4 June 2004

Dear Principal,

Central notification system for infectious diseases

We wish to inform you that with effect from 1 June 2004, the communicable disease control function of the four Regional Offices (Hong Kong, Kowloon, New Territories East, New Territories West) of the Department of Health are reorganized together with the Disease Prevention and Control Division to form the Surveillance and Epidemiology Branch (SEB) under the Centre for Health Protection (CHP). The address of the Communicable Disease Division of SEB is 2/F, 147C Argyle Street, Kowloon.

The SEB operates a central notification office to receive reports on all notifiable infectious diseases, rare infectious diseases of public health significance, or outbreaks. The contact details of the central notification office are:

Tel: 24 772 772

Fax: 24 772 770.

The SEB central notification office operates during usual office hours. We hope this centralized notification system will make it easier to report disease outbreaks. In the meantime, the previous telephone and fax numbers of the four Regional Offices will be directed to the SEB.

For enquires related to this letter, please 2768 9768 or 2768 9668.

Yours sincerely,

(Mr Raymond LAM)

Manager (Surveillance and Epidemiology Branch)
