

The Third Strategy on Information Technology in Education

Right Technology at the Right Time for the Right Task

Having garnered all the valuable views from different stakeholders on the above named Consultation Document in October 2007, we are glad that all of us are looking forward to seeing how IT can enhance learning and teaching. With **Web 2.0** applications as the driving force, **c-learning** (i.e. collaborative, contributory & creative learning) is on the horizon.

The Third Strategy on IT in Education focuses on the **human factor**, not the technical factor, for the **successful integration of IT into learning & teaching**.

What Next?

Support Measures

School Leaders, Teachers & IT in Education Support Staff

Formulate school-based IT in education development plan

- As an integral part of school's development plan
- Gear to school's needs & development priorities
- Integrate IT into learning & teaching across the curriculum

Maintain effective IT-enriched environment to support learning & teaching

- Sound IT facilities
- In-time technical support
- Ample digital resources

Build up capacity on IT knowledge & skills to enhance learning & teaching

- IT leadership & management
- Technical knowledge
- Cyber ethics
- Design of IT-enhanced student-centred learning activities

- Resource Pack & Planning Tool hosted in HKEdCity
- Good Practices on IT in Education
- e-Leadership Development

- Special One-off IT Grant
- CITG with expanded provision & relaxed usage
- HKEdCity - Teacher Net
- Central Technical Support Team

- Continuous Professional Development
- IT-enhanced Teaching Resources on Chinese, English, Mathematics & General Studies / Science (P1 to S3)

Students

Become information literate to fit into the e-World

- IT knowledge & skills
- Competent in all information literacy areas
- Cyber ethics
- Enjoyable student-centred learning

- Information Literacy Learning & Assessment Resources
- Computer Recycling Programme
- HKEdCity - Students' Channel

Parents

Be empowered with information literacy & become confident to facilitate children's e-learning at home

- IT knowledge & skills
- Cyber ethics
- Home-facilitator of children's learning

- Programmes & Resources provided by Non-Governmental Organisations & IT Industries
- Computer Recycling Programme
- HKEdCity - Parents' Channel

School Leaders

Integrate IT into learning & teaching across the curriculum

Gear to school's needs & priorities

School-based IT in Education Development Plan

Conduct comprehensive self-review

Deploy resources strategically

Work collaboratively with stakeholders
