

Photo Cropping Activity

1. Cut around the outside of the rectangle cropping tool below.
2. Once the outside has been cut out, cut out the inside rectangle to create a hole.

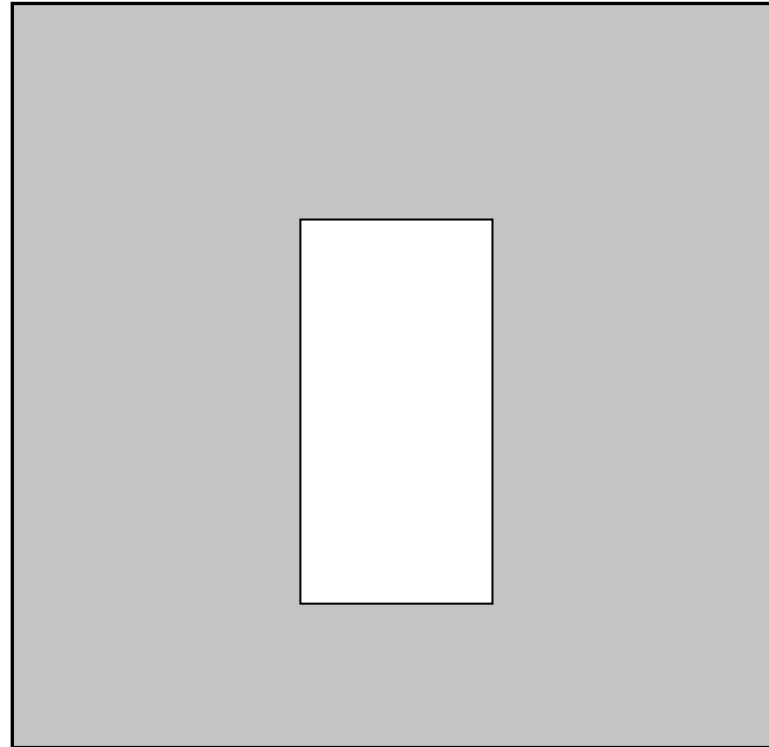

Photo Cropping Activity

3. Use the rectangular cut-out to crop the picture below. Move the square over the image until you have a cropped image you like.
4. Trace around the inside of the square with a pen. There is no right or wrong answer. You may be able to crop the picture in different places. Turn the rectangular cut-out in many different positions to see the possibilities.

5. Now you have made your choices, decide what products your new images could advertise. Write them here.
