

Second School Allocation Exercise 2020 invites applications for allocation of one primary school premises and two secondary school premises in two districts for reprovisioning use

The Education Bureau (EDB) announced today (June 3) that in the Second School Allocation Exercise (SAE) 2020, a new primary school premises under planning in Sai Kung District, and two new secondary school premises under planning in Sai Kung and Kwun Tong Districts are open for application by eligible school sponsoring bodies (SSBs) for reprovisioning of existing aided and Direct Subsidy Scheme (DSS) primary / secondary schools.

The new primary school premises under planning is located at Site E-2, Development of Anderson Road Quarry (ARQ) Site, Sai Kung; while the new secondary school premises under planning are located at Site E-3, Development of ARQ Site, Sai Kung and Wang Chiu Road, Kwun Tong. Details of the three premises are set out at the Annex.

“Infrastructure improvements to existing schools built to previous planning standards and designs may be infeasible due to the lack of space and other physical constraints. In this light, the EDB has identified a primary school premises under planning in Sai Kung District, and two secondary school premises under planning in Sai Kung and Kwun Tong Districts for allocation for reprovisioning of existing primary / secondary schools. This exercise is open to applications by existing aided and DSS primary / secondary schools which are in need of infrastructure upgrade,” an EDB spokesman said.

“Allocation of the school premises will be conducted on a competitive basis. Quality of education will be the prime consideration in assessing the applications. Factors to be considered include the operation track record of the school proposed to be reprovisioned, the quality of the school plan after reprovisioning and the physical condition of the school’s existing premises. In general, we believe that schools with a site area of less than 3 000 square metres and premises over 30 years old which have not benefited or have only marginally benefited from the School Improvement Programme would warrant our serious consideration. However, this is not a prerequisite for the submission of applications. Each case has to be assessed on its own merits.”

“In line with the established arrangement for reprovisioning, the successful SSB will be required, upon allocation of the new premises for reprovisioning, to return its existing school premises. For those schools currently located within a private lot under the ownership of the SSB, the school or a third party related to the SSB/school, the relevant private land owner will be required to surrender the existing school premises and site to the Government,” he added.

All applications will be considered by the School Allocation Committee comprising official and non-official members. SSBs are required to complete an application form and submit it together with the required supporting documents, a proposed school plan (of not more than 10 pages including all annexes plus a two-page executive summary) and a list of operating school(s). The proposed school plan should cover the vision and mission, management and organisation, learning and teaching, school ethos and support for students, students’ performance targets, self-evaluation indicators, etc. The SSB may also make reference to the school(s) that it is operating and their respective performance to substantiate its case.

In line with the EDB’s established policy for school allocation, when submitting the application, the SSB should be exempt from tax under Section 88 of the Inland Revenue Ordinance, and be:

- (1) incorporated under the Companies Ordinance, (the successful SSB would be required to ensure that its articles of association contain all the standard clauses and articles required for allocation of a school premises);
or
- (2) incorporated under other ordinances, with its constitution satisfying the Permanent Secretary for Education as being fit to be considered for allocation of a school premises.

In addition, the SSB must be running one or more aided or DSS primary schools (for application for reprovisioning of primary school(s)) / secondary schools (for application for reprovisioning of secondary school(s)) in Hong Kong and must be the registered SSB of the applicant school.

The application form for the Second SAE 2020 and other reference materials can be downloaded from the EDB homepage

(www.edb.gov.hk/en/sch-admin/sch-premises-info/allocation-of-sch/index.html). More information on this SAE can also be found on the homepage.

The duly completed application form and supporting documents, together with 22 copies of the proposed school plan with executive summary and list of operating schools, if any, should reach the Infrastructure and Research Support Division of the EDB (6th Floor, East Wing, Central Government Offices, 2 Tim Mei Avenue, Tamar, Hong Kong) by 5pm on July 15, 2020. Late or incomplete applications, as well as applications via email, will not be processed.

For enquiries, please call 3509 8413 or 3509 8411.

End /Wednesday, June 3, 2020

Premises Information – Second School Allocation Exercise 2020

New Primary School Premises under Planning

Item No.	District	School Premises (Location)	No. of Classrooms / (Approximate Site Area)	Expected Earliest Completion Date
PS1	Sai Kung [^]	Site E-2, Development of Anderson Road Quarry Site	30 classrooms (7,000m ² (including slopes))	2025 (tentative)

New Secondary School Premises under Planning

Item No.	District	School Premises (Location)	No. of Classrooms / (Approximate Site Area)	Expected Earliest Completion Date
SS1	Sai Kung [^]	Site E-3, Development of Anderson Road Quarry Site	30 classrooms (8,100 m ² (including slopes))	2025 (tentative)
SS2	Kwun Tong	Wang Chiu Road	30 classrooms (7,000 m ²)	2025 (tentative)

Note:

1. The school premises will adopt various forms of energy efficient features, renewable energy technologies and green features wherever practicable.
2. The implementation of the school building project and availability date of school premises are subject to various factors including, inter alia, public consultation, funding approval of the Finance Committee of the Legislative Council, construction progress and changes in the demand and supply of school places during the planning process.
3. The successful applicant body shall agree to manage and maintain the school premises and the designated areas stipulated in the Engineering Conditions of the Permanent Government Land Allocation. The designated areas may include slopes abutting the school premises, subject to the Lands Department's final decision on the Engineering Conditions.

[^]District of the new primary / secondary school premises under planning is based on the existing district boundary.
