

Title of School-based Support Service (Learning Community) (2024/25):

Learning Community for STEAM Education: Strengthening the Learning Elements of Innovation and Technology (e.g. Artificial Intelligence)

**Online Application
Code**

S6

1. Objectives

This support service aims to:

- promote cross-school professional exchanges for curriculum leaders (e.g. STEAM Coordinators) to jointly discuss the concerns and corresponding strategies for implementing STEAM education to nurture students' creative thinking, entrepreneurial spirit, and media and information literacy

2. Foci of Support

- To refine the planning, implementation, and evaluation of STEAM education in schools
- To strengthen the instructional design of STEAM learning activities within and beyond the classroom.
- To enhance the connections between learning activities of STEAM education, enabling students to develop creative thinking and entrepreneurial spirit in a progressive manner
- To incorporate more innovation and technology (e.g. artificial intelligence) learning elements into STEAM education, promoting students' interest in innovation and technology and nurturing their media and information literacy
