## 7. The Context

- The information on possible further study and career pathways is provided to enhance students' understanding of the wider context of the specific Applied Learning course. Students who have successfully completed Applied Learning courses have to meet other entry requirements as specified by the institutions.
- The recognition of Applied Learning courses for admission to further studies and career opportunities is at the discretion of relevant institutions.

### Possible further study and career pathways

#### **Further studies**

- e.g. translation, interpretation, Korean studies, Korean literature, cultural studies, communication

#### **Career development**

- e.g. translator, interpreter, education, tourism, media, hospitality, fashion design

### Relations with core subjects and other elective subjects

#### **Enhancing and enriching**, e.g.

- strengthen students' motivation and enhance language skills including oral, reading and writing, through daily life and work contexts

#### **Expanding horizons**, e.g.

- students taking **Science subjects** may broaden their horizons through acquiring knowledge in Korean traditional culture

### Relations with other areas of studies/ courses of Applied Learning

e.g.

#### **Services**

- knowledge of Korean food culture

#### **Business, Management and Law**

- Korean business culture and communication skills

### Foundation knowledge developed in junior secondary education

The course is built upon the foundation knowledge students acquired in, e.g.

- **Chinese Language Education** and **English Language Education** – communication skills
- **Technology Education** – information processing and software application

## **Applied Learning**

### **2023-25 Cohort; 2025 HKDSE**

#### **Learning and Teaching**

**Course Title** : **Korean Language and Culture**  
**Area of Studies** : **Media and Communication**  
**Course Provider** : **Lingnan Institute of Further Education**

In Korean Language and Culture, student-centred learning and teaching activities are designed to enable students to understand fundamental theories and concepts, develop their generic skills, and address their career aspirations in various industries (e.g. tourism, media, translation).

Different modes of activities are employed to provide students with a systematic understanding about the context (e.g. lectures on language skills related to social and work contexts) and eye-opening opportunities to experience the complexity of the context (e.g. visits to Korean tourism and cultural organisations, and seminar by practitioners).

Students acquire an understanding of the requirements, fundamental knowledge and skills essential for further learning within the area through learning-by-practising opportunities in an authentic or near-authentic environment (e.g. participate in activities promoting Korean culture).

Students are also encouraged to develop and apply conceptual, practical and reflective skills to demonstrate entrepreneurship and innovation. Students are given opportunities to integrate the knowledge and skills acquired and consolidate their learning (e.g. in the Korean business culture activity, students integrate knowledge and skills acquired to prepare for a simulated job application process).

## Applied Learning

### 2023-25 Cohort; 2025 HKDSE

#### Curriculum Pillars of Applied Learning in Context – Korean Language and Culture

Through the specific contexts related to the course, students have different learning opportunities, for example:

##### 1. Career-related Competencies

- communicate orally in Korean language in daily life and work contexts;
- comprehend and write documents and information in Korean language in daily life and work contexts ; and
- demonstrate an understanding of Korean society and business culture.

##### 2. Foundation Skills

- demonstrate effective communication skills in written and verbal forms through role-play, group discussion, presentation and report writing; and
- apply information technology skills in delivering multimedia presentation.

##### 3. Thinking Skills

- apply analytical skills to understand the ancient Korean culture and developments of modern Korean;
- understand how historical influences affect current developments in Korean culture; and
- apply problem-solving and creative thinking skills to tackle problems in social and work contexts.

##### 4. People Skills

- demonstrate interpersonal skills and collaboration skills through interaction with fellow students in different contexts;
- respect differences in cultures and backgrounds; and
- apply concepts of group dynamics to enhance communication and teamwork.

##### 5. Values and Attitudes

- respect intellectual property rights when completing assignments; and
- develop self-confidence and a sense of responsibility in language learning.
