Korean Wave (16 hours) <ul style="list-style-type: none"> a) K-movie b) K-drama and variety show c) K-pop music d) Hallyu development & fandom culture

Korean Business Culture
7. Business Korean & Culture (22 hours) <ul style="list-style-type: none"> a) Job-seeking activities b) Résumé and job application form c) Job interview preparation d) Department and position e) Etiquette f) Korean work culture

7. The Context

- The information on possible study and career pathways is provided to enhance students' understanding of the wider context of the specific Applied Learning course. Students who have successfully completed Applied Learning courses have to meet other entry requirements as specified by the institutions.
- The recognition of Applied Learning courses for admission to further studies and career opportunities is at the discretion of relevant institutions. The Education Bureau and the course providers of Applied Learning are exploring and seeking recognition related to further education and career development opportunities for students successfully completing the Applied Learning courses.

Possible further study and career pathways

Further studies

- e.g. translation, interpretation, Korean studies, Korean literature, cultural studies, communication

Career development

- e.g. translator, interpreter, education, tourism, media, hospitality, fashion design

Relations with core subjects and other elective subjects

Enhancing and enriching, e.g.

- strengthen students' motivation and enhance language skills including oral, reading and writing, through daily life and work contexts

Cross-fertilisation, e.g.

- apply the common knowledge of this course and **Tourism and Hospitality Studies** such as appreciation of other cultures

Expanding horizons, e.g.

- students taking **Science subjects** may broaden their horizons through acquiring knowledge in Korean traditional culture

Consolidating and synergising students' studies, e.g.

- students conduct oral communication and written exercise in a job seeking context to integrate knowledge and language skills acquired

Cluster of professions/trades/industries related to the course

- translation, interpretation, Korean studies, Korean literature, cultural studies, media

Future global and local outlook

- there has been a steady demand for products from Korea
- there are a large number of Korean tourists who visited Hong Kong in recent years
- there is an increasing interaction between Hong Kong and Korea in commerce and tourism

Beginners' skill set to facilitate entry to further studies and/or work

- demonstrate understanding of Korea traditional culture and history
- apply basic Korean language to serve the needs of daily communications
- discuss issues related to contemporary Korean culture
- apply basic Korean language skills in work contexts

Relations with other areas of studies/ courses of Applied Learning

Services

- e.g. knowledge of Korean food culture

Business, Management and Law

- e.g. Korean business culture and communication skills

Foundation knowledge developed in junior secondary education and Secondary 4

The course is built upon the foundation knowledge students acquired in, e.g.

- **Chinese Language Education** and **English Language Education** – communication skills
- **Technology Education** – information searching and software application

Applied Learning

2022-24 Cohort; 2024 HKDSE

Learning and Teaching

Course Title : Korean Language and Culture
Area of Studies : Cross Areas of Studies
Course Provider : Lingnan Institute of Further Education

In Korean Language and Culture, student-centred learning and teaching activities are designed to enable students to understand fundamental theories and concepts, develop their generic skills, and address their career aspirations in various industries (e.g. tourism, media, translation).

Different modes of activities are employed to provide students with a systematic understanding about the context (e.g. lectures on language skills related to social and work contexts) and eye-opening opportunities to experience the complexity of the context (e.g. visits to Korean tourism and cultural organisations, and seminar by practitioners).

Students acquire an understanding of the requirements, fundamental knowledge and skills essential for further learning within the area through learning-by-practising opportunities in an authentic or near-authentic environment (e.g. participate in activities promoting Korean culture).

Students are also encouraged to develop and apply conceptual, practical and reflective skills to demonstrate entrepreneurship and innovation (e.g. creating a TV programme proposal to showcase Korean culture). Students are given opportunities to integrate the knowledge and skills acquired and consolidate their learning (e.g. in the Korean business culture activity, students integrate knowledge and skills acquired to prepare for a simulated job application process).

Applied Learning

2022-24 Cohort; 2024 HKDSE

Curriculum Pillars of Applied Learning in Context – Korean Language and Culture

Upon completion of the course, students should be able to:

- demonstrate basic communication skills in Korean;
- apply language skills acquired to daily life and work contexts;
- describe the origins of Korean culture;
- demonstrate an understanding of contemporary Korean culture and discuss related issues;
- demonstrate interpersonal skills and an understanding of the Korean business culture; and
- develop self-understanding for further studies and career development in the related field.

Through the specific contexts related to the course, students have different learning opportunities, for example:

1. Career-related Competencies

- communicate orally in Korean language in daily life and work contexts;
- comprehend and write documents and information in Korean language in daily life and work contexts ; and
- demonstrate an understanding of Korean society and business culture.

2. Foundation Skills

- demonstrate effective communication skills in written and verbal forms through role-play, group discussion, presentation and report writing; and
- apply information technology skills in delivering multimedia presentation.

3. Thinking Skills

- apply analytical skills to understand the ancient Korean culture and developments of modern Korean;
- understand how historical influences affect current developments in Korean culture; and
- apply problem-solving and creative thinking skills to tackle problems in social and work contexts.

4. People Skills

- demonstrate interpersonal skills and collaboration skills through interaction with fellow students in different contexts;
- respect differences in cultures and backgrounds; and
- apply concepts of group dynamics to enhance communication and teamwork.

5. Values and Attitudes

- respect intellectual property rights when completing assignments; and
- develop self-confidence and a sense of responsibility in language learning.
