

The Importance of Play

Promote children's skills in

1

Cognitive and
language
development

2

Moral
development

3

Affection and social
abilities development

4

Physical
development

5

Aesthetic
development

Through daily life and play, guide young children
to develop sound values, such as:

Learning from failure and having
the courage to try again

Appreciating others' efforts,
contributions, and creations

Considering others'
perspectives to find solutions
to problems

Parent's supporting strategies

Fostering children's creative thinking skills in problem solving

Curiosity

Identify problems

Persistence

Keep exploring solutions with repeated trials

Flexibility

- Alter the usage/discover new usage of things
- Find the optimal solutions based on conditions

Reflection

- Review plans/arrangements continuously
- Compare/evaluate own plan with those of others

Collaboration

- Apply communication skills
- Understand other's needs
- Reach consensus
