

I. Aims of Producing the Addenda Series

This Addenda Series is written according to the Primary Mathematics Curriculum (2000) which will be implemented in 2002. The Addenda Series is to provide teachers with some exemplars on the learning and teaching of Mathematics with the following aims:

1. Enhance the effectiveness of learning and teaching of Mathematics;
2. Support the learning contents of the Curriculum Guide;
3. Raise pupils' learning interest in Mathematics;
4. Develop pupils' understanding and mastering of the basic knowledge in each Dimension;
5. Develop pupils' generic skills in lifelong learning;
6. Cultivate pupils' positive attitude and values in the learning of Mathematics.
