1. Objectives

The support service aims to:

- facilitate enhancement of schools' curriculum planning in alignment with the aims and objectives of the central curriculum, and adopt effective learning and teaching strategies to help students understand the situations and development of Hong Kong, the country and the contemporary world, develop critical, rational and independent thinking skills, foster a sense of national identity and broaden global perspective, and understand the roles and interplay among individuals, society, the country and the world

2. Foci of Support

- To enhance curriculum planning, select and adapt learning and teaching resources, and flexibly adopt diversified learning and teaching strategies, taking into consideration the different learning needs of students
- To arrange appropriate learning activities within and beyond the classroom in the light of the nature of the topics so that students can construct a broad knowledge base, develop competencies related to lifelong learning and cultivate positive values and attitudes
- To develop assessment strategies that enhance students' learning interest, consolidate and extend learning, and to make good use of assessment information and data to inform learning and teaching
- To establish a learning community in school and promote the culture of sharing and exchange among teachers
