

## **Audiobooks on “Learning and Teaching Series on Geography of China” and Geography Online Game Platform for Understanding Our Motherland**

### **Purpose**

This is to inform heads of primary and secondary schools about the details of the captioned audiobooks and online game platform.

### **Details**

2. In response to The Chief Executive’s 2022 Policy Address to strengthen students’ sense of national identity and national pride, the Education Bureau (EDB) has produced four sets of audiobooks (comprise Chinese and English versions for upper primary and junior secondary school students) to enhance students’ understanding of the geography of our country. These four sets of audiobooks cover four different themes, namely (1) Introduction to the Geography of China, (2) Relief of China, (3) Rivers of China, and (4) Climate of China. They are the first batch of the “Learning and Teaching Series on Geography of China”, which contains 11 sets of audiobooks in total.

3. The EDB has also developed Geography Online Game Platform for Understanding Our Motherland to enable students to learn the geography of our country in a relaxing and pleasant atmosphere. The platform contains interactive games designed for upper primary and junior secondary students respectively. It also contains reference materials for students’ prior reading before playing the games.

4. The above-mentioned audiobooks and online platform have been uploaded onto the EDB website listed below for teachers’ reference and use.
