

Development Blueprint for Hong Kong's Tourism Industry

Tourism Commission
Commerce and Economic Development Bureau

October 2017

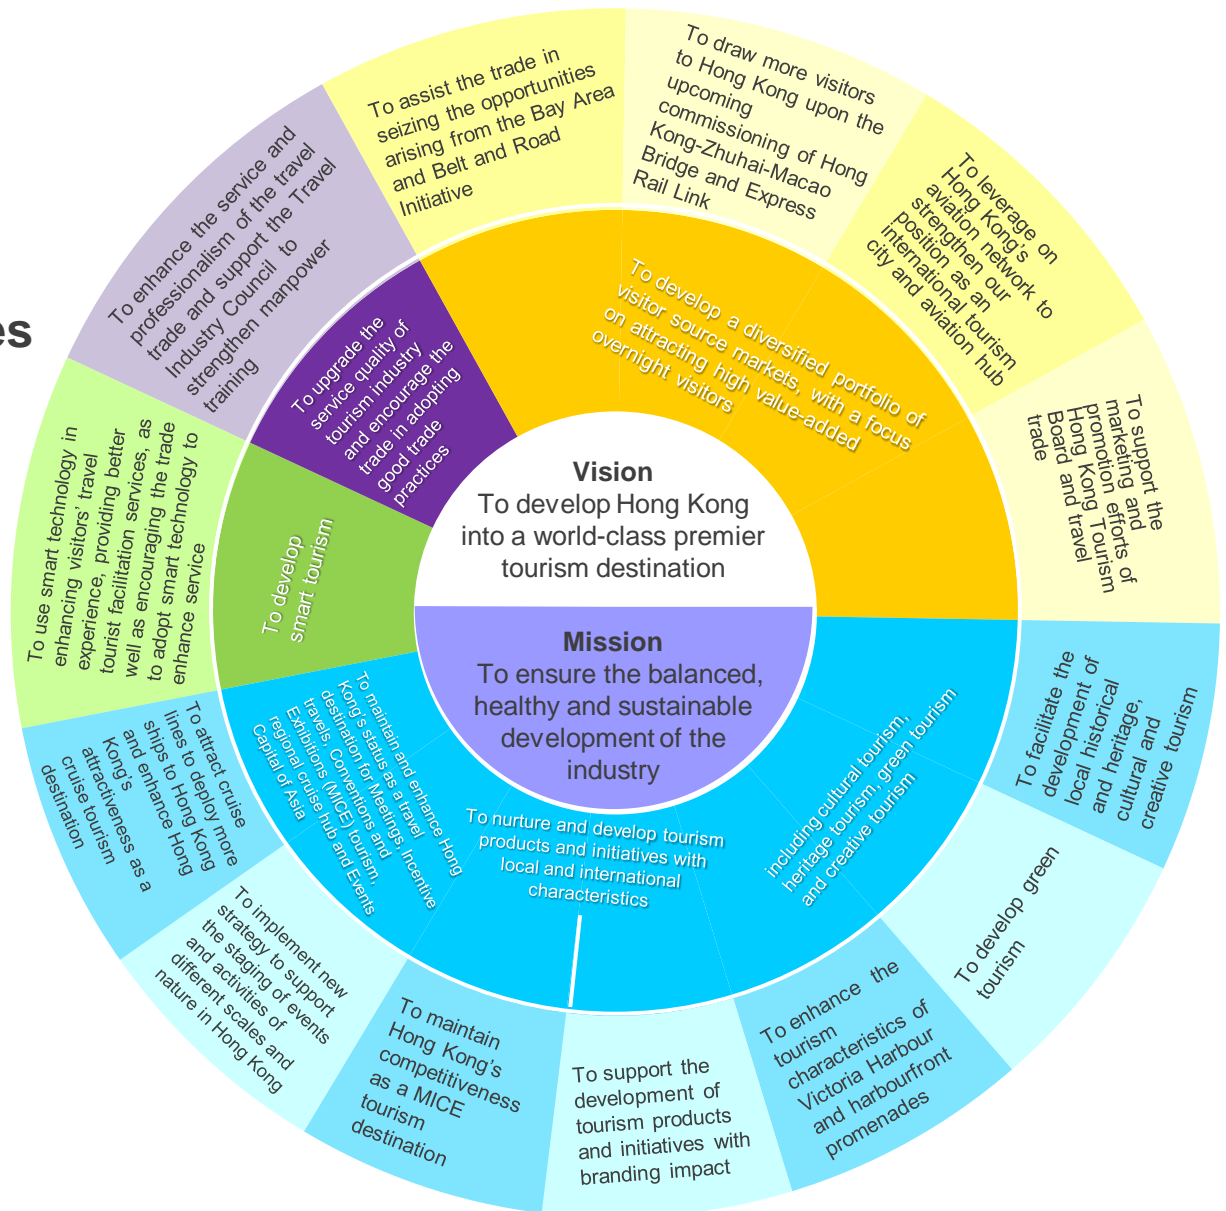

The current-term Government has formulated a Tourism Development Blueprint (the Blueprint) with forward-looking planning on the development of the tourism industry by implementing various short-, medium- to long-term tourism initiatives and measures systematically in the coming five years.

Tourism involves first-hand experiences of the local culture, heritage, attractions, etc., by visitors. It also touches on different complementary arrangements, including transport, accommodation and immigration. Co-ordination efforts across various bureaux and departments are thus necessary. In this connection, the Financial Secretary convened a high-level tourism co-ordinating meeting in early October 2017 to strengthen co-operation and further promote long-term development of tourism industry.

The Blueprint sets out a clear vision and mission for the tourism industry with four development strategies, 13 implementation goals and 72 initiatives. Those initiatives marked in purple therein are formulated through the high-level tourism co-ordinating meeting by strengthening the co-ordination and co-operation among bureaux and departments. The Tourism Commission will work closely with bureaux and departments concerned, with a view to boosting the further development of tourism.

Tourism Industry

- 1** blueprint
- 4** development strategies
- 13** implementation goals
- 72** initiatives

Strategy 1: To develop a diversified portfolio of visitor source markets for Hong Kong, with a focus on attracting high value-added overnight visitors
