Geminate Flower – Family Ties

創作者自白
Artist's Statement

Family, this word means a lot of things, it included love, forgiveness, patience etc... But my family got a special case.

On my 15 years old birthday, my mum told me that I have a big sister, I wondered, why my sister never appear in my life before, and my mother told me that although she is my sister, we are different in the blood relation. That means my sister is my half-sister, we share the same father but not the same mother. Maybe some people after knowing this news, will feel worried, embarrassed and at a complete loss. But I am not! I feel very happy. It is a feel that can be described as when you have believed in something for a long time, and finally, someone approves you.

Yes! When I was small, I started to find and feel the special reaction in my body. Some people think being an only child is a boring thing, having no sister or brother to play with, but I don't think so, because I think I am not alone, I believed someone is accompanying me. This is so amazing, the combination of a sperm and an egg created me, and the sperm from the same man and the different woman's egg created my sister, although in our blood relation, there are some differences, but sister, I felt it. I can feel it in my life, it's so great! Although, I was excited for a long time, but still, I struggled for a period of time, I was wondering did I snatch away the love which also belongs to my sister. My sister was born without my father besides, when I was playing with my father when I was a child, who could protect my sister? Did my sister know about me? Did my sister hate me? Did she see me as a thief who stole the love of her father from her? It makes me so worried. But then, I was relieved, maybe she got a new father then, her new father may be as strong and tall as my father, her new father may protects her like his own daughter, maybe, she also gets Barbie dolls to play with, maybe she is also good at sport, maybe she is also thinking about me, or maybe she also feels happy to have this kind of relationship as I do. There are so much maybe. But in fact, the only thing I wish is I hope my sister has a good life as I have, and I hope to see her one day.

為着什麼我再努力,成績却一直不理想,

如果是妳,一定不會像我這樣吧!

親愛的樂兒

我今年^天18歲了!

終於變成大人了!

知道妳的存在已經2年,這2年,一有空閒時就在想

何時可與妳相見?

我們相做麼?同父異母的血緣關係會在妳我身上

留下哪樣特別的烙印?

養成寫信給妳的習慣并不長,但是記掛住妳的時

間卻越來越多,不知我們之間那一點的血緣會

將我的情感好好傳遞給妳嗎?

在彼岸的夢中的妳

是否也能感受到見妳的渴望?

我想

- I selected 5 letter from ^{my} diary.

- Each letter is my feeling at that time.

- AND show how I really want to meet my sister in the future.

- Style & TYPE & THEME

He start his own style in around 1990, he use Chinese modern pop art style to present the people's portrait in revolutionary era. He strongly express ~~the~~ that particular period and people's emotion in ^{the time at} that time.

His artwork isn't specific to talk about family, His artwork is talk about the family under the group, the group under the society and the society under the country.

Because of this, Zhang's Art theme always talk about "consanguinity", ~~because~~

To my self

I think "consanguinity" is not only talk about the relationship in a friendly it is also about the society while I looked Zhang xiao gang's artwork. He has a strong social connotation in his work.

- Common things in Zhang's work.

Another artwork of the 'Bloodline - Big Family' series by Zhang Xiao Gang. Due to copyright restriction, no reproduction of the image is provided.

The common thing in Zhang's work is that the people in his work always have a sad face, ~~or~~ they do not smile, just stoned at a point, maybe ~~it is~~ they

are staring at you. The every special things is that some of his work, the people has red ^{face} ~~in their face~~ ^{in color}. This is a kind of expressive method. ~~For sh~~ ~~Red in china tradi~~ ^{Color Red always representing} the relationship between the family or ~~the~~ represent blood.
