Synopsis 故事大綱:

Waking in a cell surrounded by a group of people who do not seem to understand the gravity of their situation was not how Lilith had planned her day. The day turns weirder when she is brought before the “Master of Dark”, who is talking about crimes she has committed against her family and friends, by elves, who are talking about eating her up.

As she stands for her trial, she is shown what her crimes might be, and she starts to lose confidence in herself being innocent. Just then, a friendship seems to be forming between her and another cellmate who might have the key to her freedom or perhaps the lock.
