

Administrative Arrangements for the School-Based Support Scheme (SBSS) Grant

I. Use of the SBSS Grant

1. It is important for schools to maintain a balanced use of the SBSS Grant and to ensure that children newly arrived from the Mainland, NCS children newly joining the local education system and returnee children with adjustment needs have the opportunity to benefit from the support services.

2. Schools are requested to spend:

(a) no less than 50% of the total amount of the SBSS Grant on helping:

- (i) children newly arrived from the Mainland in learning English; and
- (ii) NCS children and returnee children in learning Chinese and/ or English.

(b) no less than 30% of the total amount of the SBSS Grant on helping children newly arrived from the Mainland, NCS children newly joining the local education system or returnee children, on personal development and social adaptation.

3. Please also ensure that the services are provided as soon as the students are admitted into the school. The following suggestions are not exhaustive:

(a) Conducting supplementary lessons

- (i) Schools may arrange non-fee-charging supplementary lessons for children newly arrived from the Mainland, NCS children newly joining the local education system and returnee children outside normal school hours.
- (ii) These supplementary lessons should be conducted by qualified teachers (e.g., holder of a teacher's certificate/ a local degree or equivalent). The pay rates are to be decided by schools which may make reference to the current market rates or the daily rates of pay for supply teachers in public sector schools, adjusted to an hourly basis.
- (iii) The breakdown of the rate of remuneration and the number of working hours for each part-time teacher should be reflected in the income and expenditure of the SBSS Grant Account.
- (iv) Schools are required to keep relevant records of such supplementary classes (e.g. attendance registers) for monitoring purposes.

(b) Organising orientation/ guidance programmes/ extra-curricular activities/ visits, etc.

(c) Any other expenditure (except food and drinks) incurred from providing support services to meet the needs of children newly arrived from the Mainland, NCS children newly joining the local education system and returnee children.

4. On the procurement of services and appointment of staff using the SBSS Grant, schools are required to comply strictly with relevant rules, regulations and statutory requirements in force, to avoid any conflict of interests. In this connection, schools may refer to the following prevailing EDB circulars:

Acceptance of Advantages and Donations by Schools and their Staff
Procurement Procedures in Aided Schools
Appointment of Staff in Schools

II. Accounting Arrangements

School should comply with the following accounting arrangements:

Government Schools

1. ***Accounting arrangement:*** Government schools should charge the expenditure to the user code assigned for “School-Based Support Scheme Grant-NAC”. Acquisition of goods or services, payment of invoices and reimbursement of expenses disbursed by officers should be dealt with in accordance with the existing Stores and Procurement Regulations, Financial and Accounting regulations, Standing Accounting Instructions and other relevant government-wide/ departmental circulars and rules issued from time to time. For employment of staff under the SBSS Grant, they should comply with the Bureau’s rules and regulations relating to hire of services and appointment of non-civil service contract staff. In respect of the latter, they should note the statutory duties of the Bureau as an employer under the Mandatory Provident Fund Schemes Ordinance (Cap. 485), and follow the Bureau's procedures for enrolment of relevant employees into the Mandatory Provident Fund Scheme.
2. ***Domains of Expanded SCBG:*** Under the Expanded Subject and Curriculum Block Grant (Expanded SCBG), the SBSS Grant has been classified as one of the school-specific grants which is of special nature and only applicable to selected schools with special circumstances.
3. ***Surplus retention:*** It is a constituent grant in the Expanded SCBG. Government schools are allowed to accumulate a surplus of up to 12 months’ provision of the Expanded SCBG as a whole for the year in which the grants are provided. Accumulated surplus balance in the Expanded SCBG in excess of 12 months’ provision of the prevailing level of the Expanded SCBG will lapse.
4. ***Deficit:*** No deficit should be allowed.
5. ***Release of the SBSS Grant:*** Allocation/adjustment of the SBSS Grant covering the first seven months’ provision (September to March) will be made in January of each school year and the provision for the remaining five months will be released in April of the same school year.

Aided Schools/ Caput Schools/ DSS Schools

1. ***Accounting arrangement:*** All aided schools, caput schools and DSS schools should note that they are required to keep a separate ledger account named “School-Based Support Scheme Grant Account” to properly reflect all the income and breakdown of expenditure chargeable to it. Schools are reminded to follow the relevant rules and regulations on procurement procedures as stipulated in EDB Circular No. 4/2013. When the SBSS Grant is used by schools for employment of staff, expenditures like contribution to provident fund and any other statutory benefits conferred by the Employment Ordinance should be met by the SBSS Grant. A proposed statement of the said account will be promulgated later for aided, caput and DSS schools in the relevant circular memorandum/ letter calling for the submission of the audited annual accounts. DSS schools should submit the statement of the said account to the Management Accounts Section of EDB, while aided and caput schools should submit it to the School Audit Section in accordance with the format to be promulgated in the relevant circular memorandum/letter.

2. **Surplus retention:** For aided schools without an incorporated management committee (IMC), the SBSS Grant is included as one of the constituent grants under the Special Domain of the Operating Expenses Block Grant (OEBG). They must use the funds for the SBSS Grant for its specified purpose. The SBSS Grant is included as one of the constituent grants under the Expanded Operating Expenses Block Grant (EOEBG) for aided schools with an IMC. Accumulated surplus balance in the OEBG/ EOEBG (excluding the funds set aside as outstanding commitment for the payment of Severance Payment/ Long Service Payment for staff) in excess of 12 months' provision of the prevailing level of the OEBG/ EOEBG will be subject to claw back. They are requested to observe the details in the EDB Circular Memorandum No.122/2020. For caput schools/ DSS schools, although the OEBG is not applicable to these schools, the surplus retention ceiling for the SBSS Grant will also be 12 months of its provision and will be subject to claw back to be in line with aided schools
3. **Deficit:** For aided schools without an IMC, deficit may be topped up with surpluses from the General Domain of OEBG. For aided schools with an IMC, schools should ensure that the total spending should be kept within the amount of provision of EOEBG and avoid deficits as far as possible. Any deficits arising in OEBG/ EOEBG should be borne by the school's own funds. Schools should follow the arrangement for handling deficit as stated in EDB Circular Memorandum No.122/2020. For caput/ DSS schools, deficit should be absorbed by schools' private funds and it should not be charged to the government subsidy.
4. **Release of the SBSS Grant:** For aided schools without an IMC, caput/ DSS schools, payment/ adjustment of the SBSS Grant will be made in January of each school year. Aided schools with an IMC should note that the SBSS Grant is one of the school specific grants under the EOEBG which will normally be released to schools on a quarterly basis in September, November, February and May. As it is impractical to determine the amount of the SBSS Grant before January of each year, 75% of the annual provision of the SBSS Grant will be released to those aided schools entitled to receive EOEBG in February of each school year. The remaining 25% will be released in May of the same school year. Adjustments of the SBSS Grant relating to previous school year(s) will be fully made to these schools in February of each school year.

III. Reporting

Schools should report the effectiveness of using the SBSS Grant to improve the learning and adaptation of NAC in the school annual report.

IV. Reference

The Efficiency Office (EffO) of the Government has published the "Guide to Corporate Governance for Subvented Organisations" (Second Edition) (the Guide). Schools can make reference to the Guide to map out effective governance practices to ensure proper use of public resources. The Guide can be downloaded from the EffO's website (<https://www.effo.gov.hk/en/reference/publication.html>).
