

Asked by: Hon CHU Hoi-dick (Member Question No. 30)

Reply:

- (1) The University Grants Committee (UGC)-funded universities may over-enroll students to their UGC-funded programmes on the understanding that no extra resources are provided by the UGC. In accordance with the Notes on Procedures of the UGC, over-enrollment across the whole university not exceeding 4% for local students is permitted. As regards non-local students, in accordance with Government's policy, the UGC-funded universities may enroll non-local students to their UGC-funded sub-degree, undergraduate and taught postgraduate programmes up to 20% of the approved UGC-funded student number targets for these programmes. Starting from the 2016/17 academic year, all new non-local students in sub-degree, undergraduate and taught postgraduate programmes will have to be admitted through over-enrollment outside the approved UGC-funded student number targets, capped at a level equivalent to 20% of the approved UGC-funded student number targets for these programmes, by

study level. Over the years, universities have been exercising this flexibility in over-enrollment in their UGC-funded sub-degree, undergraduate and taught postgraduate programmes.

As a result of over-enrollment, the revised estimate of the actual number of students enrolled in UGC-funded programmes at the first-year-first-degree (FYFD) level in the 2016/17 academic year was 17 826 (including both local and non-local students), while the approved student number in the 2017/18 academic year for FYFD places was 15 000. The actual number of students in the 2017/18 academic year is likely to continue to exceed the approved student number target.

- (2) The approved student number targets of UGC-funded FYFD places and the number of secondary school graduates in the respective years are set out in **Annex A**.
- (3) The number and percentage of candidates of the Hong Kong Diploma of Secondary Education Examination or the Hong Kong Advanced Level Examination meeting the general entrance requirements of UGC-funded FYFD programmes for the past five years is given in **Annex B**.

(4) to (6)

Student admission is within the autonomy of the UGC-funded universities. Each university has its own merit-based admission policy in assessing the applications of local students. In addition to the general entrance requirements, individual universities may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Hence, students meeting the general entrance requirements may not necessarily meet all requirements for admission to individual undergraduate programmes.

The Government has been striving to provide secondary school leavers with flexible and diversified articulation pathways with multiple entry and exit points through promoting the quality and sustainable development of the publicly-funded and self-financing post-secondary education sectors. Through the development of both sectors, about 45% of our young people in the relevant cohort now have access to degree-level education. Including sub-degree education, over 70% of them have access to post-secondary education. In 2016/17, there are sufficient publicly-funded and self-financing first-year-first-degree (FYFD) places for all Secondary 6 students who meet the minimum entrance requirements for undergraduate programme admission.

Looking ahead, we expect a continuous drop in the population of the relevant age cohort proceeding to post-secondary education until 2022. The number of secondary school graduates will drop from about 57 000 in 2016 to 43 000 in 2022. Meanwhile, in recent years, the Government has implemented a series of measures to further increase subsidised higher education opportunities, in a bid to provide school leavers with broader and more diversified articulation pathways, e.g. progressively increasing the number of University Grants Committee (UGC)-funded senior year undergraduate intake places, so that 5 000 meritorious sub-degree graduates will be able to articulate to subsidised degree programmes each year by the 2018/19 academic year. In light of the above, the Government does not see a genuine need to change the number of UGC-funded FYFD places to be offered in the coming years and have maintained it at 15 000 per annum during the 2016/17 to 2018/19 triennium.

Planning for the 2019/20 to 2021/22 triennium will commence later this year to tie in with the academic planning cycle of the UGC-funded universities. During the planning stage, the Government and the UGC will decide on, among other things, the number of UGC-funded FYFD places to be offered in the next triennium.

**Approved student number targets of UGC-funded FYFD programmes and number of secondary school graduates from the 2012/13 to 2016/17 academic years**

Admission year of UGC-funded FYFD programmes/ graduation year from secondary school	(a) Approved student number targets of UGC-funded FYFD programmes	(b) Number of secondary school graduates	(a) ÷ (b)
2012 <sup>(1)</sup>	15 000	70 800	21.2%
2013	15 000	71 000	21.1%
2014	15 000	66 800	22.5%
2015	15 000	62 700	23.9%
2016	15 000	57 000	26.3%

Note:

- (1) Figures include only approved student number targets of UGC-funded FYFD programmes and Senior Secondary 3 graduates under the New Academic Structure.

**Admission of local students to UGC-funded first-year first-degree (FYFD) places through JUPAS and non-JUPAS routes from the 2012/13 to 2016/17 academic years**

Academic Year	Approved Student Number Target of UGC-funded FYFD Places	Joint University Programmes Admissions System (JUPAS)		
		No. of Candidates Sitting for the HKAL/ HKDSE Examinations in the Relevant Year <sup>(1)</sup>	No. of Candidates Meeting the General Entrance Requirements of the UGC-funded FYFD Programmes <sup>(1)</sup>	
			No.	% <sup>(2)</sup>
2012/13	15 000	40 515 (8 887)	18 820 (454)	46.5% (5.1%)
2012/13	15 000	72 620 (1 141)	26 636 (42)	36.7% (3.7%)

2015/16	15 000	72 859 (10 878)	25 782 (1 159)	35.4% (10.7%)
2016/17 <sup>(3)</sup>	15 000	66 874 (9 975)	24 557 (824)	36.7% (8.3%)

Notes:

- (1) Provided by the Hong Kong Examinations and Assessment Authority. Figures in ( ) refer to private candidates. In addition to the general entrance requirements, individual universities may determine the attainment level needed in one or two designated or non-designated elective subjects and stipulate further admission requirements. Figures indicate the number of candidates meeting the general entrance requirements only.
- (2) As a percentage of the number of candidates sitting for the HKAL/HKDSE examinations in the relevant year. Figures in ( ) refer to the percentage of the private candidates sitting for the HKAL/HKDSE examinations in the relevant year.
- (3) Provisional figures.

Director of Bureau: Secretary for Education  
Question:

Regarding the percentage of non-local students, please advise this Committee of:

- (1) the respective numbers and percentages of local students and non-local students pursuing sub-degree programmes funded by the University Grants Committee (UGC) in the past 5 academic years;
- (2) the respective numbers and percentages of local students and non-local students pursuing UGC-funded undergraduate programmes in the past 5 academic years;
- (3) the respective numbers and percentages of local students and non-local students pursuing UGC-funded taught postgraduate programmes in the past 5 academic years; and
- (4) the respective numbers and percentages of local students and non-local students pursuing UGC-funded research postgraduate programmes in the past 5 academic years.

Asked by: Hon CHU Hoi-dick (Member Question No. 31)

Reply:

(1) – (4)

The numbers and percentages of local students and non-local students of UGC-funded programmes by level of study for the 2012/13 to 2016/17 academic years are at the Annex.

**Number and Percentage of Local and Non-local Students of UGC-funded Programmes  
by Level of Study, 2012/13 to 2016/17 Academic Years**

(Headcount)

Level of Study	Academic Year	Local Students		Non-local Students		Total
Sub-degree	2012/13	6 502	100.0%	1	*	6 503
	2013/14	5 975	100.0%	-	-	5 975
	2014/15	5 402	100.0%	2	*	5 404
	2015/16	5 393	100.0%	1	*	5 394
	2016/17 (provisional)	4 940	100.0%	1	*	4 941
Undergraduate	2012/13	67 952	89.0%	8 399	11.0%	76 351
	2013/14	69 277	88.6%	8 942	11.4%	78 219
	2014/15	71 540	88.4%	9 374	11.6%	80 914
	2015/16	72 934	88.2%	9 723	11.8%	82 657
	2016/17 (provisional)	73 577	87.7%	10 361	12.3%	83 938
Taught Postgraduate	2012/13	3 627	97.5%	94	2.5%	3 721
	2013/14	3 316	96.8%	111	3.2%	3 427
	2014/15	3 380	97.3%	95	2.7%	3 475
	2015/16	3 346	97.8%	75	2.2%	3 421
	2016/17 (provisional)	3 149	98.0%	63	2.0%	3 212
Research Postgraduate	2012/13	1 652	24.2%	5 166	75.8%	6 819
	2013/14	1 557	22.2%	5 457	77.8%	7 014
	2014/15	1 437	20.2%	5 680	79.8%	7 118
	2015/16	1 442	19.6%	5 928	80.4%	7 370
	2016/17 (provisional)	1 519	20.1%	6 049	79.9%	7 567

## Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. To tie in with the implementation of the new academic structure, UGC-funded universities admitted two cohorts of undergraduate students under the old and new academic structures in the 2012/13 academic year.
3. Research postgraduate (RPg) figures include only students funded by UGC within their normal study periods.
4. '-' denotes 'nil'.
5. '\*' denotes less than 0.05%.
6. Figures may not add up to the corresponding totals owing to rounding. If RPg students are financed by universities using both UGC and external funds, they will be counted towards different sources on a pro-rata basis, which leads to the possibility of having decimal places for the number of RPg students.

Question:

Regarding the percentage of non-local students, please advise this Committee of the following in table form:

- (1) the respective numbers and percentages of local students and non-local students pursuing sub-degree programmes funded by the University Grants Committee (UGC) in the past 5 academic years by year, institution, place of origin, mode of study and programme;
- (2) the respective numbers and percentages of local students and non-local students pursuing UGC-funded undergraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme;
- (3) the respective numbers and percentages of local students and non-local students pursuing taught postgraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme; and
- (4) the respective numbers and percentages of local students and non-local students pursuing UGC-funded research postgraduate programmes in the past 5 academic years by year, institution, place of origin, mode of study and programme.

Asked by: Hon CHU Hoi-dick (Member Question No. 32)

Reply:

- (1) The numbers and percentages of local students and non-local students of University Grants Committee (UGC)-funded sub-degree programmes by university, mode of study, broad academic programme category and place of origin (for non-local students only) for 2012/13 to 2016/17 academic years is given in **Annex A**.
- (2) The numbers and percentages of local students and non-local students of UGC-funded undergraduate programmes by university, mode of study, broad academic programme category and place of origin (for non-local students only) for 2012/13 to 2016/17 academic years is given in **Annex B**.
- (3) The numbers and percentages of local students and non-local students of UGC-funded taught postgraduate programmes by university, mode of study, broad academic programme category and place of origin (for non-local students only) for 2012/13 to 2016/17 academic years is given in **Annex C**.
- (4) The numbers and percentages of local students and non-local students of UGC-funded research postgraduate programmes by university, mode of study, broad academic programme category and place of origin (for non-local students only) for 2012/13 to 2016/17 academic years is given in **Annex D**.

**Number of Local Students and Non-local Students of UGC-funded Sub-degree Programmes by University, Mode of Study,  
Broad Academic Programme Category and Place of Origin, 2012/13 to 2016/17 Academic Years**

Notes:

1. The place of origin of non-local students is determined having regard to their nationality.
2. Since some UGC-funded programmes are mapped to more than one academic programme category (APC), students of these programmes are counted across the APCs concerned on a pro rata basis. Thus the student numbers of some APCs are decimal figures which are rounded to the nearest whole number. As such, figures may not add up to the corresponding totals.
3. '-' denotes 'nil'.
4. The zero figure quoted in the table represents magnitude of less than 0.5.
5. '\*' denotes less than 0.05%.
