Our Mission

To nurture students' proactive use of technologies for social good from a young age, offer equitable access and mainstream computational thinking education in formal curriculum.

Cool/Think@JC >
賽馬會運算思維教育

Why Computational Thinking?

Computional Thinking

- **Coding** is the ability to write programming language that provide step-by-step instructions to computers.
- **Computational thinking** is the **thought process** required to write good codes. It requires learners to think like computer scientists, who can demonstrate abilities such as **logical thinking, problem solving and creativity**.
- **CoolThink@JC** – Computation Thinking Education – empower students to become creators of the digital world.

Program or be
programmed?

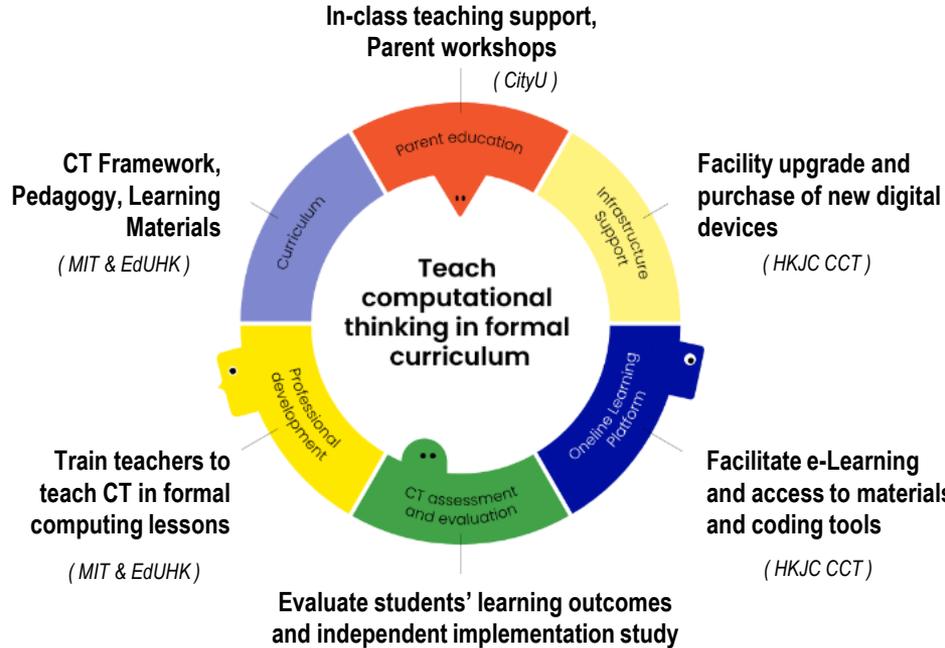

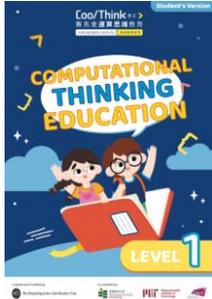

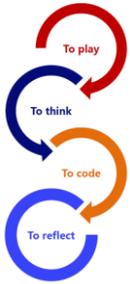

Become **creators**,
not mere consumers of technology.

Inspiring Digital
Creativity

Cool/Think @ JC

1. CoolThink learning materials – advanced units

CoolThink offers Level 2 (for P5) and Level 3 (for P6) learning materials and teacher training course to all primary schools.

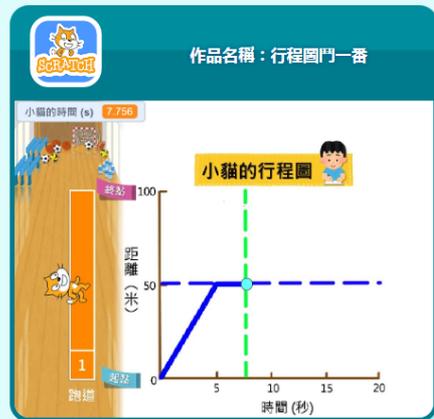

You will get the materials when you attend the training workshops
(provided by EDUHK / MIT HK Innovation Node)

2. School-based customised CT teaching materials for subject learning

Total 9 award-winning Scratch and App Inventor projects, designed and developed by CoolThink teachers.
Include Scratch & App Inventor project source files, lesson plan and worksheet.

Download from here: <https://www.lttc.eduhk.hk/initiatives/ctce/contest/>

Awarded Schools and Projects 得獎學校及作品

Chan Sui Ki (La Salle) Primary School

陳瑞琪 (喇沙) 小學

得獎老師：黃志鴻、王恆、莊樂欣

Download 下載

King's College Old Boys' Association Primary

School No. 2

英皇書院同學會小學第二校

得獎老師：黃茂輝、許文星、胡國柱

Download 下載

Ma Tau Chung Government Primary School

馬頭涌官立小學

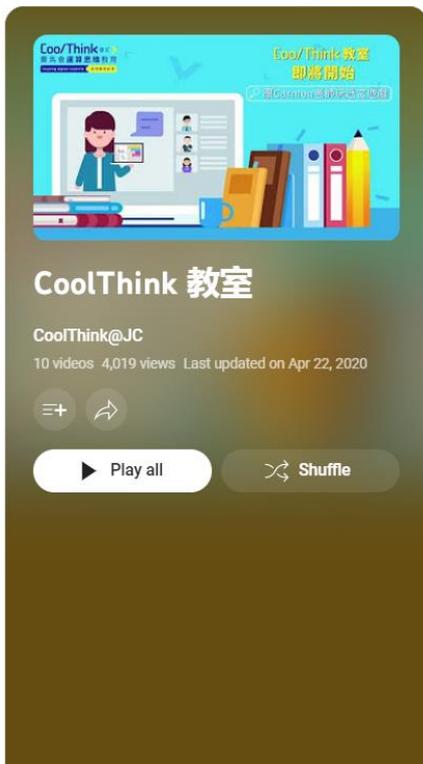

得獎老師：周天宜、趙一鳴

Download 下載

3. CoolThink Classroom – Scratch learning video

Total 10 self-directed learning video for students, presented by CoolThink teachers.

Watch from here: <https://www.youtube.com/playlist?list=PLCcVA2xplO67HPi-GYECvAISmiEtH50G5>

4. Student self-learning video

30-minute interactive student self-learning videos of “動腦動身 Zoom一鬆” online CT learning lessons.

Part 1: <https://www.youtube.com/playlist?list=PLCcVA2xplO661-bGzzhEX3i02Tqaxkpt0>

Part 2: https://www.youtube.com/playlist?list=PLCcVA2xplO6516HV3hZZ1su_QBWOYh5v5

The image shows a YouTube video player interface. At the top, there is a colorful illustration of children and a school building with the text "動腦動身 ZOOM一鬆". Below the illustration, the video title is "「動腦動身Zoom一鬆」 上午班：低年級 | 已剪輯重溫版本". The channel name is "CoolThink@JC" and it shows "35 videos · 4,974 views · Last updated on Apr 26, 2022". At the bottom, there are controls for "Play all" and "Shuffle".

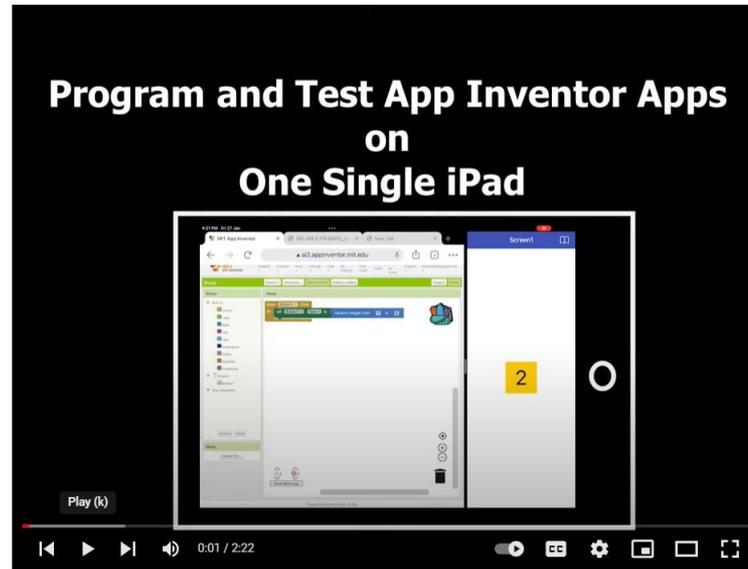

The image shows a YouTube playlist interface with six videos listed. Each video has a thumbnail with the same colorful illustration as the first video, a title, and a duration. The titles are: 1. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月12日 (二) (31:54); 2. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月18日 (一) (28:37); 3. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月19日 (二) (30:38); 4. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月20日 (三) (32:01); 5. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月22日 (五) (31:11); 6. 「動腦動身Zoom一鬆」 上午班：低年級 | 4月21日 (四) (30:27). Each video entry also includes the channel name "CoolThink@JC" and view/viewer information.

5. How to code and test App Inventor on one iOS device?

The 3 minutes video shows you how to use a single iOS device (iPad) to program an app and then test it using the App Inventor companion app.

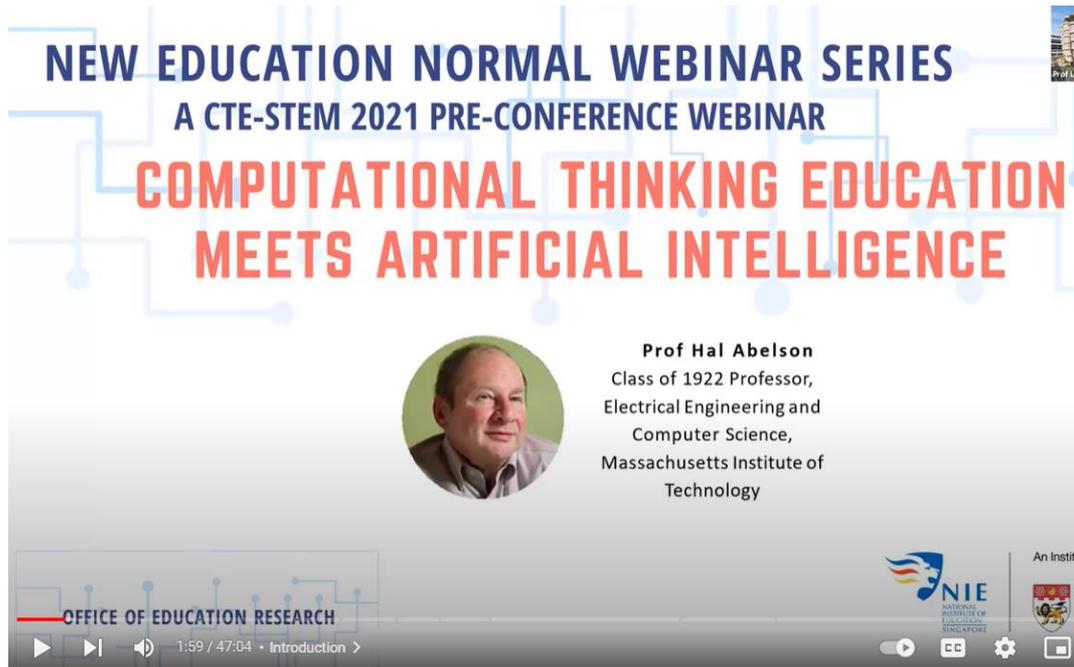

Watch from here: <https://www.youtube.com/playlist?list=PLCcVA2xplO67HPi-GYECvAISmiEtH50G5>

6. Computational thinking education meets artificial intelligence

Prof Hal Abelson from MIT presented in this video about the importance of computational thinking and AI in preparing students for a world increasingly shaped by technology.

8. Evidence-based Evaluation and Report

1

Independent Evaluation Report by SRI

Stanford Research Institute (SRI International) has conducted a rigorous 3-year evaluation of the CoolThink pilot project between 2016 and 2019 and the progress made by its students. The report describes outcomes of the initiative for students, as well as the experiences of teachers and other participants, and offers a set of implications for other stakeholders who wish to build on the pilot's successes and lessons.

[Download Report](#)

2

Seal of Alignment Standard by ISTE

Selected through a rigorous professional review process, CoolThink curriculum has been verified as contributing to the pedagogically robust use of technology for teaching and learning, while meeting the critical elements of standard indicators for students. In particular, we obtained full scores in two of the standards, namely “Computational Thinker” and “Innovative Designer”.

[Download Report](#)

3

Certified by Education Alliance Finland

EAF evaluation reported that CoolThink learning materials represent “high education quality and is proved to promote learning efficiently ... a very comprehensive and progressive program for learning computational thinking and programming ... supports creativity and exploration, yet provides accurately predictable learning outcomes”.
