

Personnel Management

Key Message

The Incorporated Management Committee (IMC) is responsible for the management of a professional team of teaching and non-teaching staff in school. In all circumstances, the IMC is required to adopt an open, fair and competitive appointment system, and to uphold the principles of meritocracy, natural justice, equal opportunity and fairness in handling all personnel and staff-related matters. The IMC must ensure the compliance of relevant requirements of the Education Ordinance and Regulations, Employment Ordinance and employment-related ordinances, and relevant provisions in the Code of Aid for Aided Schools (COA), including instructions the Education Bureau may issue from time to time.

Points to Note

The following personnel issues of regular staff under the approved staff establishment can be approved by the IMC and prior approval from the Permanent Secretary for Education is no longer required.

and
