(3) Q Is the applicant required to rank all districts in order of preference?

- A The applicant has to note that incomplete applications that do not rank 18 districts will not be processed. The applicant should indicate the order of preference for each district on the application form. Please list your residential district as the first preference (i.e. choice order 1), followed by the remaining 17 districts in order of your preference, assigning the choice orders 2 to 18.

If the applicants encounter difficulties in ranking the districts, they may consider the following factors:

- Proximity of their residential district to other districts – A map of Hong Kong is provided in the "Points to Note for Parents/Guardians/Authorised Persons" for reference

- Transportation convenience between their residential district and other districts –QR codes linking to the “HKeMobility” webpage are included in the "Points to Note for Parents/Guardians/Authorised Persons". This webpage contains a dedicated section on cross-boundary transportation

(4) Q If there are no public sector secondary school places available in the student applicant’s residential district, how the student applicant is placed with a school place?

A If there are no public sector secondary school places available in the student applicant’s residential district, EDB will consider the order of preference of other districts as stipulated in the application form to place the student applicant in a public sector secondary school in other districts. Whether the student applicant allocated to a public sector secondary school in a nearby district depends on the availability of S1 places in the school in the district(s) concerned.

(5) Q If the student applicant resides in Shenzhen, which residential district should be chosen?

A For student applicants residing in Shenzhen, please fill in any one of the districts: North, Yuen Long, Tuen Mun or Island as the school net based on the immigration control point of Hong Kong / port points of Mainland China or Macao through which the applicant will travel to school in future. For details, please refer to “Points to Note for Parents / Guardians / Authorised Persons for Application for a Subsidised Secondary One Place in the 2026/27 School Year”.

(6) Q Besides the public sector secondary schools, can student applicant apply for Direct Subsidy Scheme secondary schools? How the student applicant is placed with a school place?

A If you would also consider DSS secondary schools for the student applicant, please indicate the choice of DSS secondary school(s) in item 12 of the application form . Placement to public sector secondary schools in the student applicant’s residential district will be arranged first. If these school places are not available, the student applicant’s choices for DSS secondary schools will then be considered. If the DSS schools the student applicant chosen have no school places available, placement of the student applicant to a public sector secondary school in other districts with vacant school places will then be arranged according to the order of preference for each district as stipulated in the application form.

(7) Q Can any amendments be made after the submission of application?

A If you wish to make any amendments to the personal information of the student applicant you have provided in the Application Form (e.g. amend student applicant’s name so as to align with that shown on the renewed identity document) after submission, you should inform the School Places Allocation (SPA) Section at least five working days prior to the date of collection of the A/A Slips for the timely update.
