

Calculation of CEG

CEG will be released to schools in accordance with a schedule of rates, which will be adjusted along with the movement of the Composite Consumer Price Index (CCPI) annually.

In addition, schools are also requested to note the following:

1. Intensive Remedial Teaching Programmes in primary schools are not counted in the calculation of CEG.
2. For an aided bi-sessional primary school with a total of 25 ordinary classes or more, each session is considered as a separate school for the calculation of CEG.
3. For an ordinary school that operates both primary and secondary sections/classes, the rates for primary schools will apply, and the number of eligible classes will be the total number of primary and secondary classes in operation.
4. For DSS schools, the amount of the grant will be calculated according to the approved formula.
5. Caput schools and IP schools for NAC will receive the same rates of CEG as aided and government schools.
