- 1. School fee represents the proposed school fee per pupil per annum (pppa) for the 2025/26 school year and the total school fee is the gross school fee for the year. The total school fee should match with the amount in the income and expenditure statement.
- 2. If a DSS school charges a school fee between 2/3 and 2-1/3 of the DSS unit subsidy rate, then for every additional dollar charged over and above 2/3 of the DSS unit subsidy rate, the school should set aside 50 cents or 10% of school fee for the year, whichever is the greater, for the fee remission and scholarship scheme.
- 3. The amount required to be set aside for fee remission and scholarship scheme has to be calculated by class level.
- 4. The school should also set aside an amount from school fee income from <u>non-local students</u> for the fee remission and scholarship scheme. The calculation method stated in Note 2 should be followed. Please note that when different fee levels are set for non-local students not eligible for DSS subsidy, the <u>calculation of provision for fee</u> remission and scholarship scheme should be provided in a separate row.

### **Other Points to Note**

- Students not eligible for DSS subsidy
  - Non-local students (except those specified in EDBC No. 18/2024)
- 2023/24 audited accounts (called by EDB on 30.8.2024) Deadline for submission: 31.3.2025
- Late submission will lead to late processing of fee revision application.
